**(1)** that specifies which, if any, policy changes recommended by the Inspector General under this section the Administrator intends to adopt and implement;

**(2)** that includes an explanation of how the Administrator plans to adopt and implement such policy changes; and

**(3)** in any case in which the Administrator does not intend to adopt a policy change recommended by the Inspector General, that includes an explanation of the reasons for the decision not to adopt and implement the policy change.

**SEC. 9. FLIGHT CREWMEMBER MENTORING, PROFESSIONAL DEVELOPMENT, AND LEADERSHIP.****(a) RULEMAKING PROCEEDING.—**

**(1) IN GENERAL.—**The Administrator of the Federal Aviation Administration shall conduct a rulemaking proceeding to require each part 121 air carrier to take the following actions:

**(A)** Establish flight crewmember mentoring programs under which the air carrier will pair highly experienced flight crewmembers who will serve as mentor pilots and be paired with newly employed flight crewmembers. Mentor pilots shall receive, at a minimum, specific instruction on techniques for instilling and reinforcing the highest standards of technical performance, airmanship, and professionalism in newly employed flight crewmembers.

**(B)** Establish flight crewmember professional development committees made up of air carrier management and labor union or professional association representatives to develop, administer, and oversee formal mentoring programs of the carrier to assist flight crewmembers to reach their maximum potential as safe, seasoned, and proficient flight crewmembers.

**(C)** Establish or modify training programs to accommodate substantially different levels and types of flight experience by newly employed flight crewmembers.

**(D)** Establish or modify training programs for second-in-command flight crewmembers attempting to qualify as pilot-in-command flight crewmembers for the first time in a specific aircraft type and ensure that such programs include leadership and command training.

(E) Ensure that recurrent training for pilots in command includes leadership and command training.

(F) Such other actions as the Administrator determines appropriate to enhance flight crewmember professional development.

(2) COMPLIANCE WITH STERILE COCKPIT RULE.—Leadership and command training described in paragraphs (1)(D) and (1)(E) shall include instruction on compliance with flight crewmember duties under part 121.542 of title 14, Code of Federal Regulations.

(3) STREAMLINED PROGRAM REVIEW.—

(A) IN GENERAL.—As part of the rulemaking required by subsection (a), the Administrator shall establish a streamlined process for part 121 air carriers that have in effect, as of the date of enactment of this Act, the programs required by paragraph (1).

(B) EXPEDITED APPROVALS.—Under the streamlined process, the Administrator shall—

(i) review the programs of such part 121 air carriers to determine whether the programs meet the requirements set forth in the final rule referred to in subsection (b)(2); and

(ii) expedite the approval of the programs that the Administrator determines meet such requirements.

(b) DEADLINES.—The Administrator shall issue—

(1) not later than 180 days after the date of enactment of this Act, a notice of proposed rulemaking under subsection (a); and

(2) not later than 24 months after such date of enactment, a final rule under subsection (a).

#### SEC. 10. FLIGHT CREWMEMBER SCREENING AND QUALIFICATIONS.

(a) REQUIREMENTS.—

(1) RULEMAKING PROCEEDING.—The Administrator of the Federal Aviation Administration shall conduct a rulemaking proceeding to require part 121 air carriers to develop and implement means and methods for ensuring that flight crewmembers have proper qualifications and experience.

(2) MINIMUM REQUIREMENTS.—

(A) PROSPECTIVE FLIGHT CREWMEMBERS.—Rules issued under paragraph (1) shall ensure that prospective flight crewmembers undergo comprehensive pre-employment screening, including an assessment of the skills, aptitudes, airmanship, and suitability of each applicant for a position as a flight crewmember in terms of functioning effectively in the air carrier's operational environment.

(B) ALL FLIGHT CREWMEMBERS.—Rules issued under paragraph (1) shall ensure that, after the date that is 3 years after the date of enactment of this Act, all flight crewmembers—

(i) have obtained an airline transport pilot certificate under part 61 of title 14, Code of Federal Regulations; and

(ii) have appropriate multi-engine aircraft flight experience, as determined by the Administrator.

(b) DEADLINES.—The Administrator shall issue—

(1) not later than 180 days after the date of enactment of this Act, a notice of proposed rulemaking under subsection (a); and

(2) not later than 24 months after such date of enactment, a final rule under subsection (a).

#### SEC. 11. AIRLINE TRANSPORT PILOT CERTIFICATION.

(a) RULEMAKING PROCEEDING.—The Administrator of the Federal Aviation Administration shall conduct a rulemaking proceeding to amend part 61 of title 14, Code of Federal Regulations, to modify requirements for the

issuance of an airline transport pilot certificate.

(b) MINIMUM REQUIREMENTS.—To be qualified to receive an airline transport pilot certificate pursuant to subsection (a), an individual shall—

(1) have sufficient flight hours, as determined by the Administrator, to enable a pilot to function effectively in an air carrier operational environment; and

(2) have received flight training, academic training, or operational experience that will prepare a pilot, at a minimum, to—

(A) function effectively in a multipilot environment;

(B) function effectively in adverse weather conditions, including icing conditions;

(C) function effectively during high altitude operations;

(D) adhere to the highest professional standards; and

(E) function effectively in an air carrier operational environment.

(c) FLIGHT HOURS.—

(1) NUMBERS OF FLIGHT HOURS.—The total flight hours required by the Administrator under subsection (b)(1) shall be at least 1,500 flight hours.

(2) FLIGHT HOURS IN DIFFICULT OPERATIONAL CONDITIONS.—The total flight hours required by the Administrator under subsection (b)(1) shall include sufficient flight hours, as determined by the Administrator, in difficult operational conditions that may be encountered by an air carrier to enable a pilot to operate safely in such conditions.

(d) CREDIT TOWARD FLIGHT HOURS.—The Administrator may allow specific academic training courses, beyond those required under subsection (b)(2), to be credited toward the total flight hours required under subsection (c). The Administrator may allow such credit based on a determination by the Administrator that allowing a pilot to take specific academic training courses will enhance safety more than requiring the pilot to fully comply with the flight hours requirement.

(e) RECOMMENDATIONS OF EXPERT PANEL.—In conducting the rulemaking proceeding under this section, the Administrator shall review and consider the assessment and recommendations of the expert panel to review part 121 and part 135 training hours established by section 7(b) of this Act.

(f) DEADLINE.—Not later than 36 months after the date of enactment of this Act, the Administrator shall issue a final rule under subsection (a).

#### SEC. 12. FLIGHT SCHOOLS, FLIGHT EDUCATION, AND PILOT ACADEMIC TRAINING.

(a) GAO STUDY.—The Comptroller General shall conduct a comprehensive study of flight schools, flight education, and academic training requirements for certification of an individual as a pilot.

(b) MINIMUM CONTENTS OF STUDY.—The study shall include, at a minimum—

(1) an assessment of the Federal Aviation Administration's oversight of flight schools;

(2) an assessment of the Administration's academic training requirements in effect on the date of enactment of this Act as compared to flight education provided to a pilot by accredited 2- and 4-year universities;

(3) an assessment of the quality of pilots entering the part 121 air carrier workforce from all sources after receiving training from flight training providers, including Aviation Accreditation Board International, universities, pilot training organizations, and the military, utilizing the training records of part 121 air carriers, including consideration of any relationships between flight training providers and air carriers;

(4) a comparison of the academic training requirements for pilots in the United States to the academic training requirements for pilots in other countries;

(5) a determination and description of any improvements that may be needed in the Administration's academic training requirements for pilots;

(6) an assessment of student financial aid and loan options available to individuals interested in enrolling at a flight school for both academic and flight hour training;

(7) an assessment of the Federal Aviation Administration's oversight of general aviation flight schools that offer or would like to offer training programs under part 142 of title 14, Code of Federal Regulations; and

(8) an assessment of whether compliance with the English speaking requirements applicable to pilots under part 61 of such title is adequately tested and enforced.

(c) REPORT.—Not later than 120 days after the date of enactment of this Act, the Comptroller General shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

#### SEC. 13. VOLUNTARY SAFETY PROGRAMS.

(a) REPORT.—Not later than 180 days after the date of enactment of this Act, the Administrator of the Federal Aviation Administration shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science and Transportation of the Senate a report on the aviation safety action program, the flight operational quality assurance program, the line operations safety audit, and the advanced qualification program.

(b) CONTENTS.—The report shall include—

(1) a list of—

(A) which air carriers are using one or more of the voluntary safety programs referred to in subsection (a); and

(B) the voluntary safety programs each air carrier is using;

(2) if an air carrier is not using one or more of the voluntary safety programs—

(A) a list of such programs the carrier is not using; and

(B) the reasons the carrier is not using each such program;

(3) if an air carrier is using one or more of the voluntary safety programs, an explanation of the benefits and challenges of using each such program;

(4) a detailed analysis of how the Administration is using data derived from each of the voluntary safety programs as safety analysis and accident or incident prevention tools and a detailed plan on how the Administration intends to expand data analysis of such programs;

(5) an explanation of—

(A) where the data derived from such programs is stored;

(B) how the data derived from such programs is protected and secured; and

(C) what data analysis processes air carriers are implementing to ensure the effective use of the data derived from such programs;

(6) a description of the extent to which aviation safety inspectors are able to review data derived from such programs to enhance their oversight responsibilities;

(7) a description of how the Administration plans to incorporate operational trends identified under such programs into the air transport oversight system and other surveillance databases so that such system and databases are more effectively utilized;

(8) other plans to strengthen such programs, taking into account reviews of such programs by the Inspector General of the Department of Transportation; and

(9) such other matters as the Administrator determines are appropriate.

#### SEC. 14. ASAP AND FOQA IMPLEMENTATION PLAN.

(a) DEVELOPMENT AND IMPLEMENTATION PLAN.—The Administrator of the Federal Aviation Administration shall develop and implement a plan to facilitate the establishment of an aviation safety action program and a flight operational quality assurance program by all part 121 air carriers.

(b) MATTERS TO BE CONSIDERED.—In developing the plan under subsection (a), the Administrator shall consider—

(1) how the Administration can assist part 121 air carriers with smaller fleet sizes to derive benefit from establishing a flight operational quality assurance program;

(2) how part 121 air carriers with established aviation safety action and flight operational quality assurance programs can quickly begin to report data into the aviation safety information analysis sharing database; and

(3) how part 121 air carriers and aviation safety inspectors can better utilize data from such database as accident and incident prevention tools.

(c) REPORT.—Not later than 180 days after the date of enactment of this Act, the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Science, Commerce, and Transportation of the Senate a copy of the plan developed under subsection (a) and an explanation of how the Administration will implement the plan.

(d) DEADLINE FOR BEGINNING IMPLEMENTATION OF PLAN.—Not later than one year after the date of enactment of this Act, the Administrator shall begin implementation of the plan developed under subsection (a).

#### SEC. 15. SAFETY MANAGEMENT SYSTEMS.

(a) RULEMAKING.—The Administrator of the Federal Aviation Administration shall conduct a rulemaking proceeding to require all part 121 air carriers to implement a safety management system.

(b) MATTERS TO CONSIDER.—In conducting the rulemaking under subsection (a), the Administrator shall consider, at a minimum, including each of the following as a part of the safety management system:

(1) An aviation safety action program.

(2) A flight operational quality assurance program.

(3) A line operations safety audit.

(4) An advanced qualification program.

(c) DEADLINES.—The Administrator shall issue—

(1) not later than 90 days after the date of enactment of this Act, a notice of proposed rulemaking under subsection (a); and

(2) not later than 24 months after the date of enactment of this Act, a final rule under subsection (a).

(d) SAFETY MANAGEMENT SYSTEM DEFINED.—In this section, the term “safety management system” means the program established by the Federal Aviation Administration in Advisory Circular 120-92, dated June 22, 2006, including any subsequent revisions thereto.

#### SEC. 16. DISCLOSURE OF AIR CARRIERS OPERATING FLIGHTS FOR TICKETS SOLD FOR AIR TRANSPORTATION.

Section 41712 of title 49, United States Code, is amended by adding at the end the following:

“(c) DISCLOSURE REQUIREMENT FOR SELLERS OF TICKETS FOR FLIGHTS.—

“(1) IN GENERAL.—It shall be an unfair or deceptive practice under subsection (a) for any ticket agent, air carrier, foreign air carrier, or other person offering to sell tickets for air transportation on a flight of an air carrier to not disclose, whether verbally in oral communication or in writing in written or electronic communication, prior to the purchase of a ticket—

“(A) the name (including any business or corporate name) of the air carrier providing the air transportation; and

“(B) if the flight has more than one flight segment, the name of each air carrier providing the air transportation for each such flight segment.

“(2) INTERNET OFFERS.—In the case of an offer to sell tickets described in paragraph (1) on an Internet Web site, disclosure of the information required by paragraph (1) shall be provided on the first display of the Web site following a search of a requested itinerary in a format that is easily visible to a viewer.”.

#### SEC. 17. PILOT FATIGUE.

(a) FLIGHT AND DUTY TIME REGULATIONS.—

(1) IN GENERAL.—In accordance with paragraph (3), the Administrator of the Federal Aviation Administration shall issue regulations, based on the best available scientific information—

(A) to specify limitations on the hours of flight and duty time allowed for pilots to address problems relating to pilot fatigue; and

(B) to require part 121 air carriers to develop and implement fatigue risk management plans.

(2) MATTERS TO BE ADDRESSED.—In conducting the rulemaking proceeding under this subsection, the Administrator shall consider and review the following:

(A) Time of day of flights in a duty period.

(B) Number of takeoff and landings in a duty period.

(C) Number of time zones crossed in a duty period.

(D) The impact of functioning in multiple time zones or on different daily schedules.

(E) Research conducted on fatigue, sleep, and circadian rhythms.

(F) Sleep and rest requirements recommended by the National Transportation Safety Board and the National Aeronautics and Space Administration.

(G) International standards regarding flight schedules and duty periods.

(H) Alternative procedures to facilitate alertness in the cockpit.

(I) Scheduling and attendance policies and practices, including sick leave.

(J) The effects of commuting, the means of commuting, and the length of the commute.

(K) Medical screening and treatment.

(L) Rest environments.

(M) Any other matters the Administrator considers appropriate.

(3) DEADLINES.—The Administrator shall issue—

(A) not later than 180 days after the date of enactment of this Act, a notice of proposed rulemaking under subsection (a); and

(B) not later than one year after the date of enactment of this Act, a final rule under subsection (a).

(b) FATIGUE RISK MANAGEMENT PLAN.—

(1) SUBMISSION OF FATIGUE RISK MANAGEMENT PLAN BY PART 121 AIR CARRIERS.—Not later than 90 days after the date of enactment of this section, each part 121 air carrier shall submit to the Administrator for review and approval a fatigue risk management plan.

(2) CONTENTS OF PLAN.—A fatigue risk management plan submitted by a part 121 air carrier under paragraph (1) shall include the following:

(A) Current flight time and duty period limitations.

(B) A rest scheme that enables the management of fatigue, including annual training to increase awareness of—

(i) fatigue;

(ii) the effects of fatigue on pilots; and

(iii) fatigue countermeasures.

(C) Development and use of a methodology that continually assesses the effectiveness of the program, including the ability of the program—

(i) to improve alertness; and

(ii) to mitigate performance errors.

(3) PLAN UPDATES.—A part 121 air carrier shall update its fatigue risk management plan under paragraph (1) every 2 years and submit the update to the Administrator for review and approval.

(4) APPROVAL.—

(A) INITIAL APPROVAL OR MODIFICATION.—Not later than 9 months after the date of enactment of this section, the Administrator shall review and approve or require modification to fatigue risk management plans submitted under this subsection to ensure that pilots are not operating aircraft while fatigued.

(B) UPDATE APPROVAL OR MODIFICATION.—Not later than 9 months after submission of a plan update under paragraph (3), the Administrator shall review and approve or require modification to such update.

(5) CIVIL PENALTIES.—A violation of this subsection by a part 121 air carrier shall be treated as a violation of chapter 447 of title 49, United States Code, for purposes of the application of civil penalties under chapter 463 of that title.

(6) LIMITATION ON APPLICABILITY.—The requirements of this subsection shall cease to apply to a part 121 air carrier on and after the effective date of the regulations to be issued under subsection (a).

(c) EFFECT OF COMMUTING ON FATIGUE.—

(1) IN GENERAL.—Not later than 60 days after the date of enactment of this Act, the Administrator shall enter into appropriate arrangements with the National Academy of Sciences to conduct a study of the effects of commuting on pilot fatigue and report its findings to the Administrator.

(2) STUDY.—In conducting the study, the National Academy of Sciences shall consider—

(A) the prevalence of pilot commuting in the commercial air carrier industry, including the number and percentage of pilots who commute;

(B) information relating to commuting by pilots, including distances traveled, time zones crossed, time spent, and methods used;

(C) research on the impact of commuting on pilot fatigue, sleep, and circadian rhythms;

(D) commuting policies of commercial air carriers (including passenger and all-cargo air carriers), including pilot check-in requirements and sick leave and fatigue policies;

(E) post-conference materials from the Federal Aviation Administration's June 2008 symposium entitled “Aviation Fatigue Management Symposium: Partnerships for Solutions”;

(F) Federal Aviation Administration and international policies and guidance regarding commuting; and

(G) any other matters as the Administrator considers appropriate.

(3) **PRELIMINARY FINDINGS.**—Not later than 90 days after the date of entering into arrangements under paragraph (1), the National Academy of Sciences shall submit to the Administrator its preliminary findings under the study.

(4) **REPORT.**—Not later than 6 months after the date of entering into arrangements under paragraph (1), the National Academy of Sciences shall submit to the Administrator a report containing its findings under the study and any recommendations for regulatory or administrative actions by the Federal Aviation Administration concerning commuting by pilots.

(5) **RULEMAKING.**—Following receipt of the report of the National Academy of Sciences under paragraph (4), the Administrator shall—

(A) consider the findings and recommendations in the report; and

(B) update, as appropriate based on scientific data, regulations required by subsection (a) on flight and duty time.

(6) **AUTHORIZATION OF APPROPRIATIONS.**—There are authorized to be appropriated such sums as may be necessary to carry out this subsection.

#### **SEC. 18. FLIGHT CREWMEMBER PAIRING AND CREW RESOURCE MANAGEMENT TECHNIQUES.**

(a) **STUDY.**—The Administrator of the Federal Aviation Administration shall conduct a study on aviation industry best practices with regard to flight crewmember pairing and crew resource management techniques.

(b) **REPORT.**—Not later than one year after the date of enactment of this Act, the Administrator shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the results of the study.

The **SPEAKER** pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. COSTELLO) and the gentleman from Wisconsin (Mr. PETRI) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

#### **GENERAL LEAVE**

Mr. COSTELLO. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 3371.

The **SPEAKER** pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. COSTELLO. I yield myself as much time as I may consume.

Mr. Speaker, I thank you, and I rise in support of H.R. 3371, the Airline Safety and Pilot Training Improvement Act.

This legislation will improve aviation safety, and it is one of the strongest bipartisan safety bills in decades. The bipartisan legislation is authored by Chairman OBERSTAR, Ranking Member PETRI, and me. I would like to thank them for their leadership and hard work to bring this legislation to the floor today.

I also want to thank the families of those who perished in the Colgan accident in Buffalo for their input, co-

operation, and persistence. Some of them are here with us today.

In addition, the subcommittee worked very closely with the pilot groups, the airlines, the National Transportation Safety Board, the Department of Transportation inspector general, and members of the Aviation Subcommittee, as well as other Members of Congress, such as Congresswoman LOUISE SLAUGHTER, Congressman BRIAN HIGGINS and Congressman CHRISTOPHER LEE, who also helped shape the legislation.

At our Aviation Subcommittee hearing on June 11, I stated that we would not wait on the FAA to go forward with the rulemaking process. Rather, we would move legislation through the Congress to improve safety and to improve pilot training, and that is exactly what we did. On July 30, H.R. 3371 was reported favorably out of the Transportation and Infrastructure Committee. The bill has many cosponsors from both sides of the aisle.

Mr. Speaker, today is an important day for aviation safety. Ranking Member PETRI and I held an Aviation Subcommittee hearing on June 11 on "Regional Air Carriers and Pilot Workforce Issues." The testimony we heard was nearly unanimous—that Congress and the FAA must raise the bar on the current minimum pilot training standards. At the end of the hearing, I stated our intention to pursue legislation.

The bill before us fulfills our commitment to address these safety issues, and we will continue to conduct rigorous oversight to ensure that these measures are implemented after the bill is enacted.

Regional airlines have been involved in the last six fatal U.S. airline accidents, and pilot performance has been implicated in three of these accidents, not including Colgan. It is time to strengthen pilot training requirements and qualifications. Those, among other important issues, are addressed in this legislation.

To address pilot qualifications, the bill increases the minimum flight hours required to be hired as an airline pilot. Currently, individuals only need a commercial pilot's license to be a commercial pilot, which is a minimum of 250 flight hours. Based on the witnesses' testimonies in our hearing, meetings and a roundtable discussion with airline pilots, there is a consensus that 250 hours simply is not enough experience to be an airline pilot, and that safety would be improved by raising the standard.

Under H.R. 3371, all airline pilots must obtain an Airline Transport Pilot license, which is currently needed to be an airline captain. It requires a minimum of 1,500 flight hours, additional aeronautical knowledge, crew resources management, and greater flight proficiency testing.

In addition to the ATP, the bill goes a step further to put in place new stat-

utory requirements to strengthen the qualitative minimum requirements a pilot must have to qualify for an ATP. For example, an individual must be able to function effectively in a multi-pilot environment. We also require pilots to be trained to fly in adverse weather conditions, including icing.

The subcommittee is looking at this issue very closely. In fact, Ranking Member PETRI and I are convening a roundtable tomorrow to discuss what steps can be taken to mitigate ground and in-flight icing and how icing can affect commercial and general aviation aircraft.

In addition, because pilot groups, the FAA administrator and flight education universities have all cited the need to strengthen pilot academic training, the bill allows the FAA administrator to give credit towards the 1,500-flight-hour requirements if a flight school or a university provides academic training that exceeds the strengthened minimum ATP requirements in the bill.

To reiterate, this bill, one, will require all pilots to hold an ATP certificate; two, will strengthen the minimum requirements for an ATP; and three, will provide a flight-hour credit for coursework that exceeds the strengthened minimum requirements. In addition, the administrator can only award these credits on the basis that specific academic courses will enhance safety more than flight experience.

H.R. 3371 goes a long way to strengthening both the qualitative and quantitative training requirements to become an airline pilot.

The bill mandates several outstanding NTSB recommendations related to pilot training that were discussed at the hearing, such as stall and upset recovery, and remedial training. We require the FAA to convene a multidisciplinary panel on stick pusher training and for the FAA to act on the panel's recommendations. We are also mandating that the Secretary of Transportation must provide Congress with an annual report on each open NTSB recommendation.

To address concerns regarding professional standards, the bill requires regional and major airlines to create pilot mentoring programs pairing highly experienced pilots with junior pilots. New-hire pilots and pilots in command are required to receive leadership training and must undergo instruction on compliance with sterile cockpit regulations.

Also, the bill creates a task force of experts to evaluate best practices in the airline industry regarding mentoring, pilot training and intercarrier information sharing. The task force will report to Congress every 180 days on the progress of implementing these best practices.

To ensure that airlines can make informed hiring decisions, the bill also

requires the FAA to create and maintain an electronic pilot records database.

□ 1315

The database will allow airlines to quickly assess and have access to the pilot's comprehensive record for the purposes of hiring only. The database will have records of the pilot's license, aircraft ratings, check rides, notice of disapproval, and other flight proficiency tests.

Fatigue has been on the NTSB's "most wanted list" since 1990. The bill directs the FAA to implement a new pilot flight and duty time rule. An updated rule will more adequately reflect the operating environment of today's pilots and will reflect scientific research on fatigue. In addition, the bill requires air carriers to create fatigue risk management systems to proactively mitigate fatigue.

Many of us are concerned about the relationship between pilot commuting and fatigue. This is an issue that needs to be looked at more closely. Therefore, the bill directs the National Academy of Sciences to conduct a study on the impact of commuting on pilot fatigue. The bill requires all Internet Web sites that sell airline tickets to show on the first Web page display which air carrier is operating the flight, including multiple flight segments.

Finally, to recap, the bill increases the minimum flight hours required to be hired as an airline pilot to 1,500 hours and an ATP license. Now an individual needs only 250 hours to receive their commercial pilot's license and fly in the left seat of a cockpit as a First Officer. The bill requires the First Officer to have at least 1,500 hours and an ATP.

We are strengthening the ATP by requiring strong qualitative requirements such as knowing how to fly in a multi-pilot environment, being trained to fly in adverse weather conditions, including icing. It mandates several outstanding NTSB recommendations related to pilot training and requires the Secretary of Transportation to provide an annual report to Congress on each NTSB recommendation that is still open.

It mandates regional and major airlines to create pilot mentoring programs, it requires the FAA to create and maintain an electronic pilot database to ensure that airlines can make informed hiring decisions. It directs the FAA to implement the flight and duty time rules and requires airlines to create fatigue management systems.

It directs the National Academy of Science to study the relationship between pilot commuting and fatigue. It requires all Internet Web sites that sell airline tickets to explicitly say which air carriers are operating the flight, including multi legs of flight.

Mr. Speaker, this is most comprehensive safety bill that has come before this Congress in many, many years. It provides important steps to address many safety concerns raised at our hearing. I urge my colleagues to support this legislation.

I reserve the balance of my time.

Mr. PETRI. Mr. Speaker, I yield myself such time as I may consume, and I rise in support of H.R. 3371, the Airline Safety and Pilot Training Improvement Act.

Safety is the highest priority of the Transportation and Infrastructure Committee, as we've heard from our subcommittee chairman. Even the most well-funded, technologically advanced transportation system is worth less if it cannot move its users from point to point in the safest possible manner. Although the U.S. airline industry's safety record is the envy of the world, recent events offer proof that this safety legislation is needed.

Since 2003, there have been six fatal commercial air carrier accidents. Every one of those six involved regional airlines. In four of the six accidents, the National Transportation Safety Board cited pilot performance as a potential factor. The most recent accident of Colgan Flight 3407 was again a stark reminder that we must remain ever vigilant in our pursuit of aviation safety.

In response to these accidents, the National Transportation Safety Board has made several recommendations related to pilot training, pilot fatigue, the availability of pilot records, and voluntary safety reporting programs. The bill before us is an important step toward improving safety by implementing the NTSB pilot training requirements.

To address what FAA Administrator Randy Babbitt has identified as a lapse in professionalism on the flight deck, the bill directs the FAA to conduct a rulemaking to improve flight crew member mentoring, professional development, and leadership.

This bipartisan legislation contains several provisions that will help mitigate the dangers associated with pilot fatigue. H.R. 3371 directs the FAA administrator to update and issue new pilot flight and duty time requirements. It also requires the Federal Aviation Administration to coordinate with the National Academy of Sciences in order to conduct a joint study on the effects of pilot commuting.

The bill mandates that all commercial air carriers submit a fatigue risk management plan to the FAA within 90 days of enactment. Pilot fatigue poses a significant risk to air transportation, and I am glad this bill takes measures to eliminate its dangerous consequences.

H.R. 3371 will improve access to pilot records by creating a secure, consolidated FAA-managed database. The

database will contain all Part 121 pilots' performance, training, and testing records, and it will enable air carriers to gain a more accurate and complete perspective when making hiring decisions. All commercial carriers will be required to access this database and prescreen an applicant's comprehensive record before making a final decision on hiring.

These are just a few of the provisions included in this important legislation. I would like to express my appreciation for the open, bipartisan manner in which this bill was put together. This collective effort demonstrates that aviation safety is, as it always should be, a nonpartisan issue.

I also want to thank the families of Continental Flight 3407. Their efforts to improve regional airline safety have been most helpful as we drafted the bill before us.

In the other body, the Commerce Committee has included several provisions in its mark of the FAA reauthorization bill that address some of the same issues in the bill before us today. I urge my colleagues in the Senate to complete consideration of their reauthorization package so that we may conference these bills together before the end of this year. These issues are too important to leave to languish due to inaction.

While some have concerns about certain provisions of the bill, I support moving the bill forward and addressing those concerns during the House and Senate conference.

Again, I thank the chairman, as well as my colleagues, for their work on this important bill, and our subcommittee chairman, Representative COSTELLO from Illinois.

I reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, at this time I yield 2 minutes to the chairperson of the Rules Committee, the gentlewoman from New York, Congresswoman SLAUGHTER.

Ms. SLAUGHTER. Mr. Speaker, I want to express my great gratitude to Mr. COSTELLO for the incredible work that he's done on this in such a short period of time. And those of us who live in the area of the Colgan crash are greatly in his debt. I thank Mr. PETRI for all of the good work. I think this is indeed one of the best safety bills that we've done since I've been in Congress.

Nothing in the bill before us can do anything to bring back the lives that were lost on that cold night in Buffalo back in February when Colgan Air Flight 3407 fell to the ground and exploded into fire. But I am happy to be here today because the House is moving forward with legislation that includes the strong new set of guidelines for improving passenger and crew safety.

This Act will mean safer flights for all of us. As we learned during the NTSB hearings into this issue over the

summer, there are far too many pilots flying regional planes who are overextended, undertrained, or exhausted.

The bill establishes comprehensive preemployment screening for prospective pilots and requires airlines to establish pilot mentoring programs so that the highly experienced pilots can mentor more junior pilots, surely an issue in the Colgan crash. In fact, junior pilots will no longer fly alongside a junior pilot under the bill.

In addition, there are new mandates that grew out of the NTSB safety hearings earlier this year: requiring the FAA to ensure that pilots are trained on stall recovery and upset recovery, mandates that the FAA convene a multidisciplinary panel on pilot training for stick pusher operations, and then take action to implement the recommendations of the panel.

It came as a surprise to me that the NTSB ideas were only suggestions to the FAA. So obviously we're going to have to make sure that they're implemented.

There is also a section in the bill to create the new database which Mr. COSTELLO has explained, but most importantly, it requires the Secretary of Transportation to give us an annual report on what they're doing to address each open NTSB recommendation pertaining to small air carriers like Colgan.

I am so grateful for this bill.

Mr. PETRI. Mr. Speaker, at this time I yield such time as he may consume to an original coauthor of the bill who is before us who has been heavily involved in the deliberations on the bill from its inception, our colleague from New York, Representative CHRIS LEE.

Mr. LEE of New York. Mr. Speaker, I rise in support today of H.R. 3371, the Airline Safety and Pilot Training Improvement Act which I introduced with my western New York colleagues, Ms. SLAUGHTER and Mr. HIGGINS.

Mr. Speaker, this bill, unfortunately, arose out of a tragedy. This past February on an icy evening in Buffalo, Continental Connection Flight 3407, operated by regional carrier Colgan Air, crashed into a home killing all 49 people on board and one person on the ground.

Among those on board Flight 3407: a prominent human rights activist, a 9/11 widow, a retired Air Force Reservist, an accomplished jazz guitarist, a cantor at a Williamsville temple, the director of a youth services program, an expectant mother who was going to be due at the end of May, a program manager for Northrop Grumman, a second-year law student, the daughter of a Holocaust survivor, and a Vietnam veteran with two Purple Hearts.

The families of these victims—many of whom are here, and I am honored that they are here today. I've used their personal heartache to advocate for stronger standards for commercial

airline pilots. It is due to their tireless efforts that we have come so far.

Being a commercial airline pilot is not an entry-level position. Commercial pilots are entrusted with the lives of our mothers, daughters, sons, and fathers, and we and they both deserve to have them as well-trained as possible. This bill dramatically improves training by requiring commercial airline pilots an FAA airline transport pilot license which requires a minimum of 1,500 flight hours.

In addition, H.R. 3371 requires the first page of a Web site that sells airline tickets to disclose the airline carrier that operates each segment of the flight. From combating pilot fatigue to improving training practices, establishing an electronic pilot records database, and increasing transparency, H.R. 3371 is an important first step in improving commercial airline safety.

I would like to thank again my colleagues, Mr. HIGGINS and Ms. SLAUGHTER, for the support they have given to the families and victims of the Flight 3407 tragedy, as well as Chairmen COSTELLO and OBERSTAR and Ranking Members PETRI and MICA for their hard work on these issues.

While it's horrifying to think that this tragedy could have been avoided, this legislation is a testament to the courage and the strength of the Flight 3407 families who, again, have worked tirelessly to enact these meaningful reforms.

I urge my colleagues to support this legislation and enable these long-overdue reforms.

Mr. COSTELLO. Mr. Speaker, at this time I yield 2 minutes to the gentleman from New York who was instrumental in working with us to craft this bill, Congressman HIGGINS.

Mr. HIGGINS. I thank the gentleman for yielding.

Mr. Speaker, I am pleased to join my colleagues in support of H.R. 3371, the Airline Safety and Pilot Training Improvement Act of 2009. I especially want to thank my colleagues from western New York, Congressman CHRIS LEE and Congresswoman LOUISE SLAUGHTER.

On February 12, 50 lives were lost when Continental Connection Flight 3407 crashed into a house in Clarence, New York, 5 miles from the Buffalo Niagara International Airport. Earlier this year, I said that the devastation felt in the aftermath of this tragedy can never be undone. This was an avoidable tragedy, and we owe it to the families and the victims and to all air passengers to learn from this experience and change the system to improve flight safety. This bill will start to do that.

The Airline Safety and Pilot Training Improvement Act of 2009 will address the many factors that caused the crash of Flight 3407. The bill would require all commercial pilots to obtain

an Airline Transport Pilots license which requires a minimum of 1,500 flight hours.

□ 1330

It requires the FAA to ensure that pilots are better trained to recover from stalls, and it would create a database to provide access to pilots' comprehensive records. The bill also established new risk management plans to reduce pilot fatigue and to enhance pilot training for flying in inclement weather, including icy conditions.

This legislation dramatically improves upon the safety of our airways. However, I do have concerns with language in the bill that would give the FAA administrator the authority to allow academic class time to count as class hours towards the 1,500-hour flight requirement. While additional academic class time is important, if we want experienced pilots, there is simply no replacement for flight hours. As this legislation continues through Congress, I will work to perfect the language to ensure high-quality training.

I want to thank Chairman OBERSTAR, Chairman COSTELLO, Ranking Members MICA and PETRI for their leadership. I would also like to thank the families, some of whom are here today and many of whom who were here for many months, including Kevin Kuwik and Karen Eckert, for their commitment to making from this tragedy something positive.

Mr. PETRI. I yield such time as he may consume to the ranking member of the full Transportation and Infrastructure Committee, my colleague, JOHN MICA, from Florida.

Mr. MICA. Mr. Speaker and my colleagues, I am pleased to come to the House today and join in a bipartisan effort to pass the regional commuter airline safety legislation. I really don't need a prepared speech to talk about this, having been involved with Mr. COSTELLO, Mr. OBERSTAR, our ranking member of the Aviation Subcommittee, Mr. PETRI, on almost a daily basis for a number of weeks. In fact, having chaired the Aviation Subcommittee and now a leader of the full committee, I can't think of any issue we have probably spent more quality time on and a more bipartisan effort. If all the legislation was fashioned in the manner in which this was, I think Congress would be in great shape and held in great esteem by the public.

As you have heard today, this legislation comes as a result of a tragedy. We have had the good fortune of having our large passenger aircraft not have really a significant incidence of fatalities since, I believe, November of 2001, but we have had at least, since 2003, six regional commuter aircraft crashes, and we have had over 155 deaths in an even shorter period of time.

That prompted me, and I brought the record, and I will probably put it in the

RECORD, my calls for looking at commuter airline safety. Unfortunately, the crash in Buffalo, the sixth crash that we had, and the families that have been mentioned here today who had victims in Flight 3407, also took up the banner, turned a horrible personal tragedy and loss into something positive and have worked in a positive fashion to craft good legislation.

Let me just cite for the record that we all came together and we entered in drafting legislation. We introduced it in a bipartisan fashion, as we say around here, the big four, Mr. OBERSTAR and myself, Mr. PETRI, Mr. COSTELLO. Then we thought we had done what we needed to do. But it wasn't long before that legislation saw the light of day, and we got to folks talking about the provisions.

One of the more controversial provisions was going from a smaller number of flight hours to 1,500 flight hours. We felt, we believed then and we firmly believe today, that commuter and regional aircraft passengers shouldn't be second-class passengers. The pilot that's in the cockpit of those smaller aircraft should have the same skills and training, background and educational experience as those pilots in larger commercial aircraft.

After we introduced that, we found, in fact, that we needed to fine-tune the legislation and make certain that the type of hours aren't just simple flight hours. If someone is towing a banner, for example, does that qualify you to fly commercial passenger aircraft as someone flying in, say, the tropics and never experienced a de-icing? If someone is flying a mail route and never had passengers in an aircraft, a crop duster, might rack up 1,500 hours; that wasn't what we wanted.

We sat down. We sat down with experts, pilots. We sat down with officials from the Federal Aviation Administration. We sat down with all the parties who could provide us guidance. I think what we came up with is the best possible guidelines for FAA to ensure that we have quality, qualified pilots in the cockpit of regional carriers.

I just want to thank again everyone who has participated.

Now, let me say that the challenge is just beginning. We have not had an FAA reauthorization, I think, since I have chaired the subcommittee. We just got an FAA administrator some months ago. We were one of the longest times without an administrator. Our overall bill, FAA bill that sets policy projects and all of the important aspects of aviation safety, is still not in place.

Mr. OBERSTAR and I, Mr. PETRI, Mr. COSTELLO, we have done our due diligence in the House. We all need now to work on the other body. It is my hope that we can incorporate this legislation into the master FAA reauthorization and get that signed by the Presi-

dent into law so that, again, we can ensure for regional passengers of commercial aircraft, for the flying public, and for all aircraft in our skies and for the future the best possible safety measures in law.

Mr. COSTELLO. Mr. Speaker, at this time, I yield 2 minutes to the gentleman from Ohio, who is a member of the subcommittee, who is an experienced pilot and who made invaluable contributions to this legislation, Mr. BOCCIERI.

Mr. BOCCIERI. Mr. Speaker, Chairman OBERSTAR, Chairman COSTELLO, Ranking Members MICA and PETRI, thank you for bringing this bill to the floor today.

I remember my parents telling me: don't just tell me what you believe; show me what you have done and I will tell you what you believe. By us bringing this bill to the floor today, we can now discount the feelings and thoughts that we just believe that we should have safer skies. We are now doing what should be required to make airline travel as safe as possible.

Taken on a whole, Mr. Speaker, airline travel is extremely safe in the United States. However, that is component and functional upon the pilots flying and the training that they receive. In fact, this air crew, by all standards, was a very experienced crew. Yet what we found through NTSB reports and the later testimony by the FAA is that that air crew and this airline did not train their pilots to adequately recover from a stall.

Now, we can measure these types of instant recovery patterns and the upset stall recovery that needs to happen based on simulation. This bill will now force pilots and their trainers to make certain that they will not only recognize a stall, but be able to recover from a stall and be adequately trained on the equipment in their airplane.

We will increase the number of hours for regional pilots. We will add crew resource management that will help pilots cut down on the chatter while they are flying. Important stall recovery procedures will be implemented through pilot training programs that will allow simulation.

We will also end these share agreements, because when you and I buy a ticket, we want to know that we are flying with the air carrier that we sign up and we pay for, and that's going to change in this bill. Not only are we going to allow these regional airlines to cut corners, to shave times and shoot for the minimums, because when we asked this airline why they were not trained to adequately recover from this, they said the FAA did not require them to do this; that will end. We are going to do this now.

Don't tell me what you believe. Show me what you have done and I will tell you what you believe.

Mr. PETRI. Mr. Speaker, I yield such time as he may consume to the former

chairman of the Aviation Subcommittee, my colleague from Tennessee, JOHN DUNCAN.

Mr. DUNCAN. I thank the gentleman for yielding me this time.

Mr. Speaker, I rise mainly to commend, first of all, Chairman OBERSTAR, who I have always referred to as Mr. Aviation in this Congress, and my own ranking member, Mr. MICA, who has been so kind to me. I especially want to commend my good friends, Chairman COSTELLO and Ranking Member PETRI, who have worked so hard to bring this legislation to fruition and bring it to the floor today.

Unless you have worked on legislation like this, you just can't imagine all of the details that have to be ironed out, all the competing interests that have to be brought together. I especially want to thank them for taking into consideration the needs of our great educational institutions that have aviation programs, such as Embry-Riddle and Middle Tennessee State University in my own State of Tennessee, and many others.

As Ranking Member PETRI just mentioned, I had the privilege of serving for 6 years as chairman of the Aviation Subcommittee. I enjoyed that very much, and I think it's very important work that I had the privilege of doing then and that they are working so hard on now.

We have the best aviation system in the world, without any question. Unfortunately, we have more people killed in 3½ months on the Nation's highways than have been killed in all of the U.S. aviation accidents combined since the Wright brothers' flight in 1903. It's an amazing record.

But you can never rest on your laurels, and you should always be trying to make things better. We have the best airlines and we have the best pilots, but everybody should always be trying to improve and get better. Certainly, when we are faced with the tragedy of a major crash such as we have heard mentioned several times here already today, it's a terrible thing, especially for those who have been killed and their families. We all need to do everything we can and we certainly try to do everything we can to make our aviation system even safer.

I am pleased to be associated with these gentlemen and also with this legislation. I urge my colleagues to support this very fine bill.

Mr. COSTELLO. Mr. Speaker, at this time, I yield to the distinguished chairman of the full committee, Chairman OBERSTAR, as much time as he may consume.

Mr. OBERSTAR. I thank the gentleman from Illinois, Chair of the Subcommittee on Aviation, for the splendid job he has done, for the diligent, time-consuming, engaged work that he has dedicated to bringing this bill to

the House floor today; and to our colleague, Mr. PETRI, a senior member on the Aviation Subcommittee on the Republican side who has also contributed an enormous amount of time and energy and work. We appreciate the kind words of Mr. DUNCAN and Mr. MICA, my ranking member and counterpart, and to the congressional delegation of Members whose constituents included those lost lives in this tragic crash.

It is so often the case that tragedy brings us to the House floor to right a wrong and correct gaps in safety in aviation, in railroad, in trucking, in passenger rail service, transit systems. We should be ahead of the game. We should be prescriptive rather than reactive. This legislation will do that for us. It will make us prescriptive in the field of aviation.

This bill, when enacted into law, will be the most significant improvement in raising the standards of pilot qualifications since 1958, when the FAA was established. There has been a great deal of concentration of public interest in the number of hours required to serve in the flight deck, in the left-hand or the right-hand seat.

This bill is much more than hours served. We have a current standard that a pilot need only a commercial pilot's certificate, 250 hours, in some cases only 190 hours.

□ 1345

Well, to fly an aircraft you need a lot more experience, a lot more flight experience. You need more aeronautical knowledge. You need weather training. You need training in crew resource management in the flight deck so that you have a plan, as in the case of Galaxy Airlines when a sound was heard in the flight deck and all three personnel in the flight deck began troubleshooting and no one was flying the aircraft. You need a flight management plan. And in that case, the aircraft crashed and 93 people died.

We raised the standards for the airline transport pilot certification. The pilot must have flight training, academic training, and operational experience to function effectively and efficiently in an operational environment. You have to be part meteorologist to understand weather conditions. You need training for how to cope with icing, high-altitude operations, multipilot crew, and operating an aircraft under difficult conditions, say, when the autopilot is off.

Those are the raised standards that we include in this legislation, including a number of recommendations from the National Transportation Safety Board; remedial training, stall and upset recovery training. You can't get that just on the ground in a simulator. You need that training at six and seven miles in the air, when there is no curb to pull over and look under the hood or call for help. That training has to be

instilled in the pilot, in the captain in command and the first officer, before they get in the flight deck.

We also create an air carrier safety and pilot training task force to identify the best practices in the industry for pilot training, professional standards, intercarrier information-sharing and mentoring.

All of these are important. But not just to have those standards. We require them to report to the Congress every 180 days, and I thank Mr. COSTELLO for insisting on that and for the oversight he has conducted. We are going to stay on top of this thing. This full committee and this subcommittee are not going to just fold our hands after the bill passes and say "job well done." "Job just begun" is our method and is our standard.

For pilot fatigue, we require new flight and duty time rules within a year. You know, it took 14 years to get flight and duty time for flight attendants.

So these and a whole host of others are wrapped up with a directive to the General Accounting Office to do an evaluation of flight schools upon enactment of this legislation and report back to Congress. That is a complete package: new standards, higher standards, more requirements, more oversight, reporting to the Congress and keeping our hands on to make sure there are no more Colgan tragedies.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. PETRI. Mr. Speaker, I have no further requests for time. I urge my colleagues to pass this bill.

Mr. COSTELLO. I would ask the ranking member if he would yield 30 seconds to me, since I am out of time.

Mr. PETRI. I yield such time as he may consume to my chairman, Mr. COSTELLO.

Mr. COSTELLO. I thank the ranking member for yielding 30 seconds to me.

In closing, let me reiterate that this is the strongest aviation and pilot training bill, as Chairman OBERSTAR said, in over half a decade. It is a good bill. It deserves our support. I urge my colleagues to support this legislation.

Ms. RICHARDSON. Mr. Speaker, as a member of the Transportation and Infrastructure Committee and a cosponsor of this bill I rise to lend my strong support of Airline Safety and Pilot Training Improvement Act of 2009. This important piece of legislation increases commercial pilot training requirements and requires the Federal Aviation Administration to convene a multidisciplinary review panel aimed at improving pilot response to a variety of conditions. It would also create an FAA task force to identify industry best practices.

These are just a few of the many safety improvements in this bill. And while the safety record of our aviation system is admirable, mistakes in the sky can devastate hundreds of lives and we must do everything possible to ensure our pilots are adequately trained, well rested, and best practices are always used.

I urge my colleagues to pass this important piece of legislation to make the skies safer for us all.

Mr. HOLT. Mr. Speaker, I rise today in support of H.R. 3371, the Airline Safety and Pilot Training Improvement Act.

On February 12, 2009, 50 lives were lost when Continental Flight 3407 crashed outside of Buffalo, New York. This was truly a national tragedy, one that has raised serious concerns about the safety and oversight of our nation's aviation system.

I would like to take a moment to honor the lives of three of the passengers on Flight 3407 from New Jersey's 12th Congressional District, which I have the privilege to represent in Congress. I have spoken with and heard from their families and friends, and my thoughts and prayers go out to them as they cope with the loss of these outstanding individuals. As they mourn, they have been vigilant in working to ensure that we address the serious safety concerns that led to this crash.

Lorin Maurer from Princeton was a fundraiser for the athletics division of Princeton University. According to her coworkers she was a bright and rising star. She was also a dedicated volunteer for the Greater Princeton Junior League. According to her fellow volunteers she was "an enthusiastic woman who not only had great ideas for improving our community, but took the actions necessary to achieve our goals." I would like to thank Lorin's boyfriend Kevin Kuwik for his hard work on behalf of the families of Flight 3407.

Ron Gonzalez of North Brunswick was a tireless advocate for his community. According to his sister he was a true advocate for life. His humanitarian efforts included running the New York City Marathon, and volunteering for the New York State Healthy Heart Program, HIV AIDS Community Services, and the New York State Prevention Planning Group. Ron worked at New Brunswick Tomorrow where he managed a school based program for at-risk children within New Brunswick Public Schools. During Ron's tenure with New Brunswick Tomorrow, he worked hard to save children who were in crisis due to domestic violence, drugs, gangs, and other social ills. His passing is a great loss to our community.

Coleman Mellett from East Brunswick was a talented jazz guitarist. Coleman's talent was evident from a young age. He came in second at the scholarship competition at the East Coast Jazz Festival while he was still in high school. Coleman played with a number of talented musicians including Chuck Mangione's band. He also released the solo album *Natural High* in 2007 which demonstrated the depth of his talent. I can only imagine the music that we have lost with Coleman's passing.

Many of the family members of the victims of Flight 3407 are at the Capitol today to remind us that we in Congress need to take action to prevent another tragedy of this scale.

A series of National Transportation Safety Board (NTSB) hearings exposed the disturbing fact that this tragedy was preventable. The pilots had received inadequate training on how to recover from a stall and how to proceed in icing conditions. Severe pilot fatigue also was identified as the cause of the crash. The NTSB found that regional carriers are held to lower safety standards than national carriers

despite regional airlines' accounting for one-half of all scheduled flights in the United States. As a result, five of the last seven fatal commercial plane crashes involved regional carriers.

As more Americans rely on commuter airlines for air service, the Federal Aviation Administration (FAA) must take aggressive action to ensure that there is no difference in the level of safety provided by different air carriers. However, the NTSB hearings also made clear that the FAA has failed to issue regulations based on previous NTSB recommendations to establish uniform standards for training and performance. We owe it to the families and friends of the victims of the Flight 3407 to take action to prevent such tragedies in the future.

Earlier this year I joined my colleagues from upstate New York, CHRISTOPHER LEE and BRIAN HIGGINS in introducing the One Level of Safety Act. Our legislation would require regional carriers to meet the same training and safety standards of national carriers. Additionally, it would require the FAA to implement the unfulfilled NTSB recommendations that were found to be responsible for this crash. I would like to thank Chairman COSTELLO for including a number of these provisions in the Airline Safety and Pilot Training Improvement Act that we are considering today. I am proud to be an original cosponsor of this bill and I urge my colleagues to support it.

Mr. POMEROY. Mr. Speaker, I rise today to express concern with certain provisions of H.R. 3371, the Airline Safety and Pilot Training Improvement Act of 2009.

While I strongly support the goal of the bill to increase airline safety and improve pilot training, I am concerned about changing current rules to require an airline pilot to hold an Airline Transport Pilot (ATP) certificate, which necessitates a minimum of 1,500 flight hours. During a hearing in September Tim Brady, dean of Embry-Riddle Aeronautical University's College of Aviation, testified that these added requirements could increase the cost of pilot training fivefold from \$40,000 to \$200,000. I am concerned that these increased costs could encourage pilots to seek less costly training alternatives and potentially be counter to the bills intended goal, of increasing safety.

By dramatically increasing the costs of training we will drive our most qualified potential pilots out of accredited flight schools such as the John D. Odegard School of Aerospace Sciences at the University of North Dakota that have produced exceptional pilots for decades. Graduates of these programs receive high quality flight instruction that is much more valuable than a pilot who might just be racking up straight and level flight time that has no increased educational or safety benefits. The focus on total flight hours rather than the quality of those hours will not provide the increased safety and pilot quality that is the goal of this legislation. It could in practice have the opposite effect, by driving students to undertake low value flying at the expense of high quality directed flight training. I believe that as this legislation moves forward some consideration must be given to Collegiate Aviation Programs that have been accredited by the Aviation Accreditation Board International (AABI).

This will help to increase the focus of these requirements on quality of training rather than quantity of flight hours.

While I will be voting in favor of this legislation in order to move forward the important process of increasing the safety of commercial aviation, I do so with reservations. Before this legislation becomes law I believe that it is vital that the bill be modified to recognize the tremendous benefits that our nation's accredited flight schools provide.

Mr. PETRI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. COSTELLO) that the House suspend the rules and pass the bill, H.R. 3371, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. COSTELLO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### RECOGNIZING THE 40TH ANNIVERSARY OF THE GEORGE BUSH INTERCONTINENTAL AIRPORT IN HOUSTON, TEXAS

Mr. COSTELLO. Mr. Speaker, I move to suspend the rules and agree to the concurrent resolution (H. Con. Res. 138) recognizing the 40th anniversary of the George Bush Intercontinental Airport in Houston, Texas.

The Clerk read the title of the concurrent resolution.

The text of the concurrent resolution is as follows:

##### H. CON. RES. 138

Whereas the George Bush Intercontinental Airport in the City of Houston, Texas (referred to in this resolution as "IAH"), was first opened for operation on June 8, 1969;

Whereas in 1997, IAH was named in honor of the Nation's 41st President, George Herbert Walker Bush, a longtime resident of Houston who, as a Member of the Houston congressional delegation, was present at the 1969 opening of the airport;

Whereas IAH is the largest airport in Houston, serving over 43,000,000 passengers in 2008, is the 8th-largest airport in the United States and the 16th-largest in the world for total passengers served;

Whereas more than 700,000,000 people have passed through IAH's gates since its opening;

Whereas IAH has grown to become a world-class international gateway offering service to more than 109 domestic and 65 nonstop international destinations in over 32 countries;

Whereas in 1990, the City of Houston named the IAH international arrivals building, now the IAH Terminal D, in honor of the distinguished Congressman for the 18th District of Texas, George Thomas "Mickey" Leland, a renowned antipoverty activist who died tragically in 1989 while on a humanitarian visit to Ethiopia;

Whereas IAH operates the largest passenger international arrivals facility in the Nation and was selected by the Department of State and the Department of Homeland Security as the first "Model Port" for its efficiency in welcoming international passengers arriving in the United States;

Whereas IAH is a regional and world leader in air cargo processing, consolidation, and distribution;

Whereas IAH is a critical component of the Houston economy, supporting more than 151,000 jobs and contributing over \$24,000,000,000 in economic benefits to the Houston region; and

Whereas IAH serves 30 airlines and is the headquarters and major hub for award-winning Continental Airlines, which is celebrating its 75th anniversary in 2009: Now, therefore, be it

*Resolved by the House of Representatives (the Senate concurring), That the Congress—*

(1) recognizes the 40th anniversary of the founding of the George Bush Intercontinental Airport; and

(2) congratulates officials of the George Bush Intercontinental Airport, the Houston Airport System, and the City of Houston, Texas, for the airport's record of excellent service to the citizens of Houston and the national air transportation system.

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Illinois (Mr. COSTELLO) and the gentleman from Wisconsin (Mr. PETRI) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

##### GENERAL LEAVE

Mr. COSTELLO. Mr. Speaker, I ask unanimous consent that all Members have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H. Con. Res. 138.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. COSTELLO. Mr. Speaker, I rise in support of H. Con. Res. 138, introduced by the gentlewoman from Texas (Ms. JACKSON-LEE).

The concurrent resolution recognizes the 40th anniversary of the George Bush Intercontinental Airport in Houston, Texas, and congratulates officials of the airport and the City of Houston for the airport's service to Houston's citizens and the national air transportation system.

Houston Intercontinental Airport is the largest airport in Houston, serving over 43 million passengers in 2008, and is the eighth largest airport in the United States. The airport has grown to become a world-class international gateway and is a regional and world leader in air cargo processing, consolidation, and distribution.

Finally, the airport supports more than 151,000 jobs and contributes over \$24 billion annually to the Houston regional economy.

Mr. Speaker, I urge my colleagues to join me in supporting H. Con. Res. 138.

I reserve the balance of my time.

Mr. PETRI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of House Concurrent Resolution 138, recognizing the 40th anniversary of the George H.W. Bush Intercontinental Airport in Houston, Texas.

George H.W. Bush Intercontinental, as has been pointed out, is the eighth largest airport in these United States and served over 43 million passengers in 2008 alone. The airport offers flights to over 32 countries and is the world leader in air cargo processing, consolidation, and distribution.

George H.W. Bush Intercontinental is vital to the economic stability of the greater Houston area. The airport contributes almost \$24 billion in direct benefits to the region and supports more than 151,000 jobs. The airport is a valuable part of our national airspace system and is very important to the greater Houston area.

Mr. Speaker, I ask my colleagues to join me in supporting this resolution honoring the 40th anniversary of George H.W. Bush Intercontinental Airport.

I reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, I yield 4 minutes to the author of this legislation, the gentlelady from Texas (Ms. JACKSON-LEE).

Ms. JACKSON-LEE of Texas. I thank the distinguished gentleman from Illinois and as well the chairman and ranking member of the Aviation Subcommittee for your leadership on a number of issues that have been on the floor of the House today.

I thank my cosponsors, who realize in this time of a challenging economy how important the aviation industry is in being an economic engine; how many of our tourists that come to Washington, DC, many drive, but many of them fly, and they want to fly on a safe and secure system.

As the chairwoman of the Subcommittee on Transportation Security and Infrastructure Protection, Mr. COSTELLO and myself have common interests about security and safety, but we also are glad for our Nation's airports.

Our Nation's airports are large and small; they are rural and urban. I applaud them all. But I am excited to stand with my colleagues to recognize one of the strongest airports in the Nation, the George H. Bush Intercontinental Airport in Houston, Texas, and is the subject of this resolution, H. Con. Res. 138 that I authored. I would like to thank my cosponsors, Mr. CULBERSON, Mr. MCCAUL, Mr. OLSON, and Mr. GENE GREEN.

I sponsored this resolution to acknowledge the importance of airport travel and to recognize that this airport in Houston, Texas, is an economic engine and to realize that the airport's record of excellent service to the citizens of Houston and the national air transportation system is deserving of acclamation and applause, for their

great service has been a critical component of Houston's economy, supporting more than 151,000 jobs and contributing over \$24 billion in economic benefits to the Houston region over a period of time.

The George Bush Intercontinental Airport in the City of Houston was first opened for operation on June 8, 1969, 40 years ago. In 1997, it was named in honor of the Nation's 41st President, George Herbert Walker Bush, who happens to be a resident, along with his wife, Mrs. Bush, of Houston, Texas. He was also a member of the Houston congressional delegation, and he was present at the 1969 opening of the airport.

In 1990, the City of Houston named IAH's International arrivals building, now terminal D, in honor of my predecessor, Congressman Mickey Leland of the 18th Congressional district, who died tragically on a humanitarian effort trying to help the starving and ravished people of Ethiopia. He was also a figure who cared about people.

Our airport cares about people. It served over 43 million passengers in 2008. It is the eighth largest airport in the United States and the 16th largest in the world for total passengers served, with more than 700 million people having passed through its gates since its opening.

The airport has grown to be worldwide. We are building new terminals now. The anchor airline is Continental; but we are open to the many, many other airlines, as well as international airlines, because this is an international city. Houston is the fourth largest city in the Nation, but soon to be in this new census the possibility of being the third largest city in the Nation.

George Bush Intercontinental Airport has 109 domestic and 65 nonstop international destinations in over 32 countries. We are a part of the economic engine of this great country.

I would also like to note that George H.W. Bush, since we are concerned about being secure, was the President who asked for the Pan Am 103 report on the tragedy of Pan Am 103. He asked the Congress to establish the Pan Am 103 commission, and that commission was part of the effort of being able to respond to that tragedy. George Bush as President received both the victims of that tragedy and the report while he was in the White House, and our now chairman of the full committee, Chairman OBERSTAR, was then the chairman of the Aviation Committee, served on the commission, and this Congress has implemented 63 of the 64 proposals of that particular commission. That means we worked hand-in-glove to help improve airline and airport security.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Mr. COSTELLO. I yield the gentlelady an additional minute.

Ms. JACKSON-LEE of Texas. In supporting these airlines and supporting this airport, we are very pleased that this airport has been the recipient of many, many awards and as well many, many thank-you's from the employees to the traveling public. We are now in new construction for expansion.

I want to congratulate the City of Houston and the leadership of the Houston Intercontinental Airport, named for the 41st President of the United States, for providing the kind of economic engine that says to the world, we are open, we are friendly, and says to the City of Houston, we are your economic engine, too!

I ask my colleagues to support this legislation.

Mr. Speaker, I rise before you today in support of House Concurrent Resolution 138, Recognizing the 40th anniversary of the George Bush Intercontinental Airport in my home city of Houston, Texas. I would like to thank my co-sponsors, Representative CULBERSON, Rep. GENE GREEN, Rep. MCCAUL, and Rep. OLSON.

I sponsored this resolution to recognize the 40th anniversary of the George Bush Intercontinental Airport and congratulate officials of the George Bush Intercontinental Airport, the Houston Airport System, and the city of Houston, Texas, for the airport's record of excellent service to the citizens of Houston and the national air transportation system. For their great service has been a critical component of the Houston economy, supporting more than 151,000 jobs and contributing over \$24,000,000,000 in economic benefits to the Houston region.

The George Bush Intercontinental Airport in the city of Houston, Texas was first opened for operation on June 8, 1969. In 1997, it was named in honor of the Nation's 41st President, George Herbert Walker Bush, a longtime resident of Houston who, as a Member of the Houston congressional delegation, was present at the 1969 opening of the airport. In 1990, the city of Houston named the IAH international arrivals building, now Terminal D, in honor of the distinguished Congressman for the 18th District of Texas, George Thomas "Mickey" Leland, a renowned antipoverty activist who died tragically in 1989 while on a humanitarian visit to Ethiopia.

IAH is the largest airport in Houston, serving over 43,000,000 passengers in 2008, is the 8th largest airport in the United States and the 16th largest in the world for total passengers served, with more than 700,000,000 people have passed through its gates since opening. Our airport has grown to become a world-class international gateway offering service to more than 109 domestic and 65 nonstop international destinations in over 32 countries, and today remains a regional and world leader in air cargo processing, consolidation, and distribution.

The George Bush Intercontinental Airport in Houston operates the largest passenger international arrivals facility in the Nation and was selected by the Department of State and the Department of Homeland Security as the first "Model Port" for its efficiency in welcoming international passengers arriving in the United States.

Bush Intercontinental is located approximately 23 miles north of downtown Houston, near the Sam Houston Tollway (Beltway 8 North). The airport is operated and maintained by the City of Houston Department of Aviation. The Houston Airport System functions as an enterprise fund and does not burden the local tax base for airport operations, maintenance or capital improvements. IAH currently ranks 3rd in the United States among U.S. airports with scheduled non-stop domestic and international service (over 170 destinations). With more than 29 destinations in Mexico, IAH offers service to more Mexican destinations than any other U.S. airport. Furthermore, this airport is the 8th busiest airport in the U.S. for total passengers. For these reasons and more we ask for my colleagues to support this bill.

Mr. PETRI. Mr. Speaker, at this time I yield such time as he may consume to our hardworking colleague from the State of Texas, Representative PETER OLSON.

Mr. OLSON. Mr. Speaker, I also would like to thank Chairman COSTELLO and Ranking Member PETRI for all your hard work to get this resolution to this point.

In June of this year, George Bush Intercontinental Airport in Houston celebrated its 40th anniversary. Intercontinental is the largest airport in Houston and served more than 43 million passengers in 2008, making it the eighth largest airport in the United States and the 16th largest airport in the world.

□ 1400

Serving as Houston's gateway to the world, Intercontinental operates one of the largest international passenger arrival facilities in our country. With five terminals and 125 gates, Intercontinental gives passengers the option of service to over 170 nonstop destinations in more than 30 countries around the world. It is one of few airports in the world with five, five, air carrier runways, and the ability to handle triple simultaneous takeoffs and landings in all sorts of weather.

Intercontinental is a key driver for the greater Houston area economy. The airport supports more than 151,000 jobs and contributes more than \$24 billion in economic benefits to the Houston region. Bush Intercontinental Airport is an important part of keeping the goods and people moving around our great nation and the entire world.

I ask that my colleagues join me in supporting House Concurrent Resolution 138 and recognizing Intercontinental's 40th anniversary.

Mr. OBERSTAR. Mr. Speaker, I rise in support of this legislation, H. Con. Res. 138, introduced by the gentlewoman from Texas (Ms. JACKSON-LEE), which recognizes the 40th anniversary of the George Bush Intercontinental Airport in Houston, Texas, and congratulates officials of the airport and the City of Houston for the airport's service to Houston citizens and the national air transportation system. I thank Representative JACKSON-LEE for her leadership on this measure.

Houston Intercontinental Airport is the eighth largest airport in the United States, serving over 43 million passengers in 2008. The airport offers 109 domestic and 65 nonstop international destinations in over 32 countries by 30 airlines. More than 700 million passengers have travelled through the airport since it opened in 1969. Furthermore, the airport contributes more than 151,000 jobs and \$24 billion in economic benefits to the Houston region. For air cargo, the airport is a regional and world leader in processing, consolidation, and distribution.

I urge my colleagues to join me in supporting H. Con. Res. 138.

Mr. GENE GREEN of Texas. Mr. Speaker, I rise today in support of H. Con. Res. 138, which honors the George Bush Intercontinental Airport for its 40 years of outstanding service to the residents of Houston, TX, and to travelers from around the world.

Since it first opened in 1969, Bush Intercontinental Airport has transported over 700,000,000 passengers to more than 170 U.S. and international destinations, making it one of the largest airports in the world. This, in turn, has generated tremendous economic benefits for the greater Houston area. Travelers to the region account for more than \$20 billion in annual sales. The airport also employs over 30,000 Houston-area residents and has created over 120,000 additional jobs in local industries. Many of these employees live in our district.

Bush Intercontinental Airport has likewise served as a hub for cargo shipments to the U.S. and Latin America. For four years in a row, the airport has received Air Cargo World's "Air Cargo Excellence Award" for its facilities. It now handles more than 300,000 tons of freight annually, and this figure continues to grow. In November, the airport plans to open a new import facility for perishable freight, which will expand business in temperature and time-sensitive products.

Together with the Port of Houston, Bush Intercontinental Airport has helped to make Houston a truly international city and one of the leading ports of entry and export in the country. It serves as a model of success in international travel and shipping, and this level of accomplishment should be acknowledged.

I urge my colleagues to support House Concurrent Resolution 138 recognizing the 40th anniversary of George Bush Intercontinental Airport.

Mr. PETRI. I have no further requests for time. I urge my colleagues to support this resolution.

I yield back the balance of my time.

Mr. COSTELLO. Mr. Speaker, we have no further requests for time. I urge my colleagues to support this legislation.

I yield back the balance of our time.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. COSTELLO) that the House suspend the rules and agree to the concurrent resolution, H. Con. Res. 138.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the concurrent resolution was agreed to.

A motion to reconsider was laid on the table.

#### COMMENDING RUSS MEYER ON HIS INDUCTION INTO THE NATIONAL AVIATION HALL OF FAME

Mr. COSTELLO. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 719) commending Russ Meyer on his induction into the National Aviation Hall of Fame, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

#### H. RES. 719

*Whereas the leadership of Russell (Russ) W. Meyer, Jr., former chairman and chief executive officer of Cessna Aircraft Company and a leading proponent of general aviation, has had a dramatic impact on the continued growth of the aviation industry in Kansas and throughout the United States;*

*Whereas Russ Meyer was one of the principal advocates for the General Aviation Revitalization Act of 1994 (Public Law 103-298; 108 Stat. 1552);*

*Whereas Russ Meyer was instrumental in the development of the "Be A Pilot Program", which has resulted in tens of thousands of new pilots and contributed more than \$200,000,000 to the United States economy through general aviation operations;*

*Whereas Russ Meyer was the originator of the Citation Special Olympics Airlift, in which hundreds of owners of Citation aircraft transport athletes from around the country to the Special Olympics National Games; and*

*Whereas Russ Meyer will join fellow residents of Kansas Olive Beech and Walter Beech, Lloyd Stearman, Clyde Cessna, Amelia Earhart, and Joe Engle in the National Aviation Hall of Fame: Now, therefore, be it*

*Resolved, That the House of Representatives—*

(1) commends Russ Meyer for being inducted into the National Aviation Hall of Fame;

(2) recognizes the achievements of Russ Meyer during his lifetime of service to the aviation industry; and

(3) directs the Clerk of the House of Representatives to transmit a copy of this resolution to Russ Meyer.

The SPEAKER pro tempore (Mr. SCHIFF). Pursuant to the rule, the gentleman from Illinois (Mr. COSTELLO) and the gentleman from Wisconsin (Mr. PETRI) each will control 20 minutes.

The Chair recognizes the gentleman from Illinois.

#### GENERAL LEAVE

Mr. COSTELLO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous materials on H. Res. 719.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. COSTELLO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H. Res. 719, introduced by the gentleman

from Kansas (Mr. TIAHRT). The resolution recognizes Russell W. Meyer, Jr., for his achievements and lifetime of service to the aviation industry and commends him on his induction into the National Aviation Hall of Fame.

As a leading proponent of aviation, Russ demonstrated strong leadership as the former chairman and chief executive officer of Cessna Aircraft Company. He was instrumental in supporting innovative aviation programs and played a key role in the development of the Be A Pilot program that resulted in tens of thousands of new pilots and contributed more than \$200 million to the economy.

Russ has served on three Presidential commissions and was one of the principal architects of the General Aviation Revitalization Act of 1994.

In 1995 he received one of aviation's most prestigious individual honors, the Wright Brothers Memorial Trophy. It is awarded annually on the anniversary of the Wright brothers' first powered flight.

Mr. Speaker, I urge my colleagues to join me in honoring one of America's pioneers in aviation by supporting H. Res. 719.

I reserve the balance of my time.

Mr. PETRI. Mr. Speaker, I yield myself such time as I may consume.

I rise today in support of the resolution before us, House Resolution 719, recognizing and honoring Russell W. Meyer, Jr., on his induction into the National Aviation Hall of Fame. Probably best known for his role as chairman and chief executive officer of Cessna Aircraft for 28 years, Mr. Meyer is an enthusiastic member of the general aviation community. In the mid-1990s, when the entire general aviation industry was on the brink, he helped push the General Aviation Revitalization Act of 1994 to enactment.

Through the development of the Be A Pilot program, Mr. Meyer did his best to share his love of flying with others. And when Special Olympics athletes faced challenges in transportation to the Games, he organized the Citation Special Olympics Airlift, partnering athletes with Cessna Citation owners and pilots to provide a ride to the Games. In addition to his philanthropic work with the aviation industry, Russ Meyer was also an active philanthropist for local charities in and around his hometown.

For his accomplishments as both an Air Force and Marine Corps aviator, a successful aircraft manufacturing executive and a philanthropist, we honor Russ Meyer and congratulate him on his induction into the National Aviation Hall of Fame.

I urge my colleagues to support the resolution.

I reserve the balance of my time.

Mr. COSTELLO. Mr. Speaker, we have no further speakers on our side.

I reserve the balance of our time.

Mr. PETRI. Mr. Speaker, I yield such time as he may consume to our colleague from Kansas, Representative TODD TIAHRT.

Mr. TIAHRT. Mr. Speaker, I want to first thank Chairman COSTELLO for his leadership on this legislation and also Ranking Member PETRI for his help in recognizing Russ Meyer.

It's with great pleasure that I come to the floor today to commend Russ W. Meyer, Jr., for his induction into the National Aviation Hall of Fame. In April, Russ joined astronauts Ellen Collins, the late Edward White, and movie legend Jimmy Stewart in the class of 2009.

Russ has had a distinguished career both in the private and public arena. While attending Harvard Law School, Russ served with the United States Marine Corps Reserves from 1958 to 1961. After a few years in the private practice of law, Russ entered the aviation industry as president and CEO of Grumman American Aviation Corporation in Cleveland, Ohio. Then Russ came to Wichita, Kansas. Russ joined the Cessna Aircraft Company as executive vice president in June of 1974. One year later he became the chairman and CEO.

There are few who have done more for the general aviation community than Russ. He led Cessna, both as chairman and CEO, for a total of 23 years. During his time with Cessna, Russ led the expansion of the Cessna line of business jets, the world's most popular line of mid-sized jets.

Russ Meyer recognized that business jets are a tremendous productivity tool. It is productivity that has helped our economy grow. We are the number one economy of the world, and it's not because we have fewer regulations. We have more. It's not because we have the lowest wages. We're among the highest. It's because of visionaries like Russ Meyer who gave the American people the ability to do the same work in less time, making us the most productive and strongest workforce and economy in the world.

In the 1980s, the general aviation industry was faced with a tremendous hurdle that threatened to eliminate a big portion of the general aviation aircraft market. Aircraft manufacturers were forced to cease production of their piston-powered aircraft due to liability issues that extended over the life of the aircraft. In response to this threat, Russ put his leadership to work on Capitol Hill. He became one of the principal advocates for the General Aviation Revitalization Act of 1994. This bill provided limited liability on general aviation aircraft and revitalized the general aviation industry.

But this is just one of many contributions Russ has given to the industry as a whole. Far beyond his leadership in the business sector, Russ is also a philanthropist. One person described

Russ as one who has a big heart and wants to serve the underserved. This isn't just talk. Russ was the chairman of a campaign to construct a 42,000-square-foot complex for the Boys and Girls Club of South Central Kansas. He led the fundraising effort and raised over \$9 million for the project.

Russ was also the originator of the Citation Special Olympics Airlift, where hundreds of Citation airplane owners from around the country transport athletes to the national Special Olympic Games. Russ is also a member of the Kansas Aviation Hall of Fame, a Wright Brothers Memorial Trophy holder, has served on three Presidential commissions, and the list goes on.

Like many others, I've known Russ to be a man of vision and action. Whenever Russ takes on a project, he has the ability to rally and inspire everyone around him behind a common goal. Every community wants a Russ Meyer. Every community needs a Russ Meyer. The children of South Central Kansas needed him, and Russ delivered. The aircraft industry needed him, and Russ delivered. He's a big reason why Wichita is known as the air capital of the world.

Once again, I am pleased today that the United States House of Representatives will congratulate and commend Russ W. Meyer, Jr., on his induction into the National Aviation Hall of Fame.

Mr. DICKS. Will the gentleman yield?

Mr. TIAHRT. I will be glad to yield to the gentleman from Washington State (Mr. DICKS).

Mr. DICKS. I want to commend my colleague from Kansas for the extraordinary statement about Russ Meyer, who I have known over the years as you've stated, one of the true leaders in general aviation. And I'd also like to mention my good friend, who was very sick out there in Boise, Idaho, Ed Stimson.

Ed was the head of general aviation manufacturing and worked with Russ, and they were a great team. Your colleague, your predecessor, Dan Glickman worked very hard on the general aviation liability legislation, which was an extraordinary piece of work that completely changed the dynamics and helped general aviation recover. And I was a cosponsor of that legislation. But Russ Meyer is just one of the great leaders in general aviation history.

I commend the gentleman for his remarks and urge the passing of this resolution.

Mr. TIAHRT. I thank the gentleman from Washington State, and I appreciate his contributions to the aircraft industry as well. He's been a stalwart in helping us get American jobs made by American companies, American aircraft.

Mr. OBERSTAR. Mr. Speaker, I rise in support of this legislation, H. Res. 719, introduced by the gentleman from Kansas (Mr. TIAHRT), which commends Russell W. Meyer, Jr. for his induction into the National Aviation Hall of Fame, and for his many contributions to general aviation.

Russ Meyer is an accomplished individual. He earned a Bachelor of Arts from Yale University and a law degree from Harvard University. From 1955–1961, Meyer served as a fighter pilot in both the Air Force and the Marine Corps Reserves. Later, Meyer was Chairman and Chief Executive Officer of Cessna Aircraft Company from 1975 to 2003. In this role, Meyer won two Collier Trophies for expanding the Cessna's Citation line of business jets.

Meyer was an advocate for the General Aviation Revitalization Act of 1994, which placed fair and reasonable limitations on the time period during which a manufacturer would be legally liable for aircraft defects. He also contributed to thousands of new pilots taking flight in the United States with the "Be a Pilot Program." This program helped to reduce the cost of flight schools for new pilots.

To assist athletes traveling to the Special Olympics National Games, Meyer founded the Citation Special Olympics Airlift, which coordinates transportation to the games on Cessna owners' aircraft. In 1995, he won the Wright Brothers Memorial Trophy for this important work.

I urge my colleagues to join me in supporting H. Res. 719.

Mr. PETRI. Mr. Speaker, I have no further requests for time.

I yield back the balance of my time.

Mr. COSTELLO. Mr. Speaker, we have no further requests for time. I urge passage of this legislation.

I yield back the balance of my time  
The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. COSTELLO) that the House suspend the rules and agree to the resolution, H. Res. 719, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

#### MARITIME WORKFORCE DEVELOPMENT ACT

Mr. CUMMINGS. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2651) to amend title 46, United States Code, to direct the Secretary of Transportation to establish a maritime career training loan program, and for other purposes, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2651

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Maritime Workforce Development Act".

#### SEC. 2. MARITIME EDUCATION LOAN PROGRAM.

(a) IN GENERAL.—Chapter 517 of title 46, United States Code, is amended by adding at the end the following:

##### "§ 51705. Maritime career training loan program

"(a) ESTABLISHMENT.—The Secretary of Transportation shall establish a maritime career training loan program (in this section referred to as the 'program') in accordance with the requirements of this section.

"(b) PURPOSE.—The purpose of the program shall be to make maritime career training loans available to eligible students to provide for the training of United States mariners.

"(c) ADMINISTRATION.—The program shall be carried out by the Secretary, acting through the Administrator of the Maritime Administration.

"(d) DUTIES.—The Secretary shall—

"(1) allocate, on an annual basis, the award of loans under the program based on the needs of students;

"(2) develop an application process and eligibility criteria for the award of loans under the program;

"(3) approve applications for loans under the program based on the eligibility criteria and allocations made under paragraph (1); and

"(4) designate maritime training institutions at which loans made under the program may be used.

"(e) DESIGNATION OF MARITIME TRAINING INSTITUTIONS.—

"(1) IN GENERAL.—In designating maritime training institutions under subsection (d)(4), the Secretary—

"(A) may include Federal, State, and commercial training institutions and nonprofit training organizations, except that undergraduate students at the United States Merchant Marine Academy shall not be eligible for loans under the program;

"(B) shall designate institutions based on geographic diversity and scope of classes offered;

"(C) shall ensure that designated institutions have the ability to administer the program; and

"(D) shall ensure that designated institutions meet requirements to provide training instruction for appropriate Coast Guard-approved training instruction.

"(2) EXCLUSIONS.—The Secretary—

"(A) may exclude from participation in the program a maritime training institution that has had severe performance deficiencies, including deficiencies demonstrated by audits or program reviews conducted during the 5 calendar years immediately preceding the present year;

"(B) shall exclude from participation in the program a maritime training institution that has delinquent or outstanding debts to the United States, unless such debts are being repaid under or in accordance with a repayment arrangement satisfactory to the United States, or the Secretary in the Secretary's discretion determines that the existence or amount of any such debts has not been finally determined by the appropriate Federal agency;

"(C) may exclude from participation in the program a maritime training institution that has failed to comply with quality standards established by the Department of Labor, the Coast Guard, or a State; and

"(D) may establish such other criteria as the Secretary determines will protect the financial interest of the United States and promote the purposes of this section.

"(f) STATE MARITIME ACADEMIES.—

"(1) USE OF FUNDS FOR LOANS TO STUDENTS ATTENDING STATE MARITIME ACADEMIES.—The Secretary may obligate not more than 50 percent of the amounts appropriated to carry out this section for a fiscal year for loans to undergraduate students attending State maritime academies receiving assistance under chapter 515 of this title.

"(2) ACADEMIC STANDARDS FOR STUDENTS.—Students at State maritime academies receiving loans under the program shall maintain satisfactory progress toward the completion of their course of study as evidenced by the maintenance of a cumulative C average, or its equivalent, or academic standing consistent with the requirements for graduation, as determined by the institution.

"(g) LOAN AMOUNTS AND USE.—

"(1) MAXIMUM AMOUNTS.—The Secretary may not make loans to a student under the program in an amount that exceeds \$15,000 in a calendar year or \$60,000 in the aggregate.

"(2) USE OF LOAN PROCEEDS.—A student who receives a loan under the program may use the proceeds of the loan only for postsecondary expenses incurred at an institution designated by the Secretary under subsection (d)(4) for books, tuition, required fees, travel to and from training facilities, and room and board.

"(h) STUDENT ELIGIBILITY.—To be eligible to receive a loan under the program, a student shall—

"(1) be eligible to hold a license or merchant mariner document issued by the Coast Guard;

"(2) provide to the Secretary such information as the Secretary may require, including all current Coast Guard documents, certifications, proof of United States citizenship or permanent legal status, and a statement of intent to enter a maritime career;

"(3) meet the enrollment requirements of a maritime training institution designated by the Secretary under subsection (d)(4); and

"(4) sign an agreement to—

"(A) complete a course of instruction at such a maritime training institution; and

"(B) maintain a license or document and work under the authority of the license or document and any associated endorsements for at least 18 months following the date of graduation from the maritime program for which the loan proceeds will be used.

"(i) ADMINISTRATION OF LOANS.—

"(1) CONTENTS OF LOAN AGREEMENTS.—Any agreement between the Secretary and a student borrower for a loan under the program shall—

"(A) be evidenced by a note or other written instrument that provides for the repayment of the principal amount of the loan and any origination fee, together with interest thereon, in equal installments (or, if the student borrower so requests, in graduated periodic installments determined in accordance with such schedules as may be approved by the Secretary) payable quarterly, bimonthly, or monthly, at the option of the student borrower, over a period beginning 9 months from the date on which the student borrower completes study or discontinues attendance at the maritime program for which the loans are used at the institution approved by the Secretary and not exceeding 10 years;

"(B) include provision for acceleration of repayment of the whole, or any part, of such loan, at the option of the student borrower;

"(C) provide the loan without security and without endorsement;

"(D) provide that the liability to repay the loan shall be canceled upon the death of the student borrower, or if the student borrower becomes permanently and totally disabled,

as determined in accordance with regulations to be issued by the Secretary;

“(E) contain a notice of the system of disclosure of information concerning default on such loan to credit bureau organizations; and

“(F) include provisions for deferral of repayment, as determined by the Secretary.

“(2) RATE OF INTEREST.—A student borrower who receives a loan under the program on or after January 1, 2010, and before October 1, 2015, shall be obligated to repay the loan amount to the Secretary, together with interest beginning in the period referred to in paragraph (1)(A), at a rate to be determined as follows:

“(A) For a loan for which the first disbursement is made on or after January 1, 2010, and before October 1, 2011, 5.6 percent on the unpaid principal balance of the loan.

“(B) For a loan for which the first disbursement is made on or after October 1, 2011, and before October 1, 2012, 4.5 percent on the unpaid principal balance of the loan.

“(C) For a loan for which the first disbursement is made on or after October 1, 2012, 3.4 percent on the unpaid principal balance of the loan.

“(3) DISCLOSURE REQUIRED PRIOR TO DISBURSEMENT.—

“(A) IN GENERAL.—The Secretary shall at or prior to the time the Secretary makes a loan to a student borrower under the program, provide thorough and adequate loan information on such loan to the student borrower. The disclosures required by this paragraph may be made as part of the written application material provided to the student borrower, as part of the promissory note evidencing the loan, or on a separate written form provided to the student borrower.

“(B) CONTENTS.—The disclosures shall include—

“(i) the address to which communications and payments should be sent;

“(ii) the principal amount of the loan;

“(iii) the amount of any charges collected at or prior to the disbursement of the loan and whether such charges are to be deducted from the proceeds of the loan or paid separately by the student borrower;

“(iv) the stated interest rate on the loan;

“(v) the yearly and cumulative maximum amounts that may be borrowed;

“(vi) an explanation of when repayment of the loan will be required and when the student borrower will be obligated to pay interest that accrues on the loan;

“(vii) a statement as to the minimum and maximum repayment term that the Secretary may impose, and the minimum monthly payment required by law and a description of any penalty imposed as a consequence of default, such as liability for expenses reasonably incurred in attempts by the Secretary to collect on a loan;

“(viii) a statement of the total cumulative balance, including the loan applied for, owed by the student borrower to the Secretary, and an estimate of the projected monthly payment, given such cumulative balance;

“(ix) an explanation of any special options the student borrower may have for loan consolidation or other refinancing of the loan;

“(x) a statement that the student borrower has the right to prepay all or part of the loan, at any time, without penalty;

“(xi) a statement summarizing circumstances in which repayment of the loan or interest that accrues on the loan may be deferred, and a brief notice of the program for repayment of loans, on the basis of military service, pursuant to the Department of Defense educational loan repayment program (10 U.S.C. 16302);

“(xii) a definition of default and the consequences to the student borrower if the student borrower defaults, together with a statement that the disbursement of, and the default on, a loan under this part shall be reported to a credit bureau or credit reporting agency;

“(xiii) to the extent practicable, the effect of accepting the loan on the eligibility of the student borrower for other forms of student assistance; and

“(xiv) an explanation of any cost the student borrower may incur in the making or collection of the loan.

“(C) INFORMATION TO BE PROVIDED WITHOUT COST.—The information provided under this paragraph shall be available to the Secretary without cost to the student borrower.

“(4) REPAYMENT AFTER DEFAULT.—The Secretary may require any student borrower who has defaulted on a loan made under the program to—

“(A) pay all reasonable collection costs associated with such loan; and

“(B) repay the loan pursuant to an income contingent repayment plan.

“(5) AUTHORIZATION TO REDUCE RATES AND FEES.—Notwithstanding any other provision of this section, the Secretary may prescribe by regulation any reductions in the interest rate or origination fee paid by a student borrower of a loan made under the program as the Secretary determines appropriate to encourage ontime repayment of the loan. Such reductions may be offered only if the Secretary determines the reductions are cost neutral and in the best financial interest of the United States.

“(6) COLLECTION OF REPAYMENTS.—The Secretary shall collect repayments made under the program and exercise due diligence in such collection, including maintenance of all necessary records to ensure that maximum repayments are made. Collection and servicing of repayments under the program shall be pursued to the full extent of the law, including wage garnishment if necessary. The Secretary of the Department in which the Coast Guard is operating shall provide the Secretary of Transportation with any information regarding a mariner that may aid in the collection of repayments under this section.

“(7) REPAYMENT SCHEDULE.—A student borrower who receives a loan under the program shall repay the loan quarterly, bimonthly, or monthly, at the option of the student borrower, over a period beginning 9 months from the date the student borrower completes study or discontinues attendance at the maritime program for which the loan proceeds are used and ending not more than 10 years after the date repayment begins. Provisions for deferral of repayment shall be determined by the Secretary.

“(8) CONTRACTS FOR SERVICING AND COLLECTION OF LOANS.—The Secretary may—

“(A) enter into a contract or other arrangement with State or nonprofit agencies and, on a competitive basis, with collection agencies for servicing and collection of loans under this section; and

“(B) conduct litigation necessary to carry out this section.

“(j) REVOLVING LOAN FUND.—

“(1) ESTABLISHMENT.—The Secretary shall establish a revolving loan fund consisting of amounts deposited in the fund under paragraph (2).

“(2) DEPOSITS.—The Secretary shall deposit in the fund—

“(A) receipts from the payment of principal and interest on loans made under the program; and

“(B) any other monies paid to the Secretary by or on behalf of individuals under the program.

“(3) AVAILABILITY OF AMOUNTS.—Amounts in the fund shall be available to the Secretary, without further appropriation—

“(A) to cover the administrative costs of the program, including the maintenance of records and making collections under this section; and

“(B) to the extent that amounts remain available after paying such administrative costs, to make loans under the program.

“(4) MAINTENANCE OF RECORDS.—The Secretary shall maintain accurate records of the administrative costs referred to in paragraph (3)(A).

“(k) ANNUAL REPORT.—The Secretary, on an annual basis, shall submit to the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate a report on the program, including—

“(1) the total amount of loans made under the program in the preceding year;

“(2) the number of students receiving loans under the program in the preceding year; and

“(3) the total amount of loans made under program that are in default as of the date of the report.

“(l) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for each of fiscal years 2010 through 2015—

“(1) \$10,000,000 for making loans under the program; and

“(2) \$1,000,000 for administrative expenses of the Secretary in carrying out the program.

**“§51706. Maritime recruitment, training, and retention grant program**

“(a) STRATEGIC PLAN.—

“(1) IN GENERAL.—Not later than one year after the date of enactment of this section, and at least once every 3 years thereafter, the Secretary of Transportation, acting through the Administrator of the Maritime Administration, shall publish in the Federal Register a plan that describes the demonstration, research, and multistate project priorities of the Department of Transportation concerning merchant mariner recruitment, training, and retention for the 3-year period following the date of publication of the plan.

“(2) CONTENTS.—A plan published under paragraph (1) shall contain strategies and identify potential projects to address merchant mariner recruitment, training, and retention issues in the United States.

“(3) FACTORS.—In developing a plan under paragraph (1), the Secretary shall take into account, at a minimum—

“(A) the availability of existing research (as of the date of publication of the plan);

“(B) the need to ensure results that have broad applicability;

“(C) the benefits of economies of scale and the efficiency of potential projects; and

“(D) the likelihood that the results of potential projects will be useful to policymakers and stakeholders in addressing merchant mariner recruitment, training, and retention issues.

“(4) CONSULTATION.—In developing a plan under paragraph (1), the Secretary shall consult with representatives of the maritime industry, labor organizations, and other governmental entities and parties with an interest in the maritime industry.

“(5) TRANSMITTAL TO CONGRESS.—The Secretary shall transmit copies of a plan published under paragraph (1) to the Committee on Transportation and Infrastructure of the

House of Representatives and the Committee on Commerce, Science, and Transportation of the Senate.

“(b) DEMONSTRATION PROJECTS.—

“(1) IN GENERAL.—The Secretary may award grants to a maritime training institution to carry out demonstration projects that implement the priorities identified in the plan prepared under subsection (a)(1), for the purpose of developing and implementing methods to address merchant mariner recruitment, training, and retention issues.

“(2) GRANT AWARDS.—Grants shall be awarded under this subsection on a competitive basis under guidelines and requirements to be established by the Secretary.

“(3) APPLICATIONS.—To be eligible to receive a grant for a project under this subsection, a maritime training institution shall submit to the Secretary a grant proposal that includes, at a minimum—

“(A) information demonstrating the estimated effectiveness of the project; and

“(B) a method for evaluating the effectiveness of the project.

“(4) ELIGIBLE PROJECTS.—Projects eligible for grants under this subsection may include—

“(A) the establishment of maritime technology skill centers developed through local partnerships of industry, labor, education, community-based organizations, economic development organizations, or Federal, State, and local government agencies to meet unmet skills needs of the maritime industry;

“(B) projects that provide training to upgrade the skills of workers who are employed in the maritime industry;

“(C) projects that promote the use of distance learning, enabling students to take courses through the use of media technology, such as videos, teleconferencing, and the Internet;

“(D) projects that assist in providing services to address maritime recruitment and training of youth residing in targeted high poverty areas within empowerment zones and enterprise communities;

“(E) the establishment of partnerships with national and regional organizations with special expertise in developing, organizing, and administering merchant mariner recruitment and training services; and

“(F) the establishment of maritime training programs that foster technical skills and operational productivity in communities in which economies are related to or dependent upon the maritime industry.

“(c) PROJECTS AUTHORIZED.—

“(1) PROJECTS.—The Secretary may award grants to carry out projects identified in a plan published under subsection (a)(1) under which the project sponsor will—

“(A) design, develop, and test an array of approaches to providing recruitment, training, or retention services to one or more targeted populations;

“(B) in conjunction with employers, organized labor, other groups (such as community coalitions), and Federal, State, or local agencies, design, develop, and test various training approaches in order to determine effective practices; or

“(C) assist in the development and replication of effective service delivery strategies for the national maritime industry as a whole.

“(2) RESEARCH PROJECTS.—The Secretary may award grants to carry out research projects identified in a plan published under subsection (a)(1) that will contribute to the solution of maritime industry recruitment, training, and retention issues in the United States.

“(3) MULTISTATE OR REGIONAL PROJECTS.—The Secretary may award grants to carry out multistate or regional projects identified in a plan published under subsection (a)(1) to effectively disseminate best practices and models for implementing maritime recruitment, training, and retention services designed to address industry-wide skill shortages.

“(4) GRANT AWARDS.—Grants shall be awarded under this subsection on a competitive basis under guidelines and requirements to be established by the Secretary.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for each of fiscal years 2010 through 2015—

“(1) \$10,000,000 for making grants under this section; and

“(2) \$1,000,000 for administrative expenses of the Secretary in carrying out this section.”

(b) CONFORMING AMENDMENT.—The analysis for such chapter is amended by adding at the end the following:

“51705. Maritime career training loan program.

“51706. Maritime recruitment, training, and retention grant program.”

The SPEAKER pro tempore. Pursuant to the rule, the gentleman from Maryland (Mr. CUMMINGS) and the gentleman from Wisconsin (Mr. PETRI) each will control 20 minutes.

The Chair recognizes the gentleman from Maryland.

GENERAL LEAVE

Mr. CUMMINGS. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and to include extraneous material on H.R. 2651.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Maryland?

There was no objection.

Mr. CUMMINGS. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, as chairman of the Subcommittee on the Coast Guard and Maritime Transportation, I rise today in strong support of the Maritime Work Force Development Act, H.R. 2651, legislation which I authored to address the education and training needs of our Nation's merchant mariners. I thank Congressman OBERSTAR, the chairman of the full committee on Transportation and Infrastructure, Congressman MICA, the ranking member on the full committee, and Congressman LOBIONDO, the ranking member of the Coast Guard Subcommittee, for working with me to support our maritime work force.

H.R. 2651 would amend title 46 of the United States Codes to direct the Secretary of Transportation to establish a student loan program to attract the next generation of workers to the good paying jobs available in the maritime industry.

□ 1415

The loan program will also help those already in the industry obtain the certifications and the training they need to move ahead in their careers.

In October of 2007, I convened a hearing in the Coast Guard Subcommittee to examine trends in the maritime workforce. According to the Bureau of Transportation Statistics, in 2006, there were more than 38,000 on-the-water jobs in sea, coastal, and Great Lakes transportation, and nearly 23,000 jobs in the inland water transportation industry. Many of those who currently work in the industry are nearing retirement age. Thus, the Maritime Administration has indicated that at the time of our hearing, the average age of a mariner with a master's license was 51, while the average age of a chief engineer was 50.

Additionally, significant new standards for training and continuing education have been applied to mariners through the 1995 amendments to the Convention on Standards of Training, Certification and Watchkeeping. These standards have rightly been set to improve safety in the maritime industry by reducing human factors as the causes of maritime accidents, but they have also imposed expensive and very time-consuming training requirements on mariners, particularly on those who are looking to upgrade a document or license to move up the career ladder.

While there are many facilities in the United States that provide outstanding training programs for those seeking to enter or advance in the maritime field, tuition can be extremely expensive. Further, the types of training programs in which mariners enroll are unique and are not easily served by existing loan programs. Mariners who have already begun their careers rarely enroll in 2- or 4-year educational programs. Instead, typically, they enroll in multiweek courses to obtain a specific new certification, and they enroll in such courses several times a year.

I drafted H.R. 2651 in an effort to provide to individuals in the maritime industry a loan program that is tailored to their specific needs and to the types of training programs that serve them. Using the model of existing student loan programs, H.R. 2651 creates a maritime-focused student loan program through which individuals can receive up to \$60,000 in loans over the course of a lifetime. H.R. 2651 also authorizes the appropriation of \$10 million in each of fiscal years 2010 through 2015 to support these loans.

Additionally, H.R. 2651 authorizes the appropriation of \$10 million in each of fiscal years 2010 through 2015 to enable the Department of Transportation to award grants to maritime training institutions to support their efforts to develop and implement programs to address mariner recruitment, training, and retention issues.

In my district in Baltimore, I have been working closely with the Maritime Industries Academy, a public high school with a maritime theme. I have assembled a board of maritime and

education professionals who have worked in an advisory capacity with the school for 2 years and who are now creating a formal foundation to support the school, which opened this current 2009-2010 school year in a new location and with an enrollment level that has tripled in the last 2 years.

The grant program that is authorized by H.R. 2651 would support the growing number of maritime-themed educational institutions, including high schools, throughout the country as they work to expand maritime education opportunities and attract new individuals to a field critical to the success of our national economy.

Finally, Mr. Speaker, I again want to thank Chairman OBERSTAR, Ranking Member MICA, Ranking Member LOBIONDO, and all of our subcommittee for their hard work on H.R. 2651 and urge the adoption of this legislation by the House today.

And with that, Mr. Speaker, I reserve the balance of my time.

Mr. PETRI. Mr. Speaker, I yield myself such time as I might consume.

I rise in support of H.R. 2651, the Maritime Workforce Development Act. The bill will provide needed training and educational opportunities for merchant mariners and those interested in working in the maritime trades. The U.S. Merchant Marine is an important component to our national and economic security, and I support this effort to strengthen this important sector of our workforce.

The bill directs the Maritime Administration to establish a program to support continuing education at approved maritime training institutes and undergraduate training at the five State maritime academies. Loan recipients would be required to commit at least 18 months of service at sea as a condition of participation in the program. This program will improve the opportunities available to those currently serving as merchant mariners and attract new entrants to the maritime workforce.

The bill also directs the Maritime Administration to develop a strategic plan to enhance merchant mariner recruitment, training, and retention, and to fund demonstration projects to further the goals outlined in the plan.

This measure is an important component of the House's ongoing work to support the U.S. Merchant Marine. I strongly support the bill and ask all Members to do the same.

At this point, I would yield 5 minutes to our colleague from North Carolina, VIRGINIA FOXX.

Ms. FOXX. Mr. Speaker, I want to thank my colleague, Mr. PETRI, for yielding me some time.

When I was going over the bills for this week, this bill sort of flew out at me. It seems like a very innocuous bill, like motherhood and apple pie, the kind of thing that we should be doing here. We know that there are a lot of

people needed in the maritime industry.

I visited the Merchant Marine Academy last year. I had a wonderful visit there and was told by the administrators there that there is a huge demand for their graduates, that they have about 10 job offers for every graduate and that we need more people who have excellent education and training in the maritime skills.

However, this bill I think is not doing what we would like for it to do, and it raises more questions, I think, than it answers. I have asked some of the questions of the staff, and I don't get the kind of answers that I think we need to be getting.

I'm very keen on our having accountability for any way that we authorize or spend money, and there is really no accountability in this bill at all. There is no statement of the demand. It says that there were 162,000 jobs in the U.S. water transportation sector in 2006, up from nearly 148,000 jobs reported in 2002, and it says, in the summary, there's a perceived future shortage of workers, not an actual one. So we are going to authorize a program for a perceived need.

The headlines out this week are that our military has gone way beyond its goals in recruiting people, and I suspect that with unemployment as high as it is right now, many, many people are going into skilled trades programs trying to get the kind of licensure they need to get jobs. But again, this bill doesn't present that information. It doesn't say that there are people being turned away from these State programs that are helping these people get the skills they need. It doesn't tell how many people are being turned away from the Merchant Marine Academy.

I am very much concerned that this program is going to be a lot like the program that was funded in 2004 with an earmark requested by DAVID PRICE which gave \$10 million in the Federal budget to a program at UNC Chapel Hill for a new effort to help deployed soldiers of the National Guard and Army Reserves.

An article has said, 5 years later, the citizen-soldiers support program has spent \$7.3 million, but the money has accomplished little for the people it was supposed to help. And, Mr. Speaker, I would like to enter into the RECORD the complete article that I'm referencing. Mr. Speaker, it goes on to say that an internal review found that the program produced reams of paperwork but few concrete results.

Because there's no accountability in this bill, we are giving huge discretion to the Secretary to handle this money. We are not outlining the kinds of things that we, as a Congress, should be outlining. We are not demanding any kind of results from the money that is being spent. And it's a lot of money. It's \$110 million over 2010 to 2014, \$22 million in 2014.

There's a program to give \$10 million for grants to maritime training institutions to establish demonstration projects and other programs to increase mariner recruitment, training, and retention. There is no evidence that such programs need to be out there. Again, we don't know how many people are already applying for such programs.

This money also is going to be available to unions and to community action groups such as ACORN. It's going to very nebulous groups of people.

I have a great concern, again, about how we are going to have any accountability from this program. We, in Congress, have an obligation to make sure that any money that we are spending is being spent as well as it could be spent. We have an almost 10 percent unemployment rate in the country. We are taxing people who are working for a living, and we are taxing them to give the money to programs like this for which, again, there is no accountability and no idea that we are going to get our money's worth out of it. I just think it's very unfair to the American public.

We may need to do this kind of program. I know that the Merchant Marine people told me that we need better educated, better trained people, but I don't think this is the right program.

[From the Raleigh News and Observer, Sept. 25, 2009]

#### PROGRAM PROVIDES LITTLE HELP FOR SOLDIERS CORRECTION

A Sept. 25 front-page article on the Citizen Soldier Support Program stated four of the program's eight employees earned more than \$100,000. Only three employees do: One employee reduced her work schedule to three-quarter time and earns \$77,250. October 6, 2009.

In 2004, U.S. Rep. David Price inserted a \$10 million program into the federal budget, sending the money to UNC—Chapel Hill for a new effort to help deployed soldiers of the National Guard and Army Reserves.

Five years later, the Citizen Soldier Support Program has spent \$7.3 million, but the money has accomplished little for the people it was supposed to help. One-quarter of the money has gone to the university for overhead, and a large part of the rest has been spent on well-paid consultants, six-figure salaries and travel.

Half of the eight full-time employees are paid more than \$100,000 a year, including a deputy director who has been reimbursed \$76,000 for food, travel and lodging when she commutes from her home in northern Virginia to North Carolina.

An internal review found that the program produced reams of paperwork but few concrete results.

"The program has produced volumes of documentation, but the vast majority of this documentation is devoted to conceptual verbiage about how the program will function," the review said. "The CSSP is vulnerable to the accusation that it spends too much money on administrative overhead and low-priority, 'nice-to-do' activities and not enough time on activities directly relevant to its mission."

The head of the N.C. National Guard, Major Gen. William Ingram, has worked with the program since its inception. He said he has experienced many meetings, lots of discussion and stacks of paperwork.

"We're feeding you ideas, we're working with you, but we're not seeing any results," Ingram said in an interview. "We're not seeing a whole lot of action; there's a lot of discussion, but . . . no results."

Ingram said that after four years, the National Guard recently received the first tangible service from the program: a database of North Carolina mental health providers experienced with the military and problems such as post-traumatic stress disorder or traumatic brain injury.

On Thursday, UNC—Chapel Hill Chancellor Holden Thorp told the UNC Board of Trustees that he has ordered the program to shape up.

"The program has serious flaws," Thorp said. "We need the program to show drastic improvement in a short period of time."

#### 16,000 WARRIORS

In 2004, as the U.S. military ramped up operations in Iraq and continued the war in Afghanistan, more and more members of the National Guard and Army Reserves were being mobilized. In all, 16,000 members of the N.C. Guard have been deployed, some of them two or three times.

Price, a Chapel Hill Democrat, saw a need, and he used a controversial method to address it. He inserted an "earmark," an appropriation for a specific project that a member of Congress can include in the budget.

The program was to help soldiers in the North Carolina National Guard and Army Reserves, with the idea that it could serve as a model and eventually be expanded to other states.

Citizen soldiers are scattered around the state in civilian communities. They arid their families lack the institutional support and military community available to soldiers stationed at bases such as Camp Lejeune or Fort Bragg.

"The new program aims to better address challenges Guard and Reserve members and their families face both when they are deployed into duty and when they return home," according to an UNC news release from August 2004.

Price said that the program is worthy of federal funding and that he still supports its goals.

"The check isn't just sent out and forgotten about," Price said. "If these funds haven't been utilized in the most effective way, we need to correct it."

#### ANONYMOUS COMPLAINT

The program started in March 2005; the current end date is December 2009, though UNC has asked for a one-year extension but no more money.

In June 2008, Rep. Sue Myrick received an anonymous fax complaining that the program spent millions with nothing to show for it. Myrick forwarded it to Erskine Bowles, president of the UNC system.

One month later, Peter Leousis, who oversees the program, assured Myrick in a letter that the program had accomplished much.

"We have been and will continue to be good stewards of the taxpayers' dollars in accomplishing CSSP's mission," Leousis wrote.

Reached by telephone recently, Leousis said he would like to discuss the program, but he and his staff have been told by his superiors not to talk to reporters.

#### SCATHING REVIEW

On Feb. 17, seven months after Leousis assured Myrick all was well, Tony Waldrop,

vice chancellor for research and economic development, ordered a committee to review the organization.

The university redacted substantial parts of that review and a related internal audit before release, citing personnel laws. Thorp said the removed sections discuss the actions and job performance of specific employees.

The report listed a host of problems with the program: overpaid employees; employees performing below expectations; an excessive reliance on outside consultants; an unclear chain of command that creates confusion inside and outside the program; few practical results; little or no evaluation; and disproportionate administrative costs.

The review committee said it could neither confirm nor refute the suspicion that "the CSSP may have squandered a substantial portion of its funding on overpaid, under-supervised staffers who spent too much of the time attending to the organization and its shifting priorities and too little time providing real value to groups serving soldiers and their families."

The deputy director for military relations, Susann Kerner-Hoeg, earns a salary of \$129,600. Kerner-Hoeg works from her home in northern Virginia, and the program pays for her travel, lodging and meals when she comes to Chapel Hill. The program has spent \$76,558 over the past three years for Kerner-Hoeg's flights, rental cars, hotel rooms and meals.

During the same period, the program paid \$313,600 to Kent Peterson & Associates of Kansas City, KA. Peterson, a consultant, served as the director of community relations.

It is routine for the university to get a cut of grant money. Academic institutions, which provide administrative support and office space, routinely receive portions of grants for administrative overhead. The figure often runs as high as 46 percent.

#### TURNING IT AROUND?

Waldrop, the vice chancellor in charge of the program, said the review and audit have put it on the right footing.

Waldrop said the program can list some accomplishments: the database of mental health providers; one-day training for 2,000 mental health providers on military culture and the after-effects of war-related injuries; and consulting with the Army Reserve's Yellow Ribbon program.

Neil Caudle, an associate vice chancellor who headed the review committee, said the program is still committed to helping soldiers.

"In six months to a year, we'll be in the right place," Caudle said.

[From the Carolina Journal, Oct. 9, 2009]

#### DELEGATION DENOUNCES EXCESSES IN CITIZEN-SOLDIER PROGRAM

(By David N. Bass)

RALEIGH.—An embattled university program meant to assist soldiers returning from Iraq and Afghanistan must shape up or lose its taxpayer funding, say many of the same North Carolina congressional lawmakers who supported the program's initial federal commitment five years ago.

The Citizen-Soldier Support Program, housed at the Odum Institute for Research in Social Sciences at the University of North Carolina at Chapel Hill, is meant to connect veterans and their families with support systems in local communities. But the program has drawn criticism in recent weeks after an internal UNC-CH review flagged a series of management, personnel, and financial problems.

As Carolina Journal and the News & Observer of Raleigh reported, CSSP has burned through most of its \$10 million in federal funding with little to show for it. Over half of Kits employees earn six-figure salaries, and some have racked up extensive traveling expenses, laying the groundwork for rumors that CSSP "may have squandered a substantial portion of its funding on overpaid, under-supervised staffers," according to the internal review.

The program has also faced criticism for agreeing to pay a Kansas-based consultant up to \$340,000 and for reimbursing its deputy director, who lives in northern Virginia, for travel between her home and CSSP's offices in Carrboro.

Those expenses, mixed with other problems identified by the university review, have raised objections among North Carolina's congressional delegation.

"This program appears to have produced almost no results—other than nice salaries for consultants and bureaucrats," said Rep. Virginia Foxx, R-5th District.

"Many of our guardsmen have been deployed two or three times to Iraq and Afghanistan, and that takes a heavy toll on their families back home," said Rep. Brad Miller, a Democrat from the 13th District. "But worthy goals do not excuse poor performance. I won't support the program again unless the program fixes the problems that the university's internal review found."

Miller's colleague in the House, 4th District Democrat David Price, was responsible for securing the largest chunk of federal funding—\$5 million in 2005. In a statement e-mailed to CJ in late August, Price acknowledged problems in the program but said that UNC—Chapel Hill "has taken concrete steps to address these issues."

The \$5-million earmark had unanimous support from the state's congressional delegation, according to a UNC-CH press release from June 2005. A number of lawmakers are now having second thoughts, however.

"I will not continue to support federally funded programs that do not reach the goals originally intended for the recipients. The American taxpayers deserve better," said Rep. Walter Jones, R-3rd.

"The program has failed to put the needs of our Reserve Component members and their families first, and I do not think that the program should be allowed to continue as it currently is administered," said 9th District GOP Rep. Sue Myrick.

Myrick said she received an anonymous complaint in 2008 about abuses in the CSSP and subsequently contacted UNC system President Erskine Bowles.

"In his response he gave me assurance that each of the allegations would be reviewed," Myrick said. "Now, I'm again receiving anonymous faxes about the program, and with the results of the latest audit now public—it's not good."

Foxx said excesses in the program are an example of why she took a no-earmark pledge in 2007. "Too much taxpayer money gets frittered away like this with little to no oversight," she said.

Calls and e-mails to spokesmen for Reps. G.K. Butterfield, D-1st; Mike McIntyre, D-7th; Larry Kissell, D-8th; and Patrick McHenry, R-10th, were not returned by press time.

Reached by phone, Doug Abrahms, spokesman for 11th District Democratic Congressman Heath Shuler, noted that Shuler was not in Congress when funding for CSSP was first authorized. Asked if Shuler would support continued funding, Abrahms said, "It's

not something that's on his agenda right now."

#### DEADLINE SET

Since reports on the internal review first surfaced in late August, university officials have said that improvements need to be made or else CSSP should be terminated.

"We need this program to show dramatic improvement in a short period of time to remain viable" said UNC-CH Chancellor Holden Thorp at a Board of Trustees meeting Sept. 24.

Kimrey Rhinehardt, vice president for federal relations at UNC General Administration, sent an e-mail dated Aug. 17 to Bowles recommending that CSSP's behavioral health initiative be terminated.

As for the entire program, Rhinehardt wrote, "I think that the CSSP leadership should be permitted a supervised opportunity to dramatically improve the Program subject to review by their National Advisory Committee and Review Committee. If momentum does not tend toward progress by October 23, 2009, then remaining federal funds should be returned and the program should be terminated."

The review committee that authored the internal report is continuing to monitor the program, said UNC-CH spokesman Mike McFarland.

Mr. CUMMINGS. I yield myself such time as I may consume.

I'm sitting here and I'm amazed what I just heard. We spend phenomenal amounts of money on so many things, and we are talking about many young people simply trying to have an opportunity to be all that God meant for them to be.

We've got a situation where we have an industry that is growing, and the question that has arisen many times is whether we are, as a country, being innovative. Are we preparing our people for the opportunities that come forth or are we sitting back and allowing them to get to a certain point, and then when they try to enter the doors that will allow them to rise up to go into the fields that they want to go into, then we say, "Sorry. Too bad. All the money is gone"?

There's something absolutely incredibly wrong with that picture. It's very easy to come down and say, oh, the mariners don't need this money, when, in fact, the costs of the mariner's education has gone up tremendously. It is very easy to say that we don't need this when the age of our folks who are in the industry is at 50 and we need to begin to bring in new people, and we are constantly talking about jobs in America and making sure that our people have the opportunities that they deserve. Something is wrong with the picture when their opportunity comes up and, the next thing you know, we take a hike on them.

One of the things I will say is that this industry is growing. We've had a little bit of a slowdown here recently because of the economic situation, but anybody who knows anything about the maritime industry knows that after this economic situation is over, we will be increasing at a very rapid pace and to a very large extent.

And so while I respect the gentle lady for her comments, what I will say is that this is money that is needed, and it is money that—as I have often said, our children are the living messages that we send to a future we will never see. The question is what kind of message do we send to the future if our children are unprepared, if they are unprepared to take on the responsibilities that lie in front of them? Must we always go overseas to get people to come to do these jobs? We are trying to educate our own, and that is what this is all about.

Mr. Speaker, I have no other speakers, and I would assume that the gentleman would have a closing statement.

I reserve the balance of my time.

Mr. PETRI. I have no further requests for time and yield back the balance of my time.

Ms. RICHARDSON. Mr. Speaker, as a member of the Transportation and Infrastructure Committee I rise to lend my strong support to H.R. 2651, The Maritime Workforce Development Act which will help strengthen our maritime industry by providing loans to students who are pursuing a maritime education. I want to thank my colleague Representative CUMMINGS for bringing this bill to the floor and bringing attention to this important issue.

Having the port of Long Beach in my district, I know the importance of a well educated maritime industry. I also know how few Americans now pursue careers in the maritime industry and we should do what we can to make maritime education possible and affordable to all.

This bill goes a long way towards rectifying problems in our maritime training and I want to thank Mr. CUMMINGS for his work rectifying this important issue. I ask that my colleagues today support this bill, and continue to support our maritime industry.

Mr. OBERSTAR. Mr. Speaker, I rise today in strong support of H.R. 2651, the "Maritime Workforce Development Act". H.R. 2651 directs the Secretary of Transportation to establish a maritime career training and loan program. I thank the gentleman from Maryland (Mr. CUMMINGS) for working on this important piece of legislation.

The maritime industry anticipates a continuing shortage of qualified merchant mariners. Due to projected increases in commercial maritime traffic and a maritime workforce that is approaching retirement age, a maritime training program is needed to help ensure that our nation will continue to have skilled and experienced U.S. citizen merchant mariners. Such a program can begin in high schools by creating maritime training curriculum for students to obtain the basic knowledge of the maritime industry and skills to gain an entry-level job.

H.R. 2651 also creates a maritime loan program that meets the needs and training requirements of mariners, which they may not get through a traditional two- or four-year educational institution.

Mariners have certification courses that can last from two weeks to several months and

their courses are typically taken between voyages. When mariners seek to enhance their credentials, they need a loan program that helps them with expenses while they are taking the time off to pursue certifications or licenses. H.R. 2651 creates a loan program to help mariners pay for their books, tuition, fees, room and board, and travel to and from their training facilities.

In these tough economic times with high unemployment rates, it is critical for there to be a mechanism to aid people interested in a maritime career, whether they are recent high school graduates or if they graduated from high school 10 or 20 years ago. There is a shortage of maritime workers and a high percentage of mariners are approaching retirement age. Something must be done now to fill the gap and help sustain an adequate number of qualified mariners. To that end, H.R. 2651 authorizes \$10 million for each of fiscal years 2010 to 2015 to fund the education of mariners, and sustain our vital maritime industry.

H.R. 2651 also requires the Secretary of Transportation to establish a maritime recruitment, training, and retention grant program. The Secretary is directed to consult with representatives of the maritime industry, labor organizations, other governmental entities and maritime industry interests. This program will be imperative to the maritime industry in recruiting new mariners, keeping current mariners, and assisting them with training and upgrading their licenses. H.R. 2651 authorizes \$10 million for each of fiscal years 2010 to 2015 to fund grants to support this program.

The nation's maritime cargo volumes are expected to double by 2020. As waterborne commerce expands in the United States, there is a great need to meet the labor demands that the continued growth in the maritime industry is expected to create. H.R. 2651 creates mechanisms to ensure that our nation will be well equipped to handle the welcomed maritime growth.

I urge my colleagues to join me in supporting H.R. 2651.

Ms. JACKSON-LEE of Texas. Mr. Speaker I rise before you today in support of H.R. 2651, the "Maritime Workforce Development Act". I would like to thank my colleague, Rep. CUMMINGS, for introducing this act, as well as the co-sponsors.

This bill would amend Title 46 of the United States Code to direct the Secretary of Transportation to establish a student loan program to attract the next generation of workers to the good paying jobs available in the maritime industry. The loan program will also help those already in the industry obtain the certifications and training they need to move ahead in their careers.

According to the Bureau of Transportation Statistics, in 2006, there were more than 38,000 on-the-water jobs in sea, coastal, and Great Lakes transportation, and nearly 23,000 in the inland water transportation industry. Many of those who currently work in the industry are nearing retirement age. Thus, the Maritime Administration indicated that at the time of our hearing, the average age of a mariner with a Master's license was 51 while the average age of a Chief Engineer was 50.

Additionally, significant new standards for training and continuing education have been

applied to mariners through the 1995 amendments to the Convention on the Standards of Training, Certification, and Watchkeeping. These standards have rightly been set to improve safety in the maritime industry by reducing human factors as the causes of maritime accidents but they have also imposed expensive and time-consuming training requirements on mariners—particularly on those who are looking to upgrade a document or license to move up the career ladder.

While there are many facilities in the United States that provide outstanding training programs for those seeking to enter or advance in the maritime field, tuition can be very expensive. Further, the types of training programs in which mariners enroll are unique—and are not easily served by existing loan programs. Mariners who have already begun their careers rarely enroll in 2- or 4-year educational programs. Instead, they typically enroll in multi-week courses to obtain a specific new certification—and they enroll in such courses several times a year.

This bill provides a loan program to individuals in the maritime industry that is tailored to their specific needs and to the types of training programs that serve them. Using the model of existing student loan programs, it creates a maritime-focused student loan program through which individuals can receive up to \$60,000 in loans over the course of a lifetime. This grant program would support the growing number of maritime-themed educational institutions—including high schools—throughout the country as they work to expand maritime education opportunities and attract new individuals to a field critical to the success of our national economy.

The bill also authorizes the appropriation of \$10 million in each of fiscal years 2010 through 2015 to support loans. Additionally, this legislation authorizes the appropriation of \$10 million in each of fiscal years 2010 through 2015 to enable the Department of Transportation to award grants to maritime training institutions to support their efforts to develop and implement programs to address mariner recruitment, training, and retention issues.

Mr. CUMMINGS. Mr. Speaker, I yield back.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Maryland (Mr. CUMMINGS) that the House suspend the rules and pass the bill, H.R. 2651, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

#### GEORGE P. KAZEN FEDERAL BUILDING AND UNITED STATES COURTHOUSE

Ms. HIRONO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 2423) to designate the Federal building and United States courthouse located at 1300 Victoria Street in Laredo, Texas, as the “George P. Kazen

Federal Building and United States Courthouse”, and to designate the jury room in that Federal building and United States courthouse as the “Marcel C. Notzon II Jury Room”, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 2423

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. BUILDING DESIGNATION.

(a) DESIGNATION.—The Federal building and United States courthouse located at 1300 Victoria Street in Laredo, Texas, shall be known and designated as the “George P. Kazen Federal Building and United States Courthouse”.

(b) REFERENCES.—Any reference in a law, map, regulation, document, paper, or other record of the United States to the Federal building and United States courthouse referred to in subsection (a) shall be deemed to be a reference to the “George P. Kazen Federal Building and United States Courthouse”.

#### SEC. 2. EFFECTIVE DATE.

*This Act shall take effect on the first day on which George P. Kazen is no longer serving as a Federal judge.*

□ 1430

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Hawaii (Ms. HIRONO) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentlewoman from Hawaii.

#### GENERAL LEAVE

Ms. HIRONO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous material on H.R. 2423.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Hawaii?

There was no objection.

Ms. HIRONO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, H.R. 2423, as amended, is a bill to designate the federal building and United States courthouse located at 1300 Victoria St. in Laredo, Texas as the George P. Kazen Federal Building and United States Courthouse.

Congressman CUELLAR introduced this bill, which has bipartisan support. Judge Kazen has served the people of the southern judicial district of Texas with great distinction and dedication since 1979. He is a graduate of the University of Texas, and the University of Texas Law School. After serving in private practice in Laredo, Texas he was nominated to the federal bench by President Jimmy Carter in 1979. He served in the southern district of Texas and served as Chief Judge in that district from 1996 until 2003.

Judge Kazen was also very active in his community, serving as a member in the U.S. Air Force, founding the Laredo Legal Aid Society, and serving in numerous capacities in civic organizations in South Texas. Judge Kazen served as President of the Laredo Civic Music Association, the Boys' and Girls' Clubs

of Laredo, the St. Augustine-Ursuline School Board, and as a member of the Laredo Community College Board of Trustees.

It is both fitting and proper to honor Judge Kazen's distinguished public career with this designation. I support H.R. 2423 as amended and urge my colleagues to join me in supporting this bill.

Mr. Speaker, I yield such time as he may consume to the author of the bill, Mr. CUELLAR of Texas.

Mr. CUELLAR. Thank you very much for yielding.

Mr. Speaker, I rise today to recognize the outstanding contributions of a fine public servant in Laredo, Texas, Judge George P. Kazen. This is an individual that has dedicated the majority of his life to upholding the justice system in south Texas.

In 1979, President Jimmy Carter appointed Judge George P. Kazen to be a United States district judge. For four decades, he served south Texas as a tireless advocate for fairness under the law. From 1996 to 2003, he was the chief judge of the United States Southern District, which includes the areas of Houston, Galveston, Victoria, Laredo, Corpus Christi, McAllen and Brownsville in Texas. Judge Kazen is also a JAG officer for the United States Air Force, and in 1965 he received the United States Air Force Commendation Medal.

Judge Kazen is married to Barbara Ann and they have four children. He is, without a doubt, a selfless public servant who has been a tremendous credit to the city of Laredo and the State of Texas and our great Nation.

I also want to recognize Judge Kazen's Federal magistrate, the Honorable Marcel Notzen. Since 1967, Marcel Notzen, the magistrate, served for four decades in front and behind the bench, as an attorney, as a law partner, and most recently as a U.S. magistrate for the Southern District. Judge Notzen is married to Nora Lee, and they have six children.

It is with great pride that I authored this legislation, H.R. 2423, to name the United States Courthouse located at 1300 Victoria Street in Laredo, Texas, as the George P. Kazen Federal Building and United States Courthouse in honor of George Kazen. It is also my legislative intent, Mr. Speaker, to name the jury room in the United States courthouse as the Marcel C. Notzen, II Jury Room. I think this is a way to thank these two individuals who have worked so hard for their Nation as judges.

I want to thank all of my Texas colleagues for helping me recognize these exceptional individuals. By recognizing these individuals, their contributions will be remembered and they will continue to inspire those individuals who follow their lead in preserving the American justice system.

I urge my colleagues to support this legislation.

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, after hearing the eloquent explanation from the sponsor of the legislation, I thank him for his leadership on this bill and many others.

This bill would designate a Federal building and courthouse in Laredo, Texas as the "George P. Kazen Federal Building and United States Courthouse."

Judge Kazen has served on the District Court for the Southern District of Texas since 1979.

From 1996 to 2003, Judge Kazen served as chief judge and, earlier this year he assumed senior status.

Prior to his appointment to the federal bench, Judge Kazen was in the private practice of law.

Earlier in his career he served in the JAG Corp as a U.S. Air Force Captain and worked as a briefing attorney for the Texas Supreme Court.

He received both his bachelor's degree and law degree from the University of Texas.

His career demonstrates his dedication to public service and the law.

I have no objections to the passage of this legislation.

Mr. OBERSTAR. Mr. Speaker, I rise in support of H.R. 2423, as amended, a bill to designate the Federal building and United States courthouse located at 1300 Victoria Street in Laredo, Texas as the "George P. Kazen Federal Building and United States Courthouse". The Federal building and U.S. Courthouse designation will become effective when Judge George P. Kazen retires and is no longer serving as a federal judge. The bill was introduced by the gentleman from Texas (Mr. CUELLAR) and has bipartisan support.

George P. Kazen was born in Laredo, Texas, in 1940. In 1960, he earned a bachelor's degree in Business Administration from the University of Texas. He later earned his law degree from the University of Texas School of Law in 1961. Kazen began his professional career as a Briefing Attorney for the Texas Supreme Court in 1961 and 1962. From 1962 to 1965, he was a U.S. Air Force Captain in the JAG Corps. Following his military service, Kazen worked in a private practice in Laredo until 1979.

In 1979, President Jimmy Carter nominated George P. Kazen as a U.S. District Court Judge for the Southern District of Texas. Judge Kazen has served on the bench for more than 30 years, including as Chief Judge from 1996 to 2003. On May 31, 2009, he assumed senior status on the court.

During his tenure on the bench, Judge Kazen considered a wide variety of cases. In *Luna v. Van Zandt*, a 1982 case, he invalidated a Texas statute that allowed for the detaining of individuals perceived as mentally ill for up to 14 days without a commitment hearing. In addition, Judge Kazen has testified before Congress and written several articles on issues of Federalism and the courts. Outside of the courtroom, Judge Kazen is a stalwart of his community, serving on numerous civic organizations in South Texas.

Given Judge George P. Kazen's exemplary public service, it is fitting to designate the Federal building and United States courthouse lo-

cated at 1300 Victoria Street in Laredo, Texas, as the "George P. Kazen Federal Building and United States Courthouse".

I urge my colleagues to join me in supporting H.R. 2423.

Mr. MARIO DIAZ-BALART of Florida. I yield back the balance of my time.

Ms. HIRONO. Mr. Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Hawaii (Ms. HIRONO) that the House suspend the rules and pass the bill, H.R. 2423, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Ms. HIRONO. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX and the Chair's prior announcement, further proceedings on this motion will be postponed.

#### NATIONAL WOMEN'S HISTORY MUSEUM ACT OF 2009

Ms. HIRONO. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 1700) to authorize the Administrator of General Services to convey a parcel of real property in the District of Columbia to provide for the establishment of a National Women's History Museum, as amended.

The Clerk read the title of the bill.

The text of the bill is as follows:

H.R. 1700

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

*This Act may be cited as the "National Women's History Museum Act of 2009".*

#### SEC. 2. DEFINITIONS.

*In this Act, the following definitions apply:*

(1) **ADMINISTRATOR.**—The term "Administrator" means the Administrator of General Services.

(2) **CERCLA.**—The term "CERCLA" means the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9601 et seq.).

(3) **COMMITTEES.**—The term "Committees" means the Committee on Transportation and Infrastructure of the House of Representatives and the Committee on Environment and Public Works of the Senate.

(4) **MUSEUM.**—The term "Museum" means the National Women's History Museum, Inc., a District of Columbia nonprofit corporation exempt from taxation pursuant to section 501(c)(3) of the Internal Revenue Code of 1986.

(5) **PROPERTY.**—The term "property" means the property located in the District of Columbia, subject to survey and as determined by the Administrator, generally consisting of Squares 325 and 326. The property is generally bounded by 12th Street, Independence Avenue, C Street, and the James Forrestal Building, all in Southwest Washington, District of Columbia, and shall include all associated air rights, improvements thereon, and appurtenances thereto.

#### SEC. 3. CONVEYANCE OF PROPERTY.

(a) **AUTHORITY TO CONVEY.**—

(1) **IN GENERAL.**—Subject to the requirements of this Act, the Administrator shall convey the property to the Museum on such terms and conditions as the Administrator considers reasonable and appropriate to protect the interests of the United States and further the purposes of this Act.

(2) **AGREEMENT.**—As soon as practicable, but not later than 180 days after the date of enactment of this Act, the Administrator shall enter into an agreement with the Museum for the conveyance.

(3) **TERMS AND CONDITIONS.**—The terms and conditions of the agreement shall address, among other things, mitigation of developmental impacts to existing Federal buildings and structures, security concerns, and operational protocols for development and use of the property.

(b) **PURCHASE PRICE.**—

(1) **IN GENERAL.**—The purchase price for the property shall be its fair market value based on its highest and best use as determined by an independent appraisal commissioned by the Administrator and paid for by the Museum.

(2) **SELECTION OF APPRAISER.**—The appraisal shall be performed by an appraiser mutually acceptable to the Administrator and the Museum.

(3) **TERMS AND CONDITIONS FOR APPRAISAL.**—

(A) **IN GENERAL.**—Except as provided by subparagraph (B), the assumptions, scope of work, and other terms and conditions related to the appraisal assignment shall be mutually acceptable to the Administrator and the Museum.

(B) **REQUIRED TERMS.**—The appraisal shall assume that the property does not contain hazardous substances (as defined in section 101 of CERCLA (42 U.S.C. 9601)) which require response action (as defined in such section).

(c) **APPLICATION OF PROCEEDS.**—The purchase price shall be paid into the Federal Buildings Fund established under section 592 of title 40, United States Code. Upon deposit, the Administrator may expend, in amounts specified in appropriations Acts, the proceeds from the conveyance for any lawful purpose consistent with existing authorities granted to the Administrator, except that the Administrator shall provide the Committees with 30 days advance written notice of any expenditure of the proceeds.

(d) **QUIT CLAIM DEED.**—The property shall be conveyed pursuant to a quit claim deed.

(e) **USE RESTRICTION.**—The property shall be dedicated for use as a site for a national women's history museum for the 99-year period beginning on the date of conveyance to the Museum.

(f) **REVERSION.**—

(1) **BASES FOR REVERSION.**—The property shall revert to the United States, at the option of the United States, without any obligation for repayment by the United States of any amount of the purchase price for the property, if—

(A) the property is not used as a site for a national women's history museum at any time during the 99-year period referred to in subsection (e); or

(B) the Museum has not commenced construction of a museum facility on the property in the 5-year period beginning on the date of enactment of this Act, other than for reasons beyond the control of the Museum as reasonably determined by the Administrator.

(2) **ENFORCEMENT.**—The Administrator may perform any acts necessary to enforce the rever- sionary rights provided in this section.

(3) **CUSTODY OF PROPERTY UPON REVERSION.**—If the property reverts to the United States pursuant to this section, such property shall be under the custody and control of the Administrator.

(g) **CLOSING DEADLINE.**—The conveyance pursuant to this Act shall occur not later than 3

years after the date of enactment of this Act. The Administrator may extend that period for such time as is reasonably necessary for the Museum to perform its obligations under section 4(a).

#### SEC. 4. ENVIRONMENTAL MATTERS.

(a) **AUTHORIZATION TO CONTRACT FOR ENVIRONMENTAL RESPONSE ACTIONS.**—The Administrator is authorized to contract, in an amount not to exceed the purchase price for the property, with the Museum or an affiliate thereof for the performance (on behalf of the Administrator) of response actions (if any) required on the property pursuant to CERCLA.

(b) **CREDITING OF RESPONSE COSTS.**—Any costs incurred by the Museum or an affiliate thereof pursuant to subsection (a) shall be credited to the purchase price for the property.

(c) **RELATIONSHIP TO CERCLA.**—Nothing in this Act may be construed to affect or limit the application of or obligation to comply with any environmental law, including section 120(b) of CERCLA (42 U.S.C. 9620(b)).

#### SEC. 5. INCIDENTAL COSTS.

Subject to section 4, the Museum shall bear any and all costs associated with complying with the provisions of this Act, including studies and reports, surveys, relocating tenants, and mitigating impacts to existing Federal buildings and structures resulting directly from the development of the property by the Museum.

#### SEC. 6. LAND USE APPROVALS.

(a) **EXISTING AUTHORITIES.**—Nothing in this Act shall be construed as limiting or affecting the authority or responsibilities of the National Capital Planning Commission or the Commission of Fine Arts.

##### (b) COOPERATION.—

(1) **ZONING AND LAND USE.**—Subject to paragraph (2), the Administrator shall reasonably cooperate with the Museum with respect to any zoning or other land use matter relating to development of the property in accordance with this Act. Such cooperation shall include consenting to applications by the Museum for applicable zoning and permitting with respect to the property.

(2) **LIMITATIONS.**—The Administrator shall not be required to incur any costs with respect to cooperation under this subsection and any consent provided under this subsection shall be premised on the property being developed and operated in accordance with this Act.

#### SEC. 7. REPORTS.

Not later than one year after the date of enactment of this Act, and annually thereafter until the end of the 5-year period following conveyance of the property or until substantial completion of the museum facility (whichever is later), the Museum shall submit annual reports to the Administrator and the Committees detailing the development and construction activities of the Museum with respect to this Act.

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from Hawaii (Ms. HIRONO) and the gentleman from Florida (Mr. MARIO DIAZ-BALART) each will control 20 minutes.

The Chair recognizes the gentlewoman from Hawaii.

##### GENERAL LEAVE

Ms. HIRONO. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous materials on H.R. 1700.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Hawaii?

There was no objection.

Ms. HIRONO. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I am pleased to support H.R. 1700, as amended, as bill which directs the Administrator of General Services to sell at fair market value property in Southwest Washington, DC to the National Women's History Museum, Inc., a District of Columbia non-profit corporation for the purpose of establishing a museum dedicated to women's history.

This bill was introduced by Mrs. MALONEY and co-sponsored by many members including Subcommittee Chair NORTON, Ranking Member Mr. DIAZ-BALART and myself.

The National Women's History Museum was founded in 1996, and has been seeking a permanent physical location in the Nation's capital since its inception. According to museum officials, the museum intends to build a "green" building that will cost between \$250 and \$350 million. The costs will include designs, plans, construction, and two years of operation. The permanent museum is expected to be a focal point that will have permanent and temporary exhibits, special events, and education materials that highlight women's social, political, and intellectual contributions to history. According to the museum, this facility will house the first permanent and comprehensive record of women's history.

The National Women's History Museum will have five years to raise funds to construct the museum. If, after five years, the fundraising has not been successful, the property will revert back to the Federal government, thus the government's interests are protected.

In general the museum will bear the costs of the sale, including the appraisal.

This bill has bipartisan support and I urge my colleagues to join me in supporting H.R. 1700 as amended.

I yield such time as she may consume to the author of this legislation, Mrs. MALONEY.

Mrs. MALONEY. Thank you so much for yielding.

This is a very important day for women's history. Today, we are recognizing the immense contributions women have made to our Nation by voting to help create the National Women's History Museum.

I am grateful to Chairman OBERSTAR for his support in moving this bill through committee. And of course I thank my partner in this, Chairwoman ELEANOR HOLMES NORTON, whose dedication and commitment in creating a museum about women has been persistent and strong. And I thank her staff, Susan Brita, and mine, Orly Isaacson, for their hard work.

We have been working on this effort for well over 10 years to provide women, comprising 53 percent of our population, recognition of their many contributions that are the very fabric of our country. I strongly urge my colleagues to vote in favor of this bipartisan bill and bring the Women's History Museum to the National Mall.

There are 211 statues in the Capitol Building, each honoring a leader from our Nation's history, but only 11 of these statues are of female leaders. Of

America's 2,004 historic landmarks, fewer than five chronicle the achievements of women. Even more troubling, a recent study revealed that only one of every 10 people identified in the 18 most commonly used U.S. history textbooks is female.

The museums and memorials in Washington are one measure of what our society values. We already have museums for stamps and for spies, but not one dedicated to women. This bill would honor our Nation's foremothers and inspire future generations of women leaders by providing a space on the National Mall to honor women's contributions to American history.

From Susan B. Anthony to Sojourner Truth to Oprah Winfrey, from Hattie Caraway, the first woman elected to the United States Senate, to Sonia Sotomayor, our Nation's first Latina woman appointed to the U.S. Supreme Court, the story of what women have contributed to the American way of life is a very long, overdue story.

The bill directs the General Services Administration to sell property located across from the National Mall at 12th and Independence to the museum at a fair market price. Reasonable time frames are included for the transfer of the property and the beginning of construction. The museum will be built and maintained with private funds.

I urge my colleagues to support the National Women's History Museum, and in so doing, honor our mothers, sisters, wives, and daughters.

I am really thrilled that it is here before us on the floor today. For too long, women's history has been missing from textbooks, memorials, museums, exhibits, and many other venues. With this bill designating a permanent building site, this museum will bring to life and tell all the stories of American history, male and female alike.

I would also like to recognize and thank the National Women's History Museum, and especially Joan Wages, their president. The museum played a leading role in moving the suffragist's statue out of the basement into the living room of the Capitol, Statuary Hall. They have been working with me and ELEANOR HOLMES NORTON on this project well over 10 years. I look forward to continuing our work together as we see the museum built right across from our National Mall, and that we have, for the first time, a national museum dedicated to the many contributions of women.

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, I yield myself as much time as I may consume.

Mr. Speaker, this is a nonpartisan, not-for-profit educational institution dedicated to preserving, interpreting, and celebrating the diverse and important historic contributions of women and integrating this rich heritage fully into our Nation's history in a place

where everyone will be able to see, everyone will be able to visit right here in the heart of the Nation's Capital.

Again, H.R. 1700 is intended to help pave the way for a women's museum in the Nation's Capital dedicated to recognizing the significant contributions of women throughout our wonderful and rich history. And despite the significant contributions of women throughout the history of our country, frankly, women continue to be under-represented in exhibits featured in our museums.

The stories and contributions of women are critical to understanding our history as a Nation. And this is one way, just one way, that we can ensure that this history is passed along to our sons and to our daughters.

I think it is very befitting that this legislation would provide a prominent site for the National Women's History Museum near the National Mall, again, right here in our Nation's Capital.

I am pleased to be a cosponsor of this bill, along with approximately 50 other of my colleagues. I also want to recognize the work of not only Representative MALONEY and Chairwoman NORTON, who chairs our subcommittee with great distinction, but also Senator SUSAN COLLINS, who has worked tirelessly over the previous Congresses on legislation to secure a site for the National Women's History Museum.

I support the passage of this legislation, Mr. Speaker, and I urge my colleagues to do so same.

Mr. Speaker, I reserve the balance of my time.

Ms. HIRONO. Mr. Speaker, I yield 2 minutes to the Honorable ELEANOR HOLMES NORTON of Washington, D.C.

Ms. NORTON. I thank you for yielding. And I thank the ranking member of the subcommittee for working with me to make sure that this bill came to the floor today. I especially thank my good friend, the original sponsor of this bill, the gentlewoman from New York, who has worked tirelessly to make sure this bill got done. And I want to take note of the women who for 10 years have never given up on this idea.

I had to overcome a presumption against transferring Federal property, so I encountered many difficulties in trying to get this bill through. But women never say no, and that is very important to achieving what is long overdue, this bill.

And note what the mission of the National Women's Museum is: to research, collect and showcase the contributions of women in professional fields as well as honor women's roles in nurturing their families and communicates. Women are absent from the Mall. Women are absent from prominent government sites. Part of it has to do with inequality of women in our society, that they haven't as often done what comes to light, but even when what comes to light comes, they

are not recognized. That's why we need a women's museum. We note that this year there are women winning Nobel Prizes in science and economics, which shows you that you are going to have a lot to honor in this museum very quickly.

We went through regular order. The Women's museum has to buy the parcel at market value. They have 5 years to raise the money or it reverts back to the government. That is regular order; that's the way it always is when we transfer a property. But the women are geared up and ready to go, and I thank all concerned for making this bill possible today, especially my partner in this enterprise, the gentlelady from New York, and most of all the women themselves who refused to give up and now have what they deserve.

□ 1445

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, I reserve the balance of my time.

Ms. HIRONO. I yield 2 minutes to the gentleman from Virginia, the Honorable JIM MORAN.

Mr. MORAN of Virginia. Mr. Speaker, in a perfect world, this legislation would not be necessary, but gosh sakes, only 5 percent of our national historic landmarks are in recognition of the accomplishments of more than half of our population. This is long overdue.

I want to particularly recognize the sponsor, Chairwoman CAROLYN MALONEY; Joan Wages, who was head of the National Women's History Museum idea for a number of years; MAZIE HIRONO; and of course, her very able assistant for our public buildings, Susan Brita. All of these folks, who happen to be women, have brought this about.

I want to underscore the fact that it simply authorizes the General Services Administration to convey a parcel of real property near the National Mall for the establishment of the National Women's History Museum. Fair market rates prevail, and the museum will be funded with private contributions. Since it is for women, about women and by women, they're going to achieve that contrary to some of the other things we've attempted. This is going to be a museum that all of the Nation's population is going to be very proud of. It's long overdue. Let's get it done.

Thanks to all who were involved in making it happen.

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, I reserve the balance of my time.

Ms. HIRONO. I yield 2 minutes to the gentlewoman from California, the Honorable LYNN WOOLSEY.

Ms. WOOLSEY. Thank you, Madam Hirono, and thank you to the gentlewoman from New York for all you do for women day in and day out.

Mr. Speaker, I rise in strong support of H.R. 1700, the National Women's History Museum Act of 2009. It is impor-

tant because Congress and our Nation, as a whole, must find ways to honor the important roles of women, roles that women have played in shaping our very country.

Unfortunately, before the 1970s, the subject of women's history was largely missing from our schools, and it was absent completely in media coverage and in cultural celebrations. That's why, when I chaired the Sonoma County Commission on the status of women in 1978, the commission's education task force initiated a Women's History Week celebration, centered around international women's history day. That celebration, that very celebration, started a national movement.

In 1981, Congress responded to the growing popularity of Women's History Week, which was led by the women from my community in Sonoma County, by making it a national observance, and it eventually expanded the week to a month in 1987. During National Women's History Month, many cities and towns celebrate women's contributions through parades and other activities.

By building a National Women's History Museum, we will ensure that our Nation celebrates women not just during 1 month but throughout the year, every year, and it will ensure that young families, young girls and young boys come to Washington, D.C., to visit the women's museum and to remember what women have contributed and are contributing.

Again, I would like to thank my colleague from New York, Representative MALONEY, for her leadership.

I urge my colleagues to support this important bill.

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, I reserve the balance of my time.

Ms. HIRONO. I yield 1 minute to the gentleman from Pennsylvania, the Honorable CHAKA FATTAH.

Mr. FATTAH. Let me thank the gentlewoman, and let me thank the sponsor of this bill, the gentlewoman from New York.

Mr. Speaker, I rise in one of my proudest moments in the House to support this legislation. As the father of three daughters, I am looking forward to the day I can bring them to the museum here in Washington to learn about the great achievements that continue until this day of women throughout the United States of America in all fields and endeavors.

So I congratulate the sponsor, and I hope for its favorable consideration.

Mr. MARIO DIAZ-BALART of Florida. Mr. Speaker, I yield back the balance of my time.

Ms. HIRONO. Mr. Speaker, I want to thank all of the speakers who supported this resolution. As a woman, of course, it has special meaning to me as well as to all of the other women in the House.

Mr. OBERSTAR. Mr. Speaker, I rise in support of H.R. 1700, as amended, a bill to direct

the Administrator of the General Services Administration to sell, at fair market value, real property in southwest Washington, DC, commonly known as the "Cotton Annex" site, to the National Women's History Museum, Inc., NWHM, a District of Columbia nonprofit corporation, for the purpose of establishing a museum dedicated to women's history. The site is bounded by 12th Street SW., Independence Ave., the James Forrestal Building, and C Street SW. The NWHM is a nonpartisan, educational institution with a mission of highlighting and celebrating the historic contributions of women in the United States. The bill was introduced by the gentlewoman from New York (Mrs. MALONEY) and has bipartisan support.

H.R. 1700 requires that fair market value of the property be determined by highest and best use, as determined by an independent appraisal commissioned by the Administrator of the General Services Administration, GSA, and paid for by the museum.

The National Women's History Museum will have 5 years to raise funds to construct the museum. If, after 5 years, the fundraising effort has not been successful, the property will revert back to the Federal Government. The Federal Government is further protected by limiting use of the parcel as a site for the National Women's History Museum for 99 years.

It is with great pleasure and satisfaction that I support H.R. 1700, as amended. The committee has worked with staff from the Women's Museum for almost 10 years to find a suitable site, determine an appropriate disposal method, and identify terms and conditions that were acceptable to GSA.

I urge my colleagues to join me in supporting H.R. 1700.

Ms. JACKSON-LEE of Texas. Mr. Speaker, I stand here before you not only as a member of the United States Congress, but as a woman. I fully support H.R. 1700, "National Women's History Museum Act of 2009", this is an issue that I hold dear to my heart. This bill will increase awareness and knowledge of women's involvement in history.

Women's history is a vital part of American history, however it is not public knowledge; mostly in part to the lack of women's history education in the schools. The establishment of a National Women's History Museum would be a great tribute to all of those women whose stories are not told in history books. We must celebrate the women who paved the way for the rest of us. I thank my colleague Representative MALONEY, for introducing this valuable piece of legislation.

Today, women account for 51 percent of the world's population and throughout "woman's-kind" we have had countless sisters whose brilliance, bravery and power changed the course of history. H.R. 1700 will provide for an establishment which will recognize and honor the women and organizations in the United States that have fought for and continue to promote women's history.

A National Women's History Museum will bring awareness to all of those women who have broken barriers and glass ceilings for the rest of us. Women such as the honorable Speaker PELOSI, the honorable Ruth Bader Ginsburg, Shirley Chisholm, Susan B. Anthony, Barbara Jordan, Sojourner Truth,

Sacagawea, Rosa Parks, Amelia Earhart, Annie Oakley, and the list could go on for miles.

A museum devoted to women's history will shed light not only on well known women of history, but also those less renowned, such as Belva Ann Lockwood, who fought for admittance into law school. She fought to practice before the Supreme Court and even ran two full campaigns to run for President of the United States, although she could not vote.

In Texas, women such as former Governor Ann Richards, who was an accomplished political worker, Texas state treasurer, and Governor of Texas. Furthermore, Rosanna Osterman was a Texas pioneer, American Civil War nurse and philanthropist. She lived in Galveston, and during the 1853 yellow fever epidemic, she erected a temporary hospital on her family premises in order to nurse the sick and the dying. Osterman also chose to stay in Galveston during the civil war and opened her home as a hospital, first to Union soldiers, then to Confederate soldiers.

American women of every race, class, and ethnic background have made historic contributions to the growth and strength of our Nation in countless recorded and unrecorded ways. They have played and continue to play a critical economic, cultural, and social role in every sphere of the life of the Nation by constituting a significant portion of the labor force working inside and outside of the home.

American women have played a unique role throughout the history of the Nation by providing the majority of the volunteer labor force of the Nation and were particularly important in the establishment of early charitable, philanthropic, and cultural institutions in our Nation. In addition, American women of every race, class, and ethnic background served as early leaders in the forefront of every major progressive social change movement. American women have been leaders, not only in securing their own rights of suffrage and equal opportunity, but also in the abolitionist movement, the emancipation movement, the industrial labor movement, the civil rights movement, and other movements, especially the peace movement, which create a more fair and just society for all; and

Despite these contributions, the role of American women in history has been consistently overlooked and undervalued, in literature and the teaching and study of American history which is even more reason to dedicate a museum to all of the trailblazing women throughout history.

Ms. HIRONO. I yield back the remainder of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Hawaii (Ms. HIRONO) that the House suspend the rules and pass the bill, H.R. 1700, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

A motion to reconsider was laid on the table.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Pursuant to clause 8 of rule XX, proceedings will resume on motions to suspend the rules previously postponed.

Votes will be taken in the following order:

H. Res. 768, by the yeas and nays;  
H.R. 1327, by the yeas and nays;  
H. Res. 816, by the yeas and nays;  
H. Res. 786, by the yeas and nays;  
H.R. 3371, by the yeas and nays.

The first electronic vote will be conducted as a 15-minute vote. Remaining electronic votes will be conducted as 5-minute votes.

## SUPPORTING NATIONAL WORK AND FAMILY MONTH

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 768, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from the Northern Mariana Islands (Mr. SABLON) that the House suspend the rules and agree to the resolution, H. Res. 768, as amended.

The vote was taken by electronic device, and there were—yeas 415, nays 0, not voting 17, as follows:

NOT VOTING—17  
□ 1515  
So (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.  
The result of the vote was announced as above recorded.  
A motion to reconsider was laid on the table.  
Stated for:  
Mr. COLE. Mr. Speaker, on Wednesday, October 14, 2009, I was unavoidably detained and I missed the first vote in a series of five votes. I missed rollcall vote No. 775.  
Had I been present and voting, I would have voted as follows: Rollcall vote No. 775: “yea” (on agreeing to H. Res. 768).

#### IRAN SANCTIONS ENABLING ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 1327, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Massachusetts (Mr. FRANK) that the House suspend the rules and pass the bill, H.R. 1327, as amended.

This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 414, nays 6, not voting 12, as follows:

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1527

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Mr. WALZ. Mr. Speaker, due to unforeseen circumstances, I missed rollcall vote No. 776 on motion to suspend the rules and pass H.R. 1327, the Iran Sanctions Enabling Act of 2009 as amended. Had I been present, I would have voted "yea."

Ms. HERSETH SANDLIN. Mr. Speaker, I regret that I was unable to participate in a vote on the floor of the House of Representatives today.

The vote was on H.R. 1327 as amended, the Iran Sanctions Enabling Act of 2009. Had I been present, I would have voted "yea" on that question.

# MOURNING THE LOSS OF LIFE ON AMERICAN SAMOA AND SAMOA AFTER THE EARTHQUAKES AND TSUNAMIS ON SEPTEMBER 29, 2009

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and agree to the resolution, H. Res. 816, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from American Samoa (Mr. FALOMAVAEGA) that the House suspend the rules and agree to the resolution, H. Res. 816, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 422, nays 0, not voting 10, as follows:

## NOT VOTING—10

Cao	Honda	Wasserman
Carney	Mollohan	Schultz
Conyers	Shuster	Watt
Hirono		Wexler

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). One minute remains in this vote.

□ 1534

So (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

The title of the resolution was amended so as to read: "Mourning the loss of life caused by the earthquakes and tsunamis that occurred on September 29, 2009, in American Samoa, Samoa, and Tonga."

A motion to reconsider was laid on the table.

# AIRLINE SAFETY AND PILOT TRAINING IMPROVEMENT ACT OF 2009

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 3371, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from Illinois (Mr. COSTELLO) that the House suspend the rules and pass the bill, H.R. 3371, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 409, nays 11, not voting 12, as follows:

□ 1602

So (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

ANNOUNCEMENT BY THE SPEAKER  
PRO TEMPORE

The SPEAKER pro tempore (Mr. PETERS). Pursuant to clause 8 of rule XX, the Chair will postpone further proceedings today on motions to suspend the rules on which a recorded vote or the yeas and nays are ordered, or on which the vote incurs objection under clause 6 of rule XX.

Record votes on postponed questions will be taken later.

RECOGNIZING 10TH ANNIVERSARY  
OF THE ATLANTIC INTRACOASTAL  
WATERWAY ASSOCIATION

Ms. NORTON. Mr. Speaker, I move to suspend the rules and agree to the resolution (H. Res. 465) recognizing the Atlantic Intracoastal Waterway Association on the occasion of its 10th anniversary, and for other purposes, as amended.

The Clerk read the title of the resolution.

The text of the resolution is as follows:

## H. RES. 465

*Whereas the Atlantic Intracoastal Waterway (AIWW) was authorized by the Rivers and Harbors Act of 1937 to provide a safe inside navigation channel for commercial shipping, support for and encouragement of interstate commerce, and safe harbor and protection for shipping from inclement weather and wartime enemy attack;*

*Whereas the AIWW, completed in 1940, runs along the southeast coast of the United States from Norfolk, Virginia, to Key West, Florida, and measures 1,088 miles long;*

*Whereas segments of the intracoastal waterway on the Atlantic Coast received their initial congressional authorization through Rivers and Harbors Acts beginning in 1880;*

*Whereas the AIWW is a vital transportation system providing safe, reliable, and efficient navigation for commercial, recreational, and military vessels;*

*Whereas the Corps of Engineers is currently engaged in flood control, hydropower production, environmental restoration, maintenance dredging, lock maintenance, recreation, and navigation projects along the AIWW;*

*Whereas, according to the Corps of Engineers, in 2007 the AIWW supported the transportation of 2,543,000 tons of freight traffic, including commodities such as wheat, corn, soybeans, electrical machinery, iron, coal, gasoline, fabricated metal products, and electrical machinery;*

*Whereas, according to the Corps of Engineers, in 2007 the AIWW supported a total of 34,184 trips made by recreational, commercial, and military vessels;*

*Whereas the AIWW is an integral transportation network supporting the Armed Forces through the shipment of military equipment, fuel, and generators between Norfolk, Virginia, and Kings Bay, Georgia;*

*Whereas the Dismal Swamp Canal, on the AIWW, is the oldest operating artificial waterway in the United States and has been placed on the National Register of Historical Places, was registered as an engineering landmark in 1988, and was included in the National Park Service's Underground Railroad Network to Freedom Program in 2004;*

*Whereas the AIWW has enhanced the lives of the residents of Virginia, North Carolina, South*

*Carolina, Georgia, and Florida, as well as the greater southeastern United States, for more than 6 decades;*

*Whereas the wildlife, flora, and fauna along the AIWW provide ample recreational opportunities for birdwatchers, photographers, and boaters;*

*Whereas the Atlantic Intracoastal Waterway Association was organized in 1999 to address the navigation challenges of the AIWW and to encourage the continuation and further development of waterborne commerce and recreation on the AIWW;*

*Whereas the Association has voiced the interests of commercial and recreational users of the AIWW, earning the title of "Voice of the Waterway";*

*Whereas the Association has been an advocate for maintenance of the AIWW to promote safe, cost-effective navigation; and*

*Whereas the Association promotes the AIWW as a vital marine highway along the Atlantic coast, providing safe navigation for commercial and recreational vessels: Now, therefore, be it*

*Resolved, That the House of Representatives—*  
*(1) recognizes the importance of the Atlantic Intracoastal Waterway to recreational, commercial, and military vessels and to the history and quality of life of the citizens of the United States; and*

*(2) acknowledges the Atlantic Intracoastal Waterway Association on the occasion of its 10th anniversary.*

The SPEAKER pro tempore. Pursuant to the rule, the gentlewoman from the District of Columbia (Ms. NORTON) and the gentleman from Arkansas (Mr. BOOZMAN) each will control 20 minutes.

The Chair recognizes the gentlewoman from the District of Columbia.

## GENERAL LEAVE

Ms. NORTON. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and to include extraneous remarks on H. Res. 465.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from the District of Columbia? There was no objection.

Ms. NORTON. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise in support of H. Res. 465 offered by Mr. BROWN of South Carolina. This resolution recognizes the importance of the Atlantic Intracoastal Waterway and acknowledges the Atlantic Intracoastal Waterway Association on the occasion of its 10th anniversary.

The waterway was authorized by the Rivers and Harbors Act of 1937 for the purpose of supporting and encouraging interstate commerce. Today, the waterway allows for the safe and efficient transportation of goods along the Atlantic coast from Norfolk, Virginia, to Key West, Florida.

The waterway is comprised of numerous channels and rivers that were once separate and distinct. For example, the Dismal Swamp Canal was once a 22-mile-long waterway that supported commercial vessels traveling between Virginia and North Carolina. In 1929, however, it was purchased by the Federal Government for half a million dollars and incorporated into a larger

transportation network. Today, the Dismal Swamp Canal is an integral part of the waterway and is recognized as the oldest operating artificial waterway in the United States. Additionally, it is also on the National Park Service's Underground Railroad Network to Freedom program.

The waterway holds great significance to those who live in the southeastern United States. It enables waterborne transportation to move smoothly and efficiently and provides numerous recreational opportunities for anglers and boating and enthusiasts.

It is appropriate to recognize the importance of the waterway to the quality of life of our citizens and to the thousands of commercial, recreational, and military vessels that utilize the system each year.

This resolution also acknowledges the Atlantic Intracoastal Waterway Association on the occasion of its 10th anniversary. This association has worked over the last decade as an advocate for keeping the waterway open and safe for navigation. It is appropriate to recognize its numerous contributions.

Mr. Speaker, I support this resolution and urge my colleagues to support it as well.

I reserve the balance of my time.

Mr. BOOZMAN. Mr. Speaker, I yield myself such time as I might consume.

According to the Chesapeake Convention and Tourism Bureau, Edgar Allan Poe reportedly wrote parts of his famous poem "The Raven" while traveling the Dismal Swamp Canal, which was later to become part of the Atlantic Intracoastal Waterway.

The Atlantic Intracoastal Waterway, AIWW, was authorized by the Rivers and Harbors Act of 1937 to provide a safe inside navigation channel for commercial shipping. Completed in 1940, the AIWW runs along the southeast coast of the United States from Norfolk, Virginia, to Miami, Florida, measuring 1,088 miles long.

The Atlantic Intracoastal Waterway is also used extensively by recreational boaters. Studies have shown that recreational boaters bring millions of dollars to State budgets. The waterway is also used by vessels not equipped for ocean travel or for when weather conditions make the ocean too rough to travel.

The Atlantic Intracoastal Waterway has a good deal of commercial activity. Products shipped include fuel oil, gasoline, asphalt, fertilizers, chemicals, wood chips, wood, limestone, sand, gravel, iron, steel, slag, lime, fabricated metal products, soybeans, vegetables, produce, and electrical machinery, all of which are shipped along the Atlantic Intracoastal Waterway.

The Atlantic Intracoastal Waterway Association was organized in 1999 to address the navigation challenges of

the waterway and to encourage the continuation and further development of waterborne commerce and recreation on the AIWW of Virginia, North Carolina, South Carolina, Georgia, and Florida. The association has been an outspoken advocate for regular dredging and adequate maintenance to promote safe, cost-effective navigation along the AIWW and is known as the "Voice of the Waterway."

Today, we recognize the Atlantic Intracoastal Waterway Association on the occasion of its 10th anniversary.

And with that, I reserve the balance of my time.

Ms. NORTON. I have no further speakers, and I reserve the balance of my time.

Mr. BOOZMAN. With that, Mr. Speaker, I yield as much time as he might desire to the gentleman from South Carolina (Mr. BROWN).

Mr. BROWN of South Carolina. Mr. Speaker, I thank my good friend from Mr. Arkansas (Mr. BOOZMAN) for yielding and the gentlelady from the District of Columbia (Ms. NORTON) for her support of this resolution.

Mr. Speaker, while only 10 years old, the Atlantic Intracoastal Waterway Association, AIWWA, has become a strong voice representing the interests of commercial and recreational users of the Atlantic Intracoastal Waterway by promoting the waterway as a vital marine highway along the Atlantic coast, providing safe navigation for commercial and recreational vessels.

The association was organized in 1999 to address the navigational challenges of the Atlantic Intracoastal Waterway and to encourage the continuation and further development of commerce and recreation on the AIWW. At present, the association has more than 200 members consisting of tug and barge companies, shippers, port facilities, marinas, dredging companies, and others with an interest in the waterway.

The AIWW was completed in 1940 and runs along the southeast coast of the United States from Norfolk, Virginia, to Key West, Florida, and measures 1,088 miles long. It has historically served as an important shelter for mariners from the stormy seas of the Atlantic. Since it runs parallel to Interstate 95, the waterway has the potential to become a major marine highway, serving as a safe, fuel-efficient, and economical alternative to congested highways and rail lines.

Every ton of traffic that runs through a marine highway like AIWW is a ton of traffic that isn't on our congested highway system. I have heard from multiple shippers visiting my office that would love to have a non-highway shipping option. AIWW connects all of the east coast ports. The potential for coastal traffic between these ports is significant and has the ability to have a major impact on smaller ports like Georgetown in my

district. In fact, if the AIWW could be developed as a marine highway, the South Carolina State Ports Authority has estimated business growth at the Port of Georgetown could be more than 2.5 million tons of cargo a year. However, the waterway faces significant funding challenges.

In South Carolina alone, the Army Corps estimates that the need of the waterway will total some \$14.5 million in fiscal year 2010, yet the administration has requested less than \$800,000 for maintenance. Indeed, to bring the entire waterway up to standards and to keep it there will require over \$100 million in investment; yet administration after administration continues to shortchange the AIWW in their budget, barely requesting enough money to control the mosquitos.

This is no way to treat such a valuable potential resource, and I want to tip my hat to the AIWWA for their efforts to showcase the potential for the waterway not just to the communities it touches, but to the entire Nation. I'm proud to support the waterway and will continue to fight to ensure that it is not only maintained but improved to improve freight movement and open new economic doors for communities along its banks.

Mr. BOOZMAN. Mr. Speaker, having no more speakers on the subject, we do support the adoption of H. Res. 465 recognizing the Atlantic Intracoastal Waterway Association, the good work that they have done over the last 10 years, and with that, I yield back the balance of my time.

Ms. NORTON. Mr. Speaker, along with the gentleman from Arkansas and the gentleman from South Carolina who is the author of this resolution, we are pleased to support this resolution.

Mr. OBERSTAR. Mr. Speaker, I rise today in support of H. Res. 465, recognizing the 10th anniversary of the Atlantic Intracoastal Waterway Association.

The Atlantic Intracoastal Waterway (Waterway) runs from Norfolk, Virginia, to Key West, Florida, and has been in existence for more than seventy years. The once distinct channels and rivers that now make up the Waterway were brought together to create a continuous waterborne transportation network along the southeastern coast of the Atlantic.

The Waterway has enriched the lives of those in the southeast and served the greater United States by allowing for the safe and efficient transportation of commercial goods along the coast.

This resolution recognizes the importance of the Atlantic Intracoastal Waterway to the quality of life of the citizens in the United States, and to the thousands of recreational, commercial, and military vessels that use the system annually.

The resolution also acknowledges the Atlantic Intracoastal Waterway Association on the occasion of its 10th anniversary. This association has worked tirelessly over the last decade to keep the Waterway open and safe for navigation.

I urge my colleagues to join me in supporting H. Res. 465.

Mr. KLEIN of Florida. Mr. Speaker, I rise today in support of House Resolution 465 and to thank the gentleman from South Carolina, Mr. BROWN, for introducing this important bill. I have had the good fortune of working with the distinguished gentleman on other legislation, and I can say that on this and other issues, he serves his constituents well.

Mr. Speaker, H. Res. 465 acknowledges the Atlantic Intracoastal Waterway Association on the occasion of its 10th anniversary, and it recognizes the importance of the Atlantic Intracoastal Waterway to recreational, commercial, and military vessels and to the history and quality of life of the citizens of the United States.

Having a congressional district with over 75 miles along the Intracoastal Waterway, I know firsthand its importance to South Florida. It serves as a crucial thoroughfare for the two ports in my district, the Port of Palm Beach and Port Everglades. In fact, the Army Corps of Engineers reported that over 2.5 million tons of freight traffic was shipped along the Intracoastal Waterway in 2007 alone, including commodities such as wheat, corn, and soybeans.

But the Intracoastal Waterway provides Americans with more than just economic activity. Just go out on the water any day of the week in my congressional district and you'll see recreational boaters traveling on the Intracoastal Waterway. Boating is an iconic symbol for South Florida, and the Intracoastal Waterway serves as an important part of that. Simply put: South Florida would not be the boating capital of the world without it.

I also want to take a moment and commend the work of the Florida Inland Navigation District, or FIND. They maintain our state's portion of the Intracoastal Waterway, from Jacksonville to Miami. Created in 1927 by the Florida State Legislature, FIND is a special taxing district charged with helping to maintain the Intracoastal Waterway with the Army Corps of Engineers. They are an important entity and perform an often unheralded job, so I wanted to take this moment to commend the men and women employed by FIND for helping to maintain one of Florida's most important natural resources.

In closing, I want to again thank the gentleman from South Carolina for introducing House Resolution 465, and urge my colleagues to support its passage.

Mr. MCINTYRE. Mr. Speaker, I rise today to honor the Atlantic Intracoastal Waterway Association, Date which has been fighting on behalf of our great Atlantic marine highway for 10 years.

The AIWA was formed in 1999 to address the declining condition of the Atlantic Intracoastal Waterway, running along the eastern seaboard from Virginia to Florida. A persistent lack of maintenance funding has resulted in severe shoaling of the waterway through many sections, rendering the waterway impassable at times. The AIWA has been a strong advocate for the Atlantic Intracoastal Waterway and the Association has earned the title "Voice of the Waterway".

I am pleased to have had the opportunity to work closely with members of the AIWA over

the years to secure funding to maintain North Carolina's portion of the waterway. The resolution on the floor before us today officially recognizes the contribution made by the Atlantic Intracoastal Waterway Association and I am pleased to rise in strong support of it. I look forward to continuing to work with the AIWA and my colleagues in Congress to support the AIWA and to secure funding to dredge the waterway to its full authorized depth.

Mr. HASTINGS of Florida. Mr. Speaker, I rise today to commemorate H. Res. 465, a resolution recognizing the Atlantic Intracoastal Waterway Association (AIWA) on the occasion of its 10th anniversary. As a proud co-sponsor of this legislation, I believe that AIWA's vital work has ensured open and safe for navigation for recreational and commercial users throughout the Atlantic Intracoastal Waterway (AIWW).

Since its completion in 1940, the Atlantic Intracoastal Waterway has provided a safe navigation channel for commercial shipping and support for and encouragement of interstate commerce. Unfortunately, the Waterway has suffered from a lack of maintenance, which has resulted in a reduction of depth that has hindered the Waterway's ability to provide a safe and efficient transportation route. Recognizing this problem, AIWA has become an unwavering advocate for appropriate dredging and adequate maintenance to promote safe, cost effective navigation, while balancing environmental needs.

I commend their tradition of excellence in service to Waterway users, many of them are my constituents in Florida. The Waterway plays an important role in my district and throughout the state of Florida. Many of my constituents come from communities around Indian River Lagoon, a portion of the AIWW, and are able to find employment opportunities in the industries that the Waterway provides. In such tough economic times, this is extremely important and should not be overlooked.

Mr. Speaker, over the past ten years AIWA has made significant contributions to local communities. I urge them to continue their essential work and support for the Waterway.

Ms. NORTON. At this time, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from the District of Columbia (Ms. NORTON) that the House suspend the rules and agree to the resolution, H. Res. 465, as amended.

The question was taken; and (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

A motion to reconsider was laid on the table.

□ 1615

DALE WILSON—NATIONAL DISABLED AMERICAN VETERAN OF THE YEAR

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, today I rise to praise Dale Wilson, a remarkable

veteran from Troutman, North Carolina, who was named the 2009 National Disabled American Veteran of the Year by the Disabled American Veterans.

Dale Wilson lost both of his legs and his right arm while serving in the Marine Corps in Vietnam; but for a Silver Star recipient who paid such a heavy price for his country, Wilson demonstrates remarkable humility, good will, and an astonishingly positive attitude. He is well known for his strident belief that his life is rich and full despite what many could call a severe disability. His days are full of service to his community and his fellow veterans. He counts his family, his community, and his service to his country as dear blessings. And you won't catch him complaining about the hand that was dealt him.

Dale Wilson is the sort of marine that gives the Marine Corps such a proud reputation, and his recognition by the DAV is well deserved. I know that his example serves to inspire those who know and love him to remember their many blessings and to love the country that Wilson sacrificed so much for.

#### SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

#### U.N.'S REPORT ON ISRAEL

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, this week at the United Nations another assault is being launched on the democratic Jewish State of Israel, an assault that the United States must unequivocally oppose and defeat.

Predictably, this assault has its roots in the U.N.'s so-called "Human Rights Council," an institution that has been hijacked by dictatorships and gross human rights violators.

This past winter, in Operation Cast Lead, Israel defended its citizens—and its existence—against the actions of Hamas and other violent extremist groups in Gaza. The Human Rights Council responded by passing a resolution authorizing a so-called "fact finding mission" to investigate Operation Cast Lead. This mission's mandate had nothing to do with fact finding and everything to do with persecuting Israel for defending herself.

The mandate prejudged Israel's guilt, authorizing the mission to investigate only assumed human rights violations by Israel. The mandate did not include or even mention the thousands of rocket attacks and mortar attacks spanning 8 years by Hamas and other violent extremist groups in Gaza against civilian targets in southern Israel.

Then, last month this so-called “fact finding mission” released its report. It’s a 575-page collection of distortions and double standards. The report made baseless accusations that Israel’s military had deliberately attacked civilians. The report disregarded extensive evidence that violent extremist groups in Gaza used civilians as human shields, operating from schools, from mosques, from hospitals. It ignored the Israeli military’s extraordinary efforts to target its operations in order to minimize civilian casualties. It gave a free pass to the Iranian and the Syrian regimes, which provide material and financial assistance to Hamas and other murderous groups in Gaza.

Finally, this report recommended further persecution of Israel through follow-up action by the U.N. Security Council, the General Assembly, the Human Rights Council, and the International Criminal Court, among others. In fact, today, the Security Council met at the request of the Libyan regime and considered this very biased report.

Later this week, with the blessing of the U.N. Secretary General, the Human Rights Council is expected to hold a special session on this report. What will they do? They will pass yet another resolution condemning Israel, and only Israel.

And what has the U.S. done in response to this anti-freedom onslaught? While acknowledging that the report and its mandate were biased, administration officials still claim that the report raised serious issues and should be considered seriously by that rogues gallery known as the Human Rights Council. Is this how the United States supports Israel and counters the anti-Semitic and anti-Israel bias that is present every day at the U.N.?

We must recognize what is at stake here. If the democratic political and military leaders of Israel can be hauled before an unaccountable court for defending their nation against violent extremists in Gaza, then how long before U.S. officials and those of other NATO countries will face the same for defending our Nation against al Qaeda and other such threats? Ultimately, this report is an effort by the enemies of freedom to deprive democracies of the right of self-defense, making it open season for global jihadists to come after Israel or the U.S. and other free nations.

As the leadership of the Simon Wiesenthal Center stated in a recent letter to our ambassador, Susan Rice, consideration of this report is a prescription for disaster not only for Israel, but for the United States and every country that fights violent extremists.

Mr. Speaker, we must oppose any effort to grant consideration or legitimacy in any forum to this irredeemably biased U.N. report. We must sup-

port the right of Israel, the right of the U.S., the right of all democracies to defend ourselves and our citizens.

Once again, Mr. Speaker, it is time for the U.S. to lead. Thank you, Mr. Speaker, for the time.

#### COST-OF-LIVING ADJUSTMENT FOR SENIORS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Oregon (Mr. DeFAZIO) is recognized for 5 minutes.

Mr. DeFAZIO. Next month, the government is going to go to the expense of sending out a letter to well over 40 million Social Security recipients telling them they are not going to get a cost-of-living adjustment, but they didn’t experience inflation this year. Now, the only problem with that is the way we measure inflation is heavily oriented toward nonessential consumer goods of which seniors do not buy a lot.

Seniors have to buy certain essentials; pharmaceuticals, up double digits in the last year. Seniors buy health insurance, Medigap policies up high single digits in the last year. Seniors have rent, utilities, probably also up depending upon where they live. But they are not entitled to a COLA because of a defect in the way we calculate COLAs.

I have tried to fix this for years by having a special calculation for seniors and not one for younger consumers, which is essentially what the CPI is oriented towards. It isn’t even very reflective of the cost of average American families. It is very skewed. It was skewed beginning in the Reagan years, and it has never been fixed to try and understate real inflation to real Americans.

In this case, we have an opportunity. We could fix this injustice to our seniors and help those most in need, many of whom are either principally or totally dependent upon a Social Security income. We could give them a one-time \$250 payment, which would equate to almost a 2 percent cost-of-living adjustment. That would cover the increase in their Medicare part B premium, maybe some of their Medigap insurance, maybe a little bit of what they’re having to pay in higher pharmaceutical costs. For many seniors it could avert a disaster in terms of their personal budgets.

So I have introduced legislation, along with 14 of my colleagues—today, I reintroduced it—which would give a one-time \$250 payment to 48.9 million people who are on OASDI, that is Social Security and disability, 5.1 on SSI, 1.4 million veterans, and 200,000 railroad retirees.

Now, I want to be fiscally responsible; I don’t want to take it out of the Social Security trust fund which is looking toward problems some 37 years down the road or so, or starting in 2037. So I would pay for this, and it’s quite

simple: in order to give this benefit to over 50 million people, something for them to make ends meet and scratch by, all we have to do is ask that that select group of Americans—many of whom work on Wall Street—who will earn over \$1.4 million this year, that for their earnings over \$1.4 million they pay the same Social Security tax as every working American who earns less than \$106,000. The tax now is only applied to income up to \$106,000. After that, you don’t pay it. That means if you earn \$1.4 million, your tax rate is about 7 percent of someone who earns \$40,000 a year.

Let’s make it fair. I hear a lot about flat taxes and fairness. Let’s make it fair; let’s make it flat. Let’s ask those people who are earning over \$1.4 million to pay the same percentage of that income in Social Security tax as people who earn less than \$106,000. And if they did that just for 1 year, we could give those 50 million seniors and disabled and veterans and railroad retirees a small, \$250 one-time cost-of-living adjustment. I think it’s only fair in this tough economy that those at the absolute tiptop just do a little bit more to help those most in need.

I recommend this legislation to my colleagues.

#### THE RULE OF LAW IS BEING IGNORED

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. POE) is recognized for 5 minutes.

Mr. POE of Texas. Mr. Speaker, the open borders crowd is at it again, pushing for amnesty for people that are illegally in the United States.

It is bad public policy to give a wink and a nod to people who continue to advocate the exploitation of American border laws for their own personal agenda. A nation cannot survive in freedom without just following the law. The very future of any civilization rests upon the rule of law.

Now, we are a self-governing people. That means we are a Nation of laws. We don’t get to choose what laws we follow and what ones we don’t. That would mean complete chaos. If people want to come to the United States legally, by all means let them come legally. Sign the guest book at the port of entry so we know who you are, so we know the purpose of your visit and whether or not you mean harm to American citizens. That means everybody who comes here, not just a select few.

The push to reward illegal behavior today by granting amnesty only encourages more of the same illegal behavior. A new Zogby-Washington Times poll in Mexico found that 56 percent of Mexican nationals surveyed said that if we pardon illegal immigrants here, it will encourage more of

them to come across the border illegally.

The poll also showed that most folks in Mexico think their countrymen who come here still owe their loyalty to Mexico, not America. Now, these are things the open borders crowd won't tell you. Many people come here and don't want to become Americans; they just want the personal benefits of being in the United States without any obligation to the country. And amnesty will only encourage more illegal entry.

□ 1630

Anyone who comes to this country permanently owes this Nation the respect of learning what it means to be an American—embracing the melting pot concept. They should honor the sacrifices of the men and women who have made our history great in these 200-plus years. This mighty Nation is the beacon of liberty, and it did not happen by chance. It came through hard work and sacrifice in the name of freedom. It came from following a set of principles and ideals, and it came from following the rule of law—laws passed by our representative form of government with the consent of the governed.

The American dream is not about money; it's about liberty, and those who come here owe this Nation an obligation to understand that. They need to learn what freedom is and how we go about keeping it, and a big part of that is following the law.

Solving the problems of illegals and the crisis they have created will not be an easy task before us. There are those who want amnesty and who support policies that promote more illegal entry and lawlessness. These are unacceptable in a post-9/11 world. We can start by enforcing the law and showing we are serious about it. We also need to eliminate policies in this country that encourage and ignore illegal entry.

Such policies include easy access to jobs with little enforcement on employers who knowingly hire illegals; free health care and free education, policies that don't promote assimilation; and the inability of local law enforcement to assist Federal immigration authorities.

We need to upgrade interior enforcement of immigration laws. Many people come here legally, then they never go home, because this Nation doesn't do much about visa overstays. Border security is a national security issue. We just witnessed recently a Jordanian national who came here legally, who overstayed his visa and then tried to blow up a Dallas skyscraper. Thanks to the work of law enforcement, this bombing plot was averted.

We owe an obligation to the future of this Nation to guard and secure our borders, to permit entry of only people who will benefit our Nation and to keep up with those who enter as guests

of our country. It is not too much to require that people legally enter the United States or don't come at all.

And that's just the way it is.

#### A TALE OF TWO COUNTRIES

The SPEAKER pro tempore. Under a previous order of the House, the gentlewoman from Ohio (Ms. KAPTUR) is recognized for 5 minutes.

Ms. KAPTUR. Mr. Speaker, the announcement today that JPMorgan Chase, the largest bank in our country, turned a \$3.6 billion profit in the most recent quarter brings to mind Charles Dickens' 19th-century English masterpiece, "A Tale of Two Cities," except this is the United States, and it's the 21st century, and it's a tale not of two cities but of two countries.

There is one country where giant banks are making so much money that they are setting aside enough to pay each worker in their investment banking divisions \$353,834. That country is Wall Street. The other country is where I come from—Toledo, Ohio—and places like it across the Nation where the majority of the American people live. Toledo, Ohio, where the median household annual income is not even one-tenth of that amount—it's \$35,216. It's not even one-tenth as much as JPMorgan Chase is setting aside for bonuses for its investment banking employees.

In one country, banks that are too big to fail privatize their profits. They're taking more, but they socialize their losses, putting their trillion-dollar mistakes on the backs of the American taxpayers. In the other country, which I represent, families that are too small to matter lose their jobs to globalization, and they lose their homes to foreclosure. These same banks finance the outsourcing of their jobs, and they restrict credit to Main Street businesses across our country.

In one country, financial commentators cheer as the Dow Jones Industrial Average goes over 10,000. In the other country, where I live, the unemployment rate is rising, exceeding 13 percent. While housing values fall more than 10 percent in a single year and foreclosures are going up 94 percent, JPMorgan Chase is the top forecloser in the Ninth Congressional District of Ohio, and they don't even show up for meetings with the people being affected. There is something wrong with this picture. There is something really wrong with our country, and there is something really wrong with our economy.

Even one of the Wall Street analysts picked it up today in his comments to the Associated Press, saying, "Wall Street is picking up quite smartly, while Main Street continues to suffer."

How can that be? How can the stock market be so oblivious to the pain that American families are feeling? Grant-

ed, a rising stock market might help 401(k)s and pension plans and individual portfolios, but not everybody is celebrating. In fact, the majority isn't. Furthermore, how can this stock market rally last when national unemployment is close to 10 percent and, in some regions, far above that? How can the bullish sentiment override the reality in the other America where unemployment and foreclosures have turned the American dream into a nightmare for so many people—for so many millions and millions and millions of our fellow citizens?

Perhaps congratulations are in order to JPMorgan on its quarterly report. I would only ask Chase and the other banks to remember who came to their rescue, because the people who bailed them out, the people in the other America—beyond Wall Street, those people—are still really hurting. The communities that they live in are really hurting. Our food banks are up 53 percent in requests, and donations are down 13 percent. This economic depression is widening across this country, but there are some folks in that other country who don't seem to care at all.

#### EXTEND THE FIRST-TIME HOMEBUYER TAX CREDIT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Kansas (Mr. MORAN) is recognized for 5 minutes.

Mr. MORAN of Kansas. Mr. Speaker, like many parts of the country, the Kansas housing market has struggled along with our Nation's economy. One important tool that has strengthened the housing market and has limited the economic decline has been the \$8,000 first-time homebuyer tax credit. However, unless Congress takes immediate action, this valuable credit will expire on November 30.

I come here with a message for my colleagues and the leaders of the House of Representatives: Congress must act quickly to renew the first-time homebuyer tax credit.

A Realtor from Manhattan, Kansas, wrote me about the importance of the homebuyer tax credit. She noted that the credit had been extremely helpful to the Kansas economy. She says: During these challenging economic times, the first-time homebuyer tax credit has injected new life into the housing market and has helped stimulate many local economies through the stabilization of housing prices.

However, our housing market remains fragile, and more progress is needed to further stabilize our communities. The homebuyer tax credit works. Since its enactment in February, the IRS has reported more than 1.4 million taxpayers have claimed the homebuyer credit. This incentive will lead 400,000 prospective first-time homebuyers to purchase homes who

probably would not have without the help of the tax credit.

Moreover, it's estimated that each sale generates \$63,000 in additional goods and services that benefit the economy. There are tax savings for taxpayers which generate more revenue than the aggregate amount of the original tax cut. Along with falling home prices, the homebuyer credit has helped put the housing market on the track to recovery.

While market conditions have improved, as the Realtor says, the market remains fragile. The housing tax credit needs to be extended to make sure that the economic gains that have been made are not lost.

In order to build on that economic progress, the tax credit should be expanded. I've introduced H.R. 2905, the Homebuyer Tax Credit Expansion Act of 2009, which would extend the \$8,000 tax credit beyond its November 30 expiration. In addition, this legislation would expand the tax credit to all homebuyers, not just to first-time buyers.

I've asked the Speaker of the House and the chairman of the Ways and Means Committee to bring this bill or similar legislation to the floor for a vote. At the very least, Congress should pass a 1-year extension of the credit before it expires. It can take several months to go from contract to closing, and the tax credit will soon become unavailable for many buyers well before the November 30 expiration date. An extension must be passed soon if homebuyers are going to continue to take advantage of the tax credit.

Homeownership and the knowledge that one has equity in one's home can significantly improve our economy. We should not allow this important tax credit to expire. Congress must act quickly now to renew the first-time homebuyer tax credit.

#### WE ARE OUR BROTHERS' AND SISTERS' KEEPER

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Ms. JACKSON-LEE) is recognized for 5 minutes.

Ms. JACKSON-LEE of Texas. Thank you, Mr. Speaker, for your kindness and generosity.

I rise today for a number of thank you and acknowledgments.

First of all, I think it is very important to acknowledge, when tragedy occurs, how important it is that this country, as it has often done, rallies around those around the world to help them in their time of need.

I want to pay tribute to one of our colleagues—to the delegate from American Samoa, Congressman FALEOMAVAEGA—who has in the last couple of weeks been subjected to terrible tragedies at home, for on September 29, 2009, American Samoa and

other areas in the surrounding areas were impacted by an 8.3 earthquake, 8.3 on the Richter scale, which was recognized as the world's largest earthquake of 2009. Out of that earthquake came a terrible tsunami, one that struck American Samoa, Samoa and neighboring Tonga, sweeping people and cars out to sea as survivors fled to high ground.

We remember the tsunami of some years ago that impacted Sri Lanka, Indonesia and India in parts. I traveled to Sri Lanka, and realized that the devastation was enormous. So, when there was a tsunami with waves that reached up to 20 feet in height and that penetrated 1 mile inland, we knew how devastating that had to be. It caused death and destruction of a nearly unprecedented amount. The death toll as of October 7 is estimated at 32 in American Samoa and 135 in the independent state of Samoa.

Many individuals and families have suffered and are impacted, now lacking basic survival necessities, and they remain at risk of additional death due to the shortage of clean water and of adequate shelter and food. My colleague who represents the area has been working without ceasing, but the deep human disaster is evident.

So I rise today to thank the 300 responders from FEMA; the American Red Cross; the U.S. Army Corps of Engineers; the Department of Health and Human Services; and from other Federal agencies which rushed forward to help our fellow world citizens: The United States Navy; the United States Coast Guard; the Hawaii Air and National Guard; the U.S. Army Reserve; American Samoa under the leadership of Admiral Timothy J. Keating, commander of the U.S. Pacific Command; many, many others; and the foreign governments who came to their aid.

So it is important that we recognize that we are, in fact, our brothers' and sisters' keeper, and we thank those who have already come forward, but we look forward in this Congress to continue to work, as we have worked before, to ensure that they are re-stabilized. We must recognize the humanitarian response that is currently underway. We are, in essence, commending them, but it is important that we continue to encourage donors and other relief agencies to work with these vulnerable organizations in stricken areas because we know, having experience in the United States with the fires in California, with the floods in the Midwest, and with the terrible hurricanes in Florida, Louisiana and Texas, and we understand disaster. We are grateful for those who have helped, but we want and we need continued help.

We commend the over 100,000 Samoan residents in the United States from American Samoa and Samoa for coming to the aid of their fellow brothers

and sisters. It is important for this Congress to not only pay tribute but to recognize that people are still hurting.

Let me end this by again thanking our American Representative—our delegate from American Samoa—and by thanking him for his strength.

Just for a moment, Mr. Speaker, I turn very briefly to join with my colleague who spoke earlier, Congresswoman KAPTUR, to say this point: Americans are still suffering. Foreclosures are still happening. Small businesses are still not getting access to capital. I beseech those who have received the larger part of the bailout because it was necessary to restore capital markets in a capitalistic system. None of us adhere to socialism, but we do adhere to helping ourselves and helping our brothers and sisters across America.

It is crucial for the banks of America to lend to Americans—to taxpayers, to homeowners, to business owners. Let them expand. Let them add new employees. Let them keep their homes. The tight credit market is choking us. It is killing hardworking Americans who, as I said, are the beneficiaries but yet the benefactors of those who are in need around the world, and it is important for our banks to listen. They were bailed out. They'd better listen to the American people.

□ 1645

#### IRAN'S NUCLEAR PROGRAM MUST BE STOPPED

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. BURTON) is recognized for 5 minutes.

Mr. BURTON of Indiana. I appreciated what my colleague just said about the banks, and one of the things that I think we ought to focus on in addition to that is that we are not energy independent and we're not allowed the drill off the Continental Shelf or in the ANWR in Alaska or do other exploration for a number of reasons, not the least of which is, quote-unquote, environmental.

But at the same time we won't allow offshore drilling here, we just gave Brazil \$2 billion so they can drill off their shores. It just doesn't make any sense to me. We ought to be spending that money here at home exploring for oil so we can move towards energy independence. We have a 400- or 500-year supply of natural gas and we have plenty of oil if we just could go get it, and we can do it in an environmentally safe way.

Now the reason I bring that up is because one of the big problems we face is we get 35 to 40 percent of our oil from the Middle East, and one of the big problems facing the United States and the world right now is Iran. Iran has been developing a nuclear program, a

nuclear weapons program for some time, and our position in the United States now, under the new administration, is to try to work with them, to talk with them to stop them with their nuclear development program. And if they don't, we're going to try to get a sanctions bill passed.

Now, we have a bill sponsored by the chairman of the International Relations Committee, Mr. BERMAN, that has over 300 cosponsors—I happen to be one of them—and we believe we ought to bring that bill to the floor as quickly as possible to try to put pressure on Iran to stop the development of the nuclear weapons program.

But the administration, I think, has suggested we should wait. They were trying to bring China and Russia on board, and China and Russia are not going to be on board. So we should do it by ourselves and we should do it expeditiously.

Let me tell you why I think it's so important. If Iran continues down this path, Israel—whom Iran has said they want to destroy—will have no choice but to defend itself. They cannot let Iran develop a nuclear bomb and a delivery system. If they do that, they will be able to destroy Israel and millions of Jews in Israel in a very short period of time. It will be another Holocaust.

So what will happen? If they get too far down the path, if we don't put pressure on them to stop—and they don't stop—I believe Israel will have no choice but to attack Iran. And if they attack Iran, that could end up in being a major conflagration in the entire Persian Gulf area.

Now, why is that important to us? We get 35 to 40 percent of our energy from the Persian Gulf area. If that goes up in smoke, we will lose 35 to 40 percent of the energy that we have in this country because we're not energy independent.

The lights that we have, the gasoline in our cars, the fuel we use to heat our houses, everything that needs energy will suffer, and we will have severe economic problems if this problem isn't dealt with before a tragedy occurs over there.

This really bothers me. We tried to work with North Korea some time ago during the Clinton administration. We even had an agreement with them that they would stop their nuclear development program if we gave them some things, and we did. And what did they do? They lied and they went ahead with their program, and they are a nuclear power. They're using missiles that would be intercontinental in scope, testing them over the sea of Japan right now. And they've done that a number of times.

So we have to worry about them. We have to worry about North Korea and what they're going to do next. Can you imagine what it will be like once Iran

develops a nuclear weapons program? They are committed to destroying Israel. They are committed to forcing their view of religion and religious beliefs on much of the rest of the world, and it could be a real problem for us. They don't like America very much either. And so we have a myriad of problems facing us if we don't get on with putting as much pressure as possible on Iran and doing it right now.

As we speak, they're developing their nuclear weapons program. They said they're going to let U.N. nuclear experts come in and police the area and see what they're doing. I don't believe that. I believe they will let us see one or two spots, but they're going to go on with their nuclear development program.

We must put pressure on them now. We must put pressure on them immediately, because if we don't, we're toying with a major problem, a major economic problem for America as well as a possible holocaust in that part of the world in the very near future.

#### IMPORTANCE OF INDUSTRY CLUSTERS TO A NATION

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Indiana (Mr. SOUDER) is recognized for 5 minutes.

Mr. SOUDER. Mr. Speaker, I'm going to make a number of comments here that will be in the RECORD tomorrow. We'll also have the things I refer to—because I'm going to make a number of points—on our Web site in the next hour.

President Obama made his first visit after the stimulus package passed to Elkhart, Indiana, to Concord High School for a town hall meeting that straddles Congressman DONNELLY's and my district. Unemployment was 15.3 percent when he visited. It went higher, up to close to 20 percent. It's now at 16.5, I believe. In other words, we've gone backwards.

What he said that day—referring to a previous campaign visit there—“I promised you back then that, if elected, I'd do everything I could to help this community recover and that's why I come back today because I intend to keep my promise.”

Now, some interesting things have been happening. We've heard about blaming the banks. You know, business, to invest, has to have an idea that a recovery is coming. It has to request the money. And part of the challenge here is if they're uncertain whether they're going to get taxed in a small business tax, if they're uncertain whether they are going to be taxed in health care, if they're uncertain of what the energy costs are going to be in Indiana—because ours are projected to get hit harder than any other congressional district in America, and I have the number one manufacturing

district—they aren't asking to borrow and the banks don't know how to value the assets.

We have to have a recovery, not taxes and pressures on industry. There's a classic book, “Competitive Advantage of Nations” by Michael Porter. He's written a lot of books since then, including one on health care I don't particularly agree with. But he's a very reflective man, and these are the basic principles of how you develop clusters.

He says, “Creating competitive advantage in sophisticated industries demands improvement and innovation—finding better ways to complete and exploiting them globally, and relentlessly upgrading the firm's products and processes.”

In another section of the book he says, We “must create new advantages at least as fast as competitors can replicate old ones.”

He also points out the United Kingdom, in their R&D, is among the highest compared to GDP of any nations, but top heavy government R&D. They don't have the private sector R&D, so they don't have the growth, and the growth they have is in the wrong areas.

Now, why do I bring this up? In a newsletter of “ORTHOKNOW, Strategic Insights Into the Orthopedic Industry,” John Engelhardt reports the 10 to 30 percent tax in the Senate Finance Committee's bill that was passed yesterday would lead to roughly a tax of 50 percent of the R&D that the orthopedics industry does. For example, Zimmer—based in my district—in the orthopedics cluster, Zimmer would be taxed \$94.7 million and their R&D is \$194 million. They're the biggest orthopedic company.

Biomet—which I believe is the fourth or fifth biggest orthopedic company—would be taxed \$60.9 million. R&D estimate for 2008 was \$2.2, and they had a loss.

Now, Michael Porter points out when you lose one or two, you lose that competitive pressure, that you cannot sustain R&D with the new taxes, especially if at the margins the cost of the tax is greater than the profits of the firm, let alone the R&D.

I also refer to a USA Today article of this morning that says, “Orthopedic Industry Has Enjoyed Fine Health.” And it goes to Warsaw, Indiana in my district where three of the five biggest of the orthopedic companies, plus Medtronic, plus Orthopediatric, plus 6,000 direct feeding, plus as you move to South Bend and over to Fort Wayne and down to Indianapolis—and in fact throughout the Midwest—and then if you look at the whole industry of the United States, it's a cluster.

We had this theory in America that we were going to move up the ladder. And as other countries beat us on labor, we would do things like pharmaceuticals, like orthopedics, like biotechnology. We'd be the cutting edge,

except now we're going to tax them to death.

So guess what this article says? They're looking at going overseas. I've already heard this. Why won't they go offshore if they can get cheaper labor? They can get engineering research, they can get government subsidies to some degree, but most importantly, they're going to go where they can do R&D and the combination cheaper than they can do it in the United States. A tax won't bring in revenue, a tax will drive our clusters away. To put the taxes on the most innovative clusters is unbelievable. I just don't understand, particularly in a State where the President said not 30 miles away from the center of the orthopedic industry where many of these parts people are, "I promise you it will improve."

The maverick CEO, Dane Miller, and the story of Biomet illustrates another myth that these are some sort of rich billionaires. It talks how he put a titanium hip in his own body because initially they wouldn't believe it, then it worked, and that's partly how we got the innovation today.

I encourage people to read this bio of Dane Miller.

[From Orthoknow, Oct. 2009]

#### SUCCESS FEES FOR ORTHOPAEDICS?

(By John A. Engelhardt)

In the Senate Finance Committee's healthcare reform bill, partial financing will come from "fees" imposed on the manufacturers of medical devices. As I review what is being proposed, I am (nearly) at a loss for words. The total cost to medical device companies will be \$40 billion over ten years. That's \$4 billion a year. Here is how it shakes down.

The U.S. medical device industry in 2009 is projected to be valued at \$91.3 billion. Orthopaedic revenues generated in the U.S. in 2008 reached \$21.7 billion. Assuming flat growth from 2008 to 2009, orthopaedics would then comprise 23.7% of the total medical device industry in the U.S. in 2009.

America's Healthy Future Act of 2009, "Annual Fee on Manufacturers and Importers of Medical Devices," would impose an aggregate fee of \$4 billion on the medical device industry, payable annually, beginning in 2010. Each company's fee would be calculated based on its relative market share of U.S. sales for the prior year with covered domestic sales taken into account as follows:

- 0% of sales up to \$5 million
- 50% of sales over \$5 million and up to \$25 million
- 100% of sales over \$25 million

According to our calculations, if orthopaedics represents 23.7% of the total medical device industry, then its portion of the \$4 billion would be \$949 million. Exhibit 1 summarizes the fees assessed for several companies.

You will note that this is not being called a tax. Thus, it is NOT deductible by these companies as a legitimate business expense. Let me just repeat that for effect. It is NOT deductible by these companies as a legitimate business expense!

The "fee" adds up to about four percent of orthopaedic product sales for the companies. Since it is not deductible, that automati-

cally comes OFF the bottom line. The loss drops right through the P&L. Here are some highlights.

In the case of Exactech, it wipes out nearly 40% of its earnings. The value of the company will decrease a pro rata amount, losing \$60 million in shareholder value.

In 2008, Osteotech made a small profit of \$2.2 million. Under the Senate proposal, the company would pay \$3MM in fees! This is a company struggling back to health. How long would they be able to remain a viable entity?

Biomet, in the midst of a rebuilding and restructuring, lost \$749MM in 2008. Under the new plan, it would pay almost \$61MM. I am not making this up.

Alphatec would have to pay about \$3MM for the pleasure of having lost about \$25MM!

Study Exhibit 1 carefully. You'll find yourselves asking many questions. What planet are we on? Where did these Senators go to school?

Did they even go to school? Maybe they didn't have math in their school.

It is very hard to argue with the economics of orthopaedic care. It has been positively documented for a half century.

Many people describe joint replacement as among mankind's most significant achievements, not only for the suffering it relieves but for its economic value to society. Recently, others have published the more compelling metrics of orthopaedic treatment in response to the reform debates. (See the ORTHOWORLD Position Paper on Healthcare Reform, [www.orthoworld.com/site/index.php/main/healthcare](http://www.orthoworld.com/site/index.php/main/healthcare), and Connections, the blog of Biomet CEO, Jeffrey R. Binder, [www.biomet.com/corporate/ceo/Blog/](http://www.biomet.com/corporate/ceo/Blog/).)

It's as if, in their infinite wisdom, our representatives have identified the achievers and propose to levy a cost on them to help support the underachievers.

These companies have done too well, helped too many people, created too many good quality jobs. Shouldn't we be holding them up as an example to others, in order to encourage efficiency and reward performance?

I can think of no other term for this than a penalty for success. In essence, these companies will have to pay for the right to do business in their own country.

Forgive me if I am having trouble grasping the idea that if you fail, the government gives you taxpayer's money to bail you out. If you succeed, that same government fines you?

I hope not to insult any of you reading this when I suggest exactly what this will cause, because it is so obvious to us thinking folks.

1. Jobs will be lost. These companies are massive providers of extremely high quality jobs. They will be forced to pare down their workforces.

2. Jobs will be moved overseas. In order to make up the margin deficits, good corporate stewards will examine all opportunities to drive costs down.

3. R&D budgets will be reduced and innovation will slow.

4. U.S. companies will focus on the markets outside the States where the penalties don't apply. They'll get four more cents on a dollar of sales if the sale is ex-U.S.

5. The cost of healthcare will not budge.

6. When the plan fails, the government will just come back for more.

What's next? Bonus points for product recalls?

And so it goes. We take from the most successful, and give to the least, until such time

as a steady state of mediocrity is reached. This goes way beyond everyone getting an award in the T-Ball tournament.

I will hereby propose a new Mediocrity Czar, whose job it will be to ensure that all aspects of society are put on an even playing field. Here are some suggestions.

#### SPORTS

LeBron James will be required to give every point over 20 per game to the other team.

Michael Phelps will have to swim with a cinderblock tied to his leg to allow all those who have never won a gold medal to do so.

Tiger Woods will be required to carry his own bag, and will not be allowed to set it down during play.

#### BUSINESS

Bill Gates and Steve Jobs will have a portion of their brains removed until such time as those pesky competitors of theirs catch up.

#### POLITICS

No action needed.

Perhaps there is more that orthopaedics can do to contribute.

All sales reps and distributors will have their commission structures modified such that the more they sell, the less they make. Those who sell more than \$5MM per year will give a portion of their commissions to those who didn't sell squat.

Surgeon reimbursement will be inversely proportional to surgical volume.

If a surgeon is too talented and popular with patients, he/she will be required to strike that patient soundly with a stick at the end of each office visit.

This should help just about everyone rise to the middle.

A generation ago, some of the people reading this article and their forebears were called upon by mankind to help eliminate the suffering of millions of people crippled by arthritis, debilitated by back pain and homebound by injuries.

You responded with joint replacement, spinal fusion and arthroplasty, arthroscopy and soft tissue repair and trauma technologies, and the result was that these lost souls were able to return to active lives as healthy contributors to society.

You are called upon again today, as we seek to find a way to treat the millions of new orthopaedic patients stressing the system. Only this time we're broke.

So it looks as if we are being asked to pay for the right to contribute further.

Surely there is a better solution that will not undo a century of progress in healing.

[From Kaiser Health News]

#### ORTHOPEDIC INDUSTRY HAS ENJOYED FINE HEALTH

(By Julie Appleby)

WARSAW, IND.—Travis Funk, laid off a year ago from his job finishing boat interiors, hopes to land a job in a field he thinks has more promise: making artificial hips and knees for an aging population.

"I figured the best thing to do was get into the orthopedic industry," says Funk, 29, who is taking algebra, blueprint reading and computer programming classes at Ivy Tech Community College here several nights a week. He hopes knowledge gained in the 12-month program will earn him a job in Warsaw, a small town in a lake-dotted part of rural Indiana known as the "orthopedic manufacturing capital of the world."

Zimmer Holdings, Biomet and DePuy Orthopaedics are based here, along with several smaller companies and suppliers. Together, they generate nearly a third of the

estimated \$32 billion in global orthopedic device sales.

For much of the past decade, times have been good for the industry, with hefty profits from steadily rising sales of its artificial hips and knees, bone screws and other devices worldwide. More than 700,000 hip and knee replacements are performed in the U.S. each year. That number could double by 2016, driven partly by osteoarthritis and other ailments, researchers told the American Academy of Orthopaedic Surgeons' annual meeting last February.

Yet, the industry, succeeding even as some other U.S. manufacturing sectors are slumping, does face challenges:

The recession has curbed demand for orthopedic devices worldwide as patients delay treatment, forcing layoffs at some companies.

A proposal that passed the Senate Finance Committee on Tuesday would place up to \$40 billion in new taxes on the medical device industry in the next decade.

Device makers say such a tax would stifle job growth and innovation, adding to unemployment in regions such as Warsaw. But the health overhaul proposals could also bring benefits to the area, such as helping provide subsidies so unemployed workers such as Funk could purchase health insurance.

Senate Finance Committee Chairman, Max Baucus, D-Mont., who proposed the tax, sees the levy as the device industry's fair share in helping pay legislation that could bring it millions of new insured customers.

Orthopedic device industry profits are healthy: Zimmer Holdings and Stryker Corp. show five-year average gross profit margins of 76.5% and 68.3%, respectively, according to Thomson Reuters. Medical equipment and suppliers as a whole showed five-year gross margins of 59% compared with 45.8% for the S&P 500.

Drugmakers and hospitals have agreed to help finance part of the legislation, expected to cost more than \$800 billion over a decade, according to a Congressional Budget Office estimate.

Drugmakers, for example, agreed to what they say is an \$80 billion deal that includes cutting by half the prices they charge patients who hit a coverage gap in the Medicare drug program. Hospitals agreed to a \$155 billion cut in Medicare reimbursements over a decade.

Jeffrey Binder, president and CEO of Biomet, says the device industry faces a double whammy.

"This particular fee is completely out of proportion with what any other sector has agreed to do," he says. "It would cost our company alone \$45 million to \$50 million a year. That's equivalent of approximately 800 jobs."

In addition, device makers, who sell directly to hospitals, will be under pressure to lower their prices as hospitals attempt to absorb their own cuts related to the health care overhaul, Binder says.

#### NO GUARANTEES

The fate of the tax is uncertain. A number of Democrats and Republicans oppose it.

So, too, dogs the industry's trade group, the Advanced Medical Technology Association (AdvaMed), which says the tax would be passed on to consumers in higher prices—or result in job cuts.

The \$4 billion-a-year tax on the \$130 billion medical device industry "is a devastating prospect," particularly for smaller companies, AdvaMed President and CEO Stephen Ubl said at a news briefing in Washington on Tuesday. The industry is lobbying hard

against the tax, but Ubl says it supports other elements of the legislation, such as finding new ways to compare which drugs, devices and treatments work best.

Senate Finance Committee staff, speaking to reporters Monday, said the device tax is a flat amount based on each company's market share, not product prices, a provision meant to discourage passing the fee to consumers.

The controversy about the device tax illustrates how difficult it is for lawmakers to find ways to pay for their ambitious health care ideas. For months, proposals have come and gone—and come back again—from fees on soft drinks to levies on the wealthy. A windfall-profits tax on health insurers and an excise tax on expensive individual health policies are under consideration. Device makers are just taking their turn in the hot seat.

"Congress has a not-in-my-backyard problem in health reform," says Robert Laszewski, an Alexandria, Va.-based health policy consultant. "Everyone wants it, but someone else has to pay for it."

#### PLUSES AND MINUSES

The health care debate in Washington might seem a long way from this community 2½ hours north of Indianapolis. But the topic is top-of-mind for the executives who run the device companies, the physicians who use the products produced in the plants, and people seeking jobs in the industry.

Funk is among the growing number of uninsured in Warsaw and its surrounding area. About 19% of people here have no health insurance, compared with 15.4% nationally, according to the most recent census data.

For Funk, the proposed tax is "a toss-up." If health reform is approved, he would likely qualify for subsidies to help him buy insurance. But the tax might make it more difficult for him to find work in the industry.

Today, device makers employ about 6,000 people in Kosciusko County, accounting for nearly 19% of the county's private-sector jobs, according to a September report from BioCrossroads, a group formed by venture capitalists and philanthropic organizations to boost the life sciences industry in Indiana.

"It's the only thing that provides a ray of sunshine in that part of the state," says Robert Guell, professor economics at Indiana State University.

Jobs run the gamut, from Ph.D. chemists to machinists. Workers at Biomet and the other plants use high-tech computerized lathes to craft hips and knees from titanium. At Zimmer, which has its own foundry workers in heat-protective suits pull molten-hot molds of joints from giant furnaces. Upstairs, scientists in nearly soundless offices research the next advance in device technology.

Medical device jobs in Kosciusko County pay well, averaging more than \$81,000 annually, according to BioCrossroads.

For a time, experienced workers were often lured from one company to another.

There was so much movement, "you almost had to keep a scorecard to know where your neighbor was working," says Thomas Krizmanich, an orthopedic surgeon who lives and works in Warsaw. He says he has to be careful not to offend patients who work for one of the three big device makers by implanting them with competitors' products.

"Every company would like you to use 100% of their product," Krizmanich says. "It can be difficult to make three companies happy."

The sagging economy has slowed job hopping—and hiring—in the past year. In Au-

gust, unemployment in Kosciusko County, which includes Warsaw, was 11.6%, vs. the national average of 9.7%, says database service Proximity. But that was far below that of neighboring Elkhart, where the jobless rate is 16%, in part due to a sharp downturn in the recreational-vehicle-building industry.

#### LEAVING THE AREA?

The proposed tax on device makers is not the only issue dampening future employment prospects here.

Other countries are offering huge incentives lure device makers overseas, where labor costs and other expenses may be lower.

Zimmer Holdings and Biomet already have manufacturing plants in Europe and China. And while Biomet's Binder says those plants mainly serve emerging markets, he acknowledges that some lower-skill production jobs have moved overseas.

It's unlikely that orthopedic device manufacturing will leave the USA entirely because the high-tech skills are hard to transfer, says Larry Davidson, director of the Center for the Business of Life Sciences at Indiana University.

"What has been helpful for that industry and will continue to provide jobs in the U.S. and Indiana is that it's harder for that industry to separate the technology and product development from the manufacturing," Davidson says.

Others are not so sanguine.

"It's conceivable that (device makers) could move everything eventually," says Nick Deeter, president and CEO of OrthoPediatrics, a Warsaw-based firm that develops orthopedic devices designed for children. He buys components from manufacturers based in the USA and abroad. "Machines do all the work now. Someone starts them and stops them. Even though it's a high-tech product, it doesn't take a skill." Other states and countries have tried to get Deeter to move his headquarters.

"I have a pile of business cards from companies in Ireland," he says. "Akron, Ohio, recently offered us a \$3 million grant to move." But he stayed, with the help of \$4.4 million in grants and other incentives from Indiana.

The ongoing recession means job openings in the device industry are fewer and attract many more applicants, says Melissa Denton, workforce and economic development director at Ivy Tech in Warsaw.

Enrollment in Ivy Tech's advanced orthopedic manufacturing skills training program has grown so fast, now at 400 students, that the school has had to move into larger quarters twice since last year.

Funk expects to complete his training soon, although he might pursue a two-year degree: "I just hope someone hires me."

#### HEALTH CARE

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Missouri (Mr. AKIN) is recognized for 60 minutes as the designee of the minority leader.

Mr. AKIN. Mr. Speaker, this evening we're going to be continuing on a familiar theme for many, probably the single issue that rivets the attention of Americans perhaps more than any single debate and discussion and, that is the change to American health care. This is not, of course, a small debate. It is a debate that involves a question

of, to a large degree, whether the government is going to take over 18 percent of our economy. That's not a small section of our economy, 18 percent, nor is it a small question.

Not only economically is it a big question, every one of us has to live inside our own bodies. So it is a very personal question. We have to live inside our bodies, and we're dependent on health care, and we hope that we can continue to enjoy the high quality of health care that we have had in America.

But people recognize that there are problems with American health care. Those problems largely are not so much in the delivery of the health care but rather in how the health care is being paid for. So there are stresses in the system as to who's going to pick up the tab on it.

We've seen a lot of examples of different departments of the Federal Government. It does amaze me just in a commonsense point of view why people would really want to trust their own personal health care with any department in the Federal Government when I think of the profound inefficiencies within many departments of government.

We don't think of the post office as being a model of efficiency, the IRS as being any particular model of compassion or precision. If you think about the Energy Department, the Energy Department was founded on the idea that we had to make sure that America never had to rely on foreign sources of energy. Since that time, the Energy Department has grown in employees, and we have also grown on our dependence on foreign oil.

Then you've got, of course, the Education Department. That is a model of something that I wouldn't put my trust in. In fact, there was a study done on the Education Department some years ago that concluded that if a foreign nation had done to America what the Education Department had done, it would be viewed as an act of war.

Yet there are people in spite of this—and we've seen the Federal emergency management in response to Katrina and other departments of the Federal Government. In spite of that, people want to turn over 18 percent of our economy to the government.

Well, when the government does too much, there are some things that we tend to see as becoming problematic. One of them is that you get some inefficiencies. You could get excessive expenses, degraded quality, or bureaucratic rationing.

□ 1700

Is this something we need to worry about when we are talking about health care? Somebody quipped that if you think health care is too expensive now, just wait until it's free. We will take a look.

Here is what was proposed in the House plan, right here. It's a 1,000 page bill, but you can summarize it in this nifty flowchart. All of the colored boxes are new parts, new moving pieces.

You could see that it certainly doesn't meet the test of simplicity, that's for sure. People who have looked at this and studied it long enough say, I want to be the health care czar. He's the guy who makes all the decisions and determines who gets care and who doesn't.

Tonight, we are going to be talking on the subject of health care. A lot of new information is breaking, new estimates from the Senate as to how much their plan is going to cost and how much is going to be taken out of Medicare on that plan.

I am joined by some good friends of mine here, and I am thinking my friend GT is here. I am just going to recognize and yield to you, my friend, a Congressman who has not been here that many years and yet who has already earned a reputation far in disproportion to the amount of time he has served, and long on the common sense department, which I think we need a whole lot more of that common sense.

Mr. THOMPSON of Pennsylvania. Well, I thank my good friend and, actually, 10 months, just about 10 months is what I have been here. The world I came from, actually, was the health care world. I mean, I had spent 28 years working in health care services as a therapist, health care manager in rural hospitals, licensed nursing home administrator.

I came here knowing with a commitment that we could do better with the health care system we had, that we can improve all four principles of health care: access, affordability, quality, and choice.

Mr. AKIN. Slow down just a minute now. The four basic principles of health care, do that again.

Mr. THOMPSON of Pennsylvania. Access, affordability, quality, and choice.

By choice, I mean strengthening that vital decisionmaking relationship between the physician and the patient, and not having the government or a bureaucrat being wedged between those two.

Mr. AKIN. Doctor-patient, yes.

Mr. THOMPSON of Pennsylvania. Doctor-patient relationship, yes. I happen to think we have a pretty good system. Not that we couldn't improve on it. I came with ideas on how to do that. Unfortunately, the ideas I brought with my almost 30 years of experience have been largely ignored by the majority side, by the Democratic Party.

I find that the proposals put out there, specifically House Resolution 3200, in many ways I can find where that proposal, that the Democratic health care proposal, would make all four of those principles worse.

Mr. AKIN. That doesn't sound like a very good idea. Just probing a little bit, though, you made a comment. You said that you came here with 20-plus years of health care experience. You came here with ideas that could improve the system, and we have been accused for months, both by the President and others, as saying the Republicans don't have any ideas, yet you had quite a few ideas.

Mr. THOMPSON of Pennsylvania. Absolutely. I am proud that, as Republicans, we have over 30 bills that we have introduced that would specifically address the different issues and the concerns that I came with, and many others, the visions of my colleagues, that I think would be good to address the health—

Mr. AKIN. Let me ask you this. Did any of your proposals—because we have been accused of this as well, did any of your proposals raid money out of Medicare?

Mr. THOMPSON of Pennsylvania. Absolutely not.

Mr. AKIN. Yet the Democrat proposal we were talking about 2 weeks ago was raiding \$500 billion out of Medicare. Now, that has been scored in the Senate. It's about 400-and-something billion being taken out of Medicare to try and pay for this thing. That wasn't something you were proposing?

Mr. THOMPSON of Pennsylvania. No. Especially when you are looking at proposals to raid Medicare specifically, the hospice services, people that are preparing their lives to die with dignity, to die in their own homes and places surrounded by their family and can be comforted in a way that provides that dignity to those final days. And to cut Medicare in that area is just wrong.

I think that what I find most interesting about that proposal to cut Medicare to fund this new large government-run program, sweeping government-run program, is that it's, in my experience, as I look at the issues surrounding—and this is some of the things I came with—the issues surrounding a wide commercial health insurance is so expensive, and it is in many places.

The average health insurance pays, nationwide, 140 percent of cost to hospitals and to physicians. The reason for that is—there are many reasons, and we will talk about them this evening, like tort reform, but the other reason is Medicare. It's medical assistance.

Medicare pays, on the average, 90 percent of the costs. For every dollar of costs a hospital has or a physician has, Medicare pays 90 cents. For every dollar of cost that a hospital or a physician has, medical assistance pays, varies State by State, but 40 to 60 cents. Within our health care system, because the government set up these entitlements and soon found that it couldn't sustain them, couldn't afford them and

begins to systematically underpay them, we look to commercial insurance to make up the difference.

It's interesting that Medicare is the reason, I think, one of the primary reasons why commercial insurance is as expensive as it is, yet the proposal is to make more Medicare cuts.

Mr. AKIN. Here, this is a chart of these three big entitlements. People talk sometimes about earmarks and other stuff about Federal spending. But the real story about the Federal budget being broken is really within these three big entitlements. All of them, you can see, are growing out of control over time: Medicare, Medicaid, Social Security.

Now, as these things grow, what you are saying is, in spite of the fact it's costing a ton, there is still not enough money in those programs to really pay for what the medical costs are. We are now taking money out of the private sector or from other sources to help subsidize these things that don't work.

Now, you are a commonsense guy. It seems to me that if we have Medicare and Medicaid that are financially broken, the solution to say, well, we are going have the government take over all of that and a lot more, that almost defies common sense.

You know, we are joined by a gentleman whose sagacity and also years of service on the floor are about legendary. Congressman SOUDER, I would appreciate you joining. I think of these as kind of a dinner conversation. Let's just talk about what we have got going on. This is something that Americans care about all across our country, and I think we need to have enough time to talk about it, take a look at it, and to say just say rationally what's the right thing for us to be doing.

Mr. SOUDER. Right, and you have taken the lead here on the floor. Trying to make sure we present this, I have got a couple of specific points, but one, which you are doing through this, is at a minimum, the public needs to know what's in the bill, and the thought that something may come here without 72 hours to read it, which is not a long time, is just abhorrent.

Mr. AKIN. This is not really a particularly subtle point, yet the American public understands this. They would like us to read the bill. It's really hard to read the bill when the bill we are debating and voting on is still being collated up here, like the cap-and-tax bill that we had with 300 amendments passed at 3 o'clock in the morning.

Your point is well taken. First of all, it would be a good idea to see what the bill is before we vote on it. It seems like a straightforward point.

Mr. SOUDER. The other body passed a Senate Finance bill, which has correctly been called a conceptual bill, that we heard the budget estimates of that bill. But as they said in the notes,

in their report, you can't hold us accountable for these estimates because the bill doesn't specify how they are going to achieve certain savings, doesn't specify how certain things are going to be paid for, doesn't specify exactly what they are covering. It doesn't give enough specifics.

Even when you are taking over this big a sector of the economy, 1,000 pages is like a sneeze at this problem. There has to be not only 72 hours to read it, but we need to actually see a real bill, not a conceptual bill.

Now, there are a couple of things. Our friend from Pennsylvania alluded to this one. We have had this huge controversy about the so-called death counselors that are clearly in the bill to do counseling in the last 5 years of life and if your condition deteriorates. Many of us are strong supporters of hospice care. I think a lot of people thought this was for hospice care, but they are getting cut 18 percent. I just read a letter from someone in my district that says we don't know how our hospice care can survive with these cuts. What is the point of these counselors if you are wiping out the hospice care?

No wonder some people are a tad paranoid. I don't know what it means. How can we know what it means? What we know is it looks like they are rationing because they are cutting off services to Medicare.

Mr. AKIN. This is death care?

Mr. SOUDER. Well, it says they will present all the alternatives. But I assume that the real intent around that was to promote hospice care. But if they are cutting hospice care, and the hospice centers don't know what they are doing and you are rationing certain life supports, and if they are talking about how much is spent in the last years of life, this is really disturbing stuff.

That's why we have to read the bill. We have to know precisely what's in it. What do you mean when you put that kind of stuff in?

Where that section was on our House bill referred back to the Social Security act. It didn't even fit. The counseling part didn't even fit. Nothing else in there was counseling. It was things like liver and all this kind of stuff. It was incredibly sloppily written. It will be forever litigated.

It seems to set up a pattern where you are going to be counseled and given a different alternative from hospice to euthanasia. You are going to be told you are going to get things reduced, or at least they should disclose that. But if there is no hospice that can survive, particularly in the smaller markets—which brings up another critical point. The cardiologists were here on the Hill just a couple of weeks ago.

Mr. AKIN. As you talk, what comes to my mind, as I am hearing you talk, is basically a form of rationing that's

really diabolical, a sort of rationing that says, well, you can take a bottle of aspirin or what. I am getting to be an old codger at 62, but if I were older, I would be even more paranoid, I think, from what I am hearing you say was in the bill.

Mr. SOUDER. The challenge here is that people are confused. You hear the President or others say it's not in the bill, then you hear the Republicans make an allegation.

Here is the thing. It doesn't specify, A, if we could read the bill, but what we see doesn't specify. What it does say is there will be counseling. In another section it says there's going to be savings, which implies rationing, and in another section—or implementing and procedures, a cut for hospice care.

In another part of it it says, the first part says 5 years. Nobody knows exactly what that means, every 5, once in 5, not explained. Then later it says if you have a condition change. When you put those together, you come to a logical conclusion.

But then the other side goes, well, it's not in the bill. Well, not precisely, but it's in there in five different places, and there is no other way to resolve it. There has to be some kind of unit that has to put this together to make these kinds of decisions.

In this waste and abuse, one of the questions is what does waste and abuse mean.

The cardiologists were in the other week, and the oncologists the week before that, because they were concerned because they have started to implement some of these procedures. What we hear is that, well, if there is waste and abuse, why aren't we checking it right now.

Well, they are defining waste and abuse as underutilization of equipment. What does underutilization of a heart machine mean? What does underutilization of a heart center mean? What does nonefficient usage of oncology machines mean?

In Indiana, what it means is everybody goes to Indianapolis. You are going to close your heart centers in Fort Wayne because you have a utilization of 44 percent, not the 80 they are mandating. It means South Bend, Evansville, northwest. In Missouri, maybe you get Kansas City and St. Louis.

We had a number of Russian health care administrators in my district as well as people from the Duma a number of years ago. We took them to some of our hospital systems. They said we have seen most of this stuff in Moscow. What's unusual even in the United States is that even in towns of 15,000 you have hospitals like we have in our big cities.

When we hear about lines in Canada and England, it's partly because, to be efficient, they have people drive 200 miles to a heart center, and they get to

pay the mileage. They get to pay for the motel. They get to go back for repeat visits and the cost to them. That's not savings of waste and abuse; that's transferring the fees to individuals.

What we have right now is a dispersed health care system that brings it closer to home with what we call RediMeds in our area. You have blended regional hospitals feeding up to bigger hospitals. They seem to think that these savings are going to become like they were trying to do in the veterans hospital system in Indiana and make everybody go to the biggest city in the State.

Mr. AKIN. What strikes me, gentleman, and your points are very, very, well taken, currently full of waste and abuse. It's almost like you have a line item on a budget that says waste and abuse and so many million dollars. I mean, if you had that, you take that line item off the budget. Well, what exactly does waste and abuse mean?

We were just talking to cardiologists today that came in. They explained the kinds of equipment they have in their office. From a practical point of view, if you are a cardiologist, it's like what used to be a stethoscope. A doctor hung it around his neck. He might not have used it all the time, but he needed it on a fairly regular basis.

Their stethoscopes now are far more sophisticated, but they use them all the time. Not all time, but they have to have them immediately available to do their job. As you say, that allows them to provide service reasonably close where people live, and it allows them to do it right in the office. Particularly, it provides the fact you don't have to wait weeks and weeks to get some particular checkup.

That is the weak underbelly of the socialized medical systems in England and Canada, because you take a look at things like cancer, you don't want to wait weeks and weeks. If you have got melanoma, you want to get it and you want to get it now. If you have got heart disease, you want to get it now.

□ 1715

I just went through this with my father. He got a new heart doctor. His old heart doctor wasn't paying too much attention. His new heart doctor took a look at him, took a look at his meds and said you need to get a chemical stress test. When he got that, he said you need to get an angioplasty thing. So they go in and look around with that. They said when you get that, you need to get a heart bypass, which turned out was a seven-way heart bypass. When he got done with that, 4 days later he is home. Total period of time, less than 3 weeks from the time he went in to see the doctor until he had a seven-way heart bypass and was home from the hospital.

That is the American medical system, because it can react quickly and

rapidly to something that if you let it go is going to be life threatening. That is what you are talking about.

So this waste and abuse, we have seen where some of this supposed waste and abuse is coming from; \$500 billion out of Medicare. I know Republicans have been accused for years of being people who want to cut Medicare. Here we have got the Obama plan, we are going to get the money out of Medicare.

In fact, you made the point, gentleman, that we hear these conflicting claims and people say, Well, what's the truth?

Here's what you need to know: "First, I'll not sign a plan that adds one dime to our deficits, either now or in the future." This is our President. He says he is not going to add a dime to our deficits. Guaranteed, first thing. Well, let's take a look at the track record since the beginning of the year.

Deficits. We are talking trillions of dollars worth of deficits here. Here is the Wall Street bailout, the second half of that. Economic stimulus. If you don't vote for this, you might have over 8 percent unemployment. So all these liberals voted for this thing, \$787 billion, mostly in handouts and welfare types of things; and now we have got, whatever it is, 9 percent unemployment.

Mr. SOUDER. Maybe he meant that he wasn't going to add one dime, that he was going to add a couple of trillion.

Mr. AKIN. Maybe that's what he meant, it wasn't a dime, it would be trillions of dollars. But this doesn't give us any record to be comfortable with. This assertion doesn't square with what our history is.

Now, there have been a number of other assertions. This is what makes people confused.

First, if you are among the hundreds of millions of Americans who already have health insurance through your job, Medicare or Medicaid or the VA, nothing in this plan will require you or your employer to change the coverage or the doctor you have. The President is saying this. You get to keep what you have got. If you like what you've got, you can keep it.

Yet here you have an MIT health economist, with or without reform, that won't be true. His point is that the government is not going to force you to give up what you have, but that is not to say that other circumstances won't make that happen. Essentially, what happens is the government gets into the insurance business, the other privates all close down, and you only have one choice: you have got to go to the government.

So one thing you are hearing, you can keep what you have. In fact, here is a guy from outside that doesn't have a dog in the fight, he says that is not how it's going to work.

Here, this is a section, the doctor-patient relationship. If there is anything

important in medicine, it is the doctor-patient relationship. This is an amendment that was offered by Dr. GINGREY from Georgia, one of our friends and colleagues. Here is his amendment:

"Nothing in this section shall be construed to allow any Federal employee or political appointee," that is bureaucrat or whatever, "to dictate how a medical provider practices medicine."

In other words, we are going to enshrine the doctor-patient relationship. We are going to make it clear that when a doctor and patient decide on a particular procedure, we are going to proceed. Nobody is going to get in the way. Not only do we not want the insurance company getting in the way; we don't want any bureaucrats.

So he puts this amendment up and it goes to a vote in committee. Most people don't know this amendment went to a vote in committee and here is the result: 23 Republicans say, yeah, we want to leave that doctor-patient relationship sacred. And where were the Democrats? Thirty-two of them voted against this, only one voting for it. So what confidence does that give you that we're not going to get a rationed health care system? And yet we're saying whatever you have, you can keep it. We've had these claims and counter-claims, and I think it's important for us to let the American public shed some light on this. This is what people are saying.

I've got some other charts, but I want to go to my good friend from Pennsylvania. I yield.

Mr. THOMPSON of Pennsylvania. I appreciate that, and I thank my good friend.

I want to come back to the waste and abuse claim, that in addition to obviously significant taxes, that there's all these savings under waste and abuse. It's being presented and proposed by the Democratic Party like this is something new that we're looking at.

I have to tell you that I was working in health care in 1983 when diagnostic-related groups and the first prospective payment system came into health care. Soon after that, we began to hear about and work on eliminating fraud and abuse. Professionally and ethically, that's a responsibility that health care professionals have to do. The fact is that is something that has been ongoing. So now this claim that we're going to find these massive amounts of money as a result of waste and abuse that we can use and save and help to fund this government-run health care program is just false, absolutely false.

Now I do think there's waste in health care, and I can point to annually \$26 billion. We can take \$26 billion annually, and we can find that like this if we had the courage of my colleagues on that side of the aisle to address medical malpractice.

Mr. AKIN. Gentleman, you've got all of our curiosity up. How can we get \$26

billion? You say there is a line item of \$26 billion that you could work on.

Mr. THOMPSON of Pennsylvania. There are line items in physician budgets, in hospital budgets; and we could eliminate that cost to health care today by passing medical malpractice tort reform.

Mr. AKIN. Oh, tort reform.

Mr. THOMPSON of Pennsylvania. Tort reform. Premiums annually in this country are paid in the amount of \$26 billion. The average award under malpractice is \$4.1 million in this country. And so there's a line item that actually is in health care budgets and all the providers across this Nation that we could take that money—and we've got great proposals. The Republicans have H.R. 3400 that's out there that would address tort reform, that would do it in a way that would limit punitive damages. It would set up panels to be able to deal with those situations using judges that have health care experience.

So we have bills out there that if we could get our colleagues' support tomorrow or today, we could actually eliminate what I consider \$26 billion of waste from health care.

Mr. AKIN. I think my friend from Indiana had a comment on that. I yield.

Mr. SOUDER. I beg to differ just slightly. While that's the amount that people pay, what I hear from doctors in my district—and we have MedPro, which is one of the biggest insurers of doctors—that that's just part of the cost of defensive medicine. After the doctors are told to keep your insurance down, make sure they get an MRI if they're questioning at all rather than extra x rays so they can't sue you, make sure you do this extra test, that doesn't count all the things that they do to try to avoid their rates from going up. We don't know what the cap is.

The problem with the studies that claim you don't save as much from tort reform by those who are proponents of it literally do not take into account what doctors are saying in their daily practice of things that they wouldn't do at the margins if they didn't think there was a potential of being sued that would drive up the rates.

Mr. THOMPSON of Pennsylvania. Will the gentleman yield for one quick point?

Mr. AKIN. Yes.

Mr. THOMPSON of Pennsylvania. There was a recent study done just in Pennsylvania that showed that 93 percent of physicians in Pennsylvania practice some form of defensive medicine. Ninety-three percent, for that very reason. You invest \$200,000 to a half a million dollars in a medical education career and then because of these lawsuits and because of medical malpractice and the lack of tort reform, you're at risk of losing not just your practice but your family's home. I un-

derstand why defensive medicine occurs. We've got the solution. H.R. 3400 would address that.

Mr. AKIN. We've been talking about how do you deal with some of the different questions in health care. What has just been illustrated here is the fact that Republicans do have a number of ideas. One of those is tort reform. You're not talking about the fact that if a doctor makes a mistake that the patient shouldn't be made whole; but what you're talking about is this wild, punitive damage kind of thing which just introduces such a wild card for the insurance companies that they run the cost of insurance up and then the doctors practice all this defensive medicine, which my friend from Indiana is pointing out as well; and any doctor you talk to will explain that that's just standard. We don't necessarily like it, but politically the Democrat Party doesn't want to allow dealing with that tort reform.

Now, the President did make a comment about it, and it is kind of the elephant in the room, but it's a big cost to health care that could be dealt with.

We're joined also by my good friend from Louisiana, Congressman SCALISE. Please join us.

Mr. SCALISE. I want to thank my friend from Missouri for hosting this and for helping to continue this debate to really get the facts out about some of the dangers of the proposal being brought by President Obama, Speaker PELOSI and others to really have a government takeover of health care. I agree with most Americans in this country who recognize that there are problems in the system but also recognize that with those problems we still have some of the best medical care in the world and we surely don't want to see the government come in and take over health care and destroy the things that work all in the name of fixing the very specific things that are broke.

If you talk about medical liability reform, doctors will tell you that many of the tests, maybe a third of all of the tests and procedures that are run on people, are just purely in defense of trying to avoid a frivolous lawsuit. Experts will tell you you could save about a hundred billion dollars—billion with a B—a year in medical savings just by doing something to eliminate the frivolous lawsuits and address medical liability reform which, as my friend from Pennsylvania points out, we do in the bill that I'm a cosponsor, many of us are cosponsors of, H.R. 3400.

Not only that, for Americans who have to go through these tests and procedures that they know they don't have to go through and they wonder, why do I have to go through these CAT scans and these other tests that my doctor really doesn't think I need but because he's afraid of a lawsuit, I've got to spend the extra time and the extra money.

Outside groups have now come and just earlier this week, Pricewaterhouse said that the bill being brought by President Obama and others in Congress would add another \$1,700 a year to the average American family's health insurance cost.

Mr. AKIN. Wait a minute now. You got my attention. The average American family, the proposal that's being offered is it's going to add \$1,700 more a year for the cost of their medical insurance?

Mr. SCALISE. That's exactly what the Pricewaterhouse study says.

Mr. AKIN. Isn't that the new study on the Democrat Senate plan? Isn't that where that was done?

Mr. SCALISE. Right. Because as we're getting more information on this bill that just passed out of the Senate, they still won't put the legislative text out there, and I think we should have at least 72 hours where the bill is available online so that not only Members of Congress but all Americans can read it, but also as they're starting to research and look at all of these taxes.

The Democrat bill in the Senate has \$400 billion in new taxes that would be passed on to American families. The House bill has \$800 billion in new taxes. All of that will raise the cost of health care.

Mr. AKIN. Let's talk about cost. You've got \$400 billion in new taxes, and you're going to take another 400 or \$500 billion out of Medicare. So right off the bat when you say, Here's this new piece of legislation, what do I get for it, well, first of all, \$400 billion in taxes, 400 or \$500 billion out of Medicare. That's something, just as we started talking. It raises this kind of commonsense question: You've got over a hundred million Americans that have insurance and doctors and health care that they like pretty well, and they don't really want to change; they're content with what they've got, and in order to try to fix what problem, you've got somewhere between 10 and 20 or 10 and 30 million who don't have health care, maybe could afford it but don't. And so in order to do the 10 or 20, you're going to basically take apart the system for a hundred, which also raises kind of a commonsense question, too. I just don't quite see that.

There are a lot of claims going on. Here's one:

"There are also those who claim that our reform effort will insure illegal immigrants. This is false. The reforms I'm proposing would not apply to those who are here illegally." This is the President. This is his claim. But let's take a look and see, well, what does the fine print say.

This is the Congressional Research Service. This is a nonpartisan group. They've studied the bill that the President was talking about. They say:

Health insurance exchange would begin operation in 2013 and would offer

private plans alongside public option. H.R. 3200—that's Speaker PELOSI's bill—does not contain any restriction on noncitizens. It does not contain any restrictions on noncitizens, whether legally or illegally present or in the United States temporarily or permanently participating in this exchange.

Mr. SOUDER. Will the gentleman yield?

Mr. AKIN. Yes, I do yield.

Mr. SOUDER. Can you imagine the outrage in America if liquor stores posted on their door, No IDs checked here? If you went to a gas station where we assume that tobacco cannot be sold to minors but you had a sign that said no IDs checked here, would you believe that the liquor store or the place selling the tobacco isn't going to sell to minors? On what basis? In effect, what we're telling them in this bill, no IDs checked here, so how do you know?

Mr. AKIN. Isn't that amazing? This is why Americans to some degree are upset. They're upset about the points you made. They would like us to have 72 hours to at least look at a bill and read it.

□ 1730

And then, they're not too fond of the idea they're going to get cracked for \$400 billion or \$500 billion taken out of Medicare. Certainly senior citizens aren't too fond of that. Some people don't like the idea of having to pay for illegal immigrants' health care services. This is very clear from the Congressional Research Service that what the President said just flat isn't true.

And if that were not enough for you, here's an amendment by one of our colleagues, Congressman HELLER. This is another one of these amendments that takes place in committees where people don't see it so much. This is going to clarify this statement that the President made. In order to utilize the public health insurance option, an individual must have had his or her eligibility determined and approved under the Income Eligibility Verification System, IEVS, and the Systematic Alien Verification for Entitlement, SAVE programs under section 1137 of the Social Security Act.

So, in other words, what we're saying is, we're going to make sure, we're going to card you at the liquor store. When you buy those cigarettes, we're going to card you. That's what this amendment says. You notice it says "failed" down here at the bottom. It failed why? Well, because here's the Republicans. They all voted for it. Here's the Democrats. They all voted against it. There are more Democrats so this amendment is history.

So the President says, we're not going to have any illegal immigrants, but, in fact, the Congressional Research Service and this amendment and the vote on this amendment bears testimony that that just isn't true.

Mr. THOMPSON of Pennsylvania. Will the gentleman yield?

Mr. AKIN. I do yield to my good friend from Pennsylvania.

Mr. THOMPSON of Pennsylvania. I'm not sure which committee this is representative of, but I serve on the Education and Labor Committee. And in that approximate period of time of around July 16th, the next to the last week in July, we were also presented with H.R. 3200, and we were presented with it and went into within 48 hours of when we were given the first copy, which was 500 pages of the bill, and then that was on a Wednesday. The very next day, on Thursday, we started bill markup, which is an important event around this place. It's where we make substantive changes to bills. And at that point, the bill had grown, with a manager's amendment, to over 1,000 pages. And we started a marathon markup that started at 10 a.m. on a Thursday and was driven by the leadership of the Democratic party until 5 a.m. on Friday, 20 hours. I can't tell you the—

Mr. AKIN. Till 5 'o'clock in the morning?

Mr. THOMPSON of Pennsylvania. 5 'o'clock in the morning. I can't tell you—you can imagine what the quality of work was after about 11 p.m. But some time during those wee hours of the early morning, probably between 1 and 3 a.m. I specifically remember that amendment coming up and being debated, and debated passionately, that we have a responsibility to the American citizens to be able to be good stewards of the resources that are here that we have as a country, and that we have the responsibility of overseeing. And I remember that amendment, and specifically how it was defeated, along a party line, with all the Republicans voting for that amendment and the Democrats opposing it.

Mr. AKIN. This is the illegal immigrants getting access to the money of Americans that are paying money for health care.

Mr. THOMPSON of Pennsylvania. That is correct.

Mr. AKIN. I do yield to my friend from Indiana.

Mr. SOUDER. Also as a member of the Labor Committee, my friend from Pennsylvania and myself and probably three others, I thought, were actually very articulate in arguing some of these amendments at 3 in the morning. Our audience wasn't very big. You know, when people say, oh, what happened, why didn't you guys—I mean, the only place we can offer amendments usually is committee. We don't get to offer them here on the floor.

Mr. AKIN. Just for some people that might not be familiar with the way the House works, when this bill, this medical bill, whatever it is that the Democrats come up with, it comes to the floor, they're not going to let us offer

any of the amendments that are going to be in any way embarrassing or debate them or discuss them. It's going to be a take-it-or-leave-it. The train is leaving; either get on or stand on the platform with your hat in your hand.

Mr. SOUDER. Putting aside that that may be why they don't bother to let us read the bill, because we can't amend it anyway, that you would think that there would at least be some public responsibility to give us 72-hour notice. In committee, we didn't get 72 hours. As my friend from Pennsylvania, Mr. THOMPSON, has pointed out, it was just, I mean, we got it basically when we sat down, the final bill. Then we're debating it in the middle of the night, which the other party said was shameful when the Republicans held a vote because of the debate which was actually on the floor. We don't do debates in the middle of the night anymore because we don't do debates, we don't offer amendments.

But in the amendments in committee, the amendments on pro life, the amendments on trying to check ID, the amendments on a lot of these controversial provisions, nobody got to see the very eloquent debate. I thought we were pretty eloquent at 3 in the morning. You know, I took a little offense. I thought we were fairly good but nobody will witness it.

Mr. AKIN. Well, let's just review a few of those amendments. The first thing is, you don't want illegal immigrants to be tapping into the money for the health care. Another one was saying we weren't going to use health care to pay for abortions. So that was one that, I mean, a lot of Americans are thinking, I don't really want my—whether you're for or against abortions, I'm not sure I want my money being used to give people free abortions. And then there was a question about the doctor-patient relationship. Are we going to ration health care with bureaucrats, some calculator, some computer that says, well, at your age and at this and such, you don't get any?

And so you've got an amendment that says that you're going to have a doctor-patient relationship that is going to be sacred, and that you're going to allow the doctor and patient to make medical decisions. All those amendments offered in committee go down on a straight party-line vote.

Mr. SOUDER. Another one for a second that you referred to earlier. That, you know, people can say things. We can stand up and say whatever we want. But when you vote it's your action. And in the action—

Mr. AKIN. A vote isn't an opinion. It's a hard and historic fact, yes.

Mr. SOUDER. Keep your own insurance, keep insurance the way it is? No. It was defeated. We had one that said catastrophic plus an HSA. That means that you could get flexibility to get

catastrophic coverage that could be provided by the firm; they give you money so you get an HSA, and then if you want pregnancy coverage you could cover pregnancy. If you were older—like, we're probably not going to have any more babies; it would be a big shock if we did, since I am 59, about to turn 60, and my wife's similar. Much younger of course, but similar. I'm going to get killed when I get home. The bottom line is that we may not want pregnancy coverage, so why can't we get a health policy that's customized? Defeated.

You know, this idea that the Senate bill in their talking points today says they're going to allow you to keep your own insurance. And then further down it says all these new things will be added. Mandatory. By the way, that wouldn't be your insurance. If your insurance doesn't have it, that's not your insurance. Your company would have to either raise the prices or drop your policy. If they're dictating, that's not your own insurance.

Mr. AKIN. And that's one of the talking points as we talked to one of the Senators this morning about the new—because we're getting information about what the Senate is doing, and that was one of their things—it reduces health choices. I think the whole point of the policy is Americans don't all necessarily want the same policy. You know, if you've got a medical savings account, which is something that we have supported, so you can put money aside to cover different things, and you've got a lot of money in that medical savings account, the insurance you may want would be what we used to call a major medical policy. It covers the great big things, but the smaller stuff, you can say, hey, I can afford to take a thousand or \$2,000 hit because I've got enough money in my medical savings account that I don't need to pay for a policy that covers everything.

Somebody else who's just starting, and maybe they're a little bit worried about they just can't take anything, they're going to want a policy that covers a lower deductible. And depending—as you made eloquently clear, one size doesn't fit all. It's not the, You can have any car you want as long as it's black. We've got choices in America. And what this Democrat Senate plan, and it is Democrat, does—there's only, huge news, one Republican, just one, that ventured to vote for this thing; everybody else is against it—it reduces health choices. That's not the way you save money, and it's not the way you provide good health care. Very good points, gentleman. I yield to my friend from Pennsylvania.

Mr. THOMPSON of Pennsylvania. Well, what you're talking about is actually an amendment that I offered in the Education and Labor Committee to bar the exchange, the health insurance exchange, which essentially allows this

new health insurance commissioner to dictate the terms for your private insurance policies. Exactly what my good friend from Indiana was talking about. Specifically, what would be required, as opposed to a consumer in a free market, where I choose what's best for me and my family, a government bureaucrat would dictate if my insurance policy qualifies or not within this exchange. And again, that's an amendment we offered up to eliminate the exchange from H.R. 3200 within the Education and Labor Committee. And that was defeated along party lines.

Mr. AKIN. Another party-line vote. Just amazing, isn't it? Well, you know, if you take a look at what the Senate is talking about doing, you can understand why there's this amazing gap, because the public opinion polls are showing that people are not very comfortable with what we're talking about jumping into, and for the sake of whatever it is, 10 or 20 million people, destroying the health care of 100 million.

And this, these are some of the costs: It raises premiums, and it reduces the health choices which we've been talking about. Those health choices are very important. It delays or denies care. This thing here, delaying and denying care, as a cancer survivor, I understand the importance of this because if you don't get it and get it quick, you're a goner. And so this idea of rationing and postponing and having to wait in queues, which is endemic in England and Canada, that's something that we don't—that's a high cost.

We've got some other costs here. We've been joined by my good friend from Iowa, Congressman KING, and I imagine you might have a few thoughts on these subjects as well.

Mr. KING of Iowa. Well, I thank the gentleman from Missouri for holding this special order. And as I hear the word Iowa, I look across that list and I see \$500 billion in Medicare cuts. And we know that nationwide, Medicare reimbursement rates, the services provided under Medicare, are only compensated under the schedule we have today at about 80 percent of the cost of delivering that care.

And if you look around the country where you have concentrations of seniors, we know that's where the Medicare dollars go. And my district of Iowa, as a State, has the highest percentage of its population that's over the age of 85. And we're in the top six or seven over the age of 65. So we actually do pretty good on the longevity side. And in 99 counties in Iowa, 10 of the 12 most senior counties in Iowa are in my district, so I may well represent the most senior congressional district in America.

And I'm standing here looking at this data that's been out here now for probably 2 months, a half a trillion dollars in Medicare cuts, Medicare cuts. And the administration takes the position

that they're going to find waste, fraud, and abuse. But it's odd that if they know where the waste, fraud and abuse is, why do you have to bargain to get a socialized medicine program in order to go after the waste, fraud and abuse? If you find waste, fraud and abuse in government, don't keep it secret, Mr. President. Tell me where it is. We'll find it here in Congress.

And that's one of my concerns is that you can't bargain that. If it's good policy, eliminating waste, fraud, and abuse is always good policy. You don't hold it out and say, I've got a secret. It's in the envelope—karnak predicts that if you pass my national health care plan, I can find you billions of dollars worth of savings. But taking it out of our senior citizens' pockets. And it's so interesting to me that I remember my junior Senator, TOM HARKIN, had a political campaign that resolved around a statement that he made, he referenced \$6 billion, and he said, Well that's just pencil dust. And so his opponent walked around with a man-sized pencil the whole campaign showing \$6 billion is not pencil dust.

But I recall the spokesperson for the AARP sitting on a national cable news program, referring to the half a trillion dollars in Medicare cuts, now it does sound like more when it's \$500 billion in Medicare cuts, referring to it as a small percentage of the overall outlays. Half a trillion dollars, a small percentage of the overall outlays. That's one of the pieces of the bullets that you have there.

Mr. AKIN. I'd just like to cut in a little bit on you, gentleman. When you've raised this point that Medicare pays for whatever it is, 80 or 90 percent of the actual cost of a procedure. So what that's saying is, whenever a doctor treats a Medicare patient, what's really happening is there's more cost than actually is being paid by Medicare. So what that means is at a certain point, if you were to reduce what Medicare is paying, there's going to come a point where a doctor says, enough already. I just can't afford to cover any more Medicare patients because, guess what, I'm going to have to cover some other patients, and I'm going to have to charge them 120 percent to make up for the 80 percent over here because we're cost shifting.

So, in other words, what's happening is somebody is having to pay more. So now what we're going to do is take \$500 billion out of this. And what's that mean? Somebody else is going to have to pay more.

Mr. THOMPSON of Pennsylvania. I think that you are just going down a line, a road that is so important in this debate. It really comes back to where we started talking about rationing. And the ultimate form of rationing, to me, is where you have to close hospitals, especially in a congressional district like mine, and probably a number of my colleagues here are very

rural; to get to another hospital when one closes is a commute that makes a difference between life and death. Hospitals, rural hospitals, and I'm sure underserved urban hospitals in particular, they have a banner year when they make a margin of 1 to 3 percent—1 to 3 percent.

Mr. AKIN. That's not a lot of fat.

Mr. THOMPSON of Pennsylvania. No. Because out of that 1 to 3 percent, hopefully they're able to give some type of cost-of-living adjustments to keep the best and the brightest in terms of physicians and therapists and nurses and health care professionals.

□ 1745

They also need to be investing in new lifesaving technology that is being developed all the time. And so we see these Medicare cuts in particular.

I also put out there the public option, because the public option will pay by statute, what I saw in the Education and Labor Committee, pays Medicare rates 80 to 90 cents on the dollar of costs, essentially what you will do is bankrupt hospitals and physicians. And I project that that will hit first in rural America and underserved urban areas.

That's rationing. When you close facilities, when physicians no longer are in practice because they can't balance their books, that is the purest form of rationing services.

Mr. AKIN. Rationing is something we need to give some thought to.

My good friend from Indiana.

Mr. SOUDER. There's one point I wanted to make sure I got in here tonight, because part of my district is stunned today. The Senate Finance bill yesterday is proposing a tax that ranges from 10 to 30 percent on the medical device industry. Now, when we talk about Medicare, what we're really talking about is they cover not quite variable costs, but cover no mixed costs, and no fixed costs for hospitals or for reimbursement of other things. Private pay pays for the rest of it. And what this bill is in danger of is squeezing or taxing out private pay.

Now what I hear often is why can't we just all go to the Medicare system? The Medicare system, people who are alive today wouldn't be alive if it were based on Medicare reimbursements because the pharmaceuticals wouldn't have been made. The hip replacements that they have, the shoulder replacements, the knees wouldn't have been invented, because the key is R&D. Lilly in Indianapolis, at one point, 60 percent of their profits were from Prozac. Every other drug that was invented was funded with R&D from that. But if they attach an R&D fixed amount to a particular drug, there will be no excess profits with which to experiment.

The orthopedics industry, according to OrthoKnow, an article by John

Engelhardt that was just released shows that the tax on the orthopedic, a little town of Warsaw, 15,000 people in that county, is one-third of the orthopedics industry in the world in my district. Three of the five biggest, they own the biggest companies in Europe, they are looking if this tax goes through and how they move out. This is one when we move up the ladder, we say we're not going to just flip hamburgers, we're going to go up, we're not going to do commodities, we're going to go higher, and then we get up to the higher areas, and we tax them.

Here is Zimmer, the biggest, based in Warsaw. Their R&D budget was \$194 million. The tax under the Senate bill is 94.7. Stryker—

Mr. AKIN. Wait. Wait. Wait. You're going too fast for me. This is absolutely incredible. What you're saying is one of the most brilliant parts of American health care has been the innovation, has been all the new drugs, the new devices, the new procedures. As I mentioned, I'm 62 now. I have gotten to be an old geezer, and my left hip has been giving me trouble. You see me limping around, and I'm going to be looking at a hip replacement. Those weren't available 25, 30 years ago.

Mr. SOUDER. Commodities. The head and founder of Biomet, Dane Miller, talks about in here, they didn't think titanium was going to work. He had somebody serendipitously put into his arm titanium. He walked around with it for 12 years and proved it worked. And they said, wow, this doesn't disintegrate. They used to use basic pieces of wood as your hip. Now we customize it. We try to make it so that when soldiers get hurt on the battlefield and they are 18 years old, they're not going to die in 5 years. Is this going to be flexible enough? How is the skin and bone going to go around it? Michael Porter points out, innovation comes when you have a cluster and there's competition. You destroy that, you take away the R&D. Medicare doesn't pay for that. Private pay pays for that.

Furthermore, Zimmer is proposed to be taxed half. Stryker is proposed to be taxed half. Smith & Nephew is proposed to be taxed half of their R&D budget. Biomet, \$82.2 million in research; \$60.9 million is their tax. Because they were doing readjustments last year, they didn't even make any money.

Now, how do you think we are going to have a single innovation in orthopedics if you tax half of the R&D? And furthermore, they don't call it a "tax," they call it a "fee," so it is not even tax deductible.

Mr. AKIN. So what I'm hearing you say, gentleman, then, is this. Let's just assume if you're a company, for every dollar you put into R&D, you get the same benefit out. You're saying you're going to slash the R&D budget of some

of the big innovators in medicine; you're going to slash it by half because you're going to tax them?

Mr. SOUDER. The little ones get hit harder.

Mr. AKIN. Now England and Canada have had this socialized medicine for years. Are they known for the innovation that those countries have added to health care?

Mr. SOUDER. They come here.

Mr. AKIN. They come here?

Mr. SOUDER. When they need a new hip, the inventions are coming out of Warsaw, Indiana. The parts groups that work at some little companies like OrthoPediatrics, they're working on specialized hips for kids who are 4 years old and 6 years old. Are they going to go to Wal-Mart and pick one up off the shelf? Let's get real here.

Innovation requires competition. It requires investment. The way you keep a cluster, according to Michael Porter in "The Competitive Advantage of Nations," when you have a cluster, you need competition. There has to be innovation every week, how can I get better? And that's driven by profit and by competition.

R&D in England is one of the highest in the world, yet they don't produce new products because the government is most of the R&D. It's not driven for what the consumer wants where the consumer basically rewards the market. And we are going to tax these little ones totally out and the big ones half, and we simply aren't going to get the products. So we don't have the option of going to Canada and England to get it.

Mr. AKIN. So what you're saying, gentleman, is you're going to kill R&D. You're going to kill the development. There are all kinds of people that have cancer that is ticking away slowly. They want some innovation. They are hoping some new drugs or some new procedures are going to come along. We're going to kill that. We're going to get rid of that, and we're going to go to a system that has never worked historically.

Here is a chart. This kind of got my attention, because as I mentioned, I was diagnosed with cancer, but take a look at the cancer survivor rates when you go to the U.K. compared to the U.S., and what you see is that big waiting time and that lack of innovation. You don't live as long when you are over in the U.K. In fact, I was told that when you add up all the cancer times, U.K.'s is a 50 percent survival rate if you're diagnosed with cancer. In the States, it's supposedly considerably higher. So why do we want to destroy a system that is producing this level of innovation?

What you are talking about is free enterprise. And free enterprise needs, first of all, to have people have enough money to be able to invest; and second of all, have that competition and that

hub of technology that you're starting to drive and one guy is thinking, Hey, I see what they did. That was a cool device. But I think I could up it one. I could do it even better. And that American process is what has allowed us to enjoy the best health care in the world. If you're a rich sheikh from Bahrain and you're sick, guess where you're going to go? The good old U.S.A.

My good friend from Iowa.

Mr. KING of Iowa. I thank the gentleman from Missouri, and I look at this data that is there. You didn't read the text below that, the success story here in America in proportion, but U.S. companies have developed half of all new major medicines introduced worldwide over the past 20 years. It happens to also be true that in the United States slightly more than half of the research dollars in the entire world are invested here. Those things are not coincidences. Those things come together. It's almost directly proportional to the research dollars. I'd like to think we are a little better than that. I'd like to think that we have innovative skills and there's something within our culture and our mindset that lets us push even a little harder than that. But what we're hearing from the gentleman from Indiana is that this policy punishes the very most successful among us in this country, and it's likely to drive them overseas.

I had a long conversation with a representative from one of the large well-known medical industries in the country, and they've developed a technology, and I'm not going to define it any more than that it would be transformative from a cure standpoint. And they are looking at deploying that in other countries where they can actually get it deployed more quickly. If that happens, if they can introduce new cures in other countries, the research dollars will follow too, and they will set up shop in those countries. It won't be just customers; it will be our businesses that go, just as we heard from the gentleman from Indiana.

Mr. AKIN. The thing that concerns me is that it's possible for us jumping in haste to some kind of a solution like this because of all the political hubbub that's going on, to jump into something which is going to permanently damage American health care. It's going to irreparably move us in a direction where it's going to be almost politically impossible to recover from. It's a little bit like when you get on the gunwale of a canoe, you put enough weight on it, and you're going to dump it over.

We have a very good health care system, but can it take this kind of a hit? \$400 billion in new taxes. Guess who is going to pay those? Do you think those are rich guys that are going to pay those? That's going to be every plain old working person in this country that is going to be part of that \$400 bil-

lion. \$500 billion out of Medicare. Guess who's going to pay that? That's going to be the seniors. And the delays and denied care. Who's going to pay that? That's people with heart problems, people with cancer problems. People will be waiting in line. People will have some bureaucrat controlling their health care.

One of the things that really scares me about this, and maybe I'm thinking of it a little too personally, but we are Congressmen, and one of the things that we do in our office is we try to help our constituents that have a problem with the Federal Government. And so if somebody needs to get a passport, we go hurry up and try and help them get their passport quicker. If somebody has a problem with a permit or something, WE go call the bureaucrats up and say, Can you help out? What form have we not done? How can we help this? And we try to help our constituents out. Now, I'm picturing I'm on the phone and we've got this kind of system, and I'm getting the phone call that says, You've got some government bureaucrat that just told my dad he can't get a heart bypass. What am I supposed to do?

I yield.

Mr. SOUDER. The chancellor of one of my universities, yesterday, when I was at Turnstone, this fellow that works with kids who have physical disabilities and gets them recreational activities, he said, My dad is a veteran and my mom is now in the hospital, and we tried to check with the Federal Government to get the eligibility benefits. We kept getting taped messages saying the person is there on Thursdays for 2 hours.

That's what you'll get with government health care.

Mr. AKIN. Thursdays on 2 hours. So get in line. That's incredible.

We are about at the end of our hour. I would very much like to thank my good friends representing a host of different States, people with a great deal of common sense, and particularly Pennsylvania, with 25-plus years of being in the medical business. You see this thing, it's like a train wreck that you're seeing in slow motion.

What we're trying to say is Americans, pay attention. We cannot afford to go this deal about taking 18 percent of our economy and giving it to the Federal Government to run. It doesn't make sense. It's going to be expensive. It's going to destroy health care. And in every other regard, this is just a bad deal for everybody.

Thank you so much for joining me, gentlemen.

#### REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 2892, DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

Mr. HASTINGS of Florida, from the Committee on Rules, submitted a privileged report (Rept. No. 111-300) on the resolution (H. Res. 829) providing for consideration of the conference report to accompany the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, which was referred to the House Calendar and ordered to be printed.

#### REPORT ON RESOLUTION PROVIDING FOR CONSIDERATION OF H.R. 2442, BAY AREA REGIONAL WATER RECYCLING PROGRAM EXPANSION ACT OF 2009

Mr. HASTINGS of Florida, from the Committee on Rules, submitted a privileged report (Rept. No. 111-301) on the resolution (H. Res. 830) providing for consideration of the bill (H.R. 2442) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes, which was referred to the House Calendar and ordered to be printed.

#### THE CONGRESSIONAL BLACK CAUCUS HOUR

The SPEAKER pro tempore (Mr. KISSELL). Under the Speaker's announced policy of January 6, 2009, the gentlewoman from Ohio (Ms. FUDGE) is recognized for 60 minutes as the designee of the majority leader.

#### GENERAL LEAVE

Ms. FUDGE. Mr. Speaker, I ask for unanimous consent that all Members be given 5 days to revise and extend their remarks.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from Ohio?

There was no objection.

Ms. FUDGE. Mr. Speaker, the Congressional Black Caucus, the CBC, is proud to present this hour on issues that concern America's senior citizens. The CBC is chaired by the Honorable BARBARA LEE from the Ninth Congressional District of California. I am Representative MARCIA L. FUDGE from the 11th Congressional District of Ohio, and I am the anchor of the CBC hour.

The vision of the founding members of the Congressional Black Caucus, to promote the public welfare through legislation designed to meet the needs of millions of neglected citizens, continues to be a focal point for the legislative work and political activities of the Congressional Black Caucus today.

Tonight, the CBC will focus its attention on the issues currently confronting our seniors. In his last speech, Hubert Humphrey said, The moral test of government is how that government treats those who are in the dawn of life, the children; those who are in the twilight of life, the elderly; and those who are in the shadows of life, the sick, the needy, and the handicapped.

The fact that some Americans work their entire life, regularly paying into Social Security and are confronted by poverty in their golden years is indeed a problem, Mr. Speaker.

□ 1800

The social insecurity facing our Nation's seniors is not a Democratic problem or a Republican problem; it is an American problem, Mr. Speaker. This year's news headlines tell the story: "Seniors Struggle With High Cost of Housing and Food, Barely Getting By"; "Seniors Struggle to Survive"; "Single Seniors Can't Make Ends Meet"; "Subsidized Lunches in Greater Demand Among Senior Citizens"; "Forty Percent of Senior Citizens Not Taking Prescribed Medicines Due to Budget"; "Senior Citizens See Largest Gain in Credit Card Debt As Recession, Medical Costs Take a Toll."

Mr. Speaker, our country will recover from this recession, but we cannot forget the seniors who struggled before the recession began. Many live on fixed incomes and find it difficult to live under the pressure of high medical bills and the rising cost of essentials like medication, food, and housing.

One of the most disheartening news headlines of 2009 had the title, "U.S. Is Losing Ground on Preventable Deaths." In this story, AARP reported that Americans are dying too soon, although the United States spends \$2.4 trillion a year on medical care, vastly more per capita than comparable countries. Our Nation ranks last when compared to 19 other industrialized nations on premature deaths caused by illnesses such as diabetes, epilepsy, stroke, influenza, ulcers and pneumonia, all medical issues that disproportionately attack and weaken American seniors.

In my district, senior citizens call my office daily. Some call looking for reassurance that Medicare will be strengthened through the health care reform, and others asking questions about the future of Social Security.

One senior called just this past week. He is an 85-year-old man living in public housing. He has an artificial leg which he has had since the age of 11. He is worried that his Social Security check will not cover the cost of the medications he uses for complications caused by his artificial limb if the cost of his medications continues to climb.

I am confident, Mr. Speaker, this Congress will answer the calls and the concerns of these seniors, and I will not

rest until all seniors have their answers.

Reports have been looming for years about the long-term financial problems of Social Security. The retirement program is projected to start paying out more than it receives in the year 2016. According to the Social Security trustee, without changes, the retirement fund will be depleted by 2037.

Demographic factors are accelerating Social Security problems. Life expectancy is increasing faster than anticipated. In 1940, a 65-year-old man could expect to live maybe another 12 years. Today it's 15 years, and by 2040, it will be 17 years. The fertility rate is falling faster than expected, from 3.6 children for a typical woman of childbearing age in 1960 to just two today, and a projected 1.9 by 2020.

The elderly portion of the population will likely rise from 12 percent today to 20 percent by 2050, increasing the number of retirees from 34 million to 80 million. The smaller working age population and larger elderly population means that where there were more than five workers for each retiree in 1960 and 3.3 workers per retiree today, by 2030 there will be just two workers to pay the taxes for the benefits of each retiree.

Social Security is a pay-as-you-go system, as you know, with each generation of workers paying the benefits of current retirees. This works fine as long as the working population grows faster than the retired population; but now that the trend has reversed, the system is simply unsustainable.

Congress and the Social Security Administration are seeking solutions to this long-term problem; but at the same time, we have to work on the existing problems confronting our seniors on Social Security. Recently, the Congressional Budget Office reported that for the first time in 35 years older Americans will not receive a cost-of-living adjustment, or COLA, increase in their Social Security checks in 2010. This is bad news for many retirees living on a fixed income because although the cost of necessary goods like food will continue to rise, seniors who rely on Social Security checks will not see their budgets increase.

To compound this problem, millions of the same seniors whose budgets may be tighter than ever will also face much higher Medicare part B and Medicare part D premiums next year. Medicare part B insurance covers doctors visits, lab work, physical therapy, and other types of outpatient services. Medicare part D is the Medicare prescription drug program.

A Federal law, known as the "hold harmless" rule, prevents the annual cost of part B premiums from rising higher than that year's Social Security COLA. For example, if your annual Social Security income increases by 5 percent, the yearly part of part B pre-

miums cannot increase by more than 5 percent. The problem is that, while this hold harmless rule covers some Medicare part D patients, it does not cover any of the 28 million seniors insured by Medicare part D prescription drug coverage, and it does not cover about 11 million Medicare part B seniors.

Mr. Speaker, I have been joined today by my colleague and friend, the Congressman from Minnesota. I would like to yield as much time as he may consume.

Mr. ELLISON. I want to thank the gentlelady from the great State of Ohio for doing such a wonderful job talking about health care, our seniors, talking about all these critically important issues facing our Nation right now.

As the gentlelady is very well aware, we are at the very edge, at the very moment where we can have real health care reform for all, or maybe not. The reality is that we are optimistic. We are closer than we have been in 60 years, closer than we were in 1994, closer than we were when Roosevelt first said all Americans should have health care and have health and wellness, closer than we were when Truman said we need universal health care coverage.

We are close. We have five bills reported out, three bills through the House, two bills through the Senate. And right now, Americans all around the country are saying, will the Congress finally do it?

Do you know that upwards of 77 percent of Americans want real health care reform? They want health care reform with a public option. They want real change, and it's time that they get it.

But I wanted to mention to my friend from Ohio, the great Congresswoman FUDGE, we all need health care reform. The fact is that when health care reform arrives, it will benefit communities of color more than it will other communities. It will benefit everybody. Everybody who will never be turned down for a preexisting condition will benefit. Everybody who has seen their premiums double over the last 10 years and will probably see them double in the next 10 years will benefit. But when you look at the startling disparities people of color are facing every day, I think that they will benefit more.

Just to let everybody know, the fact is that, yes, it's true, life expectancy for the average American has gone up. But for average African Americans, it still lags behind about 5 to 6 years. For African American men, it's not even 70 years old yet. African American men, on average, can expect to live to be about 69. Their counterparts can expect to live to be about 75. Now, imagine a child being born at the age when their grandpa is 69 years old. That means that if that child is African American and their grandfather is, they may never know grandpa.

But if we really address health care disparities, maybe we can get African American men up to 75 years old. That means that they will get a chance to bounce on his knee, get to know him, get to talk to him, get to learn something from him, maybe learn how to go fishing. It's a quality of life issue, more years. Addressing that cervical cancer earlier means grandma will be around longer.

Most of us, if you grew up like I did, know that mom and dad had to be tough on you because they had to raise you right. But there is one person who you knew thought you were absolutely terrific no matter what you did, and that's grandma, right?

Ms. FUDGE. That's absolutely right. Will the gentleman yield?

Mr. ELLISON. I will yield to the gentlelady.

Ms. FUDGE. I just wanted to say that, as you talk, it just really gives me some encouragement that we have put in place legislation that is going to allow us to deal with preventive care and wellness. Certainly that is an issue in our neighborhoods and all neighborhoods, especially neighborhoods of poor people and middle class people. It has become a major issue just finding the resources and the time and ability to go to the doctor and say, I have a small problem, let's take care of it before it becomes a big problem.

And I think that just what you're talking about is preserving the longevity of grandma and your uncles and your aunts based upon the fact that they are going to be healthier longer is very, very important. And I yield back.

Mr. ELLISON. Well, I accept the gentlelady's yielding because it's important that when we talk about health care—you know, Mr. Speaker, we talk about statistics. And we drop stats, and we're talking about statistics and numbers and all of this stuff that we talk about. But we can never forget we are talking about human beings' lives. We're talking about human beings having more time with each other. We're talking about, as we said, your grandmother being there; and yet because of health disparities, inequality in the area of health, she is not being there. And how enriched a human being is by having that generational exchange.

These are just little examples of what we're talking about. And that's why Democrats are pushing forward on health care. That's why the Black Caucus is pushing forward on health care. That's why we need all Americans who care about a better quality of life to be pushing forward on health care. We can't survive with the status quo. Literally, we cannot survive with the status quo.

I yield to the gentlelady.

Ms. FUDGE. Thank you. You are absolutely right; we cannot survive with the status quo.

And the other thing that this bill does is it allows us to say to those who

have for so long not been able to really live a healthy lifestyle—not because they don't want to, but because they don't have the ability to—to now say, look, we are going to put resources in your neighborhood community clinic so that you can go and make sure that your children have the proper exams and the proper things before they go to school.

We are going to be in a position where we say to them, we are going to make this health care accessible to you, not just on Monday through Friday from 8 to 4, when working parents have to work; but because of the resources we're providing, we are now opening these clinics on Saturday. We are now saying to them we are going to make this more convenient for you because we want you to be healthy. We want to set the example, set the standard; and it's time we do those kinds of things for the people we serve because that is our job is to take care of the people we serve.

I yield back.

Mr. ELLISON. I thank the gentlelady for yielding.

Mr. Speaker, I mean, the point is that part of this bill says, if it's enacted into law, that, you know what? You will not have to pay a copayment for preventative services. We want you to engage in preventative medicine. Get your sugar checked. Get your blood pressure checked. Come on in here and let's make sure that you get a prostate or a mammogram. The fact is these are the things that are going to keep you around here longer and will save the system money in the long run. These things are so important.

And I just want to give folks an example. In the year 2004, just a few years ago, African Americans had the highest age-adjusted causes of death rates for all races and ethnicities. In addition, African Americans have the highest age-adjusted death rate for heart disease, cancer, diabetes, HIV and AIDS. All of these things would be addressed if we can pass this bill and keep those things in the bill that address health disparities. That's why we need people to step forward and do the right thing and support this bill.

You know, the American people have called for change, but I just want to let folks know that the change that we're calling for will help all Americans. And while it might not help some executive insurance companies, it will everybody else. And when everybody else gets helped, this rising tide will lift people at the bottom higher, and it will help extend their lives and improve the quality of their life.

At this point, I am going to have to turn it back over to the gentlelady. She has been doing such an excellent job, but I just want to say thank you for doing what you can do to raise the consciousness of the American people because the American people want

change, they want optimism, they want people who will fight for change. They don't want folks who are going to give us the same old thing, because we can't survive with the status quo; but with change, we can.

Ms. FUDGE. Thank you very, very much. I am so pleased to have you join me this evening, Mr. ELLISON. I thank you for your work. You do outstanding work on behalf of people in the most need, and I am happy you could join me.

It seems as though now we have been joined by our Chair, the Honorable BARBARA LEE, the gentlelady from California. I will now yield to our chairwoman. Thank you so much for being here.

□ 1815

Ms. LEE of California. Thank you very much. Let me thank the gentlelady for yielding.

Let me also, once again, thank you for your leadership in making sure that all of the issues that are so important to our country and to the Congressional Black Caucus, to all of us, are really brought forward on this floor.

I rise tonight on behalf of—and I just have to say—our nearly 70,000 senior citizens whom I have the privilege to represent in the Ninth Congressional District of California, but also the seniors across this country. As our Nation's economic uncertainty continues, it is these individuals who are struggling at a disproportionate rate to overcome the grip of poverty and to maintain their quality of life, so it is important that tonight we talk about what is going on with our senior citizens and how important this moment is for them.

During the present turmoil, these hardships are especially acute amongst people of color, minorities, with more than 22 percent of African American and 19 percent of Latino seniors living below the poverty line. These poverty levels are more than double the national average for all individuals over 65 years of age.

Now, I firmly believe, like Congresswoman FUDGE and like all of us here believe in the Congressional Black Caucus, that we have a moral responsibility, a duty and an obligation to reverse this disturbing trend by utilizing the full constitutional power, statutory authority and resources of our government to provide opportunities for all and to develop these pathways out of poverty for our seniors. Some of these pathways include critical programs such as Social Security, continued support of Medicare and reforming our Nation's health care system, which you heard about earlier and which we are in the midst of reforming as we speak.

Social Security benefits constitute 90 percent of the income of one-third of Americans over 65. Many of the 75,000

residents in my district who receive Social Security are dependent on their guaranteed benefits. Without these vital benefits, nearly 50 percent—mind you, 50 percent—of seniors nationwide would be forced to live in poverty, which is a five-fold increase over the present rate. This makes it very critical for all of us to fight against any efforts that would threaten the benefits on which so many senior citizens rely.

I hear this from my mother, Mildred Massey, each and every day. So, on her behalf, I want to reiterate that once again.

We must also understand that, as the costs of medical care continue to rise, ensuring individuals' economic stability is inextricably linked to reforming our broken health care system. Today, as a Nation, we spend approximately \$2.2 trillion per year on health care, or \$7,400 per person, which is nearly twice the average of other developed nations and more than what we currently spend on either housing or food.

Members of Congress, especially members of the Congressional Black Caucus here, really do disproportionately represent the men, women, children, and especially seniors who are underinsured and uninsured and whose health and wellness have suffered because of the numerous gaps.

Some of us are calling these, really, moral gaps in our Nation's health care system. We support efforts to reform and to modernize America's health care system through comprehensive health care reform, and members of the Congressional Black Caucus support health care reform that includes a strong, robust public option like Medicare, which is a component of health care reform for which we are unwavering in our support. We want to continue to strengthen and to protect Medicare for our seniors, and we are determined to do that in this health care reform effort—that is, strengthen and protect Medicare for our seniors. We agree that Medicare services should not be reduced as a means of paying for this health care reform bill.

While the proposed provisions for our robust public option will not be implemented until 2013, we also recognize that, as early as 2010, many positive reforms will be enacted, such as prohibiting the abusive health insurance practice of rescinding existing coverage in order to avoid future costs, improving preventative care and coverage, making prescription drugs more affordable by eliminating the gaps in coverage, and increasing funding for community health centers. So this is essential in our health care reform package, but as I said earlier, we want to strengthen and we want to protect Medicare for our seniors.

Finally, let me just say, as a member of the Subcommittee on Labor, Health and Human Services and Education of

the Appropriations Committee, I would like to highlight the initiatives in the 2009 omnibus appropriations bill which strive to close the huge gaps in coverage and access for America's seniors by providing \$22 million for a new initiative to reduce hospital and clinic infections that cause nearly 100,000 deaths each year. That's staggering. Hospital and clinic infections cause nearly 100,000 deaths each year. What we did is we put in \$22 million so we can begin to combat these avoidable infections and reduce hospital readmission rates.

In addition, \$45 million has been set aside for health insurance counseling for seniors so that millions of Medicare beneficiaries can get the help that they need to understand and to utilize their complex benefits. I understand how complex some of this can be, and this counseling is so important. For those of us who have mothers and fathers and grandparents and aunts and uncles who are senior citizens, we know very clearly how difficult it is to weed through some of these forms and through some of these benefit regulations and rules, and we need to make it less complicated. So, hopefully, this \$45 million will help our senior citizens.

From the members of the Greatest Generation to the aging baby boomers, our seniors have given much over the years, so it must be our charge to support them and to remain focused on tackling the many challenges facing our Nation. We look forward to working with our leadership on both sides—Democrats and Republicans—in the following weeks to do everything that we can to continue to guarantee continuing care—Medicare and health services—for this great group of Americans.

Thank you, Congresswoman FUDGE.

Ms. FUDGE. Thank you so much, Madam Chair. It's always a pleasure to have you join me. Even though we generally do this on Monday nights, this is a special Wednesday night for us, so I appreciate your taking the time to stop by. Thank you very much.

Mr. Speaker, as I mentioned, I believe this Congress is willing to take a stand for seniors. I am proud to be a cosponsor of several pieces of legislation and to be a signatory on a number of letters to congressional leadership and Federal agencies which were authored to help seniors who are facing mounting financial and medical concerns.

One important bill, the Social Security COLA Fix for 2010 Act, ensures that seniors receive their COLAs for 2010. This legislation will help offset rising costs by providing seniors with a one-time \$150 payment in lieu of the Social Security COLA. The offset is fully paid for, and the legislation would not affect other Federal programs. For example, the one-time \$150 payment would not count as income, and as a re-

sult, it would not push seniors who are too young to qualify for Medicare out of the eligibility for Medicaid.

I want to talk just a bit about end-stage renal disease, Mr. Speaker, which is a disease that affects many seniors in my district and around the country. They are those who experience kidney failure. Last year, Congress passed legislation to provide up to six sessions of pre-end-stage renal disease education to Medicare beneficiaries experiencing kidney failure.

I joined a number of other Members of Congress and sent a letter to the directors of the Centers for Medicare and Medicaid Services, urging them to reconsider the proposed physician fee schedule, which would reimburse a 60-minute kidney education service, provided by a licensed physician, at the same rate as a 15-minute session provided by a nutritionist. The letter also requests that CMS reconsider the restriction on who can administer pre-end-stage renal disease education. Currently, only physicians can provide this service, although, licensed practitioners, such as nurses and nutritionists, are available and are trained to provide this education as well.

Adjusting the reimbursement rate and allowing multiple types of licensed practitioners to educate seniors with kidney failure will ensure that seniors facing end-stage renal disease will get the care and education they need.

For many seniors, their major concern about aging is the fear of losing their mental capabilities. That is why I am a cosponsor of the Alzheimer's Breakthrough Act of 2009, which is a bipartisan piece of legislation that includes an authorization of \$2 billion for Alzheimer's funding at the National Institutes of Health, for support for caregiver programs and for a national summit on Alzheimer's.

Another piece of legislation which is essential to the welfare of America's seniors is the America's Affordable Health Choices Act of 2009. While some seniors have received misinformation and have voiced suspicions that health care reform would cut Medicare benefits, many know the truth about this bill. Medicare will be absolutely strengthened under the proposal.

As we all know, the health care reform bill is not yet complete, and many more changes will be made before it becomes law. While I cannot predict how the bill will be structured once it is finalized, I can tell you that I am fighting to ensure health care for seniors will not be diminished in any way.

Under the House proposal, seniors should notice a number of improvements in services. To be more specific, the House proposal will protect Medicare by shoring up funding for the program across the board so that all Americans will have this benefit as they grow older.

The bill will lower drug costs by eliminating the Medicare part D doughnut hole for prescription-drug coverage. The doughnut hole refers to a costly gap in the Medicare part D prescription drug plan. The plan currently covers up to \$2,700 per year in prescription-drug benefits. Then it stops. Coverage does not begin again until a recipient's drug cost exceeds \$6,100 annually, thus, leaving the recipient responsible for paying all drug costs between \$2,700 and \$6,100.

Under the proposed legislation, seniors could receive a 50 percent discount on brand name drugs in the doughnut hole immediately after the bill passes. This is a measure that would provide immediate relief for seniors who must choose to either purchase medication or food—a choice no American should be forced to make.

The legislation provides free preventative care. Seniors would pay nothing on preventative screenings and services designed to keep them healthier longer.

The bill improves primary care by ensuring that seniors are able to spend more time with their primary care doctors.

There are provisions to enhance safety by developing national standards that measure medical care quality by investing in patient safety and by rewarding doctors and nurses who administer high-quality care.

The legislation increases oversight by cracking down on waste, fraud, abuse and medical overpayments.

There are provisions that encourage hospitals with high readmission rates to provide transitional and coordinated care services.

Finally, Mr. Speaker, the bill has new initiatives to improve nursing home quality and transparency.

Seniors should not be fearful. Change, we know, is difficult, but as Henry Ford said: Don't find fault; find a remedy.

Experts who have studied the House health care reform legislation found that the proposed changes actually strengthen Medicare and improve beneficiaries' care and access to physicians. Passing legislation that improves the lives of seniors is the number one priority in this Congress. Seniors should not have to fear or wait any longer. I say to all of the seniors: We are fighting for you. Every day, we are fighting for you, and we will not let you down.

#### HEALTH CARE REFORM

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Texas (Mr. BURGESS) is recognized for 60 minutes.

Mr. BURGESS. I thank the Speaker for the recognition.

Mr. Speaker, I come to the House floor tonight to talk a little bit more

about health care. It is, it seems, the number one topic of the day here in Washington, D.C. It's interesting because probably 50 percent of Americans care more about what we are doing as far as job creation, and 14 percent are concerned about health care. You would think that we would adopt the Bill Clinton phrase of "focusing like a laser beam" on the economy and "focusing like a laser beam" on job creation. But health care is important, and it is appropriate that we spend some time discussing it because, likely as not, before the end of this month, certainly before the end of this year, it is possible that some type of bill will pass this House, although it may not be to the liking of a great number of Americans.

Mr. Speaker, I know that my comments must be directed to you and not to others, but I would say, Mr. Speaker, that if I were able to talk to people about what they could do, a plan for action, I will be discussing that toward the end of this hour.

□ 1830

So I do encourage people to stay tuned to this debate—not necessarily to this discussion this hour—but stay tuned to this debate because it is important. It is going to affect the lives and livelihoods of Americans from this day forward for a long, long time. It is extremely appropriate that we take our time, that we get this right, that we do not hurry through the process, that we do not cut corners.

Now, Mr. Speaker, you look at where we are 10 months into this year. Do we have the trust of the American people in this body? The answer to that question is, it doesn't seem so. What people have seen this year—and even going back into last year in the term of the previous President, President Bush, they saw a couple of bailouts last year, they've seen more of the same this year, they've seen stimulus, they've seen automobile takeovers, financial sector takeovers, cap-and-trade that passed the floor of this House that many Americans felt was inadvisable in a time of economic downturn; and Washington yet still has the nerve to say, Trust us because we can take care of you and we will make your lives better. But the current polling numbers don't really suggest that that is something that's believed by the American people.

Now true enough, the President started this year with extremely high approval ratings, somewhere likely in excess of 80 percent approval ratings at the time of the inauguration—an extremely popular individual—and has retained a great deal of that popularity, depending upon the poll that you select. Now it is down to about 50 percent, 49 percent this morning in Rasmussen, 52 percent in the RealClearPolitics daily average poll.

But, still, one out of every two Americans still has a favorable impression of the President.

What about the United States Congress? Is it one out of two? Is it one out of three? It's one out of every five people holds the United States Congress in high regard.

So with our current approval ratings hovering around 20 percent, why do we think the American people would believe that we, in fact, do know best and that they should trust us on an undertaking of this mammoth scale? And you can see how big the undertaking is.

We heard previous speakers in the last hour talk about how difficult it is. We have had three health care bills that passed the various committees in the House last summer. You had one health care bill that passed the Senate Health, Education, Labor and Pensions Committee in June of this year; and then most recently you had the talking points memo that passed out of the Senate Finance Committee yesterday with a single Republican vote on that. I do not believe there were any Republican votes on any of the House products in the three committees that considered this bill under their various jurisdictions.

The Congress doesn't have a lot of credibility right now on this or, quite frankly, many other issues. It would be a great thing, in my opinion, if Congress spent some time in trying to rebuild that credibility; but unfortunately, it's the old adage: Don't check the weather; we're going to fly anyway.

And off we go with a big cap-and-trade bill in June that upset a lot of people; we did the three health care bills on the House side in the various committees in July. We ran into the town hall meetings during the month of August when people told us what they thought of our efforts, and now we're back here in the fall taking up the big bill on health care reform.

As we've watched this debate, you think back to a year ago, we were in the middle of a presidential campaign. Both presidential candidates had ideas about what should happen as far as health care and the possibilities for health care reform. Remember now—President Obama's position last fall was significantly tilted towards getting coverage for the uninsured. It was a moral imperative. It was something that we had to do. Then we worked through some of the more difficult parts of the economic downturn, a lot of job losses were incurred during that time; and at the beginning of the year, many more people were concerned about the cost of health care and would they be able to continue to afford their insurance, would they be able to continue to afford health care. So affordability became perhaps a higher priority for Members of Congress who were considering these reforms during the spring.

In June when the first congressional committee in the Senate, the Health, Education, Labor, and Pensions Committee passed their bill out of the Senate committee, the focus was all on cost and coverage. The cost numbers turned out to be significantly higher than anyone thought they would be; somewhere in the neighborhood of \$1.5 trillion over 10 years' time. The coverage numbers were disappointing at only a third of the uninsured actually being picked up. And there's no question that that delayed the second Senate committee, the Senate Finance Committee, in introducing a bill and marking up a bill which they just completed this week because they were trying to fine-tune those numbers.

Now on the House side, we did, in fact, get a Congressional Budget Office score that came in around a trillion dollars for a 10-year bill. A little disingenuous because the Congressional Budget Office—in the hearings we had on Energy and Commerce from the Congressional Budget Office, the score was administered not on legislative language but on conversations, telephone calls, that the members of the Congressional Budget Office had with members of the Democratic majority who were writing the bill. So, yes, it was a cost number but there was some question as to the accuracy of that.

And then here was a really big problem and one that really hasn't been addressed yet. These are enormous programs to undertake. They are not going to start overnight. So even if we pass a bill before the end of the year, it is going to be some time before these programs—whether it be a public option, whether it be exchanges within the States—it is going to be some time before the Centers for Medicare and Medicaid Services in the Department of Health and Human Services—which is likely to be charged with writing the rules and regulations under which these new products are formed—it's going to be some time before those things happen.

The benefits are actually not scheduled to begin to kick in until the year 2012, 2014. It will be some time before those benefits occur. The taxes, of course, will begin the minute the ink is dry on the President's signature on the bill. So if we have a tax on high-end insurance plans, if we have a tax on medical devices, if we have a tax on any number of things, these taxes will begin to accrue January 1 of that year, but the benefits don't actually begin to kick in for some time.

And once again, the United States Congress, when it's questioned by the American people, the United States Congress says, Don't worry. Trust us. We know best how to plan for you. We know best how to take care of you. We know that you don't know how to do this for yourself. And Congress, with its 20 percent approval rating, is just

the man for the job to get this done for you.

During the presidential campaign last year, President Obama promised to bring all parties together and not negotiate behind closed doors and to be broadcasting those negotiations on C-SPAN. Now we had kind of an unusual situation occur in May and June of this year when stakeholders in the health care community met at the White House and offered up things that they could do, things that they could do to hold down the cost of health care—you had to wonder where were these individuals for the 15 years before—but you had groups. The American Medical Association, of which I am a member, was in those meetings; the American Hospital Association was in those meetings and offered up a number of things that they could do for substantial cost savings.

A little bit of controversy then last week as the Senate was working through its product, will those things that the American Hospital Association offered, are those going to be taxed or not? And there was some back-and-forth with the Congressional Budget Office as to what those numbers actually meant.

Medical devices. Again, similar situation. PhRMA came to the table with—I forget the number now, but it seems like it was about \$80 billion in cuts that they were going to be offering.

Well, none of these things that were agreed to behind closed doors last May, none of these deals are available to us as Members of Congress so that we can know what did America's health insurance plan group, when they came to the table and said, We can save you billions of dollars, Mr. President, and he said, What took you so long? But as members of the committee that were charged with working through this bill last July, why did we not have that information available to us? Why was it a surprise at the Senate Finance Committee when, hey, we thought these breaks we were giving the hospitals were going to still be subject to a corporate income tax, not an off-tax item? Why was there even that discrepancy or that discussion? Why not share with us those deals that were struck down at the White House?

And indeed, last month I sent a letter to the White House and asked for the release of those discussions, the transcripts of those discussions, the minutes or notes of those discussions, pertinent e-mails that may have occurred during those discussions.

Just quoting from my letter to the White House: It has been now over 4 months since the White House announced numerous deals with major stakeholders in the health care debate to save upwards of \$2 trillion in the health care system. Little to no details regarding the negotiations have been released. And recent actions and press

reports have reminded me of the importance of openness and transparency throughout the legislative process—the very openness and transparency that we were promised by this President during the campaign.

So the letter has gone to the White House. I eagerly await a response to that. I am in fact somewhat surprised, my committee, the Committee on Energy and Commerce that has a fairly robust oversight and investigation subcommittee, I am somewhat surprised that they have not been curious about the deals that were made down at the White House early in the spring; why they have not been curious about some of the e-mails that may have occurred during the back-and-forth working through these negotiations. Again, the letter went to the White House on September 30, and I await a reply.

I will ask later to include this letter as part of the CONGRESSIONAL RECORD this evening so that people will have the opportunity to read through that letter themselves.

But again, the American people just simply do not trust the American Congress, the United States Congress, to make these kinds of decisions for them.

When you look at some recent polling data when the question was asked if Congress works through this process and comes up with a major health care reform piece of legislation, is health care going to get better or is it going to get worse? Well, a quarter of folks think it's going to get better. About 26 percent say, Yeah, we think Congress will make the kinds of improvements that are necessary and health care will, in fact, improve. Fifty percent say it will get worse. Not great numbers with which we're working.

You know, it was startling for many of us, the interest that was out there over the summer during the August recess on the health care bill, on cap-and-trade. Town hall activity was widely reported in news media outlets across this country. My district back in Texas was no exception. Town halls where I might typically have 30, 40, 50 people show up on a Saturday morning, 1 or 2,000 people would show up. In fact, one venue we had to change from inside to outside and just held the bulk of the meeting out in the parking lot because of the number of people that showed up.

I have to tell you, Mr. Speaker, August in Texas in the parking lot is—you're asking a lot of people to stay with you through an hour or so discussion of a health care bill. But they did, and they asked questions, and they were respectful.

I don't think that this August was an anomaly. I don't think that the American people had some sort of fugue state during August where they reacted to the health care legislation and the cap-and-trade legislation and reacted in no uncertain terms as to how

angry, how anxious they were about these bills that we were passing.

But when we get back to Congress in September, it's like August never happened. It was unimportant. "Don't pay any attention to those people back home because we're Congress. Trust us. We know best. We know best how to take care of you. We know best how to give you what we think you need."

We got back in September and I think I thought after seeing the August town halls, I thought this Congress would hit the pause button, hit the reset button, hopefully the rewind button on this health care legislation, but no such luck.

We went at it full force. We, in fact, even had a little bit of an extended markup in the Energy and Commerce Committee where it was suggested to the chairman of my committee, you know, that August was a rough month for a lot of people, a lot of people on both sides of the dais—Republicans and Democrats both, even Republicans who voted against the bill—people were angry that the bill was even being considered and would likely pass.

□ 1845

On the Democratic side, there were a number of town halls that were quite contentious. We thought, I thought Members would welcome the opportunity to, well, let's sit down and revisit this. Let's reorganize. Maybe there were some good ideas on the other side of the dais. Maybe Republican members should have been brought into this process and take some ownership of this bill, if nothing else. Don't leave us being the only ones out there to defend it; but, no, that wasn't the case.

The chairman of the committee said August, in so many words, August didn't matter. The people that spoke up were few and far between, and these large crowds that showed up at the town halls were somehow manufactured and didn't count. Not only did they not count, we were not reconsidering any part of the bill. We had some additional amendments that Members on the Democratic side wanted to offer. I offered a couple on our side as did other Members on the Republican side. But for the most part those amendments were struck down on a party-line vote.

Both sides of the aisle genuinely see a problem and genuinely want to work toward improvement of the process. You have heard me say it before. You have heard other Members of Congress say it before. Some people dispute it as a fact, but I will say it: America has the best health care system in the world. There are distributional problems, and there are inequities in the insurance system that need to be fixed, and they are within our purview. They are within our capability of fixing, but we do not need to turn the entire system on its head to effect those ends.

How could we best go about improving what we call health care in America? Well, we can ensure that patients continue to have, continue to get, care, have access to care, and continue to get the best care. That would be a good thing for us to work on together.

Instead of being an obstacle, instead of threatening cuts every time you turn around, we could help doctors, nurses and hospitals continue to provide that excellent care. We, as Members of Congress, and sometimes it's do as I say, not as I do, but perhaps we could set a better example about living healthy lifestyles, staying within our—staying within our ideal weight. Maybe that's something we should look at.

Again, an amendment to that effect was turned back in my committee on Energy and Commerce. You know, really, one of the keys is going to be, if we are going to hold down medical costs, we really do have to involve the patient in the process. We have to have patient involvement in the doctor's office. We have to have patient involvement in making those healthy lifestyle choices. If we do not have the patient involvement and increase the patient knowledge base, the health literacy, if you will, about things like preventive care, about things like the importance of eating right and staying fit and the importance of regular health checkups and medical screenings, if we don't do that, the cost for health care is going to continue to increase and increase at a rate at which it's going to be very, very difficult, regardless of the number of new taxes, regardless of the cuts to doctors and hospitals and nurses. Regardless of all of those things it's going to be very, very difficult for Congress to keep up.

We do put the system at risk when we do that. There could be a day when the generation or two coming behind us will say we can no longer afford the type of tax rate that you have left for us. We will have to do something drastically different, and we don't want to do that. We don't need to do that.

Now, you have heard a lot of discussion about how Republicans have been obstructing the process. Let me clarify that just for a moment. There are 177 or 178 Republicans in this body, 256 Democrats in this body. It takes 218 votes to pass a bill, to send it on to the Senate. The Democrats in this body could pass whatever bill they wanted. They do not need Republican support. They have, in fact, told us that on more than one occasion. The famous phrase that came out in January or February, well, after all, we won. There hasn't been a lot of reaching across the aisle, because it was just simply not necessary.

Now, you think back to February. Again, the President had an approval rating of, I don't know, 70, 75, 80 percent. The President could have passed whatever health care bill he wanted in

February of this year. There would have been nothing anyone could have done to stop it. In fact, there likely would have been very few people with the courage to try to stop it because the President was seen as so popular and so powerful, evidenced by the fact that the President did get a \$787 billion stimulus bill passed through this House, a bill that many thought was ill advised, a bill that many thought was duplicative, unnecessary and wasteful.

But they got it passed, no Republican input into that bill as it was being written and no Republican support on the floor; but they didn't need it. It passed overwhelmingly with only Democratic votes, went down to the Senate for a similar fate, went down to the White House and was promptly signed into law by the President.

It was followed a week later by an omnibus bill that spent a lot of the same dollars on the same things. Again, not much in the way of Republican support was solicited or required for that. It passed because, after all, 218 votes are all that are required to pass a bill on the floor of this House. The Democrats with their 256 majority have more than enough votes to pass almost anything they want.

Now, the Republicans even tried—and I don't know the answer to that for everyone, but I will tell you that I did. I met with the transition team in November of last year.

I met with the chairman of my committee in January of this year and said, look, I didn't give up a 25-year medical career to come here to sit on the sidelines. I want to be involved in this debate. I may not be able to be with you on some issues. There are some things that I think are just the wrong approach to reforming health care, but let's sit down and have the discussion and see what can be worked out.

I was thanked for my interest and never received a call back. Oh, I did get called down to the White House in March for a photo op, but that was about it. There wasn't much more to it than that.

Then as the bill was being written behind closed doors for the various committees where we worked on the bill on the House side, certainly at no point was I ever offered any input.

Now, I did, as did many members in my committee, offer a number of amendments, and we did amend the bill in committee. It would be interesting to see now whether or not those amendments stay in the bill.

But I don't think anyone is fooling themselves. There was not—there was no way to amend that bill, H.R. 3200. There was literally no amendment you could offer except striking the language in the bill and offering the new bill. There really was not. It was not salvageable, in my opinion.

Now it's interesting because all three committees have passed the bill. They

all amended it and some of those amendments will be completely—the incentives will be aligned. Some of them actually will be at a 90-degree intersection.

Someone is going to have to redo that bill. That is happening now, and you can expect that there is probably a heavy hand from the White House in aligning all three of those House bills into one product. We will likely get to see it a few hours before we vote on it. It may come as early as the end of this month, and we are promised that it will, in any case, be something that we see before Thanksgiving. I expect that that is true.

I don't know whether any Members on my side will vote for it. There don't seem to be a large number of Republicans who are supporting H.R. 3200. I don't know if any Democrats will vote against it. We certainly saw that in all three committees that there were some Democrats who simply could not support the things in the bill and did vote against it.

The public option continues to be a political football kicked from one side of the rotunda to the other. The House wants a robust public option, the Senate not so much. How will it pass on the Senate side if they have a public option, or will a public option be ignored by the Senate but added back in the middle of the night when the two bills come together in the House Senate conference before we vote on the final product?

It's anybody's guess and, Mr. Speaker, again, you know, just speaking to you, I would say if I were able to speak to the American people, I would say stay tuned to this because it is going to be a very important process. You will have a House unified bill coming up the next couple of weeks. How long we have to evaluate that before we vote, I think, is going to be very telling. If it's a very short period of time, there is probably some bad stuff in the bill that they don't want you to know about before we actually vote.

Now, we are arguing for 72 hours. I will just tell you, for what's likely to be at least a 1,000-page bill, more likely a 1,500-page bill, 72 hours is a very short interval of time to work on a bill of that magnitude. Bill language is inherently very difficult to read. There is a lot of referral back to the Social Security Act. There is a lot of referral back to the Medicare or the Medicaid provisions in the United States Code.

It takes some doing to get through that bill language and really understand what the implications of what you are reading. But it doesn't mean we shouldn't do it. It just means that we need have the time to do it. I certainly encourage the Democratic leadership to give us the time necessary and make the facilities available to us so that we can have the opportunity to read through that bill and read

through it with experts and come to understand what's being contained within the bill.

You know, the President has said repeatedly that if you have good ideas, I will listen. In fact, here in the House, in the joint session that was held on September 9, the President said, right from the podium behind me, and I am quoting now, "I will continue to seek common ground in the weeks ahead. If you come to me with a serious set of proposals, I'll be there to listen to you."

Well, that's kind of interesting, too. During the campaign, the President said that he would sit down with people who might be regarded as folks that don't like us very much, folks like Ahmadinejad and Hugo Chavez. The President said, I will sit down with leaders of other countries and meet with them without preconditions.

Well, when it comes to congressional Republicans, he does set some preconditions. We have to come with a serious set of proposals. We can't just show up with ideas. I prepared a serious set of proposals and sent it to the White House on September 16 of this year, about a week after we had the joint session of Congress. I prepared a number of things within the letter.

Attached to it were a number of bills that I had introduced that I thought should be parts of whatever type of health care reform is passed. I am still waiting for a response to that. Things like addressing the problems of the physician workforce, things like addressing the liability, the problems that doctors face with the liability insurance, fixing the sustainable growth rate formula, some price transparency, a lot of good ideas contained within here.

Again, I will, at the end of this, I will submit this for the RECORD. But, again, no response from the White House.

The list talked in some detail about those things that the Republicans agree should be a part of the meaningful reform. You know, we hear it said all the time that there is agreement on, like, 80 percent of the things contained within health care reform. I think that number is a little bit high. But, nevertheless, we hear it said all the time.

But what is the primary thing? What is the number one thing I heard about over and over and over again in the town halls in August?

The thing that is really grating on the American people is those individuals who want insurance but can't get it. They can't get it because they have had a tough medical diagnosis. They have a preexisting condition. They had insurance on their job and they lost their job and they couldn't keep up with the COBRA payments, so they lost their insurance. Now they are stuck without insurance, but have a preexisting condition. It wasn't that

they wanted to drop their insurance; but the conditions were such, the rules were set, that they didn't have any choice but to let that insurance coverage go, even though they knew it might be difficult to get back into a state of coverage in the future.

Another thing that just really bothers people is the fact that Americans can do the right thing and have health insurance and pay that premium religiously, get a tough medical diagnosis, and the insurance company looks back and says, you know what, we really never meant to offer that policy to you in the first place, or we think there was something you obscured in your history. Now, by a process of what are called "insurance company rescissions," they are going to take that insurance policy away.

The President even referenced that in his speech on September 29, and that's wrong. People acknowledged that it's wrong, both sides of the aisle.

Now, in cases of fraud, correct. The insurance company has to have a right of action. They have to have a way to protect other people that have insurance. You don't want people coming and buying insurance under fraudulent terms.

But for people who have an omission from a medical history that makes no difference as to their subsequent care and diagnosis, these are things that are generally recognized by the American people as being egregious overstepping by the insurance companies, and that needs to be fixed. Here is the sad part, Mr. Speaker, that could have been fixed. That could have been fixed before we went home for the August recess. We just simply chose not to do it.

So, if we provide a way for someone who has a preexisting condition, perhaps through a reinsurance, perhaps through high-risk pools, perhaps through high-risk pools with additional State and Federal subsidies, there can be ways to bring individuals who have a preexisting condition into a state of coverage.

□ 1900

It's a shame. It's a shame we never had a hearing on that in our health subcommittee. We had hearings on almost every other issue under the sun, but we never had a hearing on, is there a way, short of an unconstitutional individual mandate, is there a way to get people insurance coverage who have had a bad medical diagnosis and lost their insurance? We never had a hearing on that. We could. I think we should. I think bright minds on both sides of the aisle could get together and work out ways that this problem could be solved.

Rescissions. Again, with a history that's now newly disclosed, has nothing to do with the medical diagnosis, and it was in no way fraudulently withheld from the insurer, rescissions need

to stop. States that have high-risk pools, there are 34 of them. States that have the opportunity for reinsurance. These are States that are working, trying to offer their citizens a method of dealing with this problem. We could encourage more States to pick up high-risk pools. We've got some States where they're working well, some States where they're working less well. I always felt that in my home State of Texas, it wasn't working so well. It turns out it's really not a bad program, it's just not funded to the level that it need be.

Well, if we could encourage a contribution from the Federal Government, the State government and perhaps even the private sector, the insurance companies themselves, perhaps we could get that figure down to a point where people can actually utilize the program. Because people that then are subsequently covered by those high-risk pools in Texas love the program. I had someone come up to me after a town hall in the district in August that said, Please, whatever you do, don't do anything that's going to mess up my high-risk pool because that's the best insurance I've ever had. The problem is it's limited to the number of people who can access that.

We have people losing their jobs. It's an unfortunate, disastrous occurrence that happens in a recession. Some people are laid off. And if you have employer-sponsored insurance, there's trouble brewing. Yes, because of rules and laws that Congress passed many, many years ago, COBRA coverage that is extended for 18 months is available to an individual who loses his job, but that insurance has to be the same insurance that that person had while they were employed.

So the individual can pick up the premium for that employer-sponsored insurance, but most of the time the employer is not continuing to pay their part so the individual has to pay the entire freight; in fact, it's actually 102 percent because there's an administrative cost tacked onto that. Well, that is an expensive issue for someone who's just lost their job.

Could we offer people another choice? If someone loses their job, they've got good employer-sponsored health insurance, they are protected. As long as they keep their insurance, they're protected against falling into that pre-existing condition trap. But right now it's either pay that large premium—and again you just lost your job so it may be hard to do that—or become uninsured.

We offer people two choices right now. What if we made something else available to people? What if we allowed people to transition into the individual market and not have to go through the COBRA system to do that, but still protect their ability to have the coverage for a preexisting condition

should one have developed or develop during the time that that individual is transitioning to insurance on the individual market. Why does it always have to trigger the COBRA insurance? Why is there not an intermediary step that is less expensive, but still provides the protection?

Other things we could do. What if someone has COBRA, has that coverage, but they move to another State and they may not be allowed to take that coverage with them? Why not allow that transition from State to State without rerating that individual, without causing that individual to be rerated by a new insurance company where now their preexisting condition that they've acquired along the way prevents them from getting or obtaining that insurance in the individual market in a new State?

I liken that to the National Football League, and you have a player in the National Football League who gets traded from one city to another, their insurance goes with them. No problem. If they had a knee injury in one city, it's going to be taken care of in the new city. But if their fan who wants to follow their favorite football player moves from city A to city B, they've got to start all over again, if they're in the individual market, and during the time that they do that, they may find that they are rerated by their insurance company, reunderwritten by their insurance company, and if they had even a modest diagnosis like high blood pressure, depression or adult onset diabetes, it can be a very expensive adventure for them buying insurance in that new State.

So why don't we allow that type of transition so that someone doesn't have to be rerated? We talk a lot about being able to buy insurance across State lines. I think that's important, too. That's a little bit heavier lift. It's a little bit more difficult for Congress to come to that understanding, but this ability to allow someone to buy in the individual market without being rerated when they change States, that's easy and we should be able to do that. Again, I frankly don't understand why we don't take that up.

Again, remember if we pass this big, comprehensive, robust public option health care bill, when do you get the benefit? Four years. We're going to have people losing jobs next year. We're going to have people losing jobs the year after that. What are we going to do for those individuals in the short term?

And, again, I'll reference back to the President's own speech that he gave here on September 9. When he was at the podium giving the speech, JOHN MCCAIN was in the audience. He acknowledged that JOHN MCCAIN had a good idea for covering people with high-risk pools and that perhaps that would be a way to provide some imme-

diated relief for people who couldn't wait for the 4 years before the Federal Government starts this new robust public option plan.

You hear me talk about medical liability. Medical liability is a big deal. The fact that it's been left out of the House and Senate bills, I think, is a big deal. Look, we're asking our doctors to be our partners. Whatever the brave new world of health care reform looks like, whatever we go to, we're going to ask our doctors to be there and be at our sides and help us, or be the ones to take care of the patients and answer those emergency calls in the wee hours of the morning.

We're asking our doctors to stand with us on this. And yet we won't do the one thing that would simplify the lives of doctors across the country, keep doctors from dropping out of the practice of medicine, and, that is, bring some sense, some stability, to the medical justice system that we have in this country.

Now, Texas has done what I consider to be a very good thing, with putting caps on noneconomic damages. They did that in 2003. They had to do it with a constitutional amendment so that it would become immediately effective and didn't have to go through all sorts of court challenges; and, boy, it was like turning a switch and things have improved in Texas since that bill was passed. But you will also hear people say, Oh, medical liability, it doesn't save that much money. You can do whatever you want, but it's like a 1 percent savings.

But that's based on a very old study that really only looked at the cost of the premiums themselves, from back in the early 1990s, the American Medical Association, a very famous study called the Tonn study, frequently still quoted here 15, 20 years later. The Tonn study did say that you weren't going to save much money with medical liability. But, of course, the Tonn study discounted what would happen as far as the practice of defensive medicine.

Let me ask you this: medical liability premiums have gone up year over year over year. Medical liability has continued to be a problem year over year over year these last 20 years. Do you think the practice of defensive medicine is more widespread now than it was 20 years ago? Well, you bet it is. You bet it is. Twenty years ago we didn't have PET scans. We barely had MRIs. The more new things, new technology that becomes available, doctors are continually trying to see what is the maximum I can do so that I won't look bad if things go wrong and I'm called into court and have to defend my medical judgments. So it's no small wonder that the cost of defensive medicine has gone up and up and up.

Now the Congressional Budget Office has put out a new report. In a letter to Senator HATCH, they talk about their

new estimate for what medical liability reform would save the Federal Government. This is just in the Medicare and Medicaid system, and it's estimated to be \$54 billion over 10 years. That's getting to be a significant amount of money.

But wait a minute. Remember that the Federal Government is now responsible for about 50 cents out of every health care dollar that's spent in this country. Fifty cents out of every health care dollar that's spent in this country actually originates right here on the floor of this House. So that \$54 billion over 10 years only represents about half of the medical expenditures in this country. It doesn't count those that are paid for by private insurance, those that are paid for out of just individuals paying their bills or that is gifted to people through charity.

So double that number. It's over \$100 billion over the 10-year life of the health care bill that is a potential savings with modest medical liability reform. Again, that's not going to pay for the whole health care bill, but it would pay for 10 percent of it. Don't you think if we could pay for 10 percent of what's being proposed that we ought to at least consider it in our committees, that we should at least consider it in the legislative language that's being proposed?

I will just tell you what's happened in Texas since 2003 when we did pass a cap on noneconomic damages. Since 2003, Texas has licensed 15,000 new physicians. Over a similar time span preceding that, that number was about a third. We've gained 192 new obstetricians; 26 rural counties have added an obstetrician, including 10 where previously there was no OB doctor.

Texas is a big State. We've got 242 counties, so there's a lot of counties in Texas. But, still, 10 counties without an obstetrician before that now have one. That's prenatal care that's available to patients that wasn't available before unless you drove multiple miles to a medical center. That's doctors who are there when patients need them, frequently when time is of the essence, in the process of having a baby. So that is a good thing.

Thirty-three rural counties have gained ER doctors, including 26 counties that previously did not have an emergency room doctor now have one since the passage of commonsense medical liability reform in 2003. Doctors have contributed \$594 million in charity care since the bill was passed.

I introduced similar language at the Federal level, H.R. 1468 for those keeping score at home; and I had offered that as an amendment to our committee bill last July. I was at first struck down on a technicality. Then I was struck down on a party-line vote. It doesn't seem that the Democratic majority has really had any interest in trying to reform the medical justice system in this country.

Yet now the Congressional Budget Office in a letter to Senator HATCH, where he requested a new analysis of the cost of defensive medicine, has said that it would be a savings of \$54 billion over 10 years, and they do cite several studies in there where they've gained that information.

Again, at the end of this hour I will ask to make the Congressional Budget Office report, the letter to Senator HATCH, a part of the RECORD.

Portability, being able to take your insurance with you. There was a time when I was a youngster when you went to high school, perhaps went to college, but whether you graduated from college or just started after high school, you took a job and you probably continued that job until you got your gold watch in retirement.

It doesn't work that way anymore. I don't know exactly what the figure is, but the estimate from the Census Bureau is that people will have perhaps 10 or 11 jobs during the course of their productive years. So it only makes sense that if we continue, and we likely will continue, to have employer-sponsored health insurance, that we allow more portability than is within the system now. Some people have talked about things like defined contributions from employers, rather than just the employer providing the insurance, providing a designated sum of money for the purchase of that insurance.

There is a lot of discrepancy for what insurance costs. In the State of New Jersey, the average health insurance premium for a family of four recently quoted at \$10,000. You go across the State line to Pennsylvania and it drops \$4,000, to \$6,000. Well, there's not a lot of difference right there on the State line between one segment of the population and those that are north of the line in New Jersey. Why not? Why not allow people to perhaps look into the purchase of insurance in other markets that may fit their needs and may be more affordable?

And then, of course, again we get into the issue of someone who moves across the State line, why not allow that portability? Just in the interest of completeness, the State of Texas, a family of four, the average insurance premium is \$5,000 a year. The State lines concept is one, and we heard the President talk about it in his speech of September 9. He talked about a part of rural Alabama where if someone was going to the individual market, they only had one insurance company from which to choose.

□ 1915

And that's not terribly surprising. Insurance companies tend to be natural monopolies. They tend to want to form monopolies and capture market share. But the President's quite correct; you don't get much competition if you've only got one insurance company. So

the President's solution to this problem is, well, let's create a public option and we'll have two insurance companies for that family in Alabama to choose from. But there's over 1,300 insurance companies in the United States of America. Why not open the market up so that more of those 1,300 insurance companies that already exist in the country—we don't have to create a new one, we don't have to pay all that start-up capital for creating a new program—why not just allow them to compete across state lines?

And you know, interestingly enough, Democrats that reflexively opposed this idea year in and year out now seem to be warming to the concept. At the very least, if you have a public option that is available in Alabama, it's going to be the same public option that's available in Tennessee, and the same public option that's available in Texas. Guess what? That public option is going to be sold across state lines because it is a Federal program. So why don't we, before we go to all the trouble and expense and anxiety of creating an entirely new Federal entitlement and type of insurance, why not just simply allow some open competition across state lines?

Now, cooperatives are something that we hear, that word gets a lot of traction, co-ops. You know a purchasing co-op that could go across state lines, I could be okay with that. A co-op that was just a dressed-up public option, I'm not so much in favor of that. But certainly, allowing people to band together, people that may belong to the same alumni association, the same church, you name whatever association, realtors, dentists, physicians offices, that want to get the purchasing power of a much larger group in that individual market, we should allow them the freedom, the freedom to be able to make those associations and to purchase.

You know, tax credits—and I will admit there are people on my side that get nervous when you talk about tax credits. But tax credits to help with the purchase of insurance I think is certainly something that was talked about during the last presidential campaign. I think it is a way to provide immediate help, not help 4 years from now, but immediate help to people who don't have employer-sponsored insurance, where otherwise the cost of insurance is an obstruction to them getting that coverage. Maybe if we take away some of the issues with pre-existing condition rescissions, we take away some of the issues with portability, still it may be an affordability issue, and if we could help that with the tax credit or even a pre-fundable tax credit, I think that is something that is, it's at least worth having the discussion.

And again, through all the hearings that we've had on this, we never once

visited that issue. We never once invited the Congressional Budget Office in to kind of give us some views and estimates on what this might cost or what this might look like. Instead, we just simply said, we're Congress, we know best, we're going to build an entirely new insurance company that's administered by the Federal Government and that will be your competition. Take it and like it because we, after all, know best.

Again, the ability for people to associate, whether it be a church group, an alumni association, maybe it's time that we gave people the option of not having insurance that's tied to a single employer, because, again, many people will change jobs over time. Allow the cross-state purchasing.

We've talked about things like association health plans. Various bills have been introduced that would deal with this. H.R. 3218 introduced by Representative SHADEGG from Arizona is one such plan. And certainly, that is one that should be included in any compendium of plans that are offered as conservative or Republican alternatives to what is being proposed in health care.

Medicare payment reform. We're going to pay for half of this trillion-dollar bill with cuts in Medicare. Well, I've got to tell you, I get more letters, more mail from individuals who are doctors who are concerned about what we, what Congress is doing to them in physician reimbursement. It's easy to say, oh, man, doctors they make so much money, so you cut them a little bit—who cares? December 31st of this year, under the current formula, sustainable growth rate formula, physicians will undergo a 20 percent reduction in reimbursement.

Now, true enough, Senator BAUCUS' bill does delay that by 1 year. That's our typical response. We'll do something to kick the can down the road. If we do that, then next year they face a 25 percent reduction in reimbursement. In some specialties, cardiologists, in particular, where there's been some re-basing of what are called relative value units for the work that they do, are facing cuts in excess of 30 percent at the end of the year. Well, I'm here to tell you that you don't have that much excess capacity in the average doctor's office where you can squeeze 30 cents out of every dollar in savings and expect those offices to stay open.

Well, wait a minute. We've got an unemployment rate that's approaching 10 percent. Cardiology offices are small business across the country, and they are facing a 30 percent reduction in Medicare reimbursement, when oftentimes Medicare is 50, 60 or 70 percent of the business that they do. How do we expect them to keep their doors open after January 1st? How do we expect them to make employment decisions for their employees in their offices

over these next couple of months while they're living with this kind of limbo?

I mean, they're sitting here watching Congress and wondering if we're just going to run out the clock on December 31st. When these huge cuts go into effect, what are they going to tell their employees? If they wanted to hire someone new earlier this year they're certainly not thinking about doing that now. And we've got a 9.6 percent unemployment rate.

Cardiology offices are small businesses. Echo techs, phlebotomists that draw blood in the lab, people that put the patient back in the room. All of these jobs are now at risk because of what Congress is doing, or not doing, with fixing the sustainable growth rate formula and the cuts in Medicare. If we pass a bill like the Baucus bill, the cuts only become deeper and more draconian. Again, you don't save \$500 billion out of the Medicare program over 10 years by not making some pretty harsh decisions.

And you know, if you think it's bad now with the sustainable growth rate formula, what's it going to look like if we enact some of these things that have been discussed over on the Senate side and indeed on the House side? What if we create this body that's going to come to us every year and say, in order for the books to balance, Mr. or Mrs. Congressman, we are going to have to cut fees that are paid to hospitals, doctors, nurses, nursing homes by whatever percentage amount they say.

Congress, if we pass this law, simply votes that up or down. They don't take any responsibility for it. There's no accountability. We just simply pass those cuts on. That's a terrible way to do business. Wouldn't it be better if we found a way to deliver care more economically so we didn't have to come to our provider community, to our doctors, to our hospitals, to our nurses and nursing homes, and say, We're going to have to keep a little bit more of your money this year in order to make our books balance?

Now, ensuring the future physician work force, I think, is extremely important. H.R. 914, the Physician Workforce Investment Act that I introduced last Congress and this Congress as well, I've provided that to the White House. You know, here's the deal. We can sit here and talk all night long about health insurance, and that may be an important discussion to have, but I've got to tell you, if you don't have any doctors there at the end of the day, all the insurance in the world isn't going to do you a bit of good. In fact, I'd far rather have a doctor and no insurance than I would have insurance and no doctor, because if I'm in trouble, if I'm needing someone to take care of me, the insurance company typically hasn't been all that great at that endeavor. But physicians always respond.

Preventive care and wellness programs. Clearly, these are going to be necessary in the world going forward. The model that was brought to us by Safeway Stores, the model that we were not allowed to consider in our markup in committee, but realistically, we have to do that. H.R. 3148, which is the Burgess-Christian CBO scoring bill, would allow for the Congressional Budget Office to score those savings that could be achieved with healthy lifestyles.

Price transparency. We did include some language in the bill that was passed. H.R. 2249 was the Health Care Transparency bill that I introduced two Congresses ago and have continued to introduce every Congress. A lot of that language was inserted into H.R. 3200, for which I was grateful. But at the same time, transparency has got to be there. So if we're going to ask people to make more and more decisions for themselves, we have to give them the information with which to do that. Mandates have no place in a free society.

And when I hear the Senate talk, and I hear the House talk about we're going to have an individual mandate and an employer mandate, wait a minute. I'm not even sure that's constitutional. Mandates just create laziness, create laziness on the part of the insurers, create laziness on the part of the insured, and certainly create laziness on the part of your Congressman. Wouldn't it be better if we required people to actually build programs that people wanted, rather than just force people to take what we think they ought to want? Mandates are an anathema to free society.

And there are ways to do this. Prescription-drug benefit in part D, for all its faults, Dr. McClellan, when he was constructing that program, had six protected classes of drugs and said there had to be at least two drugs offered within those six protected classes, and people flocked to those programs. It has been a success in the number of seniors that now have credible drug coverage and seniors that are satisfied or very satisfied with the drug coverage that they have.

Normally, if you have a mandate you're going to get about 85 or 95 percent compliance. We've got about 85 percent compliance with the voluntary system right now. You're not going to get that much more with the mandate. Even without mandates in the prescription-drug benefit, by creating programs that brought value to people's lives, 93 percent uptake on a credible drug program.

So, you know, I've got to tell you. I will never sit down here and advocate for private insurers. But I will tell you that most Americans do have coverage under a private insurance, and they like it. They don't want to lose it. That has been one of the big obstacles to

getting sweeping health care reform. The President always says if you like what you have you can keep it. I think that's right. Sixty percent of the American people like what they have, and they don't want it to change, so that makes it difficult to do reform that is on this scale and this sweeping.

I'll tell you another little secret. The Federal Government, the public option that we already have, doesn't pay its full share of the freight of the cost of delivering the care. It's subsidized by the private sector. If you shrink the private sector and grow the public sector, how are you going to make that up? Where's that money actually going to come from? And that's something that I never hear discussed.

Yeah, insurance companies do bad things. And we'll hear stories, we're going to hear stories in my committee tomorrow about how bad insurance companies are. But if we didn't have that cross-subsidization of the private sector, we could not afford the public sector. Now, people will tell you that it's the cost of the uninsured that we're leaning on the private sector to provide for us. No, that's a small amount. That cross-subsidization that's coming to the public sector is the lion's share of that. That 9 percent figure, about 2 percent is people who have no insurance; 7 percent goes to paying the freight that Medicare and Medicaid are not carrying themselves.

We have a good system. Let's build on what we have. Let's not tear it down and then create something out of whole cloth to go in its place. You know, the government can referee some of these things, but the government doesn't need to be the man in charge of all of these things. Again, remember, the United States Congress, we've got about a 20 percent approval rating. I think reforms can and should go forward. I think there are good ideas on both sides of the aisle here. I'll take the President at his word. I'm anxiously awaiting their response to my letters.

I look forward to this debate we're going to have over the next several weeks, and I would encourage people that, every morning when they get up, remember, you've got one Member of Congress and two Senators. They need to hear from you on this issue. Whether you agree with me or not, I promise you they need to hear from you on this issue before we have this vote.

For more information on H.R. 914, the Physician Workforce Enhancement Act of 2009; H.R. 1468, the Medical Justice Act of 2009; and H.R. 2249, the Health Care Price Transparency Promotion Act of 2009, log on to <http://thomas.loc.gov>.

HOUSE OF REPRESENTATIVES,  
Washington, DC, September 16, 2009.

President BARACK OBAMA,  
The White House,  
Washington, DC.

DEAR MR. PRESIDENT, I am once again compelled to write to you to accept your offer to

meet with you at the White House to discuss the health care reform proposals currently before us.

I listened intently as you addressed the Joint Session of Congress on September 9, 2009, and you once again extended an olive branch to members of the minority. I want to reiterate that I am completely committed to working in a bipartisan fashion to deliver reforms that all Americans can be comfortable with, increase access to care, lower health care costs for America's families and businesses, and deliver changes to the health system that improve quality.

I thank you for your public commitment to accept innovative ideas from Republicans and hope that you will follow through with your public pledge by reviewing this letter thoroughly. As you stated last week: "I will continue to seek common ground in the weeks ahead. If you come to me with a serious set of proposals, I will be there to listen. My door is always open."

I accept your gracious offer and want you to know that it is not my intention to "kill" health reform. In fact, I stand proudly by my bipartisan work in the U.S. House of Representatives on health care issues. Several of my amendments in the Energy & Commerce Committee were accepted unanimously while others are currently under negotiation with Chairman Waxman for inclusion in a final House product.

That said, I have read the America's Affordable Health Choices Act (H.R. 3200) and I do concede I have many concerns with the approach the bill takes. Many of the items you outlined in your speech do have wide bipartisan support. While we may have disagreements on the policy approaches to address those problems we will never know if we can find common ground if we do not try.

To assist you in identifying measures that could gain wide bipartisan support I am enclosing four pieces of legislation that will make incremental but important reforms to our health system. I believe that, with your leadership, these measures could be passed and signed into law before Thanksgiving. These efforts would show that we can work together to make important reforms that improve access to care and protect the doctor/patient relationship.

**Physician Workforce:** H.R. 914, the Physician Workforce Enhancement Act, would establish an interest-free loan program for eligible hospitals to establish residency training programs in certain high-need specialties. Under the program, eligible hospitals could receive up to \$1,000,000 that must be repaid within 3 and a half years. H.R. 914 will provide needed resources to smaller and emerging communities so they can attract and retain the medical professionals their communities will rely on in the future. If we do nothing to assist the training of physicians, waiting lines will grow longer, lapses in treatment will occur, and many of our small and rural communities will be at risk of not having physicians to meet their growing needs.

**Medical Liability Reform:** As you alluded to in your speech, too many doctors are forced to practice defensive medicine and face the constant threat of lawsuits and unsustainable medical liability insurance rates. This results in millions of dollars in unnecessary tests and procedures. Seasoned medical professionals are retiring early because staying in practice is no longer financially feasible, further contributing to our nation's doctor shortage. This is a growing crisis that is pushing affordable health care beyond the grasp of millions of Americans.

H.R. 1468, the Medical Justice Act, is based on medical liability reform implemented in Texas. The reforms have created a magnet for doctors and provided the funding mechanism to improve access to care and enhance patient safety. To prove the success of Texas' reforms, I'd like to share a few of the statistics, from the Texas Medical Association:

Since the 2003 reforms, Texas has licensed 14,496 new physicians. This is a 36 percent increase from pre-reform.

Thirty-three rural counties have seen a net gain in ER doctors, including 26 counties that previously had none.

After years of decline, the ranks of medical specialists are growing in Texas. In my field of obstetrics, Texas saw a net loss of 14 obstetricians in the two years preceding reform. Since then the state has experienced a net gain of 192 obstetricians, and 26 rural counties have added an obstetrician, including ten counties that previously had none.

Charity care rendered by Texas hospitals has increased by 24 percent, resulting in \$594 million in free care to Texas' patients.

Texas physicians have saved \$574 million in liability insurance premiums, a significant savings that has allowed more doctors to stay in their practice.

**Medicare Reform:** Many new Medicare beneficiaries find it difficult to locate a doctor who will accept Medicare. This is because physicians around the country realize that Medicare is an unstable payer, subject to the whims of political will and influence, and are doing what they must to protect their small businesses. Physicians are scheduled to receive a significant reduction in Medicare payments on January 1, 2010. The Ensuring the Future Physician Workforce Act, a bill I plan on introducing shortly, will give doctors what they really need a stable and reasonable predictor of an inflationary reimbursement under Medicare. This will allow seniors to maintain access to their doctor. The legislation also rewards quality reporting of data, further incentivizes the adoption of Health Information Technology, and brings increased transparency on utilization, billing, and funding to the Medicare program.

**Health Care Price Transparency:** A patient should be able to know what they are paying for and how much they will pay out-of-pocket. H.R. 2249, the Health Care Price Transparency Promotion Act, directs states to establish and maintain laws requiring disclosure of information on hospital charges. The legislation requires hospitals and health plans to make this information available to the public, and to provide individuals with information about estimated out-of-pocket costs for health care services. H.R. 2249 aims to make health care more affordable by promoting greater transparency about the cost of health care services for patients seeking care. The legislation sets a national floor for transparency. As someone who has committed his Administration to transparency, this is an important step in helping make health care, and specifically health care costs, more transparent, which empowers the consumer.

As a practicing physician for over 25 years, I believe I bring a unique perspective to the current health care reform debate. I am committed to finding areas of collaboration between the political parties that can deliver meaningful system reforms that will benefit all Americans. I would greatly appreciate the opportunity to review both the efforts outlined above and also my areas of concern with H.R. 3200 so that we may mutually

work to bring quality, affordable health care to all Americans.

I look forward to the opportunity to meet with you at your earliest convenience. Should your staff have any questions about any of the attached proposals or would like to arrange a meeting, please contact me or my Legislative Director J.P. Paluskiewicz at my Washington, D.C. office.

Sincerely,

MICHAEL C. BURGESS, M.D.,  
Member of Congress.

HOUSE OF REPRESENTATIVES,  
Washington, DC September 30, 2009.

President BARACK OBAMA,  
The White House,  
Washington, DC.

DEAR MR. PRESIDENT, I write you once again on the topic of health care reform. As you know, Democrat leaders in the House of Representatives are currently working to merge the three committee bills. Meanwhile, the two Senate products are waiting to be merged pending completion of the Senate Finance Committee's mark-up.

I have closely followed the health care debate for months, making note of actions by all parties involved, including the House, Senate, White House, advocate groups, and the health care industry. These reforms have wide-reaching implications, and you have stressed the importance of conducting business in public so that the American people are aware and involved in the process.

In fact, during a Democratic Presidential primary debate on January 31, 2008, you said: "That's what I will do in bringing all parties together, not negotiating behind closed doors, but bringing all parties together, and broadcasting those negotiations on C-SPAN so that the American people can see what the choices are, because part of what we have to do is enlist the American people in this process."

It has now been over four months since the White House announced numerous deals with major stakeholders in the health care debate to save upwards of \$2 trillion in the health care system. Little to no details regarding the negotiations have been released, and recent actions and press reports have reminded me of the importance of openness and transparency throughout the legislative process.

Roll Call reports today that negotiators working in the House to merge the three committee bills plan to trim the cost of the legislation by roughly \$200 billion. I wonder what programs or services are being cut, who will be affected, and how these cuts are being decided.

In the Senate Finance Committee's mark-up, Senator Bill Nelson (D-Fl) introduced an amendment regarding drug prices in Medicare and Medicaid. During the debate on the amendment, Senator Tom Carper (D-Del), while arguing against the amendment, said "Whether you like PhRMA or not, we have a deal," referring to the deal PhRMA cut with the White House earlier this year.

In addition, within the Senate Finance Committee plan is a commission to slow the growth of Medicare spending, most likely through changes to reimbursement policy. However, hospitals would be exempt from this commission because, according to CongressDaily, "they already negotiated a cost cutting agreement" with the White House.

Despite your promise to make all health care reform negotiations in public, we still have very few details on what exactly was agreed to during these highly publicized negotiations. In fact, even the stakeholders in-

volved have, at times, seemed at odds with what was actually agreed to. But the one thing we all know is that, through press statements, many deals were made. Unfortunately, even where brief descriptions of policy goals are available, details on achieving these goals are absent, a point made by the Congressional Budget Office (CBO).

I am compelled to ask—how could Congress have done its' due diligence in creating the policy before us without crucial details surrounding these deals? Were the votes we have seen in the Senate Finance Committee as of late a direct result of these backroom negotiations? Will CBO be able to actually score any of these deals to apply those cost savings to legislation? Were these negotiations in the best interests of patients?

Having little to no information, I cannot judge. However, this begs even more questions. Is Congress enacting the best policy reforms for Americans, or are certain changes being made or not made because of the negotiations orchestrated by the White House? Will smaller stakeholders suffer more from our policy choices because of what larger groups may have negotiated behind closed doors?

Mr. President, I do not write this letter to chide you for engaging in what I consider the most pressing debate before Congress. I applaud you for your leadership in compelling Congress to act. In order to fully understand the policy choices before us, though, we need to know what took place earlier this year during these meetings at the White House. You have made it very clear that you value transparency and have sought to make your Administration stand out in this regard. As a member of the House Energy and Commerce Committee's subcommittee on Oversight and Investigations, so do I. The last thing I would want to see is a formal investigation of these meetings.

Thus, I formally request full disclosure by the White House in the following areas regarding all meetings with health care stakeholders occurring earlier this year on the topic of securing an agreement on health reform legislation, efforts to pay for any such legislation, and undertakings to bend the out year cost curve:

1. A list of all agreements entered into, in writing or in principle, between any and all individuals associated with the White House and any and all individuals, groups, associations, companies or entities who are stakeholders in health care reform, as well as the nature, sum and substance of the agreements; and,

2. The name of any and all individuals associated with the White House who participated in the decision-making process during these negotiations, and the names, dates and titles of meetings they participated in regarding negotiations with the aforementioned entities in question one; and,

3. The names of any and all individuals, groups, associations, companies or entities who requested a meeting with the White House regarding health care reform who were denied a meeting.

In our efforts to improve access to health care services, the American people expect us to act in their best interests, rather than protecting business interests of those who are interested in currying favor in Washington, DC. If these health related stakeholders have made concessions to Washington politicians without asking anything in exchange for the patients they serve, Congress and, more importantly, the American public deserve to know. Conversely, if they sought out protections for industry-specific policies, we need to know that as well.

We must learn what these negotiations mean for the millions of concerned Americans. How they will be better served, including having affordable health coverage and access to the providers they need? These negotiations may have produced consensus on policy changes that are proper and needed, but Congress will never know for sure that we are acting in our constituents' best interests until all the facts are known.

I look forward to the opportunity to speak with you at your earliest convenience on this matter. Should your staff have any questions about this request please contact me or my Legislative Director J.P. Paluskiewicz at my Washington, D.C. office at 202-225-7772.

Sincerely,

MICHAEL C. BURGESS, M.D.,  
Member of Congress.

#### LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. ABERCROMBIE (at the request of Mr. HOYER) for today and October 15 until 3:30 p.m.

Mr. CARNEY (at the request of Mr. HOYER) for today and October 15 on account of active military duty.

#### SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. DEFAZIO) to revise and extend their remarks and include extraneous material:)

Ms. WOOLSEY, for 5 minutes, today.

Ms. KAPTUR, for 5 minutes, today.

Mr. DEFAZIO, for 5 minutes, today.

Ms. JACKSON-LEE of Texas, for 5 minutes, today.

(The following Members (at the request of Mr. POE of Texas) to revise and extend their remarks and include extraneous material:)

Mr. POE of Texas, for 5 minutes, October 21.

Mr. JONES, for 5 minutes, October 21.

Mr. KING of New York, for 5 minutes, October 20.

Ms. ROS-LEHTINEN, for 5 minutes, October 15, 20 and 21.

Mr. DEAL of Georgia, for 5 minutes, October 15.

Mr. WESTMORELAND, for 5 minutes, today.

Ms. FOXX, for 5 minutes, today.

Mr. POSEY, for 5 minutes, today and October 15.

Mrs. BACHMANN, for 5 minutes, today and October 15.

#### SENATE BILLS REFERRED

Bills of the Senate of the following titles were taken from the Speaker's table and, under the rule, referred as follows:

S. 846. An act to award a congressional gold medal to Dr. Muhammad Yunus, in recognition of his contributions to the fight

against global poverty, the Committee on Financial Services.

S. 1510. An act to transfer statutory entitlements to pay and hours of work authorized by the District of Columbia Code for current members of the United States Secret Service Uniformed Division from the District of Columbia Code to the United States Code, the Committee on Oversight and Government Reform.

#### ENROLLED BILLS SIGNED

Lorraine C. Miller, Clerk of the House, reported and found truly enrolled bills of the House of the following titles, which were thereupon signed by the Speaker:

H.R. 1016. An act to amend title 38, United States Code, to provide advance appropriations authority for certain accounts of the Department of Veterans Affairs, and for other purposes.

H.R. 2997. An act making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

#### SENATE ENROLLED BILL SIGNED

The Speaker announced her signature to an enrolled bill of the Senate of the following title:

S. 1717. To authorize major medical facility leases for the Department of Veterans Affairs for fiscal year 2010, and for other purposes.

#### ADJOURNMENT

Mr. BURGESS. Mr. Speaker, I move that the House do now adjourn.

The motion was agreed to; accordingly (at 7 o'clock and 28 minutes p.m.), the House adjourned until tomorrow, Thursday, October 15, 2009, at 10 a.m.

#### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4095. A letter from the Acting Under Secretary, Department of Defense, transmitting Inventory Lists for the Department of Defense Agency and Activities pursuant to section 2330a Title 10 of the U.S. Code as amended by section 807 of the National Defense Authorization Act of Fiscal Year 2008; to the Committee on Armed Services.

4096. A letter from the Chair, Congressional Oversight Panel, transmitting the Panel's monthly report pursuant to Section 125(b)(1) of the Emergency Economic Stabilization Act of 2008, Pub. L. 110-343; to the Committee on Financial Services.

4097. A letter from the Assistant Legal Advisor for Treaty Affairs, Department of State, transmitting a report prepared by the Department of State concerning international agreements other than treaties entered into by the United States to be transmitted to the Congress within the sixty-day period specified in the Case-Zablocki Act, pursuant to 1 U.S.C. 112b(b); to the Committee on Foreign Affairs.

4098. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting Pursuant to section 527(f) of the Foreign Relations Authorization Act for FY 1994 and 1995 (Pub. L. 103-236), a report listing outstanding expropriation cases; to the Committee on Foreign Affairs.

4099. A letter from the Chairman, Merit Systems Protection Board, transmitting the Board's report entitled "Managing for Engagement — Communication, Connection, and Courage", pursuant to 5 U.S.C. 1204(a)(3); to the Committee on Oversight and Government Reform.

4100. A letter from the Secretary, Department of Health and Human Services, transmitting copy of the Annual Report to Congress on the Refugee Resettlement Program for the period October 1, 2006 through September 30, 2007 as required by section 413(a) of the Immigration and Nationality Act, pursuant to 8 U.S.C. 1523(a); to the Committee on the Judiciary.

4101. A letter from the Attorney-Advisor, Department of Homeland Security, transmitting the Department's final rule — Special Local Regulations for Marine Events; Patapsco River, Northwest Harbor, Baltimore, MD [Docket No.: USCG-2009-0251] (RIN: 1625-AA08) received September 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4102. A letter from the Attorney-Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone: F/V Patriot, Massachusetts Bay, MA [Docket No.: USCG-2009-0707] (RIN: 1625-AA00) received September 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4103. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; SOCATA Model TBM 700 Airplanes [Docket No.: FAA-2006-26234; Directorate Identifier 2006-CE-064-AD; Amendment 39-15983; AD 2007-03-17 R1] (RIN: 2120-AA64) received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4104. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; BAE Systems (Operations) Limited (Jetstream) Model 4101 Airplanes [Docket No.: FAA-2009-0463; Directorate Identifier 2008-NM-065-AD; Amendment 39-15984; AD 2009-16-01] (RIN: 2120-AA64) received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4105. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Fokker Model F.27 Mark 050 Airplanes [Docket No.: FAA-2009-0691; Directorate Identifier 2009-NM-061-AD; Amendment 39-15988; AD 2009-16-05] (RIN: 2120-AA64) received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4106. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; Boeing Model 737-100, -200, -200C, -300, -400, and -500 Series Airplanes [Docket No.: FAA-2008-1213; Directorate Identifier 2007-NM-092-AD; Amendment 39-15987; AD 2009-16-14] (RIN: 2120-AA64) received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4107. A letter from the Program Analyst, Department of Transportation, transmitting

the Department's final rule — Airworthiness Directives; Boeing Model 767 Airplanes [Docket No.: FAA-2007-29173; Directorate Identifier 2006-NM-283-AD; Amendment 39-15989; AD 2009-16-06] (RIN: 2120-AA64) received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4108. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; British Aerospace Regional Aircraft Model HP.137 Jetstream Mk.1, Jetstream Series 200 and 3101, and Jetstream Model 3201 Airplanes [Docket No.: FAA-2009-0570; Directorate Identifier 2009-CE-033-AD; Amendment 39-15949; AD 2009-13-10] (RIN: 2120-AA64) received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4109. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airworthiness Directives; British Aerospace Regional Aircraft Model HP.137 Jetstream Mk.1, Jetstream Series 200 and 3101, and Jetstream Model 3201 Airplanes [Docket No.: FAA-2009-0817; Directorate Identifier 2009-CE-046-AD; Amendment 39-16020; AD 2009-19-03] (RIN: 2120-AA64) received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4110. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Standard Instrument Approach Procedures, and Takeoff Minimums and Obstacle Departure Procedures; Miscellaneous Amendments [Docket No.: 30683 Amdt. No 3336] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4111. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Airspace Designations; Incorporation By Reference [Docket No.: 29334; Amendment No. 71-41] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4112. A letter from the Secretary, Department of Labor, transmitting the 2008 Annual Report of the Assistant Secretary for Veterans' Employment and Training of the Department of Labor, pursuant to 38 U.S.C. 2009(b); to the Committee on Veterans' Affairs.

4113. A letter from the Chairman, Defense Nuclear Facilities Safety Board, transmitting a report entitled, "Risk Assessment Methodologies at Defense Nuclear Facilities"; jointly to the Committees on Armed Services and Energy and Commerce.

4114. A letter from the Secretary and Attorney General, Departments of Health and Human Services and Justice, transmitting the eleventh Annual Report on the Health Care Fraud and Abuse Control (HCFAC) Program for Fiscal Year 2008; jointly to the Committees on Energy and Commerce and Ways and Means.

4115. A letter from the Board Members, Railroad Retirement Board, transmitting the Annual Report of the Railroad Retirement Board for Fiscal Year ending September 30, 2008, pursuant to 45 U.S.C. 231f(b)(6); jointly to the Committees on Transportation and Infrastructure and Ways and Means.

4116. A letter from the Board Members, Railroad Retirement Board, transmitting the Board's budget request for fiscal year

2011, in accordance with Section 7(f) of the Railroad Retirement Act, pursuant to 45 U.S.C. 231f(f); jointly to the Committees on Appropriations, Transportation and Infrastructure, and Ways and Means.

4117. A letter from the Secretary, Department of Labor, transmitting the Department's report entitled, "The Department of Labor's List of Goods Produced by Child Labor or Forced Labor"; jointly to the Committees on Education and Labor, Oversight and Government Reform, and Ways and Means.

## REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. WAXMAN: Committee on Energy and Commerce. H.R. 3200. A bill to provide affordable, quality health care for all Americans and reduce the growth in health care spending, and for other purposes; with an amendment (Rept. 111-299 Pt. 1). Referred to the Committee of the Whole House on the State of the Union.

Mr. RANGEL: Committee on Ways and Means. H.R. 3200. A bill to provide affordable, quality health care for all Americans and reduce the growth in health care spending, and for other purposes; with an amendment (Rept. 111-299 Pt. 2). Referred to the Committee of the Whole House on the State of the Union.

Mr. GEORGE MILLER of California: Committee on Education and Labor. H.R. 3200. A bill to provide affordable, quality health care for all Americans and reduce the growth in health care spending, and for other purposes; with an amendment (Rept. 111-299 Pt. 3). Referred to the Committee of the Whole House on the State of the Union.

Mr. HASTINGS of Florida: Committee on Rules. House Resolution 829. Resolution providing for consideration of the conference report to accompany the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes (Rept. 111-300). Referred to the House Calendar.

Ms. MATSUI: Committee on Rules. House Resolution 830. Resolution providing for consideration of the bill (H.R. 2442) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes (Rept. 111-301). Referred to the House Calendar.

## DISCHARGE OF COMMITTEE

Pursuant to clause 2 of rule XII the Committees on Oversight and Government Reform and the Budget discharged from further consideration. H.R. 3200 referred to the Committee of the Whole House on the State of the Union, and ordered to be printed.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. MORAN of Kansas:

H.R. 3806. A bill to amend the Medicare Prescription Drug, Improvement, and Mod-

ernization Act of 2003 to extend and expand the Medicare rural community hospital demonstration program; to the Committee on Ways and Means.

By Mr. ROE of Tennessee:

H.R. 3807. A bill to amend the Internal Revenue Code of 1986 to provide an incentive for expanding employment in rural areas by allowing employers the work opportunity credit for hiring residents of rural areas; to the Committee on Ways and Means.

By Mr. ADERHOLT (for himself, Mr. DAVIS of Alabama, Mr. BRALEY of Iowa, and Mr. CASTLE):

H.R. 3808. A bill to require any Federal or State court to recognize any notarization made by a notary public licensed by a State other than the State where the court is located when such notarization occurs in or affects interstate commerce; to the Committee on the Judiciary.

By Mr. BROUN of Georgia:

H.R. 3809. A bill to amend the Internal Revenue Code of 1986 to allow a deduction for unreimbursed funeral expenses with respect to a deceased indigent individual; to the Committee on Ways and Means.

By Mr. DEFAZIO (for himself, Mr. HINCHAY, Mr. SCOTT of Virginia, Ms. DELAURO, Mr. MICHAUD, Mr. RYAN of Ohio, Mr. SABLON, Ms. SLAUGHTER, Ms. KAPTUR, Mr. COSTELLO, Mr. DELAHUNT, Mr. OBERSTAR, Mr. FILLNER, Mr. TIERNEY, Mr. CAPUANO, and Mr. GUTIERREZ):

H.R. 3810. A bill to extend certain economic recovery payments, and for other purposes; to the Committee on Ways and Means, and in addition to the Committees on Transportation and Infrastructure, and Veterans' Affairs, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Ms. KOSMAS:

H.R. 3811. A bill to amend the Internal Revenue Code of 1986 to authorize the Secretary, for a period of 2 years, to allocate a new markets tax credit limitation to entities that serve or provide investment capital for distressed communities; to the Committee on Ways and Means.

By Ms. KOSMAS:

H.R. 3812. A bill to amend the Internal Revenue Code of 1986 to encourage businesses to purchase commercial and residential property in distressed communities by providing an exclusion from tax on certain gains; to the Committee on Ways and Means.

By Mr. SESTAK:

H.R. 3813. A bill to amend title 38, United States Code, to provide for the approval of certain programs of education for purposes of the Post-9/11 Educational Assistance Program; to the Committee on Veterans' Affairs.

By Mr. FLEMING (for himself, Mr. ALEXANDER, Mr. BOUSTANY, Mr. CAO, Mr. CASSIDY, Mr. MELANCON, and Mr. SCALISE):

H. Res. 827. A resolution honoring the life and service of Dewey Lee Fletcher, Jr.; to the Committee on House Administration.

By Mr. CAO (for himself, Mr. CASSIDY, Mr. ALEXANDER, Mr. BOUSTANY, Mr. MELANCON, Mr. SCALISE, and Mr. FLEMING):

H. Res. 828. A resolution to recognize October 24, 2009, the 20th chartered flight of World War II veterans through Louisiana HonorAir, as "Louisiana HonorAir Day," and to honor the invaluable service and dedication of the World War II veterans to our Nation; to the Committee on Veterans' Affairs.

By Ms. GINNY BROWN-WAITE of Florida (for herself, Mr. TIBERI, Mr. DAVIS of Illinois, Mr. MCDERMOTT, Mr. DAVIS of Kentucky, Mrs. BACHMANN, Mr. PLATTS, Mrs. SCHMIDT, Mr. MEEK of Florida, Mr. DEAL of Georgia, and Mr. LINDER):

H. Res. 831. A resolution supporting the goals and ideals of National Adoption Day and National Adoption Month by promoting national awareness of adoption and the children in foster care awaiting families, celebrating children and families involved in adoption, recognizing current programs and efforts designed to promote adoption, and encouraging people in the United States to seek improved safety, permanency, and well-being for all children; to the Committee on Ways and Means.

By Mr. LOEBSACK (for himself, Mr. BOSWELL, Mr. LATHAM, Mr. KING of Iowa, and Mr. BRALEY of Iowa):

H. Res. 832. A resolution recognizing and congratulating ACT, Inc. on 50 years of service to the Nation; to the Committee on Education and Labor.

By Mr. SCHIFF:

H. Res. 833. A resolution honoring the 60th anniversary of the establishment of diplomatic relations between the United States and the Hashemite Kingdom of Jordan, the 10th anniversary of the accession to the throne of His Majesty King Abdullah II Ibn Al Hussein, and for other purposes; to the Committee on Foreign Affairs.

## PRIVATE BILLS AND RESOLUTIONS

Under clause 3 of rule XII,

Mr. PASTOR of Arizona introduced a bill (H.R. 3814) for the relief of Martha Quintana Bonilla; which was referred to the Committee on the Judiciary.

## ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 32: Ms. MARKEY of Colorado and Mr. PETERSON.

H.R. 211: Ms. ROYBAL-ALLARD.

H.R. 272: Mr. LANCE.

H.R. 391: Mr. MANZULLO.

H.R. 406: Ms. TSONGAS.

H.R. 525: Mr. BURGESS.

H.R. 610: Mr. HARE.

H.R. 615: Mr. MCMAHON.

H.R. 761: Ms. HERSETH SANDLIN.

H.R. 868: Mr. HODES and Mr. WALZ.

H.R. 986: Mr. REYES.

H.R. 1024: Ms. CHU.

H.R. 1103: Ms. GINNY BROWN-WAITE of Florida.

H.R. 1177: Mrs. MCMORRIS RODGERS.

H.R. 1182: Mrs. DAHLKEMPER, Ms. SUTTON, Mr. BISHOP of Georgia, and Ms. DEGETTE.

H.R. 1191: Mr. KENNEDY.

H.R. 1193: Mr. SCHAUER.

H.R. 1194: Mr. SIREN, Mr. MELANCON, Mr. THOMPSON of Pennsylvania, Mr. LEE of New York, Mr. NYE, Mr. PRICE of North Carolina, and Mr. ISRAEL.

H.R. 1215: Mrs. NAPOLITANO.

H.R. 1283: Mr. FOSTER.

H.R. 1310: Mrs. MCCARTHY of New York.

H.R. 1326: Mr. SERRANO, Mrs. MCCARTHY of New York, Mr. MEEK of Florida, Mr. RUPERSBERGER, Mr. ANDREWS, and Mr. CASTLE.

H.R. 1392: Ms. DELAURO.

H.R. 1478: Ms. SUTTON.

- H.R. 1521: Mr. BOUCHER and Mr. WEINER.  
H.R. 1545: Mr. TURNER and Ms. TSONGAS.  
H.R. 1549: Mr. MEEK of Florida.  
H.R. 1570: Mr. BLUNT.  
H.R. 1583: Mr. VISCLOSKEY and Mr. WELCH.  
H.R. 1588: Mr. DAVIS of Tennessee.  
H.R. 1596: Mr. EHLERS.  
H.R. 1623: Mr. KILDEE.  
H.R. 1708: Ms. BERKLEY and Mrs. MCCARTHY of New York.  
H.R. 1770: Mr. CARNAHAN.  
H.R. 1826: Mr. BRALEY of Iowa, Mr. KILDEE, Ms. NORTON, and Mr. SCOTT of Virginia.  
H.R. 1831: Ms. HERSETH SANDLIN, Mr. MARIO DIAZ-BALART of Florida, Mr. BUCHANAN, and Mr. SPRATT.  
H.R. 1835: Mr. WU.  
H.R. 1944: Mr. PASCRELL.  
H.R. 1964: Mr. BUTTERFIELD.  
H.R. 1977: Ms. KILPATRICK of Michigan.  
H.R. 1987: Mr. MORAN of Virginia, Mr. CARNAHAN, and Mr. RUSH.  
H.R. 1993: Ms. SUTTON and Mr. SCHAUER.  
H.R. 2024: Mr. ROE of Tennessee.  
H.R. 2031: Mr. CHAFFETZ and Mr. YOUNG of Alaska.  
H.R. 2138: Mr. PETERSON, Ms. CORRINE BROWN of Florida, and Mr. SCHAUER.  
H.R. 2156: Mr. SHUSTER.  
H.R. 2160: Mr. OLVER.  
H.R. 2161: Ms. ZOE LOFGREN of California.  
H.R. 2177: Mr. GUTIERREZ.  
H.R. 2214: Mr. MICHAUD.  
H.R. 2227: Ms. HERSETH SANDLIN and Mr. TURNER.  
H.R. 2279: Mr. CONYERS and Ms. DELAURO.  
H.R. 2299: Ms. WATSON.  
H.R. 2305: Mr. ISSA.  
H.R. 2408: Mr. SESTAK, Mr. LUETKEMEYER, and Mr. REYES.  
H.R. 2452: Mr. ROTHMAN of New Jersey, Ms. FOXX, and Mr. MITCHELL.  
H.R. 2480: Ms. MOORE of Wisconsin, Mr. HOLT, Ms. HIRONO, Mr. CONYERS, Mr. MASSA, Mr. GERLACH, Mr. SCOTT of Virginia, Mr. PASTOR of Arizona, Ms. CHU, Mr. SPRATT, Mr. WEINER, Ms. GIFFORDS, Mr. MEEK of Florida, Mrs. MCCARTHY of New York, Mr. SHULER, Mr. MURPHY of Connecticut, and Mr. RUPERSBERGER.

## SENATE—Wednesday, October 14, 2009

The Senate met at 10 a.m. and was called to order by the Honorable TOM UDALL, a Senator from the State of New Mexico.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

Almighty God, who speaks in the winds' whispers, enable our lawmakers to hear Your call above the many voices of the world. Grant that the claims of labor, the attractions of ambition, or the cares of this world may not make them fail to hear You speak. Lord, give them the wisdom to obey You promptly, refusing to put off until tomorrow the decisions they ought to make today. Cleanse them from any lack of discipline which would keep them from making the efforts which obedience demands. Honor their obedience by permitting them to share in Your glory. May their example of faithfulness and patriotism raise up a new generation of Americans who will love You and country.

We pray in Your loving Name. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable TOM UDALL led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, October 14, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable TOM UDALL, a Senator from the State of New Mexico, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mr. UDALL of New Mexico thereupon assumed the chair as Acting President pro tempore.

Mr. REID. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

### RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

### SCHEDULE

Mr. REID. Following leader remarks, there will be a period of morning business. It will be for 1 hour, with Senators permitted to speak for up to 10 minutes each during that time. The majority will control the first 30 minutes and Republicans will control the final 30 minutes. Following morning business, the Senate will proceed to consideration of the conference report to accompany the Energy and Water appropriations bill, H.R. 3183. Under the previous order, there will be 10 minutes for debate equally divided and controlled between the managers of the bill. I ask unanimous consent that there also be 10 minutes under the control of Senator COBURN and that the provisions under the previous order notwithstanding remain in effect.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. REID. Upon the use or yielding back of the 20 minutes for debate, the Senate will proceed to a cloture vote on the Energy and Water appropriations conference report. That vote is expected before noon today. The Senate will recess from 12:30 until 2:15 to allow for the weekly caucus luncheons. I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

### MEASURE PLACED ON THE CALENDAR—S. 1776

Mr. REID. Mr. President, S. 1776 is at the desk and due for a second reading; is that correct?

The ACTING PRESIDENT pro tempore. The Senator is correct.

The clerk will read the bill by title for the second time.

The legislative clerk read as follows:  
A bill (S. 1776) to amend title XVIII of the Social Security Act to provide for the update

under the Medicare physician fee schedule for years beginning with 2010 and to sunset the application of the sustainable growth rate formula, and for other purposes.

Mr. REID. I object to any further proceedings.

The ACTING PRESIDENT pro tempore. Objection having been heard, the bill will be placed on the calendar.

### FALLEN POLICE OFFICER MILBURN BEITEL

Mr. REID. Mr. President, I was a police officer during the time I was going to law school. I worked at night time. I have some knowledge of law enforcement. My brother Larry was a long-time officer for the sheriff's department in Las Vegas. That has now been combined with the Las Vegas police department and is called the Clark County Metropolitan Police Department. The reason I mention that is anytime we see someone killed in the line of duty as a police officer, it is scary and sad. The men and women who protect us live with danger every day.

In Las Vegas, we had a police officer by the name of Milburn Beitel who is going to be buried today. His friends called him Millie. He was 30 years old. He died early last Thursday morning after his patrol car crashed at the intersection of Washington Avenue and Nellis Boulevard in Las Vegas. The officer with him is in very serious but stable condition. They expect him to live, thank goodness.

My thoughts and those of anyone within the sound of my voice and anyone who cares about law enforcement, which is everybody in America with rare exception, are with Officer Beitel's family, his friends and fellow officers. Our thoughts are also with the second officer, whom we wish a full and speedy recovery.

We also share the grief of the Las Vegas Metropolitan Police Department. This is the second time in 5 months that the department has lost one of its own. This past May, Las Vegas police officer James Manor, a husband and a brandnew father, was responding to a call in the same Las Vegas community where he grew up. He was struck by a drunk driver and killed. He was 28 years old.

Terrible events such as this one make us appreciate the selfless police officers who have fallen in the line of duty—far too many. We think of their loved ones, people whose father or mother went to work in the morning and never came home, those who know the terrible experience of mourning a son or daughter, those whose husband,

wife, or best friend was taken from them too soon.

This morning, we are reminded of the bravery of those who go to work every day and put their lives at risk to protect people they don't know. We remember and honor Officer Beitel. We thank him and his fellow officers and their families for their service and sacrifice, not only the Las Vegas Metropolitan Police Department but police departments all over the country, for the valiant work they do, including the men and women who take care of this beautiful Capitol and protect us and the millions of visitors who come here every year.

#### RECOGNITION OF THE MINORITY LEADER

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

#### MILITARY COMMISSIONS AMENDMENT

Mr. McCONNELL. Mr. President, most Americans recognize that our continued success in preventing another terrorist attack on U.S. soil depends on our ability as a nation to remain vigilant and clear-eyed about the nature of the threats we face at home and abroad. Some threats come in the form of terror cells in distant countries, others come from people plotting attacks within our own borders, and still others can come from a failure to recognize that distinction between everyday crimes—everyday crimes—and war crimes.

This last category of threat is extremely serious but sometimes overlooked, and that is why Senators GRAHAM, LIEBERMAN, and MCCAIN have offered an amendment to the Commerce, Justice, and Science appropriations bill that would reassure the American people the Senate has not taken its eye off the ball.

The amendment is simple and straightforward. It explicitly prohibits any of the terrorists who were involved in the September 11, 2001, attacks from appearing for trial in a conventional U.S. courtroom. Instead, it would require the government to use military commissions; that is, the courts proper to war for trying these men.

By requiring the government to use military commissions, the supporters of this amendment are reaffirming two things: first, that these men should have a fair trial; and, second, we are reaffirming what American history has always shown; namely, that war crimes and common crimes are to be tried differently and that military courts are the proper forum for prosecuting terrorists who violate the laws of war.

Some might argue that terrorists such as Zacarias Moussaoui, one of the 9/11 coconspirators, are not enemy

combatants, that they are somehow on the same level as a convenience store stickup man. But listen to the words of Moussaoui himself. He disagrees.

Asked if he regretted his part in the 9/11 attacks, Moussaoui said:

I just wish it will happen on the 12th, the 13th, the 14th, the 15th, the 16th, the 17th, and [on and on].

He went on to explain how happy he was to learn of the death of American servicemen in the Pentagon on 9/11. Then he mocked an officer for weeping about the loss of men under her command, saying:

I think it was disgusting for a military person to pretend that they should not be killed as an act of war. She is military. She should expect that people who are at war with her will try to kill her. I will never cry because an American bombed my camp.

There is no question Moussaoui believes he is an enemy combatant engaged in a war against us.

The Senate has also made itself clear on this question. Congress created the military commissions system 3 years ago, on a bipartisan basis, precisely to deal with prosecutions of al-Qaida terrorists consistent with U.S. national security, with the expectation that they would be used for that purpose. The Senate reaffirmed this view 2 years ago when it voted 94 to 3 against transferring detainees from Guantanamo stateside, including 9/11 coconspirators.

We reaffirmed it, again, earlier this year when we voted 90 to 6 against using any funds—any funds—from the war supplemental to transfer any of the Guantanamo detainees to the United States. Just this summer, the Senate reaffirmed the view that military commissions are the proper forum for bringing enemy combatants to justice when we approved, without objection, an amendment to that effect as part of the Defense authorization bill.

Sometimes it seems like the only people who do not believe that men such as 9/11 mastermind Khalid Shaikh Mohammed should be treated as enemy combatants are working in the administration. How else can we explain the fact that over the summer the administration flew Guantanamo detainee Ahmed Ghailani to New York to face trial for bombing Embassies of the United States in Kenya and Tanzania, an attack that killed more than 200 people, including 12 Americans? This was an act of war. Ghailani does not belong in civilian court alongside con men and stickup artists.

Our past experiences with terror trials in civilian courts have clearly been shown to undermine our national security. During the trial of the mastermind of the first Trade Center bombing, we saw how a small bit of testimony about a cell phone battery was enough to tip off terrorists that one of their key communication links had been compromised.

We saw how the public prosecution of the Blind Sheik, Abdel Rahman, inad-

vertently provided a rich source of intelligence to Osama bin Laden ahead of the 9/11 attacks. We remember that Rahman's lawyer was convicted of smuggling orders to his terrorist disciples. These are just some of the concerns that arise from bringing terror suspects to the United States.

Trying terror suspects in civilian courts is also a giant headache for local communities, as evidenced by the experience over here in Alexandria, VA, during the Moussaoui trial. As I have pointed out in previous floor statements, parts of Alexandria became a virtual encampment every time Moussaoui was moved to the courthouse. Those were the problems we saw in Northern Virginia, when just one terrorist was tried in civilian court. What will happen to Alexandria or other cities if several men who describe themselves as "terrorists to the bone" are tried in civilian courts there?

It is because of dangers and difficulties such as these that we established the military commissions in the first place. If we cannot expect the very people who masterminded the 9/11 attacks to fall within the jurisdiction of these military courts, then whom can we?

Democratic leaders, including the President, assure us they would never release terror suspects into the United States. But lawyers have repeatedly warned about our inability to control the process once the suspects are given civilian trials. Once you bring them here, you cannot control the process.

To illustrate the point, last year a Federal judge ordered the Uighurs, a group of men detained at Guantanamo, including some who received combat training in Afghanistan, to be released into the United States. Fortunately, the DC Circuit reversed this order. Why? Because the Uighurs had not been brought to the United States and, therefore, did not have a right to be released here. We do not know what would have happened if they had been transferred here already. But we do know that because they were not, they remain outside our borders, safely away from our communities.

The American people have made themselves clear on this issue. They do not want Gitmo terrorists brought into the United States, and they certainly do not want the men who conspired to commit the 9/11 attack on America tried in civilian courts—risking national security, their potential release, and civic disruption in the process.

Congress created military commissions for a reason. But if the administration fails to use military commissions for self-avowed combatants such as Khalid Shaikh Mohammed, then it is wasting this time-honored and essential tool in the war on terror.

The amendment by Senators GRAHAM, LIEBERMAN, and MCCAIN gives us all an opportunity to express ourselves, once again, on this vital issue. The

question is not whether terror suspects should be brought to justice. The question is where and how. The answer is perfectly clear: The right forum is military commissions at the secure facility we already have at Guantanamo, not in civilian courts in the United States.

#### HEALTH CARE WEEK XIII, DAY II

Mr. McCONNELL. Mr. President, sometime in the coming days, the Treasury Department will make an announcement that should startle all of us. It will announce that in the fiscal year that ended just 2 weeks ago, the Federal Government spent \$1.4 trillion more than it actually had. What this announcement means is that lawmakers in Washington ran up a Federal deficit in 2009 greater than the deficits of the last 4 years combined.

This is a staggering statistic. It is impossible for most of us to imagine sums of money this large, let alone the unprecedented amount of money we have borrowed this year alone. But one way to think of it is to realize that since January 20 of this year, the Federal Government has borrowed \$1.2 trillion or more than \$10,500 for every household in the United States—this year alone: \$10,500 for every household in our country. Just since last January, the Federal Government, as I indicated, has borrowed more than \$10,500 for every single household in America.

As you can imagine, there is a limit to how much we can borrow without facing serious consequences, such as dramatically higher interest rates that will further hamper job creation and massive spending cuts and taxes down the road. That is precisely why Congress sets a limit on how much debt the government can carry at any one time. But the administration has decided to worry about all these things at a later date. For now, it wants to continue to borrow and spend, borrow and spend, as it has done all year.

But we are in dangerous territory. As a result of all this borrowing, Congress is about to reach the limit on the amount of debt it can legally carry. The administration expected this would happen, and that is why it recently asked Congress to raise the debt ceiling. Rather than cut spending or implement reforms that would reduce costs, the administration is proposing we borrow even more to finance its industry bailouts and now its health care proposal. What this amounts to is a public admission it cannot live within its means.

Think about the message that sends to American people. At a time when millions of Americans are experiencing a financial hangover from overusing their own credit cards, the government is still at it. Rather than pay down some of the principal, the government is asking the credit card company to

increase its limit. What does it plan to buy with the room it gets on its credit card? More government spending programs.

This is fiscal madness. The primary reason we are in so much trouble financially is the fact that we cannot afford our current spending patterns. The projected deficit for 2009 is nearly twice as large as the previous postwar record from 1983. Yet instead of reforming existing programs such as Medicare and Social Security in order to make them financially sound and stable, the administration does not want to make any hard choices.

This is one of the reasons the administration has a problem on its hands with the American people when it comes to health care. Most of the health care bills the administration supports would raise our debt by hundreds of billions of dollars. Yet the administration knows Americans are concerned about all this spending and debt; otherwise, it would not have touted a report last week saying that a conceptual version of one of several health care bills being discussed in Congress could cut the deficit by \$80 billion over 10 years.

Leaving aside the fact that this particular bill will never see the light of day, an important question arises: How can an administration that is asking Congress for a \$1 trillion increase on its credit card limit claim with a straight face to be excited about \$80 billion in deficit savings? That is like putting a new Mercedes on the government credit card and then calling a press conference on frugality because the dealer threw in a complimentary cup holder.

Americans do not buy any of it, and that is why they are overwhelmingly opposed to the administration's health care proposals. At the outset of this debate, there was one criterion for success: Reform would lower the cost of health care. Yet no one—no one—outside Washington believes that creating a new \$1 trillion entitlement will do anything but increase costs and increase debt.

We are headed down a dangerous road. It is long past time for the administration and its allies in Congress to face the hard choices Americans have had to face over the past several months: No more spending money we do not have on things we do not need; no more debt. Real reform will lower costs and debt, not raise both when we can least afford it.

Mr. President, I yield the floor.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, there

will now be a period for the transaction of morning business for up to 1 hour, with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the majority controlling the first half of the time and the Republicans controlling the final half.

The Senator from Illinois.

#### ORDER OF PROCEDURE

Mr. DURBIN. Mr. President, I ask unanimous consent that the morning business time on the majority side be evenly divided between myself and Senator HARKIN of Iowa.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### MILITARY COMMISSIONS AMENDMENT

Mr. DURBIN. Mr. President, I would like to address several points raised by the Republican minority leader in his opening statement this morning. He stood in support and defense of an amendment that has been proposed by the Senator from South Carolina, Mr. GRAHAM. What it basically would say is, we cannot try terrorists in the courts of America; in the criminal courts of America we cannot bring a terrorist to trial; they have to be tried, according to the Graham amendment and the position of the Republican leader, in military tribunals or commissions only. That is a dramatic change from the law as we know it, and very bad policy.

Since 9/11, we have successfully prosecuted 195 terrorists in America's criminal courts. During that same period of time, we successfully prosecuted in our military commissions and tribunals three—three—terrorists. So if one wants to know where we are more likely to end up putting a terrorist behind bars, I would suggest going to the Department of Justice and letting them decide whether the case best be tried in a criminal court in America or in a military tribunal. That is the current policy. But the position of the Republican side is to take away this discretion of the Attorney General and to tell them under no circumstances can you try a terrorist for violating American law in an American court.

It makes no sense.

Recently we had a case where a man named Ahmed Ghailani was brought to the United States for his involvement in the 1998 bombings of our embassies in Kenya and Tanzania which killed 224 people, including 12 Americans. President Obama said this man is going to be tried for killing Americans, for his terrorist acts in Africa. I have seen the devastation it caused; almost unimaginable. The President said he will be

brought to New York City and he will be tried in our courts. That is under-way. It is the right thing to do. The surviving loved ones of those who died in that embassy have praised the administration for their leadership in bringing this man to justice.

Under the amendment which the Republicans are supporting, we would not be able to bring this man to trial in an American courtroom. Why? If the laws are on the books and can be successfully used to prosecute terrorists, why would we throw away this important opportunity and tool to stop terrorism? I will let the Republican side of the aisle explain why. But in the meantime, perhaps they can explain why we should ignore the reality that there are 355 convicted terrorists currently serving time in American prisons and 350 or more of them were convicted in our courts. We know we can do it. We know we can successfully prosecute them under American law. Why would the Republicans want to shield them from prosecution under American law and instead use military commissions and tribunals which have been very controversial and have only successfully prosecuted three terrorists over the last 7 or 8 years since 9/11? It is the Republican position and it makes no sense. We should use every tool in our arsenal to stop terrorism, and give the Attorney General every authority he needs to decide where is the best place to prosecute these individuals.

This notion that somehow we can't bring a terrorist to justice in America for fear they will be held in a jail in America—how do you explain 350 terrorists currently serving time in American prisons? They are being treated as every other criminal should be treated: incarcerated, isolated, away from the population. That is the way it should be. There are places other than Guantanamo to hold these prisoners safely, and I think the record speaks for itself.

#### NATIONAL DEBT

The second issue that was raised by the Republican leader was about our national debt. He is arguing that the debt is too high, and he is right. But he also ought to be very candid and open about how we reached this point in history. President Obama has been in office now for 9 months, and what did he inherit? The biggest debt in the history of the United States. What did his predecessor, George W. Bush, inherit? A surplus in the Federal Treasury. When President Clinton left office, he left behind a surplus. It is the first time in 30 years we had a surplus. President Bush took that surplus and turned it into the biggest debt in history, and took that and left the weakest economy in 70 years to the Obama administration. Now comes the Republican side saying this is a shame that the Obama people have gotten us into this mess with this debt.

How did we reach this point? Decisions under President George W. Bush

to wage two wars without paying for them, simply to add to the national debt; to do what had never been done before by any President, to give tax cuts to the wealthiest people in America in the midst of a war; and to create a Medicare prescription drug program that wasn't paid for. The cumulative impact of those decisions increased the debt of America to record-breaking levels, and that is what was handed to President Obama when he took office. Now come the Republicans who supported those policies under President Bush and blame President Obama for the debt left behind by the previous President. That is unfair and it is not accurate.

I am sorry we have this debt. Once this economy turns—and I hope it does soon—and jobs are created and businesses are back generating the profits they need, our economy will be strong again and revenues will be created, but we are going to have to claw our way out of this recession and create jobs to make that happen. Twisting and distorting the history of our American debt does not help that conversation.

#### HEALTH CARE REFORM

Incidentally, the minority leader said one thing which I hope he will come back to correct. He said the health care reform now underway is going to add to that national debt. If there is one thing President Obama made clear when he spoke to us about this health care reform issue it is that we cannot add to the debt. This bill reported by the Finance Committee yesterday does not add to the national debt. In fact, it reduces the deficit over the next 10 years. That is the standard the President has held us to when it comes to dealing with the deficit and health care reform.

Make no mistake. The opponents to health care reform are being led and inspired by many people but primarily by one group: the health insurance industry. The health insurance industry, one of the most profitable in America, has made its money by saying no and denying care to people when they need it the most. When we try to bring about real health insurance reform so they can't turn you down because of a pre-existing condition discovered in some old document filed years before and they can't put limits on the coverage you need when you do get sick, the health insurance industry is fighting us tooth and nail, and many on the other side of the aisle are arguing their case. I think it is a tough case to argue to most Americans.

Most Americans understand we need to bring the costs of health care under control so that Americans have security and stability and don't see health insurance premiums going through the roof, businesses cancelling coverage, and individuals unable to protect themselves. They understand we need real health insurance reform. I have

yet to hear the first Republican Senator stand on this floor and call for real health insurance reform, because the health insurance industry doesn't want it and many on the other side of the aisle are not going to cross them when it comes to this debate.

Finally, it is imperative that America move to the point where more Americans have the peace of mind of health insurance protection. To think that 40 million-plus Americans are going to go to bed tonight uncertain about whether a diagnosis tomorrow or an accident tomorrow will plunge them deeply into debt for medical bills they can't pay is unacceptable in this country. Today 14,000 Americans will lose their health insurance coverage by losing a job or reaching a point where they can no longer pay for it. That is the sad reality of the current system. The Republican side of the aisle has no alternative, no proposal for health insurance reform, or health care reform.

I wish to salute Senator SNOWE of Maine for her extraordinary courage yesterday, stepping up and voting—the only Republican so far who has voted for health care reform in the U.S. Congress. I am sure she took a lot of grief for it, a lot of pressure, but she showed real courage, extraordinary courage in voting to join us in this effort for real health care reform.

We have heard from former Republican leader Frist; we have heard as well from Republican Governor Schwarzenegger; the mayor of New York, Mr. Bloomberg; the mayor of Minnesota, and others who have talked about the need for health insurance reform. It tells me that many of the congressional Republicans should listen to the leaders in their party across the country who understand what America needs and wants.

Now is our chance. In the next few weeks we are going to do something which we have been trying to do for 40 or 50 years: Bring real health care reform debate to the floor of the U.S. Senate. It won't be easy. There are a lot of differences of opinion about the goals we want to reach. But I want to tell my colleagues that we are finally taking that important step under the leadership of President Obama to do what America wants done: to make sure we have health care reform that will serve our Nation and serve families and businesses in the 21st century.

I see my colleague from Iowa is on the floor.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. BENNET). The Senator from Iowa is recognized.

#### HEALTH CARE REFORM

Mr. HARKIN. Mr. President, all five congressional committees involved in the health care reform debate have completed their work now and the core

elements of this landmark legislation are now clear.

The media has done a good job of reporting that the emerging bill will crack down on abuses by health insurance companies and extend quality health coverage to the vast majority of Americans. In addition, much attention has been paid to the public option which I am confident will be in the bill we send to the President later this year. So there has been a lot in the press about the public option; about coverage; how much this costs; will there be an excise tax; what will the penalties be. Almost all of the debate we see—I should say discussion—surrounding the health care reform is about how we pay the bills, when we think about it. It is about how are we going to pay all of these bills.

There is one huge part of the health reform bill that is not being discussed very much that I believe will have a transformative effect on the system we have in America today, which I have often referred to as not a health care system but a sick care system. When we think about it, that is what we have in America: a sick care system. If you get sick, you get care one way or the other, but we do precious little to keep you healthy in the first place. As one of the comedians on one of these late night talk shows I happened to tune in to one night said, you know, they are talking about everything except health care.

What do we need to do to keep people healthy in the first place? Well, quite frankly, that is in our bill. That is what I wanted to discuss this morning, which is some of the aspects of the bill that I believe will bend the cost curve in the future and make us a genuine wellness society. The bill we reported out of our HELP Committee creates a sharp new emphasis on fitness, physical activity, good nutrition, disease prevention; in short, keeping people out of the hospital in the first place. This will give Americans access to a 21st century true health care system focused on preventing disease and helping us live healthy, active, productive lives, and it will reduce wasteful, avoidable costs that are built into our current system. Again, this sort of disease management approach we have in our country now is about patching things up after people develop a serious illness or a chronic condition. It is a system that overspends, which we know, and underperforms. It has been a colossally expensive failure.

We can and must do better. As President Obama said in his speech to Congress back in February:

[It is time] to make the largest investment ever in preventive care, because that's one of the best ways to keep our people healthy and keep our costs under control.

To most of us, it is self-evident that cost-effective preventive services will save money in the long term. This first

chart is of a poll taken which shows that 76 percent of the American people said we should invest more in preventive care—76 percent. They get it. The American people get it. This support comes from across the political spectrum. Eighty-six percent of Democrats, 71 percent of Republicans, and 70 percent of Independents say we should be spending more on prevention.

This next chart shows that 77 percent of Americans support a new emphasis on prevention in a health care reform bill because they know it is the right thing to do. It is common sense. If we can use cost-effective screenings and other upfront intervention programs to prevent tens of millions of occurrences of chronic diseases such as cancer, diabetes, and cardiovascular disease, it is self-evident that we are going to slash health care costs very significantly.

Some critics have claimed that a new emphasis on wellness and prevention will cost more money and it will drive up health care costs. To support this claim, they have created a straw man, assuming that we are going to do all of these preventive services for everybody all the time, but that is not what is in our bill. I wish to emphasize that our committee's bill takes a very rigorous approach to prevention. We target appropriate preventive services and screenings only to those segments of the population that are at risk of a disease or a condition.

For example, under our bill, mammogram screenings would be free—no copays, no deductibles—but to those most at risk of breast cancer—women over the age of 40.

At every step, what we have relied on are the latest recommendations of the U.S. Preventive Services Task Force. This task force has been in existence since the early 1980s. It evaluates clinical preventive services on the basis of scientific evidence related to effectiveness, appropriateness, and cost-effectiveness. So what we have said is that if the U.S. Preventive Services Task Force gives a certain preventive measure or screening an A or a B score, then the insurance companies and providers must provide that without any copays or deductibles. So it is targeted. It is not everything, but we are targeting the most cost-effective.

We also say that this task force has to meet at least once every 5 years and take in the latest scientific evidence and make recommendations for revising the mix of clinical preventive services.

Let me review some of the ways the Senate HELP Committee bill, in a very careful way, will put prevention and wellness at the very heart of health reform.

First, we create a Federal level prevention and public health council to improve coordination among Federal agencies in incorporating wellness into a national policy, and will develop a

national prevention and a public health strategy. All of the departments should be doing this, not just the Department of Health and Human Services but the Department of Agriculture, the Department of Defense, the Department of Veterans Affairs, the Department of Transportation, and on and on. All of them ought to have as an integral part of their deliberations and proposals for future legislation that they might propose in the Congress an element of prevention and wellness. Take the Department of Transportation, for example. When they are thinking about highways, bridges, roads, and things such as that, are they thinking about bike paths and walking paths and sidewalks in cities that could be incorporated into the planning if they want Federal money? Well, they have not so far. This is what I mean. We need this kind of an overall coordinating council at the White House level, at the department level.

We also start a prevention and public health investment fund to provide for expanded and sustained national investments in prevention and public health programs in communities all across America.

A 2007 study by the Trust for America's Health found major savings from community-based prevention programs. There is clinic-based prevention where you get a screening, but then there are community-based programs to improve physical activities, nutrition, reduce smoking rates, and things such as that. They found that a national investment of just \$10 per person per year—think about that, \$10 per person per year—in certain community-based wellness programs would yield these kinds of savings: in 1 to 2 years, \$2.8 billion; 5 years, \$16 billion; and 10 to 20 years, \$18.5 billion.

Again, on both the community level and the clinical level, we provide for funding and a structure to make wellness and prevention an integral part of our health care system. For example, our bill would target nutrition counseling to prediabetic patients. Right now, under Medicare, for example, and most insurance companies, they will reimburse thousands of dollars to take care of your diabetic conditions once you get diabetes. They will pay for amputating a foot or a leg. They will pay for all these expensive things after you get diabetes. They will pay for a lifetime of treatment. But now they will not reimburse for the cost of nutrition counseling—a few hundred dollars for someone who is prediabetic and who could prevent the disease through changes in diet. That doesn't make sense. Our bill would change this by requiring insurance plans to reimburse for nutrition counseling for prediabetic individuals—another example of a cost-effective approach.

For essential screenings and annual physicals, our bill would get rid of

copays and deductibles for things such as your annual physical checkups, vaccinations, mammogram screenings, and colonoscopies for the right population group, things like that—no copays, no deductibles.

We are going to make major new investments in the public health and primary care workforce. Senator MURRAY, of Washington, did a great job of incorporating workforce development in our committee bill. A lot of that workforce development is in the area of primary care and preventive care and wellness.

Finally, we give a powerful boost to employer-sponsored wellness programs. Our bill would allow employers to reward employees for participating in wellness programs by giving them a health insurance premium discount of up to 30 percent. In other words, if you participate in a wellness program that is provided by your employer, you can get a discount of up to 30 percent on your health insurance premium. I believe this is something that has been done by Safeway and others, and they have shown that they have had great results. People can see the benefit of wellness and prevention by getting a reduction in their health care premiums.

Workplace wellness programs—everything from nutrition counseling to smoking cessation—typically cost about \$20 to \$200 per employee per year. Again, they have a proven rate of return, ranging from \$2 to \$10 within 18 months, for every dollar spent. If you don't believe me, ask Pitney-Bowes what they did or Safeway. I single those two out, but many companies have gone way ahead of us in providing wellness programs for their employees. Are they doing it just out of sheer generosity? No. They know the bottom line. They know that when they provide wellness and prevention programs for their employees, their rate of return per dollar spent on an employee is 2 to 10 times as much within just a year or two. They have healthier employees. They don't go to the hospital as often. They don't have chronic diseases and they are more productive. They show up for work and they are more productive. What we have done in our bill is expanded this nationwide to give more companies the incentive to do that.

Our bill also directs the CDC to study and evaluate the best employer-based wellness programs and to create an educational campaign to promote these workplace wellness programs throughout America.

We think about the United States and our sick care system this way: We spend twice as much per capita on health care as European countries—twice as much—but we are twice as sick with chronic diseases. How is this possible? The reason is clear: We have neglected wellness prevention and disease prevention. In the United States,

95 cents of every health care dollar is spent on treating illnesses and conditions after they occur. Two-thirds of the increase in health care spending is due to increased prevalence of treated chronic disease. This chart illustrates that. In the late 1980s, we were spending about \$313 billion a year on chronic disease. We have now doubled that. It is up to \$627 billion, and it is going up at an ever-increasing rate. These are diseases that are mostly preventable. Yet we just continue to spend the money dealing with these chronic diseases.

The good news is that by reforming our system and keeping people healthy and preventing chronic illnesses, we have a great opportunity to not only save hundreds of billions of dollars but to improve the health of the American people.

Right now, 75 percent of health care costs are accounted for by heart disease, diabetes, prostate cancer, breast cancer, and obesity—five of them. These five diseases account for 75 percent of our health care costs. What do they have in common? They all have this in common: They are largely preventable, and even reversible, by changes in nutrition, physical activity, and lifestyle.

Again, for every dollar spent, 75 cents went toward treating patients with chronic disease. The CDC said this:

The United States cannot effectively address escalating health care costs without addressing the problem of chronic diseases.

Ninety-six cents of every Medicare dollar—we always hear that we are not going to have enough money for Medicare in the next 10 or 12 years, however long it is. Well, 96 cents goes for chronic disease. If you want to cut down on how much money we spend on Medicare, let's focus on prevention and wellness, especially for that group of individuals who are between 55 and 65, about ready to go on Medicare. Eighty-three cents of every dollar spent on Medicaid is spent on chronic diseases. Why don't we understand this and get it right? Yet, just like blind dodos, we say we will just keep spending the money and we won't address wellness and prevention. And we wonder why we can't get health care costs under control. Well, that is why. We are not addressing the underlying issues of wellness and prevention.

Again, it makes no sense to me that we spend all this time and all this effort to figure out a better way to pay the bills in a system that is dysfunctional, ineffective, and broken. We have to change the health care system itself. We have to change from a sick care system to a health care system, beginning with a sharp new emphasis on prevention and public health and wellness. That is in this bill, and that is not being talked about by the media. It is one of the fundamental parts of the health care reform we are going to

be putting through here on the Senate floor and, hopefully, in Congress and to the President by the end of the year.

It also has to be comprehensive. Not everything that deals with wellness and prevention can be done in this bill. For example, very soon we have to reauthorize the child nutrition bill, which deals with the School Lunch Program and the Breakfast Program. We have to get better food, more nutritional food for our kids in school and get the junk food out. Why do we have vending machines in schools? Do we have vending machines in schools to provide more healthy food for kids in school? You know the answer to that. Of course not. Why do you have the vending machines in schools? Is it so that the school can make money so it can buy band uniforms or maybe football uniforms and things like that? Is it so we can get our kids on junk food and high-sugar sodas, which leads to obesity and leads to diabetes and other kinds of chronic illnesses? Do we really want that for our kids in school? We have to have more nutritional foods. That is the child nutrition reauthorization.

Next year, under our committee, I say to the occupant of the chair, who is now a distinguished member of our committee, we are going to reauthorize the Elementary and Secondary Education Act, which is also called No Child Left Behind. What about making sure we leave no child behind also in terms of their health? Right now, we are cutting down on physical activity with kids in school. We are cutting down on recess and time for them to exercise. That is just nonsense. We have to do more to provide for exercise and healthy foods for our kids in school. That is where it all begins.

To close, Winston Churchill once said something I always thought was pretty much right on point:

Americans always do the right thing—after they have tried everything else.

We have tried everything else in health care, and it has failed. It has led us to bad health and to the brink of bankruptcy. Let's try something new—wellness and prevention. Times change the paradigm of health care. Let's recreate America as a genuine wellness society. Let's change the focus and make it easier to be healthy and harder to be unhealthy. Right now, it is easier to be unhealthy and hard to be healthy. Let's change that around, and in doing so we will build a health care system and bend that cost curve. That is the only way to get the job done.

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. Mr. President, I wonder if the Senator from Iowa will yield for a question.

The PRESIDING OFFICER. The Senator has no time remaining.

Mr. COBURN. On our time.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. COBURN. Mr. President, the Senator from Iowa listed five diseases. I think he mentioned prostate cancer and breast cancer. Can he give us a reference of where he gets that data? Having practiced medicine for 25 years, most of my prostate cancer patients and breast cancer patients would want to know what the prevention is to prevent those diseases. Since we don't have anything in scientific literature right now that says that, I was wondering if he could refer us to the data.

Mr. HARKIN. Mr. President, I will be glad to get that for the Senator. I will get that to the Senator.

Mr. COBURN. I thank the Senator.

#### HEALTH CARE

Mr. COBURN. Mr. President, I plan on taking about 10 minutes of our time.

I serve on the HELP Committee with the distinguished chairman. There is no question we have not emphasized prevention in this country, but there is a reason we have not. We do not pay for it. Medicare does not pay for it. The insurance companies follow what Medicare does.

We have heard some pretty good claims this morning in terms of the HELP bill. I sat through almost 3 weeks of markup on that bill. I don't believe there is anybody in Congress who does not want us to change the way we look at prevention because there is no way we can control health care costs unless we both try to prevent chronic disease and also manage the chronic disease we have.

One of the reasons we have more chronic disease than other countries is because we keep people with chronic disease alive a lot longer. They let them die. They ration the care out, and they determine what the value of their life is. With a chronic disease, eventually they quit treating them. The numbers get skewed because we do a pretty good job. Even though we did not prevent it, we do a wonderful job, and we can actually do far better in managing chronic disease.

What the Senator and the HELP committee put out is a government-centered bill. Let me give an example. Duke University set up a clinic for heart failure patients. They were having phenomenal results. These are all Medicare patients, class III, class IV, class V heart patients. They dropped hospital admissions 27 percent. They shut it down. Why did they shut it down? Medicare would rather pay—because they are not flexible, they will not recognize prevention—they shut down a clinic that was saving them \$100 million a year, even though it cost about a significant portion of that, 10 percent or so, to run the clinic. They would rather spend the \$90 million than to pay for prevention. So what was a great clinic—keeping people out of the

hospital, maintaining their chronic disease. Medicare did that.

That is the reason I am very opposed to the bill—not the principles of the bill but the bill that came out of committee. The bill that came out of our committee creates 88 new government programs—88. Think about it. What do we want in health care? What we want in health care is to be able to determine our own future, to determine our own doctor, and to be able to afford to buy the health care our families need. That is what we want. We create 88 new Federal Government programs managing our health care, and that freedom to choose, that freedom to make a judgment is going to go out the window.

The other points the Senator mentioned, he talked about increasing to 30 percent the ability of performance bonuses for people to get into reduction plans, wellness plans. He mentioned Safeway. They can spend 21 percent under HIPAA now. Safeway's testimony was, give us the flexibility everybody else in the country has and let's go up to 50 percent. We don't trust them to do that, even though Safeway has had no increase in health care costs in the last almost now 5 years because they have truly incentivized prevention.

He mentioned workforce development, and he mentioned all these incentives to help people become primary care doctors. They are not going to become primary care doctors. Do you know why? I am a primary care doctor. They are not going to pay them. The reason we have a disproportionate number of specialists versus primary care doctors in this country is because there is a 350-percent payment differential. How do you think that came about? Medicare created that differential.

If we want more primary care doctors, then what we have to do is pay people to go into primary care, and they will come running because it is the best place in the world to practice medicine. They get to care for entire families. They get to manage every type of conceptual disease one can think of, and the rewards are out of this world. But when the average medical student comes out of medical school owing \$170,000, and their pay is one-fourth of somebody who spends 1 or 2 more years in training, there is no reason to think why they don't all go into additional training so they can be compensated at a level that matches the debt and the sacrifice they put in. They average 8 years of medical school and residency. We don't have many other people who have that kind of training. Yet Medicare created the shortage we have today by limiting the payment to primary care physicians.

The reason I make that point is the plans that are coming to the Senate floor are totally government centered.

They are totally government managed. They are totally government created. He talked about sidewalks and bike paths. In that bill, we set up \$10 billion a year for concrete, supposedly for wellness. I can think of a whole lot better things. We can put \$10 billion in NIH and do a whole lot more in terms of savings for this country in terms of our health care.

Where do I agree with the chairman? We will never control our costs in health care and we will never make health care affordable for us as a nation or individually until we manage the chronic disease we have out there officially and until we incentivize the prevention of it. He is right on that. But there are two approaches to doing that. One says the government is going to do all of it, and the other says maybe we could incentivize individuals in the public to make good decisions for themselves. One costs a whole lot of money; the other does not cost any.

Let me tell you how well the government does. Go to any School Lunch Program you want to today. Go look at it. Look at what we feed our kids at breakfast and lunch, and then ask yourself: No wonder our kids are unhealthy. We are feeding them a high-fat, high-carbohydrate, simple-sugar, simple-starch meal. We are creating, through the government School Lunch Program and breakfast program, the very obesity the Senator says he wants to stop.

Then look at the food stamp purchases we incentivize. There are no limits on them—a government program. Then look at the people on the Food Stamp Program—and this is no discrimination toward them at all; they need the help—but look at the choices they make. There is no effort to limit to only buy what are good foods with food stamp money rather than junk food that, in fact, enhances chronic disease.

There are a lot of ways to approach it, but if we look at what the government is doing now—what does it do? In health care, what does the government do right now that is effective and efficient? Nothing.

The chairman talked about the fact that Medicare is going to go broke. It is. In 5½ years, the Medicare trust fund will be belly up. Nobody disputes that point. The Medicare trustees are saying that. We have all these problems in Medicare. Why don't we fix those? We have a full 15 percent, at a minimum, of fraud in Medicare. Where is the fix? Why don't we fix it? Instead, we are going to bring to the floor 88 new government programs, a government-centric run health care system that is going to defeat and destroy the best health care system in the world.

It is not the most efficient, but there is no question if you are sick, this is the best place in the world to get sick. If you have cancer, your cure rate is 40

to 50 percent better than anywhere else in the world. If you have heart disease, your outcome is better than any other place in the world. Prevention is key, but as we try to fix the problems in health care, our first goal ought to be "do no harm" to what is good about American health care.

I yield for my colleague from Tennessee and note I have consumed over 10 minutes. I apologize to him for that.

THE PRESIDING OFFICER. The Senator consumed 10 minutes.

Mr. ALEXANDER. Mr. President, the Senator from Oklahoma, a practicing physician who has delivered hundreds or thousands of babies—

Mr. COBURN. Thousands.

Mr. ALEXANDER. Thousands of babies is one of the most eloquent spokesmen for what needs to be done in health care in the Senate. I am delighted he took time to come to the Senate floor today. It helps to have someone here who has such a passion for patients and who can talk to the American people on this complicated subject in terms of what this health care plan means for us. That is why so many of us on the Republican side agree with what eight Democratic Senators wrote to the majority leader the other day.

They said: We would like to read the bill and know what it costs before we start voting on it. That seems so sensible that maybe the American people would laugh out loud if that would be a request, but it is. It is important to us and them and many more of the Senators—I believe virtually all of the American people—that we honor that request.

What that means is that the legislative text being put together by Majority Leader REID somewhere—the merging of the Finance bill and the HELP bill—that full text, and as the Democratic Senator said, the complete budget scores should be made available for 72 hours on the Internet before we begin to vote.

The Director of the Budget Office has said it might take 2 weeks, 3 weeks, to have complete budget scores so we can know what the bill costs. But if it takes 2 weeks, if it takes 3 weeks, if it takes 4 weeks, we need to know. The President has said we cannot add a dime to the deficit. How are we going to know if we are adding a dime to the deficit if we do not read the bill and do not know what it costs? We cannot guess what is in the bill. We cannot guess at what it costs when we are talking about huge numbers—hundreds of billions, trillions of dollars.

We have our work cut out for us. We can stay here and do this. We are prepared to do this. We Republicans agree with the Democratic Senators that we need to read the bill and know what it costs. We need to see the complete legislative text and the complete budget numbers.

Why is that so important? Among other reasons, what we are hearing is that what the bill coming out of the Finance Committee does is, among other things, three big things. Instead of reducing costs, it has higher premiums, it has higher taxes, and it has Medicare cuts. That is not health care reform if it has higher premiums, higher taxes, and Medicare cuts for more government.

What is the goal of this exercise? The first goal is reducing costs for each person who buys insurance. How many of us go home and hear that every weekend? I cannot afford my insurance; do something about it. Reducing costs.

What else do we hear? People are saying: I cannot afford my government. You guys are running up the debt trillions of dollars, hundreds of billions of dollars.

What we need to do is to reduce the cost of health care for individuals across America and for the government of individuals. But this bill raises premiums, raises taxes, and cuts Medicare to create more government.

How does it drive up premiums? The Congressional Budget Office has said the obvious, which is that when we impose taxes on medical devices and on the insurance companies, what do they do with it? It is \$900 billion-plus worth of taxes. They pass it on to us. So our premiums go up.

Or there are new "government approved" policies that we will need to buy. If you are one of those Americans who likes to buy a catastrophic policy—that is, pay a lower premium so that you pay your own medical expenses unless something really terrible happens to you or your family—that is a pretty wise choice for many Americans. You may not be able to do that quite so easily under this bill because you will have to buy a government-approved plan or pay a fine. And then younger Americans may be surprised by the amount of money they have to pay. So it is very likely that for millions of Americans this bill will raise their premiums instead of reducing their cost, and 250 million Americans either pay premiums or have premiums paid for them.

Then raising taxes. Here we are in the middle of a recession, 10 percent unemployment, and we are talking about nearly \$1 trillion of tax increases that will be passed on to us in one way or the other. There is a \$1,500 penalty per family if you don't buy insurance. There is an employer mandate. So if you are a small business, you will have to either provide insurance or pay that penalty.

Then the governors of both parties—Democrats and Republicans—are in a near cardiac arrest over the prospect of the Medicaid expansion. I mean 14 million new people—low-income Americans—dumped into State Medicaid Programs. I say "dumped" because doctors

and hospitals are reimbursed so poorly that only 40 percent of doctors will see Medicaid patients. So we are going to say: Congratulations, Mr. and Ms. Low-Income American, into the Medicaid you go in your State.

Not only is it not health care reform for those individuals, but the governors can't manage it, the legislators can't manage it, and the taxpayers can't manage it. I have read, on the floor, comments from most Democratic Governors and most Republican Governors. They are in a situation where their States' budgets are in the worst shape since the 1960s. Medicaid is going up at 6 and 7 percent. They are taking money from higher education and K-12 grades and spending it on Medicaid, and now we are about to dump not only more low-income Americans into Medicaid, but we are going to send a part of the bill to the State governments which can't afford it. So that is State taxes, and it cuts your Medicare.

The question I would like to raise is, what about those Medicare cuts and are doctors themselves going to be paying for this bill? There is an article today, or October 13, the former head of the Congressional Budget Office, Douglas Holtz-Eakin. These Congressional Budget Office heads are known to be pretty straight. This one was appointed by the Republican Congress; Mr. Elmendorf, whom we all respect, was appointed by a Democratic Congress, but they are all nonpartisan. Mr. Holtz-Eakin says:

... the plan proposed by the Democrats and the Obama administration would not only fail to reduce the cost burden on middle-class families, it would make that burden significantly worse. The bill creates a new health entitlement program that the Congressional Budget Office estimates will grow over the longer term at a rate of 8 percent annually. To avoid the fate of the House bill ... the Senate did three things: It promised that future Congresses would make tough choices to slow entitlement spending, and it dropped the hammer on the middle class.

Mr. President, could you let me know when I have consumed 10 minutes?

THE PRESIDING OFFICER. The Chair will let the Senator know.

Mr. ALEXANDER. I thank the Chair.

Here is what Mr. Holtz-Eakin said:

One inconvenient truth is the fact that Congress will not allow doctors to suffer a 24 percent cut in their Medicare reimbursements.

Doctors today are paid about 80 percent of what private insurers will pay if they see Medicare patients and, under the law, that gets cut every year and every year we come in and fix that. Continuing to read from his article:

Senate Democrats chose to ignore this reality and rely on the promise of a cut to make their bill add up. Taking note of this fact pushes the cost of the bill well over \$1 trillion and destroys any pretense of budget balance.

In other words, Mr. Holtz-Eakin is saying he doesn't believe we in Congress are going to cut doctors' pay

when they serve Medicare patients by roughly \$250 billion over the next 10 years. That is about the amount of money it would take just to pay doctors 10 years from now what they are being paid today, and most wouldn't be happy with that. So either the doctors are going to pay for this bill—\$250 billion of it—or you are, because it is going to add to your debt, or your children or your grandchildren are. It is one way or the other. It is either doctors pay or your kids pay because it is not deficit neutral.

He says:

It is beyond fantastic to promise that future Congresses, for 10 straight years, will allow planned cuts in reimbursements to hospitals, other providers, and Medicare Advantage—thereby reducing the benefits of 25 percent of seniors in Medicare.

His point is these are not only cuts in Medicare—\$½ trillion worth of cuts—the cuts are being used to start a new government program. And here, as both Senator HARKIN and Senator COBURN reminded us, Medicare in 5 or 6 years is going bankrupt—belly up.

The PRESIDING OFFICER. The Senator has used 10 minutes.

Mr. ALEXANDER. I thank the Chair very much. I will conclude my remarks.

What we are proposing to do is cut Medicare—take money from grandma—and instead of spending it on grandma by making Medicare more solvent, we are going to take that money, while the program is about to go insolvent, and create a new program. So these are the kinds of questions the American people have a right to ask and have answered.

That is why we want to read the bill. Because we see, as we look at this bill, higher premiums, higher taxes, Medicare cuts for more government, and we don't believe that is health care reform.

Mr. President, I ask unanimous consent to have printed in the RECORD the entire article from which I quoted.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Oct. 13, 2009]

#### THE BAUCUS BILL IS A TAX BILL

(By Douglas Holtz-Eakin)

Remember when health-care reform was supposed to make life better for the middle class? That dream began to unravel this past summer when Congress proposed a bill that failed to include any competition-based reforms that would actually bend the curve of health-care costs. It fell apart completely when Democrats began papering over the gaping holes their plan would rip in the federal budget.

As it now stands, the plan proposed by Democrats and the Obama administration would not only fail to reduce the cost burden on middle-class families, it would make that burden significantly worse.

Consider the bill put forward by the Senate Finance Committee. From a budgetary perspective, it is straightforward. The bill creates a new health entitlement program that

the Congressional Budget Office (CBO) estimates will grow over the longer term at a rate of 8% annually, which is much faster than the growth rate of the economy or tax revenues. This is the same growth rate as the House bill that Sen. Kent Conrad (D., N.D.) deep-sixed by asking the CBO to tell the truth about its impact on health-care costs.

To avoid the fate of the House bill and achieve a veneer of fiscal sensibility, the Senate did three things: It omitted inconvenient truths, it promised that future Congresses will make tough choices to slow entitlement spending, and it dropped the hammer on the middle class.

One inconvenient truth is the fact that Congress will not allow doctors to suffer a 24% cut in their Medicare reimbursements. Senate Democrats chose to ignore this reality and rely on the promise of a cut to make their bill add up. Taking note of this fact pushes the total cost of the bill well over \$1 trillion and destroys any pretense of budget balance.

It is beyond fantastic to promise that future Congresses, for 10 straight years, will allow planned cuts in reimbursements to hospitals, other providers, and Medicare Advantage (thereby reducing the benefits of 25% of seniors in Medicare). The 1997 Balanced Budget Act pursued this strategy and successive Congresses steadily unwound its provisions. The very fact that this Congress is pursuing an expensive new entitlement belies the notion that members would be willing to cut existing ones.

Most astounding of all is what this Congress is willing to do to struggling middle-class families. The bill would impose nearly \$400 billion in new taxes and fees. Nearly 90% of that burden will be shouldered by those making \$200,000 or less.

It might not appear that way at first, because the dollars are collected via a 40% tax on sales by insurers of "Cadillac" policies, fees on health insurers, drug companies and device manufacturers, and an assortment of odds and ends.

But the economics are clear. These costs will be passed on to consumers by either directly raising insurance premiums, or by fueling higher health-care costs that inevitably lead to higher premiums. Consumers will pay the excise tax on high-cost plans. The Joint Committee on Taxation indicates that 87% of the burden would fall on Americans making less than \$200,000, and more than half on those earning under \$100,000.

Industry fees are even worse because Democrats chose to make these fees non-deductible. This means that insurance companies will have to raise premiums significantly just to break even. American families will bear a burden even greater than the \$130 billion in fees that the bill intends to collect. According to my analysis, premiums will rise by as much as \$200 billion over the next 10 years—and 90% will again fall on the middle class.

Senate Democrats are also erecting new barriers to middle-class ascent. A family of four making \$54,000 would pay \$4,800 for health insurance, with the remainder coming from subsidies. If they work harder and raise their income to \$66,000, their cost of insurance rises by \$2,800. In other words, earning another \$12,000 raises their bill by \$2,800—marginal tax rate of 23%. Double-digit increases in effective tax rates will have detrimental effects on the incentives of millions of Americans.

Why does it make sense to double down on the kinds of entitlements already in crisis, instead of passing medical malpractice re-

form and allowing greater competition among insurers? Why should middle-class families pay more than \$2,000 on average, by my estimate, in taxes in the process?

Middle-class families have it tough enough. There is little reason to believe that the pain of the current recession, housing downturn, and financial crisis will quickly fade away—especially with the administration planning to triple the national debt over the next decade.

The promise of real reform remains. But the reality of the Democrats' current effort is starkly less benign. It will create a dangerous new entitlement that will be paid for by the middle class and their children.

Mr. ALEXANDER. I thank the Chair, and I yield the floor.

The PRESIDING OFFICER. The Senator from Arizona.

#### AFGHANISTAN TROOP SURGE

Mr. KYL. Mr. President, I was critical of the President's decisions when he canceled the so-called missile shield that would have been located in Poland and in the Czech Republic, among others things, because I was concerned about the message it sends to our allies in the region. After working with them to develop the political and public consensus for this missile shield, the United States essentially pulled the rug out from under these allies and left the consensus in Central and Eastern Europe that the United States, once again, proved to be an unreliable ally.

Throughout the Baltic States, Central Europe and other people in the world couldn't fail to notice the same. I am thinking of countries in the Persian Gulf that have relied upon the presence of the United States but have, I think, wondered from time to time whether we are the ally they want to stick with because of the fact that sometimes we have proven to be unreliable.

I am concerned about that same issue with respect to Pakistan and Afghanistan. Will our continued public debate over the recommendations that General McChrystal has made to the President result in both allies in the region as well as the leaders of Afghanistan and Pakistan concluding that they better make book with others in the area, including potentially the Taliban? Because after all, those people are going to continue to be in the area; the United States may not.

This is where I think the debate about General McChrystal's recommendations about troop levels and other resources in Afghanistan become so very important. I think we need to listen to the advice of the commander in the field, General McChrystal, who produced a very straightforward assessment of the situation in Afghanistan.

Obviously, the President is the Commander in Chief, and the decisions are his to make. It is appropriate for him to rely upon others for advice as well as on the commander in the field. But

there is a point at which the President's own strategy, which he announced in March, needs to be adequately resourced and we need to move forward. Here is what the President said:

The American people must understand that this is a downpayment on our own future.

He was talking about the resources that would be needed in Afghanistan. So he selected General McChrystal to implement his strategy. We unanimously confirmed General McChrystal, and then the President asked him to give an assessment of what it was going to take. That assessment was provided in August. It has now been about 50 days since that assessment has been made public—since the President received it. Yet we still don't have a decision.

My concern is that this continuing public debate is going to raise doubts around the world about the staying power of the United States; about our willingness to continue commitments we make. Remember, the President himself called this a war of necessity, both during the campaign and after his inauguration. He stressed the fact that we had to do what it took to win in Afghanistan. There are those around the world who are wondering whether we mean to resource this effort to the extent that General McChrystal has said is necessary.

What did General McChrystal's assessment say? First, he speaks of what ISAF—that is the international force, including NATO forces—will require.

ISAF requires an increase in the total coalition force capability and end strength.

In other words, more troops. He warned of the risk of not providing adequate resources, and here is what he said:

Failure to provide quality resources risks a longer conflict, greater casualties, higher overall costs, and ultimately, a critical loss of political support. Any of these risks, in turn, are likely to result in mission failure.

Is that what we want—mission failure? If we don't quickly make a decision, support the President—if he makes the decision to adequately resource our effort there, then we are not only going to be losing, we are not only going to have mission failure, but we will send a message to everybody around the world that, once again, the United States can't be trusted. Here is what the General said about why it matters:

Time matters; we must act now to reverse the negative trends and demonstrate progress. I believe the short-term fight will be decisive. Failure to gain the initiative and reverse insurgent momentum in the near-term—next 12 months—while Afghan security capacity matures—risks an outcome where defeating the insurgency is no longer possible.

Do we want to take the risk that we take so long in getting the additional

troops there that success is no longer possible? I hope not. Finally, General McChrystal underscored the reason for his conclusions during a recent speech he gave in London, where he said:

I believe that the loss of stability in Afghanistan brings a huge risk that transnational terrorists such as al-Qaida will operate from within Afghanistan again.

Now we are having this big public debate. Some prominent Democrats have said we shouldn't resource this the way General McChrystal has announced, and this is why I think we are sending the wrong message. I understand there is some declining support for the war, but this is where Presidential and congressional leadership comes in.

I remember, during the debate over the Iraq war, we had a lot of armchair generals and even a lot of pundits who thought they knew better. Well, General Petraeus, it turned out, was right. Thankfully, President Bush at the time followed his recommendations. As a result, the surge in Iraq was successful. General McChrystal and General Petraeus are essentially saying the same thing again.

Remember, General McChrystal is an expert in both counterterrorism and counterinsurgency policy. He understands the difference and he understands it takes resources to fight a counterinsurgency campaign because you not only have to defeat an enemy but you have to continue to hold the area you have taken until the indigenous forces—in this case the Afghan police and army—are trained in sufficient numbers to hold the territory. You have to protect the populace. In a counterinsurgency strategy, the key is not killing the enemy, the key is protecting the populace. That is why it takes more troops.

Let me read a couple other things the general said:

My conclusions were informed through a rigorous multi-disciplinary assessment by a team of accomplished military personnel and civilians, and my personal experience and core beliefs. Central to my analysis is a belief that we must respect the complexities of the operational environment and design our strategic approach accordingly.

This is a carefully thought-out strategic assessment with a lot of support.

There is a recent article in the Weekly Standard magazine by Fred and Kim Kagan that does an excellent job of explaining why this advice is so wise. It focuses on the nature of the al-Qaida threat that emanates from Afghanistan and the network of support that is established there. Part of this is what has informed General McChrystal's assessment. The article says, and I quote:

We should fight [the Taliban and Haqqani groups]—

Another terrorist-led group—

because in practice they are integrally connected with al Qaeda. Allowing the Taliban and the Haqqani networks to expand their areas of control and influence would offer new opportunities to al Qaeda that its

leaders appear determined to seize. It would relieve the pressure on al Qaeda, giving its operative more scope to protect themselves while working to project power and influence around the world.

In other words, against the United States. The Haqqani group he is referring to is another terrorist-led group.

Secretary of State Clinton said it quite succinctly when she stated:

If Afghanistan were taken over by the Taliban, I can't tell you how fast al-Qaida would be back in Afghanistan.

That is the point. That is why I think we need to get on with our decision.

I noted, with interest, a column by E.J. Dionne in the Washington Post entitled "No Rush to Escalate." He quotes in his column historian Robert Dallek, who recently advised President Obama:

"In my judgment," he recalls saying, "war kills off great reform movements."

Then he goes on to talk about how World War I brought the Progressive Era to a close; that Franklin Roosevelt would have done better if not for World War II; that Vietnam hurt Lyndon Johnson's Great Society. He says:

It may just be that some of the President's senior advisers and supporters may be urging him not to devote the necessary resources to Afghanistan because they don't want him to become a war president.

That would be most unfortunate. President Obama is the Commander in Chief. He campaigned to become the war President. He said he wanted to end the war in Iraq, which he called a war of choice, and he wanted to win the war in Afghanistan—a war of necessity.

He won the election and he, now, as Commander in Chief, has to make these critical decisions. Whether he likes it or not, he is a war President and he will be judged by history not only by his domestic agenda but by how well he leaves the situation in Iraq and Afghanistan. The key with Afghanistan is not to leave the country in the hands of dangerous Taliban or other terrorists who would work with al-Qaida and give them the kind of place they had before from which to train and plan attacks on the rest of the world.

Also at stake in this debate is the message we are sending to the rest of the world, to our allies in the Middle East, in the Persian Gulf, to Pakistan. Is it safe to throw in with the United States and to help us in our war against these terrorists or, because the United States may bug out when the going gets tough, do we decide to make book with the other side, as Pakistan had done in the past with various groups including the Taliban? That is part of what is at stake. It is not just Afghanistan but our reputation around the rest of the world as to how we deal with our allies and how we resolve conflicts we get involved in.

General McChrystal said it best when he said:

We must show resolve. Uncertainty disheartens our allies, emboldens our foes.

That is the key message today. I urge the President, in continuing this debate, to bring it to a close as quickly as he can to make the decision. I know Republicans will support a decision that follows the recommendations of General Petraeus and General McChrystal.

I ask unanimous consent to have printed in the RECORD two articles from the Weekly Standard magazine: One, "How Not to Defeat al-Qaeda, To Win in Afghanistan Requires Troops on the Ground" and "Don't Go Wobbly on Afghanistan; President Obama Was Right in March," both by Fred and Kimberly Kagan.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Weekly Standard, Oct. 5, 2009]

#### HOW NOT TO DEFEAT AL QAEDA

(By Frederick W. Kagan and Kimberly Kagan)

President Obama has announced his intention to conduct a review of U.S. strategy in Afghanistan from first principles before deciding whether or not to accept General Stanley McChrystal's proposed strategy and request for more forces. This review is delaying the decision. If the delay goes on much longer, it will force military leaders either to rush the deployment in a way that increases the strain on soldiers and their families or to lose the opportunity to affect the spring campaign. The president's determination to make sure of his policy before committing the additional 40,000 or so forces required by General McChrystal's campaign plan is, nevertheless, understandable. The conflict in Afghanistan is complex, and it is important that we understand what we are trying to do.

At the center of the complexity is a deceptively simple question: If the United States is fighting a terrorist organization—al Qaeda—why must we conduct a counterinsurgency campaign in Afghanistan against two other groups—the Quetta Shura Taliban and the Haqqani Network—that have neither the objective nor the capability to attack the United States outside Afghanistan? Shouldn't we fight a terrorist organization with a counterterrorist strategy, customarily defined as relying on long-range precision weapons and Special Forces raids to eliminate key terrorist leaders? Why must we become embroiled in the politics and social dysfunctionality of the fifth-poorest country in the world? Surely, some surrounding President Obama appear to be arguing, it makes more sense to confine our operations narrowly to the aim we care most about: defeating the terrorists and so preventing them from killing Americans.

This argument rests on two essential assumptions: that al Qaeda is primarily a terrorist group and that it is separable from the insurgent groups among whom it lives and through whom it operates. Let us examine these assumptions.

Al Qaeda is a highly ideological organization that openly states its aims and general methods. It seeks to replace existing governments in the Muslim world, which it regards as apostate, with a regime based on its own interpretation of the Koran and Muslim tradition. It relies on a reading of some of the earliest Muslim traditions to justify its right

to declare Muslims apostates if they do not behave according to its own interpretation of Islam and to kill them if necessary. This reading is actually nearly identical to a belief that developed in the earliest years of Islam after Muhammad's death, which mainstream Muslims quickly rejected as a heresy (the Kharijite movement), and it remains heretical to the overwhelming majority of Muslims today. The question of the religious legality of killing Muslims causes tensions within al Qaeda and between al Qaeda and other Muslims, leading to debates over the wisdom of fighting the "near enemy," i.e., the "apostate" Muslim governments in the region, or the "far enemy," i.e., the West and especially the United States, which al Qaeda believes provides indispensable support to these "apostate" governments. The 9/11 attack resulted from the temporary triumph of the "far enemy" school.

Above all, al Qaeda does not see itself as a terrorist organization. It defines itself as the vanguard in the Leninist sense: a revolutionary movement whose aim is to take power throughout the Muslim world. It is an insurgent organization with global aims. Its use of terrorism (for which it has developed lengthy and abstruse religious justifications) is simply a reflection of its current situation. If al Qaeda had the ability to conduct guerrilla warfare with success, it would do so. If it could wage conventional war, it would probably prefer to do so. It has already made clear that it desires to wage chemical, biological, and nuclear war when possible.

In this respect, al Qaeda is very different from terrorist groups like the IRA, ETA, and even Hamas. Those groups used or use terrorism in pursuit of political objectives confined to a specific region—expelling the British from Northern Ireland, creating an independent or autonomous Basque land, expelling Israel from Palestine. The Ulstermen did not seek to destroy Britain or march on London; the Basques are not in mortal combat with Spaniards; and even Hamas seeks only to drive the Jews out of Israel, not to exterminate them throughout the world. Al Qaeda, by contrast, seeks to rule all the world's 1.5 billion Muslims and to reduce the non-Muslim peoples to subservience. For al Qaeda, terrorism is a start, not an end nor even the preferred means. It goes without saying that the United States and the West would face catastrophic consequences if al Qaeda ever managed to obtain the ability to wage war by different means. Defeating al Qaeda requires more than disrupting its leadership cells so that they cannot plan and conduct attacks in the United States. It also requires preventing al Qaeda from obtaining the capabilities it seeks to wage real war beyond terrorist strikes.

Al Qaeda does not exist in a vacuum like the SPECTRE of James Bond movies. It has always operated in close coordination with allies. The anti-Soviet jihad of the 1980s was the crucible in which al Qaeda leaders first bonded with the partners who would shelter them in Afghanistan. Osama bin Laden met Jalaluddin Haqqani, whose network is now fighting U.S. forces in eastern Afghanistan, as both were raising support in Saudi Arabia for the mujahideen in the 1980s. They then fought the Soviets together. When the Soviet Army withdrew in 1989 (for which bin Laden subsequently took unearned credit), Haqqani seized the Afghan city of Khost and established his control of the surrounding provinces of Khost, Paktia, and Paktika. Haqqani also retained the base in Pakistan—near Miranshah in North Waziristan—from

which he had fought the Soviets. He established a madrassa there that has become infamous for its indoctrination of young men in the tenets of militant Islamism.

Haqqani held onto Greater Paktia, as the three provinces are often called, and invited bin Laden to establish bases there in the 1990s in which to train his own cadres. When the Taliban took shape under Mullah Mohammad Omar in the mid-1990s (with a large amount of Pakistani assistance), Haqqani made common cause with that group, which shared his ideological and religious outlook and seemed likely to take control of Afghanistan. He became a minister in the Taliban government, which welcomed and facilitated the continued presence of bin Laden and his training camps.

Bin Laden and al Qaeda could not have functioned as they did in the 1990s without the active support of Mullah Omar and Haqqani. The Taliban and Haqqani fighters protected bin Laden, fed him and his troops, facilitated the movement of al Qaeda leaders and fighters, and generated recruits. They also provided a socio-religious human network that strengthened the personal resilience and organizational reach of bin Laden and his team. Islamist revolution has always been an activity of groups nested within communities, not an undertaking of isolated individuals. As American interrogators in Iraq discovered quickly, the fastest way to get a captured al Qaeda fighter talking was to isolate him from his peers. Bin Laden's Taliban allies provided the intellectual and social support network al Qaeda needed to keep fighting. In return, bin Laden shared his wealth with the Taliban and later sent his fighters into battle to defend the Taliban regime against the U.S.-aided Northern Alliance attack after 9/11.

The relationship that developed between bin Laden and Mullah Omar was deep and strong. It helps explain why Mullah Omar refused categorically to expel bin Laden after 9/11 even though he knew that failing to do so could lead to the destruction of the Taliban state—as it did. In return, bin Laden recognizes Mullah Omar as amir al-momineen—the "Commander of the Faithful"—a religious title the Taliban uses to legitimize its activities and shadow state. The alliance between al Qaeda and the Haqqanis (now led by Sirajuddin, successor to his aging and ailing father, Jalaluddin) also remains strong. The Haqqani network still claims the terrain of Greater Paktia, can project attacks into Kabul, and seems to facilitate the kinds of spectacular attacks in Afghanistan that are the hallmark of al Qaeda training and technical expertise. There is no reason whatever to believe that Mullah Omar or the Haqqanis—whose religious and political views remain closely aligned with al Qaeda's—would fail to offer renewed hospitality to their friend and ally of 20 years, bin Laden.

Mullah Omar and the Haqqanis are not the ones hosting al Qaeda today, however, since the presence of U.S. and NATO forces in Afghanistan has made that country too dangerous for bin Laden and his lieutenants. They now reside for the most part on the other side of the Durand Line, among the mélange of anti-government insurgent and terrorist groups that live in the Federally Administered Tribal Areas and the North-west Frontier Province of Pakistan. These groups—they include the Tehrik-e Taliban-e Pakistan, led until his recent death-by-Predator by Baitullah Mehsud; the Tehrik-e Nafaz-e Shariat-e Mohammadi; and the Lashkar-e-Taiba, responsible for the Mumbai

attack—now provide some of the same services to al Qaeda that the Taliban provided when they ruled Afghanistan. Mullah Omar continues to help, moreover, by intervening in disputes among the more fractious Pakistani groups to try to maintain cohesion within the movement. All of these groups coordinate their activities, moreover, and all have voices within the Peshawar Shura (council). They are not isolated groups, but rather a network-of-networks, both a social and a political grouping run, in the manner of Pashtuns, by a number of shuras, of which that in Peshawar is theoretically pre-eminent.

All of which is to say that the common image of al Qaeda leaders flitting like bats from cave to cave in the badlands of Pakistan is inaccurate. Al Qaeda leaders do flit (and no doubt sometimes sleep in caves)—but they flit like guests from friend to friend in areas controlled by their allies. Their allies provide them with shelter and food, with warning of impending attacks, with the means to move rapidly. Their allies provide communications services—runners and the use of their own more modern systems to help al Qaeda's senior leaders avoid creating electronic footprints that our forces could use to track and target them. Their allies provide means of moving money and other strategic resources around, as well as the means of imparting critical knowledge (like expertise in explosives) to cadres. Their allies provide media support, helping to get the al Qaeda message out and then serving as an echo chamber to magnify it via their own media resources.

Could al Qaeda perform all of these functions itself, without the help of local allies? It probably could. In Iraq, certainly, the al Qaeda organization established its own administrative, logistical, training, recruiting, and support structures under the rubric of its own state—the Islamic State of Iraq. For a while, this system worked well for the terrorists; it supported a concerted terror campaign in and around Baghdad virtually unprecedented in its scale and viciousness. It also created serious vulnerabilities for Al Qaeda in Iraq, however. The establishment of this autonomous, foreign-run structure left a seam between Al Qaeda in Iraq and the local population and their leaders. As long as the population continued to be in open revolt against the United States and the Iraqi government, this seam was not terribly damaging to al Qaeda. But as local leaders began to abandon their insurgent operations, Al Qaeda in Iraq became dangerously exposed and, ultimately, came to be seen as an enemy by the very populations that had previously supported it.

There was no such seam in Afghanistan before 9/11. Al Qaeda did not attempt to control territory or administer populations there. It left all such activities in the hands of Mullah Omar and Jalaluddin Haqqani. It still does—relying on those groups as well as on the Islamist groups in Waziristan and the Northwest Frontier Province to do the governing and administering while it focuses on the global war. Afghans had very little interaction with al Qaeda, and so had no reason to turn against the group. The same is true in Pakistan today. The persistence of allies who aim at governing and administering, as well as simply controlling, territory frees al Qaeda from those onerous day-to-day responsibilities and helps shield the organization from the blowback it suffered in Iraq. It reduces the vulnerability of the organization and enormously complicates efforts to defeat or destroy it.

The theory proposed by some in the White House and the press that an out-of-country, high-tech counterterrorist campaign could destroy a terrorist network such as al Qaeda is fraught with erroneous assumptions. Killing skilled terrorists is very hard to do. The best—and most dangerous—of them avoid using cellphones, computers, and other devices that leave obvious electronic footprints. Tracking them requires either capitalizing on their mistakes in using such devices or generating human intelligence about their whereabouts from sources on the ground. When the terrorists operate among relatively friendly populations, gaining useful human intelligence can be extremely difficult if not impossible. The friendlier the population to the terrorists, the more safe houses in which they can hide, the fewer people who even desire to inform the United States or its proxies about the location of terrorist leaders, the more people likely to tell the terrorists about any such informants (and to punish those informants), the more people who can help to conceal the movement of the terrorist leaders and their runners, and so on.

Counterterrorist forces do best when the terrorists must operate among neutral or hostile populations while under severe military pressure, including from troops on the ground. Such pressure forces terrorist leaders to rely more on communications equipment for self-defense and for coordination of larger efforts. It greatly restricts the terrorists' ability to move around, making them easier targets, and to receive and distribute money, weapons, and recruits. This is the scenario that developed in Iraq during and after the surge, and it dramatically increased the vulnerability of terrorist groups to U.S. (and Iraqi) strikes.

Not only did the combination of isolation and pressure make senior leaders more vulnerable, but it exposed mid-level managers as well. Attacking such individuals is important for two reasons: It disrupts the ability of the organization to operate at all, and it eliminates some of the people most likely to replace senior leaders who are killed. Attacking middle management dramatically reduces the resilience of a terrorist organization, as well as its effectiveness. The intelligence requirement for such attacks is daunting, however. Identifying and locating the senior leadership of a group is one thing. Finding the people who collect taxes, distribute funds and weapons, recruit, run IED cells, and so on, is something else entirely—unless the counterterrorist force actually has a meaningful presence on the ground among the people.

The most serious operational challenge of the pure counterterrorist approach, however, is to eliminate bad guys faster than they can be replaced. Isolated killings of senior leaders, spread out over months or years, rarely do serious systemic harm to their organizations. The best-known example is the death of Abu Musab al Zarqawi, founder and head of Al Qaeda in Iraq, in June 2006, following which the effectiveness and lethality of that group only grew. It remains to be seen what the effect of Baitullah Mehsud's death will be—although it is evident that the presence of the Pakistani military on the ground assisted the high-tech targeting that killed him. Such is the vigor of the groups he controlled that his death occasioned a power struggle among his deputies.

One essential question that advocates of a pure counterterrorism approach must answer, therefore, is: Can the United States significantly accelerate the rate at which

our forces identify, target, and kill senior and mid-level leaders? Our efforts to do so have failed to date, despite the commitment of enormous resources to that problem over eight years at the expense of other challenges. Could we do better? The limiting factor on the rate of attrition we can impose on the enemy's senior leadership is our ability to generate the necessary intelligence, not our ability to put metal on target. Perhaps there is a way to increase the attrition rate. If so, advocates of this approach have an obligation to explain what it is. They must also explain why removing U.S. and NATO forces from the theater will not make collecting timely intelligence even harder—effectively slowing the attrition rate. Their argument is counterintuitive at best.

Pursuing a counterinsurgency strategy against the Taliban and Haqqani groups—that is, using American forces to protect the population from them while building the capability of the Afghan Army—appears at first an indirect approach to defeating al Qaeda. In principle, neither the Taliban nor the Haqqani network poses an immediate danger to the United States. Why then should we fight them?

We should fight them because in practice they are integrally connected with al Qaeda. Allowing the Taliban and the Haqqani network to expand their areas of control and influence would offer new opportunities to al Qaeda that its leaders appear determined to seize. It would relieve the pressure on al Qaeda, giving its operatives more scope to protect themselves while working to project power and influence around the world. It would reduce the amount of usable intelligence we could expect to receive, thus reducing the rate at which we could target key leaders. Allowing al Qaeda's allies to succeed would seriously undermine the counterterrorism mission and would make the success of that mission extremely unlikely.

[From the Weekly Standard, Oct. 12, 2009]

DON'T GO WOBBLY ON AFGHANISTAN

(By Frederick W. Kagan and Kimberly Kagan)

"To defeat an enemy that heeds no borders or laws of war, we must recognize the fundamental connection between the future of Afghanistan and Pakistan—which is why I've appointed Ambassador Richard Holbrooke . . . to serve as Special Representative for both countries." That "fundamental connection" between Afghanistan and Pakistan was one of the important principles President Obama laid out in his March 27, 2009, speech announcing his policy in South Asia. It reflected a common criticism of the Bush policy in Afghanistan, which was often castigated as insufficiently "regional." It also reflected reality: The war against al Qaeda and its affiliates is a two-front conflict that must be fought on both sides of the Durand Line.

Now, however, some of the most vocal supporters of the regional approach are considering—or even advocating—a return to its antithesis, a purely counterterrorism (CT) strategy in Afghanistan. Such a reversion, based on the erroneous assumption that a collapsing Afghanistan would not derail efforts to dismantle terrorist groups in Pakistan, is bound to fail.

Recent discussions of the "CT option" have tended to be sterile, clinical, and removed from the complexity of the region—the opposite of the coherence with which the administration had previously sought to address the problem. In reality, any "CT option" will likely have to be executed against

the backdrop of state collapse and civil war in Afghanistan, spiraling extremism and loss of will in Pakistan, and floods of refugees. These conditions would benefit al Qaeda greatly by creating an expanding area of chaos, an environment in which al Qaeda thrives. They would also make the collection of intelligence and the accurate targeting of terrorists extremely difficult.

If the United States should adopt a small-footprint counterterrorism strategy, Afghanistan would descend again into civil war. The Taliban group headed by Mullah Omar and operating in southern Afghanistan (including especially Helmand, Kandahar, and Oruzgan Provinces) is well positioned to take control of that area upon the withdrawal of American and allied combat forces. The remaining Afghan security forces would be unable to resist a Taliban offensive. They would be defeated and would disintegrate. The fear of renewed Taliban assaults would mobilize the Tajiks, Uzbeks, and Hazaras in northern and central Afghanistan. The Taliban itself would certainly drive on Herat and Kabul, leading to war with northern militias. This conflict would collapse the Afghan state, mobilize the Afghan population, and cause many Afghans to flee into Pakistan and Iran.

Within Pakistan, the U.S. reversion to a counterterrorism strategy (from the counterinsurgency strategy for which Obama reaffirmed his support as recently as August) would disrupt the delicate balance that has made possible recent Pakistani progress against internal foes and al Qaeda.

Pakistani president Asif Ali Zardari, army chief of staff General Ashfaq Kayani, and others who have supported Pakistani operations against the Taliban are facing an entrenched resistance within the military and among retired officers. This resistance stems from the decades-long relationships nurtured between the Taliban and Pakistan, which started during the war to expel the Soviet Army. Advocates within Pakistan of continuing to support the Taliban argue that the United States will abandon Afghanistan as it did in 1989, creating chaos that only the Taliban will be able to fill in a manner that suits Pakistan.

Zardari and Kayani have been able to overcome this internal resistance sufficiently to mount major operations against Pakistani Taliban groups, in part because the rhetoric and actions of the Obama administration to date have seemed to prove the Taliban advocates wrong. The announcement of the withdrawal of U.S. combat forces would prove them right. Pakistani operations against their own insurgents—as well as against al Qaeda, which lives among those insurgents—would probably grind to a halt as Pakistan worked to reposition itself in support of a revived Taliban government in Afghanistan. And a renewed stream of Afghan refugees would likely overwhelm the Pakistani government and military, rendering coherent operations against insurgents and terrorists difficult or impossible.

The collapse of Pakistan, or even the revival of an aggressive and successful Islamist movement there, would be a calamity for the region and for the United States. It would significantly increase the risk that al Qaeda might obtain nuclear weapons from Pakistan's stockpile, as well as the risk that an Indo-Pakistani war might break out involving the use of nuclear weapons.

Not long ago, such a collapse seemed almost imminent. Islamist groups operating under the umbrella of the Tehrik-e Taliban-e Pakistan (TTP), led by Baitullah Mehsud

until his recent death, had occupied areas in the Swat River Valley and elsewhere not far from Islamabad itself. Punjabi terrorists affiliated with the same group were launching attacks in the heart of metropolitan Pakistan.

Since then, Pakistani offensives in Swat, Waziristan, and elsewhere have rocked many of these groups back on their heels while rallying political support within Pakistan against the Taliban to an unprecedented degree. But these successes remain as fragile as the Pakistani state itself. The TTP and its allies are damaged but not defeated. Al Qaeda retains safe-havens along the Afghan border.

What if the United States did not withdraw the forces now in Afghanistan, but simply kept them at current levels while emphasizing both counterterrorism and the rapid expansion of the Afghan security forces? Within Afghanistan, the situation would continue to deteriorate. Neither the United States and NATO nor Afghan forces are now capable of defeating the Taliban in the south or east. At best, the recently arrived U.S. reinforcements in the south might be able to turn steady defeat into stalemate, but even that is unlikely.

The accelerated expansion of Afghan security forces, moreover, will be seriously hindered if we fail to deploy additional combat forces. As we discovered in Iraq, the fastest way to help indigenous forces grow in numbers and competence is to partner U.S. and allied units with them side by side in combat. Trainers and mentors are helpful—but their utility is multiplied many times when indigenous soldiers and officers have the opportunity to see what right looks like rather than simply being told about it. At the current troop levels, commanders have had to disperse Afghan and allied forces widely in an effort simply to cover important ground, without regard for partnering.

As a result, it is very likely that the insurgency will grow in size and strength in 2010 faster than Afghan security forces can be developed without the addition of significant numbers of American combat troops—which will likely lead to Afghan state failure and the consequences described above in Afghanistan and the region.

The Obama administration is not making this decision in a vacuum. Obama ran on a platform that made giving Afghanistan the resources it needed an overriding American priority. President Obama has repeated that commitment many times. He appointed a new commander to execute the policy he enunciated in his March 27 speech, in which he noted: “To focus on the greatest threat to our people, America must no longer deny resources to Afghanistan because of the war in Iraq.” If he now rejects the request of his new commander for forces, his decision will be seen as the abandonment of the president's own commitment to the conflict.

In that case, no amount of rhetorical flourish is likely to persuade Afghans, Pakistanis, or anyone else otherwise. A president who overrules the apparently unanimous recommendation of his senior generals and admirals that he make good the resource shortfalls he himself called unacceptable can hardly convince others he is determined to succeed in Afghanistan. And if the United States is not determined to succeed, then, in the language of the region, it is getting ready to cut and run, whatever the president and his advisers may think or say.

That is a policy that will indeed have regional effects—extremely dangerous ones.

## ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2010—CONFERENCE REPORT

The PRESIDING OFFICER (Mr. CASEY). Under the previous order, the Senate will proceed to consideration of the conference report to accompany H.R. 3183, which the clerk will report.

The assistant legislative clerk read as follows:

Conference report to accompany H.R. 3183, making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

The PRESIDING OFFICER. Under the previous order, there is 10 minutes of debate with the Senator from Oklahoma, Mr. COBURN, and 10 minutes of debate equally divided between the Senator from North Dakota, Mr. DORGAN, and the Senator from Utah, Mr. BENNETT. Who yields time?

Mr. DORGAN. Mr. President, is there an order in the unanimous consent request?

The PRESIDING OFFICER. The only order is that the Senator from North Dakota is to control the final 5 minutes.

Mr. DORGAN. I believe the Senator from Oklahoma has been allotted 10 minutes. I saw him just walk through the Chamber a moment ago. The ranking member of the subcommittee, the Senator from Utah, is allotted 5 minutes. Let me reserve my time and perhaps ask the Senator from Utah to begin, and then we hope the Senator from Oklahoma would return and use his 10 minutes.

The PRESIDING OFFICER. The Senator from Utah is recognized.

Mr. BENNETT. Mr. President, I am pleased to come to the floor and recommend passage of the energy and water conference report for the fiscal year 2010. Despite the President sending up his budget in May, nearly 4 months after the budget had been traditionally sent to Congress, this subcommittee worked hard to produce a conference report that is ready earlier than any that I can remember. I compliment my chairman, Senator DORGAN, for his hard work in developing a balanced bill in a legitimate time period.

The subcommittee produced a bill that is under the President's budget request by nearly \$1 billion. That is quite extraordinary in this world where we are trying to shovel more money out the door, to come in with a number that is less than the request of the President.

The House and Senate bills differed significantly in their priorities, but I believe the conference report before us balances the funding interests of both bodies and those of the administration as well. The Corps of Engineers remains an area of great interest. The budget request for the corps is down

\$277 million from fiscal year 2009. The conference report has restored \$320 million to meet the large number of member requests, and the conferees allocated \$313 million to work off significant construction backlogs.

The Senate bill did not include new starts in the mark. Both the House and the administration proposed new starts, so we had to resolve that issue in the conference. The conference provides \$100,000 per project in new starts in this bill.

Turning to the Bureau of Reclamation, the budget request was \$55 million below fiscal year 2009 levels. The conferees provided an additional \$67 million for the Bureau of Reclamation, which is 6.3 percent over the request and 1 percent over fiscal year 2009. Once again, as the Corps of Engineers, the Bureau of Reclamation has a tremendous backlog of underfunded and meritorious projects, and we did our best to try to work into that backlog.

Finally, as to the Department of Energy, the conference report recommends \$27.1 billion for the Department of Energy, which is \$1.3 billion below the President's request and \$318 million above the current year.

We cannot ignore the fact that \$44 billion was provided in stimulus funding for the Department this year, including \$16 billion provided for renewable energy accounts. That is why we have been able to make the changes we did.

In restoring balance to the energy programs, the committee recommends an additional \$25 million for nuclear energy R&D, including an \$85 million increase for the Nuclear Power 2010 Program.

With respect to the concerns raised by the Senator from Oklahoma, I point out the Senate adopted his amendments by unanimous consent. I was in support of those amendments and would be happy to support them again as they come in other appropriations bills. The reaction on the part of the House was that there were two amendments proposed by the Senator from Oklahoma: one they were willing to accept and one they were not. We had to make a decision as to which of the two we would support and, with Senator DORGAN, I supported one of the amendments of the Senator from Oklahoma that made it into the conference report. I am sorry we were unable to get the other one in, but we did our best and we would be happy, as I say—at least I would be happy; I will not speak for the chairman—I would be happy to support this at some point in the future.

I yield the floor and whatever remainder of the time I may not have used I ask accrue to Senator DORGAN.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Oklahoma is recognized.

Mr. COBURN. Mr. President, we are at this point not because an amendment was not accepted. We are at this point because of the nature of the amendment that was not accepted. I recognize my colleagues for the good work they did on this bill. It is the lowest increase of any appropriations bill that has come to the Senate floor. But the problem is very straightforward and very simple: Why would the House not accept an amendment that said transparency for the American public is what we are after? We have to question that. And why would our conferees sign on to a conference report that did not have transparency? That is the question.

There was an amendment that said the reports asked for out of this appropriations bill, unless they contain information related to the security and defense of this country, should be made public to all 70 Senators who are not on the Appropriations Committee but, more important, to the people of this country. I cannot understand; nobody can offer an argument on why you would not want to do that. Yet somehow it is not in the bill. How do we explain that? Is it because it is a Coburn amendment that it is not in the bill? Is it because there is something in the reports we do not want the American people to see? If that is the case, what is the problem? Where is the problem?

The reason I did not give unanimous consent on this bill coming to the floor is that I believe we ought to have a discussion about transparency. One of the things my friend, President Obama, was good at when he was here, and has said he is for as our President, is transparency. We teamed up and passed, along with Senator CARPER and Senator MCCAIN, the Transparency and Accountability Act. By the spring or summer of this year we will be able to see where every penny of our tax dollar goes, all the way down to subgrantee and subcontracting. That is real transparency.

The question before us is why would this body accept this conference report cloaked in secrecy?

I know Senators wanted this amendment. I am not accusing them of not wanting it. What I do not understand is why they would ever agree to a conference that did not have it in any bill we did? Why would we not let the American people see what we are doing? Why would we not want the people to see an annual report by the Department of Energy on their financial balances? That is one of the reports that is in here. Can somebody tell me why we would not want that? Who in the House would not want that? What is it we do not want the American people to see? A report by the Chief of Engineers on water resources? Why can't the American people see that? A report by the Nuclear Regulatory Commission identifying barriers to and its rec-

ommendations for streamlining for construction of new nuclear reactors? Why should not the American people see what the problems are and see what that report says? Why should that be cloaked, out of light, out of view, and away from the knowledge of the American people?

To me, there is either one of two explanations. One is they do not care about what the American people think about knowing what is going on in our government or there is something else going on inside one of these reports they do not want the American people to see. It is one of those two things. I don't know which it is. But what I believe is, it is unacceptable for us to pass a bill, a conference report, that has information in it that is not a risk for any of our national security issues to which the American people should not be privy.

I believe, if we vote for this conference report, what we are saying is we endorse it; we know it better. There are certain things that even though they don't relate to security, you are not smart enough, you don't have the insight, you don't have the wisdom, you don't have the knowledge to make a judgment.

I reject that, our Founders rejected that, and we as a body ought to reject it.

I reserve the remainder of my time.

Mr. DORGAN. Mr. President, the unanimous consent agreement provides I will have the final 5 minutes of debate. If the Senator from Oklahoma wishes to consume the remainder of his time, I will use the final 5 minutes and then we will proceed.

Mr. COBURN. Mr. President, parliamentary inquiry:

The PRESIDING OFFICER. The Senator from Oklahoma.

Mr. COBURN. It is true the Senator does have the last time, but is the unanimous consent agreement that the last 5 minutes is his?

I understand. I yield back my time.

The PRESIDING OFFICER. The Senator from North Dakota is recognized.

Mr. DORGAN. Mr. President, I think I speak for myself and Senator BENNETT, we very much appreciate the work the Senator from Oklahoma does. He does it diligently. He is on the floor a great deal pushing his views on these issues. On the specific issue that he just described, it is an issue in which he came to the floor and offered it. We included it in the bill during the Senate floor consideration because we believed in it. We agreed with him, as did others in the Senate, and that is what we took to conference.

The Senator from Oklahoma weaves a bit of a larger cloud than exists by suggesting there was some sort of deep secrets or conspiratorial approach to try to prevent the public from seeing something. That is far from the case. The Senator makes a point that we

agreed with by accepting his amendment. That is, reports required of the Department of Energy to be sent to the Congress should be available not only to Congress but to the American people. We agreed with that point. That is why we put it in the Senate bill. We went to conference with the House. There was objection. The fact is, this is a very big piece of legislation. If we decided that if we can't resolve an objection or if we can't reach agreement on everything, then there won't be a conference report. If that were the case, there would be very few conference reports on the floor of the Senate.

As my colleagues from Oklahoma and Utah know, there is a lot of give and take in the conference process. This is a piece of legislation that has some \$30 billion-plus on a wide range of issues such as nuclear weapons. This bill also funds nuclear weapons programs, water programs for both the Army Corps of Engineers and the Bureau of Reclamation, energy programs, nuclear waste cleanup sites and many more complicated and important issues. In order to get a conference report, we had to give and take here and there, and there was an objection to the provision the Senator from Oklahoma had put in the Senate bill. I regret that, but that was the case. As my colleague from Utah described previously, I will continue to support the Senator from Oklahoma's efforts to make sure all of these reports are made available to the American people, providing that there is no national security issue or secret clearance to them.

I emphasize something my colleague from Oklahoma described about this. This conference report on energy and water is an important conference report. We need to get our bills done on time. Aside from the fact that it does not include his amendment, which we had previously supported and still do, we need to do our work. There is a lot of criticism about not passing appropriations bills. We will pass appropriations bills this year in great contrast to years previous when there have been big omnibus bills. That is a good thing, that we are making progress to pass individual appropriations bills. We brought this bill to the floor for debate. Amendments were offered, and the bill was passed. That is exactly the way the process should work.

Senator BENNETT and I brought a bill to the floor that is slightly less than 1 percent above last year's expenditures for water and energy and so on. The Senator from Oklahoma acknowledged at the beginning of his remarks that this bill, with respect to the fiscal year 2010, is not a bill that unnecessarily throws a lot of money at programs and projects. We are less than 1 percent above last year's expenditures. That is important to note.

With respect to the many programs in the bill, there are many that are flat

funded. Some are even slightly below fiscal year 2009. The exception is in three areas where there were increases. The first area of increase was for energy efficiency and renewable energy programs because we are trying to make sure we move down the road more aggressively to attain a lower carbon future and promote greater efficiency. Second, the DOE's Science program represents an investment that will provide significant dividends in the future. Our great science laboratories and other investments in science represent a profoundly important investment in our nation. Finally, naval reactors had an increase. We put some additional money there because of the importance of this program. The rest of the programs are very near their fiscal year 2009 levels with no increase at all.

This is a good conference report. I don't believe it is inappropriate for my colleague from Oklahoma to be upset that his amendment is not a part of the report. I understand his position. He has served in the House and Senate. He understands there are many things in conference that get dropped. Yet, for everything that is dropped, there was someone in the House or Senate who believed it was important enough to come to the floor, offer it, fight for it, and passionately believe in it. I understand that is true with everything. It is certainly true for our colleague from Oklahoma who spends a lot of time pushing for increased transparency. We appreciate that. That is why we agreed to the amendment during the Senate debate.

This Energy and Water Appropriations bill is an important piece of legislation. It does not contain the one amendment the Senator from Oklahoma got put in the Senate side. We wish it did, but it does not. But the conference report is nonetheless something that merits the support of the broad membership in the Senate.

I yield the floor.

#### CLOTURE MOTION

The PRESIDING OFFICER. Under the previous order, pursuant to rule XXII, the clerk will report the motion to invoke cloture.

The bill clerk read as follows:

#### CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the conference report to accompany H.R. 3183, the Energy and Water Appropriations Act for Fiscal Year 2010.

Harry Reid, Charles E. Schumer, Patrick J. Leahy, Dianne Feinstein, Evan Bayh, Mark L. Pryor, Jon Tester, Robert Menendez, Frank R. Lautenberg, Kent Conrad, Patty Murray, John F. Kerry, Daniel K. Inouye, Sheldon Whitehouse, Carl Levin, Jack Reed, John D. Rockefeller, IV, Bill Nelson.

The PRESIDING OFFICER. By unanimous consent, the mandatory quorum call is waived.

The question is, Is it the sense of the Senate that debate on the conference report to accompany H.R. 3183, the Energy and Water Development and Related Agencies Appropriations Act, 2010, shall be brought to a close?

The yeas and nays are required under the rule.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Alaska (Mr. BEGICH), the Senator from Massachusetts (Mr. KERRY), and the Senator from Missouri (Mrs. McCASKILL) are necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Texas (Mrs. HUTCHISON).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The yeas and nays resulted—yeas 79, nays 17, as follows:

[Rollcall Vote No. 321 Leg.]

#### YEAS—79

Akaka	Feinstein	Nelson (NE)
Alexander	Franken	Nelson (FL)
Barrasso	Gillibrand	Pryor
Baucus	Gregg	Reed

The PRESIDING OFFICER. On this question, the yeas are 79, the nays are 17. Three-fifths of the Senators duly chosen and sworn having voted in the affirmative, the motion is agreed to.

The Senator from North Dakota is recognized.

Mr. DORGAN. Mr. President, let me thank my colleagues who voted for cloture for the Energy and Water Appropriations conference report. It is important that we do the appropriations bills and get them done individually. We are now past October 1, but in the last 2 years, we actually had to do omnibus appropriations bills. Thanks to Senator REID and his determination and thanks to Senator INOUE, the

chairman of the Appropriations Committee, we are doing the bills one by one by one, and we are going to get them finished. We just voted on the bill that funds all of the energy and water programs in the country, and it is a very important investment in this country.

I wanted to comment more generally about a few issues. The legislation we are moving, the conference report, just got cloture. We got it through the House and the Senate and now we are in a period of 30 hours post-cloture. Hopefully, we will then get it to the President for his signature for it to become law. The concerns I have about the issues here include not just the water infrastructure and nuclear weapons programs in our Energy and Water bill but also very much include energy.

I wish to speak for a moment about the energy challenges we face. This chart describes a very serious dilemma for our country. Two-thirds of the crude oil used in the United States today is imported. Two-thirds of the crude oil we use comes from other countries, some of whom don't like us very much. Our economy runs on energy. If, God forbid, tomorrow the supply of oil to this country were interrupted by terrorists or for some other reason, our economy would be in desperate trouble. Every single day the American people get up and use energy but take it for granted. We get out of bed, and we turn a switch on. We assume the lights will be on. We perhaps plug in an electric razor or toothbrush and expect there to be electricity to run that razor or toothbrush. We take a shower and expect the water heater to have been heated with electricity or natural gas to provide the hot water for a shower. Then we make coffee and breakfast, and there is electricity assumed to be available. Further, we put a key in the ignition of a vehicle and drive off to work, using energy once again.

Every part of our daily life is filled with the use of energy. The question is, How can we address this issue of our unbelievable reliance on foreign oil? It threatens our national security and our energy security to be so reliant on foreign oil. The reliance we have has to be reduced. So how do we do that? Even as we do that, we must also find a way to reduce the carbon footprint and reduce the amount of CO<sub>2</sub> that goes into the atmosphere to protect the planet. So two things are working at the same time.

I wish to talk for a bit more about the legislation we have finished in the Senate Energy Committee, rather than the Energy and Water Appropriations panel which I chair. Senator BINGAMAN chairs the Energy Committee, and I am the second ranking Democrat on that authorizing committee. I wish to talk about what we have written in the energy authorizing bill in the context

with efforts that some have described to merge that energy bill with a cap-and-trade climate change bill and bring both to the floor for a debate. I prefer we not do that approach. Not because I don't think we should address climate change; I believe we should have that debate too. I believe we are going to have to have a lower carbon future. What I believe we should do is a two-step process that focuses on energy legislation. From a policy standpoint, it would give us a real opportunity to reduce carbon in the atmosphere by changing our energy mix. First by using more renewable energy, and second by finding ways, through greater investments in research and technology, to reduce the carbon emitted when we burn fossil fuels to produce energy. So I have a couple of comments about this two-step approach.

The Energy bill we have enacted provides a lot of things. It provides a substantial increase in renewable energy, and it does that through wind turbines which create electricity from the wind. There is no carbon output with wind energy. The problem is that we have a lot of wind in remote areas, and we need to move it to the load centers that need the electricity. It's well known that there is wind from Texas to North Dakota. By the way, North Dakota ranks No. 1 in wind; we are the Saudi Arabia in wind. We also have a substantial opportunity to develop solar from Texas across the Southwest to California where the sun shines all the time, or virtually all the time. We can maximize the production of energy where it is available from wind, solar, biomass and so on, and then we can build the transmission capability to move it to the load centers that need it. By doing this, you will dramatically change our energy capability in this country.

The legislation we have done in the Energy Committee accomplishes that goal. We have a significant transmission piece in that legislation that allows us, at long last, to build the transmission capacity we need to support our renewable potential.

We built an Interstate Highway System around this country so you can get in a vehicle and drive almost anywhere, but we have not built an interstate highway of transmission to move energy from where it exists to where it is needed. We have a patchwork of transmission that was built up over a period of time when there was a local utility that produced energy for a certain market and then in that area distributed energy to its market. That is the kind of transmission system we have. We need to dramatically modernize the transmission so we can maximize the amount of renewable energy.

There are a lot of things happening that I think are exciting in energy that can change our future. Do you know

right now there are a couple hundred people working on a process to find innovative ways to use coal. Dr. Craig Venter is involved. He is one of the great scientists in our country and one of the two people who led the human genome project. They are working on finding ways to create synthetic microbes that would actually consume a coal in deep seams and turn the coal into methane. Think of that. It creates synthetic microbes that will essentially eat the coal—that is not a scientific term—they will consume the coal and leave in its wake methane, turning coal into methane.

We have others who are working on the development of algae and energy, and Dr. Venter is involved in this as well. By the way, after 15 years of it being discontinued, I restarted the algae research at the DOE energy laboratories through my Energy and Water Subcommittee. Dr. Venter is working on developing strains of algae that will excrete lipids that become a fuel. We know we can grow algae in water and sunlight and CO<sub>2</sub> and then get rid of CO<sub>2</sub> by growing algae and then destroy the algae by harvesting it and creating diesel fuel. Dr. Venter is looking at ways to produce algae that simply excrete the lipids and, with little transformation, becomes a fuel. We have so many things going on that are so interesting. I think 10 years from now we will look in the rearview mirror and see dramatic changes in how we produce energy and how we significantly reduce carbon.

I wish to show a map of my State in which we have some projects that are extraordinary. The western half of North Dakota has substantial oil development. The USGS determined that it was the largest discovery of technically recoverable oil that has yet been assessed in the lower 48 States. They estimated that there was as much as 4.3 billion barrels of oil in this region known as the Bakken formation. We also have a substantial amount of coal, lignite coal. We have one of the largest commercial working example of CO<sub>2</sub> sequestration by capturing the CO<sub>2</sub> from a synthetic gas plant, putting it in a pipeline, and sending it up to Saskatchewan where they inject it underground for enhanced oil recovery. By doing this, it improves the productivity of marginal oil wells in Saskatchewan. So we actually capture the CO<sub>2</sub> from the North Dakota plant that is gasifying coal and gas, ship it up to Canada, and then inject it underground in an enhanced oil recovery process. In my judgment, that is a very exciting thing.

Here are the fuels we use for the production of electricity. About forty-eight percent of our electricity comes from coal. Nuclear provides a smaller piece than that need. We have natural gas, hydroelectric, and other renewables too. So my point is we are not

going to have a future without using coal for some period of time. The question is how do we use it in a different way. I believe a substantial investment in technology that will allow us to build near-zero emission coal-fired plants. I believe we can do that by capturing carbon and protecting our environment. We must maximize the use of renewables from wind, solar, biomass, and other sources. We must also move toward an electric drive transportation system, and then continue to invest in a longer term hydrogen fuel cell system. We need to do all of these things are what we can and should do.

The Energy bill we passed out of the Energy Committee is a giant step forward to maximize renewables and increase energy efficiency as a way to reduce carbon. I think what we ought to do is bring that energy bill to the floor, have a debate, get it to the President for his signature. This would be a giant step in the direction of climate change. Following that, we should bring the climate change bill to the floor and then address the issue of targets and timetables and other mechanisms to find out what is achievable for protecting this country. Some have heard me speak about this and have said, Well, he doesn't support any sort of climate change legislation. What I have said is I don't support cap and "trade." At this point, I have said I don't support providing a \$1 trillion carbon securities market for Wall Street so that speculators and the investment banks can trade carbon securities tomorrow and tell us what our price of energy is going to be for us the next day. I have precious little faith in those same people who ran up the price of oil last year to \$147 a barrel in day trading when the market fundamentals showed that demand was down and supply was up. So, no, I don't support the trade side using that mechanism, but I do support creating climate change legislation that has appropriate targets and timetables that reduce our nation's carbon footprint. We can do that. We will do that. I think there is general consensus we should do that.

All I am saying is this: What we ought to do is bring to the floor energy legislation that will adopt the policies on maximizing renewables, building the transmission capability, creating the building efficiencies and much more that is and important step forward and the lowest hanging fruit in energy. Among these positive benefits, energy efficiency is the lowest hanging fruit by far that costs the least to retrofit America's buildings and homes. We should do all of that in the Energy bill that has now been waiting for some months. I have spoken to the majority leader who has been a terrific advocate for sound and thoughtful energy policies. I have also talked to the President directly about this. It is not that I don't want to do climate change be-

cause I know my colleagues are working hard on it. It is the fact that I want to make progress in energy policy first that can change our fuel mix and develop a lower carbon future. Because we have done that work in the Energy Committee, we have taken an important step. We can then bring a climate change bill to the floor after that which I know is controversial, but that we can work on developing targets and timetables for that lower carbon future. I think this is something we should do and I think we can do. I think it would, in my judgment, be the best fit for this country's future energy policy and for the policy that is necessary to lower the future CO<sub>2</sub> emissions into the atmosphere and protect the environment.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Florida is recognized.

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that any recess adjournment or morning business period count past cloture.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that I be allowed to speak for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. NELSON of Florida. Mr. President, I say to my colleague from North Dakota that the one example he gave about algae—it is so exciting that we know now that you can take algae and put it in some kind of plastic cylinder, expose it to sunlight, and with the right ingredients in there, pump in CO<sub>2</sub>, and it consumes the carbon dioxide and in the process it makes ethanol. So as the Senator has hinted, if this process ends up working, and working efficiently, what about putting an algae ethanol-producing plant right next to a coal-fired electricity plant to take the CO<sub>2</sub> out of the coal, and instead of trying to inject it into the ground, put it right into the ethanol-producing algae plant? There are limitless possibilities, as the Senator from North Dakota pointed out. I find it quite exciting.

Mr. DORGAN. If the Senator will yield for a question, I held a hearing on the beneficial use of carbon. A scientist at Sandia National Laboratory said: Think of carbon not just as a problem but an opportunity.

In this case, when you talk of algae, it is single-cell pond scum, a green slime you find on top of wastewater, right? The fact is, you can feed CO<sub>2</sub> to algae and produce something from it that extends our fuel supply. It is exactly the kind of thing that makes sense.

There are other beneficial uses of carbon as well. If we change our way of thinking a bit, we all have the same goal, which is to protect our planet. We

can find other ways of maximizing the use of renewables and to reduce carbon by using it for enhanced oil recovery and producing additional fuel by growing algae.

I thank the Senator.

Mr. NELSON of Florida. Mr. President, I wish to speak about the Energy and Water appropriations bill. It certainly is going to continue to help us provide for the Nation's energy needs and water infrastructure, but it also restores funding to our efforts at restoring America's Everglades.

For many years, the Everglades have simply languished. Over half a century ago, or three-quarters of a century ago, the idea was to get rid of the floodwaters, and mankind went in there and completely reversed what Mother Nature intended, diked and drained and sent freshwater out to tidewater and did it exactly the opposite.

In this massive project, we are trying to restore the natural ecosystem that once dominated the entire south half of the peninsula of Florida. The Water Resources Development Act of 2007 was a major step toward restoring parts of the Everglades. This effort was also helped by this year's omnibus and stimulus spending bills which put a significant amount of funding toward restoration—about \$360 million. Building on that momentum, the President's budget for fiscal year 2010 included \$214 million in funding for the Everglades from the Army Corps of Engineers.

Despite the best bipartisan efforts of the Florida delegation, the final bill contains \$180 million in funding for the Everglades instead of what we had hoped for, but we do have exciting things happening this year. In a few months, there will be two groundbreaking projects that are critical to restoring the Everglades—the construction of the Tamiami Trail bridge and the Picayune Strand.

While this particular appropriations bill falls short of the President's request, I have been assured by the administration that Site One, which is one of the projects that is funded minimally in this appropriations bill, and the Indian River Lagoon, also funded minimally, are going to have the funds needed to go forward from another source, perhaps the stimulus bill. I wish to express my appreciation to the administration. We have overcome great obstacles to get us this far. This bill settles the question of whether the Indian River Lagoon and Site One are new starts or not. In 2010 we will begin construction on those new projects.

It was Oliver Wendell Holmes who said that "the great thing in the world is not so much where we stand, as in what direction we are moving." When it comes to the Everglades restoration, we are going in the right direction. We have great science, we know what needs to be done, and we are doing it. In 12 months, we have allocated \$600

million for the Everglades. In the next year, we are going to break ground on four projects.

I wish to conclude by saying that restoration not only means doing these projects, which often are Army Corps of Engineers projects, but it also means protecting the 68 threatened and endangered species that call the Everglades home.

Just yesterday, a long-awaited Federal report was released that found that the Burmese python, a giant constrictor snake, and four other large constrictor snakes pose a high risk to these kinds of environments in the United States. We have been saying this for the last 3 years, but we now have the official report issued by the Federal Government. The report says, in particular, that Florida, Texas, and Hawaii provide prime habitat for these giant predators. Remember, these predators have no natural enemies. It doesn't make any difference if the critter has scales, feathers, or fur—these giant constrictor snakes consume them all. We have 68 threatened and endangered species in the Everglades that call the Everglades home. According to the superintendent of the Everglades Park, there are estimates of up to 140,000 of these snakes because they proliferate so greatly. They got one female, and they found 56 eggs inside her ready to hatch. That is how much they proliferate. So the report finally backs up what the National Park Service staff, the scientists, and the citizens of south Florida have been concerned about for the past years—the enormous damage caused by importing invasive species like the Burmese python.

We are going to continue to work with the Florida delegation and the Department of the Interior, with Secretary Ken Salazar, who has taken a personal interest in this, with the Army Corps of Engineers, with the State of Florida, the local communities, and the citizens who are committed to the Everglades, toward restoring this national treasure.

I yield the floor.

Mr. CONRAD. Mr. President, I rise to offer for the record, the Budget Committee's official scoring for the conference report to accompany H.R. 3183, the Energy and Water Development and Related Agencies Appropriations Act for fiscal year 2010.

The conference report provides \$33.5 billion in discretionary budget authority for fiscal year 2010, which will result in new outlays of \$19.6 billion. When outlays from prior-year budget authority are taken into account, discretionary outlays for the conference report will total \$43 billion.

The conference report matches its section 302(b) allocation for budget authority and for outlays.

The conference report includes several provisions that make changes in mandatory programs that result in an

increase in direct spending in the 9 years following the 2010 budget year. Each of these provisions is subject to a point of order established by section 314 of S. Con. Res. 70, the 2009 budget resolution. The conference report is not subject to any other budget points of order.

I ask unanimous consent that the table displaying the Budget Committee scoring of the conference report be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

**H.R. 3183, ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2010**

(Spending comparisons—Conference Report (in millions of dollars))

	Defense	General Purpose	Total
Conference Report:			
Budget Authority .....	16,629	16,836	33,465

Budget Authority .....			0
Outlays .....			0
Senate-Passed Bill:			
Budget Authority .....	-257	-28	-285
Outlays .....	-180	-67	-247
House-Passed Bill:			
Budget Authority .....	262	-95	167
Outlays .....	172	55	227
President's Request:			
Budget Authority .....	81	-1,009	-928
Outlays .....	46	294	340

Note: The table does not include 2010 outlays stemming from emergency budget authority provided in the 2009 Supplemental Appropriations Act (P.L. 111-32).

Mr. INOUE. Mr. President, I submit pursuant to Senate rules a report, and I ask unanimous consent that it be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

**DISCLOSURE OF CONGRESSIONALLY DIRECTED SPENDING ITEMS**

I certify that the information required by rule XLIV of the Standing Rules of the Senate related to congressionally directed spending items has been identified in the conference report which accompanies H.R. 3183 and that the required information has been available on a publicly accessible congressional website at least 48 hours before a vote on the pending bill.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

**VOTE EXPLANATION**

• Mr. KERRY. Mr. President, I was necessarily absent for the vote to invoke cloture on the conference report to accompany the Energy and Water Development and Related Agencies Appropriations Act, 2010, H.R. 3183. If I were able to attend today's session, I would have supported cloture.●

**RECESS**

The PRESIDING OFFICER. Under the previous order, the Senate stands in recess until the hour of 2:15 p.m.

Thereupon, the Senate, at 12:40 p.m., recessed until 2:15 p.m. and reassembled when called to order by the Acting President pro tempore.

**ENERGY AND WATER DEVELOPMENT AND RELATED AGENCIES APPROPRIATIONS ACT, 2010—CONFERENCE REPORT—Continued**

The ACTING PRESIDENT pro tempore. The Senator from West Virginia is recognized.

**AFGHANISTAN RESET**

Mr. BYRD. Mr. President, few subjects weigh more heavily upon a President of the United States than the decision to send America's sons and daughters into war. Such a commitment demands the clearest of clear thinking, including a thoroughly dispassionate assessment of goals—objectives, in other words—risks and strategies. This is difficult, very difficult terrain for any American President, especially when faced with conflicting views from advisers, from Congress, and from the American public.

I have become deeply concerned that in the 8 years since the September 11 attacks, the reason for the military mission of the United States in Afghanistan has become lost, consumed in some broader scheme of nation building, which has clouded our purpose and obscured our reasoning.

General McChrystal, our current military commander in Afghanistan, has requested 30,000 to 40,000 additional American troops to bolster the more than 65,000 American troops already there. I am not clear as to his reasons and I have many questions.

What does General McChrystal actually aim to achieve? So I am compelled to ask: Does it take 100,000 U.S. troops to find Osama bin Laden? If al-Qaida has moved to Pakistan, what will these troops in Afghanistan add to the effort to defeat al-Qaida? What is meant by the term "defeat" in the parlance of conventional military aims when facing a shadowy, global terrorist network? And what of this number 100,000? Does the number 100,000 troops include support personnel? Does it include government civilians? Does it include defense and security contractors? How many contractors are already there in Afghanistan? How much more will this cost? How much in terms of dollars? How much in terms of American blood? Will the international community step up to the plate and bear a greater share of the burden?

There are some in Congress who talk about limiting the number of additional troops until we surge—where have I heard that word before—until we "surge to train" more Afghan defense

forces. That sounds a lot like fence straddling to me. I suggest we might better refocus our efforts on al-Qaida and reduce U.S. participation in nation building in Afghanistan.

Let me say that again. I suggest we might better refocus—in other words, take another look—our efforts on al-Qaida and reduce U.S. participation in nation building in Afghanistan. Given the lack of popularity and integrity of the current Afghan Government, what guarantee is there that additional Afghan troops and equipment will not produce an even larger and better armed hostile force?

Let me ask that question again. Given the lack of popularity and integrity of the current Afghan Government, what guarantee is there that additional Afghan troops and equipment will not produce an even larger and better armed hostile force? There is no guarantee. The lengthy presence of foreign troops in a sovereign country almost always creates resentment and resistance among the native population.

I am relieved to hear President Obama acknowledge that there has been mission creep in Afghanistan, and I am pleased to hear the President express skepticism about sending more troops into Afghanistan unless needed to achieve our primary goal of disrupting al-Qaida. I remain concerned that Congress may yet succumb to military and international agendas. General Petraeus and General McChrystal both seem to have bought into the nation-building mission. By supporting a nationwide counterinsurgency and nation-building strategy, I believe they have certainly lost sight of America's primary strategic objective; namely, to disrupt and defang—in other words, pull the teeth right out of the bone. I believe they certainly have lost sight of America's primary strategic objective to disrupt and defang al-Qaida and protect the American people—protect the American people—from future attack.

President Obama and the Congress must—I do not say “should,” I say “must”—reassess and refocus on our original and most important objective; namely, emasculating—I mean tearing it out by the roots—emasculating a terrorist network that has proved its ability to inflict harm, where? On the United States.

If more troops are required to support the international mission in Afghanistan, then the international community should step up and provide the additional forces and funding. The United States is already supplying a disproportionate number of combat assets for that purpose.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. VITTER. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### AMENDMENT NO. 2644

Mr. VITTER. Mr. President, I rise to talk about my pending amendment to the Commerce-Justice-State appropriations bill, amendment No. 2644. Apparently, this has created some interest and some opposition. It apparently is one of the major, if not the major, reason the majority leader felt the need to file cloture on the Commerce-Justice-State bill rather than simply come to an agreement regarding pending amendments and votes. It saddens me that—although that agreement was all worked out, basically—it was out the window, and he just decided to file cloture and bar votes on all of those amendments, including my amendment No. 2644. I think we should have a reasonable debate on my amendment and then a straightforward vote on the amendment because it is an important topic, directly related to that bill.

What does the amendment do? My amendment is about the next census. It simply says no funds in that appropriations bill can be spent on the next census unless we ask about citizenship. I believe that is a basic requirement for the next census, to give us adequate tools to deal with a whole host of issues, including illegal immigration, including properly handling congressional reapportionment. Again, I find it very sad and, frankly, telling that the majority leader is going to such lengths to avoid having a vote on that simple concept, that simple idea.

Why should we ask a question about citizenship? A couple of reasons. First of all, the census is supposed to give us in Congress important information, detailed information, the tools we need regarding how to handle a host of Federal programs and Federal issues. Certainly a major issue we need to deal with in this country and in this Congress is immigration, including illegal immigration. It seems like basic information we would want to collect. How many folks covered in the census are citizens and how many are noncitizens? That is basic information that would help us in a whole host of ways with regard to Federal programs and with regard to dealing with the immigration issue.

There is another even more important reason, in my opinion, we should collect this information, and that is because one of the most important things any census is used for is reapportioning the U.S. House of Representatives; determining how many House seats each State in the Union gets in terms of representation. As it stands now, the plan is to do the census, to not distinguish in any way between citizens and noncitizens, and therefore to have noncitizens

counted in congressional reapportionment. I think this is crazy and goes against the very idea of a representative democracy, people being elected by voters to represent citizens in the Congress. I don't think the Founding Fathers set up our democracy to have noncitizens represented in the Congress.

As it stands now, without asking that simple, basic, fundamental question, noncitizens will be counted in congressional reapportionment. That means States with a particularly large number of noncitizens, including illegal aliens, will be rewarded for that, will get more representation, more say, more clout in the House of Representatives. States that do not have that issue will be hurt. They will get less say, less clout, less Members of the House of Representatives. I think that is fundamentally wrong.

I also have a very specific interest in finding against that because Louisiana is one of nine States that would specifically be hurt. There are at least nine States that will have less representation in the House of Representatives if we count all people in congressional reapportionment, including noncitizens, versus if we just count citizens. It is important to say what those nine States are, and I specifically reached out to the Senators representing those nine specific States to make it clear to them that their States lose out in terms of that equation.

Those States are Indiana, Iowa, Michigan, Pennsylvania, Mississippi, North Carolina, South Carolina, Oregon, and Louisiana. Those nine States would have less representation, less say, less clout in the House of Representatives if all people, including noncitizens, are counted in congressional reapportionment versus if only citizens are counted. Once again: Indiana, Iowa, Michigan, Pennsylvania, Mississippi, North Carolina, South Carolina, Oregon, and Louisiana.

I particularly implore my colleagues, Democrats and Republicans, from those States to be aware of that, to support the Vitter amendment, and so we get to a vote on the Vitter amendment, No. 2644, to vote against cloture on the entire bill.

Unfortunately, there are several Senators from those States who voted for cloture yesterday. I hope they will reconsider. I hope they would see, if they vote for cloture again, that they would be preventing us getting to this issue. They would be preventing us getting to a reasonable and full debate and vote on this issue. I implore all Senators from Indiana, including Senator BAYH, who voted for cloture previously; from Iowa, including the Senators there who voted for cloture previously; the two Senators from Michigan; the two Senators from Pennsylvania; the Democratic Senator from North Carolina; the Democratic Senator from Louisiana—please don't vote for cloture

again until we can get a reasonable vote on this amendment.

Let me specifically address some of the arguments that have been made against this amendment because I think they are completely erroneous. One argument is this will intimidate folks and discourage noncitizens from filling out the census form. I think it is important to note, No. 1, this citizenship question is asked on the long form. The long form gets millions of responses, and the census has never noted any difficulty in getting folks to fill out the long form.

This question is also asked in the American Community Survey which the Census Bureau does. Again, the same citizenship question is asked here, and we get plenty of responses. The Census Bureau has never noted a big problem in terms of getting those responses.

To make this perfectly clear, I am perfectly willing to revise my amendment so that we only focus on citizenship, not immigration status. I will be happy to revise my amendment so it only mentions and only focuses on citizenship versus immigration status.

The other argument, that the Census Bureau itself has apparently made, is that this would be cumbersome and cost money at this stage in the census. Frankly, I find this pretty ironic coming from a bureaucracy which is spending \$13 billion on this new census, up from \$4.5 billion from the last census. Here is a bureaucracy where the cost of the new census versus the last census has tripled. The last score they are getting \$13 billion, but asking this one question, which they already ask in the long form, which they already ask in the American Community Survey, is a huge problem and will cost too much money. That simply is silly on its face. It is important to do this right. Certainly asking a basic question about citizenship is central to doing it right.

In summary, I urge all my colleagues to demand a vote on this important issue and to vote against cloture on the bill until we get that vote. Then, when we get that vote, I urge all my colleagues to support the Vitter amendment, No. 2644. It is very simple and straightforward. It will say: Ask the citizenship question. Let us know how many folks in the overall count are citizens and how many are noncitizens. That is absolutely essential, No. 1, so we can use the census information as a full tool in many of the programs and policies we debate and implement in Congress. No. 2, it is particularly important for congressional reapportionment.

I do not believe noncitizens should be counted in congressional reapportionment. I don't believe States which have particularly large noncitizen populations should have more say and more clout in Congress because of that than States that do not, and that States

such as Louisiana should be penalized. I don't believe those nine States in particular—Louisiana, Indiana, Iowa, Michigan, Pennsylvania, Mississippi, North Carolina, South Carolina, Oregon—should be penalized by including noncitizens in congressional reapportionment. I certainly do not believe Senators representing those nine States should vote either for cloture, cutting off a vote on my amendment, or should vote against my amendment.

Again, I particularly urge all Senators from those nine States to stand up for their States, to vote for the interests of their States, to vote for their States getting full and proper representation, to vote against their States being penalized in terms of the census and in terms of congressional reapportionment.

It is a simple issue but a very basic, fundamental issue. The census is an important tool. It only happens once every 10 years. We need to get it right for a whole host of reasons, particularly with congressional reapportionment in mind.

I daresay if any Members of this body go back home to their States and have a discussion in a diner, have a townhall meeting, just ask a representative group of citizens: Did you know that noncitizens, including illegal aliens, are not only counted in the census—but we do not discriminate—we do not know the numbers of noncitizens versus citizens? And, because of that, did you know all of those noncitizens are factored into determining how many House seats each State gets so that States with very large noncitizen populations, including large numbers of illegal aliens, are rewarded for that; they get more clout and say and vote in the House of Representatives, and other States, particularly the nine States I mentioned, are penalized because of that?

I daresay the average citizen would be stunned about that and would say, hardly with any exception: That is not right. We should know those numbers, and we should not count noncitizens in terms of House representation. I certainly think citizens and voters in Indiana, in Iowa, in Oregon, in Michigan, Pennsylvania, Mississippi, North Carolina, South Carolina, and Louisiana would certainly say: Wait a minute, we are being penalized because noncitizens are being counted or being worked into the formula for representation in Congress? That is crazy.

It is crazy. It doesn't meet the smell test, it doesn't meet the commonsense test of the American people, and we should act to make sure the next census is done right, starting by having a vote on the Vitter amendment, No. 2644, and by passing that amendment to the bill.

With that, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota is recognized.

Mr. DORGAN. Mr. President, my understanding is that we are now in what is called a 30-hour postcloture period. We had a cloture vote this morning on the energy and water conference report. I chair the committee that brought that to the floor, the subcommittee on appropriations which funds the water projects, the energy projects, the nuclear weapons, among other things. It is a very important piece of legislation. We could not just bring it to the floor from conference. We actually had to file cloture, wait for the cloture petition to ripen—2 days—then we have a vote. I think we had 79 votes in favor of it. And now we are in a period where we can't yet adopt it because some are insisting we have the 30 hours postcloture expire. My hope is that whoever feels that way might relent so that later this afternoon we can pass this piece of legislation.

But this legislation is very much like almost everything else we are trying to do in appropriations. We have tried very hard to do the appropriations bills as we are supposed to do them—one at a time, bring them to the floor, have votes, debate the amendments, and so on. In the last couple of years, in my judgment, the appropriations process has been a failure because we have had to do omnibus bills, which is not the right way to do it. We were forced to do that, in many respects. But now we are trying to do one bill at a time, and we have done many of them. Credit goes to the majority leader, who has said we want to finish the individual appropriations bills. But the fact is, we are getting almost no cooperation—almost none.

I think we have had a relatively noncontroversial Legislative Branch appropriations bill, which is generally pretty noncontroversial. As I recall, I believe we had to file a cloture petition to shut off debate on the motion to proceed—not the bill, just the motion to proceed to the bill. That takes 2 days to ripen, then you have 30 hours postcloture.

Virtually every step of the way, we have had this problem, with no cooperation at all. It is like trying to ride a bicycle built for two uphill and the person on the backseat has their foot on the brakes. That is what is happening around here all the time. All we would like is just a little cooperation so we can get these bills completed.

When we bring a conference bill to the floor, it shouldn't take us 2 to 3 days. The bill I brought to the floor myself, the Energy and Water bill, took us a fair amount of time. We sat on the floor waiting for people to come and offer amendments. They didn't. That is why I sometimes refer to the Senate as 100 bad habits. It is not very easy to get people to come over, even when they have amendments to offer. And then from time to time somebody

comes over and has an amendment that has nothing to do with the subject, which is fine—the rules allow that—but then they insist they have a vote on their specific two or three or four amendments or they will hold everything up forever.

So we are getting no cooperation, and it would be nice to get just some so we can get the appropriations bills done. It is the right way to do it—bring the bills to the floor, do them, debate them, and have votes on them. That is the way the Senate should work. Lord knows we have tried this year to do that, but we have had almost no cooperation. At every turn, we have had people stand up and say: Well, I have my four amendments, but, no, I am not going to come over and offer them. I am going to tell you I have four amendments to offer, and if you try to shut this down and shut off amendments, then we will filibuster and we won't give you the 60 votes you need to shut it off. So there you are, stuck in the middle, unable to get things done.

Again, the cloture vote yesterday failed on Commerce-State-Justice. Normally speaking, Senator MIKULSKI would bring a bill like that to the floor of the Senate and it would be on the floor maybe 1 day, maybe 2 days. Instead, I watched last week as she was out here waiting for people to offer amendments—sitting here waiting, and no one was coming to offer amendments, by and large. Then the majority leader sat here until I think 9:30 or 10 o'clock at night one evening trying to reach an agreement, and no agreement was forthcoming.

My only point is that it would be nice if we could get some cooperation and some understanding. It is not Republican or Democrat or conservative or liberal to do the work on time and finish our appropriations bills with some amount of cooperation; it is just common sense. If we could just get a bit of that cooperation, we could get the work done around here.

I did want to mention as well, with respect to the agenda, that while we are trying to get these appropriations bills done, we will also begin the process of debating health care on the floor of the Senate—a health care bill that will be brought to the floor reasonably soon. I want to mention that certainly one of the efforts I will make when the health care bill comes to the floor—and I have mentioned this before—is to try to address the issue of the expanding cost of prescription drugs. That is not dealt with in the legislation which is coming to the floor, I assume, and if not, then there are 30 of us, Republicans and Democrats, who have legislation that will give the American people the freedom to import FDA-approved drugs sold at a fraction of the price elsewhere. That will be one of the amendments I and many others will come to the floor to offer.

Another amendment I intend to offer is a piece of legislation called the Indian Health Care Improvement Act. We passed that through the Senate last year. We have modified it just a bit this year, and I believe we will reintroduce it later this afternoon.

The Indian Health Care Improvement Act has not been reauthorized for a long time. I believe it has been 17 years since the Senate last dealt with Indian health care—an authorization bill—except for last year when we failed because one of our colleagues, who previously spoke, offered an abortion amendment that had the effect of stopping the bill when it got to the House of Representatives.

Having said all that, I intend to offer the Indian health care legislation as an amendment to the broader health care bill because I don't think we should go on to pass a health care reform bill if we don't address the health care obligations we have made to the first Americans, the American Indians. The fact is, American Indians were promised by treaty—were promised time and time again and in treaties the Federal Government signed—that we would provide for their health care, and we have not met those promises. We have both a trust responsibility and a treaty responsibility to fix the health care system for American Indians. It has not been fixed, and it would be a tragedy if we moved forward with health care and didn't include the important part that is required by us to reauthorize the Indian Health Care Improvement Act. So I intend to offer that as well.

I also want to say that when we get health care completed—and I spoke earlier today about the need to bring up the Energy bill, but there is another bill that is very important that I have spent a lot of time on that has to be considered by the Senate and the entire Congress. That is the FAA reauthorization bill.

The Federal Aviation Administration reauthorization bill is critically important. It has a wide range of issues dealing with safety in the skies, and it has the important provisions dealing with modernizing our air transportation system—our air traffic control system. I should say—and that modernization can't wait. We have to move forward, and it requires a lot of things.

Senator ROCKEFELLER and I have brought a bill out of the Commerce Committee that is ready for floor action, but we need to get it to the floor of the Senate and get it passed so we can get it into conference with the House of Representatives. If I might, I want to describe for a moment why this is important.

We have the skies full of airplanes. I know the carriers have shrunk their size by 8 or 10 percent in terms of commercial carriers, but nonetheless we have the skies full of airplanes flying

around transporting people and cargo, and the fact is, we are still flying to what is called ground-based radar. What happens is, we put an airplane in the air someplace with a couple hundred people on board, and it flies around being guided by ground-based radar. Of course, that is better than the old days, when in order to haul the mail at night, in the early days of airplanes, they first used bonfires every so many miles so that you could fly to a bonfire and see where you were headed. That was the only way you could fly at night. The second thing they did was to use flashing lights, and now, of course, ground-based radar for many decades. But ground-based radar is clearly obsolete, and it only tells someone where an airplane was just for a nanosecond.

The transponder on the airplane being shown on a tube someplace or by a monitor somewhere in the air traffic control center shows, when the arc goes around on the radar, where that jet airplane was. Then for the next 6 or 7 seconds, as it is going around again, that jet airplane is someplace else because it is traveling very fast. It only tells you about where the airplane is and only tells you exactly where it was for a nanosecond.

The fact is, we need to go to a GPS system so we can save money, use more direct routing, make it safer for passengers, and use less energy. You also don't have to space the planes as far apart because you know exactly where an airplane is, not where it was.

We need to move on this newer technology. Europe is moving to it, and many other countries. But it is complicated, and it requires us to pass legislation that includes the modernization of the air traffic control system. Again, we brought that out of the Commerce Committee, and it is awaiting action on the floor of the full Senate.

I hope that following health care and following a number of other issues—including, I hope, an energy bill at some point—the FAA reauthorization bill will have its day on the floor of the Senate. I also hope we will have substantial cooperation. I know Senator HUTCHISON from Texas worked with us, Senator DEMINT worked with us to bring that out of the Commerce Committee, and I look forward to having that as part of the agenda so that all of those who have worked for a long time on these issues dealing with safety in the skies and dealing with modernizing our air traffic control system will be able to feel as if we have made progress and have been able to get this bill to conference with the House.

Mr. President, I know the majority leader has a lot to try to plan for the agenda now as we near the end of the year, and these are big, difficult issues. I want to help him, as do most of my colleagues. We are going to need a little cooperation here and there. If we continue to have to vote on cloture petitions, on motions to proceed, it

means every single thing we bring to the floor of the Senate takes a week just to get up. Cloture petitions take a couple of days to ripen, then there is 30 hours postcloture. All we need is a little cooperation. That ought not be too much to ask in order to get the business of the Senate done.

Mr. President, I yield the floor, and I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. UDALL of New Mexico. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. SANDERS). Without objection, it is so ordered.

Mr. UDALL of New Mexico. I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### INDIAN HEALTH CARE

Mr. UDALL of New Mexico. Mr. President, I rise to speak about Indian health care legislation. This is legislation introduced by the chairman of the Indian Affairs Committee, Senator DORGAN.

I wish to talk a little bit about Native Americans and their health care situation. We have spent the last 6 months talking about health care. We have debated the quality of care, the cost of care, access to care. I am glad to say we are making progress in fixing what is broken in our health care system. But there is one group of Americans that has not engaged in this national conversation, Americans who suffer from an inadequate health care system and alarming health disparities. I am talking about the first Americans, the American Indians and Alaska Natives who are suffering because the Federal Government is not living up to its promise to them.

Right now Native Americans are being diagnosed with diabetes at almost three times the rate of any other ethnic group. Right now too many Native American families don't have access to preventive health care. Right now Native American teens are attempting and committing suicide at alarming rates. The bottom line is, too many Native Americans are struggling to receive quality health care. For too many years, America has stood aside and let it happen.

Today is a new day. It is time for America to make good on its promises to Native Americans. I believe Senator DORGAN's bill would help us do just that. This legislation will bring much needed reforms to the Indian health care system and will allow us to connect Indian health improvements to national reform efforts. By tying these initiatives together, we will increase the likelihood of success not only today but for years to come. This legis-

lation would make reauthorization of the Indian Health Care Improvement Act permanent so Indian country can better predict and plan for its health care needs. It will also build on what works by expanding services for mental health and prevention. We encourage stronger collaboration with the Veterans' Administration. We provide resources so that more Native Americans can train to become health care providers. We promote new ideas and future progress through funding of demonstration projects.

Finally, we begin addressing a tragedy that is tearing apart too many Native American families, especially in my home State of New Mexico. That tragedy is the epidemic of teen suicide which I spoke of a moment ago. New Mexico's suicide rate is almost two times that of the national average, and far too many of these suicides are happening in Indian country. This summer, over the course of a little more than a month, four people from the Mescalero Apache Reservation committed suicide, all of them teenagers or young adults. The latest was a 14-year-old girl just last week. In this bill we will take the first steps in addressing this crisis. We will fund new grant programs and telehealth initiatives, and we will expand a program that has proven successful for the Zuni tribe in New Mexico. It is a program that connects schools and parents with the community, where students learn to be peer educators, and middle and high school students learn life skills to prevent suicide.

America has an obligation to provide quality, accessible health care for our country's first Americans. That begins with engaging American Indians and Alaska Natives in the national conversation about health reform.

I am honored to cosponsor this bill and look forward to its passage by the Senate.

I thank the Chair.

I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. SANDERS. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Ms. STABENOW). Without objection, it is so ordered.

#### EMERGENCY SENIOR CITIZENS RELIEF ACT

Mr. SANDERS. Madam President, for more than three decades, seniors have relied on a COLA in their Social Security benefits to keep up with their increased expenses. Tomorrow it is expected that the Social Security Administration will announce that for the first time in 35 years, seniors will not be receiving a COLA. Based on the formula that by law they are obliged to use, they came to the conclusion that there is no inflation for seniors and, in

fact, the prices for seniors have declined.

In my view, the current formulation for determining Social Security COLAs is wrong in terms of the needs of seniors because it does not accurately take into account their purchasing needs. In other words, if you are 19 years of age and you buy a laptop computer or an iPod or a new cell phone, the likelihood is that prices may well have gone down over the last year. On the other hand, most seniors are not buying iPods. What they are buying is prescription drugs and health care needs, and those costs have gone up.

I have long argued and when I was a Member of the House I introduced legislation with a whole lot of support to develop a separate index for seniors. Be that as it may, where we are right now is that the Social Security Administration will announce tomorrow a zero COLA.

I have some very good news. I have introduced legislation, and I and a number of us have urged the President to be cognizant of the fact that in the midst of this terrible economic recession, we just cannot turn our back on seniors. Many seniors are not only paying increased costs for prescription drugs and for their health care needs, they have seen a decline in their pensions. They have seen a significant decline, in many cases, in the value of their homes. Some have lost their pensions. Basically, we cannot say to them right now that we are not going to reach out and try to help you in whatever way we can.

I am very happy to announce that just this afternoon, President Obama will be supporting support for senior citizens. He will be supporting a \$250 payment to disabled veterans and those people who are on Social Security, some 50 million Americans in all. I applaud the President for not turning his back on seniors.

In his announcement, the President says:

Even as we seek to bring about recovery, we must act on behalf of those hardest hit by this recession. That is why I am announcing my support for an additional \$250 in emergency recovery assistance to seniors, veterans, and people with disabilities to help them make it through these difficult times. These payments will provide aid to more than 50 million people in the coming year, relief that will not only make a difference for them, but for our economy as a whole, complementing the tax cuts we've provided working families and small businesses through the Recovery Act.

That is the statement President Obama is about to release. I thank the President for his support.

Obviously, the ball now comes to our court, and we have to move it forward. I think that in these hard times, when so many seniors are worried about how they are going to pay for their medicine, how they are going to pay for their health care, how they are going

to pay to heat their homes in the wintertime, how they are going to take care of other basic needs, it is absolutely imperative we not forget about them.

I applaud the President for his action, and I look forward to working with Members of Congress to pass this legislation as soon as possible.

Madam President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. KAUFMAN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. KAUFMAN. Madam President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### IN PRAISE OF ZALMAI AZMI

Mr. KAUFMAN. Madam President, I rise once again to recognize the service of one of America's great Federal employees.

This Monday, Americans across the country marked Columbus Day. It is a day that holds different meanings for different communities. I had such a meaningful experience attending the Columbus Day Mass and breakfast at St. Anthony's of Padua in Wilmington. I know in the Italian-American community, Columbus Day is a vibrant cultural celebration. But Columbus Day, above all, reminds us all that America is a patchwork; that we are—in the words etched on the wall behind you, Madam President—one Nation from many. This has always been a source of great strength for our country.

This is as true for our Federal workforce as it is for America as a whole. So many of our outstanding civil servants were not born in the United States. Some came as students and found in America jobs and a new home. Others came as infants, carried onto airplanes in the arms of loving parents seeking a new beginning for their families. Some traveled halfway around the world driven by the dream of a better life. Others braved the short but perilous journey over turbulent waves fueled only by the hope of freedom on our shores. The diversity of our Nation is reflected in the diversity of those who choose to serve it.

The Federal employee I am recognizing this week has had a distinguished career in the Department of Justice, both in the Executive Office for U.S. Attorneys and at the Federal Bureau of Investigation.

Zalmai Azmi was 14 years old when he fled with his family from Afghanistan. He arrived in the United States speaking very little English, and he became fluent while in high school. Zalmai, wishing to give back to the Na-

tion which gave him refuge, eventually joined the Marine Corps. He served in the corps for 7 years as a communications and intelligence specialist, and he also trained in special operations. While in the Marines, Zalmai studied computer science, and he later obtained a bachelor's degree in the field from the American University and a master's from George Washington University.

In the 1990s, Zalmai continued his Federal career by moving from the military into the civil service. He was working as chief information officer for the Executive Office for U.S. Attorneys when the September 11 attacks occurred. Zalmai helped implement the Justice Department's continuity of operations emergency plan, and by September 12, he was at Ground Zero in New York setting up departmental field offices.

Just weeks after the attacks, he volunteered to be dropped into Afghanistan as part of a Marines special operations team. In the 2 years that followed, Zalmai, who is fluent in Dari, Farsi, and Pashto, served two tours of duty in Afghanistan. While at home, he was detailed to the CIA's Counterterrorism Center.

In 2004, FBI Director Robert Mueller appointed him as the Bureau's Chief Information Officer. In that role, Zalmai led the effort to revamp the FBI's virtual case file system and helped transform its IT infrastructure to meet the needs of a post-9/11 environment.

He was honored with the prestigious Arthur S. Fleming Award for Applied Science and Technology in 2002, which is presented annually to an outstanding public servant. Additionally, he won the Distinguished Presidential Rank Award.

Zalmai retired from the FBI late last year. His story, while unique, is reflective of the commitment to service and patriotism embodied by all of the immigrants who work in government and serve in our military. Just as America would not be as strong without our great Federal employees, that workforce would not be as vibrant or successful without those who, like Zalmai, came to this country from other lands.

I hope all my colleagues will join me in honoring his service, that of the men and women in the Department of Justice, and all immigrants who work in the Federal Government.

Madam President, I yield the floor.

The PRESIDING OFFICER. The Senator from Wyoming.

Mr. BARRASSO. Madam President, I wish to speak about the conference report we are currently discussing, but I want to first take a second to commend the Senator from Delaware for his fine effort over these many months to continue to call to the attention of America wonderful people who have committed their life to make the lives of other Americans better. He has done

a wonderful job, and this is just one more example of both the Senator's job of bringing the news to all of America but also the story of a wonderful individual who has committed his life to improving our great Nation.

Madam President, I would like to spend a moment thanking the Senators from North Dakota and from Utah for their hard work on this bill we are currently considering. It represents a truly bipartisan effort. The energy investments in this bill will foster technological innovations and will harness the creativity and hard work of the American people. I believe it will help us move forward on clean coal technology. It will also promote energy efficiency and accelerate research into renewable energy.

I want to highlight one issue in particular, if I could, and it deals with our domestic uranium production. The uranium industry provides good-paying jobs across the country, and certainly good-paying jobs in Wyoming. A strong uranium workforce is essential to expanding America's nuclear energy capacity. Uranium production means American jobs and American energy.

In August, the Department of Energy proposed transferring—transferring—a significant amount of uranium to the U.S. Enrichment Corporation. The uranium transfer was designed and intended to pay for an environmental cleanup at a facility in Portsmouth, OH.

This is a laudable goal. Unfortunately, the proposal of the Department of Energy would have serious unintended consequences. The proposed transfer would flood the uranium market, artificially forcing down spot prices for uranium, and create significant uncertainty in the marketplace. This action would have a devastating impact on domestic uranium mining. It would cost plenty of jobs in my home State of Wyoming but also jobs all across the United States. It would undercut an integral part of America's energy portfolio.

The Department's plan, in my opinion, is shortsighted and lacks common sense. Why create jobs in one State by killing jobs in another State? The environmental cleanup can be accomplished without hurting jobs in Wyoming and elsewhere.

The conferees recognized the problems with the proposal of the Department of Energy. The conference report directs the Government Accountability Office to evaluate the Department's management of its excess uranium supplies. The bill increases funding for the Portsmouth facility and the cleanup. These steps provide the opportunity to address the necessary environmental cleanup issue without causing the collateral damage in other States.

So I thank the Senators from North Dakota and Utah for their work to address this problem. The Department of

Energy should rethink its uranium transfer proposal. By working within the framework of the Excess Uranium Management Plan, the Department can get maximum value for its uranium and fund the cleanup of Portsmouth without hurting jobs—good jobs—in other States.

With that, Madam President, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll. The legislative clerk proceeded to call the roll.

Mr. MCCAIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MCCAIN. Madam President, as we take up the conference report to accompany the fiscal year 2010 Energy and Water appropriations bill, it spends approximately \$33.9 billion. Let's not forget Congress has already appropriated over \$92 billion to energy and water-related projects between the emergency appropriations provided in the 2009 supplemental, the continuing resolution, and the stimulus bill.

Equally as important is what this bill doesn't fund. The bill provides only \$197 million for the Yucca Mountain nuclear waste repository, putting this project on life support.

The Department of Energy has spent billions of dollars and decades studying the suitability of Yucca Mountain as the Nation's repository for spent nuclear fuel and defense waste. Consistently, the science has borne out that Yucca Mountain is the best site to dispose of nuclear waste. The President has made a point of telling all who would listen that his administration would be guided by science and not politics. At the same time, the President and the Secretary of Energy are saying that Yucca Mountain is no longer an option, even though science has proven that Yucca is safe.

The fact that this administration has political problems with moving forward with the Yucca Mountain storage facility doesn't change the fact that the government has a legal obligation to take this spent waste and that the licensing process is already underway. Shelving the Yucca Mountain facility will slow the deployment of new nuclear generating facilities, constrain our most abundant clean energy source, and hinder efforts to combat climate change.

The conference report that accompanies this bill contains 1,116 congressionally directed spending items—a fancy term for earmarks, which is a fancy term for porkbarrel spending, which is a fancy term for corruption—totalling over \$1.05 billion and almost doubling the number of earmarks that were included in the Senate-approved bill. Get that: 1,116 earmarks in this bill—over a \$1 billion.

I know that is not much when we consider we have already run up a \$9 trillion deficit over the next 9 years, but a lot of Americans would be surprised and think it is a fair amount of money.

None of these projects were requested by the administration. Many of them were not authorized or competitively bid in any way. No hearing was held to judge whether or not these were national priorities worthy of scarce taxpayer's dollars. They are in this bill for one reason and one reason only—because of the self-serving prerogatives of a select few members of the Senate—almost all of whom serve on the Appropriations Committee. Sadly, these Members chose to serve their own interests over those of the American taxpayer.

During Senate consideration of this bill I filed 24 amendments to strike these earmarks. The American people are tired of this process, and they are tired of watching their hard-earned money go down the drain. Not surprisingly, my amendments were defeated at every turn by appropriators and Members on the other side of the aisle.

Here are some examples of the earmarks contained in this bill: \$2 million for the Algae Biofuels Research, WA; \$750,000 for the Algae to Ethanol Research and Evaluation, NJ; \$1.2 million for the Alternative Energy School of the Future, NV; \$6 million for the Hawaii Energy Sustainability Program, HI; \$6 million for the Hawaii Renewable Energy Development Venture, HI; \$2.25 million for the Montana Bio-Energy Center of Excellence, MT; \$10 million for the Sustainable Energy Research Center, MS; \$450,000 for the Vermont Energy Investment Corporation, VT; \$1.2 million for the Hydrogen Fuel Dispensing Station, WV; \$1.25 million for the Long Term Environmental and Economic Impacts of the Development of a Coal Liquefaction Sector in China, WV; \$1 million for the Alaska Climate Center, AK; \$5 million for the Computing Capability, ND—whatever that is; \$1 million for the Performance Assessment Institute, NV; \$1 million for the New School Green Building, NY.

This bill also includes a \$106 million increase in funding over the President's request for hydrogen fuel cell research. The Secretary of Energy had pushed for the elimination of this funding but has since changed his mind after bullying from Senate appropriators. Before his change of heart, Dr. Chu explained his reasoning for cutting the funding by stating, "We asked ourselves, 'Is it likely in the next 10 or 15, 20 years that we will convert to a hydrogen car economy?' The answer, we felt, was no." Unfortunately, Dr. Chu caved to demands and has decided to no longer object to funding research investments that many call a "dead end."

This bill dedicates \$5.3 billion to the Army Corps civil works program, which is \$180 million higher than the President's request. As my colleagues know, the Corps is burdened with a \$60 billion backlog as a result of years of abusing the energy and water appropriations bills and the Water Resources Development Acts as hot tickets for loading up new pet projects. As one would expect, this year's appropriations process was no different from previous years as the Senate Appropriations Committee received 256 requests to fund new projects. Imagine our surprise when we learned that the committee rejected every single one of these requests for funding new projects—a nod, albeit a modest one, to the tenets of fiscal responsibility.

While I applaud appropriators for attempting, in a way, to address our current backlog, we can't deny that our system for funding existing Corps projects is not working. Currently, there is no way to know which projects warrant taxpayer dollars because the Corps refuses to give Congress any kind of idea of what it views as national priorities. In fact, even when Congress specifically requests a list the Corps' top priorities, they are unable to provide them. That leaves it up to politicians on Capitol Hill to blindly throw money at flood control, hurricane protection, navigation and environmental restoration projects—in some cases matters of life or death—without knowing which projects may or may not benefit the larger good. We owe it to the American people to do better.

Our current economic situation and our vital national security concerns require that now, more than ever, we prioritize our Federal spending. But our appropriations bills do not always put our national priorities first. It is abundantly clear that the time has come for us to eliminate the corrupt, wasteful practice of earmarking. We have made some progress on the issue in the past couple of years, but we have not gone far enough. Legislation we passed in 2007 provided for greater disclosure of earmarks. While that was a good step forward, the bottom line is that we don't simply need more disclosure of earmarks—we need to eliminate them all together.

The time has come to get serious about how we are spending hard-working American's tax dollars and there is no better way to prove we're serious than by ending the wasteful practice of earmarking funds in the appropriations bills. The process is broken and it is long overdue to be fixed."

Madam President, we are here in this postcloture motion period, consuming it because of the simple fact that the Senator from Oklahoma had an amendment which required greater transparency. The Senator from Oklahoma, while wanting a recorded vote, was assured by the managers of the bill that

a transparency provision would be added to the final conference report which would then be passed by both Houses of Congress and for the President's signature. Unaccountably, that provision, which was simple transparency so that all Members of the Senate would know what information the Senate appropriators received, would be shared by all, was dropped in conference. Understandably, the Senator from Oklahoma, Senator COBURN, whom I view in many ways as the conscience of this body, is upset and concerned that the American people—much less now their Representatives—are not able to obtain information which is obviously very important in the decisionmaking process that goes on here.

It is unfortunate and it shows, again, what has happened here in the process of legislation, that the Appropriations Committee now seems to override not only the wishes of the American people with projects such as those I outlined but also even the other Members of the Senate.

The good news, probably, for Members of the body and for the citizens of this country—but bad news for the appropriators—is that we will be back. We will be back again and again and again. The American people all over this country are having tea parties, they are having uprisings. They know the debt and deficit that we have laid on future generations of Americans and they are not going to stand for it. They are going to find out whether we need to spend \$450,000 for the Vermont energy investment corporation; whether we need \$1 million for a performance assessment institute in Nevada; and whether we need to spend \$1 million for the new school green building in New York, not to mention all those projects that abound that will send our tax dollars to the State of Hawaii as well as Mississippi.

I can warn my colleagues again, we will be back. We will be back. We will talk not only here on the floor of the Senate but across this country about this egregious practice of the waste of their taxpayers' dollars, of their hard-earned dollars, and the way this earmark and pork-barreling process is still completely out of control and a disgrace.

I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado is recognized.

Mr BENNET. Madam President, I rise today to speak about a development folks in the southeastern corner of my State have been waiting on for the better part of 47 years. This week, maybe even today, thanks in large part to the advocacy of our partners at both the local and Federal levels, the vision of the Arkansas Valley Conduit—long a priority of rural communities in my State—moves one significant step closer to reality. Today, we will send a bill

to the President that finally funds this important water project that represents the best of regional government, with multiple communities co-operating for the greater good.

Our success today owes to the support of many who took it upon themselves at one time or another to move this project forward. In particular I would like to thank Congressman JOHN SALAZAR, a good friend and tremendous leader who has championed this project since his first days in office.

The effort to build the conduit has been a journey that has its origins in post-World War II America, a time when members of “the Greatest Generation” were coming home to raise a family, plan their lives and build a new America with the same energy that they used to save it on the battlefield.

In the Arkansas River Valley, enthusiasm for the future was also high, but their enthusiasm was soon tempered by one significant limitation: the water needed to build and sustain that future was in short supply.

Yet geographic limitations were no match for the resilience and determination of the valley's residents. They came together and crafted a plan to satisfy the water needs of the valley's ranchers, farmers and rural communities.

The project came to be known by proponents and detractors alike as the Fryingpan-Arkansas Project. After a long and sometimes bitter battle, the project was authorized and signed into law by President John F. Kennedy in August of 1962.

The Arkansas Valley Conduit was a key piece of the Fryingpan-Arkansas Project. The vision was simple: deliver clean drinking water to 40 ranching and farming communities of the lower Arkansas Valley.

As the years went by, that vision developed. Civic leaders and citizens came together to call for a water delivery system to bring the West's scarcest natural resource to over 40 communities, across a 140-mile stretch of southeastern Colorado.

Unfortunately, the resources necessary to put that plan into place did not advance with the larger plan. While other parts of the Fryingpan-Arkansas Project moved forward, the Arkansas Valley Conduit languished and doubts began to grow about whether the Federal Government would ever live up to its part of the bargain.

Earlier this year, my predecessor, Senator Salazar and Colorado's now senior Senator, MARK UDALL, gave the conduit the jumpstart it needed by introducing legislation authorizing a Federal cost-share for the project.

After visiting southeast Colorado upon my appointment to the Senate, I immediately lent my strong support to the project and cosponsor this important legislation. I believe you would be hard pressed to find many bills that

have the support of three Senators from the same State during one session of Congress.

With that support, as well as the strong support and leadership of Representatives JOHN SALAZAR and BETSY MARKEY, Congress authorized the Arkansas Valley Conduit in the Omnibus Public Land Management Act, which was signed by the President in March of this year.

Unfortunately, this authorization did not happen in time for funding to be included in the administration's budget request for fiscal year 2010.

Our team advocated as strongly as we knew how for the conduit. And I can tell you, that after communicating how important this project is to the people of my State on many, many occasions, the chairman of the subcommittee, Senator DORGAN of North Dakota, soon emerged as a committed partner in the effort.

Let me say that the people of Colorado have a good friend in the Senator of North Dakota, and that the people of his State have a tremendously capable person representing their needs.

I am pleased that Senator DORGAN and his partners on the subcommittee considered the conduit along with many, many worthy requests nationwide and determined that \$5 million of Federal resources was what could get this project off to a promising start.

This first round of funding will be used for environmental analysis, planning, and design. The final project will enable these communities—all of which have average incomes well below the national average—to comply with Federal drinking water standards.

I hope that it is just a matter of years—not decades—before the people of the lower Arkansas Valley have a conduit to call their own.

When President Kennedy traveled to Pueblo to sign the bill authorizing the Fryingpan-Arkansas Project, he proclaimed it “an investment in the future of this country, an investment that will repay large dividends.”

“It is an investment in the growth of the West,” he continued, “in the new cities and industries which this project helps make possible.”

Today, for the first time in 47 years, we recommit to making that investment in earnest. Today, we begin the difficult, but long overdue task of building a brighter, stronger future for generations of Arkansas River Valley residents to come.

Madam President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant bill clerk proceeded to call the roll.

Mr. BURRIS. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURRIS. I ask unanimous consent to speak in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### THE PUBLIC OPTION

Mr. BURRIS. Madam President, for almost 100 years, Washington has been wrestling with the complicated question of health care reform. On some points, we have broad consensus. Costs are up. Health outcomes are down. Our system is broken. Americans deserve better.

We are faced with a crisis that breaks businesses, bankrupts families, and leaves millions of hard-working Americans out in the cold. This is why we must not fail in our efforts to make reform a reality. That is why we need to include a public option in our reform package—to foster competition, reduce costs, and extend quality care to tens of millions of Americans. I believe a public option is the only way we can accomplish these objectives. That is why I will not vote for any health care bill that does not include a public option. I believe the American people overwhelmingly support our efforts.

The American people overwhelmingly support our efforts, but not everyone agrees we need meaningful reform. There are some who seem satisfied with the status quo. For example, between 2000 and 2007, profits for America's top 10 insurance companies grew by an average rate of 428 percent. While the rest of us suffer the effects of a recession, these corporations hold American families and businesses in a vice grip, and they are squeezing them for extraordinary profits. Of course, they oppose any measure that would make them compete with a not-for-profit public plan. Of course, they want to maintain their virtual monopoly over the health insurance industry. In Illinois, two companies control 69 percent of the market. People don't have a real choice anymore. This is simply unacceptable. We need the competition and accountability a public option would provide.

Insurance giants have done everything they can to block such a plan. That is why I was surprised to see the study released this weekend by an insurance trade group called America's Health Insurance Plans. On the surface, it looks like the same twisting of facts, the same scare tactics and disinformation we have seen since the beginning of the debate. For instance, our opponents contend that the government wants to take over health care and create death panels. These claims have been debunked many times. In much the same way, this new industry study claims health care reform will drive costs up instead of down. They say the Senate Finance Committee bill would cost an average family an additional \$4,000 over the next 10 years.

But, as the committee has made clear, this analysis is fundamentally

flawed. The study overlooked key parts of the bill in order to produce skewed numbers designed to deceive the American people. PricewaterhouseCoopers, the company that conducted the study for the insurance agents, freely admitted this data was deceptive and incomplete. I quote:

The reform packages under consideration have other provisions that we have not included in this analysis . . . [and] if other provisions in healthcare reform are successful in lowering costs over the long term, those improvements would offset some of the impacts we have estimated.

According to the very people who performed the study, it is deeply flawed.

This is the same tired rhetoric we have seen time and again from those who stand to profit from our broken system. By itself, I would say this new round of disinformation is hardly surprising. But in the context of our current debate, I believe opponents of reform have actually hurt their cause.

So let's take another look at the study. It actually lays out a strong case in favor of a public option. By releasing the study, these insurance giants are saying the Finance Committee bill does not do enough to contain cost. They are warning us that unless we provide Americans with a public option that can compete with private companies, these companies will raise their rates by 111 percent. That is what this study really means. It was meant to be a hatchet job, but instead it has reinforced the need for real competition and cost containment in the insurance industry.

The need for a public option is as plain as day. Over the last century, Presidents from Roosevelt to Truman to Clinton to Obama have laid out a strong case for reform. Legislators on both sides of the aisle have spoken out on this issue.

This weekend, the insurance giants finally tipped their hand. In their rush to discredit health care reform, these corporations inadvertently laid out a strong case for the kinds of reforms I have been talking about for months. They tried to threaten the American people with higher premiums so they can maintain their out-of-control profits. But we will not fall for their tricks—not this time, not anymore. This study proves that the insurance industry will stop at nothing to block reform. The only way to keep them in check is by restoring real competition and choice in the insurance market. That is a strong argument in favor of a public option. It is an argument some of us have been trying to make for several months.

Last Friday, I was proud to join 29 other Senators to sign a letter in support of a public option. My colleagues and I know the American people deserve nothing less than meaningful reform that only a public option can pro-

vide. I never guessed the insurance industry would actually help us make the case.

After a century of inaction, the momentum is finally building. Real health care reform is almost within our reach, and we must not stop now. Yesterday, my colleagues on the Finance Committee voted out their version of a reform bill. I congratulate them on reaching this milestone. This is the farthest any such bill has ever gotten. But there is much work left to do. Before we take up this legislation on the Senate floor, we need to merge the Finance bill with the HELP Committee version, and we need to make sure the combined bill includes a public option.

I look forward to working with my colleagues to shape the final legislation. It is time for us to come together on the side of the American people. It is time to deliver on the promise Teddy Roosevelt made almost 100 years ago. It is time for health care reform that includes a public option.

I thank the Chair.

The PRESIDING OFFICER. The Senator from Iowa.

#### HEALTH CARE REFORM

Mr. GRASSLEY. Before I speak, Madam President, from my text, this year, for the most part, I haven't spoken on the Senate floor much on health care reform because so much of this period of time I have either been in consultation with Chairman BAUCUS or with what has been called the Group of 6, three Republicans and three Democrats, trying to negotiate a bipartisan health care reform package. I didn't speak during that period on the floor because in intense negotiations, you can say things sometimes that might upset the negotiations. I didn't want to do anything to do that. I want people to know that those negotiations, obviously, were not fruitful in the end because the leadership and the White House thought they had gone on long enough and that we ought to move ahead. I am not sure that was to Chairman BAUCUS's liking because I think he was comfortable thinking we could get to a bipartisan negotiation. Everybody in the Group of 6 wanted to. But, of course, they came to an end. Then, of course, it took a partisan approach from that point on.

I want everybody to know, though, that during that period of talks we had in the Group of 6 and what Senator BAUCUS and I were doing individually, it ended in a way that was congenial in the sense that up to that point everything was moving along, and during the 2- or 3-month period of time we were negotiating, there was never a period that anybody walked away from the table. There was never a period that there was ever a harsh word. There was a sincere effort during all that time to reach a bipartisan agreement. I am sorry that didn't materialize, but I have no regrets that I participated in the process because you

never know, you take it a day at a time around here. You never know, it could be very fruitful. And if it had been fruitful, it probably would have been better for this process in the Congress and better for the country as a whole.

For sure, this issue of health care reform is, in a sense, redirecting one-sixth of the economy because \$1 out of every \$6 spent in America involves health care. Of course, the issue of health care itself is a life-or-death situation with every American. That is what health care implies. Never before has Congress done stuff so encompassing and affecting such a large segment of the economy.

So in the process of 6 months of negotiation on health care reform, I feel much better informed about health care than I otherwise would have been, and I want to thank Senator BAUCUS for his patience in negotiating that and for every courtesy he gave to me and Senator ENZI and the Senator from Maine, Ms. SNOWE.

(Mr. BURRIS assumed the Chair.)

Mr. GRASSLEY. Mr. President, the bill is now out of the Senate Finance Committee. I commend the chairman for bringing the markup to where it was yesterday. It seems a long time since we started that markup on September 22. We have been able to air our differences, and we have been able to have votes. I think Senator BAUCUS tallied up 61 different rollcall votes we had during that 7- or 8-day period of time.

I would have to say to my colleagues in the Senate, I wish I felt better about the substance of the bill and would not have had to vote no. The chairman's mark underwent many changes during the process since the bipartisan talks ended, and I think the changes that happened since then are not for the good. I want to highlight a few of the changes I find most disturbing. As I highlight these issues, it will be clear that this bill is already sliding rapidly down the slippery slope to more and more government control of health care.

It has been the biggest expansion of Medicaid since it was created in 1965, and I think that is going to add up to 11 million more people being on Medicaid.

It imposes an unprecedented Federal mandate for coverage backed by the enforcement authority of the Internal Revenue Service. I could put that another way as well: In the 225-year history of our country, never once, to my knowledge—and I would be glad to be informed if I am wrong on this, but the Federal Government has never said any citizen in this country, anytime in that 225-year history of our country, has ever had to buy anything. They do not tell you what you have to buy or not buy. You make a consumer choice.

So for the first time in the history of our country, enforced by the power of

the Internal Revenue Service, people are going to have to buy health insurance. And if they do not buy health insurance, a family is going to be fined \$1,500.

Additionally, it increases the size of government by at least \$1.8 trillion when it is fully implemented. I want to emphasize "fully implemented" because right now we would read the papers as saying it is \$820-some billion and fully paid for, et cetera, et cetera. But this program really does not start until 2013. Oh, the taxes and the increase in premiums will start more immediately, but the program does not take off until 2013. If we figure 2013 to 2023 as the 10-year window, at that particular time—being fully implemented—\$1.8 trillion.

Additionally, it gives the Secretary of Health and Human Services the power to define benefits for every private plan in America and to redefine those benefits annually. That is a lot of power over people's health insurance and over people's lives.

Further, it will cause health care premiums for millions to go up, not down. It tightens further the new Federal rating bands for insurance rates. That means millions who are expecting lower costs as a result of health reform will end up paying more in the form of higher premiums. The new rating reforms alone will raise premiums by as much as 50 percent on millions, particularly in those States where there is not a lot of regulation of insurance and requirements on insurance.

I would say in regard to premiums going up, I will bet most of the 85 percent of the people out there who have private health insurance—we are talking about health insurance reform—that one of the things they would expect is that we would not have these big increases in premiums, as has happened over the last 10 years—terrible increases in premiums. Right now, we have the Congressional Budget Office and CBO saying that premiums are going to go up.

Part of this is because it is going to impose new fees, but it also has increases in taxes. These new fees and taxes will total about a half trillion dollars over the next few years. On the front end, these fees and taxes will cause premium increases as early as 2010, even before most of the reforms take place.

So let me say that a second time but yet another way: By saying that, a lot of the increases in revenue coming into the Federal Treasury or the money that is going to be saved in certain programs that is going to help pay for some of those start next year, but the benefits from the program and the policy does not kick in until the year 2013. So one of the reasons we can say it is revenue neutral is from the standpoint that there are 10 years of revenue or savings but only 6 years of policy costs that are there.

Then, of course, after making health premiums go up, this bill makes it mandatory to buy that insurance. That is what I previously referred to as the first time in American history—the first time in American history—the Federal Government has said we had to buy anything.

On several occasions, Republicans tried to take the chairman's mark in a different direction. We tried to ensure that the President's pledge to not tax middle-income families or tax seniors or veterans or change seniors' and veterans' programs was carried out. We were rebuffed every step of the way.

Republican efforts to provide consumers with lower cost benefit options were consistently defeated. This means that despite these promises, a lot of people are not actually going to be able to "keep what they have." We heard the President say that during the campaign, and we heard the President say that in September when he gave an address to a joint session of Congress.

It imposes higher premiums for prescription drug coverage on seniors and the disabled, it creates a new Medicare Commission with broad authority to make further cuts in Medicare, and it makes that Commission permanent.

In our Group of 6 negotiations—which I said broke up when the White House decided it was taking too long to do things right because they wanted to do it right now—during our Group of 6 negotiations, I resisted making the Commission permanent. I certainly was not going to agree to target prescription drug premiums. But this bill now requires the Medicare Commission to continue making cuts to Medicare forever. The damage this group of unelected people could do to Medicare is very unknown. In fact, we will not know for quite a few years because it does not even start operation until the year 2014, as I recall.

What is more alarming is so many providers got exempted from the cuts this Commission would make that it forces the cuts to fall on those who are covered, to fall directly, more so, on seniors and the disabled.

The Congressional Budget Office has confirmed that the Commission structure requires it to focus its budget axe on the premiums seniors pay for Medicare Part D prescription drug coverage and for Medicare Advantage. Sooner or later, it has to be acknowledged that by making the Commission permanent, those savings are coming from more and more cuts to Medicare.

Finally, I cannot help but note the incredible cynicism in an amendment that took benefits away from children. That amendment was offered and passed because the chairman's mark had the audacity to let children get covered through private insurance where, of course, there is a great deal of choice. In 41 States, children would have received access to a program that

is called the EPSDT benefit—basically diagnostic services. These benefits cover vitally needed services for children such as rehabilitation services, physical, occupational, and speech therapy, particularly for children with developmental diseases.

But those benefits were deleted by Rockefeller amendment No. C21. Now children in 41 States will not have access to health care, and they will be left in a grossly underfunded public program. They lost these important benefits.

What this mark has shown is that there is a clear and significant philosophical difference between the two sides. Throughout this markup, we have focused on trying to reduce the overall cost of the bill. We were told, flatout, no.

We focused on trying to reduce the pervasive role of government in the chairman's mark. We were told, flatout, no.

We tried to make it harder for illegal immigrants to get benefits. We were told, flatout, no.

We tried to guarantee that Federal funding for abortions would not be allowed under this bill. We were told, flatout, no.

We tried to allow alternatives to the individual mandate and also to the harsh penalties associated with that part of the bill that requires everybody, for the first time in the 225-year history of this country, to buy something that maybe they do not want to buy. We were told, flatout, no.

We tried to reward States with extra Medicaid dollars if they passed medical malpractice reform. We were told not just no, but, shockingly, we were told Medicaid is not even in the committee's jurisdiction.

We have watched while the other side has expanded public coverage. We saw Democratic amendments move millions from private coverage to public coverage. We saw Democratic amendments create new government programs that cover families making close to, would you believe it, \$90,000 a year.

At the end of the day, after raising billions in new taxes and cutting hundreds of billions from Medicare and imposing stiff new penalties for people who do not buy insurance and increasing costs to those who do, we still have 25 million people who are going to be uninsured.

I do not think this is what the American people had in mind when we promised to fix the health care system. As I said when this process started, the chairman's mark that was released 27 days ago was an incomplete but comprehensive, good-faith attempt to reach a bipartisan agreement. But then the modifications pulled that attempt at bipartisan compromise very far toward a partisan approach on several key issues.

With this markup being completed yesterday, we can now see clearly that

the bill continues its march leftward. The broad bipartisan character of the reform proposals have very dramatically changed. This partisan change is precisely what Republicans feared would have occurred at the later stages in the legislative process. Today, as we saw yesterday, we see that those fears that were expressed when the bipartisan process ended were legitimate, and we now see they were justified. The product proves that justification.

Nevertheless, I want people to know I still hope that at some point the doorway to bipartisanship will be opened once again. That might happen because I have read in the newspapers, and I guess I have talked to one of the Senators who is involved in promoting a great deal of transparency in this process—making sure things are on the Internet for 72 hours before we take up the bill; making sure it is paid for or at least we have a CBO score—maybe there is a chance there are enough Democrats out there who have some questions about the movement of this bill leftward that we would be able to have that doorway to bipartisanship opened again.

I also hope that at some point the White House and leadership will want to correct the mistake they made by ending our collaborative bipartisan work. I hope, at some point, they will want to let that bipartisan work begin again. Then they need to go back to that effort and give it the time needed to get it right instead of getting it done right now. I am open to that. I hope to speak to people on the other side of the aisle about that process moving forward because, here again, I get back to something I heard Senator BAUCUS probably say first, but I totally agree with him. It was said many months ago, and I think Senator BAUCUS still believes it. We may not be in a process that gets him to where he said he wanted to go, but something as serious as health care reform and something as serious as redirecting one-sixth of our economy ought to be done on a fairly consensus basis. During the process of bipartisan talks of the six of us, and even before that when Senator BAUCUS and I were talking one on one, we were talking in terms of getting a bill that 75 to 80 people would support in this body because of the significance of the issue we are dealing with: Redirecting one-sixth of the economy. At the same time, the words "health care" imply life or death. It affects the lives of all 306 million Americans who are here. It is clear that yesterday was not the day when that was going to happen, but you take a day at a time around here.

I think, eventually in this city, right wins out. Maybe not always. Maybe some people would think CHUCK GRASSLEY by saying that is very naive about the process, but there is something about "I believe," and I believe in the

process of democracy. I think we saw that at work in the last several months. I am not referring to the raucous things we saw on television that went on in town meetings. I only saw the ones that went on in Pennsylvania, Maryland, and Missouri; maybe they went on elsewhere. The town meetings we had in my State of Iowa were not raucous. Everybody was able to speak their piece. In every instance, I was asked a question, I was given the opportunity to answer it. I saw some of my colleagues not even being able to control their respective town meetings. It wasn't that way in my State. But I say this process, whether it is raucous or whether it is more civilized, is a process of representative government. I think the people of this country now have about a month to weigh in on this issue, both from those who want a single payer yet, those who want public option yet, and for those who think things ought to be done in an incremental way; and people who think we should not have a bill go through here that doesn't take into consideration what to do about the practice of defensive medicine and correcting that through medical malpractice reform in other words, getting rid of the frivolous lawsuits that get doctors to give patients every test under the Sun because they think that patient may someday sue them.

That is just one of many items that people back at the grassroots of Iowa, and I think the grassroots of America, think we ought to be dealing with. Well, there will be a month now to weigh in on these things. There is at least a week or two where we have to have a merging of the Senate HELP Committee bill with the Senate Finance Committee bill. There is still time, as Speaker PELOSI puts together a bill out of three committees in the House. There is an opportunity for democracy to work as it has during all the massive amounts of mail we are getting that we have never gotten before on a single subject and the turnouts at our town meetings and the telephone calls that come in. I think people made an impact, and I am suggesting they can make the same impact on health care reform as they made on the stimulus bill. It didn't get quite the results constituents wanted, but I can tell my colleagues that during a 10-day period of time, 5,000 Iowans called my office on the stimulus bill, and during that period of time about 83 percent were opposed to the stimulus bill. Those calls were coming in from all over the country into everybody's office.

As my colleagues remember, the Thursday before the Presidents Day break in February, everybody was being told that constituents would have 72 hours to read the stimulus bill, but an agreement was hastily reached that Thursday before that break and

the constituents didn't have 72 hours to read that product, because I think the leadership of this body and the White House were reading the grassroots objections to a \$787 billion stimulus bill, and if they waited around for the 72 hours for constituents to read it and it laid around over the week-long break, that it would never have been passed a week later, after the Monday of the Presidents Day holiday.

So people are listened to. This is an opportunity for the grassroots of America to speak up. If they speak up in the same way they did on TARP legislation, on stimulus, and they do it on this health care bill, it may make an impact. It may surprise people that Washington does respond to the grassroots of America. It may prove to the American people that representative government does work. What is representative government all about? It is about those of us who were elected being one-half of the process of representative government, and it is our constituents who are the other one-half of representative government. If there is no dialogue between constituents and those of us who are elected, we don't have representative government.

This is an opportunity, over the next month, for representative government to work for the people of this country, both for this legislation or people who think this legislation ought to be revised because I don't think we are going to have anybody calling in saying everything in America on health care is OK, but we are going to have a lot of people calling in and saying how they think it ought to be done. There will probably be a great deal of disagreement with a bill that constitutes the most massive involvement of health care in the United States since Medicare and Medicaid, with all its taxes and with all its premiums going up and all the cuts in Medicare that are going to scare the devil out of our senior citizens, et cetera.

I hope people will take notice now that all these bills are out of committee and they are coming to the floor because this is serious business. I hope the American population takes it seriously.

I yield the floor. I don't see other colleagues ready to speak, so I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. GREGG. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. Mr. President, I ask unanimous consent to speak as in morning business for 15 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. Mr. President, I wish to speak briefly. I know we are going to get a lot of debate on this issue as we go down the road relative to the health care package which was reported out of the Finance Committee and the health care package which was reported out of the HELP Committee, of which I am a member, and how they are being pulled together and what the implications are for health care and for Americans, generally, who are all affected by these bills. This is 16 percent of our national economy. There isn't an American who isn't impacted by health care. So when the Congress decides to fundamentally change—and that is what is being proposed—fundamentally change the way health care is delivered in this country, it will have an impact on everyone and a very significant impact on everyone who has to interface with the health care system in the immediate future.

The bill that came out of the committee known as the Kennedy-Dodd Committee at the time, which is now the Harkin committee, which I am a member of, was a bill which basically subscribed to the view of a large majority, I think, of the House Democratic membership and a fairly significant group of Members on the Democratic side in the Senate, which essentially said the government should start to take very significant control over the health care delivery system in this country.

In fact, they would propose a public plan, a plan that would basically put the government allegedly in competition with the private sector. But we all know the government isn't a fair competitor, because the government doesn't have to play by the same rules as the private sector, and that would put us on a slippery slope toward a single-payer system or a nationalized system, much like you have in Canada and England. They have some very severe problems in those countries. There isn't a lot of innovation in those nations in the area of health care. Health care isn't of the quality that we have here, and they have significant delays and, in many instances, actual rationing where certain people cannot get certain treatments because of their age or they don't qualify under the rules that are set up. It is not the type of system we want in this country.

The purpose of health care reform should be to make health care insurance affordable to everyone, while in the outyears reducing the rate of growth of health care costs, and to allow people who have an insurance policy today to keep it. Those are the goals we set off when we stepped into the arena of trying to change the health care delivery system. Neither the Harkin bill—although it wasn't offered by him, but was offered by Senators DODD and Kennedy—nor the Baucus bill accomplishes any of those three goals. In each of those situa-

tions—take, for example, that everybody should have access to affordable health care. The Harkin bill, as scored by CBO, says that of the 47 million people who don't have health insurance, approximately 34 million would still not have it after that bill is fully phased in. The bill coming out of the Finance Committee varies and looks as if it is in the vicinity of about half of the people who don't have health care today will still not have it after that bill is phased in. As to the outyear costs, neither the Harkin bill nor the Kennedy bill controls outyear costs. In fact, the costs go up rather dramatically in the area of health care.

As to letting people keep their insurance if they like it—no, that doesn't happen either. In fact, large numbers—in the millions, according to CBO—would migrate out of their private system into a public plan because basically the employer would drop their plan. That is also true, I believe, of the Baucus plan, although we haven't gotten a final score on that. When you set penalties for an employer at a level that says to them it is fiscally prudent for them to pay the penalty rather than insure people, many will give up the insurance and push people into the subsidized program, called the exchange. Thus, a lot of people will lose the insurance they have today.

None of the three goals is met by these proposals. What do these bills do—especially the Baucus bill, which is the center of attention? First, they create a massive expansion of the size of the government. We are a government today that is running a deficit of \$1.4 trillion this year. That is three times more than we have ever had in the history of this country—\$1.4 trillion, which is about 12 percent of our economy. Historically, deficits have been about 3 percent of the economy. Today, it is \$1.4 trillion or 12 percent of our economy. That deficit doesn't come down dramatically. We continue to run deficits under the President's plan, prior to this health care bill being passed, of approximately \$1 trillion a year for the next 10 years. Average deficits over that 10-year period are between 5 and 6 percent of GDP, and we take the public debt from 40 percent of the GDP up to 80 percent. What do all these numbers mean? They are not just numbers thrown up in the air. They are obligations—debt we are running up on our children, because we have a government that is so large today that we cannot afford to pay the bills for it.

Almost every economist of any note or credibility says that when you run deficits that exceed 3 percent of GDP for an extended period of time or when you take your public debt from 40 percent to 80 percent of GDP, you are basically creating an unsustainable situation—a situation where you cannot pay the debt, and where your children and our children's children, who will be

subject to these deficits and debts, will end up with a government they cannot afford and which will lead inevitably to devaluing the dollar. We are already seeing a reaction to that in the international marketplace, and probably a massive increase in the tax burden, which reduces productivity and reduces, therefore, job creation.

Those are not good scenarios for our kids. It means a lower standard of living, less opportunity to buy a home, to send their children to college, and less opportunity to do what our generation has been able to do, because they are having to bear such a burden of the Federal Government—on top of this government that is, today, already projected to run deficits as far as the eye can see of \$1 trillion a year, to a public debt that will go from 40 percent to 80 percent of GDP. The proposal is that we are going to spend another—when it is fully phased in—\$1.8 trillion over 10 years on this brandnew entitlement program. And then the almost laughable—were it not being presented in such a way that is claimed to be sincere—proposal is: but we are going to reduce the cost of government.

A brandnew entitlement will be created, which costs us approximately \$1.8 trillion over a 10-year period. It scores at \$823 billion in the first 10 years because it is phased in. In the first 4 years, they take revenues in from the bill, but they don't start the program. The numbers are all skewed in the first 10 years. If you look at it in the 10-year tranche, where the program is fully implemented, it is \$1.8 trillion. We are going to create this massive expansion of the size of government with these brandnew entitlements being put into place and, in the process, grow the government at a rate that it hasn't grown in recent history, taking government from about 20 percent of GDP up to about 23, 24 percent—unsustainable levels—and we claim we are going to do it while reducing the cost of government, which is absurd on its face.

Some would argue that we need to do that in order to take care of health care, and that this is revenue neutral because, as a practical matter, we have put a cut in Medicare of \$400 billion and tax increases of \$500 billion, and those will pay for this over that 10-year period.

What they fail to tell you, of course, is when it is fully implemented, neither the cut in Medicare is large enough, nor are the tax increases, to make those numbers. To give them the benefit of the doubt, let's say that this Congress is going to cut Medicare by \$400 billion and create a new entitlement for uninsured people—take it from seniors and give it to the uninsured people. And this Congress is ready to raise taxes by \$500 billion. Let's give the benefit of the doubt to the Congress, which I know isn't going to happen because, just 5 years ago, I

was chairman of the Budget Committee and I suggested we reduce the rate of growth of Medicare by about \$15 billion, and we could not get any votes on the other side of the aisle for that, and now they are suggesting they are going to cut it by \$400 billion. That is what is called "bait and switch." It doesn't happen. This proposal won't occur.

As a practical matter, giving them the benefit of the doubt and saying they are able to raise close to \$1 trillion in new taxes, or spending cuts in Medicare, over the next 10 years, recognizing in the following 10 years it is not nearly enough, why is that incorrect to have a program if it is paid for? I will tell you why. This government is running so much debt to the extent that if we are going to use resources like that, we ought to reduce the debt of the country, not use them to create a new program on top of a government that is too large as it is. We know for a fact—an absolute fact—that Medicare has a \$34 trillion unfunded mandate. Try to think of that. That means we know that we have expenditures in Medicare that will exceed income in Medicare by \$34 trillion.

So why on Earth would we cut Medicare spending by \$500 billion, or \$400 billion, and use that money to create a new program? We should use that money, if we are going to take that action—and some of that action is responsible—and use it to make Medicare more solvent. If we are going to raise taxes by \$500 billion—tax the rich, as the House claims, and they always end up taxing middle-class America, or are we going to add special fees against special industries, such as the pharmaceutical, hospital, medical device, and other industries? If we are going to do that and assess a penalty on people who don't buy insurance, and we are going to assess small businesses that don't buy insurance a penalty, should we not use that money to reduce the burden of the debt of this country as it is being driven by the present health care system, not by adding a brandnew entitlement that absorbs all those resources?

There are a lot of ways we can do health care reform here that are much more responsible than what is being proposed. The recent claim by the White House and Members of the other side is that this bill isn't going to affect people's premiums at all. The premiums will go up, but no more than usual. That is so unbelievable on its face. Think about this. This bill suggests that insurance companies are going to have to pick up a massive increase in the cost of insuring people because—for a lot of technical reasons, but basically it sets up a system where not enough people will be coming into the insurance pool; a lot will be opting out to cover the additional costs, which is going to have to occur as a result of the very rich benefits package

under this bill and the fact that there is no longer any exclusion. Everybody gets covered by insurance. So on the face of it, insurance companies aren't going to be able to absorb those costs. They are going to pass them off to the people who pay the premiums.

Then the bill suggests they are going to put another 14 million people under Medicaid—take Medicaid coverage from 100 percent up to 133 percent of poverty. We already know Medicaid only pays 60 percent of the cost of health care. We already know that for the people under Medicaid, 40 percent of the cost is being borne by people with private insurance, who are paying for not only the cost of their health care but for the 40 percent of health care costs that are not reimbursed under Medicaid. So when you add another 14 million people, that goes onto the premiums of the people in the private sector. Thus, the premiums have to go up because they cannot absorb all the costs.

Then we know that a large number of people will come into the system but not enough to cover the fact that everybody is going to be required to be covered. There is going to be something called "adverse selection," where some folks basically buy coverage at the last minute because they are suddenly finding they are sick and haven't been paying into the pool very long. They will be able to do that under this system and, thus, drive up the cost of insurance for everybody else.

We know the insurance prices will go up there. We know the premiums are going to go up significantly. That is just common sense. Whether you accept the study by the insurance companies or look at what—it is like 1 and 1 makes 2. It is an obvious fact. Then we ought to know something else. The hospitals, under this proposal, have agreed to chip in—in order to basically be at the table—for something like \$20 billion or \$40 billion. The drug companies have agreed to chip in \$80 billion. When you add that all up—all of which is passed back to consumers—none of them will absorb all of the costs, and you end up raising the cost of health care.

In the end, people's premiums will go up—people who have private insurance. You might say: Why would somebody do that? Why would somebody drive up premiums on people? I will tell you why. Because the goal here is to basically eliminate private insurance. The goal here is to create a structure where essentially people who get private health care through private insurance or their employer will be forced out of that health care insurance and into an exchange, where there will be a public plan, when this is all over. The government will essentially absorb all insurance. This is not a good idea. Why isn't it a good idea? Because the government basically, in order to control costs, can

only do two things: it can limit access or it can control prices.

I ask unanimous consent for an additional 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GREGG. It can limit access or control prices. Either way, it significantly undermines the quality of health care.

There are about 180 million people in this country—or more, I guess—who already have health care and are fairly comfortable with the health care they are getting under the private system. There are about 190 million, actually. But they are going to be at deep risk.

There is something else here that is very serious that we have to think about. As you start to put these types of pressures on the system and you start to regulate prices and you start to regulate access and you start to regulate reimbursement and you have the government doing all of this, you start to stifle innovation. A lot of the drugs that come on the market today come on after a massive period of time of research—I think it averages 15 years—and a huge amount of investment. I think it is \$800 million to bring a new drug to the market. That \$800 million does not appear from out of the sky. People who are investing money say: I am willing to invest in that drug because I think it will work and it will do social good, but I also think I am going to get a reasonable return on my investment. But if you set up a system where you have price controls and where the return on investment is artificially low, you basically don't allow people to recover their costs or their costs plus a reasonable return on their investment. Then the money will not go into those research activities, the money will go somewhere else. It will go into new software. It will go into new machinery. It will go into real estate ventures where the return is better. You inevitably chill the investment in the innovation, especially in the area of pharmaceuticals, which is where most of the great research is being done today that is making better health care outcomes more available.

Mr. CHAMBLISS. Mr. President, will the Senator respond to a question?

Mr. GREGG. I am honored to respond.

Mr. CHAMBLISS. Mr. President, the Senator mentioned a little bit earlier about the previous attempt to slow the growth of Medicare. I remember during my House days—it has probably been a decade or more ago—when the Senator from New Hampshire was on the Budget Committee on the Senate side. We were looking at a rapid growth of Medicare, somewhere in the 7 to 8, 9 percent rate. What the Senator from New Hampshire is talking about is that in order to try to achieve a balanced budget and to make reforms in Medicare, instead of it growing at that rate,

we were going to reduce the rate of growth, not reduce the amount of money, just reduce the rate of growth to about 5 percent per year to help achieve a balanced budget and at the same time continue to provide the services under Medicare that we did then.

I ask the Senator what he thinks is going to happen if we are not reducing the rate of growth, but in this plan coming out of the Finance Committee that will be on the floor and the one that came out of the HELP Committee that will be melded with that bill, there is going to be a reduction in Medicare spending by about \$500 billion over 10 years. Will we be able to provide the same services under Medicare that we do now if we reduce the amount of money spent on Medicare?

Mr. GREGG. The Senator from Georgia asks a very appropriate question because the practical effect of the reductions which are being proposed is that people who are on Medicare Advantage, which is a program many seniors like, will be eliminated. They will no longer have the opportunity to use Medicare Advantage or it will be contracted so much that it will be a shell of its former self. This is being done not in order to make Medicare solvent—and there are very serious issues about Medicare solvency—it is being done in order to move that money over and start a new entitlement for a new group of people who are not seniors and who have not paid into the health insurance trust fund and who have no relationship at all to Medicare.

Mr. CHAMBLISS. The Senator from New Hampshire has been here a lot longer than I have, both in the House and his service in the Senate. Mr. President, has the Senator from New Hampshire ever seen a mandatory spending program that has been created by the Federal Government reduce its spending?

Mr. GREGG. The Senator asks another good question. "No" is the simple answer. We all know that once you start a mandatory program, it always grows and grows significantly. That, of course, is why we are in such trouble as a nation, because we have a number of mandatory programs to which so much has been added that we simply cannot afford them any longer under our present structure of a government.

Now we are going to take that problem and compound it by \$1.8 trillion, which is pretty irresponsible of us and fiscally irresponsible, but it is also irresponsible in the sense of stewards of our children's future because our children are going to inherit a government that cannot be afforded and they are going to get bills or get a devalued dollar.

Mr. CHAMBLISS. If the Chair will allow me, I wish to ask another question about Medicaid.

The proposal coming out of the Finance Committee to the floor of the

Senate has a huge effect on my State, and I am sure it has a similar effect on Senator GREGG's State, and that is this: The eligibility for Medicaid will move from 100 percent of poverty level to 133 percent of poverty level, which will add a significant number of additional individuals all across America to the Medicaid rolls.

In my State, where the Federal Government will pick up the tab for the first 3 years, there is going to be an additional cost of \$1.2 billion for those additional Medicaid-eligible individuals in Georgia. Beginning in the fourth year, the State of Georgia is going to have to pick up that \$1.2 billion.

The Senator from New Hampshire is a former Governor, and I assume New Hampshire probably has a balanced budget requirement, as we do. We are furloughing teachers today. We are furloughing State employees. Schools are operating 4 days a week instead of 5 days a week. We are doing everything we can to decrease spending at the State level and even below that to try to make sure we achieve that balanced budget. If we as Georgians are asked to come up with another \$1.2 billion to fund a health care program, we simply do not have the money to do it.

I ask the Senator if he has a similar situation in New Hampshire.

Mr. GREGG. The Senator from Georgia is expressing a problem which I think most State Governors are extraordinarily worried about, whether they are Republicans or Democrats, which is that this bill, as it starts up, covers the additional people who will be pushed into Medicaid, which is about 14 million nationally, but that coverage drops off in the outyears, and it will put many States in dire straits.

The Senator from Georgia talked about the numbers in Georgia. New Hampshire will have the exact same problem, only we do not have a balanced budget amendment. We are not that foresighted. I wish we were. So we already have a problem. We are already running major deficits in the State of New Hampshire, and if you throw these new Medicaid costs on, you are going to make it very difficult to do things such as spend on school systems and, especially in New Hampshire, on our college systems and our mental health care systems which are key to our quality of life in New Hampshire.

This will be a massive unfunded mandate. I saw the number \$33 billion as being what the States will end up picking up over the 10-year period. That is a big number for States to pick up. It will put massive strains on State budgets. It is another example of the Federal Government saying: Here, look at the wonderful things we have done for everybody, and then sending the bill to the States, which is totally inappropriate.

Mr. CHAMBLISS. Lastly, if I may ask one more question through the

Chair, as we reform health care—and 100 percent of the Members of this Senate agree that we need to reform health care. We have the best delivery system in the world, but it can get better. We can have a better delivery system. We have the best insurance system in the world, but it needs reforming. It can be made better.

Does the Senator from New Hampshire, who I know is familiar with the details of the plan that came out of the Finance Committee, know of any provision in that bill that is designed to reduce the costs of health care delivery in this country, which will help make that system better, which will help make the insurance system better by making premiums for insurance more affordable for folks who cannot afford it today?

Mr. GREGG. The Senator from Georgia leads in the way I want to close this discussion. There are ways to do what the Senator from Georgia is suggesting. There are ways to reduce the cost of health care in this country and to make it better.

Let's take, for example, malpractice reform, abusive lawsuit reform. None of that is in the Finance Committee bill. We should have something there. The President says he is for it. We should do something in that area. CBO scores this as a \$54 billion savings. That is not chicken feed—not in Georgia, not in New Hampshire. That is a big number. So we should have malpractice reform.

We should have proposals which basically incentivize employers to have their employees with healthier lifestyles. It is called HIPAA reform. That is not in the Finance Committee. It is very easy to do. You give people the incentive and employers the ability to say to someone: If you stop smoking, if you live a healthier lifestyle by reducing your weight, if you take the tests you need to take in the area of better health care, such as colonoscopies, we actually will give you a cash reward. We cannot do it under the Finance Committee bill and, to a lesser degree, under the Kennedy-Dodd bill or the Harkin bill but not as much as we would like.

There are specific diseases we should target, such as obesity and Alzheimer's. There are a whole series of healthy lifestyles. There are things we can do in a step-by-step manner which will get us much farther down the road toward quality health care for all Americans rather than this massive expansion of health care through a massive expansion of an entitlement which will lead inevitably to, in my opinion, a huge debt being passed on to our children.

Three groups are going to pay for this \$1.8 trillion: One is seniors citizens who are going to pay for the cuts through Medicare; two is small businesses that are going to have to pay

through massive increases in premiums for their insurance, and they will probably have to give up a lot of coverage of their people; and three is our children, who are going to have to pay the debt.

I appreciate the thoughts and questions of the Senator from Georgia. They are right on point. I thank him for getting involved in this discussion. In fact, I yield the floor to him right now.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. CHAMBLISS. Mr. President, I appreciate the comments of the Senator from New Hampshire, who has certainly been in the forefront trying to make sure, No. 1, that the budget of this country is in a very positive situation as we move forward and that we do not leave our children and grandchildren burdened with a debt they simply cannot pay. As he has said, they are the ones who, at the end of the day, along with senior citizens and the small business community, are going to wind up paying for this bill if it comes out crafted the way it is presented in the Finance Committee and the way it appears it is going to come out of the Finance Committee to the floor of the Senate.

Mr. President, I ask unanimous consent to speak for 5 minutes on another subject.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, I have been waiting to come here for a bit. I have no problem with 5 minutes. I am patient. I want to alert the Senate what is going to be happening the rest of the day. I will wait for my friend from Georgia.

Mr. CHAMBLISS. If the majority leader wants to go—

Mr. REID. No, that is fine. I am happy to do this. I want everyone to know what is happening here tonight. I will do that when the Senator from Georgia finishes.

The PRESIDING OFFICER. Without objection, it is so ordered.

RECOGNIZING VERNIE HUBERT

Mr. CHAMBLISS. Mr. President, it is with great pride and yet much regret that I stand here today to recognize a dear friend and longtime servant of American agriculture who is retiring from public service.

Through nearly 25 years of serving in various capacities on the House and Senate Agriculture Committees, Vernie Hubert has exemplified tremendous character, an infectious personality, and an astute knowledge of the law, for which I admirably respect and thank him. I would like to issue a special thanks to his wife Kathleen and daughter Mary Phillips for allowing us to have him in Washington for the past 3 years while they have lived in Texas. I am eternally grateful for his dedication to agriculture. His encyclopedic

knowledge and valuable input will certainly be missed.

What began as an internship in the House Agriculture Committee for Vernie in 1982 has since blossomed into a distinguished agricultural law career. Before entering law school, he earned a bachelor's degree in biomedical science at Texas A&M University and even served as a first lieutenant in the U.S. Army Reserve Medical Service Corps after graduation.

Upon graduation from St. Mary's University School of Law in 1985, Vernie returned to his beloved South Texas for a brief stint as an assistant prosecutor in Brazos County. Though his heart has always remained in Texas, Vernie returned to the House Agriculture Committee to work with then-chairman Kika de la Garza and ranking member Charlie Stenholm, where he served for almost 20 years in various roles—as associate counsel, staff director, and legislative director.

In 2004, I was fortunate in luring Vernie to the Senate, where he has served as chief counsel on the Senate Agriculture Committee for me since then. We were successful in passing a farm bill last year, and a big reason for that success is due to the tireless, diligent efforts of Vernie Hubert.

Seeing that the 2008 farm bill was the fifth farm bill that saw passage during Vernie's tenure, it goes without saying that his experience in negotiating agriculture policy is not going to be easily replaced.

In fact, it is impossible to replace a person like Vernie Hubert, not only for his wealth of knowledge but also for the richness of his character.

In the years I have known and worked with him, he has remained a loyal confidant and has always kept American agriculture's best interests at heart. Vernie, you will sincerely be missed by everyone who has had the pleasure of working with you, and I wish you nothing but the best in all your future endeavors.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The majority leader.

Mr. REID. Mr. President, I appreciate the usual courteousness of my friend from Georgia.

There will be no more votes today, but I want to say a word about a statement made by my friend, the senior Senator from New Hampshire. He talked about the CBO saying there would be \$54 billion saved each year if we put caps on medical malpractice and put some restrictions—tort reform. Fifty-four billion. Sounds like a lot of money, doesn't it? The answer is yes. But remember, we are talking about \$2 trillion—\$54 billion compared to \$2 trillion. You can do the math. We can all do the math. It is a very small percentage.

I have said in meetings before that people who practice medicine are negligent. What does that mean? The Presiding Officer is a lawyer, my friend

from Illinois who is next to me is a lawyer, my friend in the aisle from Maryland is a lawyer, and we learned early on in law school what the definition of negligence is. If someone runs through a stop light or a stop sign and hurts somebody, they have been negligent. And our system of justice, carried over from the common law in England, allows people to seek redress for the injuries they received as a result of someone's negligence. Doctors are negligent. They are human beings and they make mistakes and they hurt people.

I have said before—and I will be very quick with a little story. My friend, Senator COBURN, is on the floor. He is a medical doctor. I used to spend hours and hours on the floor, and one day I felt in my left foot that my sock was kind of gobbled up on the bottom of my foot. I thought: What is wrong? I don't know what that is. So I went into my office and took my shoe off and the sock was fine. To make a long story short, I had a problem with my foot. As some know, I have run thousands of miles on my feet and one of them reacted. It was tired of running those thousands of miles, I guess. I was diagnosed with having a Morton's neuroma on my foot, which required surgery. They tried all the other things and they didn't work.

So I go into the hospital to have this surgery. Remember, it is my left foot. I am on the gurney—the hospital bed, whatever it is—and they are getting ready to do the surgery. I look down and I have a big mark from a Magic Marker on my right foot. I say: Why is that big mark on my foot? And the doctor and the personnel say: That is where we are going to operate—on that foot. That is why we put that check. I said: The wrong foot.

If I hadn't said something, they would have operated on my good foot and left my bad one for a surgery later on. That is negligence. I said something about that. But as I have said before, my wife was born shy and she will die shy. She is a very shy person. She would have been on that surgical table ready to have that surgery and she wouldn't have said a word about that big mark on her foot. I know her. We have been together these many decades, and I know she wouldn't have said a word. That is medical malpractice. We need to protect people from doctors who commit negligence.

In talking about the great report Senator GREGG cited, he failed to mention one thing I think is kind of important—important to me. If this went into effect, 4,853 Americans would be killed every year by medical malpractice. Over a 10-year period, I repeat, 48,000 Americans would die because of medical malpractice. So I would suggest people not wave that around because I don't think the American people want to be part of the

48,000-plus people being killed because of medical malpractice—malpractice by doctors, not other personnel.

We haven't done a thing today. Why? Because the Republicans will not let us. We had cloture invoked on an important piece of legislation and they are using the 30 hours postcloture. For what? For nothing. For nothing. No one is coming here from the other side saying how important it is they have the extra time to talk about this legislation. It is wasted time.

The Republicans have made the political calculation they would rather have no progress made. No suffering American gets help. They would rather do that than work with us to move forward on the most pressing issues in this country. It is not just limited to the health care debate we have heard about for months on end. Because they refuse to move forward, to hold up the legislative process for no substantive reason, we are wasting America's precious time and money.

We could be working on extending unemployment benefits at a time when unemployment is high in virtually every State—some States higher than others. Unemployment is running out in some States. We could be supporting the Department of Defense conference report—the authorization bill. It is the bill we do every year for our fighting men and women around the country and around the world. We are not doing that. Why? Because we are wasting time here. We could have a couple of hours of debate on it at the very most. But, no, we are wasting our time.

I came to the floor last night and said: Why are you doing this? They said: Well, if we could work a little longer, we could come up with a list of amendments. I repeat what I said last night. I was here until I don't know how late on Thursday. Everybody had vacated this building. I could have yelled down the hall and no one but a police officer would have heard me. Why? Because we were waiting for them to come up with some amendments so we could fill the bill. But they were just killing time. There was no intention of completing that bill. They were stalling for time. So I had to file cloture on that bill.

Department of Homeland Security. We have a conference report we would like to complete on appropriations. Are we doing that? No. Are we completing our appropriations bills? We got a letter from the Republican leadership saying: Let's do the appropriations bills. We are trying. But, again, they are stalling and will not let us. In the Department of Defense and Department of Homeland Security, we have two critical agencies that need all the support they can get at a time when our Nation is fighting two wars—two wars plus homeland security trying to protect our borders and protect the homeland.

We could be passing appropriations bills to keep our country running, in-

cluding Commerce-State-Justice that they held up last night. Instead, we are doing the Republican shuffle. If it sounds familiar, it should. Last year, Republicans broke the blindly partisan record of pointless filibusters—nearly 100. Not nearly; 100 is how many it was—more than any other session of Congress in the history of our Nation. What does this accomplish? Zero. Nothing.

The American people didn't demand paralysis, they demanded change, and we are trying our best. It is long past time for the Republicans to listen to what the American people want. Their strategy of stubbornness is shortsighted. I am confident that, in the end, these Republican tactics will once again prove to be self-defeating, just as they were last November. I am so concerned that we have the same Republican shuffle time after time and we spend hours and days on this floor doing nothing.

Mr. LEVIN. Mr. President, I wonder if the leader would yield for a question.

Mr. REID. I am happy to yield to my friend.

Mr. LEVIN. The leader mentioned the Defense authorization bill is awaiting action by this Senate. We have a conference report. We have spent months and months and months on this bill. There are critical provisions that everyone knows about. Some of those, it can be argued, well, doesn't that require an appropriation? The answer is: Yes, technically, some of these provisions do.

For instance, the pay increase requires an appropriation. But by holding up this bill—the conference report—we are holding up legislative provisions as well that are critically important that do not rely on appropriations. So I want to—

Mr. REID. I would say to my friend, the majority of your bill is legislative language that has nothing to do with appropriations.

Mr. LEVIN. And I want to ask the leader, if he can bear with me for a moment. I wish to spend a couple moments talking about a few of the legislative provisions. One, to remedy the military commissions law. It has been basically thrown out by the Supreme Court. We cannot hold people in front of military commissions and try them before military commissions under the current law. We have to modify this law. We have spent months doing it. The modifications are in the Defense authorization bill. Until these modifications are signed into law by the President of the United States, we cannot have detainees tried before military commissions.

We want to get equipment to Afghanistan. Many of us are focusing on strengthening the Afghan Army as a way that we can succeed in Afghanistan, to get their numbers up, to get their equipment up. But in order to get

nonaccess property from Iraq to Afghanistan, we have to authorize it. That is in the bill that is now being held up because, apparently, there is an unwillingness on the part of some of the Republicans to agree to a unanimous consent agreement with a time agreement for debate. No one is trying to preempt anybody from talking.

There is one other example. Unless we act, soldiers who are getting care at TRICARE facilities are going to have to pay \$100 a day extra. We have to stop that from happening—to continue the provision in law to extend the limitation on charges for patients who are getting TRICARE. On and on and on.

We have critically important legislative provisions, and my question to the leader is this: Am I correct in my understanding that we have offered a unanimous consent agreement, given a willingness to enter into a time agreement on how many hours of debate—and I know there are people who oppose the hate crimes provisions, for instance, in our bill. We are not trying to preempt debate. It is the opposite. We are trying to get on with the debate. So my question is: Is it true we have offered a unanimous consent agreement on the Defense authorization bill and that it has so far been rejected?

Mr. REID. Yes, yes, yes. I say to my friend, you have only mentioned a few of the most important things that satisfy and take care of the military and our fighting men and women in our country.

I say to my friend, I went to the first ever Reid family reunion in Searchlight. It was interesting. You should have seen the invitation—"sobriety requested." That was fine. Not everybody followed that, but it was pretty interesting. A child of one of my cousins was there and she said: I want to tell you that my husband is 30 years old and just joined the Army.

Because of the downturn in the economy, we have had huge numbers of people joining the military, and we need to take care of those people, such as my relative I learned about in Searchlight.

So I thank the chairman very much.

Mr. LEVIN. I thank the leader, and I hope our Republican friends will reconsider their objections to letting us proceed to the Defense authorization bill, which is critically important to the country.

The PRESIDING OFFICER (Ms. CANTWELL). The assistant majority leader is recognized.

Mr. DURBIN. Madam President, I will be very brief. I want to back up the comments recently made by Senator LEVIN of Michigan, the chairman of the Armed Services Committee, and our majority leader.

How can we, in the midst of two wars, stop the Department of Defense authorization bill on the floor when our sons and daughters, husbands and wives, Americans across this country

are risking their lives? We have this stall tactic on the floor, where they will not even allow us to bring this up for a vote for the Department of Defense authorization. A lot of people around here go back home for parades and wave the red, white, and blue and salute our troops and tell us how much they love them and then come to the floor and engage in stall tactics and filibusters to stop this.

I would say to the other side of the aisle: Don't go home and wave the flag of patriotism if you will not at least give us a chance to vote on the bill our men and women in uniform are counting on. Too many of them are doing just that. I might also tell you that when it comes to unemployment benefits, we know what is going on in America. Hundreds of thousands of people have lost their jobs. As of September of this year, the end of September, 400,000 Americans lost their unemployment benefits, another 200,000 will occur within this month and then 1.3 million total by the end of the year. We have asked the Republicans: Will you let us extend unemployment benefits for people who have no way to sustain their families? No. They want to filibuster this. They want to offer amendments that have nothing to do with this whatsoever. They want to drag it out. They have no sensitivity to these people who have lost their jobs and are struggling to keep their families together under the most difficult circumstances. The Homeland Security conference report is another one. That is going to pass soon, and we are having difficulty from the Republican side getting any kind of agreement getting this measure enacted. This is a measure about the safety and security of our country.

The Commerce-Justice bill, this is one Senator MIKULSKI brought to the floor. It includes the Federal Bureau of Investigation and law enforcement. We could not get a single Republican yesterday to agree with us to bring this bill to a vote after it sat on the floor for an entire week, waiting for amendments that were promised and never delivered.

Now we have the Energy and Water conference bill to put people to work in America. We had a vote earlier today, it was 79 to 17—people thought it was a great bill. Now it is being stalled. It is being stopped.

The bottom line is we came here to do some work, not to dream up ways to stall and not do the people's work. Too many people are being disadvantaged by this tactic. It is the tactic of the minority. It is one they will pay for because the American people understand they have no proposal when it comes to health care reform—nothing. Now they have no agenda when it comes to these important items for our men and women in uniform, for the people who

are unemployed across America to keep us safe through homeland security and basic bills for law enforcement and for Energy and Water appropriations. They want to stop them all, stall them all.

That may be a good tactic that some of their political consultants have given them but don't think the American people are going to accept it.

#### ORDER OF PROCEDURE

I ask unanimous consent that when Senator UDALL is recognized, Senator UDALL of New Mexico is recognized this evening, he control up to 1 hour of that time as in morning business and it be in order for him to engage in colloquies during this time; at the conclusion of that hour, Senator COBURN be recognized to speak for up to 1 hour; at the end of that hour, it be in order for Senator UDALL to be recognized for another hour under the same conditions as identified above; and at the conclusion of that hour, Senator COBURN again be recognized for 1 hour as identified above.

The PRESIDING OFFICER. Is there objection? The Senator from Oklahoma.

Mr. COBURN. I ask the unanimous consent be modified that I be given 3 minutes to speak prior to the start of that unanimous consent.

Mr. DURBIN. I have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DURBIN. I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. COBURN. I wanted to answer a few of the points of the distinguished majority whip. The reason the Energy and Water bill is being held up is because the conference took out transparency that the people of this country need to see. It could easily be fixed by the majority agreeing that we will send that back, we will send a resolution back and ask the House to put the transparency back in. That is the purpose for it. It is not a delaying tactic. The fact is, we didn't defend what we actually voted for. That is the answer to the first question.

The unemployment benefit, we all want to extend it. We just want to pay for it. We don't want to charge it to our children. We want to get rid of some of the waste. We want to either take some money from the stimulus account and pay for it, but we do not want to charge the unemployment extension to our grandkids. We think you ought to make those hard choices.

Finally, on the cloture vote yesterday, as far as I could count, there are 60 of you and all you had to do was bring 60 votes to the floor, which you chose not to do. There were only three amendments that have been voted on on the Commerce, Justice, and State. I have three amendments pending. I

agreed to have votes on them yesterday. Instead of having votes, we decided to do cloture, which was not achieved.

The final point that the Senator from Illinois makes, the very claim that we have no health care proposal—the first health care proposal that was filed and published was my health care proposal that is a comprehensive health care proposal that saves the government money, covers more people than any of the bills we have today, saves \$70 billion, saves the States \$1 trillion, and solves most of the problems as far as access and cost, it covers people with any preexisting illness.

It is not we do not have a plan, it is that we couldn't get our plan agreed to or listened to.

I understand the frustration of my friend from Illinois; there is no question. We do want—we almost had an agreement yesterday to finish Commerce-Justice. There is no question. Everybody knew that. Then we decided to vote cloture.

I am happy to finish. We can finish it tomorrow if we can come to agreement on the amendments. We vote on the amendments and finish that bill tomorrow and finish this tomorrow. They can both be finished tomorrow easily, so it is not about structure; it is about growing the Federal Government, expanding the size and scope of the Federal Government and charging the cost of that to the next two generations. That is the objection. It is not about slowing the process.

I understand it is frustrating being in the majority when, in fact, there are minority rights, but when the amendments aren't agreed to, aren't allowed to have majority votes, then you can understand our predicament.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. UDALL of Colorado. Madam President, it is great to be here with you this evening. I see Senator DURBIN is still on the floor, and I know he may want to speak to the issue that was just raised. We are here discussing the public option. I hope Senator DURBIN has a minute or two to talk about that.

Mr. DURBIN. I thank the Senator, and under the hour he has been given, I thank him for yielding a few minutes. Let me say, what happened to you in the conference committee has happened to all of us. You had an amendment adopted in the Senate. As I understand it, we all supported it. It died in conference. It is frustrating, something you believe in, something we all voted for, and you didn't get your way. But does that mean we are going to stop consideration of this conference report; we are not going to pass an Energy and Water appropriations bill because your amendment didn't survive in conference? If all 100 Members in the Senate took that position, we would never pass anything.

Mr. COBURN. Will the Senator yield?

Mr. DURBIN. When I finish. The fact is, each of us has to accept the reality here. We don't always get what we want. I have been denied opportunities in conferences for things I cared for.

One of them, for example, was to say the Federal Government was going to make up the difference in pay from activated Federal workers who served in our Guard and Reserve. Year after year it would be adopted on the Senate floor and killed in conference by the chairman from Alaska. Did I stop the money for the Department of Defense because of that? Of course not. I said: Tomorrow is another day and I will fight for it another day. But to stop the bill and say we are going to hold on for 30 hours or more because I didn't get my amendment in conference?

When it comes to the unemployment benefit, we are paying for these the same way every President has paid for them, through the FUTA tax. It is paid for. Frankly, it should be. These are people who paid into unemployment compensation for the day when they would need it and now the money is coming back out to pay them. But some people here have a different theory how they want to pay for it. So hundreds of thousands of unemployed Americans are waiting for the latest Republican theory on how to finance unemployment benefits. It is cold comfort to them to know we are having this great academic debate when a question about food on the table and taking care of their family is No. 1 in their minds. That is the problem with what has happened here.

You can always dream up a reason to vote no. You can always dream up a better idea. But at some point the business of government has to get on. People count on us—in this case, hundreds of thousands of unemployed people.

Let me say a word about public option, and then I will yield the floor back to the Senator from New Mexico. If we didn't get the message loudly and clearly Monday night about the public option when the health insurance industry threatened us and said: If you pass health care reform, we are going to raise your premiums, if the message didn't come through loudly and clearly that they not only have the power to do that, we empowered them to do it in ways no other company can because they are exempt from antitrust laws, the only way to keep them honest is to make sure health care reform does not disadvantage workers and businesses and families is to have a not-for-profit option, a public option that people can choose for health insurance. I fully support that public option. Those who say I am not sure if I would go that far have to accept the reality. Health insurance, private health insurance companies will impose premiums, they will fix prices because they can—they are exempt under McCarran-Ferguson—and

they can allocate marketplaces so they can own markets. They are in a dominant position. The only thing that can stop them is competition and the only competition that can work is a public option, one that comes in and is not profit driven but tries to provide quality care for people at affordable cost. I fully support the public option. I thank the Senator from New Mexico for yielding.

Mr. UDALL of New Mexico. I thank the Senator from Illinois. I think he makes some very strong points.

We are being joined here in the majority, Senator WHITEHOUSE is here, Senator CARDIN is here, Senator BROWN from Ohio is going to be here. We are going to be carrying on a colloquy about the public option for the next hour, so any of our friends in the majority who want to come down to the Senate floor and join us, I urge them to do that.

Senator CARDIN, I know, has a couple things to say about the public option. Please.

Mr. CARDIN. If the Senator will yield, I thank him very much. I thank the Senator from New Mexico for bringing us together. He has been not only a real champion on the public insurance option within the health care debate but a real leader in that we need to do something.

I listened to my Republican friends. They take the position the status quo is acceptable. The status quo is not acceptable. Health insurance reform is vitally important for the American public. I thank the Senator for bringing us all together to talk about it.

There is some general consensus among the Democrats. The first is we need to reform our health insurance marketplace. It is important for the Federal Government to take action to deal with preexisting conditions so people can get health insurance without discrimination, they get the ability to renew their policies, there is no cap on the annual amounts that preventive care covers without copayment or without deductibles. These are all important changes that are included in the health insurance reform that is making its way through the Senate.

Let me tell you, the main reason for all this is cost. I will be honest with my colleagues. We cannot sustain the current health cost escalation in this country. Let me give you a few numbers: 6, 12, 23. Ten years ago in Maryland, a family health insurance policy cost about \$6,000. Today it is about \$12,000. If we don't do anything, in 2016 it is going to be \$23,000. That is not sustainable.

We are currently spending, in America, about \$7,400 per person for health insurance, \$2.4 trillion. We have to do better.

Let me tell you something. Every family in Maryland who has health insurance is paying an extra \$1,100 a year

for those who do not have health insurance. So the status quo is unacceptable to the people in Maryland. It is unacceptable to the people of this Nation.

Our objective is simple. Our objective is to reduce the cost of health care to make sure every American has access to affordable, quality care, and we are going to do it in a fiscally responsible way that will not add to the Federal deficit. We want to build on the current system. Those who have insurance, we want to make sure they can continue to keep that insurance; that it remains affordable; that they have the right to choose their doctor. We want to make sure Medicare is strengthened. One of the best ways to strengthen Medicare is to bring down the escalating cost of health care.

We understand that Democrats want to make sure the Medicare system remains strong and that is one of the reasons why we think health insurance reform today is so critically important and we want to help small businesses have more choice.

That brings me to the public insurance option. Why do we think the public insurance option is so important?

First, I have heard some of my colleagues come down to the floor and say we want to protect you against the Democrats' bill that is a government takeover. This is not a government takeover. Was Medicare a government takeover? Of course, that is what our Republican friends said when we were considering Medicare in 1965, and if they had had their way we would never have passed Medicare.

But Medicare allows you to choose private doctors, private hospitals. It is all about providing an affordable way that our seniors and disabled population can get access to affordable care. It maintains the private network. We want to make sure we continue that.

Let me tell you the problem in Maryland today. That is that 71 percent of the people in Maryland who have private insurance are in one or two plans. That is not competitive. That is not competitive. One out of every three Marylanders has no choice on the private insurance plan that their employer offers. They must take that. That is not choice.

So the reason I am such a strong proponent of the public option is to bring down costs, to add more competition, to make sure we have an affordable product there to save taxpayers' dollars. That is why I want to see us make sure that we maintain a public insurance option, to be able to maintain your ability to choose your own doctor.

I will give you one more comparison; that is, take a look at what has happened in Medicare. We have Medicare Advantage. You can go to a private insurance option within Medicare itself. It would be one thing if they competed on a level playing field. They do not.

Today we are paying 12 to 17 percent more for every senior who chooses private insurance. Let me repeat that. For every senior who goes into private insurance, the taxpayers of this Nation have to spend more money.

The Congressional Budget Office has indicated to us that that amounts to about \$150 billion over 10 years. We cannot afford that. I am for private insurance, but I want to make sure it is affordable and that we are not oversubsidizing as we are today. Let them compete on a level playing field.

The reason we want the public option is to keep costs down, to keep basically the private insurance marketplace straight and honest in a way they make their profit, to make sure that in every part of Maryland, indeed every part of this Nation, there is an affordable insurance plan available.

Marylanders know what happened with what was called Medicare-Plus Choice when we had private insurance plans in Medicare and they left overnight. They had no insurance available. Fortunately they still had the public insurance option called Medicare. We want to make sure there is affordable coverage for all Americans, to keep the cost down.

I applaud my colleague from New Mexico for allowing us an opportunity to talk about this. I really do applaud the work that is being done by all of our committees, by the HELP Committee, by the Senate Finance Committee. Their options give us hope that we are going to move forward with health insurance reform and health care reform this year, to bring down the cost of health care, to make sure that every American has access to quality, affordable care and do it in a way that will be fiscally responsible. Democrats are giving us hope that we are going to be able to achieve that in 2009.

Mr. UDALL of New Mexico. I thank the Senator from Maryland. I think the Senator from Maryland has made such a strong case of why we need a public option. You know many of the folks who are out there wondering: Well, what is a public option? I think we need to go through a little bit of what we are talking about, because this is something that the American public understands. They know it in their heart. But let's go through a few of the details.

First, this is not going to be subsidized by the government. It is going to be fully funded by premiums. So we are going to be out there in the private sector. Premiums will be flowing in to this nonprofit entity, and it will be able to function and compete with other businesses. It is not going to make a profit for its shareholders because it is a nonprofit.

It would have low administrative costs since it operates as a nonprofit. That would allow it in the marketplace

to serve as a competitor with these big insurance companies that are out there. It would offer savings to its subscribers through lower premiums, greater benefits, or lower out-of-pocket expenses. It will have the same insurance requirements as private plans. So we are talking about something that will offer low cost and high value.

Let's take a look here at why it costs so much. You can see by this chart right here that in New Mexico, we have a situation where we have two companies controlling 65 percent of the market. All of us know the way the market system works. It works best when you have a lot of competitors. When you take a market and drive it down and only have two competitors, what you end up getting is those two competitors that are able to push up the cost. So that is something a public option would inject into the market, a competitiveness that we have not seen in a long time.

One of the things it would do is it would start lowering those premium costs we are seeing in New Mexico. I know Senator WHITEHOUSE is here from Rhode Island. One of the things I want to say about the Senator from Rhode Island is he has participated in this process already. Everybody knows he was on the HELP Committee. He had the opportunity to help write this bill. He has got a great deal of knowledge about what the public option is.

I believe it is only about 19 pages of the bill that passed out of the HELP Committee. People can read it. It is out there on the Internet. That 19 pages sets up the public option. So all we need to do is make sure that is in the bill that comes to the Senate floor, or that we amend it on the Senate floor if it is not in the base bill, or that we have the President of the United States say he wants a public option. He can weigh in to the conference and say those 19 pages, the public option, we want them in there.

I want to ask the Senator from Rhode Island to talk a little bit about the way he sees things from his perspective. What is happening up in Rhode Island on the public option?

Mr. WHITEHOUSE. I thank the Senator from New Mexico. I am committed to that. I am also delighted to follow the Senator from Maryland. Senator CARDIN and Senator UDALL have been, for many years before they even came to the Senate, when they were serving with such distinction in the House of Representatives, strong advocates for the elderly, strong advocates for the disabled, and strong advocates for consumers.

That is what a public option is all about. It is helping out people as consumers and providing better health care, the kind that the elderly and disabled get when they are on Medicare. They do not have so many worries that regular families have of whether they are going to get coverage.

The public option makes so much sense that it is very hard to argue against it as it is. So a great number of my friends on the other side of the aisle are arguing against things that actually are not being proposed, such as socialized medicine, or the government taking over health care.

None of that is suggested by our bill, anyway. The first words of the HELP bill are "voluntary plan." It is a voluntary option. As the President said when he was running for election: If you like the plan you have, you get to keep it. But if you do not like the plan you have, you have a public option, an alternative, a choice.

Why does that matter? Well, it matters to people such as Stephanie, a 28-year-old from Warwick, who recently learned that her insurance plan is refusing to cover the most costly and important medication that she has to take for a chronic rheumatic condition. She thought she had insurance. But when this condition appeared, and she realized the kind of treatment she needed, and her doctor said: This is what you need, Stephanie, the insurance company said: Oh, no, I am sorry. We are not going to cover that.

Our friends like to talk about how this will put the government between you and your doctor. Folks, the private insurance industry is, all over this country, getting between Stephanie and her doctor and millions of others just like them and telling them what kind of care she can and cannot have.

The public option will actually help free that up by providing alternatives where they can provide better service and broader coverage, at lower cost. Why might they be able to do that? Our friends on the other side of the aisle say: Well, it is because they will compete unfairly. Because they will necessarily take over any insurance market that they get into.

That is, frankly, a bunch of baloney. In my home State of Rhode Island, just two insurance companies dominate the market now. In fact, one of our health insurers reported \$37 million of profits, excess profits, that it wanted to take out of Rhode Island and repatriate to its home State outside of Rhode Island; \$37 million. Rhode Island has only 1 million people in it. We are a small State. This was a company with 16 percent market share in Rhode Island. So out of 16 percent of the Rhode Island market, in 1 year, they were going to pull \$37 million and send it out of State.

You do not have to do that if you are a not-for-profit company. That is \$37 million that can serve those 16 percent of folks with better coverage, with better quality service. The profit and huge executive compensation is money that could go instead into health care.

I also heard from Charles from Pawtucket. For 20 years he and his wife have worked. They are freelance musi-

cians. They have not had anybody providing them coverage through the business. But they have scrupulously and faithfully paid for health insurance and coverage. Recently his wife was in an accident. They are both in their late 50s. The insurance company took a look at them and said: You are out. They tossed them out; threw them off the insurance plan.

That is not the kind of choice people need. They need a public plan they can go to that will be reliable, and that will be there for them once they get sick. It is said about our private health insurance industry that they give you all the coverage you need until you need it. Suddenly it is loophole city. There is a better alternative and a better way.

Another way the public plan can help to fund that and to make up that difference is with less administrative cost. We have heard that on the private insurance side, 15 to 30 percent of the health care insurance dollar gets burned in administrative costs; Medicare, maybe 3 to 5 percent. So they are running probably five times as expensive as Medicare in their administration.

And what do you get for that? Well, you get told that you cannot have the care you need when you actually get sick. You get your doctors hassled so badly by the private insurance industry that they have staff to fight with the insurance companies. As I travel around Rhode Island, doctors tell me that very often 50 percent of their personnel is devoted to fighting with the insurance industry, fighting about prior approvals, fighting about getting paid.

So the 15 to 30-percent costs that the private insurance companies have for administration creates what I call a "cost shadow" in the health insurance provider community, because they have got to pay all of those people to fight back. You add the two together and it is big dollars. A public plan will work more effectively, will try to figure out the better way to provide care that does not invest its dollars in trying to fight with providers and figuring out how to deny you care. There is a huge amount of money that can go back into better quality care.

Another story is Tim from Warwick. He is a husband and he is a father. Right now his family health insurance has a \$3,500 deductible. Tim and his wife are not high-earning people. The \$3,500 deductible is a real risk. Because of it, they actually avoid care, miss appointments and do not take as good care of their health as they should, because they simply cannot afford the out of pocket. They save it for the big catastrophe.

They have tried. They looked around to try to find other things. They cannot find anything better because the costs are so high. So right now Tim

sees his family as tethered to that job, tethered to that insurance plan. If there were a public option and he did not have to get it through his job, then they could look and they could find an alternative and they would not feel as tied down.

How many people in America feel trapped in their jobs because they do not have an alternative for health care? And to protect their family's health care, they continue to slug away at a job, they defer the innovation and entrepreneurship they could do. They do not open their own business. They feel they have no choice.

The public option could give them a choice. Another way that could help save money is by providing a new model of service.

Over and over again, we find in health care that if you improve the quality of care, you can actually lower the cost. The waste in the health care system is phenomenal. The Lewin Group says there is \$1 trillion in excess health care costs—\$1 trillion in excess health care costs—every year in America; \$1 trillion every year.

The New England Health Care Institute has looked at this, and they say there is \$850 billion in excess health care costs in America every year.

President Obama's Council of Economic Advisers looked at how much excess costs there are in health care. They looked at it by comparing our share of gross domestic product to other countries' shares of gross domestic product that gets burned by their health care systems. We are the highest in the world. We are far ahead of everybody else. We are a complete outlier. We are at 18 percent of GDP. The next worse country is Switzerland at 11 percent, and the EU average is half of ours, and they get better health care results. We spend a fortune on health care. They looked at that comparison.

They also looked at the comparison of regional outcomes and how in some States you can get very high-quality health care with great outcomes and results, and it is a lot cheaper than in other States where you get very expensive health care and lousy results. They crunched all those numbers, and they looked from both sides, and they came up with the number of \$700 billion a year in excess health care costs. It is there.

We have a terrible model of service in this country. Anybody who has ever had a sick family member, who has had a chronic condition, who has been sick themselves—you have seen it. You know the inefficiencies in this system: the electronic health record that is not there, so your tests cannot be located and you have to carry your own file around; the insurance companies being just brutal to your doctors and arguing with them about your care, and you cannot get the care while that fight

goes on, while they sort it out; the doctors who cannot talk to each other. You have five specialists, and you are the one in the middle, and you are the one who is sick, and nobody is sorting it out for you, and nobody knows what the other person is doing. One person prescribes a prescription and another person prescribes a prescription, and those two interact in a way that makes you sick, and nobody saw that coming because it is disorganized.

All that stuff does not need to be there. It is excess cost. When you get rid of it, you improve the quality of care. A public option can go after that, and it will because it is not bound to try to make a profit every minute, it is bound to try to do the right thing. So there are innumerable reasons why a public option makes sense.

But, finally, I think the strongest one is that by not having to extract all this profit out of the system—by not having to pay CEOs tens of millions of dollars a year, by not having to maintain that huge administrative war with doctors and hospitals and war with their customers as soon as they get sick, trying to deny their coverage—by actually trying to find that newer, better model of care that provides better health care cheaper, they can actually drive down costs—and a lot.

I do not know if the right target number is \$700 billion a year or \$850 billion a year or \$1 trillion a year, but there is a big target number to find, and what a difference that would make for Lisa in Providence, who turned 55 this year. Her birthday present from her insurance company was a 30-percent premium increase—a 30-percent premium increase. She was at the point where she was just able to afford what she had. Madam President, 30 percent more is more than she could afford, so Lisa has now become yet another uninsured American. A public option will help because it will make health care affordable for people who want to have insurance, can be insured, but are not always insured. Lisa is a good example.

Our friends on other side often talk about the people who are uninsured as if they are some like alien species; that it is actually less than we think and we do not really need to worry about it; it is only just a few million here and there. The fact is, in the last year and the year before, 87 million Americans like Lisa had a period in which they were uninsured. They went without health insurance. You know how scary that is. Somebody is not just uninsured; they are a mom, they are a worker, they are part of a family, and something goes wrong and suddenly they cannot afford their insurance, and for a while they are uninsured, and then maybe they try to come back again. They get lucky; somebody in the family gets a job who gets coverage; they find a way to afford it. But there were 87 million Americans who, in

those 2 years, went without health insurance.

Do you want to know what 87 million Americans is? That is why this chart I have in the Chamber is colored yellow and red. If you go west of the Mississippi River and take the population of every single State, including the State of New Mexico, which is Senator UDALL's home State—and you just take out California—if you take every single one of those States and add them all up, that is 87 million people. That is the population of every single one of those red-marked States, from Minnesota, Iowa, Missouri, Arkansas, and Louisiana, and go all the way west—except for California—all of those States, if you add them all up, the population of every single one of those States, that is the number of people who in those 2 years at some point were without insurance. So it is important that we take that burden off these nearly 90 million American families.

Even for those who have insurance, this is a big deal because folks who have insurance find they go bankrupt very often. Right now in America, 62 percent of all bankruptcies are health care related. That is why American families go to bankruptcy more than any other reason—because of health care. I tell you, you can make fun of systems like Canada's or England's or France's; you do not see families going into bankruptcy because of health care in those countries.

This is a national tragedy that is happening to those families, which is totally unnecessary. Of that 62 percent of bankruptcies—where the family was doing fine, and a health care emergency put them over the edge and forced them to go into bankruptcy, where they lose their home, they lose their credit—78 percent of those bankruptcies—four out of every five of those bankruptcies happened to families who had health insurance.

So if you are listening to this and you are wondering why it is important we get this reform, because you think: I am insured, I am all set, I am not part of the problem, well, you are very lucky you have not yet had the experience of finding all those holes in your insurance coverage, because I will tell you what, for these families—four out of every five of the health care bankruptcies in this country—they thought they were covered too. It was a rude and sad awakening when their insurance companies started calling them up and saying: Sorry, we are not actually going to be able to cover you. We found an exception. We are rescinding the policy. We are throwing you off. We do not cover that. And they had to pay and pay and pay until everything they set aside, everything they worked for, everything they tried to build up for a secure future for themselves and their families was down the spout, lost in a bankruptcy because their health insur-

ance was not there when they needed it. That is another reason we need a solid public option, so there is an alternative to that kind of behavior, because it does not just keep people out of the insurance market, it clobbers people who think they are safely insured.

Madam President, I yield to Senator UDALL.

Mr. UDALL of New Mexico. Madam President, I say to Senator WHITEHOUSE, I want to ask you a question and see what evidence there was in the HELP Committee because what I understand in New Mexico is, if you look at the uninsured—I showed a chart in the Chamber a little bit earlier—one in four New Mexicans is uninsured. The big question is, Who are the uninsured? Who are the folks out there who are uninsured? As shown on this chart, adults under the age of 65, 31 percent; working New Mexicans, 31.4 percent; Hispanic Americans, 49 percent. So the uninsured are people we fight for every day, people we know, people we run into.

I know in the HELP Committee one of the things really focused on was the fact that we are talking about working people, working families who do not have insurance. They are out there in these smaller businesses. I know when you worked on the bill in the committee, you heard that kind of evidence. And you know your Rhode Island situation. Could you talk a little bit about that because I think people somehow think, like you said—I think you said earlier that being uninsured is from a foreign planet or something. These are people who are in our midst all the time. They are working hard, but they cannot afford insurance, and these small businesses cannot afford insurance to cover them. I was wondering if you could talk about that a little bit.

I see Senator BURRIS from Illinois has also joined us.

Mr. WHITEHOUSE. Madam President, I will speak briefly so the distinguished Senator from Illinois can follow up. I thank the Senator from New Mexico for the question.

In 2007, 2008—2 recent years—nearly 90 million Americans went without health insurance at one point or another. That is close to one in every three Americans, which means as you go around your neighborhood, the fellow with the truck delivering oil to heat your home; the lady in the corner at the bookstore; the guy who owns the gas station down the road—innumerable people whom you know in your real, regular life are in those nearly one in three Americans who are going through a period being without health insurance coverage. Some of them are going to be young people who choose not to do it. Some are between jobs,

and they rely on an employer to provide coverage because good luck buying coverage on your own in this country if you do not have an employer to argue the price down for you.

But I think it is really important that we press back against the notion that some of our colleagues are pushing forward: that there is this little group of uninsured who just kind of are not regular people and are different and are a problem, that they are not part of the American fabric. It is one in nearly three Americans who goes in and out of health insurance coverage.

As a parent, I have to tell you, if I had to go home at night and tuck my kids in and then go to bed myself and talk to my wife and be thinking about what might happen the next day if they got sick because we did not have health insurance for them—what an agony for a family to go through that period, when everything is at risk, when you are one illness away from losing everything you have. We put 90 million people through that in the last 2 years. It is real people, working people, real families, and they feel a lot of pain. That is one of the reasons we have to act. We have to get the reform bill done. It is for them, not for the special interests.

Mr. UDALL of New Mexico. Madam President, I say to Senator WHITEHOUSE, thank you very much.

One of the things I have just realized now, one of the things the three of us have in common is we were all attorneys general. I am proud of that fact. I am very proud of my service as attorney general. I know you both are. We were out there as attorneys general fighting for these working Americans we are talking about, whether it was consumer protection or doing law enforcement.

Madam President, I say to Senator BURRIS, I know those working families the Senator worked for back in the 1990s are the same working families he is fighting for on the public option. Could you jump in here? I know you have a situation in Illinois where you have traveled throughout the State. You have taken a measure of what is happening in Illinois with regard to health insurance. What would you say?

Mr. BURRIS. Well, Madam President, I say to the distinguished Senator from New Mexico and the distinguished Senator from Rhode Island, it is certainly an honor for me to be able to participate in this discussion.

I just left my 50th college reunion down in southern Illinois, where I had attended Southern Illinois University. I was introduced at the football game, by the way, which SIU won 46 to 23 or something like that. We beat Illinois State University. They announced me in about the third quarter.

Well, after the game was over, I say to the Senators, there was a line of people lined up to talk to me. What

were they saying in that line? Most of them were saying: Senator, whatever you do, we want you to keep a public option in that insurance bill.

I said: Well, there are three bills in the House, and they have a public option in them. The bill that came out of the HELP Committee here in the Senate has a public option. And we have not gotten the Finance Committee bill—as of last Saturday. But we just passed that bill the other day. Now, it does not carry a public option. What I am saying is, I do not see how we can address all of these issues dealing with health care rather than sick care, which is what has been taking place in America, without dealing with something that is going to create competition, create a reduction in costs, and, of course, cover millions of Americans. Senator WHITEHOUSE just talked about that 90 million—well, 47 million who are underinsured, and another 25 million to 30 million who are uninsured. So those are the problems we are having, and that is what it is going to take in order for us to get reform in America.

It is unconscionable to think we could do insurance reform and think that the insurance companies are going to not continue to make their profits. As a matter of fact, I spoke about this on the floor a few moments ago. Would you believe that what they have done is criticize the bill that came out of the Finance Committee? They have played into our hands. They have criticized that bill, talking about how much money it is going to cost, which gives us the best reason we would need a public option: because the premiums are going to go up if they don't have any competition.

When we look at their profits over the years, we see a 428-percent increase in their profits from 2000 to 2007. That is unacceptable. It is just unacceptable.

Mr. WHITEHOUSE. Mr. President, would the Senator yield for a question?

Mr. BURRIS. Yes.

Mr. WHITEHOUSE. As a former attorney general who had antitrust and consumer responsibilities, how many industries can the Senator think of that would get to announce to the world, if this bill passes: We are going to raise our prices! If you are in a competitive marketplace and you are not colluding with each other, how on Earth do you know as an industry that you are going to get to raise your prices, you are going to be able to decide to raise your prices? Isn't the market supposed to do that?

Mr. BURRIS. It is market driven, that is correct. If they do, they have collusion going on in terms of everybody raising their prices so they would be competitive, and they couldn't then go to choice and thereby keep the rates up and their profits up. So we are talking to the current AGs. If they would do this, we might have an antitrust ac-

tion, but that certainly is a circumstance we must be concerned with in terms of how they are seeking to increase their prices, and they might even be involved in a little price fixing.

Mr. UDALL of New Mexico. Senator WHITEHOUSE and Senator BURRIS, if you would just give me a second, I want to make sure he talks about the situation of workmen's compensation in the State of Rhode Island. I believe several States—and you have had experience with this—have experimented with a public option in the workmen's compensation context. It tells us a lot about what public option would mean if we put this in our health care bill.

Could the Senator speak to that a little bit?

Mr. WHITEHOUSE. We have heard a lot about how, if we let a public option go forward, it will give terrible customer service, horrible customer service. Senators have said it will be the worst combination of the IRS and the local Department of Motor Vehicles. But we can go to a State such as Wyoming, which is the home State, for instance, of the very distinguished ranking member on the HELP Committee who is also on the Finance Committee and, indeed, was one of the negotiators with Senator BAUCUS. When he goes home, he goes home to a workers' compensation system that is a single-payer, government-run system. The Wyoming business community doesn't seem to complain about it. So obviously, the customer service can't be that terrible because they would be thrown out if they were that terrible.

The other thing we hear about the public option is that if we let it in the door, it will take over the system because a public insurance plan can't compete fairly with private plans. There are predators who will be let loose in the system, we have heard people say. Well, half the States in the country have public plans that sell insurance in the workers' compensation market which provides—about half of it is health insurance. Some of it is paid back wages that were lost, but the rest of it is health insurance. It is little things such as carpal tunnel, it is terrible wrecks that occur, chronic conditions. All the different aspects of health care that get provided by health insurance also get provided by workmen's compensation insurance.

If we go to Arizona, for instance, which is the home State of the very distinguished Senator MCCAIN who ran for President on the Republican ticket, and Senator KYL who is the assistant Republican leader of the Republican Party—they go home to a State where there is an Arizona public workers' compensation plan that has been competing with the private sector in that market, I believe, since 1925. I don't have my notes in front of me, but my recollection is that it was from 1925. So for 80 years, they have been running in competition with the private sector.

That doesn't sound to me as though once we let the government in, competition is doomed.

The distinguished minority leader, Senator MCCONNELL, goes home to Kentucky. In the Kentucky workers' compensation system there is a private plan. The Kentucky workers' compensation plan, run by the State, is a public plan. It goes out and competes day to day with the private plans. It adds to the healthy marketplace. It adds to the choices that Kentucky business owners have. I have never heard Leader MCCONNELL or Senator MCCAIN come to the floor to criticize the workers' compensation public plans that operate at home.

So I think there are at least some examples that disprove some of the worst arguments that have been made about the public option: that it will give us terrible public service—well, the single-payer, all-government plan in Wyoming seems to disprove that—and that half of the States in which there is a competitive plan, including Arizona and Kentucky, would seem to disprove the notion that as soon as we let a public plan in to compete, it will take over. It just hasn't, it just doesn't, and the actual facts—what the military calls the facts on the ground—are different than the rhetoric in the air.

Mr. UDALL of New Mexico. Senator WHITEHOUSE, if I can interject at this point, I think you have given great examples of why we need a public option. As part of health care reform we are going to be doing in the next couple of weeks in the Senate—we have a Senate Finance Committee bill out of the Finance Committee now and we have the HELP Committee bill and our leadership is putting those two bills together—we have to have a public option be a part of the bill.

Senator BURRIS was visiting a little bill earlier about Illinois and the Illinois citizens and their comments on the public option. The Senator from Illinois may want to join in with what Senator WHITEHOUSE said about that competitive factor with workmen's compensation.

Mr. BURRIS. Mr. President, I think we must also give what is a very simple definition because I think the term has gotten misconstrued in terms of what the public option is. I hope our colleagues will understand it is nothing but choice. It will give the person who is uninsured, if they cannot get insurance—let's say the person has a pre-existing condition and they lose their job and that person goes to get insurance and they will not insure that person. Hopefully, our bill would take away the preexisting condition problem.

Let's just say the premiums are too high. Well, if there is a public plan, that person can go in and then acquire his or her insurance based on his or her income and ability to pay. That is

what we are talking about. That is the option an uninsured person would have. That option will entitle that person to get health insurance. It also, under this legislation, would entitle that person to get preventive care, which would prevent that person from getting a chronic disease or getting to the point where a disease gets chronic and they end up going to the emergency room in order to get service.

So we are talking about saving funds. We are talking about cutting down on the cost. We are talking about eliminating premiums.

So I say to the distinguished Senator from New Mexico, it is crucial the words "public option" don't turn people off because it has gotten to the point where it is creating problems in itself, the definition. But the purpose is to make sure those persons who don't have insurance will get insurance.

The President has said this. President Obama said: If you have your insurance and you like your doctor, we are not going to touch you. The reform would not interfere with you. Therefore, we are going to have it so that all of those almost 90 million Americans can get insurance, which will mean it will cut down on the costs we are all paying because of those persons who have to go to emergency rooms and who are not insured.

So I hope our colleagues will understand how important this piece in the whole reform bill is, where there will be choice for Americans, choice so they can select a company and not be paying premiums through their nose because premiums are going to go up. If we don't get reform, if we don't have reform for competition, if we don't do public option—this document says if we compete with private companies, these companies will raise their rates during this critical time by 111 percent. If we look at the profits they are making now and over the years, we will find those profits have been exorbitant. Therefore, I will say to my colleagues, it is key, even to my State of Illinois where we have only two insurance companies doing 69 percent of the insurance—that is almost a monopoly on who gets insurance—but two companies in Illinois, and we are a State of 13 million people. When two companies cover 69 percent of those who are insured, that, to me, is just not enough competition for rates to be reasonable so it is affordable.

Mr. WHITEHOUSE. Would the distinguished Senator from Illinois yield because he has made such an important point.

Mr. BURRIS. Yes.

Mr. WHITEHOUSE. He made the point about the lack of competition out there right now. I know that in Illinois, the lead company has nearly 50 percent market share, and the second company, a 22-percent market share, for a grand total of 70 percent market share, just in those two companies.

Mr. BURRIS. Yes.

Mr. WHITEHOUSE. But it is not just a problem in Illinois. There are 39 States—39 States—in which the top two insurers—just the top two insurers—have the majority of the market; more than 50 percent of the market, just between two companies. In nine States, one insurance company—one insurance company—has more than 70 percent market share, one company.

So the notion that there is a lot of competition going on out there isn't supported by the facts. If you are in one of those nine States where there is one insurer that has more than 70 percent of the market, you don't have a lot of choice. That insurer has extraordinary market power, particularly since they are immune to the antitrust laws.

Mr. BURRIS. Yes.

Mr. WHITEHOUSE. Extraordinary market power, and in the 39 States where more than 50 percent of the market is captured by only two insurance companies, they have extraordinary room to raise prices and fix prices and work with each other to make sure they maximize profits instead of taking care of regular folks, the folks I talked about earlier, real people who suffer real consequences. The result of it is that our health care expenditures are going through the roof.

I was born in 1955. In 1955, we spent \$12 billion a year on health care. In 1979, I just got out of college. It grew nearly 20 times, to \$219 billion that we spent on health care as a country. In 1987, I was just about to have my first child, my daughter, half a trillion dollars, \$500 billion. In 1992, we spent \$850 billion. Here we are in 2009, \$2.5 trillion. Look at the direction on the chart—the direction of that spending curve. We have to turn that around. Everybody in America, the insured, uninsured, doctors, nurses, hospitals, everybody has an interest in us getting this right and getting this bill passed so we can turn it around. I don't want to make a joke out of this, but do you remember the last time we had tried for health insurance reform, the insurance industry, which has turned on us now, turned on us then with Harry and Louise, who were that nice couple who raised all these worries and fears. They always worked with fear. I said the other day that Harry and Louise are not the problems; now it looks like Thelma and Louise. With those health care costs climbing, we are headed for the cliff, and we are all in the car together. It will be Democrats who have to work together to solve that problem before we go off that cliff.

Mr. BURRIS. That is key. I am looking at 29 of our colleagues in this body calling for a public option. That is a tremendous number.

Mr. WHITEHOUSE. I wouldn't be surprised if it were more.

Mr. BURRIS. Maybe there are 30 of us who signed the letter at this point.

Just what the Senator said—it is crucial that we now think about 30 more. We have to work on that.

Mr. UDALL of New Mexico. We have now been joined by Senator BROWN from Ohio. As the Senators who are on the floor know, he led an effort like this last week to put the public option forward. He has been amazing in terms of being dogged and being here on the floor fighting for the public option. I know he talks frequently about how people in Ohio have a real passion for this.

Mr. BROWN. I thank the Senators. Back in our States, Rhode Island, New Mexico, Illinois, Ohio, and Washington, we all hear from constituents all the time who are unsure of what their future is with health care. Too often they are denied coverage with preexisting conditions. Too often they have annual caps or lifetime caps on coverage. They thought they had good insurance. In fact, what I found in the mail I got from Springfield, Cleveland, Dayton, Oxford, and other communities is people thought they had pretty good insurance, and they find out, once they get circumstances when they needed insurance, it is not so great. They get sick and they have huge hospital bills and they have huge doctor costs or other expenses and they get a note from the insurance company that they are not going to cover that.

Some of the letters that break my heart are from people who clearly are under so much stress because of breast cancer or because their child is sick and they are spending hours a week fighting with insurance companies. It is those people who thought they had good insurance who find out it is not so great after all and they really support the public option. They understand we are going to change the rules in this legislation. No more disallowing care for preexisting conditions, no more caps or discrimination based on gender, race, or disability. They also know insurance companies are good at gaming the system. Without a public option, so many people think insurance companies will continue to game the system, even though we have written better rules in this bill. They understand insurance companies such as Medicare doesn't—excuse me, the public option, like Medicare, won't disallow somebody for a preexisting condition and throw them off insurance. They will keep the costs down. We know what the insurance companies said a couple days ago when they talked about costs going way up as if they have not doubled that anyway in the last 8 or 9 years. That was one more call and is actually is the best endorsement yet of why we need the public option.

Mr. WHITEHOUSE. If the Senator will yield for a question.

Mr. BROWN. Yes.

Mr. WHITEHOUSE. Not to belabor the obvious, but could he comment on

why it is that a for-profit private insurance company might pursue things such as rescission, which is when they throw you off a policy when you get sick because they found an error in your form, and you have been counting on the policy for years, but suddenly you are sick and they throw you out the door? What might the difference be between a for-profit insurance company and a public option when they are looking at that circumstance?

Mr. BROWN. Right. I will answer it in a fairly unusual way. I have a friend who is a lawyer for a company that produces soap. She said to me: I am glad we have a strong EPA because we are doing what I want to do anyway, and now our competitors have to.

If you are an insurance executive—if the four of us were insurance executives and I disallow people and I put caps on coverage because of preexisting conditions, and I do rescission, you are all going to have to do that. A lot of people may think this group of Senators up here hates insurance companies. I think insurance companies operate in their own short-term financial self-interests. That is why we need different rules, so they cannot deny care this way, and that is why we need a public option, which sets a gold standard. Public option will not use rescission. Public option will not deny care or put a cap on coverage or discriminate. Public option will not use preexisting conditions to keep people off. The public option will set the standard. So if these other private companies want to compete—and Senator WHITEHOUSE and I and our staffs in the HELP Committee wrote most of the language for the public option in a way that there would be a level playing field, and they will compete with Cigna and Aetna and United and WellPoint and these other companies in a fair way. We may not see the Aetna or Cigna CEOs making \$22 million next year because you can make that kind of money because you are cutting people off, you are using rescission. Once these insurance companies have to go under a set of rules, enforced in part by the public option, these salaries and profits may not be so gargantuan as the insurance companies have enjoyed all these years.

Mr. WHITEHOUSE. I mentioned earlier that in Rhode Island a for-profit insurer with only 16 percent market share, in a State of only a million people—you are all from bigger States; Rhode Island is a million people. It had 16 percent market share. It extracted in 1 year \$37 million in profit to repatriate to its headquarters out of State—\$37 million. Imagine how much care you could provide to 16 percent of a market of a million people with \$37 million, if you put that back into health care instead of taking it out in profit.

Mr. BROWN. As the public option mostly will do.

Mr. WHITEHOUSE. Yes, as the public option would do.

Mr. UDALL of New Mexico. We are near the end of our time.

The PRESIDING OFFICER. The time of the Senator has expired.

Mr. UDALL of New Mexico. I ask unanimous consent to have 3 additional minutes.

Mr. COBURN. I have no objection.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. UDALL of New Mexico. I thank the Senator. I point out tonight that we have had a number of Senators come down here, and we have also been presided over by the gracious Senator from the State of Washington, Senator CANTWELL. I know she is a strong proponent of a public option. We have had Senator CARDIN from Maryland, Senator BROWN from Ohio, Senator WHITEHOUSE from Rhode Island; we had our distinguished majority whip, Senator DURBIN, here talking about public option. We have also had Senator ROLAND BURRIS from Illinois. So we have had a key group here.

We are going to continue to do this because, as Senators BROWN and WHITEHOUSE and BURRIS know, we have to get this done. Our constituents want it. The American people want it. There was a poll done, and 72 percent of the American people want to see a public option here.

I don't know if any other Senators want to sum up.

Mr. BURRIS. Well, 72 percent of the doctors also are supportive of the public option.

Mr. BROWN. I know one doctor who may not be for it on the other side of the Chamber.

The Robert Johnson Foundation found that more than 70 percent of the physicians supported the public option.

Mr. UDALL of New Mexico. I thank Senator COBURN for not objecting. I thank all Senators who appeared here today.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma is recognized.

Mr. COBURN. Madam President, I listened off the floor to the debate of my colleagues. Many of the things that they identify as problems, I certainly agree with. Where we part company—having been in the health care field for over 25 years, and having practiced medicine during that period of time—is on the solutions they propose. Oftentimes, that will destroy the best of medicine that we have in America today and will render a larger government with less freedom in our country.

I want to address a couple of the issues. From the start, the assumption of those for the public option is that the government has done a good job with the health care programs they run today. I wanted to give a little history and put forth a little history.

There is no question that Medicare has benefited millions of Americans,

and will continue to do so if we can figure out a way to pay for it, which is one of the sad things about the pay-fors in this bill—that we are going to borrow \$500 billion and take another \$500 billion out of Medicare and create another program, when Medicare is not funded. If you go through health care today in the country, 61 percent of all health care expenditures in this country go through the government. If 61 percent is already going through the government and we are having health care inflation at 7 or 8 percent, why is it that if we are so good in 61 percent of it, we still have these kinds of problems as a whole? And actually health care inflation inside government programs is higher than outside government programs, which proves the point that we should not eliminate health insurance companies, but we should make them more efficient and streamlined.

The assumption behind the public option is this: They look at Medicare and at the administrative costs of Medicare and say that is all it costs to run Medicare. Then they look at the 10(k)s, the profit and loss statements of the insurance industry, and say look how high that is. If you take all of the health care insurance industry as a percentage of the dollars spent in health care and look at their expenses and their profit and their costs for running their business, in terms of cost of capital, and compare it to the true cost of running Medicare, what you find is Medicare costs about 3 or 4 percent more to run than private health care.

Nobody could be more disturbed as a practicing physician than I am about wanting to rein in the abuses in the insurance industry. Their answer is to create competition with a government plan. I believe you create competition by creating real competition. A government plan, government option isn't competition. It is the elimination of any other market in health care. How do we know that? We know that the way people are going to sign up for a government plan is because it is going to be cheaper. If you take the same factors—for example, the 15-percent fraud rate in Medicare and Medicaid—and add that to the cost of the plan, what you are going to see is we are going to end up subsidizing the government plan to a greater extent than even CBO would put forward. I will have a report in the next couple weeks that will outline CBO's accuracy on health care costs since they have been scoring them since 1965. I can tell you right now that the record is atrocious. Sometimes they missed it by 15,000 percent. They underestimate what the costs are.

I want to share a story about two of my patients over the last 6 or 7 years. I also want to share another story about somebody I talked to this week, whose son dropped out of medical

school and chose to not go to medical school. He was accepted, but he chose not to go because of this very debate and the likelihood that the government will become more involved in health care.

The story I want to tell goes to the very real need that my colleagues were addressing, which is true changes in health insurance. Everybody in this body wants to address the cost issue because that issue is what is driving the problems with health care. If somebody doesn't have access, it is not because it is not available out there, it is because they don't have the money to buy the access. So cost becomes the first stumbling block. Whatever we do, the No. 1 thing we ought to do is try to decrease the costs associated with health care. How do we do that? Do we do that by modeling Medicare, Medicaid, SCHIP, Indian health care, VA? Is that how we do it? Or can we do it in a way that will truly drive down the costs? There is no estimate out there about the actual cost reductions in the bills that are coming forward, either the Finance Committee bill or the HELP Committee bill. The HELP Committee bill actually raises the cost of health care. Should we be about figuring out how to lower costs? Let me give some examples.

Safeway has had no increase in health care costs for the last 4¾ years. How did they do it? They created incentives for their employees to stay healthy. When I say incentives, they were paying their employees cash money to change their behavior. They are limited on how much they can do that by a law called HIPAA, and, in fact, if they could do more, then they actually could have had a marked decline in their health care costs.

Then there is a company called MedEncentive where they run the insurance program for communities' municipal employees. Everywhere they have been they have lowered the cost of health care. How do they do it? They incentivize doctors by paying them more and incentivize patients by agreeing to do what the doctor says by cutting off their deductible or lowering the cost of their prescriptions if, in fact, they will follow good practices, best practices in terms of their care.

There are other examples such as Asheville, NC, where they have had a marked decrease. On average, what we have seen is a 20 to 30-percent decrease in health care. There is not a government involved in any of that.

I want to go back. Why is it that we view a government option as the answer? Because we perceive that the government can do it more efficiently and we perceive that is the only way you force competition in the health insurance industry. I agree, there is no significant competition in the health insurance industry. But having the government compete in it versus forc-

ing competition is where we divide and go away.

The second reason they want a government option is the following: If you are my age, in your early sixties, what is going to happen to you in Medicare is you are not going to have the same care that the people in the last 10 years have had because the reason they want a government option and the reason we want what is called a comparative effectiveness board is because the real reason for having a public option and a comparative effectiveness board is to mandate what can and cannot happen to you.

As a physician who has delivered thousands of babies and cared for every complication in gynecology and obstetrics one can imagine, as a physician who has cared for thousands of children from birth to high school, as a physician who has taken care of grandmas and grandpas in their elder years with complications from heart failure to cancer to chronic obstructive pulmonary disease to pneumonia to anything else, what is going to happen is the options are going to be limited.

The ultimate undercurrent of why we need and want a public option is that we will eventually create a system where most of America, about 82 million people, who have private insurance today will be in that public option and they will decide what you can and cannot have, which is counterintuitive to how we allocate scarce resources everywhere else in the country. We do allow the forces of competition to allocate it, but it requires individual personal responsibility. It requires a transparent market, which I agree we do not have. It requires real competition, which I agree we do not have. But the answer is not another government program.

Now back to the two examples in my practice. I give these examples because I want people to see what is going to happen as the government becomes more and more involved in health care.

These are two patients I have cared for over 20 years each presented at different periods of time with no true signs or symptoms of significant disease other than the fact that having known these people for years, I sensed something was different. I ordered a test. It was denied by the insurance company. I managed to get my friends, who happen to have an MRI who also practice medicine on a not-for-profit basis, do an MRI on this one gentleman. It just so happens the gentleman had the same disease that Senator Kennedy recently succumbed to. No signs, no physical diagnosis.

The only thing that allowed me to query that was the art of medicine. Not the book training, not the gray hair, not the experience, but the gut of knowing and having seen and been experienced with a patient over a long period of time to say something has changed. In fact, the insurance company came back and paid for the MRI.

An identical thing happened about 4 months later with another individual. One of those individuals, by the way, is still alive. The other, unfortunately, succumbed.

So we do need real competition in the insurance industry. We need to make sure we create that. The debate between what my colleagues on the other side of the aisle offered tonight is how do you best do that. Do you do that by setting up a government program that is infinitely funded and will actually charge rates that will be under the true costs and will be just like another Medicare Program where we have an unfunded, long-term liability that our kids are going to have to pay for, close to \$75 trillion? That is the worry. That is what the real debate is.

I thought I would spend a minute talking about can we fix health care without tremendously growing the size and scope of the Federal Government. You cannot even talk about health care until you are willing to talk about what we are doing today. What we are doing today and what we are going to be doing tomorrow, and, if this bill passes, what we are going to be doing for the next 20 years is borrowing a large percentage of the money we will spend from our grandkids. That is an unsustainable course. It is not one that we can achieve.

As we do that, we end up with youngsters such as this. If you cannot read this, it says: "I'm already \$38,375 in debt and I only own a dollhouse." That is a pretty stark statement. Here is a cute little girl on whom her parents have put a placard. Her parents obviously recognize that we are spending money we don't have on things we don't need.

I am not saying there isn't anybody in this body who doesn't want health care reform. Nobody probably wants it more than I do. It is the type and how we get there that is important and do we make her situation worse. Do we raise the amount of money we are borrowing to be able to fix a problem that is going to be a government-centered problem rather than a patient-centered focus?

Then we have this quote from Thomas Jefferson:

I predict future happiness for Americans if they can prevent the government from wasting the labors of the people under the pretense of taking care of them.

That is a pretty interesting statement and pretty insightful and foretelling because that is exactly where our Nation finds itself today—"wasting the labors of the people under the pretense" that the government will take care of them.

In about 10 years, government spending is going to be about 35 percent to 40 percent of our economy, and that is if we make it in the next 10 years given the present financial difficulties we have. But if we think and ponder a lit-

tle bit about what Jefferson had to say and we look at the Constitution, what we find is that through the last 20, 30, 40 years in this country, back to 1965, we started stepping outside the bounds of the enumerated powers that our forefathers brought forth. We have ignored them. Consequently, now we have government program after government program and agency after agency and we cannot afford it. We are borrowing the money. Under the guise of taking care of U.S. citizens, we can rationalize it.

America's health care is the best in the world. It just happens to be the most expensive. There are lots of ways to drive that cost down that are not at all considered in the bills in front of the Congress. Incentivizing people to do the right thing, the best thing, incentivizing the elimination—do you realize that 80 percent of the cost of health care today is defensive medicine; that if you attacked it slightly, not by eliminating lawsuits but by eliminating frivolous lawsuits—let me give the details. Ninety percent of all the suits that are filed never go to court and never get settled and never get answered. In other words, they are extortion claims. There is not a real medical claim. There is not a real issue, and it is not carried forward. Of the 10 percent that are either settled or carried forward, 89 percent of those are decided in favor of the medical community. So that is 11 percent of 10 percent, which is 1 percent of the cases.

If, in fact, we did not have the 90 percent of the cases that are frivolous, that are extortion attempts, what we know is that we could save about—CBO says under their score with limited liability changes, \$54 billion over the next 10 years. Other sources say it is closer to \$74 billion, \$75 billion. Madam President, \$74 billion to \$75 billion a year does a lot to help individuals in terms of free care, in terms of lowering the cost of care because, in fact, every insurance company in the country is paying for that care.

Finally, I will make one other point, and it is this. What most Americans do not recognize is that in this new bill that is coming out of the Finance Committee, there is a significant number of taxes. Actually, you are going to recognize the fourth tax on health care in this country. Right now you pay income taxes and a large portion of that income tax is now paying for Medicare and Medicaid—57 percent of it and 43 percent we are borrowing.

The second tax you pay is a Medicare tax of 1.45 percent and your employer pays 1.45 percent of every dollar you earn no matter how much you earn.

The third tax you pay is your private health insurance, whether you buy it through your employer or you buy it yourself, costs \$1,700 more per year because of the underpayment for the cost of health care for Medicare and Med-

icaid. So the cost of actually purchasing your health care goes up by about \$150 a month per family because we underpay the true cost of care under Medicare and Medicaid, and they are both broke.

Now we have a fourth tax of which 50 percent is going to be levied on people from \$40,000 to \$140,000 a year, billions and billions of dollars of new taxes.

Then we have taxes on the insurance industry. I don't have any problem with that—taxes on medical devices, taxes on PhRMA. But who is going to pay those taxes? Those taxes are going to get filtered down to the increased cost of health care. When we pay a tax when we go to a store to buy something, we pay that tax on top of the price.

So the groceries or the TV or whatever it did cost—what we thought it cost—it would cost that plus tax. That tax, in terms of the insurance industry, in terms of the Medicare, in terms of the drug industry, in terms of the medical device industry, in terms of PhRMA, is going to get passed on, causing an increase in cost. That does not include the tax you will incur if you choose not to buy health insurance because you think you are healthy or you want to self-insure yourself. You are going to pay a tax for that. Oh, by the way, if you happen to have a great health care plan or maybe a moderate health care plan, the way the bill is written, you are eventually going to pay a tax because it is going to be too good a plan. So we are all going to have four taxes on health care.

I wish to make one other comment. We all traveled during the month of August and we met with our constituents. This is the HELP bill that came out of the committee after 3 weeks of hard work. This is not the complete bill that the Senate will be considering. This is just part of the bill, and it is 840-some pages long. The standard protocol in committees, if you vote a bill out of committee and you have changes to it, what you do is put a modified bill on the floor—a substitute bill when the bill comes to the floor. Well, there are 85 changes to this bill that have not been approved by the committee. Yet this is the committee bill.

So not only do we have a debate that is erroneous in terms of the direction it is taking—in creating a larger government, taking away individual freedom, individual choice, limiting one's availability of insurance, increasing premiums, increasing taxes, and taking away an individual's ability to choose—we also have a bill that has been modified, outside the rules of the Senate, 85 times versus the bill I voted on in committee. That shouldn't surprise us, however, because of the way we are handling health care.

So I will sum up with just a couple other points. I don't believe there is an

American out there who doesn't think we need to do something about making health care more affordable, more available, and fairer in its treatment. I don't think there is an American who doesn't agree that we have a lot of waste in the health care system that can be eliminated. I don't think there is a physician out there who doesn't think we need to make some changes in terms of competitiveness in insurance and how that interferes with the decisionmaking by physicians and other caregivers. But I also don't think it is truly appreciated that in this country, if you are sick, you are going to get the best treatment anywhere in the world. It is just that it costs too much.

So how do we address that? Do we address that by growing the Federal Government and creating in this bill 88 new government programs with the bureaucracies that come with it or do we enable people to have the freedom to choose, to make their own choice about what they want and they need? With the finance bill, we are going to tell you what you have, we are going to tell you what the minimum is, we are going to limit your choices, and we are going to see a run toward either a regional co-op plan or a public plan.

But there is no question that what we are going to see is government-centered involvement in what we do and how we do it. That may be the direction we ultimately go. But the loss that comes with that is the loss of freedom, a loss of choice, and a diminished demand for personal responsibility and accountability, which is the very thing this young lady is counting on us doing the opposite of.

We are going to double our debt in the next 5 years. We are going to triple it in the next 10 years. It is going to be worse than that because we are spending money like drunken sailors. What do we owe the generations who follow us? What is it that we owe them? Do we owe them the heritage that was given to us? Are we going to transfer that heritage on, or are we going to ignore it?

In terms of health care, what is the best thing for our country in the long term? Can we take on another \$1.3 trillion of government at a conservative estimate, especially when you count what is going to happen with what is called SGR—the physician payment reform? Can we take on \$1.3 trillion? Will it only be \$1.3 trillion? Will we move another 10 percent of our GDP to the government? Because that is what we are doing. At what point in time does the American experiment quit working?

I look forward to the debate on health care. The plans before us will raise premiums, decrease care, limit choice, and bankrupt our grandkids. By saying no to that plan, it doesn't mean you don't want to fix health care.

There are some great plans out there to fix health care that don't cost money; that, according to CBO and others, will give the same results but will not create the massive new Federal bureaucracies and take away personal freedom to make decisions about you and your children and your family based on what your needs are, what your perception is, and what your ability is.

Madam President, I thank you for the time tonight, I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. WARNER). Without objection, it is so ordered.

Mr. BROWN. I ask unanimous consent to speak as in morning business for up to 10 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. BROWN. Mr. President, earlier this evening, only an hour or so ago, Senator UDALL from New Mexico led a discussion with Senator BURRIS and Senator WHITEHOUSE and others. I was there part of that time, with Senator CANTWELL involved from the Chair. It was extolling the importance of the public option, that it makes such a difference in terms of keeping the insurance industry honest, keeping costs down, and providing extra choice, so if people want to choose private insurance, they can; if they want to choose the public option, they can.

The insurance industry, in its wild claims only 2 days ago in a manufactured report that an accounting firm did that was clearly incomplete and hastily done, claimed huge insurance company increases based on our legislation. The fact is, they have already doubled insurance rates in less than a decade, in only 7 or 8 years. That is as good an argument for the public option as we can find.

In 5 minutes or so, I would like to speak to the Senate. I have come to this floor, night after night, reading letters from constituents I have, from Trumbull County near Youngstown, near Summit County, the Akron area, from Cuyahoga County. These all happen to be, in this case, from northeast Ohio, from near Dayton or Cincinnati or Wilmington or Chillicothe.

What I found in letters I am getting from my constituents, as is the Presiding Officer, I think, when he gets letters from Richmond or the Washington suburbs or from western Virginia, is that most of this mail I get comes from people who had good insurance policies, they thought, until they got really sick, and then their insurance policies would be canceled or they would spend so much of their time fighting insurance companies just to get payment, to get payment for something they thought they were covered for. I would like to share a couple of these letters.

Beverly and Dennis from Trumbull County write:

My husband is 62 . . . and worked for the same factory for 42 years . . . last year the factory shut down and his severance package was \$8,500 before taxes and 3 months paid insurance.

Forty-two years, \$8,500 severance, 3 months paid insurance.

After the insurance ran out, we picked up COBRA, which will be up this December right before Christmas. We've talked to different private insurance companies, but without anything really wrong with my health, they say my minor medical condition diagnosed 30 years ago was a preexisting condition. The best plan offered, just for me, was \$1,000 a month with a \$10,000 deductible.

A preexisting condition from 30 years before.

We have always been proud of our accomplishments over the 43 years of our marriage. I don't want to lose everything we have worked so hard for if something happens to us medically.

I wish those opposed to reform—

I wish my colleagues would listen to this.

I wish those opposed to reform would have to worry about the next meal, the next bill, the next doctor's appointment, or what would happen to them if they got sick.

We thought things would be smooth sailing after we got to our age, but we're afraid our boat is sinking and we are drowning.

Forty-two years in the same plant, married for 43 years, played by the rules, seemed to do everything right. This is what is happening to these people in their early sixties.

As many of these letters indicate, a lot of these letters come from people who are 59 or 63 or 61 or 64, just holding on until they can get Medicare because they know Medicare, like the public option, will never drop them for pre-existing conditions, will not discriminate against them because of geography or age or disability, will not cut them out of their plan, whether it is the public option or whether it is Medicare, for all kinds of reasons the way private insurance does.

Angela from Cuyahoga County, Cleveland area:

As a registered nurse I have seen too many cases where the lack of insurance prohibits needed care. I have experienced first-hand what it means to have insurance but be afraid to use it. My husband has worked for the same employer for more than 10 years, but both he and I are afraid to use his insurance for fear that too many medical bills will increase the cost of our plan. In the past 2 years, he has received memos stating that to keep medical bills down we should seek medical visits only when necessary.

As a strong believer in preventive care, I feel discouraged to go for my yearly physical

and my husband has not had a physical in 5 years.

This is from a nurse.

Thank goodness we are reasonably healthy. I encourage you to keep pushing for a public option—I'd be one of the first to sign up.

Think about that, her husband got a note from his employer saying: Please don't go to the doctor unless you absolutely have to. She is a nurse. She hasn't had a physical for a year. She hasn't had her yearly physical. Her husband hasn't had a physical in 5 years. They know they should get a physical. They are afraid of what it would cost both them and the employer to do that. Again, they are the victims of the health care system that too often skimps on preventive care, too often denies people coverage for reasons it should not, too often simply is a burden to so many of the people who have insurance.

I will close with a letter that is about health care but also about something this Senate needs to vote on quickly; that is, unemployment insurance. This is Mark from Franklin County, central Ohio. He writes:

I need my health insurance badly since I have had cancer twice. The only way I could previously afford insurance was through my employer. But my company was recently bought out and I was laid off.

Because of my preexisting condition, I can't afford the price of private insurance. In addition to my health and job issues, I have only one more extension on unemployment.

I really don't know what to do if I can't afford insurance. If I could find a way to receive insurance or get a job with insurance, I could be here for my little girls who I care for and who looks up to me for the world.

One person on the other side of the aisle, one Republican, stood up and objected. We were trying to pass the same unemployment insurance extension as they did in the House of Representatives. I know every Democrat is for extending unemployment, and I know most Republicans are probably for extending unemployment, but one Republican stood up and stopped us from doing that. That is so important because every day we fail to extend unemployment insurance, people are dropping off the unemployment insurance rolls and have to fend for themselves in ways that they don't know what to do.

It is not as if people don't want to work. The situation clearly is that people want to work, they are trying to find a job. In this economy, in my State as in many States around this country, people simply cannot find work, as hard as they are trying. We have an obligation to extend unemployment benefits. Not next month, not next year, but tomorrow when we come back here, I am hopeful my Republican friends across the aisle will not object to that extension of unemployment.

The last letter I will read is from Renee from Van Wert County, western

Ohio, near the Indiana border. She writes:

I, along with 300 other workers, were locked out of our company last year after it closed down and moved to Mexico. We will be losing our benefits this month and it is urgent you get unemployment extension passed as soon as possible. It would help so much if we could get our benefits extended, at least through the cold winter months.

I'm looking everywhere for a job and hope there is something opens up by the spring and the economy will pick up.

Thank you for reading my story and making me feel like there is hope.

Renee, again, we will go to the floor tomorrow to try to extend unemployment benefits.

Renee points out, particularly with the winter months coming, people will have to choose, if they don't have unemployment extension, between food and heating their home and taking care of their kids and all the responsibilities people have.

Somebody like Renee, from Van Wert County—I know Van Wert County. I spent a lot of time there. I know about the shutdown of this plant that went to Mexico. There are 300 people who lost their jobs. It is not as if they don't want to work. They were working hard, showing up for work every day. They were productive workers. They did what was asked of them. They were taxpayers, were involved in Little League, involved in their community. Those 300 workers can't find work. It is not a question that there is a job out there for them; they were looking for work. That is why it is so important, as they look for work, for them to get some help from their government. This is not welfare, extending unemployment insurance. It is called insurance, unemployment insurance, because they pay into it. They ought to get some help from that unemployment fund.

It is clear from this mail that people want this legislation to pass. They know our health care bill will allow people who are happy with their insurance to stay in the insurance they have but will build consumer protections around those policies—no more pre-existing conditions, for instance, to deny care.

Second, this bill helps small business provide insurance as most small businesspeople do. They want to provide insurance for their employees.

Third, this bill will help those who do not have insurance. They can go into this insurance exchange and get insurance.

Fourth, this bill provides for a public option, so if they don't want to go to CIGNA or Wellpoint or United or one of the big health care companies, they can decide to sign up for the public option which will never throw them off, just as Medicare would never disqualify their coverage.

It is clear what we have to do in the next month. In my State alone, from Akron, to Ravenna, to Cleveland, to

Garfield Heights, to Sylvania, to Cincinnati, 390 people in my State every day lose their insurance—390 people every single day lose their insurance. It is important that we move as quickly as we can in the next month or so.

#### MORNING BUSINESS

Mr. BROWN. I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

#### REMEMBERING SENATOR EDWARD M. KENNEDY

• Mrs. McCASKILL. Mr. President, I rise today to recognize a great leader, inspiring public servant and American icon, Senator Edward Moore Kennedy.

I do not need to stand here and talk about what the Kennedy legacy has meant and continues to mean to this country. It is, at this point, simply a part of the fabric of our country.

I do not need to recite the résumé of Edward Kennedy or extol his many accomplishments. His life's work speaks for itself. It will stand the test of time and, no doubt, become even more remarkable when viewed in hindsight.

I do not need to reiterate each of the noble causes Senator Kennedy fought for with passion and vigor. We know that his pursuit of dignity, opportunity and respect for every man and woman will benefit generations to come, and inspire so many more to carry on in the cause.

Yes, there is no doubt that Senator Edward Kennedy will be remembered far into the future and that history will treat him well, but I want to take some time today to talk about the people here and now that he leaves behind that may be the most telling about Ted Kennedy. In those moments and for those people, we got a chance to see something very special.

For some people it was very personal moments shared between family and friends—the opportunity to know him in a way others could only hope to glimpse.

And some were his arch enemies at the podium while also his dearest, most respected partners on causes behind closed doors.

Some became believers based on passion-filled political speeches delivered from his earliest of days in the spotlight to some of his last, spectacular moments right here on the Senate floor.

While others had their lives changed because he was brave enough to stand up for them when the cameras were not rolling and the majority was not on his side.

Ted Kennedy, the lion of the Senate, would roar about the need for better health care, improved public schools, and providing help to working families. He knew how to channel the emotion, the urgency and the helplessness he saw in the eyes and heard in the voices of those he was fighting for. And he didn't just beam it from the mountain tops—he worked on the solutions to these needs day in and day out with astute skill.

There is a Ted Kennedy that will be remembered in the history books and he will be great and strong and smart and good, but there is also a unique part of Ted Kennedy that will stay with many of us in our own special ways.

A politician. A public servant. A patriot. A prince of Camelot. A fighter. A negotiator. A liberal. A brother, husband, father, and friend.

The Lion sleeps. . . .

Mr. CORNYN. Mr. President, I join my colleagues in appreciation and admiration of Senator Ted Kennedy.

By the time I took my seat in the Senate, Ted had already held his for nearly four decades. He had already established himself as one of the most influential members in this body's history. He had already introduced hundreds of bills that became laws and shaped thousands of others. He had already grown from youngest son to elder statesman and become an icon for millions of Americans.

Before I was ever elected, I respected Ted Kennedy. And after becoming his colleague, my respect grew. I was privileged to serve with him on the Judiciary Committee and to be ranking member when he chaired our Subcommittee on Immigration, Refugees, and Border Security. We worked together closely, and that experience has made me a more effective Senator.

Ted Kennedy and I often held different principles, but we shared key convictions too. We agreed that our immigration laws needed reform. We recognized that judicial philosophy mattered. We believed that providing advice and consent on appointments to the Federal bench was not merely a right of Senators but one of our most solemn responsibilities.

Ted Kennedy understood the power of language. On the Senate floor, he used words of passion, calling his colleagues to embrace grand visions with great urgency. In bill negotiations, he used words with precision, understanding better than anyone how legislative language governs, and how to codify his convictions into the law of the land.

Senator Kennedy and I shared an interest in the history of this body, and a special pride in those who held our seats before us. In my case, I have long admired Sam Houston, who liberated the people of Texas, served as one of our first Senators, and raised his voice against secession. In Ted's case, he

looked to the great Daniel Webster, who also stood for union, and for liberty.

Ted was drawn in particular to this quote by Webster:

Let us develop the resources of our land, call forth its powers, build up its institutions, promote all its great interests, and see whether we also in our day and generation may not perform something worthy to be remembered.

All Americans can agree that Ted Kennedy's service in the U.S. Senate is something worthy to be remembered. Sandy and I continue to keep his wife Vickie in our prayers. And we offer our condolences to all who miss him most.

#### COMMENDING SENATOR MEL MARTINEZ

Mr. ENSIGN. Mel Martinez came to the United States from Cuba at the age of 15 as part of a humanitarian effort called Operation Peter Pan. We are all familiar with the character of Peter Pan he is careless and does not want to grow up. He is sometimes selfish and often conceited. It is ironic because Mel is the opposite of all of those attributes.

Mel Martinez arrived on our shores with no family and only the hope for a better life. He had to grow up incredibly fast, and he did so with great determination. He worked hard to learn English, graduate from college and law school, and build a legal career and solid reputation.

And then he decided to selflessly give back to the community and country that had given him so much. He rose to the highest levels of our government as the 12th Secretary of Housing and Urban Development under President George W. Bush. He served from 2001 to 2003, an especially trying time in our Nation's history. But his agency's focus on rebuilding Lower Manhattan provided necessary healing for a city and its citizens.

In 2005, Mel was sworn in as the first Cuban American U.S. Senator. It was a privilege to serve with him and to join together on many legislative efforts. Most significant was our work on expanding freedom and democracy for the people of Cuba. Cubans have been stifled for too long by a brutal communist dictator. They deserve a voice and an opportunity for a better life. Nobody knows that better than Mel Martinez, and I look forward to continuing our fight to support pro-democracy efforts.

Most recently, I was pleased to work with Mel on legislation to promote U.S. tourist destinations abroad. Florida and Nevada miss out on vital international tourism dollars because the United States has no entity to promote our amazing tourism opportunities to other countries. I am confident that the Travel Promotion Act, cosponsored by Senator Martinez, will pass the Senate shortly and will represent another

accomplishment by my former colleague to improve the lives of his constituents and fuel success for all Americans.

I thank Mel Martinez for his decades of public service in Florida and here in our Nation's Capital. He proved to us all that the hope for a better life combined with determination and the limitless opportunities here in America can make any dream come true.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

#### ENHANCED PARTNERSHIP WITH PAKISTAN ACT OF 2009

• Mr. KERRY. Mr. President, I ask that my statement and accompanying documents submitted this afternoon be printed in the RECORD.

The documents follow.

Mr. KERRY. Mr. President, today I wish to discuss S. 1707, the "Enhanced Partnership with Pakistan Act of 2009," which President Obama has committed to signing into law this week. The legislation is a result of negotiations between the Senate and House of Representatives reconciling our respective bills that passed earlier this summer. The final version passed unanimously in both the Senate and the House of Representatives, sending a very strong message of the desire of the U.S. Congress to strengthen our relationship with the people of Pakistan through a long-term pledge of economic and development assistance.

I hope that over time it will fundamentally change America's relationship with the people of Pakistan. I especially want to thank my colleagues Senator LUGAR and Representative BERMAN for their partnership in crafting this bill and their ongoing leadership on this issue.

It is hard to overstate the importance to our national security of getting our relationship with Pakistan right. The status quo has not brought success, the stakes could not be higher, and we have little choice but to think big. That is why the Obama Administration and many of us in Congress saw the need for a bold, new strategy for Pakistan.

The "Enhanced Partnership with Pakistan Act" is a centerpiece of this new approach, which is why President Obama asked Congress to pass the measure. This Act establishes a legislative foundation for a strengthened partnership between the United States and Pakistan, based on a shared commitment to improving the living conditions of the people of Pakistan through sustainable economic development, strengthening democracy and the rule of law, and combating terrorism and extremism. It is the intent of Congress to strengthen the long-term people-to-people relationship between the United

States and Pakistan by investing directly in the needs of the Pakistani people.

The overall level of economic assistance authorized annually by this legislation is tripled over FY 2008 levels, with the bulk of aid intended for projects such as schools, roads, medical clinics, and infrastructure development. The legislation authorizes \$1.5 billion annually for fiscal years 2010 to 2014 and recommends an additional five years of funding to demonstrate a long-term commitment to the people of Pakistan.

This legislation is an important first step in turning the page in our relationship with Pakistan and building mutual trust. It is a prime example of “smart power” because it uses both economic and security aid to achieve an overall effect that is greater than the sum of its parts.

But this bill is not a silver bullet. It provides powerful tools—but these tools are only as effective as the policy-makers who wield them. We must approach this endeavor with a large dose of humility. Our leverage is limited. This bill aims to increase that leverage significantly. But we should be realistic about what we can accomplish—Americans can influence events in Pakistan, but we cannot and should not decide them. Ultimately, the true decision-makers are the people and leaders of Pakistan.

There have been serious concerns in Pakistan in recent days over the perceived intent of this bill. We have spoken with Pakistani government officials, including Foreign Minister Qureshi and Ambassador Haqqani, to make sure we understand the nature of these concerns and to clear up any misunderstandings.

To clear up any lingering confusion and to reiterate Congress’ intent with respect to this legislation, Chairman BERMAN and I are submitting a “Joint Explanatory Statement” for the CONGRESSIONAL RECORD. The purpose of the Joint Explanatory Statement is to facilitate accurate interpretation of the text and to ensure faithful implementation of its provisions in accordance with the intentions of the legislation.

As the Joint Explanatory Statement makes clear, the legislation does not seek in any way to compromise Pakistan’s sovereignty, impinge on Pakistan’s national security interests, or micromanage any aspect of Pakistani military or civilian operations. There are no conditions on Pakistan attached to the authorization of \$7.5 billion in non-military aid. The only requirements on this funding are financial accountability measures that Congress is imposing on the U.S. executive branch, to ensure that this assistance supports programs that most benefit the Pakistani people.

The certifications in the Act regarding certain limited forms of security

assistance track very closely with previous Congressional legislation. The conditions set forth in the bill are reasonable and should be easy for any nation receiving American aid to meet. They align with and reinforce the publicly-articulated positions of the democratically-elected Pakistani government and Pakistani military leaders. The United States values its friendship with the Pakistani people and honors the sacrifices made by Pakistani security forces in the fight against extremism.

Mr. President, I ask to have printed in the RECORD this Joint Explanatory Statement along with letters of support for S. 1707, passed and printed in the RECORD of Thursday, September 24, 2009, from Secretary of State Clinton, Secretary of Defense Gates, and Chairman of the Joint Chiefs of Staff Admiral Mullen.

The material follows.

#### JOINT EXPLANATORY STATEMENT—ENHANCED PARTNERSHIP WITH PAKISTAN ACT OF 2009

Sen. John F. Kerry and Congressman Howard Berman

The following is an explanation of S. 1707, the Enhanced Partnership with Pakistan Act of 2009. The final text of the legislation reflects an agreement reached by the Senate Committee on Foreign Relations and the House Committee on Foreign Affairs. The purpose of this Explanatory Statement is to facilitate accurate interpretation of the text and to ensure faithful implementation of its provisions in accordance with the intentions of the legislation.

The core intent of the Enhanced Partnership with Pakistan Act is to demonstrate the American people’s long-term commitment to the people of Pakistan. The United States values its friendship with the Pakistani people and honors the great sacrifices made by Pakistani security forces in the fight against extremism, and the legislation reflects the goals shared by our two governments.

The legislation does not seek in any way to compromise Pakistan’s sovereignty, impinge on Pakistan’s national security interests, or micromanage any aspect of Pakistani military or civilian operations. There are no conditions on Pakistan attached to the authorization of \$7.5 billion in non-military aid. The only requirements on this funding are financial accountability measures that Congress is imposing on the U.S. executive branch, to ensure that this assistance supports programs that most benefit the Pakistani people.

#### SUMMARY OF CONGRESSIONAL INTENT

The Enhanced Partnership with Pakistan Act of 2009 (the “Act”) establishes a legislative foundation for a strengthened partnership between the United States and Pakistan, based on a shared commitment to improving the living conditions of the people of Pakistan through strengthening democracy and the rule of law, sustainable economic development, and combating terrorism and extremism. It is the intent of Congress to strengthen the long-term people-to-people relationship between the United States and Pakistan by investing directly in the needs of the Pakistani people. This legislation is intended to fortify a lasting partnership with Pakistan based on mutual trust.

The overall level of economic assistance authorized annually by this legislation is tri-

pled over FY 2008 U.S. funding levels, with the bulk of aid intended for projects such as schools, roads, medical clinics, and infrastructure development. The funds directly authorized by this Act—\$1.5 billion in economic and development assistance annually for five years, with a similar amount envisioned for a subsequent five years—place no conditions on the Government of Pakistan. The only requirements are accountability measures placed on the United States executive branch to ensure that the aid directly benefits the Pakistani people.

This Act fully recognizes and respects the independence of Pakistan as a sovereign nation. The purpose of this Act is to forge a closer collaborative relationship between Pakistan and the United States, not to dictate the national policy or impinge on the sovereignty of Pakistan in any way. Any interpretation of this Act which suggests that the United States does not fully recognize and respect the sovereignty of Pakistan would be directly contrary to Congressional intent.

The certifications in the Act regarding certain limited forms of security assistance are consistent with previous Congressional legislation regarding security assistance to Pakistan and other nations. In all cases, they align with the aims of, and serve to reinforce the publicly-articulated positions of, the democratically-elected Government of Pakistan, and Pakistani military leaders, to combat extremists and militants.

#### Sections 1–4: Strengthening a Relationship Founded on Mutual Respect

Sections 1–4 establish the framework and context for the legislative provisions that follow. The Findings and the Statement of Principles demonstrate an unequivocal appreciation for the friendship of the Pakistani people, and for the sacrifices made by the Pakistani security forces and people in fighting extremism. The Findings in Section 3 include:

Section 3(1): “Congress finds the following: The people of the Islamic Republic of Pakistan and the United States share a long history of friendship and comity, and the interests of both nations are well-served by strengthening and deepening this friendship.”

Section 3(4): “Pakistan is a major non-NATO ally of the United States and has been a valuable partner in the battle against al Qaeda and the Taliban, but much more remains to be accomplished by both nations. The struggle against al Qaeda, the Taliban, and affiliated terrorist groups has led to the deaths of several thousand Pakistani civilians and members of the security forces of Pakistan over the past seven years.”

The Statement of Principles in Section 4 include:

Section 4(1): “Pakistan is a critical friend and ally to the United States, both in times of strife and in times of peace, and the two countries share many common goals, including combating terrorism and violent radicalism, solidifying democracy and rule of law in Pakistan, and promoting the social and economic development of Pakistan.”

Section 4(4): “The United States supports Pakistan’s struggle against extremist elements and recognizes the profound sacrifice made by Pakistan in the fight against terrorism, including the loss of more than 1,900 soldiers and police since 2001 in combat with al Qaeda, the Taliban, and other extremist and terrorist groups.”

# Title I: Democratic, Economic and Development Assistance for Pakistan

This Title contains the core intention of this legislation: To make a long-term commitment to the people of Pakistan by tripling non-military assistance, free of any conditions on the Pakistani government. The purposes set forth for the \$7.5 billion that is authorized here are all intended to reflect the expressed priorities of the Pakistani people. Specifically, Section 101(a) provides that:

“The President is authorized to provide assistance to Pakistan to support the consolidation of democratic institutions; to support the expansion of rule of law, build the capacity of government institutions, and promote respect for internationally-recognized human rights; to promote economic freedoms and sustainable economic development; to support investment in people, including those displaced in on-going counterinsurgency operations; and to strengthen public diplomacy.”

The funds authorized under Title I are intended to be used to work with and benefit Pakistani organizations. Specifically, Section 101(c)(3) provides that:

“The President is encouraged, as appropriate, to utilize Pakistani firms and community and local nongovernmental organizations in Pakistan, including through host country contracts, and to work with local leaders to provide assistance under this section.”

Section 102(a) makes clear that there are no conditions placed on the Pakistani government for delivery of the \$7.5 billion in assistance. The only accounting requirements are of the U.S. executive branch.

Section 102(d) makes clear that a long term commitment to increased civilian assistance for the people of Pakistan is envisioned by stating that it is the desire of Congress that the amounts authorized for fiscal years 2010–2014 shall continue from fiscal years 2015–2019.

Section 103(b) authorizes establishment of field offices for Inspectors General to audit and oversee expenditure of this assistance. It is the intent of Congress that such offices would be established in consultation with appropriate Pakistani authorities for the purpose of ensuring optimal management of resources.

## Title II: Security Assistance for Pakistan

The intention of this section is to strengthen cooperative efforts to confront extremism. The purposes of security assistance are intended to be completely cooperative, and reflect the intention that such assistance be used to support Pakistan in achieving its stated objectives in winning the ongoing counterinsurgency, defeating terrorist organizations that threaten Pakistan, and strengthening democratic institutions. Specifically, Section 201(1) “Purposes of Assistance” states that:

“The purposes of assistance under this title are—

(1) to support Pakistan’s paramount national security need to fight and win the ongoing counterinsurgency within its borders in accordance with its national security interests;

(2) to work with the Government of Pakistan to improve Pakistan’s border security and control and help prevent any Pakistani territory from being used as a base or conduit for terrorist attacks in Pakistan, or elsewhere;

(3) to work in close cooperation with the Government of Pakistan to coordinate ac-

tion against extremist and terrorist targets; and

(4) to help strengthen the institutions of democratic governance. . . .”

The provisions applied to certain limited portions of U.S. security assistance in Section 203 are intended to be fully in line with the existing policy of the Government of Pakistan. Specifically, Section 203(c)(1) reflects our understanding that cooperative efforts currently being undertaken by the Governments of Pakistan and the United States to combat proliferation will continue.

Section 203(c)(2) reflects the intent that U.S. security assistance is used in furtherance of the purposes set forth in Section 201 above, e.g., ensuring Pakistan’s security, winning the counterinsurgency within Pakistan, preventing territory from being used for terrorist attacks in Pakistan and elsewhere, and coordinating action against extremist and terrorist targets. This section requires a certification by the U.S. executive branch to Congress regarding the efforts and progress made in achieving these purposes, and includes a series of factors to be considered collectively by the Secretary of State in making this assessment.

Section 203(c)(3) includes a provision intended to express support for democratic institutions in Pakistan.

Section 203(e) contains a waiver making clear that this certification could be waived if the determination is made by the Secretary of State in the interests of national security that this was necessary to continue such assistance.

## Title III: Strategy, Accountability, Monitoring, and Other Provisions

The intention of this section is to ensure that there is transparency and accountability in the way authorized assistance is spent. This Title requires the U.S. executive branch to provide various reports to Congress designed to demonstrate that funds are being used for the purposes set forth in Title I and Title II; there are no requirements on the Government of Pakistan.

Section 301 “Strategy Reports” requires three reports from the U.S. executive branch that detail a plan for how U.S. assistance to Pakistan will be spent and evaluated and a regional security plan for how the United States can best work with its partners for “effective counterinsurgency and counterterrorism efforts.”

Section 302 “Monitoring Reports” reflects the need for ongoing consultation between the U.S. executive branch and Congress on monitoring U.S. assistance to Pakistan, including a “Semi-Annual Monitoring Report” where:

“The Secretary of State, in consultation with the Secretary of Defense, shall submit to the appropriate congressional committees a report that describes the assistance provided under this Act during the preceding 180-day period.”

The many requirements of this report are intended as a way for Congress to assess how effectively U.S. funds are being spent, shortfalls in U.S. resources that hinder the use of such funds, and steps the Government of Pakistan has taken to advance our mutual interests in countering extremism and nuclear proliferation and strengthening democratic institutions.

There is no intent to, and nothing in this Act in any way suggests that there should be, any U.S. role in micromanaging internal Pakistani affairs, including the promotion of Pakistani military officers or the internal operations of the Pakistani military.

The reports envisioned in this Section are not binding on Pakistan, and require only the provision of information by the executive branch to the U.S. Congress, in furtherance of the Act’s stated purpose of strengthening civilian institutions and the democratically-elected Government of Pakistan.

THE SECRETARY OF STATE,

Washington, DC, September 29, 2009.

Hon. NANCY PELOSI, H-232 Capitol Building, Washington, DC.

Speaker of the House of Representatives,

Hon. JOHN A. BOEHNER,

House of Representatives, H-204 Capitol Building, Washington, DC.

DEAR MADAM SPEAKER AND MR. REPUBLICAN LEADER: I write to express the State Department’s strong support of S. 1707, the Enhanced Partnership with Pakistan Act of 2009.

The bipartisan Enhanced Partnership with Pakistan Act of 2009 will be an essential tool in support of our national security interests and underscores a multifaceted, multi-year commitment between the peoples of the United States and Pakistan.

I appreciate the hard work by many in both the House and the Senate in reaching this reconciled text, and urge its passage as soon as possible.

Sincerely yours,

HILLARY RODHAM CLINTON.

THE SECRETARY OF DEFENSE,

Washington, DC, September 25, 2009.

Hon. NANCY PELOSI,

Speaker of the House of Representatives, House of Representatives, Washington, DC.

Hon. HARRY REID,

Senate Majority Leader,

U.S. Senate, Washington, DC.

DEAR MADAM SPEAKER AND MR. MAJORITY LEADER: As the United States Government continues to implement its strategy to disrupt, dismantle and defeat al Qaeda in Afghanistan and Pakistan, it is important that we strongly signal to the Pakistani people our long-term commitment to partnering with them to combat terrorism and extremism.

We appreciate that the House and Senate have worked hard to finalize the Enhanced Partnership with Pakistan Act of 2009, a bipartisan bill that would underscore a long-term, multi-year commitment to increase civilian assistance to Pakistan.

The bill as revised addresses the key concerns we previously raised in an April 28, 2009, letter. We appreciated the opportunity to work with your committees on these concerns.

This bill would support U.S. national security interests in Afghanistan and Pakistan. The Department of Defense strongly supports moving this bill to final passage by the House and Senate as expeditiously as possible.

The Office of Management and Budget advises that, from the standpoint of the Administration’s program, there is no objection to the presentation of this letter.

Sincerely,

ROBERT M. GATES,  
Secretary of Defense.

M.G. MULLEN,  
Admiral, U.S. Navy.●

## 40TH ANNIVERSARY OF THE VERMONT STUDENT ASSISTANCE CORPORATION

Mr. LEAHY. Mr. President, I wish to take this opportunity to congratulate

the Vermont Student Assistance Corporation, VSAC, for three important milestones it has reached this year. This year marks the 40th anniversary of the VSAC Talent Search Program, the 10th anniversary of the VSAC Gear UP Program, and the 10th anniversary of the Vermont Higher Education Investment Program.

Although small in size, Vermont has a long history of establishing national models for making higher education accessible to disadvantaged students. The University of Vermont provided Senator Justin Morrill the inspiration for the first and second Morrill Act. The student loan programs which have made college possible for millions of students each year bear the name of my former colleague and dear friend, Senator Bob Stafford.

The Vermont Student Assistance Corporation has continued this tradition through innovative programs to encourage first-generation and low-income students to pursue their career and education goals. Each year more than 47,000 students and parents participate in one or more of their career, education and financial aid programs. In addition, VSAC has been at the forefront of efforts to reach young people with programs that link career ambitions with educational requirements and opportunities. This past year, VSAC's Start Where You Are program won a prestigious WebAward for Education Standard of Excellence from the Web Marketing Association. In a more traditional vein, VSAC staff was recognized this year with the David Swedlow Memorial College Access Staff Award of Excellence from the National College Access Network.

Several States have established not-for-profit State agencies to administer financial aid and to provide their residents and students attending their schools with quality counseling services and low-cost loans. Vermont pioneered this movement by creating the Vermont Student Assistance Corporation more than 40 years ago. VSAC has worked hard to establish and maintain strong and longstanding working relationships with Vermont's higher education institutions as well as K-12 schools to provide outreach programs critical to the economic vitality of Vermont.

The U.S. Department of Education has proposed that all future student loans be made through direct lending from the Federal Government to students. The Direct Loan program is projected to save students millions of dollars in fees and interest payments. Additional savings would be distributed to States for school construction and grants for K-12 education. Unfortunately this proposal does not include a role for not-for-profit State agencies such as VSAC. I believe that is a significant oversight. Vermonters have come to rely on the high quality, com-

prehensive programs that VSAC offers. A one-size-fits-all Federal direct loan program does not acknowledge all of the hard work and experience of nonprofits such as VSAC and their tremendous staff. As this proposal makes its way through Congress, Senator SANDERS, Congressman WELCH, and I will be working for changes to ensure a role for nonprofit State financial aid agencies such as VSAC.

I congratulate VSAC on their landmark 40th anniversary, and I hope there will be many more to come.

#### ADDITIONAL STATEMENTS

##### RECOGNIZING AMERICAN GOLD STAR MOTHER'S DAY

• Mr. SCHUMER. Mr. President, today I wish to recognize that September 27, 2009, is designated as "Gold Star Mother's Day."

It is fitting that we recognize the American Gold Star Mothers, whose sons and daughters have died in defense of the ideals of individual liberty. They should be honored and offered respect and gratitude for their personal sacrifice.

Gold Star Mother's Day is intended to honor women who deserve special recognition and gratitude for their tremendous personal loss on behalf of our country.

During the early days of World War I, a Blue Star was used to represent each soldier in military service of the United States, and as the war progressed and soldiers were killed or wounded in combat or died from wounds or disease, a Gold Star superimposed over the Blue Star designated the loss of these individuals. This tradition recognized soldiers for their ultimate sacrifice to our country, and the Gold Star offered families an outward symbol by which to honor the loss of a loved one. In 1928, the Gold Star tradition was formalized in Washington, DC, by a group of mothers who had lost sons and daughters in service to their country and met to form the American Gold Star Mothers organization. This organization is a non-denominational, non-profitable, and nonpolitical organization that is dedicated in supporting veterans, military families, and servicemembers returning from our present-day battlefields.

In 1936, President Franklin Roosevelt issued a proclamation which recognized Gold Star Mothers for their strength and inspiration to this country. The services rendered to the United States by the mothers of America have strengthened and inspired our Nation throughout history, and we honor the Gold Star Mothers of America for their courage and their strength. •

##### RECOGNIZING AUBURN MANUFACTURING, INCORPORATED

• Ms. SNOWE. Mr. President, today I celebrate the vital work that a small business in my home State of Maine is doing to provide extreme temperature textiles to dozens of industries worldwide. Auburn Manufacturing, Incorporated—or AMI—of Mechanic Falls is a veritable leader in its field, and has been designing and manufacturing advanced industrial textiles since its inception in 1979.

Auburn Manufacturing's name is synonymous with quality and dependability because of its longstanding dedication to providing customers with products made using the most cutting-edge technologies. AMI develops and manufactures top-of-the-line products for welding protection, gasketing and sealing, and pipe and hose covering, as well as safety apparel like gloves and clothing. And the company's 48 employees make all of its products at the company's central Maine facility.

One of AMI's major new products is the Ever Green Cut 'n Wrap insulated cover. Designed for companies seeking to reduce greenhouse gas emissions and heat loss while saving on energy costs, the custom-fit insulation blankets fit flexibly over valves and piping and reduce room temperatures for workers in extreme conditions. In fact, the Ever Green Cut 'n Wrap kits can reduce heat loss by over 85 percent, and they have a payback of less than 1 year. Last month, AMI received a seed grant from the Maine Technology Institute to help the company commercialize this forward-thinking, environmentally friendly product.

Additionally, earlier this year Auburn Manufacturing announced that it had received dual contracts to provide the U.S. Navy with the company's remarkable AMI-SIL fabrics that are used for hot work protection during the repair of naval ships. The Navy has certainly demonstrated its approval of this impressive product, having awarded AMI five contracts over the past 15 years to supply it with more than 1.25 million yards of fabric.

Another quality that makes AMI special is its status as a Women's Business Enterprise, a certification made by the highly regarded Women's Business Enterprise National Council. Additionally, AMI owner Kathie Leonard was recently named one of Maine's 2009 Women to Watch. In my estimation, Kathie Leonard has been a woman to watch throughout her entire career. She founded AMI in 1979—at the age of 27—when she realized the vast potential of new heat-resistant fabrics which were developed to replace asbestos. Over the company's 30-year history, Ms. Leonard has been a part of several major professional organizations both national and local, including the National Insulation Association and the Lewiston-Auburn Economic Growth

Council, which she previously chaired. She readily admits that these connections have helped her company grow into the giant it is today.

The quality of AMI's numerous products afford its clients a sense of confidence that has solidified the company's status as a premier developer and manufacturer of extreme textiles nationwide. I congratulate Kathie Leonard and everyone at Auburn Manufacturing for the incredible work they do, and I wish them much success in the future.●

#### MESSAGES FROM THE HOUSE

At 11:25 a.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1593. An act to amend the Wild and Scenic Rivers Act to designate a segment of Illabot Creek in Skagit County, Washington, as a component of the National Wild and Scenic River System.

H.R. 2877. An act to designate the facility of the United States Postal Service located at 76 Brookside Avenue in Chester, New York, as the "1st Lieutenant Louis Allen Post Office".

H.R. 3433. An act to amend the North American Wetlands Conservation Act to establish requirements regarding payment of the non-Federal share of the costs of wetlands conservation projects in Canada that are funded under that Act, and for other purposes.

H.R. 3476. An act to reauthorize the Delaware Water Gap National Recreation Area Citizen Advisory Commission.

H.R. 3537. An act to amend and reauthorize the Junior Duck Stamp Conservation and Design Program Act of 1994.

H.R. 3606. An act to amend the Truth in Lending Act to make a technical correction to an amendment made by the Credit CARD Act of 2009.

H.R. 3689. An act to provide for an extension of the legislative authority of the Vietnam Veterans Memorial Fund, Inc. to establish a Vietnam Veterans Memorial visitor center, and for other purposes.

The message also announced that pursuant to section 214(a) of the Help America Vote Act of 2002 (42 U.S.C. 15344), the Speaker appoints from private life Ms. Lillie Coney of Washington, DC, as a member of the Election Assistance Commission of Advisors on the part of the House.

At 3:02 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 621. A bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

#### ENROLLED BILLS SIGNED

At 6:08 p.m., a message from the House of Representatives, delivered by

Ms. Niland, one of its reading clerks, announced that the Speaker has signed the following enrolled bills:

S. 1717. An act to authorize major medical facility leases for the Department of Veterans Affairs for fiscal year 2010, and for other purposes.

H.R. 1016. An act to amend title 38, United States Code, to provide advance appropriations authority for certain accounts of the Department of Veterans Affairs, and for other purposes.

H.R. 2997. An act making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

#### MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 965. An act to amend the Chesapeake Bay Initiative Act of 1998 to provide for the continuing authorization of the Chesapeake Bay Gateways and Watertrails Network; to the Committee on Environment and Public Works.

H.R. 1593. An act to amend the Wild and Scenic Rivers Act to designate a segment of Illabot Creek in Skagit County, Washington, as a component of the National Wild and Scenic Rivers System; to the Committee on Energy and Natural Resources.

H.R. 2877. An act to designate the facility of the United States Postal Service located at 76 Brookside Avenue in Chester, New York, as the "1st Lieutenant Louis Allen Post Office"; to the Committee on Homeland Security and Governmental Affairs.

H.R. 3433. An act to amend the North American Wetlands Conservation Act to establish requirements regarding payment of the non-Federal share of the costs of wetlands conservation projects in Canada that are funded under that Act, and for other purposes; to the Committee on Environment and Public Works.

H.R. 3476. An act to reauthorize the Delaware Water Gap National Recreation Area Citizen Advisory Commission; to the Committee on Energy and Natural Resources.

H.R. 3537. An act to amend and reauthorize the Junior Duck Stamp Conservation and Design Program Act of 1994; to the Committee on Environment and Public Works.

H.R. 3689. An act to provide for an extension of the legislative authority of the Vietnam Veterans Memorial Fund, Inc. to establish a Vietnam Veterans Memorial visitor center, and for other purposes; to the Committee on Energy and Natural Resources.

#### MEASURES PLACED ON THE CALENDAR

The following bill was read the second time, and placed on the calendar:

S. 1776. A bill to amend title XVIII of the Social Security Act to provide for the update under the Medicare physician fee schedule for years beginning with 2010 and to sunset the application of the sustainable growth rate formula, and for other purposes.

#### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with

accompanying papers, reports, and documents, and were referred as indicated:

EC-3335. A communication from the Commission on Wartime Contracting in Iraq and Afghanistan, transmitting, pursuant to law, a report entitled "Lowest-Priced Security Not Good Enough for War-Zone Embassies"; to the Committee on Armed Services.

EC-3336. A communication from the Secretary, Division of Investment Management, Securities and Exchange Commission, transmitting, pursuant to law, the report of a rule entitled "Reference to Ratings of Nationally Recognized Statistical Rating Organizations" (RIN3235-AK17; RIN3235-AK19) received in the Office of the President of the Senate on October 6, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3337. A communication from the Acting Assistant Secretary for Export Administration, Bureau of Industry and Security, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Encryption Simplification Rule" (RIN0694-AE18) received in the Office of the President of the Senate on October 9, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3338. A communication from the Secretary of the Treasury, transmitting, pursuant to law, a six-month periodic report on the national emergency with respect to the situation in or in relation to the Democratic Republic of the Congo that was declared in Executive Order 13413 of October 27, 2006; to the Committee on Banking, Housing, and Urban Affairs.

EC-3339. A communication from the Deputy Secretary of the Treasury, transmitting, pursuant to law, a six-month periodic report on the national emergency declared in Executive Order 12978 with respect to significant narcotics traffickers centered in Colombia; to the Committee on Banking, Housing, and Urban Affairs.

EC-3340. A communication from the Chairman of the National Transportation Safety Board, transmitting, pursuant to law, a report relative to the Office of Management and Budget's request for the Board's views on H.R. 3619, the "Coast Guard Authorization Act of 2010"; to the Committee on Commerce, Science, and Transportation.

EC-3341. A joint communication from the Acting Deputy Administrator of the National Highway Traffic Safety Administration and the Assistant Secretary for Communications and Information of the National Telecommunications and Information Administration, transmitting, pursuant to law, a report entitled "A National Plan for Migrating to IP-Enabled 9-1-1 Systems"; to the Committee on Commerce, Science, and Transportation.

EC-3342. A communication from the Assistant Secretary, Employee Benefits Security Administration, Department of Labor, transmitting, pursuant to law, the report of a rule entitled "Interim Final Rules Prohibiting Discrimination Based on Genetic Information in Health Insurance Coverage and Group Health Plans" (RIN0938-AP37) received in the Office of the President of the Senate on October 7, 2009; to the Committee on Health, Education, Labor, and Pensions.

EC-3343. A communication from the Acting Assistant Secretary, Office of Workers' Compensation Programs, Department of Labor, transmitting, pursuant to law, the report of a rule entitled "Claims for Compensation; Death Gratuity Under the Federal Employees' Compensation Act" received in the Office of the President of the Senate on October 7, 2009; to the Committee on Health, Education, Labor, and Pensions.

EC-3344. A communication from the Secretary of the Department of Health and Human Services, transmitting, pursuant to law, the annual performance evaluation report relative to mammography accreditation; to the Committee on Health, Education, Labor, and Pensions.

EC-3345. A joint communication from the Secretary of the Department of Agriculture and the Secretary of the Department of Health and Human Services, transmitting, pursuant to law, a report relative to Thefts, Losses, or Releases of Select Agents or Toxins for calendar year 2008; to the Committee on Health, Education, Labor, and Pensions.

EC-3346. A communication from the Secretary to the Railroad Retirement Board, transmitting, pursuant to law, a report relative to the Board's Strategic Plan for 2009–2014; to the Committee on Health, Education, Labor, and Pensions.

EC-3347. A communication from the Chief of the Border Security Regulations Branch, Customs and Border Protection, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Technical Correction to Remove Obsolete Compliance Date Provisions from Electronic Cargo Information Regulations" (CPB Dec. 09–39) received in the Office of the President of the Senate on October 6, 2009; to the Committee on Homeland Security and Governmental Affairs.

EC-3348. A communication from the Acting Archivist of the United States, National Archives and Records Administration, transmitting, pursuant to law, a report relative to the Administration's Fiscal Year 2009 Commercial Activities Inventory and Inherently Governmental Inventory; to the Committee on Homeland Security and Governmental Affairs.

EC-3349. A communication from the Auditor of the District of Columbia, transmitting, pursuant to law, a report entitled "Auditor's Certification Review of the Accuracy of Initiatives and Key Performance Indicators Set Forth in the Department of Consumer and Regulatory Affairs' Fiscal Year 2008 Performance Accountability Report"; to the Committee on Homeland Security and Governmental Affairs.

EC-3350. A communication from the Federal Register Liaison Officer, Alcohol and Tobacco Tax and Trade Bureau, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Establishment of the Happy Canyon of Santa Barbara Viticultural Area (2007R-311P)" (RIN1513-AB52) received in the Office of the President of the Senate on October 9, 2009; to the Committee on the Judiciary.

EC-3351. A communication from the Acting Under Secretary and Acting Director, Patent and Trademark Office, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Changes to Practice for Continued Examination Filings, Patent Applications Containing Patentably Indistinct Claims, and Examination of Claims in Patent Applications" (RIN0651-AC36) received in the Office of the President of the Senate on October 13, 2009; to the Committee on the Judiciary.

EC-3352. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Azoxytobrin; Pesticide Tolerances" (FRL No. 8794-4) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Agriculture, Nutrition, and Forestry.

EC-3353. A communication from the Administrator of the Environmental Protection Agency, transmitting, pursuant to law, a report entitled "Highlights of the Diesel Emissions Reduction Program"; to the Committee on Energy and Natural Resources.

EC-3354. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Air Quality Designations for the 2006 24-Hour Fine Particle (PM<sub>2.5</sub>) National Ambient Air Quality Standards" (FRL No. 8969-2) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Environment and Public Works.

EC-3355. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Revisions to the Arizona State Implementation Plan, Maricopa County Air Quality Department" (FRL No. 8947-2) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Environment and Public Works.

EC-3356. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Inert Ingredients; Extension of Effective Date of Revocation of Certain Tolerance Exemptions with Insufficient Data for Reassessment" (FRL No. 8794-1) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Environment and Public Works.

EC-3357. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Ohio Administrative Code Rule 3745-21-17 Portable Fuel Containers" (FRL No. 8958-1) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Environment and Public Works.

EC-3358. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; Indiana; Carbon Monoxide Maintenance Plan Updates; Limited Maintenance Plan" (FRL No. 8968-1) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Environment and Public Works.

EC-3359. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "National Primary Drinking Water Regulations: Drinking Water Regulations for Aircraft Public Water Systems" (FRL No. 8967-9) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Environment and Public Works.

EC-3360. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, a Uniform Resource Locator (URL) for a document entitled "Interim Policy on Managing the Duration of Remedial Design/Remedial Action Negotiations" received in the Office of the President of the Senate on

October 14, 2009; to the Committee on Environment and Public Works.

EC-3361. A communication from the Director of the Office of Congressional Affairs, Office of Nuclear Reactor Regulations, Nuclear Regulatory Commission, transmitting, pursuant to law, the report of a rule entitled "Criminal Penalties; Unauthorized Introduction of Weapons" (RIN3150-AI31) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Environment and Public Works.

EC-3362. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement for the manufacture of significant military equipment abroad in the amount of \$85,000,000 to Japan; to the Committee on Foreign Relations.

EC-3363. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement for the export of defense articles, including, technical data, and defense services relative to the Proton launch of the QuetzSat-1 Commercial Communication Satellite in the amount of \$50,000,000 or more to Belgium, Germany, Kazakhstan, Luxembourg, Mexico, The Netherlands, Russia, Spain, United Kingdom and Sweden; to the Committee on Foreign Relations.

EC-3364. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement for the export of defense articles, including, technical data, and defense services relative to the manufacture of X200-Series transmissions in the amount of \$100,000,000 or more to the Republic of Korea; to the Committee on Foreign Relations.

EC-3365. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed manufacturing license agreement for the manufacture of significant military equipment abroad in the amount of \$100,000,000 or more to Turkey and Australia; to the Committee on Foreign Relations.

EC-3366. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed technical assistance agreement to include the export of technical data, defense services and defense articles in the amount of \$50,000,000 or more to Canada, Russia, and Kazakhstan; to the Committee on Foreign Relations.

EC-3367. A communication from the Chief Counsel, Economic Development Administration, Department of Commerce, transmitting, pursuant to law, the report of a rule entitled "Revisions to the Trade Adjustment Assistance for Firms Program Regulations and Implementation Regulations for the Community Trade Adjustment Assistance Program" (RIN0610-AA65) received in the Office of the President of the Senate on October 13, 2008; to the Committee on Finance.

EC-3368. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Tier 1 Issue—Industry Director Directive on Section 936 Exit Strategies #4" (LMSB-4-1009-039) received in the Office of the President of the Senate on

October 13, 2009; to the Committee on Finance.

EC-3369. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Credit for Carbon Dioxide Sequestration under Section 45Q" (Notice No. 2009-83) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Finance.

EC-3370. A communication from the Chief of the Publications and Regulations Branch, Internal Revenue Service, Department of the Treasury, transmitting, pursuant to law, the report of a rule entitled "Measurement of Assets and Liabilities and Benefit Restrictions for Underfunded Pension Plans" (TD 9467) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Finance.

### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. LIEBERMAN, from the Committee on Homeland Security and Governmental Affairs, with amendments:

S. 507. A bill to provide for retirement equity for Federal employees in nonforeign areas outside the 48 contiguous States and the District of Columbia, and for other purposes (Rept. No. 111-88).

### EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of nominations were submitted:

By Mr. BINGAMAN for the Committee on Energy and Natural Resources.

\*Marcia K. McNutt, of California, to be Director of the United States Geological Survey.

\*Arun Majumdar, of California, to be Director of the Advanced Research Projects Agency-Energy, Department of Energy.

\*Nomination was reported with recommendation that it be confirmed subject to the nominee's commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.

### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second times by unanimous consent, and referred as indicated:

By Mrs. SHAHEEN (for herself and Mr. VITTER):

S. 1778. A bill to amend the Federal Food, Drug, and Cosmetic Act with respect to generic drugs, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

By Mr. BAYH (for himself, Mr. DORGAN, Mr. LUGAR, Mr. BYRD, Mr. SPECTER, Mr. ROCKEFELLER, Mr. MERKLEY, and Mr. WYDEN):

S. 1779. A bill to amend title 38, United States Code, to provide health care to veterans exposed in the line of duty to occupational and environmental health chemical hazards, and for other purposes; to the Committee on Veterans' Affairs.

By Mrs. LINCOLN (for herself, Mrs. HUTCHISON, and Ms. SNOWE):

S. 1780. A bill to amend title 38, United States Code, to deem certain service in the reserve components as active service for purposes of laws administered by the Secretary of Veterans Affairs; to the Committee on Veterans' Affairs.

By Mrs. SHAHEEN (for herself, Mr. BROWN, and Mr. MENENDEZ):

S. 1781. A bill to provide for a demonstration program to reduce frequent use of health services by Medicaid beneficiaries with chronic illnesses by providing coordinated care management and community support services; to the Committee on Finance.

By Mr. WHITEHOUSE (for himself, Mr. LEAHY, and Mr. SESSIONS):

S. 1782. A bill to provide improvements for the operations of the Federal courts, and for other purposes; to the Committee on the Judiciary.

By Mr. FRANKEN (for himself, Mr. FEINGOLD, and Mr. BROWN):

S. 1783. A bill to amend the Agricultural Marketing Act of 1946 to provide for country of origin labeling for dairy products; to the Committee on Agriculture, Nutrition, and Forestry.

By Mr. ENSIGN:

S. 1784. A bill to amend title 38, United States Code, to ensure that State approving agencies provide timely responses to applications for approval of courses of education and provide justifications for disapproval of courses, to provide for the review of the disapproval of courses by State approving agencies, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. ENSIGN:

S. 1785. A bill to amend title 38, United States Code, to require State approving agencies to approve courses of education that have been accredited and approved by a nationally recognized accrediting agency or association, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. LEAHY:

S. 1786. A bill to extend the temporary suspension of duty on certain ski boots, cross country ski footwear, and snowboard boots; to the Committee on Finance.

By Mr. BINGAMAN:

S. 1787. A bill to reauthorize the Federal Land Transaction Facilitation Act, and for other purposes; to the Committee on Energy and Natural Resources.

### ADDITIONAL COSPONSORS

S. 211

At the request of Mr. JOHANNES, his name was added as a cosponsor of S. 211, a bill to facilitate nationwide availability of 2-1-1 telephone service for information and referral on human services and volunteer services, and for other purposes.

S. 229

At the request of Mrs. BOXER, the name of the Senator from New Hampshire (Mrs. SHAHEEN) was added as a cosponsor of S. 229, a bill to empower women in Afghanistan, and for other purposes.

S. 292

At the request of Mr. BROWNBACK, his name was added as a cosponsor of S. 292, a bill to repeal the imposition of withholding on certain payments made to vendors by government entities.

S. 451

At the request of Ms. COLLINS, the names of the Senator from North Da-

kota (Mr. CONRAD), the Senator from Massachusetts (Mr. KERRY) and the Senator from Virginia (Mr. WARNER) were added as cosponsors of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 455

At the request of Mr. ROBERTS, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 455, a bill to require the Secretary of the Treasury to mint coins in recognition of 5 United States Army Five-Star Generals, George Marshall, Douglas MacArthur, Dwight Eisenhower, Henry "Hap" Arnold, and Omar Bradley, alumni of the United States Army Command and General Staff College, Fort Leavenworth, Kansas, to coincide with the celebration of the 132nd Anniversary of the founding of the United States Army Command and General Staff College.

S. 461

At the request of Mrs. LINCOLN, the names of the Senator from Tennessee (Mr. ALEXANDER) and the Senator from Nevada (Mr. ENSIGN) were added as cosponsors of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 510

At the request of Mr. DURBIN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 510, a bill to amend the Federal Food, Drug, and Cosmetic Act with respect to the safety of the food supply.

S. 624

At the request of Mr. DURBIN, the name of the Senator from Massachusetts (Mr. KIRK) was added as a cosponsor of S. 624, a bill to provide 100,000,000 people with first-time access to safe drinking water and sanitation on a sustainable basis by 2015 by improving the capacity of the United States Government to fully implement the Senator Paul Simon Water for the Poor Act of 2005.

S. 663

At the request of Mr. NELSON of Nebraska, the name of the Senator from Iowa (Mr. HARKIN) was added as a cosponsor of S. 663, a bill to amend title 38, United States Code, to direct the Secretary of Veterans Affairs to establish the Merchant Mariner Equity Compensation Fund to provide benefits to certain individuals who served in the United States merchant marine (including the Army Transport Service and the Naval Transport Service) during World War II.

S. 678

At the request of Mr. LEAHY, the name of the Senator from Maine (Ms. SNOWE) was added as a cosponsor of S. 678, a bill to reauthorize and improve

the Juvenile Justice and Delinquency Prevention Act of 1974, and for other purposes.

S. 729

At the request of Mr. DURBIN, the name of the Senator from Pennsylvania (Mr. SPECTER) was added as a cosponsor of S. 729, a bill to amend the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to permit States to determine State residency for higher education purposes and to authorize the cancellation of removal and adjustment of status of certain alien students who are long-term United States residents and who entered the United States as children, and for other purposes.

S. 883

At the request of Mr. KERRY, the names of the Senator from Nevada (Mr. REID), the Senator from Kentucky (Mr. McCONNELL), the Senator from North Dakota (Mr. DORGAN), the Senator from Nebraska (Mr. NELSON) and the Senator from Michigan (Ms. STABENOW) were added as cosponsors of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, selfless service and patriotism, can challenge fate and change the course of history.

S. 987

At the request of Mr. DURBIN, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 987, a bill to protect girls in developing countries through the prevention of child marriage, and for other purposes.

S. 1065

At the request of Mr. CASEY, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1065, a bill to authorize State and local governments to direct divestiture from, and prevent investment in, companies with investments of \$20,000,000 or more in Iran's energy sector, and for other purposes.

S. 1073

At the request of Mr. REED, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 1073, a bill to provide for credit rating reforms, and for other purposes.

S. 1076

At the request of Mr. MENENDEZ, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 1076, a bill to improve the accuracy of fur product labeling, and for other purposes.

S. 1204

At the request of Mrs. MURRAY, the name of the Senator from Ohio (Mr. BROWN) was added as a cosponsor of S. 1204, a bill to amend the Department of Veterans Affairs Health Care Programs Enhancement Act of 2001 to require the provision of chiropractic care and services to veterans at all Department of Veterans Affairs medical centers, and for other purposes.

S. 1340

At the request of Mr. LEAHY, the name of the Senator from Virginia (Mr. WEBB) was added as a cosponsor of S. 1340, a bill to establish a minimum funding level for programs under the Victims of Crime Act of 1984 for fiscal years 2010 to 2014 that ensures a reasonable growth in victim programs without jeopardizing the long-term sustainability of the Crime Victims Fund.

S. 1366

At the request of Mrs. BOXER, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1366, a bill to amend the Internal Revenue Code of 1986 to allow taxpayers to designate a portion of their income tax payment to provide assistance to homeless veterans, and for other purposes.

S. 1376

At the request of Ms. KLOBUCHAR, the names of the Senator from Vermont (Mr. LEAHY) and the Senator from Indiana (Mr. LUGAR) were added as cosponsors of S. 1376, a bill to restore immunization and sibling age exemptions for children adopted by United States citizens under the Hague Convention on Intercountry Adoption to allow their admission into the United States.

S. 1382

At the request of Mr. DODD, the name of the Senator from Washington (Mrs. MURRAY) was added as a cosponsor of S. 1382, a bill to improve and expand the Peace Corps for the 21st century, and for other purposes.

S. 1408

At the request of Mr. MENENDEZ, the name of the Senator from Oklahoma (Mr. COBURN) was added as a cosponsor of S. 1408, a bill to amend the Internal Revenue Code of 1986 to encourage alternative energy investments and job creation.

S. 1524

At the request of Mr. KERRY, the names of the Senator from New Jersey (Mr. LAUTENBERG) and the Senator from North Carolina (Mrs. HAGAN) were added as cosponsors of S. 1524, a bill to strengthen the capacity, transparency, and accountability of United States foreign assistance programs to effectively adapt and respond to new challenges of the 21st century, and for other purposes.

S. 1547

At the request of Mr. REED, the name of the Senator from Montana (Mr. BAUCUS) was added as a cosponsor of S.

1547, a bill to amend title 38, United States Code, and the United States Housing Act of 1937 to enhance and expand the assistance provided by the Department of Veterans Affairs and the Department of Housing and Urban Development to homeless veterans and veterans at risk of homelessness, and for other purposes.

S. 1600

At the request of Mrs. McCASKILL, the name of the Senator from Wisconsin (Mr. FEINGOLD) was added as a cosponsor of S. 1600, a bill to reinstitute and update the Pay-As-You-Go requirement of budget neutrality on new tax and mandatory spending legislation, enforced by the threat of annual, automatic sequestration.

S. 1630

At the request of Mr. ROCKEFELLER, the name of the Senator from Alaska (Mr. BEGICH) was added as a cosponsor of S. 1630, a bill to amend title XVIII of the Social Security Act to improve prescription drug coverage under Medicare part D and to amend the Public Health Service Act, the Employee Retirement Income Security Act of 1974, and the Internal Revenue Code of 1986 to improve prescription drug coverage under private health insurance, and for other purposes.

S. 1668

At the request of Mr. BENNET, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1668, a bill to amend title 38, United States Code, to provide for the inclusion of certain active duty service in the reserve components as qualifying service for purposes of the Post-9/11 Educational Assistance Program, and for other purposes.

S. 1672

At the request of Mr. REED, the name of the Senator from New Hampshire (Mr. GREGG) was added as a cosponsor of S. 1672, a bill to reauthorize the National Oilheat Research Alliance Act of 2000.

S. 1681

At the request of Mr. LEAHY, the names of the Senator from Rhode Island (Mr. WHITEHOUSE) and the Senator from Minnesota (Mr. FRANKEN) were added as cosponsors of S. 1681, a bill to ensure that health insurance issuers and medical malpractice insurance issuers cannot engage in price fixing, bid rigging, or market allocations to the detriment of competition and consumers.

S. 1709

At the request of Ms. STABENOW, the name of the Senator from Arkansas (Mr. PRYOR) was added as a cosponsor of S. 1709, a bill to amend the National Agricultural Research, Extension, and Teaching Policy Act of 1977 to establish a grant program to promote efforts to develop, implement, and sustain veterinary services, and for other purposes.

S. 1723

At the request of Mr. CORKER, the name of the Senator from North Dakota (Mr. DORGAN) was added as a cosponsor of S. 1723, a bill to authorize the Secretary of the Treasury to delegate management authority over troubled assets purchased under the Troubled Asset Relief Program, to require the establishment of a trust to manage assets of certain designated TARP recipients, and for other purposes.

S. 1739

At the request of Mr. DODD, the names of the Senator from Delaware (Mr. KAUFMAN) and the Senator from Illinois (Mr. DURBIN) were added as cosponsors of S. 1739, a bill to promote freedom of the press around the world.

S. 1765

At the request of Mr. CARDIN, the names of the Senator from Pennsylvania (Mr. CASEY) and the Senator from Oregon (Mr. MERKLEY) were added as cosponsors of S. 1765, a bill to amend the Hate Crime Statistics Act to include crimes against the homeless.

S. 1775

At the request of Mr. BAYH, the name of the Senator from Minnesota (Mr. FRANKEN) was added as a cosponsor of S. 1775, a bill to amend the Higher Education Act of 1965 to provide that interest shall not accrue on Federal Direct Loans for members of the Armed Forces on active duty regardless of the date of disbursement.

S. RES. 296

At the request of Mrs. LINCOLN, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. Res. 296, a resolution designating October 2009 as "National Work and Family Month".

S. RES. 312

At the request of Mr. DODD, the names of the Senator from Illinois (Mr. BURRIS), the Senator from Washington (Mrs. MURRAY) and the Senator from Massachusetts (Mr. KIRK) were added as cosponsors of S. Res. 312, a resolution expressing the sense of the Senate on empowering and strengthening the United States Agency for International Development (USAID).

At the request of Mr. DURBIN, the names of the Senator from Rhode Island (Mr. WHITEHOUSE) and the Senator from Massachusetts (Mr. KERRY) were added as cosponsors of S. Res. 312, supra.

AMENDMENT NO. 2668

At the request of Mr. REID, the name of the Senator from Oregon (Mr. MERKLEY) was added as a cosponsor of amendment No. 2668 intended to be proposed to H.R. 3548, a bill to amend the Supplemental Appropriations Act, 2008 to provide for the temporary availability of certain additional emergency unemployment compensation, and for other purposes.

# STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mrs. SHAHEEN (for herself and Mr. VITTER):

S. 1778. A bill to amend the Federal Food, Drug, and Cosmetic Act with respect to generic drugs, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mrs. SHAHEEN. Mr. President, I rise today to introduce two health care bills that will help control health care costs and provide patients with better care. I believe these bills are easy to understand and reflect commonsense approaches to controlling health care costs.

The first bill, the Reducing Emergency Department Utilization through Coordination and Empowerment, or REDUCE Act, S. 1781, would reduce costly and excessive emergency room visits by providing patients with more consistent and coordinated care.

Emergency room overutilization is a source of wasteful spending in our health care system. Estimates show that \$14 billion are wasted each year in unnecessary emergency room visits. It drives up the cost of health care and leads to overcrowding of our emergency rooms.

Frequent users of emergency room services make up a small, but very costly portion of the population. These individuals tend to have multiple chronic illnesses and severe mental illness. They often live in poverty or are homeless. Many times they use the emergency room because they have nowhere else to go.

In the most extreme cases, these individuals can cost the system millions of dollars. You heard right, one person can put a multi-million dollar strain on our health care system. For example in Camden, NJ, one person cost taxpayers \$3.5 million over 5 years in Medicaid and Medicare payments.

We need to fix this problem, and I believe we can. The REDUCE Act is modeled after successful pilot programs across the country. It provides beneficiaries with a care management team consisting of a medical provider, a social worker and a community health worker that can provide medical care and support in any setting. The care management team also helps to ensure that these individuals are going to their primary care doctors and mental health providers on a regular basis.

Research shows it works. In fact, after two years of enrollment in one pilot program, on average, individual emergency room visits were reduced by 61 percent and emergency room charges were reduced by 59 percent for those that participated.

There is a lot we need to do to reform our health care system, but as we work on reform broadly, we also need to focus attention on individuals, especially these high cost patients. Doing so will improve care for this vulnerable population and reduce costs.

The second bill, the Access to Affordable Medicines Act, S. 1778, will increase access to lower cost generic drugs by closing a loophole some brand name drug companies exploit that needlessly and unfairly delays the entry of safe, lower-cost generic drugs to the consumer market.

As the law currently stands, when brand name manufacturers make labeling changes, generic drug labeling must reflect this change prior to the drug being approved and introduced in the market.

Too often, big pharmaceutical companies make last minute changes to the label. Many times the labeling changes are insignificant and do not deal with safety or warnings. In fact, these last minute changes are often used by brand name pharmaceutical companies to purposefully delay the introduction of cost-saving generic drugs by weeks or months. This can cost consumers and the federal government millions of dollars.

My bill would stop these costly practices by providing a 60-day grace period for the generic drug company to submit the new labeling for approval and marketplace distribution, while preserving safeguards if the new labeling truly presents a safety issue.

As we work to pass comprehensive health care reform in Congress, we do it with families and small businesses who struggle everyday with the high cost of health care in mind. These bills are the types of sensible reforms that we need to make so that the health care system is more affordable and more efficient. I look forward to working with my Senate colleagues on this legislation.

By Mr. WHITEHOUSE (for himself, Mr. LEAHY, and Mr. SESSIONS):

S. 1782. A bill to provide improvements for the operations of the Federal courts, and for other purposes; to the Committee on the Judiciary.

Mr. WHITEHOUSE. Mr. President, I rise today to introduce the Federal Judiciary Administrative Improvements Act of 2009 on behalf of myself and the Chairman and Ranking Member of the Judiciary Committee, Senators LEAHY and SESSIONS. I thank them for their support. It has been a pleasure to work with them on this important bipartisan effort.

The Federal Courts decide crucial issues of criminal and civil law every day, providing justice and protecting our constitutional rights. It is our responsibility in Congress to ensure that our governing technical issues of judicial administration will help them in this effort.

The Federal Judiciary Administrative Improvements Act of 2009 takes up that responsibility by making nine technical fixes necessary for the better administration of the Federal courts.

The bill will clarify the role of Senior Judges in the selection of Magistrate Judges, enable better workload distribution among the judges of the District of North Dakota, align the benefits received by territorial judges in Guam, the U.S. Virgin Islands and the Northern Mariana Islands with those of other term judges, equalize leave limits and pay scales for judicial executives with those for senior executive branch officials, protect individual privacy in connection with judges' role in the sentencing process, clarify the authority of pretrial service officers over juvenile offenders, amend requirements for the reporting of wiretap information to the Administrative Office of the Courts, and add an inflation adjustment for the case expenses that must be reviewed by the chief judge of a district court. The Administrative Office of the Courts supports each provision.

I urge my colleagues to act promptly on this bipartisan legislation. I again thank Chairman LEAHY and Ranking Member SESSIONS for their support.

Mr. LEAHY. Mr. President, today, I am pleased to join Senators WHITEHOUSE and SESSIONS to introduce the Federal Judiciary Administrative Improvements Act of 2009, a bipartisan bill that would improve the administration and efficiency of our Federal court system. This legislation would also provide the third branch of government with important assistance to the women and men who comprise the Federal judiciary.

I thank Senator WHITEHOUSE and Senator SESSIONS for their hard work on this critical issue. I previously introduced a court improvement bill in the 108th Congress. I hope the bill we introduce today will pass the full Senate with unanimous support, and will not be subjected to the objections of Senate Republicans as it was 5 years ago. I have also supported past legislative proposals from the Judicial Conference to improve the administration of justice in the Federal courts, including a similar measure last year, which was enacted into law.

In recent years, the job of a Federal judge has changed considerably. Today, Federal judges at both the trial and appellate level are hearing more cases with fewer available judicial resources. We have a responsibility to pass legislation that helps them keep up with changing times and circumstances. Just as it is the judiciary's duty to deliver justice in a neutral and unbiased manner, it is the duty of the legislative branch to provide the requisite tools for the women and men who honorably serve on the judiciary to ably fulfill their critical responsibilities. I believe our independent judiciary is the envy of the world, and we must take care to protect it.

The legislation we introduce today contains proposals that the Federal judiciary believes will improve its oper-

ations and allow it to continue to serve as a bulwark protecting our individual rights and liberties. It also contains additional technical and substantive proposals carried over from previous Congresses.

The Judiciary Administrative Improvements Act of 2009 would facilitate judicial operations and improve judicial resource management. The bill would clarify existing law to ensure that senior judges with a minimum workload can participate in the selection of magistrate judges. The bill would also revise the statutory description of the District of North Dakota to eliminate unnecessary references to divisions and counties, while maintaining the present requirement that North Dakota constitutes one judicial district. I believe this technical change would improve the judicial workload distribution in that district and reduce travel time for litigants.

Our legislation also contains critical provisions that would improve personnel and benefits for certain judges and their hardworking judiciary staff. The bill would authorize a cost-of-living adjustment for Federal territorial judges entitled to receive an annuity. It would also authorize territorial judges who are 65 years of age or older to collect, for the remainder of their lives, an annuity equal to the salary received when they left office. These changes would reduce existing inequities between Federal territorial judges and other term judges such as Federal magistrate and bankruptcy judges. The bill would extend to senior executives in the Federal courts, the Federal Judicial Center, and the Sentencing Commission the same ability to carry over annual leave hours as that enjoyed by senior employees in the Executive Branch and the Administrative Office of the United States Courts, AO. It would also allow the Federal Judicial Center to provide a modest increase in pay for certain division directors.

The Judiciary Administrative Improvements Act of 2009 would also improve the administration of criminal justice. The bill would better protect confidential information about a defendant during sentencing by allowing the "statement of reasons" form that judges are required to issue upon sentencing to be filed separately with the court. This change would allow confidential information contained within the "statement of reasons" to be more easily controlled and protected. In addition, the bill would clarify the scope of authority of Federal pretrial services officers to supervise and assist juveniles awaiting delinquency disposition in Federal court. Current laws regarding the duties of pretrial service officers focus solely on adults and thus it is unclear what duties those officers have to provide services to juveniles. This bill would fill that gap and ensure that pretrial services officers are fully

authorized to arrange drug treatment and other critical services for juvenile offenders. The bill would also improve the statistical reporting schedule for criminal wiretap orders. It would eliminate burdensome monthly deadlines for state and Federal judges to report their wiretap data and unrealistic interagency deadlines for reporting that data to the AO. This change will allow for more comprehensive reporting of wiretap data.

In addition, the legislation we introduce today would also conserve judicial resources over certain court requests from indigent defendants. Under current law, a certain statutory threshold exists at which the costs of hiring expert witnesses and conducting investigations for indigent defendants must be approved by the court. These thresholds do not account for inflation, however, which results in a waste of precious judicial resources. This bill would apply an inflationary index to the threshold amount to make them more cost-effective. As a result, this change will allow judges to spend more time on less of these requests each year, which would better improve the overall administration of justice.

I am glad that this important legislation has the support of the Administrative Office of the Courts, on behalf of the Judicial Conference, and Senators on both sides of the aisle. The Federal judiciary needs these improvements to increase its efficiency and administrative operations. I urge all Senators to support prompt passage of this non-controversial legislation this year.

By Mr. FRANKEN (for himself, Mr. FEINGOLD, and Mr. BROWN):  
S. 1783. A bill to amend the Agricultural Marketing Act of 1946 to provide for country of origin labeling for dairy products; to the Committee on Agriculture, Nutrition, and Forestry.

Mr. FRANKEN. Mr. President, all across the country, family dairy farms are in dire straits. In Minnesota alone, 200 dairy farms have closed this year. There is no single cause for this crisis. Family dairy farmers are confronting an unprecedented global recession, consolidation in the market, high feed prices, and unpredictable price swings—all at the same time.

Since arriving in Washington, I have been proud to work with my dairy State colleagues in order to give our family farmers the tools they need to weather this storm. In July, Senators from the midwest, the northeast, and the southwest worked together with Secretary Vilsack to raise price supports. Just last week we provided the Department of Agriculture with another \$350 million for price supports in the annual agriculture spending bill. Unfortunately, raising price supports alone won't calm the economic storm.

Just as there is no single cause for this, there is no single solution. Our

family farmers need multiple tools in their shed. Today, I am introducing a bill with Senator FEINGOLD and Senator BROWN to give our family farmers another tool.

The Dairy Country Of Origin Labeling Act, or Dairy COOL, is really pretty simple—it would extend mandatory country of origin labeling to dairy products. The current country of origin labeling law, which went into effect last year, applies to meats, produce, and nuts, but it doesn't include dairy products. Our bill would simply add dairy products—such as milk, ice cream and cheese—to the list.

Minnesota, Wisconsin, and Ohio dairy farmers, as well as family farmers across the Nation, have the right to distinguish their products from imported products. As families do their weekly grocery shopping, they should have the option of putting milk, cheese, and ice cream from our own family farms into their cart. It is more than “from farm to table”—it's really “from one family to another.”

Families are what this is about. Hardly a week goes by where you don't hear another story of contaminated food and toys coming in from foreign shores. Labeling our dairy products lets parents make smarter choices at the grocery store.

This bill isn't a silver bullet, but it does give family farms another tool that will help them weather the current storm, grow a little stronger, and keep our families a little safer.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1783

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “Dairy COOL Act of 2009”.

#### SEC. 2. COUNTRY OF ORIGIN LABELING FOR DAIRY PRODUCTS.

(a) DEFINITIONS.—Section 281 of the Agricultural Marketing Act of 1946 (7 U.S.C. 1638) is amended—

- (1) in paragraph (2)—
  - (A) in subparagraph (A)—
    - (i) in clause (x), by striking “and” at the end;
    - (ii) in clause (xi), by striking the period at the end and inserting “; and”; and
    - (iii) by adding at the end the following:
 

“(xi) dairy products.”; and
  - (B) in subparagraph (B), by inserting “(other than clause (xii) of that subparagraph)” after “subparagraph (A)”;
    - (2) by redesignating paragraphs (3) through (9) as paragraphs (4) through (10), respectively; and
    - (3) by inserting after paragraph (2) the following:
 

“(3) DAIRY PRODUCT.—The term ‘dairy product’ means—

“(A) fluid milk;

“(B) cheese, including cottage cheese and cream cheese;

- “(C) yogurt;
- “(D) ice cream;
- “(E) butter; and
- “(F) any other dairy product.”.

(b) NOTICE OF COUNTRY OF ORIGIN.—Section 282(a) of the Agricultural Marketing Act of 1946 (7 U.S.C. 1638a(a)) is amended by adding at the end the following:

“(5) DESIGNATION OF COUNTRY OF ORIGIN FOR DAIRY PRODUCTS.—

“(A) IN GENERAL.—A retailer of a covered commodity that is a dairy product shall designate the origin of the covered commodity as—

“(i) each country in which or from the 1 or more dairy ingredients or dairy components of the covered commodity were produced, originated, or sourced; and

“(ii) each country in which the covered commodity was processed.

“(B) STATE, REGION, LOCALITY OF THE UNITED STATES.—With respect to a covered commodity that is a dairy product produced exclusively in the United States, designation by a retailer of the State, region, or locality of the United States where the covered commodity was produced shall be sufficient to identify the United States as the country of origin.”.

#### AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON BANKING, HOUSING, AND URBAN AFFAIRS

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that the Committee on Banking, Housing, and Urban Affairs be authorized to meet during the session of the Senate on October 14, 2009, at 2:30 p.m., to conduct a hearing entitled “Examining the State of the Banking Industry.”

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate, on October 14, at 10 a.m. in room SD-366 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that the Committee on Energy and Natural Resources be authorized to meet during the session of the Senate, on October 14, 2009, at 11:30 a.m. in room SD-366 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate, on October 14, 2009, at 10 a.m. in room SD-226 of the Dirksen Senate Office Building, to conduct a hearing entitled “Prohibiting Price Fixing and Other Anticompetitive Conduct in the Health Insurance Industry.”

The PRESIDING OFFICER. Without objection, it is so ordered.

SPECIAL COMMITTEE ON AGING AND THE SUBCOMMITTEE ON OVERSIGHT OF GOVERNMENT MANAGEMENT, THE FEDERAL WORKFORCE, AND THE DISTRICT OF COLUMBIA

Mr. NELSON of Florida. Mr. President, I ask unanimous consent that the Special Committee on Aging and the Subcommittee on Oversight of Government Management, the Federal Workforce, and the District of Columbia be authorized to meet during the session of the Senate on October 14, 2009, from 2:30 p.m.-5 p.m. in room 342 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PRIVILEGES OF THE FLOOR

Mr. HARKIN. Mr. President, I ask unanimous consent that Shauna Agan and Amber Oldham of my staff be granted floor privileges for the duration of today's session.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRASSLEY. Madam President, I ask unanimous consent for Preston Rutledge, Carolyn Coda, Chantal Matin, and Stephen Theulen be granted the privileges of the floor for the duration of the 111th Congress.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### EXECUTIVE SESSION

#### EXECUTIVE CALENDAR

Mr. BROWN. I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 472 and 473; that the nominations be confirmed en bloc, the motions to reconsider be laid on the table en bloc; that no further motions be in order; and that any statements relating to the nominations be printed in the RECORD as if read; provided further that the President be immediately notified of the Senate's action and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

#### DEPARTMENT OF JUSTICE

David Lyle Cargill, Jr., of New Hampshire, to be United States Marshal for the District of New Hampshire for the term of four years.

Timothy J. Heaphy, of Virginia, to be United States Attorney for the Western District of Virginia for the term of four years.

#### LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate resumes legislative session.

#### FDR DOCUMENTS ACT

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate

proceed to the immediate consideration of Calendar No. 172, S. 692.

The PRESIDING OFFICER. The clerk will report the bill by title.

The bill clerk read as follows:

A bill (S. 692) to provide that claims of the United States to certain documents relating to Franklin Delano Roosevelt shall be treated as waived and relinquished in certain circumstances.

There being no objection, the Senate proceeded to consider the bill.

Mr. BROWN. I ask unanimous consent that the bill be read a third time and passed, the motion to reconsider be laid upon the table, with no intervening action or debate and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 692) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 692

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. TREATMENT OF OWNERSHIP OF CERTAIN DOCUMENTS RELATING TO FRANKLIN DELANO ROOSEVELT.**

(a) IN GENERAL.—If any person or entity makes a gift of any property described in subsection (b) to the National Archives and Records Administration, then any claim of the United States to such property shall be treated as having been waived and relinquished on the day before the date of such gift.

(b) PROPERTY DESCRIBED.—Property is described in this subsection if such property—

(1) is a part of the collection of documents, papers, and memorabilia relating to Franklin Delano Roosevelt or any member of his family or staff; and

(2) was in the possession of Grace Tully and retained by her at the time of her death.

(c) DATE OF GIFT.—The date of a gift referred to in subsection (a) is any date specified by the donor so long as such date is subsequent to the physical delivery of the property described in subsection (b) to the National Archives and Records Administration.

**ALLOWING FUNDING FOR THE INTEROPERABLE EMERGENCY COMMUNICATIONS GRANT PROGRAM**

Mr. BROWN. Mr. President, I ask unanimous consent that the Commerce Committee be discharged from further consideration of S. 1694, and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the bill by title.

The bill clerk read as follows:

A bill (S. 1694) to allow the funding for the interoperable emergency communications grant program established under the Digital Television Transition and Public Safety Act of 2005 to remain available until expended through fiscal year 2012, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. BROWN. I ask unanimous consent the bill be read a third time and

passed, the motion to reconsider be laid upon the table, with no intervening action or debate, and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (S. 1694) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1694

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

**SECTION 1. PUBLIC SAFETY INTEROPERABLE COMMUNICATIONS GRANTS.**

(a) Notwithstanding section 3006(a)(2) of the Digital Television Transition and Public Safety Act of 2005 (47 U.S.C. 309 note), sums made available to administer the Public Safety Interoperable Communications Grant Program under section 309(j)(8)(E) of the Communications Act of 1934 (47 U.S.C. 309(j)(8)(E)) shall remain available until expended, but not beyond September 30, 2012.

(b) The period for performance of any investment approved under the Program as of the date of enactment of this Act shall be extended by one year, but not later than September 30, 2011, except that the Assistant Secretary of Commerce for Communications and Information may extend, on a case-by-case basis, the period of performance for any investment approved under the Program as of that date for a period of not more than 2 years, but not later than September 30, 2012. In making a determination as to whether an extension beyond September 30, 2011, is warranted, the Assistant Secretary should consider the circumstances that gave rise to the need for the extension, the likelihood of completion of performance within the deadline for completion, and such other factors as the Assistant Secretary deems necessary to make the determination.

**NATIONAL LEARN AND SERVE CHALLENGE**

Mr. BROWN. Mr. President, I ask unanimous consent that the HELP Committee be discharged from further consideration of S. Con. Res. 46 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered.

The clerk will report the concurrent resolution by title.

The bill clerk read as follows:

A concurrent resolution (S. Con. Res. 46) recognizing the benefits of service-learning and expressing support for the goals of the National Learn and Serve Challenge.

There being no objection, the Senate proceeded to consider the concurrent resolution.

Mr. BROWN. I ask unanimous consent the concurrent resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate; and any statements be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The concurrent resolution (S. Con. Res. 46) was agreed to.

The preamble was agreed to.

The concurrent resolution, with its preamble, reads as follows:

S. CON. RES. 46

Whereas service-learning is a teaching method that enhances academic learning by integrating classroom content with relevant activities aimed at addressing identified needs in a community or school;

Whereas service-learning has been used both in school and community-based settings as a teaching strategy to enhance learning by building on youth experiences, granting youth a voice in learning, and making instructional goals and objectives more relevant to youth;

Whereas service-learning addresses the dropout epidemic in the United States by making education more “hands-on” and relevant, and has been especially effective in addressing the dropout epidemic with respect to disadvantaged youth;

Whereas service-learning is proven to provide the greatest benefits to disadvantaged and at-risk youth by building self-confidence, which often translates into overall academic and personal success;

Whereas service-learning provides not only meaningful experiences, but improves the quantity and quality of interactions between youth and potential mentors in the community;

Whereas service-learning empowers youth as actively engaged learners, citizens, and contributors to the community;

Whereas youth engaged in service-learning provide critical service to the community by addressing a variety of needs in towns, cities, and States, including needs such as tutoring young children, care of the elderly, community nutrition, disaster relief, environmental stewardship, financial education, and public safety;

Whereas far-reaching and diverse research shows that service-learning enhances the academic, career, cognitive, and civic development of students in kindergarten through 12th grade, and students at institutions of higher education;

Whereas service-learning strengthens and increases the number of partnerships among institutions of higher education, local schools, and communities, which strengthens communities and improves academic learning;

Whereas service-learning programs allow a multitude of skilled and enthusiastic college students to serve in the communities surrounding their colleges;

Whereas service-learning programs engage students in actively addressing and solving pressing community issues and strengthen the ability of nonprofit organizations to meet community needs;

Whereas Learn and Serve America, a program established under subtitle B of title I of the National and Community Service Act of 1990 (42 U.S.C. 12521 et seq.), is the only federally funded program dedicated to service-learning and engages more than 1,100,000 youth in service-learning each year;

Whereas Learn and Serve America is a highly cost-effective program, with an average cost of approximately \$25 per participant and leverage of \$1 for every Federal dollar invested;

Whereas the National Learn and Serve Challenge is an annual event that, in 2009, will take place October 5 through October 11; and

Whereas the National Learn and Serve Challenge spotlights the value of service-learning to young people, schools, college campuses, and communities, encourages others to launch service-learning activities, and

increases recognition of Learn and Serve America: Now, therefore, be it

*Resolved by the Senate (the House of Representatives concurring), That Congress—*

(1) recognizes the benefits of service-learning, which include—

(A) enriching and enhancing academic outcomes for youth;

(B) engaging youth in positive experiences in the community; and

(C) encouraging youth to make more constructive choices with regards to their lives;

(2) encourages schools, school districts, college campuses, community-based organizations, nonprofit organizations, and faith-based organizations to provide youth with more service-learning opportunities; and

(3) expresses support for the goals of the National Learn and Serve Challenge.

#### NATIONAL WORK AND FAMILY MONTH

Mr. BROWN. Mr. President, I ask unanimous consent that the Judiciary Committee be discharged from further consideration of S. Res. 296 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will report the resolution by title.

The bill clerk read as follows:

A resolution (S. Res. 296) designating October 2009 as “National Work and Family Month.”

There being no objection, the Senate proceeded to consider the resolution.

Mr. BROWN. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and any statements related to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 296) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 296

Whereas, according to a report by WorldatWork, a nonprofit professional association with expertise in attracting, motivating, and retaining employees, the quality of workers’ jobs and the supportiveness of their workplaces are key predictors of workers’ job productivity, job satisfaction, and commitment to employers and of employers’ ability to retain workers;

Whereas, according to the 2008 National Study of Employers by the Families and Work Institute, employees in more flexible and supportive workplaces are more effective employees, are more highly engaged and less likely to look for a new job in the next year, and enjoy better overall health, better mental health, and lower levels of stress than employees in workplaces that provide less flexibility and support;

Whereas, according to a 2004 report of the Families and Work Institute entitled “Overwork in America”, employees who are able to effectively balance family and work responsibilities are less likely to report making mistakes or feel resentment toward employers and coworkers;

Whereas, according to the “Best Places to Work in the Federal Government” rankings released by the Partnership for Public Service and American University’s Institute for the Study of Public Policy Implementation, work-life balance and a family-friendly culture are among the key drivers of engagement and satisfaction for employees in the Federal workforce;

Whereas, according to a 2009 survey of college students by the Partnership for Public Service and Universum USA entitled “Great Expectations! What Students Want in an Employer and How Federal Agencies Can Deliver It”, attaining a healthy work-life balance was an important career goal of 66 percent of the students surveyed;

Whereas a 2008 study by the Partnership for Public Service entitled “A Golden Opportunity: Recruiting Baby Boomers into Government” revealed that workers between the ages of 50 and 65 are a strong source of experienced talent for the Federal workforce and that nearly 50 percent of workers in that age group find flexible work schedules “extremely appealing”;

Whereas finding a good work-life balance is important to workers in multiple generations;

Whereas employees who are able to effectively balance family and work responsibilities tend to feel healthier and more successful in their relationships with their spouses, children, and friends;

Whereas 85 percent of wage and salaried workers in the United States have immediate, day-to-day family responsibilities outside of their jobs;

Whereas, in 2000, research by the Radcliffe Public Policy Center revealed that men in their 20s and 30s and women in their 20s, 30s, and 40s identified a work schedule that allows them to spend time with their families as the most important job characteristic for them;

Whereas, according to the 2006 American Community Survey by the United States Census Bureau, 47 percent of wage and salaried workers in the United States are parents with children under the age of 18 who live with them at least half-time;

Whereas job flexibility often allows parents to be more involved in their children’s lives and research demonstrates that parental involvement is associated with children’s higher achievement in language and mathematics, improved behavior, greater academic persistence, and lower dropout rates;

Whereas the 2000 Urban Working Families study demonstrated that a lack of job flexibility for working parents negatively affects children’s health in ways that range from children being unable to make needed doctors’ appointments to children receiving inadequate early care, leading to more severe and prolonged illness;

Whereas, from 2001 to the beginning of 2008, 1,700,000 active duty troops served in Iraq and 600,000 members of the National Guard and Reserve (133,000 on more than one tour) were called up to serve in Iraq;

Whereas, because so many of those troops and National Guard and Reserve members have families, there needs to be a focus on policies and programs that can help military families adjust to the realities that come with having a family member in the military;

Whereas research by the Sloan Center for Aging and Work reveals that the majority of workers aged 53 and older attribute their success as an employee by a great or moderate extent to having access to flexibility in their jobs and that the majority of those

workers also report that, to a great extent, flexibility options contribute to an overall higher quality of life;

Whereas studies show that 1/3 of children and adolescents in the United States are obese or overweight, and healthy lifestyle habits, including healthy eating and physical activity, can lower the risk of becoming obese and developing related diseases;

Whereas studies report that family rituals, such as sitting down to dinner together and sharing activities on weekends and holidays, positively influence children’s health and development and that children who eat dinner with their families every day consume nearly a full serving more of fruits and vegetables per day than those who never eat dinner with their families or do so only occasionally;

Whereas unpaid family caregivers will likely continue to be the largest source of long-term care services in the United States for the elderly;

Whereas the Department of Health and Human Services anticipates that by 2050 the number of such caregivers will reach 37,000,000, an increase of 85 percent from 2000, as baby boomers reach retirement age in record numbers; and

Whereas the month of October is an appropriate month to designate as “National Work and Family Month”: Now, therefore, be it

*Resolved, That the Senate—*

(1) designates October 2009 as “National Work and Family Month”;

(2) recognizes the importance of work schedules that allow employees to spend time with their families to job productivity and to healthy families;

(3) urges public officials, employers, employees, and the general public to work together to achieve more balance between work and family; and

(4) calls upon the people of the United States to observe National Work and Family Month with appropriate ceremonies and activities.

#### ORDERS FOR THURSDAY, OCTOBER 15, 2009

Mr. BROWN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 9:30 a.m. tomorrow, October 15; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate proceed to a period of morning business for 2 hours, with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first hour and the majority controlling the final hour; further, that following morning business, the Senate resume consideration of the conference report to accompany H.R. 3183, energy and water appropriations; finally, I ask that time during any adjournment, recess or period of morning business count postcloture.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PROGRAM

Mr. BROWN. Mr. President, in addition to completing action on the energy and water conference report tomorrow, the majority leader would like to reach agreements to consider the conference reports to accompany the Homeland Security appropriations bill and the Department of Defense authorization bill.

ADJOURNMENT UNTIL 9:30 A.M.  
TOMORROW

Mr. BROWN. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 8:17 p.m., adjourned until Thursday, October 15, 2009, at 9:30 a.m.

## CONFIRMATIONS

Executive nominations confirmed by the Senate, Wednesday, October 14, 2009:

## DEPARTMENT OF JUSTICE

DAVID LYLE CARGILL, JR., OF NEW HAMPSHIRE, TO BE UNITED STATES MARSHAL FOR THE DISTRICT OF NEW HAMPSHIRE FOR THE TERM OF FOUR YEARS.

TIMOTHY J. HEAPHY, OF VIRGINIA, TO BE UNITED STATES ATTORNEY FOR THE WESTERN DISTRICT OF VIRGINIA FOR THE TERM OF FOUR YEARS.

## EXTENSIONS OF REMARKS

### PERSONAL EXPLANATION

#### HON. SAM JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. SAM JOHNSON of Texas. Madam Speaker, having been absent from the House for the week of October 5th, I would have voted the following way:

Conference Report to H.R. 2997—"nay."

Conference Report to H.R. 2647—"nay."

### CONGRATULATING THE VILLAGE OF ALEXANDER, NEW YORK, ON ITS 175TH ANNIVERSARY

#### HON. CHRISTOPHER JOHN LEE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. LEE of New York. Madam Speaker, it is with great pride that I commemorate the 175th anniversary of the Village of Alexander, New York, a beautiful community home to nearly 500 Genesee County residents.

Incorporated in 1834, the Village of Alexander is named after Alexander Rhea, who purchased the first land from his employer, the Holland Land Company, in 1802.

Alexander's history is closely tied to the Tonawanda Creek, which flows northeasterly through the town. The lands along the creek attracted numerous settlers, and Alexander continued to grow throughout the early 1800s and quickly became one of the most populous towns in Genesee County. By 1812, more than 100 families had taken up land in the town.

A tavern, tannery, blacksmith shop, general store, and a library were all soon built. A literary society was then formed out of the library, and after residents were able to raise \$6,000, the Alexander Classical School and later the Genesee and Wyoming Seminary were formed, leading to some of the first secondary education institutions in Genesee County.

Rich in history and community pride, the Village of Alexander and its residents are a true asset to Western New York.

Madam Speaker, in recognition of its 175th Anniversary, I ask this Honorable Body to join me in commemorating the Village of Alexander, New York.

### HONORING SPECIALIST SAM D. MERONEY

#### HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Specialist Sam D. Meroney who has exemplified the finest qualities of leadership and citizenship by proudly serving our country in the United States Army. Specialist Meroney is currently stationed at Fort Carson, Colorado, and is most deserving of this special recognition as he continues to fight to protect the United States of America.

Specialist Meroney recently participated in the U.S. Army Military Police Challenge at Fort Leonard Wood, Missouri. From September 16–18, 2009, Specialist Meroney and his two compatriots competed in thirteen spirited events. Of the nation's top 34 three-man teams participating, Specialist Meroney and his team were able to meet the significant challenges and succeed in winning the overall competition. In addition to this achievement, his team placed first in two individual events. Not only has Specialist Meroney earned the respect of his family, peers, and community, he has also made both the state of Missouri and the United States of America proud.

Madam Speaker, I strongly urge all Members of Congress to join me in commending Specialist Sam D. Meroney for his accomplishments in the United States Army and for his efforts put forth in defense of this nation.

### RECOGNIZING THE CONTRIBUTIONS OF THE INDIA PLAZA

#### HON. HARRY E. MITCHELL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. MITCHELL. Madam Speaker, I rise today to recognize the many contributions of the India Plaza to the city of Tempe. The India Plaza has been a strong and distinctive feature in the Tempe community since 2003. The plaza serves as a window into the Indian culture, showcasing India's food, clothing, music and hospitality.

Since its beginnings, the plaza has continuously thrived. Its business owners and employees have partnered with local charities and been active in the Tempe Chamber of Commerce. Those same merchants also worked to create a safer environment by promoting the addition of crosswalk and signal access near the plaza.

I am truly privileged to represent such a strong cultural fixture in our district and will continue to treasure the plaza's addition to Tempe's diversity. As many in the Indian com-

munity decorate their homes with lights, share sweets and start the new financial year in celebration of Diwali, I am honored to share in their celebration. Again, I am proud to serve the India Plaza and am eager to see its continued success and growth.

Therefore, I urge you Madam Speaker, in rising to congratulate the India Plaza on its partnerships and accomplishments within the community of Tempe, Arizona.

### PERSONAL EXPLANATION

#### HON. LINDA T. SÁNCHEZ

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Ms. LINDA T. SÁNCHEZ of California. Madam Speaker, unfortunately, I was unable to be present in the Capitol for three votes on Tuesday, October 13, 2009.

However, had I been present, I would have voted "yea" on H.R. 3689, providing for an extension of the legislative authority of the Vietnam Veterans Memorial Fund, Inc. to establish a Vietnam Veterans Memorial visitor center; "yea" on H.R. 3476, reauthorizing the Delaware Water Gap National Recreation Area Citizen Advisory Commission; and "yea" on H. Res. 659, congratulating Kappa Alpha Psi Fraternity, Inc. on 98 years of serving local communities and enriching the lives of collegiate men throughout the Nation.

### MEDIA GIVE TALE OF TWO PROTESTS

#### HON. LAMAR SMITH

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. SMITH of Texas. Madam Speaker, in Pittsburgh and Washington, DC, the national media have given us a tale of two protests.

The media's coverage of the conservative September 12 protests intentionally tried to paint a negative picture of the protestors, even though there were no arrests or acts of violence.

The Washington Post described the 9/12 protests as an outpouring of a "spectrum of conservative anger."

The New York Times used words like "angry" and "profane" to describe the protests.

Fast forward to the radical-left G-20 protests in Pittsburgh recently.

The New York Times headline called the protests a "Peaceful March."

CNN described the protests as "more peaceful, less confrontational," even though there were dozens of arrests and businesses damaged.

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

The national media should give fair coverage to protests on both sides, instead of demonizing conservatives and praising radical liberals.

REMEMBERING NAVY SEAL, SO2,  
RYAN JOB

HON. HARRY E. MITCHELL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. MITCHELL. Madam Speaker, it is with great remorse that I rise today to remember the life of Navy Seal, SO2, Ryan Job. Ryan joined the Navy in 2002 with the goal of joining the select Navy Special-Operations Force, known as the SEALs. Ryan was eventually deployed to serve in Iraq in 2006. While on patrol in the city of Ramadi, Ryan was wounded in an assault, which resulted in the destruction of one of Ryan's eyes and severing the optic nerves of the other. This attack left Ryan entirely blind. After spending time in multiple military hospitals across the country, Ryan's stamina and determination allowed him to make a full recovery, and in 2007, he and his wife Kelly moved to my district and settled in North Scottsdale. There, he was able to complete his business degree, and landed a job with General Dynamics.

Ryan was able to make this smooth transition back to a civilian life with the help of the non-profit Sentinels of Freedom Scholarship Foundation. This incredible organization is devoted to providing aid and support to injured men and women of the U.S. armed forces to help them realize their goals of returning back to their homes and becoming productive and active members of society. The Sentinels of Freedom helped Ryan to locate the condo he and his wife chose to live in, found him the job at General Dynamics, and also enrolled him in online classes to allow Ryan to finish his degree. In return, Ryan became a spokesman for the organization and an advocate for veterans, as he wanted to make sure that his fellow men and women in uniform would be able to make the same transition as he did.

On September 24, 2009, Ryan underwent another surgery. However, this time, there were complications, and in an absolutely heart-breaking turn of events, our brave and inspiring friend Ryan Job passed away.

Madam Speaker, I hope that you will join me in remembering and celebrating the life of Ryan Job. My thoughts are with Ryan's family and loved ones during this difficult time. Ryan is a hero to us all. He will be dearly missed, but he will never be forgotten.

HONORING JESSE RAYMOND  
NELSON

HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Jesse Raymond Nelson, a very special young man who has exemplified

the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 1179, and in earning the most prestigious award of Eagle Scout.

Jesse has been very active with his troop participating in many scout activities. Over the many years Jesse has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community.

Madam Speaker, I proudly ask you to join me in commending Jesse Raymond Nelson for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

HONORING VIRGINIA HOUSE  
SPEAKER WILLIAM J. HOWELL  
FOR RECEIVING THE  
CARRINGTON WILLIAMS PRESER-  
VATION AWARD

HON. FRANK R. WOLF

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. WOLF. Madam Speaker, I rise today to recognize Virginia House Speaker William J. Howell for receiving the Carrington Williams Preservation Award. The Carrington Williams Preservation Award is presented by the Shenandoah Valley Battlefields Foundation to an individual whose accomplishments in furthering the cause of preservation have been noteworthy and will be long-lasting. This year, the Shenandoah Valley Battlefields Foundation selected a Virginian of remarkable accomplishments for the Commonwealth and to the preservationist cause to receive this award.

The award is made in honor of Carrington Williams, whose dedication to preservation, especially Civil War battlefields, is well known. He served as chairman of the predecessor organization to the Civil War Preservation Trust, the Association for Preservation of Civil War Sites. He was chairman of the federal commission that wrote the management plan for the Shenandoah Valley Battlefields National Historic District, and he served as the founding chairman of this organization.

The Honorable William J. Howell is the 54th Speaker of the Virginia House of Delegates, a nearly 400-year old institution and the oldest continuously elected law-making body in the world. First elected a delegate in 1987, he represents the 28th House District which includes parts of Stafford County and the City of Fredericksburg.

In addition to his noteworthy legislative contributions to public education and public safety, the 2007 enactment of his legislation for historic land use changes were supported by statewide and regional funding of roads, railroads, and transit. He has been a strong supporter of restoring the Chesapeake Bay and also led the effort to enact Virginia's national model program for preserving open spaces using free market principles. He has stood firmly with battlefield preservationists in many of their efforts, including those at Slaughter Pen Farm in Fredericksburg, as well as more recently at the Wilderness. And his leadership

enabled the General Assembly to appropriate \$5 million in state funding for Civil War battlefield preservation.

Speaker Howell is chairman of the Virginia Sesquicentennial American Civil War Commission that is now preparing to mark the 150th Anniversary in 2011 of Virginia's entry into the Civil War. He has been twice honored by the Civil War Preservation Trust with its State Leadership Award. He was one of the overseers of the recent State Capitol renovations as well as one of the leaders in organizing the commemoration in 2007 of America's 400th Anniversary at Jamestown.

HONORING EISENHOWER HIGH  
SCHOOL

HON. JOE BACA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. BACA. Madam Speaker, I rise today to honor Eisenhower High School in Rialto, California, on the occasion of its 50th Anniversary.

The students and alumni of Eisenhower High School will celebrate 50 years of continued academic excellence, October 17, 2009. This anniversary is a milestone for Rialto, California. Throughout the past 50 years, the school has provided an exemplary educational service to its students and has contributed greatly to the community.

Eisenhower first opened its doors in fall of 1959, and since then has achieved success in academics, athletics and community service while providing a high level of education. They have always been a school of inclusion and unity regardless of an individual's background.

Eisenhower High School has been able to maintain an outstanding athletic program for their students, allowing them to participate in activities that promote the values of team work, integrity, and dedication. Their athletic teams have consistently won conference titles in varied sports, including football, basketball, wrestling, and swimming. The boy's basketball team currently holds the State Championship title. With this victory they became the first California Interscholastic Federation State title holders for a school from San Bernardino County.

Pro Football Hall of Famer Ronnie Lott graduated from Eisenhower High School. He went on to play for the San Francisco 49ers and was named to the NFL's 75th Anniversary team. Among other Eisenhower High School alumni whom have played on the professional level are Brandi Burton, David Lang, Jeff Conine, Darnell Coles, and Craig Newsome. Another distinguished alumnus is Derek Parra, Olympic Speed-Skating gold medalist and 1500 meter world record holder.

Eisenhower High School has also achieved recognition in academics and community service. They have achieved recognition on the state level as well as national recognition. Anita Ware, alumna of Eisenhower, was its first student to be awarded the prestigious Westinghouse Science Award. The school newspaper, the Eagle's Eye, received an award in 1976 for being one of the nation's best student newspapers from the National

Scholastic Press Association and Quill & Scroll. Eisenhower High School was also recognized as a National Blue Ribbon and as a California Distinguished School.

Both of my sons graduated from Eisenhower High School. My son Joe Baca, Jr., served in the State Assembly and is now the Mayor Pro Tem for the City of Rialto. Jeremy Baca is an outstanding private consultant.

Madam Speaker, I ask that my colleagues join me today in honoring Eisenhower High School. Their continuing record of accomplishment is due in no small part to the teaching practices of the faculty who have guided the school through the years.

#### FCC'S HEAVY HAND

#### HON. GENE GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GENE GREEN of Texas. Madam Speaker, I submit the following article.

[From the Washington Post, Sept. 28, 2009]

#### THE FCC'S HEAVY HAND

In a speech at the Brookings Institution last week, Federal Communications Commission Chairman Julius Genachowski promised that his agency's plan for regulating Internet service providers (ISPs) will be "fair, transparent, fact-based and data-driven."

That's nice. But Mr. Genachowski failed to convincingly answer the most important question of all: Is this intervention necessary?

Mr. Genachowski claims to have seen "breaks and cracks" in the Internet that threaten to change the "fundamental architecture of openness." He and other proponents of federal involvement cite a handful of cases they say prove that, left to their own devices, ISPs such as Comcast Corp. and AT&T will choke the free flow of information and technology. One example alluded to by the chairman: Comcast's blocking an application by BitTorrent that would allow peer-to-peer video sharing. Yet that conflict was ultimately resolved by the two companies—without FCC intervention—after Comcast's alleged bad behavior was exposed by a blogger.

Mr. Genachowski offered two proposals to combat alleged ISP misconduct. One should be embraced, the other shelved.

Mr. Genachowski is right to insist that ISPs be candid with the agency and the public about network management practices. Such disclosures are necessary, Mr. Genachowski asserted correctly, to "give consumers the confidence of knowing that they're getting the service they've paid for" and "enable innovators to make their offerings work effectively over the Internet." Transparency should go a long way toward allaying the concerns of those who fear ISP manipulation of markets. It also puts in doubt the need for Mr. Genachowski's second, dubious offering.

Aptly dubbed an "immodest proposal" by the Free State Foundation's Randolph J. May, the FCC would prohibit ISPs from "discriminating against" different applications. Mr. Genachowski explains it this way: ISPs "cannot block or degrade lawful traffic over their networks, or pick winners by favoring some content or applications over others in the connection to subscribers' homes." In

short, ISPs, which have poured billions of dollars into building infrastructure, would have little control—if any—over the kinds of information and technology flowing through their pipes.

In a slight concession, Mr. Genachowski said that the commission would consider whether to allow ISPs to offer "managed services in limited circumstances"; this approach could allow ISPs to create a two-track delivery system—one for routine traffic, the other for applications that use exorbitant amounts of bandwidth. But unneeded regulation could still interfere with their ability to manage bandwidth-hogging applications that can hamper service, especially during peak times.

Mr. Genachowski claims that the FCC "will do as much as we need to do, and no more, to ensure that the Internet remains an unfettered platform for competition, creativity and entrepreneurial activity." He will advance this goal by insisting on transparency; he will jeopardize it—and stifle further investments by ISPs—with attempts to micromanage what has been a vibrant and well-functioning marketplace.

#### HONORING THE SERVICE AND SACRIFICE OF UNITED STATES ARMY STAFF SERGEANT JUSTIN GALLEGOS

#### HON. GABRIELLE GIFFORDS

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Ms. GIFFORDS. Madam Speaker, I rise today to honor United States Army Staff Sergeant Justin T. Gallegos, who was killed in action with seven fellow Soldiers as their remote outpost in mountainous eastern Afghanistan was attacked by insurgents on October 3, 2009. He leaves behind his mother, two sisters, brother and a 5-year-old son.

Born in Tucson, Arizona, Justin graduated from Tucson High School before joining the Army in 2002. Staff Sergeant Gallegos was assigned to Bravo Troop, 3rd Squadron, 61st Cavalry Regiment, 4th Brigade Combat Team, 4th Infantry Division.

Justin was on his first deployment to Afghanistan, but he had already completed two previous deployments to Iraq, the first a one-year deployment from November 2005 to 2006 and the other a fifteen-month deployment from March 2007 to May 2008.

Since entering the Army, Justin had earned a reputation for being a good Soldier. Over his career he earned more than a dozen honors including three Purple Hearts, two Army Commendation Medals and two Army Achievement Medals. He also earned the Bronze Star for his actions that day in defending his combat outpost.

On this day, he was deployed to a remote base near the Afghanistan-Pakistan border. As insurgents poured over the hilltop ridge toward his position and the base, Justin and his fellow Soldiers held their ground before the camp was partially overrun and nearly destroyed by rocket and mortar fire. The team held back hundreds of enemy fighters before ultimately succumbing to the overwhelming volume of fire.

These men fought bravely and will not be forgotten.

We remember Staff Sergeant Gallegos and offer our deepest condolences and sincerest prayers to his family. My words cannot effectively convey the feeling of great loss nor can they offer adequate consolation. However, it is my hope that in future days, his family may take some comfort in knowing that Justin's legacy reaches beyond the desolate landscape of Afghanistan and into the hearts of a grateful nation.

This body and this country owe Justin and his family a debt of gratitude and it is vital that we remember him and his fellow servicemembers who have paid the ultimate price.

Justin is a hero both to his country and to his wonderful family. We salute his selfless service, sacrifice and bravery. May he not be forgotten and may his mission continue in the work of this body and the hearts of all Americans.

#### PERSONAL EXPLANATION

#### HON. JEFF MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. MILLER of Florida. Madam Speaker, I missed rollcall vote Nos. 772–774 on October 13, 2009.

Had I been present, I would have voted:

Rollcall vote No. 772, To provide for an extension of the legislative authority of the Vietnam Veterans Memorial Fund, Inc. to establish a Vietnam Veterans Memorial visitor center, "yea."

Rollcall vote No. 773, To reauthorize the Delaware Water Gap National Recreation Area Citizen Advisory Commission, "yea."

Rollcall vote No. 774, Congratulating Kappa Alpha Psi Fraternity, Inc., on 98 years of serving local communities and enriching the lives of collegiate men throughout the Nation, "yea."

#### HONORING KYLE L. REECE

#### HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Kyle L. Reece, a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 332, and in earning the most prestigious award of Eagle Scout.

Kyle has been very active with his troop participating in many scout activities. Over the many years Kyle has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community.

Madam Speaker, I proudly ask you to join me in commending Kyle L. Reece for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

# RECOGNIZING THE BICENTENNIAL CELEBRATION OF HIRAM LODGE

## HON. MARSHA BLACKBURN

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mrs. BLACKBURN. Madam Speaker, I ask my colleagues to join me in celebrating with the Hiram Lodge #7, Free & Accepted Masons, in Franklin, Tennessee, on the occasion of their bicentennial.

Hiram Lodge is home to the oldest continuous Masonic Lodge in Tennessee, predating the establishment of a Grand Lodge in the state. Located just off the square in Franklin, this beautiful structure has been home to many historical occasions—from President Andrew Jackson's negotiations with the Chickasaw Nation, to serving as a lookout post, barracks, and hospital during the Civil War. The Lodge is undertaking careful renovations to ensure this magnificent structure, the oldest Gothic Revival building in the state of Tennessee, survives for generations to come.

More importantly, however, is the role the Lodge has played in the life of the community over these past 200 years. So many of Franklin's leaders have been members of the Lodge, and to this day the Lodge is deeply involved in the civic and charitable affairs of the City.

Please join me in honoring 200 years of the Hiram Lodge's past, and celebrating this momentous occasion.

# EARMARK DECLARATION

## HON. JOANN EMERSON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mrs. EMERSON. Madam Speaker, pursuant to the House Republican standards on earmarks, I am submitting the following information in regards to H.R. 2892, the Fiscal Year 2010 Homeland Security Appropriations Bill.

Requesting Member: Rep. JO ANN EMERSON  
Bill: Fiscal Year 2010 Homeland Security Appropriations Act

Account: State and Local Programs  
Legal Name of Requesting Entity: Howell County Emergency Preparedness

Address of Requesting Entity: 3 Courthouse, West Plains, Missouri 65775

Description of Request: Provide an earmark for \$250,000 for an Emergency Operations Center in West Plains, Missouri. The Emergency Operations Center will serve the residents of Howell County and surrounding counties in the region in case of any natural or man-made hazards. The funding is budgeted at approximately \$7,275 for administrative and legal expenses; \$81,000 for land, structures, right-of-ways, appraisals, etc.; \$2,925 for project inspection and architectural and engineering fees; \$153,175 for equipment, construction and miscellaneous items; \$5,625 for contingencies.

# HONORING COLLIN HUSTER

## HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Collin Huster, a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 374, and in earning the most prestigious award of Eagle Scout.

Collin has been very active with his troop participating in many scout activities. Over the many years Collin has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community.

Madam Speaker, I proudly ask you to join me in commending Collin Huster for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

# COMMENDING THE STAFF AT JOHNS HOPKINS BAYVIEW MEDICAL CENTER

## HON. JOHN P. SARBANES

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. SARBANES. Madam Speaker, as Congress works to extend health insurance coverage and improve the quality of care for all Americans, I would like to commend the Johns Hopkins Center for Innovative Medicine and their Aliko Initiative, an effort to restructure medical education with an emphasis on patient-centered care, for creating an innovative program that puts patients first. The Center for Innovative Medicine, launched five years ago by Dr. David Hellmann and Mr. Richard Paisner, has three goals: getting doctors to know their patients as people, members of families and communities; encouraging collaboration among all members of the Johns Hopkins Bayview campus; and creating a culture where everyone on the Bayview campus feels like a part of something special.

The Center's Aliko Initiative focuses on the first goal and has been called the most important innovation in graduate medical education in a generation by the renowned historian Dr. Kenneth Ludmerer. As described in *Pharos*, the journal of Alpha Omega Alpha, the honor society of medical schools, the Aliko Initiative seeks to train young doctors to get to know their patients as people. Through the generosity of Mrs. Aliko Perroti, internal medicine residents care for patients hospitalized at Johns Hopkins Bayview Medical Center under the direction of Dr. Roy Ziegelstein and Dr. Cynthia Rand. This initiative emphasizes that optimal medical care can only be delivered if medical treatments are tailored to the individual patient, and this can only be done if doctors get to know patients better as people, which sometimes involves visiting them at home after hospital discharge. Dr. Charles B. Green, Surgeon General of the Air Force, cir-

culated the *Pharos* article to all Air Force Medical Service personnel and said, "It [the article] emphasizes the necessity for all of us to understand that health care must be patient-centric. We must know our patients and ensure schedules provide time for care teams to spend with patients. We must focus on the patients to help them achieve new levels of health."

Madam Speaker, I commend the hard-working people at Johns Hopkins Bayview Medical Center, the Center for Innovative Medicine and the Center's Aliko Initiative. Their work should be seen as a model for improving the quality of care for all Americans. I'd like to enter the full text of the *Pharos* article into the RECORD.

# TEACHING RESIDENTS TO KNOW THEIR PATIENTS AS INDIVIDUALS

THE ALIKO INITIATIVE AT JOHNS HOPKINS  
BAYVIEW MEDICAL CENTER

Neda Ratanawongsa, MD, MPH; Cynthia S. Rand, PhD; Cathleen F. Magill, MD, MHS; Jennifer Hayashi, MD; Lynsey Brandt, MD; Colleen Christmas, MD; Janet D. Record, MD; Eric E. Howell, MD; Molly A. Federowicz, MA; David B. Hellmann, MD; Roy C. Ziegelstein, MD

# MS. P: CASE SUMMARY

Ms. P is a fifty-year-old woman with a history of hypertension who presented to the hospital with a severe allergic reaction to over-the-counter pain medications. During her hospitalization, Ms. P admitted to the intern that she had experienced the same allergic reaction before and felt ashamed that it had occurred again. In discussing how Ms. P organizes her medications, she also admitted that she only intermittently takes her blood pressure medications. She revealed that she is a busy caregiver for her mother and son, both of whom live with Ms. P and have complex medical problems of their own. The intern, consulting with her resident and attending, wondered how she can best help Ms. P return home safely and avoid future problems with her medications.

Sir William Osler, if reincarnated and the attending for Ms. P, would have taken this opportunity to teach his residents the importance of knowing her as a person, for it was he who famously observed, "It is much more important to know what sort of a patient has a disease than what sort of a disease a patient has." Despite increasing evidence that knowing the patient as an individual improves patient outcomes, graduate medical education (GME) pays little attention to affording residents the opportunity to know their patients well.

If you ask the members of an inpatient ward team what keeps them from knowing their patients, most—from students to residents to attendings—say, "We don't have enough time." Medical historian Kenneth Ludmerer laments the recent focus of residency training on service over education, with residents caring for greater numbers of patients for shorter periods of time. He argues that a fundamental educational principle of traditional medical education requires that residents learn deeply from and about fewer patients, citing the landmark report by Abraham Flexner: "Men become educated by steeping themselves thoroughly in a few subjects, not by nibbling at many."

Hippocrates wrote, "Healing is a matter of time, but it is sometimes also a matter of opportunity." At Johns Hopkins Bayview Medical Center, we are seizing the opportunity to give residents the gift of time to

allow them to become healers and know their patients in the way Osler recommended. The Aliko Initiative—a new educational program named for philanthropist Mrs. Aliko Perroti, who supports our efforts—reduces residents' workloads and creates new opportunities for residents to know their patients more fully both inside and outside the hospital. The program provides residents the time both to get to know their patients and to learn from the reflect with their teachers.

#### THE IMPORTANCE OF PATIENTS' NARRATIVES

The opportunity to know patients as individuals is one of the greatest rewards in medicine. The narratives of our patients' lives fuel our passion for this work and keep us grounded in the art and humanity of medicine. By allowing us into their lives—whether through a single, brief interaction in the hospital or an enduring relationship over decades—patients bestow on us a special privilege.

Beyond this, however, our capacity to know patients as individuals allows us to translate the best evidence-based medicine into the highest quality, personalized care. In 1977, George Engel exhorted physicians to break free from the constraints of the biomedical model to understand “the patient as well as the illness” by uncovering the psychological and social aspects of patients' lives and life views. This patient-centered framework of care is associated with improved patient outcomes, including better quality of life, improved adherence, pain reduction, and improved blood pressure control.

Despite its demonstrated benefits, the widespread failure of the health care system to provide individualized, patient-centered care is directly linked to suboptimal patient outcomes. A survey of 39,090 patients by Consumer Reports published in 2007 shows that fifty-eight percent of them feel their doctors do not know them as individuals. Another report in *zoos* indicates that, on discharge from the hospital, fewer than half of patients can list or explain the purposes and side effects of their medications. A study by D. R. Calkins and colleagues published in 1997 shows that physicians, on the other hand, tend to overestimate the quality of their discharge instructions. A 2007 paper by Derjung Tarn and coworkers noted that physicians prescribing new medications only stated the name of the medication seventy-four percent of the time and addressed adverse effects and duration of therapy about one-third of the time. This failure by physicians to communicate critical elements of medication use may contribute to failure by patients to take medications as directed. Similarly, Sunil Kripalani and colleagues in an article published in 2007 report that communication between hospital physicians and primary care physicians is often lacking or suboptimal in detail, affecting the quality of care in twenty-five percent of follow-up visits.

#### PATIENT CENTEREDNESS—ONE OF SIX CORE AIMS FOR IMPROVING THE QUALITY OF HEALTH CARE IN THE UNITED STATES

The Institute of Medicine (IOM) report *Crossing the Quality Chasm* highlights patient-centeredness as one of the six core aims for improving the U.S. health care system. The report defines patient-centeredness as: “Providing care that is respectful of and responsive to individual patient preferences, needs, and values, and ensuring that patient values guide all clinical decisions.” Toward that goal, the IOM in the follow-up report *Health Professions Education: A Bridge to*

Quality proposes that skills in providing patient-centered care should be a central competency for health professionals.

Unfortunately, traditional GME is not prepared for this imperative. The goal of GME is not only to provide trainees with the knowledge and skills to care for patients like Ms. P, but also to inculcate in them the core values of the medical profession. GME today, however, is largely driven by the service needs of medical centers instead of thoughtful educational priorities. Residency graduates emerge from three years of stressful, demanding training ill-equipped to provide the type of patient-centered, quality care Ms. P deserves. Rather than learning to care for patients collaboratively across transitions and in the greater context of their lives, health care is both practiced and taught in “silos.” At the same time, the structure and financing of GME elevates the business of medicine over the vocation of medicine, creating a hidden curriculum in which “the values of the profession are becoming increasingly difficult for learners to discern.”

Medical school curricula at many schools show an increased emphasis on patient-centered care and the value of effective patient-provider communication. However, once these physicians-in-training enter the typical residency program, they find that their training experiences do not reinforce this emphasis and are not structured to allow them to know and understand their patients as individuals. Unlike proficiency in traditional medical knowledge or clinical judgment, the skill of knowing one's patient as an individual may decline under the influence of a hidden curriculum that may not promote humanistic care. Duty hour reforms limiting the number of hours without adjusting the volume of work may lead some residents to make conscious decisions about how to spend their time, as voiced by one resident in a 2005 survey: “It is harder to have as much time to speak with and really get to know patients, which impacts the ability to have shared decisions and understand patient perspectives.”

Finally, GME leaves little time for reflective learning. Reflection allows physicians-in-training to think about the meaning of their experiences with patients and how these experiences are influencing their own overall professional development. Although medical educators promote the potential value of self-reflection through activities like critical incident reports and portfolios, trainees' capacity for reflection may decline with the workload and fatigue of residency training.

Thus today's young physicians-in-training may master the mechanics of delivering medical care, yet never have the opportunity to learn the art of healing.

#### CREATIVE PHILANTHROPY—KEY TO SUCCESS OF THE ROCKEFELLER FOUNDATION

At the turn of the twentieth century, Frederick T. Gates advised John D. Rockefeller to establish an institute of medical research focused on medical education reform. Rockefeller's \$32 million endowment of the General Education Board comprised the largest gift to higher education up to that time. In 1905, Henry Pritchett of the Carnegie Foundation commissioned Abraham Flexner to study the state of medical education in North America and to make recommendations to improve it. This effort resulted in the publication of the *Flexner Report*, perhaps the most influential document in the history of American medical education. These achievements a century ago represent striking examples of the

ways creative philanthropy can both reform and shape medical education to meet the needs of society.

The need for educational reform is once again upon us, but the funding constraints of a market-driven health care environment hamper innovation by hospitals and educators. Reform in the twenty-first century may require educators to consider again the potential of partnering with the public. The Aliko Initiative is a program designed to create physicians who treat all patients with compassionate, competent, and personalized care.

The Aliko Initiative aims to develop caring doctors who have a genuine and deep appreciation of the importance of knowing each patient's unique personal circumstances and who make patient care recommendations that apply the best evidence to the individual patient. The program reduces the number of patients assigned to each resident, providing residents more time to spend with patients during and after their hospitalizations, and thus offering new opportunities for residents to learn from and about their patients.

The Johns Hopkins Bayview Medical Center is an academic medical center serving 8700 medicine inpatients per year; twenty percent are poor. Patients hospitalized on the medical service receive care either from a hospitalist service or from one of four house staff teams. Teams contain one resident, two interns, two students on basic medicine clerkship rotation, a faculty attending, and a case manager. A traditional team admits ten patients every fourth night on “long-call” and four patients during an intervening “short-call.” In October 2007, one team became an Aliko Team, admitting five long-call patients and two short-call patients. Hospitalists care for the patients who would otherwise be admitted by this house staff team.

#### LOWER PATIENT LOAD ENABLES MORE TEACHING TO THE ALIKO TEAM

With this reduced census, the Aliko Team has the time to participate in teaching sessions and mentored experiences designed to foster appreciation of knowing each patient as a unique person and understanding each patient's psychosocial circumstances. This begins from the admission encounter, when house staff learn to elicit a more meaningful, detailed history that includes patients' understanding of their illness and their health. By engaging in this dialogue with patients, their caregivers, and their outpatient health care providers, house staff learn who and what patients have left behind when they arrive at the hospital, an often forgotten but equally important transition time.

Residents also learn how to provide counseling and treatment to match patients' needs and concerns. One key component of the Aliko Initiative is learning to assess and overcome potential barriers to medication adherence, particularly by tailoring evidence-based treatment to the patients' particular preferences and resources.

During each day of the hospitalization, house staff continue these conversations, honing their skills in patient education and joining with patients in shared decision making about diagnostic or therapeutic options. Leading up to and on the day of discharge, house staff prepare patients and their caregivers for the transition to home, rehabilitation centers, or other settings in the patients' communities.

In contrast to usual practice following discharge, residents call all patients within a few days of discharge to answer questions,

check their understanding of the hospitalization and treatment recommendations, review their understanding and ability to adhere to the discharge treatment regimen, and offer assistance with any problems that have arisen in the transition.

Finally, the Aliko Initiative provides the most powerful learning opportunity of all: team members learn to know their patients as individuals within their own homes and communities. Five or more patients per month give residents permission to visit them after discharge in their homes or subacute care facilities. Often, patients allow residents to photograph or film these visits, so the house staff can teach their colleagues about these rich, rewarding experiences during a monthly Aliko morning report conference.

#### OUTCOME—NARRATIVE MEDICINE YIELDS BETTER PATIENT CARE

Since October 2007, over half of our house staff have participated in the Aliko rotation. During hospitalizations, residents spend more time at the bedside with their patients and patients' loved ones, discussing medications and other treatments and coordinating care with outpatient providers. Interns and residents say they gain their greatest insights during their time with patients after discharge, when they call all of their patients and visit five or six patients at their homes or subacute care facilities.

In addition to enhanced time with patients, team members have the time to reflect on their professional and personal growth, both individually and as a team. Each month, faculty and attendings working with the Aliko house staff meet to debrief the team about their experiences. The most striking and consistent observation is how often house staff report "being surprised" by what they have learned about their patients. Prior assumptions about a patient's preferences, barriers, abilities, or concerns are regularly challenged when residents take the time to know patients individually. This deeper insight, in turn, has repeatedly led to opportunities to provide better patient care. Below we present some examples of "assumption-challenging" Aliko experiences and how they impacted patients and house staff.

#### MS. P: THE HOME VISIT

A few days after discharge from the hospital, the Aliko Team intern and attending visited Ms. P at her home, learning more about her home situation and meeting her mother and son. They discovered that—in an attempt to remind herself to take her medications—Ms. P keeps her medications on her dining room table. Otherwise, she reported, the medications are "out of sight, out of mind." The intern realized that both Ms. P's mother and her son also keep their prescription and over-the-counter medications in the same location, increasing the chances that any of them could take the wrong medication. The intern also learned about the ways Ms. P copes with caring for her family, including the supports she receives from her community. Together, the intern and Ms. P brainstormed about how to organize her medications more safely and help her remember how to take them.

From the home visit the intern learned more about the challenges of integrating a complex medical regimen into a person's daily life and ways to engage patients in finding solutions to these challenges. Ms. P expressed appreciation that the intern took the time to come to her home: "They treated me like I was someone special."

This learning experience is just one of many. Other examples of Aliko experiences include:

An intern spent significant time with a man facing a difficult decision about treatment for pancreatic cancer. The patient initially told him, "I'll do whatever you say, Doc." Nevertheless, the intern patiently spoke with him every day to learn about his goals of care and preferences. He wasn't sure he was making any difference until one day the patient told him, "Doc, I don't want any of those things. I want to go home." The intern helped him transition to home hospice, and felt certain that this was "the right thing to do for him."

A former Aliko resident working as the urgent care doctor for the clinic described "an Aliko moment" during which he discovered that a patient with gastrointestinal bleeding was unable to afford his proton pump inhibitor after hospitalization. Experience on an Aliko Team gave him the skill and confidence to ask the patient explicitly and thoughtfully about all barriers to adherence. The resident switched the patient to a generic medication covered by the patient's insurance and spent time counseling the patient about the rationale for this therapy.

An intern visited a patient with urinary retention in a subacute care facility and learned that the patient's Foley catheter had been removed despite notations not to do so in the "hospital course" section of the discharge summary, and despite the patient's own recall of their recommendations. The team resolved that in the future they would document more explicit instructions with the medications list at the end of discharge summaries and call ahead to subacute care facilities for similar important follow-up issues.

Although residents were initially concerned that fewer patients would mean less opportunity for traditional medical learning, in fact, they report having more time for evidence-based and bedside teaching. One team decided to focus on physical diagnosis skills. The teaching attending physician on this team described the experience as "the first time I am sure that the interns really knew how to examine a patient by the end of my weeks with them." The supervising residents also relished the additional time to search the literature for articles and prepare teaching for the team.

House staff participating in the Aliko team feel greater pride and more fulfilled in their work. In the words of one intern, "It's given me time to be the kind of doctor I've always wanted to be and do the things I should be doing for all my patients."

#### MS. P: EPILOGUE

Asked about the home visit, Ms. P said, "I thought those days were over. You know, how the doctors used to come to your house. They came down, sat down to talk, to see how I was getting out of the hospitalization. And that made me feel good because some doctors don't have that interest or do a follow-up to find out how the patients are doing . . . That's letting the patients know that someone else cares. That made me feel that I was important, and they're learning from me! . . . They treated me like I was the only patient they had to see that day. They treated me like I was someone special."

#### WHERE FROM HERE? MORE OPPORTUNITIES FOR INNOVATIVE MEDICINE

Our early experience suggests that the Aliko Initiative has the potential to increase residents' skills and motivation to deliver patient-centered care. Ongoing and planned evaluations of the program's outcomes include:

An assessment of Aliko residents' self-assessed behaviors, attitudes, and skills before and after participation in the experience.

Trainees' perceptions and understanding of medication adherence and cost.

An audit of the medical records of patients cared for by an Aliko team, compared with patients cared for in other settings, to evaluate prespecified aspects of inpatient care, transitions of care, and the quality of discharge documentation.

In addition, we will examine the impact of the Aliko Initiative on such patient outcomes as hospital length of stay, quality and safety of the transition from hospital to home or to another care team at a skilled nursing facility, rates of rehospitalization, patients' knowledge about their medical conditions and medications, and patients' perspectives about the quality of their care and health care providers. These evaluations may help educators at other institutions determine what parts of this curriculum to try at their own institutions, and to secure grant funding to support such efforts. In addition, such evaluations may prove helpful to policy makers as they shape the future funding structure of GME.

Like the Flexner Report a century ago, the Aliko Initiative resulted from private philanthropy directed to improving medical training for the public good. When doctors and private citizens together view medicine and medical education as a public trust, everyone benefits. It also reminds medical educators that we cannot accept the status quo and need to show the public what our vision for patient-centered care can and must be. As Molly Cooke and her coauthors write, "No one would cheer more loudly for a change in medical education than Abraham Flexner. . . . He would undoubtedly support the fundamental restructuring of medical education needed today. Indeed, we suspect he would find it long overdue."

Acknowledgment: The Aliko Initiative is funded through the Johns Hopkins Center for Innovative Medicine, thanks to the generosity of Mrs. Aliko Perroti.

#### HONORING TYLER AARON BEDELL

#### HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Tyler Aaron Bedell, a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 374, and in earning the most prestigious award of Eagle Scout.

Tyler has been very active with his troop participating in many scout activities. Over the many years Tyler has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community.

Madam Speaker, I proudly ask you to join me in commending Tyler Aaron Bedell for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

CONGRATULATING ST. JOHN THE  
BAPTIST GREEK ORTHODOX  
CHURCH

**HON. DINA TITUS**

OF NEVADA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Ms. TITUS. Madam Speaker, I rise today to congratulate St. John the Baptist Greek Orthodox Church as they mark their 50th anniversary as a congregation during the month of October. I am looking forward to celebrating with my friends at the church in the coming weeks.

Incorporated on April 8, 1959, and named in September of the same year, the Church has long served as a pillar of the Las Vegas community. As the first Greek Orthodox Church in Southern Nevada, St. John's welcomed new Americans of Greek descent to Las Vegas and helped them feel at home in the community. St. John's has also educated thousands of children in the rituals and faith of the Greek Orthodox Church, ensuring the strength and vitality of the doctrine.

Since 1959, the congregation and its leaders have remained true to its core Greek Orthodox principles of faith and family. This large and dynamic community has been a guiding light in Southern Nevada. The Church offers both religious and Greek language classes for children and young adults, as well as a bookstore for all ages. The Church has been home to many happy occasions, including christenings, religious holidays, birthdays, and weddings. Our community has also come together in times of mourning to offer consolation and comfort to the grieving. St. John's has been a valuable part of my life since I moved to Las Vegas more than 30 years ago as I was welcomed with authentic Greek hospitality.

In the past 50 years, the Church has expanded from a small group of patrons to a large community meeting in a beautiful Church located in the heart of District 3, whose design was inspired by St. Euphemia of the Hippodrome in Constantinople. Today, St. John's has a vibrant membership and is host to a community center and educational facilities.

Since 2003, the Hellenic Historical Society has been preserving and chronicling the history of the Greek community of Las Vegas in order to pass on this important record to future generations. Through exhibits and presentations, the Historical Society has been educating and informing the Greek community of its deep roots in the Las Vegas Valley. Their newest educational project is tracing the ancestral roots of the Greek community and their journey to Southern Nevada.

The Church is also active in social justice projects that benefit children, seniors, the sick, and the poor. Through a variety of social action projects, congregation members are constantly contributing and working not only to improve Southern Nevada, but also the world-wide community.

The Church hosts regular events celebrating Greek heritage such as folk dancing, led by award winning dancing teams, and Easter egg hunts. There is also an annual Greek Food festival which is famous throughout the Las Vegas Valley for its wonderful music, camara-

derie, and the best Greek food outside of Athens.

I congratulate St. John the Baptist Greek Orthodox Church for its first 50 years of successes and extend my best wishes for the next 50 years.

COMMEMORATING THE 120TH ANNI-  
VERSARY OF THE FENIMORE  
STREET UNITED METHODIST  
CHURCH

**HON. YVETTE D. CLARKE**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Ms. CLARKE. Madam Speaker, I rise today to commemorate the 120th anniversary of the Fenimore Street United Methodist Church located in Flatbush, Brooklyn.

Fenimore Street Methodist Church was incorporated on August 20th, 1889, and admitted into the New York East Conference in April 1890 with Rev. James L. Hall as its first pastor.

Over the years, Fenimore has served the people of Brooklyn as not only a house of worship, but as a pillar of the community. As the neighborhood changed, so did church patronage which culminated in 1968 with Rev. William J. Smart becoming Fenimore's first black minister. In the tradition of firsts, in 2002, Rev. Dr. Maxine Nixon was named Fenimore's first female minister.

Fenimore Street Methodist Church has undergone many renovations and weathered many challenges under the steadfast leadership of its pastors. Providing such services as the summer camp for neighborhood children and remaining a pillar of support for those who have fallen on hard times are just some of the ways in which Fenimore has served Brooklyn over the years.

Madam Speaker, I'd like to acknowledge the very distinguished pastors that have poured their heart and soul into Fenimore Street United Methodist Church. They include: Revs. James L. Hall; C.S. Willisams; J.S. Bell; C.A. Knesai; H.E. Kiley; G.W. Osman; L.H. Caswell; W.G. Griffin; G.L. Thompson; C.C. Coile; E.J. Marvin; H.C. Whitney; Arthur C. Brown; James Link; John S. Smith; Dr. W.C. Sainsbury; Ward J. Kemenway; James Veatch; Maron Cox; William Smartt; Randolph Fisher; Alfred Harper; Lester Baker; Dr. Neville Buchanan; Dr. Ivan J. Roberts and Dr. Maxine Nixon.

Again I'd like to congratulate and thank Fenimore Street United Methodist on 120 years of service to Brooklyn.

RECOGNITION OF MT. DIABLO  
PEACE AND JUSTICE CENTER  
40TH ANNIVERSARY

**HON. GEORGE MILLER**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GEORGE MILLER of California. Madam Speaker, I rise to recognize the Mt. Diablo

Peace & Justice Center, an invaluable institution in the San Francisco Bay Area that will be celebrating its 40th Anniversary on October 19, 2009.

Founded in 1969 by the late Andy Baltzo, the Mount Diablo Peace and Justice Center was initially known to most residents of Contra Costa County as simply, "The Peace Center." Its goal was to provide residents of the East Bay with a voice against the escalating war in Vietnam as well as a focal point for issues of social justice.

After our troops returned from Southeast Asia, members of the Peace Center recognized that the quest for peace and justice is never ending. The Center turned its attention to issues of nuclear arms reduction, military disarmament, and avoidance of U.S. entanglement in the conflicts in Central America.

Instrumental in the early development of the Peace Center was the work of a core group of committed peace activists including Arne Westerbak, Louise Clark, and Sheila Pedersen.

Over the years, the Center expanded its focus to include a wide range of programs that addressed raising peaceful children and race awareness. The larger community continued to have a voice through the Peace Center and has benefited from organized non-violent protests against military conflicts, including most recently the wars in Afghanistan and Iraq. These protests take the form of peace marches, demonstrations, and a unique war memorial known as The Crosses of Lafayette. Much national and even international attention was focused on the local community when multi-denominational memorials were erected on a highly visible hillside one for each American military service member who has died in the current conflicts. It's a silent but powerful reminder to all who pass by of the human toll of war.

The Mt. Diablo Peace and Justice Center also provides inspirational classes in non-violence that continue to benefit the community as a whole. With its access to nationally known speakers, educational forums, and film series, the Center is able to promote peace and justice through a variety of mediums. Students, parents and teachers have access to a wide range of programs that include the Art and Writing Challenge and Youth in the Military, a counseling service for young people on national service alternatives to the military. Through local food collection and distribution, The Center also addresses the needs of the poor living in our local community.

As our world becomes seemingly smaller, the Peace Center is once again broadening its program. Currently, plans are underway for an International Peace Youth Camp which will bring outstanding teen leaders from around the world to the Center. Once at camp, they will have the opportunity to get to know each other and learn new methods of co-existence through cultural exchange.

Today, dedicated Peace Center leaders such as Barbara and Ed Tonningsen and Bob Hanson continue to bring the lessons of non-violence to our community and beyond.

I applaud the Mt. Diablo Peace and Justice Center for its strong, principled, and ongoing voice on the issues of peace and justice and I am proud to bring this organization to the attention of my colleagues. Congratulations to

past and present members who have kept the Center viable and dynamic throughout the decades. As you celebrate 40 Years of Peacemaking, I wish you continued success.

40TH ANNIVERSARY OF THE  
TEXAS A&M INTERNATIONAL  
UNIVERSITY

**HON. HENRY CUELLAR**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. CUELLAR. Madam Speaker, I rise today to mark the momentous 40th anniversary of the Texas A&M International University.

Texas A&M International University first began as a "center" in August 1970 under Texas A&I University in Kingsville in order to fill a demand in teacher education and business disciplines. Seven years later, the name changed to Laredo State University and in 1993, the institution became Texas A&M International University. In the fall of 1995, the Texas Legislature authorized the expansion of a four-year undergraduate program status with an eventual authorization for doctoral programs. Today, the university has been at the forefront of providing higher education and cultural opportunities to students of Laredo and surrounding south Texas region.

Texas A&M International University consists of the College of Arts and Sciences, the College of Business, the College of Education, the College of Nursing and Health Sciences, and a NCAA Division II Athletics program. Undoubtedly, this university serves as a unique asset to the fundamental groundwork for progressive and influential Hispanic serving institutions. TAMU has 92 percent of students identifying themselves as minority, including, Hispanic, African-American, Asian and other. Additionally, a rising number of baccalaureate graduates have been first-generation college students. This university has seen enrollment growth of approximately 10 percent every academic semester and recently welcomed its largest freshman class ever. The growth in admission numbers has provided social strides towards students attending the highest quality programs built on solid academic foundations.

Over the years, TAMU has increased success for the development in the community, educational achievement, and promising academic endeavors. I am happy to have this opportunity to congratulate Texas A&M International University on the occasion of its 40th anniversary, and I wish all staff and students many more years of success.

EARMARK DECLARATION

**HON. MICHAEL K. SIMPSON**

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. SIMPSON. Madam Speaker, in accordance with the policies and standards put forth by the House Appropriations Committee and the GOP Leadership, I submit a list of the congressionally directed projects I have requested

in my home state of Idaho that are contained in the Conference Report to accompany H.R. 3183, the FY 2010 Energy and Water Development Appropriations Bill.

Project Name: City of Boise Geothermal Expansion to Boise State University

Amount Received: \$1,000,000

Account: DOE Energy Efficiency and Renewable Energy Geothermal Technology

Recipient: City of Boise

Recipient's Street Address: 150 N Capitol Boulevard, Third Floor, Boise, Idaho 83702

Description: The Boise City geothermal system currently provides a low cost, environmentally sound, sustainable, locally provided heat source to commercial and publicly owned buildings in downtown Boise. Geothermal heat is considered a renewable source of energy and does not rely on fossil fuels, nuclear power, mining or damming of rivers and emits zero emissions into the atmosphere. This project will extend the City of Boise geothermal pipeline system to Boise State University and would have the capacity to heat almost two million square feet on the campus. As global energy costs increase, the expansion to increased facilities will provide significant cost savings.

Project Name: Idaho Accelerator Center Production of Medical Isotopes

Amount Received: \$1,500,000

Account: DOE Office of Science

Recipient: Idaho State University

Recipient's Street Address: 921 South 8th Avenue, Pocatello, ID 83209

Description: The National Academy of Sciences recently issued a report recommending that the federal government increase support to radionuclide production, distribution and basic research in production mechanisms; increase the domestic production of medical radionuclides through dedicated accelerators and reactors; and educate the next generation of medically-related nuclear scientists. The Idaho Accelerator Center (IAC) will develop a medical isotope production facility that will serve regional isotope needs, conduct basic research in isotope production, educate the next generation of medically-related nuclear scientists, and partner with regional and national entities in medical isotope distribution and use. This program will meet regional and national needs in education and isotope production and provide new isotopes that are not currently part of the national isotope portfolio. IAC will complement, supplement and enhance DOE's National Isotope Program.

Project Name: Idaho National Laboratory Center for Advanced Energy Studies (CAES)

Amount Received: \$1,000,000

Account: DOE Office of Science

Recipient: Idaho National Laboratory

Recipient's Street Address: 2525 North Fremont St., Idaho Falls, Idaho 83415

Description: CAES is a partnership between the State of Idaho and its academic research institutions, the federal government through the U.S. Department of Energy and the Idaho National Laboratory managed by the Battelle Energy Alliance, LLC. Through its collaborative structure, CAES combines the efforts of these institutions to provide timely energy research on both technical and policy issues. The funds provided will procure world-class computation and visualization research equip-

ment to be located in the CAES research laboratory. These research tools will enable both critical-path scientific research and graduate education programs focused on such twenty-first century energy challenges as the availability of carbon-neutral renewable energy, such as biofuels for transportation; the stewardship of the environment including water resource management through energy efficiency; the management of fossil fuel energy systems; and the expansion of energy production from commercial nuclear power while educating the next generation of scientists, engineers, policy makers and the public.

Project Name: Little Wood River Ecosystem Restoration

Amount Received: \$100,000

Account: Corps of Engineers

Recipient: City of Gooding, Idaho

Recipient's Street Address: 308 5th Ave. West, Gooding, ID 83330

Description: This funding was authorized in the Water Resources Development Act of 2007 and would be used to repair and replace an aging WPA/CCC project that channeled the Little Wood River through the City of Gooding, Idaho. The project will remove and replace the existing rock wall and the boxed culverts that severely restrict the stream channel flow. Approximately 1.5 miles of the Little Wood River flow within Gooding city limits. Over the years, aging along with high water and ice jam events have caused severe deterioration of the masonry rock walls constructed in the 1930's and 40's in order to protect the city from floods. Large portions of the existing lava rock walls that line the Little Wood River through the city are structurally unserviceable and many have failed and fallen into the channel. This deterioration has increased at an alarming rate. The Corps of Engineers and the City of Gooding have been working on a solution for this rock wall failure for the past 20 years. The Army Corps has completed the Reconnaissance Study and the General Investigation Study, but the project has been on hold due to a lack of funding.

Project Name: Rural Idaho Section 595

Amount Received: \$3,875,000

Account: Corps of Engineers

Recipient: Walla Walla District Corps of Engineers

Recipient's Street Address: Boise Field Office, 304 8th St., Rm. 140, Boise, ID 83702-5802

Description: The funding was authorized in the Water Resources Development Act of 2007. This funding is critical to assisting rural Idaho communities in upgrading their water and wastewater treatment facilities. In many cases, this funding is required to comply with unfunded mandates passed down by this Congress and federal agencies. In addition, these funds help rural communities in Idaho trying to attract new businesses and spur economic development. The vital water funding in this bill will assist rural communities in job creation and affordable housing by offering improved services at lower costs than would otherwise be possible. This request is consistent with the intended purpose of this account. Funding will be directed primarily to the Eastern Idaho Regional Wastewater Authority in Shelley, Idaho.

I appreciate the opportunity to provide a list of Congressionally-directed projects included

in the Conference Report to accompany HR 3183, the FY2010 Energy and Water Development Appropriations bill, on behalf of Idaho and provide an explanation of my support for them.

#### HONORING ROBERTO MAESTAS

##### HON. JIM McDERMOTT

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. McDERMOTT. Madam Speaker, today I rise to offer special recognition to my constituent and friend, Roberto Maestas, as he steps into a new role after serving as the executive director of El Centro de la Raza for the past 37 years. For more than 40 years, Mr. Maestas has been intimately involved in the ongoing struggle for civil rights and social justice, not only for Latinos, but for all disadvantaged people. He is among Seattle's most respected figures, esteemed for his effectiveness, his political savvy, and his legendary persuasive powers.

Mr. Maestas recently has become Senior Advisor and Chair of Historical Resources at El Centro de la Raza. El Centro de la Raza's board of directors has asked Mr. Maestas to lead a program to chronicle, collect, record and preserve El Centro de la Raza's historical contributions to the local, national, and international community and to the social justice movement. We are so fortunate to have this opportunity to capture an accurate, vibrant history of a tumultuous, formative era with someone who not only lived through it but actually helped to make that history.

Roberto Maestas was born in New Mexico, but he has called Seattle, Washington, his home since the early 1950s. As a young man, Mr. Maestas taught at Franklin High School before pursuing a graduate degree at the University of Washington in 1968, where he became one of the University's first Chicano graduates.

In the early 1970s, as part of the United States War on Poverty, Mr. Maestas helped form an Adult Basic Education and English as a Second Language (ESL) program at South Seattle Community College to serve the city's growing Latino community. But, in 1972, funding was abruptly cut, and the program needed a new home. Mr. Maestas, along with fellow teachers, students, and a number of community activists, peaceably occupied the abandoned Beacon Hill School, and negotiated its conversion into a new community center, El Centro de la Raza.

Under his leadership, El Centro has become a voice and hub for Latinos seeking services, advocacy, and social justice. It has grown from a provider of ESL classes to a multi-million dollar Community Action Agency offering a wide array of services to thousands of low-income people of diverse ethnic backgrounds. Its programs include a bilingual child care center, a Basic Healthcare enrollment program, a food bank, senior services, and a home ownership program.

In addition, Mr. Maestas and El Centro de la Raza have been at the forefront of multicultural and international initiatives. El Centro

played a prominent role in local solidarity campaigns with Central American social justice activists, and it continues to host art exhibitions, cross-cultural exchanges, and international speakers. Mr. Maestas, along with Bernie Whitebear, Larry Gossett, and Bob Santos co-founded the Minority Executive Directors' Coalition; his extraordinary work over three decades to build the strongest municipal multi-racial coalition in the United States is widely acknowledged and justly acclaimed. Although the founding of El Centro de la Raza was sparked by Latinos and distinguished with a Spanish name, that name translates in English to: "The Center for the People of All Races." Through the years, Mr. Maestas has worked with diligence and determination to ensure that El Centro is "home" for all people interested in advancing the struggle for a better world by serving, educating, defending, and organizing each other to build the "beloved community" envisioned by Martin Luther King, Jr.

Appropriately, El Centro de la Raza and Mr. Maestas have received countless international, national, state, and local awards, including the "Thousand Points of Light" award in 1991 from the President George Bush, Sr.

Madam Speaker, Roberto Maestas is an invaluable asset to the Seattle community. His contributions and his commitment to better the lives of all people deserve our gratitude, our deep respect, and our keen approbation. The people of Seattle, including the thousands who have been served at El Centro de la Raza and the countless students, volunteers, and staff whom he has touched, are grateful for his kind guidance and his visionary leadership. I join them in thanking Mr. Maestas for his service, and in wishing him all the best in his future endeavors.

#### PERSONAL EXPLANATION

##### HON. LYNN C. WOOLSEY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Ms. WOOLSEY. Madam Speaker, on October 13, 2009, I was unavoidably detained and was unable to record my vote for rollcall No. 773. Had I been present I would have voted:

Rollcall No. 773: "yea"—to reauthorize the Delaware Water Gap National Recreation Area Citizen Advisory Commission.

#### HONORING CHARLES JOSEPH WATSON BRYAN HUCKE

##### HON. SAM GRAVES

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GRAVES. Madam Speaker, I proudly pause to recognize Charles Joseph Watson Bryan Huckle, a very special young man who has exemplified the finest qualities of citizenship and leadership by taking an active part in the Boy Scouts of America, Troop 374, and in earning the most prestigious award of Eagle Scout.

CJ has been very active with his troop participating in many scout activities. Over the

many years CJ has been involved with scouting, he has not only earned numerous merit badges, but also the respect of his family, peers, and community.

Madam Speaker, I proudly ask you to join me in commending Charles Joseph Watson Bryan Huckle for his accomplishments with the Boy Scouts of America and for his efforts put forth in achieving the highest distinction of Eagle Scout.

#### NATIONAL HISPANIC HERITAGE MONTH 2009

##### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. TOWNS. Madam Speaker, I rise today in support of the observance of National Hispanic Heritage Month 2009.

Since the birth of this country, Hispanics have played a tremendous role in the nation's social, economic, and political movements. Today, more than 47 million people of Hispanic origin live in the United States and represent the nation's fastest growing ethnic population. At this time, more than half a million Hispanic men and women reside in my home state of New York.

During National Hispanic Heritage Month, we celebrate the rich history and culture of Hispanic Americans. Hispanic Americans from all 50 states and territories are honored for their contributions to our society, which make up a critical part of America's identity and background. Hispanic Americans continue to share in the sacrifice and civic duties of their fellow U.S. citizens, and in fact, the Puerto Rican military participation rate is the second highest in the country.

Last month, I was joined by Representatives PIERLUISI, WASSERMAN SHULTZ and MICA in co-sponsoring legislation, H.R. 3718, to make residents of Puerto Rico fully eligible for the refundable portion of the child tax credit. The bill broadens the Internal Revenue Code of 1986 that currently excludes from the child tax credit Puerto Rican families with less than three children. At this time, the child tax credit is available to U.S. citizens in the 50 states, including residents of Puerto Rico who move to a state.

Expanding the child tax credit to Puerto Rican families with one child or more will inject critical funds into Puerto Rico's economy by directly boosting the incomes of the island's working families. Puerto Rico has been in an official recession for over three years, and its unemployment rate is 15.1 percent, which is significantly higher than the national average of 9.8 percent. Denying Puerto Rican families' access to proven United States economic recovery measures is unproductive and unjust, and it is time to afford U.S. citizens who are living in Puerto Rico the benefits of the child tax credit.

In conclusion, National Hispanic Heritage Month 2009 is marked by President Obama's successful appointment of the first Hispanic Associate Justice to the United States Supreme Court, the Honorable Sonia Sotomayor. The nomination and appointment of our fellow

New Yorker to the Supreme Court earlier this year is one in which our nation should take pride—for it broke down ethnic and gender barriers that will forever open the doors to future generations of Americans. I congratulate Justice Sotomayor on her appointment.

As this year's National Hispanic Heritage Month comes to an end, please join me in proudly honoring Hispanic Americans for their countless contributions to our nation.

IN HONOR OF PATROL OFFICER  
JAMES SIMONE

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. KUCINICH. Madam Speaker, I rise today in honor of Patrol Officer James Simone, a Cleveland Division of Police officer, who is one of just 12 officers to have been honored at the 2009 Police Service Awards.

Officer Simone was born on Cleveland's Eastside and attended St. Thomas Aquinas Elementary School. His family later moved to Lakewood, Ohio in 1966 where Officer Simone graduated from Lakewood High School. In 1968 Officer Simone joined the U.S. Military's 101st Airborne Paratrooper unit during the Vietnam War and received two Purple Hearts and two Bronze Stars for his service. After returning to Cleveland, Officer Simone became an officer for the Cleveland Police Department at the age of 25.

Officer Simone has now served the residents of Cleveland, Ohio as a police officer for 36 years in the capacity of a homicide detective, member of the SWAT team, undercover agent and currently serves as a patrolman for Cleveland's second district. Throughout his career, Officer Simone has been shot, stabbed and run over numerous times, and despite it all, he continues to serve as a dedicated officer.

While it is not the first award for the decorated Officer Simone, it is his heroic actions on January 10th, 2009 that has earned Officer Simone the honor of being named one of America's Top Police Officers this month. On that night, a woman fell through the ice-covered Cuyahoga River and was unable to get out of the freezing water. Officer Simone arrived at the scene and when a life-preserver failed as a rescuing device, he risked his life and jumped into the water to save the victim. Both the woman and Officer Simone suffered from hypothermia but survived because of his selfless and heroic decision.

Madam Speaker and colleagues, please join me in honor of Patrol Officer James Simone who has been the awarded an honorable mention in the 2009 Police Service Awards. While his heroic actions on January 10th, 2009 have earned him this honor, the residents of Cleveland have been awarded with Officer Simone's 35 years of dedicated service.

HONORING JOSEPH C. WEEKS,  
HERNANDO COUNTY, FLORIDA

**HON. GINNY BROWN-WAITE**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Ms. GINNY BROWN-WAITE of Florida. Madam Speaker, I rise today to recognize Joseph C. Weeks, Sr. This Friday Joe will receive the "2009 Great Brooksvillian of the Year Award". Created in 2002, this award recognizes individuals who have demonstrated a sincere commitment to the history, culture, and economy of the Brooksville community.

Born and raised in Brooksville, Joe temporarily left his hometown to serve his country in World War II and to attend college at the University of Florida. In 1951, upon his graduation, he returned to Brooksville to help his brother run the family business, Weeks Hardware; which has been a Brooksville staple since 1916. To this date, Weeks Hardware is considered the oldest existing business in Hernando County.

Aside from running a successful business, Mr. Weeks is a founding member of two prominent Brooksville organizations; the Brooksville Rotary Club and the Brooksville Downtown Development Organization, the latter of which he served as Vice-President and Treasurer. He also served as Vice-President and Treasurer for the Jaycees and was an active member of the Junior Chamber of Commerce. In recognition of his business successes, he was awarded the Independent Businessman of the year by the Republican Club. Additionally, he holds the unofficial distinction of being the oldest living member of the local American Legion Chapter.

Madam Speaker, Joseph C. Weeks, Sr. has demonstrated steadfast dedication to the Brooksville community. I ask my colleagues to join me in congratulating him on this momentous occasion.

TRIBUTE TO AMELIA BOYNTON

**HON. PARKER GRIFFITH**

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GRIFFITH. Madam Speaker, I rise today to recognize the life of Amelia Platts Boynton. Mrs. Boynton is member of the civil rights group that formulated strategies for nonviolent social resistance in Alabama and is most widely known as an activist and organizer for the march over the Edmond Pettus Bridge in Selma, AL.

Mrs. Boynton was a proud supporter of Dr. Martin Luther King and used her home in Selma as a center for Selma's civil rights battles, which was used by King and his lieutenants, Congressmen and attorneys from around the nation, to plan the demonstrations known as the "Selma to Montgomery Marches".

On March 7, 1965, during a march which later became known as Bloody Sunday, Boynton was viciously attacked. Following that event, her character and courage helped lead to the passage of the Voting Rights Act of 1965.

Mrs. Boynton is Vice Chairwoman of the International Schiller Institute. She is a 98-year-old author, playwright, speaker and organizer, speaking out publicly for justice, and inspiring people of all ages, nations, and backgrounds.

Madam Speaker, I wish to congratulate Amelia Boynton on a remarkable career and a heroic life and wish her the best as she continues to be an influential civil rights pioneer.

PERSONAL EXPLANATION

**HON. ADAM H. PUTNAM**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. PUTNAM. Madam Speaker, on Tuesday, October 13, 2009, I was not present for 3 recorded votes. Had I been present, I would have voted the following way: roll No. 772—"yea"; roll No. 773—"yea"; roll No. 774—"yea."

A TRIBUTE TO THE VISION OF  
CHILDREN FOUNDATION

**HON. DAN BURTON**

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. BURTON of Indiana. Madam Speaker, I rise today to salute the Vision of Children Foundation. The Vision of Children Foundation is an independent, not-for-profit 501(c)(3) organization dedicated to the funding of innovative clinical and translational research into vision disorders and creating effective therapies. The Foundation supports scientists at top universities and academic medical centers worldwide who are involved in the most advanced and promising research.

According to the World Health Organization, globally more than 161 million people are visually impaired, including 1.4 million blind children below age 15. In the United States alone, over 1 million children suffer from vision impairment, a loss of vision that makes it hard or impossible to perform daily tasks without specialized adaptation, and which cannot be corrected to a "normal" level. These children face technological and socially-imposed obstacles that make it difficult to succeed in life.

The challenges of living with visual impairment are all too real for Sam and Vivian Hardage, founders of the Vision of Children Foundation. Their son, Chase, now 20 years old, was diagnosed with ocular albinism (OA) as an infant. OA is an inherited disorder in which the eyes suffer from deficient amount of melanin and pigment, resulting in reduced visual acuity, or Nystagmus, and sensitivity to sunlight. The Hardages were told that there was no cure, and that their son would never be able to play sports or live a normal life. Although Chase's original diagnosis was dire, the reality is that all children with visual impairments have different visual acuities and developmental potential. Many of these individuals, such as Chase, have learned to compensate for their disability and have functional and productive lives.

The Hardages were also stunned to find that no one was doing research into understanding OA, much less treating it. Hereditary vision disorders such as OA, retinitis pigmentosa, and Ushers syndrome belonged to a group of diseases that were underrepresented and under-funded. It was clear that if there was any hope for finding a cure, funding was needed. In 1990, the Hardages established the Vision of Children Foundation (VOC), with a mission to cure hereditary childhood blindness and vision disorders, and to improve the quality of life of visually impaired individuals and their families. It is the only international, non-profit foundation that funds genetic vision research into ocular albinism and connects affected families all over the world.

Until there is a cure, the VOC works hard to provide educational support and services. Families of the visually impaired often feel isolated and confused, and need support to face day-to-day life. The VOC believes communication between families, educators, healthcare professionals, and researchers who care for these children is critical, and the VOC does all that it can to facilitate the process. The Foundation maintains a worldwide Family Network that provides information and support via constant communication, a biannual newsletter, and an informative Web site. Joining the Family Network enables parents to contact other families who face similar challenges in their geographic region to offer support, and share experiences and local resources and programs. Hundreds of families around the world belong to the VOC Family Network.

The VOC strives to enable thousands of children to have a clear image of the world around them. The foundation continues to gather and share information and tools available to ease the daily challenges that the visually impaired face. For example, VOC developed a computer monitor system designed to accommodate students and adults with low vision. This system works to alleviate the stress and strain that individuals with low vision face when using computer technology. The Foundation donates monitor systems to schools and individuals nationwide.

VOC also partners with book publishers to provide educational books to eye clinics, schools, libraries, doctors' offices, and families, such as the illustrated storybook, "All Children Have Different Eyes." These books help to raise awareness, reduce emotional stress, develop social competencies, improve academic performance, and increase confidence in low vision children.

These efforts to provide support, education and needed assistive resources to children diagnosed with OA have enabled Chase and many others like him to have a more normal and functional life. Chase played varsity football on a championship team and was his high school's first CIF wrestling champion in 28 years. Today, he is a sophomore studying business at Southern Methodist University.

To foster scientific communication and collaboration, VOC hosts a biennial World Symposium on Ocular Albinism and genetic vision disorders. In this forum, the Foundation brings together top vision and genetic eye researchers from around the globe to present and discuss the latest discoveries and research ef-

forts involving OA and related genetic conditions.

This year's World Symposium theme: "Understanding the Pathway—Discovering a Cure" was reflected in each of the presentations. The symposium was highly successful, with researchers agreeing to openly discuss their latest discoveries and research efforts. Updated results from the successful recent human gene therapy trials provide continued hope for a cure. One of the most important outcomes of the symposium resulted in the formation of an informal, web-based forum for attendees to continue the collaborative relationships that were formed. The Vision of Children Foundation is a leader in fostering these kinds of relationships and helping move science forward.

For eighteen years, the Vision of Children Foundation has been a driving force in the worldwide quest for a cure for genetically caused childhood blindness. Progress and problems are discussed on a regular basis as VOC researchers gather for an invitation only Symposium sponsored by the Vision of Children Foundation. In October 2006, Dr. James Bainbridge of Moorfields Eye Hospital in London attended VOC's European Symposium and described his lab's plan for a human gene therapy trial to cure Leber's Congenital Amaurosis. In March 2008, his team achieved the world's first successful gene therapy trial on a human. Their success was quickly followed by the University of Florida and Children's Hospital in Philadelphia, successfully restoring the vision of nine young adults who were nearly blind. These young people can now see and some can even read lines on an eye chart. All nine patients had the treatment in one eye and all have volunteered to have their other eye treated. I am told that the medical community is equating this discovery to the first heart transplant.

The Vision of Children Foundation is one of the largest sources of non-governmental funding in the world for genetically caused childhood blindness research. The urgent mission of the Vision of Children Foundation is to drive the research that will provide preventions, treatments and cures for children affected by ocular albinism and the entire spectrum of hereditary childhood blindness and vision disorders. The Foundation has invested millions of dollars to support scientific research of diseases of the retina, which cause blindness. I commend the steadfast support of and determination of the Vision of Children Foundation to eradicating genetically caused vision disorders and blindness in children.

#### HONORING THE LIFE OF SPECIALIST PAUL E. ANDERSEN OF SOUTH BEND

#### HON. JOE DONNELLY

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. DONNELLY of Indiana. Madam Speaker, I rise today to honor Specialist Paul E. Andersen of the 855th Quartermaster Company based out of South Bend, Indiana, for his dedication and service to the United States of

America. A 24-year-veteran of the armed forces, Paul was completing his second tour of duty in Iraq when he was killed in action on October 1, 2009, by indirect fire of enemy forces. Paul risked everything in service to America, and for that we are eternally grateful.

Paul devoted his life to serving our country. He graduated from Buchanan High School in Michigan in 1979 and enlisted in the Army Reserves in 1985. He worked to better our armed forces, and was prepared to answer the call for duty whenever his country needed him. In 2003 that time arrived, and Paul served his first tour in Iraq.

Upon his return home, he met his beloved wife Linda at the home of a friend. They fell in love and enjoyed listening to country music, watching old movies, and savoring strawberry milkshakes together. Within months, he proposed to her. Three weeks later they were married. Linda fully appreciated and understood the commitment that Paul had to his country. Paul had recently re-enlisted for six more years of duty, but only with the consent and blessing from Linda. When he asked her how she would feel if he opted to redeploy, she told him, "Go ahead." "I knew I married an Army man," Linda said. Her love for Paul was unwavering, as she said of Paul, "He's my world, my life, my friend."

After beginning his second tour in November 2008, Paul had the honorable duty of serving his country with the 855th Quartermaster, QM, Company, from South Bend, Indiana. Paul's mission in Iraq was to provide both shower and laundry services as well as operating a clothing repair, SLCR, shop supporting Coalition forces based in 10 different locations throughout the Iraqi theater. These locations are often dangerous, but despite the adversities the 855th QM Co. successfully accomplished their SLCR mission. Services of the SLCR team provided great contributions to the welfare and morale of the Soldiers they supported. Without their support, the Soldiers would not have been able to perform their duties and accomplish their own combat missions. It was a necessary job that his family and friends admired. Linda was in constant contact with Paul, and he was even allowed to take a leave in August to celebrate their fifth wedding anniversary. Paul had recently been informed that he was due to come home November 4, 2009.

Paul will be remembered as a devoted husband, father and grandfather. As a civilian, Paul worked at a tube and bending company. He loved to tinker with machines, and was notorious among family members for going overboard on the Christmas lights every year. He lived a life full of love and joy. He is survived by his wife; three biological children; three step-children; one biological grandchild; and eight step-grandchildren.

It is my somber duty to honor and remember Paul and a life cut tragically short. I am saddened by the loss to his family, our community and our country. We were all blessed by his presence and diminished by his passing.

## PERSONAL EXPLANATION

**HON. JOHN CONYERS, JR.**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. CONYERS. Madam Speaker, on October 13, 2009, I was unable to cast votes, due to personal reasons. I was not present for roll-call votes 772 and 773. Had I been present, I would have cast a "yea" vote for final passage of H.R. 3689. Also, I would have cast a "yea" vote on final passage of H.R. 3476.

## IN HONOR OF GEORGE SMITH

**HON. JOHN H. ADLER**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. ADLER of New Jersey. Madam Speaker, I would like to congratulate an important member of New Jersey's 3rd District, Mr. George Smith. Mr. Smith, 79, was awarded the Nobel Prize in physics for his work developing technology that is the basis of digital photography.

Mr. Smith worked at Bell Laboratories until his retirement in 1986. He was born in 1930 in White Plains, New York, served in the United States Navy, and briefly studied mathematics before switching to physics. In 1959, he earned his Ph.D. from the University of Chicago. Mr. Smith currently resides in Waretown in Ocean County, NJ.

George Smith was awarded the 2009 Nobel Prize in physics along with colleague Willard Boyle for their work creating an image semiconducting circuit, or charge coupled device, CCD. Their research laid the foundation for digital images and lightning-fast communication by developing fiber-optic cable and the sensor found at the heart of digital cameras. They share their prize with Hong Kong professor Kuen Kao for his work on fiber optics.

Madam Speaker, I ask that my colleagues join me in commending Mr. George Smith for his much deserved Nobel Prize. May his dedication and innovative thinking serve as a model for all those who seek to achieve original solutions within their respective fields.

HONORING THOMAS O'BRIEN UPON  
BEING NAMED THE NEW YORK  
STATE PRINCIPAL OF THE YEAR**HON. STEVE ISRAEL**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. ISRAEL. Madam Speaker, I rise today to acknowledge the accomplishments of my constituent, Brentwood High School Principal Thomas O'Brien.

Mr. O'Brien has been recognized as the New York State Principal of the Year by the School Administrators Association of New York State. This award is given annually to a school administrator "who has set the pace,

character, and quality of education for the children in his or her school."

Mr. O'Brien has served as an educator for 38 years, 14 in his current position—all within the Brentwood School District. He was recognized for his outstanding work at Brentwood High School, where he worked successfully to move the school from the New York State Department of Education's list of "Schools in Need of Improvement" to the list of "Schools in Good Standing."

I congratulate him on this accomplishment and applaud his long record of contributions to education on Long Island.

REGARDING S. 1707, THE ENHANCING  
PARTNERSHIP WITH PAKISTAN  
ACT OF 2009**HON. HOWARD L. BERMAN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. BERMAN. Madam Speaker, the following is an explanation of S. 1707, the Enhanced Partnership with Pakistan Act of 2009. The final text of the legislation reflects an agreement reached by the Senate Committee on Foreign Relations and the House Committee on Foreign Affairs. The purpose of this Explanatory Statement is to facilitate accurate interpretation of the text and to ensure faithful implementation of its provisions in accordance with the intentions of the legislation.

The core intent of the Enhanced Partnership with Pakistan Act is to demonstrate the American people's long-term commitment to the people of Pakistan. The United States values its friendship with the Pakistani people and honors the great sacrifices made by Pakistani security forces in the fight against extremism, and the legislation reflects the goals shared by our two governments.

The legislation does not seek in any way to compromise Pakistan's sovereignty, impinge on Pakistan's national security interests, or micromanage any aspect of Pakistani military or civilian operations. There are no conditions on Pakistan attached to the authorization of \$7.5 billion in non-military aid. The only requirements on this funding are financial accountability measures that Congress is imposing on the U.S. executive branch, to ensure that this assistance supports programs that most benefit the Pakistani people.

## SUMMARY OF CONGRESSIONAL INTENT

The Enhanced Partnership with Pakistan Act of 2009 (the "Act") establishes a legislative foundation for a strengthened partnership between the United States and Pakistan, based on a shared commitment to improving the living conditions of the people of Pakistan through strengthening democracy and the rule of law, sustainable economic development, and combating terrorism and extremism. It is the intent of Congress to strengthen the long-term people-to-people relationship between the United States and Pakistan by investing directly in the needs of the Pakistani people. This legislation is intended to fortify a lasting partnership with Pakistan based on mutual trust.

The overall level of economic assistance authorized annually by this legislation is tripled

over FY 2008 U.S. funding levels, with the bulk of aid intended for projects such as schools, roads, medical clinics, and infrastructure development. The funds directly authorized by this Act—\$1.5 billion in economic and development assistance annually for five years, with a similar amount envisioned for a subsequent five years—place no conditions on the Government of Pakistan. The only requirements are accountability measures placed on the United States executive branch to ensure that the aid directly benefits the Pakistani people.

This Act fully recognizes and respects the independence of Pakistan as a sovereign nation. The purpose of this Act is to forge a closer collaborative relationship between Pakistan and the United States, not to dictate the national policy or impinge on the sovereignty of Pakistan in any way. Any interpretation of this Act which suggests that the United States does not fully recognize and respect the sovereignty of Pakistan would be directly contrary to Congressional intent.

The certifications in the Act regarding certain limited forms of security assistance are consistent with previous Congressional legislation regarding security assistance to Pakistan and other nations. In all cases, they align with the aims of, and serve to reinforce the publicly-articulated positions of, the democratically-elected Government of Pakistan, and Pakistani military leaders, to combat extremists and militants.

SECTIONS 1-4: STRENGTHENING A RELATIONSHIP  
FOUNDED ON MUTUAL RESPECT

Sections 1-4 establish the framework and context for the legislative provisions that follow. The Findings and the Statement of Principles demonstrate an unequivocal appreciation for the friendship of the Pakistani people, and for the sacrifices made by the Pakistani security forces and people in fighting extremism. The Findings in Section 3 include:

Section 3(1): "Congress finds the following: The people of the Islamic Republic of Pakistan and the United States share a long history of friendship and comity, and the interests of both nations are well-served by strengthening and deepening this friendship."

Section 3(4): "Pakistan is a major non-NATO ally of the United States and has been a valuable partner in the battle against al Qaeda and the Taliban, but much more remains to be accomplished by both nations. The struggle against al Qaeda, the Taliban, and affiliated terrorist groups has led to the deaths of several thousand Pakistani civilians and members of the security forces of Pakistan over the past seven years."

The Statement of Principles in Section 4 include:

Section 4(1): "Pakistan is a critical friend and ally to the United States, both in times of strife and in times of peace, and the two countries share many common goals, including combating terrorism and violent radicalism, solidifying democracy and rule of law in Pakistan, and promoting the social and economic development of Pakistan."

Section 4(4): "The United States supports Pakistan's struggle against extremist elements and recognizes the profound sacrifice made by Pakistan in the fight against terrorism, including the loss of more than 1,900 soldiers and police since 2001 in combat with al Qaeda, the Taliban, and other extremist and terrorist groups."

## TITLE I: DEMOCRATIC, ECONOMIC AND DEVELOPMENT ASSISTANCE FOR PAKISTAN

This Title contains the core intention of this legislation: To make a long-term commitment to the people of Pakistan by tripling non-military assistance, free of any conditions on the Pakistani government. The purposes set forth for the \$7.5 billion that is authorized here are all intended to reflect the expressed priorities of the Pakistani people. Specifically, Section 101(a) provides that:

"The President is authorized to provide assistance to Pakistan to support the consolidation of democratic institutions; to support the expansion of rule of law, build the capacity of government institutions, and promote respect for internationally-recognized human rights; to promote economic freedoms and sustainable economic development; to support investment in people, including those displaced in on-going counterinsurgency operations; and to strengthen public diplomacy."

The funds authorized under Title I are intended to be used to work with and benefit Pakistani organizations. Specifically, Section 101(c)(3) provides that:

"The President is encouraged, as appropriate, to utilize Pakistani firms and community and local nongovernmental organizations in Pakistan, including through host country contracts, and to work with local leaders to provide assistance under this section"

Section 102(a) makes clear that there are no conditions placed on the Pakistani government for delivery of the \$7.5 billion in assistance. The only accounting requirements are of the U.S. executive branch.

Section 102(d) makes clear that a long term commitment to increased civilian assistance for the people of Pakistan is envisioned by stating that it is the desire of Congress that the amounts authorized for fiscal years 2010–2014 shall continue from fiscal years 2015–2019.

Section 103(b) authorizes establishment of field offices for Inspectors General to audit and oversee expenditure of this assistance. It is the intent of Congress that such offices would be established in consultation with appropriate Pakistani authorities for the purpose of ensuring optimal management of resources.

## TITLE II: SECURITY ASSISTANCE FOR PAKISTAN

The intention of this section is to strengthen cooperative efforts to confront extremism. The purposes of security assistance are intended to be completely cooperative, and reflect the intention that such assistance be used to support Pakistan in achieving its stated objectives in winning the ongoing counterinsurgency, defeating terrorist organizations that threaten Pakistan, and strengthening democratic institutions. Specifically, Section 201(1) "Purposes of Assistance" states that:

"The purposes of assistance under this title are—

(1) to support Pakistan's paramount national security need to fight and win the ongoing counterinsurgency within its borders in accordance with its national security interests;

(2) to work with the Government of Pakistan to improve Pakistan's border security and control and help prevent any Pakistani territory from being used as a base or conduit for terrorist attacks in Pakistan, or elsewhere;

(3) to work in close cooperation with the Government of Pakistan to coordinate action against extremist and terrorist targets; and

(4) to help strengthen the institutions of democratic governance . . . ."

The provisions applied to certain limited portions of U.S. security assistance in Section 203 are intended to be fully in line with the existing policy of the Government of Pakistan. Specifically, Section 203(c)(1) reflects our understanding that cooperative efforts currently being undertaken by the Governments of Pakistan and the United States to combat proliferation will continue.

Section 203(c)(2) reflects the intent that U.S. security assistance is used in furtherance of the purposes set forth in Section 201 above, e.g., ensuring Pakistan's security, winning the counterinsurgency within Pakistan, preventing territory from being used for terrorist attacks in Pakistan and elsewhere, and coordinating action against extremist and terrorist targets. This section requires a certification by the United States executive branch to Congress regarding the efforts and progress made in achieving these purposes, and includes a series of factors to be considered collectively by the Secretary of State in making this assessment.

Section 203(c)(3) includes a provision intended to express support for democratic institutions in Pakistan.

Section 203(e) contains a waiver making clear that this certification could be waived if the determination is made by the Secretary of State in the interests of national security that this was necessary to continue such assistance.

## TITLE III. STRATEGY, ACCOUNTABILITY, MONITORING, AND OTHER PROVISIONS.

The intention of this section is to ensure that there is transparency and accountability in the way authorized assistance is spent. This Title requires the U.S. executive branch to provide various reports to Congress designed to demonstrate that funds are being used for the purposes set forth in Title I and Title II; there are no requirements on the Government of Pakistan.

Section 301 "Strategy Reports" requires three reports from the United States executive branch that detail a plan for how U.S. assistance to Pakistan will be spent and evaluated and a regional security plan for how the United States can best work with its partners for "effective counterinsurgency and counterterrorism efforts."

Section 302 "Monitoring Reports" reflects the need for ongoing consultation between the U.S. executive branch and Congress on monitoring U.S. assistance to Pakistan, including a "Semi-Annual Monitoring Report" where:

The Secretary of State, in consultation with the Secretary of Defense, shall submit to the appropriate congressional committees a report that describes the assistance provided under this Act during the preceding 180-day period.

The many requirements of this report are intended as a way for Congress to assess how effectively U.S. funds are being spent, shortfalls in U.S. resources that hinder the use of such funds, and steps the Government of Pakistan has taken to advance our mutual interests in countering extremism and nuclear

proliferation and strengthening democratic institutions.

There is no intent to, and nothing in this Act in any way suggests that there should be, any U.S. role in micromanaging internal Pakistani affairs, including the promotion of Pakistani military officers or the internal operations of the Pakistani military.

The reports envisioned in this Section are not binding on Pakistan, and require only the provision of information by the executive branch to the U.S. Congress, in furtherance of the Act's stated purpose of strengthening civilian institutions and the democratically-elected Government of Pakistan.

## PERSONAL EXPLANATION

## HON. XAVIER BECERRA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. BECERRA. Madam Speaker, I was unavoidably detained last evening and missed rollcall 773. If present, I would have voted "yea."

## EARMARK DECLARATION

## HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. DUNCAN. Madam Speaker, consistent with House Republican Earmark Standards, I am submitting the following earmark disclosure information for project requests that I made and which were included within H.R. 2997, "Making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes."

Requesting Member: Congressman JOHN DUNCAN

Account: National Institute of Food and Agriculture—SRG

Project Amount: \$1,000,000

Legal Name of Requesting Entity: University of Tennessee, 114 Morgan Hall, 2621 Morgan Circle, Knoxville, Tennessee 37996

Description of Request: This funding will be used for producing crop plants that can be used directly as early-warning sentinels for the detection of plant diseases.

## IN RECOGNITION OF THE 100TH BIRTHDAY OF ANNE FORRESTER LYBRAND

## HON. MIKE ROGERS

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. ROGERS of Alabama. Madam Speaker, I would like to request the House's attention today to pay recognition to the special life of Anne Forrester Lybrand of Oxford, Alabama.

Mrs. Lybrand was born on November 11, 1909 in Talladega County. She was married to

Mr. Eule Lybrand in 1928 and was blessed with two sons, Eule Lybrand, Jr. and Fred Ray Lybrand.

Mrs. Lybrand and her husband owned their own business and she also worked as a City Clerk for the City of Oxford. She has been an active member of First United Methodist Church of Oxford since 1946 where she taught Sunday school, and is past President of the United Methodist Women's Group.

She also has been involved with Interfaith Ministries and is a Charter Member of the Oxford "Meals on Wheels" program.

On November 7th, her friends and family will celebrate her birthday at her church. Today I would like to wish Mrs. Anne Forrester Lybrand a very Happy 100th Birthday.

#### PERSONAL EXPLANATION

##### HON. NEIL ABERCROMBIE

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. ABERCROMBIE. Madam Speaker, I regret that I missed rollcall votes nos. 772–774. Had I been present, I would have voted "yea" on all rollcall votes.

#### CONGRATULATING ACT, INC., ON ITS 50TH ANNIVERSARY

##### HON. DAVID LOESACK

OF IOWA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. LOESACK. Madam Speaker, I would like to recognize and congratulate ACT, Inc., on its 50th anniversary, and 50 years of accomplishments. ACT, originally American College Testing Program, was founded in Iowa's first state capitol in Iowa City, IA, in 1959. The goal was to help all students who wanted to attend college find the best match for their interests and abilities and to help colleges and universities place students into appropriate freshman-level classes. On November 7, 1959 about 75,000 students took the first ACT Assessment; in the high school graduating class of 2009 nearly 1.5 million students—45 percent of all high school graduates in our nation took the ACT.

While ACT started with a single focus, the organization now conducts research and offers a broad array of programs and services to help provide solutions to many of the complex education and workforce problems facing our nation and those abroad. ACT, with its educational knowledge, has expanded to help bridge the barriers that remain in accessing the globalized marketplace for millions of individuals around the globe. Through local partnerships in 13 countries ACT is working to improve the educational opportunities for the students and help teach English as a second language.

I am honored to represent many of the employees of ACT here in the U.S. House of Representatives. I congratulate them and all of the ACT employees, directors, and members of state organizations on their 50-year history

of helping people achieve education and workplace success.

#### PERSONAL EXPLANATION

##### HON. MICHAEL E. CAPUANO

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. CAPUANO. Madam Speaker, yesterday I missed several rollcall votes, and I wish to state how I would have voted had I been present: rollcall No. 772—"yea," rollcall No. 773—"yea," rollcall No. 774—"yea."

#### TRIBUTE TO W. FRANK JONES

##### HON. JAMES E. CLYBURN

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. CLYBURN. Madam Speaker, I rise today to pay tribute to a good friend and an important public servant. W. Frank Jones recently retired after 14 years as Executive Director of the Marion County Economic Development Commission. His leadership and devotion will certainly be missed.

Frank Jones was born in Marion County in the farming community of Gapway. Although he loved growing up on a farm, Frank knew early on that he didn't want to follow his parents, Ernest F. Jones and Nina Brown Jones, into the family business.

After graduating from Mullins High School, Frank enlisted in his local National Guard unit in December 1953. On October 1957, upon graduation from Palmetto Military Academy, he was appointed an armor officer assigned to the 1st Battalion, 263rd Armor in the South Carolina Army National Guard. He served in this battalion through December 1982, with assignments ranging from Company Commander to Battalion Executive Officer and Battalion Commander. From December 1982 through March 1986, he was assigned to the State Area Command, where he served as Deputy Commander, Detachment 1 (Troop Command) from June 1983 to September 1984. He became Deputy Commander of the 218th Heavy Separate Brigade in March 1986.

Frank received numerous federal and state awards and decorations during his 40 years of service to the National Guard. He eventually retired from the Army National Guard after he rose to the rank of Brigadier General in the Army National Guard where he commanded the 3rd Brigade of the historic 1st Infantry Division.

General Jones also demonstrated his commitment to serving his community in other ways. From 1966 until 1982, he served on the Mullins City Council and was Mayor pro tem in 1981–1982. Professionally, he pursued a career in banking receiving degrees from the South Carolina Bankers School, the Louisiana State Graduate School of Banking, the Commercial Lending School of the University of Oklahoma, and the State University of New York at Albany. He went to work for Davis National Bank of Mullins, and in 1981, he be-

came the bank's President and CEO, a position he held for 13 years. Frank decided to embark on another career as Executive Director of the Marion County Economic Development Commission. He also furthered his education by completing an economic development course at Georgia State University in 1995.

Frank's tenure at the Commission was marked by difficult circumstances. Marion County historically had an agricultural-based economy. With the decline in tobacco farming, the county became a hub for textile manufacturing. Subsequently the textile industry suffered big losses as jobs were moved overseas and plants were closed leaving large unemployment in the county.

Frank did a tremendous job attracting diverse smaller industries to the county, which helps protect against the devastation the county suffered when its two previous economic engines collapsed. He also grew Marion County Progress, an organization made up of local business leaders that help drive economic development in the area, from a handful of people to members.

Throughout his life, Frank has remained connected to his community. He is a member of Mullins First Baptist Church where he serves as Treasurer, teacher of adult men's Sunday School, and Deacon. He is a member of the Mullins Rotary Club, and is a past President. He has also served as Chairman of the Board of Visitors at Francis Marion University, and is a past Director of the S.C. Bankers Association. Frank is a recipient of the Order of the Palmetto, the highest civilian honor bestowed by the Governor of South Carolina.

He is married to Joann McCumber Jones. The couple has two children Charles Jones and Karen Grice, both of Marion, and five grandchildren.

Madam Speaker, I ask you and my colleagues to join me in congratulating Frank Jones on his retirement and thanking him for his years of service to Marion County, the State of South Carolina and our nation. He has dedicated his life to helping his community and it is a much better place because of his tremendous contributions. I wish Frank well in retirement, and know he will remain an active part of the Marion County community.

#### EARMARK DECLARATION

##### HON. JOHN J. DUNCAN, JR.

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. DUNCAN. Madam Speaker, consistent with House Republican Earmark Standards, I am submitting the following earmark disclosure information for project requests that I made and which were included within H.R. 2997, "Making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes."

Requesting Member: Congressman JOHN DUNCAN

Account: National Institute of Food and Agriculture—SRG

Project Amount: \$1,000,000  
 Legal Name of Requesting Entity: University of Tennessee, 114 Morgan Hall, 2621 Morgan Circle, Knoxville, Tennessee 37996

Description of Request: This project would entail the ARS at Knoxville working in cooperation with University of Tennessee scientists in improving plant carbon production from atmospheric CO<sub>2</sub> and the sequestration of the carbon in plants.

#### PERSONAL EXPLANATION

##### HON. JOHN H. ADLER

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. ADLER of New Jersey. Madam Speaker, on rollcall No. 775 had I been present, I would have voted "yes."

#### TRIBUTE TO TOM RICHARDSON

##### HON. PARKER GRIFFITH

OF ALABAMA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. GRIFFITH. Madam Speaker, I rise today to recognize the career of Dr. Tom Richardson. Dr. Richardson is the Chief Scientist and Technical Director at the Missile and Space Intelligence Center in Redstone Arsenal, Alabama.

Tom began his career at MSIC in 1974 working primarily in the areas of sensor data analysis, weapon systems stimulations, and analysis methodologies. Over his tenure, he has held supervisory duties for several organizations involved with analyses of air defense, and theater and strategies ballistic missile defense systems.

Dr. Richardson has received the DIA Director's Award for Exceptional Civilian Service and the National Military Intelligence Association John T. Hughes Award. His leadership and service to the Defense Intelligence Agency has been exceptional and he has represented North Alabama well.

Madam Speaker, I wish to congratulate Dr. Tom Richardson on a phenomenal career and wish him continued success.

#### EARMARK DECLARATION

##### HON. MICHAEL K. SIMPSON

OF IDAHO

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. SIMPSON. Madam Speaker, in accordance with the policies and standards put forth by the House Appropriations Committee and the GOP Leadership, I submit a list of the congressionally directed projects I requested in my home state of Idaho that are contained in the Conference Report to accompany H.R. 2997, the FY2010 Agriculture Appropriations bill.

Project Name: Aquaculture Research Initiative

Amount Received: \$529,000  
 Account: USDA/CSREES  
 Recipient: University of Idaho  
 Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: Research and development of strains of barley for the production of high-value protein concentrates from barley and oats that can be used as fish feed. Increasingly, fish that are consumed world wide originate from aquaculture. This increase has taxed global supplies of marine protein and oil traditionally used in aquafeeds resulting in record prices for these commodities. Idaho is a leader in the national aquaculture industry, producing over 70% of the nation's commercially grown rainbow trout and generating \$100 million per year. Funding would support innovative research to develop new ways of addressing problems in the industry.

Project Name: Barley for Rural Development  
 Amount Received: \$547,000  
 Account: USDA/CSREES  
 Recipient: University of Idaho  
 Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: Funding for this program would support research directed at the continued development of improved malt, feed, cellulosic ethanol and food barley varieties for growers and value added end-users in rural Idaho, Montana, and North Dakota communities. This research is starting to expand and meet market opportunities, addressing the critical need of growers in production agriculture to increase economic yield, enhance domestic and international market access, improve production technologies, better compete with Canadian imports and reduce dependence on government subsidies. Research supported by this project will increase the manufacture and sale of value-added barley products (malt, beer, fuel, food, livestock) in these states, having a substantial positive impact on their economies, supporting jobs, generating business activity, and federal, state, and local tax revenue. Maintenance of the strength of barely in the Idaho economy requires continual efforts to improve crop quality and productivity. This can only be accomplished by investing in strong research programs that keep the industry at the forefront.

Project Name: COOL Season Legume Research

Amount Received: \$350,000  
 Account: USDA/CSREES  
 Recipient: University of Idaho  
 Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: This program is an aggressive cooperative research program between the USDA, the University of Idaho, and the University of Washington that seeks new, high yielding, high quality, nutritious dry pea, lentil, and chickpea varieties to meet producer and consumer needs. This research focuses on the breeding of new, superior varieties of legumes; management of nematodes, insects, plant diseases and weeds that can limit production; and reduction of soil erosion and water degradation associated with production, as well as the development of value-added new products. The technology being generated through the research is essential for the pea, lentil, and chickpea industries to re-

main competitive and profitable. Funding would be provided to the University of Idaho through the USDA ARS facility located at 29603 U of I Lane, Parma, Idaho 83660.

Project Name: Greater Yellowstone Inter-agency Brucellosis Committee  
 Amount Received: \$605,000  
 Account: USDA/APHIS  
 Recipient: Idaho State Department of Agriculture

Recipient's Street Address: 2270 Old Penitentiary Road, Boise, ID 83712

Description: Idaho, Montana, and Wyoming are each required by law to manage brucellosis-infected wildlife within their borders in order to prevent the spread of brucellosis to non-infected wildlife, cattle, or domestic bison. The Committee is coordinating with federal, state, and private actions in eliminating brucellosis from wildlife in the Greater Yellowstone Area and preventing transmission of this disease from wildlife to livestock. The funding will be used to develop and implement brucellosis herd unit management plans; to perform functions and duties of Idaho relative to the Greater Yellowstone Interagency Brucellosis Committee; to conduct brucellosis prevention, surveillance, control and eradication activities in Idaho and the Greater Yellowstone Area.

Project Name: Increasing Shelf-Life of Agriculture Commodities

Amount Received: \$603,000  
 Account: USDA/CSREES  
 Recipient: University of Idaho  
 Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: In order to prevent serious food safety issues, this project will fund research and development of bio-electronic sensors that can detect the presence of microbial pathogens in food and food products. Preventative detection and treatment at the agricultural commodity level and fast, accurate detection of biological pathogens and dangerous food toxins is an important element for ensuring safety and shelf life. The research being conducted in this area at the University of Idaho will advance and expand previous work on biosensor systems to further enhance preventative detection and treatment of biological pathogens and dangerous food toxins.

Project Name: Nez Perce Bio-Control Center

Amount Received: \$176,000  
 Account: USDA/APHIS  
 Recipient: Nez Perce Tribe Bio-Control Center

Recipient's Street Address: 102 Agency Road, Lapwai, ID 83540

Description: The Nez Perce Bio-Control Center is authorized by the Noxious Weed Control and Eradication Act of 2004 and manages and establishes nurseries to increase biological control organism availability, distribute biological control organisms, monitor their impacts, and provide an increased number of annual technology transfer workshops to Cooperative Weed Management Areas and other landowners and managers regionally. This funding will continue the partnership between USDA and the Nez Perce Tribe to maximize the effectiveness of implementing a complete bio-control of weeds program in an Integrated Weed Management strategy. The Center will increase the availability of agents for landowners and managers throughout the region.

Biological control offers long-term management of invasive weeds and can be used with other integrated pest management approaches.

Project Name: Potato Cyst Nematode Research

Amount Received: \$349,000

Account: USDA/CSREES

Recipient: University of Idaho

Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: This funding would be used by the University of Idaho for research and development of means to eradicate and better protect the Idaho potato crop from the soil-borne pathogen potato cyst nematode, hardened nematode bodies filled with eggs which can persist in the soil for up to 25 years. Current eradication depends upon methyl bromide, which is not totally effective and which may be banned because of its ozone depleting properties, as well as other chemicals which are even less effective and several of which may also be banned. The funds will be used to maximize the efficiency of methyl bromide while it is available and develop new "green" replacement eradicates (such as green manure or biologically derived nematicides) and procedures (advance hatching frequency), as well as to improve planting material screening procedures and to study plant-vector-virus relationships, which may also lead to new ways to fight potato viruses. Previous funding established the groundwork and prepared the University of Idaho to fully implement the needed research. This project will work in concert with the ongoing USDA eradication program by providing new methods of treatment. This crop pest can result in 80% yield reductions and has negatively affected agricultural trade. There is a good chance that if this threat is addressed with adequate research and treatment it can be eliminated.

Project Name: Small Fruit Research, ID, OR, WA

Amount Received: \$307,000

Account: USDA/CSREES

Recipient: University of Idaho

Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: The Small Fruits Initiative-Plant Improvement project will build upon the strengths of existing cooperative research programs aligned through the Northwest Center for Small Fruits Research. This ongoing tri-state program supports the development of small fruits as an alternative agriculture crop in the Pacific Northwest. The funding will strengthen existing programs throughout the region and add key programs to fill in critical gaps that are not met by the existing infrastructure associated with the Center, providing key resources for Idaho scientists to address problems that negatively impact the emerging berry, grape, and wine industries in the Northwest.

Project Name: STEEP IV—Water Quality in the Northwest

Amount Received: \$444,000

Account: USDA/CSREES

Recipient: University of Idaho

Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: Soil erosion affects 10 million acres of cropland in the Inland Pacific North-

west, reducing farm productivity. STEEP is a coordinated research and technology transfer program designed to develop and implement erosion control practices for agriculture. Emerging environmental and human health concerns also require control of erosion and other environmental impacts of agriculture. New strategies and cropping systems for the protection of soil, water, and air resources are being developed and assessed through collaborative research conducted by scientists in the Pacific Northwest. The STEEP program continues to provide Pacific Northwest farmers and supporting agribusiness entities the new conservation technologies, tools, and understand to meet with evolving demands of agriculture, the environment, and Pacific Northwest residents.

Project Name: Tri-State Predatory Control

Amount Received: \$926,000

Account: USDA/APHIS

Recipient: USDA Animal Plant Health Inspection Service

Recipient's Street Address: 9134 West Blackeagle Drive, Boise, ID 83709

Description: This project would continue assistance to Idaho, Montana, and Wyoming to control wolves and other predators. The Yellowstone wolf population has reached levels 3 to 4 times the initial recovery goals, leading to a delisting from the ESA earlier this year for the wolves in Idaho and Montana and leaving states responsible for managing the increasing wolf populations. As a result, ranchers are facing increasing threats from these predators. The continuation of this program will ensure that the tri-state area will be able to address predator management.

Project Name: Northwest Center for Small Fruit Research

Amount Received: \$275,000

Account: USDA/ARS

Recipient: University of Idaho

Recipient's Street Address: 875 Perimeter Drive, Moscow, ID 83844

Description: The Small Fruits Initiative-Plant Improvement project will build upon the strengths of existing cooperative research programs aligned through the Northwest Center for Small Fruits Research. This ongoing tri-state program supports the development of small fruits as an alternative agriculture crop in the Pacific Northwest. The funding will strengthen existing programs throughout the region and add key programs to fill in critical gaps that are not met by the existing infrastructure associated with the Center, providing key resources for Idaho scientists to address problems that negatively impact the emerging berry, grape, and wine industries in the Northwest. Funding would be provided to the University of Idaho through the USDA ARS facility located at 29603 U of I Lane, Parma, Idaho 83660. Biological control offers long-term management of invasive weeds and can be used with other integrated pest management approaches.

I appreciate the opportunity to provide a list of congressionally-directed projects I requested that are included in the Conference Report to accompany H.R. 2997, the Agriculture Appropriations Act for FY2010 and provide an explanation of my support for them.

## NEW YORK TIMES WEIGHTS POLL IN FAVOR OF DEMOCRATS

### HON. LAMAR SMITH

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. SMITH of Texas. Madam Speaker, the New York Times reported recently that President Obama has "considerable political strength."

The Times' based this statement on its own poll, which found the President has an approval rating of 56 percent—a higher number than any other poll has found recently.

One reason for this might be that the Times weighted the poll in favor of Democrats.

Among those who actually responded to the poll, there were more Democrats than Republicans by 6 percentage points.

But when the Times finished computing the results, they had increased the gap to an unreasonable and inexplicable 15 percentage points.

With so many more Democrats in the sample, it should come as no surprise that the President's approval rating is a higher than other polls have found.

The Times would do well to show more balance in their polling—and their reporting.

SUPPORTING H. RES. 800, H. RES. 816, AND H. RES. 810, EXPRESSING CONDOLENCES AND SOLIDARITY WITH THE CITIZENS OF THE PHILIPPINES, AMERICAN SAMOA AND SAMOA, AND INDONESIA IN THE AFTERMATH OF DEVASTATING NATURAL DISASTERS

### HON. AL GREEN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, October 14, 2009

Mr. AL GREEN of Texas. Madam Speaker, I extend my support for H. Res. 800, H. Res. 816, and H. Res. 810, which express sympathy for the citizens of the Philippines dealing with Tropical Storm Ketsana and Typhoon Parma, for the people of American Samoa and Samoa in the aftermath of an earthquake and tsunami, and for the citizens of Indonesia after a devastating earthquake.

On September 26, 2009, Tropical Storm Ketsana made landfall in the Philippines. Rain and flooding submerged 80 percent of the capital city, Manila, took 277 lives, forced 135,470 families into evacuation centers, and destroyed over 4,500 homes. Typhoon Parma hit the islands several days later on October 2, 2009 and caused further damage.

On September 29, 2009, a powerful earthquake struck below the ocean 140 miles southwest of American Samoa and 125 miles south of Samoa. The earthquake, which registered 8.3 on the Richter scale, produced waves 20 feet in height that penetrated one mile inland, sweeping away homes and cars.

On September 30, 2009, 700 lives were lost to a 7.6 magnitude earthquake originating in West Sumatra, Indonesia, which also destroyed 83,700 homes, 200 public buildings, 285 schools and other infrastructure.

In the wake of these recent events and on behalf of the 70,000 Asian American and Pacific Islanders living in the 9th Congressional District of Texas, including the 6,000 Filipino Americans that I represent, I extend my sincerest condolences to the families whose loved ones were lost in these tragedies. As the Philippines, American Samoa, Samoa, and Indonesia rebuild homes and communities destroyed in the disasters, we recognize the heroic rescue efforts mounted by international aid organizations and foreign governments, including American forces sent by President Obama. Let these events remind us of our shared humanity and concern for those struggling in the face of adversity.

Americans across the country continue to watch the recovery efforts being undertaken in the Philippines, American Samoa, Samoa, and Indonesia. We stand ready to assist our fellow brothers and sisters in need at a minute's notice, and we keep you every day in our thoughts and prayers.

I urge my colleagues to support H. Res. 800, H. Res. 816, and H. Res. 810.

**HONORING THE MADISON COUNTY  
ROTARY CLUB FOR THEIR EF-  
FORTS TO BUILD ACCESS RAMPS  
FOR DISABLED PERSONS IN  
THEIR COMMUNITY**

**HON. PAUL C. BROWN**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. BROWN of Georgia. Madam Speaker, I rise today to share with my colleagues and express my deepest appreciation for a great accomplishment in community service in my district.

On Saturday, October 17, 2009, the Madison County Rotary Club will be building their four-hundredth handicap-accessible ramp. As a Rotarian myself, I know that service projects like this allow thousands of disabled Americans to live more independent lives each and every day.

Since 1990, Madison County Rotarians have completed numerous service projects to benefit their community. The club consists of more than 60 members from very diverse professional backgrounds, and over the past 13 years, they have collectively built enough ramps to stretch over two miles if placed end to end.

These folks do not volunteer their time and resources to build these ramps for public recognition, nor do they profit from their work. In fact, they have given away over \$600,000 worth of labor and supplies through their ramp-building effort. Instead, these wonderful folks see themselves as a part of something much bigger: an organization of 1.2 million members divided into over 33,000 clubs—all over the world.

Rotary International operates under the motto "Service above Self." This service organization works all across the world to make people's lives better. It combats hunger, improves health and sanitation, provides education and job training, promotes peace, and is working to totally eradicate polio.

I ask my colleagues to join me in honoring the Madison County Rotary Club, its dedicated members, and the goals that all Rotarians are striving to achieve. Their accomplishments make the world a better place every day, and they deserve our heartfelt thanks.

**TRIBUTE TO AMERICA'S GOLD  
STAR MOTHERS**

**HON. C.W. BILL YOUNG**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. YOUNG of Florida. Madam Speaker, I rise today in recognition that September 27, 2009, was designated as "Gold Star Mother's Day." It is fitting that we recognize the American Gold Star Mothers, whose sons and daughters have died in defense of the ideals of individual liberty. They should be honored and offered respect and gratitude for their personal sacrifice.

Gold Star Mother's Day is intended to honor women who deserve special recognition and gratitude for their tremendous personal loss on behalf of our country.

During the early days of World War I, a Blue Star was used to represent each Soldier in military service of the United States, and as the war progressed and Soldiers were killed or wounded in combat or died from wounds or disease, a Gold Star superimposed over the Blue Star designated the loss of these individuals. This tradition recognized Soldiers for their ultimate sacrifice to our country and the Gold Star offered families an outward symbol by which to honor the loss of a loved one.

In 1928, the Gold Star tradition was formalized in Washington, D.C., by a group of mothers who had lost sons and daughters in service to their country and met to form the American Gold Star Mothers organization. This organization is a nondenominational, non-profitable and nonpolitical organization that is dedicated in supporting veterans, military families, and Service Members returning from our present day battlefields.

In 1936, President Franklin Roosevelt issued a proclamation which recognized Gold Star Mothers for their strength and inspiration to this country.

Madam Speaker, I urge all of my colleagues to appreciate the services rendered to the United States by the mothers of America who have strengthened and inspired our Nation throughout history and that we honor the Gold Star Mothers of America for their courage and their strength.

**HONORING HISPANIC HERITAGE  
MONTH**

**HON. RODNEY P. FRELINGHUYSEN**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Wednesday, October 14, 2009*

Mr. FRELINGHUYSEN. Madam Speaker, I rise today to honor Hispanic Heritage Month, which runs from September 15, 2009 through October 15, 2009.

The earliest Spanish settlers arrived in the United States over 400 years ago. And since then, millions of Hispanic men and women have immigrated to the United States from Mexico, Cuba, Puerto Rico, and other Caribbean nations, as well as Central America, South America, and Spain. These brave men, women, and children have come in search of freedom, peace, and opportunity.

The U.S. Census Bureau currently lists Hispanic Americans as the largest ethnic minority within the entire United States with a population of 46,900,000 people, making up fifteen percent of our nation's total population. Hispanics also comprise the largest ethnic minority group in 20 States including my home State of New Jersey.

Hispanics are a vital cog to our economy and own over 2.5 million small businesses in the United States, which have generated more than \$400 billion in revenue. Among these businesses, Latina-owned entities are growing quickly and are currently generating more than \$45 billion in sales. Hispanic businesses are rapidly expanding growing 31% from between 1997 and 2002, over three times the national average during that period.

Within my own Congressional District, the Morris County Hispanic Chamber of Commerce is a thriving group that has been recognized with distinction. Last year the Morris County Hispanic Chamber of Commerce was recognized as the best medium Hispanic Chamber in our region, and for nearly thirty five years, the community has been served ably by the Morris County Organization for Hispanic Affairs.

Hispanic Americans have displayed great valor in warfare over the course of our nation's history fighting in every war in the history of the United States. There are over 1,100,000 Hispanic veterans of the United States Armed Forces, with forty-three of them winning the Medal of Honor, the highest military distinction in the United States.

Hispanic Americans have served our nation as dedicated public servants, holding positions at the highest level of government, including Cabinet Secretaries, Senators, Supreme Court Justices, and Members of the House of Representatives.

Madam Speaker, Hispanic Americans have contributed greatly to our country for hundreds of years, and are worthy of recognition. I urge my colleagues to join me in honoring Hispanic Heritage Month.

**SENATE COMMITTEE MEETINGS**

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily

Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Thursday, October 15, 2009 may be found in the Daily Digest of today's RECORD.

## MEETINGS SCHEDULED

## OCTOBER 20

9:30 a.m.

Banking, Housing, and Urban Affairs

To hold hearings to examine the state of the nation's housing market.

SD-538

10 a.m.

Finance

To hold hearings to examine S. 1631, to reauthorize customs facilitation and trade enforcement functions and programs.

SD-215

Judiciary

Administrative Oversight and the Courts Subcommittee

To hold hearings to examine medical debt, focusing on bankruptcy reform.

SD-226

10:30 a.m.

Small Business and Entrepreneurship

To hold hearings to examine health care solutions for America's small businesses.

Room to be announced

2:30 p.m.

Homeland Security and Governmental Affairs

To hold hearings to examine the nominations of Susan Tsui Grundmann, of Virginia, to be Chairman, and Anne Marie Wagner, of Virginia, to be a Member, both of the Merit Systems Protection Board.

SD-342

Intelligence

To receive a closed briefing on certain intelligence matters from officials of the intelligence community.

S-407, Capitol

## OCTOBER 21

9:30 a.m.

Homeland Security and Governmental Affairs

To hold hearings to examine H1N1 flu, focusing on monitoring the nation's response.

SD-342

Veterans' Affairs

To hold hearings to examine S. 977, to amend title 38, United States Code, to provide improved benefits for veterans who are former prisoners of war, S. 1109, to provide veterans with individualized notice about available benefits, to streamline application processes or the benefits, S. 1118, to amend title 38, United States Code, to provide for an increase in the amount of monthly dependency and indemnity compensation payable to surviving spouses by the Secretary of Veterans Affairs, S. 1155, to amend title 38, United States Code, to establish the position of Director of

Physician Assistant Services within the office of the Under Secretary of Veterans Affairs for health, S. 1204, to amend the Department of Veterans Affairs Health Care Programs Enhancement Act of 2001 to require the provision of chiropractic care and services to veterans at all Department of Veterans Affairs medical centers, S. 1237, to amend title 38, United States Code, to expand the grant program for homeless veterans with special needs to include male homeless veterans with minor dependents and to establish a grant program for reintegration of homeless women veterans and homeless veterans with children, S. 1302, to provide for the introduction of pay-for-performance compensation mechanisms into contracts of the Department of Veterans Affairs with community-based outpatient clinics for the provisions of health care services, S. 1394, to direct the Secretary of Veterans Affairs to acknowledge the receipt of medical, disability, and pension claims and other communications submitted by claimants, S. 1427, to amend title 38, United States Code, to establish a Hospital Quality Report Card Initiative to report on health care quality in Department of Veterans Affairs Medical Centers, S. 1429, to establish a commission on veterans and members of the Armed Forces with post traumatic stress disorder, traumatic brain injury, or other mental health disorders, to enhance the capacity of mental health care providers to assist such veterans and members, to ensure such veterans are not discriminated against, S. 1444, to amend title 38, United States Code, to clarify the meaning of "combat with the enemy" for purposes of service-connection of disabilities, S. 1467, to amend title 38, United States Code, to provide coverage under Traumatic Servicemembers' Group Life Insurance for adverse reactions to vaccinations administered by the Department of Defense, S. 1483, to designate the Department of Veterans Affairs outpatient clinic in Alexandria, Minnesota, as the "Max J. Beilke Department of Veterans Affairs Outpatient Clinic", S. 1518, to amend title 38, United States Code, to furnish hospital care, medical services, and nursing home care to veterans who were stationed at Camp Lejeune, North Carolina, while the water was contaminated at Camp Lejeune, S. 1531, to amend title 38, United States Code, to establish within the Department of Veterans Affairs the position of Assistant Secretary for Acquisition, Logistics, and Construction, S. 1547, to amend title 38, United States Code, and the United States Housing Act of 1937 to enhance and expand the assistance provided by the Department of Veterans Affairs and the Department of Housing and Urban Development to homeless veterans and veterans at risk of homelessness, S. 1556, to require the Secretary of Veterans Affairs to permit facilities of the Department of Vet-

erans Affairs to be designated as voter registration agencies, S. 1607, to amend title 38, United States Code, to provide for certain rights and benefits for persons who are absent from positions of employment to receive medical treatment for service-connected disabilities, and S. 1668, to amend title 38, United States Code, to provide for the inclusion of certain active duty service in the reserve components as qualifying service for purposes of Post-9/11 Educational Assistance Program, and any pending calendar business.

SR-418

9:45 a.m.

Energy and Natural Resources

To hold hearings to examine the costs and benefits for energy consumers and energy prices associated with the allocation of greenhouse gas emission allowances.

SD-366

10 a.m.

Judiciary

To hold hearings to examine effective strategies for preventing health care fraud.

SD-226

2 p.m.

Judiciary

To hold hearings to examine the nominations of Jane Branstetter Stranch, of Tennessee, to be United States Circuit Judge for the Sixth Circuit, and Benjamin B. Tucker, of New York, to be Deputy Director for State, Local, and Tribal Affairs, Office of National Drug Control Policy.

SD-226

## OCTOBER 22

10 a.m.

Foreign Relations

To hold hearings to examine the North Atlantic Treaty Organization (NATO), focusing on a strategic concept for transatlantic security.

SD-419

Homeland Security and Governmental Affairs

To hold hearings to examine the past, present, and future of policy czars.

SD-342

2:30 p.m.

Intelligence

To hold closed hearings to consider certain intelligence matters.

S-407, Capitol

## OCTOBER 28

2:30 p.m.

Commerce, Science, and Transportation

To hold hearings to examine combating distracted driving, focusing on managing behavioral and technological risks.

SR-253

## NOVEMBER 5

10 a.m.

Veterans' Affairs

To hold hearings to examine Veterans' Affairs and Indian Health Service cooperation.

SR-418

**SENATE—Thursday, October 15, 2009**

The Senate met at 9:30 a.m. and was called to order by the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York.

**PRAYER**

The PRESIDING OFFICER. Today's opening prayer will be offered by Rev. Dr. James L. Merrell, retired Disciples of Christ journalist, serving as pastor of Trinity United Church of Christ, St. Louis, MO.

The guest Chaplain offered the following prayer:

Creator God, source of all things in heaven and on Earth, give wisdom and strength to those who seek. We come today with fresh anticipation. We assemble in this place where history is made, knowing that Your presence has guided those serving here so faithfully in challenging decades past. We give thanks that Your sure and merciful hand continues to uphold the life of our blessed Nation. We are grateful for the light and love You never fail to show to those who accept their calling as Senators. Now we would ask You to continue empowering this body to make decisions in keeping with Your purpose. Amen.

**PLEDGE OF ALLEGIANCE**

The Honorable KIRSTEN E. GILLIBRAND led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

**APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE**

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The bill clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, October 15, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable KIRSTEN E. GILLIBRAND, a Senator from the State of New York, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mrs. GILLIBRAND thereupon assumed the chair as Acting President pro tempore.

**RECOGNITION OF THE MAJORITY LEADER**

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

Mr. REID. Madam President, under my leader time, I yield to Mr. LUGAR, the Senator from Indiana.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Indiana.

**WELCOMING THE GUEST CHAPLAIN**

Mr. LUGAR. Madam President, I thank the distinguished majority leader for the opportunity to thank my friend, Rev. James Merrell, for opening our session with prayer this morning. He has been a very dear friend from high school days onward. We attended Shortridge High School in Indianapolis, IN. He was 2 years older than I and was already well established with the Shortridge Daily Echo, a daily high school newspaper at Shortridge, writing for the Tuesday paper. I was grateful for the opportunity to write weekly for the Thursday paper. We shared experiences with the late Jean Grubb, a distinguished teacher of journalism at our school. Then likewise we were mentored by C.C. Shoemaker, the debate coach at Shortridge High School.

Jim proceeded on to distinguished honors at Indiana University and then on to the Disciples of Christ Church in his ministry. He was most distinguished as the editor for many years of World Call and then established an additional paper at the Church of Christ on his own, The Disciple. He has been a pastor in St. Louis for many years. He has many mutual friends from Indianapolis.

I am delighted he could be a part of our session today. I greet Jim Merrell as a very dear friend, someone I respect as a clergyman, a writer, and debater. I am thankful to the Senate Chaplain for inviting him to be with us.

I thank the majority leader for yielding.

The ACTING PRESIDENT pro tempore. The majority leader.

**SCHEDULE**

Mr. REID. Following leader remarks, there will be a period of morning business for 2 hours. Republicans will control the first hour and the majority will control the second hour. Following morning business, the Senate will resume consideration of the conference

report to accompany H.R. 3183, which is the Energy and Water appropriations bill. We hope to reach agreement that would allow us to yield back postcloture time and vote on the conference report this afternoon. We are also working on an agreement to consider conference reports on the Homeland Security bill and the Defense authorization bill. Senators will be notified when any votes are scheduled.

**RECOGNITION OF THE MINORITY LEADER**

The ACTING PRESIDENT pro tempore. The Republican leader is recognized.

**HEALTH CARE WEEK XIII, DAY III**

Mr. McCONNELL. Madam President, from the very outset of the debate over health care, Americans have made it known that they support reform. But over the course of the past several months, Americans have come to realize that not all reforms are created equal.

And while they still support reform, very few of them support the specific proposals they have seen from Democrats in Washington. Americans want reform. But higher premiums, higher taxes, and cutting Medicare is not reform.

Somewhere along the way, the terms of the debate shifted.

At the outset, nobody expected that reform would lead to higher premiums. In fact, most people thought the whole point was to reduce costs, not raise them.

At the outset of this debate, nobody expected they would be paying higher taxes, particularly in the midst of the worst recession in generations. Yet that is what they are now being told, that middle class Americans will take the brunt of a whole slew of new taxes to pay for a trillion-dollar experiment with our health care system.

And at the outset of this debate, seniors had no idea they would be asked to help foot the bill for this massive experiment in government health care through cuts to Medicare. Yet that is precisely what they're now being told—that Medicare will be cut by half a trillion dollars, whether the 40 million seniors who depend on it like it or not.

Let us focus for a moment on those Medicare cuts.

For months, Americans have been hearing that if they like the health care plans they have, they will be able to keep them. Evidently, that pledge didn't apply to the millions of seniors

currently enrolled in the popular Medicare Advantage program, because the Finance Committee bill explicitly calls for more than \$130 billion in cuts to Medicare Advantage, cuts that will undoubtedly alter the plans that more than 11 million seniors on Medicare Advantage now enjoy.

These cuts might lead to fewer benefits; or they might force seniors off their plans altogether. But under either scenario, seniors would no longer enjoy the plans they have and like. No one expected that at the outset of this debate.

And this is just a fraction of the Medicare cuts that the Finance Committee calls for as the cost of reform. Other cuts include more than \$120 billion in cuts to hospitals that care for seniors. The Kentucky Hospital Association warned earlier this year that these kinds of cuts would affect the services hospitals provide in my State. I am sure if my colleagues talked to doctors and hospitals back home, they would hear the same.

Then there is more than \$40 billion in cuts to home health agencies which give seniors the option of receiving care in their homes.

The bill also takes another \$15 billion in cuts to nursing home which care for seniors who can no longer be cared for at home.

And then there is nearly \$8 billion in cuts to hospice care.

Nobody expected a free lunch when it came to health care reform. But no one expected this either. Americans are doing the cost-benefit analysis, and they don't think half a trillion dollars in cuts to Medicare is an acceptable tradeoff, especially since none of these cuts would do anything to strengthen and protect Medicare.

It would be one thing if Medicare reforms were used to ensure its solvency for future generations. But the proposals we have seen do nothing of the sort. Instead, they use Medicare as a piggy bank to create another government program that will undoubtedly face the same financial stresses that we see in Medicare and in just about every other entitlement program.

The President thought this was a bad idea on the campaign trail. It is still a bad idea today.

Americans know the dangers of holding off on Medicare reform. When Medicare Part A was created in 1965, it was projected to spend out \$9.1 billion on hospital services and related administration in 1990. As it turned out, costs that year were more than seven times the original estimates. Forty-four years after its creation, Medicare is already paying out more money than it is taking in. It is already committed to spend nearly \$40 trillion it doesn't have, and current forecasts indicate that Medicare will face bankruptcy in less than a decade.

It is time to restore this vital program for the sake of our seniors, not

raid it to pay for a massive government-driven experiment that could make our health care worse.

The American people want reform. But higher premiums, higher taxes, and cutting Medicare, that is not reform. That is why they overwhelmingly oppose this proposal, and they shouldn't have to apologize for it. They should expect Congress to listen to them, and keep up the pressure until Congress listens.

I yield the floor.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, the leadership time is reserved.

#### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order, the Senate will proceed to a period of morning business for 2 hours, with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the Republicans controlling the first hour and the majority controlling the final hour.

The Senator from Arizona.

#### HEALTH CARE REFORM

Mr. KYL. Madam President, I wish to take 10 minutes this morning to respond to some comments made by my friend from Illinois, my counterpart, the Democratic whip, comments made in response to Minority Leader MCCONNELL's remarks earlier this week.

Yesterday, Senator DURBIN made a couple of points. One I specifically want to focus on has to do with the national debt. Senator MCCONNELL had talked about the fact that spending by the Democrats, especially with regard to proposals for new health care legislation, was going to increase the national debt. The Senator from Illinois came back and said he agreed the debt is too high, but he said we need to understand that the reason it is too high is the Bush administration—that, in effect, President Obama inherited the debt. That is not exactly accurate. Here are the actual facts regarding the debt today. On Tuesday, 2 days ago, the Treasury Department reported that the deficit this past fiscal year totaled \$1.4 trillion. That is a figure higher than the previous 4 years combined. The previous 4 years were Bush years. Last year was primarily the Obama administration.

The Republican leader said:

Since January 20 of this year, the Federal Government has borrowed \$1.2 trillion or more than \$10,500 for every household in the United States.

What is the significance of January 20? That is the day President Obama was sworn in as President.

Under the President's budget that every Democrat voted for this year, we will have budget shortfalls or deficits averaging \$1 trillion each year for the next 10 years. We can't blame this on the Bush administration if spending was as much as the last 4 years combined and the budget shortfall is going to be \$1 trillion for the next 10 years. It was never \$1 trillion. It wasn't even half that much ever under President Bush.

Let me put this in perspective. The President's budget, supported by every Democrat, will double the national debt in 5 years, increasing it from \$5.8 trillion to \$11.7 trillion. It would almost triple the debt in 10 years. These are estimates from the Congressional Budget Office. By contrast, look at the last 219 years in the history of the country. From 1789 to 2008, Americans amassed a \$5.8 trillion national debt. In other words, in 5 years, this President will have a debt equal to all of the previous Presidents from George Washington all the way through George W. Bush. We cannot claim that is inherited from the past.

This President's deficit spending is not sustainable. By the end of the budget period, the debt will have skyrocketed to 82 percent of the gross domestic product, which everyone agrees, including the President's advisers, is not sustainable. Think about the interest payments. Think about your own credit card interest payments for interest payments on debt. These will soon be the single largest item in the Federal budget.

What if debt interest payments were the single largest item in your own family budget? More than \$800 billion a year in 10 years will be spent on interest alone—\$800 billion a year. That eclipses what we spend on national security. It is four times as much as we spend on education, energy, and transportation combined. These are not abstract numbers. This will have an effect on every American.

In 2019, under the President's plan, each U.S. household's share of the Federal debt will be more than \$130,000. That is more than most of us owe on our mortgages. Notably, since the Democrats have taken over the Congress—we are not talking about "inherited" now—the Congress has increased the debt limit four times, and the administration has made a request for a fifth increase that we anticipate occurring this November.

So should we be worried about the debt? I believe so. Was it a problem inherited from the Bush administration? No. The real problem is what we have done since January 20, since President Obama came into office, since Democrats have been in control of the Congress and the adoption of a budget which is going to triple our debt in just 10 years. And in 5 years we will have more debt than every single President

and Congress in the entire history of the country right up through George W. Bush accumulated—in one budget of this administration.

The other thing I would like to speak to is comments the Senator from Illinois made on Tuesday. Again, he was critical of Senator McConnell, who noted that all of these bills passed in the House and in the Senate were passed on essentially partisan votes, and that Republican ideas had been ignored. My colleague said: Well, in the HELP Committee there were 150 amendments adopted that had been offered by Republicans. The vast majority of those were purely technical corrections, misspellings, typos, and things of that sort. I do not think anybody can contend that Republicans have had a fair voice in the creation of the health reform legislation around here.

Then there was an attack on the messengers. There have been several reports that demonstrate that insurance premiums are going to go up, not down, in this legislation. The attack was not to contend that the figures were wrong but, rather, to attack the messengers—in two cases—to say: Well, the insurance industry actually paid for some of those reports. Does that make the reports wrong? It might raise a question in our minds as to whether they are appropriate, but how about analyzing them to see whether they are wrong.

The majority whip then went on to say that the Congressional Budget Office even disagrees with the Republican leader and predicted that the health care premiums would actually not go up. Specifically, he said: “They predicted if health care reform went through, health care insurance premiums would go up” on American families.

The Senator from Illinois said:

Well, there are those who disagree, people with the Congressional Budget Office and others. . . .

Let me quote the Congressional Budget Office. It does not disagree. The Congressional Budget Office specifically supports what Senator McConnell said:

Premiums in the new insurance exchanges would tend to be higher than the average premiums in the current-law individual market.

CBO was very clear in conversations we have had with them that specifically with regard to American families premiums will be higher.

So the Senator from Kentucky, the Republican leader, was correct and the Democratic whip was incorrect. CBO says premiums will be higher.

This report issued yesterday from Oliver Wyman said premiums will increase in the individual market approximately \$1,500 for single coverage and \$3,300 for family coverage every year.

In my State and some other States it is even worse. For Arizona, Idaho, Kentucky, Virginia, and the District of Columbia, we will have the highest premium increases, where premiums could increase by as much as \$2,619 for individuals and—think about this—\$7,426 for families. Think about that as a premium increase under a bill that is supposed to help us afford our health care, but we get socked with a \$7,000 increase in the health care premium for our families.

Part of this is because of the minimum benefit requirements the bill provides for. They note this will increase costs about 10 percent in the individual market and 3 percent in the small group market. This is under the Baucus bill. Small employers purchasing new policies in this new market will experience premiums that are up to 19 percent higher in year 5 of the reform. Premiums are going up.

Milliman, another independent actuarial firm, found that the average actuarial value of a high deductible plan is 48 percent. In Arizona, incidentally, it is 61 percent. What does this mean? Under the legislation, the lowest insurance plan value is defined by the Federal Government. It has to be 65 percent. That means there will be an increase in health insurance premiums by 35 percent for those with high deductible plans. Individuals enrolled in individual health plans with a lower actuarial value than 65 percent will see their premiums increase by 18 percent. So to the allegation that somehow Republicans are wrong when we criticize the Baucus bill for raising individual and family insurance premiums, the reality is, all the experts agree, including the Congressional Budget Office.

Then there was another question that had to do with medical devices. The reality is, because of taxes imposed in the Baucus bill, there are going to be a lot of increased expenses, including expenses that are going to be passed on to individuals. One of those is in the medical device industry.

Let me quote a letter that some Democratic colleagues of ours—Senators KLOBUCHAR, BAYH, and FRANKEN and then Senator LUGAR on the Republican side sent to Chairman BAUCUS. I am quoting from it:

[T]he provision would harm economic development and health care innovation nationwide.

[W]e are concerned that this tax will stifle technological innovations that can improve patient outcomes and lower health care costs.

It is also a fact, as I said, that these expenses are passed through. There are several studies that demonstrate that—as well as the comments of the Congressional Budget Office and the Joint Tax Committee—all of whom say it is virtually a dollar-for-dollar pass-through. So if we raise taxes on the medical device industry by \$40 billion,

then people are going to be paying \$40 billion more in insurance premiums because the cost of those medical devices will be reflected in the cost to the insurer and, therefore, the cost to the people who are paying the premiums.

There was a concern expressed by my colleague from Illinois that insurance companies will raise their premiums—the point I have been making—but they will do it in a collusive fashion and maybe we should look at the antitrust laws in that regard.

Well, they do not have to collude to raise their premiums. Every one of them has an incentive—as the Congressional Budget Office and these other reports demonstrate—for them to be able to stay in business; they have to be able to raise their premiums to reflect their cost of doing business. They do not have to collude to do that.

Then the Democratic whip made what I would say is a rather odd argument: Republicans have been critical of the concept of government-run insurance. The Democratic whip said: Well, we have government-run insurance—Federal employees and Members of Congress—and we think it is a good program. And he said under the program, there are nine different health plans to choose from, and we pick the best one for us, and the employer pays part of it and we pay part of it, and so on.

That certainly is all true, except for one thing: It is not government run. As he noted, there are nine private plans. This is no different than any other employer. Most large employers, such as the Federal Government, give their employees a choice of two, three, four, maybe sometimes as many as nine or ten plans if they are a big enough employer. The Federal Government is a huge employer, so we can offer nine different plans. But there is no Federal insurance. This is not federally run.

This is the Federal Government as the employer doing the same thing that Honeywell as an employer would do for its employees. It gets three or four insurance companies with different kinds of plans and says to its employees: We will pay for part of the cost. You get to pay for the rest of it. That is not federally run or government-run insurance. So the Democratic whip is simply wrong when he says the plan Members of Congress and Federal employees have is government run. That is simply not true.

I mentioned the medical device issue. I would note Senator KERRY is another one of our colleagues who, like me and like others, has expressed concerns about this issue because of the fact that the taxes paid by the medical device industry will, in fact, be passed on to consumers.

Finally, the Democratic whip asked where the Republican health care plan is. I do not know how many times we have to repeat this, but let me do it

one more time. Time and time again, we have said: Here are things we believe will reduce the cost of health care, will help people get coverage who do not have it now, and will reform the system.

What are some of the ideas we have proposed? By the way, each of these were offered as amendments in the HELP Committee and in the Finance Committee and in the House of Representatives, and Democrats voted against every one of them every time. So it is not as if we do not have ideas and alternatives that would solve specific problems, it is that the Democrats do not like the ideas and, therefore, have rejected them. But I will repeat a couple of them one more time.

Republicans lead with medical malpractice reform, to try to do something about this jackpot justice system where lawyers end up getting most of the money, and doctors and hospitals have to practice defensive medicine to anticipate litigation and to be able to protect themselves against it. There are estimates: as much as 10 cent out of every health care dollar spent is on premiums that doctors have to pay for their liability insurance. There is over \$100 billion a year that can be saved from defensive medicine practices if we are able to have medical malpractice reform. The CBO even scored it—in a very narrow way—at \$54 billion just in savings to the Federal Government.

As my colleague, Senator ENSIGN, pointed out in an exchange with the CBO Director in the Finance Committee, one could anticipate that about twice that much savings would occur if we add in all of the savings to the private sector as well. So we could be talking about well over \$100 billion in savings. This is a huge amount of money. It does not cost the Federal Government a dime. It makes the system more fair, and it is a savings that can be passed on in the form of lower premiums and lower health care costs.

Another idea we have talked about a lot—you have heard it—the sale of insurance across State lines. Let's make the insurance companies have to compete with each other. Sometimes they have little monopolies; there are only two or three companies in a particular State. Well, if we could buy our health insurance like we can buy our casualty insurance, our homes or our car insurance, from any company anywhere in the country, those insurance companies in our States would have to be better competitors. My guess is they would lower our rates and they would give us better benefits. That competition would help us. Again, it does not cost a dime.

How about association health plans, letting small businesses and groups band together to create larger risk pools? Risk pools help define the coverage. If we have a big risk pool, chances are we can get cheaper cov-

erage. If we have a small risk pool, it is hard. That is why small businesses find it so hard. So we talk about larger risk pools through association health plans.

Madam President, I think I have exceeded my 10 minutes. We could go on and on with Republican ideas that have been proposed but get shot down by the Democrats. So it is not a matter of looking for a Republican proposal.

Let me conclude with this: It is true that Republicans will probably not propose a massive trillion-dollar bill as the Democrats have. That is true. We are not going to because we do not do 1,000-page bills in the Congress very well. We do not know the consequences of them. The cost is always enormous.

Republicans have a better approach. We believe we should do this step by step: First, regain the trust of the American people that we can do it right, and that we are listening to them about what they want rather than coming up with some grand scheme that a bunch of staffers and consultants in Washington, DC, came up with.

Let's listen to the American people, hear what it is they want. They do not want a massive, big spending bill that is going to add to our deficit, that is going to raise their taxes and raise their insurance premiums, and, in the end, not insure very many more Americans. That is not reform.

Madam President, I see my colleague from Tennessee is in the Chamber. He has been an eloquent spokesman on this issue, and I am pleased to yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee.

Mr. ALEXANDER. Madam President, I congratulate the Senator from Arizona for identifying so well, among other things, how Republicans would like to approach the health care reform costs. We want to reduce costs for individuals who are buying insurance, and we want to reduce the cost of our government. Rather than a comprehensive 1,000-page, trillion-dollar bill filled with surprises, we prefer to go step by step in the right direction; that is, reducing costs.

The Senator from Arizona has mentioned ways to do that. Whether it is allowing small businesses to pool their resources, which could add millions of people to the rolls of the insured in the country, whether it is reducing junk lawsuits against doctors, whether it is allowing for the buying of insurance across State lines or health insurance exchanges or using health information technology, we can take steps in the right direction to regain the trust of the American people and move toward reducing costs.

The Senator also did a very clear job of pointing out how the Baucus bill may actually increase costs. There has been a lot of squirming around on the other side because it has been sug-

gested that instead of premiums going down—which is the whole point of this exercise, reducing costs—they might go up. I would like to talk about that a little bit today.

Premiums, your premiums—and let's talk about who the "you" is. We have about 170 million Americans who have employer-based insurance, and we have a total of about 250 million Americans—that is most of us—who have some kind of insurance premium that either we pay or is paid for us. I think our goal is to make it easier to afford those premiums; in other words, to reduce costs. But the Baucus bill, in at least four ways, increases costs, and raises premiums.

One way is it reduces the penalty for individuals and families who are required to buy insurance so they might not buy insurance, and if the young and healthy go out of the insurance pool, premiums of everybody who is in the insurance pool go up.

No. 2, the Baucus bill will say—and so do the other bills the Democrats have presented—that my children, who pay lower premiums than I do, will have higher premiums because under the law there can't be as much difference between what an older person pays and what a younger person pays. So for most young Americans who buy insurance—and in this case they will be required to buy insurance or pay a penalty, so their premiums go up.

There is a third reason premiums go up. Premiums will go up because, when you buy insurance, you don't just get to buy any kind of insurance; you buy a government-approved, basic policy. It sounds like a little more Washington takeover to me. When you go out to buy your government-approved, basic policy, what you will find under this bill is that for millions of Americans, it will cost you more. Your premiums will go up. There are a great many Americans who make the sensible decision of buying a high deductible policy. They say: I will pay most of my health care costs up to a point, but I will buy the insurance for the catastrophe in my life that I could never afford. Well, those policies will not be as available.

Then, finally, there are going to be \$955 billion in new taxes. The bill is very careful about not placing them directly on you; it puts them on everybody you buy things from. It puts them on people from whom you buy your medical devices; it puts them on people from whom you buy your health insurance. We all know what will happen when we put taxes on people from whom we buy things. If we put taxes on oil companies, what happens? They pass it on to us at the gas pump. If you put taxes on all these health care services, what happens? Our insurance premiums go up.

So one does not have to be an actuary to figure this out. If the individual mandate penalty is weaker, premiums

go up. If young people can't buy cheaper policies—cheaper than mine if there is a rule—their premiums go up. If we all have to buy government-approved policies, or most of us do, that are richer than what many of us want to buy today, our premiums go up. If we have \$955 billion in new taxes when the bill is fully implemented, most of which are passed along to us, our premiums go up.

So I would ask this question: What is this exercise all about? I thought it was about reducing costs. I thought it was about lowering the cost of our insurance premiums. But it looks as though it will increase the cost of our insurance premiums and, if that is true, we ought to reject this bill for that one reason alone. Of course, we haven't even seen the bill. It is not written. It has to be combined by the majority leader in a dark office somewhere and then we will see it. But that is what we should be looking for.

It is often said that—that is another reason why the Republican idea of a step-by-step approach to reduce costs makes a lot more sense than these big, comprehensive, 1,000-page, \$1 trillion bills. We want to reduce the cost of insurance, but we don't want to pass a bill that raises premiums to do that.

It has been said there is not much bipartisanship.

Madam President, I hope you will please let me know when I have consumed 9 minutes.

The ACTING PRESIDENT pro tempore. The Chair will notify the Senator.

Mr. ALEXANDER. Again, it has been said there is not much bipartisanship in this debate. That is not true. There has been a partisan rejection of a bipartisan bill. Fourteen of us signed up on the bill which Senator WYDEN, a Democrat, and Senator BENNETT, a Republican, offered.

There is another option the various committees had. It didn't increase the debt a penny. It gave people more choices. It didn't have a new government program. It had a lot of good principles in it, but that was rejected. That didn't get the time of day, no more than the Republican step-by-step proposals, but there are other bipartisan efforts other than Wyden-Bennett. There is the Reid amendment offered by the majority leader. He became concerned about how the Baucus bill was going to transfer to the State of Nevada big, new Medicaid costs that might result in new taxes. Every single Governor in the country is concerned about that, Democratic or Republican. So the majority leader fixed the problem for Nevada and three other States. We will call that the Reid amendment and when this bill comes to the floor we are going to introduce a Reid amendment and we are all going to support it because we want it for Texas, we want it for South Dakota, we

want it for New York, we want it for California. If the Federal Government is going to expand Medicaid, the Federal Government needs to pay for the Medicaid expansion and not send it to the States. So that will be a bipartisan step.

Then there is another bipartisan step, and that was from eight Democratic Senators who wrote in and said: We want to be able to read the bill and know what it costs before we start voting on it. All 40 of us agree with that on the Republican side and we believe that is the right thing to do: Put it on the Internet for 72 hours. Senator BUNNING has offered an amendment for that. That now has bipartisan support.

That means, when this bill is finally written—it is not a bill yet—when it comes out of the back rooms, it will at least be on the Internet for 72 hours. Then we will need to have a complete fiscal estimate. That ought to take a couple or 3 weeks. Then we need to come to the floor and debate it because we need to know: Are your premiums going up or down? Are taxes going up or down? What about these Medicare cuts: \$500 billion in Medicare cuts not spent to restore Medicare but for a new government program, I think. My point is, there are a number of questions that need to be answered.

Let me conclude in this way: We have a bipartisan approach. We want to read the bill and know what it costs. Enough of us do that, so I think we will do that, and we will have at least as good a debate as we did on the farm bill. That took a month. The Energy bill took 2 or 3 months. This is one-sixth of the economy, and we will need several weeks to talk. What will we be talking about? We will be talking about—at least I will be talking about—whether this bill is reform; whether it will reduce costs, and whether it will raise your premiums or lower your premiums. If it weakens the individual mandate; if it says young people can't buy inexpensive policies anymore; if it says millions of us have to buy government-approved, richer policies instead of policies with high deductibles; and if it imposes \$955 billion of taxes that will be passed on, raising our premiums; if it raises our premiums instead of lowering our premiums, then why are we doing this?

That is not health care reform. That is not reducing costs. We should instead take the Republican approach and go step by step to reduce costs starting with small business health care plans, reducing junk lawsuits, allowing insurance to be sold across State lines, creating health insurance exchanges, implementing health information technology, and changing tax incentives.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from South Dakota is recognized.

Mr. THUNE. Madam President, I wish to pick up where my colleague from Tennessee left off and talk a little bit about this issue that is before us and before the country right now, the issue of health care reform. I would submit to my colleagues in the Senate that the purpose of reform, as has been stated now for many years as reform has been talked about, is that we have to do something to get health care costs under control. We have to rein in these increasing, double-digit, every year inflationary increases people are seeing in their health care costs. So the purpose of health care reform, as stated, is to lower the costs of health care for people in this country, as well as to extend coverage, provide access to coverage for those who don't normally have it, which, as has been noted in the past, is about 15 percent of the population. About 85 percent of the people in this country do have health care, and their concern is: What are we going to do to drive down the costs of health care? What are we going to do to make my health insurance cost less and my health care coverage cost less?

In that vein, I wish to point out an article from yesterday in the Wall Street Journal, which I would recommend to my colleagues and which was written by former CBO Director Douglas Holtz-Eakin.

Madam President, I ask unanimous consent to have that article printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Oct. 13, 2009]

THE BAUCUS BILL IS A TAX BILL

(By Douglas Holtz-Eakin)

Remember when health-care reform was supposed to make life better for the middle class? That dream began to unravel this past summer when Congress proposed a bill that failed to include any competition-based reforms that would actually bend the curve of health-care costs. It fell apart completely when Democrats began papering over the gaping holes their plan would rip in the federal budget.

As it now stands, the plan proposed by Democrats and the Obama administration would not only fail to reduce the cost burden on middle-class families, it would make that burden significantly worse.

Consider the bill put forward by the Senate Finance Committee. From a budgetary perspective, it is straightforward. The bill creates a new health entitlement program that the Congressional Budget Office (CBO) estimates will grow over the longer term at a rate of 8% annually, which is much faster than the growth rate of the economy or tax revenues. This is the same growth rate as the House bill that Sen. Kent Conrad (D., N.D.) deep-sixed by asking the CBO to tell the truth about its impact on health-care costs.

To avoid the fate of the House bill and achieve a veneer of fiscal sensibility, the Senate did three things: It omitted inconvenient truths, it promised that future Congresses will make tough choices to slow entitlement spending, and it dropped the hammer on the middle class.

One inconvenient truth is the fact that Congress will not allow doctors to suffer a 24% cut in their Medicare reimbursements. Senate Democrats chose to ignore this reality and rely on the promise of a cut to make their bill add up. Taking note of this fact pushes the total cost of the bill well over \$1 trillion and destroys any pretense of budget balance.

It is beyond fantastic to promise that future Congresses, for 10 straight years, will allow planned cuts in reimbursements to hospitals, other providers, and Medicare Advantage (thereby reducing the benefits of 25% of seniors in Medicare). The 1997 Balanced Budget Act pursued this strategy and successive Congresses steadily unwound its provisions. The very fact that this Congress is pursuing an expensive new entitlement belies the notion that members would be willing to cut existing ones.

Most astounding of all is what this Congress is willing to do to struggling middle-class families. The bill would impose nearly \$400 billion in new taxes and fees. Nearly 90% of that burden will be shouldered by those making \$200,000 or less.

It might not appear that way at first, because the dollars are collected via a 40% tax on sales by insurers of "Cadillac" policies, fees on health insurers, drug companies and device manufacturers, and an assortment of odds and ends.

But the economics are clear. These costs will be passed on to consumers by either directly raising insurance premiums, or by fueling higher health-care costs that inevitably lead to higher premiums. Consumers will pay the excise tax on high-cost plans. The Joint Committee on Taxation indicates that 87% of the burden would fall on Americans making less than \$200,000, and more than half on those earning under \$100,000.

Industry fees are even worse because Democrats chose to make these fees non-deductible. This means that insurance companies will have to raise premiums significantly just to break even. American families will bear a burden even greater than the \$130 billion in fees that the bill intends to collect. According to my analysis, premiums will rise by as much as \$200 billion over the next 10 years and 90% will again fall on the middle class.

Senate Democrats are also erecting new barriers to middle-class ascent. A family of four making \$54,000 would pay \$4,800 for health insurance, with the remainder coming from subsidies. If they work harder and raise their income to \$66,000, their cost of insurance rises by \$2,800. In other words, earning another \$12,000 raises their bill by \$2,800—a marginal tax rate of 23%. Double-digit increases in effective tax rates will have detrimental effects on the incentives of millions of Americans.

Why does it make sense to double down on the kinds of entitlements already in crisis, instead of passing medical malpractice reform and allowing greater competition among insurers? Why should middle-class families pay more than \$2,000 on average, by my estimate, in taxes in the process?

Middle-class families have it tough enough. There is little reason to believe that the pain of the current recession, housing downturn, and financial crisis will quickly fade away—especially with the administration planning to triple the national debt over the next decade.

The promise of real reform remains. But the reality of the Democrats' current effort is starkly less benign. It will create a dangerous new entitlement that will be paid for by the middle class and their children.

Mr. THUNE. Madam President, I wish to highlight a few sentences from that article regarding the bill that was reported out of the Finance Committee earlier this week. In that article he says this:

The bill would impose nearly \$400 billion in new taxes and fees. Nearly 90 percent of that burden will be shouldered by those making \$200,000 or less. It might not appear that way at first because the dollars are collected via a 40-percent tax on sales by insurers of "Cadillac" policies, fees on health insurers, drug companies, and device manufacturers. But the economics are clear. These costs will be passed on to consumers by either directly raising insurance premiums or by fueling higher health care costs that inevitably lead to higher premiums.

Mr. MCCAIN. Madam President, will the Senator yield for a question?

Mr. THUNE. I am happy to yield to my colleague from Arizona.

Mr. MCCAIN. It is my understanding of the proposal that this reform will begin to be implemented in what year?

Mr. THUNE. I believe the answer to that question, I might state through the Chair, is 2013, 2014.

Mr. MCCAIN. 2013, 2014. But when do the taxes that would supposedly implement this proposal kick in?

Mr. THUNE. The taxes, I would say to my colleague, again through the Chair, kick in immediately. You get the revenues starting to come in right away. So the revenues are front-loaded, the costs of the program are back-loaded, so it understates and distorts what this new proposal will cost.

Mr. MCCAIN. So we have 10 years' worth of tax increases to pay for 5½ years of the implementation of this so-called reform, and then what are the implications in the future?

Mr. THUNE. Well, that is clearly the case. If you look at the 10-year cost of this, because the revenues—the tax increases—are front-loaded, and we get to see basically 10 years of tax increases and only about 5½ years of actual implementation of the program, what you have to do to get a full picture of what the cost of this program will be is take the fully implemented cost. When you take the fully implemented cost, I would say to my colleague from Arizona, you are looking not at the \$829 billion that was reported by the CBO; because of this distortion and this creation of a revenue source before the actual costs kick in, you are looking at a \$1.8 trillion new entitlement program fully implemented over a 10-year period.

Mr. MCCAIN. I have one more question for my colleague. Is there any provision in the legislation, as you have seen it, that has any approach whatsoever to medical malpractice reform or medical liability reform which, in the view of many experts, could be as much as \$100 billion to \$200 billion a year?

Mr. THUNE. There is not.

Mr. MCCAIN. Isn't that incredible?

Mr. THUNE. I think it is incredible because it is now validated by the Con-

gressional Budget Office that if you were to incorporate that, you would drive down the cost of health care in this country by literally billions and billions of dollars. Yet there is no mention or reference to medical malpractice reform in this bill.

Mr. MCCAIN. Isn't it true, as much as we respect the Congressional Budget Office and their figures as to the amount of money that can be saved by implementing meaningful medical malpractice reform, such as is the case in the State of Texas, that it doesn't reduce the costs as far as litigation is concerned? Not only that, but I don't believe it is calculated using the way they calculate costs: The incredible increase in health care costs associated with the practice of defensive medicine, with doctors prescribing unneeded, unnecessary and, many times, because of the nature of the procedure, unwanted additional tests and procedures because that physician is practicing what we call defensive medicine, which is the fear of finding themselves in court; and not only because of the increasing premiums for medical malpractice but also obviously the time, the effort, the energy, including damage to reputation that could accrue from a lawsuit brought against that physician.

The ACTING PRESIDENT pro tempore. The Senator from South Dakota is recognized.

Mr. THUNE. Madam President, my understanding is that the Congressional Budget Office does not only contemplate the cost of litigation, it does not take into consideration the cost of the practice of defensive medicine, which, as the Senator from Arizona noted, is an enormous additional cost, and many independent estimates suggest \$100 billion to \$200 billion annually. The CBO study only took into consideration government health care, so it didn't include the private health care delivery in this country. But many physicians, as the Senator noted, practice defensive medicine because they are worried about being sued. All these duplicative tests and additional practices that are undertaken by doctors in this country to avoid the lawsuit potential or the risk they incur when they practice medicine adds significantly—as I said, as independent estimates suggest, to the tune of \$100 billion to \$200 billion annually.

Mr. MCCAIN. Madam President, isn't it absolutely incredible that in the name of reducing health care costs, and with the burden that rising health care costs impose on every American family, that there should not be one provision—one meaningful provision—for medical liability reform, which is, in the judgment of any objective observer—except maybe the trial lawyers—something that must be implemented if you are going to have a serious effort at reducing the cost of health care in America?

Mr. THUNE. Absolutely. I think that in a moment of honesty Howard Dean recently said that the reason medical malpractice reform is not included in this legislation is because they didn't want to take on the trial lawyers. It seems to me that you cannot have a meaningful discussion about lowering health care costs in this country absent the inclusion of this issue—an important issue—of the practice of defensive medicine, which is tied directly to medical malpractice lawsuits in this country, and the desperate need we have for reform in that area.

Mr. MCCAIN. I thank my colleague.

Mr. THUNE. Madam President, as the Senator from Arizona noted, an important component of the debate is the cost curve, which leads to higher premiums and health care costs both in government-held care—Medicare and Medicaid—and in private health care delivery.

Despite all of the promises the President has made to the contrary, there isn't anything in these bills to date, according to the CBO, that drives the cost curve down. In fact, what we are looking at is higher health care costs attributable to many of the provisions in these bills. It is interesting to know, because during the hearing, the Director of CBO, Doug Elmendorf—and earlier I mentioned Douglas Holtz-Eakin, a former CBO Director, but the current Director has repeatedly admitted that he did not have the opportunity to find answers to some of the important questions in this debate. CBO told us increased taxes will be passed on in the form of higher premiums, general dollar for dollar. When he was asked if CBO calculated how much insurance premiums will rise for Americans who already have coverage, he said no. When he was asked whether they calculated whether total spending on health care would go up or down, he said no. When he was asked if they calculated how the bill would affect access to health care, he said no. Because of the way the bill has so many holes and no real legislative language, and the way it has been rushed through, there has simply not been time, evidently, for CBO to look at this and to know for certain what some of the impact will be. I have to ask, would Americans buy a health care plan without knowing how much it costs? Does anybody in this country look at buying a plan without knowing its cost? That is exactly what the Democrats are doing with this bill—buying a national health care plan without any idea about how much it is going to cost the Nation or individual taxpayers.

We do know that the plan is going to bring us higher taxes, higher premiums, and cuts in Medicare. I think that is a fair assessment. Two studies last week—independent analyses—verified that premiums are going to go up. I will point out that one of those

studies which came out yesterday—the Oliver Wyman study—said premiums will increase in the individual market approximately \$1,500 for single coverage and \$3,300 for family coverage annually. That is exclusive of inflation. So the annual inflationary increases we are seeing in medical expenses are not included in that estimate, but it is \$1,500 for an individual and \$3,300 for a family annually, the increase in cost for coverage.

Small employers purchasing new policies in the reform market are going to experience premium increases that are up to 19 percent higher. This is in year 5 of reform. The other study—the PricewaterhouseCoopers study—which came out a couple days ago, also had some statistics that were revealing. It illustrated, too, that these premium costs that are going to be borne by the American people will go up significantly. So you have two independent analyses that have been done in the last week, talking about how much premiums are going to go up. We know now, with the Joint Tax Committee's assessment and CBO's assessment, that taxes will go up. We have said how the impact of that is going to fall. If you look at the biggest impact of the tax increases, families earning 150 percent of the Federal poverty line, \$32,200, will face an effective marginal tax rate of 59 percent. And 89 percent, according to the CBO, of the tax increases will fall on earners making less than \$200,000 a year. Fifty percent would fall on those making less than \$100,000 a year.

You have average Americans out there trying to cope with the cost of health care, along with the cost of everything else, who are going to be hit with higher taxes and premiums, and our senior population will be hit with higher Medicare premiums because Medicare will be cut, and it is going to impact the Medicare Advantage Program, and it will impact providers across this country.

What we know for certain about this bill is that it is going to spend \$1.8 trillion, when fully implemented over a 10-year timeframe; it is going to leave 25 million people without coverage; it is going to raise premiums for people in this country; it is going to raise taxes on people in this country, particularly those who make under \$100,000 a year—half of the tax burden will fall on them, according to the CBO and the Joint Committee on Taxation. That is what we are looking at with this legislation.

As much as is talked about in health care reform and covering more people and lowering costs, at the end of the day we are looking at higher premiums, higher taxes, and cuts in Medicare. That is the bottom line. That is why we, as Republicans, are looking for real solutions that bend the cost curve down. As the Senator from Arizona noted, one of those solutions certainly would be throwing into this mix the issue of medical malpractice reform.

I want to point out a couple of statistics before I conclude about how this would impact people in South Dakota, according to one of the studies. In the South Dakota market, the individual market, if you are buying in that market, you are going to see your premiums go up by 47 percent. If you are a family, it will go up by 50 percent; and if you are in the small group market, you will see a 14-percent increase in premiums; and if you are an individual and for a family, it is 15 percent.

My State of South Dakota isn't going to fare very well when it comes to the costs associated with this plan. I argue that most Americans, as they evaluate the personal impacts of this health care reform proposal, are going to give it a thumbs down and, hopefully, we can go back to the drawing board and address this in the way we should have in the first place, and that is step by step, not rushing to jam through this massive expansion, this \$1.8 trillion program, with higher taxes, higher premiums, and cuts in Medicare.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Arizona is recognized.

Mr. MCCAIN. Madam President, I congratulate the Senator from South Dakota on a very important statement. I see the Senator from New Hampshire and others on the floor waiting to speak on this issue. I will be brief.

As the majority leader begins discussions behind closed doors to create the Senate bill that he is going to bring to the floor, I think it is important for the American people to understand the impact these policies will have on the cost of health insurance premiums, tax rates, and our economy for generations to come.

I think we should understand the smoke and mirrors used to make the Democrat proposal appear to improve the budget over the next 10 years. The following taxes start next year. If you have insurance, \$201 billion is raised in excise taxes on health plans. If you don't buy a plan, or you buy one that the government doesn't think is good enough, the concept proposal raises \$4 billion in fines on the uninsured. If you are an employer who today cannot afford to provide health insurance to your employees, which is the case with small business, the ones hurting the most—not Goldman Sachs or JPMorgan but the small businesses—the concept proposal raises \$23 billion in employer penalties and contributions. If you use medical devices, such as hearing aids or artificial hearts, the concept proposal raises taxes by \$38 billion on medical device manufacturers. Who will pay for that in the long run? The user. If you take prescription drugs, the concept proposal raises \$22 billion in new taxes on medicines.

The Congressional Budget Office estimates that Americans will face higher

health insurance premiums, while waiting 4 years for the reform proposal to begin. This gimmickry is incredible. The President and Senate Democrats claim the proposal is under \$1 trillion and slightly reduces the deficit over 10 years. That is a joke—ten years of taxes but only 5½ years of implementation. To get the true 10-year cost of implementation, you should look at the 10 years beginning in 2013. Using the CBO numbers, we are told that the proposal spends \$1.8 trillion. That is the real cost of this proposal.

You might be justified in wondering what Americans get for that \$1.8 trillion. The answer is more government, with 13 million more people placed into the failed Medicaid Program. Medicaid is a program that is busting the Federal budget and State budgets all over America. Medicaid is a program that fails in patients having access to physicians. Forty percent of doctors will not see Medicaid patients. Medicaid is a program that fails in health outcomes for low-income Americans. We are not going to give low-income Americans more options for better health coverage; we are just giving them the status quo.

It is bad enough that the proposal massively increases government regulation of health care and insurance, massively expands the government-sponsored Medicaid Program—which the States cannot afford to pay for, as we all know—massively cuts Medicare and drives up insurance premiums in the process. But the proposal ignores what Americans want: less government, less taxes, more freedom, and more choices.

The concept paper in the Senate Finance Committee—it is not even a bill—slams Americans with an entitlement program that will grow faster, according to the CBO, than the economy, while at the same time dramatically increasing the tax burden on all Americans.

Let's restate the obvious about the Senate Finance Committee concept proposal. As the majority leader conducts his closed-door process to create the Senate bill he will bring to the floor, it is important for the American people to understand what impact these policies will have on the cost of health insurance premiums, on tax rates, and on our economy for generations to come.

I have seen recent information that the Medicare Part D Program, which is touted as a success—which I voted against because it wasn't paid for—is now having—guess what—increased costs. The problem is that we are not addressing the fundamental problems that cause a dramatic increase in health care costs in America. In fact, we are continuing a process that we have done, which is new entitlement programs, without ways to pay for them.

I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from New Hampshire is recognized.

Mr. GREGG. Madam President, I congratulate the Senator from Arizona and the Senator from South Dakota for framing this debate on health care with very specific and excellent points.

The simple fact is that the cost of this program is grossly understated, but the cost is extraordinary, even when understated—almost a trillion dollars. The real cost is \$1.8 trillion, when it is fully phased in. In fact, if you include in it the doctor fix, which was taken off the table so the cost would look better, which is \$200 billion-plus, the cost of this proposal, when fully phased in, is over \$2 trillion over a 10-year period.

And the offsets that are going to be used to pay for this? Their plan is basically to cut Medicare Advantage, eliminate that program for seniors—a lot of seniors like Medicare Advantage—and try to save about \$400 billion doing that and take that money and create a brand new entitlement to benefit people who do not have insurance or people who do not have enough insurance, as defined by this bill. In addition, they will raise taxes and raise fees. Most of the fees will be coming in from the hospital associations, the doctors, the drug companies, and the insurers, all of which will be passed through, of course, to consumers in the form of higher premiums or higher costs. Again, it is going to be the consumers of America, Middle America, the people who use health care in this country, who are going to pay the cost.

It is a huge gap even between the stated amount that is going to be raised in this bill, and the real expenditure in this bill. And that gap goes directly onto the debt of our children—the debt of this country, which has to be paid for by our children.

This is in the context of an administration which has exploded the size of government in the first 10 months of its term—exploded the size of government. They have proposed a budget which over the next 10 years will run on the average \$1 trillion of deficit every year, which will take the Federal debt from about 41 percent of gross domestic product up to 80 percent of gross domestic product, which will take Federal spending from about 20 percent of gross domestic product up to about 25 percent of gross domestic product.

What do all those numbers mean? They mean quite simply that our children are going to be passed a country which will have so much debt and such a large government that it simply cannot afford it; that the quality of life of our children, as they move into their earning years, is going to be fundamentally undermined—their ability to buy a home, their ability to send their kids

to college, their ability to just live the quality of lifestyle our generation has had is going to be fundamentally harmed by this administration's decisions to spend today as if there is no tomorrow or to spend today and pass the bills on to tomorrow. It is a true affront to the traditions of this country.

Let me quote from Thomas Jefferson because Thomas Jefferson is deemed to be the founder of the Democratic Party. Thomas Jefferson got a lot of things right, of course. He wrote the Declaration of Independence, the most brilliant document in the history of mankind stating freedoms to which we subscribe. He played a major role in defining our Nation and what makes our Nation special.

He said this about debt. This was a letter to John Taylor in 1816:

I sincerely believe . . . that the principle of spending money to be paid by posterity under the name of funding is but swindling futurity on a large scale.

That is a pretty strong word, “swindling,” used by the founder of the Democratic Party relative to the use of debt.

Then he wrote to William Plumer, who, coincidentally, was the Governor of New Hampshire, in a letter. He said:

I, however, place economy among the first and most important republican virtues, and public debt as the greatest of the dangers to be feared.

The proposals which are coming out of this administration do swindle our children's future, just as Thomas Jefferson said. To run debts of this size, to run deficits of this size, to put in place a program that is going to cost almost \$2 trillion when it is fully implemented is basically to guarantee that this Nation is going to have such a burden of government that we will be unable to sustain our government in the form it is today.

What does that lead to when you run up those types of deficits and debt, when you run up that type of spending? It leads to two options: Our children are either going to inherit a nation where we have to devalue the dollar, and basically create a situation where everybody's savings and everybody's net worth is dramatically impacted by lessening the value of that through inflation or, alternatively, you are going to have to dramatically increase the tax burden of this country to a point where you will undermine the fundamental productivity of our Nation and put job creation and the capacity to have prosperity through job creation at risk because the tax burden will become so high.

In fact, it was pointed out, studies have shown that the tax burden will go up to 59 percent of income under some of the proposals that are pending just on this bill, to say nothing of when you start totaling up all the other bills, all the spending that will occur. Even

today, the administration announced they want to spend \$14.5 billion more without offsetting it in any way to fund an interest group they feel needs to be funded.

This raises the fundamental question: Why do you proceed in this way? Why would you create a program that is going to have such a devastating impact on the economic future of our Nation? You do it because it gets you votes in the next election, I guess. I guess that is why you do it.

Certainly there are ways to reform health care, to improve health care that do not require this massive expansion in the size of government. There are a lot of ways to do that. Let me give a few.

For example, we could focus on the chronic diseases which are the drivers of health care costs in this country, diseases such as obesity and Alzheimer's. We could try to get those under control. That would help control costs.

We could give employers the incentive through monetary payments—actual cash—to say to their employees: Listen, if you go out and live a healthy lifestyle, we will give a reward in cash. If you stop smoking, if you get yourself into a workout situation where you drop weight, if you take tests such as having a colonoscopy, if you have a mammogram, we are going to reward you with money. That is a step which would significantly improve health care delivery and costs in this country.

We can say to the delivery systems: Listen, rather than doing a lot of quantity for the purposes of generating revenue, why don't you do a little quality with value tied to it? There are health care delivery systems in this country today which accomplish that. Rochester, MN; Salt Lake City, UT; Pittsburgh, PA—there are a whole series of these centers which have shown you can deliver better quality at lower costs if you are intelligent about it and reduce overutilization.

We could, as was discussed at length by the Senator from South Dakota and the Senator from Arizona, do something about abusive lawsuits. The simple fact is, abusive lawsuits are driving huge costs in the health care system. Thirty percent of health care is deemed to be defensive medicine. There is no reason doctors should have to give tests they don't believe they have to give, but they have to give in order to defend themselves from lawsuits. Those are foolish and expensive. Madam President, \$54 billion is the cost estimate from CBO of savings just from that one item, and that is an understated cost because it doesn't, as was pointed out, calculate the defensive medicine side.

Those are a few good ideas, but there are a lot more good ideas. It can be done on a step-by-step approach which gives us better health care without this

attempt to basically take over the entire system.

Let's not play any more games around here. What is this about? This is about creating a system, putting in place an alleged comprehensive reform, the purpose of which is to drive private activity out of the market because there are a lot of people on the other side of the aisle who believe profit is bad and the marketplace does not work in health care, and that we should move towards a single-payer system. That is what this is about. Raise premiums to a level where employers will be forced to drop their insurance and push people into what is called this exchange. There will be a public plan in the exchange when it comes from the conference committee, should it get that far—hopefully it will not but if it does—and then basically push everybody into the public plan and create an atmosphere where the playing field is so tilted against any sort of private activity that people who have their insurance today will lose it and you will have to choose a public plan, for all intents and purposes. That will be your choice 4 or 5 years from now.

The effect of that, of course, of moving toward a single-payer system, which is the stated goal of many of my colleagues on the other side and a majority of the people in the House of Representatives, the effect of moving to a single-payer system or a nationalized system is very destructive to our health care generally. Primarily, it means people will end up with delays. There will be price controls put in place relative to certain types of medicines you can receive. Innovation will be stifled because people will not be able to invest money and get a reasonable return, especially in the area of development of new pharmaceuticals and new biologics, which are so critical to the health care system today. We will have people standing in line. We will have people basically being subject to delays. We will have people, I absolutely guarantee you, finding their health care rationed depending on their age, as occurs in England under its system. And we will simply see a significant lessening of innovation and, most important, people will not have choices. You will basically be forced off the private system into a public system.

This is the ultimate goal here—not stated but clearly intended of what is going to happen if you move toward a system as has been outlined at least in the Kennedy-Dodd bill, as it came out of the HELP Committee and is now somewhere in this building—we don't know where—being merged into a new piece of legislation with the Finance Committee bill. So when Thomas Jefferson makes this point that you should not swindle the next generation by radically expanding your debt, we should live by that because it is a pret-

ty good point. When a bill is brought forward on this floor which alleges to be fiscally responsible and it claims it meets the obligation, it meets its costs, but it understates the costs by almost \$1.2 trillion and overstates how much it is going to generate in revenues and you don't get these Medicare cuts unless—I have never seen Medicare reductions occur in this Congress. Then basically you are loading up the debt of our children. It is that simple. That is the inevitable response of this piece of legislation, that the debt will expand.

As Thomas Jefferson said, he believed in “the principle of spending money to be paid by posterity under the name of funding is but swindling futurity on a large scale.” And this may be the largest scale of swindling that has ever occurred in America's history.

I yield the floor.

The PRESIDING OFFICER (Mr. KIRK). The Senator's time has expired. The Senator from Colorado.

#### HEALTH CARE REFORM

Mr. BENNET. Mr. President, I am pleased to be here today, as we were last week and the week before that, with other freshman colleagues to talk about the need for health care reform in this Congress. Today, what we want to focus on is the effect of health care reform on small business.

When I am in Colorado, what we always start with is a conversation about what problem is it we are trying to solve. When it comes to small businesses, they are the biggest losers in the current health care system we have today and, by extension, the people who work for small businesses.

Today in my State, small business pays 18 percent more to cover their employees than large business does. Some people say to me: Michael, that is obviously because they have a smaller pool of people; it is harder to spread the risk. And that is true, but from a business perspective, that is ridiculous. From a small business perspective, if you are going to spend 18 percent more on something, you ought to expect to get 18 percent more productivity out of your company or you ought to at least expect to get 18 percent better coverage for your employees. Of course, every small business owner in this country knows the reverse is true—coverage is worse, deductibles are higher. It is just an illustration of how challenging the status quo is for small businesses that, after all, employ most of the people in our economy and are going to be responsible for carrying us out of this recession.

One can see on this chart the extraordinary effect this has had on my State. Even before this current recession, we saw a huge drop in the number of people who were getting coverage at

work and many fewer small businesses. Now we are almost at 40 percent—I guarantee that number is well below 40 percent today after this recession has occurred. Even fewer smaller businesses are able to offer their employees coverage, which is heartbreaking for small business owners all over my State and all over the other States represented here today. Many of these businesses are family-owned businesses. The businesses feel like a family. People feel responsibility and care for one another and take responsibility for, among other things, health care. But they are not able to do it anymore. They are making very tough choices as a result.

By the way, one of the choices they are making is to not raise wages. Median family income in Colorado went down by \$800 over the last 10 years, and in the country it went down over \$300 in the same period, while in my State health insurance premiums went up by 90 percent. Small businesspeople say to me that those things are directly related to each other. In other words, people have to make a choice between covering their employees and paying them a living wage, and more often than not they are having to choose to compress wages just because of the skyrocketing costs of health insurance.

Health care reform done right is going to make an enormous difference for small businesses and for the people employed by small businesses. It will lower premiums and the cost of health insurance coverage; provide tax credits for small businesses that provide health insurance—that do the right thing; exempt most small businesses from employer responsibility requirements; subsidize health insurance for employees in small businesses that do not provide health insurance; increase entrepreneurship to expand the pool of workers available to small businesses; and eliminate job lock. Job lock means having to stay in a job because you are so scared of losing your insurance.

The estimate is that the administrative costs for small businesses, when it comes to health care insurance, will drop by over 50 percent. Most small businesspeople I know, who are skeptical sometimes of the reform we are talking about, will tell me this administrative burden is extraordinary for them today. Today, it is a paper-and-pencil system of trying to root out and sort out the health insurance market for their employees. Tomorrow, what we are going to have is an exchange where people can easily compare prices, compare coverage, and get the best deal for their employees, not to mention the fact they are going to be able to pool their purchasing power and drive down cost as a result.

The estimates are, small business will save billions of dollars over the course of this reform—\$432 billion by 2013, \$855 billion just 9 years from now.

That is money that can be put into wages. In fact, the estimates are that of those savings, what we will see is small businesses being able to increase wages for their employees by almost \$300 billion by the end of this period of time.

So today we are here to talk about why reform is important for small business. We are at a very perilous moment in our economy for small businesses that do not have access to the credit they need to help get us where we need to be. They are facing an incredible credit crunch out there, which is making it hard for them to hire again, which is driving up our unemployment rate. Over the medium and long term, what is critical to the success of our small businesses is that we reform our health care system, we make it more transparent, we make it more efficient, we make coverage more available to small businesses and to the millions of Americans who are employed by small businesses in their communities.

We are going to go through a series of colleagues today from the freshman class, as we did last week and the week before, and I will now yield the floor for the Senator from Alaska to give his perspective on why, as a former small businessperson himself, health care reform is so critical to keeping our small businesses competitive.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. BEGICH. Mr. President, I thank the Senator from Colorado for his presentation, especially on small businesses and the impact health care reform will have on them. The Senator from Colorado has done a great lay of the land on the impact to small business, and I wish to step it up and talk about what I heard as I sat here and listened to several of my colleagues on the other side, the Republicans, talking about what is going to happen if we don't do something or if we do health care reform. In that regard, I wish to talk about at least one myth that I hear over and over from the other side that will impact not only small business but impact everybody.

I am pleased to join my fellow colleagues and talk about the importance of health insurance reform in general, but the myth I wish to talk about today, which I have heard stated over and over, involves scare tactics and, in particular, a word which I think belongs in the soup lines of the Great Depression—"rationing." Opponents of health insurance reform have resurrected the word to suggest that Americans will get less care when reform legislation passes.

Is there anything more cynical than telling Americans their health care will be rationed because of reform; that they will lose or get less care when Congress and the President finally take action? Defenders of the status quo

ought to be embarrassed. They know the opposite is true—that more Americans will have access to more health care when reforms are finally adopted.

Rationing is not some roadblock waiting down the road for the vast majority of Americans, it is what is happening right now. Let's use my State as an example—a State where 52 percent of the folks employed are from small businesses. When I came into the Senate at the start of this year, the Census Bureau said 123,000 Alaskans were uninsured. But new data came out last month—just a few months after the earlier statistic—and that number is up to 133,000. In other words, 10,000 more Alaskans have been rationed out of their coverage. Insurance companies no longer cover them.

Unable to pay the skyrocketing insurance premiums, or maybe their employers can no longer afford it—as laid out so well by the Senator from Colorado—people and businesses are struggling to make sure they can afford their insurance premiums for their employees or they are rationed out of the system because they have switched jobs. Then, when they apply for new insurance, they are disqualified because of a preexisting condition or perhaps the annual cap on how much their insurance company will pay is so low people get sick and hit their limit early. From that point on, they can't afford to see a doctor for the rest of the year or ensure their coverage or their quality of care is maintained. This is another form of rationing, and it is real.

By one estimate, 14,000 Americans lose their health insurance every day. These are friends and neighbors and loved ones and it is inexcusable. Maybe the reasoning for rationing is even more outrageous—the cases where insurance companies revoke coverage by a process of rescission. Unfortunately, that is very real. A report by the House Ways and Means Committee says insurance companies saved themselves \$300 million over 5 years through this practice of rescission.

So, again, let's put the word "rationing" in proper context. It is the status quo, and the insurance industry is making lots of money because of it.

Let's talk about what will change when we pass health insurance reform. As you can see on the chart, reform will easily take care of many of the issues Americans face: Tell insurance companies they can no longer deny coverage because of preexisting conditions; stop them from setting low annual or lifetime caps and refusing to pay the care after that; reform will offer Americans more choices by creating health insurance exchanges—as so well described by the Senator from Colorado. As I like to call it, it is health insurance Expedia. As we do with travel, we can do with health insurance. It will require insurance companies and Medicare to pay for more

preventive care so people can have regular checkups and screenings. This means we can recognize and even prevent oncoming chronic illness. Of course, this is better for the patient, and it saves us money.

Let me say it again: The scare tactic of so-called health care rationing is just that, a tactic trotted out by those who want to kill reform. The truth is, health insurance reform will give Americans more—more people have more access to more health care.

Mr. President, I yield the floor.

Mr. BENNET. Mr. President, I thank the Senator from Alaska, and I think he raises such an important point because so much of the debate has been about dividing one set of Americans from another set of Americans. Health care reform is something that needs to be of concern to 300 million Americans—if you are concerned about the double-digit increases every year of your premiums; if you are concerned about spending almost 20 percent of our GDP on health care, when every other industrialized country in the world is spending less than half that; concerned, as the other side is and this side is, with the fiscal condition of our government, when we know the biggest drivers of our medium-term deficits are rising Medicare and Medicaid costs, and the biggest drivers of those are health care costs. We are all in this together.

It is a great pleasure for me to turn now to the Senator from Oregon, who will talk about the fact that this isn't just about trying to cover one small group of Americans, it is about all 300 million Americans in this country.

The PRESIDING OFFICER. The Senator from Oregon.

Mr. MERKLEY. Mr. President, I am delighted to join my colleagues from Colorado and Alaska to tackle some of the myths being printed about health care reform. It is startling to stand on the floor and hear increasingly shrill presentations from those who wish to defend the status quo broken system of health care in America. I wonder to myself, do they not hear what I hear from my constituents about the challenges they encounter each and every day if they do not have insurance; who are worried about getting sick or, if they have insurance, are worried about losing that insurance; worried about the problems and challenges faced with utilizing that insurance?

I rise to talk about one of the most prevalent myths—that health care reform is only about expanding access to those who don't have health insurance. Because here is the truth: Health care reform is about improving health care for those who already have insurance. Those with insurance in the United States live in a precarious state. Their rates often go up by double-digit increases every year, so affordability is hanging by a thread. Those who have

insurance through their jobs can change jobs and lose that coverage. They could get dropped from their insurance because they become sick or injured or they could find that their insurance has lifetime or annual limits that block them from obtaining the medical care they need if they do become injured or ill. We want to make health care insurance more stable and secure for those who have it, and that is what health care reform will do.

First, health care reform will make insurance portable. If you lose your job, you often lose your coverage. That is a terrible double whammy for American families. Health care reform will make sure your coverage goes with you if you lose your job or if you choose to take on a new career.

Second, health care reform will end dumping—the terrible practice of insurance companies canceling policies when those citizens become seriously ill. That is wrong. What kind of health care system is it when you pay insurance premiums for 15 years and then your child or your spouse or perhaps yourself becomes seriously ill and you get a letter from your insurance company saying they are canceling your insurance? That is not health insurance. That is a scam. Health care reform will end that scam in America.

Finally, health care reform will get rid of annual or lifetime limits that drive people into bankruptcy, even when they have coverage. Here is an example from my home State of Oregon.

Alaya Wyndham-Price lives in Oswego. She had insurance through her previous job as an event planner and is currently on COBRA. Six months ago, Alaya developed a tumor the size of a golf ball just below her brain, and she has had numerous tests performed by a neurologist to determine the best course of treatment. Her insurance caps treatment costs at \$20,000 annually, and she has already approached \$30,000 of expenses with the diagnostic tests over the last few months.

Through COBRA, Alaya's insurance will renew in January, but the surgery to remove her tumor will cost about \$50,000—or \$30,000 over the amount her insurance will pay in 2010. So she is trying to work as much as possible—doing freelance writing, taking on projects—but on many days is too ill to do much of anything. She is scheduled to see a doctor again soon to have an expensive MRI test in November, but with every single medical visit she goes deeper into debt.

This is not right, but it is common. More than half of bankruptcies in America are due to medical bills and in more than half of those situations where medical bills drive people into bankruptcy, the individuals had health insurance. No American should be driven into bankruptcy because he or she becomes sick or injured. Health care

reform will end arbitrary annual and lifetime limits to make sure Americans get the care they need when they need it, not having to delay care to the next year in order to benefit from a new annual ceiling.

In conclusion: The myth is that health care reform is simply about extending coverage. The truth is this: Reform will mean better, fairer, and more affordable coverage for the millions of Americans who already have insurance.

Mr. President, I yield the floor.

Mr. BENNET. Mr. President, I wish to thank the Senator from Oregon for pointing out the incredible lack of stability that exists in the system today. The bankruptcy numbers are unbelievable. In my State, I think roughly 62 percent of all bankruptcies are caused by health care issues. Of those health-care-related bankruptcies, 78 percent, nearly 80 percent of them, are bankruptcies involving people who actually were covered by insurance. We are not getting done the job that needs to get done. That is why we are here today to talk about these issues.

I am going to call on the Senator from Virginia to talk a little bit about how, under the current system, we pay for the uninsured in our country today, but we do it in the most inefficient way possible. Just one fact from my State: We have a public hospital in Denver called Denver Health. It is an incredibly well-run hospital, run by a person named Dr. Patty Gabow. She told me they did a study a couple of years ago that showed they spent, in 1 year, \$180 million for uncompensated care for people employed by small businesses who could not get insurance at work.

I will yield for the Senator from Virginia.

The PRESIDING OFFICER. The Senator from Virginia is recognized.

Mr. WARNER. Mr. President, first of all, I thank my colleague, the Senator from Colorado, for organizing this effort today and leading freshmen Senators this week as we, once again, come down to the floor, as some of the folks who are newest to the Senate, most recently hired in most cases, to talk about the need for health care reform. I particularly thank my colleague, the Senator from Colorado, for raising the very important issue of the cost of health care to small businesses.

The remarkable thing about small businesses is they are basically the only people who pay retail for their health care costs in America today. Those who have Medicare, those who have Medicaid, large employers—they all can leverage their purchasing power. But small businesses are the folks who take it on the chin, and I am grateful for my colleague's comments today, describing how health care reform can benefit small businesses.

My colleagues, the Senator from Alaska and the Senator from Oregon, have also pointed out some other

myths, as the Senator from Colorado indicated. The one I am going to take on today, because we hear a lot from our friends on the other side of the aisle about the problems with reform, and sometimes they do actually dispel some of these myths—but one of the myths I have dealt with for 18 years, as somebody who founded the Virginia Health Care Foundation in the early 1990s, is, how do we deal with the uninsured? Yes, part of our health care reform is about extending coverage to the uninsured. There will be some additional cost to do that, but I think it is very important to recognize that under our current system, right now we pay for the uninsured. We pay for the uninsured through uncompensated care, as my colleague from Colorado mentioned. We pay for the uninsured in higher health insurance premiums for all of us who buy private insurance. We pay for the uninsured, candidly, in higher costs to our Medicare and Medicaid system.

Our uninsured end up on the emergency room doorsteps, oftentimes receiving care in the most inefficient way possible and oftentimes without good quality care.

We have seen, on average, 8 percent of families' 2009 health care premiums—about \$1,000 a year for all of us who purchase private health insurance—we pay in effect a \$1,000-a-year tax to compensate and pay for the cost of the uninsured.

As my colleague mentioned, and I know from my experience in Virginia 18 years ago, we started this Virginia Health Care Foundation to deal with how we could provide health care coverage for the uninsured. We saw folks ending up, as I mentioned, on hospital doorsteps. We saw folks waiting too long before they could access the health care system. Oftentimes, if they had a chronic disease and then waited to get that health care coverage, the cost of covering that person was not only much higher—obviously, the person has to deal with a much more serious illness—but they too ended up in the emergency room, which is an inefficient delivery mechanism.

If we are going to truly start to bring down the cost of insurance, if we are going to do the right thing in giving the uninsured in this country a chance to receive a medical home and make sure they access health care through a more affordable and more long term, healthier way, we must pass health care reform this year.

A lot of numbers have been bandied about concerning what kind of extended coverage we are talking about in this health care reform. There have been arguments that we are talking about covering 30 million additional people. I believe the Senate Finance bill covers 25, 26 million. One of the things that is often absent from this debate is that while these are the num-

bers we are trying to deal with right now, literally triple that number, about 87 million Americans during a year, at one point or another, through either being unemployed for a while or moving off one plan to another, go through some period of being uninsured and uncovered.

On top of that 87 million, we also have the problem of literally tens of millions of people who are stuck in dead-end jobs, who want to change jobs, who want to become more productive, but they are afraid to make that change because of concerns over losing their health care coverage. If we can provide the kind of health care reform we are talking about, if we can provide the kind of coverage we are talking about, those kinds of problems will go away. We will become a more effective and cost-effective society.

I know we have other colleagues who want to speak, and I want to come back to where we started, at least the freshmen did a few weeks back, and why some of our colleagues on the other side who seem to be this "caucus of no," who seem to say: Let's take more time, let's put it off, let's wait a little bit longer before we take on health care reform—why that policy choice is so wrong.

If we do nothing, if we choose not to act this year, our current health care system is financially unsustainable. If we do nothing, Medicare, under the current projections, will go bankrupt in 2017. Many of us on this side of the aisle share the concerns of some of our colleagues on the other side of the aisle about the exploding deficit our Nation faces. The largest single driver of our Federal deficit is not the stimulus program, it is not the TARP program, it is not some of the other things we debate back and forth, it is the rising cost of health care that we pay for with Federal dollars in Medicare, Medicaid, and the VA.

If we do nothing, our deficit and those health care costs will continue to explode, undermining the dollar, undermining our ability for economic recovery. If we do nothing, an average family in Virginia—and I would argue probably an average family in the State of Colorado—will see literally 40 percent of their disposable income go to paying their health insurance premiums within the next decade. Those costs are unaffordable and unsustainable.

Finally, as a former business guy and somebody who believes, as my colleague from Denver does, that the heart of what keeps our economy growing is the business community, and particularly the small business community, if we can't lower our health care costs, then American business will not be competitive in the global economy. No matter how productive American workers are, America builds into our cost structure, for almost every

business, about \$3,000 to \$4,000 more per employee because we have so much higher health care costs than any of our competitors around the rest of the world. We cannot maintain that competitive disadvantage in a global economy.

The time is now. There are ways we can continue to improve these bills. We are looking forward to the melding of the Finance bill and HELP bill, and I know myself and some of my fellow freshmen colleagues will have some ideas about how we can improve programs even in that package.

I thank my colleague from Colorado for his leadership on this issue, and I look forward to working with not only my freshmen colleagues but all colleagues on this side of the aisle, and hopefully those on the other side, to make sure we do get health care reform this year.

I yield my time.

Mr. BENNET. I thank the Senator from Virginia. I particularly, on behalf of all the colleagues here today, thank him for his leadership over the last couple of months on the question of personal responsibility: how do we incentivize people to make sure they are doing a better job to take care of themselves; how do we work with some of the corporations in this country that have done an extraordinary job of lowering health care costs by incentivizing folks to take personal responsibility for their health care. I have enjoyed working on those issues with him and look forward to continuing to work on it.

Next, we have the Senator from New Mexico who is here to talk about another myth, which is the idea that our health care system always works well for everybody.

We have great things in our health care system. We have some of the best health care technology in the world. We have some of the greatest treatments in the world. If you are going to get sick, a place you want to get sick, depending on what you have, is the United States. But we are not perfect by any stretch of the imagination, and the Senator from New Mexico is going to comment on that.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. UDALL of New Mexico. Mr. President, it is good to see our Presiding Officer, the new Senator from Massachusetts, here, who has joined us within the last couple of weeks, Mr. PAUL KIRK.

Today we are talking about myths, inaccuracies, deliberate exaggerations, and outright lies that have abounded over the months we have been debating health care reform. Some have been dreamed up by those who stubbornly cling to the status quo. Others reflect fears lying just beneath the surface.

If we step back, it is easy to see these scare tactics for the lies they are, but

for Americans who will be most impacted by this reform, it may be difficult to separate fact from fiction. The myth I would like to talk about today is a bit different from the others being discussed by my colleagues. It is a myth that existed long before the current debate but is being used in a new way by people fighting this reform. They are using it as a weapon against change. It is a myth we have all heard about. It is the myth that reform is not necessary because we have the greatest health care system in the world.

What makes this myth different from the others is that parts of it are absolutely true. Americans are blessed with some of the best doctors and nurses and health care professionals in the world, hard-working men and women who have dedicated their lives to the health and healing of others but often work in difficult situations.

Our technology is unmatched. Our emergency care system is repeatedly cited as the best of the best, and we rank highly regarding the levels of dignity and respect with which patients are treated. But all these achievements, as great as they are, do not add up to the best health care system in the world for all Americans—not as long as we are spending \$2.4 trillion a year on medical care but continue to rank near the bottom when it comes to premature deaths from diseases such as diabetes, stroke, and pneumonia; not when we spend twice as much of our GDP on health care as Japan and the UK but have lower life expectancy at birth; not when we rank last in infant mortality among industrialized countries; and not when half of the personal bankruptcies in the United States are related to medical bills.

Right now in America, if people have the money, they have access to the best health care money can buy. For the vast majority of Americans, that access is not there. If a person is a small business employee or laid off from a job or someone with a pre-existing condition, the “best health care system in the world” is much harder to come by. When 80 million people are either uninsured or underinsured, there is no way a country can lay claim to that title.

But there is something we can do about it. With this reform, we have the opportunity to build on the strengths of the U.S. health care system while also addressing its weaknesses. Comprehensive health reform will go a long way toward remedying these and other inequalities and reducing the health care disparities between rich and poor, the majority and minority.

The solution is not always spending more money. Sometimes it is about making better use of the money we are already spending. It is about finding ways to achieve better returns on our investment. The reforms we are proposing would allow us to do that by

ridding the system of waste, by increasing our investment in prevention, by helping small businesses afford insurance for their employees, and by covering more individuals whose only medical option right now is expensive emergency room visits.

The status quo is unsustainable, but that is what reform opponents are hoping to continue with, myths like those we are discussing today. America has the potential, the talent, the technology to achieve the best health care outcomes in the world. Whether we reach that goal depends on the actions we take now.

I yield the floor.

Mr. BENNET. Mr. President, I thank the Senator from New Mexico, and I am reminded of the trips I made around my State during recess when everybody settled down and we could actually get into a conversation about how well the status quo was working for people. It took about 40 minutes into the meeting before people would stand up and start to say: Let me tell you my story about how I was laid off from a company or lost my insurance, had a preexisting condition, couldn't get new insurance and, therefore, can't get the health care I need.

That is the kind of conversation we need to have about what we are facing. I was left with the impression from people in Colorado that while they don't like the status quo, they are worried that we are going to make it worse. We can't blame people for thinking that, as they watch what is on TV every night or on the Internet. Our obligation is to make sure as we go through this legislative process, we deliver something that builds on our strengths, as the Senator said, but also fills in gaps that are clearly present and disrupting the lives of working families.

I turn now to the Senator from Illinois to talk about the public option and choice. It is apparent to me, as people have begun to see there might be a requirement that they have insurance, what I am hearing from people is they want more choices, not fewer. They don't want to necessarily be forced into a private insurance plan. They want their family to have choices. Today the Senator from Illinois will talk about the public option.

The PRESIDING OFFICER. The Senator from Illinois.

Mr. BURRIS. Mr. President, to my colleagues who are making this presentation on behalf of the people on health care, it is my pleasure to join them and speak briefly about what will take place if we do not pass, as part of insurance reform, a public option. When it comes to health care reform, we have all heard the myth that a public option would amount to a government takeover of the health care system. This is completely false and has no basis in the legislation under consideration by the Senate.

Let's examine the facts: 45,000 Americans die each and every year because they do not have health insurance and cannot get quality care. That is 1 death every 12 minutes. Clearly, the system is broken. The time for action is long past. I believe we need to restore choice and accountability to the health care system. The only way to accomplish this is with a public option. It would increase the availability of care. It would help fight the disparities that plague our current system.

At the moment, people of color represent half of the Nation's uninsured, even though they make up only a third of the total population. A low-cost public option would meet the needs of these who are at a disadvantage, regardless of background or skin color. The public option would restore competition to a market that is currently monopolized by only a few corporations. Take my State. In the State of Illinois, two companies dominate 69 percent of the insurance market. That is why their profits are growing four times faster than wages. This is unsustainable. It is breaking America's businesses and bankrupting American families.

We talked about businesses earlier. My colleagues mentioned what this will do for small businesses.

We must make sure there are choices for them to have an exchange where small businesses can shop for their insurance. If these companies have to compete with a public plan, everyone's premiums will go down. It will bring about competition in the marketplace. If you like your current insurance providers, nothing will change except that you will save money, and you won't have to worry about losing coverage when you need it. No government bureaucrat will alter your insurance plan, your doctor, or the level of care you receive. But if you can't afford insurance or your coverage has been denied due to a preexisting condition, you will be able to get quality care at an affordable rate. Just like any business, a not-for-profit public insurance option would require initial capital to get off the ground. But afterwards it would rely on the premium it collects to remain self-sufficient.

The current system is a drain on American taxpayers. The public option would not be. The public option would complement private insurance providers, not drive them out of business. In fact, it will result in an increase of 1 to 3 million additional customers for private companies. In other words, by bringing all those persons into coverage, insurance companies will benefit when all these uninsured people will now be covered. There will be no government takeover, no death panels, no rationing, and no redtape between you and your doctor.

It is time to reject these myths and to take decisive action. The only way

to achieve meaningful health care reform and bring costs down is through a public option that creates real competition in the system.

Let it be clear to all of my colleagues in this august body: I will not vote for any health care bill that does not include a public option.

I yield the floor.

The PRESIDING OFFICER. The Senator from Colorado.

Mr. BENNET. I thank the Senator from Illinois for his eloquent discussion about trying to provide more choice rather than less to our working families. A lot of what we are trying to do with health care reform—and I hope the bills will improve over the coming weeks—is give people more control over choices with respect to their doctors and their medical care, to make sure that it is doctors and patients making decisions about treatment and not insurance company bureaucrats or a government bureaucrat.

Next I will yield for the Senator from Delaware to talk about why this is such an urgent problem and why we need to address it now and not wait, as we have over the last 20 years. As the President said, the first President to call for health care reform was Teddy Roosevelt. Here we sit in 2009, confronted by the same sorts of arguments about why today is the wrong time to do this and why we ought to kick the can down the road for another generation of Americans.

I turn the floor over to the Senator from Delaware.

The PRESIDING OFFICER. The Senator from Delaware.

Mr. KAUFMAN. Mr. President, I thank Senator BENNET for organizing this event today. He has been a leader in our effort to try to achieve meaningful health care reform. I am looking to him, as we move down the road on health care reform, to continue to show leadership to make sure we achieve meaningful health care reform.

I appreciate the opportunity once again to join my colleagues and show our united support for health care reform. I want to address one of the biggest myths reform opponents have spread throughout the debate, the myth that America cannot afford to change the health care system. They say our country has too much debt and the health care reform would only increase the Nation's deficit. They say we spent too much money on TARP and the stimulus package. They say we must rein in spending and push off health reform until we straighten out our fiscal house. When we hear this kind of criticism, especially during this time of economic downturn, it is reasonable to ask if now is the time for reform of the health care system. The answer is: We need health care reform now. We need health care reform now because economic recovery for the long term is completely dependent on controlling health care costs.

We cannot afford to wait for reform because the status quo is absolutely, positively unsustainable.

Medical costs account for one-sixth of domestic spending and are headed upward. They are handcuffing families and workers, strangling Federal and State Governments. In 2000, the average premium for family health care in Delaware was just over \$7,500. In 2008, that number jumped to \$14,900, almost doubling in only 8 years. If we do not enact health care reform now, the same premium for family coverage is expected to reach \$29,000 in 2016, another doubling in price.

The status quo is unsustainable because of health care spending on a national level. In 1979, we spent approximately \$220 billion as a nation on health care. In 1992, we spent close to \$850 billion. In 2009, we will spend \$2.5 trillion on health care. That trajectory of health care expenditures is totally out of control. We must begin to bend the cost curve down on the health care system. We need to do this now. We cannot wait any longer. We cannot afford to wait for reform because failure to do so will place even more pressure on the Federal budget and on taxpayers to continue support for Medicare and Medicaid.

Clearly, one of the major driving forces behind our Federal deficit is the skyrocketing cost of Medicare and Medicaid. Combined, these programs account for 20 percent of all government expenditures. If we do nothing to start bending the cost curve down for Medicare and Medicaid, we will eventually spend more on these two programs than all other Federal programs combined.

Let me say that again: If we do nothing to start bending the cost curve down on Medicare and Medicaid, we will eventually—and not that far off—spend more on these two programs than all other Federal programs combined. Because of this, people who are concerned about deficits should welcome health care reform now. The plans being considered by the Congress would require some upfront cost, but reform done the right way will mean savings for families and businesses, money that could be pumped into the economy.

We all know in the short term the cost of expanding coverage to Americans will temporarily increase government spending. Quickly, however, the net impact of the cost containment provisions will accumulate, and there will be a reduction in government spending. It is important to remember that while we are awaiting the cost containment provisions to take hold, the President and congressional leaders have insisted that health care reform be deficit neutral. In other words, the administration and Congress are committed to responsible health care reform that reduces the deficit over 10

years and major reductions over the long term. We will not be able to get the major reductions we need to sustain the budget and sustain the Government if we don't do these things now which will only begin to benefit us in the long term. For this reason we cannot afford to wait for health care reform.

Finally, if we lose this opportunity to pass health care reform, we will not have an opportunity to reform our health system in the foreseeable future. We will be stuck with the unsustainable status quo. This Congress, this President is not about to return to this issue if we do not pass it because it is so incredibly difficult and so traumatic and takes everyone's concern. I have been around Congress for 36 years, and I have learned something about how Washington works. Trust me, we have truly a unique window of opportunity for health care reform. The window is now open. It will soon close. We have a new President in his first year in office who has a good relationship with Congress. There is major support for reform among providers, patients, business, labor, and everyday Americans. With the major players in health care seeking reform, this could be our chance. I believe it is our chance, and this will be the only chance for a while.

Mark my words: If we don't take this opening and enact health care reform this year, it will not be done until the health care system crashes down around our ears. We cannot continue the status quo for one more day. We cannot wait to enact health care reform. We must gather our collective will and do the right thing during this historic opportunity by passing health care reform. We can do no less. The American people deserve no less.

Mr. BENNET. I thank the Senator from Delaware for pointing out that maintaining the status quo, being unwilling to act, in fact, is making a choice.

It is making a choice about having another decade of double-digit cost increases every year. It is making a choice about devoting a fifth of our economy to health care when every other industrialized country in the world is devoting less than half of that. It is making a choice about having increasing and mounting and rising deficits in the outyears.

I thank the Senator from Delaware for pointing out that we have a once-in-a-lifetime opportunity right now to try to address a number of these issues at the same time.

Mr. President, our closer today is the Senator from New Hampshire, who is here to talk about what this reform is about versus what some have claimed it is about. I welcome her here this morning.

Let me turn the floor over to the Senator from New Hampshire.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mrs. SHAHEEN. Mr. President, I thank very much Senator BENNET for coordinating this effort today.

As you have all heard for the past few weeks, the freshmen Senators have joined together to deliver a very simple message: We need to act, and we need to act now, on health care reform.

As people have been pointing out all morning, there is a lot of confusing and, unfortunately, some false information that has been going around about who is going to be included in health care reform legislation and what that is going to mean for people. So as everyone has said, we are joining together today to try to dispel some of those myths and to focus on what really matters, which is making our health care system better for our families, for our businesses, and for our Nation's economy.

One common myth we have heard is that health reform is a government takeover of our health care system. This is simply not true. The truth is, health care reform is being driven by consumers who are concerned about the cost of health care and about their coverage, and it is being driven by the market because health care costs are so high that too many businesses and too many people cannot get the health care they need when they need it.

Under the current legislation, everyone will have the freedom to keep their health care plan if they like it. But for the millions of hard-working Americans who cannot find affordable coverage or who have been discriminated against because of a preexisting condition or for women like me who too often are discriminated against in the costs of health care, health reform will give them a choice.

Last week, my office heard from a man named Andrew from New Boston, NH. Sadly, his story is all too common. Andrew and his family had employer-sponsored insurance coverage through his wife's job. Unfortunately, she was laid off recently. Now not only is she out of work, but her family has to find another source of health insurance coverage. The fact is, the individual market simply does not provide sufficient affordable options for families. The coverage they managed to find—Andrew and his family—puts a significant financial burden on their family.

The good news is, health reform legislation offers a solution for families such as Andrew's by offering more choice. The health insurance exchange creates a marketplace where insurance companies must compete for our business. Individuals and small businesses will be able to shop for the most affordable plans in a way that is transparent and easy to understand—similar to the way Members of Congress get their insurance, and Americans should have the same choice.

Increased competition and transparency do not sound like a government takeover to me. Rather, it sounds like the markets acting in a way that best serves the American people.

My health reform reality check is that health care reform is consumer based and market driven. You can keep your insurance if you like it. It will increase choices for families. It will promote competition.

We need to move past the rhetoric and the myths. We need to rise to the occasion in this pivotal moment in our Nation's history. We must pass meaningful health reform for the citizens of New Hampshire and all Americans.

Mr. President, I yield the floor.

Mr. BENNET. Mr. President, I wish to thank the Senator from New Hampshire for closing in such a perfect way today. I agree with her that for far too long Washington special interest politics has gotten in the way of fixing this system, and the result has been enormously unfortunate for working families all across the United States of America.

When your median family income is going down by \$300 over a decade, and the cost of health insurance is doubling over the same period of time—by the way, in my State, it has gone down by \$800—and the cost of insurance has gone up 97 percent, the cost of higher education has gone up by 50 percent over the same period of time, essentially what we are saying to working families is: You are going to take home less, but you have to pay more for, not “nice to haves” but things that are critical to move your family ahead to have the kind of stability that is essential for everybody to have a shot at the American dream, and for some reason we in Washington cannot figure out how to make some changes that would help working families and small businesses all across the United States.

That moment has come now, and we are here. We have the next few weeks to figure this out. I believe we will. I am enormously optimistic we can pass a bill in this Senate and in the Congress that the President can sign that will make a material impact, an improvement in the lives of working families and those employed by small businesses all over this country. In fact, anything less than that should be unacceptable to all of us.

I hope we can do that in a bipartisan way. I hope we can have cooperation across the aisle and the best ideas from both parties as we design it. But, to me, the most important thing is to make sure people who live in my State do not need to endure another decade of double-digit cost increases every single year, do not need to endure another decade where they lose their health insurance because they lose a job or because they have a preexisting condition or because, as happened in my State last week, a baby was born who was

deemed to be too heavy to insure—fortunately, the insurance company did the right thing in the end—to not have another decade where people are wrestling with their insurers to get paid, so that doctors and people providing health care do not have to spend 30 percent of their overhead or more trying to get reimbursed for services they provided to their patients.

I am optimistic in part because of all my wonderful colleagues who were here this morning. I thank them for joining me today.

Mr. President, with that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. BURRIS). Without objection, it is so ordered.

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that I be allowed to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### UNEMPLOYMENT EXTENSION

Mrs. SHAHEEN. Mr. President, I rise to speak in support of the Unemployment Compensation Extension Act. This bill will extend at least 14 weeks of unemployment benefits to workers across the country who will exhaust their benefits by the end of the year.

This the second time I have come to the floor to urge those who are holding up this critical legislation to stop blocking its passage.

This week we learned that Wall Street firms are expected to pay out a record \$140 billion in compensation. While the economy seems to have turned around for Wall Street executives, it sure hasn't turned around for millions of American workers who still can't find a job.

If we can bail out the big banks that got us into this financial mess, shouldn't this Senate be able to act quickly to help the people hit hardest by this recession—unemployed workers?

Apparently not, because there are Members of this Senate who are playing partisan political games and delaying an extension of unemployment benefits. This needs to stop.

Today, more than 5 million workers have been unemployed for 6 months or longer. Through no fault of their own, millions of Americans cannot find work because there are now more than 6 unemployed workers for each job opening. Until the job market improves, we have a responsibility to help these workers keep food on the table and pay the mortgage.

Not only is this the right thing to do for families, it is the right investment to make in our economy. An effective stimulus is timely, targeted and temporary, and that's how this extension is designed.

This extension is temporary. It is targeted at those who have been unemployed for more than 59 weeks and have exhausted their benefits. And no one can question that it is timely.

Unemployment compensation is money that gets spent immediately on necessities. People who are out of work need this money to help pay rent and mortgages, buy food, and pay for gas.

So when we extend unemployment benefits, we are not just helping workers who have lost their jobs, we are helping small businesses across the country by boosting demand for their products and services.

In fact, economists say that dollar-for-dollar, extending unemployment benefits is one of the most cost effective actions we can take to stimulate the economy.

Temporary extensions of unemployment benefits are an especially effective stimulus when the long-term unemployment rate is high, and, unfortunately, that is the situation today. Nationally, the number of long-term unemployed—those jobless for 27 weeks or more—rose to 5.4 million in September. In my home State, New Hampshire, the number of long-term unemployed has more than tripled in the past year.

I do not understand why any Senator would delay an extension of unemployment compensation that will help workers and small businesses in every single State.

People are counting on us to act now. American workers who have exhausted unemployment benefits cannot wait another week to pay the rent or buy groceries.

I urge my colleagues to stop the games and pass this critical extension without further delay.

Mr. President, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. CARDIN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. CARDIN. Mr. President, I ask unanimous consent to speak as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### CLIMATE CHANGE

Mr. CARDIN. Mr. President, I have the honor of chairing the United States Helsinki Commission, representing the Senate. The Helsinki Commission is the U.S. participation in the Organiza-

tion for Security and Cooperation in Europe. Fifty-six countries representing Europe, Central Asia, Canada, and the United States got together in 1975 in order to further advancements in security, in human rights, and in economics.

We had our full meeting in Athens this past weekend, and the center subject for that meeting was climate change and the need for the international community to come together to enact meaningful goals for reducing greenhouse gases and carbon emissions. It was clear, from the urgency of this mission, that we need to act now; that the circumstances of floods and droughts in so many parts of the world are causing immediate concern. We now have what is known as climate migrants—people who are forced to leave their countries because of the impact of global climate change. This is causing serious concerns in many parts of the world in regard to stability and security, which affects U.S. interests.

I know each of us in our own States can give our own examples of the impact of climate change. In my State of Maryland, the residents of Smith Island understand that their island is disappearing during their lifetime because of sea level changes, due in part to global climate change. The watermen in Maryland know their livelihood is being jeopardized because of the warming of the Chesapeake Bay, affecting sea grasses, which affects the ability of the blue crab to survive. So we all know the immediate impact.

But in Athens it became apparent to the international community that we need to act now. We need to act now for the sake of our security, we need to act now because of the economic imperative, and we need to act now because of the environmental risk. The good news is it was apparent to all of us that there is a common solution. If we deal with our energy issues, we can solve all three of those problems.

We can strengthen our economies, particularly in these difficult times, by creating good new jobs; we can deal with international security threats, when one nation threatens to cut off its oil or gas to another country; or the fact that so many places in the world that have the mineral wealth have values that are different than our values and we are actually helping to support their values; and for the environmental need of making sure that we deal with global climate change in future generations and we work together.

The question that was asked at this meeting was: Where is the United States? Where is the leadership from the strongest Nation in the world? Well, my reply was: The United States is back. We are ready to assume international leadership on global climate change issues.

The Obama administration has already taken action. They have taken

action on CAFE standards for automobiles. They have taken action through the Environmental Protection Agency. It is clear that we are ready to act. The House of Representatives has already passed legislation, and Senator KERRY and Senator BOXER have brought forward the Clean Energy Jobs and the American Power Act, and I am proud to be part of that effort and that legislation. That legislation builds on the work done in the last Congress with Senator LIEBERMAN and Senator WARNER, and it is very similar to the bill that has passed the House of Representatives.

What that legislation will do is to re-establish U.S. leadership on international efforts to deal with global climate change. The legislation would establish a 20-percent reduction by the year 2020. That is stronger than in the House bill and it establishes America as a leader. It dedicates investment toward domestic clean energy and 21st century infrastructure by providing the necessary investments in wind and solar. These technologies were developed in the United States and now it is time for us to put that technology to work creating jobs in America and alternative renewable energy sources that will wean us off the need for imported oil.

The legislation also dedicates funds for other types of green transportation, which we know can be very valuable. Green transportation represents 30 percent of our greenhouse gas emissions and 70 percent of our oil. We can do much better. I am personally working very hard to promote additional funding sources for public transportation. You can't help, when you travel to Europe, but know that their models are much stronger than ours in transporting people through public transportation. I happen to represent two of the most congested urban areas in our country—Baltimore and Washington. Both have transit systems that are in need of expansion. By doubling the ridership on public transportation, we can reduce our imported oil by 40 percent alone.

This legislation is friendly toward alternative energy sources and nuclear energy, which has a very favorable carbon footprint. It also creates jobs. We know that we can create four times as many jobs here in America by investing in green energy rather than in oil or gas. Japan also knows that. They have been investing in renewable energy sources. Germany knows that. They are investing today because they know it is good for jobs. China knows that. They are investing today. They are going forward with these programs for alternative and renewable energy sources in wind and solar and many other areas, because they know that is where the competition will be tomorrow, and they are going to be prepared. We also need to be prepared.

The legislation Senator KERRY and Senator BOXER have brought forward protects the consumers, making sure that in our transition we don't add to the cost of the typical consumer in America. It also helps industries that are very dependent today on carbon energy sources. It helps them in transition so they can transition to the new energy of tomorrow. It invests in clean coal. We have plenty of coal, but it emits too much carbon. Well, this bill invests in figuring out how we can use coal in an environmentally friendly way.

The legislation also deals with our international responsibilities. As a developed nation, we have a responsibility to developing countries. They have already been impacted much more adversely than we due to the impacts of global climate change. We need to strengthen their ability and resolve to protect our forests, to be good stewards of our environment, and to help them deal with development. The bill also provides for wildlife—to preserve wildlife.

One last part about the Kerry-Boxer bill. It is deficit neutral. It will not add any additional debt for future generations. This is truly a bill that my two granddaughters, that all our children and grandchildren will benefit from by having a cleaner environment, a safer country through energy security, good jobs for the future, and all without adding to the deficit.

I reminded my colleagues in Athens that for Copenhagen to be successful, we need to have a bill that sets reasonable targets, absolutely—short term and long term. We have to have the mechanisms that get us to those targets in place in Copenhagen. We also have to have the financing to help the developing countries, and we also have to have enforcement. We have to have enforcement.

What do I mean by that? Well, we are not going to accomplish our goals if the United States does everything it does to reduce carbon emissions but we find other countries don't do that and then they send their products here to America at a cheaper price. That is unfair to U.S. manufacturers and producers, and it doesn't accomplish our international goals of bringing down carbon emissions. So what I have suggested is that in Copenhagen there needs to be a mechanism that says if your country does not meet the international standards, your products are subject to a border adjustment reflective of the cost to bring that product in compliance with international carbon standards. That is fair to the manufacturers in those countries that have met those standards, and it also permits us to make sure that other countries in fact do act to deal with their international responsibilities.

I am optimistic. I am optimistic we are going to be able to achieve these

results. The urgency of the issue requires us to act. We have Senator KERRY and Senator BOXER who have brought forward a reasonable bill, and hearings are scheduled before the Environment and Public Works Committee later this month.

Recently Senator KERRY and Senator GRAHAM have gotten together on a blueprint on how we can move forward on global climate change legislation in this Congress, and they bring up two subjects I have already mentioned—the use of nuclear power in America, which clearly needs to be part of the solution, and how we can deal with clean burning coal.

In Copenhagen, in December, we need to achieve the international results that are the strongest in setting these goals and mechanisms in place. I am confident that America will be a leader in Copenhagen, and a leader in bringing forward responsible legislation to deal with energy.

For those who say we should go slow, let me tell you, reviving our economy is intrinsically linked to rethinking how we solve our energy challenges. Investing in new technology creates new jobs. Diversifying our energy sources creates competition, stabilizing and lowering energy prices. And thinking beyond fossil fuel buried in unstable and unreliable countries makes us all more secure. Our dependence on old ways, old patterns, and old resources puts us at a financial and national security disadvantage. Those same fossil fuels we burn to drive our cars, power our homes and heat and treat our water are polluting our air, making our children sick, and raising our planet's temperature. The good news is that in solving our energy security challenge, we can also grow our economy and clean our environment.

But let's remember that any deals we reach in Copenhagen and any laws we pass here are but the beginning. The work must continue with earnest follow-through dedicated to truly changing the way we work and live and move around this Earth.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Georgia.

Mr. ISAKSON. Mr. President, I ask unanimous consent that I be recognized for up to 5 minutes in morning business, and that I then am followed by the Senator from Michigan, Senator STABENOW.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. ISAKSON. Mr. President, I rise for two purposes. First, there is a huge argument in America with regard to health care, and we all know one of the main contributing factors to the health difficulties of all Americans is the subject of obesity. There are many opin-

ions about ways to address it, but the most comprehensive way to address it is to be intellectually honest in addressing it.

The President of the Coca-Cola Company was published in an October 8 Wall Street Journal article, and it is a brilliant article on obesity, weight, sugar content, and soft drinks. I commend it to the Senate for their study.

Mr. President, I ask unanimous consent to have printed in the RECORD the full article.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Oct. 8, 2009]

COKE DIDN'T MAKE AMERICA FAT

(By Muhtar Kent)

Obesity is a complex issue, and addressing it is important for all Americans. We at the Coca-Cola company are committed to working with government and health organizations to implement effective solutions to address this problem.

But a number of public-health advocates have already come up with what they think is the solution: heavy taxes on some routine foods and beverages that they have decided are high in calories. The taxes, the advocates acknowledge are intended to limit consumption of targeted foods and help you to accept the diet that they have determined is best.

In cities and states across America—and even at the federal level—this idea is getting increased attention despite its regressive nature and inherent illogic.

While it is true that since the 1970s Americans have increased their average caloric intake by 12%, they also have become more sedentary. According to the National Center for Health Statistics 2008 Chartbook, 39% of adults in the U.S. are not engaging in leisure physical activity. The Centers for Disease Control and Prevention has found that 60% of Americans are not regularly active and 25% of Americans are not active at all. The average American spends the equivalent of 60 days a year in front of a television, according to a 2008 A.C. Nielsen study. This same research data show that the average time spent playing video games in the U.S. went up by 25% during the last four years.

If we're genuinely interested in curbing obesity, we need to take a hard look in the mirror and acknowledge that it's not just about calories in. It's also about calories out.

Our industry has become an easy target in this debate. Sugar-sweetened beverages have been singled out for demonization in spite of the fact that soft drinks, energy drinks, sports drinks and sweetened bottled water combined contribute 5.5% of the calories in the average American diet, according to the National Cancer Institute. It's difficult to understand why the beverages we and others provide are being targeted as the primary cause of weight gain when 94.5% of calorie intake comes from other foods and beverages.

Those pushing for this tax lack some essential facts, not to mention some basic common sense. Over the past 20 years, the average caloric content of soft drinks has dropped by nearly 25%. This is due in large part to a determined focus by our company and others on the diet/light category with brands like Diet Coke, Coca-Cola Zero and Powerade Zero. Even soft drinks with sugar, like Coca-Cola, contain no more calories (140

calories in a can) than common snacks, breakfast foods and most desserts served up daily in millions of American homes. And while obesity rates have skyrocketed, sales of regular soft drinks decreased by nearly 10% from 2000 to 2008, according to the industry publication *Beverage Digest*.

So where are all of the extra calories in the American diet coming from? Research from the United States Department of Agriculture shows that added sugars, as a percentage of total daily available calories, have declined 11% since 1970. Yet the percent of calories from added fats and flour/cereal products has increased 35% and 13%, respectively, during that same time period.

Will a soft drink tax change behavior? Two states currently have a tax on sodas—West Virginia and Arkansas—and they are among the states with the highest rates of obesity in the nation.

Obesity is a serious problem. We know that. And we agree that Americans need to be more active and take greater responsibility for their diets. But are soft drinks the cause? I would submit to you that they are no more so than some other products—and a lot less than many, many others.

As a leader in our industry, we have a role to play in solving this issue. Globally, we have led the industry for nearly 30 years with innovations across the diet and light beverage categories. Today, more than 25% of our global beverage portfolio is comprised of low- or no-calorie beverages.

Policy makers should stop spending their valuable time demonizing an industry that directly employs more than 220,000 people in the U.S., and through supporting industries, an additional three million. Instead, business and government should come together to help encourage greater physical activity and sensible dieting, while allowing Americans to enjoy the simple pleasure of a Coca-Cola.

#### TRIBUTE TO FURMAN BISHER

Mr. ISAKSON. Mr. President, on Sunday of this past week, an event of journalistic magnitude took place in the city of Atlanta and the State of Georgia. A man by the name of Furman Bisher published his last sports column in the *Atlanta Journal-Constitution*. He typed that column on the same manual Royal typewriter upon which he typed his first column 59 years ago.

Furman Bisher is a distinguished employee of the *Atlanta Journal-Constitution*, a distinguished resident of our city and our State. Unlike many in his profession, he had a profound positive effect on his city and his State and on sports. Furman Bisher started writing in Atlanta, GA when Atlanta's only professional sports team was the Atlanta Crackers, a Double-A team playing in a small bandbox stadium in Ponce de Leon Park. In the 1960s, as his career emerged, he, along with Jesse Adler, were the principal writers of sports in the *Atlanta Journal-Constitution*. He began to be published in other magazines, magazines such as *Sports* magazine, magazines such as the *Sporting News*. He developed respect around the United States as a gifted, talented, and honest sports writer.

Had it not been for Furman Bisher, the Atlanta Braves probably would not

be in Atlanta, GA because when Mills B. Lane and Mayor Ivan Allen risked what then was a huge amount of money, \$18 million, to build a major league sports stadium without a sports team, it was not until Furman Bisher went and talked to the Bartholomay family who were getting ready to move the Milwaukee Braves from Milwaukee and convinced them to bring major league baseball for the first time ever to the South.

The same was true a few years later when Rankin Smith petitioned to buy the first NFL franchise to exist in the South, and that \$7.5 million purchase happened for a lot of reasons but probably the most important of which was Furman Bisher.

What is so great about Furman is he could make sports come alive, from cricket to football, from boxing to golf. His writing on boxing is historic and his following of Atlanta native Evander Holyfield helped elevate Evander to where he became the Heavyweight Champion of the World. But probably nothing was more important than the years of coverage of the greatest golf tournament on the face of the Earth—the Masters. None other than Bobby Jones, none other than Jack Nicklaus, none other than Arnold Palmer, none other than Tiger Woods acknowledged that the gifted writing of Furman Bisher about that treasured tournament helped to elevate it to where it is today, the preeminent event in golf around the world.

A lot of people contribute a lot to their profession. We in Georgia are proud of so many who have given so much to our State. Today I want to pay tribute to a man who for 59 dedicated years covered sports in Georgia and made it possible for many great things to happen, a man who was gifted, a man was talented and a man who, even today, shares his wisdom and his commitment to sports as he approaches his 91st birthday.

On a personal note, as a young boy and a sports fan in the late 1940s and 1950s, I used to rush to the mailbox to get our Atlanta Journal and our Atlanta Constitution and I didn't go to the funny papers, I didn't go to the comics, I didn't go to the crossword puzzle. I went to Furman Bisher. Furman was a great writer and to me an inspiration for sports in Atlanta, GA. I wish him and his family the very best in their retirement.

I yield the remainder of my time.

The PRESIDING OFFICER. The Senator from Michigan is recognized.

#### UNEMPLOYMENT COMPENSATION

Ms. STABENOW. Mr. President, I rise this afternoon to discuss our efforts to extend unemployment benefits to over 15 million people who are looking for work today. That is only the number of people we know are out

there based on the unemployment statistics, not those who have tried for a long time and been unsuccessful and are currently neither in the workforce nor are working two or three or four part-time jobs trying to hold things together for themselves and their families. We do know this. Over 15 million people today who are trying to support their families in this very tough economic time need our help immediately to stay afloat.

Two nights ago I asked for agreement to move to the unemployment insurance bill. Our leader had asked for agreement to do that before. This has already passed the House and is awaiting Senate action. Unfortunately, Republican colleagues objected. They have objected several times and continue to object to our bringing forward an effort to help families who, through no fault of their own, find themselves in an extraordinarily difficult situation, relying on unemployment in order to be able to keep their families afloat.

Unemployment is not a partisan issue. Right now, 14 States and the District of Columbia, blue States and red States, have unemployment rates over 10 percent: Illinois, Georgia, Alabama, Florida, North Carolina, Ohio, Tennessee, Kentucky, South Carolina, California, Oregon, Rhode Island, Nevada and, of course, my great State of Michigan, where we are now seeing over a 15.3-percent unemployment rate, the highest in the country.

Our people are hurting and they have been hurting for a long time. I was very proud of our President as he came into office for understanding that and joining with us in a recovery package to make sure we were extending unemployment at the beginning of the year. But unfortunately the recession continues and people are still hurting. Democrats are unemployed and Republicans are unemployed. The people getting unemployment insurance are looking for work, they are pounding the pavement and they are putting in applications every day. This is not their fault.

The economic situation in this country is not their fault. The bank failures are not their fault. The foreclosure crisis is not their fault. But they are the ones paying the price every single day. Every single day, every single time the other side objects to bringing up this bill, people across the country are hurting. They are exhausting their unemployment insurance and are being left with no way to pay the mortgage, to take the kids to the doctor, to pay their heating bills, to be able to hold it together, waiting for this economy to turn around and jobs to be available, jobs they so desperately want.

It is getting cold outside. Winter is coming and families across the country are turning on their heaters for the first time in months. They need us to

extend unemployment insurance so they can keep the heat on for their kids. Pulling the rug out from under these hard-working men and women doesn't just hurt them and their families, it hurts every community and it hurts our economy in America. When they can afford to pay their bills, that money goes back into the economy, as we know. We know that for every \$1 spent on unemployment benefits, \$2.15 goes back into the economy. That is exactly what we need at this point—immediate stimulus.

This is an incredibly difficult time for families, certainly in my State and all across the country. Blocking this legislation, saying no to everything, delaying everything—that is not going to pull us out of this recession and it is not going to help American families.

The time to act is now, right now. I urge my colleagues to stop blocking an important effort to help working men and women in this country, people who have followed the rules all their lives, have done nothing but find themselves at this place and this time, with the economy where it is, as we rebuild it—and we are and we will. We need to support them so they can do the right thing for their families and keep a roof over their heads and food on the table and the lights on and the heat on and know that their country has got their back.

That is what this is about. We need to pass the extension of unemployment insurance now. I hope we will.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. I ask unanimous consent to speak up to 10 minutes as in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. BROWN. Mr. President, last night I joined Senator UDALL from New Mexico and Senator WHITEHOUSE and the Presiding Officer, Senator BURRIS, and some others. Senator DURBIN, the other Illinois Senator, was there too for part of the evening, talking about the public option and why it is so important to keep the insurance industry honest, to help constrain costs and to compete directly with private insurance so that people, as they join those who are uninsured, who want to get insurance, can choose. They can choose Cigna, they can choose Aetna, they can choose WellPoint, they can choose United. In my State they can choose

Medical Mutual, or they can choose a public option, so they would have that choice and it provides more choice to people. It is not a government takeover in any way. It simply provides more choice for those people who are insured.

I come to the floor, day after day, sharing letters I received from people in Ohio, from Cincinnati and Dayton, from Athens and Saint Clairsville, from Toledo and Lima. People who generally write most of these letters are people who were satisfied with their health insurance. They thought they had pretty good health insurance.

They find out, when they get sick, that their health insurance isn't what they thought it was. They end up battling every week with their insurance company trying to get something paid for. They find out maybe their insurance coverage got cut off—insurance companies call it rescission, their official bureaucratic word—as so many people lose their health insurance when it has gotten too expensive. These are people who were satisfied with their insurance and then found out it is not so great after all.

I wish to share some of the letters I have received from Ohio. This is from Tony from Rocky River. He writes:

I'm the Executive Director of a provider of residential and group homes for people with developmental disabilities. We employ 250 staff members, most of whom make a starting wage of \$8.50 per hour. We offer health insurance to staff who work at least 24 hours a week. We don't have a Cadillac plan, we provide just basic coverage. We believe in doing this [because] many of our staff members are part-time workers and have to work two other jobs just to pay for bills, groceries, and utilities. We recently started negotiations with our health insurance carrier for our 2010 rates. We were informed that we may have an 84 percent increase over last year's rate.

That is almost double what they had last year.

We were told the increase was due, in part, because one staff member [out of 250] had a heart attack in the past year and another staff member is being treated for renal failure. We were shocked as we already pay close to \$500,000 per year for our coverage. We could now be facing an additional \$420,000 just to cover [the same number of] employees. You would expect in a staff of 250 that someone would have an illness, yet we are being severely penalized for being responsible and offering coverage to our workers and their families.

That is what is happening. This is not a tiny, small business, but in a small business, so often one person, two people, three people get an expensive illness. Sometimes the insurance company will cut them off individually or as a group. Other times the increase for insurance will be so much that people such as Tony may not be able to offer insurance to their employees. This is so important. These are low-income people making \$8.50, \$9 an hour doing work that most people in this Chamber wouldn't be willing to do, get-

ting paid such low wages. At least they offer health insurance. That may be gone. That is why reform is so important. That is why the public option is so important, so we don't see this kind of profiteering by the insurance industry.

Rebecca from Summit County writes:

I have two sons with severe ADHD. They were both diagnosed at an early age, due to their extremely impulsive behavior. Each son requires three prescriptions per day to enable them to go to school and get through their daily life. With the medication and periodic exams with a neurologist, they are doing well. My employer pays over half the cost of our premiums, but my portion of the premium is \$600 per month out of my paycheck. I'm worried that soon my employer will be unable to continue our coverage. As it is, my husband and I don't go to the doctor because we simply can't afford it. Even though it might not seem like a life-or-death situation, it really is. Without their medication, my sons have serious illnesses with impulsiveness that could be dangerous. If they don't complete their education, they won't be able to support themselves in the future.

Nothing scares a parent more than leaving behind children who can't support themselves because of some kind of illness. I don't think anything terrifies parents more than that.

I know our situation isn't unique, so I hope something can be done to help all Americans.

Rebecca's is another plea for help from this institution. It is simply unconscionable for us not to move forward.

Let me close talking about Virgil from Akron. He is a retired 30-year veteran of the Akron Police Department and has to spend one-third of his retirement pay on health insurance premiums. Virgil retired in 1999, when the premium for him and his wife Marlene was \$45. Only 11 years later, Virgil and Marlene pay monthly premiums of \$700—from \$45 to \$700. This is a retired 30-year veteran police officer who served his community as a law enforcement official for three decades. Struggling with high out-of-pocket medical expenses, Virgil and his family resorted to pill cutting to make their prescriptions last longer. Virgil and the dedicated police officers, firefighters, teachers, nurses, and public servants deserve better than. They deserve health reform now.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. UDALL of New Mexico). The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. VITTER. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. FRANKEN). Without objection, it is so ordered.

COMMERCE, JUSTICE, SCIENCE  
APPROPRIATIONS

Mr. VITTER. Mr. President, I stand to urge all of my colleagues, Democrats and Republicans, to support having a vote on Vitter amendment No. 2466 to the Commerce-Justice-Science appropriations bill.

Unfortunately, the majority leader and others have been working quite hard to block that vote. I believe this issue demands attention, demands focus, demands reasonable debate, and a vote.

What is this issue? This is the revised version of my amendment to that appropriations bill:

None of the funds provided in this Act or any other act for any fiscal year may be used for collection of census data that does not include a question regarding United States Citizenship.

Mr. President, I ask unanimous consent to have printed in the RECORD my amendment.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

(Purpose: To provide that none of the funds provided to the Census may be used for collection of census data that does not include a question regarding status of United States Citizenship)

On page 110, line 7, strike "activities," and insert "activities: *Provided further*; That none of the funds provided in this Act or any other act for any fiscal year may be used for collection of census data that does not include a question regarding United States Citizenship."

Mr. VITTER. Mr. President, the point is very simple. A big decennial census is coming up next year. Under the current plans of the Census Bureau, we are going to count everybody in the country—and that is fine—but we are not going to distinguish, we are not going to know the difference between citizens and noncitizens. I think that is not fine, I think that is crazy, and I think it will lead to some dangerous results.

First of all, the whole purpose of a census is to give us maximum information, maximum tools we can use in a whole host of policy debates and Federal programs. Certainly, it is useful to know both the overall number of persons in the country but also the subcategories of citizens and noncitizens. That is particularly relevant because the immigration debate is important, and we need to get our hands around that issue.

Secondly, and even more important, it is important because I believe when we use the census for congressional redistricting for determining how many U.S. House seats each State gets, we should count citizens, but we should not count in that context noncitizens, including illegal aliens.

I think it is crazy, nutty, and I think the average American certainly agrees that we would determine how many U.S. House Members every State gets

to represent it in the Congress and count noncitizens, including illegal aliens. I do not think the Founding Fathers set up a democracy—in many ways one of the most important democratic institutions in history in the U.S. Congress—to represent noncitizens. Why are we not adding in the entire population of France or Belgium or Brazil? For obvious reasons, because this is a democracy to represent citizens of the United States.

Of course, we can only avoid that in terms of congressional reapportionment if we know the subcategories of the count, citizens versus noncitizens. I urge all of my colleagues to support having a vote on this Vitter amendment to the Commerce-Justice-Science appropriations bill and then, of course, when we get to a vote—and we will—hopefully, on this bill but sometime in the near future—I assure you, we will—to support in a bipartisan way this amendment.

Let me make two final points. First of all, I have made every reasonable attempt to get this vote. I had two other amendments on the list for votes on this bill that were important to me and I think are important substantively. I have told, through our representatives, the majority leader and his office that I will forgo votes on those two other amendments. We need a vote on this crucial amendment.

Secondly, I remind particular Senators from eight States that their States will lose representation in the U.S. House if we count noncitizens versus if we were to do congressional reapportionment only counting citizens.

I believe everybody should be focused on this issue. I believe everybody should support my commonsense position. But surely the Senators from those eight States would want to vote for their States' self-interest. Those States are Indiana, Iowa, Maine, Michigan, Pennsylvania, Mississippi, North Carolina, and, of course, my State of Louisiana.

Again, I particularly appeal through the Chair to the Senators from those eight States—Indiana, Iowa, Maine, Michigan, Pennsylvania, Mississippi, North Carolina, and Louisiana. Obviously, for the very interests of your State, please support getting a vote on the Vitter amendment. Please support the Vitter amendment. Your State's representation in the U.S. House hangs in the balance. Of course, that means please do not vote for cloture on the CJS bill until we can have such a vote.

I yield the floor.

The PRESIDING OFFICER. The Senator from Oklahoma.

ENERGY AND WATER  
DEVELOPMENT

Mr. COBURN. Mr. President, we are about 10 minutes away from a vote on

the energy and water conference report. I wanted to put forward one very cogent reason for voting against this bill.

This bill hides from the American people information to which they are entitled. There was clearly accepted by unanimous consent an amendment that said the reports in that bill will be made available to all Senators and all the citizens of this country—and rightly so—unless it had a national security implication for not exposing that information.

The best government is the one that is the most open. The best government is the one in which people have trust. By bringing this bill to the floor out of conference and dropping the transparency amendment, the transparency section where one can actually see what is going on in Washington, where one can actually see where their money is being spent, where one can actually see the information that a select group of Senators see but other Senators do not, as well as the American people—if, in fact, one can see that, that breeds accountability in Washington.

If my colleagues, in fact, vote for this conference report, what they are saying is they want to keep the American people in the dark; they do not want them to see what we are doing; they do not want them to see how we are doing it; they do not want them to see why we are doing it. They want the elite position of making a judgment without being held accountable.

I urge my colleagues to vote against this conference report.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DORGAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONCLUSION OF MORNING  
BUSINESS

The PRESIDING OFFICER. Morning business is closed.

ENERGY AND WATER DEVELOPMENT  
AND RELATED AGENCIES  
APPROPRIATIONS ACT, 2010—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the Senate will resume consideration of the conference report to accompany H.R. 3183, which the clerk will report.

The bill clerk read as follows:

Conference report to accompany H.R. 3183, an act making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Mr. President, I ask unanimous consent that at 2:15 p.m. today, all postcloture time be yielded back and the Senate then proceed to vote on adoption of the conference report to accompany H.R. 3183, the Energy and Water Appropriations Act; further, that no points of order be in order.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. LEVIN. Mr. President, I will vote to approve this conference agreement to provide over \$33 billion for a variety of energy and water infrastructure projects and programs. Michigan is surrounded by the Great Lakes, and the funding provided in this conference report to the Army Corps to maintain the navigational infrastructure and to clean up and protect the Great Lakes is especially important. Michigan also will benefit from the investments in clean energy technologies and energy efficiency programs provided in this bill that will help create a more sustainable economy while producing quality jobs.

The conference report includes important funding for a wide range of energy research and technology development at the Department of Energy, including advanced vehicle technologies, hydrogen and fuel cell technologies, wind and solar energy technologies, and biomass and biorefinery systems. This conference report also includes funding for critical areas of science including high energy and nuclear physics, biological and environmental research, and advanced scientific computing research. Research and technology development in these groundbreaking areas of energy and science will continue our nation's advancement toward greater use of technologies that will reduce our dependence on oil, reduce our carbon footprint and greenhouse gas emissions, and increase our reliance on our home-grown renewable resources. Federal Government support of research and development in these technology areas will also help ensure that our companies remain competitive in the global marketplace and ensure that the U.S. remains on the competitive edge of technology development and scientific discovery.

I am particularly pleased that the conference report includes \$12 million in funding for research and development, conceptual design and engineering for the Facility for Rare Isotope Beams, FRIB, to be built at Michigan State University. Inclusion of this funding in the conference report is critical to moving forward with this facility. Under the Department's current plans, engineering work would continue in fiscal year 2011, with initial design work beginning in fiscal year 2011 and continuing into fiscal year

2012. Construction of the facility would begin in fiscal year 2013. MSU has solid and well-known expertise in the field of rare isotopes and nuclear physics, with the largest nuclear physics faculty in the nation and a nuclear physics graduate program ranked number two in the U.S., second only to MIT. MSU is currently the home of the National Superconducting Cyclotron Laboratory, NSCL, which is the most advanced rare isotope accelerator in the U.S. and is the largest nuclear science facility on a university campus. FRIB is the next generation rare isotope facility and the Department of Energy's decision in December 2008 to select MSU for FRIB is an indication of the university's preeminence in this field.

I am also pleased that the conference report includes funding for several important energy projects in Michigan that will advance the development of technologies including advanced batteries and energy storage systems, plug-in hybrid vehicles, solar and photovoltaic systems, wind energy, biomass, and energy efficiency. Michigan companies and universities are well-positioned to contribute to the development of these advanced technologies, offering both significant expertise in these technology areas and a highly trained workforce to carry out the manufacture and production of these technologies.

About 180 million tons of goods are transported to and from Great Lakes harbors and ports each year, providing fuel to heat and cool homes and businesses, limestone and cement to build roads and buildings, iron ore to produce steel, and grain to feed our Nation and for export overseas. Throughout the Great Lakes, there are significant dredging and other operation and maintenance needs so that freighters can safely deliver these vital commodities. There is a significant backlog in the work required to maintain the Great Lakes navigational system. The Army Corps estimates there is a backlog of 17 million cubic yards of material that needs to be dredged in the Great Lakes, which is estimated to cost to about \$200 million, to restore the full functionality of the navigational system. The conference report includes an additional \$6 million above the administration's budget to address this dredging backlog at Michigan harbors and waterways, and attend to other operations and maintenance needs, including repair and renovation of breakwaters, improvements to locks, and disposal of dredged materials.

An important element of the Great Lakes navigational system is the Soo Locks, which connects Lake Superior with Lakes Huron and Michigan. Every year, over 80 million tons of commodities pass through the Soo Locks, the bulk of which move through the Poe Lock, the larger of the two operational Soo locks. To ensure shipping is not

impeded at the Soo Locks, it is important that another Poe-sized lock be built. Construction on the new lock began this past July, and it is important that this project be completed so that vital industrial and agricultural shipments are not impeded. The conference report includes about \$1 million for this project, which is barely a dent in what is needed for this project; the Army Corps estimated that it could use about \$100 million in fiscal year 2010 for this \$500 million project. I will continue to urge the Administration to include funding for this important project in their budget, and I am glad the conference report also makes this strong recommendation. The conference report states that "the conferees are deeply concerned that despite congressional support for the project, the support of the states in the region, and the fact that the Army Corps of Engineers recognizes the Soo Locks as the 'single point of failure' that can cripple Great Lakes shipping, the administration has failed to include funding for a second large lock, either under the authority provided in the American Recovery and Reinvestment Act, ARRA, or in its budget request for fiscal year 2010." I hope this lack of funding will be rectified in next year's budget.

This bill includes important funding for several Great Lakes programs including the Great Lakes Fishery and Ecosystem Restoration Program, Remedial Action Planning Technical Assistance, and the Sediment Transport Models and Sediment Management Planning program. These programs will help restore and protect the Great Lakes.

I am also pleased that the bill includes over \$6 million for the Corps' work to prevent the introduction of Asian carp and other invasive species into the Great Lakes. Invasive species can dramatically change the fishery and ecosystem by outcompeting native species for food and habitat. Asian carp are particularly devastating because they consume so much food and reproduce quickly. This funding will allow the Corps to operate the barrier project and begin work on a study to consider options to improve the barrier projects' efficacy. The conference report also provides authority for the Corps to take measures to prevent Asian carp from bypassing the electric dispersal barrier. This authority is needed because just recently, the Corps discovered that the Asian carp had moved upstream in the Des Plaines River, and if the Des Plaines River floods, which it does regularly, the floodwaters could carry Asian carp into the Chicago Sanitary and Ship Canal above the dispersal barrier. It is critical that the Corps do what it can to prevent the introduction of Asian carp into the Great Lakes.

The bill also provides funding for a variety of other water infrastructure

and environmental restoration projects in Michigan. Funding is provided for two wastewater projects in Michigan—one in Genesee County and the other in the city of Negaunee in Michigan's Upper Peninsula. Improving sewer systems is important not only for public health, but also to eliminate untreated discharge into surface waters. Two Michigan flood control projects will also benefit from passage of this bill. The aging Hamilton Dam in the city of Flint will benefit from \$240,000 that will enable the Army Corps to plan how to improve this dam that is in danger of failing. Flood control improvements at the Cass River in Spaulding Township are identified to receive priority funding from the Army Corps. Funding is also provided for three environmental restoration projects in Michigan. Funding of \$90,000 will be used by the Army Corps to continue its partnership with the city of Lansing in the Grand River waterfront restoration project, which includes a range of projects, such as shoreline and ecosystem restoration, as well as recreational elements. I am pleased that \$100,000 is included to implement the Lake St. Clair Management Plan. Lake St. Clair and the St. Clair River that are part of the connecting channel in the Great Lakes and have been plagued by invasive species, pollution, urban sprawl, and sewer overflows. The funding in the bill will allow the Corps to move forward to finally implement on-the-ground restoration projects which are very much needed.

This appropriations bill will help move our country towards greater energy security, advance technology to strengthen our manufacturing and international competitiveness, improve our shipping and boating infrastructure, and improve the environment, and I support its passage.

Mr. DORGAN. Mr. President, we will vote in about 4 minutes. I want to note that yesterday's cloture vote had 79 votes in favor of cloture. Clearly, there is strong support for this energy and water conference report. It provides an investment in water and energy projects across the country. It is fiscally responsible. It is slightly less than 1 percent above last year's expenditure.

What I wanted to say, however, is we that had to invoke cloture, which took us two days. Even though we had a cloture vote yesterday clearly demonstrating very substantial support for the bill, we have now sat at parade rest for almost 30 hours because someone insisted on 30 hours postcloture despite the fact that we will have a strong vote for this conference report.

The reason for the insistence on 30 hours occurred was because the conference report did not include one amendment that was accepted in the Senate offered by one of my colleagues. I supported that amendment by the

way. We were not able to get that through the conference with the House. It urged greater transparency on reports from the Energy Department. I regret that is not in the conference report, but the House would not accept it. Because of that, we have now been sitting around for the better part of a week, 30 hours postcloture.

My point is that we have to get appropriations bills moving. Apparently, it does not mean anything to some people. If their amendment did not get in the conference report, they don't mind holding up the Senate for a part of a week. That doesn't mean much to some people.

I just wish we would have a little more cooperation. The very same people who said we ought to get our work done by passing appropriations bill and avoiding omnibus bills are the same ones who hold up the Senate. If we could get a little bit of cooperation, we could get these appropriations bills completed.

This is a good bill. It makes very significant and important investments all around the country in water infrastructure and energy projects. The fact is, it is less than 1 percent above last year's spending level. No one is going to take a look at this bill and suggest it overspends. It does not.

One of my colleagues talked about earmarks in the bill. The fact is, we can take out all the earmarks, and there are some in here. It is the case that Congress has a role to decide both through the water development authorizing bill and also in the appropriations conference report before us where it wants to invest its money in major water projects across the country. If the Congress decided not to do that, every single penny would go downtown to the agency, and some GS-14 would decide where to do that. All this talk about earmarks is not going to save a penny. The fact is, we have substantially cut back on earmarks and have made them transparent.

My point mainly is that we are going to vote in a minute. We could have voted on this already, but we had to file cloture, then wait 30 hours. It is reflective of what is happening in this Chamber. Regrettably, there is very little cooperation.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to the conference report to accompany H.R. 3183.

Mr. LEAHY. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second?

There appears to be a sufficient second.

The clerk will call the roll.

The bill clerk called the roll.

Mr. DURBIN. I announce that the Senator from Massachusetts (Mr. KERRY) and the Senator from Louisiana (Ms. LANDRIEU) are necessarily absent.

Mr. KYL. The following Senator is necessarily absent: the Senator from Mississippi (Mr. COCHRAN).

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 80, nays 17, as follows:

[Rollcall Vote No. 322 Leg.]

#### YEAS—80

Akaka	Feingold	Nelson (NE)
Alexander	Feinstein	Nelson (FL)
Barrasso	Franken	Pryor
Baucus	Gillibrand	Reed
Begich	Gregg	Reid
Bennet	Hagan	Risch
Bennett	Harkin	Roberts

#### NOT VOTING—3

Cochran	Kerry	Landrieu
---------	-------	----------

The conference report was agreed to.

The PRESIDING OFFICER. The Senator from Illinois is recognized.

Mr. BURRIS. Mr. President, I move to reconsider the vote and move to lay that motion on the table.

The PRESIDING OFFICER. Without objection, it is so ordered.

The motion to lay on the table was agreed to.

(At the request of Mr. REID, the following statement was ordered to be printed in the RECORD.)

#### VOTE EXPLANATION

• Mr. KERRY. Mr. President, I was necessarily absent for the vote on the conference report to accompany Energy and Water Development and Related Agencies Appropriations Act, 2010, H.R. 3183. If I were able to attend today's session, I would have voted yes on the conference report. •

Mr. HATCH. Mr. President, today the Senate voted 80 to 17 in favor of the Energy and Water appropriations bill, H.R. 3182. I praise Chairman BYRON L. DORGAN and Senator ROBERT F. BENNETT, the Republican ranking member, and the other members of the Energy and Water subcommittee for putting together what I consider to be a good bill and certainly a big improvement over the energy budget sent to us by the President.

Knowing that the funding measure would pass, I chose to vote against this bill, which funds the Department of Energy, as a signal to the Obama administration and the DOE that American taxpayers want and need a serious pro-energy plan, not the anti-energy strategy being pushed on us by the United Nations Intergovernmental Panel on Climate Change, which this administration has adopted.

When the Secretary of Energy testifies before Congress that he believes it is his job to cut carbon-dioxide emissions by 80 percent in the next 40 years, then we know our Nation does not have an energy policy; rather, we have an *anti-energy* policy. Cutting our Nation's emissions by 80 percent would provide two certain outcomes: First, reducing CO<sub>2</sub> at that reckless pace would certainly devastate our economy and ruin our Nation's global competitiveness. Secondly, according to the U.N.'s own calculations for CO<sub>2</sub>'s warming ability, it would result in no perceptible reduction in global temperatures. At best, it would reduce temperatures by about 0.1 degrees Centigrade after 40 years of economic torture.

Maybe the media have fallen for this dangerous distraction to a real energy policy, but the polls show that the taxpayers have not.

#### MORNING BUSINESS

Mr. BURRIS. I ask unanimous consent that the Senate proceed to a period of morning business, with Senators permitted to speak therein for up to 10 minutes each.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BURRIS. Mr. President, I would like to speak in morning business.

The PRESIDING OFFICER. The Senator is recognized.

#### HEALTH CARE REFORM

Mr. BURRIS. Mr. President, earlier this week I came to the Senate floor to discuss some of the misinformation we have seen about the issue of health care reform. Just this morning, I joined my freshmen colleagues to knock down some of the persistent myths about reform and particularly about the need for a public option.

As we prepare to consider a health bill before the full Senate, I would like to discuss the way forward from here. I believe our path is very clear. The only way to achieve meaningful health care reform and bring costs down is through a public option that will bring real competition into the system. That is why I will not vote for any health care bill that does not include the public option.

Insurance companies should have to compete for your business just like any other company. This principle has al-

ways been at the heart of America's economy, and it does not make sense for insurance companies to get a free pass. As competition shrinks, profits soar. A public option is the only way to restore choice to the marketplace. It is the key to freedom, accountability, and fair play. That is why I will not compromise on this point.

On Tuesday, our colleagues in the Finance Committee reached a new milestone on the long road to reform. They became the last of five committees in both the House and the Senate to take up this legislation. When they passed their version of the bill, it was the furthest any health reform measure has ever come. Now let us make it a reality.

I congratulate my distinguished colleagues on their significant achievement. I applaud their leadership on this difficult issue. But it was disappointing this legislation did not include a public option. As we move forward and merge the Finance Committee bill with the HELP Committee's version, I will work with my friends to make sure the combined measure does include a public option. In a very short time, every Member will have the opportunity to shape this important legislation. When this bill comes before the Chamber, we will have the chance to make good on the promise Teddy Roosevelt made almost 100 years ago when he first called for sweeping health care reform.

This pivotal debate is nearly at an end. The time for action is upon us. That means it is time to separate fact from fiction. It is time to discuss the facts and drown out the noise. The public option will restore choice and competition to an insurance market currently dominated by only a few companies. The public option will spur fresh accountability and a return to fair practices. Premiums will come down. Relative health outcomes will go up. For the first time in years, insurance corporations will need to compete for business. They will need to be accountable to customers and not only to shareholders. That is what reform with a public option will mean to the American health care system.

When opponents of reform talk about death panels, a government takeover, and socialism, they are trying to distract us from the issue at hand. When they claim the Finance Committee bill will make premiums go up instead of down, it is the same sleight of hand we have seen from the big corporations many times before.

They know they cannot win the argument on the merits so they are trying to change the subject. Instead of talking about American families and rising costs, real health outcomes, they need to rely on scare tactics to maintain their monopoly over the insurance market. That is why it is time to draw a line in the sand. It is time to reject

these distractions and stand on the side of the American people.

That is what this debate is about. It is about individuals who send us to Washington to fight for their rights and defend their interests. It is about families who sit around the kitchen table in Illinois and across America. They open their pocketbooks and write larger and larger checks every month. They are wondering when we will have the courage to act on our convictions.

We must not delay another moment. If we fail to act, health care coverage will continue to increase in price and decline in quality. Let us rise to the challenge. Let us seize this moment. There is no doubt the Senate is the greatest deliberative body on the face of the planet. Throughout our history, contentious arguments such as this one have played out on the floor of this Chamber and the old Senate Chamber down the hall. The world knows this Senate can debate. But let it now show them we can also act. Let it show them we can take action.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### MEDICARE PHYSICIAN FAIRNESS ACT OF 2009—MOTION TO PROCEED

##### CLOTURE MOTION

Mr. REID. Mr. President, I move to proceed to Calendar No. 178, S. 1776 and, in the process, I send a cloture motion to the desk.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

##### CLOTURE MOTION

We, the undersigned Senators, in accordance with the provisions of rule XXII of the Standing Rules of the Senate, hereby move to bring to a close debate on the motion to proceed to Calendar No. 178, S. 1776, the Medicare Physician Fairness Act of 2009.

Harry Reid, Debbie Stabenow, Roland W. Burris, Patty Murray, Mark Udall, Mark Begich, Frank R. Lautenberg, Amy Klobuchar, Jack Reed, Carl Levin, Jeff Bingaman, Sherrod Brown, Sheldon Whitehouse, Barbara Boxer, Kirsten E. Gillibrand, Charles E. Schumer, Jeanne Shaheen, Richard J. Durbin.

Mr. REID. I ask unanimous consent that the cloture vote occur at 5:30 p.m., Monday, October 19, and that the mandatory quorum be waived; further that at 4:30 p.m. on Monday, there be 60 minutes of debate equally divided and controlled between the leaders or their designees prior to the 5:30 p.m. vote.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. I now withdraw the motion to proceed.

The PRESIDING OFFICER. The motion is withdrawn.

Mr. REID. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

Mr. SESSIONS. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### COMMERCE, JUSTICE, SCIENCE APPROPRIATIONS

Mr. SESSIONS. Mr. President, I join in support of the Vitter amendment, which would preclude any funding in the CJS appropriations bill being used for the 2010 census, if the census does not include a citizenship question. Under current law, the census does not even ask the question about whether individuals in the United States are citizens or not. They ask people how many bathrooms and children they have, all kinds of things, but they don't ask a citizenship question. Congressional apportionment in the U.S. House of Representatives is based on that total population count, including people illegally in this country. I think representation in Congress should be based on the number of legal residents, and it should not be increased because persons here illegally, not eligible to vote, happen to be in that State. That is a matter I hear a lot about from my constituents. They ask how this is possible. They are shocked that is what might be happening. The truth is, it does happen.

So I think Senator VITTER is raising a good question, and I believe his amendment is valid. Our next census will determine the reapportionment of the House of Representatives and Electoral College votes each State has.

The 2010 census form lacks the simple question: Are you a citizen of the United States of America? How accurate can we in Congress expect to be about the composition of our population if we do not ask that question, especially when some estimate there may be as many as 12 million people illegally in the country? Indeed, I think that probably is an accurate figure, so it has an impact. Calculations using some of the interim census data estimates are pretty dramatic and point out the real impacts of this policy.

Using the American Community Survey of the Census Bureau, their estimates for State population, including noncitizen and citizen populations, is instructive. The discrepancy in numbers for reapportionment using those different figures is significant. For example, States that might otherwise expect to gain or expect not to lose popu-

lation, lose congressional seats, would do so if these numbers are counted. For example, Indiana, Iowa, Michigan, North Carolina, Oregon, Pennsylvania, South Carolina, and Louisiana—all of those would be expected to stay the same or gain. And if illegals are counted, they will either not gain or lose seats.

So I think that is a pretty important issue. It is not something with which my State is directly involved. But having dealt with the immigration issue over some period of time, and trying to be informed about it, I hear a lot of people raising this fundamental question. I think it would be simple to fix constitutionally. We would simply say: Ask how many people are here legally and use that to be the basis of the apportionment of congressional seats, and not using people who are not here legally. It does not threaten people. It does not mean they will be arrested or anything like that or to be subject to deportation. It simply means when the numbers are all in, we will know how many U.S. residents exist in the various States, and from that number we will be able to apportion our House of Representatives and the Electoral College for the next Presidential election.

I think that is the right thing to do. We need to get away from this other process and urge the support of the Vitter amendment.

I thank the Chair and yield the floor.  
The PRESIDING OFFICER. The Senator from New Jersey.

#### HEALTH CARE REFORM

Mr. LAUTENBERG. Mr. President, I rise to make some comments about the health care bill we are all anxious to see and discuss.

Everyone knows a principal focus of our attention now in the Senate is on the health care reform bill, and we expect a major debate on the precise structure of that bill over the next few weeks. But I want to, in that connection, start my remarks with a quotation from a statement given by the Senator from South Carolina. He said, on June 17, 2009:

If we're able to stop Obama on this, it will be his Waterloo. It will break him.

That is the Republican dominant view on health care reform. The mission is not to do better for the American people but, rather, to destroy the Presidency of Barack Obama. It is an unpleasant scene to witness.

Almost all Americans want to see us fix our health care system. I say "almost" because there is a group of people here who love the status quo: health insurance companies and their lobbyists and CEOs.

Everyone knows health care costs have skyrocketed, and that means everybody pays more. But when working people are under assault to pay more, it could cause a catastrophic confrontation with funds, with money for food and education and other ordinary but essential expenses for living.

America's small businesses are struggling to provide health care for their employees, and more people are less able to afford health care coverage. And while enormous pressure is placed on middle-income families, the largest health insurers are seeing massive profit growth.

Wendell Potter, an executive at CIGNA and some other health insurance companies over the last 20 years, has put it this way. He testified before the Senate Commerce Committee earlier this year, and he said the health insurance companies—and I quote him—"confuse their customers and dump the sick—all so they can satisfy their Wall Street investors."

That single-minded drive for profits is clear from the numbers. Here is a chart I have in the Chamber showing part of the outrage. This chart demonstrates the massive profit increases at some of our largest health insurance companies. Just look at them. The years for comparison are the year 2000 and 2008.

In 2000, the company called WellPoint earned \$226 million worth of profit. That \$226 million had grown to \$2.5 billion at the end of 2008—an increase of 1,000 percent.

Aetna, one of the biggest: In 2000, they made \$127 million worth of profit. Eight years later, the \$127 million grew to \$1.4 billion—an increase of 990 percent.

Humana: In 2000, they earned \$90 million; in 2008, \$647 million—a modest gain, only 619 percent.

United Health—one of the largest—earned, in 2000, \$736 million; in 2008, \$3 billion, an increase of 304 percent.

Mr. President, we all know who paid the price for those profits: working-class Americans. This condition tells you what we have to be on the lookout for as we develop our plan.

Just as the health insurance industry profits have risen, obviously, so has the CEO compensation. If we look at what has taken place over a 3-year period for the five largest health care companies, the CEO pay has grown steadily, while workers' pay has barely moved. The average health care CEO, over the last 3 years, in these five companies, earned \$14.8 million. That was his—in this case—all his compensation. And the average worker's salary was \$44,200. Look at that comparison: \$14.8 million, while the average working person earned \$44,000. There is an injustice there that I think is quite obvious.

So we look at that and say: Well, what is happening here? A single health insurance CEO earns approximately 335 times that of the average worker in this country. It is absolutely ridiculous. It is scandalous—scandalous—when we think about the struggle people go through to keep their families healthy and, at the same time, take care of the bare needs for existence.

In New Jersey, for example, the largest health care insurer is Horizon Blue Cross Blue Shield. Last year, the CEO of that nonprofit, Mr. William Marino, made \$5.4 million—a nonprofit company. Although it is a company without profit, it certainly was pretty darn profitable for Mr. Marino.

Let me be clear. While health insurers and CEOs have made out like bandits, the industry has been increasing premiums relentlessly. According to a new report from the Kaiser Family Foundation, insurance premiums for American families more than doubled during the last 10 years. We see it: three times faster than wages over the last 10 years. That is what has happened with health care.

Premiums, which now average more than \$13,000 a year, are the highest cost on record. The chart shows it very clearly, that this expanding premium cost has gone way beyond the average family to be able to afford to pay the rate.

If today's CEOs cared as much about the public's health as their own financial wealth, our system would not look this way. We are stuffing the greedy and starving the needy. That is the situation we are in.

It is time to reshape health care in this country once and for all. It is time to make the insurance industry accountable so that health insurance works for the people in our country. It is time to lift the curtain of despair so those without insurance can get it, and those who are in dread fear of losing it can stop worrying. It is time to say that in the richest Nation in the world, decent health care belongs to everyone in our country.

The reality is, we spend 1½ times more per person on health care than any other country, and yet even as we pour more and more money into health care, Americans' health has not improved.

Just take infant mortality. The infant mortality rate in the United States is a telling marker of how well a society delivers health care. Infant death rates in our country have been going up for the last 40 years. Now the United States has a higher infant mortality rate than 40 other countries in the world, including Cuba, Sweden, Taiwan, and most of Europe. By any metric, we are not delivering health care in our country fairly, fully, or efficiently, and the time for change is upon us.

Many in this Chamber have been working for decades to reform our system so children, the working poor, and the sick get the care they deserve. No one worked harder than my former seatmate and dear friend, Senator Edward M. Kennedy. Today we are on the verge of a sweeping overhaul. We are proud of Senator Kennedy for all the years he labored so hard.

This Senate and the President and the House must do the right thing for

the health of America's working families. Surely these families and their children are as critical with their contributions to America's well-being as those profiteering from their sweat and toil.

This debate is about our commitment to the millions of Americans who work hard every day, pay taxes, care for their kids, but risk the chance of losing everything because of a single illness. We declare here and now that we will not allow exaggerated profits to breach the primary obligation we have to all of our people to protect them from assault, whether from terror, natural disaster, or from the scourge of disease. In the wealthiest country in the world, no one should be left out and left behind because government won't respond to their cries for help.

I close with a reminder to those in this Chamber that our obligation far exceeds the attention it has gotten over the years; far exceeds any stretch of decency that we can muster; that we do something about it, that we show part of the shame we all feel when we look at millions of people who have no health insurance in this country while we see the compensation and the growth of these companies. I am a corporate person. I come from having run a very large corporation, one of the largest and one of the best in the country called ADP. It has over 240,000 employees. A couple of other fellows and I started that company. I took a look at the fellow who is now running that company. The company made over \$1.5 billion last year and his salary was \$1 million. He does a good job.

Some people here, largely on the other side—almost exclusively on the other side, except for one courageous Senator who stood up and said she is not going to let this go by without trying to do something serious about it—want to take the role of doctors and they want to write a prescription to do nothing but obstruct and say no. They want to say no to those looking to government for help and no to those desperately in need of health care. All they say is no, no, no. I summarize the Republican view and their health care mission. Theirs is a missile gone astray. Kill the Obama presidency with this Waterloo, regardless of the number of casualties among the citizenry. Their victory will be won with the political destruction of the Obama mission.

I say "no" is not the answer. It is time for us to act. I hope our colleagues in this Senate will look in the mirror and see how they would feel if a child suddenly comes up with a condition that is long lasting and that is hard to deal with. I have a granddaughter with diabetes. I have a grandson with asthma. Fortunately, they have good health care. I am able to afford to pay it. But there are lots of people in this country who can't. I would

like one of these people on the other side to stand up with them face to face and say, no, I don't think we ought to help you. I don't think we can afford to help you. I don't think my colleagues with whom I have an industry connection would like it if I helped you.

Too bad. Too bad, I say. I hope we gain some sense and some visibility in this debate over the next several weeks.

With that, I yield the floor and note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. UDALL of New Mexico. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HONORING OUR FALLEN HEROES

Mr. UDALL of New Mexico. Mr. President, I rise today to mourn the untimely deaths and celebrate the lives of two New Mexico heroes. One died just last week from injuries he sustained while serving his country in Afghanistan. The other was killed this past June in a helicopter crash after rescuing a stranded hiker lost on the Santa Fe Baldy Mountain.

Both men served their countries with distinction and honor. Both were raised in families with a strong tradition of public service. Both said "Choose me" when they were needed the most. Both paid the ultimate sacrifice. They are Army SFC Kenneth Westbrook and New Mexico State police sergeant Andrew Tingwall. I would like to tell you about them today.

Sergeant Westbrook's career in the military began more than 20 years ago after he graduated from Shiprock High School in northwest New Mexico. He married his childhood sweetheart, Charlene. Along the way, they had three children—Zachary, Joshua, and Joseph.

He served in the Persian Gulf war and did numerous other stints overseas in places such as Korea and Germany. He was a proud member of the Navajo Nation. He loved to hunt and fish, build model military vehicles, and was an expert chef and grill master.

His brother says Kenneth was looking forward to retiring from the military and spending more time with his family when he got the call for one more tour of duty—this time to Afghanistan. As much as he cherished the idea of spending more time with his family, Kenneth knew what he had to do: Of course, I will go, he said. Kenneth believed in the work being done in Afghanistan, his brother said. And if the Army needed him to complete that work, there was no question he would be there.

Kenneth was gravely wounded on September 8 when his unit was attacked by insurgents in Afghanistan. He was quickly flown to Walter Reed Army Medical Center for treatment. That is where I met his wife Charlene and other members of his family. That is where Sergeant Westbrook died from his injuries last week.

Military families are a special group of people. Every day they face sacrifices and challenges the average person can't imagine. They do it with grace and strength and an unwavering belief in the country they call home. That is what I saw the day I visited Charlene and Sergeant Westbrook's three boys. I saw a strength made even more striking when you realize this tragedy wasn't their first.

Four years earlier, almost to the day, another Sergeant Westbrook died. His older brother—SGT Marshall Alan Westbrook—was killed in Iraq when an improvised explosive device detonated near his humvee in Baghdad.

The Westbrooks have given more than most families. Their tight-knit family has paid the ultimate sacrifice, and for the Westbrooks, it happened not once but twice. As Americans, we often take for granted our freedoms, but we should never forget those whose sacrifice makes those freedoms possible.

Sergeant Westbrook will be laid to rest on Friday in Farmington, but he will forever live in the memory of New Mexicans.

This story of New Mexican heroism doesn't end there. I would also like to talk about New Mexico State Police SGT Andrew Tingwall, who was killed last June in a helicopter accident after rescuing a stranded, lost hiker. Sergeant Tingwall is being honored on Friday with a posthumous induction into the New Mexican Military Institute Alumni Association Hall of Fame, which I helped nominate him for. His honor is for Eminence in a Chosen Field. Similar to Sergeant Westbrook, Andy Tingwall's chosen field was service—service to his community, service to his State, and service to his country.

Known as "Ting" to his friends, Sergeant Tingwall graduated from the New Mexico Military Institute in Roswell in 1991 and joined the U.S. Marine Corps shortly after. During his military career, he became a jump-qualified reconnaissance marine and served with Delta Company's Fourth Reconnaissance Battalion. He continued his distinguished career as a New Mexico reservist from 1993 to 1995, when he joined the New Mexico State Police.

Eventually, he became lead instructor for the Training and Recruiting Division of the New Mexico Law Enforcement Academy before joining the New Mexico State Police aircraft section, where he became a pilot. Sergeant

Tingwall proved his merit there, serving as chief pilot of the unit—the youngest man to ever have that title.

Sergeant Tingwall was known by his colleagues, friends, and family for his heroism and love of the sky, saving many lives in his time with the State police. In 2008, he was celebrated as Officer of the Year by the New Mexico Sheriffs and Police Association and would have received a Medal of Valor in June, but for Sergeant Tingwall, that day would never come.

Sergeant Tingwall was in the middle of saving the life of a stranded hiker on June 9 when tragedy struck. He and his spotter, Officer Wesley Cox, had located the stranded hiker and Sergeant Tingwall was transporting her to safety when the helicopter struck a mountainside and crashed.

After the crash, as he had throughout his career, Sergeant Tingwall put the safety of others before his own. Despite being severely injured, he managed to pull the hiker from the wreckage before they both died from their injuries. Sergeant Tingwall was just 36 years old.

Duty, honor, country—three words you hear often when talking about those who commit themselves to a life of public service. Sergeants Westbrook and Tingwall personified those words, both in the way they lived their lives and in the way those lives ultimately ended.

New Mexico is proud to honor these true American heroes. To their families, we say thank you and ask them to accept the thanks of a grateful State and a grateful nation.

I suggest the absence of a quorum.

The PRESIDING OFFICER (Mrs. McCASKILL). The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. DURBIN. Madam President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from Illinois is recognized.

Mr. DURBIN. I thank the Chair.

(The remarks of Mr. DURBIN pertaining to the introduction of S. 1789 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

#### THE FEDERAL DEBT

Mr. DURBIN. Madam President, we have had an ongoing debate on the floor about health care reform, its cost, whether it is going to add to the deficit. We had an exchange yesterday or the day before with Senator MCCONNELL, the Republican leader. We talked a little bit about the debt America faces and how this debt came about.

Senator KYL, my Republican counterpart, Republican whip from Arizona

and a friend of mine, came to the floor and carried on this dialog and debate. When you consider the Senate Chamber is supposed to be about debate, it is all good that he would do that. But I do want to take exception to a couple of things my friend Senator KYL said.

Let me say at the outset, between 1998 and 2000, under President Clinton, our Nation ran a fiscal surplus. It is hard for many people now, when they look at a multi-trillion-dollar deficit, to imagine just a few years back we did have a surplus. We actually reduced the Federal debt in those 2 years by \$236 billion, our economy was doing well, creating jobs and businesses. That is what President George W. Bush inherited when he came to office.

Between 2001 and 2009, when President George W. Bush was in office, the economy grew. Normally you would think this period of economic growth would lead to an improved fiscal picture since tax receipts for government usually grow with the economy. Instead, under President Bush our Nation ran deficits during his term of nearly \$7 trillion. The cumulative Federal debt more than doubled under President George W. Bush, who inherited a surplus from President Clinton. It went up from \$5.8 trillion in 2001 to \$12.7 trillion in 2009.

At the end of the Bush administration, the economy faced the worst crisis since the Great Depression, the recession we are now encountering. That is what President Obama inherited when he was sworn in 9 months ago. Back in February, the Congressional Budget Office estimated that, assuming continuation of budget policies that were in effect in January of this year, the Federal budget deficit would average more than \$1 trillion each year over the next 10 years and would climb higher in later years. That estimate was developed based completely on the budget policies that the current President inherited from the previous President. So to argue that the Nation's fiscal woes should be all laid at the doorstep of President Obama overlooks the obvious. Given the soaring debts and woeful economy he inherited, it certainly is not defensible.

America will run a fiscal deficit this year and it will be a large deficit, there is no question about it. In an economy such as this, where there is so little private sector demand, we have tried to create through stimulus packages, re-investment, and recovery good jobs and economic activity that will revitalize our economy.

Why did President Bush have such record-breaking deficits during his tenure? I can tell you that he was the first President in the history of the United States to call for tax cuts in the midst of a war—in fact, in the midst of two wars. Giving tax cuts to the wealthiest people in the Nation during a war is counterintuitive. A war is an added expense to a nation, over and above the

ordinary costs of government, and to cut revenue sources by giving tax cuts to those in higher income categories drove us deeper and deeper into deficit.

In addition, President Bush during his term passed the Medicare Prescription Drug Program. I think it was a good program, although there were changes I certainly would have made before I would vote for it. But the fact is that the President did not pay for it. It was added to the deficit which the current President has inherited. It is little wonder then that the debt grew dramatically during President George Bush's time in office.

Having said all of this, we have to do something serious about this debt. I think we have to focus on putting this economy back on its feet, getting people back to work, making sure that businesses have credit, making certain that the money spent by our government is spent well, without waste. Those are certainly monumental tasks for us to face. But to say that this health care reform is going to add to the deficit is to overlook the obvious. President Obama has told Members of Congress: Don't send me a health care reform bill if it adds to the deficit. The Senate Finance Committee bill that passed this week did not add to the deficit. In fact, it reduced the deficit over a 10-year period of time. So we have taken President Obama's admonition seriously.

In a week or two, we will start the debate over the future of health care in this Nation with the understanding that whatever we do has to be paid for, that we cannot leave it as a debt to future generations. It is an awesome responsibility and challenge we face. It is one I think we are up to, that the American people would feel Congress had dropped the ball and had failed if we do not end up with health care reform. We have a lot of issues to work out among us. I hope Senator SNOWE on the Republican side will be joined by other Senators who can in good faith join in trying to solve some of these awesome problems we face, problems we have inherited. It is a major responsibility and one we accept with the leadership of the President to help us find that solution.

I yield the floor and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. SESSIONS. I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### THE NATIONAL DEBT

Mr. SESSIONS. Madam President, the American people are rightly very concerned about the reckless spending

being conducted in Washington spending that has resulted in huge national deficits. People sometimes think that Republicans and Democrats are just bickering, but the truth is that we have never had deficits such as these in the history of our country—perhaps only during the peak of World War II, when we were in a life-and-death struggle with millions of men and women in combat from one end of the globe to the other.

The fiscal year 2010 deficit is \$1.4 trillion. It is predicted to average \$1 trillion for the next decade, without relief in the outyears. People often ask me: When are we going to start paying it back? There is no plan to do so. There is not even any plan to reduce the size of the deficit. In years 8, 9, 10, we are talking about over \$900 billion in annual deficits. Interest today on our total debt is \$170 billion, will rise to \$800 billion in 1 year and that is just the interest on the money we must borrow in order to carry these deficits that are not being reduced in the out-years. It is unthinkable.

A lot of people think that the high deficit is due to costs from a health care reform bill. Health care reform will add to the deficit, but is not currently counted in the numbers I referenced because the Congressional Budget Office did its scoring before any health care bill was written. We don't have a final bill, so CBO couldn't score it accurately anyway.

The public debt will go from \$5 trillion to \$11.7 trillion in 5 years and triple to \$17 trillion in 10 years, tripling the national debt. The total debt from the founding of the American Republic will be tripled. That is a big deal.

My colleague, Senator DURBIN, and our Democratic colleagues have taken great pleasure in attacking President Bush. I was critical of President Bush's spending, but his average deficit was \$250 billion, which was too much and big. However, this year's deficit is going to be \$1.4 trillion. That is the deficit as of September 30, for this fiscal year. And we will carry an average deficit \$900 billion annually in the coming years. You can blame the origins of the deficit on President Bush if you want to, but President Obama's budget for the next 10 years, scored by the Congressional Budget Office, continues to score deficits at \$900 billion. Regardless, we are spending too much money. Republicans are guilty of it, and so are the Democrats. They promised to do better after they got elected this time, but I haven't seen any progress, frankly.

The media has reported recently that the valuation of the Finance Committee's health care bill by the Congressional Budget Office was quite positive. They said—you may have heard the phrase—that it was deficit neutral. How did that happen? How can you add millions of people to the rolls of in-

sured, and subsidize insurance for low-income people, all without having a cost? We need to examine that.

The CBO says the Finance Committee bill would cost \$829 billion over 10 years, but they say it is not going to increase the deficit. It will increase the number of people covered but not increase the deficit.

The Washington Post wrote:

The Finance Committee's bill is the only legislation on the table that meets Obama's objectives [ . . . ] all for less than \$900 billion over 10 years, and without adding to the deficit.

So that has been the spin. That has been the statement from the media.

The President said in his September address to Congress that he would not sign a health care reform bill that adds one dime to the deficit. Senator BAUCUS, the Finance Committee chairman, said:

Our balanced approach in the Finance Committee to health reform has paid off once again.

He said the bill was "a smart investment on the federal balance sheet." Would that it were so, but that is not an accurate statement. The American people know you cannot expand coverage for millions of the uninsured without incurring cost. There is no such thing as a free lunch. Money borrowed has to be repaid. If you make obligations to expand the federal government's role in our health care system, you must have the money to back it up.

So how can the CBO make such a report? It is not because they are dishonest. It is because they scored the bill the Washington way, and the bill was written by Members of this body and staff who understand the Washington way. They write the bill in such a way to hide its true cost. Republicans have done this in the past, but we are reaching new levels of it today.

Under the Baucus plan, true costs are hidden. The bill's requirements that all individuals have insurance does not fully phase in, for example, until 2014. However, new fees on insurers, medical device companies, drug manufacturers and cuts to hospitals and doctors take effect almost immediately. For example, hospitals will take cuts and see more patients beginning in 2010, but individuals are not required to have insurance coverage until 2014. If you are an insurance company, you will face increased taxes and new annual fees beginning in 2010, but again—individuals are not required to have insurance until 2014. Doctors' pay is kept stable in 2010, but under the Finance Committee legislation, doctors are expected to take a 25-percent pay cut beginning in 2011.

Why have we been engaging in these budget gimmicks? Both parties have been guilty of doing this. Why don't we just make the difficult decisions? We have succeeded in balancing the budget

in the past. But under the Sustainable Growth Rate formula as it applies today, our physicians the people that take care of us—would take a 25-percent cut in 2011. So, Congress fixes the formula, so to speak. We now call it the doctors' fix. We arrange for a short-term solution that keeps doctors' pay from being cut, but do not address the larger problem. If Congress were to fix the physician pay formula for 10 years, we would have about \$300 billion more in costs to figure in to our budget as a deficit. The proposal that came out of the Finance Committee proposes to raise the doctors' fees for 1 year. It does not propose what is absolutely necessary: a 10-year fix for doctor pay. So, the Chairman acts as if an update to doctor pay will not happen in 2011 so that the bill does not have to reflect the true costs. And Congress will update doctor pay, as it has every year since 2002.

The bottom line is this: the true costs of the Finance Committee bill will not begin until the new provisions are all phased in in 2014.

The Senate Budget Committee estimates—and I am a member of the committee—show that the Finance Committee bill cost for 2014 to 2023 is actually \$1.8 trillion. So although CBO says that it costs \$829 billion from 2010 to 2019, if you look at numbers from 2014 to 2023, the cost is \$1.8 trillion—twice as much—because the full benefits and expenses don't kick in until then that period.

Budget gimmicks used to offset the bill are misleading. This is not an honest way to represent the bill's costs, and it is designed for political reasons. It is designed to make the score look better than it is and to hide the true cost of enacting this legislation.

Let me use a chart.

The PRESIDING OFFICER. The Senator has used the existing time limit.

Mr. SESSIONS. I ask unanimous consent for 3 additional minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SESSIONS. The Senate Finance Committee bill is paid for in a number of ways. Perhaps one of the most unjustified claims is that we are going to produce \$404 billion in cuts to Medicare and Medicaid to fund an entirely new program.

First, it is doubtful that Congress will actually vote to cut \$400 billion from Medicaid and Medicare. However, CBO must assume we are going to cut it because that it included in the Finance Committee bill. CBO also assumed in their budget that we were going to raise a lot of tax money by being more efficient in tax collections last year, but those new collections did not materialize either. The IRS said they wouldn't get them, and they were right. Our number one priority, if we were to somehow make Medicaid and Medicare more efficient and more hon-

est and more effective and more productive and save \$300 billion, that money should stay in Medicare and Medicaid. Medicare is going broke. We know that to be true. Medicare experts and the trustees issued a dire warning that unless measures are taken to shore up the program, it will be insolvent by 2017. We have known that for a long time. These \$400 billion in cuts is very unlikely to happen. The rest of these basically are new taxes. I do not have time to go into them now.

But imagine this scenario: your family is running in a shortfall and you do not have enough money for your business and you have agreed that you would take on a Saturday job to make more income, would it be smart to buy a new car? You have a debt. You are trying to pay it down.

You take on more taxes, take on another job to bring in more income, but, in the midst of that, you start a new spending program? That is exactly what the Finance Committee bill proposes. Instead of getting Medicare on a sound footing, this bill raises taxes to create a new program. Supporters act like we should be thankful because it is deficit neutral, they say. That is not accurate. I know it, and every Senator in this body ought to know it if they have been around here very long.

I am sorry about where we are headed. This sort of scoring is the kind of flimflam financial management that has put us on the road to tripling the debt of the United States in 10 years. It is an abomination. Our children will be paying interest on our debts for the rest of their lives. Indeed, the interest on our national debt today is \$170 billion. In 10 years, CBO says it will be \$800 billion a year. Yet we spend only \$100 billion a year on education, by contrast.

So I say, somehow we have to slow down, make some difficult choices, and recognize that we do not have the money to do everything we would like to do. We do not have the money, and Congress must be more serious and more committed to improving Medicare, saving the program, and not going hog wild with new programs that we do not have the money to fund.

I thank the Chair for allowing me to go over and I yield the floor.

The PRESIDING OFFICER. The Senator from North Dakota.

Mr. DORGAN. Madam President, I ask unanimous consent to speak in morning business for 20 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### THE DEFICIT

Mr. DORGAN. Madam President, I know my colleague from South Dakota is waiting. I will try not to consume the entire 20 minutes. But let me first talk about deficit for a moment, since my colleague from Alabama described that.

I do not think there is anyone in here who takes a look at the fiscal policy we are on—and have been on for a long time—and feels very comfortable about it. It is not sustainable and we have to change it. But I do want to say this. It was not too long ago that this country went to war and, at the same time, cut taxes and did not pay for a penny of the war. In fact, even now we have people saying: Let's send 40,000 more troops to Afghanistan. I do not hear anybody suggesting we pay for that. What is that going to cost?

I will talk next week about my interest in what is happening in Afghanistan. I have been there. I have some real concerns about sending a lot of additional troops to Afghanistan and about our vital national interests. But let me say, whether it is fighting a war or deciding to send 40,000 more troops to another country, it costs money. Is everybody here willing to pay for it? Anybody willing to pay for it?

We have talked about this for years. We are in the middle of a war. We send men and women to the battlefield, and the fact is, not a penny of it has been paid for. In the previous administration, they insisted on tax cuts and pursuing a war strategy in Iraq and sending troops to Afghanistan and not paying for a penny of it. That also results in Federal budget deficits, and we have to resolve them.

The fact is, we cannot continue to describe a level of government the American people are unwilling or unable to pay for, and we have to get this fiscal policy under some control. Republicans and Democrats together are going to have to reconcile this. We must do it.

#### WALL STREET

Mr. DORGAN. Madam President, I came to the floor to talk about something else today. On the way to the Capitol this morning, I was thinking of this: a quote by Will Rogers. I heard on the radio again today that we have a couple things going on. No. 1, we have a whole lot of folks who have lost their home in the last quarter, with a record number of home foreclosures in our country—and then, in the same newscast, \$140 billion in bonuses to be paid by the major firms on Wall Street. I am thinking maybe these are two different countries or at least two different economies. Here is what Will Rogers said many decades ago. He said:

The unemployed here ain't eating regular, but we'll get around to them as soon as everybody else gets fixed up OK.

The unemployed "ain't" eating regular, but we will get around to them when everybody else gets fixed up.

Well, last year we watched some big shots steer this economy into the ditch. It caused an unbelievable financial wreck. It has had an impact on everything in this country. The fact is, we need to reform the system that allowed that to happen. But—do you

know what?—as to the story I heard this morning about \$140 billion of expected bonuses to be paid by the top 23 firms on Wall Street, the fact is, less than a year later, after the economic collapse in this country, we see these stories:

The U.S. has lent, spent or guaranteed \$11.6 trillion to bolster banks and fight the long-term recession in 70 years.

By the way, “banks” here mean the biggest financial institutions in the country.

The Wall Street Journal, August 31 of this year:

Wall Street is suiting up for a battle to protect one of its richest fiefdoms, the \$592 trillion over-the-counter derivatives market. . . . Five U.S. commercial banks, including JPMorgan Chase & Co., Goldman Sachs Group Inc. and Bank of America Corp., are on track to earn more than \$35 billion this year trading unregulated derivatives contracts.

This story is what we have been reading day after day.

Steven Pearlstein: “The Dust Hasn’t Settled on Wall Street, but History’s Already Repeating Itself.”

The Wall Street herd is at it again. Even as the cleanup crew is carting away the debris left by the last financial crisis, the investment banks, hedge funds and exchanges are busy working on the next one.

I will go through these in a hurry because there is a narrative here that is pretty easy to see.

The New York Times: “A Year Later, Little Change on Wall St.”

One year after the collapse of Lehman Brothers, the surprise is not how much has changed in the financial industry, but how little.

. . . banks still sell and trade unregulated derivatives, despite their role in last fall’s chaos.

The Washington Post, September 15: “The Wall Street Casino, Back in Business.”

Wall Street’s actual role is more like that of a giant casino where the gamblers are rewarded for taking outrageous, unconscionable risks with other people’s money. If the bets pay off, the gamblers win. If the long-shot bets turn out to have been foolish, we’re the ones who lose.

The Washington Post, September 8: “A year after Lehman, Wall Street’s Acting Like Wall Street Again.”

[Wall Street] still operates on the principle of taking care of itself first, really big and [most] important customers second, everyone else last.

The Wall Street Journal, August 22: “Bankers Play Dress Up With Old Deals.”

Irresponsible securitization helped bring the financial system to its knees. Yet, as banks start to heal, little seems to have changed. Wall Street has quickly fallen back on old habits.

The Washington Post, September 11: “Wall Street’s Mania for Short-Term Results Hurts Economy.”

It’s been a year since the onset of a financial crisis that wiped out \$15 trillion of

wealth from the balance sheet of American households, and more than two years since serious cracks in the financial system became apparent. Yet while the system has been stabilized and the worst of the crisis has passed, little has been done to keep another meltdown from happening.

The Los Angeles Times: “The Financial Meltdown: Crisis has not altered Wall Street.”

Bellwether firms led by Goldman Sachs Group are churning out mouth-watering profits. Risk-taking and aggressive securities trading are mounting a comeback. And compensation—the lifeblood of Wall Street—is pushing back toward pre-crisis levels.

The Wall Street Journal, October 14: “Wall Street On Track To Award Record Pay.” That was yesterday.

Major U.S. banks and securities firms are on pace to pay their employees about \$140 billion this year—a record high. . . .

Total compensation and benefits at . . . firms analyzed by the Journal are on track to increase 20% from last year’s \$117 billion—and to top 2007’s \$130 billion payout.

Total compensation and benefits at 23 major Wall Street firms—this, from the Wall Street Journal—you can see what has happened—2009—a record in the last 3 years. Nothing has changed. CNN news:

. . . there really is . . . this disconnect still between what’s happening on Wall Street . . . and what’s happening with the every day Joe. We talked about record home foreclosures once again, as we said these problems with employment, worries about whether benefits, jobless benefits are going to continue.

On the flip side, . . . major banks and security firms are on pace to pay employees \$140 billion this year . . . a record high.

And so it is. It was said once that investment banks are to productive enterprise like mud wrestling is to the performing arts. Well, I don’t know, I guess that was tongue in cheek. We need investment banking in this country. It is essential for the creation of capital. It can, working properly, assist this country, and has assisted this country in lifting our economic opportunities.

But we have all too often, in recent years, seen the creation of exotic financial instruments that have almost nothing to do with creating wealth, except for those who trade them and those who created them. That is what steered this country into the ditch. CDOs, credit default swaps, unregulated derivatives, dark money—a lot of people got wealthy trading it. The fact is, it created an unbelievable bubble of risk that began to wind this economy down and finally steered this economy into a serious wreck last fall. The question is, What do we do about that? Well, when you hear on the same newscasts that we reached a record number of home foreclosures and people are still losing their jobs, and then, on the other hand, we see the very same interests that have been at the trough of the Federal Reserve Board for at least \$8 trillion, at risk by the taxpayer, in

loans and commitments to some of the biggest financial enterprises in the country and then you see \$140 billion in compensation and bonuses from those firms? There is something disconnected here.

I want our financial system to work. I am not someone who comes to the floor of the Senate who says investment banks are worthless. That is not my point. We need investment banking. But we also need to understand we cannot take FDIC insured banks, those that are insured by the Federal Government, and decide it is OK if you trade on your own proprietary accounts on risky enterprises such as derivatives. That is all right. That is not all right. They may just as well put a keno pit or a craps table right in the middle of the bank lobby. Just call it what it is. It is simply flat-out gambling with the taxpayers’ money.

As we end this issue of financial reform, there are a lot of ideas around. What do you do to make sure this does not happen again? I wish to make this point: There is a doctrine called too big to fail. We have seen it in practice in the last year: interests that are too big, banks, investment banks especially, that are too big to fail, and so it is no-fault capitalism. Whatever risks they have taken, whatever losses they have had, the taxpayer picks that up to the tune of \$11 trillion in exposure from Federal programs.

Well—do you know what?—when the dust is settled, and whatever is done on financial reform, if we do not address this issue of too big to fail, shame on us. In fact, the very firms that are declared too big to fail are now getting bigger, supported by the Federal government, and that is flat wrong.

Let me quote Professor Joseph Stiglitz:

. . . our bail-outs run the risk of transferring large amounts of money . . . to those banks that did the worst job in risk management. . . . In effect, the government is tilting the playing field—towards the losers.

Paul Volcker says:

I do not think it reasonable that public money—taxpayer money—be indirectly available to support risk-prone capital market activities simply because they are housed within a commercial banking organization.

The question at the end of the day is, Are we going to address these things, such as too big to fail and get rid of no-fault capitalism and see if we cannot push investment banking to that which it used to be? I hope so. But on today, a day in which we hear of record home foreclosures and \$140 billion in bonuses and compensation on Wall Street, I just say there is some huge disconnection in this economy of ours and it is something we ought to care about and something we ought to do something about.

This country works best when we lift the country, when we expand the middle class, when we have jobs available

to people who want to work. There is no social program in this country as important as a good job that pays well. That is what makes everything else possible.

But this question of financial healing—when, first, the healing occurs to those who caused the problem, and the healing occurs in record compensation, \$140 billion, at a time when other people are struggling to pay their grocery bills, struggling to buy the medicine they need, struggling to make their house payment because they have lost their job, there is something missing in this country.

My hope is, when I see all these stories about Wall Street—the same old Wall Street, nothing has changed, going right back to the same old risk, right back to the same old risk because they know, they have learned in the last year, whatever they lose, the American people will pick up the tab—this Congress had better say to them: No more, no longer, never again. Too big to fail is a doctrine that cannot continue to live at the Federal Reserve Board or in this government. It is time those at the top at the biggest institutions who take the biggest risks, when they lose—it is time they lose, not the American people.

So we are headed toward financial reform. When that happens, I will be on the floor of the Senate talking about the too-big-to-fail doctrine and how we are going to end it, and quickly.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. WHITEHOUSE). The Senator from South Dakota is recognized.

Mr. THUNE. Mr. President, I ask unanimous consent to speak as in morning business for up to 20 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. THUNE. Mr. President, earlier this week the Senate Finance Committee, by a vote of 14 to 9, reported out its version of health care reform. That makes now five committees that have acted on this issue, five committees of jurisdiction—three in the House of Representatives and two in the Senate—all of which have now at least put out their products. But I say that loosely because what emerged from the Senate Finance Committee was not, in fact, legislative language; it was a concept paper. It is yet to be reduced to legislative language. That will take some time, I suspect, because many of the concepts that were included in the concept paper are pretty complex.

So what is happening now on the issue of health care reform, at least in the Senate, is in the leader's office. The chairman of the Health, Education, Labor, and Pensions Committee is meeting with the chairman of the Finance Committee, and I suspect a num-

ber of the members of the White House to hammer out what will eventually be the bill I suspect will come to the floor of the Senate. I say that only because the process has been very much flawed from the beginning. It is not one that is inclusive in terms of allowing ideas from our side of the aisle to be incorporated. It has not been a bipartisan process, to say the least.

My guess is that at the end of the day, what comes out of the leader's office will be a very different bill than anything we have seen so far. But I think there are certain characteristics in that bill that have been in all of the bills. I think we know a few basic things about all of the bills so far that are consistent, those things that have not changed.

The first one is it will lead to higher premiums. The second one is it will lead to higher taxes. The third one is it will include cuts in Medicare. So those three basic characteristics are the same with regard to all of the bills, the three that have emerged from the committees in the House of Representatives and now the two that have emerged from Senate committees and are currently being married up in the leader's office.

I predict when that bill comes to the floor of the Senate, the American people will have the same thing to look forward to that they have now with all of these various bills: higher premiums, higher taxes, and cuts in Medicare. Why is that significant? It is significant for this reason: Health care reform, at least as stated in terms of its purpose, is to lower costs. For the past decade and beyond we have been talking about health care costs in this country and how we have to do something to rein in the escalating costs people deal with every single year for health care and double-digit increases in health care costs for many of those years.

So the whole purpose of health care reform, at least my understanding of it, and I think as stated by the President and others, is that we need to rein in and get control of health care costs in this country. That is why it is ironic that of the five bills so far that have emerged from House and Senate committees, none bend the cost curve down. All increase premiums for people in this country, increase the costs for health care coverage.

In the Senate Finance Committee bill—the most recent version, which, as I said earlier, was reported out this week by a 14-to-9 vote—there wasn't a direct assessment or estimate of what that increase in premiums would be. There were simply generalized comments by the Congressional Budget Office that, yes, these increased taxes in the bill would be passed on generally dollar for dollar. In other words, the taxes that are imposed—a 40-percent excise tax on some of these insurance

companies—would be passed on in the form of higher costs or premiums to health care consumers in this country without being more specific or quantifying in any more precise way what those increased costs would be. Nevertheless, they said basically the same thing we have seen in all of these various bills, and that is that health care costs—coverage, premiums—are going to go up. We are going to have higher premiums.

In the last week or so we have now seen two studies where independent analysts have looked at this and concluded the same thing. In fact, the PricewaterhouseCoopers study from a few days ago went so far as to say if you are an individual buying in the individual marketplace, you are going to see your health care premiums go up about \$2,600 if this bill becomes law. That would be in the year 2019 at the end of a 10-year window, which is what the people who analyze these things look at. So it is about a \$2,600-per-person increase in premium if you are buying on the individual market.

If you are a small employer who is employing 50 or fewer employees or an individual who is employed at one of those small businesses, you would see premiums increase \$2,100 if you are an individual. If you are a family, you would see premiums increase \$5,400 under the bill that was produced and emerged from the Senate Finance Committee. So whether you are an individual buying on the individual marketplace or whether you are getting your insurance through your employer, you will see higher premiums, higher health care costs according to this analysis. If you are a family, it is the same thing. It is just a varying difference in the amounts, but it is anywhere from \$2,100 up to \$5,400 of increased premium costs, according to the PricewaterhouseCoopers study.

This week there was a study released by Oliver Wyman which came to the conclusion that if you buy your insurance on the individual marketplace, you will see a \$1,500 increase for single coverage and \$3,300 for family coverage annually. That is exclusive of inflation. That doesn't include the normal inflationary costs that we deal with year in and year out for health care in this country. This study concluded the same thing the PricewaterhouseCoopers study did; that is, whether you buy on the individual marketplace, whether you get it through your employer, if you are an individual or you are a family, you will see higher premium costs. As I said, in this particular study, it is \$1,500 for single coverage, \$3,300 for family coverage annually.

They also broke it down State by State, which is important because I think everybody wants to know how this is going to impact our constituents, including my constituents in

South Dakota. In this particular case, if you are someone buying on the individual market and you are an individual buying a single policy, you will see your health care premiums go up 47 percent. If you are someone who has a family buying on the individual marketplace, buying a family policy, you are going to see your premiums go up 50 percent. If you are in the small group market, if you have the good fortune of being in a larger group, you will see, if you are an individual, your premiums go up 14 percent. If you are a family in a small group market, you will see your premiums go up 15 percent, exclusive of inflation. So those are two recent studies where independent analysts have looked at the bill produced by the Senate Finance Committee and concluded there would be significant increases in premiums and in what people would pay for health care in this country.

So it begs the question: How is this reforming health care? The stated purpose of health care reform is to lower costs, to drive down costs for individuals and families. As you can see from these studies, that certainly isn't the case. Of course, the Congressional Budget Office, as I said earlier, indicated in response to questioning about the Senate Finance Committee that although they hadn't drilled down and figured out exactly what those premium increases would be, that inevitably you would have higher premium costs simply because the taxes imposed under the legislation would be passed on to health care consumers, and everybody who is buying health care out there would see their premiums increase, generally speaking, dollar for dollar. That was the conclusion of the Congressional Budget Office.

So higher premiums, that is the first thing we know about all of the health care reform plans so far that have been put forward.

The second thing we know as well, with certainty, is that they all include higher taxes. The House versions of this legislation used payroll taxes. They have an employer mandate—what we refer to as a pay-or-play mandate. There are additional, I guess you would say, “add-on” taxes for people who are in higher income categories, so they finance it with different forms of taxes. The tax increases proposed by the Senate Finance Committee—as I said earlier, there is an individual mandate, so if you don't have insurance, you will pay penalties. That will be a certain tax or fee on individuals in this country which will hit a lot of lower income individuals. But the insurance companies which would be hit with these tax increases, of course, would then pass those on to health care consumers. So, again, we see increases in taxes.

What the Congressional Budget Office did with respect to the issue of taxes is, it did go so far as to say where

that tax burden would lie. Under the Congressional Budget Office estimate, 89 percent of the higher taxes in this bill produced by the Senate Finance Committee would fall on those wage earners, those taxpayers in this country earning less than \$200,000 a year. They went so far as to say that, I think it was 71 percent of those—and that was in the year 2019—71 percent of that tax burden would fall on those earning under \$200,000 a year when the bill initially kicks in.

So we are going to see significantly higher taxes on people making under \$200,000 a year, according to the Congressional Budget Office.

The Joint Committee on Taxation has also analyzed this issue, and they came to some conclusions earlier this week as well, one of which was that, similarly, we would see almost 90 percent of the tax burden under this bill falling on those households with incomes under \$200,000 a year. They went so far as to say that more than half of the tax burden would fall on those households with incomes under \$100,000 a year. So almost 90 percent of the tax burden falls on wage earners, taxpayers with incomes under \$200,000 a year, and over half of the tax burden falls on those wage earners, those taxpayers with incomes under \$100,000 a year. That is according to the Joint Committee on Taxation.

So what does that mean? Well, that means the President's promise that health care reform would not impose taxes on those earning less than \$250,000 is just a bunch of hot air. It just doesn't add up. We have the Joint Committee on Taxation and the Congressional Budget Office all saying that the disproportionate share of these taxes—the tax burden—about 90 percent is going to fall on \$250,000 and under and over half, over 50 percent of the tax burden, falling on income earners, wage earners, taxpayers in this country with under \$100,000 in income.

So the whole idea that somehow working families are going to be spared from the higher taxes under this bill just doesn't hold water. So what we are going to see in this bill is not only higher premiums that are going to affect people across this country who are expecting, because they have heard that health care reform is supposed to lower their health care costs—they are going to see higher premiums. Premiums are going to go up. They are also going to see their taxes go up, and go up significantly because if you look at the Joint Committee on Taxation—and this is a letter that was written in response to questions that were raised by members of the Senate Finance Committee, and it says:

Subsidy phase-outs raise marginal tax rates because for every additional dollar you earn, you are eligible for a smaller subsidy, imposing potentially high effective tax rates on that additional dollar and reducing your incentive to earn that additional dollar.

According to the Joint Committee on Taxation, families earning 150 percent of the Federal poverty line—and that is \$32,200 of income in this country; that is, 150 percent of the Federal poverty line—will face an effective marginal tax rate of 59 percent, meaning that for every additional dollar these taxpayers earn, they are losing 59 cents of it in foregone subsidies in taxes: Effective marginal tax rate, 59 percent on a wage earner who is making—that is 150 percent of the Federal poverty level or \$32,200. So there are lots of higher taxes in this legislation and lots of higher premiums.

Of course, the final point I will mention, and the other point we know is consistent in all the bills, is significant cuts in Medicare. Under the Senate Finance Committee, there is almost a half trillion dollars' worth of cuts in Medicare in the form of Medicare Advantage, which is about \$133 billion that will be cut out of seniors who are receiving benefits under Medicare Advantage: hospitals, home health agencies, hospices, pharmaceuticals—everybody gets a haircut under this proposal, all of which I would argue is unlikely to happen. Here is why.

Anytime Congress has enacted changes in Medicare that were designed to achieve savings, they inevitably go back and reverse course. We have lots of history to support that assumption. But, nevertheless, let's assume for a minute these taxes did occur.

A \$500 billion, or  $\frac{1}{2}$  trillion, cut in Medicare that impacts seniors and health care providers in this country will be one of the results of the reform legislation that is being proposed by the Democrats in the Senate. The Finance Committee's version of that is the most recent. So that is  $\frac{1}{2}$  trillion in Medicare cuts,  $\frac{1}{2}$  trillion in tax increases, and \$1.8 trillion in new spending when it is fully implemented.

There was sort of a smoke-and-mirrors approach used to shield the true cost of this by having the revenues kick in immediately. The tax increases kick in right away, but the actual costs under the plan don't kick up for about  $4\frac{1}{2}$  years. You have all these tax increases hitting people right away, and so the 10-year cost of this is understated significantly. CBO said \$829 billion over the first 10 years. I think the important number to look at is what is the cost of this when fully implemented over a 10-year period. It is \$1.8 trillion. That is \$1.8 trillion in new spending, which is financed with higher taxes, cuts in Medicare, and, ironically, no savings to health care consumers because every analysis done says it is going to lead to higher premiums. I argue as well, in addition to higher premiums, there will be higher taxes and Medicare cuts.

You are also going to see a significant reduction in the quality of service in this country, as you have more and

more government expansion in Washington, DC, more and more government involvement in the decisions that are made. The government will now put mandates on what types of policies meet their threshold, their standard. I think, inevitably, in every model around the world where you have that level of government intervention, it leads to a rationing of care, denials of care, and delays with respect to care.

I argue that the whole idea of this being characterized or labeled as reform is completely mislabeled. There is nothing that is reform about this. It raises premiums, raises taxes, and cuts Medicare. I think you are going to see, in addition to that, diminishment in the services that are available to people in this country through many of these programs.

What is the alternative? We believe that rather than throwing the entire health care system overboard in this country, we ought to be looking at what we can do on a step-by-step basis to improve it. Republicans have offered a number of alternatives. We can allow buying insurance across State lines. We believe interstate competition in buying insurance would put downward pressure on prices in this country. That is a good solution. We can have small business health plans, allowing small businesses to join groups. Group purchasing power will bring downward pressure on insurance prices. By the way, that is something a number of us voted for many times here in the Congress. It has always been defeated. Also, we can deal with the issue of medical malpractice reform, which, according to CBO, has significant savings—\$54 billion. That applies to the government side of health care. If you extend that to private health care—I think there are estimates that defensive medicine in this country costs \$100 billion to \$200 billion annually. So if you could address that issue that deals with litigation costs and defensive medicine, you would see savings grow over the estimates of the CBO.

Having said that, those are several things, just off the top right there, that we think are step-by-step improvements in our health care system in this country. That doesn't throw overboard everything that is good about American health care. It doesn't move us toward a government plan or a single-payer system like they have in Europe, Canada, or someplace like that. It preserves the competition we have in the marketplace today and a market-based delivery system for health care in this country.

We will continue to talk about those ideas, as well as many others, including providing tax credits that will give access to health care for those who don't have it. There is a way to do that that is very simple.

By the way, the Baucus bill, the Finance Committee bill, still leaves 29

million people in this country without health insurance. In spite of \$1.8 trillion in spending, new taxes, higher premiums, and everything that goes with that, you are still not getting many of the people who don't have health insurance covered.

We think the bill that will be brought before the Senate—we don't know what it is at this point because it is being written behind closed doors—is the wrong approach, and the correct approach is a step-by-step process that addresses the shortcomings, the flaws, and attempts to fix those in a way that doesn't bust the bank or the budget, that doesn't raise taxes on consumers and raise premiums for health care consumers, and that doesn't cut Medicare for seniors across this country and for many of the providers that are out there.

Mr. President, I hope that as the American people listen to this debate, they will engage on this issue; that the bill—whatever comes out of the discussions going on in the leader's office, I hope there is an ample amount of time for the American people to analyze it and for Members of the Senate to digest it. This is literally one-sixth of the American economy. We are talking about reorganizing one-sixth of our entire economy. We should do it with great deliberation and great diligence and with a great amount of care and, I argue, not by throwing the current system overboard and wrecking it but by taking a step-by-step approach that improves the system we have today and provides access to those who don't have health insurance and does something to bend the cost curve down and drive health care costs down rather than raising them, like all the bills that have been produced by the Democratic majority in the Congress.

I yield the floor.

The PRESIDING OFFICER. The Senator from Vermont is recognized.

Mr. SANDERS. Mr. President, I wish to spend a few minutes talking on an issue that I think is of concern to tens of millions of senior citizens. Before that, I ask unanimous consent for Senator CHAMBLISS to follow me on the floor.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### SOCIAL SECURITY

Mr. SANDERS. Mr. President, as you know, today the Social Security Administration announced there will be no COLA, or cost of living increase, next year for more than 50 million seniors. That is the first time in 35 years that situation has occurred, and it worries me very much.

About a month ago, I introduced legislation which the occupant of the chair is a cosponsor of, along with Senators LEAHY, DODD, STABENOW, BEGICH, and CASEY.

I ask unanimous consent to add Senator MIKULSKI and Senator TOM UDALL as cosponsors of S. 1685.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. SANDERS. We are all saying that in the midst of this major economic downturn, the worst recession since the Great Depression, while we are keenly concerned about the 9.8 million Americans who are unemployed officially, the Americans who have given up looking for work, the millions of Americans who are working part time when they want to work full time—when you add that all together, that is something like 17 percent of our workforce, about 26 million Americans. We are concerned about that issue, and we have to do everything we can to make sure we get this economy going in a way that benefits not just Wall Street but ordinary Americans.

While we remain concerned about the need to start creating the millions of jobs the middle class in this country desperately need, we cannot turn our backs on the senior citizens of this country. What we are seeing today is that millions of seniors are facing extremely high prescription drug costs. They are facing very high health care costs. We have to address that issue.

The legislation I introduced—and it was introduced by Congressman DEFazio in the House—would provide a one-time \$250 payment for more than 50 million seniors and disabled veterans. We would pay for that cost of about \$14 billion by raising the Social Security tax on people who earn between \$250,000 and \$359,000, on a 1-year basis—about \$14 billion.

What I am delighted about is that yesterday President Obama announced his support for the concept of a \$250 one-time payment to our seniors on Social Security and to disabled veterans. He did not yet determine, in his judgment, the best way to fund that program. I think it is a real step forward that he is doing that. I am delighted that the majority leader, Senator REID, has also been very strong on saying we have to make sure our seniors get some help this year, as has Speaker PELOSI and the chairman of the Ways and Means Committee, Congressman RANGEL. I think we are making some real steps in the right direction.

Let me quote what the President said because I think he was right on:

Even as we seek to bring about recovery, we must act on behalf of those hardest hit by this recession. That is why I am announcing my support for an additional \$250 in emergency recovery assistance to seniors, veterans, and people with disabilities to help them make it through these difficult times. These payments will provide aid to more than 50 million people in the coming year, relief that will not only make a difference for them, but for our economy as a whole, complementing the tax cuts we've provided working families and small businesses through the Recovery Act.

I very much appreciate that support from the President.

The bottom line is that this legislation is now in our jurisdiction. My hope and expectation is that we are going to move it as quickly as possible. With the President's support, we should be able to accomplish that in a short while.

In Vermont, I can tell you there are many seniors making the difficult choice about whether or not to heat their homes or pay for prescription drugs. Those are choices Americans should not have to make. Many seniors are also going to be seeing an increase in the cost of Medicare Part D.

If we do not deliver on this one-time \$250 payment, you are going to see millions of seniors with a reduced amount in their Social Security check. That is not acceptable.

I think we are making some progress on this issue. Again, I thank Senator REID for his strong support, Speaker PELOSI for her support, and most important, the President for his support. Let's get this done on behalf of seniors and disabled veterans. I think we will have done something that is very important.

With that, I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CHAMBLISS. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### RETIREMENT OF FURMAN BISHER

Mr. CHAMBLISS. Mr. President, I rise to honor a giant in the world of journalism, Furman Bisher.

Last Saturday, after nearly 60 years of elegant observation of the sports world for the Atlanta Journal-Constitution, my friend Furman Bisher pecked out his last and final column before retirement on the thinning keys of his trusty, old Royal typewriter. His choice of instrument to convey his thoughts in this age of instantaneous, inane chatter says a lot about why newspaper readers, after all these years, have continued to seek out his column on the AJC's sports page.

It all comes down to this: Furman's graceful prose, courtly voice, and sharp observations are unfailingly backed up by his old-fashioned shoe-leather reporting. He gloried in doing his homework, making that extra call, interviewing one more player or assistant coach or trainer in order to breathe even more life into the game or the race or the fight for his readers.

It is also why Furman has become a Georgian—and American—institution.

Simply put, Furman Bisher loved sports and he loved journalism. At age

90, he was still driving out on summer nights to cover minor league baseball games.

In his career, Furman scored many journalistic knockouts, including a 1949 interview with Shoeless Joe Jackson, the only one Jackson ever gave regarding his involvement in the 1919 Black Sox scandal.

He got stock tips from Ty Cobb and watched every Masters, including Jack Nicklaus's 1986 Masters victory, which he gloried in. He sat in the press box at countless Falcons games at Atlanta-Fulton County Stadium and the Georgia Dome and covered the Olympics, both winter and summer.

He wrote 11 books, including co-authoring two editions of a Hank Aaron autobiography. At the Masters Tournament in Augusta every April, Furman reigned among the azaleas and oaks as the dean of the sports press corps.

In a testament to his longevity in a tough business, Furman has covered every Kentucky Derby since 1950 and every Super Bowl but the first one.

Furman even branched out into TV. Although I did not grow up in Atlanta, I have heard from many people that preachers across the city would cut a sermon short so that their congregations could be home for Furman's kickoff on "Football Review."

Along the way, he earned the respect of his colleagues and the loyalty of his readers, garnering writing awards too numerous to mention. Red Smith is acknowledged as probably the dean of all journalists from a sports perspective, and Furman Bisher has often been referred to as the "Red Smith of the South." He served as president of the National Sportscasters and Sports-writers Association from 1974 to 1976, and of the Football Writers Association of America from 1959 to 1960. His features have appeared in The Saturday Evening Post, Golf Digest, and Sports Illustrated, to name but a few.

In 1961, Time magazine named him one of the five best columnists in the Nation. I would argue that even today, that honor still fits.

No less than the great Jack Nicklaus said of Furman's retirement:

He might be turning in his last column for the newspaper, but Furman will never stop writing or giving his opinion. I guess you could say that when it comes to the last writings of Furman Bisher, I will believe it when I don't see it.

Furman would close every column with a single valediction—the word "selah," a Hebrew word that ends many Psalms and that exhorts the reader to reflect.

It is appropriate then to reflect on Furman's long, fruitful career, one that began in Atlanta as the Korean war was starting, when Joe Louis was still boxing, when the Minneapolis Lakers were the NBA champs, before Willie Mays had joined the Major

Leagues, and before Sports Illustrated even existed.

Ever since, with wit and style, Furman Bisher has chronicled the triumphs and the travails of the sports world and its often all too human heroes.

Furman is leaving the AJC at almost 91 years old, and he is still going strong. While we may not be seeing his column on a regular basis, I am quite sure we have not heard the last of Furman Bisher. As Furman would say, selah. I am thankful for Furman Bisher.

I yield the floor, and I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. CASEY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### AFGHANISTAN AND PAKISTAN

Mr. CASEY. Mr. President, I know the hour is late and many are ready to end the week. I wish to say a few words tonight about the challenge we have with regard to Afghanistan and Pakistan and our strategy going forward.

I spent some time in the last couple of weeks talking about the obligation we have in the Senate to have a full debate on these issues and not simply to point down Pennsylvania Avenue and say the White House has to do this or that or the President has to do this or that.

It is important, I believe, that the President and his team have taken the kind of time they have to get the strategy right with regard to Afghanistan and Pakistan. But I believe the Congress has a role to play. If we simply fall into partisan corners with regard to our strategy in Afghanistan and dust off and reintroduce talking points from the war in Iraq, we will not get it right; we will get it wrong.

I believe we have to listen to a lot of different points of view. The President has undertaken that kind of review, and we have to do that as well.

Part of that is doing what we have already begun to do, which is to have a series of hearings.

In the Foreign Relations Committee, we have had a number of hearings. I know the Presiding Officer, as a member of the Intelligence Committee and his work as a Senator, has engaged in this review as well. We are trying to get different points of view in front of us. I know Chairman KERRY and the Foreign Relations Committee have had too many hearings to count, and not just in the last couple of weeks but over many months.

Chairman LEVIN and the Armed Services Committee have outlined a strategy, or at least an approach to part of

a strategy, to focus on building up the Afghan National Army and the police on an accelerated basis so we can begin to move the responsibility more to the Afghan people and the Afghan governing institutions as opposed to having the United States and other coalition partners bear this responsibility solely. Chairman LEVIN has spent a good deal of time trying to contribute to this debate.

We have heard both Democrats and Republicans contributing to this discussion. As much as we have heard about General McChrystal's report and his recommendations—and we have heard a good bit about that, and we should, and we have heard an awful lot about his recommendation with regard to troop levels, almost exclusively, General McChrystal's recommendations about troops.

If you read his report—the report that is now public—he talks at length in that report about every topic under that heading and does refer to troops, but he also talks about at least three areas. One, he talks about security. Obviously, as the commander, he should address that issue, and he does. But he also talks about governance and development. Those three areas are critically important. We can get the troop level right and get the whole strategy wrong. Even if we focus on security, which obviously involves troop levels and military determinations we have to make, we have to get it right with regard to development and also with regard to governance.

I note for the record an article from—I do not have it in front of me, but I will refer to it. The New York Times on October 2 had a story about General McChrystal's approach to the strategy, but he was quoted in that story talking about debate and deliberation.

I have been listening to some people who talked about what he is recommending. One would think all he did was put together a report, send it to Washington, and the report said “add troops” and that is all he had to say. General McChrystal—I am paraphrasing—did refer to both debate and deliberation to get the strategy right. He also said we do not have the luxury of moving too fast. I think that is instructive of what he has been recommending.

I want to talk tonight briefly about one of those three areas, not security or development, but governance, and in particular talk for a moment about elections and other aspects of governance as well as the judiciary.

I know the Senator from Rhode Island, the Presiding Officer, is a member of the Senate Judiciary Committee and a former prosecutor and understands how important the judiciary is to a functioning democracy. We have a ways to go and the Afghan people have a ways to go between here and there,

meaning here where they are today and where they must get to with regard to their judiciary.

In terms of the election, we heard a lot about the problems, and some of it bears repeating. As documented by the National Democratic Institute, the International Republican Institute, Democracy International, and a host of other international observers, the elections in Afghanistan saw widespread fraud amid an atmosphere of escalated violence. We saw many of these problems coming before the elections, and despite having years to prepare, there is still not a reliable voters list, which opened the possibility of wholesale fraud on election day. The “single non-transferable vote system” for the provincial government elections has led to candidates gaining seats with only a few actual votes. On election day, many citizens were too scared to vote, citing Taliban threats to bomb polling stations or literally cut fingers off of voters. Afghanistan itself can and should take several concrete steps or measures to address these issues prior to the next election, including fixing the voters list, considering moving away from the single nontransferable voter system, and enhancing the security environment for voters in the pre-election period and on election day.

I would add to this that when I was in Afghanistan and Pakistan back in August with Senator BROWN and Congressman ZACK SPACE, we had several briefings and one of them was on the election. One point that was made we shouldn't lose sight of. This election, for all the fraud that we know is on the record now, for all the problems, the security environment was generally good. The fact that despite those threats by the Taliban an election took place in a time of war and under an adverse, difficult security environment shouldn't be glossed over. It was a significant challenge. So we had a lot of fraud, but in terms of security there is some good news on the security front.

Organized representation of any citizen's interests in Afghanistan also remains underdeveloped. The electoral system disincentivizes the development of vibrant party structures. This is problematic, because without political parties—it is hard for us to understand this is still a problem—without political parties that can help to organize and represent the policy concerns of the people, there is little hope that the Parliament's legislation can truly reflect the will of the Afghan people.

Governing institutions in Afghanistan have atrophied over decades of civil war and Taliban rule and have begun to develop other problems as well, but institutional reform is vitally necessary. We know that the idea of a strong central government in the history of Afghanistan is somewhat of a foreign concept. In recent years, the international community has placed an

emphasis on the development of governing institutions in Kabul, capable of projecting its presence and influence across the country, but it has been a difficult challenge. Not enough attention has been paid to the development of proper financing of local governing institutions. Provincial government is underfunded, and that opens the door to local level corruption.

Local and international development nongovernmental organizations often take the lead in local development projects, which can serve to minimize the role of the provincial government at a time when we need their role to be strengthened in terms of what people see. So just at a time when you need strong evidence of local government, sometimes the NGOs are doing a lot of the work.

While the international community has not paid enough attention to the development of local governing structures, the Taliban, unfortunately, understands the importance of connecting with the people at the local level. Over the past few years, the Taliban has established shadow governments across the south which mete out their form of Sharia justice. They have ombudsmen who travel from district to district to gauge the work of the Taliban shadow government and their officials. And of course we know that Mullah Omar, the former head of the Taliban-led government, now runs the so-called Quetta Shura—QST as it is known by its acronym—and they have produced a 30-page manual, believe it or not, on how best to win the favor of the local population.

So the Taliban is not just thinking in military terms. They have already not just thought about but have begun to implement a governing strategy, and our government—our strategy—and also the Afghan people, as well as our coalition partners—have to think this through as well and get it right. It is important we get this right—the governing part of our challenge—as much as we get the military part of this right.

The Afghan Government should make every effort to devolve power and resources to the local level to bring good governance as close to the people as possible. The provincial reconstruction teams can help and play a supporting role, but this essential connection between the Afghan citizen and government must be an Afghan-led enterprise.

Let me conclude with this thought about the judiciary. The Taliban are threatened by a strong judiciary, as evidenced by its deadly attack on the Ministry of Justice in Kabul earlier this year. High levels of endemic corruption, insufficiently trained staff, and a complicated system of western, customary, and Sharia law hinders the Afghan Government's ability to provide justice for its people. This is perhaps the biggest threat to the Afghan

Government's viability, the Taliban's ability to provide quick, albeit brutal, justice, which sharply contrasts with the corrupt government officials who are unwilling or unable to take action. So in the absence of a strong effort by the government to provide the kind of judiciary that we would hope they could provide, the Taliban has filled the void. Thus a majority of legal disputes are settled outside of the state's formal justice system. With little trust in the government, the population can easily turn to the Taliban for a swift, brutal form of justice.

As we ramp up our efforts to train the Afghan National Police force, we must at the same time consider parallel reforms that must take place within the formal justice sector. We must support Afghan efforts toward institutional reform in the Ministry of Justice so that the local population will not rely only upon the informal justice sector, or worse, turn in fact to the Taliban for justice.

There has been noteworthy progress in some democratic institution building within the country. First, by way of example, the Ministries of Defense and Interior are often recognized for their positive efforts. And while considerable work remains to be done, each has made significant strides in recent years. I can say from somewhat of a firsthand observation that both Defense Minister Wardal and Interior Minister Akmar, two ministers we met with on our trip in August and sat down with, indicated to me they have a strong sense of where they have to go to develop the Afghan army and police force, the security for the country. But they still have to demonstrate that over time. No matter who ultimately wins the Presidential election, I hope that the Afghan Government will retain these important ministers, who have the institutional knowledge of success and of clear plans for continued development.

Second, the health sector, in particular, has seen impressive gains since the fall of the Taliban government. Today, in Afghanistan, 82 percent of the population lives in districts with access to a government-provided health care package, up from 9 percent in 2003. That is a bit of good news we don't often hear about, but I am sure there is progress yet to be made there as well in terms of health care.

Third, the education sector has seen improvements as well. In 2001, less than 1 million children—probably about 10 percent of the school-aged population—were enrolled in elementary or secondary education, and almost none of them were girls at that time. Today, more than 6 million children are enrolled, 2 million of whom are girls. So there has been measurable and significant progress in Afghanistan despite the recent deteriorating security environment.

Building on these fragile gains will rest in large part on the viability of the Afghan democratic institutions. The United States can help in this effort through the continued provision of development assistance and other forms of diplomatic and political support for Afghanistan's institutions. While the security situation is increasingly grave, between 79 and 91 percent of the population remains opposed to the Taliban and their brand of violent politics and their brand of justice. I hope we can consolidate on the gains made in Afghanistan and seriously begin to address the severe shortcomings that remain in the democratic development of the country.

In conclusion, I would say that despite all the bad news about the security environment, which is news we need to hear, we need to put it in the context of the two other challenges beyond security—governance and development. I have pointed out some real problems with the governance, especially as it relates to the judiciary, but we have had some progress on health and on education. We need to accelerate and develop that and incentivize it and get it right, but we have seen some good news.

So I think as we debate this strategy going forward, those of us in the Senate who have a role to play here and who feel the obligation to get this right have to focus on more than just security and troops and the military. We have to make sure that we get strategies in place to enhance and increase the governance priority as well as development. We will talk more at another time about development.

I thank the Chair and yield the floor.

#### HONORING OUR ARMED FORCES

SERGEANT JOSHUA KIRK

Mrs. SHAHEEN. Mr. President, it is with deep sympathy and a heavy heart that I express my condolences to the family of SGT Joshua Kirk who was killed on October 3 in Afghanistan. Joshua was serving his second tour of duty as part of Operation Enduring Freedom. The American people will forever be grateful for his ultimate sacrifice.

Sergeant Kirk enlisted in the Army in the spring of 2005, joining the 4th Infantry Division based out of Fort Carson in Colorado Springs, CO. He was originally from Thomaston, ME and attended Southern Maine Community College, where he met his wife Megan of Exeter, NH, and earned a degree in construction technology.

Joshua believed deeply in his mission and in the cause of freedom for which he and seven of his fellow soldiers sacrificed their lives together. Words will not assuage the anguish each of these soldier's family will feel, nor the sense of loss at Fort Carson when these brave men failed to return home, but we hope

that one day these families will take solace in what President Lincoln described as "the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom."

Our Nation can never fully repay the sacrifice Sergeant Kirk and his family have made. Through his service, he helped preserve the safety and security of the American people. It now falls to all of us to take up this responsibility and ensure that the cause Sergeant Kirk gave his life for is won for his wife and young daughter.

I ask my colleagues to join me and all Americans in honoring the life of SGT Joshua Kirk.

STAFF SERGEANT KURT R. CURTISS

Mr. HATCH. Mr. President, I rise today to pay tribute to U.S. Army SSG Kurt R. Curtiss of Utah who made the ultimate sacrifice for his country on August 26, 2009. The staff sergeant died from injuries sustained from enemy small arms fire in Paktika Province, Afghanistan. Staff Sergeant Curtiss was leading his unit into a hospital trying to rescue patients trapped inside when the attack occurred.

Staff Sergeant Curtiss was assigned to Headquarters and Headquarters Company, 1st Battalion, 501st Parachute Infantry Regiment, 25th Infantry Division, Fort Richardson, AK, in support of Operation Enduring Freedom.

On the day after the September 11 attacks, Kurt Curtiss enlisted in the Army. He wanted to protect his country and make the world a better place. This call to service led to two tours in Iraq and a final tour in Afghanistan. The sense of patriotism exhibited by his actions provides a striking example to us all.

Early in his youth, Staff Sergeant Curtiss learned of selflessness and acceptance as he grew up in a home where his mother cared for over 60 foster children. He will be remembered for his love, devotion, compassion, and humor. Curtiss loved life. He was a caring man who always placed others before himself, a characteristic exemplified by his final moments.

Staff Sergeant Curtiss left behind a wife and two young children who I hope can find solace in the immense gratitude that our Nation owes for his selfless service to his countrymen. We are forever in his and his family's debt.

Therefore I know that I am joined by all of my colleagues in the Senate in mourning the loss of SSG Kurt R. Curtiss, our protector and hero.

#### REMEMBERING SENATOR EDWARD M. KENNEDY

Mr. KIRK. Mr. President, yesterday evening, President Obama delivered another eloquent tribute to Senator Edward M. Kennedy. I am sure my colleagues will be pleased and touched to see it, and I ask unanimous consent that excerpts from the tribute may be

printed at this point in the RECORD. I also ask unanimous consent that a series of tributes to Senator Kennedy from "The Hill" newspaper on August 29, 2009 may be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXCERPTS FROM REMARKS BY THE PRESIDENT  
AT AN EVENT CELEBRATING THE EDWARD M.  
KENNEDY INSTITUTE FOR THE UNITED  
STATES SENATE

(Ritz Carlton Hotel, Washington, DC, Oct. 14, 2009)

The PRESIDENT: Thank you so much. Thank you, Patrick, for that generous introduction, and for ensuring that the Kennedy family spirit of public service lives on as strong as ever. . . .

And to Vicki and all the members of the Kennedy family—to Ted and Kara, obviously Patrick—there are few who are not inspired by the grace and love that all of you have shown throughout a difficult time.

Our friend Ted left us less than two months ago. In the days that followed, we gathered in Boston to celebrate his life—with a joyous Irish wake of sorts at the John F. Kennedy Library, and with heavy hearts on Mission Hill. We watched as mourners lined the streets of Massachusetts and Washington in the rain to say a final thank you; and as decades' worth of his colleagues and staff lined the steps of the Capitol to say a final goodbye. We smiled as the Caucus Room in the Russell Building, a room where so much American history was made, was renamed for the three Kennedy brothers who served there.

And over those days, there was some small measure of comfort in the fact that millions of Americans were reminded of Ted Kennedy's legacy, and a new generation came to know it. His legacy as a man, who loved his family and loved his country. His legacy as a senator, who crafted hundreds of pieces of legislation and helped pass thousands more, all with an incalculable impact on the lives of millions.

His legacy as a mentor, who not only taught so many young senators, including myself, but inspired so many young people and young staffers, some who entered public service because of Teddy, others who—because of him—just plain refused to leave. . . .

When Teddy first arrived in the United States Senate, he immersed himself in the issues of the day and the concerns of folks back home. But he also threw himself into the history of the chamber. He studied its philosophical underpinnings; he studied its giants and their careers; the times that influenced its members, and how its members influenced the times. He became fluent in procedure and protocol, no matter how obscure, until he could master the Senate as easily as he mastered the oceans.

No one made the Senate come alive like he did. He loved its history and its place in our American story. Rarely was he more animated than when he'd lead you through the living museums that were his office and his hideaway office in the Capitol. They held memories that stood still, even as he refused to. And he could—and he would—tell you everything there was to know about each artifact, each object that you were seeing.

Any of us who've had the privilege to serve in that institution know that it's impossible not to share Teddy's feeling for the history that swirls around us. It's a place where you instinctively pull yourself a little straighter

and commit yourself to acting a little nobler.

I still remember the first time I pulled open the drawer of my desk and saw the names like Taft and Baker; Simon and Wellstone—and Robert F. Kennedy. I thought of the great battles they'd waged and how they still echoed through the Senate chambers. And one can't enter the chamber without thinking of the momentous debates that have occurred within its walls—questions of war and peace; of tangled bargain between North and South; federal and state; of the origins of slavery and prejudice; of the unfinished battles for civil rights and equality and opportunity.

It was where Americans of great eloquence deliberated and discussed the great issues of the age; where Webster and Clay and Calhoun fought and forged compromise; where LBJ stalked the aisles, imposing his will and collecting votes; and where Ted Kennedy raged at injustice like a force of nature, even after a staffer would hand him a note saying, "Sir, you're shouting."

At its worst, it could be a place where progress was stymied. There was a time, of course, when there were no desks for women, or African Americans, or Latino Americans, or Asian Americans. There was a time when a Senator might have referred to another as a—I like this—"noisome, squat and nameless animal," just to name one instance of the occasional lack of decorum. And we should all view it as a positive sign that there hasn't been a caning on the Senate floor in more than 150 years. That's good.

But at its best, it was what Ted Kennedy loved; a place of community and camaraderie where Senators inspired their colleagues to seek out those better angels and work collectively to perfect our union, bit by bit. And in my time in the Senate, I never met a colleague, not even one with whom I most deeply disagreed, who didn't have a deep sincerity in his or her beliefs, an abiding love for this country, and a genuine desire to leave it stronger and better.

Still, I know that many of us, from both parties, shared Ted's sentiment that something vital about the Senate has been lost. Where it once was a more personal and more collegial place, it's become more polarized and more confrontational. And gone, sometimes, is that deeper understanding of one another; that ideas that there are great battles to be won and great battles to be waged—but not against the person on the other side of the aisle, rather to be waged on behalf of the country.

What Ted wanted to save, above anything else, is that sense of community and collegiality and mutual responsibility—to our constituents, to the institution, and to one another. "As senators," he wrote, "we need to be vigilant that we don't lose track of the whole essence of what the Senate is; of what our involvement in it signifies; of our relationship with people; and of what all of that should lead to, which is the unfettered and vital exchange of ideas."

That's why whenever heartbreak struck a colleague—he was always the first to call. That's why whenever a stalemate needed to be broken—he was the first to visit another senator's office. That's why whenever debate got fierce he never got personal—because that was the fastest way to ensure nothing got done. Once, after he and Strom Thurmond went at each other for a few rounds—as you'd imagine Ted and Strom might do—Ted put his arm around him and said, "C'mon, Strom. Let's go upstairs and I'll give you a few judges."

The thing is, even though he never technically ran the Senate, it often felt like Teddy did. It was his arena. That's why, if you came to the Senate hoping to be a great senator someday, he was who you went to see first. I know that's who I went to see first. Because rather than lord over it, Teddy sought to mentor others to better navigate it. Rather than to go it alone, he sought cooperation, he never hesitated to cede credit. Rather than abandon course when political winds got rough, he always followed his north star—the cause of a society that is more fair, more decent, and more just. And through all of it, his seriousness of purpose was rivaled only by his humility, his warmth, his good cheer, his sense of humor.

That is who Ted Kennedy was. That's what he did. And that's why he's so missed. . . .

For it is now—especially now—that we need to get people interested in our public problems, and reignite their faith in our public institutions, bring Americans together to forge consensus and understand not just the United States Senate's role in our government—but their role in it at all.

Today, the Senate is engaged in another important battle on one of the great causes of our time, and the cause of Ted Kennedy's life—the battle to make health care not a privilege for some, but a right for all. He has been so sorely missed in this debate; especially now that we're closer than we've ever been to passing real health reform. But even though we took a critical step forward this week, we've got more work to do. And I hope and believe that we will continue to engage each other with the spirit of civility and seriousness that has brought us this far—a spirit that I think Teddy would have liked to see.

More than a half century ago, a Senate committee was set up to choose the five greatest senators of all time. No, it wasn't an exercise in the Senate's own vanity—it was because there were five empty spaces designated for portraits in the Senate Reception Room.

"There are no standard tests to apply to a Senator," the chairman of that committee wrote. "No Dun & Bradstreet rating, no scouting reports. His talents may vary with his time; his contribution may be limited by his politics. To judge his own true greatness, particularly in comparison with his fellow senators long after they are all dead, is nearly an impossible task."

When John F. Kennedy wrote those words, I doubt that he imagined his 25-year-old brother would one day stand as indisputably one of the finest senators of this or any age. But here's the thing: Teddy—Teddy didn't earn that distinction just because he served in the United States Senate for nearly one out of every five days of its existence. He earned it because each of those days was full, and passionate, and productive, and advanced the life of this nation in a way that few Americans ever have. And he did it all by bridging the partisan divide again and again in an era that someday may be recalled as one where bipartisanship was too rare an achievement.

There will never be another like Ted Kennedy. But there will be other great senators who follow in his footsteps. That's not an insult to his legacy—it is, rather, the legacy he sought to leave, both with this institute and with his example.

"Being a senator changes a person," he wrote in his memoirs. "Something fundamental and profound happens to you when you arrive there, and it stays with you all the time that you are privileged to serve. I

have seen the changes in people who have come into the Senate. It may take a year, or two years, or three years, but it always happens: it fills you with a heightened sense of purpose."

In all our debates, through all our tests, over all the years that are left to come—may we all be blessed with a sense of purpose like Edward M. Kennedy's. Thank you, Vicki, thanks to all of you. Thanks for making this such a success. God bless you, God bless America.

#### TED KENNEDY: A LIFE OF SERVICE

(By Speaker Nancy Pelosi (D-Calif.))

With the passing of Sen. Edward M. Kennedy (D-Mass.), this nation lost a great patriot, a force for justice and equality and a passionate voice for a brighter future.

Sen. Kennedy was the beloved patriarch of a beautiful family. At this moment of mourning, our thoughts and prayers are with his loving, caring and devoted wife, Vicki; and with his children, Kara, Teddy Jr. and our colleague Patrick. Surely it was a highlight for both father and son to see the Kennedy-Kennedy Mental Health Parity bill become law last year—ending discriminatory treatment toward mental health coverage—and a true tribute to the Kennedy family's unyielding commitment to the common good.

Above all else, Sen. Kennedy was a champion—of the poor and the oppressed, of the forgotten and the voiceless, of young and old. Over a lifetime of leadership, Sen. Kennedy's statesmanship, passionate arguments and political prowess produced a wealth of accomplishment that expanded opportunity for every American and extended the blessings of prosperity to millions of his fellow citizens.

He had a grand vision for America and an unparalleled ability to effect change and inspire others to devote themselves to that change. And no one did more to educate our children, care for our seniors and ensure equality for all Americans.

The reach of Sen. Kennedy's achievements extends far beyond any one state, issue or group. And the light of his example shone bright across lines of party or philosophy. Because of his work, countless students can afford to reach for a college diploma.

Because he returned to the Senate floor for one day last July, once-fierce opponents of Medicare understood their responsibility not to politics, but to the people they serve—and today, America's seniors have a stronger and more enduring safety net to keep them healthy.

Because he believed in the need for bold action to rescue our economy, from his hospital bed he played a pivotal role in ensuring the passage of the American Recovery and Reinvestment Act, putting people back to work and setting our nation on the road to recovery. And because of his stirring words of optimism, vitality and courage at the Democratic convention exactly one year before he passed away, he laid a foundation for the election of a president who shared his ideals and intellect—and personified his vision of an America where race was no longer a barrier or qualification.

Sen. Kennedy's deep faith remained a palpable force in his life. It inspired his belief in social justice. It demanded action on behalf of the least among us. It sustained him, and offered a refuge from the spotlight of elected office. When his daughter, Kara, was diagnosed with lung cancer, Sen. Kennedy turned to his faith for solace, going to Mass each morning in the same house of worship where

his funeral service will be conducted—a basilica that became a source of hope and optimism for him in recent years.

Throughout his career, Ted Kennedy spoke of a new hope; of holding fast to our ideals and fulfilling the promise of our country. He carried on the legacy of an extraordinary family—a family defined by service and a family that inspired an entire generation, including myself, to take action and to serve a cause greater than our individual interests. And with the Edward M. Kennedy Serve America Act now the law of the land, another generation of teachers and volunteers, students and community organizers will put those values into action.

Perhaps more than any other issue, Sen. Kennedy never stopped fighting for what he called "the cause of my life"—ensuring quality, affordable healthcare for every American. He believed it was a moral imperative. He viewed it "as a fundamental right, not a privilege." It is a tribute to him—but really to the Americans for whom he fought every day—that this dream will become reality this year.

#### ONE OF A KIND

(By Rep. Dale E. Kildee (D-Mich.), Chairman of the Subcommittee on Early Childhood, Elementary and Secondary Education)

I have a lot of acquaintances in Congress and many friends, but one who stood out above the rest and to whom I always felt close was Ted Kennedy. It was a privilege to know him as a friend, and it was an honor to work with one of the most dedicated and knowledgeable senators I ever met. His passing is truly a great loss for our country. I am hopeful, however, that in mourning his death, we will be inspired to continue to fight for the causes to which he dedicated himself so tirelessly and work together to pass the comprehensive healthcare reform that he called "the cause of my life."

My relationship with the Kennedys started back in 1960 when I was a volunteer on John F. Kennedy's campaign for president and had the privilege of meeting his mother Rose, who was nothing but gracious and kind. When Rose came to my hometown of Flint, Mich., to campaign for her son, it was my responsibility to get her to Mass at St. Michael's. It wasn't even Sunday, but Rose went to Mass every day. I met John later that year when he was campaigning for the presidency and again in October of 1962 when he came to campaign for the midterm congressional elections. Shortly thereafter he went back to Washington claiming he had a "bad cold," even though he appeared to be the picture of health. We learned later that we weren't completely misled, but that it was a different kind of cold flaring up—the Cuban Missile Crisis, one of the most heated moments of the Cold War.

Ted was the last member of the Kennedy family whom I actually met, but my relationship with him lasted the longest. Like his brothers, Ted was born into a life of privilege, but instead of choosing a comfortable life of leisure, he chose to work hard in the U.S. Senate, fighting to improve the lives of American families. Ted successfully fought to raise the minimum wage, protect Americans with disabilities, expand health insurance for low-income children and improve educational opportunities for all students, regardless of family income. His legislative accomplishments were so wide in scope that his work has changed the life of nearly every American for the better.

Ted and I shared a passion to improve education and we worked together often, par-

ticularly during the Head Start Reauthorization of 2007, which he and I authored. During many of the other conferences we worked on together, when differences arose that were slowing down the passage of legislation, Ted was a skilled and fair negotiator who would keep the conversation going until late into the night to make sure things were resolved. From Ted, I learned that compromise is often necessary to achieve the greater good. But above all, he taught me that we must never stop fighting for what we believe in.

While Ted achieved greatness in his political life, he was no stranger to personal tragedy and suffering. The country mourned with him as first John and then Bobby were taken from us in acts of violence, leaving Ted as the only remaining Kennedy brother. A 1964 plane crash broke his back and left him with terrible pain that plagued him for the rest of his life, but he never let his condition get in the way of his goals for the country. His discomfort was evident on the trips he often took with me to Flint, where he always enjoyed visiting Buick UAW Local 599. It was difficult for him to stand for long, but he would patiently pose for pictures and sign autographs for the workers there, who greeted him as a hero. He would stay until his back became too painful and then he would turn to me and say, "Dale, you have to get me out of here, now," and we would make a quick exit so he could rest in my campaign van, which he referred to as the "Kildee Express." Even while in pain, he always had a smile on his face and was an inspiration to those around him.

I have never known another senator like Ted Kennedy, and we may never see another like him again. He carried on the torch of his family's political legacy, masterfully reaching across the aisle to shepherd important and often difficult pieces of legislation through Congress. As we mourn the passing of our friend Ted, let us celebrate his numerous achievements and remember him for the great humanitarian and leader that he was. Let us honor his memory by never giving up the fight for social justice, never resting until every child has an equal chance to learn, and never backing down until every American has access to quality affordable healthcare. He often called universal healthcare "the cause of my life" and it is a tragedy that he will not be around to vote for the legislation for which he fought so tirelessly. So let's continue the fight in his honor and pass healthcare reform so that all Americans, regardless of income, age or pre-existing condition, will have access to quality, affordable healthcare. Let's realize this dream for Ted and for America.

#### A DEDICATED SERVANT AND A DEAR FRIEND

(By Secretary Dirk Kempthorne, former Secretary of the Interior)

As a very junior senator from Idaho, I selected an office on the third floor of the Russell Building, which happened to be next door to Sen. Ted Kennedy's office. The first day that we were allowed to officially occupy the space, in came Sen. Kennedy, walking through each of the offices and introducing himself to all of my staff and welcoming each of them to the Russell. Later that day, a beautiful bouquet of flowers showed up for my wife, Patricia, with a note saying, "Welcome to the neighborhood—Ted." With that, Patricia and I began a wonderful and enduring relationship with Ted and Vicki Kennedy.

Our offices shared a common balcony, and I had a friend from the Kennedy offices who used that route to come see me every day

... Blarney, his Jack Russell Terrier. I began keeping a box of Milk Bones for Blarney's morning visits—and he gladly accepted these treats. In his classical Boston accent, Ted would pretend frustration with Blarney's habit of taking the treats back down the balcony and eating them in his office while leaving all the crumbs on his floor!

When I decided to come home to Idaho and run for governor, Sen. Kennedy said he completely understood my decision. There was no second-guessing why I would want to return to a beautiful state like Idaho and be closer to the people there. He wished me well and said that he would miss me. Little did we both know that in 2006 President George W. Bush would nominate me to become the 49th Secretary of the Interior. One of the very first calls I received after the announcement was from Ted Kennedy, who said he was so glad I was coming back and he asked what he could do to help with my confirmation. That was the kind of man he was and the kind of friend he was. It didn't matter that I was a conservative Republican or he was a liberal Democrat. We were friends, and he wanted to help. And he did.

Several months later, I got another call from Ted Kennedy telling me he had been invited to speak at the Ronald Reagan Library. Nancy Reagan was going to host an intimate dinner for him in her residence at the library and she said he could invite a few friends. He was calling to see if I would go. After extending the invitation, he started laughing and said, "What a pal I am, right? Inviting you to dinner 2,500 miles from here!" We both laughed, and I said I wouldn't miss it for anything.

The night of the speech, I was seated in the front row along with Nancy Reagan and California Gov. Arnold Schwarzenegger. Sen. Kennedy commented on how three of his favorite Republicans were there for him. I don't think many people realize how much Ronald Reagan and Ted Kennedy liked each other, but it was very apparent that night at the dinner that Nancy gave for her friend, Ted, and his great wife Vicki, and a few of their friends.

After Sen. Kennedy was diagnosed with his illness and it was made public, I wrote him a two-page letter recapping some of the positive and enjoyable things we had done together. I received an immediate call from Vicki saying how it had brightened his day. That was followed by a handwritten note from Ted, and that was followed by a phone call from him. It was a good visit on the phone, but, as usual, he also had some business he wanted to discuss. He always worked so diligently for his constituents. I last spoke to him in January of this year. It was that same jovial voice of a friend with no hint of the personal health battle he was fighting.

It is universally noted how hard he worked as a senator. He also worked hard at affirming and maintaining friendships. Wouldn't this be a better place if we all worked a little harder at affirming and maintaining friendships? Perhaps this, too, was one of Ted Kennedy's lasting legacies.

I will miss my friend.

IN MEMORY OF TED KENNEDY

(By Nancy Reagan)

Sometimes the best friendships are made under unlikely circumstances. Such was the case with the Kennedys and the Reagans.

Of course there were differences in our political beliefs, and some believed that those differences would make it impossible for us to get along. Most people are very surprised

to learn that our families are actually quite close.

Ted and I have corresponded regularly for years. He always wrote lovely letters of support, encouragement and appreciation. He phoned often—I'll never forget that he managed to track me down in the middle of the Pacific Ocean to wish me a happy birthday one year. I enjoyed working together with him over the past few years on behalf of a cause that was important to both of us, stem cell research.

As a Republican president and a Democratic senator, Ronnie and Ted certainly had their battles. There were conflicts to overcome, disagreements to settle and compromises to be made, but in doing so, the mutual respect that came from struggling to work together led to a deeper understanding and friendship. Both were men of strong convictions, but they understood an important principle: Politicians can disagree without being disagreeable.

When Ronnie and I were presented with the Congressional Gold Medal in 2002, Ted gave a beautiful tribute to Ronnie. As I reread that speech today, I was struck by how some of the wonderful things he said about Ronnie also describe Ted: "He was a fierce competitor who wanted to win—not just for himself, but for his beliefs. He sought to defeat his opponents, not destroy them. He taught us that while the battle would inevitably resume the next morning, at the end of each day we could put aside the divisions and the debates. We could sit down together side by side . . . And above all, whatever our differences, we were bound together by our love of our country and its ideals." That was Ronnie, all right—and that was Ted, too.

Ted and Ronnie were the kind of old-fashioned politicians who could see beyond their own partisan convictions and work together for the good of the country. I wish there were more of that spirit in Washington today. I am encouraged to see how many politicians "from across the aisle" spoke of their admiration for Ted after his passing, so maybe it isn't really lost. Maybe we can all be inspired by Ted and Ronnie to renew that spirit of bipartisan cooperation.

Ted Kennedy was a kind man, a great ally and dear friend. I will miss him.

#### KENNEDY AND THE GOP: A MARRIAGE OF MUTUAL RESPECT

(By J. Taylor Rushing)

Despite his affinity for liberal policymaking, Republicans on Capitol Hill greatly admired Sen. Edward Kennedy (D-Mass.).

"He's a legislator's legislator," Sen. Jon Kyl (R-Ariz.) told *The Hill* last May, immediately after Kennedy's diagnosis of brain cancer. "At the end of the day, he wants to legislate, he understands how, and he understands compromise. And it's worth talking about because it shows how people with drastically different points of view can come together."

In April, *The Hill* conducted a survey of all sitting senators to ask which member of the opposing party they most enjoyed working with. The most common answer among Republicans was Kennedy, being specifically mentioned by Kyl, Orrin Hatch of Utah, Kit Bond of Missouri, Richard Burr of North Carolina, Sam Brownback of Kansas, Mike Enzi of Wyoming, Johnny Isakson of Georgia and Jeff Sessions of Alabama.

"I'd love to co-sponsor every piece of legislation with Ted Kennedy," Burr said at the time. "When Ted says he's going to do something, he's committed to it."

Kennedy's 47 years in the Senate began as his brother, Democrat John F. Kennedy, was

president and were marked by a legislative record of liberalism long and prominent enough to earn him his "Liberal Lion" moniker. Republican Party leaders even used him as a fundraising tool for years in races across the country.

In the Senate itself, though, the Massachusetts senator was mostly known by Republicans for his bipartisanship—for diligent, patient and consistent reaching across the aisle to find common ground on the country's most pressing concerns. Eventually, some of the chamber's most conservative Republicans, from Alan Simpson of Wyoming to Hatch to Kyl, came to discover that while Kennedy may have had the heart of a liberal, he possessed the mind of a pragmatist.

Republican leaders such as Conference Chairman Lamar Alexander of Tennessee recalled that Kennedy was known for reaching out since his earliest days in Congress. Alexander came to Congress in 1967 as an aide to then-Sen. Howard Baker of Tennessee and worked with Kennedy near the end of his first term.

"I've known and worked with him for 40 years. He's results-oriented. He takes his positions, but he sits down and gets results," Alexander said last May.

In recent years, examples of Kennedy's bipartisan efforts included teaming up with Kansas Republican Nancy Kassebaum on healthcare in 1996, with President George W. Bush on education reform in 2001, and on unsuccessful attempts with Sen. John McCain (R-Ariz.) and other Republicans to pass immigration reform in the 110th and 111th Congresses.

#### KENNEDY BROUGHT INTENSITY, PASSION TO THE SENATE

(By Jim Manley)

Coming from a wealthy, famous family, Sen. Kennedy could have taken shortcuts. But he never did that—he brought a passion and intensity to his work the likes of which I will never forget.

His staff accepted the long hours and dedication he demanded from us because he stood with us working twice as hard.

Former Senate Majority Leader George Mitchell (D-Maine) once accurately remarked that Sen. Kennedy was better-prepared than any other senator. His *No Child Left Behind* briefing book was legendary—a huge binder full of studies and analyses. It seemed every page was dog-eared, heavily underlined and carefully tabbed.

One Friday, there was a lull in a debate over a minimum-wage increase. On pure impulse, he went to the Senate floor and delivered one of the most impassioned speeches I had ever heard from him. At one point, he voice echoed through the chamber so loud that I had to leave the floor because my ears were ringing.

As Sen. Kennedy said of his brother Robert, the same can be said of him. He "need not be idealized, or enlarged in death beyond what he was in life, to be remembered simply as a good and decent man, who saw wrong and tried to right it, saw suffering and tried to heal it, saw war and tried to stop it."

#### BAYH REMEMBERS 1964 PLANE CRASH

(By J. Taylor Rushing)

If not for former Sen. Birch Bayh of Indiana, Sen. Edward Kennedy very well may have died on the night of June 19, 1964.

Both nearly died in a plane crash the night the Senate passed the 1964 Civil Rights Act. Delayed by the vote, the two men were flying through a thunderstorm to get to the Massachusetts state Democratic convention.

"We were bounced around so much we couldn't see the moon in any steady way," said Bayh, who served in the Senate from 1963 to 1981 and is now a partner in the D.C. law firm Venable LLP. "Then I looked out and saw this black line coming. I thought it was another storm, but it was the tops of trees."

Pilot Ed Zimy pulled out of the trees but quickly lost control again, crashing into an apple orchard just short of the Springfield airport. Bayh said he thought the plane had been hit by lightning, and was convinced he was dead. When he woke up, Bayh said, his wife Marvella was screaming, the pilot and Kennedy aide Ed Moss were both mortally wounded and Kennedy was barely responsive.

Bayh said he resisted initial thoughts of leaving Kennedy in the wreckage, but was later amazed at how he carried the hefty senator.

"We've all heard adrenaline stories about how a mother can lift a car off a trapped infant. Well, Kennedy was no small guy, and I was able to lug him out of there like a sack of corn under my arm," Bayh said.

Kennedy spent five months in the hospital, re-emerging barely in time to win reelection in November 1964.

"A lot of the older senators were wondering if they were going to have to kiss his ring. I mean, he could have been a pariah," Bayh said. "But he had no airs, and just did a remarkable job of ingratiating himself not only to his new colleagues but the older members."

"He was a Kennedy, and you could say he was born with a silver spoon in his mouth, but he was determined to spend his life helping the little people. That tells you what he was made of."

BOEHNER FOUND KENNEDY A GENEROUS  
PARTNER IN FAITH  
(By Christina Wilkie)

Rep. John Boehner (R-Ohio) needed a favor.

In 2003, Boehner wanted to support Washington's Catholic schools, which were suffering severe budget shortfalls. He needed an A-list Democrat willing to lend his name to the effort.

What he got instead was access to one of the most powerful Democratic fundraising machines in politics.

The GOP congressman was setting up a gala dinner complete with celebrities, politicians and media personalities. He went for the most powerful Catholic in Congress, Sen. Edward Kennedy (D-Mass.), to be his partner at the event and balance the politics.

Presented with Boehner's request to co-chair the inaugural gala dinner, Kennedy "didn't blink" before signing on; and true to his reputation for generosity, Kennedy's response went well beyond that.

Kennedy threw himself into the project, offering Boehner the use of his entire fundraising staff to assist with the event. He wrote letters and made personal appeals on behalf of the struggling schools. And perhaps most importantly, Kennedy pulled in real talent: NBC's Tim Russert to emcee the inaugural evening and comedian Bill Cosby to keep the guests laughing.

Boehner and Kennedy were both lifelong Catholics and graduates of Catholic schools. They had recently worked together on the House and Senate versions, respectively, of the 2002 education law known as the No Child Left Behind Act.

As colleagues, they enjoyed a comfortable rapport, which, according to a staff member, was strengthened by the fact that "Boehner

and Kennedy always knew what the other had to do to get legislation passed."

This dinner was no exception. It marked the start of a five-year collaboration between two men who served radically different constituencies, but who found common ground in their shared commitment to education, service and their faith.

Both lawmakers also believed they had an obligation to give back to the citizens of Washington, their "adopted city." To help illustrate this point, each year at a pre-gala breakfast Kennedy would share the example of his brother, former President John F. Kennedy, who instructed his entire Cabinet to visit Washington's public schools and read books to the students.

Dubbed the Boehner-Kennedy Dinner, the annual event takes place each September, and since its inception has raised more than \$5 million for the District's Catholic schools.

Much of the credit for this success belongs to Kennedy. As one Boehner staff member told *The Hill*, "This event may have been John Boehner's idea, but it was Sen. Kennedy who really got it off the ground."

During the last year of his life, Kennedy's illness forced him to scale back his commitments. As a result, former Washington Mayor Anthony Williams assumed the co-chairman's role alongside Boehner in 2008.

This year's Boehner-Williams Dinner will be held on Sept. 23 at the Washington Hilton. Discussions are under way about how best to honor Kennedy at the event.

TRIBUTES TO EDWARD M. KENNEDY

We've lost the irreplaceable center of our family and joyous light in our lives, but the inspiration of his faith, optimism, and perseverance will live on in our hearts forever. He loved this country and devoted his life to serving it. He always believed that our best days were still ahead, but it's hard to imagine any of them without him.—The Kennedy family

Michelle and I were heartbroken to learn this morning of the death of our dear friend, Sen. Ted Kennedy.

For five decades, virtually every major piece of legislation to advance the civil rights, health and economic well being of the American people bore his name and resulted from his efforts.

I valued his wise counsel in the Senate, where, regardless of the swirl of events, he always had time for a new colleague. I cherished his confidence and momentous support in my race for the Presidency. And even as he waged a valiant struggle with a mortal illness, I've profited as President from his encouragement and wisdom.

An important chapter in our history has come to an end. Our country has lost a great leader, who picked up the torch of his fallen brothers and became the greatest United States Sen. of our time.

And the Kennedy family has lost their patriarch, a tower of strength and support through good times and bad.

Our hearts and prayers go out to them today—to his wonderful wife, Vicki, his children Ted Jr., Patrick and Kara, his grandchildren and his extended family.—President Barack Obama

It was the thrill of my lifetime to work with Ted Kennedy. He was a friend, the model of public service and an American icon.

As we mourn his loss, we rededicate ourselves to the causes for which he so dutifully dedicated his life. Sen. Kennedy's legacy

stands with the greatest, the most devoted, the most patriotic men and women to ever serve in these halls.

Because of Ted Kennedy, more young children could afford to become healthy. More young adults could afford to become students. More of our oldest citizens and our poorest citizens could get the care they need to live longer, fuller lives. More minorities, women and immigrants could realize the rights our founding documents promised them. And more Americans could be proud of their country.

Ted Kennedy's America was one in which all could pursue justice, enjoy equality and know freedom. Ted Kennedy's life was driven by his love of a family that loved him, and his belief in a country that believed in him. Ted Kennedy's dream was the one for which the founding fathers fought and his brothers sought to realize.

The liberal lion's mighty roar may now fall silent, but his dream shall never die.—Senate Majority Leader Harry Reid (D-Nev.)

Today, with the passing of Sen. Edward M. Kennedy, the American people have lost a great patriot, and the Kennedy family has lost a beloved patriarch. Over a lifetime of leadership, Sen. Kennedy's statesmanship and political prowess produced a wealth of accomplishment that has improved opportunity for every American.

Sen. Kennedy had a grand vision for America, and an unparalleled ability to effect change. Rooted in his deep patriotism, his abiding faith, and his deep concern for the least among us, no one has done more than Sen. Kennedy to educate our children, care for our seniors, and ensure equality for all Americans.—House Speaker Nancy Pelosi (D)

It is with great sadness that Elaine and I note the passing of Sen. Ted Kennedy, one of the giants of American political life, a longtime Senate colleague, and a friend.

No one could have known the man without admiring the passion and vigor he poured into a truly momentous life.—Senate Minority Leader Mitch McConnell (R-Ky.)

Ted Kennedy was my friend. While there were few political issues on which he and I agreed, our relationship was never disagreeable, and was always marked by good humor, hard work, and a desire to find common ground. Ted Kennedy was also a friend to inner-city children and teachers. For the better part of the last decade, Ted and I worked together to support struggling Catholic grade schools in inner-city Washington. By helping these schools keep their doors open and helping them retain their committed teachers and faculty, this joint effort made a positive difference in the lives of thousands of inner-city children, who otherwise would have been denied the opportunity for a quality education. It wouldn't have been possible without Sen. Kennedy and his genuine desire to give something back to help inner-city students in the city in which he'd served for many years. I'm proud to have worked with Sen. Kennedy on this project, and I will dearly miss his friendship and his partnership in this cause.—House Minority Leader John Boehner (R-Ohio)

Teddy spent a lifetime working for a fair and more just America. And for 36 years, I had the privilege of going to work every day and literally, not figuratively sitting next to him, and being witness to history.

In 1972 I was a 29 year old kid with three weeks left to go in a campaign, him showing

up at the Delaware Armory in the middle of what we called Little Italy—who had never voted nationally by a Democrat—I won by 3,100 votes and got 85 percent of the vote in that district, or something to that effect. I literally would not be standing here were it not for Teddy Kennedy—not figuratively, this is not hyperbole—literally.

He was there—he stood with me when my wife and daughter were killed in an accident. He was on the phone with me literally every day in the hospital, my two children were attempting, and, God willing, thankfully survived very serious injuries. I'd turn around and there would be some specialist from Massachusetts, a doc I never even asked for, literally sitting in the room with me.

He's left a great void in our public life and a hole in the hearts of millions of Americans and hundreds of us who were affected by his personal touch throughout our lives.—Vice President Joe Biden, in remarks at an event Wednesday at the Department of Energy

Laura and I are saddened by the death of Senator Ted Kennedy. Ted Kennedy spent more than half his life in the United States Senate. He was a man of passion who advocated fiercely for his convictions. I was pleased to work with Senator Kennedy on legislation to raise standards in public schools, reform immigration and ensure dignity and fair treatment for Americans suffering from mental illness.

In a life filled with trials, Ted Kennedy never gave in to self-pity or despair. He maintained his optimistic spirit, his sense of humor, and his faith in his fellow citizens. He loved his family and his country—and he served them until the end. He will be deeply missed.—Former President George W. Bush

Sen. Ted Kennedy was one of the most influential leaders of our time, and one of the greatest senators in American history. His big heart, sharp mind, and boundless energy were gifts he gave to make our democracy a more perfect union.

As president, I was thankful for his fierce advocacy for universal health care and his leadership in providing health coverage to millions of children. His tireless efforts have brought us to the threshold of real health care reform. I was also grateful for his efforts, often in partnership with Republicans as well as Democrats, to advance civil rights, promote religious freedom, make college more affordable, and give young Americans the opportunity to serve at home in Americorp. I am glad the bill President Obama signed to expand Americorp and other youth service opportunities is named the Edward M. Kennedy Serve America Act. Through it, his commitment to public service will live on in millions of young people across our nation.

Hillary and I will always be grateful for the many gestures of kindness and generosity he extended to us, for the concern he showed for all the children and grandchildren of the Kennedy clan, and for his devotion to all those in need whose lives were better because he stood up for them.—Former President Bill Clinton

Barbara and I were deeply saddened to learn Ted Kennedy lost his valiant battle with cancer. While we didn't see eye-to-eye on many political issues through the years, I always respected his steadfast public service—so much so, in fact, that I invited him to my library in 2003 to receive the Bush Award for Excellence in Public Service. Ted Kennedy was a seminal figure in the United

States Senate—a leader who answered the call to duty for some 47 years, and whose death closes a remarkable chapter in that body's history.—Former President George H.W. Bush

Rosalynn and I extend our condolences to the Kennedy family. Sen. Kennedy was a passionate voice for the citizens of Massachusetts and an unwavering advocate for the millions of less fortunate in our country. The courage and dignity he exhibited in his fight with cancer was surpassed only by his lifelong commitment and service to his country.—Former President Jimmy Carter

I am very saddened to learn of the passing of Sen. Ted Kennedy last night. Ted Kennedy will be remembered with great affection and enduring respect here in Ireland. Ted Kennedy was a great friend of Ireland.

In good days and bad, Ted Kennedy worked valiantly for the cause of peace on this island. He played a particularly important role in the formative days of the Northern Ireland Peace Process. He maintained a strong and genuine interest in its progress. He used his political influence wisely. He was the voice of moderation and common sense. He was unequivocal in his rejection of violence at all times and from all quarters. He believed that only politics would provide a sustainable and enduring way forward. His belief that the United States could play a strong role in solving our problems has been vindicated by the success of the Peace Process.

Today, America has lost a great and respected statesman and Ireland has lost a long-standing and true friend.

Ar dheis Dé go raibh a anam.—Brian Cowen, prime minister of Ireland

Sen. Edward Kennedy will be mourned not just in America but in every continent. He is admired around the world as the Senator of Senators. He led the world in championing children's education and health care, and believed that every single child should have the chance to realise their potential to the full. Even facing illness and death he never stopped fighting for the causes which were his life's work.

I am proud to have counted him as a friend and proud that the United Kingdom recognised his service earlier this year with the award of an honorary knighthood.—Gordon Brown, prime minister of the United Kingdom

I'm not sure America has ever had a greater senator, but I know for certain that no one has had a greater friend than I and so many others did in Ted Kennedy.

I will always remember Teddy as the ultimate example for all of us who seek to serve, a hero for those Americans in the shadow of life who so desperately needed one.

He worked tirelessly to lift Americans out of poverty, advance the cause of civil rights, and provide opportunity to all. He fought to the very end for the cause of his life—ensuring that all Americans have the health care they need.

The commitment to build a stronger and fairer America, a more perfect union, was deeply ingrained in the fiber of who he was, and what he believed in, and why he served.

That's why he stands among the most respected senators in history. But it was his sympathetic ear, his razor wit, and his booming, raucous laugh that made him among the most beloved.

Whatever tragedy befell Teddy's family, he would always be there for them. Whatever

tragedy befell the family of one of his friends, he would always be there for us.—Sen. Chris Dodd (D-Conn.), a close friend who in Kennedy's absence took over the Senate Health, Education, Labor, and Pensions (HELP) Committee

I had hoped and prayed that this day would never come. My heart and soul weep at the lost of my best friend in the Senate, my beloved friend, Ted Kennedy.

Sen. Kennedy and I both witnessed too many wars in our lives, and believed too strongly in the Constitution of the United States to allow us to go blindly into war. That is why we stood side by side in the Senate against the war in Iraq.

Neither years of age nor years of political combat, nor his illness, diminished the idealism and energy of this talented, imaginative, and intelligent man. And that is the kind of Sen. Ted Kennedy was. Throughout his career, Sen. Kennedy believed in a simple premise: that our society's greatness lies in its ability and willingness to provide for its less fortunate members. Whether striving to increase the minimum wage, ensuring that all children have medical insurance, or securing better access to higher education, Sen. Kennedy always showed that he cares deeply for those whose needs exceed their political clout. Unbowed by personal setbacks or by the terrible sorrows that have fallen upon his family, his spirit continued to soar, and he continued to work as hard as ever to make his dreams a reality.

In his honor and as a tribute to his commitment to his ideals, let us stop the shouting and name calling and have a civilized debate on health care reform which I hope, when legislation has been signed into law, will bear his name for his commitment to insuring the health of every American.

God bless his wife Vicki, his family, and the institution that he served so ably, which will never be the same without his voice of eloquence and reason. And God bless you Ted. I love you and will miss you terribly. In my autobiography I wrote that during a visit to West Virginia in 1968 to help dedicate the "Robert F. Kennedy Youth Center" in Morgantown, "Sen. Kennedy's voice quivered with emotion as he talked of his late brothers and their love for West Virginia. 'These hills, these people, and this state have had a very special meaning for my family. Our lives have been tightly intertwined with yours.'

I am sure the people of the great state of West Virginia join me in expressing our heartfelt condolences to the Kennedy family at this moment of deep sorrow—Sen. Robert Byrd (D-W.Va.)

Many have come before, and many will come after, but Ted Kennedy's name will always be remembered as someone who lived and breathed the United States Senate and the work completed within its chamber. When I first came to the United States Senate I was filled with conservative fire in my belly and an itch to take on any and everyone who stood in my way, including Ted Kennedy. As I began working within the confines of my office I soon found out that while we almost always disagreed on most issues, once in a while we could actually get together and find the common ground, which is essential in passing legislation.—Sen. Orrin Hatch (R-Utah), one of Kennedy's closest Republican friends in the Senate

He had a gregarious personality. He had a keen sense of how to position himself with

people. He had an old Irish wit and was a great storyteller. But all of those things probably pale in—in comparison to the fact that once he was on an issue, he was relentless. And he—once he gave his word, then there was never any—any variance from that, to the point where he would cast votes on amendments that really were against his own position in order to keep a carefully crafted compromise intact. And when others from his own party and our party didn't do that, I've seen him chastise them rather severely.

History judges all of us. And after a period of time, I think history will make a judgment about Ted Kennedy. All of us had our failings and weaknesses. But the fact is that Ted Kennedy was an institution within the institution of the Senate. And all of my colleagues, no matter how they felt about his causes or his positions, I think, would agree with that.—Sen. John McCain (R-Ariz.), who often referred to Kennedy as a “good friend”, talked about what made the liberal senator likable to his GOP adversaries, about their time working together on immigration legislation and about his spirit in the end, in an interview with CNN's “Larry King Live” on Thursday

We have known for some time that this day was coming, but nothing makes it easier. We have lost a great light in our lives and our politics, and it will never be the same again. Ted Kennedy was such an extraordinary force, yes for the issues he cared about, but more importantly for the humanity and caring in our politics that is at the center of faith and true public service. No words can ever do justice to this irrepressible, larger than life presence who was simply the best—the best senator, the best advocate you could ever hope for, the best colleague, and the best person to stand by your side in the toughest of times. He faced the last challenge of his life with the same grace, courage, and determination with which he fought for the causes and principles he held so dear. He taught us how to fight, how to laugh, how to treat each other, and how to turn idealism into action, and in these last fourteen months he taught us much more about how to live life, sailing into the wind one last time. For almost 25 years, I was privileged to serve as his colleague and share his friendship for which I will always be grateful.—Sen. John Kerry (D-Mass.)

Ted Kennedy was a mentor, a guiding light, and a close friend—we all loved the man. In the Senate, Ted Kennedy was our sun—the center of our universe. To be pulled by his strong gravitational field, to bask in his warmth was a privilege, an honor, and, for many of us, even a life changing experience. His death leaves our world dark but, as he said in his own words, “the work goes on, the cause endures, the hope still lives, and the dream shall never die.” Ted, we will not let your flag fall.—Sen. Charles Schumer (D-N.Y.)

Ted Kennedy was at once the most partisan and the most constructive United States senator. He could preach the party line as well as bridge differences better than any Democrat. I will especially miss his cheery disposition and his devotion to United States history of which he was such a consequential part.—Senate Republican Conference Chairman Lamar Alexander (R-Tenn.)

With the passing of Sen. Kennedy the United States Senate has lost one of its most effective and respected voices.

Sen. Kennedy's colleagues—Republicans and Democrats—greatly enjoyed working with him and respected his views.

A handshake from Sen. Kennedy was all that was ever needed. His word was his bond.

When the history of the United States Senate is written, his name will be toward the top of the list of senators who made a tremendous impact on the institution.

Sen. Kennedy was never afraid to work across the aisle to get things done. We can all learn from the example he set and work together to build a stronger nation.—Sen. Lindsey Graham (R-S.C.)

Today, America mourns the death of Sen. Ted Kennedy. He was one of the most dynamic and influential legislators in our Nation's history, and his legacy will live on in the work of the colleagues he inspired, and in the lives of the millions of Americans for whom his passion for social justice made a difference. My thoughts and prayers are with his family and friends; even though this day was anticipated, I am sure that little can soften the blow. Throughout his final illness, Sen. Kennedy was privileged to have the best doctors and the best treatment. But he never forgot, in this as in all cases, those who were not similarly privileged: those waiting hours in emergency rooms this morning for a doctor's care; those who went to sleep last night unsure that they were covered, uncertain that their families could cope with the financial burden of an illness. For their sake, health care reform was the cause of Ted Kennedy's life. For their sake, and his, it must be the cause of ours.—House Majority Leader Steny Hoyer (D-Md.)

I have known Ted Kennedy for more than 47 years. In that time, it has been my greatest pleasure to work with him in the Congress to try to tackle many human problems, but I am especially gratified by his contributions to the cause of civil rights and voting rights.

At some of the most tragic and difficult moments in this nation's history, Ted Kennedy gathered his strength and led us toward a more hopeful future. As a nation and as a people, he encouraged us to build upon the inspirational leadership of his two brothers and use it to leave a legacy of social transformation that has left its mark on history.—Rep. John Lewis (D-Ga.)

Sen. Kennedy devoted his entire life to public policy. At any point he could have accepted a life of leisure. Instead he carried on his family's commitment to public service.

The Senate will be a smaller and sadder place without his enthusiasm, his energy, and his persistent courage.—Former House Speaker Newt Gingrich (R-Ga.)

The loss of Sen. Ted Kennedy is a sad event for America, and especially for Massachusetts. The last son of Rose Fitzgerald and Joseph Kennedy was granted a much longer life than his brothers, and he filled those years with endeavor and achievement that would have made them proud. In 1994, I joined the long list of those who ran against Ted and came up short. But he was the kind of man you could like even if he was your adversary. I came to admire Ted enormously for his charm and sense of humor—qualities all the more impressive in a man who had known so much loss and sorrow. I will always remember his great personal kindness, and the fighting spirit he brought to every cause he served and every challenge he faced. I was proud to know Ted Kennedy as a friend, and

today my family and I mourn the passing of this big-hearted, unforgettable man.—Former Massachusetts Gov. Mitt Romney (R), who ran against Kennedy in 1994

I would like to extend our sympathies to the Kennedy family as we hear word about the passing of Sen. Ted Kennedy. He believed in our country and fought passionately for his convictions.—Former Alaska Gov. Sarah Palin (R)

Maria and I are immensely saddened by the passing of Uncle Teddy. He was known to the world as the Lion of the Senate, a champion of social justice, and a political icon.

Most importantly, he was the rock of our family: a loving husband, father, brother and uncle. He was a man of great faith and character.—California Gov. Arnold Schwarzenegger (R) and wife Maria Shriver, a niece of Kennedy

### HISPANIC HERITAGE MONTH

Mr. UDALL of Colorado. Mr. President, just a month ago, I joined fellow Coloradans, my colleagues in the U.S. Congress, and others across the country to celebrate and acknowledge the many accomplishments and contributions of the Hispanic community in the United States and Colorado. I am particularly proud to highlight the long history of Hispanics in Colorado, as they established some of Colorado's oldest communities, irrigation systems, and earliest businesses. I am equally proud that this community continues to be a vibrant part of the fabric of our great State.

Throughout this month, my colleagues and I have been hard at work to move forward on many policy concerns that are vitally important to Colorado's Hispanic community. From the confirmation of America's first Latina Supreme Court Justice, Sonia Sotomayor, to progress on health insurance reform, and continued support for efforts to create and save jobs, I have been working with the best interests of Colorado in mind. Still, there is much to be accomplished.

We must come together to find opportunities to improve the quality of life of all Coloradans. In doing so, it is important to keep in mind that certain populations, such as Latinos, are disproportionately affected by many of the challenges we face as a State and country. At a national level, Latinos face an unemployment rate that is 3 percent higher than the national rate. In Colorado, Latinos face a poverty rate that is 12 percent higher than the State's overall poverty rate. Latinos also face other challenges—40 percent of Hispanics in Colorado are uninsured, approximately 24 percent higher than the State average, according to a Colorado Department of Public Health and Environment report. Though these issues are not a concern for Latinos in Colorado alone, they undoubtedly raise heightened concerns for the Hispanic community, given these statistics.

These are just a few reasons I have continued to support and develop policies that provide both quality jobs and help reduce the costs of hard-working Coloradans. Most notably, we have made significant progress toward reforming our health insurance system so that it better meets the health needs of all Americans. Making our health system more efficient, fiscally manageable, and accessible is vitally important to making health insurance more affordable for Hispanic and non-Hispanic families alike.

As a member of the Senate Energy and Natural Resources Committee, I have also been working to develop new ways to help low-income and working families afford to make their homes more energy efficient. By improving access to energy-saving technology and making homes more energy efficient, families can reduce their energy costs, while helping to make our environment and communities better places to live. This is just one part of a new energy economy that can bring more jobs to our State.

We have had much to celebrate during this year's Hispanic Heritage Month, but we also have much to do, and I understand there are many more goals that we have yet to achieve. So while we have enjoyed the celebration of Hispanic heritage and the contributions Latinos make in our communities over the last month, I will continue my efforts to improve the quality of life for Coloradans of all backgrounds in every month of the year.

#### 20TH ANNIVERSARY OF POINTS OF LIGHT

Mr. HATCH. Mr. President, I stand today to recognize and honor an extraordinary organization that began its important work 20 years ago, born from the words of a new President who was dedicated to engaging the American spirit of giving and service. The words of that President resonate even now: "I have spoken of a thousand points of light . . . a new engagement in the lives of others, a new activism, hands-on and involved that gets the job done." This 1989 speech given by President George H.W. Bush outlined the vision for the Points of Light Foundation, now merged with HandsOn Network as the Points of Light Institute, the largest volunteer network in the country.

This independent, nonpartisan organization has worked to encourage, recognize, and empower the spirit of volunteer service that is encoded in our Nation's cultural DNA and is, as President Bush stated, central to living a meaningful life.

Throughout our Nation's history, Americans have demonstrated their willingness to give back and to serve in their communities, even in the hardest of times. Last year alone, over 60 mil-

lion Americans performed volunteer service in this country. I am proud that my home State of Utah had the highest volunteerism rate, with over 45 percent of adults volunteering in the State in 2008. All told, these volunteers contributed almost 162 million hours of service in a single year.

Earlier this year, I had the privilege of joining with my good friend, the late Senator Ted Kennedy in sponsoring the Edward M. Kennedy Serve America Act, a new law that expands volunteer opportunities for Americans of all ages. I know that the Points of Light Institute will be at the forefront in realizing the full potential of this important legislation, creating healthy communities by inspiring and equipping willing Americans to do more of the heavy lifting in their communities as we all work to improve our Nation.

Mr. President, I once again commend the Points of Light Institute on this landmark anniversary.

#### ADDITIONAL STATEMENTS

##### TRIBUTE TO LAURA RHEA

• Mrs. LINCOLN. Mr. President, it is with great pleasure that today I honor and recognize more than 25 years of service by Laura Rhea to our great State of Arkansas. Laura has served the Arkansas Rice Depot with steadfast leadership as President and CEO, ensuring the organization remained a faith-based ministry and developing innovative solutions to ending hunger.

Hunger and poverty are not just global issues; they are so pervasive that we all have some experience with them in our local communities. Worldwide, three billion people, nearly half the world's population, live on merely \$2 per day. In our Nation alone, almost 36.2 million Americans struggle day in and day out to find adequate nutritious food. More than 12.4 million children live in households that are food insecure. According to the Arkansas Hunger Relief Alliance, approximately 80 percent of supplemental nutrition assistance goes to households with children, many of them in working families, including military families.

In Arkansas, Laura Rhea has been making a difference to reduce those figures. Under her leadership, Arkansas Rice Depot has grown from a small hunger program that distributed only rice, to a comprehensive hunger agency that distributes almost 7 million pounds of food and supplies in Arkansas each year.

Laura grew up in North Little Rock. As a child she dreamed of becoming a missionary, but never dreamed that her mission field would be feeding hungry Arkansans. She is a certified volunteer manager and was recognized as a certified fund raising executive in 1995.

Laura developed Food for Kids, a backpack program serving over 600 schools in Arkansas, sending home backpacks of food to over 25,000 students who face food insecurity. This program has been recognized by the Wall Street Journal, CNN, and has been replicated in over 40 States.

Laura also developed Simple Pleasures, a gourmet gift shop that sells the Rice Depot line of soup and chili mixes. Proceeds from the gift shop are used to purchase food for Rice Depot's hunger relief efforts.

Faith is an important part of Laura's life. In 2003, Laura suffered a heat-stroke unloading a truck. Although she would continue to serve her life's mission from a wheelchair, she is not limited by her disability. She often quotes Psalms 37:11 to sum up her life, "Delight yourself in the Lord and he will give you the desires of your heart."

And last but certainly not least, Laura's family—her husband Don, daughter Allison, and four grandchildren are not only inspirations for her but also stalwart supporters. In fact, her daughter Allison shares her mother's mission and has served the Rice Depot for the past 12 years. In addition, Laura's granddaughter worked there over the summer, bringing three generations of her family to the effort to wipe out hunger.

As you can see, Laura Rhea is a generous, compassionate, and dedicated individual. So as Rice Depot celebrates its 27th year of progress in finding sensible solutions to hunger in Arkansas, I salute The Rice Depot, its staff, the many volunteers, and especially Laura Rhea for their commitment to feeding those who hunger in Arkansas.●

##### TRIBUTE TO PARKER WESTBROOK

• Mrs. LINCOLN. Mr. President, it is with Arkansas pride that today I honor one of the great sons of the Natural State, Parker Westbrook of Nashville, AR. On October 20, 2009, the Howard County Democratic Central Committee is sponsoring a dinner to honor his lifelong public service to Arkansas and his country.

The day after Christmas in 1948, Westbrook set out with newly elected Congressman Boyd Tackett of Nashville for Washington, DC. Over the course of the next 26 years, Parker served his home State in our Nation's Capital for four members of the Arkansas congressional delegation, most notably as a special assistant to U.S. Senator J. William Fulbright. In 1975, he returned to Arkansas and served as a special assistant to Governor David Pryor.

Although public service in government was a calling for much of Mr. Westbrook's life, his true passion was historic preservation. Westbrook was born in 1926 and was the third generation of the Westbrook-Parker families

to live in the home of his maternal grandfather, which is listed on the National Register of Historic Places. The house and farmstead provided Parker with an early appreciation for historic preservation, and after leaving Washington in 1974, he set out on a course to help preserve Arkansas's cultural legacy.

While working for Governor Pryor, Westbrook was elected to the Pioneer Washington Foundation, Inc. Board, a private nonprofit group committed to preserving Historic Washington. Washington, AR, is home to the oldest continuous post office in Arkansas, established on February 23, 1820 shortly after Arkansas became a territory. In 1979, Westbrook became a full-time volunteer and restoration adviser. In 1980, he became the executive director and was elected president of the foundation in 1990. He continued in that role until May of this year.

In 1975, Westbrook was elected to the Historic Arkansas Museum Board of Directors and has served that organization continuously for 34 years. For many years, he was chairman and now holds the title of chairman emeritus.

Westbrook was also appointed to the Arkansas State Review Board of the Historic Preservation Program in 1975. He was reappointed three times by Governor Bill Clinton and again by Governor Jim Guy Tucker and served as chairman for 4½ years.

In addition, Westbrook has served on a number of other Arkansas historic entities including the Historic Preservation Alliance of Arkansas, Department of Arkansas Heritage Advisory Board, the President William J. Clinton Birthplace Foundation, Corinth Cemetery Association in Howard County, Friends of the Carousel, and Main Street Arkansas Advisory Board.

He has been awarded the Arkansas Historical Association's Endowed History Award and was recognized in 1986 as Arkansas's Distinguished Citizen for his volunteer work.

In 1995, President Clinton recognized Westbrook's longstanding service to historic preservation and appointed him to the President's Council for Historic Preservation where he served until 2003.

In addition, Interior Secretary Bruce Babbitt twice appointed Parker to the National Park System Advisory Board where he served as chairman of the Committee on National Historic Landmarks.

As you can see, Parker Westbrook has a long and distinguished career serving his community, Arkansas, and our Nation.

As the Howard County Democratic Central Committee recognizes Mr. Westbrook's service, I extend my sincere thanks and appreciation on behalf of all Arkansans for his devotion and commitment to public service throughout his life.●

#### 275TH ANNIVERSARY OF FIRST CONGREGATIONAL CHURCH, UNITED CHURCH OF CHRIST

● Ms. SNOWE. Mr. President, I wish to pay tribute to the First Congregational Church, United Church of Christ of South Portland, ME, on the momentous occasion of its 275th anniversary. What a tremendous milestone and enduring testament to the church's centuries of spiritual leadership and goodwill.

Established in 1733, the church held its inaugural worship service in 1734 and has, through its steady growth and exemplary commitment to others, expanded its ministries, championed education for all, and engendered an abiding sense of fellowship for literally hundreds of years. Although the physical buildings of worship may have changed over time, the church's fundamental mission—to foster its congregation's spiritual life while offering outreach to others through words and actions—has not wavered.

Although this church's history and time-honored presence within the South Portland area are truly remarkable, the First Congregational Church, United Church of Christ concentrates its energies and attention on its current and future role within the greater community—to serve members of its congregation and people whose lives are enriched by the interaction of the ministry, the congregants, and the faith that binds them to a benevolence of purpose that is an inspiration to all.

Through such practical programs as the Discovery Center preschool, the Community Crisis Ministries Program, the Mission and Outreach Team—which offer soup kitchen and food pantry assistance—and the Social Witness Ministries that address current socio-cultural and environmental challenges, this church truly extends its reach beyond its walls in the selfless quest to contribute to others.

As 2009 represents a monumental moment of celebration in the life of the First Congregational Church, United Church of Christ, I wish to offer my heartfelt congratulations and profound gratitude to all who have sustained the dynamic work of this church in centuries past and who will do so for many more years to come.●

#### MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mrs. Neiman, one of his secretaries.

#### EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations which were referred to the appropriate committees.

(The nominations received today are printed at the end of the Senate proceedings.)

#### MESSAGES FROM THE HOUSE

At 10:46 a.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bills, in which it requests the concurrence of the Senate:

H.R. 1327. An act to authorize State and local governments to direct divestiture from, and prevent investment in, companies with investments of \$20,000,000 or more in Iran's energy sector, and for other purposes.

H.R. 1700. An act to authorize the Administrator of General Services to convey a parcel of real property in the District of Columbia to provide for the establishment of a National Women's History Museum.

H.R. 2651. An act to amend title 46, United States Code, to direct the Secretary of Transportation to establish a maritime career training loan program, and for other purposes.

H.R. 3371. An act to amend title 49, United States Code, to improve airline safety and pilot training, and for other purposes.

The message also announced that the House has agreed to the following concurrent resolution, in which it requests the concurrence of the Senate:

H. Con. Res. 138. Concurrent resolution recognizing the 40th anniversary of the George Bush Intercontinental Airport in Houston, Texas.

At 1:27 p.m., a message from the House of Representatives, delivered by Ms. Niland, one of its reading clerks, announced that the House agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes.

#### ENROLLED BILLS SIGNED

The President pro tempore (Mr. BYRD) announced that on today, October 15, 2009, he had signed the following enrolled bills, previously signed by the Speaker of the House:

S. 1717. A bill to authorize major medical facility leases for the Department of Veterans Affairs for fiscal year 2010, and for other purposes.

H.R. 1016. An act to amend title 38, United States Code, to provide advance appropriations authority for certain accounts of the Department of Veterans Affairs, and for other purposes.

H.R. 2997. An act making appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for the fiscal year ending September 30, 2010, and for other purposes.

At 3:50 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 2423. An act to designate the Federal building and United States courthouse located at 1300 Victoria Street in Laredo, Texas, as the "George P. Kazen Federal Building and United States Courthouse."

The message also announced that pursuant to 20 U.S.C. 955(b), and the order of the House of January 6, 2009, the Speaker appoints the following Members of the House of Representatives to the National Council on the Arts: Ms. MCCOLLUM of Minnesota and Mr. CARNAHAN of Missouri.

The message further announced that pursuant to 10 U.S.C. 4355(a), and the order of the House of January 6, 2009, the Speaker appoints the following Members of the House of Representatives to the Board of Visitors to the United States Military Academy: Mr. LEWIS of California and Mr. SHIMKUS of Illinois.

### MEASURES REFERRED

The following bills were read the first and the second times by unanimous consent, and referred as indicated:

H.R. 22. An act to amend title 5, United States Code, to reduce the amount that the United States Postal Service is required to pay into the Postal Service Retiree Health Benefits Fund by the end of fiscal year 2009; to the Committee on Homeland Security and Governmental Affairs.

H.R. 1327. An act to authorize State and local governments to direct divestiture from, and prevent investment in, companies with investments of \$20,000,000 or more in Iran's energy sector, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

H.R. 1700. An act to authorize the Administrator of General Services to convey a parcel of real property in the District of Columbia to provide for the establishment of a National Women's History Museum; to the Committee on Environment and Public Works.

H.R. 2423. An act to designate the Federal building and United States courthouse located at 1300 Victoria Street in Laredo, Texas, as the "George P. Kazen Federal Building and United States Courthouse", and to designate the jury room in that Federal building and United States courthouse as the "Marcel C. Notzon II Jury Room"; to the Committee on Environment and Public Works.

H.R. 2651. An act to amend title 46, United States Code, to direct the Secretary of Transportation to establish a maritime career training loan program, and for other purposes; to the Committee on Commerce, Science, and Transportation.

H.R. 3371. An act to amend title 49, United States Code, to improve airline safety and pilot training, and for other purposes; to the Committee on Commerce, Science, and Transportation.

The following concurrent resolution was read, and referred as indicated:

H. Con. Res. 138. Concurrent resolution recognizing the 40th anniversary of the George Bush Intercontinental Airport in Houston, Texas; to the Committee on Commerce, Science, and Transportation.

### MEASURES DISCHARGED

The following joint resolution was discharged from the Committee on

Foreign Relations pursuant to 42 U.S.C. 2159, and placed on the calendar:

S.J. Res. 18. Joint resolution relating to the approval of the proposed agreement for nuclear cooperation between the United States and the United Arab Emirates.

### ENROLLED BILL PRESENTED

The Secretary of the Senate reported that on today, October 15, 2009, she had presented to the President of the United States the following enrolled bill:

S. 1717. An act to authorize major medical facility leases for the Department of Veterans Affairs for fiscal year 2010, and for other purposes.

### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-3371. A communication from the Director of Defense Procurement and Acquisition Policy, Department of Defense, transmitting, pursuant to law, the report of a rule entitled "Defense Acquisition Regulation Supplement; Department of Defense Inspector General Address" ((RIN0750-AG34)(DFARS Case 2009-D001)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Armed Services.

EC-3372. A communication from the Director of Defense Procurement and Acquisition Policy, Department of Defense, transmitting, pursuant to law, the report of a rule entitled "Defense Acquisition Regulation Supplement; Restriction on Research and Development—Deletion of Obsolete Text" ((RIN0750-AG33) (DFARS Case 2009-D005)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Armed Services.

EC-3373. A communication from the Acting Deputy General Counsel of the National Credit Union Administration, transmitting, pursuant to law, the report of a rule entitled "Exception to the Maturity Limit on Second Mortgages" (RIN3133-AD64) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3374. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Requirement for Amateur Rocket Activities; CORRECTION" (RIN2120-AI88) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3375. A communication from the Paralegal, Federal Transportation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Bus Testing: Phase-In of Brake Performance and Emissions Testing, and Program Updates" (RIN2132-AA95) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3376. A communication from the Assistant Chief Counsel, Pipeline and Hazardous Materials Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Hazardous Materials: Minor Editorial Cor-

rections and Clarifications" (RIN2137-AE50) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3377. A communication from the Assistant Chief Counsel, Pipeline and Hazardous Materials Safety Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Hazardous Materials: Revision of Requirements for Emergency Response Telephone Numbers" (RIN2137-AE21) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3378. A communication from the Regulations Officer, Federal Highway Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Express Lane Demonstration Program" (RIN2125-AF07) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3379. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Congestion Management Rule for John F. Kennedy International Airport and Newark Liberty International Airport; RESCISSION" (RIN2120-AJ48) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3380. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Congestion Management Rule for LaGuardia Airport; RESCISSION" (RIN2120-AJ49) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3381. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Restricted Area R-2502A; Fort Irwin, CA; Docket No. 09-AWP-3" (RIN2120-AA66) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3382. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures (105); Amdt. No. 3338" (RIN2120-AA65) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3383. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures (7); Amdt. No. 3339" (RIN2120-AA65) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3384. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures (8); Amdt. No. 3341" (RIN2120-AA65) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3385. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Standard Instrument Approach Procedures (122); Amdt. No. 3340" (RIN2120-AA65) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3386. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Part 95 Instrument Flight Rules (20); Amdt. No. 483" (RIN2120-AA63) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3387. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 727 Airplanes" ((RIN2120-AA64) (Docket No. FAA-2008-1117)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3388. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; DORNIER LUFTAHRT GmbH Models Dornier 228-100, Dornier 228-101, Dornier 228-200, Dornier 228-201, and Dornier 228-202 Airplanes" ((RIN2120-AA64) (Docket No. FAA-2009-0574)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3389. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Glaser-Dirks Flugzeugbau GmbH Model DG-100 Gliders" ((RIN2120-AA64) (Docket No. FAA-2009-0881)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3390. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Airbus Model A318, A319, A320 and A321 Series Airplanes" ((RIN2120-AA64) (Docket No. FAA-2007-0390)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3391. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Airbus Model A310-203 and -222 Airplanes and Model A300 B4-620 Airplanes" ((RIN2120-AA64) (Docket No. FAA-2009-0431)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3392. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class E Airspace; Ronan, MT" ((RIN2120-AA66) (Docket No. FAA-2009-0552)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3393. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class D Airspace and Amendment of Class E Airspace; North Bend, OR" ((RIN2120-AA66) (Docket No. FAA-2008-0006)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3394. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Modification of Class D and E Airspace, Removal of Class E Airspace; Aguadilla, PR" ((RIN2120-AA66) (Docket No. FAA-2009-0053)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3395. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class D Airspace, Modification of Class E Airspace; Bunnell, Florida" ((RIN2120-AA66) (9-24-9-25/0327/ASO-014)) received in the Office of the President of the Senate on October 1, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3396. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Modification of Class E Airspace; Franklin, North Carolina" ((RIN2120-AA66) (9-24-9-25/0986/ASO-15)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3397. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Amendment of Class E Airspace; Platteville, Wisconsin" ((RIN2120-AA66) (10-9-10-9/0512/AGL-9)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3398. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Modification of Class E Airspace; Pueblo, Colorado" ((RIN2120-AA66) (10-9-10-9/0349/ANM-6)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3399. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Establishment of Class E Airspace; Little River, California" ((RIN2120-AA66) (10-9-10-9/0617/AWP-5)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3400. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Glaser-Dirks Flugzeugbau GmbH Model DG-100 Gliders" ((RIN2120-AA64) (10-5-10-5/0897/CE-048)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3401. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 747-100, -100B, -100B SUD, -200B, -200C, -200F, -300, -400, -400D, -400F, and 747SR Series Airplanes" ((RIN2120-AA64) (10-5-10-1/0293/NM-221)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3402. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 727-281 Airplanes Equipped with Auxiliary Fuel Tanks Installed in Accordance with Supplemental Type Certificate SA3449NM" ((RIN2120-AA64) (9-21-9-21/1325/NM-157)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3403. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Teledyne Continental Motors O-470, IO-470, TSIO-470, IO-520, TSIO-520, IO-550, and IOF-550" ((RIN2120-AA64) (9-21-9-21/0367/NE-10)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3404. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 767-200, -300, and -300F Series Airplanes" ((RIN2120-AA64) (10-1-10-1/1363/NM-104)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3405. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 727 Airplanes" ((RIN2120-AA64) (10-1-10-1/0646/NM-359)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3406. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 737-300, -400, and -500 Series Airplanes Equipped with a Digital Transient Suppression Device (DTSD) Installed in Accordance with Supplemental Type Certificate (STC) ST00127BO" ((RIN2120-AA64) (10-1-10-1/05221/NM-187)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3407. A communication from the Program Analyst, Federal Aviation Administration, Department of Transportation, transmitting, pursuant to law, the report of a rule entitled "Airworthiness Directives; Boeing Model 767-200 and -300 Series Airplanes" ((RIN2120-AA64) (9-24-9-29/0682/NM-237)) received in the Office of the President of the Senate on October 13, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3408. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Direct Final Rule; Safety and Security Zones;

Pilgrim Nuclear Power Plant, Plymouth, Massachusetts" (RIN1625-AA00) (Docket No. USG-2009-0311)) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3409. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Vessel and Facility Response Plans for Oil: 2003 Removal Equipment Requirements and Alternative Technology Revisions" (RIN1625-AA26) (Docket No. USG-2001-8661)) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3410. A communication from the Acting Chairman, National Transportation Safety Board, transmitting, pursuant to law, a report relative to the activities performed by the agency that are not inherently governmental functions; to the Committee on Commerce, Science, and Transportation.

EC-3411. A communication from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting, pursuant to law, the report of a rule entitled "Television Broadcasting Services; New Orleans, Louisiana" (MB Docket No. 09-147) received in the Office of the President of the Senate on October 8, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3412. By Ms. MURKOWSKI (for herself and Mr. BEGICH):

S. 1795. A bill to amend title 49, United States Code, to permit certain revenues of private providers of public transportation by vanpool received from providing public transportation to be used for the purpose of acquiring rolling stock, and to permit certain expenditures of private vanpool contractors to be credited toward the local matching share of the costs of public transportation projects; to the Committee on Commerce, Science, and Transportation.

## ADDITIONAL COSPONSORS

S. 46

At the request of Mr. ENSIGN, the names of the Senator from Georgia (Mr. CHAMBLISS) and the Senator from Utah (Mr. BENNETT) were added as cosponsors of S. 46, a bill to amend title XVIII of the Social Security Act to repeal the Medicare outpatient rehabilitation therapy caps.

S. 451

At the request of Ms. COLLINS, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 451, a bill to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

S. 461

At the request of Mrs. LINCOLN, the name of the Senator from Alabama (Mr. SESSIONS) was added as a cosponsor of S. 461, a bill to amend the Internal Revenue Code of 1986 to extend and modify the railroad track maintenance credit.

S. 546

At the request of Mr. REID, the name of the Senator from Montana (Mr. BAUCUS) was added as a cosponsor of S. 546, a bill to amend title 10, United States Code, to permit certain retired members of the uniformed services who have a service-connected disability to receive both disability compensation from the Department of Veterans Affairs for their disability and either retired pay by reason of their years of military service or Combat-Related Special Compensation.

S. 619

At the request of Ms. SNOWE, the name of the Senator from Connecticut (Mr. LIEBERMAN) was added as a cosponsor of S. 619, a bill to amend the Federal Food, Drug, and Cosmetic Act to preserve the effectiveness of medically important antibiotics used in the treatment of human and animal diseases.

S. 658

At the request of Mr. TESTER, the name of the Senator from Oregon (Mr. WYDEN) was added as a cosponsor of S. 658, a bill to amend title 38, United States Code, to improve health care for veterans who live in rural areas, and for other purposes.

S. 663

At the request of Mr. NELSON of Nebraska, the names of the Senator from Montana (Mr. BAUCUS) and the Senator from New York (Mrs. GILLIBRAND) were added as cosponsors of S. 663, a bill to amend title 38, United States Code, to direct the Secretary of Veterans Affairs to establish the Merchant Mariner Equity Compensation Fund to provide benefits to certain individuals who served in the United States merchant marine (including the Army Transport Service and the Naval Transport Service) during World War II.

S. 727

At the request of Ms. LANDRIEU, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 727, a bill to amend title 18, United States Code, to prohibit certain conduct relating to the use of horses for human consumption.

S. 729

At the request of Mr. DURBIN, the name of the Senator from Delaware (Mr. KAUFMAN) was added as a cosponsor of S. 729, a bill to amend the Illegal Immigration Reform and Immigrant Responsibility Act of 1996 to permit States to determine State residency for higher education purposes and to authorize the cancellation of removal and adjustment of status of certain alien students who are long-term United States residents and who entered the United States as children, and for other purposes.

S. 823

At the request of Ms. SNOWE, the name of the Senator from California (Mrs. BOXER) was added as a cosponsor of S. 823, a bill to amend the Internal Revenue Code of 1986 to allow a 5-year carryback of operating losses, and for other purposes.

S. 831

At the request of Mr. KERRY, the name of the Senator from Virginia (Mr. WARNER) was added as a cosponsor of S. 831, a bill to amend title 10, United States Code, to include service after September 11, 2001, as service qualifying for the determination of a reduced eligibility age for receipt of non-regular service retired pay.

S. 870

At the request of Mrs. LINCOLN, the name of the Senator from Georgia (Mr. CHAMBLISS) was added as a cosponsor of S. 870, a bill to amend the Internal Revenue Code of 1986 to expand the credit for renewable electricity production to include electricity produced from biomass for on-site use and to modify the credit period for certain facilities producing electricity from open-loop biomass.

S. 956

At the request of Mr. TESTER, the name of the Senator from North Carolina (Mrs. HAGAN) was added as a cosponsor of S. 956, a bill to amend title XVIII of the Social Security Act to exempt unsanctioned State-licensed retail pharmacies from the surety bond requirement under the Medicare Program for suppliers of durable medical equipment, prosthetics, orthotics, and supplies (DMEPOS).

S. 1056

At the request of Mr. VOINOVICH, the names of the Senator from New Hampshire (Mrs. SHAHEEN) and the Senator from Idaho (Mr. RISCH) were added as cosponsors of S. 1056, a bill to establish a commission to develop legislation designed to reform tax policy and entitlement benefit programs and ensure a sound fiscal future for the United States, and for other purposes.

S. 1076

At the request of Mr. MENENDEZ, the name of the Senator from Massachusetts (Mr. KERRY) was added as a cosponsor of S. 1076, a bill to improve the accuracy of fur product labeling, and for other purposes.

S. 1136

At the request of Ms. STABENOW, the name of the Senator from New York (Mrs. GILLIBRAND) was added as a cosponsor of S. 1136, a bill to establish a chronic care improvement demonstration program for Medicaid beneficiaries with severe mental illnesses.

S. 1147

At the request of Mr. KOHL, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 1147, a bill to prevent tobacco smuggling, to ensure the collection of all tobacco taxes, and for other purposes.

S. 1171

At the request of Mr. PRYOR, the name of the Senator from Ohio (Mr. VOINOVICH) was added as a cosponsor of S. 1171, a bill to amend title XVIII of the Social Security Act to restore State authority to waive the 35-mile rule for designating critical access hospitals under the Medicare Program.

S. 1177

At the request of Mr. KOHL, the name of the Senator from Maine (Ms. COLLINS) was added as a cosponsor of S. 1177, a bill to improve consumer protections for purchasers of long-term care insurance, and for other purposes.

S. 1304

At the request of Mr. GRASSLEY, the name of the Senator from Massachusetts (Mr. KIRK) was added as a cosponsor of S. 1304, a bill to restore the economic rights of automobile dealers, and for other purposes.

S. 1340

At the request of Mr. LEAHY, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 1340, a bill to establish a minimum funding level for programs under the Victims of Crime Act of 1984 for fiscal years 2010 to 2014 that ensures a reasonable growth in victim programs without jeopardizing the long-term sustainability of the Crime Victims Fund.

S. 1360

At the request of Mr. BINGAMAN, the name of the Senator from New Jersey (Mr. LAUTENBERG) was added as a cosponsor of S. 1360, a bill to amend the Internal Revenue Code of 1986 to exclude from gross income amounts received on account of claims based on certain unlawful discrimination and to allow income averaging for backpay and frontpay awards received on account of such claims, and for other purposes.

S. 1421

At the request of Mr. LEVIN, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 1421, a bill to amend section 42 of title 18, United States Code, to prohibit the importation and shipment of certain species of carp.

S. 1584

At the request of Mr. MERKLEY, the name of the Senator from Louisiana (Ms. LANDRIEU) was added as a cosponsor of S. 1584, a bill to prohibit employment discrimination on the basis of sexual orientation or gender identity.

S. 1608

At the request of Ms. STABENOW, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1608, a bill to prepare young people in disadvantaged situations for a competitive future.

S. 1685

At the request of Mr. SANDERS, the names of the Senator from Maryland (Ms. MIKULSKI) and the Senator from New Mexico (Mr. UDALL) were added as cosponsors of S. 1685, a bill to provide an emergency benefit of \$250 to seniors, veterans, and persons with disabilities in 2010 to compensate for the lack of a cost-of-living adjustment for such year, and for other purposes.

S. 1700

At the request of Mr. LUGAR, the name of the Senator from Indiana (Mr. BAYH) was added as a cosponsor of S. 1700, a bill to require certain issuers to disclose payments to foreign governments for the commercial development of oil, natural gas, and minerals, to express the sense of Congress that the

President should disclose any payment relating to the commercial development of oil, natural gas, and minerals on Federal land, and for other purposes.

S. 1723

At the request of Mr. CORKER, the name of the Senator from Utah (Mr. BENNETT) was added as a cosponsor of S. 1723, a bill to authorize the Secretary of the Treasury to delegate management authority over troubled assets purchased under the Troubled Asset Relief Program, to require the establishment of a trust to manage assets of certain designated TARP recipients, and for other purposes.

S. 1776

At the request of Ms. STABENOW, the names of the Senator from New Mexico (Mr. UDALL), the Senator from Pennsylvania (Mr. CASEY), the Senator from Alaska (Mr. BEGICH), and the Senator from Vermont (Mr. LEAHY) were added as cosponsors of S. 1776, a bill to amend title XVIII of the Social Security Act to provide for the update under the Medicare physician fee schedule for years beginning with 2010 and to sunset the application of the sustainable growth rate formula, and for other purposes.

S. 1783

At the request of Mr. FRANKEN, the name of the Senator from Minnesota (Ms. KLOBUCHAR) was added as a cosponsor of S. 1783, a bill to amend the Agricultural Marketing Act of 1946 to provide for country of origin labeling for dairy products.

S. RES. 307

At the request of Mr. BUNNING, the name of the Senator from Georgia (Mr. ISAKSON) was added as a cosponsor of S. Res. 307, a resolution to require that all legislative matters be available and fully scored by CBO 72 hours before consideration by any subcommittee or committee of the Senate or on the floor of the Senate.

S. RES. 312

At the request of Mr. DURBIN, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. Res. 312, a resolution expressing the sense of the Senate on empowering and strengthening the United States Agency for International Development (USAID).

#### STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. FRANKEN:

S. 1788. A bill to direct the Secretary of Labor to issue an occupational safety and health standard to reduce injuries to patients, direct-care registered nurses, and all other health care workers by establishing a safe patient handling and injury prevention standard, and for other purposes; to the Committee on Health, Education, Labor, and Pensions.

Mr. FRANKEN. Mr. President, today I am introducing a bill to help keep our country's invaluable nurses and health care workers safe from debilitating injuries suffered on the job. This legislation will require workplace standards that eliminate the manual lifting of patients—the primary cause of musculoskeletal disorders in the health care profession. And I want to first thank my colleague in the House, Representative CONYERS of Michigan's 14th District, for his leadership on this issue and for the impressive work he put into crafting this bill.

When we think of dangerous working conditions, mines or construction sites might come to mind. But in fact, work performed in hospitals and nursing homes contributes to thousands of cases of musculoskeletal disorders in nurses and health care workers each year. These injuries require time away from work, and unfortunately, many workers suffering from chronic back injury are forced to leave the profession permanently. Nurses and health care workers deserve better—they shouldn't have to sacrifice their safety and their livelihood to help others, especially when many of these injuries could be prevented.

The manual lifting of patients is the primary cause of musculoskeletal injuries, and can be eliminated with the use of lifting equipment. Many health care facilities already have this equipment available, and studies have shown that it reduces injuries to workers, increases safety for patients, and is a cost-effective investment over several years.

This legislation would require the Department of Labor to propose standards for safe patient handling to prevent musculoskeletal disorders for health care workers, and eliminate manual lifting of patients through the use of lift equipment. It would also require health care facilities to develop safe patient handling plans and provide training on safe patient handling techniques.

Under the bill, health care workers would have the right to refuse assignments that are not in compliance with safe patient handling standards and be protected from employer retaliation against workers who refuse these assignments or report violations.

To help health care facilities to make this transition, the bill creates a new grant program for needy health care facilities that require financial assistance to purchase safe patient handling equipment.

I urge my colleagues to support the Nurse and Health Care Worker Protection Act. All of us benefit from the services these professionals provide, and by passing this legislation, we can help ensure they are able to safely continue in their important careers.

Mr. President, I ask unanimous consent that the text of this bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1788

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE; FINDINGS; TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Nurse and Health Care Worker Protection Act of 2009".

(b) FINDINGS.—Congress finds the following:

(1) In 2007, direct-care registered nurses ranked seventh among all occupations for the number of cases of musculoskeletal disorders resulting in days away from work—8,580 total cases. Nursing aides, orderlies, and attendants sustained 24,340 musculoskeletal disorders in 2007, the second highest of any occupation. The leading cause of these injuries in health care are the result of patient lifting, transferring, and repositioning injuries.

(2) The physical demands of the nursing profession lead many nurses to leave the profession. Fifty-two percent of nurses complain of chronic back pain and 38 percent suffer from pain severe enough to require leave from work. Many nurses and other health care workers suffering back injury do not return to work.

(3) Patients are not at optimum levels of safety while being lifted, transferred, or repositioned manually. Mechanical lift programs can substantially reduce skin tears suffered by patients and the frequency of patients being dropped, thus allowing patients a safer means to progress through their care.

(4) The development of assistive patient handling equipment and devices has essentially rendered the act of strict manual patient handling unnecessary as a function of nursing care.

(5) A growing number of health care facilities have incorporated patient handling technology and have reported positive results. Injuries among nursing staff have dramatically declined since implementing patient handling equipment and devices. As a result, the number of lost work days due to injury and staff turnover has declined. Studies have also shown that assistive patient handling technology successfully reduces workers' compensation costs for musculoskeletal disorders.

(6) Establishing a safe patient handling and injury prevention standard for direct-care registered nurses and other health care workers is a critical component in protecting nurses and other health care workers, addressing the nursing shortage, and increasing patient safety.

(c) TABLE OF CONTENTS.—The table of contents of this Act is as follows:

- Sec. 1. Short title; findings; table of contents.
- Sec. 2. Safe patient handling and injury prevention standard.
- Sec. 3. Protection of direct-care registered nurses and health care workers.
- Sec. 4. Application of safe patient handling and injury prevention standard to health care facilities not covered by OSHA.
- Sec. 5. Financial assistance to needy health care facilities in the purchase of safe patient handling and injury prevention equipment.
- Sec. 6. Definitions.

**SEC. 2. SAFE PATIENT HANDLING AND INJURY PREVENTION STANDARD.**

(a) **RULEMAKING.**—Not later than 1 year after the date of the enactment of this Act, the Secretary of Labor, shall, pursuant to section 6 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 655), propose a standard on safe patient handling and injury prevention (in this section such standard referred to as the “safe patient handling and injury prevention standard”) under such section to prevent musculoskeletal disorders for direct-care registered nurses and all other health care workers handling patients in health care facilities. A final safe patient handling and injury prevention standard shall be promulgated not later than 2 years after the date of the enactment of this Act.

(b) **REQUIREMENTS.**—The safe patient handling and injury prevention standard shall require the use of engineering controls to perform lifting, transferring, and repositioning of patients and the elimination of manual lifting of patients by direct-care registered nurses and all other health care workers, through the use of mechanical devices to the greatest degree feasible except where the use of safe patient handling practices can be demonstrated to compromise patient care. The standard shall apply to all health care employers and shall require at least the following:

(1) Each health care employer to develop and implement a safe patient handling and injury prevention plan within 6 months of the date of promulgation of the final standard, which plan shall include hazard identification, risk assessments, and control measures in relation to patient care duties and patient handling.

(2) Each health care employer to purchase, use, maintain, and have accessible an adequate number of safe lift mechanical devices not later than 2 years after the date of issuance of a final regulation establishing such standard.

(3) Each health care employer to obtain input from direct-care registered nurses, health care workers, and employee representatives of direct-care registered nurses and health care workers in developing and implementing the safe patient handling and injury prevention plan, including the purchase of equipment.

(4) Each health care employer to establish and maintain a data system that tracks and analyzes trends in injuries relating to the application of the safe patient handling and injury prevention standard and to make such data and analyses available to employees and employee representatives.

(5) Each health care employer to establish a system to document in each instance when safe patient handling equipment was not utilized due to legitimate concerns about patient care and to generate a written report in each such instance. The report shall list the following:

(A) The work task being performed.  
(B) The reason why safe patient handling equipment was not used.

(C) The nature of the risk posed to the worker from manual lifting.

(D) The steps taken by management to reduce the likelihood of manual lifting and transferring when performing similar work tasks in the future.

Such reports shall be made available to OSHA compliance officers, workers, and their representatives upon request within one business day.

(6) Each health care employer to train nurses and other health care workers on safe patient handling and injury prevention poli-

cies, equipment, and devices at least on an annual basis. Such training shall include providing information on hazard identification, assessment, and control of musculoskeletal hazards in patient care areas and shall be conducted by an individual with knowledge in the subject matter, and delivered, at least in part, in an interactive classroom-based and hands-on format.

(7) Each health care employer to post a uniform notice in a form specified by the Secretary that—

(A) explains the safe patient handling and injury prevention standard;

(B) includes information regarding safe patient handling and injury prevention policies and training; and

(C) explains procedures to report patient handling-related injuries.

(8) Each health care employer to conduct an annual written evaluation of the implementation of the safe patient handling and injury prevention plan, including handling procedures, selection of equipment and engineering controls, assessment of injuries, and new safe patient handling and injury prevention technology and devices that have been developed. The evaluation shall be conducted with the involvement of nurses, other health care workers, and their representatives and shall be documented in writing. Health care employers shall take corrective action as recommended in the written evaluation.

(c) **INSPECTIONS.**—The Secretary of Labor shall conduct unscheduled inspections under section 8 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 657) to ensure implementation of and compliance with the safe patient handling and injury prevention standard.

**SEC. 3. PROTECTION OF DIRECT-CARE REGISTERED NURSES AND HEALTH CARE WORKERS.**

(a) **REFUSAL OF ASSIGNMENT.**—The Secretary shall ensure that a direct-care registered nurse or other health care worker may refuse to accept an assignment from a health care employer if—

(1) the assignment would subject the worker to conditions that would violate the safe patient handling and injury prevention standard; or

(2) the nurse or worker has not received training described in section 2(a)(5) that meets such standard.

(b) **RETALIATION FOR REFUSAL OF LIFTING ASSIGNMENT BARRED.**—

(1) **NO DISCHARGE, DISCRIMINATION, OR RETALIATION.**—No health care employer shall discharge, discriminate, or retaliate in any manner with respect to any aspect of employment, including discharge, promotion, compensation, or terms, conditions, or privileges of employment, against a direct-care registered nurse or other health care worker based on the nurse's or worker's refusal of a lifting assignment under subsection (a).

(2) **NO FILING OF COMPLAINT.**—No health care employer shall file a complaint or a report against a direct-care registered nurse or other health care worker with the appropriate State professional disciplinary agency because of the nurse's or worker's refusal of a lifting assignment under subsection (a).

(c) **WHISTLEBLOWER PROTECTION.**—

(1) **RETALIATION BARRED.**—A health care employer shall not discriminate or retaliate in any manner with respect to any aspect of employment, including hiring, discharge, promotion, compensation, or terms, conditions, or privileges of employment against any nurse or health care worker who in good faith, individually or in conjunction with another person or persons—

(A) reports a violation or a suspected violation of this Act or the safe patient handling and injury prevention standard to the Secretary of Labor, a public regulatory agency, a private accreditation body, or the management personnel of the health care employer;

(B) initiates, cooperates, or otherwise participates in an investigation or proceeding brought by the Secretary, a public regulatory agency, or a private accreditation body concerning matters covered by this Act; or

(C) informs or discusses with other individuals or with representatives of health care employees a violation or suspected violation of this Act.

(2) **GOOD FAITH DEFINED.**—For purposes of this subsection, an individual shall be deemed to be acting in good faith if the individual reasonably believes—

(A) the information reported or disclosed is true; and

(B) a violation of this Act or the safe patient handling and injury prevention standard has occurred or may occur.

(d) **COMPLAINT TO SECRETARY.**—

(1) **FILING.**—A direct-care registered nurse, health care worker, or other individual may file a complaint with the Secretary of Labor against a health care employer that violates this section within 180 days of the date of the violation.

(2) **RESPONSE TO COMPLAINT.**—For any complaint so filed, the Secretary shall—

(A) receive and investigate the complaint;

(B) determine whether a violation of this Act as alleged in the complaint has occurred; and

(C) if such a violation has occurred, issue an order that sets forth the violation and the required remedy or remedies.

(3) **REMEDIES.**—The Secretary shall have the authority to order all appropriate remedies for such violations.

(e) **CAUSE OF ACTION.**—Any direct-care registered nurse or other health care worker who has been discharged, discriminated, or retaliated against in violation of this section may bring a cause of action in a United States district court. A direct-care registered nurse or other health care worker who prevails on the cause of action shall be entitled to the following:

(1) Reinstatement, reimbursement of lost wages, compensation, and benefits.

(2) Attorneys' fees.

(3) Court costs.

(4) Other damages.

(f) **NOTICE.**—A health care employer shall include in the notice required under section 2(b)(7) an explanation of the rights of direct-care registered nurses and health care workers under this section and a statement that a direct-care registered nurse or health care worker may file a complaint with the Secretary against a health care employer that violates the safe patient handling and injury prevention standard, including instructions for how to file such a complaint.

(g) **ADDITION TO CURRENT PROTECTIONS.**—The worker protections provided for under this section are in addition to protections provided in section 11(c) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 660(c)).

**SEC. 4. APPLICATION OF SAFE PATIENT HANDLING AND INJURY PREVENTION STANDARD TO HEALTH CARE FACILITIES NOT COVERED BY OSHA.**

(a) **IN GENERAL.**—Section 1866 of the Social Security Act (42 U.S.C. 1395cc) is amended—

(1) in subsection (a)(1)(V), by inserting “and safe patient handling and injury prevention standard (as initially promulgated under section 2 of the Nurse and Health Care

Worker Protection Act of 2009)" before the period at the end; and

(2) in subsection (b)(4)—

(A) in subparagraph (A), inserting "and the safe patient handling and injury prevention standard" after "Bloodborne Pathogens standard"; and

(B) in subparagraph (B), inserting "or the safe patient handling and injury prevention standard" after "Bloodborne Pathogens standard".

(b) EFFECTIVE DATE.—The amendments made by subsection (a) shall apply to health care facilities 1 year after date of issuance of the final safe patient handling and injury prevention standard required under section 2.

**SEC. 5. FINANCIAL ASSISTANCE TO NEEDY HEALTH CARE FACILITIES IN THE PURCHASE OF SAFE PATIENT HANDLING AND INJURY PREVENTION EQUIPMENT.**

(a) IN GENERAL.—The Secretary of Health and Human Services shall establish a grant program that provides financial assistance to cover some or all of the costs of purchasing safe patient handling and injury prevention equipment for health care facilities, such as hospitals, nursing facilities, home health care, and outpatient facilities, that—

(1) require the use of such equipment in order to comply with the safe patient handling and injury prevention standard; but

(2) demonstrate the financial need for assistance for purchasing the equipment required under such standard.

(b) APPLICATION.—No financial assistance shall be provided under this section except pursuant to an application made to the Secretary of Health and Human Services in such form and manner as the Secretary shall specify.

(c) AUTHORIZATION OF APPROPRIATIONS.—There are authorized to be appropriated for financial assistance under this section \$200,000,000, of which \$50,000,000 will be available specifically for home health agencies or entities. Funds appropriated under this subsection shall remain available until expended.

**SEC. 6. DEFINITIONS.**

For purposes of this Act:

(1) DIRECT-CARE REGISTERED NURSE.—The term "direct-care registered nurse" means an individual who has been granted a license by at least one State to practice as a registered nurse and who provides bedside care or outpatient services for one or more patients or residents.

(2) HEALTH CARE WORKER.—The term "health care worker" means an individual who has been assigned to lift, reposition, or move patients or residents in a health care facility.

(3) EMPLOYMENT.—The term "employment" includes the provision of services under a contract or other arrangement.

(4) HEALTH CARE EMPLOYER.—The term "health care employer" means an outpatient health care facility, hospital, nursing home, home health care agency, hospice, federally qualified health center, nurse managed health center, rural health clinic, or any similar health care facility that employs direct-care registered nurses or other health care workers.

By Mr. DURBIN (for himself, Mr. LEAHY, Mr. SPECTER, Mr. FEINGOLD, Mr. CARDIN, Mr. WHITEHOUSE, Mr. KAUFMAN, Mr. FRANKEN, Mr. DODD, Mr. KERRY, and Mr. LEVIN):

S. 1789. A bill to restore fairness to Federal cocaine sentencing; to the Committee on the Judiciary.

Mr. DURBIN. Mr. President, I rise to speak about the Fair Sentencing Act of 2009, which I am introducing today.

This narrowly tailored bill would eliminate the sentencing disparity that exists in the United States between crack cocaine and powder cocaine. At the same time, it would increase penalties for the worst offenders for crimes involving these substances. It accomplishes two very important goals: One goal is to restore fairness to drug sentencing and, second, to focus our limited Federal resources on the most effective way to end violent drug trafficking.

I have cast thousands of votes as a Member of the House of Representatives and the Senate. Most of those votes are kind of lost in the shadows of history. Some were historic, relative to going to war and impeachment issues, and you never forget those.

But there was one vote I cast more than 20 years ago which I regret. It was a vote that was cast by many of us in the House of Representatives, when we were first informed about the appearance of a new narcotic on the streets. It was called crack cocaine. It was so cheap it was going to be plentiful, and it was so insidious—or at least we were told that 20 years ago—we were advised to take notice and do something dramatic and we did.

More than 20 years ago, I joined many Members of Congress from both political parties in voting for the Anti-Drug Abuse Act of 1986. It established the Federal cocaine sentencing framework that is still in place today.

Under this law, it takes 100 times more powder cocaine than crack cocaine to trigger the same 5-to-10-year mandatory minimum sentence. This is known as the 100-to-1 crack/powder sentencing disparity. But that phrase doesn't tell the story. Here is the story. Simply possessing 5 grams of crack, which is the equivalent of holding five packets of sugar or Equal or one of the sugar substitutes, simply possessing that small amount of crack cocaine under the current sentencing framework carries the same sentence as selling—not possessing but selling—500 grams of powder cocaine—the equivalent of 500 packets of sugar. Why? Well, because we believed we were dealing with a different class of narcotics; something that was much more dangerous and should be treated much more harshly.

Make no mistake, cocaine—whether in crack or powder form—has a devastating impact on families and on our society and we need to have tough legislation when it comes to narcotics. But in addition to being tough, our drug laws have to be fair.

Right now, our cocaine laws are based on a distinction between crack

and powder cocaine which cannot be justified. Our laws don't focus on the most dangerous offenders. Incarcerating for 5 to 10 years people who are possessing five sugar packets' worth of crack cocaine for the same period of time as those who are selling 500 sugar-size packets of powder cocaine is indefensible.

The Fair Sentencing Act, which I am introducing today, would completely eliminate this crack/powder disparity. It establishes the same sentences for crack and powder—a 1-to-1 sentencing ratio.

Those of us who supported the law establishing this disparity had good intentions. We followed the lead and advice of people in law enforcement. We wanted to address this crack epidemic that was spreading fear and ravaging communities. But we have learned a great deal in the last 20 years. We now know the assumptions that led us to create this disparity were wrong.

Vice President JOE BIDEN, one of the authors of the legislation creating this disparity in sentencing, has said: "Each of the myths upon which we based the disparity has since been dispelled or altered."

Earlier this year, I held a hearing in the Senate Judiciary Committee on this disparity in sentencing and we learned the following: Crack is not more addictive than powder cocaine, and crack cocaine offenses do not involve significantly more violence than powder cocaine offenses. Those were the two things that led us to this gross disparity in sentencing between powder cocaine and crack cocaine. We were told it is different; it is more addictive. It is not. We were also told it was going to create conduct which was much more violent than those who were selling powder cocaine and their activities. It did not.

We have also learned that more than 2.3 million people are imprisoned in America today. That is the most prisoners and the highest per capita rate of prisoners of any country in the world, and it is largely due to the incarceration of nonviolent drug offenders in America. African Americans are incarcerated at nearly six times the rate of White Americans. These are issues of fundamental human rights and justice our country must face.

It is important to note that the crack/powder disparity disproportionately affects African Americans. While African Americans constitute less than 30 percent of crack users, they make up 82 percent of those convicted of Federal crack offenses.

At a hearing I held, we heard compelling testimony from Judge Reggie B. Walton, who was Associate Director of the Office of Drug Control Policy under President George H.W. Bush and was appointed by President George W. Bush to the Federal bench. Judge Walton is an African American, and he testified

about “the agony of having to enforce a law that one believes is fundamentally unfair and disproportionately impacts individuals who look like me.”

We also heard about the negative impact the crack/powder disparity has on the criminal justice system. Judge Walton further testified about “jurors who would tell me that they refused to convict, that even though they thought the evidence was overwhelming, they were not prepared to put another young black man in prison knowing the sentencing disparity that existed between crack and powder cocaine.”

Asa Hutchinson, who was head of the Drug Enforcement Administration under President George W. Bush, testified: “Under the current disparity, the credibility of our entire drug enforcement system is weakened.”

The crack disparity also diverts resources away from the prosecution of large-scale drug traffickers. In fact, more than 60 percent of defendants convicted of Federal crack crimes are street-level dealers or mules.

During these difficult economic times, it is also important to note that the crack/powder disparity has placed an enormous burden on taxpayers and the prison system. Based on the Bureau of Prison's estimates of the annual costs of incarceration and the U.S. Sentencing Commission's projections of the number of prison beds reduced per year, we know that eliminating this disparity could save more than \$510 million in prison beds over 15 years.

There is widespread and growing agreement that the Federal cocaine and sentencing policy in the United States today is unjustified and unjust.

At the hearing I held on the crack/powder disparity, Lanny Breuer, the Assistant Attorney General of the Criminal Division, announced that the Justice Department and this administration support completely eliminating the crack/powder disparity and establishing a 1-to-1 ratio, which is included in my bill.

In June, Attorney General Eric Holder testified before the Senate Judiciary Committee. I asked him about this issue and here is what he said.

When one looks at the racial implications of the crack-powder disparity, it has bred disrespect for our criminal justice system. It has made the job of those of us in law enforcement more difficult. . . . [I]t is time to do away with that disparity.

Here on Capitol Hill, Democrats and Republicans alike have advocated fixing the disparity for years.

The following 10 Senators are original cosponsors of the Fair Sentencing Act: Senator PATRICK LEAHY, the Chairman of the Judiciary Committee, who for years has advocated for drug sentencing reform; Senator ARLEN SPECTER, the Chair of the Judiciary Committee's Crime and Drugs Subcommittee; Five other members of the

Senate Judiciary Committee—Senators RUSS FEINGOLD, BEN CARDIN, SHELDON WHITEHOUSE, TED KAUFMAN, and AL FRANKEN; and Senators JOHN KERRY, CHRIS DODD, and CARL LEVIN.

I would also like to recognize at this point, though he is not a cosponsor of the bill, Senator JEFF SESSIONS, the ranking member of the Judiciary Committee. He has been a leader in calling for reform of crack/powder sentencing policy.

The Senator from Alabama is a former U.S. attorney, not known to be soft on crime in any way, shape, or form, but he was one of the first to speak out about the injustice of the crack/powder disparity. I continue my dialog with Senator SESSIONS in the hope that he and I can come to a common place with regard to this important issue.

There is a bipartisan consensus about the need to fix the crack-powder disparity. I have been in discussions with Chairman LEAHY and Ranking Member SESSIONS, as well as Republican Senators LINDSEY GRAHAM, ORRIN HATCH, and TOM COBURN, and I am confident that the Judiciary Committee can come together to find a bipartisan solution to this problem.

A broad coalition of legal, law enforcement, civil rights, and religious leaders and groups from across the political spectrum supports eliminating the crack-powder disparity, including, for example: Los Angeles Police Chief Bill Bratton, Miami Police Chief John Timoney, The American Bar Association, The Leadership Conference on Civil Rights, The National Black Police Association, and The United Methodist Church.

The bipartisan United States Sentencing Commission has been urging Congress to act for 15 years. They have argued that fixing the crack-powder disparity “would better reduce the [sentencing] gap [between African Americans and whites] than any other single policy change, and it would dramatically improve the fairness of the federal sentencing system.” The Sentencing Commission has repeatedly recommended that Congress take two important steps: No. 1, reduce the sentencing disparity by increasing the quantities of crack cocaine that trigger mandatory minimum sentences; and No. 2, eliminate the mandatory minimum penalty for simple possession of crack cocaine. This is the only mandatory minimum sentence for simple possession of a drug by a first time offender.

The bill that I have introduced does both those things.

In order to ensure that limited Federal resources are directed toward the largest drug traffickers and the most violent offenders, not just those guilty of simple possession and a first offense, the Fair and Sentencing Act provides for increased penalties for drug of-

fenses involving vulnerable victims, violence and other aggravating factors.

For example, an individual being prosecuted for possessing either crack or powder cocaine will face more jail time if he: uses or threatens to use violence; uses or possesses a dangerous weapon; is a manager, leader or organizer of drug trafficking activities; or distributes drugs to a pregnant woman or minor.

The bill would also increase the financial penalties for drug trafficking. This sentencing structure will shift Federal resources towards violent traffickers and away from nonviolent drug users who are best dealt with at the State level.

In the final analysis, this legislation is about fixing an unjust law that has taken a great human toll. At the hearing I held in the Judiciary Committee, we heard testimony from Cedric Parker, who is from Alton in my home State of Illinois. In 2000, Mr. Parker's sister, Eugenia Jennings, was sentenced to 22 years in prison for selling 14 grams of crack cocaine. Mr. Parker told us that Eugenia was physically and sexually abused from a young age. She was addicted to crack by the time she was 15.

Eugenia has three children, Radley, Radeisha, and Cardez. They are now 11, 14, and 15. These children were 2, 5, and 6 when their mother went to prison for selling the equivalent of 6 sugar cubes of crack. They have seen their mother once in the last 9 years. They will be 21, 24, and 25 when she is released in 2019.

At Eugenia's sentencing, Judge Patrick Murphy said this:

Mrs. Jennings, nobody has ever been there for you when you needed it. When you were a child and you were being abused, the Government wasn't there. But when you had a little bit of crack, the government was there. And it is an awful thing, an awful thing to separate a mother from her children. That's what the Government has done for Eugenia Jennings.

It is time to right this wrong. We have talked about the need to address the crack-powder disparity for long enough. Now, it's time to act. I urge my colleagues to join me in supporting the Fair Sentencing Act of 2009.

Mr. SESSIONS. Mr. President, I see my colleague, the assistant majority leader. I know we have been talking about improvement in the sentencing process for crack cocaine. I have offered legislation for almost a decade that would substantially improve the sentencing process in a way that I think is fair and constructive and allows us to deal with serious criminals like drug dealers. I believe it is pretty close to being a good policy. Senator Salazar, now a member of the Obama Cabinet, and Senator MARK PRYOR, my Democratic colleague from Arkansas, Senator JOHN CORNYN from Texas, and I, all four former attorneys general, offered that legislation. Senator DURBIN

has some ideas too. I look forward to working with him. I do think it is past time to act.

I will not favor alterations that massively undercut the sentencing we have in place, but I definitely believe that the current system is not fair and that we are not able to defend the sentences that are required to be imposed under the law today.

I am a strong believer in law enforcement and prosecution of those who violate our laws, particularly criminals who really do a lot of damage beyond just dealing drugs. They foster crime and form gangs. People who use cocaine tend to be violent. Even more, in some ways, people who use crack cocaine, as opposed to powder cocaine, tend to be paranoid and violent. It is not a good thing.

We don't need to give up the progress that has been made, but at the same time we need to fix the sentencing. I oppose anything that represents a 50, 60, 70, or 80 percent reduction in penalties but a significant rebalancing of that would be justified.

Mr. LEAHY. Mr. President, today, I am proud to join Senators DURBIN, SPECTER, FEINGOLD, CARDIN, WHITEHOUSE, KAUFMAN, FRANKEN, and others to introduce the Fair Sentencing Act of 2009. Our bill will eliminate the current 100-to-1 disparity between Federal sentences for crack and powder cocaine, equalizing the penalties for both forms of cocaine. I hope that this legislation will finally enable us to address the racial imbalance that has resulted from the cocaine sentencing disparity, as well as to make our drug laws more fair, more rational, and more consistent with our core values of justice.

I commend Senator DURBIN for his leadership in fixing this decades-old injustice. He chaired a hearing before our Crime and Drugs Subcommittee six months ago to examine this issue where we heard from the Assistant Attorney General for the Criminal Division at the Justice Department. We should do what we can to restore public confidence in our criminal justice system. Correcting biases in our criminal sentencing laws is a step in that direction.

Today, the criminal justice system has unfair and biased cocaine penalties that undermine the Constitution's promise of equal treatment for all Americans. For more than 20 years, our Nation has used a Federal cocaine sentencing policy that treats "crack" offenders one hundred times more harshly than other cocaine offenders without any legitimate basis for the difference. We know that there is little or no pharmacological distinction between crack and powder cocaine, yet the resulting punishments for these offenses is radically different and the resulting impact on minorities has been particularly unjust.

Under this flawed policy, a first-time offender caught selling five grams of

powder cocaine typically receives a 6 month sentence, and would often be eligible for probation. That same first-time offender selling the same amount of crack faces a mandatory five year prison sentence, with little or no possibility of leniency. This policy is wrong and unfair, and it has needlessly swelled our prisons, wasting precious Federal resources.

Even more disturbingly, this policy has had a significantly disparate impact on racial and ethnic minorities. According to the latest statistics assembled by the United States Sentencing Commission, African-American offenders continue to make up the large majority of Federal crack cocaine offenders, accounting for 80 percent of all Federal crack cocaine offenses, compared to white offenders who account for just 10 percent. These statistics are startling. It is no wonder this policy has sparked a nationwide debate about racial bias and undermined citizens' confidence in the justice system.

These penalties, which Congress created in the mid-1980s, have failed to address basic concerns. The primary goal was to punish the major traffickers and drug kingpins who were bringing crack into our neighborhoods. But the law has not been used to go after the most serious offenders. In fact, just the opposite has happened. The Sentencing Commission has consistently reported for many years that more than half of Federal crack cocaine offenders are low-level street dealers and users, not the major traffickers Congress intended to target.

The Fair Sentencing Act of 2009 would return the focus of Federal cocaine sentencing policy to drug kingpins, rather than street level dealers, and address the racial disparity in cocaine sentencing. The legislation we introduce today would align crack and powder cocaine sentences by setting the mandatory minimum sentencing triggers at the same levels. This equalization is a sound way to address the unjust sentencing disparity between crack and powder cocaine.

We have heard calls for this reform from Senators on both sides of the aisle. Senator HATCH, who has called the current ratio "an unjustifiable disparity," recognizes that because "crack and powder cocaine are pharmacologically the same drug" our sentencing laws do "not warrant such an extreme disparity." Even Senator SESSIONS, now the ranking Republican member of the Judiciary Committee, has called the 100-to-1 disparity in sentencing between crack cocaine and powder cocaine "not justifiable" and called for changes to make the criminal justice system more effective and fair.

The legislation we introduce today would also eliminate the mandatory minimum sentence for possession of

crack cocaine. The 5-year mandatory minimum sentence penalty for simple possession of crack is unique under Federal law. There is no other mandatory minimum for mere simple possession of a drug. This bill would correct this inequity, as well. Still, the Federal penalties for drug crimes remain very tough. This bill toughens some of those penalties. It would increase fines for major drug traffickers, as well as provide sentencing enhancements for acts of violence committed during the course of a drug trafficking offense. As a former prosecutor, I support strong punishments for drug traffickers.

This legislation already has support from a broad coalition of groups, including the American Bar Association, the NAACP, the ACLU, Families Against Mandatory Minimums, the Sentencing Project, the United Methodist Church, and many more.

While serving in the Senate, in September 2007, then-Senator Obama said:

If you are convicted of a crime involving drugs, of course you should be punished. But let's not make the punishment for crack cocaine that much more severe than the punishment for powder cocaine when the real difference is where the people are using them or who is using them.

I agree. And the Justice Department agrees as well, as Assistant Attorney General Lanny Breuer announced at our hearing this spring.

For over 20 years, the "crack-powder" disparity in the law has contributed to swelling prison populations without focusing on the drug kingpins. We must be smarter in our Federal drug policy. Law enforcement has been and continues to be a central part of our efforts against illegal drugs, but we must also find meaningful, community-based solutions.

American justice is about fairness for each individual. To have faith in our system Americans must have confidence that the laws of this country, including our drug laws, are fair and administered fairly. I believe the Fair Sentencing Act of 2009 will move us one step closer to reaching that goal. I urge all Senators to support this measure.

Mr. SPECTER. Mr. President, I have sought recognition to urge support for the legislation introduced today by Senator DURBIN to completely eliminate the unfair and unwarranted sentencing disparity between crack and powder cocaine. I am an original cosponsor of this bill.

Since the passage of the Anti-Drug Abuse Act of 1986, which established the basic framework of mandatory minimum penalties currently applicable to Federal drug trafficking offenses, there exists a 100-to-1 ratio between crack and powder cocaine. That means it takes 100 times as much powder cocaine as crack to trigger the same 5-year and 10-year mandatory minimum penalties.

On April 29, 2009, 6 witnesses testified before the Senate Judiciary Subcommittee on Crime and Drugs regarding the sentencing disparity between crack and powder cocaine, including the Assistant Attorney General for the Criminal Division at the Department of Justice, the Acting Chair of the U.S. Sentencing Commission, a U.S. District Court Judge representing the Judicial Conference of the U.S. Courts, and a Police Commissioner from a major urban city. All six witnesses testified in favor of an immediate reduction or elimination of this disparity.

At the time Congress established the crack-powder disparity in 1986, it did so because it was believed that crack was uniquely addictive and was associated with greater levels of violence than powder cocaine.

Today, more than 20 years later, research has shown that the addictive qualities of crack have more to do with its mode of administration—smoking compared to inhaling—rather than its chemical structure. Moreover, recent studies suggest that levels of violence associated with crack are stable or even declining.

Last year, 80.6 percent of crack offenders were African Americans, while only 10.2 percent were white. Compare that with powder cocaine prosecutions. For that same year, 30.25 percent of powder cocaine offenders were African Americans, 52.5 percent were Hispanic, and 16.4 percent were white. The average sentence for crack offenders is 2 years longer than the average sentence for powder cocaine.

Let me repeat that. African Americans, who make up approximately 12.3 percent of the population in the U.S., comprise 80.6 percent of the Federal crack offenders.

It takes about \$14,000 worth of powder cocaine compared to only about \$150 of crack to trigger the 5-year mandatory minimum penalty. Given that crack and cocaine powder are the same drug—just in different forms—why should we impose the same 5-year sentence for the \$150 drug deal as for the \$14,000 drug deal?

These sentencing disparities undermine the confidence in the criminal justice system. Our courts and our laws must be fundamentally fair; just as importantly, they must be perceived as fair by the public. I do not believe that the 1986 Act was intended to have a disparate impact on minorities but the reality is that it does.

The White House and the Department of Justice have asked Congress to eliminate this unfair sentencing disparity. It is time to correct this injustice.

By Mr. DORGAN (for himself,  
Mr. REID, Ms. MURKOWSKI,  
Mr. UDALL of New Mexico,  
Mr. WHITEHOUSE, Mr. JOHNSON,  
Mr. TESTER, Mr. AKAKA,

Mr. CONRAD, Mr. BEGICH,  
Mr. FRANKEN, Mr. BURRIS,  
Mr. INOUE, Ms. STABENOW,  
Mr. UDALL of Colorado, and Ms.  
KLOBUCHAR):

S. 1790. A bill to amend the Indian Health Care Improvement Act to revise and extend that Act, and for other purposes; to the Committee on Indian Affairs.

Mr. DORGAN. Mr. President, today I introduced the Indian Health Care Improvement Reauthorization and Extension Act of 2009. We face a bona fide crisis in health care in our Native American communities, and this bill is a first step toward fulfilling our treaty obligations and trust responsibility to provide quality health care in Indian Country. I introduce this bill on behalf of myself, Leader REID and Senators MURKOWSKI, UDALL of New Mexico, BEGICH, FRANKEN, WHITEHOUSE, INOUE, AKAKA, JOHNSON, TESTER, CONRAD, BURRIS, STABENOW, UDALL of Colorado, and KLOBUCHAR.

As Chairman of the Senate Committee on Indian Affairs, I have again made health care a top priority for the Committee this Congress. Native Americans suffer staggering health disparities due to an outdated, strained and underfunded health care system. We have a federal health care system for Native Americans that is only funded at about half of its need. Clinician vacancy rates within this system are high and misdiagnosis is rampant. Only those with “life or limb” emergencies seem to get care. Native Americans die of tuberculosis at a rate 600 percent higher than the general population, suicide rates are nearly double, alcoholism rates are 510 percent higher, and diabetes rates are 189 percent higher than the general population.

These numbers are appalling and represent Third World conditions right here in the U.S.

I have heard the heartbreaking stories about the lack of health care on our Native American reservations: people like Ta'shon Rain Littlelight, Jami Rose Jetty, Russell Lente and Avis Little Wind, who likely still would be living today had they had access to adequate health care. Our Federal system has failed them and so many other Native Americans. We owe our First Americans something better, and the bill I introduced today with my colleagues will provide a better system.

For over a decade, Indian Country has asked Congress to reauthorize and amend the Indian Health Care Improvement Act, P.L. 94-437. The National Steering Committee for Reauthorization, National Congress of American Indians, National Indian Health Board, and other Native American health advocates have been dedicated to improving the health care available to Native Americans across the country. I too am committed to ensuring the United States fulfills its trust responsibility

to provide decent health care to the Native Americans.

Last Congress, the Senate passed the Indian Health Care Improvement Act Amendments of 2008, which would have brought needed improvements to the Native American health care system. The bill passed by an overwhelming 83 to 10 vote. This was the first time in almost 17 years that the Senate considered and passed a Native American health care bill. Ultimately, the bill failed to be considered in the House of Representatives. My colleagues and I remain committed to getting a bill enacted into law.

In July, I developed a Native American health concept paper which was sent out to Indian Country for comments. I and the Committee on Indian Affairs held many listening sessions and meetings with many Native Americans around the country to discuss the concept paper. In addition, the Committee has held five hearings focused on Native American health issues this Congress. The Committee has worked to compile the feedback received from the concept paper and other meetings to develop the Native American health bill I introduced today.

Similar legislation has been considered in the 106, 107, 108, 109, and 110 Congresses. Today, my colleagues and I put forward a Native American health bill for the 111 Congress which builds on the work of prior Congresses, but goes beyond to include innovative solutions and reforms for the Native American health care system.

I would like to highlight some of the important updates the Indian Health Care Improvement Reauthorization and Extension Act of 2009 will bring to the Native American health care system.

Perhaps most importantly, the Native American health bill permanently reauthorizes all current laws governing the Native American health care system. This means that once this bill is passed, Indian Country will never again have to wait nearly 20 years for a reauthorization of the Indian Health Care Improvement Act.

This bill also authorizes long-term care services, including hospice care, assisted living, long-term care and home- and community-based care. Current law does not allow for these services to be provided by the Indian Health Service or tribal facilities. Although some areas of Indian Country are merely focused on addressing life or limb medical emergencies, other areas are in need of long-term care. Thus, I believe they should be authorized.

In addition, the bill establishes mental and behavioral health programs beyond alcohol and substance abuse, such as fetal alcohol spectrum disorders, child sexual abuse and prevention treatment programs. The mental health needs in Native American communities extend beyond alcohol and

substance abuse, in fact over  $\frac{1}{3}$  of the health care needs in Indian Country are related to mental health. The comprehensive mental and behavioral health programs established as a result of this bill will bring necessary care and resources to Native Americans.

In order to address the tragic level of youth suicide, the bill includes behavioral health provisions solely focused on preventing Native American youth suicide. The youth suicide rate in Indian Country is 3.5 times higher than the general population. Earlier this year, I chaired an Indian Affairs hearing to draw attention to this important topic.

The bill also incorporates many new ideas aimed at improving the access to health care available to Native Americans. The bill authorizes projects which will incentivize tribes to use innovative facilities construction which save money and expand the health care services available to Native American communities. For example, these projects include the use of modular component facility construction and mobile health stations.

Modular component health facilities can be built at often one-third the cost and a fraction of the time of a typical health facility. In addition, mobile health stations will allow for Native Americans in rural areas without a hospital, increased access to specialty health services like dialysis, same-day surgery, dental care, or other services. Currently, there is an estimated \$3 billion backlog for maintenance, improvement and construction of Native American health care facilities. In addition, the average age of an Indian Health Service facility is 33 years, as compared to 7 years in the general population. These innovative health care facilities will go a long way in this disparity and improving access to health care for Native Americans across the country.

The Native American health bill establishes a health delivery demonstration project. This project provides for convenient care services, which could be offered in local grocery stores and other venues, to make health care more available to Native American communities. The health delivery demonstration project authorizes the Indian Health Service to consider other innovative health delivery models, like community health centers, and other models which will increase access to health care services.

I want to end by saying the need for health care is not new for Indian Country. Nowadays, the need for national health care reform is front page news, but our Native Americans have long been in need of health care reforms. Therefore, I intend to offer this Native American health bill as an amendment to any national health care reform bill considered on the Senate floor.

I want to thank all the Native American health advocates who assisted us

in the development of this crucial piece of legislation. The Federal Government signed the dotted lines years ago, and today, we make an important step towards finally fulfilling those obligations.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 2691. Ms. SNOWE (for herself, Mr. KERRY, and Mr. KIRK) submitted an amendment intended to be proposed by her to the bill H.R. 2847, making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table.

#### TEXT OF AMENDMENTS

SA 2691. Ms. SNOWE (for herself, Mr. KERRY, and Mr. KIRK) submitted an amendment intended to be proposed by her to the bill H.R. 2847, making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes; which was ordered to lie on the table; as follows:

On page 124, line 21, strike "section." and insert "section, including an assessment of actions other than increased Federal spending that would improve the development and interdepartmental coordination of the policies of the United States under the United States-Canada Transboundary Resource Sharing Understanding for shared groundfish stocks."

#### NOTICES OF HEARINGS

##### COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the information of the Senate and the public that a hearing has been scheduled before the Subcommittee on National Parks.

The hearing will be held on Wednesday, October 28, 2009, at 2:30 p.m. in room SD-366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony on the current and expected impacts of climate change on units of the National Park System.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to [allison\\_seyferth@energy.senate.gov](mailto:allison_seyferth@energy.senate.gov).

For further information, please contact Sara Tucker at (202) 224-6224 or Allison Seyferth at (202) 224-4905.

##### COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BINGAMAN. Mr. President, I would like to announce for the infor-

mation of the Senate and the public that a hearing has been scheduled before the Subcommittee on Public Lands and Forests.

The hearing will be held on Thursday, October 29, 2009, at 2:30 p.m., in room SD-366 of the Dirksen Senate Office Building.

The purpose of the hearing is to receive testimony on the following bills:

S. 555, to provide for the exchange of certain land located in the Arapaho-Roosevelt National Forests in the State of Colorado, and for other purposes;

S. 607, to amend the National Forest Ski Area Permit Act of 1986 to clarify the authority of the Secretary of Agriculture regarding additional recreational uses of National Forest System land that are subject to ski area permits, and for other purposes;

S. 721, to expand the Alpine Lakes Wilderness in the State of Washington, to designate the Middle Fork Snoqualmie River and Pratt River as wild and scenic rivers, and for other purposes;

S. 1122, to authorize the Secretary of Agriculture and the Secretary of the Interior to enter into cooperative agreements with State foresters authorizing State foresters to provide certain forest, rangeland, and watershed restoration and protection services;

S. 1328 and H.R. 689, to interchange the administrative jurisdiction of certain Federal lands between the Forest Service and the Bureau of Land Management, and for other purposes;

S. 1442, to amend the Public Lands Corps Act of 1993 to expand the authorization of the Secretaries of Agriculture, Commerce, and the Interior to provide service-learning opportunities on public lands, establish a grant program for Indian Youth Service Corps, help restore the Nation's natural, cultural, historic, archaeological, recreational, and scenic resources, train a new generation of public land managers and enthusiasts, and promote the value of public service; and

H.R. 129, to authorize the conveyance of certain National Forest System lands in the Los Padres National Forest in California.

Because of the limited time available for the hearing, witnesses may testify by invitation only. However, those wishing to submit written testimony for the hearing record should send it to the Committee on Energy and Natural Resources, United States Senate, Washington, DC 20510-6150, or by email to [allison\\_seyferth@energy.senate.gov](mailto:allison_seyferth@energy.senate.gov).

For further information, please contact Scott Miller at (202) 224-5488 or Allison Seyferth at (202) 224-4905.

#### AUTHORITY FOR COMMITTEES TO MEET

##### COMMITTEE ON COMMERCE, SCIENCE, AND TRANSPORTATION

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Committee on Commerce, Science, and Transportation be authorized to meet during the session of the Senate on October 15, 2009, at 2:30 p.m. in room 253 of the Russell Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

## COMMITTEE ON FINANCE

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Committee on Finance be authorized to meet during the session of the Senate on October 15, 2009, at 10 a.m., in room 215 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

## COMMITTEE ON HEALTH, EDUCATION, LABOR, AND PENSIONS

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Committee on Health, Education, Labor, and Pensions be authorized to meet, during the session of the Senate, to conduct a hearing entitled "What Women Want: Equal Benefits for Equal Premiums" on October 15, 2009. The hearing will commence at 10:30 a.m. in room 430 of the Dirksen Senate Office Building.

The PRESIDING OFFICER. Without objection, it is so ordered.

## COMMITTEE ON HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Committee on Homeland Security and Governmental Affairs be authorized to meet during the session of the Senate on October 15, 2009, at 10 a.m. to conduct a hearing entitled "Domestic Partner Benefits: Fair Policy and Good Business for the Federal Government."

The PRESIDING OFFICER. Without objection, it is so ordered.

## COMMITTEE ON THE JUDICIARY

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate, on October 15, 2009, at 10 a.m., in room SD-226 of the Dirksen Senate Office Building, to conduct an executive business meeting.

The PRESIDING OFFICER. Without objection, it is so ordered.

## SELECT COMMITTEE ON INTELLIGENCE

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Select Committee on Intelligence be authorized to meet during the session of the Senate, on October 15, 2009, at 2:30 p.m.

The PRESIDING OFFICER. Without objection, it is so ordered.

## SUBCOMMITTEE ON INTERNATIONAL DEVELOPMENT AND FOREIGN ASSISTANCE, ECONOMIC AFFAIRS, AND INTERNATIONAL ENVIRONMENTAL PROTECTION

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on October 15, 2009, at 10 a.m., to hold a subcommittee hearing entitled "Drought, Flooding, and Refugees: Addressing the Impacts of Climate Change in the World's Most Vulnerable Nations."

The PRESIDING OFFICER. Without objection, it is so ordered.

## SUBCOMMITTEE ON INTERNATIONAL OPERATIONS AND ORGANIZATIONS, HUMAN RIGHTS, DEMOCRACY, AND GLOBAL WOMEN'S ISSUES

Mrs. SHAHEEN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on October 15, 2009, at 2:30 p.m., to hold a subcommittee hearing entitled "U.S. International Broadcasting into the War Zones: Iraq and Afghanistan."

The PRESIDING OFFICER. Without objection, it is so ordered.

## PRIVILEGES OF THE FLOOR

Mr. BURRIS. Mr. President, I ask unanimous consent that Riley Roberts be granted the privileges of the floor for my presentation.

The PRESIDING OFFICER. Without objection, it is so ordered.

## EXECUTIVE SESSION

## EXECUTIVE CALENDAR

Mr. CASEY. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider Calendar Nos. 481, 482 and 483; that the nominations be confirmed en bloc, the motions to reconsider be laid upon the table en bloc; that no further motions be in order; that any statements relating to the nominations be printed in the RECORD as if read; provided further that the President be immediately notified of the Senate's action and the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nominations considered and confirmed en bloc are as follows:

## DEPARTMENT OF JUSTICE

Brendan V. Johnson, of South Dakota, to be United States Attorney for the District of South Dakota for the term of four years.

Karen Louise Loeffler, of Alaska, to be United States Attorney for the District of Alaska for the term of four years.

Steven Gerard O'Donnell, of Rhode Island, to be United States Marshal for the District of Rhode Island for the term of four years.

## LEGISLATIVE SESSION

The PRESIDING OFFICER. The Senate returns to legislative session.

## ORDERS FOR MONDAY, OCTOBER 19, 2009

Mr. CASEY. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 2 p.m. on Monday, October 19; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later

in the day, and the Senate proceed to a period of morning business until 4:30 p.m., with Senators permitted to speak therein for up to 10 minutes each; that following morning business, the Senate resume consideration of the motion to proceed to S. 1776, the Medicare Physicians Fairness Act of 2009, under the previous order.

The PRESIDING OFFICER. Without objection, it is so ordered.

## PROGRAM

Mr. CASEY. Mr. President, under the previous order, at 5:30 p.m., Monday, the Senate will proceed to vote on the motion to invoke cloture on the motion to proceed to S. 1776.

## ADJOURNMENT UNTIL MONDAY, OCTOBER 19, 2009, AT 2 P.M.

Mr. CASEY. If there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 5:59 p.m., adjourned until Monday, October 19, 2009, at 2 p.m.

## NOMINATIONS

Executive nominations received by the Senate:

## DEPARTMENT OF DEFENSE

CLIFFORD L. STANLEY, OF PENNSYLVANIA, TO BE UNDER SECRETARY OF DEFENSE FOR PERSONNEL AND READINESS, VICE DAVID S. C. CHU, RESIGNED.

## DEFENSE NUCLEAR FACILITIES SAFETY BOARD

JESSIE HILL ROBERSON, OF VIRGINIA, TO BE A MEMBER OF THE DEFENSE NUCLEAR FACILITIES SAFETY BOARD FOR A TERM EXPIRING OCTOBER 18, 2013, VICE A. J. EGGENBERGER, RESIGNED.

JOSEPH F. BADER, OF THE DISTRICT OF COLUMBIA, TO BE A MEMBER OF THE DEFENSE NUCLEAR FACILITIES SAFETY BOARD FOR A TERM EXPIRING OCTOBER 18, 2012. (REAPPOINTMENT)

PETER STANLEY WINOKUR, OF MARYLAND, TO BE A MEMBER OF THE DEFENSE NUCLEAR FACILITIES SAFETY BOARD FOR A TERM EXPIRING OCTOBER 18, 2014. (REAPPOINTMENT)

## FARM CREDIT ADMINISTRATION

JILL LONG THOMPSON, OF INDIANA, TO BE A MEMBER OF THE FARM CREDIT ADMINISTRATION BOARD, FARM CREDIT ADMINISTRATION, FOR A TERM EXPIRING MAY 21, 2014, VICE NANCY C. PELLET, TERM EXPIRED.

## DEPARTMENT OF COMMERCE

SCOTT BOYER QUEHL, OF PENNSYLVANIA, TO BE AN ASSISTANT SECRETARY OF COMMERCE, VICE OTTO WOLFF, RESIGNED.

SCOTT BOYER QUEHL, OF PENNSYLVANIA, TO BE CHIEF FINANCIAL OFFICER, DEPARTMENT OF COMMERCE, VICE OTTO WOLFF, RESIGNED.

## FEDERAL HOSPITAL INSURANCE TRUST FUND

CHARLES P. BLAHOUS, III, OF MARYLAND, TO BE A MEMBER OF THE BOARD OF TRUSTEES OF THE FEDERAL HOSPITAL INSURANCE TRUST FUND FOR A TERM OF FOUR YEARS, VICE THOMAS R. SAVING.

## FEDERAL SUPPLEMENTARY MEDICAL INSURANCE TRUST FUND

CHARLES P. BLAHOUS, III, OF MARYLAND, TO BE A MEMBER OF THE BOARD OF TRUSTEES OF THE FEDERAL SUPPLEMENTARY MEDICAL INSURANCE TRUST FUND FOR A TERM OF FOUR YEARS, VICE THOMAS R. SAVING.

## FEDERAL OLD-AGE, SURVIVORS AND DISABILITY INSURANCE TRUST FUNDS

CHARLES P. BLAHOUS, III, OF MARYLAND, TO BE A MEMBER OF THE BOARD OF TRUSTEES OF THE FEDERAL OLD-AGE AND SURVIVORS INSURANCE TRUST FUND AND THE FEDERAL DISABILITY INSURANCE TRUST FUND FOR A TERM OF FOUR YEARS, VICE THOMAS R. SAVING.

## FEDERAL HOSPITAL INSURANCE TRUST FUND

ROBERT D. REISCHAUER, OF MARYLAND, TO BE A MEMBER OF THE BOARD OF TRUSTEES OF THE FEDERAL HOSPITAL INSURANCE TRUST FUND FOR A TERM OF FOUR YEARS, VICE JOHN L. PALMER.

## FEDERAL OLD-AGE, SURVIVORS AND DISABILITY INSURANCE TRUST FUNDS

ROBERT D. REISCHAUER, OF MARYLAND, TO BE A MEMBER OF THE BOARD OF TRUSTEES OF THE FEDERAL OLD-AGE AND SURVIVORS INSURANCE TRUST FUND AND THE FEDERAL DISABILITY INSURANCE TRUST FUND FOR A TERM OF FOUR YEARS, VICE JOHN L. PALMER.

## FEDERAL SUPPLEMENTARY MEDICAL INSURANCE TRUST FUND

ROBERT D. REISCHAUER, OF MARYLAND, TO BE A MEMBER OF THE BOARD OF TRUSTEES OF THE FEDERAL SUPPLEMENTARY MEDICAL INSURANCE TRUST FUND FOR A TERM OF FOUR YEARS, VICE JOHN L. PALMER.

## DEPARTMENT OF STATE

ANNE SLAUGHTER ANDREW, OF INDIANA, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF COSTA RICA.

## DEPARTMENT OF EDUCATION

LYNNAE M. RUTTLEDGE, OF WASHINGTON, TO BE COMMISSIONER OF THE REHABILITATION SERVICES ADMINISTRATION, DEPARTMENT OF EDUCATION, VICE JOANNE M. WILSON, RESIGNED.

## UNITED STATES POSTAL SERVICE

ALAN C. KESSLER, OF PENNSYLVANIA, TO BE A GOVERNOR OF THE UNITED STATES POSTAL SERVICE FOR A TERM EXPIRING DECEMBER 8, 2015. (REAPPOINTMENT)

## IN THE COAST GUARD

THE FOLLOWING NAMED OFFICERS FOR APPOINTMENT TO THE GRADE INDICATED IN THE UNITED STATES COAST GUARD UNDER TITLE 14, U.S.C., SECTION 271:

*To be lieutenant commander*

JENNIFER L. ADAMS  
 RODERICK D. ADAMS

#### *To be captain*

RICARDO B. EUSEBIO  
 DAVID G. MALONE  
 DAVID W. TERHUNE  
 DAVID L. WILKEY

### CONFIRMATIONS

Executive nominations confirmed by the Senate, Thursday, October 15, 2009:

#### DEPARTMENT OF JUSTICE

BRENDAN V. JOHNSON, OF SOUTH DAKOTA, TO BE UNITED STATES ATTORNEY FOR THE DISTRICT OF SOUTH DAKOTA FOR THE TERM OF FOUR YEARS.

KAREN LOUISE LOEFFLER, OF ALASKA, TO BE UNITED STATES ATTORNEY FOR THE DISTRICT OF ALASKA FOR THE TERM OF FOUR YEARS.

STEVEN GERARD O'DONNELL, OF RHODE ISLAND, TO BE UNITED STATES MARSHAL FOR THE DISTRICT OF RHODE ISLAND FOR THE TERM OF FOUR YEARS.

# HOUSE OF REPRESENTATIVES—Thursday, October 15, 2009

The House met at 10 a.m. and was called to order by the Speaker pro tempore (Ms. EDWARDS of Maryland).

## DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
October 15, 2009.

I hereby appoint the Honorable DONNA F. EDWARDS to act as Speaker pro tempore on this day.

NANCY PELOSI,  
Speaker of the House Representatives.

## PRAYER

Rev. David Ferrell, Calvary Tabernacle, Perth-Andover, New Brunswick, Maine, offered the following prayer:

Lord, I stand before You today and honor You as King of Kings and Lord of Lords. I ask Your forgiveness for human error and weakness.

I thank You for these leaders that You have put in place as a check and balance to the direction of our great Nation. I pray that they be empowered with boldness and courage as they represent their constituents.

I pray for Your guidance over today's proceedings and that Your wisdom rest on these elect for all future decisions they will face.

Remind us that when we don't know what direction to take, we can entrust Your hand and word to direct us.

I thank You for a strong United States and for the individuals who have answered the call to serve in this great House of Representatives.

I pray Your blessings be on this place from now and forevermore.

In Jesus' name, amen.

## THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

## PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. Will the gentleman from Maine (Mr. MICHAUD) come forward and lead the House in the Pledge of Allegiance.

Mr. MICHAUD led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Repub-

lic for which it stands, one nation under God, indivisible, with liberty and justice for all.

## MESSAGE FROM THE SENATE

A message from the Senate by Ms. Curtis, one of its clerks, announced that the Senate has passed bills and agreed to a concurrent resolution of the following titles in which the concurrence of the House is requested:

S. 692. An act to provide that claims of the United States to certain documents relating to Franklin Delano Roosevelt shall be treated as waived and relinquished in certain circumstances.

S. 1694. An act to allow the funding for the interoperable emergency communications grant program established under the Digital Television Transition and Public Safety Act of 2005 to remain available until expended through fiscal year 2012, and for other purposes.

S. Con. Res. 46. Concurrent resolution recognizing the benefits of service-learning and expressing support for the goals of the National Learn and Serve Challenge.

## WELCOMING REV. DAVID FERRELL

The SPEAKER pro tempore. Without objection, the gentleman from Maine, Congressman MICHAUD, is recognized for 1 minute.

There was no objection.

Mr. MICHAUD. Madam Speaker, Pastor David Ferrell has been an active, compassionate, and inspiring minister for over 21 years. It is truly an honor to welcome him to the House of Representatives.

David is currently a pastor at the Calvary Tabernacle in Perth-Andover, New Brunswick, an educator at the University of Maine at Presque Isle, and a man who has served in a variety of religious capacities. Many have benefited from his wisdom and compassion. He has traveled far and wide speaking at conferences from Maine to North Carolina, from Quebec to Pakistan.

I applaud the pastor for his many accomplishments, his thirst for knowledge, and his unending desire to help people. I wish him the best as he continues to be a positive force in this community.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. The Chair will entertain up to 10 further requests for 1-minute speeches on each side of the aisle.

## RECESSION OVER FOR GOLDMAN SACHS

(Mr. DEFAZIO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DEFAZIO. Madam Speaker, all across America unemployed Americans, struggling small businesses heaved a sigh of relief today because we know the recession is over. Goldman Sachs reported profits of \$3.19 billion. They are on track to pay bonuses of over \$20 billion, \$700,000 average per employee. The recession is over for Goldman Sachs.

Of course, there is a little problem with this whole equation. Over the last year, they have received over \$60 billion in taxpayer subsidies. Hmm, that happens to be about five times their projected profits and three times what they are going to pay out in bonuses.

They got \$13 billion from AIG after we gave AIG \$80 billion to pay off bad debts. They changed into a bank-holding company magically, but are exempt from bank-holding company rules, and got another 50-or-so billion dollars of subsidies out of the Federal Treasury.

What a wonderful system this is. They are creating tremendous wealth. They are an engine of growth. They have recovered from the recession. All hail Goldman Sachs.

## DEMOCRATS PLAN TO PAY FOR HEALTH CARE REFORM ON BACKS OF PATIENTS

(Mr. GINGREY of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GINGREY of Georgia. Madam Speaker, the Democrats plan to pay for health care reform on the backs of my patients, many of whom are now senior citizens. Our seniors have suffered tremendously since the recession began. Their 401(k)s are now 201(k)s.

However, my Democratic colleagues don't think seniors have paid enough this year. Now they are asking our seniors to foot the bill for health insurance reform by cutting the Medicare program by \$500 billion.

These cuts will result in seniors losing benefits under Medicare Advantage, programs such as vision, dental, hearing, and even annual checkups, Madam Speaker. These cuts will result in longer wait times and make it harder for senior patients to find a doctor that will see them at all. Worst of all,

these cuts will ensure it will be harder to fix Medicare, which it surely will, in 7 years.

Madam Speaker, my patients must not be used to foot the bill for health care reform.

#### HONORING OKLAHOMA'S SUPERINTENDENT OF EDUCATION, SANDY GARRETT

(Mr. BOREN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOREN. Madam Speaker, I rise to honor one of Oklahoma's most respected political leaders, Sandy Garrett.

Born and raised in my hometown of Muskogee, Oklahoma, Sandy Garrett has been Oklahoma's superintendent of public instruction for the past 19 years. As chief executive officer of the State Department of Education, Superintendent Garrett has led the implementation of major education reforms such as Oklahoma's Education Reform Act of 1990, the Federal No Child Left Behind Act of 2001 and the Achieving Classroom Excellence Act of 2005.

In 2006, she was re-elected overwhelmingly for the fifth time. Superintendent Garrett is the only woman in Oklahoma history to hold the office.

Her strong character and steady leadership have served, and continue to serve, multiple generations of Oklahoma school children.

Sandy Garrett, because of your commitment to public service, Oklahoma continues to be a great State to live and work in.

#### SENIORS WILL SEE REDUCED BENEFITS UNDER NEW HEALTH CARE PLAN

(Mr. ROE of Tennessee asked and was given permission to address the House for 1 minute.)

Mr. ROE of Tennessee. Madam Speaker, as a doctor, I see the health care reform debate a little differently than many of my colleagues. When people talk about cost savings and different health care plans, they are really talking about access to care for my patients. There is an immediate and long-term problem for patients' access under the Democrats' plan.

In the near term, 20 percent of our seniors will see reduced benefits. It's not credible to say that we are not cutting Medicare benefits when, in fact, we are. These so-called reforms seem incredibly short-sighted to me in light of the fact that they will decrease access to care.

Over the longer term, H.R. 3200 will force further cutbacks in care as cost savings fail to materialize. Why am I so confident of this outcome? Because I heard the same promises, the same predictions to my patients under

TennCare, our State's Medicaid experiment that failed spectacularly. Care was rationed and enrollment for the program was closed, and that hurt our patients. We simply cannot allow these cutbacks to harm patient care.

I urge all Members to go back to their districts and talk to their doctors and patients. I think they will hear a different story and remedy for our health care system than the one the Democrats are trying to prescribe.

#### CLEAN MONEY, CLEAN ELECTIONS

(Mr. ARCURI asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ARCURI. Madam Speaker, across the country, hardworking Americans are tightening their belts and pinching pennies in order to provide for their families, as well as working to improve our economy. While the issues of health care and the economy dominate our attention, as they should right now, we should still be mindful of the importance of campaign finance reform.

Campaign finance reform is a necessity if we are going to truly have a democracy that allows individuals to enter the political forum based on their skills and acumen rather than on their bank accounts.

In the last decade, an alliance of advocacy groups, the Fair Elections Coalition, has been working to implement a public campaign finance system on the State level known as Clean Money, Clean Elections. Already, some form of Clean Money, Clean Elections is law in seven States, and over 200 State officials have won their races using this system.

As a Member of Congress, we need to remember that we serve the people of this country based on issues, not dollars. I would ask that my colleagues join me as we push towards reforming the campaign finance system across the board.

#### HEALTH COSTS HIGH BECAUSE WE HAVE \$800 BILLION OF WASTE IN SYSTEM

(Mr. TIM MURPHY of Pennsylvania asked and was given permission to address the House for 1 minute.)

Mr. TIM MURPHY of Pennsylvania. Madam Speaker, health care costs are not high because people have health insurance. They are high because we have \$800 billion of waste in the system. Now our friends in the Senate are proposing to increase taxes on health insurance.

When workers such as ironworkers and steelworkers and communication workers and the IBEW negotiate their pay package, they work to make sure that their health care plan is covered. Too often now they find that they

don't take a raise because their health insurance is going up in cost. They worked to have lower copays, lower deductibles, to have vision, dental, mental health services, among others.

But now we are talking about taxing these plans. What we need to do is figure out ways we can actually lower health care costs instead of discouraging people from having health insurance.

After all, isn't this what we are supposed to be trying to do? The communication workers alone are being told that these new proposals may cost their workers about a thousand dollars more per year in taxes.

This is the wrong approach. It's not good health care. As someone who has practiced in the health care field, I am telling you, it's bad medicine.

#### EXPAND TAX CREDIT FOR FIRST-TIME HOMEBUYERS

(Mr. MITCHELL asked and was given permission to address the House for 1 minute.)

Mr. MITCHELL. Madam Speaker, I rise today on behalf of thousands of constituents in my district who are still struggling to cope with the housing crisis.

Arizona consistently ranks among the Nation's top three States in foreclosures. As a former mayor and a homeowner, I recognize the negative impact foreclosures have on home values and neighborhoods.

Earlier this year, as part of the American Reinvestment and Recovery Act, we took an important step forward. We passed a temporary \$8,000 tax credit for first-time homebuyers.

The good news is that tax credit has worked. Closer to home, in the Phoenix metropolitan area, according to at least one recent survey, home sales have reached 9,614 in June, up 11 percent from May.

However, I believe we need to expand this credit to make it available to any American who wants to buy a home, not just first-time homebuyers. As the expiration of the current homebuyer tax credit approaches, I want to encourage my colleagues to consider supporting legislation to expand and extend the homebuyer tax credit.

#### MEDICARE PATIENTS WILL LOSE QUALITY OF CARE

(Mr. BROUN of Georgia asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BROUN of Georgia. Madam Speaker, I practiced medicine, general medicine, in the State of Georgia for almost four decades. The American people need to understand if the House bill or the Senate bill is passed into law, my patients and physicians like me all across this Nation are not going

to be able to give the kind of health care to their patients that they are today.

Medicare patients are going to lose the quality of care that they are getting today. Tens of thousands of people are going to lose their private insurance. The cost is going to go up for everybody in this country.

The quality of care is going to go down. It's going to be too costly. We are going to be all forced on the government bureaucrat-run health care system, and the American people need to know that, Madam Speaker.

#### HONORING THE RETIREMENT OF ED GRIER

(Ms. LORETTA SANCHEZ of California asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. LORETTA SANCHEZ of California. Madam Speaker, I rise today to honor Ed Grier, who served as the president of Disneyland Resort in my district for 3 years, before his retirement this October 9.

Ed is a 20-year veteran the Walt Disney Company; and he served in a variety of roles, from senior auditor at Walt Disney World to the executive managing director of Walt Disney Attractions in Japan. But for the last 3 years, we have been lucky enough to have him in Anaheim.

His hard work has continued to make Disneyland one of our Nation's top tourist attractions. In fact, in 2008, while most attractions were hurting, Disneyland hosted 14.7 million visitors and generated substantial revenue for our local businesses and for our cities. In addition, Disney is Orange County's largest private employer, with about 20,000 employees.

During Ed's tenure, the resort began a \$1 billion expansion of Disney's California Adventure and constructed the company's first west coast timeshare units at the Grand Californian Hotel, which opened last month.

In addition Ed joined the Orange County community by serving as a board member for the Children's Hospital of Orange County. Ed's skill and leadership will be missed, and I wish him the best of luck in his future endeavors.

□ 1015

#### CONGRATULATING SCOTT MCCRERY, EAGLE SCOUT

(Mr. FLEMING asked and was given permission to address the House for 1 minute.)

Mr. FLEMING. Madam Speaker, for 20 years, the Honorable Jim McCrery represented Louisiana's Fourth Congressional District. It is an honor to directly follow former Congressman McCrery and represent the great people of northwest Louisiana.

Earlier this week, former Congressman McCrery's son, Scott, received his Eagle Scout award, the highest award given in scouting. Scott's Eagle project was a rather ambitious undertaking. He organized nearly 50 volunteers to remove debris from the historic grounds of Mount Vernon, home of George Washington. The debris covered an area the size of two football fields. In addition to being an eyesore, it also represented a fire hazard to the mansion. Some of the debris Scott and his volunteer corps gathered was used to build habitat for the wildlife that lives on the property.

Scott began his scouting journey in Shreveport 10 years ago when, as a Tiger Cub, he joined the Cub Scout pack at South Highlands Elementary School.

I congratulate Scott McCrery on this prestigious award.

#### TRIBUTE TO BOBBY L. HAYDEN

(Mr. GRIFFITH asked and was given permission to address the House for 1 minute.)

Mr. GRIFFITH. Madam Speaker, I rise today to honor a friend, Mr. Bobby Hayden, a scholar, a soldier, a community advocate and a family man.

Bobby Hayden, who resides in my district, was one of the first African Americans on a Presidential Honor Guard. He took the first watch over President Kennedy's body. He became active in our community and has added a great deal to his alma mater, Alabama A&M.

As a middle and high school teacher, Bobby has spent decades of his life shaping the lives of north Alabama's youth. He has been at the forefront of many activities, specifically working to preserve historical landmarks in the Tennessee Valley.

Mr. Hayden is a dedicated Alabama A&M alumnus, a Bulldog, and has held several positions in the college alumni association. He was inducted into the Alabama A&M Sports Hall of Fame and currently serves as the secretary for the Hall of Fame Association.

It is a privilege for me to mention his name on the floor, as he has gone somewhat unrecognized as one of the first African Americans on President Kennedy's Honor Guard, standing with the family through the ordeal.

#### HONORING ARMY SPECIALIST JACOB SEXTON

(Mr. PENCE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PENCE. Madam Speaker, sometimes our heroes fall on foreign soil, and sometimes they come home and fall, but we honor their service and their sacrifice all the same.

Madam Speaker, I rise with a heavy heart to mark the sudden passing of a

hero from my home State of Indiana and to honor his service and his life. Army Specialist Jacob Sexton, a combat veteran of conflicts both in Iraq and Afghanistan, tragically passed away while on leave from his overseas duties earlier this week.

A native of Farmland, Indiana, Jacob graduated from Monroe Central High School, and like many men in the Sexton family, Jacob chose to wear the uniform.

Jacob served with Alpha Company, 2nd Battalion, of the 151st Infantry Regiment in the Indiana National Guard. Those who served with him remember a selfless soldier who was quick to volunteer for difficult assignments.

A Humvee driver while in Iraq, he took on dangerous positions, often leaving himself exposed to IED and small-arms attacks. As an infantryman in Afghanistan, Jacob saw firsthand the perils of combat, but he faced those perils with courage.

Those close to Jacob noted that the stresses of combat and long deployments seemed to have little effect on his infectious personality. However, after this week's tragic events, it is painfully clear that Jacob Sexton was deeply affected by his experiences in uniform and on deployment.

While his loss leaves far too many questions unanswered, I believe it is yet another reminder of the special care our heroes need and deserve, those who defend freedom, when they come home.

Heroes like Army Specialist Jacob Sexton are the pride of their family and our Nation's most treasured citizens. Jacob's family, his parents, Jeff and Barbara; his brothers, Joshua, Jeremiah and Jared; and all those who served with him, know that you have our deepest condolences, the gratitude of the people of Indiana, and you shall remain in the hearts of a grateful Nation forever.

#### OBSTRUCTING HEALTH CARE REFORM

(Ms. DELAURO asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. DELAURO. Madam Speaker, let me tell an old story relevant to our current health care debate.

One day, a frog was hopping by a river when he came upon a scorpion. The scorpion asked if the frog would carry him across. The frog said, No, you will sting me. The scorpion replied, No, if I stung you, we would both drown. What is the point of that?

So the frog put the scorpion on his back and waded into the river. Halfway across, he felt a sudden sting and his body went numb. Scorpion, why did you do that? Now we will both die. Said the scorpion, It is my nature.

Today, the health insurance industry refuses to cover basic maternity care for four out of five women, while charging them higher premiums. It kicks women out of hospitals within hours of a mastectomy. No industry in history that profits from a broken system has ever moved to reform that system.

After faking support for health care reform for months, why did the health insurance industry on Monday suddenly try to sting us with a flawed and incomplete cost analysis of a health care plan? The same reason they fight to prevent competition through a strong public option, and the same reason many of my Republican colleagues have done nothing but obstruct reform.

It is their nature.

#### SUPPORT THE AMTRAK SECURE TRANSPORTATION OF FIREARMS ACT

(Mr. REHBERG asked and was given permission to address the House for 1 minute.)

Mr. REHBERG. There aren't many things that are more important to the foundation of the West than trains and guns. In Montana, both still have a profound impact on our frontier identity. But these pillars of Western culture find themselves on opposite sides of the fence because of Amtrak's ban on the transportation of legal firearms on its trains.

The Second Amendment doesn't derail the right to bear arms if you happen to be on a train. We allow the transportation of firearms in cars and on commercial airlines, but Amtrak's ban on firearms remains in effect, even as it continues to receive massive Federal subsidies.

The Amtrak Secure Transportation of Firearms Act would force Amtrak to end its ban on firearms once and for all. I hope my colleagues will join me in sponsoring this important legislation, because the Second Amendment protects you whether you travel by horse, plane, truck or train.

#### SENIORS AND HEALTH CARE REFORM

(Mrs. DAHLKEMPER asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. DAHLKEMPER. Madam Speaker, I rise today to support health care reform for our seniors. Our senior citizens deserve reform that will lower their medical expenses and provide the highest quality care available. Our health care reform legislation closes the prescription drug doughnut hole which forces seniors to reduce their prescription drug use, that is, not use lifesaving medications, by an average of 14 percent.

The House's health care reform legislation will help guarantee our seniors

access to their doctors by eliminating the 21 percent pay cut doctors are facing for Medicare reimbursements. Without this health care reform, 40 percent of our doctors say they will have to reduce the number of Medicare patients they see. Our seniors deserve better than that. They deserve reform that will keep them in good health at a manageable cost.

I urge my colleagues to support quality health care reform for our Nation's seniors.

#### RECOGNIZING THE 25TH ANNIVERSARY OF BREAST CANCER AWARENESS MONTH

(Mr. BUCHANAN asked and was given permission to address the House for 1 minute.)

Mr. BUCHANAN. Madam Speaker, I rise today to recognize the 25th anniversary of Breast Cancer Awareness Month. Breast cancer is the leading cause of cancer deaths in women between age 40 and 59. We have all been touched by it with family or friends.

In my home State of Florida, an estimated 12,000 new cases of breast cancer in women will be diagnosed this year. However, if detected early enough, we can be successful in treating the disease.

To this end, I am proud to be a cosponsor of the EARLY Act, a bill introduced by my fellow Florida colleague, DEBBIE WASSERMAN SCHULTZ. She has been a leader. She has got a courageous story that she shares with many. This act, her bill, is an education campaign, it is a public awareness campaign, and it will have a huge difference on women in the future. So I really respect her leadership on this.

In my congressional district, I am proud to say, I thank the leadership. We have been active, our employees and our businesses, over the last 10 years. Working together, it makes a big difference. I would like to just say, we need to continue to educate our families and friends on this bill.

#### IN MEMORIAM OF U.S. ARMY SERGEANT JOSHUA KIRK

(Ms. SHEA-PORTER asked and was given permission to address the House for 1 minute.)

Ms. SHEA-PORTER. Madam Speaker, it is with a heavy heart that I rise today to honor the life of Sergeant Joshua Kirk. Sergeant Kirk was tragically killed in Afghanistan on October 3.

On Tuesday morning, I attended his funeral at St. Michael's Church in Exeter, New Hampshire. There were so many relatives and friends in attendance for a somber and moving ceremony. His wife, Megan, a native of Exeter, and his daughter, Kensington, have lost a husband and father, and this Nation has lost a hero.

Sergeant Kirk selflessly put himself in harm's way in service to America. He and his family are owed a debt of gratitude.

Sergeant Kirk, a native of Maine, joined the United States Army in 2005. He was on his second tour of duty in Afghanistan when his base was attacked by insurgents on October 3. Kirk and seven of his courageous fellow soldiers, all based out of Fort Carson, were killed during the long battle.

Sergeant Kirk's memory lives on with his wife, daughter, mother and sisters. We will always remember his sacrifice, and theirs, and we are forever grateful for their patriotism and service to America.

#### AMNESTY ENCOURAGES ILLEGAL IMMIGRATION

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Madam Speaker, two recent surveys, one of Mexicans and one of Americans, addresses policies that encourage illegal immigration. The first, from Rasmussen, reveals that 56 percent of U.S. voters surveyed believe the policies of the Federal Government encourage people to enter the United States illegally. Also, 64 percent believe law enforcement officers should conduct surprise visits at locations where illegal immigrants seek employment.

The second, from Zogby, reveals that 56 percent of people in Mexico think granting legal status to illegal immigrants in the United States would encourage more illegal immigration to America. Of Mexicans with a member of their immediate household in the United States, two-thirds—two-thirds—said a legalization program would make people they know more likely to go to America illegally.

Madam Speaker, these are more reasons to oppose amnesty for those in the country illegally.

#### PROVIDING AFFORDABLE HEALTH CARE FOR YOUNG ADULTS

(Mr. TONKO asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TONKO. Madam Speaker, on Tuesday, Speaker PELOSI announced an important new addition to the health insurance reform package. Young adults will be able to remain on their parents' health insurance plans until their 27th birthday.

Young adults make up one-third of the entire uninsured population, numbering 13.7 million. Only 53 percent of young adults are even eligible for employer-based insurance, and 51 percent do not have health coverage through their jobs.

Young adults have the highest rate of injury-related emergency department visits and 15 percent have a chronic health condition. Half are overweight or obese, 9 percent have been diagnosed with depression or a related condition, and the highest prevalence of human papilloma virus, which has been linked to cervical cancer, is among women age 20-24. Young adults experience six preventable deaths each day due to lack of health insurance.

This is clearly an age group that needs health insurance. But young adults are among those least likely to have access to coverage. Allowing them to remain as a dependent on their parents' health insurance plans will bring quality health insurance within reach for millions of young adults.

#### THE SCORE: AMERICAN FLAG 1— FLAG POLICE 0

(Mr. POE of Texas asked and was given permission to address the House for 1 minute.)

Mr. POE of Texas. Madam Speaker, the Oak Parks Apartments in Albany, Oregon, this week decided to ban American flags. The apartment manager said American flags might offend somebody in the community, so she issued a dictate: fly Old Glory, and you get evicted. American flag sticker on your car in the parking lot? Not allowed. No Stars and Stripes flying from a motorcycle or a car.

So the American patriots living there fought back. They said anyone offended by their American flags would have to just get over it. They started flying flags everywhere. One mom put an American flag poster in her son's window. He is fighting in Iraq, wearing the flag on his shoulder. One lady just walked around the complex every day waving the flag.

These people did not give in. They were offended by the flag police. You see, the Constitution protects their right to display the flag as free speech. And yesterday the apartment manager backed off. Flying Old Glory is okay again, even if it offends the politically correct apartment owner.

So, congratulations to these American patriots. The score: American flag 1—flag police, zero.

And that's just the way it is.

□ 1030

#### PROVIDING FOR CONSIDERATION OF CONFERENCE REPORT ON H.R. 2892, DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2010

Mr. HASTINGS of Florida. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 829 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

#### H. RES. 829

*Resolved*, That upon adoption of this resolution it shall be in order to consider the conference report to accompany the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes. The conference report shall be considered as read. All points of order against the conference report and against its consideration are waived. The previous question shall be considered as ordered on the conference report to its adoption without intervening motion except: (1) one hour of debate; and (2) one motion to recommit if applicable.

The SPEAKER pro tempore. The gentleman from Florida (Mr. HASTINGS) is recognized for 1 hour.

Mr. HASTINGS of Florida. Madam Speaker, for the purpose of debate only, I yield the customary 30 minutes to my good friend, the gentleman from Florida (Mr. DIAZ-BALART), and all time yielded during consideration of the rule is for debate only.

#### GENERAL LEAVE

Mr. HASTINGS of Florida. I ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 829.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

Mr. HASTINGS of Florida. I yield myself such time as I may consume.

Madam Speaker, House Resolution 829 provides for consideration of the conference report to accompany H.R. 2892, the Department of Homeland Security Appropriations Act of 2010. The rule waives all points of order against the conference report and against its consideration. The rule provides that the conference report shall be considered as read. And finally, the rule provides that the previous question shall be considered as ordered without intervention of any motion, except 1 hour of debate and one motion to recommit, if applicable.

This conference report appropriates over \$42 billion in funds necessary to protect the American people and enhance our national security. Through terrorist threat mitigation, natural disaster response, and immigration enforcement, this appropriations bill provides the funding to fulfill the many essential responsibilities of a range of important governmental agencies, from the Coast Guard to FEMA to Customs and Border Protection to the Transportation Security Administration.

Particularly critical in this legislation are the partnerships established with State and local communities to prepare for and protect against a range of emergency situations, including natural disasters and acts of terrorism and violence. The funding provided for emergency response resources demonstrates the need for collaboration among Federal, State, and local gov-

ernments in providing for effective security. It's worth noting a few of the major initiatives contained in this conference report.

This legislation helps secure our borders by providing over \$10 billion for Customs and Border Protection, including funding for over 20,000 Border Patrol agents, which represents an increase of 6,000 agents since 2006. In addition, this report extends authorization of the E-Verify program for 3 years, under which employers are able to check the legal status of their workers. This legislation provides the funding to operate and improve the existing E-Verify program.

Ensuring the safety and security of our Nation's infrastructure is a critical part of this legislation. This conference report provides the necessary funding to the Transportation Security Administration and the Coast Guard to protect our Nation's vast transportation network, including airports, seaports, subways, trains, and buses. With this funding, the TSA will be able to improve explosive detection equipment at airports, and the Coast Guard will be able to replace aging ships and aircraft, which is much needed, modernizing a force that is essential to our national security.

Madam Speaker, I have always praised the Federal Emergency Management program for the fine work they do in helping distressed communities. In my home State of Florida, we are frequently plagued with natural disasters, including hurricanes and flooding. These disasters profoundly impact Florida's residents, particularly when so many individuals and families experience severe damage to their homes and communities.

I'm pleased with the funding levels indicated in this report for the firefighter grants, flood map modernization, predisaster mitigation, and emergency food and shelter programs. I know that the men and women at FEMA work hard and are dedicated to relieving the plight of Americans faced with the hardships of natural disasters.

At the same time, I've never been shy about making my voice heard on matters important to my constituents and all residents of Florida and our Nation that experience disasters. I have been outspoken on the need for FEMA to improve temporary housing.

I'm also pleased to have included language in this bill requiring the Florida Long Term Recovery Office, located in Orlando, to remain open. And a footnote there, Representatives ALAN GRAYSON and SUZANNE KOSMAS are deserving of a lot of consideration from us for that action that I, along with ROBERT WEXLER and others, began quite some time before they came to Congress. In order to enhance communication and relief operations, this is necessary in the event of a natural disaster.

Madam Speaker, I do want to address the provisions in this report relating to the detainees at Guantanamo Bay. I know that this body has been very focused on this matter, as rightly we should be, as President Obama has committed his administration to close the detention facility at Guantanamo by January of 2010. This conference report prohibits current detainees from being transferred to the United States, except to be prosecuted, and then only after Congress receives a detailed plan on the risks involved, the legal rationale for their transfer, and a notification from the Governor of the affected State.

This is all well and good, but the language in this bill, while a good step forward, is not going to solve the problem of what to do with the hundreds of individuals we have detained, and those in the future that we may have to detain, whether they are detained at Guantanamo or Bagram Air Base in Afghanistan or any other facility where they may be detained by the United States.

The debate over Guantanamo, in my opinion, is missing the larger picture, and that is a need to reform our entire detention policy. As I have maintained, the problem is policy, not the place. Without a system of justice to deal with suspected terrorists, wherever they are held, we are left with a broken system that has been a significant recruiting tool for al Qaeda and other groups which threaten our Nation's security. We need to deny them that image of America.

We need a judicial process that accomplishes at least three things: Number 1, protects our national security by holding and prosecuting those who have committed crimes or who pose an imperative threat to our country; number 2, upholds international standards of human rights; and 3, strengthens our Nation's image as a country that upholds the rule of law and does not resort to arbitrary justice, even while under threat.

This appropriations season has, so far, brought forth a number of bills, almost all with language relating to Guantanamo and a whole lot of that "not in my backyard" stuff. At some point soon, we're going to need to move beyond trying to legislate this matter into appropriations bills and, instead, deal with what is necessary, and that is, new policies and guidelines to bring our national security needs in line with our historic national values.

I'm pleased to have introduced H.R. 3728, the Detainment Reform Act, which will move us forward on this matter, and I urge my colleagues and the President and his administration to give some vent to supporting this effort, revising it, or doing what is necessary in order for this bill or others to establish the policy that's needed for detaining individuals who would be im-

perative threats or conduct themselves in a criminal manner against this Nation.

Madam Speaker, ultimately, the conference report before us today provides the necessary funding for the Federal, State, and local agencies, programs and efforts that will protect our Nation.

I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, I'd like to thank my good friend and fellow co-chairman of the Florida Congressional Delegation, Mr. HASTINGS, for the time. I yield myself such time as I may consume.

Madam Speaker, several years ago I had the distinct privilege to bring to this floor, first, the rule bringing the legislation to the floor that created the Department of Homeland Security, and then the first rule for a Department of Homeland Security appropriations bill. Since then, the Department of Homeland Security has begun to mature. It has improved the process for which it was created, the oversight of and coordination of many departments related to the safety of the Nation.

As we know, the department was created in the wake of the attacks of September 11, 2001, to help mobilize and to organize the government to the best of its ability to secure the homeland from further terrorist attacks, to protect the Nation's borders, and to prepare for natural disasters. And thanks to our new concerted approach, I think we've made key investments to secure the United States from further terrorist attacks.

□ 1045

But clearly we must not let our guard down.

Just a few weeks ago, we heard about a disrupted terrorist attack in New York City. The Attorney General of the United States has called the plot, "one of the most serious in the United States since September 11, 2001." That is why I am pleased that the underlying legislation provides the Department with the tools and resources that it needs in order to continue to help to protect the Nation from other terrorist attacks. We must not lose our focus. We must continue our efforts to protect the United States from deadly attacks.

This legislation will provide much-needed funding to help secure our borders, with \$800 million for Southwest border investments, over \$3 billion for the Border Patrol, including over 20,000 Border agents, an increase of more than 50 percent since 2006.

The State that I am honored to represent, Florida, has seen, as my dear friend has pointed out, its share of natural disasters, from Hurricane Andrew in 1992 to the series of very disastrous back-to-back hurricanes in the middle of this decade. That is why having a

prepared and professional staff at FEMA, ready to coordinate disaster preparedness, response, recovery and mitigation efforts, is of vital importance to Florida.

I am pleased the conference report will provide FEMA and the new FEMA administrator—we Floridians are very proud of him, Craig Fugate—the resources needed to help in the aftermath of any natural disaster, whether it's a hurricane in Florida, an earthquake in California, or the flooding in the Midwest.

The terrorist attacks of September 11 heightened concerns regarding aviation security. In response, Congress passed the Aviation and Transportation Security Act of 2001. That legislation established a Federal screener workforce and required the screening of all checked baggage using explosive detection systems, EDS. EDS machines can quickly determine if a baggage contains a potential threat. If a weapon or explosive is detected, the machines alert security officers so they can manage the baggage appropriately.

Funding and reimbursement for EDS installation, however, continues to be a serious concern. Miami International Airport, which is in my congressional district, has incurred over \$78 million in in-line EDS terminal modification costs and continues to seek reimbursement for the Federal share of those costs. I am pleased that this conference report provides \$778 million in discretionary funding to purchase and install EDS at airports. Those funds will help reimburse Miami International Airport and other airports in their efforts to complete EDS installations.

Our Nation's maritime industry contributes approximately \$750 billion to the gross domestic product each year. Florida has some of the largest ports in the country. The Port of Miami serves as the primary maritime gateway to Latin America and the Caribbean. It is a strategic hub for international commerce throughout the hemisphere, and obviously it is the cruise ship capital of the world.

Since 9/11, the Port of Miami has faced unprecedented security costs due to the expense of complying with Federal security mandates. While ports across the Nation are facing similar challenges, the problem at the Port of Miami is particularly serious. Annual operating security costs at the Port of Miami have increased from just over \$4 million in 2001 to over \$20 million today.

The legislation we are bringing to the floor provides \$300 million in grants to assist ports in enhancing their security measures to prevent, detect, and respond to possible terrorist attacks.

So I wish to thank Chairman PRICE and Ranking Member ROGERS for their clearly bipartisan work on this conference report that makes critical investments in the priorities facing the

Department of Homeland Security, including securing our transportation systems, strong border security, a well-prepared and able FEMA, and so much more.

Madam Speaker, I reserve the balance of my time.

Mr. HASTINGS of Florida. Madam Speaker, I am very pleased and privileged at this time to yield 5 minutes to the distinguished gentlewoman from New York, the distinguished Chair of the Committee on Rules and my good friend, Ms. LOUISE SLAUGHTER.

Ms. SLAUGHTER. I thank my colleague for yielding.

Madam Speaker, there are few things that say more about our country and our trust in the public's right to know than the Freedom of Information Act. It is one of the most powerful statements of openness and transparency that we have. It affords ordinary people the ability to peer behind the curtains of power and see inside the many bureaucracies that define the Federal, State and local governments in this country. It is a symbol for all, that despite anything else that our government does in the name of the people, there should be no secrets.

Over the years, FOIA laws have been used for a wide range of purposes. FOIA helped us to discover the ugly truth about the use of Agent Orange in Vietnam, Laos, and Cambodia during the 1960s. And FOIA was also used to uncover data showing that Ford Pintos were built with serious dual system defects that made them more prone to fire and explosions.

In some ways, FOIA is simply a reminder to the public that there is an avenue to pursue if they believe the government is keeping a secret. At the heart of FOIA is the concept that the people's right to know is more important than the government's desire to keep things secret.

The FOIA laws in this country have enabled reporters and citizens from all spectrums access to information that otherwise might never see the light of day. Signed into law by President Johnson in 1966, the FOIA laws allow for the full or partial disclosure of information and documents with only a narrow list of important exemptions.

And so it was with some dismay when I learned recently that the House and Senate conferees on the Homeland Security appropriations bill had slipped in a provision that gives the government the option of making old photos of detainee abuse exempt from the FOIA laws.

This case has already followed a lengthy path beginning with a lawsuit filed by the ACLU against the Pentagon. Last spring, when it appeared that the lawsuit might go against the government, the administration responded by asking some Members of the House and Senate to insert language into the legislation to make sure that the photos stay secret.

Joining the ACLU against the Pentagon was the American Society of News Editors, the Associated Press, Cable News Network, Inc., the E.W. Scripps Company, Gannett Co., Inc., the Hearst Corporation, Military Reporters and Editors, the National Press Club, NBC Universal, Inc., The New York Times Company, the Newspaper Association of America, the Newspaper Guild—CWA, the Radio-Television News Directors Association, the Society of Professional Journalists, The Washington Post, and me.

Never mind that the photos in question likely have very little value given that a similar set of photos showing the abuse were released under the Bush administration. Despite some complaints that releasing photos would place service men and women in danger, the fact is there was absolutely no increase in violence or attacks after the previous detainee photos were released. I assume that if we were to release the new photos, the result would be the same. Americans were simply able to find out what was being done in their name.

Many observers argue that releasing the photos was actually a clear break from the abuses of the past and a signal to our allies and to everyone else that the days of this type of detainee mistreatment were over and that the United States is willing to come to terms with past practices. Indeed, we have said so.

In June, I and other House leaders prevailed and the FOIA exemption was dropped from the legislation. However, the conferees, apparently under direct orders, quietly put it back into the bill this month. It's hard for me to express how disappointed I am with that decision. I am sorry because I believed that we had turned a page from the cloud of suspicion and secrecy that marked the previous administration. It runs so counter to our principles and stated desire to reject abuses of the past.

The FOIA laws in this country form a pillar of our First Amendment principles. It is unfortunate, given that this administration promised that openness and transparency would be the norm. We should never do anything to circumvent FOIA, and I believe our country would gain more by coming to terms with the past than we would by covering it up.

I hope the President will follow judicial rulings and consider voluntarily releasing these photos so we can put this chapter in history behind us.

Mr. HASTINGS of Florida. Madam Speaker, I especially appreciate the remarks of the distinguished woman, the Rules Chair, Ms. SLAUGHTER, and echo her sentiments.

I am now pleased to yield 3 minutes to my colleague from the Rules Committee, a good friend, JARED POLIS of Colorado.

Mr. POLIS. I would like to thank my colleague from Florida for the time, as

well as Chairman PRICE for his leadership in bringing the fiscal year 2010 Homeland Security appropriations bill to the floor. It reflects the hard work of Chairman PRICE over the past year, and I am grateful that I have the opportunity to comment on the committee's efforts here today.

I want to reiterate the gratitude that I first expressed towards Chairman PRICE and his staff during our colloquy earlier this year with Congresswoman ROYBAL-ALLARD regarding alternatives to detention.

This bill is about security and stability. One of the issues that we raised the profile of is alternatives to detention, a less costly way of detaining noncriminal immigrants.

There really is a human rights crisis right in our own midst in this Nation. We are holding over 30,000 noncriminal aliens, people like you and me. They lack documentation, but they have committed no criminal crime. They might have been speeding, been picked up from a speeding ticket; they could have been in the wrong place loitering at the wrong time.

And you and I and every other taxpayer are putting them up to the tune of \$130 a day, average cost \$30,000. Many of them remain in detention for 6 months, 9 months. I had the opportunity to visit a detention facility in Aurora, Colorado. I talked to people who had been there a year and a half, a year and a half away from their families, a year and a half at taxpayer expense.

I would like to applaud the Obama administration for supporting alternatives to detention. Our bill funds alternatives to detention at \$70 million, lowers cost using ankle bracelets, more humane, allowing people to remain with their families, \$30 a day average cost. This provides a glimpse of what we can accomplish if we work together.

It also underlines the critical importance of passing comprehensive immigration reform. If we can pass comprehensive immigration reform, I know that in future versions of the Homeland Security bill we can save money and have a more humane bill and focus the bill on Homeland Security where it should be focused, which is keeping our Nation safe, not as a back door to dealing with the failures of our broken immigration system.

Thank you, Chairman PRICE, for your leadership in bringing the FY 2010 Homeland Security Appropriations bill to the floor. It reflects your hard work over the past year and I am grateful that I had the opportunity to support the committee's efforts to get here today. I want to reiterate the gratitude that I first expressed towards you and your staff during our colloquy with Congresswoman ROYBAL-ALLARD on detention alternatives earlier this year.

This bill is about security and stability. It furthers the need to secure our borders by guaranteeing the stability of our immigration services' contributions. It provides the funding necessary to continue America's leadership in

providing a safe home for both Americans and all future Americans.

Thus, \$122 million above 2009 levels is provided to U.S. Citizenship and Immigration Services for its important work. Examples of such important work that will be carried on thanks to this bill are many: \$50 million goes to process refugee applications and asylum claims so that our Nation may continue to admit those in greatest need; \$11 million expands immigrant integration and outreach to help with pressing need once these immigrants are lawfully admitted; and \$5 million ensures the naturalization of immigrants serving in our armed services.

Funding for detention beds as well as language requiring their maintenance ensures that immigrants will be humanely accommodated while their cases are adjudicated. And more importantly, \$70 million goes to Alternatives to Detention—to expand this program nationwide. This steers us in the right direction—a direction of commonsense, cost-saving, and humane measures. It provides a glimpse into what we can accomplish if we continue to work together toward comprehensive immigration reform.

This bill only asks our immigrants one thing—to embrace our cherished tradition of the rule of law in the pursuit of freedom. As a result, this bill provides 3-year authorization extensions for all the immigrants that make ours a greater nation. From religious workers who strengthen our social fabric, to investors who create much-needed jobs while increasing overall credit availability, to rural-serving doctors, to refugees, all are covered in the FY 2010 Homeland Security bill.

While many provisions in this bill greatly improve our detention policies, there is still much to be done and I look forward to a concrete plan for the closing of our Guantanamo Bay facilities.

I once again thank Chairman PRICE and I look forward to working with you and your staff in the future.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, I very much appreciate the contributions during this debate, enlightening our colleagues with regard to the merits of the legislation that we are bringing to the floor today.

You know, one of the, I think, most interesting aspects of the American representative democracy is that we differ from other representative democracies probably because our two parties are, in effect, great coalitions. We have a two-party system by virtue of that; both parties represent different coalitions of thought on numerous issues.

□ 1100

So it's interesting that today, for example, while my friend and the distinguished chairwoman of the Rules Committee expressed an opinion contrary to the position maintained by the President of the United States on an important issue—and I think it's appropriate to do so—I commend the President of the United States for his position with regard to the release of detainee photos.

The legislation before us codifies the President's decision to allow the Secretary of Defense to bar the release of detainee photos. I commend the President because, obviously, his leadership and support on that aspect has been decisive in the inclusion of that provision in this legislation.

So our system is unique. This constant manifestation of our two great coalitions is fascinating to me as a student of comparative politics. It is another reason I am so proud of this body—the great sovereign Congress of the United States which represents the most sovereign and the freest people in the world, the American people.

Madam Speaker, over the last few months, the American people have written and called their Members of Congress or they've made their opinions known at meetings throughout the Nation. They've asked their Members of Congress whether they will pledge to read bills before they vote on them. The reason is, I think, that people were outraged after finding out that the majority leadership forced Congress to vote on a number of sweeping and expensive bills without giving Members time to understand or to really even read the bills.

I remember a very glaring example of that when we on the Rules Committee were faced with an entire new bill on this legislation that was known as cap-and-trade, which in effect became a manager's amendment to the legislation at 3 o'clock in the morning, and a few hours after that, we were here voting on it. We were forced to vote on the final so-called "stimulus" bill, on the omnibus appropriations bill and, as I mentioned, on that cap-and-trade bill with less than 24 hours to read them—in some instances, as I mentioned before with regard to cap-and-trade, much, much less than 24 hours. Many people believe that that is no way to run the House, and many constituents are rightly upset.

A recent survey found that over 80 percent of Americans believe that legislation should be posted online and in final form and should be available for everyone to read before Congress votes on legislation. You would think, Madam Speaker, that this would really not be an issue as the distinguished Speaker is on record as saying, "Members should have at least 24 hours to examine bills and conference reports before floor consideration." It's even on her Web site. Yet, often, the majority leadership have refused to live up to their pledge.

That is why a bipartisan group of 182 Members of this House has signed a discharge petition to consider a bill that would require that all legislation and conference reports be made available to Members of Congress and to the general public for 72 hours before they are brought to the House floor for a vote.

So, today, I will be asking for a "no" vote on the previous question so that

we can amend this rule and allow the House to consider that legislation—House Resolution 554, a bipartisan bill by my colleagues and friends, Representatives BAIRD and CULBERSON.

I know that Members are concerned that this motion may jeopardize the Department of Homeland Security's Appropriations conference report, but I would like to make clear that the motion I am making provides for the separate consideration of the Baird-Culber-son bill within 3 days so that we can pass the conference report today funding the Department of Homeland Security. Then, once we are done, we would consider House Resolution 554.

Having said that, I yield back the balance of my time.

Mr. HASTINGS of Florida. I yield myself such time as I may consume.

Madam Speaker, the men and women of the numerous agencies under the Homeland Security umbrella are dedicated and hardworking public servants who deserve the full support of this body. We have a responsibility to provide them with the funds necessary to perform activities essential to protecting our country—preparing for emergencies, mitigating natural disasters and defending against acts of terrorism and violence.

I commend our colleagues on both sides of the aisle on the Appropriations Committee with reference to discharging their functions. I especially commend Subcommittee Chair PRICE and the work that he and his committee have done. As well, I commend the distinguished chairman of the Homeland Security Committee, BENNIE THOMPSON from Mississippi, and the extraordinary Members who serve with him in that capacity.

As I've discussed before, Madam Speaker, I hope this body will move beyond the debate of whether or not to close Guantanamo and, instead, will work to develop comprehensive detainment policies that uphold Federal law and the United States Constitution, that uphold human rights and international law.

I urge a "yes" vote on the previous question and on the rule.

The material previously referred to by Mr. LINCOLN DIAZ-BALART of Florida is as follows:

AMENDMENT TO H. RES. 829 OFFERED BY MR. DIAZ-BALART

At the end of the resolution, insert the following new section:

SEC. 2. On the third legislative day after the adoption of this resolution, immediately after the third daily order of business under clause 1 of rule XIV and without intervention of any point of order, the House shall proceed to the consideration of the resolution (H. Res. 554) amending the Rules of the House of Representatives to require that legislation and conference reports be available on the Internet for 72 hours before consideration by the House, and for other purposes. The resolution shall be considered as read. The previous question shall be considered as

ordered on the resolution and any amendment thereto to final adoption without intervening motion or demand for division of the question except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Rules; (2) an amendment, if offered by the Minority Leader or his designee and if printed in that portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII at least one legislative day prior to its consideration, which shall be in order without intervention of any point of order or demand for division of the question, shall be considered as read and shall be separately debatable for twenty minutes equally divided and controlled by the proponent and an opponent; and (3) one motion to recommit which shall not contain instructions. Clause 1(c) of rule XIX shall not apply to the consideration of House Resolution 554.

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's Precedents of the House of Representatives, (VI, 308-311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the Floor Procedures Manual published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information from Congressional Quarterly's "American Congressional Dictionary": "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's Procedure in the U.S. House of Representatives, the subchapter titled

"Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: Upon rejection of the motion for the previous question on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Mr. HASTINGS of Florida. I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on ordering the previous question will be followed by 5-minute votes on adoption of House Resolution 829, if ordered; and adoption of House Resolution 800, if ordered.

The vote was taken by electronic device, and there were—yeas 243, nays 173, not voting 16, as follows:

[Roll No. 780]

□ 1133

Messrs. JOHNSON of Illinois, CON-AWAY, and Ms. GRANGER changed their vote from “yea” to “nay.”

So the previous question was ordered.

The result of the vote was announced as above recorded.

(By unanimous consent, Mr. HOYER was allowed to speak out of order.)

## LEGISLATIVE PROGRAM

Mr. HOYER. Ladies and gentlemen, we had hoped to do an additional appropriation bill, but the subcommittee has not yet reached agreement. As a result, I wanted to let Members know that when we finish the business that is scheduled for today, which includes the water bill that we will be considering later today after the Homeland Security bill, we will then not plan to be here on Friday. I know that disappoints all of you.

It does disappoint me because I'm very focused, and we are working very hard with the Senate to try to get the appropriations bills done individually. I'm not a fan of omnibuses. I don't think anybody here is either. But as a result of being unable to move the Interior appropriation bill, my view was that originally we had scheduled the water bill for tomorrow, but it is our belief that we can consider both of them today which would then not require Members to be here on Friday.

You can lodge your complaints to me later.

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Without objection, 5-minute voting will continue.

There was no objection.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This is a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 239, nays 174, not voting 19, as follows:

[Roll No. 781]

## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining on this vote.

□ 1141

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

Stated for:

Ms. HIRONO. Madam Speaker, on rollcall No. 781, had I been present, I would have voted “yea.”

Mr. MURPHY of New York. Madam Speaker, on rollcall No. 781, had I been present, I would have voted “nay.”

Mrs. MCMORRIS RODGERS, Madam Speaker, on rollcall No. 781, I was unavoidably detained. Had I been present, I would have voted “nay.”

# EXPRESSING SYMPATHY FOR THE CITIZENS OF THE PHILIPPINES DEALING WITH TROPICAL STORM KETSANA AND TYPHOON PARMA

The SPEAKER pro tempore. The unfinished business is the question on suspending the rules and agreeing to the resolution, H. Res. 800, as amended.

The Clerk read the title of the resolution.

The SPEAKER pro tempore. The question is on the motion offered by the gentleman from American Samoa (Mr. FALEOMAVAEGA) that the House suspend the rules and agree to the resolution, H. Res. 800, as amended.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

## RECORDED VOTE

Mr. CONNOLLY of Virginia. Madam Speaker, I demand a recorded vote.

A recorded vote was ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—ayes 415, noes 0, not voting 17, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Ms. DeGETTE) (during the vote). There are 2 minutes remaining in this vote.

□ 1149

So (two-thirds being in the affirmative) the rules were suspended and the resolution, as amended, was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## RESIGNATION AS MEMBER OF COMMITTEE ON THE JUDICIARY

The SPEAKER pro tempore laid before the House the following resignation as a member of the Committee on the Judiciary:

OCTOBER 14, 2009.

HON. NANCY PELOSI,  
*Speaker, House of Representatives, The Capitol,  
Washington, DC.*

DEAR MADAM SPEAKER: I am writing to notify you of my resignation from the Judiciary Committee, effective October 14, 2009. It was an honor to serve you and Chairman Conyers as a member of this prestigious committee.

I look forward to continuing to serve on the Foreign Affairs and Financial Services Committees in the 111th Congress.

Sincerely,

BRAD SHERMAN,  
*Member of Congress.*

The SPEAKER pro tempore. Without objection, the resignation is accepted. There was no objection.

## ELECTING MEMBER TO CERTAIN STANDING COMMITTEES OF THE HOUSE OF REPRESENTATIVES

Mr. LARSON of Connecticut. Madam Speaker, by direction of the Democratic Caucus, I offer a privileged resolution and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 834

*Resolved*, That the following named Member be and is hereby elected to the following standing committees of the House of Representatives:

(1) COMMITTEE ON THE JUDICIARY.—Ms. Chu (to rank immediately after Mr. Quigley).

(2) COMMITTEE ON OVERSIGHT AND GOVERNMENT REFORM.—Ms. Chu.

Mr. LARSON of Connecticut (during the reading). Madam Speaker, I ask unanimous consent that the resolution be considered as read and printed in the RECORD.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Connecticut?

There was no objection.

The resolution was agreed to.

A motion to reconsider was laid on the table.

## REMOVAL OF NAME OF MEMBER AS COSPONSOR OF H.R. 3612

Mr. BROUN of Georgia. Madam Speaker, I ask unanimous consent to

remove Congressman SAM JOHNSON of Texas as a cosponsor of H.R. 3612.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Georgia?

There was no objection.

CONFERENCE REPORT ON H.R. 2892,  
DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT,  
2010

Mr. PRICE of North Carolina. Madam Speaker, pursuant to House Resolution 829, I call up the conference report on the bill (H.R. 2892) making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes, and ask for its immediate consideration.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 829, the conference report is considered read.

(For conference report and statement, see proceedings of the House of October 13, 2009, at page 24619.)

The SPEAKER pro tempore. The gentleman from North Carolina (Mr. PRICE) and the gentleman from Kentucky (Mr. ROGERS) each will control 30 minutes.

The Chair recognizes the gentleman from North Carolina.

GENERAL LEAVE

Mr. PRICE of North Carolina. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include tabular and extraneous material on the conference report to accompany H.R. 2892.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

Mr. PRICE of North Carolina. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I am pleased to present the conference report for the Department of Homeland Security appropriations for fiscal year 2010. This agreement provides \$42.78 billion for the Department, \$2.64 billion, or 7 percent, above the fiscal year 2009 level.

I want to thank the distinguished ranking member, Mr. ROGERS, for his advice and counsel and help in making this a better bill, and also his staff for working so closely and constructively with us. I want to highlight the work of all staff on both sides of the aisle who have helped us present such a strong legislative product to the Congress.

This is a critical year for the Department of Homeland Security, as it has weathered its first leadership transition with the new administration, in the midst of a global economic recession. I commend the Department's new leadership on its strong efforts to enhance our Nation's security posture

and its willingness to reach out to Congress to make adjustments and to promote change when needed.

This conference report, carrying the seventh annual appropriation for the Department since its inception, addresses the needs and challenges that this still-young Department faces. It also represents a considered approach to funding critical domestic security requirements and other core departmental missions within a bipartisan consensus on fiscal responsibility.

Madam Speaker, one can make an argument for increasing funding for many of the programs contained in this report. When discussing homeland security, worst-case scenarios often abound, as do advocates for fixating on one threat while downplaying others.

Our obligation, by contrast, is to take a balanced, realistic approach, to weigh risks carefully, and to set priorities and make prudent investments in smart, effective security. I believe this conference agreement supports the Department's efforts to focus on the highest priorities for protecting our country and to prevent, prepare for, and respond to legitimate threats, whether natural or man-made.

To conserve time, Madam Speaker, I will highlight just a few items in the proposed agreement, items I believe are of interest to all Members.

First, the conference agreement provides the resources to support the readiness of our State and local partners, our first responders out on the front lines. This includes \$810 million for firefighters, \$887 million for the Urban Areas Security Initiatives grants and \$340 million for emergency managers. It also includes over \$900 million to strengthen FEMA's operational response capabilities and to enhance the agency's emergency management mission.

The conference agreement includes \$1.5 billion for more effective efforts by U.S. Immigration and Customs Enforcement to identify and remove illegal aliens who have committed crimes, a priority we share with the President and Secretary Napolitano. Of this total, \$200 million furthers development of the Secure Communities Program, which offers a productive approach for Federal immigration agents to work closely with State and local law enforcement, while maintaining the distinction between the traditional Federal role of enforcing immigration law and the local role of prosecuting criminal violations.

The conference agreement includes \$800 million for infrastructure and technology to secure the border, with an emphasis on developing technological surveillance and improving tactical communications so our Border Patrol can make smart use of its resources to police an expansive border. It includes \$40 million to minimize adverse environmental impacts of border

infrastructure and operations, and maintains strong oversight requirements to ensure the Secure Border Initiative delivers as promised.

The conference agreement provides a total of \$7.66 billion for the Transportation Security Administration to improve aviation security and efficiency. Two areas of note are over \$1 billion available to deploy explosives detection systems at airports throughout the country that have less capable and slower screening systems, and \$122 million for air cargo security so TSA can meet the August 2010 deadline for screening 100 percent of cargo in the hold of passenger planes.

This conference agreement continues to take steps to increase the Coast Guard's contribution to national security, including protection of our waterways and those who use them and stemming the flow of illegal drugs into this country. Overall, this bill includes \$10.14 billion for the Coast Guard, \$170 million more than the administration requested. Most of this increase is to purchase materials for a new national security cutter and to complete the refurbishment of a heavy icebreaker that will help secure America's interests in the Arctic. It also boosts support for the existing fleet, making investments above the administration's request for backlogged vessel maintenance.

The conference agreement includes nearly \$400 million for DHS cybersecurity programs, 26 percent above fiscal year 2009, to ramp up our protections for governmental computer networks and to bring on more professionals with cybersecurity expertise. In addition, DHS will be able to initiate new efforts to help those responsible for critical infrastructure and other private networks, reducing their vulnerability to cyberattacks.

Also, the conference agreement includes \$11 million to promote legal paths to U.S. citizenship by expanding the successful immigration integration program of U.S. Citizenship and Immigration Services.

The conference agreement includes \$1.1 billion for departmental operations, up \$90 million or 17 percent above fiscal year 2009, to improve DHS management and make it more cost-effective, to secure sensitive information, and to ensure that contractors are overseen by trained government professionals, not by other contractors.

The agreement provides \$221 million to continue efforts to safeguard international commerce and to prevent the use of cargo containers to carry or deliver weapons. This includes an increase of \$12.5 million, or 8 percent, above fiscal 2009 to build on the Secure Freight Initiative and Container Security Initiative, as well as funding to sustain programs targeting high-risk cargo and shippers. DHS is also required to submit a realistic strategy for achieving effective cargo and supply chain security.

To ensure that DHS can adequately protect public safety in its efforts to identify and prepare for biological or agricultural threats, the conference agreement requires DHS to conduct a thorough risk assessment to determine requirements for safe operation of the National Bio and Agro Defense Facility scheduled for Manhattan, Kansas.

□ 1200

It calls for the National Academy of Sciences to provide an independent evaluation of the Department's safety, planning, and mitigation efforts in connection with this project.

In addition, the conference report extends authorizations for the E-Verify program and for visas for physicians serving in rural areas, religious workers, and investors, each of these by 3 years. These are all short-term solutions until comprehensive immigration reform can be considered by the authorizing committees and by the Congress.

Finally, I want to discuss two items that have been raised repeatedly, the release of photographs and videos of individuals detained by U.S. Armed Forces since 9/11, and restrictions on the administration's ability to transfer detainees from Guantanamo Bay Naval Station to the United States or elsewhere in the world.

On the first topic, the conference report codifies the President's decision to allow the Secretary of Defense to bar the release of detainee photos for a period of 3 years.

On the second topic, the conference report establishes strict safeguards on the movement of Guantanamo's detainees, and if the administration chooses to address their cases in U.S. courts, this legislation ensures that that will be done with due consideration, planning, and forethought.

It prohibits current detainees from being released into the United States or any U.S. territory. It allows the transfer of a detainee to custody inside the United States only for the purpose of prosecuting that individual and only after Congress receives a plan detailing the risks involved and a plan for mitigating such risks, the cost of the transfer, the legal rationale and court demands, and a copy of the notification provided to the governor of the receiving State 14 days before a transfer, with a certification by the Attorney General that the individual poses little or no security risk.

Our bill also prevents current detainees from being transferred or released to another country, including freely associated states, unless the President submits to the Congress 15 days prior

to such transfer the name of the individual and the country the individual will be transferred to, an assessment of risks posed and actions taken to mitigate such risks, and the terms of the transfer agreement with the other country, including any financial assistance.

It requires the President to submit a report to Congress describing the disposition of each current detainee before the facility in Guantanamo Bay can be closed. It bars the use of funds to provide any immigration benefits to Guantanamo detainees, other than to allow them to be brought to the U.S. for prosecution, and it mandates the inclusion of all detainees on the TSA No Fly List. These are provisions that have been supported on a bipartisan basis in Appropriations Committee markups and on the floor of this House.

Madam Speaker, the conference report before us today represents hard work in a cooperative and bipartisan spirit. It invests in critical government efforts designed to keep the American people safe. I strongly support the proposed agreement, and urge my colleagues to do the same.

Madam Speaker, I include the following for the RECORD:

I reserve the balance of my time.

Mr. ROGERS of Kentucky. Madam Speaker, I yield myself such time as I may consume.

Let me begin by sincerely thanking Chairman PRICE for his partnership during this 2010 appropriations cycle. Through the transition in administrations, the very late submission of the 2010 budget request and the truncated appropriations process, he has been fair and respectful and has been willing to listen to our concerns and accommodate the minority's interests where possible. So I want to thank the chairman for his friendship and his ability to work with everyone to write the best possible bill.

This subcommittee, Madam Speaker, since its inception in 1993, has a long-standing tradition of bipartisanship, a tradition that stands in stark contrast, I might add parenthetically, to the exclusionary tactics of the House's Democrat leadership that trounced the rights of the minority and stifled debate during floor consideration of the House bill.

But in spite of some of that partisan mischief, I am truly grateful for Chairman PRICE's efforts to maintain the long-standing comity that has defined this Chamber's appropriation process, as well as Chairman OBEY's work to move this vital spending bill towards completion.

So I am thankful that we were able to hammer out an agreement in conference, for the most part. After all, the safety and security of our Nation's citizens should be the number one priority of the Congress. This urgency is underscored by the recent terrorism cases being investigated in Colorado, New York, Texas, Illinois and North Carolina, as well as the persistent acts of terrorism and violence by radical extremists overseas.

What this terrorist activity tells me is that real security demands persistent commitment. Eight years after 9/11 and 6 years after the Department was created, we must remain vigilant in addressing every threat and every vulnerability. I am pleased to see the conference report is willing to honor that commitment by properly resourcing our homeland security needs.

While I can't say that I agree with everything in the conference report, I think it represents a fairly reasonable compromise on most of our homeland security priorities. However, there is a notable provision that I must respectfully take issue with that the chairman has referred to.

Section 552 of this conference report permits the terrorists detained at Guantanamo Bay to be brought to the U.S. for purposes of prosecution. Since the President announced the decision to close Guantanamo some 9 months ago, we have seen nothing, Madam Speaker, no plan, in spite of the re-

quests of this Congress, this subcommittee, this committee, no plan, no idea of how to dispose of the detainees remaining there, and no legal rationale for the prosecution, sentencing and incarceration of these terrorists wherever.

Instead, those detainees who pose a minimal security threat have been shuttled off to other foreign countries by way of backroom deals, leaving hundreds of suspected terrorists potentially bound for American soil because no one else in the world will let them be brought to their soil. Apparently we have tried, to no avail.

So I for one see no reason why we should afford enemy combatants who have been caught on the battlefield battling American soldiers, to allow them the same constitutional rights as American citizens or the same due process even as criminal defendants in the civilian courts of the U.S., and I see no reason why these terrorists can't be brought to justice right where they are in Cuba before military tribunals, as we have in the past there. In fact, we know military tribunals work. We have completed three tribunals and convicted and sentenced terrorists right there in Gitmo.

It is clear that the majority of Members in this Chamber and in the Senate agree with this point of view, given the clear passage of the motion to instruct two weeks ago in this body, and the Senate's near unanimous adoption of a total prohibition of detainee transfers to this country with the passage of their Defense appropriations bill just last week. Both bodies have spoken by huge majorities: Keep these detainees off sacred American soil.

This is a critical issue that I think we must get right, so I am disappointed that the conferees did not follow the convincing and bipartisan votes that both Chambers have taken over the past few weeks and deny these terrorists access to the United States.

Now, having said all that, and in spite of my opposition to the section on the Gitmo detainees, I believe the base of this conference agreement will go indeed a long way towards the protection of our great country.

I once again thank Chairman PRICE for his consideration of our concerns and all of his good work throughout the year on this very important bill.

I reserve my time.

Mr. PRICE of North Carolina. Madam Speaker, I yield 2 minutes to our valued colleague from New York (Mrs. LOWEY), a member of the subcommittee.

Mrs. LOWEY. Madam Speaker, I rise in support of the conference report, and I want to thank our chairman, Chairman PRICE, for his strong leadership on this bill.

Assistance for our first responders is one of the most effective tools to protect our homeland, as evidenced by the

Federal Government and the New York Police Department's discovery of the plot to bomb the city's subways last month. The bill provides \$4.17 billion to invest in that partnership, including the Urban Area Security Initiative, the only grant program for high-risk cities. The conference report increases funding for it by \$50 million.

All too often our brave first responders have to rely on communications methods that resemble the time of Paul Revere. The conference report provides \$50 million for new technology through the Interoperable Emergency Communications Grant, which I fought very hard with the chairman to create.

To help prevent illicit radiological material from entering New York, the bill provides \$20 million for securing the cities, the same level for equipment procurement as in FY 2009, and I look forward to working with the chairman and the subcommittee to ensure that the program is fully implemented.

In addition to aiding our first responders, the bill tackles a number of pressing issues, including providing \$1.5 billion to identify and remove dangerous criminal aliens, bolstering border security with more than 20,000 Border Patrol agents, and securing our airports and transit system by providing \$678 million more than in FY 2009 for the Transportation Security Administration.

So I thank the chairman and the ranking member for their work on this bill, and I urge my colleagues' support.

Mr. ROGERS of Kentucky. Madam Speaker, I yield 2 minutes to the very distinguished ranking member of the Homeland Security authorization committee in the House, the gentleman from New York (Mr. KING).

Mr. KING of New York. Madam Speaker, I thank the distinguished ranking member for yielding, and at the outset I want to commend Ranking Member ROGERS and Chairman PRICE for the outstanding job they have done on this bill. I certainly intend to vote for it. I will vote for it. I must say, however, there are three specific problems, three areas where I do have questions.

Number one is on the Secure the Cities program, which is essential to protect New York City from radiation, dirty bomb attacks. This House by an overwhelming margin approved an amendment by Congresswoman CLARKE and me which would have put \$40 million in the bill for that. Instead, in conference that was reduced to \$20 million. This is a shortfall which I believe can have damaging impact.

Secondly, on the issue of Guantanamo, I concur in everything that Ranking Member ROGERS has said. To me, it is wrong to bring terrorists, enemy battlefield combatants, to our shores for any purpose, even to stand trial, especially to stand trial, because

I believe they should be tried in military tribunals.

Again, I bring up the issue of New York City, where I am certain a number of these will be brought. Those who were involved in the 9/11 attacks will be brought to the Southern District of New York. To me, this is a timebomb waiting to happen, to have those terrorists in New York City for a protracted period of time before, during and after their trial.

Thirdly, on the issue of the firefighter grants, the President cut them by 70 percent. I know the committee put money back in, but the level was still lower than it was last year. This, I believe, is going to impact negatively on fire departments throughout our country.

Having said that, Madam Speaker, this is a fine bill. I look forward to supporting it. I thank the committee for the way they approached it in a bipartisan way. As Congresswoman LOWEY said, our Nation is under threat. There are threats every day. They have targeted various cities throughout our country. This bill goes a long way towards resolving that.

But, again, on the issues of Secure the Cities, Guantanamo and the firefighter grants, I do have real issues, real concerns. Having said that, I support the bill.

Mr. PRICE of North Carolina. Madam Speaker, I yield 2 minutes to another fine member of our subcommittee, the gentleman from New Jersey (Mr. ROTHMAN).

Mr. ROTHMAN of New Jersey. I thank the chairman.

Madam Speaker, I rise today in support of the conference agreement on the 2010 Department of Homeland Security appropriations bill. I want to thank our distinguished chairman, Chairman PRICE, and our distinguished ranking member, Mr. ROGERS, for their outstanding leadership on this bill, and my colleagues on the subcommittee for their outstanding work.

First, I would like to remind my colleagues that I come from one of the most densely populated regions in the most densely populated State in the United States, northern New Jersey. This area contains many high-risk terrorist targets. So I understand, as do my constituents, how vitally important this funding is to our region's and our Nation's security.

The bill provides, for example, our first responders with excellent resources for the training, equipment and personnel we need to keep our communities safe.

□ 1215

It includes \$60 million for emergency operations centers, \$810 million for local fire departments, and \$950 million to protect high-risk urban areas from terrorist attacks. It provides \$300 million for port security grants to stop the

flow of illegal drugs from coming into this country. It also increases resources for our Customs and Border Protection by over \$10 billion to combat drugs and weapons smuggling.

In closing, Madam Speaker, this bill, the Fiscal Year 2010 Department of Homeland Security Appropriations bill, honors the commitment we made to provide our first responders with the best training and equipment available to keep our ports safe and our borders safe and all of our citizens safe from the terror that lurks out there by individuals still seeking to do us harm.

Mr. ROGERS of Kentucky. Madam Speaker, I yield 3 minutes to one of the hardest working members of this body and a valued member of our subcommittee, the gentleman from Texas (Mr. CULBERSON).

Mr. CULBERSON. I want to thank Chairman PRICE.

The members of our subcommittee have a good personal working relationship. One of the things I enjoy most about this wonderful committee on appropriations is that there are no real partisan differences between us. We always work together for the good of the country. We have always worked together without regard to our party label. And this subcommittee, in particular, is one that has worked well together to protect the country from a very severe terrorist threat that we know we all face since 9/11.

I want to thank the chairman and our ranking member for the support that this committee has given to our Border Patrol; for Immigration and Customs Enforcement funding; for Operation Stone Garden, a very successful program that allows cooperation between local law enforcement agencies on the border and our border patrol. That program has been a great success.

My good friends CIRO RODRIGUEZ and HENRY CUELLAR, we've worked together very successfully in Texas in implementing Stone Garden, as well as a program called Operation Streamline that the country needs to know is working very well. If you cross the Texas border between Lake Amistad and Zapata County, you will be arrested, you will be prosecuted, you will be deported. And as a result, the crime rate has dropped by over 70 percent in Del Rio. We've seen a 60 percent drop in the crime rate in the Laredo sector. The local community, which is 96 percent Hispanic, loves this program. What mom or dad wouldn't like their streets safer? As a result of simply using existing law and a little additional resources and using the good judgment, the good sense and the good hearts of uniformed law enforcement officers on the border, we have secured the border in Texas, and with the help of the chairman and the committee members, we're working to expand that up and down the border.

There are many great, good things about this bill, but one very serious

concern that I have that Mr. ROGERS has already expressed is that this bill puts into law a policy that has never, in the history of this country, been followed, and that is that as soon as the President issues a plan to Congress for the disposition of the prisoners in Guantanamo, 45 days after the President submits that plan, this bill explicitly authorizes the prosecution of enemy soldiers in U.S. courts. Now, that's unprecedented.

And my good friend Mr. RUPPERSBERGER, whom I've worked with before on so many good causes, we all in this House voted to make sure that we would not bring enemy soldiers to the U.S. for prosecution, giving them all the constitutional rights as if they were captured on the streets of New York or Los Angeles. We voted not to bring these prisoners from Guantanamo to be incarcerated in U.S. jails.

The security question is one thing, but the one that really concerns me is the fact that this bill gives explicit authorization. For the first time in American history, we will, if we pass this legislation as it is, be authorizing what we now know is going to be the policy of this President for U.S. soldiers, for the first time in history, to be police officers. Our soldiers in the field, in addition to trying to protect themselves and their friends, are going to have—

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. ROGERS of Kentucky. I yield the gentleman another 1 minute.

Mr. CULBERSON. Never before in our history have American soldiers had to worry about protecting the chain of evidence. Never before in history have American soldiers had to worry about whether or not they were reading the Miranda rights to enemy soldiers captured on foreign battlefields. Now, this bill makes that explicit. In fact, Chairman OBEY's fact sheet that he has issued on his Web site says this bill prohibits the transfer of Guantanamo detainees except for legal proceedings.

Now, anyone standing in a U.S. court in front of a U.S. judge is given all the protections of the U.S. Constitution. Now, that is what concerns me more than anything else is that we are explicitly changing—this is a monumental change in American policy. We cannot and should not burden our soldiers in the field with having to worry about the U.S. constitutional rights of enemy soldiers.

Do you think Sergeant York read Miranda warnings or was worried about the constitutional rights of the Germans that he captured during World War I? Do you think that the brave men who landed on Omaha Beach were worried about the constitutional rights of the Nazis at Omaha Beach or Normandy? I mean, this is an extremely important point that we have to raise, and we need to make sure that all the Members of the House are aware of it.

The SPEAKER pro tempore. The time of the gentleman has again expired.

Mr. ROGERS of Kentucky. I yield the gentleman another 1 minute.

Mr. CULBERSON. In fact, during the subcommittee hearing, during the conference committee meeting, my good friend, the chairman, Mr. PRICE, made it clear that this is the policy of the majority that's going to bring these—you'll want to bring these enemy soldiers to the United States to be prosecuted in U.S. courts.

That means that these enemy soldiers will be clothed in the protection of the U.S. Constitution. That means that enemy soldiers, these terrorists, can lawyer up at U.S. taxpayer expense. They're going to be given Miranda warnings. U.S. soldiers are going to have to protect the chain of evidence, just like a police officer on the streets of Los Angeles or New York, and make sure that the chain of evidence is protected, that all their rights are protected, and that we have to prove beyond a reasonable doubt that these enemy soldiers committed whatever it is crime that they're going to be prosecuted for.

Let me remind the Congress that in 1942 a number of German terrorists landed on the beaches of Long Beach and in Florida. In June of 1942, they were prosecuted in military tribunals—the U.S. Supreme Court ruled that's the proper way to handle enemy soldiers captured on a foreign battlefield—and they were executed by the end of August 1942.

It is unacceptable to put this burden on U.S. soldiers. It's a monumental and unacceptable change in American policy. We cannot let enemy soldiers lawyer up at taxpayer expense.

Mr. PRICE of North Carolina. Madam Speaker, I yield 3 minutes to another valued subcommittee colleague, Mr. RUPPERSBERGER of Maryland.

Mr. RUPPERSBERGER. Madam Speaker, I stand in strong support of the Homeland Security Appropriations Conference Report for FY 2010. The security of our Nation is clearly our top priority. And this bill dedicates more money for homeland security when compared to 2009 levels.

Homeland security is not a Democratic or Republican issue. It is USA first—our community, our families, and our country. I want to thank Chairman PRICE and Ranking Member ROGERS, as well as our friends in the Senate, for their bipartisan and bicameral efforts in crafting this conference report. And I'd like to speak about two key issues, two key components in this bill: the Coast Guard and cybersecurity. But before I do that, I have to respond to my friend JOHN CULBERSON's comments. I disagree with his comments.

Number 1, as far as prisoners are concerned, if, in fact, there are prisoners

that are so dangerous that would hurt our country, I would much rather have us control those prisoners. If we need to bring them to the United States of America to try them, I have more confidence in our court system and our prison system than some of the countries they go back to where they could escape and come back and do harm to our citizens. That's step one.

The second thing I disagree with my friend about is the issue about Miranda rights in theater. Now, those of us who have been to Iraq and Afghanistan know that that is not the case. It started when a friend of mine—I am on the Intelligence Committee—another Mr. ROGERS came back and said that he got information that soldiers were having to give Miranda warnings to people, to the enemy. That is not the case. We've had hearings. I've done my own due diligence. That is not what our men and women are required to do. So let's get the facts straight. Let's get the politics off the table, and let's talk about this Homeland Security bill, how it affects and protects our country, our families, and that is very important and relevant.

Now, the Coast Guard. The Coast Guard of the United States of America, since 1790, has been a critical part of our Nation's defenses. They handle everything from water rescues, as an example, in the Baltimore harbor, which I represent, to drug interdictions off our Nation's coast. Since 9/11, the Coast Guard has been asked to do even more. They have stepped up to the plate and kept watch on our Nation's waterways to keep our country safe.

I support the \$8.8 billion for the Coast Guard included in this legislation. This is more than \$275 million above the 2009 level. I am proud to represent the Coast Guard Yard at Curtis Bay in Congress in my district. The yard is in my district near the Port of Baltimore. The men and women of the yard do an excellent job maintaining and repairing the entire Coast Guard fleet.

Now I want to get to the issue of cyber. The second thing, and one of the most important issues that we're dealing with as far as national security, is cyberattacks. I would support \$283 million to address the growing threats to our Nation's networks. Our Nation's networks control much of what we do every day. They power our computers and our cell phones. They power the electrical grid that allows us to turn the lights on and the classified military and intelligence networks that keep our country safe. It's all too easy to use basic Internet hacking techniques to wreak havoc on our Nation's information infrastructure. Imagine if the Bank of America was suddenly cyberattacked.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. PRICE of North Carolina. I yield the gentleman an additional 30 seconds.

Mr. RUPPERSBERGER. Fifty-nine million customers in 150 countries would suddenly be unable to access their accounts, their debit cards or their money, credit cards. It would cripple the economy. Think of what an attack would do to our electrical grid system, our security, our national security.

This threat is real. We must shore up our defenses. We must ensure that the Federal Government, the private sector, and our citizens beef up our cybersecurity efforts. This funding for cybersecurity will be a step in the right direction.

Mr. ROGERS of Kentucky. I yield such time as he may consume to the very distinguished ranking member of the full Appropriations Committee in the House, Mr. LEWIS of California.

Mr. LEWIS of California. Madam Speaker, at the end of the bill, Mr. ROGERS of Kentucky will be presenting a motion to recommit that addresses the issue of detainees at Guantanamo Bay, Cuba. This motion to recommit is very much designed to implement that which was the motion to instruct that so successfully passed the other day. It passed the House by a vote of 258-163, and I presume that the vote will reflect that pattern when we go to the motion to recommit. But first let me thank the gentleman for the time.

Mr. Chairman, in many ways, this conference report represents both the best and the worst of this Chamber's storied history. On the one hand, this conference report typifies the type of work that can result from strong bipartisanship. We are most certainly at our best when our very capable Members work together in the professional manner that we've seen with Chairman PRICE and Ranking Member ROGERS. So I congratulate the two of them for producing what is essentially a very well-balanced piece of legislation that will undoubtedly improve the safety and security of this great Nation.

However, this conference report also represents some of the worst in terms of partisan maneuvering. The language contained in section 552 pertaining to Guantanamo Bay detainees is a result of a last-minute mystery insert by the majority of language that was not in either the House or the Senate bill.

□ 1230

With this language, Chairman OBEY and the Democratic leadership are trying to establish Congress' de facto position on Gitmo detainees. And that position, in my view, is regrettably weak as well as flawed. To permit enemy combatants to come to the United States for the purpose of prosecution is a misguided and is potentially a very dangerous decision. Terrorists should not be treated like common criminals

in the Federal court. These detainees are enemies of the State, and should be treated as such by being held and brought to justice right where they are: in a very well-established judicial facility at Guantanamo.

Both the House and the Senate have cast clear, bipartisan votes over the last 2 weeks that made it very clear where Members and the American people are on this issue. They do not want these terrorists brought to the United States for any reason. It is regrettable that the Democrat leadership's flawed position on Guantanamo Bay detainees casts a shadow over what is otherwise a bipartisan, well-crafted conference report that will provide key resources for our security.

I appreciate the very, very good work of Chairman PRICE and Ranking Member ROGERS on this measure, but take considerable exception to Democrat leadership's insertion on Guantanamo Bay detainees.

Mr. PRICE of North Carolina. Madam Speaker, I would like to yield 2 minutes to one of our hardest working subcommittee members, Mr. FARR of California.

Mr. FARR. Thank you very much, Mr. Chairman, for yielding. I appreciate the opportunity to address the House on the DHS appropriations bill.

I want to just first say at the outset, I am really surprised to hear, kind of shocked to hear, that they are taking an appropriations bill and trying to make it into something that it isn't. We stand here year after year passing these appropriation bills, pointing out that you cannot legislate on an appropriations bill, you cannot make legal policy; it is about spending the money and the ways to spend that money, not on inventing new law.

This bill does not deal with how you treat prisoners in Guantanamo Bay. We ought to get over it and know that it doesn't do that. What this bill does do, though, is address a lot of other issues, one of which is very important to this country. They're talking about how to keep those prisoners out of our jails and out of our prisons. Frankly, there are some States that would love to have the revenue; they know that their court system can handle it. But that's not the emphasis of this bill because what we really are trying to address is the biggest industry of all in this country, which is tourism.

Tourism relies on a lot of people from a lot of countries coming into this country. Just a few weeks ago, the entire House voted for a travel initiative bill to allow the United States to go out and advertise to get more tourists in here, and there wasn't one single vote against it. So we do want to attract these people to spend money and come to our country. And we need the facilities when they come in, the facilities to give them visas when they go down to apply for those visas and certainly when they enter.

And one of the great things about this bill is it sets up the Western Travel Initiative, which essentially appropriates money into 46 of the busiest border ports—these could be airports, harbor ports, the kind of ways in which people come into this country from abroad—to facilitate getting them through all the security and getting them through the customs and so on. That is a very important investment in the biggest industry in this country with the biggest payoff to our local communities.

So I want to point out some of the real positive things in here. This also allows for a tracking of all these visitors through the status indicator technology.

There are a lot of good things in this bill. I urge a "yes" vote on the appropriations bill and a vote against any motion to recommit.

Mr. ROGERS of Kentucky. Madam Speaker, I reserve the balance of my time.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Members are reminded not to traffic the well while another Member is under recognition.

Mr. PRICE of North Carolina. Madam Speaker, may I inquire as to how much time is available on both sides.

The SPEAKER pro tempore. The gentleman from North Carolina has 10½ minutes remaining; the gentleman from Kentucky has 13½ minutes remaining.

Mr. PRICE of North Carolina. Madam Speaker, I would like to yield 2 minutes at this point to the distinguished chairman of the authorizing committee with whom we work very closely, Mr. THOMPSON of Mississippi.

Mr. THOMPSON of Mississippi. Thank you very much, Mr. Chairman.

Madam Speaker, I appreciate the opportunity to speak in support of the conference report on H.R. 2892, the Department of Homeland Security Appropriations Act.

The funding provided in this package would help ensure the Department of Homeland Security, under the leadership of Secretary Janet Napolitano, will have the resources it needs to execute all its missions.

DHS has a lot to do, from deterring, detecting and responding to terrorism to rescuing wayward boaters, to pre-positioning disaster resources. H.R. 2892 gives DHS the \$42.7 billion it needs to fulfill its mission.

With respect to border security, the bill makes significant new investments to enhance border security along the southern and northern borders. I am particularly pleased that the bill provides \$72.6 million to increase personnel and provide new equipment in the Southwest Border Counterdrug Initiative, which dedicates resources to target the flow of guns and bulk cash that fuel border violence.

This bill also provides \$1.5 billion to support targeted, smarter immigration enforcement. These funds will expand critical programs such as Securing the Communities, which identifies and removes the most dangerous and violent criminal aliens on our border.

I support the new resources the legislation appropriates to transportation security, including funds for air cargo and surface transportation security.

Chemical security is another area of critical infrastructure that garnered significant attention in this bill. It provides \$100 million in funding to DHS to support the coordination and management of regulating high-risk chemical facilities and brings the size of the C-FATS regulatory staff to 250.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. PRICE of North Carolina. I yield the gentleman an additional 30 seconds, Madam Speaker.

Mr. THOMPSON of Mississippi. Madam Speaker, in closing, I urge the passage of this important legislation because it makes the necessary investment in security and resilience to protect Americans from future threats and catastrophic incidents, natural or man-made.

Mr. PRICE of North Carolina. Madam Speaker, I reserve.

Mr. ROGERS of Kentucky. Madam Speaker, I yield 2 minutes to a hard-working member of our subcommittee, the gentleman from California (Mr. CALVERT).

Mr. CALVERT. I want to thank the gentleman from Kentucky for his hard work and the diligence that went forth in putting this bill together. However, Madam Speaker, today I cannot vote for this bill unless the motion to recommit passes because of my concern about what is going to happen with these prisoners at Guantanamo.

So I would suggest to all the Members this is a very serious concern to our country. It's a very serious concern to this fight on terrorism throughout the world. And I believe that we should show our unity and vote for the motion to recommit. And if that motion to recommit passes, then I will be happy to vote for this bill, which I think for the most part is a good bill with that exception.

Mr. ROGERS of Kentucky. Madam Speaker, I yield myself the balance of the time.

In closing, I regret that this bipartisan and well-balanced conference report contains permission to bring Guantanamo Bay detainees onto American soil.

At the conclusion of today's general debate, I intend to offer a motion to recommit that will give this Chamber the opportunity to once again voice its will to the conferees just as it did 2 weeks ago by way of a clear and convincing bipartisan vote.

I appreciated your overwhelming vote then, and I ask the Members once

again to register your objection to bringing these enemy combatants, caught in battle with American soldiers, onto America's sacred soil.

The conferees ignored our instructions of 2 weeks ago, which prohibited detainees from being released, transferred, or detained in the United States for any reason, period. My motion today will have the same effect as the language Members voted for then and has the same effect as what the Senate voted for 93-7.

This motion will keep these terrorists off American soil, out of our Federal civilian courts, and in a place that is far more appropriate, given their status as enemy combatants apprehended on a battlefield with American soldiers.

This motion will correct the flaw in the conference report's language and aligns the will of Congress with that of the U.S. Senate as reflected by the strong bipartisan votes on this issue over the last 2 weeks in both bodies of the Congress.

I would hope Members would join me in supporting this motion so that we can further improve and strengthen this critical conference report.

Madam Speaker, I yield back the balance of my time.

Mr. PRICE of North Carolina. Madam Speaker, I yield myself the remainder of our time.

Madam Speaker, I rise once again to urge colleagues to support this carefully worked out conference report. And since no debate is permitted on the motion to recommit, I do wish to say a few words about the motion and strongly urge its rejection.

The motion to recommit would derail \$42.8 billion in Homeland Security investments, investments in critical efforts to protect the American people from the threat of terrorist attacks and natural disasters, and to secure our borders, ports and skies.

The motion to recommit would reopen the compromises made with the Senate that allowed us to provide \$2.5 billion in additional resources for our homeland security efforts.

My colleagues should make no mistake, this motion to recommit will dissolve our conference and kill the bill. Now, that should be reason enough for voting against the motion, but let me talk about the substance of the motion as well, because I do want to make certain that Members understand what we're dealing with.

The motion to recommit would dismantle the agreement that we on the majority side had with the minority in our full committee, which was passed by a large bipartisan vote in the House as a whole. In listening to our colleagues debate today, you would hardly understand that. But as a matter of fact, they readily agreed, eagerly agreed, in the markup in the Appropriations Committee that of course

there should be an exception for bringing detainees to this country for prosecution if that was determined to be the best way of dealing with their case. I think it's fair to say that no matter what President was in the White House, he or she would insist on this flexibility, and we should insist on it for them.

This motion to recommit would guarantee, I'm afraid, no progress in resolving the status of detainees for a year. It goes against the basic American principles of due process and access to a fair trial. It goes against America's basic interests as well, the interest in closing down Guantanamo—and that, I remind colleagues, is an objective articulated by President Bush as well as by President Obama—our interest in closing down Guantanamo and in bringing related cases to an orderly conclusion.

The motion to recommit unreasonably and unwisely exalts these detained individuals above the most savage prisoners in the U.S., saying we just can't handle them, we just can't handle these dangerous people in our court system. This, I would say, emboldens the terrorists, perhaps even helps their recruiting efforts. We have tried, convicted, and punished people who are the worst of the worst in this country repeatedly, and we can do so again.

Similar provisions, Madam Speaker, were rejected by this body just last week in a motion to recommit the Defense authorization bill, and they should be rejected today.

Now, we heard a lot of arguments today about "Mirandizing" prisoners and reading them their rights on the battlefield. That is a red herring, unrelated to this bill. Legal protections are a matter for the courts; they are a matter for other committees in this body. Our conference report does not reach these matters.

□ 1245

We have assurances, as a matter of fact, from General Petraeus that U.S. military forces are not and will not Mirandize detainees. The Department of Justice has said there has been no policy change nor blanket instruction issued for FBI agents to Mirandize detainees overseas. There have been specific cases in which FBI agents have done this at Bagram and in other situations in order to preserve the quality of some evidence, but there has been no overall policy change.

In fact, the whole issue of Mirandizing terrorists on the field of battle shows a lack of understanding of what "Miranda rights" are. Miranda warnings are given prior to interrogation for collecting evidence from a suspect in a crime. They are a protection against a suspect's making self-incriminating statements. They are not a part of arrest or detention procedures.

The courts have held that they do not prevent questioning about identity and that they do not apply in cases where public safety is threatened, such as on the field of battle or at the site of a terrorist attack. We don't interrogate on the field of battle. It's a red herring.

By the way, we're also not reaching the question of the future of military tribunals, but the ranking member's motion to recommit would very definitely shut off access to U.S. courts. We need to ask ourselves whether that is something we want to do in cases where that may be the most appropriate venue for prosecution.

My colleague seems to think that three convictions by military tribunals in the entire period of their existence is an impressive record. One of those was by a guilty plea. It's not an impressive record. By contrast, a recent analysis of the 119 terrorism cases involving 289 defendants tried over the last 20 years in U.S. courts shows a 91 percent conviction rate for the cases that had been resolved as of June 2.

Is that an option that we simply summarily want to close off?

I've already indicated, Madam Speaker—and I won't repeat—the layered protections that our bill contains with respect to the movement of detainees, the transparency it requires and the accountability it enforces. This bill contains multiple protections, and I stress again that they're based on an earlier bipartisan consensus. They reflect not just the wording in our bill but the language in several of the appropriations bills.

This move today to recommit this bill makes me wonder just how much our colleagues have really meant it when they have urged us to consider this bill quickly and to act with dispatch. We heard this through much of September.

The Guantanamo provisions that they asked for were included in the bill. We brought the bill with those provisions intact from the conference. They've been clamoring for weeks to get this bill to the floor, to pass it as a free-standing bill. But all of a sudden as the conference proceeded, again they cried, "Stop."

Now they're objecting to provisions that they, themselves, endorsed in the Appropriations Committee and on the House floor. They're objecting to our good faith safeguards on the movement of detainees to other countries and to the transparency requirements. They're simply saying, "Stop." Once again, "Stop."

Well, we can't afford to stop, Madam Speaker. We're already into the fiscal year. We have no reason to stop, and we cannot afford to stop. We will not hold up the \$1.5 billion in this conference report to identify and to remove illegal aliens who have been convicted of crimes. We will not delay \$800 million to secure our borders. We will

not delay \$4.2 billion for Homeland Security grants to ensure our first-responder community is well-prepared to meet all hazards. We will not delay funding for our Coast Guard, for our Secret Service, for disaster assistance, or for cybersecurity.

We will, in fact, pass this bill today. We've worked with our colleagues. We've debated the priorities. We've operated in good faith. We've accommodated interests by Members throughout this body. Now it is time to get on with it, to get past the political games, to get past the "gotcha" amendments and motions, and to fund Homeland Security. This body has a responsibility to legislate. Let's get the job done.

I urge my colleagues to vote "no" on this motion to recommit and to vote enthusiastically for this conference report.

Mr. SMITH of Texas. Madam Speaker, I plan to support the conference to H.R. 2892; however, I have serious concerns about some of the language in the conference report.

Specifically, the conference report directs the Secretary of Homeland Security to "prioritize the identification and removal of aliens convicted of a crime by the severity of that crime."

If an individual is in this country illegally, they should be deported. We shouldn't wait for them to commit a crime before we remove them from the country.

Unfortunately, across the United States, illegal immigrant criminals are being released onto the streets and into our neighborhoods every day instead of being deported. In 2006, the DHS Inspector General found that most of the foreign-born criminal aliens in state and local jails "are being released into the U.S. at the conclusion of their respective sentences due to the lack of [DHS] resources."

In January 2007, 22-year-old Nashville, Tennessee, resident Joycelyn Gardiner was killed by illegal immigrant Victor Benitez who was driving drunk, ran a red light and hit Gardiner. Ms. Gardiner was a track star at Tennessee State University and planned to go to law school after graduation. Benitez had prior convictions for car burglary, public intoxication, and resisting arrest.

Are burglary, public intoxication, and resisting arrest convictions considered severe enough to warrant deportation under this conference report? Had Benitez been detected by immigration authorities before committing even his first few crimes, wouldn't it have been better to deport him based solely on his immigration violations then?

American taxpayers deserve to be protected. They deserve to have those of us in Congress do everything possible to prevent them from becoming victims. And they deserve to have the laws of the United States followed by the enforcement wing of our government.

This misguided prioritization is not the only concern I have with the conference report to H.R. 2892.

The Senate bill provisions that made E-Verify permanent allowed employers to use it to check the work eligibility of current employees, required over 700 miles of pedestrian

fencing along the southwest border and prevented funding from being used to rescind the "no-match" rule should have been retained in the conference report.

And some of the reports required by the conference report could be attempts to slow implementation of REAL ID and the deportation of illegal immigrants. Yet another report should have required a validation of the success of use of Alternatives to Detention prior to nationwide use of such alternatives.

So I am troubled by several provisions of the bill. However I appreciate the inclusion of the 3-year extensions of the E-Verify, religious worker visa, EB-5 Investor Visa Regional Center and Conrad J-1 Physicians' Waiver programs. These are good immigration programs that should be extended.

Mr. CALVERT. Madam Speaker, I would like to thank Chairman PRICE and Ranking Member ROGERS, and their staff, for crafting a very thoughtful Fiscal Year 2010 Homeland Security Appropriations bill. I especially appreciate the recognition of the Air and Marine Operations Center, also known as AMOC, which is located in my congressional district. AMOC has become the foremost aviation-oriented law enforcement operations and coordination center in the U.S. It plays an integral role in protecting us from attack and from human, drug and gun smuggling across our borders.

However, I was disappointed that the extension of E-Verify was reduced from the Senate language which would have provided for a permanent reauthorization of E-Verify. The House overwhelmingly passed a 5-year reauthorization last year and I think the American people would support a permanent reauthorization of E-Verify.

I would also like to commend Ranking Member ROGERS for his work on language pertaining to the closing of Guantanamo Bay.

While the bill prohibits the release of detainees into the U.S., the report does not go far enough to prevent prisoners from being transferred to or detained on U.S. soil. I maintain that the President must provide a disposition plan which includes a risk assessment for each of the detainees and the danger they pose to the American people as well as to the national security of the United States. The requirement to have the administration report to Congress on these matters is similar to that of my bill, H.R. 1069, which I introduced on February 13 in response to the administration's January announcement that it would close the detention facility in Guantanamo Bay.

In closing, I would like to reiterate my support for the conference report but with strong reservations about the majority's actions that has severely restricted amendments and has shut down a once open appropriations process.

Ms. HARMAN. Madam Speaker, eight years after 9/11, there remains a very real, very serious threat of another attack on U.S. soil. The recent series of arrests—in Dallas, Chicago, Denver and New York City—underscores the need for continued resolve. The safety of the American people relies upon multiple layers of security—from intelligence to local police to the technologies that help us identify potential threats. Our duty as lawmakers is to ensure that all of these pieces are properly in place and constantly reevaluated.

A New York Times report this week highlighted a gaping hole in one of these layers—we still have no system in place to verify whether foreign visitors have left this country. Congress and DHS have known about this hole. In March, Secretary Napolitano joined me for a tour of one of the nation's top airport terror targets: Los Angeles International Airport, part of which is in my Congressional District. We walked through customs to observe the collection of foreign visitors' fingerprints upon entry and I pointed out the absence of an exit program. Secretary Napolitano committed her Department to addressing this issue in a timely fashion.

Work is already underway. DHS just completed a pilot project to test exit systems and will soon release a report on their findings. This bill provides \$50 million to put an air exit system in place. It is imperative that DHS do so.

By collecting fingerprints when foreign passengers exit, we can match them with those collected upon entry and cross-check them with a range of databases—from the State Department to the FBI. This isn't just data for the sake of data. It builds situational awareness and makes it easier for terrorism investigators to connect the "dots." This kind of capability is a vital tool in the ongoing struggle to prevent the next attack on American soil.

It's true that our intelligence and law enforcement agencies successfully thwarted recent plots, but that's no guarantee that they'll detect the next plot. A biometric system will provide them with better information that can more quickly identify potential threats. Four of the 9/11 hijackers overstayed their visas. It is exactly this type of thing that exit data will help us detect.

I would also like to thank the Conferees for including a 1-year waiver of the port security grant matching requirement. Since 2006, the SAFE Port Act has provided hundreds of millions of dollars to secure U.S. ports. But tough financial times—and a decline in shipping—have made it difficult for ports to meet the 25 percent cost-sharing requirement. Officials at the Ports of Los Angeles and Long Beach have repeatedly told me just how burdensome the requirement is. It creates a disincentive for ports to apply for grants, without which fund vital efforts to mitigate threats cannot be funded.

Mr. HOLT. Madam Speaker, I rise in support of this bill.

The Department of Homeland Security Appropriations Act for 2010 continues to fund a series of important public safety and disaster preparedness initiatives. To help us better protect our borders, the bill provides \$3.587 billion, \$86 million above 2009, to fully support 20,163 Border Patrol agents—which has expanded by 6,000 since 2006. The bill also provides \$373.7 million, \$73.7 million above 2009, for the US-VISIT program. US-VISIT uses biometrics to track the entry of visitors to the United States. The bill directs that a total of \$50 million be used to implement a biometric air exit capability so that we can determine if individuals have overstayed their visas.

Ensuring that 100 percent of air cargo is screened for explosives is essential to our efforts to thwart future terrorist attacks. To that end, the bill provides \$122.8 million, including

\$3.5 million above the budget request for 50 additional inspectors to ensure compliance with the 100 percent screening mandate set for August 2010 in the 9/11 Act. Regarding rail security, the bill builds on my previous work by providing \$300 million to protect critical transit infrastructure, including freight rail, Amtrak and ferry systems in high-threat areas. I remain very concerned that Amtrak in particular has been extremely slow to make the kind of security upgrades that are necessary to make the system less vulnerable to the kinds of attacks that killed so many in Madrid, London, and Mumbai over the last 5 years, and I will continue to press Amtrak officials to quickly implement security improvements for the system.

I am also pleased that some key needs in my district are being met in this bill. The Township of Old Bridge will receive \$500,000 to upgrade its emergency communications system, and the City of Trenton will receive \$300,000 to help protect its water filtration plant from periodic Delaware River floods. Even as we take measures to protect our country and communities from potential terrorist attacks, it's important to remember that the most common calamities that strike our towns come from nature and other sources. We must ensure that our communities are prepared to meet the full range of threats they may face.

I am disappointed that this bill allows the Secretary of Defense to withhold indefinitely from public release photographs of potential detainee abuse by U.S. government personnel. The assumption underlying this provision is that the release of the photographs would lead to increased violence against U.S. government personnel (civilian and military) overseas in the Middle East and southwest Asia. I would respectfully submit that our repeated mistargeting of civilians in Afghanistan and Pakistan, along with our continuing and expanding military presence in Afghanistan, provide our enemies with far better recruiting tools than the photographs in question might ever provide.

I regret that the conferees did not direct the Attorney General to review the photos to determine if any do in fact show evidence of violations of either domestic or international law with respect to the treatment of detainees. Using one law to shield from disclosure information that might be prosecutable under another law undermines the very foundation of our legal system and sends a clear signal to the world that we will cast aside our obligations under international law if it is politically expedient for us to do so. The best way we can protect our soldiers and civilians working overseas is to show that we will not tolerate the abuse of other human beings in our custody and that we will not hide our complicity in such acts behind politically expedient legal contortions.

Despite this serious flaw in the bill, I will support it and urge my colleagues to do likewise.

Mr. VAN HOLLEN. Madam Speaker, I stand in support of H.R. 2892, the Homeland Security Appropriations Act of 2010. This conference report represents Congress' commitment to partnering with State and local authorities to meet the homeland security challenges of the nation.

State and local emergency managers and first responders are the country's front line defense in times of crisis. Whenever ordinary Americans find themselves in harm's way, State and local authorities are often first on the scene. Not only does the bill provide almost \$4 billion for grants to assist State and local governments with emergency planning and equipment, the bill provides an additional \$3.9 billion in grants for high-risk urban areas like the National Capital region for mass transit security, and fire and rescue programs. This conference report recognizes State and local governments as full and equal partners in the effort to protect American citizens by helping ensure that they have the tools they need to get the job done.

The bill also provides important support for key elements of the domestic and international transportation, maritime and cyber security defenses of the country. The bill contains funding to update and maintain airport baggage handling and electronic cargo inspection systems in the Nation's air and sea ports; the bill helps protect Americans and American ships abroad with funding for U.S. Coast Guard operations; and the bill includes \$397 million in funding for cyber security efforts to protect the nation's cyber infrastructure against unauthorized access.

Americans turn to first responders and emergency managers for help in a crisis. This bill helps ensure that the resources are there when they are needed. I encourage my colleagues to join me in support of the 2010 Homeland Security Appropriations Act.

Mr. LOEBACK. Madam Speaker, in 2008, the State of Iowa experienced the worst natural disaster in our state's history which left 85 of 99 total counties presidentially declared disaster areas. This flooding particularly devastated the City of Cedar Rapids. In addition to having nearly all of their critical government and public facilities damaged, the flooding also severely damaged the city's main public library.

The Cedar Rapids Library was an 83,961 square foot facility, owned by the city which also housed city staff. The main library contained 150,000 volumes in the Adult Collection and 100,000 volumes in the Children's Collections, all of which are currently displaced.

After two appeals from the city, FEMA continues to state that the city's library is not eligible for temporary relocation assistance despite the fact that the Stafford Act provides for "provision of temporary facilities for schools and other essential community services." The Stafford Act also includes libraries in the definition of private nonprofit facilities and states that they provide essential services of a governmental nature to the general public.

As a former educator myself, I know the critical role libraries play in education. Since the floods of 2008, I have also seen the essential public services they provide to nearly all aspects of severely damaged communities.

In fact, FEMA itself directs disaster victims to their local library to use the internet to apply for federal disaster assistance. Public libraries also allow citizens to look for jobs, or seek other support services needed in the aftermath of disasters such as the flooding in Iowa. Libraries have certainly evolved to become more than collections of books and periodicals.

In modern-day communities, they are a vital communication hub, providing access to computers and the internet for individuals that may not be able to afford their own, and in a disaster, to those whose own property was damaged or destroyed. Further, the library is a partner with our school systems, providing research materials to students and supporting class instructional programs.

Many libraries also become a disaster recovery center for their community, and a point of distribution for meals and supplies needed during a disaster.

I urge FEMA to reconsider their internal policies and reexamine how libraries are defined in the Stafford Act in order to assist not only the Cedar Rapids Library, but other libraries that may be damaged and displaced by natural disasters in the future.

Ms. MCCOLLUM. Madam Speaker, I rise to oppose this Republican Motion to Instruct Conferees on the Fiscal Year 2010 Department of Homeland Security Appropriations Act, H.R. 2010.

This Republican motion is nothing more than a political stunt that would delay Congressional action on this important bill that funds the Department of Homeland Security. This agency's ability to operate is crucial in keeping our borders and waters safe, preventing terrorism, and responding to natural disasters.

Furthermore, this is another example of a Republican proposal that blatantly disregards the Constitution. If enacted, it would undermine the principles of due process and a fair trial, both of which are American ideals we hold dear.

For these reasons, I urge a "no" vote.

The SPEAKER pro tempore. The gentleman's time has expired.

Pursuant to House Resolution 829, the previous question is ordered on the conference report.

#### MOTION TO RECOMMIT

Mr. ROGERS of Kentucky. Madam Speaker, I have a motion at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. ROGERS of Kentucky. I am in its current form.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. ROGERS of Kentucky moves to recommit the conference report accompanying the bill H.R. 2892 to the committee of conference with instructions to the managers on the part of the House to not agree to any language allowing a detainee held at Guantanamo Bay, Cuba to be brought to the United States for prosecution or incarceration.

The SPEAKER pro tempore. Without objection, the previous question is ordered on the motion to recommit.

There was no objection.

The SPEAKER pro tempore. The question is on the motion to recommit.

The question was taken; and the Speaker pro tempore announced that the yeas appeared to have it.

Mr. ROGERS of Kentucky. Madam Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to recommit will be followed by 5-minute votes on adoption of the conference report; and motion to suspend the rules on H.R. 2423.

The vote was taken by electronic device, and there were—yeas 193, nays 224, not voting 15, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining in this vote.

□ 1314

Messrs. RUSH, GENE GREEN of Texas, SCOTT of Georgia, WU, COURTNEY, HINCHEY, Ms. SUTTON, Ms. MOORE of Wisconsin and Ms. CLARKE changed their vote from “yea” to “nay.”

Messrs. COFFMAN, TERRY, CAMP, WALDEN, ROSKAM and CANTOR changed their vote from “nay” to “yea.”

So the motion to recommit was rejected.

The result of the vote was announced as above recorded.

Stated for:

Mr. MINNICK. Madam Speaker, on rollcall No. 783, I was caught in traffic returning from a lunch at I and 18th Street, NW. Had I been present, I would have voted “yea.”

The SPEAKER pro tempore. The question is on the conference report.

Pursuant to clause 10 of rule XX, the yeas and nays are ordered.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 307, nays 114, not voting 11, as follows:

[Roll No. 784]

Mr. BOOZMAN changed his vote from “yea” to “nay.”

So the conference report was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

# GEORGE P. KAZEN FEDERAL BUILDING AND UNITED STATES COURTHOUSE

The SPEAKER pro tempore. The unfinished business is the vote on the motion to suspend the rules and pass the bill, H.R. 2423, as amended, on which the yeas and nays were ordered.

The Clerk read the title of the bill.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Hawaii (Ms. HIRONO) that the House suspend the rules and pass the bill, H.R. 2423, as amended.

This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 421, nays 0, not voting 11, as follows:

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining on this vote.

□ 1329

So (two-thirds being in the affirmative) the rules were suspended and the bill, as amended, was passed.

The result of the vote was announced as above recorded.

The title was amended so as to read: "A bill to designate the Federal building and United States courthouse located at 1300 Victoria Street in Laredo, Texas, as the 'George P. Kazen Federal Building and United States Courthouse'."

A motion to reconsider was laid on the table.

**PROVIDING FOR CONSIDERATION OF H.R. 2442, BAY AREA REGIONAL WATER RECYCLING PROGRAM EXPANSION ACT OF 2009**

Ms. MATSUI. Madam Speaker, by direction of the Committee on Rules, I call up House Resolution 830 and ask for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 830

*Resolved*, That upon the adoption of this resolution it shall be in order to consider in the House the bill (H.R. 2442) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes. All points of order against consideration of the bill are waived except those arising under clause 9 or 10 of rule XXI. The amendment printed in the report of the Committee on Rules accompanying this resolution shall be considered as adopted. The bill, as amended, shall be considered as read. All points of order against provisions in the bill, as amended, are waived. The previous question shall be considered as ordered on the bill, as amended, to final passage without intervening motion except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Natural Resources; and (2) one motion to recommit with or without instructions.

The SPEAKER pro tempore. The gentlewoman from California is recognized for 1 hour.

Ms. MATSUI. For the purpose of debate only, I yield the customary 30 minutes to the gentleman from Florida, my friend, Mr. DIAZ-BALART. All time yielded during consideration of the rule is for debate only.

I yield myself such time as I may consume.

**GENERAL LEAVE**

Ms. MATSUI. I also ask unanimous consent that all Members be given 5 legislative days in which to revise and extend their remarks on House Resolution 830.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from California?

There was no objection.

Ms. MATSUI. Madam Speaker, H. Res. 830 provides for consideration of H.R. 2442, the Bay Area Regional Water Recycling Program Expansion Act of 2009.

□ 1330

The rule provides 1 hour of general debate, controlled by the Committee on Natural Resources. The rule makes two small changes clarifying the fund-

ing in the bill is subject to appropriations and making a purely technical correction to the section numbering in the bill. The rule also provides one motion to recommit with or without instructions.

Madam Speaker, I first want to thank Chairman MILLER and Chairman STARK, as well as Representatives ESHOO, HONDA, WOOLSEY, MCNERNEY, LOFGREN, NAPOLITANO, and SPEIER, for their work on this bill and efforts to address the Bay Area waters' needs.

I also commend Senators FEINSTEIN and BOXER for introducing identical legislation in the Senate and their leadership on this issue.

As the elected Representative from Sacramento, and as a farmer's daughter from the Central Valley, I understand that water is critical to our State's economy and our way of life. After 3 years of drought, pumping restrictions and lost jobs from the valley to the coast, there is no doubt that improving the capability of water recycling will help address these problems and lessen the burden on the bay-delta ecosystem.

While recycling is not the only way to meet the Bay Area and California's water requirements, it must be part of our comprehensive solution. Effective water use will help keep California's agricultural water economy strong and the delta healthy, and ensure that the needs of northern California businesses, farmers and residents are not ignored.

Under the Title 16 water recycling program, H.R. 2442, would authorize six additional water recycling projects for the Bay Area that would provide 7.2 million gallons of water daily and serve more than 24,000 households. Collectively, these projects will save 2.6 billion gallons of water per year in the region, offering a new water supply of treated wastewater for industrial and irrigation use.

Specifically, the Bay Area Regional Water Recycling Program Expansion Act would authorize \$38 million in Federal assistance under the Interior Department's Bureau of Reclamation for the design, planning, and construction of these new water projects. It would also expand the authorization for two existing projects.

H.R. 2442 would stipulate that the Federal share of the cost of the projects not exceed 25 percent of the total cost and bars the Department from funding operation or maintenance of the projects. It is important to note that this legislation has been endorsed by the Association of California Water Agencies, commonly called ACWA, which includes every major agricultural and urban water agency in the State and represents the largest coalition of public water agencies nationwide.

Additionally, the WaterReuse Foundation, which serves more than 180

public water agencies, cities and major engineering and technology firms, has urged that we move expeditiously on the bill. These groups understand that no one wins when these kinds of local projects are held hostage because of disputes over the operation of Federal water projects.

We all know that there are some serious concerns about the water crisis in California. I was back home in my district over the weekend, Madam Speaker, and everyone at home was talking about a water deal trying to be negotiated by the legislature and the Governor.

From local and State levels all the way here to Washington, there are a number of different ideas about how to address our water issues in California. Some of them I prefer more than others, and some of them are preferred more than others by my colleagues on the other side of the aisle.

But one thing is for sure: limiting our State's water supply by holding up recycling projects like those in this bill will not solve anything. In fact, it will only prolong our collective efforts to seek solutions to California's water problems.

For these reasons, I strongly support the rule and the underlying legislation, and I urge my colleagues to do the same.

Madam Speaker, again, I want to thank Mr. MILLER and the committee for their work on this bill.

I reserve the balance of my time.

Mr. LINCOLN DIAZ-BALART of Florida. I would like to thank my friend, the gentlewoman from California (Ms. MATSUI), for the time.

I yield myself such time as I may consume.

Madam Speaker, the House considered, under suspension of the rules, H.R. 2442, the Bay Area Regional Water Recycling Program Expansion Act of 2009. But the bill failed to get the necessary two-thirds to pass.

The reason that bill failed was not because Members objected to the substance of the legislation, but because the majority leadership brought forth the underlying legislation that provides water projects for the San Francisco area for consideration by the House while blocking the House from debating the desperate need for water in another part of California, the San Joaquin Valley.

On numerous occasions, my colleague from California, Mr. DEVIN NUNES, has submitted amendments to the Rules Committee so that those amendments could be debated and voted on by the full House. His amendments would restrict the implementation of the December 15, 2008, biological opinion issued by the U.S. Fish and Wildlife Service and the June 4, 2009, biological opinion issued by the National Marine Fisheries Service. However, the majority on the Rules Committee routinely

blocked consideration of the amendments, twice on the Interior appropriations bill and three times on the Energy and Water appropriations bill.

The reason Mr. NUNES has so steadfastly sought to have the House debate the restriction on those two opinions is that they have diverted water from the San Joaquin Valley, practically turning that area into a dust bowl.

Madam Speaker, why should Congress be concerned with what may look like a simple water issue? The valley is home to a \$20 billion crop industry, and the region produces more in agricultural sales than any other State in the country. It can be argued that no agricultural area in the country is more productive and is, therefore, more important to our Nation's food security. If we continue to allow the diversion of water from the valley, food prices are going to increase; and we are also going to put our food security, national security in jeopardy.

According to a recent University of California Davis study, the water reductions have led to revenue losses of over \$2 billion, and this year will lead to 80,000 jobs lost. The area now has an unemployment rate of about 20 percent. Some of its communities have an unemployment rate of nearly 40 percent.

Today, the majority comes to the floor with a rule that the House will once again consider the Bay Area Regional Water Recycling Program Expansion Act without giving the House the opportunity to consider amendments, including those proposed by Mr. NUNES. That is most unfortunate.

It is time that the House be given the opportunity to debate the San Joaquin Valley water issue.

I reserve the balance of my time.

Ms. MATSUI. Madam Speaker, I yield 2 minutes to the gentlewoman from California, a member of the Natural Resources Committee, Mrs. NAPOLITANO.

Mrs. NAPOLITANO. Thank you, Ms. MATSUI.

Madam Speaker, I rise today in strong support of H.R. 2442, the Bay Area Regional Water Recycling Program Expansion Act of 2009. The bill has received extensive review and bipartisan approval from the Subcommittee of Water and Power and was reported on a bipartisan basis favorably from the Natural Resources Committee.

I listened to my colleague, as I am also a Californian, I listened to my colleague on the other side, Mr. DIAZ-BALART, talk about the billions of dollars. Yes, there is a great need of assistance to the Central Valley, but it's not all the San Joaquin.

The fact that the dam is wanting to be pushed forth, I agree. We need additional storage, but right now you need immediate results and water recycling is one of the tools that you need.

H.R. 2442 provides new water to the Bay Area in California. The recycling projects authorized will provide, as Ms. MATSUI pointed out, 2.6 billion gallons of water annually, enough to meet the needs of 24,000 families. Why do we stand against water for other areas? All of us need additional water in California.

Water is life. As we all are very well aware, the drought in California has taken a terrible toll on jobs all over the State, the economy and the environment of the Central Valley in California in particular. At a time when our Nation needs leadership and options to meet our water requirements, H.R. 2442 provides a tool to create more water for the Bay Area and, in the process, reduce the amount of water imported from the Sacramento and delta area.

This bill, and the projects it authorizes, will immediately address California's water crisis through local action and provide economic relief through job creation. It will not solve California's water crisis, as Ms. MATSUI pointed out. However, it does provide a valuable and important tool.

The SPEAKER pro tempore. The time of the gentlewoman has expired.

Ms. MATSUI. I yield the gentlewoman an additional 30 seconds.

Mrs. NAPOLITANO. It does provide a valuable and important tool to stretch the existing water supply and address the critical water issues of our State. I urge strongly a "yes" vote and encourage all Members to support this legislation. Water for our Nation is critical for all of our citizens and we, as legislative leaders, have to provide for solutions.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, I yield 3 minutes to my friend from California (Mr. NUNES).

Mr. NUNES. I thank my good friend from Florida.

Madam Speaker, this water crisis has been created by the government. This bill that's on the floor today provides water for San Francisco. I would love for San Francisco to have water.

But in the grand scheme of things, this is a 2-billion gallon project. We are losing 200 billion gallons out to the ocean because we simply won't let the pumps run at historical levels.

This is a closed rule. It never should have been a closed rule, and we need to find out why is it that the majority keeps closing down these rules.

□ 1345

I think we may be getting close to the answer if we look back at a few things that were said a couple weeks ago at a public event at the Department of Interior. The distinguished chairman, who is the sponsor of the bill, the distinguished chairman of the Education Committee, took credit for the lawsuits that turned the pumps off.

I was not quite sure which lawsuits he had brought forward, but he said, I don't think I have lost many lawsuits in court over the last 10 or 15 years.

Now, I did some research. I wasn't sure what lawsuits the distinguished chairman had brought forward. So it made me believe, well, maybe there is some coordination going on between the left-wing radicals and the fringe environmental movement, and how is that being coordinated from this body. These are questions that we need to know about.

So the shocking admission of coordination between the Democrats in the House and radical environmentalists deserves our attention, and I want to ask a few questions that I hope can be answered at some point by some committee in this Congress.

The first is, how much money is going to fund these organizations? Several billion dollars have been paid out to these fringe environmental groups that continue to bring these lawsuits forward, taxpayer dollars funding shutting off water to people.

Another question that needs to be answered: the bureaucrats at the government agencies, such as the National Marine Fisheries Service, are they involved? Have these radical groups been coordinating with the scientists and biologists over at the National Marine Fisheries Service? Because nobody in their right mind would say that these pumps are resulting in the death of killer whales. It is not believable.

Another question we need to figure out is the water czar that the Department of Interior has appointed, that President Obama has appointed, has been active with these special interests in the past at the highest levels. He has served on their boards, and he has given them money. Are there more people at Interior that are involved with these biologists that are coming up with these plans and helping these environmental groups bring these lawsuits that the taxpayers are paying for?

This is a closed rule. It is a California water issue here, to provide water for San Francisco; yet we can't even debate or have an amendment to provide water to the bulk of California.

So we need to get to the bottom of this. Hopefully we will turn down this rule, vote it down, so that we can allow the real issues to be debated.

Vote "no" on this resolution.

Ms. MATSUI. Madam Speaker, before I yield to the next speaker, I just want to say that I know that my colleague on the other side of the aisle is upset because his amendment that was offered in the Rules Committee was not allowed on the floor. The fact is his amendment was not germane to the underlying bill and not related to water recycling.

Blaming the Endangered Species Act by waiving it for 2 years to prevent implementation of certain biological

opinions will not put his constituents back to work. More importantly, such an initiative would not turn on the water pumps for the Central Valley.

To address the drought—the real cause of the water shortage in the region and the State—we must work collectively toward a solution.

Madam Speaker, I yield 2 minutes to the gentleman from California (Mr. COSTA).

Mr. COSTA. I thank my colleague.

Madam Speaker, I rise today to oppose H.R. 2442, the rule that we are speaking on, the Bay Area Regional Water Recycling Program Expansion Act of 2009. While this measure by Congressman MILLER has merit, there are plenty of meritorious water projects and bills that we have repeatedly tried to bring to the floor to help those of us where the drought is most expansive in the San Joaquin Valley, and unfortunately, they have been ignored.

Unfortunately, yesterday I learned that H.R. 2442 was reported out of the Rules Committee with a closed rule, and therefore, no amendments would be allowed. I oppose this rule because we need every opportunity to offer amendments and to vote on legislation that will bring water to our farmers, our farmworkers, our farm communities, and our valley in the middle of this drought crisis.

My district is ground zero for this crisis. Towns from Mendota to Delano have 35 percent and more unemployment. There is no water, there is no jobs, there is no money for our farms and farmworkers to put food on their tables. Can you imagine what it would be like if you lived in a community where a third or more of your citizens had no jobs?

In the 1990s, I was working with many of those water districts, farmers, and urban and environmental groups to pass legislation that would help fix California's broken water system. Unfortunately, we made little progress.

We tried to establish a water ethos that we would all get healthy together again. Clearly, we are not getting healthy in the valley. Our valley agriculture provides half the Nation's fruits and vegetables, and they are withering and dying out. Millions of acre-feet of water have been diverted from the valley, and unfortunately, the fisheries are not improving.

It is incumbent upon this body to come together and help us fix this problem. If we expect to get healthy again, we must secure a sustainable water supply for every region of California, and for Congressmen CARDOZA, RADANOVICH and myself, that begins with the San Joaquin valley.

Let us start anew. Let us start with leadership focusing on addressing California's water crisis in the valley and not shying away from this crisis.

Congressman CARDOZA agrees with my statement.

Mr. LINCOLN DIAZ-BALART of Florida. Madam Speaker, I yield 3 minutes to my friend from California (Mr. CAMPBELL).

Mr. CAMPBELL. I thank the gentleman for yielding.

You know, I am a native Californian, born in Los Angeles. In fact, I am a fourth-generation Californian. My family was a Gold Rush family in 1849. If you look back in the history of California for those 160 years, it has always been about water, where there is water. Where we could get water in California there are jobs, there is growth, there is prosperity, there is opportunity. When we didn't bring water to places in California, we didn't have those things.

So this debate we are having now is not new for our State, but it is important for our State, and I understand why my colleagues from the Bay Area want this recycling program. As has been mentioned, that is not really the issue here.

As my colleague Mr. MILLER and I have discussed, in Orange County, where I come from, we have some of the world's leading recycling programs. They work, they are effective, and we ought to do more of them in other places. But what we are talking about here is that there are other places where we need water in California.

Now, I don't represent the Central Valley, but the Central Valley is the breadbasket of California, arguably of the country. There are jobs disappearing and there are businesses disappearing and there are farms disappearing, because of a man-made water crisis. It is not because of a drought. It is not because the water isn't available. It is because we won't turn on some pumps 12 months a year to provide the water to those farmers so they can grow food for us and for the world, to create jobs, and to feed Americans and generate export for our economy. The water provided by those pumps, 25 percent of the water in southern California and the L.A. area also comes from the Sacramento River Delta where those pumps come from.

The travesty of this bill is not what is in it; it is what is not in it. And what could have been in it is the opportunity to turn on those pumps, which have been 12 months a year for over 50 years.

It is not like this is a new idea or new environment. It is to get that water for San Francisco, and that is great. But let's get water for the Central Valley and the farmers in California, and let's get water for southern California as well. Let's not just deal with one part of the State. Let's deal with the whole State.

So, Madam Speaker, I would ask that we reject this rule because of what it doesn't have. Let's give the Central Valley a chance. We need jobs. We need economic activity. Turn those pumps on. Turn this rule down.

Ms. MATSUI. Madam Speaker, I yield 4 minutes to the gentleman from

California (Mr. GEORGE MILLER), the sponsor of this legislation.

Mr. GEORGE MILLER of California. Madam Speaker, I rise in strong support of the rule and the underlying legislation, and I want to thank Ms. MATSUI, Ms. SLAUGHTER, and the entire Rules Committee for their support.

Today's bill responds to a request for assistance from the State of California and local water managers to expand the supply of water in our drought-stricken State. It does no more than that. It is good for our economy. This bill will create thousands of jobs. It will reduce the stress on our oversubscribed fresh water system. This bill expands the water supply of six Bay Area communities, including my own congressional district.

This bill authorizes additional water recycling through the successful Bureau of Reclamation's title XVI program. Title XVI allows local water managers to treat wastewater and use the clean recycled water for other purposes within their jurisdiction. This bill would add 7.2 million gallons of water per day to California's water supply, enough water to meet the needs of 24,000 households.

My bill is one of a series of water recycling bills that have been approved by the House this year and in recent years to expand the water supply in Republican and Democratic districts alike throughout the West and the Southwest. They have been passed without controversy, without amendment, without debate on the larger California water policy needs.

This year alone the House has passed by voice vote and overwhelming majorities five local water bills the same as this legislation to provide for this recycling and this reuse. Why has the House done that? Because across the State of California, the water users in that State recognize the extent to which we can recycle and reuse water. We take immediate pressure off of the entire California water system, both the Federal system and the State system.

This is an investment in which there is unanimity that it must be made. When you talk about doing this, you are talking about helping the Central Valley, because you release the pressure. When you do this, you are talking about helping the Delta.

Clearly the cities, the agencies in southern California, believe this is important to their future. That is why the cities have put up the money to match the Federal effort. That is why my colleagues from both sides of the aisle have come forward and asked for this legislation. That is why they have been approved overwhelmingly on a unanimous bipartisan basis, because they are critical to the long-term water needs.

You cannot help the Central Valley if you cannot relieve the stress on an

oversubscribed system. It is just that fact. The pumps are on. The pumps have been on for months. But what they would suggest you do is, you devastate the San Francisco Bay Area. We have already lost tens of thousands of jobs, from the fisheries, from the ice stores, from the gas stations, from the tourist businesses, from the loss of the salmon running from Monterey, the midcoast, all the way up to the Washington border. Those jobs have been impacted.

This is not a good situation. That is why I said I haven't lost many lawsuits that I have supported. The point was to check your guns at the door and see if we could work together. And this has agreement—it has unanimous agreement of the water agencies across the State that this is helpful. This will make a difference. That is why they have supported all these projects.

We can start to work together, water agencies that today are down at the Department of the Interior trying to see if we could get things done that the last administration prohibited the Bureau of Reclamation from doing, such as entering new fish screens within the Delta that we think will save 250,000 acre-feet of water. 250,000. Does that sound familiar in the valley?

But the last administration would not let the Bureau of Reclamation take those projects, even though they would be paid for by State funds. That is the importance of this legislation. This is about whether or not we as a State come together from the Oregon border to the Mexican border and solve this problem across all of our needs, which is agriculture, which is business, which is municipal use of water.

We have the potential to do that, and these pieces of legislation are critical. That is why, up until now, the House decided on a joint bipartisan basis that we would get these bills as fast as we can to the Senate and hopefully get action and get these projects underway, because the cities have already put up the money, the engineering is done, the projects are cleared. That is why many of them were eligible for stimulus money, because they are ready to go. They have been waiting to go. They have been waiting, in fact in many cases a number of years, because the administration wouldn't put up the money until the stimulus bill of this year.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 3 minutes to my friend from California (Mr. MCCARTHY).

Mr. MCCARTHY of California. I thank my friend from Florida.

As I listen to my colleague from California, I rise opposed to this rule. You cannot bring water to California when you bring another closed rule to the floor. You cannot bring debate to the floor when you don't allow amendments.

Madam Speaker, the people of the Central Valley are being crushed with record unemployment from a man-made drought, from 14 percent to over 40 percent. Plain and simple, the majority that runs this House is failing to fix this problem. Jobs are being lost because the pumps were shut off.

At a time of crisis, when there is no excuse for partisanship, some appear to be playing partisan games at the expense of people's livelihoods. Instead of coming together as Republicans, Democrats, and Independents, the solution to get the water flowing sits behind post office bills and this bill that would recycle water for use in San Francisco Bay.

I ask this simple question: why are we failing to take up a needed bill to turn the pumps on to get the water flowing again? This is not a liberal, conservative or moderate issue. This is a commonsense issue.

Madam Speaker, President Franklin Delano Roosevelt once said the Nation that destroys its soil destroys itself. Well, the pumps are off, the pipes are dry, the land is no longer able to produce, and the soil is being destroyed. How do you bring water to California with a closed rule? How do you sit on this floor and say you are bringing all these bills up for water but you deny the valley, you deny the breadbasket and you deny the ability for the pumps to be turned on?

I ask for a "no" vote on the rule.

□ 1400

Ms. MATSUI. Madam Speaker, I just want to remind everyone here that earlier this year several other local water measures were resoundingly approved by the House. They include the South Orange County Recycled Water Enhancement Act, which was in Representative CALVERT's district; the Lake Hodges Surface Water Improvement Act in Representative BILBRAY's district; the Magna Water District Reuse and Groundwater Recharge Act in Representative CHAFFETZ' district of Utah; the Calleguas Municipal Water District Recycling project in Representative GALLEGLY's district; the Hermiston water recycling and reuse project, Representative WALDEN of Oregon; the Tule River Tribe Water Development Act in Representative NUNES' district.

Until it was caught up in partisanship, H.R. 2442 would have followed the same procedure. H.R. 2442 is no different than any of these bills. What is different is politics.

I reserve my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 3 minutes to my friend from Iowa (Mr. KING).

Mr. KING of Iowa. Mr. Speaker, I'm here standing in support of Congressman NUNES and the California delegation that has spoken against this rule and for water for the valley. And as I

watched this debate unfold here on the floor, something about the depth of the emotion in the voice and in the eyes of DEVIN NUNES told me I needed to go see for myself, Mr. Speaker.

So in late August, I went down to the Fresno area and traveled the valley—most of the valley, not all of the valley—and I looked at 250,000 acres of man-made dust. And I know there are at least 600,000 acres of man-made drought in that Central Valley area, and then I went up to San Francisco with a heavy heart. And I can tell you what I saw when I looked at that dust in the valley. I felt like that Indian in the commercial that saw his river full of junk and tires and the tear trickled down his cheek to think that man could do that to man. And they're watering the lawns in San Francisco while we have a man-made drought and they're taking out dead trees from orchards in California in the valley.

I also led a codel to go look at the swamp Arabs in Iraq, and there, Saddam Hussein, years ago we'll know, decided that he didn't like the politics of the people in the south, the Shias in the south that lived in that swamp, and so he shut off and diverted the Tigris and Euphrates Rivers and shut off the water and dried out the swamp Arabs in the south. And I visited that area. It was a political decision and a man-made drought for the swamp Arabs in Iraq, and we're quite proud that we sent our American military in to turn on that water and reflood that swamp and give them back the lifeblood of the people in southern Iraq on the delta area there.

Here, we have the valley, and this is a battle going on between San Francisco, the urban areas in California, and the most productive area in the world. And I'm from Iowa and I'm saying this. The most dollars per acre produced out of the valley of anyplace in the world, and we have a man-made drought. We're watering lawns in San Francisco and diverting more water to San Franciscans, who didn't look to me like they were very dry, and throwing dust in the face of the hardworking people in the valley.

I can't believe we can have a man-made tragedy of this magnitude and we're told, check your guns at the door. Check your guns at the door when the cards are dealt, and we have a closed rule that shuts off any debate other than on the rule itself, no amendments allowed, no vote being able to be forced. We can't shape policy in this Congress if it's being shaped up there in the hole in the wall.

I want to bring that debate down to the floor. And if you at least have enough courage to ask for an open rule and allow some amendments so the Members of this Congress can weigh in, then the people of the country can weigh in and they can have their voice heard. We can turn on the water.

This is not about the minnow you'll find and other species. It's about a fight over the water. But a man-made drought and 600,000 acres, 40,000 jobs lost, shut off the water to the swamp Arabs, shut them off to the people down in the Central Valley. It is heart-breaking, Mr. Speaker, and this has got to stop. The voice of the people needs to be heard.

Ms. MATSUI. Mr. Speaker, let me just say that five amendments were submitted to the Rules Committee for this bill. All five were nongermane. Not a single amendment would be allowed on this floor under an open rule.

I reserve my time.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (Mr. SERRANO). The Chair will remind all persons in the gallery that they are here as guests of the House, and that any manifestation of approval or disapproval of proceedings or other audible conversation is in violation of the rules of the House.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, it's my pleasure to yield 5 minutes to my friend from Washington (Mr. HASTINGS).

Mr. HASTINGS of Washington. Mr. Speaker, I rise to strongly oppose this rule. As a former member of the Rules Committee, and currently as the ranking member of the House Natural Resources Committee, I want to address several arguments that have been made that try to justify blocking amendments to provide relief for tens of thousands of suffering people suffering an economic disaster in the San Joaquin Valley as a result of a man-made and government-enforced drought.

First, I want to specifically dispel the notion that allowing the House to vote on relief to these suffering communities wasn't possible because amendments were nongermane. Mr. Speaker, it is entirely within the power of the House Rules Committee to allow debate on any amendment that it wishes and, conversely, to shut down debate on any amendment they do not want to see discussed on the House floor. The Rules Committee does, can, and regularly does, waive the germaneness rule. It simply refused to do so on this matter because the Democrat leadership of this House doesn't wish to have this matter, this matter of the man-made drought in the San Joaquin Valley, debated or discussed on the House floor. Any notion, any notion, Mr. Speaker, that they couldn't allow these amendments even 10 minutes of debate time followed by a vote is simply not true.

So let's be clear about what we're debating here. The underlying bill relates to Federal water recycling projects in the San Francisco Bay Area of California. The amendments not made in order relate to Federal water supply and a man-made drought in the San Joaquin Valley in California. This is hardly a case of mixing apples and or-

anges. The truth is that the Democrat-controlled Rules Committee chose to hand a shiny red apple to the San Francisco Bay Area and give a giant raspberry to the people in the San Joaquin Valley.

The other argument I wish to address and dispel is that the drought in California is an issue only for those in California to resolve. Mr. Speaker, if this House can debate and vote on a bill to provide millions of taxpayer dollars, Federal taxpayer dollars, for water projects in the San Francisco Bay Area, then this House can certainly debate and vote on providing relief to farmers and farmworkers that are denied Federal water by Federal lawsuits and Federal policies, again, in the San Joaquin Valley of California. This isn't a case of having your cake and eat it, too. It's a matter of water for San Francisco and none for the San Joaquin Valley.

Lastly, to the argument this is a California issue for Californians to resolve, I will note that the votes in the Rules Committee to block the amendments from being heard were by a margin of six "no" and five "yes." All four Republicans voted to allow the amendments to be heard on the floor, as did Mr. CARDOZA from California, and a Democrat, but not one single one of Mr. CARDOZA's Democrat colleagues joined him. We were told this is a California matter, and yet relief for the San Joaquin Valley is denied because of the votes of Democrats on the Rules Committee from New York, Massachusetts, Florida, Maine, and Colorado, who all voted "no" to block discussion of these amendments on the House floor.

The arguments of germaneness and it's a California only matter are simply excuses being used to try to hide the fact that the Democrat leaders who control this House don't want to allow a vote on solutions and provide relief to the tens of thousands of people suffering in the San Joaquin Valley.

Mr. Speaker, I urge my colleagues to vote "no" on this unfair rule.

Ms. MATSUI. Mr. Speaker, we are in a drought. We are in a drought. That's a fact. And this legislation will help ensure that future droughts in California will have less of a damaging impact. When water is used more efficiently, droughts like the one we are currently experiencing become less severe because we have built in defense mechanisms.

We know that the drought, and not the Endangered Species Act or House leadership, is the real reason why so many individuals are suffering in California's Central Valley. In fact, according to Ron Milligan, the U.S. Bureau of Reclamation operations manager for the Central Valley Project, the average delta water exports prior to 2008 were 5.7 million acre-feet. In 2009, the export fell to 3.6 million acre-feet. Of the 2.1

million acre-foot shortfall, 1.6 million is due to the drought. Only 500,000 of the decreased results are from the delta smelt ruling.

If anything, our colleagues who represent that part of the State should support H.R. 2442 as a means of fighting against the drought. They should also support it as a way to increase the amount of water available statewide for local agencies to access.

I reserve my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 1½ minute to my friend from Texas (Mr. GOHMERT).

Mr. GOHMERT. Mr. Speaker, I'm pleased that this bill will apparently benefit people in the San Francisco Bay Area with water. As I understand it, I think we have some leadership on the majority side that is from that area. And that's wonderful that they'll benefit with water, but it is deeply troubling to hear people come to this floor and start trying to blame the past administration for water problems in California.

At what point are people going to acknowledge, you know what? The Democratic majority, we're in the majority as Democrats. We took control over 2½ years ago, and we're responsible here. We have had an opportunity to do something about this for over 2 years, and we have not done anything because the majority leadership has chosen not to do anything.

My friend DEVIN NUNES recruited me over 2 years ago. He had me look at this, and I saw how the smelt were being protected, and that's fine. But the smelt, the 2-inch minnow, while people are starving, the land is starving, the people are starving, they're losing their jobs.

When DEVIN brought this to my attention, it smelt badly back then. It smelt badly a year ago. It's smelt badly all this year, and now, my friends, it stinks. It's time to have open rules that allow us to bring water to everyone who needs it.

Ms. MATSUI. Mr. Speaker, I just want to say that further investing in water recycling is sound public policy. This bill would allow the Bay Area to reuse water. This legislation would not mandate additional water transfers or adversely affect California's Central Valley in any way. H.R. 2442 is a proactive step taken by our delegation to address California's water situation in a positive way.

I'd like to yield 2½ minutes to the gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. I appreciate the gentlewoman's courtesy in permitting me to speak on the rule.

I was sitting here waiting to speak on the underlying legislation after the rule is passed because I think it is an important ingredient towards dealing with a serious problem in California

that affects us all, but I am compelled to come to the floor to support briefly the rule that is brought before us.

My friend from the other side of the aisle from Texas recently asked, wonders at what point the majority stops blaming the Bush administration. I would hope that at some point the minority looks at a lost decade of Republican stranglehold on reasonable environmental policy, not just for California, but throughout the West, that actually set us back. We're playing catch-up now on things that we should have done for years in water infrastructure and water policy.

□ 1415

Second, the notion that somehow we are wasting water because it flows into the delta and on into the Pacific Ocean, I will tell you, my fishermen in the Pacific Northwest don't think that is a waste. They don't think the smelt—which is a proxy for a collapsing ecosystem that is posing problems throughout the Pacific Northwest on historic fisheries and speaking to other environmental problems—is not a waste.

I find it amusing to hear some people come to the floor and talk about a man-made, government-made drought. For heaven sakes, look at what's happening to the water levels; look at the areas there where they don't even monitor what is happening with groundwater to keep careful control. The California legislature just tied itself into knots unable to advance sensible water policies.

There is a governmental failure all right, a governmental failure that at the Federal Government, the State government, and the local government we haven't dealt meaningfully with these conflicts. Instead we have treated farmers, fishermen, the environment and local communities that rely on these sources, we have treated them shabbily. Well, now with the climate change and persistent drought and the fact that some people aren't going to sit back and take it anymore, it's coming home to roost.

I hope that there is a more spirited and robust discussion about the reality. I hope California gets its act together on a State level.

The SPEAKER pro tempore. The time of the gentleman has expired.

Ms. MATSUI. I yield an additional 30 seconds to the gentleman.

Mr. BLUMENAUER. And I hope that the Federal Government makes up for that lost decade.

We are in a situation now where water is the precious resource for going forward, and what we're seeing here is a blip on the radar screen that is going to be affecting each and every State across the country. We better stop pretending that this drought is somehow government caused. We need to get our act together, get policies in place, pro-

tect the environment, be rational and be fair.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, I yield 2 minutes to my friend from California (Mr. NUNES).

Mr. NUNES. I thank my friend from Florida.

I just want to make sure that we set the record straight on this salmon fishing issue. A lot of people are probably watching out there and wondering, well, are these salmon fishermen really out of work? The truth is that the salmon fishermen can still fish; they just can't fish for salmon. And that is because the government—us, this body—and others told the fishermen that they cannot fish for salmon. Every other country in the world can fish for salmon, just us.

So not only are we not allowing the salmon fishermen to fish, we are also paying them not to fish; several hundred million dollars we have given the salmon fishermen so that they will not fish for salmon. Meanwhile, we have 40,000 people that are without work, and they get nothing.

So there is no correlation between these pumps that have run for 50 years and salmon fishermen not fishing, except for this: the government says, salmon fishermen, you can't fish for salmon. The government also says, keep the pumps shut off so that people in the San Joaquin Valley don't have any water and can't grow any crops to provide Americans food. So this whole argument about the poor salmon fishermen is complete fiction.

I would like to know where my colleagues were—some of them who were in this body—in the 1980s when they ran every Portuguese American fisherman out of the San Diego area. There were several thousand mostly Portuguese fishermen, and nobody came to their aid. They fished for tuna. All those jobs were lost to foreign countries. And now all of a sudden we're here and we're worried about salmon fishermen? Bogus, absolutely bogus. Shameful on this body.

Ms. MATSUI. Mr. Speaker, I reserve my time.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, with regard to the issue that's been debated, one thing continues to come to mind: the merits of this issue, this water issue of such importance to people in the San Joaquin Valley in California, have been debated during this rule debate because there is no other option.

The substantive legislation, two amendments that Mr. NUNES came to the Rules Committee and asked to be authorized for debate by the House, they were denied; they were not made in order. So there is no other option but during the time when we are debating the rule, the terms of debate for an underlying bill that will subsequently be debated, this is the only time when

Mr. NUNES and the others who know this issue so intimately and feel it, appropriately, so passionately in representation of their constituents, it's the only opportunity that they have to be able to bring out the issue, to educate us. And it's a shame because the Congress as a whole, the House as a whole, should be able to debate this issue and consider it and decide it.

Mr. Speaker, over the last few months, the American people have written and called many of us and made their opinions known at meetings asking us whether we pledge to read bills before we vote on them. The reason is that many people were outraged when they found out that the majority leadership forced the Congress to vote on a number of sweeping and very expensive bills without giving Members time to understand or even to read the bills.

For example, we were forced to vote on the final so-called stimulus bill and on the omnibus appropriations bill, and on a cap-and-trade bill. I remember that one was presented to us at three in the morning in the Rules Committee, and a few hours after that we had it here on the floor. All those bills were passed without Members being able to read them, having time to do so. That's no way to run the House, and so our constituents are rightfully upset.

You would think that this issue of sufficient time to read legislation should not be controversial. The distinguished Speaker stated, and I quote, "Members should have at least 24 hours to examine bills and conference reports before floor consideration," and yet that has not been the case time after time after time.

So 182 Members have signed a discharge petition at the front desk that would require all legislation to be available to Members of Congress for at least 72 hours before the legislation is brought to the House floor for a vote.

So, accordingly, I will be asking for a "no" vote on the previous question so we can amend the rule and allow the House to consider that legislation, House Resolution 554, a bipartisan bill by my friends and colleagues, Representatives BAIRD and CULBERSON.

Now, with regard to any Members being concerned that that may jeopardize consideration of the underlying legislation, I want to make it clear that this motion provides for separate consideration of the Baird-Culberson bill within 3 days so that we can vote on this underlying legislation, the water bill, and then once we're done, consider House Resolution 554.

Having said that, I yield back the balance of my time.

Ms. MATSUI. Mr. Speaker, I yield myself the remainder of my time.

The rule before us today is a fair rule that allows us to make a strong Federal commitment to sustaining California's economy, water supply, and our environment.

This bill was reported unanimously by the National Resources Committee on September 29. It was voted under suspension on September 30. It was introduced in May. There has been ample time for the minority to review this legislation. Now is the time to act on it.

The Bay Area Regional Water Recycling Program Expansion Act would lessen the limited demand for fresh water by the region and the State. It is critical that we avoid partisan debate and disagreements over water issues and pass this legislation.

Moreover, the House has already expedited similar measures for a bipartisan collection of congressional districts across California. The south Orange County recycling project was passed in February in Mr. CALVERT's district. The Lake Hodges Surface Water improvements was passed in April in Mr. BILBRAY's district. The Calleguas Municipal Water District recycling initiative was approved in September for Mr. GALLEGLY. The Magna Water District Reuse proposal in Utah was passed for Mr. CHAFFETZ's district. The Hermiston water recycling and reuse project in Oregon was passed for Mr. WALDEN's district. And the Tule River Water Development Act was passed by a vote of 417-3 in July for Mr. NUNES' district.

Mr. Speaker, it is clear that local water projects typically have bipartisan support here in the House of Representatives. I am disappointed that my colleagues on the other side of the aisle have set aside that tradition, forcing us to bring this rule to the floor today.

I urge a "yes" vote on the previous question and on the rule.

The material previously referred to by Mr. LINCOLN DIAZ-BALART of Florida is as follows:

AMENDMENT TO H. RES. 830 OFFERED BY MR. DIAZ-BALART

At the end of the resolution, insert the following new section:

SEC. 2. On the third legislative day after the adoption of this resolution, immediately after the third daily order of business under clause 1 of rule XIV and without intervention of any point of order, the House shall proceed to the consideration of the resolution (H. Res. 554) amending the Rules of the House of Representatives to require that legislation and conference reports be available on the Internet for 72 hours before consideration by the House, and for other purposes. The resolution shall be considered as read. The previous question shall be considered as ordered on the resolution and any amendment thereto to final adoption without intervening motion or demand for division of the question except: (1) one hour of debate equally divided and controlled by the chair and ranking minority member of the Committee on Rules; (2) an amendment, if offered

by the Minority Leader or his designee and if printed in that portion of the Congressional Record designated for that purpose in clause 8 of rule XVIII at least one legislative day prior to its consideration, which shall be in order without intervention of any point of order or demand for division of the question, shall be considered as read and shall be separately debatable for twenty minutes equally divided and controlled by the proponent and an opponent; and (3) one motion to recommit which shall not contain instructions. Clause 1(c) of rule XIX shall not apply to the consideration of House Resolution 554.

(The information contained herein was provided by Democratic Minority on multiple occasions throughout the 109th Congress.)

THE VOTE ON THE PREVIOUS QUESTION: WHAT IT REALLY MEANS

This vote, the vote on whether to order the previous question on a special rule, is not merely a procedural vote. A vote against ordering the previous question is a vote against the Democratic majority agenda and a vote to allow the opposition, at least for the moment, to offer an alternative plan. It is a vote about what the House should be debating.

Mr. Clarence Cannon's *Precedents of the House of Representatives*, (VI, 308-311) describes the vote on the previous question on the rule as "a motion to direct or control the consideration of the subject before the House being made by the Member in charge." To defeat the previous question is to give the opposition a chance to decide the subject before the House. Cannon cites the Speaker's ruling of January 13, 1920, to the effect that "the refusal of the House to sustain the demand for the previous question passes the control of the resolution to the opposition" in order to offer an amendment. On March 15, 1909, a member of the majority party offered a rule resolution. The House defeated the previous question and a member of the opposition rose to a parliamentary inquiry, asking who was entitled to recognition. Speaker Joseph G. Cannon (R-Illinois) said: "The previous question having been refused, the gentleman from New York, Mr. Fitzgerald, who had asked the gentleman to yield to him for an amendment, is entitled to the first recognition."

Because the vote today may look bad for the Democratic majority they will say "the vote on the previous question is simply a vote on whether to proceed to an immediate vote on adopting the resolution . . . [and] has no substantive legislative or policy implications whatsoever." But that is not what they have always said. Listen to the definition of the previous question used in the *Rules Procedures Manual* published by the Rules Committee in the 109th Congress, (page 56). Here's how the Rules Committee described the rule using information from Congressional Quarterly's "American Congressional Dictionary": "If the previous question is defeated, control of debate shifts to the leading opposition member (usually the minority Floor Manager) who then manages an hour of debate and may offer a germane amendment to the pending business."

Deschler's *Procedure in the U.S. House of Representatives*, the subchapter titled "Amending Special Rules" states: "a refusal to order the previous question on such a rule [a special rule reported from the Committee on Rules] opens the resolution to amendment and further debate." (Chapter 21, section 21.2) Section 21.3 continues: Upon rejection of the motion for the previous question

on a resolution reported from the Committee on Rules, control shifts to the Member leading the opposition to the previous question, who may offer a proper amendment or motion and who controls the time for debate thereon."

Clearly, the vote on the previous question on a rule does have substantive policy implications. It is one of the only available tools for those who oppose the Democratic majority's agenda and allows those with alternative views the opportunity to offer an alternative plan.

Ms. MATSUI. Mr. Speaker, I yield back the balance of my time, and I move the previous question on the resolution.

The SPEAKER pro tempore. The question is on ordering the previous question.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 9 of rule XX, the Chair will reduce to 5 minutes the minimum time for any electronic vote on the question of adoption of the resolution.

The vote was taken by electronic device, and there were—yeas 237, nays 178, not voting 17, as follows:

Messrs. CHILDERS and GOODLATTE changed their vote from “yea” to “nay.”

Messrs. TANNER and WELCH changed their vote from “nay” to “yea.”

So the previous question was ordered. The result of the vote was announced as above recorded.

The SPEAKER pro tempore. The question is on the resolution.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. LINCOLN DIAZ-BALART of Florida. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. This will be a 5-minute vote.

The vote was taken by electronic device, and there were—yeas 221, nays 193, not voting 18, as follows:

[Roll No. 787]

□ 1501

Ms. LORETTA SANCHEZ of California and Mr. DONNELLY of Indiana changed their vote from “nay” to “yea.”

So the resolution was agreed to.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

#### REMOVAL OF NAMES OF MEMBERS AS COSPONSORS OF H.R. 1989

Mrs. CAPITO. Mr. Speaker, I ask unanimous consent to remove as cosponsors from H.R. 1989 the following Representatives: Mr. BARTLETT, Mr. BILBRAY, Mr. LATTA and Mr. SOUDER.

The SPEAKER pro tempore (Mr. DRIEHAUS). Is there objection to the request of the gentlewoman from West Virginia?

There was no objection.

#### REMOVAL OF NAMES OF MEMBERS AS COSPONSORS OF H.R. 3413

Mrs. CAPITO. Mr. Speaker, I ask unanimous consent to remove as cosponsors from H.R. 3413 the following Representatives: Mr. AL GREEN of Texas and Ms. JENKINS.

The SPEAKER pro tempore. Is there objection to the request of the gentlewoman from West Virginia?

There was no objection.

#### APPOINTMENT OF MEMBERS TO BOARD OF VISITORS TO THE UNITED STATES MILITARY ACADEMY

The SPEAKER pro tempore. Pursuant to 10 U.S.C. 4355(a), and the order of the House of January 6, 2009, the Chair announces the Speaker's appointment of the following Members of the House to the Board of Visitors to the United States Military Academy:

Mr. LEWIS, California  
Mr. SHIMKUS, Illinois

#### APPOINTMENT OF MEMBERS TO NATIONAL COUNCIL ON THE ARTS

The SPEAKER pro tempore. Pursuant to 20 U.S.C. 955(b), and the order of the House of January 6, 2009, the Chair announces the Speaker's appointment of the following Members of the House to the National Council on the Arts:

Ms. MCCOLLUM, Minnesota  
Mr. CARNAHAN, Missouri

#### FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Ms. Curtis, one of its clerks, an-

nounced that the Senate agrees to the report of the committee of conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 3183) “An Act making appropriations for energy and water development and related agencies for the fiscal year ending September 30, 2010, and for other purposes.”.

#### BAY AREA REGIONAL WATER RECYCLING PROGRAM EXPANSION ACT OF 2009

Mr. GEORGE MILLER of California. Mr. Speaker, pursuant to House Resolution 830, I call up the bill (H.R. 2442) to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes, and ask for its immediate consideration in the House.

The Clerk read the title of the bill.

The SPEAKER pro tempore. Pursuant to House Resolution 830, the amendment printed in House Report 111-301 is adopted and the bill, as amended, is considered read.

The text of the bill, as amended, is as follows:

H.R. 2442

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the “Bay Area Regional Water Recycling Program Expansion Act of 2009”.

#### SEC. 2. PROJECT AUTHORIZATIONS.

(a) IN GENERAL.—The Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h et seq.) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by adding at the end the following:

#### “SEC. 16. CCCSD-CONCORD RECYCLED WATER PROJECT.

“(a) AUTHORIZATION.—The Secretary, in cooperation with the Central Contra Costa Sanitary District, California, is authorized to participate in the design, planning, and construction of recycled water distribution systems.

“(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

“(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,800,000.

#### “SEC. 16. CENTRAL DUBLIN RECYCLED WATER DISTRIBUTION AND RETROFIT PROJECT.

“(a) AUTHORIZATION.—The Secretary, in cooperation with the Dublin San Ramon Services District, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

“(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

“(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$1,150,000.

#### “SEC. 16. PETALUMA RECYCLED WATER PROJECT, PHASES 2A, 2B, AND 3.

“(a) AUTHORIZATION.—The Secretary, in cooperation with the City of Petaluma, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

“(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

“(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$6,000,000.

#### “SEC. 16. CENTRAL REDWOOD CITY RECYCLED WATER PROJECT.

“(a) AUTHORIZATION.—The Secretary, in cooperation with the City of Redwood City, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

“(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

“(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$8,000,000.

#### “SEC. 16. PALO ALTO RECYCLED WATER PIPE-LINE PROJECT.

“(a) AUTHORIZATION.—The Secretary, in cooperation with the City of Palo Alto, California, is authorized to participate in the design, planning, and construction of recycled water system facilities.

“(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

“(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$8,250,000.

#### “SEC. 16. IRONHOUSE SANITARY DISTRICT (ISD) ANTIOCH RECYCLED WATER PROJECT.

“(a) AUTHORIZATION.—The Secretary, in cooperation with the Ironhouse Sanitary District (ISD), California, is authorized to participate in the design, planning, and construction of recycled water distribution systems.

“(b) COST SHARE.—The Federal share of the cost of the project authorized by this section shall not exceed 25 percent of the total cost of the project.

“(c) LIMITATION.—The Secretary shall not provide funds for the operation and maintenance of the project authorized by this section.

“(d) AUTHORIZATION OF APPROPRIATIONS.—There is authorized to be appropriated to carry out this section \$7,000,000.”.

(b) PROJECT IMPLEMENTATION.—In carrying out sections 1642 through 1648 of the Reclamation Wastewater and Groundwater Study and Facilities Act, and the sections added to such Act by subsection (a), the Secretary shall enter into individual agreements

with the San Francisco Bay Area Regional Water Recycling implementing agencies to fund the projects through the Bay Area Clean Water Agencies (BACWA) or its successor, and shall include in such agreements a provision for the reimbursement of construction costs, including those construction costs incurred prior to the enactment of this Act, subject to appropriations made available for the Federal share of the project under sections 1642 through 1648 of the Reclamation Wastewater and Groundwater Study and Facilities Act and the sections added to such Act by subsection (a).

(c) CLERICAL AMENDMENTS.—The table of contents of the Reclamation Projects Authorization and Adjustment Act of 1992 (43 U.S.C. prec. 371) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by adding at the end the following:

“Sec. 1649. CCCSD-Concord recycled water project.

“Sec. 1650. Central Dublin recycled water distribution and retrofit project.

“Sec. 1651. Petaluma recycled water project, phases 2a, 2b, and 3.

“Sec. 1652. Central Redwood City recycled water project.

“Sec. 1653. Palo Alto recycled water pipeline project.

“Sec. 1654. Ironhouse Sanitary District (ISD) Antioch recycled water project.”.

### SEC. 3. MODIFICATION TO AUTHORIZED PROJECTS.

(a) ANTIOCH RECYCLED WATER PROJECT.—Section 1644(d) of the Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h-27) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by striking “\$2,250,000” and inserting “\$3,125,000”.

(b) SOUTH BAY ADVANCED RECYCLED WATER TREATMENT FACILITY.—Section 1648(d) of the Reclamation Wastewater and Groundwater Study and Facilities Act (43 U.S.C. 390h-31) (as amended by section 512(a) of the Consolidated Natural Resources Act of 2008) is amended by striking “\$8,250,000” and inserting “\$13,250,000”.

The SPEAKER pro tempore. The gentleman from California (Mr. GEORGE MILLER) and the gentleman from Washington (Mr. HASTINGS) each will control 30 minutes.

The Chair recognizes the gentleman from California.

#### GENERAL LEAVE

Mr. GEORGE MILLER of California. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days to revise and extend their remarks and include extraneous material on H.R. 2442.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 3 minutes to the chairman of the Natural Resources Committee, the gentleman from West Virginia (Mr. RAHALL).

Mr. RAHALL. Mr. Speaker, I wish to, in the very beginning, commend the gentleman from California, the chairman of our Committee on Education and Labor, Mr. GEORGE MILLER, for the

tremendous leadership, dedication, persistence and patience with which he has handled the pending legislation. I wish to also commend our distinguished chairlady of our Subcommittee on Water on our Natural Resources Committee, the gentlelady from California, Mrs. GRACE NAPOLITANO.

I do rise in my capacity as chairman of the Committee on Natural Resources to support the pending legislation which was favorably reported out of our committee without controversy.

By now, I would think that most of us are aware that there are major issues associated with drought and agriculture in California. While the rainy season has hit parts of the State, it will do little to refill reservoirs that haven't seen normal level of rainfall for years. The impacts of the drought are obvious, whether we're talking about brown lawns, fallowed fields or increased water rates for struggling families.

To address this dire situation, the pending measure is based on the practical idea of conservation through reuse. By recycling water, this bill would create 39,000 acre-feet of water or enough water to supply over 24,000 homes. We're bringing this legislation up under a rule today because a very vocal minority opposed this bill for reasons unrelated to the merits of the legislation.

I'm fortunate to come from a State with abundant water resources. I understand how water is critical for both people and our economy. What I do not understand is why some Members on the other side want to use this bill as a strawman so they can demagogue Democrats on the drought issue.

One Republican Member from California in particular filed a number of amendments that are very good at generating headlines and controversy. Unfortunately, the amendments were not germane to the subject matter of the bill before us, nor are they very thoughtful or realistic solutions to the crisis before us.

Opposition to this legislation is like cutting off one's nose to spite one's face. Water supply issues in California are not a zero sum game. Creating more water through reuse in urbanized areas reduces pressure on water demands elsewhere in the State. If opponents to this legislation want to work towards solving California's water woes, then I suggest getting real about finding solutions and stop the partisan political attacks.

The bill before us today creates new water resources through reuse. We have brought up bill after bill doing the same thing before this body without any controversy, including bills for my Republican colleagues in southern California, Utah and Oregon.

The only reason we are here today debating this legislation is because one Member thinks a solution to a severe

drought is to gut environmental laws and overturn court decisions. Perhaps that Member should propose a rain dance as well.

So it is time to support H.R. 2442 and move forward with practical solutions for a real drought in California. I urge support of the legislation.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise reluctantly to oppose this bill. I say reluctantly, because I and colleagues on my side of the aisle do support water recycling. We think it's a valuable tool for providing water to our farmers and communities across America, just as water storage is, Mr. Speaker, a tool for providing water for our communities.

Mr. Speaker, the Democrat sponsor of this legislation, and the manager of this bill, the gentleman from California, has said previously, and is correct, that Republican water recycling bills have passed this House. That's correct. The question is, then, why is this bill different?

And the answer, Mr. Speaker, is very simple. When there is an economic disaster occurring in the San Joaquin Valley of California, when man-made and government-enforced drought has dried up farm after farm in that valley, with 40,000 workers unemployed, standing in food lines and being ignored by the leadership in this House, when solutions to bring water and relief to this area have been blocked and stymied again by the leadership in this House, then a point comes, Mr. Speaker, when Members of this House have to say enough is enough.

The water recycling bill before us benefits the San Francisco Bay Area. The Speaker of the House represents the city of San Francisco, and one of her top deputies, who happens to be the sponsor of this bill, is also from the Bay Area.

This bill provides millions of Federal taxpayer dollars for the Bay Area while tens of thousands of their fellow citizens suffer economic devastation just a few hours south and inland in the San Joaquin Valley.

All that was sought by the two Republican Members from the San Joaquin Valley, with the express support, I might add, of one of their Members from California in the same area on the Rules Committee, was to have a chance, just a chance, to make their case on the House floor and to vote for a solution to this disaster in the San Joaquin Valley.

Mr. Speaker, they didn't ask that the amendments that they wanted made in order be passed. They just asked for the ability to be heard so they could persuade others to perhaps vote with them. That is all any of us could ask. Mr. Speaker, that chance has been denied. It has been blocked. Their amendments were deemed nongermane. It has

been labeled as irrelevant to the bill before us.

Mr. Speaker, might does not make right when it comes to who controls the House because what the leadership is unwilling to do is potentially provide relief to those that have been hurt by this man-made drought in the San Joaquin Valley and the policies of this Federal Government.

It has been stated, also, that the drought disaster is a California issue. The implication of that is that this is not of concern to other Americans. Mr. Speaker, that simply is wrong. What is happening in the San Joaquin Valley of California does affect all Americans. If this water recycling bill to benefit the Bay Area is worthy of consideration by the representatives of all 50 States in this House, then so is the drought disaster issue.

Mr. Speaker, if this can happen in California, then what of the farmers in the central Washington district that I represent? Hundreds of thousands of acres of farmland are irrigated in my district with water delivered by Federal pumps and from Federal reservoirs. I do not ever want to see the day that a government-enforced drought devastates these communities that I represent.

This isn't the first instance when Federal policies have threatened to cut off water to tens of thousands of people. Earlier in this decade, the city of Albuquerque, New Mexico, was threatened with the loss of its water supply due to the presence of the silvery minnow. Congress acted rightfully to provide relief to New Mexico when the House and the Senate, in a bipartisan way, voted for a remedy to Albuquerque's problem. Today, unfortunately, there is no relief to come to the San Joaquin Valley as relief did come to those in Albuquerque.

And the relief that is being sought, I might add, Mr. Speaker, is not a bail-out. The amendments that were offered simply were a plea, and it was not a plea for stimulus funding or for any money. It was simply for an opportunity to allow the Federal Government to provide for water flow. It didn't cost anything. But yet it was not given an opportunity.

So, Mr. Speaker, if the House is going to provide authorization to spend tens of millions of taxpayer dollars to provide recycled water to the Francisco Bay Area, then this House should be voting on legislation that brings relief to Californians suffering from this devastating man-made drought.

□ 1515

Mr. Speaker, it's on these grounds, even though I support the concept of water recycling, it's on these grounds that I have to stand here and urge a "no" vote on this bill.

I reserve the balance of my time.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield myself 3 minutes

for the purposes of entering into a colloquy with the gentlewoman from California (Mrs. NAPOLITANO), the chairwoman of the Subcommittee on Water and Power.

Madam Chair, I appreciate your support for my legislation for helping to expand California's water supply. Is it true when the House considered the water recycling bill for Mr. GALLEGLY of California just last month no amendments were sought by the minority and none were included, in his water recycling bill, and that was approved by a voice vote?

Mrs. NAPOLITANO. The gentleman is correct. The water recycling bill for California for Mr. GALLEGLY was approved by a voice vote by the House last month, and no amendments were asked for and none were included.

Mr. GEORGE MILLER of California. Madam Chair, is it also true that so far this year the House has approved five water recycling or water reuse bills for Members of the minority party and that no amendments at that time were sought for any of those five bills, that those five water bills were each approved under suspension of the rules, either by a voice vote or by a substantial majority vote?

Mrs. NAPOLITANO. Again, the gentleman is correct. So far this year the House has approved five water bills, all for recycling or water reuse for Members of the minority party, and no amendments were offered by the minority or the majority to any of those five bills which, by the way, were Mr. ISSA, Mrs. BONO MACK, Mr. CALVERT, Mr. CHAFFETZ, and Mr. DREIER; and they were approved by a voice vote or by substantial majorities.

Mr. GEORGE MILLER of California. I thank the gentlewoman.

Madam Chair, if I can pursue further, finally, is it true that when my bill, H.R. 2442, was considered by the Water and Power Subcommittee in the full Natural Resources Committee earlier this year, no amendments were offered by the minority or the majority and the bill was reported out by unanimous consent?

Mrs. NAPOLITANO. True, the gentleman is again correct. H.R. 2442 was approved by unanimous consent, and no amendments were offered by the minority or the majority.

Mr. GEORGE MILLER of California. I thank the gentlewoman for engaging me in this colloquy, and I also want to thank her for her groundbreaking work in bringing water recycling and reuse to the forefront of the consideration by the Bureau of Reclamation as an important source of new water in California and throughout the west and southwestern United States.

I reserve the balance of my time.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 2 minutes to the gentleman from California, a former member of the Natural Resources Committee, Mr. CALVERT.

Mr. CALVERT. Mr. Speaker, under normal circumstances, the legislation before us would be approved without much attention or controversy. The bill simply authorizes water recycling projects, which I strongly support.

However, we are not living under normal circumstances. We are living in the midst of a crisis. The ongoing water crisis in California has created an economic downturn up and down the State. Statewide, the unemployment rate has risen to more than 12 percent. In the Central Valley, regional unemployment has reached 20 percent, with some communities' unemployment now over 40 percent.

California's water crisis is the result of water conditions, on top of the federally imposed pumping restrictions that have been placed on our State's critical water infrastructure. While the water pumping restrictions are undeniably hurting California's water economy, there is no clear evidence that endangered species are actually benefiting from the measures intended to protect them.

The fact remains that the flaws and shortcomings of the Endangered Species Act have tied the hands of judges and water resource planners, creating a man-made drought that is killing jobs in California. So what is the majority of the House doing to address the clear and obvious deficiencies in the Endangered Species Act? The answer is absolutely nothing.

The reality is that the leadership of the House is too afraid to allow an open and free debate on these policies because they know if reasonable people are given a chance, they would overwhelmingly reject failed policies aimed to protect fish and support efforts to give water to people who are struggling just to survive.

There are a number of bills sponsored by Members in the minority that would restore some common sense to our water and environmental policies. Perhaps if the Democratic leadership would allow these bills to come to the floor, legislation like this would be approved without much attention or much controversy.

Mr. GEORGE MILLER of California. I yield 3 minutes to the gentleman from Oregon (Mr. BLUMENAUER).

Mr. BLUMENAUER. Mr. Speaker, I listened to my friend from California say that if we would just allow some of these proposals to come to the floor, they would just be approved without any controversy.

I beg to differ. Suspending the Endangered Species Acts, overturning biops, dealing with issues that have been in the works for years to try and balance the equities would be noticed. It's one of the reasons why the Republicans, when they controlled everything for 6 years, didn't move anything remotely like that.

The American public, Native Americans, hunters and fishermen, the fisheries industry, they rely on some semblance of reality when we are dealing with water policy. I commend the gentleman for bringing forward something that is a constructive solution that can pass and isn't going to be tied up in court for years. That's not going to put people out of work. That's, in fact, going to create jobs. It's going to create water. It's going to reduce the pressure.

Instead, we are hearing our friends from the other side of the aisle ignore the very real problems that we are facing today. This is not a man-made government-enforced drought. The water isn't there. To overturn minimal protections for the environment, for the fisheries in the Pacific Northwest, for people at the end of these rivers is not a solution that's going to restore water that isn't there.

It's not going to help California that's tied in knots. Its legislature can't even deal with meaningful management of its own groundwater. We have a crisis in this country that is man-made and government created, and that is that we haven't been serious about the management of water resources.

This is going to get worse because of climate change, global warming, and extreme weather events. We are going to be facing things like this in the Pacific Northwest with the disappearing snow pack, more strain on reservoirs, more conflict between cities and towns in rural areas, between wildlife and Native Americans.

We have got to get serious. We have to get serious with legislation like this and being realistic about working together to create a framework for dealing with water policy. Let's roll up our sleeves and do that together. In the meantime, let's not demagog important legislation that will make a difference for water in California now, putting people to work and maybe, just maybe, starting an honest conversation about how we are going to deal with a nationwide water crisis.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 5 minutes to the gentleman from California, the ranking Republican on the Water and Power Subcommittee of the Natural Resources Committee, Mr. MCCLINTOCK.

Mr. MCCLINTOCK. I thank the gentleman for yielding.

Mr. Speaker, those who blame the drought for our problems ignore the fact that this is a very mild drought by historical standards. In fact, during much more severe droughts than the one we are currently experiencing, far more water flowed to the Central Valley than it does right now.

I wonder if the proponents would seriously deny that 200 billion gallons of water have been diverted from the Cen-

tral Valley by these regulations. It's morally unconscionable that water recycling bills to benefit the pampered and privileged communities of San Francisco can sail through the House while 40,000 families have lost their jobs in the San Joaquin Valley because this government has diverted 200 billion gallons of water in order to indulge one of the environmental left's pet causes, the delta smelt.

But I would like to address some of the basic economics of these recycling bills. A generation ago the principal objective of our water policy was to create abundance. That was an era when vast reservoirs produced a cornucopia of clean and plentiful water on a scale so vast that many communities didn't bother to meter it. That clean, cheap, and abundant water also made America the breadbasket of the world and the Central Valley of California the breadbasket of that State.

But the majority party has abandoned that policy. It has replaced it with a very different philosophy that the government's principal focus should not be to produce abundant water, but rather to ration and recycle water shortages that government has caused by abandoning abundance as its primary objective.

The result is increasingly expensive water that now affects our prosperity as a Nation. By its own admission, this administration is no longer analyzing the costs and benefits of projects in the bill now before us. In committee, the administration admitted that it faces a \$600 million backlog of 53 water recycling projects like these and still hasn't bothered to prioritize them, let alone to figure out how to pay for them.

This bill provides a 25 percent Federal match for six local water recycling projects in the San Francisco Bay Area. It increases the maximum Federal cost share for two others.

The total cost to American taxpayers for this bill is \$38 million. According to sponsors, it will produce 2.6 billion gallons of water. That comes to about 8,000 acre feet.

Now, let's do the math here, \$38 million for 8,000 acre feet. That comes to \$4,500 per acre foot. That's just the Federal share. The total cost of these projects is four times that amount, or more than \$18,000 per acre foot.

Now, let's compare that to the capital cost of the nearby Oroville Dam. That was roughly \$600 million in 1968, due to the inflation adjustment. It's \$3.5 billion in today's money. That dam produces 3.5 million acre feet of water.

In other words, the modern-day inflation-adjusted cost of the Oroville Dam, including its massive power plant, comes to about \$1,000 per acre foot. The projects in this bill cost more than \$18,000 per acre foot overall, including \$4,500 per acre foot directly from the national Treasury, which, in case you haven't noticed, is empty.

I raised these issues in committee. I did not actively oppose the bill, because the House has yet to set fiscal standards for recycling measures like this one. It needs to.

But I also must agree with Ranking Member HASTINGS and Congressman NUNES and others that it's a travesty that we should vote for 2.5 billion more gallons of water for San Francisco while taking away 200 billion gallons of water from the Central Valley of California.

At the same time that the Central Valley taxpayers are struggling with up to 40 percent unemployment rates, at the same time that all taxpayers are paying higher grocery bills as a result of these heartless water diversions, those same taxpayers are being asked to pay a super-premium subsidy to Bay Area water users, whose Representatives have endorsed this folly.

To add insult to injury, Mr. NUNES is not even allowed to offer amendments to restore water deliveries that would mean jobs for 40,000 unemployed California families without costing our Treasury a dime.

For all of those reasons I urge my colleagues to oppose this bill. Not only can we do much better; we could not possibly do any worse.

Mr. GEORGE MILLER of California. I yield 2 minutes to the gentleman from California (Mr. THOMPSON).

Mr. THOMPSON of California. I thank the gentleman for yielding.

Mr. Speaker and Members, this bill is about freeing up 2.5 million gallons of water per day through recycling, water that would be able to be used throughout the affected areas in California. This reduces water demand for our State, again, 2.5 million gallons a day.

I want to speak to something that was said earlier, and that was that the salmon fishermen in California, the salmon fishing families, were not hurt, and that the claims that they were were bogus.

Mr. Speaker and Members, the salmon fishermen and their families in my district on the north coast of California have been out of work for 3 of the past 4 years, mostly because of illegal biological opinions issued by the past administration.

At the same time, the farmers south of the delta have been receiving disaster funds for their water shortages, \$95 million over the course of the last 2 years. The biological opinions, the illegal biological opinions that I mentioned, helped kill some 80,000 spawning salmon on the Klamath River and decimated the salmon fishery along the Sacramento River. Those fisheries in the Sacramento River saw their salmon populations go from 800,000 to 66,000 in 3 short years.

Mr. Speaker and Members, fishing families have been put out of work in my district and up through and into Oregon. They have lost their homes,

they have lost their savings, and they have lost their livelihoods. It's not bogus, and it's shameful to suggest that it is.

The heart of the issue that's here today, the opponents of this bill feel very comfortable choosing one business as more superior to another. The opponents' debate isn't about solutions but rather—

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. GEORGE MILLER of California. I yield 30 additional seconds to the gentleman.

Mr. THOMPSON. Suggesting that some hardworking farmers are more important and more worthy than hardworking fishermen. That is wrong.

□ 1530

This bill will ultimately conserve 2.5 million gallons of water per day for drought-stricken California. This is a good idea and it helps bring flexibility to our system.

I want to thank Mr. MILLER for his bill and his effort to address this issue and provide maximum flexibility. I urge my colleagues to vote against the motion to recommit and for the underlying bill.

Mr. HASTINGS of Washington. Mr. Speaker, may I inquire how much time is left on both sides?

The SPEAKER pro tempore. You have 17½ minutes remaining and the majority has 19½ minutes remaining.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 3 minutes to the gentleman from the southern San Joaquin Valley, Mr. MCCARTHY.

Mr. MCCARTHY of California. I thank my dear friend.

Mr. Speaker, as I sit and listen to this debate, I have many colleagues on the other side that happen to be in the majority. They not only show it in committee by the number of one on one side and fewer on the other, but they show it when the bills come to the floor.

The idea that the power of the idea would win at the end of the day doesn't happen here. They go to the Rules Committee and they deny an amendment to even come forward. They do a colloquy on the other side to talk about bills that have been brought up. I would like to see a colloquy that talked about the bills that have been denied.

I come from the Central Valley, where unemployment is double digit. Some cities have 40 percent unemployment. But I don't hear the colloquy from my friends on the other side of the aisle to talk about H.R. 3105, the Turn the Pumps on Act.

You have 200 billion gallons a year being denied to the Central Valley. The party in power shows where their desire is to go, to deny the valley the ability to grow, to deny the valley the ability to go create jobs.

I want to remind my friends on the other side of the aisle when we had the Rules debate of a quote from Franklin Delano Roosevelt. He once said, the Nation that destroys its soil, destroys itself.

The pumps are off, the pipes are dry, the land is no longer able to produce, so the soil is being destroyed. But it does not have to stay that way. Man-made droughts can change. And what the debate today is about and what the passion you feel from this side is, it is not a partisan passion. This is a passion of Independents, a passion of Democrats and a passion of Republicans, that you allow the bills to come to the floor.

I listened to a colleague on the other side of the aisle say, well, these bills will fail. Well, bring them here. You have the power. You have the majority. Do not deny them. Do not deny the amendments. Let the people who have the power of the idea win at the end of the day.

When you talk about a bill that will produce 2.6 billion gallons a year, but you deny bills that provide 200 billion gallons this year for the Central Valley, no longer do you talk of the valley feeding the world; you talk of the valley being dry.

You look at the rallies that are being created and you look at the faces in the rallies. They are a microcosm of America, from every walk of life. They come there with one sign, "Turn the pumps on," and that is our message today. That is our message with this bill, that we have the power to make the decision to get the water pumping again.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 3 minutes to the gentlewoman from California (Ms. ZOE LOFGREN).

Ms. ZOE LOFGREN of California. Mr. Speaker, California is in the third year of a drought. The salmon fishers are in the third year of no season. Farmers are hurting, fishermen are hurting. But this bill actually helps that problem.

I come from Silicon Valley, where half of our water comes from the Delta. I have heard the name San Francisco mentioned. They don't get any of their water from the Delta. In fact, they don't have any projects in this bill. But Silicon Valley gets half its water from the Delta, and the projects that will flow to Silicon Valley to reuse the water we have from our groundwater sources are going to free up water for the Delta. It will free up water for the farmers and for the fishermen, and I count that a good thing.

We can get bombastic here, all of us. It hurts us when our constituents are hurt. But it is important to note that this is a solution. This is a solution.

Silicon Valley doesn't have any farmers and it doesn't really have any commercial fishermen. We make chips. We also have double-digit unemployment.

So we all need to pull together here. Silicon Valley is willing to do its part to recycle so the water can flow to those in need.

I would like to just point out that although we all value San Francisco, San Jose has 1 million people, and since San Francisco really isn't part of this bill at all, perhaps we should refer to this as the San Jose Bay Area in the future. The San Jose Bay Area is willing to help out by supporting this bill.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself 2 minutes.

Mr. Speaker, reference was made as to why we are debating this bill on the floor, which obviously the concept of this bill brings forward water recycling and has broad support in this House. I certainly support that concept. But the inference was made that the only reason we are debating this is because of one Member—they didn't say where he is from, but I assume he is from California—who has been very, very outspoken about the economic disaster that is going on in the San Joaquin Valley of California.

Mr. Speaker, I just want to say that that individual is defending what he thinks is right for his constituents, and he is doing all the right things within the rules of this House to bring this issue forward so that we can have a debate.

The inference was also made by those remarks that this was partisan in nature. Well, I would just remind my colleagues, Mr. Speaker, that on the rule, bringing this bill to the floor of the House had bipartisan opposition. As you know, when there are rule votes, they are generally along party lines. Yet, Mr. Speaker, 23 Democrats voted against this rule.

Now, I don't know the motivation of all of them, but I would certainly hope, and I would guess that they probably voted "no" because they felt this issue was worthy of debate. And, I might add, of those 23, four of them are from the Natural Resources Committee, in which this bill passed out of by unanimous consent, but there was some discussion in the subcommittee on the issue, and the cost, as Mr. MCCLINTOCK pointed out so well.

Mr. Speaker, I just want to make this point: if somebody is accused of defending their constituents and that is done in a negative way, that is not what this House is all about. Every Member should be doing everything they can to defend their constituents.

So the debate on this really, I believe, is evolving into a bipartisan debate to have a debate on the underlying issue.

The SPEAKER pro tempore. The time of the gentleman has expired.

Mr. HASTINGS of Washington. I yield myself another 30 seconds.

But we have been denied that. I would just hope that there will be some opportunity later on for us to revisit

that and have these potential solutions that were brought forward by my colleagues that live in these areas in a bipartisan way to be debated.

Mr. GEORGE MILLER of California. Mr. Speaker, I yield 3 minutes to the gentlewoman from California (Ms. SPEIER).

Ms. SPEIER. Mr. Speaker, I, too, rise in support of H.R. 2442 and salute my good friend and colleague, Mr. MILLER, on his good work.

This bill will provide, as has been said already, 2.6 billion gallons of water per year to drought-stricken California, adding enough water supply to meet the demands for nearly 25,000 households, and it will also generate, either direct or indirectly, 3,500 jobs.

Mr. Speaker, attacking a water recycling measure that is designed to help all of California is truly counterproductive. The North Coast County Water District, based in Pacifica in my congressional district, has said, "As California continues to experience drought conditions, increased demand for water, and strain on the Delta ecosystem, alternative water supplies like those authorized in H.R. 2442 provide a long-term sustainable solution essential to California's economy."

The bottom line is that Republicans and Democrats alike agree that water recycling helps reduce stress on California's fragile freshwater system, and they have approved water recycling projects for California and across the Western region on a bipartisan basis in Congress. I hope we can do that again.

Mr. HASTINGS of Washington. Mr. Speaker, I am very pleased to yield 5 minutes to the gentleman from the San Joaquin Valley, California (Mr. NUNES).

Mr. NUNES. Mr. Speaker, I thank my friend from Washington.

Since this House is being denied the opportunity to debate legislation that would have a meaningful impact on the California water crisis, I think it is appropriate to take a closer look at the bill before us today. This bill funds a water recycling project for the Bay Area. That is it.

The sponsor of this bill pounds his chest and says he is providing 2.6 billion gallons of water for his constituents. Congratulations. What the sponsor will not disclose is that he has worked consistently to deny delivery of 200 billion gallons of water to an area that has 40 percent unemployment in some cases, that has folks standing in food lines, and land dry with tumbleweeds.

Now, it is ironic that this bill provides water only to one little area of San Francisco, the Greater San Francisco Bay Area, which already receives pristine water from a beautiful glacial valley that is not far from where I live in the Yosemite National Park called Hetch Hetchy. You heard me correct. The Bay Area gets water from one of the Nation's flagship national parks.

The City of San Francisco, knowing that it needed to provide water to its citizens, destroyed a portion of Yosemite National Park to construct its own water supply reservoir. I actually have a picture of what it looked like.

This is what it looked like before. If you have ever been to Yosemite, you can see that it looks very similar to Yosemite Valley. But now it is dammed up. It is dammed up to provide water to the people of San Francisco.

Now, that is really not the worst of it, because we hear so much about how the other side of the aisle cares so much about the fish and the poor fishermen that are losing their jobs because the water is not being delivered to the Delta to save all these fish that need to be saved.

Well, let's go back and look at a little map of Hetch Hetchy. This is Hetch Hetchy, Yosemite National Park. Here is the dam. And the water is piped. There is not a river. It is piped directly into the San Francisco Bay Area. This is the same water, Mr. Speaker, that would go down to save the fish that they care about so much. So do they honestly care about fish, or do they really just care about providing water to their people and serving their radical environmental friends that have worked for decades to cut water off to people that are just trying to provide food for America?

The leaders in the Bay Area and the surrounding region have used their muscle in the past to actually get by other environmental laws. They destroyed not only the beautiful national park when they needed water, they subsequently exempted their water project from the Wild and Scenic Rivers Act. That is why they built the pipe, so they wouldn't even have to have a river.

When the Bay Area needed to add to its runway, they exempted environmental laws to build a new airport in the beautiful San Francisco Bay, one of the greatest areas of California.

But despite their own record, when folks a mere two hours away are bled dry of water, they have opposed a temporary waiver to allow not 2 billion gallons of water like this does, but 200 billion gallons of water.

I support these water recycling projects, but I oppose this bill because the author of this bill is the leader of the effort to cut off 200 billion gallons of water that would serve the greater San Joaquin Valley, Los Angeles and San Diego. So absent the inclusion of language that will address this government-imposed drought, this bill should be rejected.

Mr. GEORGE MILLER of California. I yield 3 minutes to the gentleman from California (Mr. FARR).

Mr. FARR. Thank you very much, Mr. Chairman, for yielding.

I have no projects in this bill.

□ 1545

I have no benefit in this bill. I represent some of the greatest agriculture in the United States of America. And guess what? We don't get a drop of that water from anywhere but the sky that it falls out of and all of the wastewater that we recycle, the largest recycling project in the United States and the world irrigating agriculture.

You know what? You people that live in glass houses shouldn't throw stones. You took a desert in the San Joaquin Valley, and using taxpayers' money, you built all these public systems, damming up those rivers—and I'm glad Mr. NUNES is going to support us in tearing down the Hetch Hetchy dam—and dammed up those rivers to get all the water into the canals to take them into a desert. And what happened? It didn't rain. All of a sudden you're caught in a drought. So who do you blame? You blame everything. You blame the Democrats. You blame the water. You blame the sky. It didn't fall out of the sky. But you blame every law that's out there.

People who live in glass houses shouldn't throw stones because what are you doing about recycling all the wastewater that you're creating? You've always had that. Our communities have bellied up to the bar. They put their money up. This bill says you've got to put up three-quarters of the money before you even come and ask for help from Washington. Frankly, it ought to be the other way around. Recycling is so important we ought to be doing it in every community in the United States, and the government ought to be at two-thirds help and the community at one-third help.

This bill is a good bill. And don't think that because one part of one State didn't get enough rain last year that we ought to bury the whole thing trying to get recycled water. Guess what you do when you get that recycled water? You free up potable water that can go to other things.

Mr. HASTINGS of Washington. Will the gentleman yield?

Mr. FARR. No. You have time.

When you have that potable water, you ought not to be using it for agriculture. You ought to be using that for drinking purposes. All the golf courses on the Monterey Peninsula are irrigated by recycled water, Pebble Beach, Cypress, all these big famous golf courses.

So I think that those people that are criticizing this bill and criticizing the fact that we didn't get enough rain in the San Joaquin Valley ought to be asking for us to help them get recycling projects in their communities like we have in the Salinas Valley. We can solve this problem, but we've got to solve it in a multiplicity of ways, and one of the ways to do that is recycling. This bill makes a giant step forward for a lot of communities in northern California.

I would urge an "aye" vote.

ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore. Members are reminded to direct their remarks to the Chair.

Mr. HASTINGS of Washington. Mr. Speaker, I am pleased to yield 1 minute to the gentleman from California (Mr. NUNES).

Mr. NUNES. Mr. Speaker, I want to remind my Democrat colleague on the other side of the aisle that there were two Presidents that were instrumental in building the water projects that turned a desert into the most productive agricultural land in the world. One was named Franklin Roosevelt and the other was named John F. Kennedy. Last time I checked, they were both Democrats. That was back when the Democrats cared about providing jobs to people instead of serving their radical environmental friends in the Bay Area. My, how we've gone a long ways in this Democratic Party. It's sad to see this.

Mr. GEORGE MILLER of California. I have no further speakers, so I'll reserve until time to close.

Mr. HASTINGS of Washington. Mr. Speaker, I yield myself the balance of the time.

Mr. Speaker, I stood up and asked my dear friend from California (Mr. FARR) to yield, and he said he didn't have time to yield, because I wanted to point out something that he had said and to clarify at least what I think is his interpretation of what he was saying.

He was saying that these water recycling bills are a 25/75 match, and that's what the bill says. There's no requirement, however, in this bill for those recipients of these Federal dollars to repay these Federal dollars.

On the other hand, I come from central Washington, the Columbia Basin Project, Bureau of Reclamation area, irrigated by Grand Coulee Dam, and while they were built by the Federal Government, it's true, those monies have to be paid back by those irrigation districts. We don't get a 25 percent cut or a 50 percent cut. So I just wanted to point that out. We're not talking about apples and oranges, no pun intended on that.

So, Mr. Speaker, as I had mentioned earlier, the reason that I reluctantly oppose this bill is because of what it does not do. And of course what it does not do is to provide for an opportunity to address a very, very serious economic problem in the San Joaquin Valley of California.

As I mentioned on the rule, there were 23 Democrats that supported Republicans on this. This would indicate to me, I would hope, that there is growing support for having this addressed in a manner in the House, on the floor of the U.S. House of Representatives. I certainly hope that that is the case. And if opposition from me and others is

a way to get to that point, I will be very, very proud of that.

But with that, Mr. Speaker, I have to stand up and reluctantly oppose this bill for the many reasons I said in my previous remarks.

I yield back the balance of my time. Mr. GEORGE MILLER of California. Mr. Speaker, I yield myself such time as I may consume.

First of all, I want to begin by thanking Chairwoman NAPOLITANO and Chairman RAHALL, the Chair of the full committee, and Chairwoman NAPOLITANO of the Subcommittee on Water and Power, for their support of this legislation for supporting the expansion of water supplies in drought stricken regions of our country.

At the end of the day, after all of the debate, this is legislation to provide for water reuse and recycling. Water reuse and recycling is desperately needed in our State of California. This is a policy that is supported throughout the entire State, including the valley, throughout southern California and northern California. Every part of the State understands the extent to which we can continue to create new supplies of water through use and reuse, recycling, that the entire State benefits.

Someone said, well, I was here in the drought and it wasn't this bad. We've added almost 16 to 20 million new people to the State of California since the last serious drought. We didn't do much about water policy during that time, but we've now put together a coalition from people who have battled over the years, Metropolitan Water District, Contra Costa Water District, L.A. County, San Diego County, the Central Valley.

Why are they coming together? Because they recognize how valuable reuse and recycling will be in the State of California going forward to meet the needs of its growing economy, of its diverse economy, of the importance of agriculture, of the importance of bringing new businesses to California, of developing and make sure we have clean water available for high technology industries throughout the State. That's why this bill, this policy speaks.

It speaks to so many areas of the State. It speaks, this policy speaks to Orange County and San Diego County and L.A. County and Riverside County and Contra Costa County and Santa Clara County and Monterey County and Alameda County and San Joaquin County. Why? Because it's important that we take the pressure off a system that's oversubscribed not just in drought years but every year. But we can get by in a normal year. We can't get by in the third year of the drought.

Now, my colleagues have suggested that somehow this is the bill in which we should settle California water issues. I find it rather interesting in February of last year when we passed the South Orange County Recycled

Water plan for Mr. CALVERT there was no discussion of this. There was no suggestion of amendments. There was no suggestion that this was high noon on California water.

When we passed the Lake Hodges Surface Water Improvement Act in April for Mr. BILBRAY, no discussion of amendments, no need to settle these issues here. They never asked for time. They never asked for amendments. They didn't ask for a vote. They did it unanimously and by voice vote.

The Magna Water District for Mr. CHAFFETZ in Utah, no suggestion that we should take the Utah bill and battle it out over California water. No suggestion that somehow we were going to do something other than that.

In September, just a month ago, with Mr. GALLEGLY, for the Calleguas Municipal Water District, no suggestion of this. No requests for amendments. No debate in the committee on this.

And then, again, last month, Mr. WALDEN from Oregon, no suggestion we're going to take the Oregon bill and settle the California issue. Why? Because we know what's going on in California. We have a very difficult complex problem. The legislature, our State legislature, has been struggling with it for 2 years. They're in special session right now. They're locked in, and they don't know whether they will have the votes or not to do that. But people are getting together to try to solve it.

When this new administration came in, because I don't remember you asking for this in the first year of the drought or the second year of the drought or going into the third year of the drought, but Mr. Obama's been in town, what, 10 months, and somehow it's his problem. But when his administration did come to town, and when he did have a Secretary of the Interior and he did have a Secretary of Commerce, they immediately focused their attentions on this problem. And what did they do? They met with a cross section of our delegation to see how they could bring the Department of Commerce, the Department of the Interior together, the Bureau of Reclamation, the Fish and Wildlife Service. They sent millions of dollars to the valley to try to give relief to the farmers. They've supported our efforts.

I've supported the efforts to change the law that I wrote 10 years ago, 20 years, so we can have water transfers from east to west in the valley. That's people working together. That's not people just standing back and sniping at bills as they come through and pretending like they want to make policy or they want to change policy that's just political sniping. But it's interesting that they chose not to snipe on any Republican bills. They just decided they would snipe on this bill.

But at the end of the day, at the end of the day, this legislation is about

whether or not we can move California into the future, whether or not we can continue to have economic growth, whether or not we can use the technology that's now available to us to provide for recycling, to provide for reuse of water. This bill alone supplies enough water for 24,000 households. That's not counting the legislation that we've provided for southern California, for Orange County, for San Diego, for San Bernardino and the projects that are waiting.

This bill was criticized because there's a \$600 million backlog because the last administration would never release any money. We would have loved to have had the attention. We would have loved to have had the attention of the Bush administration's Secretary of the Interior to help solve this problem. What did she do? What did he do? They let some Under Secretary wander around changing the science, so we lost almost 18 months and we had to go back to redo all of the science because they changed it and they got caught at it. Criminal charges were pending at one point.

So what are we talking about here? The suggestion that somehow this all comes together around this bill is to forget history, to forget the inattention to this problem we've dealt with over the last 8 years, and to suggest that somehow that this can all be settled here. What this bill can do is make a major contribution to relieving the urban pressure on the system by creating this reuse and recycling of water.

□ 1600

And that's what the projects that my colleagues on the other side of the aisle, that's what they were contributing. This was one piece; we hope it grows. We think it will become more valuable.

It is bipartisan and has been from the very beginning. When I asked for stimulus money to go to recycling, I asked the administration, I said, do it on the basis of their priorities, do it as they're standing in line. Some cities have been waiting a long time for this; they may be further along. Just let them come as they come up in line.

This isn't partisan; this is about whether or not people want to solve problems. You want to make political points, all well and good; but the circumstances won't change, the circumstances won't change across our State.

H.R. 2442 is supported by a number of agencies, municipalities and organizations, including: Association of California Water Agencies, Metropolitan Water District of Southern California, Central Contra Costa Sanitary District, Dublin San Ramon Services District, City of Mountain View, Redwood City, City of Palo Alto, WaterReuse Association, Bay Area Recycled Water Coalition, Delta Diablo Sanitation Dis-

trict, Iron House Sanitary District, City of Petaluma, Santa Clara Valley Water District, North Coast County Water District, and City of San Jose.

OCTOBER 5, 2009.

Representative GEORGE MILLER,  
*Rayburn House Office Building,*  
*Washington, DC.*

DEAR REPRESENTATIVE MILLER: The Association of California Water Agencies (ACWA) is pleased to write in favor of H.R. 2442, legislation to expand the Bay Area Regional Water Recycling Program. As you know, ACWA's 447 public agency members are collectively responsible for 90 percent of the water delivered in California for residential and agricultural uses.

Since H.R. 2442 contains local projects with regional as well as national benefits, the legislation meets the criteria established in our blueprint "No Time to Waste: A Blueprint for California Water". In particular, the projects in H.R. 2442 will allow for a direct response to help mitigate current and devastating drought impacts in California. In this regard, ACWA encourages the House of Representatives to move expeditiously and pass important water recycling project legislation.

As California's water supply challenges multiply, ACWA appreciates your efforts to provide federal resources for local projects to assure water supply reliability. Thank you for sponsoring this legislation.

Sincerely,

TIMOTHY QUINN,  
*Executive Director,*  
*Association of California Water Agencies.*

THE METROPOLITAN WATER  
DISTRICT OF SOUTHERN CALIFORNIA,  
*Los Angeles, CA, October 6, 2009.*

Hon. GEORGE MILLER,  
*House of Representatives,*  
*Washington, DC.*

DEAR REPRESENTATIVE MILLER: The Metropolitan Water District of Southern California is very pleased to support an increase in resources for the Bureau of Reclamation's local water supply development program under Title XVI, as authorized by Congress.

Metropolitan believes that local water supply projects and expansion of the Title XVI grant funding program are essential. This is especially the case as California continues to aggressively pursue comprehensive policy and infrastructure solutions to address the challenges of chronic drought and restricted water supply conditions throughout the state. The development of new and expanded local water supply projects is key to addressing these critically important water supply issues including projects such as the design, planning and construction of recycled water distribution systems, such as those included in H.R. 2442, which include regional and national benefits.

Your continued leadership and efforts on California's critically important water supply issues are greatly appreciated.

Sincerely,

JEFFREY KIGHTLINGER,  
*General Manager.*

OCTOBER 5, 2009.

Congressman GEORGE MILLER,  
*House of Representatives,*  
*Washington, DC.*

DEAR CONGRESSMAN MILLER: On behalf of the WaterReuse Association, a national association representing more than 180 public water agencies and 375 organizational members dedicated to the advancement of using limited water supplies efficiently and safely,

I am writing to express our deep concern over the recent House floor debate on water recycling legislation. Specifically, we are alarmed that the authorization of Title XVI water recycling projects whose purpose is to enhance the availability of a safe and reliable water supply to local communities, have become ensnared in the ongoing disputes surrounding restoration of the California Bay-Delta. We urge the House of Representatives to move expeditiously and debate and pass pending water recycling project legislation, including H.R. 2442. These projects will allow for a direct response to the impacts of the ongoing drought currently being experienced in California and other western states.

We appreciate that the drought has wreaked havoc on the lives of many residents throughout the arid West. Clearly, the events surrounding the operation of the federal and state water projects in California serve to spotlight the challenges created by the drought. We were encouraged by the recent commitment of Secretary of the Interior Salazar to increase efforts to put in place responses that will alleviate the impacts on the Bay Delta. However, we believe that a powerful tool exists to address water scarcity, namely water recycling projects that can create water supply in an environmentally protective and sustainable manner. With a small federal contribution, these projects have demonstrated that they can deliver water and reduce demand on limited water supplies. It is to no one's advantage to hold hostage the authorization of these kinds of projects because of disputes over the operation of federal water projects. Indeed, we believe it only serves to exacerbate the very problem all of us are seeking to resolve—to reduce the impacts of the drought and provide safe, reliable, and sustainable water supplies to our communities, industries, and agricultural interests.

Again, we are strongly supportive of timely consideration and passage of Title XVI water recycling project authorizations by the House of Representatives.

Sincerely,

G. WADE MILLER,  
*Executive Director,*  
*WaterReuse Association.*

OCTOBER 5, 2009.

Subject: Support for H.R. 2442, Bay Area Regional Water Recycling Program Expansion Act of 2009.

Hon. GEORGE MILLER,  
*House of Representatives,*  
*Washington, DC.*

DEAR CONGRESSMAN MILLER: On behalf of the Bay Area Recycled Water Coalition, a partnership of eleven public agencies committed to developing recycled water as a resource for over six million residents of the counties we serve in the San Francisco Bay area, I'm writing to thank you for introducing H.R. 2442, the Bay Area Regional Water Recycling Program Expansion Act of 2009.

As California continues to experience drought conditions, increased demand for water, and strain on the Delta ecosystem, alternative water supplies like those authorized in H.R. 2442 provide a long-term sustainable solution essential to California's economy. The six additional water recycling projects authorized in H.R. 2442 would provide in excess of 7 million gallons of drought-tolerant water per day. This will result in reduced demand from Bay Area communities on scarce fresh water from the Delta. These projects will also support over 3,500 direct, indirect and induced jobs.

The Bay Area Recycled Water Coalition members remain committed to our proven partnership with the Federal Government to provide a long-term sustainable solution to California's water challenges. We strongly support H.R. 2442, and look forward to continuing to work with you as we develop new water supplies for California.

Sincerely,

GARY W. DARLING,  
General Manager,  
Delta Diablo Sanitation District.

SOUTH BAY WATER RECYCLING,  
San José, CA, October 5, 2009.

Congressman GEORGE MILLER,  
House of Representatives,  
Washington, DC.

DEAR CONGRESSMAN MILLER: On behalf of the City of San José, I am writing to thank you for introducing H.R. 2442, your bill authorizing the use of federal funds to support additional water recycling projects in the San Francisco Bay area, and to lend our support to your efforts to have it reconsidered at the earliest appropriate opportunity.

The City of San José operates the largest urban nonpotable water recycling facility in northern California. Each year South Bay Water Recycling supplies nearly 600 Silicon Valley schools, parks, businesses and industries with over 10,000 acre-feet of high-quality recycled water, conserving drinking water that can be used for other purposes. Over the past 15 years we have invested over \$200 million in local funds in this system, and received more than \$30 million in Title XVI grants from the Bureau of Reclamation. Furthermore, as a founding member of the Bay Area Recycled Water Coalition (a partnership of eleven public agencies) San José is committed to assisting other communities in the Bay area to develop this important resource, and we encourage you to continue to fund and expand this important stimulus to local investment.

Recycled water is sustainable water, and the only new water available to help California and other western states deal with the combined pressures of drought and population that threaten to exhaust our existing supplies. We understand that much additional work needs to be done by Congress, by Interior Secretary Salazar and others to develop a comprehensive approach to supplying water to the western United States, including an integrated program to protect and restore the Bay-Delta system. However, in our opinion any sustainable solution will necessarily include intensive use of recycled water as the most reliable source of water currently available, including the nearly seven million gallons of water per day produced by the projects authorized in H.R. 2442.

Thank you again for your steadfast support for these important programs.

Sincerely,

JOHN STUFFLEBEAN,  
Director, Environmental Services,  
City of San José.

Mr. RADANOVICH. Mr. Speaker, I am opposed to the closed rule and passage of H.R. 2442, the Bay Area Regional Water Recycling Expansion Act of 2009. My opposition to H.R. 2442 is not due to the projects authorized in the legislation—they are meritorious projects, worthy of consideration by this body. However, the San Francisco Bay area is not the only area in California that needs additional water. Only 2 hours away from San Francisco, California's Central Valley is literally dying of dehydration and yet this Congress has ignored every plea for help from the people of the val-

ley and those of us who are fortunate enough to represent that region.

The San Joaquin Valley is the fruit-basket of the Nation, producing over half of the fruits and vegetables consumed in America. Ninety-nine percent of all almonds and walnuts are produced in the Central Valley, while over 90 percent of tomatoes, pistachios, plums and strawberries are produced in the State of California. However, without water for the farmers the whole Nation suffers. Without California's agriculture production, there is a significant national security risk—we would be forced to import foreign produce that does not meet the same quality and food safety standards that California produce does.

Because of radical environmentalists and the actions of Federal agencies based on unreliable and questionable science, the San Joaquin Valley is now suffering from a man-made drought. Hundreds of thousands of acre feet of water that was formerly delivered to the farmers in the Central Valley are being sent to the ocean in an attempt to protect a 3-inch minnow, the Delta Smelt. Ironically, while the restrictions on pumping are doing nothing to stop the declining numbers of Delta Smelt, they are significantly contributing to the declining number of farmers and jobs in the San Joaquin Valley. Farmers must come before fish.

I offered two amendments to this bill which would have assured that the urgent needs of the San Joaquin Valley are met, through the Two Gates project in the delta and temporarily waiving the Endangered Species Act to increase delta water deliveries for storage in the San Joaquin Valley. Neither of my amendments would have authorized the spending of taxpayer dollars. Once again the Democratic leadership in the House of Representatives denied these amendments, denying relief to the ravaged San Joaquin Valley.

Time and time again during this Congress my valley colleagues and I have offered bills and amendments to address the government created drought in the San Joaquin Valley and time and time again we have been denied the courtesy of a simple legislative hearing, let alone a markup or vote. After so many attempts to save California agriculture, I am left with no alternative but to believe that the Democrat leadership of this Congress, under direction from environmentalists, is bent on destroying the largest economic engine in California.

There is always a lot of talk about special interests controlling policy decisions in Congress, and I would be remiss not to say that the elite environmental community is one of the largest and currently most influential special interests around. They have worked very hard and spent a lot of money to ensure that a 3-inch fish has more rights than the farmers and farm workers in my district. To me, and any American with an ounce of common sense, that action is absolutely unconscionable, but apparently not to the majority of Congress.

The water crisis in California must be addressed in a holistic manner and while I am more than happy to sit down with my colleagues on the other side of the aisle to work on long term solutions to California's aged water infrastructure system, the people of the

valley need help now. Therefore, I am opposing this bill because it contains \$38 million worth of projects that benefit the San Francisco Bay area while denying projects that would not cost any taxpayer dollars and would benefit the distressed San Joaquin Valley.

Mr. Speaker, for these reasons I oppose both the rule and the passage of H.R. 2442 and urge my colleagues to join me.

Mr. CARDOZA. Mr. Speaker, I rise today in strong opposition to this rule.

We have heard a lot of debate this year about California's water crisis.

We are suffering from our third year of drought, and the situation has been compounded with a "regulatory drought" that has restricted our ability to deliver water even when it is available. Over 40,000 people are out of work, over 500,000 acres of some of the world's most productive farmland have been fallowed, farmworkers are now standing in food lines, people are losing their homes, and more importantly people are losing their hope, all because of a lack of water.

The Federal Government is in part responsible for the regulatory drought, and it is time for the Federal Government to take action to address this crisis.

I support this underlying bill, Mr. Speaker. But quite frankly, I am completely fed up with the lack of a response to our water crisis in the San Joaquin Valley.

My definition of "crisis" is a disaster that requires an immediate response. The fact is, there still is no immediate response—in fact there is hardly even any response. And it's high time that the Federal Government admits that not enough is being done to address the valley's water needs.

In fact, I have with me a list of 26 projects that the Federal Government can work with us on to relieve the pressure that the lack of water has created on the valley.

My friends and colleagues from the San Joaquin Valley, Mr. RADANOVICH and Mr. NUNES, offered amendments in Rules Committee last night but they were not made in order.

My folks need relief. They are suffering and can't wait any longer. And farmers in the valley have planting decisions to make in the near future. They simply can't go through another farm season not knowing if they will have any water.

Mr. RADANOVICH and Mr. NUNES deserve to have their amendments on the floor today. Their amendments would have ended this regulatory drought once and for all and provided much-needed relief to our farmers.

Because San Joaquin Valley farmers are prevented from getting the water they so desperately need, I urge all of my colleagues to oppose this rule.

#### ACTIONS AND PROJECTS TO ADDRESS CALIFORNIA'S WATER SUPPLY CRISIS

Reconsultation of FWS and NOAA Biological Opinions.

Undertake a National Academy of Sciences 6-month review of all the factors in the decline of the Delta.

2-Gate Fish Protection Demonstration Project—coordination and funding.

Delta Mendota Canal and California Aqueduct Intertie—coordination and funding.

Completion of a long-term, multi-year water transfer program.

Develop a program to coordinate schedules on North to South transfers.

Support permanent reform of intra county East-West transfers within the CVP.

Patterson Irrigation District Pumping Plant and Fish Screen.

Patterson Irrigation District Pipeline Project.

Diversify Level 2/Level IV Refuge Program.

Announce 2011 rescheduled water decision in the Spring, 2010.

Additional federal support for the Westside Water Use Efficiency and Conservation program.

Support the removal of restrictions under the Emergency Drought Relief Act which restrict funds to temporary projects.

Mendota Dam Replacement.

San Luis Drain Rehabilitation.

Allow the use of Whiskeytown Reservoir to be used to meet the water supply needs of the most impacted areas.

Work in collaboration with the state on the development of a long term Joint Point of Diversion program.

Friant-Kern and Madera Canals Capacity Correction.

Friant-Kern Canal Reverse Flow.

Pipeline Replacements in the San Luis Unit.

Westlands Water District Reclamation Project for drainage impacted areas and reclamation of poor groundwater.

West Stanislaus Irrigation District fish screen and pipeline.

Stockton East Water District intake structure and fish screen.

Merced Irrigation District New Exchequer Dam Spillway Modification Project.

Semitropic-Rosamond Water Bank Authority Antelope Valley Water Bank Initial Recharge and Recovery Facility Improvement Project.

Semitropic Water Storage District Pond-Poso Spreading and Recovery Facility.

Ms. RICHARDSON. Mr. Speaker, I rise today in strong support of H.R. 2442, the Bay Area Regional Water Recycling Program Expansion Act of 2009, which will provide Californians 2.6 billion gallons of water per year, enough to meet the needs of 24,225 households, and should create at least 3,600 jobs. It is a concrete example of the sustainable solutions we should be looking for to address drought and promote economic development.

I would like to thank Chairman RAHALL for his skill and leadership in shepherding this bill to the floor. I would also like to thank my colleague, Chairman MILLER, for skillfully crafting such an imaginative and workable solution to one of the critical challenges facing California and other western States.

Mr. Speaker, the Bay Area Regional Water Recycling Program Expansion Act authorizes federal assistance for six recycling projects that are estimated to create more than 8,000 acre-feet of water annually by 2010, and more than 14,000 acre-feet annually by 2025. Additionally, the legislation is crafted so that fresh water withdrawals from the Sacramento-San Joaquin Delta are limited and treated wastewater discharges into the San Francisco Bay or the Sacramento-San Joaquin Delta are reduced. The cost to the federal government to realize all these benefits is only 25 percent of the total cost of a project.

Finally, this legislation is endorsed by many local government and water management organizations, including the Association of Cali-

fornia Water Agencies, WaterReuse Association, Metropolitan Water District of Southern California, Central Contra Costa Sanitary District, Dublin San Ramon Services District, City of Mountain View, Redwood City, and the City of Palo Alto.

In conclusion, Mr. Speaker, I support this bill because it will create badly needed jobs while replenishing clean water supplies. This legislation is another example of how the new majority is making good on the promise to chart a new direction for our Nation. I want to thank Chairman MILLER again for his leadership in crafting this extraordinary legislation that has my full support.

Mr. Speaker, I urge my colleagues to join me in supporting H.R. 2442. I yield the remainder of my time.

Mr. GEORGE MILLER of California. I urge all of my colleagues to support this legislation, and I yield back the balance of my time.

The SPEAKER pro tempore. All time for debate has expired. Pursuant to House Resolution 830, the previous question is ordered on the bill, as amended.

The question is on the engrossment and third reading of the bill.

The bill was ordered to be engrossed and read a third time, and was read the third time.

#### MOTION TO RECOMMIT

Mr. NUNES. Mr. Speaker, I have a motion to recommit at the desk.

The SPEAKER pro tempore. Is the gentleman opposed to the bill?

Mr. NUNES. In its current form, yes.

The SPEAKER pro tempore. The Clerk will report the motion to recommit.

The Clerk read as follows:

Mr. NUNES moves to recommit the bill H.R. 2442 to the Committee on Natural Resources with instructions to report the same back to the House forthwith with the following amendment:

At the end of the bill, add the following:

#### SEC. 4. CENTRAL VALLEY PROJECT.

(a) NO RESTRICTION, REDUCTION, OR REALLOCATION OF WATER.—Notwithstanding any other provision of law, the Secretary of the Interior, acting through the Commissioner of the Bureau of Reclamation, may not use discretion to restrict, reduce or reallocate any water stored in Central Valley Project Reservoirs or delivered pursuant to Central Valley Project contracts, including execution of said contracts facilitated by the W.C. “Bill” Jones Pumping Plant, to meet the requirements of the Endangered Species Act of 1973, unless such water is acquired or otherwise made available from a willing seller or lessor and the use is in compliance with the laws of the State of California, including but not limited to, permitting requirements.

(b) BIOLOGICAL OPINIONS.—For the 2 years immediately after the date of the enactment of this Act, complying with the reasonable and prudent alternatives or reasonable and prudent measures and the incidental take limits defined in the biological opinions that immediately preceded the biological opinions issued by on December 15, 2008, by the United States Fish and Wildlife Service on the effects of the Proposed Coordinated Operations of the Federal Central Valley Project and the California State Water

Project on the threatened delta smelt (*Hypomesus transpacificus*) and the biological opinion issued on June 4, 2009, by the United States National Marine Fisheries Service Biological Opinion on the Long-Term Central Valley Project and State Water Project Operations Criteria and Plan shall constitute compliance with all requirements of the Endangered Species Act of 1973 (16 U.S.C. 1531 et seq.).

(c) APPLICABILITY.—This section applies only to those Federal agency and non-Federal actions related to the coordinated operations of the Central Valley Project and the California State Water Project.

#### POINT OF ORDER

Mr. GEORGE MILLER of California. Mr. Speaker, I raise a point of order that the motion to recommit contains a nongermane instruction in violation of clause 7 of rule XVI.

The SPEAKER pro tempore. The gentleman from California raises a point of order. Does any other Member wish to be heard on the point of order?

Mr. NUNES. Yes.

The SPEAKER pro tempore. The gentleman from California is recognized.

Mr. NUNES. Mr. Speaker, the motion to recommit I have is pretty simple. In fact, what we have before us is legislation that is identical to legislation that this Congress passed in 2003 with overwhelming bipartisan support, so I would hope that you would make it germane.

The SPEAKER pro tempore. Are there any other Members that wish to speak?

Mr. GEORGE MILLER of California. Mr. Speaker, I insist upon my point of order. That action by the previous Congress does not make it germane to this legislation.

The SPEAKER pro tempore. The Chair is prepared to rule.

The gentleman from California (Mr. GEORGE MILLER) makes a point of order that the amendment offered by the gentleman from California (Mr. NUNES) is not germane.

The bill, H.R. 2442, amends the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program. The bill authorizes six new water recycling partnerships and modifies two existing partnerships.

The amendment offered by the gentleman from California seeks to address water availability related to the Central Valley Project.

Clause 7 of rule XVI, the germaneness rule, provides that no proposition on a “subject different from that under consideration shall be admitted under color of amendment.”

One of the central tenets of the germaneness rule is that an amendment should relate to the subject matter of the underlying measure.

The bill is confined to water recycling projects within a specific geographic area. The amendment addresses water availability related to the Central Valley Project. By addressing this topic, the amendment falls outside

the ambit of the underlying measure and is not germane.

The point of order is sustained.

Mr. NUNES. Mr. Speaker, I appeal the ruling of the Chair.

The SPEAKER pro tempore. The question is, Shall the decision of the Chair stand as the judgment of the House?

#### MOTION TO TABLE

Mr. GEORGE MILLER of California. Mr. Speaker, I move to table the appeal of the ruling of the Chair.

The SPEAKER pro tempore. The question is on the motion to table.

The question was taken; and the Speaker pro tempore announced that the ayes appeared to have it.

Mr. NUNES. Mr. Speaker, on that I demand the yeas and nays.

The yeas and nays were ordered.

The SPEAKER pro tempore. Pursuant to clause 8 and clause 9 of rule XX, this 15-minute vote on the motion to table will be followed by a 5-minute vote on passage of the bill, if arising without further proceedings in recom-mittal.

The vote was taken by electronic device, and there were—yeas 237, nays 176, not voting 19, as follows:

[Roll No. 788]

□ 1635

Mrs. BONO MACK changed her vote from “yea” to “nay.”

So the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## PERSONAL EXPLANATION—

Mr. CONYERS. Mr. Speaker, on October 15, 2009, I was unable to cast votes, due to personal reasons. I was not present for rollcall votes 788 and 789. Had I been present, I would have cast a “nay” vote on the motion to recommit H.R. 2442 and I would have voted “yea” on final passage of H.R. 2442, the Bay Area Regional Water Recycling Program Expansion Act of 2009.

## PERSONAL EXPLANATION—

Mr. BOYD. Mr. Speaker, due to personal reasons, I was unable to attend to votes this week. Had I been present, my votes would have been as follows: “Yea” on H. Res. 800; “yea” on H.R. 2892; “yea” on H.R. 2423; and “yea” on H.R. 2442.

## LEGISLATIVE PROGRAM

(Mr. MCCARTHY of California asked and was given permission to address the House for 1 minute.)

Mr. MCCARTHY of California. Mr. Speaker, I yield to the gentleman from Maryland, the majority leader, for the purpose of announcing next week's schedule.

Mr. HOYER. I thank the gentleman for yielding.

On Monday, the House will not be in session. On Tuesday, the House will meet at 12:30 p.m. for morning-hour debate and 2 p.m. for legislative business with votes postponed until 6:30 p.m. On Wednesday and Thursday, the House will meet at 10 a.m. for legislative business, and on Friday, the House will meet at 9 a.m. for legislative business.

We will consider several bills under suspension of the rules. The complete list of suspension bills, as is the custom, will be announced by the close of business tomorrow.

In addition, we will consider H.R. 3585, the Solar Technology and Roadmap Act of 2010, sponsored by GABRIELLE GIFFORDS, and H.R. 3619, the Coast Guard Authorization Act of 2010. In addition, we may consider Senate amendments to the House unemploy-

ment extension legislation, assuming that is passed by the Senate.

Mr. MCCARTHY of California. Reclaiming my time, I thank the majority leader for that information. And knowing from time to time we do this, in watching the colloquy that you do with our whip, Mr. CANTOR, I know last week you told him not to expect the health care bill on the floor until the last week in October at the earliest.

Do you still think this is the case, the last week of October?

Mr. HOYER. I certainly think it's the case not to expect it before the last week in October.

As I've indicated in the past, we intend to give 72 hours' notice of having the bill posted for the public and for Members prior to bringing it to the floor. We are still working to bring that bill to a point where CBO can give us a final score. We believe CBO is going to take probably a week to maybe a little longer than a week. So it certainly would not be before the last week in October, and it may well be the first week in November.

Mr. MCCARTHY of California. I thank the gentleman.

I just want to make sure I heard correctly. You will wait until the bill is scored and you will allow 72 hours for the public to also be able to view and read the bill; is that correct?

Mr. HOYER. We will wait 72 hours until after the bill is posted. Now, I don't think I said that that necessarily will be after the scoring. But essentially, we don't think we're going to post the bill until the scoring. If, however, for some reason there was somewhat of a delay in scoring but we had the majority of it and posted the bill, the 72 hours will run from the posting of the bill.

In addition, Mr. MCCARTHY, what I indicated last week, and we still will hold to, if there is a manager's amendment, as there may well be, we will also assure that there is 72 hours from the posting of the manager's amendment. Now, if the manager's amendment and the bill are posted at the same time, obviously that would be the same 72 hours. If, on the other hand, the manager's amendment is posted a day or so later, then the 72 hours would run from the posting of the manager's amendment.

It is our intent to make sure that everybody has 72 hours to review whatever legislation and/or amendments will be considered on the floor.

Mr. MCCARTHY of California. I thank the gentleman for that.

The only thing I would follow up to that and ask, knowing some of the behavior on some of the other bills and some of the concerns that people had of when they were posted—some posted at 3 o'clock in the morning when the Rules Committee filed when it came to Energy and Commerce and the cap-and-trade bill—when you count the 72

hours, would this be like business hours? Like, if it's late into the night, can we wait until the morning so people will have the ability to start the clock?

I yield to the gentleman.

Mr. HOYER. We're not going to do 72 business hours. We're going to do 72 hours. We're going to have the full 3 days if people want to read the bill. If they want to read it at night, they can do that. If they want to read it on Saturday or Sunday, they can do that.

But it was a good try.

Mr. MCCARTHY of California. I'll just ask the gentleman, knowing the size that this bill will be, one, to make sure that we have a scoring; two, the amount that the American public has been engaged in this process from the town hall meetings that many people have had and the knowledge of what they have in going forward and knowing the changes that have been talked about; but three, not from a Republican side or Democrat side, but truly, when I sat and listened to the town hall meetings, one of the frustrations they had with this House—I know people think process is wrong—is the transparency. And I applaud you for telling us the 72 hours. I would just ask the majority to be cognizant of what happens if you start the clock at 5 o'clock in the morning, you start the clock at 3 o'clock in the morning, the public has a real concern about that, and we would as well.

Mr. HOYER. Will the gentleman yield?

Mr. MCCARTHY of California. Gladly.

Mr. HOYER. I appreciate what the gentleman has said; however, the gentleman, I am sure understands, the overwhelming majority of this bill will have been on the Web site since July.

□ 1645

The overwhelming majority of this bill, it's going to be a new bill and will have a new number, but this has been probably the most transparent, reviewed bill in the 29 years that I have been in the House of Representatives, I will tell my friend. As you know, we've been working between the House and the Senate. I've had discussions with Mr. CANTOR and others on your side. We haven't reached any agreement, as the gentleman knows. I'm sorry about that. But I want to say in all honesty, I can't remember a bill in my 29 years in the House of Representatives that has had more review, more discussion, more people involved in town meetings around this country, more discussion in the media, and has been longer on the Internet for review from beginning to end than this particular piece of legislation.

So I think when we talk about transparency, this bill has probably been the most transparently considered bill that I have been involved in in my tenure here.

I thank the gentleman for yielding.

Mr. MCCARTHY of California. I thank the gentleman.

I do agree with the gentleman that the public has been very aware of this bill. The gentleman is saying that the majority of this bill is going to be the same as H.R. 3200, but you may change the number, and knowing that the public has—

Mr. HOYER. Will the gentleman yield?

Mr. MCCARTHY of California. I yield.

Mr. HOYER. I want to be accurate, and I want to characterize it as I did characterize it. Clearly, many of the proposals that came out of the Ways and Means Committee, the Energy and Commerce Committee and the Education and Labor Committee will be very much alike, or similar to, what will be in the bill that is put together from those three committees. I think that would not come as a surprise to anybody.

Will there be, as we put these together, some changes perhaps from what was in the original three bills? There may be. My point was, and I think it is valid, is that the overwhelming majority of the proposals that will ultimately end up either in the Senate or the House bill have been available to the public for a long period of time, either in the HELP bill out of the Health, Education, Labor and Pension Committee of the Senate, or in the Senate Finance Committee, of course, has been a shorter time because they have just completed their work. But it is certainly not going to be H.R. 3200; it will be an amalgam, and it will have incorporated many of the additional thoughts and comments that we've received from the public during the month of August, September and frankly since July.

I thank the gentleman for yielding.

Mr. MCCARTHY of California. I thank the gentleman.

The gentleman talks about the three committees, Ways and Means, the Energy and Commerce and the Education and Labor, and that bill that they took up was 3200. And you say there might be some other debate. Just to remind the gentleman, that bill didn't take effect, the actions within health care, until 2014, but the taxes and the Medicare cuts took effect next year. So I just want to stress the point that we have 72 hours in making sure, in business time, that people can see it.

The gentleman says it is going to change, and you have public out there, and the public has knowledge of H.R. 3200, that they can be able to see whatever changes. So very cognizant of not being someone running the clock late at night while people are sleeping, I understand time difference. I come from California. But the most open transparency we could would really be one that would bring respect back to this House.

I thank the gentleman for talking about that.

I do have another thing I would like to talk to the gentleman about. You always hear rumors. That's what's nice to have this colloquy, to try to make sure we get them, if they are right or if they are wrong. I have heard rumors during the week of a plan to attach that D.C. voting bill that we all know about to the Department of Defense appropriation conference report. That would be of concern to me because it would be showing a propensity to use our men and women in uniform to carry controversial legislation, much like a debate we had last week. So my question to you is, when do you expect this conference report to come to the floor?

And the second part would be, will it include the D.C. voting bill as rumored?

I yield to the gentleman.

Mr. HOYER. I can't tell you when it will come to the floor. As you know, the Senate just passed it recently, the latter part of last week or the beginning of this week, I think, and we have not appointed conferees. So I can't give you the answer, really, to either question, because we don't have conferees appointed as it relates to the D.C. bill, as you know.

We have talked about the Defense bill. We have an Armed Forces. The Armed Forces is dedicated to the defense of freedom and the preservation of democracy. We have lost over 4,500 troops in Iraq. The people of Baghdad can elect members of their parliament today because our young men and women, and some not so young, fought, and too many died so that the people of Baghdad could elect a voting member of their parliament.

It is somewhat ironic that in the symbol of democracy around the world, that our fellow citizens, some 600,000 of them, don't have a voting representative in their parliament, the House of Representatives, the people's House. I think that's an egregious undermining of the principles for which our men and women fight, for which we stand and to which we have pledged support of our Constitution. Now whether or not that will be included in the Defense bill, it is about democracy. It is about participation. It is about respect.

I will tell my friend, I don't know whether that's going to be. I've heard some discussion about that myself. But whether it is or not, I will tell my friend that I will continue to fight as hard as I can to try to figure out how I can bring that bill to the floor, get it to a vote, and give the people of the District of Columbia, our fellow citizens, the right to vote as the citizens in Baghdad can do, the citizens in Moscow can do, the citizens in every free country in the world except the United States of America, can do. I think that's a blot on our democracy. I would

hope that we would erase that blot as soon as we can in any way that we can.

I yield back to the gentleman and thank him for yielding.

Mr. MCCARTHY of California. I thank the gentleman for his passion and the answer, but should I take it that that is still a possibility, then?

Mr. HOYER. Most things are possible.

Mr. MCCARTHY of California. One thing I would offer to the gentleman, the passion which you started speaking when you talked about the troops, I will never question your passion for the troops. I haven't been in this House long. This is my third year. When I come into this building, I still get goose bumps. I know we have our philosophical differences. I think they are constructive. I think debates are constructive. But the one thing I firmly believe, when we talk about the Department of Defense, when we talk about the fact that we have men and women in harm's way, we should never play politics with it.

I will make this pledge to you. When you talk Department of Defense and you talk about funding supplementals and others, I won't come here as a Republican. I will come here as an American. And the more ability that we have to not put anything within that, I would guarantee you, you would have a much greater ability to work together to make sure our men and women have whatever they need to carry out whatever mission.

Mr. HOYER. Will my friend yield?

Mr. MCCARTHY of California. Gladly.

Mr. HOYER. I appreciate that representation. I pose a question to my friend.

Would he help me bring the District of Columbia bill to the floor as a clean bill on the question of whether the citizens of the District of Columbia's representative ought to be able to vote as every one of us can on this floor?

Mr. MCCARTHY of California. If the gentleman from across the way in the majority would ever let me have the gavel, I will guarantee you, I could bring a lot of bills to the floor.

Mr. HOYER. That was not an answer to my question, I respectfully suggest to you. It was a serious question.

The reason the hate crime bill was on the armed services bill, which it shouldn't have been, it was because we couldn't get 60 votes to bring it up on the floor, notwithstanding the fact that the majority of the Senate and the majority of the House supported that bill.

The gentleman talks, very persuasively in my view, about bringing up bills in the proper order. The problem is, very frankly, we don't have the Interior bill this week and we don't have some other bills because frankly we can't get 60 votes to consider them on the floor of the United States Senate. I

think that is lamentable. It's also unfortunate.

Mr. MCCARTHY of California. I would add to the gentleman, I know you know numbers. You got elected majority leader. You have more than 218. There's 178 on this side. You have the power I never had when we were here to schedule this floor at any time. You have the power to schedule this floor. You have the power to move forward. When I asked you about at the very beginning as we talk about our troops, let's make sure we have a very clean bill is the desire on this side of the aisle.

Mr. HOYER. Again, if you will yield, what I was responding to is your observation about a clean bill. My response was, would the gentleman work with me to perhaps get both of our sides to vote on a rule that provides for a clean consideration of whether or not the representative of 600,000 of our fellow citizens who live in the capital of the United States of America, the symbol of democracy throughout the world, but who do not have a voting representative, would my friend help me do that? Because I haven't been able to do it. With all that power you think I have and with the gavel that you think we have, we haven't been able to that.

Would you help me do that?

Mr. MCCARTHY of California. To the gentleman, I will always help you work because you explain to me each and every day, and you show us each and every day from the committee to the bill we took up today on the floor when it came up about water. You have the power of the Rules Committee. If you can guarantee me that it's an open rule when it comes to the floor and has open debate, the idea that the Founding Fathers, the idea that the dome of this Capitol, it's the second dome, when did they start building it? During the Civil War, not even knowing if this country would come together. But the idea that the power of this floor, that the idea would be able to work—

Mr. HOYER. Do you know who helped build this dome? Slaves. We thought that was wrong.

Mr. MCCARTHY of California. The only person who could actually put the very top together was a slave, because we bought it from the French, and they wanted more money to put the directions together. A slave sat inside and put that monument together. And that's what this body was built on.

I yield to the gentleman.

Mr. HOYER. My comment is a very simple question, and you wanted to have an open rule.

Mr. MCCARTHY of California. I want an open rule. Is that unfair? We just talked about transparency, sir.

Mr. HOYER. I'm talking about the Defense bill and your concern about D.C. vote being added to the Defense bill. My retort to you, because you wanted the Defense bill clean to deal

just with the subject matter of defense. That's as I took your question. My response to you was, I think that's a good point.

Would you help me, then, do the same for the D.C. bill, which also stands for democracy, clean, not obstructed by issues which are obviously very controversial, which are not consistent with considering simply the very simple, straightforward question, do the 600,000 citizens of the District of Columbia, American citizens, our neighbors, have the right as our citizens have, of having us have a vote that counts on the floor of the House of Representatives? That's all I was responding to.

Mr. MCCARTHY of California. And I was telling you, I will be more than glad to help you as long as it is a clean bill, that you have an open rule, the way the American public believes this floor is supposed to be run, that people could have power of the idea, could actually raise an issue and raise a debate.

I thank the gentleman for the colloquy. But the one thing I would like to lead in with is the last couple of questions. This week the House overwhelmingly voted for the BARNEY FRANK-authored Iran Sanctions Enabling Act. I know you put out a press release about the strong message to Tehran that unless it abides by its international norms, its economic isolation will continue. On the same day we passed the Frank bill, news reports from Moscow indicated that Russia has no stomach for further sanctions against Iran.

Given your praise for the Frank bill and the fact that Russia feels unwilling to go along with new sanctions, is it your intention not to consider Chairman HOWARD BERMAN's Iran sanctions bill this year?

Mr. HOYER. I expect to consider it. The chairman has announced that he expects to consider that, not next week but the week after. I have told the chairman, as I told Mr. CANTOR last week, that I expect to bring it to the floor shortly after it's passed out of committee.

Mr. MCCARTHY of California. So should I assume by the end of October, or am I missing something?

Mr. HOYER. He says not next week but the week after. And whenever he passes it, I will bring it out shortly thereafter. So it could either be the last of October or the very first few days of November. So in 2 or 3 weeks at the outside.

Mr. MCCARTHY of California. Let me make sure I hear you correctly. The committee says, the chairman, it will pass out within the next 2 weeks approximately. And your pledge to the committee chairman was to bring it to the floor directly afterwards within that week?

I yield.

□ 1700

Mr. HOYER. I don't know whether I made a pledge. I am very much for this. I am a cosponsor of that. I want to pass it as soon as possible.

It's been the chairman's judgment as to when to bring it up. He is going to bring it up, and I am going to bring it as soon thereafter as is practical, which I suspect to be a matter of days. But if he passes it on Thursday and if we are not scheduled to be here on a Friday, I don't know that I will schedule Friday; we may pass it Tuesday, but I expect to pass it very shortly after it passes out of committee.

Mr. MCCARTHY of California. I will make this pledge: I know you asked me for help. I will help you with this bill, too.

Mr. HOYER. This bill, frankly, with all due respect, your help would be nice, but not needed. It's the other bill I need your help on.

Mr. MCCARTHY of California. Well, I thought that I would put that offer out there to you. When you bring it, I will be there to help you.

I thank the gentleman for his time.

#### —

#### HOOR OF MEETING ON TOMORROW

Mr. HOYER. Mr. Speaker, I ask unanimous consent that when the House adjourns today, it adjourn to meet at 11 a.m. tomorrow; and, further, when the House adjourns on that day, it adjourn to meet at 12:30 p.m. on Tuesday, October 20, 2009, for morning-hour debate.

The SPEAKER pro tempore (Mr. KRATOVL). Is there objection to the request of the gentleman from Maryland?

There was no objection.

#### —

#### HANDS ON MIAMI'S MIAMI DAY

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, I rise today to recognize the outstanding organization, Hands on Miami, for continuing to make south Florida a better place.

Hands on Miami is a unique community service organization created in 1993 that offers opportunities for all to become involved. This year, Hands on Miami will host Miami Day in conjunction with Miami-Dade College on November 7.

Since 1995, Hands on Miami has brought together residents from all over to improve our neighborhoods. It started with 800 volunteers and is now over 4,000 volunteers. They have partnered with United Way, schools and businesses. Ten years ago, Hands on Miami began the innovative Family Volunteer Program to encourage families to participate together in community service events.

As a wife and a mother, I know what a positive impact this effort can have by instilling the values of service at a young age. Let's all sign up for Hands on Miami on Saturday, November 7.

#### —

#### IMPROVE HEALTH CARE AFFORDABILITY, ACCESS, QUALITY AND CHOICE

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, we must improve health care affordability, access, quality and choice. We must not, however, pass a sweeping government takeover of health care.

We should just fix what is broken. Medical liability and defensive medicine costs are broken.

Mr. Speaker, we need tort reform. The economic and professional consequences of medical liability lawsuits are driving the practice of defensive medicine.

Here are the facts: medical liability premiums in the United States have reached \$26 billion a year. The average award is \$4.7 million. More than 93 percent of Pennsylvania physicians reported engaging in defensive medicine.

I have cosponsored H.R. 3400, the Empowering Patients First Act, that provides tort reform. There will be no limit to actual economic damages to the patient. There would be a limitation on punitive damages, and they would be determined by a special health care panel that would have judges with health care expertise.

I urge my colleagues to support H.R. 3400 for a first step towards real health care reform.

#### —

#### RECOGNIZING THE MINNESOTA NATIONAL GUARD HONOR GUARD TEAM ON THEIR VICTORY

(Mr. PAULSEN asked and was given permission to address the House for 1 minute.)

Mr. PAULSEN. Mr. Speaker, I rise today to recognize the Minnesota National Guard Honor Guard team for their victory at the Army's recent National Guard Honor Guard competition in Fort Myer, Virginia.

The competition featured eight of the most elite honor guard teams from around the country, testing their knowledge, testing their abilities and performing military funeral honors, uniform items and other aspects of military honors. Properly honoring the men and women who have given their lives and service to the United States demands the utmost commitment, attention to detail, and training.

The Minnesota National Guard holds that commitment in the highest regard, and their victory in this competition is a testimony to that fact. But as

we offer our congratulations to the Minnesota honor guard team, let us also remember those who have given their lives in the name of the United States of America and continue today to recognize those that also work and serve to protect our country each and every day.

#### —

#### WE CAN'T BORROW, TAX, AND SPEND TO PROSPERITY

(Mr. WILSON of South Carolina asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. WILSON of South Carolina. Mr. Speaker, more Americans are looking for jobs, families are in crisis and facing the tragedy of foreclosure.

Yet in Washington, Democrats continue to push their out-of-touch agenda, which will eliminate jobs and tax families and small businesses. Under the Democrat national energy tax, prices will skyrocket to heat and cool homes, drive cars and shop for food.

Under the Democrat Big Government health care takeover, senior citizens are under attack. Families and small businesses will pay more taxes as they are forced to navigate a sea of new regulations and mandates from a health czar.

In the meantime, Democrats are scheming new ways to borrow taxpayer dollars to top this year's record \$1.4 trillion deficit. Such actions will only increase the catastrophe of high unemployment.

We need to end this attack on senior citizens and small businesses. Both parties should work helping our small businesses get families back to work.

In conclusion, God bless our troops, and we will never forget September the 11th in the global war on terrorism.

#### —

#### U.N. HUMAN RIGHTS COUNCIL ONCE AGAIN POISED TO UNJUSTLY CONDEMN ISRAEL

(Ms. FOXX asked and was given permission to address the House for 1 minute.)

Ms. FOXX. Mr. Speaker, this week the U.N. Human Rights Council is considering a highly biased and one-sided report on Israel's defense against the attacks of Hamas this past January.

The council, which has been frequently discredited by its coddling of real human rights violators, is back to its favorite pastime, condemning the nation of Israel for defending itself against the attacks of violent terrorist groups like Hamas. Its latest faux crusade will only serve to further undermine any scrap of legitimacy that the body may have left.

If the council votes to condemn Israel and accuse it of war crimes, it's committing a great injustice and allowing itself to serve as a mouthpiece for those who wish to sabotage a true and lasting peace in Israel.

This report is not about human rights abuses. It's about taking biased cheap shots at the nation of Israel and undermining its right as a sovereign nation to defend itself against attacks. The U.S. must continue to stand by Israel, a strong democratic ally in the Middle East.

#### LET'S GET TO THE WORK OF THE PEOPLE

(Mr. GOHMERT asked and was given permission to address the House for 1 minute.)

Mr. GOHMERT. Mr. Speaker, earlier this afternoon we heard the chairman of the Education Committee really fiery and passionate, fussing, looking over at this side talking about Republicans playing politics and how this side over here had been playing politics with the water bill. There is nothing in playing politics when you are talking about tens of thousands of people being out of work and an important part of the country not being able to produce.

What would be playing politics is when the chairman of the committee finds out that someone opposing the water bill from California has a motion to recognize the University of California, Irvine, for winning the NCAA national championship in men's volleyball and pulls the bill because he opposes the chairman's bill. My friends, that's playing politics, and it is outrageous.

Let's stop the games and get to the work of the people.

#### SPECIAL ORDERS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, and under a previous order of the House, the following Members will be recognized for 5 minutes each.

#### AIG'S EXECUTIVE BONUSES

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Rhode Island (Mr. LANGEVIN) is recognized for 5 minutes.

Mr. LANGEVIN. Mr. Speaker, I rise today to express my deep outrage over AIG's plans to give \$198 million in bonuses to their employees next March, especially after paying out \$165 million in bonuses earlier this year. Meanwhile, Goldman Sachs is on track to provide a record payout to its executives by the end of 2009 and other firms will undoubtedly follow suit.

Well, I find it infuriating and insulting that these firms continue to reward incompetence and egregious risk-taking with taxpayer money. They have not only received billions in direct Federal bailouts to avert crises largely of their own making, but they also benefited from an array of Federal fiscal policies that have placed increased burdens on taxpayers and our deficit.

These companies must be held accountable for their decisions and for the Federal assistance they only too gladly accepted. That's why I supported legislation to block these bonuses and to ensure that taxpayers receive a full refund. I will continue to press my colleagues and the administration to ensure that as Wall Street again enjoys profitability, American taxpayers also see some reward.

I want to commend Chairman FRANK and the Financial Services Committee for their hard work on the financial regulatory overhaul that is so critically needed in our country to prevent another crisis from happening. I anxiously look forward to seeing this legislation come to the floor very soon. It's clear that our financial system demands commonsense regulation, increased transparency, and improved oversight.

Wall Street CEOs cannot run their businesses assuming that the fruits of success will be entirely theirs to enjoy while the cost of failure will be shared, will be the shared responsibility of the American people. Wall Street's compensation plans can no longer benefit top executives at the expense of their companies, shareholders and employees, and ultimately the American taxpayer.

After all this country has been through, when we have an unemployment rate of 9.8 percent nationally, and especially when 12.8 percent of Rhode Islanders are unemployed, seeing that Wall Street has not learned its lesson is a tremendous disappointment. We have to take action now so that we don't go down this road again.

#### HAITIAN PEOPLE PURSUE STABLE, PROSPEROUS AND DEMOCRATIC FUTURE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Florida (Ms. ROS-LEHTINEN) is recognized for 5 minutes.

Ms. ROS-LEHTINEN. Mr. Speaker, I rise today to express my longstanding commitment to assist the Haitian people in their pursuit of a stable, prosperous and democratic future.

During my trip to Haiti, I was reminded of the tremendous challenges facing this island nation. The U.N.'s appointment of President Clinton as special envoy to Haiti has helped to keep a much-needed spotlight on Haiti. President Clinton's appointment of Dr. Paul Farmer as the Deputy U.N. Special Envoy for Haiti, adds an invaluable wealth of experience and knowledge to the U.N.'s work in Haiti.

As a founder of Partners in Health and the Institute for Justice & Democracy in Haiti, Dr. Farmer has demonstrated a selfless commitment to the advancement of health and democracy in Haiti for the past 20 years. I have witnessed firsthand Dr. Farmer's dedi-

cation to helping improve the lives of those in need.

He has strong south Florida ties. I am proud to call him a friend, along with our mutual friend, Jennie Block, who has also worked so hard on issues of concern to the Haitian community.

I understand that the conference on the Inter-American Development Bank in Haiti went quite well. I was pleased to see that the United Nations voted unanimously this week to extend the authorization for the U.N. Mission in Haiti for another year.

□ 1715

I would also like to take a moment to express my condolences to the families of those who lost their lives in last weekend's plane crash during a U.N. mission. The U.N. mission in Haiti has helped to play an important role in bringing security and stability to some of the most dangerous neighborhoods in Haiti. I continue to support its mission and the many men and women from around the world who work to carry it out.

However, it seems that Haiti just can't get to the next step. From assistance to debt relief, from trade benefits to hurricane recovery, U.S. policy toward Haiti has run the gamut, but it is not achieving the long-term goals that we had hoped for for the Haitian people and that the Haitian people want for themselves and their nation.

I am pleased to know that our State Department is taking a closer look at some of the challenges we are facing in Haiti. Last week, Secretary Clinton's chief of staff and her point person on Haiti briefed Members on some of the initial findings of this review.

I am confident that this review will help us to better understand how U.S. assistance to Haiti can be better targeted and supportive of Haiti's own plans and goals; how assistance within the donor community can be better coordinated; how the U.S. can better engage the Haitian Diaspora in our assistance efforts; and, finally, how the U.S. can finally make our assistance sustainable so that outside efforts can ultimately be transferred into the hands of the Haitian government and its people.

It is crucial that the efforts made by the U.S., the U.N. and others are effectively coordinated to ensure maximum efficiency and maximum benefit for the people of Haiti. Innovative microcredit and microenterprise programs would help to empower individuals, create self-reliance and create sustainability at the grassroots level. We should also look at the very small-scale renewable energy programs for impoverished rural villages and settlements that are not served by electric grids.

One of the immediate ways we can help the people of Haiti would be to grant temporary protected status to the Haitians currently living in the

U.S. Granting TPS to Haitians is the missing piece of a successful U.S. approach to supporting the people of Haiti in the short and long term. I will continue to work with my colleagues to encourage the administration to take this important step.

In addition, I will continue to support Haiti's inclusion in security initiatives, such as the Merida Initiative, to ensure that the U.S. is doing all we can to help President Preval in his efforts against the narcotraffickers.

Success in Haiti is in the U.S. national security interest, and we must work together to help address the many challenges we face and that our Caribbean neighbor faces day in and day out.

#### PURSUIT OF AFFORDABLE HEALTH CARE FOR ALL AMERICANS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York (Mr. WEINER) is recognized for 5 minutes.

Mr. WEINER. Mr. Speaker, it is my pleasure again to come to the floor to talk about the issue that is capturing all of the national attention and a lot of attention of this body, and that is our pursuit of affordable health care for all Americans.

There has been a lot of discussion about this so-called public option, this choice people would have when they are searching for insurance when they don't have it, the idea being that if you have a public alternative, an option that doesn't rely on profits, that doesn't rely on high overhead, that consumers would have a chance to choose it if they don't have insurance through their own employers.

Now, it is interesting, because just this week we got an enormous boost, those of us who care about having a public option in the final bill, and it came from, of all places, the health insurance lobby. In a rare moment of candor, in a rare moment of telling us exactly what it is that they are going to do, they have told us something that should come as no surprise to anyone that has health insurance. They said they are going to keep raising rates. They said we can pass whatever we want here in Washington, they are going to keep raising rates. As a matter of fact, by their calculation, by 111 percent.

Well, on one hand, I am stunned that they told the truth. On the other hand, I am not very surprised. Our rates have been going up twice if not three times the rate of our salaries every year. They have been going up about \$1,000 for people who have health insurance. So the idea that they are thumping their chest and saying they are going to keep doing it is not a surprise. But the fact that they were so honest about making it very clear that we need com-

petition for the health insurance companies is refreshing.

They have made it crystal clear. The private insurance companies have said, you know what? If you don't have competition for us, rates are going to keep going up.

The public option, by the way, is not a mysterious thing. A lot of my colleagues here in the House of Representatives have it. Yes. They have Medicare. And I checked. Not a single one of them that is eligible for the government public plan we have today has said no. Maybe it is because they are like the country, that says, you know what? Ninety-six percent of people say they like Medicare. They like the care they get. It only has 3.5 percent overhead, not the 30 percent overhead and profits that private insurance companies get.

They like it, but they don't want you to have it. They don't want you to have the plan that they have. So many Members of Congress who are 65 say, no, you can't have it if you are 55 or 45 or 35. It is only for us.

Well, that is not exactly true. It is for every single American who turns 65. It is a government-funded, single-payer, government-administered health care plan that every year we do a survey about, and 96 percent of people who are on Medicare say they like it.

You can do the following test: Knock on the door or go to a neighbor or stop someone at the diner who looks like they are 55. Ask them, would you like it if tomorrow you got Medicare? Watch their face light up. They would love it.

Now, we are not proposing that. The President is not proposing that. I know I would like to have a program like Medicare for all Americans. All that is being proposed in the public option is that people who don't have insurance through their work, people that don't have insurance through Medicare or Medicaid, that relatively small group of people, the 10 percent or so of the country, that when they go out and shop for insurance with the subsidies we are going to give them, one of the options is not the insurance companies that said in this report they are going to raise rates 111 percent. That is it. That is what the big bogeyman is all about.

Let me show you this chart here to give you a sense for how un frightening that concept would be. This is the \$2.6 trillion of money we spend every year on health care. \$2.6 trillion. I ask my colleagues, do you think we can do a little better for \$2.6 trillion. We are getting such a great bargain?

Well, let's take a look at this. These boxes here, Medicare, Medicaid, DOD, Veterans Affairs and Department of Health Services, are all single-payer, government-funded, government-administered health care plans. And

every day I hear my Republican friends thumping their chest, you gotta protect the VA, you gotta protect Medicare.

Oh, yeah? But you don't want to extend it to the rest of the country. Why is that? What is the big fear? The fear is, they are in a wholly owned subsidiary of this group right here. This is the private insurance companies, the ones that wrote this report that says that rates are going to go up 111 percent.

Now, in this \$854 billion, do you know how much of that is profits and overhead? Take a guess. Up to 30 percent. And what some of us are saying is, if you want to find savings in the system, and you don't want to cut into health care, maybe it is a place to start. Can you do maybe with 10 percent? 12 percent? 15 percent? Up to 30 percent. That is savings that we can get right there. But we are trying to get savings using a free market model. Competition. Let's see if there is someone that can do it more efficiently than 30 percent overhead.

We know, for example, Medicare can do it with about 3.5 percent overhead. That is the public option, and my colleagues don't want them to have what they have, which is government-funded health care.

#### TRIBUTE TO PAUL BURKE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Ms. WATSON) is recognized for 5 minutes.

Ms. WATSON. Mr. Speaker, Hollywood has lost another star with the passing of Paul Burke at the age of 83. Paul Burke was best known for the role he played of Colonel Joe Gallagher in the TV series "Twelve O'Clock High." He was also known for winning two Emmy nominations for his role as Detective Adam Flint on the critically acclaimed New York cop drama "The Naked City."

Paul was born on July 21st, 1926, in New Orleans, son of prizefighter Martin Burke, who became a promoter and nightclub owner. While growing up, Burke's family owned the popular French Quarter nightclub and restaurant Marty Burke's.

After moving to Hollywood as a young man in the late 1940s, Burke studied acting at the Pasadena Playhouse for 2 years. Movie director Lloyd Bacon, a friend of Burke's father, got him his first role, an unaccredited bit part in the 1951 Betty Grable musical "Call Me Mister."

In addition to his wife of 30 years, Burke is survived by his three children from his first marriage, Paula Burke-Lopez, Paul Brian Burke, and Dina Burke-Shawkat; six grandchildren; and two great-grandchildren.

The Hollywood community, his family, friends and colleagues will miss

him and his contributions to the entertainment industry.

#### CONGRATULATING THE NEW YORK YANKEES ON THEIR VICTORY OVER THE MINNESOTA TWINS

(Mr. ELLISON asked and was given permission to address the House for 1 minute.)

Mr. ELLISON. Mr. Speaker, as the proud Representative who represents the district of the Minnesota Twins, I made an arrangement with my good friend JOE SERRANO about the outcome of the Minnesota Twins-Yankees series, and on October 11th, the New York Yankees defeated my beloved Minnesota Twins in the American League Division Series.

Before I begin, I made the agreement with Representative SERRANO with full expectation that the Twins would prevail. But that didn't happen. So keeping my word, I just want to come to, quote-unquote, sing the praises of the Yankees. And, let me tell you, it is not going to be easy.

Ten times the Yankees and the Twins met this year, and ten times the Yankees were victorious. They were undoubtedly the better ball club this year, and I am sure that in the coming weeks, Joe Girardi will fulfill the promise he made when he picked his uniform number to bring the 27th championship to the Bronx.

Good luck to the Yankees. Congratulations. Your victory is further testimony to why you are the most storied baseball franchise in Major League Baseball.

#### HONORING THE LIFE AND SERVICE OF SERGEANT MICKEY HUTCHENS

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from North Carolina (Ms. FOXX) is recognized for 5 minutes.

Ms. FOXX. Mr. Speaker, it is with great sadness that I rise to remember the life and service of Sergeant Mickey Hutchens, a Winston-Salem police officer who passed away on Monday surrounded by friends and family at Wake Forest Baptist Medical Center.

Sergeant Hutchens is a North Carolina hero. He gave his life protecting the public from a dangerous criminal. Sergeant Hutchens was shot last week while pursuing an armed criminal in Winston-Salem. With his passing, the Winston-Salem community grieves the loss of one of its finest.

He faithfully served on the police force for 27 years, putting his life on the line each day that he showed up for work. We owe him and his family a deep debt of gratitude for the ultimate sacrifice that Sergeant Hutchens made for the public safety.

Police officers and public safety workers like him are the key to safe communities that are often taken for

granted. Great tragedies, like Sergeant Hutchens' death, serve to remind us of the heroic work done each day by officers like him.

Sergeant Hutchens was more than just a faithful public servant. He was well-known as a man of impeccable character who was committed to maintaining his integrity at all costs. He was just the type of person you would want wearing the uniform of a police officer.

He lived a life dedicated not to just keeping his community safe, but also to his family and his church. He was a loving and dedicated father of two daughters, Jill and Leah, and a faithful, loving husband to his wife Beth. He was often found serving in his role as a deacon at Forbush Baptist Church.

Sergeant Hutchens left a noble legacy in his community. He lived to serve and protect others. His life is a true inspiration, and I pray that his death reminds us of the bravery and sacrifice of those keeping our streets safe each day.

Today, his family, friends and colleagues are in my thoughts and prayers as they mourn the loss of a husband, father, brother, friend, fellow officer and a North Carolina hero. May they know God's comfort during this difficult time.

□ 1730

#### HONORING THE HUMANITARIAN SERVICE OF ANN GLOAG

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Texas (Mr. GOHMERT) is recognized for 5 minutes.

Mr. GOHMERT. Mr. Speaker, a leading Scottish businesswoman and board member of the global charity Mercy Ships, Ann Gloag is being honored by the National Council of Women of the United States this evening at the United Nations as the inaugural recipient of the Susan B. Anthony Humanitarian Award in recognition of her humanitarian service in Africa.

The reason someone from east Texas would take note of this philanthropic humanitarian from Scotland is because she has done so much for Mercy Ships. It may surprise some that such an oceangoing charitable enterprise would have an international headquarters in my east Texas district, but it does, due to its founders.

Mercy Ships uses hospital ships to deliver free, world class health services to those without access in the developing world. Founded in 1978 by Don and Deyon Stephens, Mercy Ships has worked in more than 70 countries, providing life-saving and life-enhancing services to more than 2.16 million direct beneficiaries.

More than 1,200 crew work worldwide, representing more than 40 nations. They're joined each year by 2,000 short-

term volunteers. Professionals, including surgeons, dentists, nurses, health care trainers, teachers, cooks, seamen, engineers, and agriculturists donate their time and skill to that effort. I've seen the results of the enormous charitable work this institution does, and it is gloriously moving.

As for the devoted Ms. Gloag, she has supported various charitable organizations, providing much needed medical care, housing, and education in Africa for over 30 years. In addition to establishing the Balcraig Foundation, the Gloag Foundation, and the Freedom from Fistula Foundation, Ms. Gloag has worked with Mercy Ships, including the funding of the Africa Mercy Ship, the world's largest nongovernmental hospital ship providing free medical and humanitarian aid to the people of Africa.

Through partnerships in Liberia, Sierra Leone, and Kenya, the Freedom from Fistula Foundation alone is providing free surgeries to more than 1,500 women this year. In her home of Scotland, Ms. Gloag has already been honored for her work with Mercy Ships and has worked with the Scottish Government to promote its international development work in Malawi, where Ms. Gloag has also helped to establish a hospital.

Named for the American civil rights activist who helped form the National Council of Women of the United States, the Susan B. Anthony Humanitarian Award will be conferred annually on individuals dedicated to making a difference in people's lives, communities, or state of the world.

Don Stephens, founder and president of Mercy Ships, comments, "Mercy Ships champions the selection of Scotland's Ann Gloag as the inaugural recipient of the Susan B. Anthony Humanitarian Award by the National Council of Women of the United States. Ann exemplifies a modern example of Andrew Carnegie, J.P. Morgan, and John D. Rockefeller, who almost delighted to use their wealth to assist the world's poorest. On board our new hospital ship Africa Mercy, I have personally observed Ann demonstrating her compassion for others at the bedsides of women and children who received a free surgery on the ship that she helped fund. In parts of Africa, health care infrastructure and delivery is nonexistent. Ann enabled Mercy Ships to bring hope and healing where it is otherwise often not available. Ann has found a powerful way to share her blessings."

We must congratulate Ms. Gloag for caring so deeply and acting so generously, responsibly, and personally to make such a difference in the world. May God bless Ann Gloag as she has so richly blessed others around the world.

TRIBUTE TO SERGEANT JOSHUA  
M. HARDT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California (Mr. MCCLINTOCK) is recognized for 5 minutes.

Mr. MCCLINTOCK. Mr. Speaker, I rise today to pay tribute to U.S. Army Sergeant Joshua M. Hardt of Applegate, California. He's one of the fallen heroes of the Battle of Kamdesh, that remote outpost that was besieged and surrounded and hopelessly outnumbered by more than 300 Taliban insurgents on October 3.

No soldiers in the history of our Nation have fought more valiantly or bravely than the defenders of Combat Outpost Keating on that day. In the end, they held their ground, they defended their flag and the honor of their country. But most importantly, they defended something that is fundamental and sacred and eternal, that defines humanity itself. They defended something that can never be abandoned as long as humanity exists. They defended right against wrong, good against evil, freedom against tyranny in its most stark and defining form.

During the terrible winter of 1776, Thomas Paine, having watched many brave young men like Josh Hardt fall in defense of these same eternal truths, offered these words to try to make some sense of it. He said, "Heaven knows how to put a proper price upon its goods; and it would be strange indeed if so celestial an article as freedom should not be highly rated."

Joshua Hardt knew that, and his family knew that. Through her tears, his mother told a local newspaper, "He was a very giving son. He went into the Army wanting to make a difference . . . wanting us to be safe . . . He expressed his desire to do more, to take more action, and to make a difference. He didn't know a better way than to go into the military and to fight for everybody."

And that's exactly what he did. He fought for his Nation, he fought for his Nation's values, and he fought for the freedom of a people half a world away. And he paid for heaven's most expensive celestial article with his life, not for himself but for others.

I attended a Gold Star dinner recently, and I admitted to one the hosts that I still don't know what to say to the families. She said, well, just ask them about their sons.

So let me tell you a little bit about Josh Hardt. He was 24 years old. He's remembered at Placer High School as an extraordinary athlete. He did his school so proud on the football field that they retired his helmet when he graduated. He was one of those big, hulking kids who stand up for whoever's being picked on.

I spoke with his wife and with his mother today and they both told me exactly the same thing: that he was

first and foremost a family man, willing to do anything for his family and for his friends and for his country.

He joined the Army just 3 years ago. He'd already risen to the rank of sergeant and carried a chest of ribbons, including the Bronze Star. Perhaps the most eloquent testimonies to his service are the remembrances from younger soldiers that he'd taken under his wing to help. In fact, that was his next assignment, to come back to the States and help his returning comrades.

His football coach, Mark Sabins, remembered seeing him back home last year after the first tour of duty in Iraq and tells how excited he was to be marrying a remarkable young lady, Olivia, and how energized he was about his work in the Army and his plans for a family and how he looked forward to a full and promising life ahead.

Instead, Joshua Hardt will return home tomorrow for the last time. His family and friends will come to mourn him and to honor him and to remember him. His community will hold him up as an example of all that is heroic and virtuous. His Nation will record his name onto its most hallowed rolls that he never be forgotten.

Centuries from now, flags will be placed on his grave every year as future generations gather to consider the cost of their freedom. And perhaps in Kamdesh, Afghanistan, they will gather around a monument where Outpost Keating once stood and give thanks for the men who paid everything to purchase for them so celestial an article as freedom.

SUPPORTING 287(g)

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Arkansas (Mr. BOOZMAN) is recognized for 5 minutes.

Mr. BOOZMAN. Mr. Speaker, I rise today to express my support and the support of Arkansas' Third District residents for the 287(g) program.

Two years ago, Benton and Washington County Sheriff's Departments and the cities of Rogers and Springdale sent 19 northwest Arkansas officers and deputies for training in the identification and possible detainment of illegal immigrant offenders they encounter during their regular daily law enforcement activities. I thank Rogers' Mayor Steve Womack in being a driving force behind this task force. His leadership has been instrumental in cracking down on illegal immigrants in northwest Arkansas.

Thanks to these law enforcement personnel, more than 1,500 illegal aliens have been arrested and have or are in the process of being deported in northwest Arkansas. 287(g) has a proven track record of success nationwide. According to Immigration and Customs Enforcement Agency, since January of 2007, the program is credited with iden-

tifying more than 100,000 potentially removable aliens, mostly at local jails. The numbers tell the story. 287(g) is an effective program, and that is why I'm a champion for it.

This week, I signed a letter to President Obama showing my support for the 287(g) program and asking that the funding be continued. I believe that Federal, State, and local cooperation is key to combating illegal immigration, and continuing the 287(g) program is a commonsense solution.

THE PROGRESSIVE CAUCUS

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from Minnesota (Mr. ELLISON) is recognized for 60 minutes as the designee of the majority leader.

Mr. ELLISON. Mr. Speaker, my name is KEITH ELLISON, and I'm a Congressman from the great State of Minnesota, and I'm honored to claim this Special Order, this 1 hour, for the Progressive Caucus to talk about the values of Progressive ideals, the values associated with a progressive America in which people are included and which we believe in generosity, where we believe in valuing people, where we believe in civil rights, care for the Earth and creation, where we care about living in a world in which middle class people, working people, the hard-working people of America and the world can have a prosperous life and where people can do well.

The Progressive Caucus, designed and approved and coming together to signal to the American people that in Congress there is a body of Members of the Congress who are willing to stand up for the values that have made America great, values such as workers' rights, such as the weekend, such as the 5-day week, such as work and safety laws, such as worker's compensation, such as Social Security.

□ 1745

These are all progressive steps forward, such as civil rights, women's rights, gay rights, such as the respect for all religious groups and religious tolerance in our country.

Recently, Mr. Speaker, our focus has been on health care because health care is such an essential component of what it means to be a middle class American trying to put food on the table for your family. Health care, if we can correct health care, the disparities in health care, the cost increases in health care, if we can correct health care 60 years in the making, we can improve the quality of life for all Americans and thereby enact a piece of legislation that is on the order of the 1964 Civil Rights Act, the 1965 Voting Rights Act, the passage of the Medicare bill, which helped millions of seniors all around our country live a life

of quality, and ended seniors who lived a life of poverty and of insecurity.

This bill, which is right within our grasp at this time, we are so happy to be able to step forward. And I just want to let you know, Mr. Speaker, that it's an honor to be joined by such a courageous Congressperson as Congresswoman DIANE WATSON from the great State of California, who for years and years has been sticking up for progressive values, never backing down, always there for the American middle class and working class people.

So we are going to talk a little health care tonight. I am going to yield to the gentlelady to make a few introductory remarks, and then maybe she and I can have a little colloquy as we move on in the evening.

I yield to the gentlelady from California, DIANE WATSON.

Ms. WATSON. I thank you very much, Congressman ELLISON, for yielding to me. You are doing a marvelous job. I watch you every evening as you take the mic on the floor of the House to explain to the general public what a benefit health care reform is to all Americans.

And I want to say that we speak to all Americans and we say to them, we are presenting to you a reform of health care as you have known it in the past. Because in my own State of California, if you have insurance, your fees are going to go up somewhere around \$1,800 for a family of four annually. People are going without coverage because they cannot afford it.

We had an assembly outside of Blessed Sacrament in Hollywood several weeks ago, and there was a man who came up with a heavy Spanish accent. And he said, I am an American, I work four jobs. My 2-year-old daughter got sick. I could not even afford health insurance and she eventually died.

I do hope that our House bill, H.R. 3200, will be recognized as a way to help reform health care because what we want to do is bring to you in your own community accessible health care. We want it to be affordable; we want it to cover preexisting conditions; and we want to say to you, if you get sick and you can't work—and that's happening very frequently with H1N1, people are getting sick, they have no sick leave, and it could really bankrupt most families. And so we say to you, even if you don't have a job, you will be covered.

We are now just dickering around the edges of a reform. We are going to get one now because it's the right thing to do, Mr. ELLISON. And I am so glad that you are bringing information to the people every evening.

I want to say that I know in my own district there are a lot of people who cannot afford health care, but this one family could. And if we don't reform health care, a lot of people will have to endure weeks of illness and eventually death.

I'd like to bring to your attention the death of Marybell Bakewell, who was born on April 10, 1925 and died October 7, 2009 in Los Angeles. Her son is Danny Bakewell, who is now Chair of the Black Publishers Association. Mr. Bakewell, who lives in the southern California area, could pay for health care, but he could not save his own mother, Mrs. Bakewell; and she suffered a massive stroke from which she never recovered.

Marbee, as she was affectionately known by her entire family, was always the life of the family. She preached "family first," and anyone who knew her immediately fell in love with her glowing personality. She was full of life, love and laughter, and was also an activist.

Marybell Bakewell was a native of New Orleans and lived there 79 years of her 84 years of life. She finally left her beloved city after it was completely devastated by Hurricane Katrina. While living in New Orleans, she was a life member of St. Peter Claver Catholic Church as well as a member of the Sisters of the Holy Family.

Mrs. Bakewell belonged to one of four generations of women and family who attended St. Mary's Catholic School. Her grandmother, Mary Winier; her mother, Camille Brazile; Marybell Bakewell and her daughter, Pamela Bakewell, all were graduates of this esteemed institution of higher learning dating back to the turn of the century.

Mrs. Bakewell was a diehard New Orleans Saints fan. She loved to play cards and board games, especially with her main road warrior, Brenda Marsh-Mitchell.

Marybell Bakewell is survived by her two children, Danny J. Bakewell, Sr. and Pamela Bakewell, both prominent in Los Angeles civic affairs; her daughter-in-law, Aline Bakewell; eight grandchildren—Danny J. Bakewell, Jr., Brandi Bakewell, Sabrina Bakewell, deceased, Donny Brooks, Jamie Brooks, Brandon Brooks, Fatima Elswify, Amira Elswify; six great grandchildren—Taelor Bakewell, Danny J. Bakewell, III, Devyn Bakewell, Bryce Bakewell, Donny Brooks, Jr., Adrian "AJ" Brooks; sister-in-law, Delores Brazile; her nephew, Eric Brazile; as well as a host of cousins, family and friends.

This courageous matriarch will be missed by the Los Angeles community, her family and friends, and especially by me, Mr. Speaker. I had a grandmother who was born in New Orleans, grew up in a convent for 13 years, obviously left, but her sister became Sister Philomena. And so I have a great affection for the city and for her.

My point in bringing her obituary here is that, yes, this family could afford health care; but I'm telling you there are thousands of others, not only in my district in the State of California but across this country, some-

thing like 38 million, who need the government to help them survive when they have a condition or when they are declared terminal.

So I am hoping that in this Congress we will do the right thing and we will see that before the year ends, we have Medicare reform as a program for all Americans.

I want to thank you, Mr. ELLISON, for your insight, your intelligence, your knowledge. And I want you on this floor every evening. You are bringing to the American people the important facts about what our reform will do.

So thank you very much, Madam Speaker. Thank you very much for the time. Continue to educate Americans.

Mr. ELLISON. While the gentlelady yields back, let me thank her as well. The fact is that by bringing this important story about the Bakewell family—well known throughout the country, particularly in Los Angeles, but really all over—it shows that health care reform is something that everybody needs. It is not something that some people have to worry about and some people don't; it's something that all Americans have to focus on because none of us are immune.

If you don't have health care, then you are among those 59 million Americans who are just going to bed every night hoping and praying that you don't get sick; and if you do, you know you're going to be in for a very difficult time.

And you may be among those 250 million Americans who have either employer-based health care or have health care through either Medicare or Medicaid or VA or something like that, a government-run program. In that case, you know that your employer-based health care has seen premiums double in the last 10 years and are likely to double in the next 10 years. So no matter whether you're among the uninsured who need change or the insured who need change, we all need change. And so it's critically important that we bang the gong and keep it up and don't back down on this important issue.

If I may—and I invite the gentlelady to ask me to yield at any time, but I just want to make a quick point before we do.

We have been joined by the gentlelady from Maryland, DONNA EDWARDS, who is a clear voice on this issue, who has been creative, who has been consistent. And we just want to let the gentlelady from Maryland make some remarks as we begin this hour so that we can sort of get into our colloquy.

Ms. WATSON. Would you yield just a few seconds?

Mr. ELLISON. Certainly.

Ms. WATSON. About 3 weeks ago, I was up in the Hollywood Hills at a reception, and there was a young man who was taking pictures of all of us. When I finished making a presentation

about our health care reform, he came up to me and he said, thank you. He said, I am on a medication—now get this—that costs \$74,000 a month. I said repeat that figure. He said \$74,000 a month. He told me that he had a very unique condition, that when he was born, his muscular system, his skeletal system as well as his vital organs started to deteriorate. Each one of the medications he takes monthly costs over \$6,000. He does a copayment of about \$696 a month. He said, I could not afford that without the insurance that I have, and I pay a high price for that insurance. I told you what the copayment was.

So here is a person who makes a good income and pays a great amount of his income on a monthly basis just to stay alive. Why can't we have a program that will keep others alive regardless of their income?

And thank you, Congresswoman, for coming forth with your factual statements. I listen to you also very intently. And as an attorney, you bring the truth and you speak it to power. And I thank you very much.

I yield back.

Ms. EDWARDS of Maryland. Well, I thank the gentlelady from California. And to the gentleman from Minnesota, thank you so much for your leadership. It is really important.

We are almost there. I describe this—if we were playing a football game, you know, we would call it “crunch time.” We're in crunch time right now when it comes to health care reform for the American people.

I don't know what struck others this week, but what struck me was the release of a so-called “independent report” from the American Health Insurance Plans lobby. It struck me because in that report was so much misinformation. And it was done by PricewaterhouseCoopers. Now, they thought that they were just evaluating a little bit of the plan and giving some data. They didn't realize that it would be completely misconstrued by the health insurance plans in order to prove a point that's not really a point. And so I wanted to call attention to that.

I think another thing that struck me this week, as we unmask the health insurance industry, as we see them for who they are, they're interested in profits, that's their motive. It's not health care; it's not reform. It's profit. And I decided that I would take a little peruse around the Internet and I looked up the lobbying disclosure reports for America's Health Insurance Plans, the same group that released that bogus report.

□ 1800

Here is what I found: For all of 2008, this group that has so-called been very interested in health care reform spent \$7.54 million lobbying against health

care reform, and that was just for 2008. Then we turn just to the first—

Mr. ELLISON. Would the gentlelady yield?

What was that number again?

Ms. EDWARDS of Maryland. \$7.54 million lobbying against health care reform in 2008. That's before we even had a bill.

Now we've gotten our bill here in 2009 with our new President, who really is serious about reforming the health care system. We find that in the first two quarters of 2009—that's this year—America's Health Insurance Plans, according to their lobbying reports, which are available to the public at [lobbyingdisclosure@house.gov](mailto:lobbyingdisclosure@house.gov), and anybody can go and look this up, America's Health Insurance Plans actually spent for the first quarter of 2009 \$2,030,000. That's in the first quarter. That's from January to March.

Then in the second quarter, from April 1 to June 30, they actually spent another \$1.87 million. That's the total for just the first 2 quarters of this year.

This is while people were having their health insurance revoked and while 14,000 people a day were losing their health insurance. While all across this country people are losing jobs, America's Health Insurance Plans decide that it would be a great idea to spend almost \$4 million in the first two quarters of this year lobbying against health care reform. That just proves that the industry is so much more interested in its profits and in protecting its profits than it is in health care or in reform.

Now, I decided that I would keep looking at those lobbying disclosure reports and I would advise people all across this country to go to [lobbyingdisclosure@house.gov](mailto:lobbyingdisclosure@house.gov). They need to look it up for themselves because we're not making this up. It's right there, filed by their own general counsel. I looked. I said, Well, how many lobbyists does it take in one quarter to spend \$1.8 million? How many lobbyists does it take to spend \$2 million? How many lobbyists does it take to spend \$7 million just in 2008?

I'm going to just tell you: They spent that money. Gary Bacher, he was lobbying for them; Carmella Bocchino; Elizabeth Brooks; Jill Dowell; Paul Eiding; Baron Foster; Lindy Hinman; Karen Ignatti, the woman whom we've seen all across the television screens of the country, talking about how health insurance was going to send premiums and deductibles and copayments skyrocketing; and Alethea Jackson. That's one, two, three, four, five, six, seven, eight, nine lobbyists spending millions of dollars across Capitol Hill—at the House and the Senate—and over at the White House. They're lobbying against health care reform.

So those are the numbers right there, apart from what all of the other industries have spent, which includes the

pharmaceutical industry and others in the health insurance industry, to try to defeat reform.

Do you know what really surprises me in all of this? For all of their advertising and their lobbying, they have beaten and beaten and beaten the public health insurance option. Guess what? A majority of the American public actually knows that competition is good for the system. They know that it's important to have a public plan to provide accountability, and they know that we need transparency and that we have to lower costs. So the public is actually not fooled.

You would think, if there were some good marketing people over with the health insurance plans that they actually wouldn't be spending so much money, because they haven't managed to convince a majority of the American public that a public health insurance option is against their interests. So I'm actually grateful for the American public for being so smart, for seeing through the health insurance industry, and now for the industry itself, for actually exposing what they're trying to do to America.

I know people are calling your office, the Congressman from Minnesota, and I know they're calling my office, and they're saying, You know what? I just got a letter in the mail saying my health insurance premium is going up 10 percent. My health insurance premium is going up 12 percent. They haven't even used their health insurance this year, and their insurance premiums are going up.

So we see what the industry is doing. We know that we are inching our way to reform and that we are going to get there and that we will have a bill for the President of the United States to sign into law and that we are closer than we've ever been before. So the insurance industry, true to form, is living out their promise in that bogus report that they released. They're living out their promise by already starting to jack up insurance rates just to beat the clock—to beat the bell—to reform, but they're not going to get away with it.

So I would say to those—what did I count, 9 or 10 lobbyists?

Mr. ELLISON. Nine.

Ms. EDWARDS of Maryland. Those nine lobbyists already this year have spent about \$4 million lobbying against reform and \$7 million in 2008 lobbying against reform. I'll tell you what. If you add that up, by the time they finish this year, I'm guessing that they probably will spend something in the neighborhood—over the course of the last 2 years—about \$15 million lobbying against health care reform.

I would dare say that the American public could take that \$15 million and divide up what it would cost to provide a reasonable premium, say, under Medicare or a public health insurance

option, and we would be insuring just dozens and dozens and dozens of families across America for what this industry has spent to fight reform. So we're not going to be fooled, and we're not going to be deterred, and we know, as the public knows, that a robust public health insurance option will be the best option to provide competition, to provide accountability and to make sure that we lower costs for all Americans.

So the insurance industry, just before Halloween, has been completely unmasked. They've revealed themselves, and we want to say to them, You know what? We're on to you. We know what you're about, and we're not going to believe any more of your bogus reports, and we're going to trust the fact that you wouldn't spend this money lobbying against something if you didn't want to defeat it. So we're going to bring that health care reform package to the House of Representatives through the Senate, on to the President and then deliver it to the American people.

With that, I would yield.

Mr. ELLISON. Well, the gentlelady is in rare form tonight. I really appreciate everything you laid out. Excellent.

I just want to add to your observation about the AHIP report, which is an acronym for America's Health Insurance Plans. Here is what the people who really study the stuff had to say about this particular industry report.

AARP had this to say: The report is "fundamentally dishonest" and "not worth the paper it's written on." Those are the words of John Rother of AARP, executive vice president of policy and strategy.

You mentioned PricewaterhouseCoopers, which participated in preparing the report. They're running from the report. They're like, Hey, we didn't know. I don't blame them, because it is deceptive.

Also, PricewaterhouseCoopers said Monday, AHIP, the report that we've been referring to, that industry report, had instructed it to focus on only some features of the bill while not taking into account other major features, such as the effect of subsidies for those buying insurance. So they didn't even tell their preparer the right information to consider.

Why would they not fully disclose and be transparent about that? The report threatened that if the bill became law it would result in an increase in premiums for an average family of four by about \$4,000 a year. Now, this begs the question: Who would be increasing these premiums? The very people who issued the report saying the premiums are going up.

Furthermore, the report says that the cost of private health insurance would rise by 111 percent over the next

decade. Who would be increasing these premiums by 111 percent? The fact is the very people who are saying the prices will increase for buying health care insurance are the ones who are in charge and who are in control of raising these prices.

Reid Cherlin, the White House spokesman, said "this is a distorted and flawed report from the insurance industry and cannot be taken seriously. This so-called analysis appears on the eve of a vote that may eat into some of the insurance industry's profits. It conveniently ignores policies that will lower costs for those who have insurance, expand coverage and provide affordable insurance options to millions of Americans."

I'm not done quite yet.

Nancy-Ann DeParle, director of White House Health Reform, says that she was surprised by the report because she had just met Mrs. Ignatti, the one who has been doing a lot of the selling of this on TV, and she vowed to work together. So that may be regarded as somewhat misleading. It's important to remember that virtually every wild, erroneous claim made regarding health care reform has been debunked as false.

Let's go on back to the summer. I ask the gentlelady to take a walk back to August. You'll recall, Madam Speaker, that we were talking about death panels. This was all the rage—death panels. We were talking "death panels." Yet, when you look at the bill, it's simply Medicare saying we will compensate doctors to talk about end-of-life decisions, which is a good thing and a wise decision. It's about dignity. Everyone wants that for their loved ones when they're in their final days of their lives.

Also, we then heard about illegals. It's going to be all about illegals. We debunked that myth.

Then we heard about a government takeover until somebody said, Wait a minute. Doesn't government already administer Medicare? They're doing pretty good. Ninety-six percent of respondents say they like Medicare, so maybe government knows a little bit about administering health care. Doesn't government already play a significant—not just administering the VA, they actually hire the doctors and provide the care. That is truly a single-payer system. That's government-run health care if there ever was, and you'd better not try to take health care away from our veterans, because they won't tolerate that. So then they had to move away from that.

Then we heard that it is only about the uninsured. Wait a minute. We find out premiums have been doubling over the last 10 years and are expected to double again. So now the insured, the people who have employer-based health care, say, wait a minute. We need reform, too. We have to have reform, and we cannot tolerate being rejected and

excluded for preexisting conditions and tolerate discrimination, which will affect young women the most.

So Americans have been peeling back the onion of falsehood time and time again. As the gentlelady from Maryland pointed out, the public option still is standing stronger than ever. It's almost as if, the more they attack it, the stronger it gets.

I just wanted to point out: Who wants the public option? Well, doctors want a public option. Nurses want a public option. The majority of Congress wants a public option. Faith communities want a public option. President Obama prefers a public option, and the American people do.

If you look at what doctors want, most doctors support the public option. Sixty-three percent of doctors say both the public and private options are what they would prefer. Sixty-three percent reported that they would like both public and private options. That's what the House bill is calling for. You have another 10 percent who said just a public option. That's all we want. So, if you add the 63 and the 10, you end up with a full three-quarters of doctors who say they would like the public option.

So I guess my question to the gentlelady from Maryland is: Why does the public option keep coming up strong despite these relentless attacks—the \$4 million this year and the \$7 million last year? What explains this?

I yield to the gentlelady from Maryland.

Ms. EDWARDS of Maryland. I thank the gentleman for yielding.

It's a pretty simple explanation. The American people are smart. They know it takes competition to bring down cost. They haven't been able to trust their health insurers. Even though they may like their health insurers and may want to keep their insurance, they know that they actually can't trust them to keep down premium costs and deductibles and co-pays. So, like most issues, the American public is way ahead of even Congress, and they are definitely ahead of the health insurance industry.

I go back to these lobbying reports because one of the things that I noticed, if the gentleman would indulge me for just a minute, is that the health insurance industry knows that they've had to cover all facets in order to debunk the need for reform, and so they didn't just stop at lobbying the United States House of Representatives. They lobbied the United States Senate. They lobbied the executive office of the President. They lobbied the Centers for Medicare and Medicaid, Health and Human Services, the Department of Labor, the Department of the Treasury, the Federal Trade Commission, the Office of Personnel Management, the Agency for Healthcare Research and Quality, and even the Internal

Revenue Service. They are leaving no stone unturned in order to defeat health care reform.

So the American people are very smart, and they have said three things: We want quality care. We want competition. We want to lower costs. They know that, in order to achieve those things, there must be a public option component as part of the array of choices. It's like a marketplace, the array of choices that are available to them.

□ 1815

So they want to be able to stack up each one of these plans, private plan X, Y, and Z, and the public option and see which one works for their family and then make that choice. And I think that the American public should actually have that choice. I actually believe in real choice even in health care. And the problem with the system that we have now is that in most States, there is no competition; one or two insurers have a monopoly or duopoly on all of the health care coverage in that State.

And what does that mean? What does that mean for our small businesses? It means, if you're a small business, you can't compete at all. You have no leverage whatsoever. You have no bargaining power, and you are at the mercy of the health insurance industry. And it means that they can charge you whatever they want for you to be able to provide health care for your employees.

And the poor small businesses, they're sitting out there saying, I want to provide health insurance for my employees, but I can't afford it any more. It's too expensive for me. I can't take it when my insurance costs are going up 10 percent one year, 15 percent the next year, sometimes as much as 20 percent in one year just to cover their employees.

So if people really believe in the free market—and I do—if you really believe in the free market, then let it be free and let there be competition. And the way to do that in health care and get quality, affordable, accessible health care for all Americans is to make sure the public has the ability to choose from an array of the private insurers and the public plan. It's like going to a marketplace, stacking up everything you want to choose, and making a selection.

By the way, if the gentleman would yield just a minute more, people are ready to make that choice, and now they're counting on us in the United States Congress to come down to the hard decisionmaking and to make the choices that we know are right for the American people.

And so what I say is, with the kind of support that you demonstrate among doctors, as much as 73 percent of doctors, two-thirds of doctors saying they

want at least a public plan and private options; with 62 to 65 percent of the public saying we want the choice of a public plan and private options; with people all across this country, our small businesses, saying, You know what? We need that in order to be able to provide affordable care for our employees because it's the right thing to do and it's what we want to do, so we want to take the burden off of our businesses. We want to ensure that we have greater competition, competitiveness in the global economy. And the way to do that is to make sure that we reform our health care plan.

Now, I know that the health insurance industry is going to go kicking and screaming to reform. And you know what I say to that, Madam Speaker? I say let them. Let them kick, let them scream, and we're going to go to health care reform anyway.

Mr. ELLISON. I thank the gentlelady for yielding, but the gentlelady should know that when you're hot, we've got to give you the ball, and you were. So thank you.

Just a few points.

I would like to point out that people have contacted us in the Progressive Caucus and different Members individually and let their views be known about how people feel. And I just want to point out that historically—and I think that there was a perception that the Progressive Caucus may have stood up for good values, may have fought the good fight, may have talked about inclusion of everybody, a society based on generosity, the beloved community, middle class prosperity, all of the good things, but when it came down to really sticking to the guns and saying, You know what? We're going to stand up for what we believe in, there was some doubt that that was the case.

And I just want to say that the Progressive Caucus has dug in for the American people. I am proud of what the Progressive Caucus has done. I am proud of the leadership that we've seen from the Progressive Chairs, Ms. WOOLSEY and Mr. GRIJALVA, because this perception that Progressives are going to cave has been dissipating because Progressives have been holding firm. This is the Progressive message. This is a Special Order of the Progressive hour.

And I just want to say that the Progressive Caucus has made it clear, the leadership has made it clear to the White House, made it clear on all fronts, that if you want our votes, you're going to have to do what's right by the American people; and that is to include the public option which doctors want, which the public wants, which everyone wants. It was not simply a simple temper tantrum. It was not saying we want it because we want it. It was because the American people needed a public option. So the Progressive Caucus stuck to it and didn't back

down. I think it's important to make this point. Because the Progressive Caucus really is a caucus that's unified not by culture, not by color, not by faith, not by gender, but by values. And these values are really being reflected in the advocacy around the public option, around true health care reform.

I just want to make that point clear to the folks who are tuned in tonight, Madam Speaker, because I think that it's important that folks know that there are people in Congress that are fighting for them. This is not the time for cynicism. This is not the time to say, well, you know, the industry is going to get their way again. No, they're not, because there are people here in the Congress who are hearing the call of the public interest.

I'll yield to the gentlelady on that note.

Ms. EDWARDS of Maryland. Thank you for yielding.

And as the gentleman from Minnesota points out, this isn't about what any individual Member wants or not. It's about what the American people want, and it's about what the right thing is for so many of our communities: people who have health insurance now but who are afraid of losing it or afraid of the costs to their families, and, of course, the millions of people out across America who don't have health insurance.

And this isn't also about fighting the good fight—there are a lot of good fights out there—but we have been able to unify our Progressive Caucus standing up for health care reform that's going to work for all of us, ensuring that we get rid of the practice of excluding people for preexisting conditions; that we get rid of the practice of insurance companies, once you've taken advantage of your insurance, then cutting you off; that we invest in preventative care, because we know that early investment in preventative care really saves dollars in the long run, whether or not we can attach a number to that.

We also are fighting for a public option because it's important that with the health insurance reforms that we also have choice for patients, a choice for our doctors.

And so we are on the right track here. And I have to say that because of the leadership of the Progressive Caucus also working with our leadership in the United States Congress—and my hat's off to our Speaker because our Speaker has been out there in the front, at the forefront actually fighting with us for a strong, robust public health insurance option, and I am glad we're where we are today.

We know that there is still work to be done. We're counting on the American people actually to stand up, you know, to call their Representatives, to call their Senators, to make sure to put out the plea across this country for

health insurance reform that the President of the United States can sign into law that will actually make a difference in people's lives, not just because it feels good, but because it will make a difference in people's lives and the long-term health and competitiveness of this country.

So I am a proud Progressive. I'm not afraid to say that at all. What I do know is that it's important to stand up to the people and not on the side of the lobbyist and the naysayers who want to do anything to stand in the way of reform. And we cannot let that happen. This is too great an opportunity for us to fail at this point.

So I am actually counting on success. And if we were on a football field—and I love football, so I will talk about it. So if we were on the football field, we're inside the 10.

Mr. ELLISON. The red zone.

Ms. EDWARDS of Maryland. We are in the red zone. We are approaching the goal line, and now it's time to make the tough decisions and take the ball across the line.

And I am ready to do that with our leadership in the Progressive Caucus. I am ready to do that with our leadership here in Congress and give the American people—not an individual Member of Congress, not a health insurance company, not an individual hospital or a doctor, but to give the American people the kind of reform that will lower their costs, provide competition, and give them quality care.

And so I think that we're right there. We're ready to go with this, and it's time for us to do justice for the American people and actually to deliver on a promise that all of us made to them in 2008 to deliver health care reform.

So I am going to go out and talk about health care reform some more, and we can spend some time. And I want the American people to actually spend some time doing a little research themselves. Don't just trust us here in Congress. Go find the information for yourself. Go to lobbying disclosure at [house.gov](http://house.gov) so that you can see for yourself what the health insurance industry is spending to defeat reform. And then when you hear their lobbyists, you will know to set that aside and stay on the side of patients, on consumers, doctors, and all of us who want true health care reform.

Mr. ELLISON. If the gentlelady will yield, I just want to say, as the gentlelady is offering her observations, it's reminding me that we are at a propitious moment in history. The fact is we are at a moment of history. We are hearing the call of history.

I wonder if the Speaker knows—do you know that it was Roosevelt, President Roosevelt, Franklin Delano Roosevelt who first said we need universal health care? It was Truman who repeated the call. It was Nixon, even,

who talked about health care reform; although, he did some things to undermine it. And it was, again, President Clinton who really worked hard to try to get health care reform.

This fight is decades in the making, and we are closer than we have ever been. We have reported out five bills in the Congress, so we're almost there. We're not far away. And so it's important that the American people hang in there, that they continue to be hopeful and expect success and that it's important to understand that success breeds success.

And as we pass health care, we will be able to really implement more policies that help working Americans, help the working class, the middle class Americans, help the environment, help us be a Nation that is at peace with the rest of the world, help us promote civil rights for all Americans and to leave no one out, to exclude no one, to stop policies of fear, of demonization, of exclusion. And this is something that offers very, very great promise for our Nation.

As I begin to wind down, I just want to make a few other observations that I think are very, very important, because I think it's so critical that we keep our focus on where it really should be.

And I am one who, you know, believes that when a group of constituents vote a Member to this auspicious body, that that person has something to offer. But I also want to say that elections have consequences. When you cast a vote and you send one party or the other to represent you, you have the right to expect that that party is going to deliver. And the Democratic Party, led by progressives, is delivering at this time.

I want to also say that new policies clearly underscore that the congressional party opposite is not in touch with the American people around health care reform. A new poll from Quinnipiac just released today further illustrates how Republican leaders of Congress are out of touch with the American people.

Just this morning, a leader in the party opposite said the public option has been resoundingly rejected by the American people, but look at the numbers that are coming out regarding the public option. On the wrong side of history. I recommend the rank and file come join the Democrats in passing health care reform. But as this new poll and others in recent weeks have all shown, Americans support a public insurance option in health insurance and in reform legislation.

This new Quinnipiac poll I mentioned said that 61 percent of Americans support a public option. The Wall Street Journal/NBC says 73 percent of the population supports a public option. The New York Times/CBS says 65 percent of the American public supports a public

option. The Kaiser Family Foundation says 58 percent of the American people support a public option.

Other findings of the Quinnipiac poll say that Americans trust President Obama more than Congressional Republicans to handle health care reform, 47-31 percent; 64 percent of those surveyed disapproved of the way congressional Republicans are doing their job, including 42 percent of Republican voters. And it's important for Republican voters to know that they have a choice and that they should vote effectively: the people who are getting it done, not the people who had the White House and the House of Representatives and the Senate from the year 2000 to 2006 and didn't do anything other than veto the State Children's Health Insurance Program, that's what they did; but people who, within a few months, are already within the grasp of true health care reform.

□ 1830

The fact is, Madam Speaker, that this moment in time is important. It is as important as any other piece of historic legislation that we have seen.

It's clear that the health care industry is in the final throes, final throes, and it is demonstrating a level of desperation by issuing this industry report which clearly is fundamentally flawed and clearly shows that it's dishonest and deceptive. And even the drafters, PricewaterhouseCoopers, don't want to claim it. Experts say that it's wrong.

So we've heard about the death panels. False. We've heard about the school sex clinics. False. We've heard about government-run health care and accusations of socialism. False again. We've heard about immigrants taking over health care. False. And now the truth is really, really standing clear. Truth crashed to the Earth will rise up. That is what has happened.

It's important for Americans to take heart, to take hope, to help support the passage of true health care reform and to understand that if we can pass health care reform, if we can win this 60-plus-year-old battle to get health care reform, then there are other battles to be fought and other mountains to be climbed and greater things that this wonderful people can produce for the American people, that America can live out its progressive value system and can say that we are going to expand opportunity for more Americans. We're not going to demonize and vilify Americans who happen to be of a particular racial group or happen to be not born in the United States or we're not going to turn them into somehow "the other," we're going to continue to embrace more people as this great country has done progressively over its history.

We're going to say that we're going to live in harmony with creation and

not just use it as just a fungible commodity to be burned and polluting the air and destroying the seas and acidifying the ocean. Big things await the American people, but it's important that we get over this last piece of true reform to get this momentum moving.

Madam Speaker, I will yield back at this time and close out the progressive message. Thank you very much.

#### HEALTH CARE

The SPEAKER pro tempore (Mrs. HALVORSON). Under the Speaker's announced policy of January 6, 2009, the gentleman from Louisiana (Mr. CASSIDY) is recognized for 60 minutes as the designee of the minority leader.

Mr. CASSIDY. Madam Speaker, I had several communications today that were just so appropriate for this time of discussing health care. I spoke to a physician in Ville Platte, Louisiana, who spoke just how the only people that can actually control costs in health care is the patient. Because if you think about it, if patients come in and want a test and they don't get the test, and there's going to be a dissatisfaction, sometimes patients will go elsewhere, and they will get the test from another provider.

Secondly, I spoke to a small businessman who said that his premiums are going up by 27 percent. And the third thing, I wrote a letter to a former patient of mine, the widow of a man who had died of cancer, and I was struck that in each of these, a common consideration was the cost of health care. Indeed, as we speak about health care, we can never get away from the fact that cost is a driver of our discussions.

As we approach reform, there are three things we need. We need to have quality health care accessible to all at an affordable cost. When we say "cost," the President acknowledges this, as well, the President has said that he will not sign a health care bill that adds one dime to our Nation's deficit. Now, by that criteria, and he understands that we are, as a Nation, having a problem with the budget deficit, if we create a new entitlement and if that adds to our budget deficit, then we, as a Nation, will be worse off.

I work in a public hospital in Louisiana. And in that public hospital, whenever money is tight in the State, there tends to be a squeeze on the financing of the hospital. I can remember years in which we would wait to order a test until after the new fiscal year. And this happens when cost is an issue.

So as we look at our goals of health care reform, it is accessible, quality health care at an affordable cost. Now, if the President says that he will not sign a bill that adds one dime to our Nation's deficit, we can understand

why four of the five bills before us are essentially eliminated. Four of the five bills include the public option, and the public option has been projected to increase our Nation's deficit.

Importantly, they are also projected to increase costs at 8 percent per year. Now, 8 percent per year more than doubles cost over 10 years. So when the President says that we know if we do nothing, we know if we persist with the status quo that costs will double in 10 years, four of these five reforms, on the face of them, according to the Congressional Budget Office, will more than double cost.

That leaves us with the fifth option which has received a lot of attention. That is the bill that is coming out of the Senate Finance Committee and which has come to be known as the Baucus bill. Now the Baucus bill is gathering our attention because according to the initial estimate, it would save \$81 billion. Wow. If we can actually control costs in that way, that's remarkable. It should be something that we all get behind. This is being seen as a vehicle where the Democratic leadership in Congress can achieve their goal of having health care reform in the way that they wish to achieve it.

Now, let me pause for a second. We all want reform. When I speak to that small businessman that says that his cost of insurance is going up 27 percent in 1 year, we know that that is not sustainable. At issue is, will he do better if it is merely the taxpayer or the ratepayer? If we come up with something which more than doubles cost in 10 years, that's really reform absent reform. It is merely changing a private insurance bureaucracy to a public insurance bureaucracy.

So we come back to the Baucus plan. Now the Baucus plan is significant because, again, it supposedly will save us \$81 billion in 10 years. But clearly there is an issue with it.

I say that because where do those savings come from? Who pays? Well, according to Speaker PELOSI who is, by the way, a Democrat, she says who pays this particular plan from the Senate Finance Committee? The savings come off the backs of the middle class. If you have insurance, you get taxed. There are \$201 billion in taxes on health insurance plans with a 40 percent excise tax on insurance plans worth more than \$8,000 for individuals or \$21,000 for family policies. Families making less than \$200,000 a year shoulder 87 percent of this burden. As it turns out, many of these people are union workers. Over years, union workers have given up wage increases in order to have more generous insurance benefits. By this, it makes it a bad situation. So the Senate finance plan will tax those benefits. And that's why Ms. PELOSI says the savings come off the backs of the middle class.

So if you have insurance, you get taxed. But if you don't have insurance, you get taxed. There are \$4 billion in fines on the uninsured and \$23 billion in penalties and fines for businesses whose employees enter the government exchange. So if you don't have insurance or do not provide it, then you get \$27 billion in taxes.

If you use medical devices, hearing aids or artificial hearts, you get taxed. There's going to be a \$38 billion tax on medical device manufacturers. If you take prescription drugs, you get taxed. There are \$22 billion in savings that are achieved by taxing prescription drug producers.

Total, there's \$349 billion in new taxes on employers, individuals, medical device and drug manufacturers and insurance providers and families making \$200,000 or less. Let's face it, \$200,000 is a lot of money, but that's also "or less" will pay 87 percent of the taxes. If the math holds, then about \$300 billion in these taxes will come from folks who are middle class or just lower upper income, if you will.

Despite that, there's still higher health care costs. According to the Congressional Budget Office, the independent arm of Congress, the premiums in this new insurance exchange which is created by this plan would tend to be higher than the average premiums in the current individual market. In fact, Mr. Elmendorf, who is the head of CBO, said that we note that piece of legislation would raise premiums on average.

There's also \$200 billion in taxes on health insurance plans. So that tax, presumably, will be passed on to the person purchasing the policy, so that makes those policies more expensive. And ultimately, we know that taxes upon the pharmaceutical industry and manufacturers of durable medical equipment will be passed to the people that consume it.

So there are several other things that we will explore as we go through. I'm joined by my colleagues, so I will ask Congressman GINGREY, who is also a physician, as I am, if he would contribute to the conversation.

Mr. GINGREY of Georgia. Madam Speaker, I thank the gentleman from Louisiana, Dr. CASSIDY, for yielding to me. I am glad to be with him and my other colleagues during this hour talking about this important issue of health care reform.

What Dr. CASSIDY is talking about in regard to the cost, I think, is very important. And we are constantly going back and forth trying to figure out what it's going to cost and how it's going to be paid for. One thing I would like for my colleagues to understand is that even if you can pay for something—and we're talking about a lot of money here. The 800-something-billion-dollar estimate, I think, is far lower than the actual cost, which is probably more in the range of at least \$1.5 trillion over 10 years. And of course we can

make a case, and I'm sure my colleagues will do that, when you really score this plan that the Democratic majority, Madam Speaker, has in mind, when you calculate it, when it's fully implemented in the year 2014 through the year 2023, then you're probably talking about something that, in fact, would cost more like \$2.5 trillion.

So we're talking about huge numbers here. But even if you can pay for it, even if the President can fulfill his promise of not raising taxes or not adding one dime to the deficit, and all these promises he has made, that if people like what they've got, they can keep it and won't be forced out of their current health insurance plan, the point is you're paying for something that's a bad plan.

Let's think back 25 or 30 years ago. When somebody decided that they were going to buy a new car, they figured out how to pay for that new car: Well, we're not going to go out to eat but one time a month; well, we're not going to take the family to the movies; we're going to cancel our vacation this year, and we're going to finally come up with the money, and we've got it, honey. We've got the money, and we can buy this new car, and we go out and buy an Edsel.

Now that makes a whole lot of sense, doesn't it, my colleagues? No. It doesn't make a bit of sense. It's one thing to talk about paying for it, but if we are going to pay for something, if we're going to make those kinds of sacrifices, let's pay for the right thing. I hope my colleagues understand where I'm coming from on this.

We on the Republican side of the aisle know we need to reform our health care system. We can do it. We can do it in an incremental way, and we don't have to break the bank in the process. We don't have to throw the baby out with the bath water.

I want to not take too much time, because a number of my colleagues are here with us on the floor, and I want to yield back to the gentleman from Louisiana controlling the time so that he can allow the others to talk.

We can do this. And if the President will abide by the promises that he has made, I've got a bill that I have introduced that is based on 10 principles, basically, saying no new taxes, no addition to the deficit, no government bureaucrat coming between a doctor and a patient, no rationing of care, and absolutely no denying coverage to people that have preexisting conditions and to assure that anything that we do purchase is not an Edsel and that, in fact, we do bend the cost curve and lower the cost of health insurance to every American.

□ 1845

This is the thing that I want to stress, and I think it's hugely important that we always keep that in mind.

I thank the gentleman for giving me an opportunity to be with him tonight.

Mr. CASSIDY. Thank you, Congressman GINGREY.

I think what you are talking about when you have the money, honey, let's go buy a new car, means that you actually have a way of financing within your own budget that's honest and that you know you can sustain, so that after a year of purchasing the car, you can continue the payments.

I would like to in a later point go back to Republican solutions, but just provide a little bit of a critique on the Senate Finance bill, because I don't think that they actually have their money, honey. One of the reasons I am concerned is because this is, if you will, a schematic of where they have achieved their savings from.

One of these is an unfunded mandate on States to provide Medicaid coverage for folks for whom they do not do so now. That's important because it means that it is a State taxpayer that does it.

Even though they achieve savings and theoretically are not increasing the Federal deficit, they will be increasing State deficits. According to different Governors, Arnold Schwarzenegger says that in California this unfunded mandate will be \$8 billion a year. That's in *The Washington Post*.

Now, they already have a \$45 billion deficit in California. Governor Schwarzenegger is saying that it's going to add to that \$8 billion a year; in Tennessee their Governor says \$5 billion; Texas \$20.4 billion increased cost over 10 years; Arizona, \$4 billion cost over 5 years.

My State of Louisiana, which has a \$1.8 billion shortfall in Medicaid over the next 2 years, this will increase the Medicaid deficit by \$640 million over 5 years. I wish our State was as wealthy as California; but in our State, \$640 million over 5 years is truly a tall mountain to climb.

We are joined tonight by Congresswoman LUMMIS, who is a former State treasurer from Wyoming. Congresswoman LUMMIS, will you please offer your thoughts.

Mrs. LUMMIS. I thank the gentleman for yielding and for holding this discussion about health care costs.

What we do know about the bill, and the gentleman's chart shows some of the problems with it, Medicare cuts are going to be bearing a huge brunt of the expense of this new mandate.

There are \$350 billion worth of Federal tax hikes, but those that combined are not enough. The Senate Finance Committee's bill imposes a \$33 billion unfunded Medicaid mandate on the States. Now, what that means, an unfunded mandate is when the Federal Government tells the States you will pay for part of this, and it will come out of your pocket.

Mr. CASSIDY. What we see on this previous slide is there is \$81 billion,

these are in billions, so there is \$81 billion in savings. That's how much it cuts the Federal deficit. The \$33 billion you speak of is from the Congressional Budget Office estimate, the independent arm of Congress. We would have to at least subtract \$33 billion from that \$81 billion if we are talking about total health care spending by a government entity. Fair statement?

Mrs. LUMMIS. Indeed. Furthermore, 33 States could see an over-30 percent increase in their Medicaid enrollment. Those kinds of increases, including my State of Wyoming, will hit States whose budgets are suffering now without these additional costs.

In my State of Wyoming, our Governor has asked his State agencies to propose budgets that are 10 percent lower than the last budget, and that includes cutting Medicaid options.

Mr. CASSIDY. That's 10 percent now without the imposition of the unfunded Medicaid mandate; is that correct?

Mrs. LUMMIS. The gentleman from Louisiana is correct. This is not just coming from States like mine in Wyoming. The Governor of Pennsylvania, the Democratic Governor of Pennsylvania, has said, I think it's an unfunded mandate. We just don't have the wherewithal to absorb that without some new revenue source. Now, that would be a new revenue source in Pennsylvania in addition to the new revenue sources that the Federal Government imposes.

Mr. CASSIDY. New revenue source means State tax.

Mrs. LUMMIS. It does indeed. The gentleman from Louisiana is once again correct. The Governor of Tennessee, also a Democrat, has said he fears Congress is about to bestow the mother of all unfunded mandates. Unfunded mandates are orders from Washington that States will spend money that they don't have.

Mr. CASSIDY. I kind of like that, "mother of unfunded mandates."

Congressman THOMPSON, you are from Pennsylvania, and we are speaking of Pennsylvania. What thoughts would you offer, say, regarding, for example, I see that this is the Medicaid population increase per State under this bill. By this, in Pennsylvania, you will go up 20 percent. What would that mean to the State taxpayers of Pennsylvania?

Mr. THOMPSON of Pennsylvania. Well, I thank the gentleman for coordinating this very important discussion this evening, and I thank the gentleman from Wyoming for referencing the Keystone State.

Yes, Pennsylvania would be impacted tremendously by this. Certainly, expanding health care is a laudable goal, but this Federal mandate would require the increase of State Medicaid funding, an unfunded mandate. With this legislation, Pennsylvania would be required to increase State Medicaid

funding by \$2.2 billion over the next 10 years. Additionally, Federal subsidies for Medicaid would end in 2019, leaving States to pay the full costs of the Medicaid expansion. In Pennsylvania, the costs would be approximately \$930 million in the year 2020 alone.

Now, Pennsylvania, my State legislative colleagues, they have had a challenging time. They just, finally, after months and months, came to a budget agreement. There was a budget crisis. It really illustrates how difficult it is for the State to maintain a balanced budget with rapidly increasing costs of government programs.

Mr. CASSIDY. Now, just so the folks understand this issue, in State government, State governments can't print money. They have got to balance the budget, I presume, in Pennsylvania as in my State.

If your population is going up, Medicaid population is going up by 20 percent, and you mentioned how much extra money will have to go into that, that will either come from higher taxes or lower services, for example, lower money spent for road construction, for secondary education, for colleges, et cetera; is that correct?

Mr. THOMPSON of Pennsylvania. It's going to come out of the pockets of the taxpayers. Here's the rub with that: there are actually, as you read the Baucus bill from the Senate, there are exemptions, interestingly enough. One of those is for the State of Nevada. Nevada is on that chart, but I think Democrats and Republicans alike are aware of the damages that this bill will inflict on their States.

In the States, in the Senate version, for example, Senator REID negotiated a deal to exempt the State of Nevada from any additional mandates in the health care legislation. Now, if this proposed legislation is too much of a burden for Nevada, what about the rest of the country?

Mr. CASSIDY. Governor Schwarzenegger says that this will add \$8 billion in cost per year to California. In Texas they project over \$4 billion per year. But these States will have to come up out of pocket. But because Nevada has been able to swing a separate deal, they are protected from this cost, although these States are not.

Mr. THOMPSON of Pennsylvania. Well, they are not only protected, but the taxpayers in our States will be paying their bill.

Mr. CASSIDY. So the Californians and the Texans and the Louisianans will be paying for their own States, and they will be paying for Nevada too.

Mr. THOMPSON of Pennsylvania. A total of four States were exempted. Nevada is the one I know of.

Mr. CASSIDY. Well, this is where other States are, the growth in the Medicaid population.

I am going to ask Congressman Boozman to speak. Arkansas' Medicaid pop-

ulation will go up by 40 percent, and what will that do to your State finances?

Mr. BOOZMAN. Well, as the gentleman just said, our taxes will go up; and we will not only be paying Arkansas' share, but we will be paying for those four States that have worked a deal.

I was struck. Will you go back to the chart that shows the Medicare.

You know, when you look at that chart, a tremendous amount of the pay-fors come out of Medicare, cuts to Medicare doctors, \$240 billion. Right now, it's not uncommon at all for me to get a call because I am an optometrist and practitioner in the area for a long time, and they say, my aunt's moved to town and they are having trouble finding a Medicare practitioner now because people are cutting back on their hours and just refusing to have additional patients.

We are talking about cutting that \$240 billion, \$130 billion to the Advantage Program and 120 to the Medicare hospital account, which really will devastate rural hospitals in particular, which really will affect my State a great deal. When you add all of that up, that's close to \$500 billion.

Medicare goes broke now in 2017, 2018. You have to ask yourself, What is Medicare going to look like in 7 or 8 years? Right now, it's a good program. Our seniors are doing well; they are getting good care.

But when you add 30 percent more population to the program, take away \$500 billion of their resources, again, what is that program going to look like? What is that going to do to our seniors?

I had a senior call me today, an old coach of mine. He said, John, I don't understand this. You know, we are the group that have paid taxes the longest. I have faithfully paid in—this gentleman is in his 80s. He said, I have paid in all my life, and now I am at the point where I am needing my care, and we paid in the longest, and you are going to penalize us the most.

I think that's something that we really do have to consider.

Mr. CASSIDY. Your point being that some of these savings that are achieved to give this nice Congressional Budget Office evaluation of the cost of the Senate Finance bill are, if you will, the savings coming from \$240 billion cuts to providers.

Now, Dr. ROE, you have practiced medicine in Tennessee for many years. Two questions for you.

Is Medicare payments to hospitals and physicians so much above their cost that you can decrease them this amount and not impact the ability of those folks to continue to see Medicare patients? I will start with that question.

Mr. ROE of Tennessee. Well, I think the mantra that you hear is we want

affordable, accessible, quality health care. Just to speak to what Dr. BOOZMAN was saying there briefly, if you look at the next 10 years, and you take 400, \$500 billion out of the Medicare system, and you add 3 to 3½ million people to the Medicare system, each year, and then in the Baucus bill after year 2 you cut providers by 24 percent, you do the math.

I mean, how can you provide more quality care to 30 million people with \$500 billion less money? You do the math, it's impossible.

Mrs. LUMMIS. My own Wyoming medical center in Casper, Wyoming, gave me statistics that show that they are reimbursed 37 cents on the dollar for every Medicaid actual dollar that they pay out. That means that two-thirds, roughly, of the dollars that are paid to Medicare-receiving patients are paid by someone other than the Federal Government.

We are already subsidizing the Federal Government. The Federal Government is already not meeting its obligation to serve Medicare patients.

Mr. ROE of Tennessee. We have done—there are two plans out there that have had beautiful experiments in the States. That's Tennessee and Massachusetts.

What happened in Tennessee, in the early 1990s, we had managed care come along and the health care costs were escalating. We have a lot of uninsured Tennesseans. It was a noble goal to try to cover as many Tennesseans as we could. So we started a plan with eight different managed care plans to compete for business.

What happened between 1993 and 2004, budget years, 10 budget years, 11 budget cycles, is that the cost on spending, on Medicaid, which is TennCare, our exemption from the Medicaid system, went from 2.5 or \$2.6 billion a year to \$8.5 billion a year, over triple in cost.

Now, what do we get for that? Well, we got more people covered; and we found in this public option that 45 percent of the people who had the public option dropped private health insurance and went on the government plan. Well, that was fine for the person who got the care at that time.

But what happened, to make your point, is that the Medicaid system in our State pays less than 60 percent of the cost of actually providing the care. Medicare pays somewhere between 80 and 90 percent of the costs, the uninsured somewhere in between, and the rest of it has shifted to private health insurance companies.

I can tell you exactly what happened in our State is that they almost broke the State. The Governor, who is a Democrat and who is doing a fine job, as is the legislature that's Republican, are working together to try to solve this problem.

□ 1900

How did they do it? How did they ration care? What they did was they cut

200,000 people from the rolls because the State could not afford it.

What also is going to happen is our governor, and I have a letter from the governor right here, is extremely worried about the Bachus plan, and he has already scored that because he knows the next governor is going to have to deal with it. What he is looking at is at least \$735 million over 5 years. And if this were to happen, if the State were to sue Medicaid, which Washington State and California have done, to freeze the rates so that you couldn't lower the Medicare and Medicaid rates, that could be as much as \$1 billion more for the State in an unfunded mandate.

Right now our State has no way to pay for it. We just don't have it in Tennessee. And to show you we don't, the governor and the legislature have had to cut off enrollment in the SCHIP plan, in our State it is called Cover Kids, because we don't have the money for even our matching part right now.

Mr. CASSIDY. So, reclaiming my time, your experience is basically the kind of experience I have had. If costs are not controlled, ultimately patient care suffers.

Mr. ROE of Tennessee. Look, just to get some more time, if you look at this, there is no way on this Earth, and I said when I came here I was worried, very worried, about our children and grandchildren, my grandchildren, how they were going to do in this system. I am now very worried about our seniors, because I am afraid when you decrease the amount of resources, the amount of dollars, and add more people and cut the costs, cut the amount of money you are going to pay to providers, you will decrease access and you will decrease quality. It has to happen. Or, thirdly, our seniors are going to pay a whole lot more money for their health care, which they cannot afford.

In our area where I live in the First District of Tennessee, it is not an affluent area; it is a mountainous area of the State, and so many patients that I saw every year, a lot of widows that I saw lived on a fixed income, a small Social Security check, \$500, \$600, \$700 a month and maybe a \$100-a-month pension. They cannot afford any more for their health care right now.

There are millions of Americans, our seniors, who no longer can go out into the workforce. They can't hold a job at Wal-Mart as a greeter or at McDonald's or whatever. They are just physically not able. What are we going to do for those folks?

Mr. CASSIDY. Reclaiming my time, Congressman GOHMERT, your State will have a 77 percent increase in your Medicaid population, so your governor predicts it will be \$4 billion more a year in costs to the State of Texas. So as we score this Senate finance bill, which supposedly saves the Federal Government money, it apparently saves it by

making Texans pay more on their State taxes, is that correct?

Mr. GOHMERT. Absolutely correct. Texans will be devastated. I understand a lot of folks aren't concerned about what affects Texans, but Texans are. But you have to look across the country at the way it affects overall the Nation, and this is devastating.

I wanted to follow up on something my friends were talking about with regard to the costs of Medicare and Medicaid. We had just heard earlier tonight from my friend from New York, that, gee, the actual overhead cost of Medicare is, he said 3.5 percent, and the overhead cost for insurance companies is 30 percent.

I don't know where he is getting those numbers. The numbers that I have seen, the numbers I have gotten from reports here, I have got them in front of me, indicate it may be 3 percent or so for Medicare average, but that is not all-inclusive of their costs, and private insurance averages around 12 percent.

But Medicare, as this article notes, Medicare is devoted to serving a population that is elderly and therefore in need of greater levels of medical care, and it generates significantly higher expenditures than private insurance plans, thus making administrative costs smaller as a percentage of total costs. This creates the appearance that Medicare is a model of administrative efficiency.

But what John Alter sees as a miracle is really just a statistical sleight of hand. This notes that private insurers have a number of additional expenditures falling into the category of administrative costs, like taxes that they have to pay that Medicare does not pay.

Additionally, when you compare the administrative costs on a per-person basis, Medicare is dramatically less efficient than private insurance plans. And, as this article notes, Medicare's administrative costs from 2001 to 2005 were, on a per-person basis, 24.8 percent higher on average than private insurance. So when they talk about adding millions of more people on a Federal plan, you add that additional per-person amount, it is going to be dramatic.

My friend from Pennsylvania asked that I yield.

Mr. TIM MURPHY of Pennsylvania. I appreciate the gentleman yielding.

There are a couple items on that, that are important to know. When people talk about the low overhead cost for administration for Medicare, that is because they don't count the things that go with the Department of Health, CMS, and all of the administrative costs that physicians have to have, because what they do is, they pay doctors and hospitals less, as has been pointed out, and have many times a loss on this.

If I could elaborate on this, this is important, because as the majority is

looking at removing \$500 billion from Medicare, you can cannot slash a program by that much without having devastating effects.

It reminds me of the old days in medicine, I wasn't around at the time, when they thought they could treat patients by bleeding them. They said you won't miss a pint or two of blood. It does affect the patient.

In this case, let's keep this in mind: Health care is not expensive because people have insurance, and yet they want to tax insurance. It is expensive because it is filled with waste and inefficiency and misdirected government mandates. When the government comes by and gives doctors pages and pages of paperwork and says you can do this but you can't do that, it is a concern.

Let me give you an example of that. Ninety-five percent of Medicare goes to pay for chronic illness, but because Congress says you can't really manage chronic illness, it is a massive amount of waste. What can doctors pay for? Individual tests, individual procedures. But we know that disease management saves money. With a diabetic patient, heart disease, pulmonary disease, very complex cases which often times require multiple specialists to go to, multiple medications, but as the President himself said, and I remember having this conversation at the White House as well, we will not pay a penny to have a nurse or physician's office call that patient, check their blood glucose levels, check their oxygen levels, see how they are doing, but we will pay tens of thousands of dollars to amputate their feet for a severe diabetic. That is part of the problem we face with Medicare.

Here are a few more. Not only do we not pay for disease management, Medicare Advantage does. Medicare Advantage pays to have someone belong to some sort of an organization where they will get in physical shape. It pays for vision and dental. But now the talk is, let's cut Medicare Advantage because it costs too much and let's somehow do these other things.

It doesn't make sense. This is not evidence-based medicine. Evidence-based medicine says for patients who have a lot of complications, you treat those patients, you work with those complications. And yet what is happening here, the way this Senate bill goes, and I was just looking at this, is, it says let's slash Medicare Advantage so seniors do not have this.

Keep this in mind: Only 1 in 10 Medicare beneficiaries are traditional fee for service, because fee for service doesn't limit out-of-pocket expenses and provides many of the supplement benefits that Medicare Advantage does. That is where, when people says it rewards overuse, it is because that is the only thing sometimes it will pay for.

We need to focus on how we can actually reduce health care costs. The sad

thing about this is that by reducing fees this much for Medicare Advantage, by refusing to pay the very thing that we acknowledge that science and medicine is telling us is going to work, instead what it is going to be is pay doctors less, pay hospitals less, put more burden on the patients, gut \$500 billion, and somehow miraculously out of the sky will come a more efficient health care system. It is just the opposite, I submit to you. Just the opposite.

Mr. CASSIDY. Reclaiming my time, it strikes me really in one way there is nothing radical about these plans, because all these plans do is take the current top-down, bureaucratic-controlled system and they nationalize it. Now, it is not the same sort of, if you will, patient-centered, where patients are involved in their care, patients are involved in saving costs. It doesn't involve that.

In a sense it is new wine in an old wineskin. All we are going to do is put the new wine of a nationalized, centralized, controlled type process, and without any of the things that you describe, which are, if you will, truly transformative, things that would help lower costs by empowering patients and empowering the physicians to work with those patients.

Mr. BOOZMAN. Can I say something to the gentleman from Texas? The other thing that we have to remember in the administrative cost is that at least 10 percent is waste and fraud. So you have this very low administrative cost. Well, they are not doing anything.

Mr. CASSIDY. You are speaking of Medicare, if I may reclaim my time.

Mr. BOOZMAN. In speaking of Medicare. The President stood up here a few weeks ago and agreed. In fact, all of the things—he was going to fix everything—much of what he was going to fix was going to be paid for by getting rid of this waste and fraud, primarily in Medicare and then also in Medicaid. So when you are not really administering, when you have all of this going on, then certainly you are going to have a very low expense. But the true expense is much higher.

Mr. GOHMERT. And John Stossel had made that point well and referred to the Cato Institute, that 10 to 20 percent of private insurance administrative costs goes to preventing fraud because the private insurers care about whether or not they lose money. But, on the other hand, as he points out, Medicare is just taxpayer money, so they haven't been as concerned with waste, fraud and abuse.

From my days as a judge, what we saw was when somebody knows where there is fraud going on and they have a duty to do something about it and don't, they are accessories to the fraud. So it grieves me much to hear leaders around this town in the majority and the administration at the White House

saying, if you will pass this bill, we will cut out the waste, fraud and abuse, and that will pay for \$500 billion in cuts. Why don't you quit being an accessory and cut it where it is?

I have just got to mention this. I was talking to a senior that I consider a very wise individual, and this weekend she said, You know what concerns me about the \$500 billion in cuts to Medicare? Maybe not, but I can't help but think, they know that as seniors, we have been through World War II, we have seen the evils that lurk in this world. We have gained great wisdom from our years. And they are willing to let us die off more quickly so that we are not around to try to get our wisdom across to the young people of what is at risk by this government takeover.

Mr. CASSIDY. Reclaiming my time, as we come back to this, the conversation is that the bill which has been favorably reported as \$81 billion in savings, actually the savings, as Ms. PELOSI says, comes on the back of the middle-class. If you will, part of the conversation is that it punishes the middle class. In fact, if you include the cost of the unfunded mandate to the States, if you recognize that some of these Medicare cuts just won't happen, it is reasonable to say that it is going to increase the deficit. If you will, I would like to say it is not so much fiscal responsibility as it is fiscal sleight of hand.

That said, Congressman THOMPSON, you have been a hospital administrator. What would be the impact of these savings upon the patients who were seen in hospitals where you worked?

Mr. THOMPSON of Pennsylvania. Well, I thank my good friend for that question. Actually I go back to the position I left 2 days before I was sworn into Congress, and actually at that point I will take it to be my responsibility in two areas specifically designated in here: Skilled nursing and hospice. I actually was a licensed nursing home administrator up to that point, working with individuals that really are the most vulnerable.

The people today that are in skilled nursing are the sick of the sick. They are individuals who have no other alternatives. We work real hard to have people stay in their homes and to age with dignity, but there are certain ones, and it is a small part of the population, they need facilities like good, caring, compassionate skilled-nursing facilities.

At the same time, for those folks who are at the final days of their lives and find themselves with a terminal disease, they need services such as hospice, where they are able to die with dignity and with compassion, surrounded by family, whether it is in their homes or in a facility much like the one I worked in.

So it just, I would say, grieves me, but angers me actually that this Sen-

ate health care bill, among the Medicare cuts that we see today, are slated for skilled-nursing facilities, which I can tell you nobody is getting rich in the skilled-nursing industry. It is challenging to make the day-to-day financial payments and requirements there. But the skilled-nursing facilities under this Democrat proposed bill are slated for cuts of \$14.6 billion.

Mr. CASSIDY. Now, reclaiming my time, that is not an industry. That is a set of patients. Is that a fair statement?

Mr. THOMPSON of Pennsylvania. I think it is people's lives. You are right. This goes beyond an impact on industry. This is in fact an impact on people's lives, and the lives of people who really are some of the most vulnerable folks that are in our country.

□ 1915

And then you turn to hospice services. There are people that are in their final days of life and they're looking for that opportunity to die with dignity surrounded by family and loved ones in a setting that is just very compassionate, and this bill is anything but compassionate. This Democratic bill that is scheduled for \$11 billion in Medicare cuts to hospice.

Mrs. LUMMIS. Will the gentleman yield?

Mr. THOMPSON of Pennsylvania. Certainly.

Mrs. LUMMIS. You know, one of the most exasperating things about this whole health care debate in the last several months that's been unfolding is that the bills we've seen from the Democratic Party, from the majority party, will make matters worse than the status quo. But we don't have, as a minority party, the opportunity to show people how we can make matters better than the status quo.

And I would yield to our leader this evening to discuss some of those 40 bills that members in the minority party have sponsored that would make matters better.

Mr. CASSIDY. Reclaiming my time, I was speaking to that small business man today back home whose premiums have just gone up 27 percent, and he was unaware of the Republican options. And there's a wall of sound that says the only thing we can discuss are the Democratic-controlled bills as opposed to the other options.

There is H.R. 3400, which really encapsulates many of the things that Congressman MURPHY was speaking about earlier. Now, if we want to say that there are the essentials of health care reform, there's an article by McKinsey & Company which is very good. And it says the essentials are to reduce administrative costs, reduce the cost of chronic care, which is what Congressman MURPHY was talking about, and incentivizing patients to make value-conscious decisions so that

when the patient actually becomes aware of how much something costs, she will make a different decision than if she feels as if it costs nothing more at all.

I know, Congressman ROE, you have experience with the health savings accounts, if you wouldn't mind commenting on that.

Mr. ROE of Tennessee. Well, I appreciate that.

There's no question in our area we've had four different small businesses, including Johnson City, Tennessee, where I was mayor before I came here, that have actually flattened their premium increases by doing exactly what Congressman MURPHY was talking about. You change the incentives.

BAE Corporation, Holston Munitions, they make C-4 and plastic explosives and so forth, and that company has 700 or 800 employees. They have not had a premium increase in 5 years in that company. How'd they do that? Well, they changed the incentives. If you were hypertensive and obese and smoked, it would cost you more for your insurance. If you got on their plan, their wellness program, and you stopped smoking, you exercised, and you lost weight, they would reward you financially. And guess what? They have kept their premiums down. Free Will Baptist Ministries, a small 150-person group has done exactly the same thing.

I've had a health savings account, and let me explain that to people out there who are scared away with this. In our practice, we have almost 300 employees who get insurance through our company, through our business, our medical practice, and 84 percent of them have a health savings account.

What that is is this: You manage the first dollars. The first dollars may be \$3,000. Mine was \$5,000. So I paid the first dollar for any health care, but it made me a great consumer. It also incentivized me to stay healthy, exercise, eat right. If you don't spend that money, guess what happens? You get to keep it, roll it over into next year like an IRA, and you can spend that on your health care the next year. And if you're healthy over a number of years, then you're able to keep this money and buy long-term care with it or whatever you want to spend it on health care-wise. If anything over \$5,000, I had a catastrophic policy, so if I had a cancer or a car accident or some severe illness, it covered 100 percent. So basically what I was doing was I'm the insurance company. I'm managing my own care and my own dollars. It works extremely well. Under this plan, it does not work.

And before I stop, I wanted to pass along something that I found very fascinating in Massachusetts. In Massachusetts, they've done a great job of trying to cover their citizens there. They have about 97 percent covered, but they're running into the same issue

that we did in Tennessee. From 2006 until now, State spending on health care is up 70 percent. And in that State, you cannot be denied coverage and you have a mandate to buy insurance as an individual. So you have to purchase this insurance.

Harvard Pilgrim Health Care, from 2008 until 2009, found this out, that 40 percent of their new enrollees were enrolled for less than 5 months, and during that 5-month period of time, they averaged spending \$2,400 a month on those folks. For the folks like the rest of us that just go out and pay our premiums, it was \$350 a month. So what these people were doing is they were waiting till they got sick, then they bought the health insurance, and when they got well, they dropped it. So they paid the fee or the tax. Look, people will do what's in their own best interest. They're smart, and they'll figure out what to do. So I don't know how you make people or force people to do it.

Guess what happened in Massachusetts? The rest of us, the rest of the folks up there who got insurance subsidized those people greatly. So I think you have to put the onus back on, and we have several plans out there that can do that, that incentivize people to look after their own health care. I mean, some very simple things to do.

Tort reform. Very simple. You can save billions of dollars. Take away State lines. Allow co-ops or association health plans to be formed. Subsidize State high-risk pools. So if a patient of mine who came in and said, Dr. ROE, I was diagnosed with breast cancer 5 years ago and I'm uninsurable, make sure that patient, that woman can get affordable health insurance. Those are simple things we can do that everybody in this Chamber ought to be able to agree on.

Mr. CASSIDY. So, as opposed to the Senate finance plan which, frankly, I think punishes the middle class—again, Speaker PELOSI says that the savings in this plan will come off the backs of the middle class. Instead, we're offering a different sort of thing which costs are controlled by empowering patients. As Dr. Ardoin said, from Ville Platte, Louisiana, patients are the only one that can control costs. And so that would be our sense, empowering patients as opposed to putting the savings off the back of the middle class.

Mr. ROE of Tennessee. Dr. Cassidy, you know this, that if I had a patient that was a pregnant diabetic and she came to me, I can tell her what to do, but unless she's empowered to take care of her own blood sugar calculations, she's not going to have a successful outcome. So we absolutely have to engage our patients in solving these problems. There's no doubt about it.

Mr. CASSIDY. And reclaiming my time, to have some independent judgments, again, the Congressional Budget

Office is the one that says that the Senate Finance plan will have a growth in cost of 8 percent per year, which more than doubles. Contrast that with the Kaiser Family Foundation study about health savings accounts, and they've found that a family of four with a health savings account and a catastrophic policy on top had a cost of insurance 30 percent cheaper than a family of four with a traditional insurance policy. So because the family is engaged, their costs are 30 percent cheaper, again, per Kaiser Family Foundation. That's bending the cost curve.

Mr. ROE of Tennessee. Well, there's no question that the American people are the greatest shoppers in the world. I mean, how many of us haven't driven over five lanes of interstate to get gas 2 cents a gallon cheaper. I mean, we've all done that. Admit it. We are good shoppers and consumers, and health care ought to be the same way.

Mr. CASSIDY. So Congressman GOHMERT, have you ever driven across five lanes of traffic to get some gasoline at a penny cheaper?

Mr. GOHMERT. I've driven further than that to get cheaper gasoline. I've driven a lot further. In fact, I'm a guy that when I get my gasoline and I turn off the pump, I will still make sure I get all the gas out of that hose into my car that I paid for. Americans do that kind of thing when it matters.

Mr. CASSIDY. Reclaiming my time, and that's because you're empowered, if you will. Now, what if someone else were filling up your gas tank? Do you think that if someone else were the responsible party as opposed to you, would it be the same dynamic?

Mr. GOHMERT. I doubt that if anybody's got my credit card and paying for my gas that they'd go to that much trouble that I do when I'm paying for it. But I'll tell you, to follow up on what's been discussed here and mentioned about health savings accounts, even yesterday we had people across the aisle coming to this floor and saying, Republicans have no solutions. And I don't care how many times they say it, it is still not true. As my friends have been talking about, we have some plans.

I have a bill that uses the HSA, the health savings account, as the method of getting health care on track, of getting patients the power they haven't had in years, the coverage they haven't had in years, or ever. And we had people on the floor from across the aisle just saying yesterday and today that we want people to get on Medicare; we have no alternative to that. They need to read some of our proposals.

My bill, it gives seniors an option. You can stay on Medicare or we will give you money every year in a health savings account and pay for the catastrophic care to cover everything above that. You won't need supplemental.

You won't need wrap-around, and we'll give you that choice, because I know where they're going to go, and when we incentivize the young like we do in my bill, like my friend Dr. ROE was talking about, that is going to get the young people on there. So as they get older, they will have accumulated, most of them, so much in their HSA they're not going to want anybody from the government interfering in their health care.

Mr. ROE of Tennessee. Would the gentleman yield?

Mr. GOHMERT. Sure.

Mr. ROE of Tennessee. When I go in, and I had a procedure done on myself a couple of years ago. I take this card right here, which is my health savings account, and it's a debit card. And that day they get paid. I said, I want your best price. I want the lowest price you can give me right here when I pay you because you get your money, no insurance company involved, no anything. I'm paying today cash out of my health savings account.

Mr. CASSIDY. If I may reclaim my time, again, going back to the McKinsey & Company report that spoke about the three imperatives for health reform, one was decreasing administrative costs. I read a statistic that 40 percent of the overhead of a primary practitioner is related to billing. With that debit card, you just lowered that 40 percent to a minimal percent.

Mr. GOHMERT. If the gentleman would yield, another thing that does is it gets transparency back in the process, because when you come in with an empowered HSA debit card and you tell them, as Dr. ROE did, give me your best price, and under my bill, it requires that they give everybody exactly what the prices are in advance. And if Blue Cross is getting a better price, they have to tell you that, too. And then you would say, well, you either give me the Blue Cross price or I'm going down the street where they will. It gets competition back in when you get that transparency. We have that in our alternative bills that are not getting the chance here on the floor.

Mr. BOOZMAN. The other thing I would say, and you all, the gentleman from Tennessee and you might talk about the importance of getting rid of these nuisance lawsuits. We got good news. I believe it was the CBO, somebody scored this week to the tune of many, many billions of dollars. That's something that our side is pushing for very, very hard. Everyone agrees. Even the President, when he addressed us a few weeks ago, made mention of the fact that he'd been talking to his physician friends and this and that and that he felt like, you know, that there was something there. The problem was the solution that he offered is really no solution.

But why don't you guys talk a little bit about the numbers, what that

would do, and then also how that drove costs in your individual practices.

Mr. CASSIDY. Dr. ROE, as we try and come up with a plan which is patient centered, that controls costs, that expands care, OB-GYNs, which you are, have had more problems—except maybe neurosurgeons—with the cost of malpractice. Would you mind commenting?

Mr. ROE of Tennessee. Thank you. Let me just give you a little historical trip.

These crises, legal crises have occurred throughout various States in the Union, and it occurred in Tennessee in the mid seventies. All the companies who provided malpractice insurance left the State. So the doctors got together and formed a mutual insurance company, State Volunteer Mutual Insurance Company, where what we don't pay out in premiums—I mean in charges and costs. We keep and it comes back as lower. When I got my first malpractice premium in the seventies, it was \$4,000 a year. The young physician who replaced me was \$74,000.

□ 1930

Mr. CASSIDY. Excuse me, Congressman. I'm sorry, \$74,000 a year for malpractice insurance?

Mr. ROE of Tennessee. Yes. And I spoke to a neurosurgeon just yesterday who is over \$100,000 a year just in Tennessee. What happened in our State was the following: since the inception of that company, since the mid-seventies until now, that's 35 years, over half the premium dollars we've paid have gone to attorneys, less than 40 cents have gone to the injured party, and 10 cents go back for reserves and running the company.

What we have in America is a terrible system to actually pay for injured parties. If we have injured someone in a medical malpractice event, we have no good way except through the legal system, in which most of the money goes to the attorneys, both defense and plaintiff attorneys. We can't actually pay for the injured party.

That is what's wrong. And I would suggest that the attorneys have to come and help us get a system that better helps the injured party, to compensate them. If we hurt someone, let's compensate that person. Right now in our State we have a terrible system to do that.

Mr. THOMPSON of Pennsylvania. Will the gentleman yield?

Mr. ROE of Tennessee. Yes.

Mr. THOMPSON of Pennsylvania. We have a bill that we've made reference to that Republicans put forward, H.R. 3400, which specifically addresses tort reform, among many other things. That bill essentially would remove the burden on health care today, which I consider part of the waste, and that is the medical liability premiums; \$26 billion annually in medical liability pre-

miums. That's not a price tag that considers the cost of defensive practice, and I understand that. I mean, you invest anywhere from \$200,000 to \$500,000 coming out of school in loans, and because of lawsuits, and many times frivolous lawsuits, you can lose your practice and lose your home over the ordering of additional tests. That has to be in the neighborhood of somewhere over \$100 billion annually.

H.R. 3400, which we have put forward, if that would come to the floor and our colleagues on that side of the aisle would join with us, we could eliminate over \$125 billion in unnecessary costs from health care today.

Mr. CASSIDY. Reclaiming my time, we have about 1 minute left together.

We can say that we have really two contrasting visions: one is basically nationalizing the health insurance industry; and although scored as an \$81 billion cost savings by the Congressional Budget Office, we have discussed that that's in part because of cuts to Medicare, which means cuts to health care for folks on Medicare, unfunded mandates on the States so that States will force their taxpayers to either pay higher taxes or cut the amount of money available for construction, education, and such like that, to achieve something which frankly seems illusory.

But if we contrast that with what the Republican Party is proposing, which is to put patients in the middle of the process, to say to patients, Listen, once you're there, you are empowered to not only direct your health care, but to control costs. And we have quoted data from Kaiser Family Foundation how that truly happens, as well as the experience of groups like yours with numerous employees.

So at the end we will say that Republicans' ideas, I think, will empower patients, whereas the Democratic ideas appear to empower government.

Thank you for joining us.

#### AFGHANISTAN

The SPEAKER pro tempore. Under the Speaker's announced policy of January 6, 2009, the gentleman from California (Mr. ROHRABACHER) is recognized for 60 minutes.

Mr. ROHRABACHER. Madam Speaker, tonight I rise once again to draw the attention of my colleagues and the American people to Afghanistan. I say "once again" because over my 20-year career in Congress I have spoken many times and at great length about that distant and desolate country.

My interests and involvement in Afghanistan in fact date back before I was elected to Congress. During the 1980s, I was a special assistant to President Ronald Reagan. While I was primarily a speech writer, I soon learned after arriving at the White House with Reagan's team at the beginning of his

administration that the President's words, once spoken and in the *RECORD*, become the policy of the executive branch.

As a speech writer, I not only would write the words, but would help determine what would be said. When I realized the influence I would have, I was in awe of where my life had led me.

I had worked hard in Ronald Reagan's gubernatorial campaigns when he first ran for Governor back in California. Later on, I worked on Presidential campaigns when Ronald Reagan ran for President in 1976 and 1980. And when he won in 1980, I went with him to the White House.

I am still honored that President Reagan brought me to the White House with him and that he trusted me enough to hold such a position of writing his words and working with him on his speeches. And I really appreciate the fact that often enough President Reagan backed me up when the remarks that I wrote were a little bit tougher than the policy statements that most of the senior staff of the White House wanted the President to say.

But I worked for President Reagan, I knew that. I didn't work for his staff; I worked for him. And I understood that he wasn't there to be President. He was there to make things happen, to change the course of our country, to redirect the confidence of our people from a downward spiral at that time to an upward thrust.

Those of us who worked for him knew firsthand that an unmistakable goal to which President Ronald Reagan was committed was to bring about a more peaceful world. That lofty goal was not going to be achieved by ignoring or downplaying threats or by sincere expressions of a desire for peace or by holding hands and singing kumbaya. Yes, part of Reagan's strategy to obtain a more peaceful world was rebuilding our military forces, this to deter aggression.

But let us look back and note that he rebuilt our military forces, but only on rare occasion did President Reagan send our troops into troubled spots in the far reaches of the world. He was hesitant to give the green light to use the military in such actions. He did so sparingly. He had a sense not to get us trapped into a prolonged conflict or a no-win situation.

He sent our marines to Lebanon for a specific mission. They were there to accomplish that mission, and they were supposed to leave within days. Then President Reagan was convinced, over his better judgment, to keep the marines in that war-torn city, Beirut, as a stabilizing force—get that, a stabilizing force in the most volatile region of the planet. The result was, of course, 295 dead marines, a setback for our country, but a catastrophe for 295 American families who lost loved ones.

It was especially hurtful to me. I grew up in a marine family. My father was a lieutenant colonel in the United States Marine Corps. I went to school and lived at Camp Lejeune and Cherry Point, North Carolina, when I was in eighth, ninth and 10th grade.

There my brother, who was also going to school with me, met and befriended a man who became his best friend, in fact, David Battle, who shortly after graduating from Camp Lejeune High School joined the Marine Corps. He was still 17 years old. Sergeant David Battle remained my brother's best friend.

And as Ronald Reagan was being inaugurated, right afterwards we went to Camp Lejeune and we visited with his family and with David Battle. He was a sergeant at that time. He had been in the Marines all that time, two tours of duty in Vietnam, and he was looking forward in a few years ahead to retiring from the Marine Corps. And there he had a small boat which he was going to be working the rivers and estuaries in North Carolina, collecting seafood and oysters and clams. He had his life picked out for him. It was going to be a fine retirement. We were very close to that family.

Then I went up and joined the White House staff. A few years later, when the bomb went off in the Marine barracks in Beirut killing 295 of our people, I immediately sought out the list of casualties and Sergeant David Battle, his name was the first on the list of those who had been killed. I went to my office in the White House and I wept. At that point, I pledged to myself that I would never, ever cease to step forward and try to make sense of something that didn't make sense and that would put our people in jeopardy.

President Reagan learned a bitter lesson; and to his credit, against the advice of some very aggressive national security advisers, President Reagan decided not to reinforce the decimated marine force in Lebanon. Instead, he pulled them out before we got stuck in a quagmire that would have been exploited by our major global enemy at that time, the Soviet Union. He took great care not to get us into a fight that we wouldn't be able to get out of.

Let me note, for all the name-calling suggesting Ronald Reagan was a warmonger for building up our Nation's military, Reagan's predecessors, both Republican and Democrat, sent our military into action far more often than did President Reagan. The liberation of Grenada from a bizarre and murderous Communist takeover—and that was just a very small, short operation—and in Lebanon, which turned out so badly, that's about as far as it goes in terms of Ronald Reagan ordering U.S. troops into harm's way.

So sending American combat troops into battle was not how Ronald Reagan

succeeded in making the world a safer place, a world where universal peace would have a chance. Well, number one, to accomplish that, Ronald Reagan built up our military might in weapons, quality of personnel, and advance technology. For example, his famous commitment to a missile defense system, which even today looks like such an important investment to protect us against missiles from Korea or Iran, or perhaps China.

He improved our intelligence, which had been gutted in the 1970s. And, lastly, and most importantly, by implementing a strategy that became known as the "Reagan Doctrine," he helped end the reign of Communist tyranny and made the world a safer place.

It was Charles Krauthammer who first identified that Reagan's words and actions were part of a comprehensive strategy being brought to bear against Soviet communism, a strategy that had been outlined in his speeches. The Reagan Doctrine had nothing to do with sending U.S. troops to far-off lands and defeating an enemy. Reagan instinctively knew there were limits to what the power of government, even the Army, could accomplish; but he also understood the mighty power of people who loved freedom. Ronald Reagan understood that struggling against tyranny, especially Communist tyranny, were America's greatest allies. They would be our brothers and sisters throughout the world of people who were resisting tyranny, especially Communist tyranny.

The Reagan Doctrine, in short, was to achieve our goals of a safer world and a more secure world and a safer and more secure America by supporting those brave souls in various countries who were resisting or fighting pro-Soviet Communist dictatorships, which was our enemy as well as their oppressor.

In Poland, we covertly helped the Solidarity Movement. We bolstered our broadcasting to captive nations in Eastern Europe and elsewhere. We provided funds and resources to the anti-Sandinistas insurgents in Nicaragua, which eventually forced that Marxist gangster regime to have a free election; and when they did, those Sandinistas, those Marxist Sandinistas lost overwhelmingly.

The implementation of the Reagan Doctrine, not just rebuilding U.S. military strength, was what broke the will and the bank account of the Soviet Union. Nowhere was it more effective and harder fought than in Afghanistan, which in the mid-1980s was in the front lines of the Cold War.

A few years into the Reagan administration, I was approached by an old friend, Dr. Jack Wheeler, who, interestingly enough, was the chairman of Youth for Reagan in Ronald Reagan's first campaign for Governor in California back in 1966. That's where I met

him. After that, Dr. Wheeler had gone on to earn a Ph.D. in philosophy and had been earning his living as a tour guide which took people on adventure tours into some of the world's most dangerous territories. He was a real Indiana Jones; but more than that, he was a real patriot.

Jack Wheeler wanted to be part of President Reagan's historic effort to reduce communism's influence on this planet and to relegate it to the ash heap of history. Dr. Wheeler's plan was to travel to some of the most inhospitable locations in the world and to contact the leadership of various anti-Communist insurgencies who were there in those far-off places engaged in taking on Soviet military power. I agreed to receive his reports and documentation as he traveled, and after 6 months it began to arrive. He was on the road and into the front lines.

I started receiving information, pictures and notes and descriptions and audiotapes and videotapes in my office in the White House; much of it came through diplomatic pouch from far away embassies.

When Dr. Jack Wheeler returned from searching out the leaders of the various anti-Communist insurgencies, he came directly to the White House where I arranged for him to brief about 30 national security-focused staff members at the White House. What they heard was electrifying. There was a very real opportunity to defeat the Soviet Union and to usher in a new era of world peace.

□ 1945

The Soviet empire was vulnerable, and that's where the Reagan Doctrine started at that particular briefing. Everybody knew it could be a strategy, and we went to work putting it in place and presenting it to the President.

This strategy of the Reagan Doctrine was implemented by men like Dr. Constantine Menges, who had been in the CIA. He was a great academic as well. At that time, he was working with the National Security Council of the White House. Yes, CIA Director Bill Casey was also significant in the success of the Reagan Doctrine—and yes, we have to admit Ollie North as well.

President Reagan, of course, was the real hero of this particular policy. He approved a strategy that defeated the Soviet Union without sending our troops into action against Soviet troops or even coming into direct confrontation with Soviet military forces. We feared a nuclear war for decades. Reagan ended that threat, that nuclear war with the Soviet Union that we all felt someday might happen and obliterate most of mankind. Reagan ended that threat. Communist tyranny was advancing when Ronald Reagan became President. He turned it around and laid the foundation for a collapse of the Soviet Government in Russia. Afghani-

stan was the tip of the Reagan Doctrine spear.

So, our assistance to the Afghanistan resistance escalated, and as it did, I became more personally involved in this historic effort. In those days, Jack Wheeler would send us firsthand accounts of the frontline fight in Afghanistan. At times, he would bring Afghanistani warriors to my office in the White House. Other times, these rugged fighters—the Mujahedeen as they are called—would come to Washington for secret meetings, and I would end up taking them for lunch at the White House dining room or introducing them to specific people in the bureaucracy and in the power structure who could help them. So I got to know and admire these brave people.

In the late 1980s, the Soviets upped the ante, unleashing Hind helicopter gunships which ripped the Mujahedeen, and they were just destroying them at will. At this moment of desperation, there was a major debate in the White House over the proposal to neutralize the helicopter gunships by providing Stinger missiles, which are shoulder-held missiles that can take out airplanes or helicopters. There was a debate as to whether to provide them to the Afghan resistance.

Ronald Reagan personally made the decision, and the anti-aircraft weapons were sent. It changed the outcome of that battle in Afghanistan, and it changed all of history. Yet it was not just weaponry or even U.S. financing or material support. It was the courage and sacrifice of the Afghan people that carried the day. A million of them lost their lives. It was an overwhelming loss for every family of Afghanistan. Several million were displaced, but all of them stood tall and stood up to the Soviet empire. We were proud to stand by such people.

Yes, Charlie Wilson, who used to be a Member of Congress and a member of the Appropriations Committee, played an important role in getting the money allocated to help these brave people, and other people in Reagan's White House can be proud of what was done to support these Afghan freedom fighters. I would have to say, for as much as we did—Charlie Wilson and those of us in the White House and other people—it's the Afghan people who thoroughly deserve the credit of not only defeating this Soviet Army in Afghanistan but of breaking the will of the Communist Party bosses who controlled the Soviet Union.

When the Soviet Army retreated from Afghanistan, Soviet confidence crumbled, and a new world emerged free from the threat of a Russia controlled by a Marxist-Leninist dictatorship—a Russia committed to Communist world domination.

It was an historic achievement which can be traced to the Reagan Doctrine but also to the blood and to the sac-

rifice of the Afghan people. How did we repay this enormous sacrifice that made all of us safer, this tremendous gift that we still enjoy? How did we repay it? We walked away and left a crippled and wounded Afghan population to sleep in the rubble. We didn't even provide them with an ample level of support to clear land mines that were planted all over their country, land mines that we had given them, mines that to this day continue to blow the legs off of Afghan children.

To say America was guilty of ingratitude is to put it mildly, but President Reagan was gone by then. His term of office was over, and George Bush, Sr. was President—George Bush, Sr., the same President who sent American troops all over the world and sent a huge number of deployments of American troops into battle, the same George Bush, Sr. who walked away not only from the Afghans but from the democracy movement in China, leaving them to be slaughtered both in Afghanistan and in Tiananmen Square. No, George Bush, Sr. was no Ronald Reagan.

As time passed, chaos reigned in Afghanistan. During the Clinton administration, our government took steps to do something about the mayhem in that country. Unfortunately, President Clinton's team did exactly the wrong thing. What do I mean?

One of the reasons for the continued bloodletting in Afghanistan after the Soviets left and their puppet regime collapsed—what brought that on and continued that bloodletting was that, during the war, the American Government had agreed to let the Pakistani Intelligence Service—that's the ISI, the equivalent of our CIA—dole out our supplies, American supplies, to the various anti-Soviet Afghan factions. The ISI—that's the Pakistani CIA—was then and is now a hotbed of radical Islam. Much of our military supplies, which were being channeled right through this group, ended up in the hands of radical, radical, the most radical Islamists—people like Gulbuddin Hekmatyar, Sayoff and other murderous Islamic radicals.

We could have and should have insisted on the direct delivery of U.S. supplies to the insurgent groups, and we would choose the insurgent groups. We did not insist on that. Instead, our own CIA punted. Even to this day, they say, Well, we couldn't have looked at things for the future. You know, how do you expect us not to have a battle in the future when we've got a battle right now to determine? No. You could make a determination of not giving weapons to the worst radicals in Afghanistan. They could have made the determination that, in the long run, it wouldn't have been in our interest, because there were many other moderate Afghan Mujahedeen groups who needed

that support and who didn't get anywhere near as much as these radicals did from the Pakistani CIA, the ISI.

Basically, the CIA is giving the ISI leverage, which was then used to promote Islamic fascism. It was also used to secure the Pakistani dominance of Afghanistan, which has been one of the major reasons, dynamics, that has kept Afghanistan in turmoil for decades. So what happened? The situation got worse and worse. The chaos got worse and worse.

During this time, I was one of the few who did not turn my head and walk away. I kept looking for a way out of the insanity and chaos. Yes, there was a way out, but it was a path the Saudis and the Pakistanis did not want to take. There was one man revered by almost all of the Afghan people of every faction and every tribe. It was King Zahir Shah, the king who is in exile, who had led his country for 4 decades through peace and stability. When he was overthrown, Afghanistan ended up in decades of chaos and bloodletting and invasions on a massive scale.

During that time, King Zahir Shah, as he was deposed in a coup, ended up living in exile in Rome. I met with him there on a number of occasions in the 1990s. He was the obvious leader to bring peace and stability to his bloody and torn country but not so obvious to the Pakistanis, who wanted to dominate and control Afghanistan, not so obvious to the Saudis who were doing the bidding of the most violent and anti-Western manifestations of Islamic fascism, and not so obvious to the Clinton administration, whose goal was to go along with the Saudis and the Pakistanis.

I, personally, argued my case to Prince Turki, then the head of the Saudi CIA. Prince Turki had been very involved with supporting the anti-Soviet Mujahedeen during the war against the Soviet occupation. I begged with him and pleaded with everyone else who would listen. King Zahir Shah was a moderate Muslim leader who would bring peace and stability. No. What the Saudis and the Pakistanis wanted was a radical Islamic force that would supposedly unite the devout Muslims of Afghanistan but, more importantly, would be a Pakistani and Saudi ally, an ally who would be willing to do their bidding.

What did the Clinton administration do? What did the Clinton administration want? Well, what they wanted was to make the Saudis and the Pakistanis happy. So, in the mid-1990s, the Taliban emerged. They are not the same as the Mujahedeen. Many Americans mistakenly believe that the people who fought against the Soviet Army, who were named the Mujahedeen, later became the Taliban.

By and large, it was the Mujahedeen later on who drove the Taliban out of power. It was the Taliban which had

been kept as a reserve force, you might say, going to these moderate schools in Pakistan until after the Soviets had been defeated. The lion's share of Mujahedeen leaders, who fought against the Soviet troops, were not part of the Taliban.

Well, I hoped for the best after it was clear that the Taliban was anointed by the Clinton administration, by the Saudis and the Pakistanis, and they took over Kabul, the capital city of Afghanistan. I hoped for the best for about 2 weeks. I was just hoping. People told me maybe they'll come through, and maybe they'll start moderating, but my worst nightmares began to come true after just a few weeks.

A brutal fundamentalist, Islamic movement that hated the West was taking control of Afghanistan, supported by the United States Government in the name of stability. That was it. In the name of stability, we're going to support these radical fundamentalists and other tyrannical forces.

For several years, at this time in the 1990s, I was a voice in the wilderness here in the House, warning that the creation and support of the Taliban would come back to haunt us someday. I had no idea how true these warnings were, and how much it would hurt us. During that time in the 1990s, I met with the leaders of Afghan tribes and ethnic groups in and out of Afghanistan in an effort to forge an anti-Taliban coalition. The core of the plan was to bring back Zahir Shah, King Zahir Shah, as the focal point for dislodging the Taliban—someone everyone could rally around, who would treat people fairly and create a peaceful, more democratic country.

At the end of the year 2000, after a Herculean effort, there was a meeting that had been arranged of all the Afghan factions except for the Taliban. After that meeting, King Zahir Shah agreed to return to Afghanistan to hold a Loya Jirga in July of 2001. The Loya Jirga, let me note, is a convention of tribal elders which was to take place in the territory that was controlled by Commander Masood. Commander Masood is a man who was never beaten by the Soviets. He was also never beaten by the Taliban, and he was one of the last commanders who held any part of territory in Afghanistan. The rest was controlled by the Taliban.

Considering this agreement of Zahir Shah to go to Commander Masood's territory and have a Loya Jirga to talk about the future governance, the governance of Afghanistan, this was a great step forward, and this agreement was forged despite the opposition of the Clinton administration. It was a great accomplishment just to get that agreement. Those involved in making this happen included International Relations Committee Chairman Ben

Gillman; Tom Lantos, a senior member of the Foreign Affairs Committee; as well as a few others but just a few.

After George W. Bush was elected, I was able to meet several times with his new National Security Adviser, Condoleezza Rice, whom I knew from the Reagan days. Well, we discussed Russia, and we talked extensively about Afghanistan. I pitched the idea of overthrowing the Taliban using the coalition that I'd been building—the anti-Taliban coalition.

Well, the idea wasn't rejected, but no action was taken, at least until 9/11. The 9/11 slaughter of 3,000 Americans was planned and set in motion by bin Laden's al Qaeda terrorist network, then allied with the Taliban, which was headquartered there in Afghanistan and was operating freely in that country.

□ 2000

On 9/11, I was given an incredible opportunity to utilize the knowledge that I had gained and the relationships I had built in that region over the many years. It was the opportunity to make a significant difference for my country at a time of great chaos and crisis.

Only a few days before, al Qaeda/Taliban assassins had murdered Commander Masood. I had met with Commander Masood in Afghanistan in one of my several forays into Afghanistan during the 1990s. I visited him in a mountain hideout, his retreat, or his fortress you might say, and we talked for a long time. We had been in contact ever since the time in the Reagan White House when he sent his brother to see me. And we had negotiated and kept in touch verbally, but that was the first time I met him. Our friendship was already in existence, and by that meeting, it really was solidified.

And then Commander Masood in the days before 9/11—and we'd been looking forward to having this meeting in his territory with the King, Commander Masood was blown apart in an assassination scheme—of course, Taliban and al Qaeda scheme. And I remember then how much despair that I had that this great man who held such promise to be a leader of his country, like others who were killed during a war against the Russians and now the Taliban, so many young leaders killed in Afghanistan—a brave man, Abdul Hawk, lost his life.

But Commander Masood, I sat down in my office in total despair and I said, I gotta get control of myself. Why did they kill him? Why did they do that now? I thought it out, and I realized that they had killed Commander Masood in order to prevent the United States from having an avenue to counterattack against them for something that they were going to do to us. It made all the sense in the world.

They were going to have a major attack on the United States, and it must

have been something that was going to be humongous and cause much loss of life or they wouldn't have gone out of the way to kill Commander Masood because we wouldn't have wanted to try to retaliate against them, to use him to retaliate against them for something they did to us. Well, yes, that was exactly the case. And I realized there would be a monstrous attack on the United States, so I immediately called the White House.

I called the White House. I called for National Security Adviser Condi Rice, and her assistant came on the phone and said, Congressman ROHRBACHER, what is it? And I said, I've got to see her. I've got to warn her about an imminent, major terrorist attack that is going to happen very soon in our country. There will be a huge terrorist attack. I need to talk to her about it and give her some details of what I think is going to happen.

And the aide said, You know, Congressman, she's talked about Afghanistan before. We know you're an expert on that, but she can't see you today. She's a busy person. But if you come over tomorrow at 3 o'clock, she will talk to you, and I will put you on the schedule.

So I was on the schedule at 3 o'clock to talk to Condoleezza Rice to warn her of an imminent major terrorist attack. That's what the schedule says. The day that I was supposed to meet her was 9/11. That day, the planes began flying into the buildings at 8:45.

So on that horrible day, 9/11, I understood what was happening, and I immediately began to provide information and contacts to the CIA, Defense Department, and National Security Council. The team who had helped me during the years organizing an anti-Taliban coalition was now brought to play to help America plan its counter-attack.

Charlie Santos, a confidant of Afghan Uzbek leader General Dostum, was a treasure house of information and direction for our government and part of my team during the years before. Al Santoli on my staff ended up talking directly via satellite cell phones to village and tribal leaders. One of them, for example, was so-called warlord Ishml Khan, thus paving the way for the injection of our special forces troops.

Paul Berkowitz, who now works for me, then working for Chairman Ben Gilman, opened doors throughout the administration. Paul Behrends, a Marine major, a former member of my staff who had been in Afghanistan with me and knew the players in the territory, was there to help. And Dusty Rhodes, an expert from the intelligence community, he was on my staff at the time and had very special skills that were incredibly important to helping us determine how to proceed.

I have never sought much credit for the small but significant contribution

my team made after 9/11. It's like that saying Reagan had framed on his desk: "There is no limit to what a person can accomplish if he doesn't care who gets the credit."

Well, our military originally wanted to send in heavy American Army divisions into Afghanistan; basically, what we did in Iraq. They would be supplied by depots located in the northwestern provinces, provinces of Pakistan where that invasion would have been staged from. It would have been a disaster had we done that. The northwestern provinces are the most anti-American territories in the world, which, right now, people are struggling against Taliban control over those areas.

Our team managed to convince America's decisionmakers to come at Afghanistan from the north through Uzbekistan, and most importantly, to let our Afghan coalition do the fighting. Most of those making this decision on which way to go—whether to send in the big heavy divisions or not—had never even heard of Tarmez, which is an Uzbek city on the Afghan border that later served as our staging area.

They had, of course, never been at the northwest provinces, nor did they know about the strategically important Afghan city of Mazar-e-Sharif, which later turned out to be pivotal in the defeat of the Taliban. I had been to those cities. I had been to those places, and our little team knew the territory and the forces at play. And luckily, some high-level decisionmakers at the DOD and the CIA and, yes, the National Security Council listened to us.

Too many Americans don't fully appreciate the fact that it was an army of Afghans—that was called the Northern Alliance—that defeated the Taliban and drove them out of their country. Only about 200 U.S. military personnel were there at the time. Only 200 men, boots on the ground, yes. Only 200 men were there of American military personnel. And we gave the Northern Alliance the financial support and supplied them the arms and the ammunition and, most importantly, the air cover they needed to defeat the Taliban.

We also promised to rebuild their country, and that's how the Taliban—who were immensely more powerful than they are today—that's how they were defeated after 9/11.

So 7 years have passed, and it appears now that America is pulling defeat out of the jaws of victory. American political restructuring and military firepower has not been working, and it should be of no surprise that it's not working. We can defeat any army and dislodge any tyrant or regime. We cannot conquer or subjugate a people. Once we are viewed as occupiers and not liberators, we lose.

The people of Afghanistan are devout Muslims. Yet after 9/11, large numbers of them came to our side and fought against and defeated the Taliban and al

Qaeda Muslim extremists. Oh my, how history repeats itself.

After promising to rebuild their war-torn country, after the victory over the Taliban, we then, instead of keeping our word, moved on and committed ourselves to freeing Iraq from the Saddam Hussein dictatorship and helping those people. That commitment dramatically undercut our ability to make the kind of effort and expenditure of resources that the brave Afghan people had a right to expect at that time.

Well, they fought the Russian Army and helped end the cold war, and it was an enormous price that they paid to do that. Then after 9/11, they joined us again to fight radical Islam's grip on their country, which had been used as a base camp for the 9/11 attack that slaughtered 3,000 Americans. The Afghans are brave and honorable people. We have to do justice by them. We have to yet pay back this debt that we still owe them.

Instead, over the years, we have sent our military with its incredibly sophisticated weapons into Afghanistan. When the Taliban were driven out, 90 percent of the Afghans loved us and they were doing the fighting against the extremists. Now, years later, our troops are doing the fighting and the hearts of the Afghan people are turning against us.

Afghanistan is a country of 4,500 villages. Each has a militia. Either the villages are with us or they're against us. We've made the age-old mistake of thinking this society of villages and fiercely independent people can be pacified and controlled by our forces or those of a central authority in Kabul. Trying to impose centralized government power on these villages rather than approaching them as friends who are there to help has turned friend into foe, ally into enemy.

We can defeat a foreign army, be it a German or Japanese military power of World War II or Republican Guard of Saddam Hussein. We cannot defeat the country of Afghanistan. We cannot occupy or control its people. We can be their friend, and if we do so, we will win. If we attempt to use our military might to force an outcome based on control and pacification of a vast and inhospitable countryside, we will eventually lose. The 4,500 villages will be with us or against us. They will be with our enemy, radical Islam, or they will be against it.

Just as I was in a position to influence enormously important decisions after 9/11, I believe I am here at this moment to try again to influence a decision that will have horrendous negative consequences if not made with an understanding of Afghanistan and its people.

Today we are facing a decision to send or not to send 35,000 more combat troops into Afghanistan. Thirty-five thousand more troops, by definition,

means Americans will do more fighting. It is a wrong strategy, a strategy that will not work and will cost too much financially and cost too much in terms of the lives of our military personnel. A better plan is to re-earn the loyalty of these brave and long-suffering people.

Afghan children are the most beautiful kids in the world, but this country has the world's highest infant mortality rate. It tears at the heart and soul of these people that they're losing their children. Let's help them change that.

The money needed to finance sending 35,000 more combat troops into Afghanistan is a mind-boggling 35 billion—that's "billion"—dollars per year. A commitment of even a small portion of this would bring life-elevating progress throughout that land of 4,500 villages. It would win the goodwill of those villages and their militias. After that, they could become a real asset. They would be a real force against radical Islam. And yes, we need to re-earn the loyalty and gain the loyalty of our Afghan allies. After 9/11, we disarmed the Northern Alliance. We need to re-arm them, and we need to rebuild a solid friendship with those people.

Building a central army, however, in Kabul is not the way to defend against Taliban insurgents. Sending in more U.S. combat troops is not the answer, nor is just building up a central army in Kabul. Reaching out to the villages and tribal elders and establishing local militias, perhaps buying their goodwill if need be, these are the things that will work. And it will cost a pittance compared to \$35 billion more per year for 35,000 more troops who may end up turning off the people of Afghanistan rather than enlisting them to our side.

Opposing our enemy by arming and financing local and village leaders was a strategy that worked against the Soviet Army, and it worked against the Taliban after 9/11, and it will work again. Let us admit that our goals these last 7 years, that the goals that we have actually tried to put in place these last 7 years were wrong. The goals were wrong. Not just the implementation. The goals were wrong.

Honest and decentralized government in Afghanistan should have been the goal. Decentralized. Honest and decentralized, perhaps representative, government in Afghanistan should have been the goal, not creating a central power, the fallacy that you can't have a real country unless you really have a government in charge in the capital that then controls the rest of the country. That was a total illusion, and it was wrong. It was never something we could have accomplished.

Instead, what we wanted to do instead of a decentralized government, we wanted to establish a national power, and we wanted to have national power wielders with whom we could do

business. Karzai was never someone who had any loyalty of the Afghan people.

□ 2015

He was not a political force in that country. We forced Karzai on the Afghan people after 9/11, and we forced the king into a more subservient role when he returned rather than a role where he could have selected true Afghan leaders to help rebuild their country, leaders that would have been honest instead of what we have now in the Karzai administration, which is nothing more than a kleptocracy, gangster regime.

In the United States our schools are run locally. Remember this. Our schools are run locally. Our police are run locally. The criminal justice system is run at the State or local level. What would have happened if somebody had come into our country during the American revolution and said, No, we have to reconfigure it so that all the power's in Washington and all the appointees are going to be in Washington D.C., and that's where all the power is going to be and you're going to have to have a centralized government. Our Founding Fathers would have revolted against that, because that wasn't consistent with how we knew that freedom was going to be preserved; it wasn't consistent with representative government and democracy. No, we wouldn't have done that.

Well, let me just note, what we've got there in Afghanistan and what we've tried to establish in Afghanistan is a Kabul-based centralization of authority. How can we expect the people of Afghanistan to accept something—centralization of power—which is totally contrary to their own decentralized society which they have had for thousands of years, especially when the centralized authority that we're trying to foist on them has been corrupt and in no way reflects the consent of the governed?

Members of parliament there are elected in a slate. The people there in that country don't have individual districts that represent them, individual congressmen who are elected from individual districts. They aren't even elected at specific villages. No, there is not one person in that government who most people in Afghanistan can identify as someone for whom they voted for to represent them, not in the parliament, not in the Kabul government, because there's no congressmen that are elected. They're elected at a province-wide level which means it's a slate and almost all of the villages, nobody knows anybody on the slate because the slate is dictated politically from Kabul which, of course, is a corrupt center of power.

Do we expect the Afghan people to just accept orders from people who they haven't voted for, whom they

don't know? And the corruption and the ineptitude of that central authority, of course, which we have foisted upon them is not an acceptable alternative. We're not giving them an acceptable alternative. No wonder why the Taliban is being considered. All this means is that local people have no honest system to settle disputes, to determine rights or to organize the effort that's needed to elevate the condition of this suffering and poverty-stricken people. These people are devout, but they're not fanatics. But they will acquiesce again to the Taliban Islamic fringe if it is at least honest at its core as compared to visiting crooks who are claiming the right to make decisions that have the finality and power of law but people whom they don't even know who they are, much less have voted for them.

What we do now is what we should have done originally. Let the local villages appoint their own elders to positions of local authority. Let them pick a wise person who they know to be a judge and make decisions for them locally. Let the village militias become part of a National Guard. Give them uniforms, give them guns and ammunition, give them communication gear, and use the central army to back them up, not to disarm them for fear of their sympathies.

Yes, the U.S. can remain a major military force in Afghanistan, but we cannot and will not succeed if we believe our military forces, foreign fighters in a foreign land, can bring a recognizable military victory. Adding more troops feeds the illusion that we can win some kind of victory if we just exercise more power and send more military personnel. Alexander the Great left the bones of his entourage there as did the British and, yes, the Russians. The sword has never conquered these people. It may for a limited time give an appearance of stability but, instead, will feed a simmering antipathy that will not cool but only grow hotter and more ferocious. Again, we can defeat any army. We cannot conquer and subdue the nation of Afghanistan. Only Afghans, from the bottom-up, can control and pacify their countryside.

There is still time for our action in Afghanistan to end with honor and success, for the Afghans and for Americans. They can still have a great ending to all of this. The first step towards that is to signal to the whole nation of Afghanistan, send them a message heard in every corner of those 4,500 villages, and that is that the United States is not trying to foist upon them a corrupt central government. To accomplish this, we must recognize the travesty of this last election. While we cannot have an entirely new election, we can insist on a runoff between Messrs. Karzai and Abdullah. In this runoff election, a respected international organization, perhaps the

OSCE, could be given a free hand to correct problems as they appear and throw out illegal ballots if necessary. After the elections we should commit ourselves to a new course, a new course that respects the traditional village structure and reaches out with assistance to improve health, water, education and agriculture in Afghanistan. Yes, at first the risk of such a plan will be great for the individuals who are willing to go to the front lines with our helping hand offensive. But this approach, a helping hand, will be far more effective than a mailed fist approach. It will take money. We may need to begin to buy goodwill. Maybe we need to offer to put some people on consulting fees at the local level, some of these local leaders and village elders. Well, that can be done; and we can also do things like, for example, some expenditures that prove our good faith, like setting up clinics or schools or economic projects that will improve the life of those villagers. It may take courage and we will lose some people. But in the end the expense and the loss of life will be far less than a warrior-focused alternative. And, yes, fighting will be necessary. The Taliban are evil. They are inseparable from al Qaeda because they are the same radical extremists. We know that. Anybody who is a dreamer, who thinks that, well, we can bring back the Taliban but we can separate them from al Qaeda, that is just so much nonsense. But the Taliban need not come back. There is opposition to the Taliban if we offer a tangible alternative. Let us build up the militias in the towns and villages across that desolate country and let these militias do the fighting. We can and should help establish a militia system and back them up, from the air or even on the ground if necessary. But it will be the Afghans, not the Americans, who are on the front lines of this effort.

How much will it cost us to deploy 35,000 more troops? \$35 billion. What I'm talking about is a strategy that would cost a minuscule amount of that and have a much greater chance of success. Let's stand down these troops. Let's let these 35,000 American military personnel stay home with their families. And let's send to the Afghans a portion of what that additional troop cost would be.

Every time in the past we got to this situation, it was either send those troops and spend the money for them or not give them anything, or just give them a little bit. No, let's give them a substantial infusion into their society of wealth and expertise that can help build that society. That will be so much cheaper and more cost effective, and with a billion dollars, yes, you can buy the loyalty of a number of Afghan leaders at the village and provincial and tribal level that can get us over the hump. Now that's certainly better

than spending money to send people over there to kill more Afghans. We can be their partners in building and improving the life of the Afghan people. And it will bring change to that country and have a much greater chance at success.

Let me end this tonight with one last story, which I didn't mention. Before I came to Congress, I actually went into Afghanistan with an Afghan military unit, a mujahadeen unit, who were fighting the Soviet Union. And I had met so many of these leaders, I told them one day that I would join them in a great battle if I had left the White House. And so I went to the battle of Jalalabad as part of a small military force. All we had were AK-47s and rocket-propelled grenades. I had a beard. I was in Afghan garb. I was just one of the team, one of that unit. Our job was to protect and to work with a rocket unit that was about to attack and give them protection, about to launch rockets into a Soviet position outside the city of Jalalabad.

As we marched to the battle of Jalalabad, it was late at night and the bombs and things were going off, you could hear the explosions and see them; and I was with about 120 Afghans by that point, worming our way through the hillsides toward the battle. A young Afghan lad, perhaps 16 years old, an AK-47 over his shoulder, came up to me and said, "I understand that you're in politics in America." I said, "Yes, I am." He said, "Well, are you a donkey or an elephant?" I said, "Well, I'm an elephant." He said, "I thought you were."

And as we talked, I said to him, "What do you plan to do once this war with the Soviets is over?" And as we marched toward that battle, he said, "I want to be an engineer or an architect. I want to rebuild my country. I want to rebuild my country. And I know, with you Americans, we can do that."

I don't know whatever happened to that young man. He may never have survived that battle. I left after a week and I was back here in the safety of our country. I only could have died of diarrhea or by drinking bad water. He could have stepped on a land mine. A Russian plane napalmed one part of the group that I was with. He could have died in something like that. But that young man, 16 years old, is now probably 40 years old. We owe him a lot. We can only hope that he is still that idealistic, that he wants to work with Americans to rebuild his country and to see that his family has a better chance even though life now has passed his generation by.

Life didn't have to pass his generation by. We should have done our duty by them. We have a chance to do that again, to remake that, to redo that and to do what's right, and it will be successful for us as well as for the people of Afghanistan. Let us not send more

combat troops there. Let us not put more of our people at risk or have our people killing more Afghans in the name of obtaining some illusionary victory. Let us reach out and win the loyalty of these people who have shown their loyalty to us time and again. We can do that now with just a minor expenditure. Give us \$5 billion to rebuild that country and to help build a militia system so they can protect themselves. That is what America is supposed to be all about.

That young man had a dream. That young man now is 40 years old, hopefully somebody who still has faith in us, we need to reach out to him and the other young people of Afghanistan and say we can make this a better world. We are willing to work with you to do that. We respect your society and structure and your traditions, and it's not in any way contradictory to what America believes in local government and democracy, and people choosing their own government and those people who make laws for them.

It's time for America to stand for principle. I hope that my Republican colleagues will understand that every time someone in the military—and I respect General McChrystal. Just because he is in the military, he does not have "the plan" that will necessarily bring about the type of change in a society or another kind of dynamic rather than a military dynamic. Many times military officers don't understand that. We should stand up after thinking about it and doing what is right and listen to those of us who have been in Afghanistan over these years to try to have a policy that's a positive policy that can succeed, and not just looking for an illusionary military victory that will always be out of our grasp.

Thank you very much, Mr. Speaker. I yield back the balance of my time.

#### LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mrs. EMERSON (at the request of Mr. BOEHNER) for today and the balance of the week on account of her stepdaughter's wedding.

Ms. MCCOLLUM (at the request of Mr. HOYER) for today on account of official business in the district.

#### SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. WEINER) to revise and extend their remarks and include extraneous material:)

Mr. LANGEVIN, for 5 minutes, today.

Mr. WEINER, for 5 minutes, today.

Mr. DEFAZIO, for 5 minutes, today.

Ms. WOOLSEY, for 5 minutes, today.  
Ms. KAPTUR, for 5 minutes, today.  
Ms. WATSON, for 5 minutes, today.  
(The following Members (at the request of Ms. FOXX) to revise and extend their remarks and include extraneous material:)  
Mr. MCCLINTOCK, for 5 minutes, today.  
Mr. POE of Texas, for 5 minutes, October 22.  
Mr. WOLF, for 5 minutes, today.  
Mr. JONES, for 5 minutes, October 22.  
Mr. MORAN of Kansas, for 5 minutes, today, October 20, 21 and 22.  
Mr. BURTON of Indiana, for 5 minutes, October 20, 21 and 22.

Mr. WESTMORELAND, for 5 minutes, today.  
Mr. WAMP, for 5 minutes, today.  
Mr. BOOZMAN, for 5 minutes, today.  
Ms. FOXX, for 5 minutes, October 20, 21 and 22.

Television Transition and Public Safety Act of 2005 to remain available until expended through fiscal year 2012, and for other purposes; to the Committee on Energy and Commerce.

SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table, and, under the rule, referred as follows:  
S. 1694. An act to allow the funding for the interoperable emergency communications grant program established under the Digital

ADJOURNMENT

Mr. ROHRABACHER. Mr. Speaker, I move that the House do now adjourn.  
The motion was agreed to; accordingly (at 8 o'clock and 30 minutes p.m.), under its previous order, the House adjourned until tomorrow, Friday, October 16, 2009, at 11 a.m.

EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

Reports concerning the foreign currencies and U.S. dollars utilized for Speaker-authorized official travel during the first quarter and third quarter of 2009, pursuant to Public Law 95-384 are as follows:

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, JOINT COMMITTEE ON TAXATION, HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JULY 1 AND SEPT. 30, 2009											
Name of Member or employee	Date		Country	Per diem <sup>1</sup>		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>	Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>	Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>	Foreign currency	U.S. dollar equivalent or U.S. currency <sup>2</sup>
HOUSE COMMITTEES											
Please Note: If there were no expenditures during the calendar quarter noted above, please check the box at right to so indicate and return. <input type="checkbox"/>											

<sup>1</sup> Per diem constitutes lodging and meals.  
<sup>2</sup> If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended.

HON. CHARLES B. RANGEL, Chairman, Oct. 2, 2009.

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON RULES, HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JULY 1 AND SEPT. 30, 2009											
Name of Member or employee	Date		Country	Per diem <sup>1</sup>		Transportation		Other purposes		Total

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:  
4118. A letter from the Vice Chairman, Defense Nuclear Facilities Safety Board, transmitting Certification Report on the design of the Chemistry and Metallurgy Research Re-

placement (CMRR) Project, pursuant to Public Law 110-417, section 3112; to the Committee on Armed Services.  
4119. A letter from the Secretary, Department of Health and Human Services, transmitting the Department's report entitled, "Report to Congress on the Impact and Effectiveness of Administration for Native Americans Projects for Fiscal Year 2007"; to the Committee on Education and Labor.  
4120. A letter from the Secretary, Department of Energy, transmitting a report on the Strategic Petroleum Reserve 2008 Emergency Test Exchanges; to the Committee on Energy and Commerce.  
4121. A letter from the Acting Director, Office of Civilian Waste Management, Department of Energy, transmitting the Office's report entitled, "2008 Annual Financial Report for Years ending September 30, 2008 and

2007"; to the Committee on Energy and Commerce.

4122. A letter from the Chairman, Pension Benefit Guaranty Corporation, Department of Labor, transmitting the Inspector General's semiannual report to Congress for the reporting period October 1, 2008 through March 31, 2009, pursuant to 5 U.S.C. app. (Insp. Gen. Act) section 5(b); to the Committee on Oversight and Government Reform.

4123. A letter from the Chairman, Federal Trade Commission, transmitting the Commission's Strategic Plan for Fiscal Years (FYs) 2009 to 2014, as required by The Government Performance and Results Act of 1993; to the Committee on Oversight and Government Reform.

4124. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment of Class E Airspace; Ironwood, MI [Docket No.: FAA-2009-0052; Airspace Docket No. 09-AGL-1] received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4125. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment of Class E Airspace; Monee, IL [Docket No.: FAA-2008-1314; Airspace Docket No. 08-AGL-21] received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4126. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Amendment of Class E Airspace; Iowa Falls, IA [Docket No.: FAA-2008-1272; Airspace Docket No. 08-ACE-4] received September 21, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4127. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Establishment of Class E Airspace; Clayton, GA [Docket No.: FAA-2009-0605; Airspace Docket No. 09-ASO-19] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4128. A letter from the Secretary, Department of Transportation, transmitting the second of five reports required by Section 1201(c) of the American Recovery and Reinvestment Act of 2009 (Recovery Act) detailing the Department's progress; to the Committee on Transportation and Infrastructure.

4129. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Modification of Class E Airspace; Sarasota, FL [Docket No.: FAA-2009-0652; Airspace Docket 09-ASO-21] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4130. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Establishment of Class E Airspace; Saluda, SC [Docket No.: FAA-2009-0603; Airspace Docket No. 09-ASO-16] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4131. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Establishment of Class E Airspace; Hertford, NC [Docket No.: FAA-2009-0705; Airspace Docket No. 09-ASO-25] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4132. A letter from the Program Analyst, Department of Transportation, transmitting

the Department's final rule — Establishment of Class E Airspace; Tompkinsville, KY [Docket No.: FAA-2009-0604; Airspace Docket No. 09-ASO-18] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4133. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Establishment of Class E Airspace; Lewisport, KY [Docket No.: FAA-2009-0706; Airspace Docket No. 09-ASO-26] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4134. A letter from the Program Analyst, Department of Transportation, transmitting the Department's final rule — Modification of Class D and Class E Airspace, Establishment of Class E Airspace; Binghamton, NY [Docket No.: FAA-2009-0202; Airspace Docket 09-AEA-11] received September 18, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4135. A letter from the Acting Administrator, General Services Administration, transmitting informational copies of prospectuses that support the General Services Administration's Fiscal Year 2010 Capital Investment and Leasing Program; to the Committee on Transportation and Infrastructure.

4136. A letter from the Chairman, Social Security Advisory Board, transmitting a report titled, "The Social Security Statement: How It Can Be Improved"; to the Committee on Ways and Means.

4137. A letter from the Chairman, United States International Trade Commission, transmitting the nineteenth report in a series on The Impact of the Caribbean Basin Economic Recovery Act (CBERA), pursuant to 19 U.S.C. 2704; to the Committee on Ways and Means.

4138. A letter from the Acting Director, Office of Communications and Legislative Affairs, Equal Employment Opportunity Commission, transmitting the Commission's Annual Report on the Federal Work Force for Fiscal Year 2008, pursuant to 42 U.S.C. 2000e-4(e); jointly to the Committees on Oversight and Government Reform and Education and Labor.

## REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. GORDON of Tennessee: Committee on Science and Technology. H.R. 3585. A bill to guide and provide for United States research, development, and demonstration of solar energy technologies, and for other purposes; with an amendment (Rept. 111-302). Referred to the Committee of the Whole House on the State of the Union.

## PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XII, public bills and resolutions of the following titles were introduced and severally referred, as follows:

By Mr. ADERHOLT:

H.R. 3815. A bill to extend temporarily the reduction of duty on polyethylene HE1878; to the Committee on Ways and Means.

By Mr. ADERHOLT:

H.R. 3816. A bill to suspend temporarily the duty on man-made shells used in the manu-

facture of sleeping bags; to the Committee on Ways and Means.

By Mr. KANJORSKI:

H.R. 3817. A bill to provide the Securities and Exchange Commission with additional authorities to protect investors from violations of the securities laws, and for other purposes; to the Committee on Financial Services.

By Mr. KANJORSKI:

H.R. 3818. A bill to amend the Investment Advisers Act of 1940 to require advisers of certain unregistered investment companies to register with and provide information to the Securities and Exchange Commission, and for other purposes; to the Committee on Financial Services.

By Mr. GORDON of Tennessee (for himself, Mr. HALL of Texas, Ms. GIFFORDS, and Mr. OLSON):

H.R. 3819. A bill to extend the commercial space transportation liability regime; to the Committee on Science and Technology.

By Mr. WU (for himself, Mr. SMITH of Nebraska, Mr. GRAYSON, and Mr. MOORE of Kansas):

H.R. 3820. A bill to reauthorize Federal natural hazards reduction programs, and for other purposes; to the Committee on Science and Technology, and in addition to the Committees on Natural Resources, and Transportation and Infrastructure, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. DEAL of Georgia (for himself, Mr. BURGESS, Mr. PITTS, Mr. BLUNT, and Mr. BUYER):

H.R. 3821. A bill to prevent States from limiting employers from using auto-enrollment for employee health insurance coverage; to the Committee on Education and Labor.

By Mr. DEAL of Georgia (for himself, Mr. BURGESS, Mr. PITTS, Mr. BLUNT, Mr. BARTON of Texas, and Mr. BUYER):

H.R. 3822. A bill to permit employers to provide contributions and assistance to certain employees who purchase individual health insurance; to the Committee on Education and Labor, and in addition to the Committees on Energy and Commerce, and Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. DEAL of Georgia (for himself, Mr. PITTS, Mr. BLUNT, Mr. BARTON of Texas, and Mr. BUYER):

H.R. 3823. A bill to amend titles XIX and XXI of the Social Security Act to make certain changes to the State Children's Health Insurance Program and the Medicaid Program; to the Committee on Energy and Commerce.

By Mr. DEAL of Georgia (for himself, Mr. BURGESS, Mr. PITTS, Mr. BLUNT, Mr. BARTON of Texas, and Mr. BUYER):

H.R. 3824. A bill to allow States to establish interstate compacts for the purpose of expanding health insurance options; to the Committee on Energy and Commerce.

By Mr. BRIGHT:

H.R. 3825. A bill to amend the Internal Revenue Code of 1986 to provide a Federal income tax credit for certain home purchases; to the Committee on Ways and Means.

By Mrs. BIGGERT (for herself and Mrs. CAPPS):

H.R. 3826. A bill to amend title XVIII of the Social Security Act to provide payments

under the Medicare Program to licensed health care practitioners for unscheduled telephone consultation services in the case that such payments are determined to be cost and quality effective; to the Committee on Energy and Commerce, and in addition to the Committee on Ways and Means, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. STARK:

H.R. 3827. A bill to prohibit discrimination in adoption or foster care placements based on the sexual orientation, gender identification, or marital status of any prospective adoptive or foster parent; to the Committee on Ways and Means.

By Mrs. BIGGERT (for herself, Mr. KIRK, Mr. LEE of New York, Mr. GERLACH, Mr. ROGERS of Michigan, Mr. NEUGEBAUER, Mr. PAUL, Mrs. CAPITO, Mr. MANZULLO, Mr. SESSIONS, Mr. PUTNAM, Mr. McCOTTER, Mr. CULBERSON, Mr. SAM JOHNSON of Texas, Mr. JOHNSON of Illinois, Mr. ROE of Tennessee, Mr. EHLERS, Mr. UPTON, Mr. KING of New York, Mr. JONES, Mr. LAMBORN, Mr. CHAFFETZ, Mr. BACHUS, Mrs. BACHMANN, Mr. BARRETT of South Carolina, and Mr. MCHENRY):

H.R. 3828. A bill to temporarily suspend the approval or certification of any housing counseling agencies of ACORN or its affiliates and require the Inspector General of the Department of Housing and Urban Development to conduct an audit of any assistance provided by the Department to ACORN and its affiliates, and for other purposes; to the Committee on Financial Services.

By Mr. BRADY of Pennsylvania:

H.R. 3829. A bill to amend title 23, United States Code, to reduce the amount of Federal highway funding available to States that do not enact a law prohibiting the use of certain communication devices while operating a motor vehicle, and for other purposes; to the Committee on Transportation and Infrastructure.

By Mr. FORTENBERRY:

H.R. 3830. A bill to direct the Secretary of Health and Human Services to develop an individual chronic disease prevention and wellness achievement matrix; to the Committee on Energy and Commerce.

By Mr. FORTENBERRY:

H.R. 3831. A bill to amend the American Recovery and Reinvestment Act of 2009 to eliminate the phase out of the Medicare hospice budget neutrality adjustment factor; to the Committee on Ways and Means.

By Mr. FRANKS of Arizona:

H.R. 3832. A bill to enhance the effectiveness of United States diplomatic efforts with respect to Iran by expanding economic sanctions against Iran to include refined petroleum, require the Secretary of Defense to develop and maintain viable military options to prevent the successful development or deployment of a nuclear weapons capability by the Government of Iran, and for other purposes; to the Committee on Foreign Affairs, and in addition to the Committees on Financial Services, Armed Services, Ways and Means, and Oversight and Government Reform, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HALL of New York:

H.R. 3833. A bill to amend chapters 81, 83, and 84 of title 5, United States Code, to provide for enhanced benefits for survivors of Federal public safety officers killed in the

line of duty; to the Committee on Oversight and Government Reform.

By Mr. HIGGINS (for himself, Mr. HINCHEY, Mr. MASSA, Ms. MOORE of Wisconsin, Mr. MAFFEI, Mr. LEE of New York, and Mr. HOLT):

H.R. 3834. A bill to amend the Internal Revenue Code of 1986 to enhance incentives for renewable energy development in high job-loss zones in metropolitan and micropolitan statistical areas; to the Committee on Ways and Means, and in addition to the Committee on Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned.

By Mr. HOLT:

H.R. 3835. A bill to amend the National Voter Registration Act of 1993 and the Help America Vote Act of 2002 to strengthen protections against the wrongful removal of individuals from the official list of eligible voters and the wrongful denial of applications for voter registration, and for other purposes; to the Committee on House Administration.

By Mr. ISRAEL:

H.R. 3836. A bill to authorize the Secretary of Energy to provide credit support to enhance the availability of private financing for clean energy technology deployment; to the Committee on Energy and Commerce.

By Ms. KILROY (for herself, Mr. CUELLAR, Mr. THOMPSON of Mississippi, Mr. PASCRELL, Ms. CLARKE, Mr. DEFazio, Ms. RICHARDSON, Ms. NORTON, Mr. SIREs, Ms. JACKSON-LEE of Texas, Mr. CLEAVER, and Ms. TITUS):

H.R. 3837. A bill to amend the Homeland Security Act of 2002 to provide for clarification on the use of funds relating to certain homeland security grants, and for other purposes; to the Committee on Homeland Security.

By Mr. MURPHY of Connecticut (for himself and Mr. PLATTS):

H.R. 3838. A bill to amend the Juvenile Justice and Delinquency Prevention Act of 1974 to provide incentive grants to promote alternatives to incarcerating delinquent juveniles; to the Committee on Education and Labor.

By Mr. ROONEY (for himself and Mr. McMAHON):

H.R. 3839. A bill to amend title 10, United States Code, to authorize the reimbursement of mental health counselors under TRICARE, and for other purposes; to the Committee on Armed Services.

By Mr. RUPPERSBERGER (for himself and Mr. THORNBERRY):

H.R. 3840. A bill to strengthen certain provisions relating to arms export licenses, and for other purposes; to the Committee on Foreign Affairs.

By Mr. SCHRADER:

H.R. 3841. A bill to amend the Internal Revenue Code of 1986 to repeal carryover basis for decedents dying in 2009, to increase the estate tax exemption to \$5,000,000, and to reduce the maximum estate and gift tax rate to 45 percent; to the Committee on Ways and Means.

By Mr. SCHRADER (for himself and Mr. DRIEHAUS):

H.R. 3842. A bill to amend the Internal Revenue Code of 1986 to extend the first-time homebuyer tax credit; to the Committee on Ways and Means.

By Mr. SESTAK:

H.R. 3843. A bill to amend title 38, United States Code, to direct the Secretary of Vet-

erans Affairs to publish redacted medical quality-assurance records of the Department of Veterans Affairs on the Internet website of the Department; to the Committee on Veterans' Affairs.

By Mr. TIAHRT:

H.R. 3844. A bill to amend the Internal Revenue Code of 1986 to provide a special depreciation allowance and recovery period for noncommercial aircraft property; to the Committee on Ways and Means.

By Mr. ANDREWS:

H. Con. Res. 200. Concurrent resolution expressing the sense of Congress regarding the freedom, security, and stability of Taiwan; to the Committee on Foreign Affairs.

By Mr. TIAHRT (for himself, Mr.

WAMP, Mrs. BACHMANN, Mr. BARTLETT, Mrs. BLACKBURN, Mrs. BONO MACK, Mr. BOOZMAN, Mr. CHAFFETZ, Mr. EHLERS, Ms. FOX, Mr. FRANKS of Arizona, Mr. GINGREY of Georgia, Mr. GOODLATTE, Mr. GRAVES, Mr. HELLER, Mr. HERGER, Mr. INGLIS, Mr. KLINE of Minnesota, Mr. LAMBORN, Mr. LUCAS, Mrs. McMORRIS RODGERS, Mr. MILLER of Florida, Mrs. MYRICK, Mr. PETRI, Mr. PITTS, Mr. PLATTS, Mr. ROE of Tennessee, Mr. RYAN of Wisconsin, Mr. SMITH of Nebraska, Mr. FRANKS of Texas, Mr. TERRY, Mr. WESTMORELAND, and Mr. WOLF):

H. Con. Res. 201. Concurrent resolution to establish the Joint Select Committee on Earmark Reform, and for other purposes; to the Committee on Rules.

By Mr. LARSON of Connecticut:

H. Res. 834. A resolution electing a Member to certain standing committees of the House of Representatives; considered and agreed to.

By Ms. JENKINS (for herself, Mr.

BOEHNER, Mr. CANTOR, Mr. PENCE, Mr. PAULSEN, Mr. McCLINTOCK, Mrs. SCHMIDT, Mr. LEE of New York, Mr. HENSARLING, Mr. LATTI, Mr. ROE of Tennessee, Mr. REICHERT, Mr. MANZULLO, Mr. SCHOCK, Mr. DENT, Mrs. CAPITO, Mr. KLINE of Minnesota, Mr. THOMPSON of Pennsylvania, Mr. GERLACH, Ms. FOX, Mr. TERRY, Mr. GRAVES, Mr. BARTON of Texas, Mr. CULBERSON, Mr. MICA, Mr. SMITH of Texas, Mr. DANIEL E. LUNGREN of California, Mr. SAM JOHNSON of Texas, Mr. LUCAS, Mr. MORAN of Kansas, Mr. SCALISE, Mr. SMITH of Nebraska, Mr. KINGSTON, Mr. COBLE, Mrs. LUMMIS, Mr. GOHMERT, Mr. CARTER, Mr. POE of Texas, Ms. GRANGER, Mr. THORNBERRY, Mr. DREIER, Mr. BUYER, Mr. CAMP, Mr. POSEY, Mr. SESSIONS, Mr. BARTLETT, Mr. BACHUS, Mr. HASTINGS of Washington, Mr. MCCARTHY of California, Mr. HALL of Texas, Mr. HOEKSTRA, Mr. CAMPBELL, Mr. GARRETT of New Jersey, Mr. LANCE, Mr. BUCHANAN, Mr. DAVIS of Kentucky, Mr. ROGERS of Alabama, Mr. BOUSTANY, Mr. GOODLATTE, Mr. RYAN of Wisconsin, Mr. KIRK, Mr. LATHAM, Mr. GALLEGLY, Mrs. McMORRIS RODGERS, Mr. CONAWAY, Mr. ADERHOLT, Mr. GUTHRIE, Mr. CALVERT, Mr. MARCHANT, Mr. CHAFFETZ, Mr. ISSA, Mrs. BLACKBURN, Mr. OLSON, Mr. ALEXANDER, Mr. LAMBORN, Mr. COFFMAN of Colorado, Mr. WESTMORELAND, Mrs. MILLER of Michigan, Mr. SULLIVAN, Mr. NEUGEBAUER, Mr. FRELINGHUYSEN, Mr. McCAUL, Mr. HARPER, Mrs. GINNY BROWN-WAITE of Florida, Mr. FLEMING, Mr. WALDEN, Mr. UPTON, Mr. PRICE of Georgia, Mr. EHLERS, Mrs.

BONO MACK, Mr. MACK, Mr. FORBES, Mr. JONES, Mr. PITTS, Mr. SENSENBRENNER, Mr. LINCOLN DIAZ-BALART of Florida, and Mr. BARRETT of South Carolina):

#### DELETIONS OF SPONSORS FROM PUBLIC BILLS AND RESOLUTIONS

Under clause 7 of rule XII, sponsors were deleted from public bills and resolutions as follows:

H.R. 1989: Mr. BARTLETT, Mr. LATTA, Mr. BILBRAY, and Mr. SOUDER.

H.R. 3413: Mr. AL GREEN of Texas and Ms. JENKINS.

H.R. 3612: Mr. SAM JOHNSON of Texas.

## EXTENSIONS OF REMARKS

RECOGNIZING HOLLAND MAYOR ALBERT "AL" MCGEEHAN FOR HIS MANY YEARS OF SERVICE WITH THE HOLLAND CITY COUNCIL

## HON. PETER HOEKSTRA

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. HOEKSTRA. Madam Speaker, I rise here today to honor Holland Mayor Albert "Al" McGeehan for his years of selfless service on the Holland City Council.

Mayor McGeehan was born on Staten Island in New York Harbor in October 1944. He first moved to Holland to attend Hope College. He graduated from Hope College in June of 1966 with a Bachelor of Arts degree in History and a Michigan Secondary Teaching Certificate.

With his educational preparation and certification, Mayor McGeehan began a teaching career in the Holland Public Schools that spanned five decades.

In the summer of 2004, President George W. Bush, while addressing a crowd of 15,000 Holland residents, shortened Mayor McGeehan to simply, Mayor "Al." The title better suited the Mayor and stuck like glue.

Mayor "Al" was first elected to city council in 1977 where he served four "four-year" terms as a Councilman-at-Large. He is now in his eighth term as mayor of the city.

As a teacher, Al McGeehan served as Chair of the Social Studies Department for Holland Public Schools. Upon his retirement, he worked as a morning radio talk show host for WJQ 1260 AM.

For three years, Al represented the Michigan Municipal League as the League's West Michigan Regional Coordinator. He has served on several committees of the Michigan Municipal League and the National League of Cities. From 2006 to 2008, Mayor "Al" served consecutive terms as President of the Michigan Association of Mayors.

The Mayor's passion for studying and collecting artifacts from the time of the American Civil War is well-known throughout Michigan and beyond. He has taught and lectured on the subject. He has authored a book and several magazine articles relating to the Civil War and he has been known to often occupy the very best parking spaces at local antique shops.

Mayor Al has been married to his wife Marsha for 45 years.

ST. JOHN LUTHERAN CHURCH

## HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SHIMKUS. Madam Speaker, I rise today to commemorate the 150th anniversary of St. John Lutheran Church in Dieterich, IL.

On January 1, 1860, 14 men signed the constitution of St. John, a document that has continued to govern the church to this day. St. John is one of the oldest churches in the Central Illinois District of the Lutheran Church Missouri Synod.

I would like to congratulate the members of St. John Lutheran Church for reaching this milestone and wish them a blessed and joyous celebration as they mark 150 years of service to God and their community.

RECOGNIZING JOHN KEETON

## HON. JAMES P. MCGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. MCGOVERN. Madam Speaker, I rise today in recognition of John Keeton of Shrewsbury, Massachusetts. Mr. Keeton has been an outstanding Democratic activist for more than twenty years throughout Worcester County. An attorney in the Worcester area, Mr. Keeton's devotion to the pursuit of justice has portrayed his passions of human rights, social justice, and equality for all. In acknowledgement of his dedication, passionate beliefs, and hard work, Mr. Keeton has been selected to receive the 2009 Eleanor Roosevelt Humanitarian Award from the Shrewsbury Democratic Town Committee.

Raised in a family devoted to the ideals President Franklin Delano Roosevelt and Eleanor Roosevelt espoused, John Keeton grew up with and advocated for such beliefs throughout his career as an attorney and political activist. Mr. Keeton, along with his wife Patricia, has been involved in campaigns for prominent figures such as Governor Deval Patrick and Hillary Clinton. I will be forever grateful for his friendship over the years.

Throughout his distinguished career, John Keeton has been involved in both the Westborough and Shrewsbury Democratic Town Committees. Having distinguished himself as the Chair of the Shrewsbury Town Committee, Mr. Keeton not only presided over a period of great success for the committee, but became widely recognized as a loyal and committed Democrat in Worcester County.

John Keeton's dedication to the principles of justice and Democratic ideals has worked to positively enhance Worcester County. His tireless efforts and activism is admired by many,

including those who Mr. Keeton has campaigned for. In tribute to his outstanding efforts for the Democratic Committees throughout the Commonwealth of Massachusetts, I congratulate Mr. Keeton on receiving this award. I know my colleagues will join me in paying tribute to him today.

HONORING THE SOUTH TEXAS COUNCIL ON ALCOHOL AND DRUG ABUSE

## HON. HENRY CUELLAR

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CUELLAR. Madam Speaker, Whereas, the South Texas Council on Alcohol and Drug Abuse was founded in 1990 by a group of concerned citizens who wished to address issues related to substance abuse; and

Whereas, October 15th is National Latino AIDS Awareness Day; and

Whereas, Latinos represent 15% of the U.S. population, but make up 18% of new HIV infections; and

Whereas, Latino women are infected with HIV at a rate of up to four times greater than other women; and

Whereas, citizens from Hebbronville, Zapata, Roma, Rio Grande established the South Texas Council on Alcohol and Drug Abuse 19 years ago as a nonprofit agency; and

Whereas, the agency was created out of a grant from the Texas Commission on Alcohol and Drug Abuse to develop a Statewide Initiative Council for the four county regions consisting of Jim Hogg, Starr, Webb, and Zapata; and

Whereas, the South Texas Council on Alcohol and Drug Abuse was established to provide screening, assessment, referrals related to substance abuse, and education services to the region for substance abuse; and

Whereas, the South Texas Council on Alcohol and Drug Abuse has expanded its services to include HIV prevention, treatment, and Voces Fronterizas—an HIV prevention and intervention program from the CDC; and

Whereas, the South Texas Council on Alcohol and Drug Abuse has expanded their role to encompass not only that of being a Clinical Training Institute but also providing intervention outreach studies to impoverished border communities like the colonias; and

Whereas, the South Texas Council on Alcohol and Drug Abuse has served over 12,000 clients through HIV programs in the past 6 years; and

Whereas, the South Texas Council on Alcohol and Drug Abuse has invested over \$1,000,000 annually on HIV programs; and

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

*Be it hereby resolved*, that Congressman HENRY CUELLAR, in representing the 28th Congressional District of the State of Texas, honors the contributions of the South Texas Council on Alcohol and Drug Abuse for their exceptional service to South Texas communities.

#### PERSONAL EXPLANATION

#### HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. HONDA. Madam Speaker, on Wednesday, October 14th, I was unavoidably detained due to official business at the White House and was not present for a number of roll call votes.

Had I been present I would have voted:

"Yea" on Rollcall 776, H.R. 1327, the Iran Sanctions Enabling Act of 2009.

"Yea" on Rollcall 777, H. Res. 816, mourning the loss of life caused by the earthquakes and tsunamis that occurred on September 29, 2009, in American Samoa and Samoa.

"Yea" on Rollcall 778, H. Res. 786, commemorating the canonization of Father Damien de Veuster, SS.CC. to sainthood.

"Yea" on Rollcall 779, H.R. 3371, the Airline Safety and Pilot Training Improvement Act of 2009.

#### FORT MASSAC

#### HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SHIMKUS. Madam Speaker, I rise today to mark the unveiling of a commemorative mural at Fort Massac in Massac County, Illinois.

Fort Massac was built on the bank of the Ohio River in 1757 by the French during the French and Indian War. In 1794, during the Northwest Indian War, President George Washington ordered the fort be rebuilt. For the next 20 years Fort Massac protected U.S. military and commercial interests in the Ohio Valley.

In the fall of 1803, the Lewis and Clark Expedition stopped and recruited two volunteers at Fort Massac as they journeyed west. The Fort Massac site was designated a State Park in 1908, becoming the first Illinois State Park.

Every October, the Fort Massac Encampment draws 80,000 visitors to re-create the lifestyles and atmosphere of the late 1700s. As a part of this year's celebration on October 17th and 18th, the Fort Massac Museum is unveiling a mural depicting a restored cabin from the early 1800s. More than 100,000 visitors are expected to attend the celebration to take part in the mural unveiling.

I want to congratulate the volunteers, supporters, and everyone else who helped make this mural and museum such a great success. I wish them my best as they open this new exhibit to offer a glimpse into the fascinating history of the United States and Illinois.

#### IMMIGRATION LAWS WORK

#### HON. LAMAR SMITH

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SMITH of Texas. Madam Speaker, the New York Times once again misses the mark with its latest immigration editorial, "Wrong Paths to Immigration Reform."

The Times wrongly suggests that the 287(g) program should be used only for serious criminals.

As one of the authors of the legislation that created 287(g), I can testify that Congress created 287(g) to let state and local law enforcement officials help enforce all immigration laws, not a select few.

When it comes to Sheriff Arpaio, the Times laments that his "raids use minor infractions like broken tail lights as pretexts for mass immigration arrests."

In fact, minor infractions can ensnare major bad guys. As the Times itself reported in another story, accused Dallas terrorist Hosam (Maher Husein) Smadi was pulled over for "a broken tail light" before he was arrested for terrorist activities.

This is a powerful reminder that enforcing immigration laws against all those who violate them can prevent crime.

#### RECOGNIZING THE AMERICAN RED CROSS OTTAWA COUNTY CHAPTER ON 100 YEARS

#### HON. PETER HOEKSTRA

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. HOEKSTRA. Madam Speaker, I rise here today to congratulate Ottawa County's Red Cross on such a significant milestone—100 years serving Ottawa County.

The American Red Cross of Ottawa County, a humanitarian organization led by volunteers and guided by its Congressional Charter and the Fundamental Principles of the International Red Cross Movement, provides relief to victims of disasters and helps people prevent, prepare for and respond to emergencies.

The organization has helped people throughout the world, but closer to home it has provided residents of Ottawa County with tremendous help, whether it is emergency relief, offering health and safety classes or assisting active duty military personnel.

It is rightfully proud of its record in preventing and relieving suffering, offering community assistance and offering compassionate services across the board.

Most notably, it has facilitated in giving people the gift of life through countless blood drives every year. It is amazing that it is able to do all that it does with no taxpayer dollars, but by the generous donations of time, money and blood.

Moving into the next 100 years of dedication to Ottawa County, ongoing fundraising and community partnerships are crucial to the Red Cross's ability to serve.

Madam Speaker, I am proud to honor the American Red Cross Ottawa County on its celebration of a century of success.

#### GASKIN CITY MISSIONARY BAPTIST CHURCH

#### HON. JOHN SHIMKUS

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SHIMKUS. Madam Speaker, I rise today to recognize Gaskin City Missionary Baptist Church, which celebrated its 100th anniversary this past August.

Pastor Andrew Yates and the congregation of 160 held its first service on August 21, 1909. Although the congregation is smaller today, its members still make an impact on both the local community and the mission field worldwide. Their commitment to service can be seen in many ways, such as singing at local care centers and retirement homes and sending pens to Botswana that are used to copy chapters from the Bible.

I would like to congratulate the members of Gaskin City Missionary Baptist Church for reaching this milestone and wish them a blessed and joyous celebration as they mark 100 years of service to God and their community, both at home and around the world.

#### SCHWEITZER ENGINEERING LABORATORIES CELEBRATES 25TH ANNIVERSARY

#### HON. CATHY McMORRIS RODGERS

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mrs. McMORRIS RODGERS. Madam Speaker, I rise today to recognize Schweitzer Engineering Laboratories (SEL) and its founder, Dr. Edmund O. Schweitzer III, on the 25th anniversary of the lab's first sale from its headquarters in Pullman, Washington.

From its first delivery to the Otter Tail Power Company in Fergus Falls, MN in 1984, Schweitzer Engineering Laboratories has grown to provide a variety of power management systems and automated networking devices that are capable of withstanding extreme electrical and weather conditions. Ed Schweitzer is a pioneer in the field of power protection, having invented the first all-digital protective relay. This device reduces the cost and complexity of power protection. This digital technology can respond in milliseconds to systems faults and keep millions of customers safely supplied with power.

The spirit of entrepreneurship is alive and well in Eastern Washington. Today, SEL continues to develop the next generation of energy-efficient technologies and to promote smart use of our nation's natural resources. The company is proud to be 100 percent employee-owned and to serve 126 countries, employing more than 2,000 people here at home and around the world.

Madam Speaker, Schweitzer Engineering Laboratories and Ed Schweitzer represent the creative and bold nature of our country's innovators and the trailblazing spirit of the Inland Northwest in particular. I ask my colleagues to join me in congratulating Schweitzer Engineering on twenty-five successful

years in business and in wishing them many more successful, productive years to come.

HONORING MR. JERRY  
RASMUSSEN

**HON. STEPHANIE HERSETH SANDLIN**

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. HERSETH SANDLIN. Madam Speaker, I want to take this opportunity to recognize Mr. Jerry Rasmussen, Principal of Dakota Valley High School in North Sioux City, South Dakota. Mr. Rasmussen was named South Dakota High School Principal of the Year by the MetLife/National Association of Secondary School Principals, NASSP, National Principal of the Year Program. This award recognizes the achievements of secondary school principals like Mr. Rasmussen who have succeeded in providing high-quality learning opportunities for students as well as demonstrating exemplary contributions to the profession.

Mr. Rasmussen has proudly devoted 21 years to education, including 10 years as an administrator. Mr. Rasmussen is most proud of his efforts to create a caring, student-centered culture which permeates throughout the community in North Sioux City. Mr. Rasmussen's devotion to the success and well-being of all of his students and efforts to ensure that all are welcomed at school is an example readily followed by his fellow teachers and staff.

I send best wishes and congratulations to Mr. Rasmussen on this noteworthy honor and commend him for his years of service as an educator in South Dakota.

SAINT CECILIA'S CATHOLIC  
CHURCH 125TH ANNIVERSARY

**HON. JOHN SHIMKUS**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SHIMKUS. Madam Speaker, I rise today to commemorate the 125th anniversary of St. Cecilia's Catholic Church in Bartelo, Illinois.

In the mid-nineteenth century immigrants of primarily German descent settled in the area. By 1880 there were about 75 Catholic families living in the vicinity, most of whom were members of St. Boniface Church. However, flooding of the Kaskaskia River and Shoal Creek made the roads leading to St. Boniface virtually impassable.

In 1884, St. Cecilia's Catholic Church was built to better accommodate the area's families. Building supplies were hauled from the surrounding area to the construction site by horse-drawn wagons. The project culminated in the beautiful church that is still one of the finest in Southern Illinois. The town of Bartelo flourished with the new attention that St. Cecilia's brought.

I would like to congratulate the members of St. Cecilia's Catholic Church for reaching this milestone and wish them a blessed and joy-

ous celebration as they mark 125 years of service to God and their community.

IN HONOR OF INTERNATIONAL  
CREDIT UNION DAY

**HON. BRAD SHERMAN**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SHERMAN. Madam Speaker, I rise today to recognize the importance and many achievements of credit unions worldwide in celebration of the 61st annual International Credit Union Credit Day.

The difference credit unions make in the United States by providing affordable and safe financial services to many Americans of moderate means has been significant and widely recognized.

However, the contributions credit unions have made on an international scale are equally notable. Since the mid-1800s, credit unions have established themselves in communities around the world struggling with social dislocation, political unrest and economic depression as a means to promote economic growth and democratic practices at the local level. Today, more than 54,000 credit unions provide financial services to more than 186 million members in 97 nations.

Credit unions make a difference on a global scale by providing access to affordable financial services for those who otherwise would have been excluded from the financial sector. Such financial services include the provision of small savings and loans, which enable some of the poorest individuals in the world to start their own microenterprises, improve household stability and stimulate growth in their communities. Credit unions are the largest source of these microfinance services in countries as diverse as Colombia, Kenya, Russia, Mexico, Thailand and Rwanda.

Credit unions are also at the forefront of expanding access to finance for people living in rural areas who can't afford the time or money it takes to visit a financial institution. Credit unions are working with the World Council of Credit Unions (WOCCU) to introduce a variety of innovative technology solutions to bank the unbanked in rural areas. In Mexico, credit union officers carry hand-held personal digital assistant (PDA) devices to conduct financial transactions with members in communities located up to 90 minutes from the credit union office. In Kenya, Peru and Mexico, point-of-sale devices enable credit unions to partner with local merchants in rural areas, allowing members to deposit and withdraw money from their credit union accounts. Finally, mobile banking capabilities in Mexico will enable members to check their balances and transfer funds without leaving their homes.

In addition, credit unions throughout the world are filling the agricultural lending gap that has kept the vast majority of small farmers stuck in low-production, low-return cycles. In countries such as Peru, Kenya and Colombia, credit unions are taking an integrated, value-chain approach to financing that includes access to agricultural training and markets for farmers to sell their products. As a re-

sult, farmers are not only increasing their incomes and producing more food for their families, they are also playing a role in securing their nations' food supply.

Credit unions have also contributed to post-conflict rebuilding of societies and economies in war-torn countries. WOCCU has been on the ground in Afghanistan since 2003, working with communities at the grassroots level to form the country's first credit unions and rural financial system. Afghan credit unions are known as "Islamic investment and finance co-operatives" in order to comply with Islamic lending practices. They are playing a powerful role in communities, bringing together people from different tribes to work together to finance the individual needs of each other and those of the community through reconstruction projects. In Helmand province, for example, access to credit provides poppy farmers with the opportunity to start a new life by growing alternative crops such as paprika. This will have an impact on the overall security and stability of the region.

As democratically owned and operated not-for-profit financial cooperatives, credit unions also contribute to the democratization of societies. The one-member one-vote principle of credit unions is often the first vehicle for local expressions of democratic participation. In many countries, credit unions lead economic democratization, a step closer to political democratization by providing economic security and sustainability and exposing lower-income communities to free-market principles and democratic values that will help eradicate terrorism at its roots.

U.S. credit union members, staff and leagues, along with CUNA and the United States government, support the global work of credit unions and WOCCU. Through WOCCU's International Partnerships Program, 25 U.S. credit union leagues are matched with developing credit union movements overseas to encourage the direct transfer of technology, skills and experience among peers across borders.

Madam Speaker, I ask you and my other distinguished colleagues to join me in commending the work of credit unions, both domestically and internationally, for providing vital financial services that improve the lives of people demonstrating the greatest need around the world. By providing the world's poor with the most basic financial services, credit unions help expand job opportunities, improve local economies and promote democracy. In short, credit unions offer a sustainable development solution to some of the world's poorest countries, and this is the "credit union difference."

COMMEMORATING THE 90TH ANNI-  
VERSARY OF THE SAINT BENE-  
DICT PAROCHIAL SCHOOL IN  
RICHMOND, VIRGINIA

**HON. ERIC CANTOR**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CANTOR. Madam Speaker, I rise today to commemorate the 90th anniversary of the

Saint Benedict Parochial School in Richmond, Virginia.

Saint Benedict Parochial School has been serving the Richmond area since 1919 when it opened on the corner of Grove and Belmont Avenues. Classes were temporarily held in the convent, which was moved just a few years later to make room for the proposed school building. An addition to the school was built in 1949 after an increasing number of students outgrew the existing school.

Today, Saint Benedict Parochial School continues to offer a traditional education in a faith-filled environment to both elementary and middle school students. Along with language arts, mathematics, social studies and science, religion is also taught as one of the core subject areas. In fact, the school motto is *Ut in Omnibus Glorificetur Deus*, or in other words, "So that in all things God may be glorified!"

In addition to concentrating on their education, Saint Benedict students spend countless hours serving the community. Once a month, students prepare and deliver bagged lunches to the homeless. They also collect canned food for the Central Virginia Food Bank, and have worked to raise money for organizations like the St. Jude Children's Research Hospital as well as a school in the greater Richmond area that was facing the possibility of closing.

Madam Speaker, I ask you to join me in recognizing Saint Benedict Parochial School as it celebrates its anniversary and wishing the students and staff the best in their future endeavors.

---

HONORING HENRY J. "CHIP"  
SCHIRESON

---

HON. JIM GERLACH

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. GERLACH. Madam Speaker, I rise today to recognize the Honorable Henry J. "Chip" Schireson who is completing his 25th year of dedicated public service as a Magisterial District Judge in Lower Merion, Montgomery County, Pennsylvania.

While efficiently administering a court that averages 1,000 filings each month, Judge Schireson has made a tremendous commitment to positively impacting the youth in the community. His efforts include establishing an innovative and award-winning public service program at Bryn Mawr Hospital, which allows juvenile offenders to serve others to avoid a criminal record. That is just one example of how Judge Schireson utilizes creative sanctions to change the attitudes of offenders and, in some cases, help turn around lives.

Madam Speaker, I ask that my colleagues join me today in recognizing the Honorable Henry J. "Chip" Schireson as he celebrates this memorable milestone and honor his extraordinary dedication to making Lower Merion a great place to live, work and raise a family.

HONORING THE 50TH ANNIVERSARY OF CROCKER MIDDLE SCHOOL

---

HON. JACKIE SPEIER

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. SPEIER. Madam Speaker, this year marks the 50th Anniversary of William H. Crocker Middle School in Hillsborough, California.

Crocker Middle School has been recognized as a California Distinguished School seven times, most recently in 2007, and is one of only three schools in the entire nation to be awarded a National Blue Ribbon for Secondary Schools on four occasions. Among the school's many other rewards, in 1993, Crocker was named to the Royal Swedish Academy of Engineering Science's "Top Five World Class Schools."

Crocker Middle School has served the community by constantly reviewing and improving its curriculum and continually striving for academic excellence. The newest addition to the Crocker campus is a building housing a state-of-the-art studio for Hillsborough Television (HTV), band and music instruction rooms, a lecture hall modeled after facilities at Harvard University, and much needed classrooms. This completed a ten year Hillsborough School District renovation project.

Madam Speaker, William H. Crocker Middle School has educated my own children, Jackson and Stephanie, so I can vouch first-hand to its excellence and the caring and passion of its incredible staff. In addition to strong academic programs in English, mathematics, science, social studies, foreign language, and physical education, Crocker offers electives in the arts and personal development skills such as leadership and public speaking.

The entire Crocker School family believes strongly that its role is to help each child build a foundation that will serve her or him for their entire life. Every aspect of its educational curriculum is designed to build a close, caring community in which every child and every adult is recognized and respected.

Madam Speaker, I am proud to be a William H. Crocker Middle School parent and I salute Crocker's longtime principal, Janet Chun, who has been a beacon of expanded learning that includes a strong community service component. She follows in the impressive footsteps of her predecessors, Fred Schwartz, Carl Zon, Marilyn Loushin Miller, Dan Kreuzer and Larry Raffo, all of whom deserve our recognition and our gratitude. I congratulate everyone in the Crocker community for half a century of academic and community achievement.

---

A TRIBUTE IN RECOGNITION OF  
THE CITY OF COMMERCE'S 50  
YEAR ANNIVERSARY

---

HON. LUCILLE ROYBAL-ALLARD

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. ROYBAL-ALLARD. Madam Speaker, I rise today to recognize the City of Commerce

and ask my colleagues to join me in congratulating its residents on the city's 50th Birthday. I am proud to represent this unique city—aptly characterized by its motto, the "Model City"—as part of my 34th Congressional District of California.

While we honor the city's 50 years of official incorporation, the exciting story of the founding and growth of one of Southern California's leading industrial cities dates back to 1810 when a humble Spanish soldier acquired a Spanish land grant that included the present-day City of Commerce.

The city's industrial roots began to take hold from 1871 to 1912 when the land's then-owner, Arcadia Bandini, leased the property to the railroads and other developers—a move that would make the landowner one of the wealthiest women in California.

One of the first industrial manufacturing plants established in the area was a brickyard, the 350 acre Simons Company Plant No. 3. The bricks were used to construct Royce Hall at UCLA, Disney Studios in Burbank and to rebuild San Francisco after the 1906 earthquake.

During the Roaring 20s, Commerce grew from a region of rural farms crisscrossed with a few roads and rail lines into a rail and transportation center and a promising location for heavy industry close to Downtown Los Angeles. During the following decades, Goodyear Tire and Rubber Company, B.F. Goodrich, U.S. Rubber, the East Los Angeles Rail Station, Chrysler Corporation, Ford and U.S. Steel located manufacturing plants in Commerce and solidified the city's reputation as an industrial center.

Commerce remained both a rural and industrial area until the late 1950s when the construction of the Long Beach and Santa Ana freeways ushered in a post-war era of rapid suburbanization. As the community grew, residents determined to avoid higher property taxes and improve city services established the Citizens Committee for Incorporation with the help of local business leaders. On January 28, 1960, the community was granted a certificate of incorporation and became the 67th city in Los Angeles County.

Fifty years later, the City of Commerce is still flourishing. It is a diverse community of more than 13,000 people and 1,700 businesses.

To keep up with the changing times, the city successfully brought about the diversification and transformation of the city's industrial base throughout the 1970s and 80s. Today, the city maintains much of its manufacturing and goods-distribution base while successfully converting former industrial land to lucrative commercial uses like the Citadel outlet mall, which occupies the site of the U.S. Rubber tire factory.

The city, however, retains its small town appeal by providing an unmatched range of programs and services. The city operates an award-winning library system, four city parks, a fare-free public transit service and a camp in the San Bernardino Mountains.

Through the city's commitment to providing recreational opportunities to area youth, the city takes pride in producing numerous state and national champions, including two members of the 2008 Olympic Silver Medal United

States Women's Water Polo Team and one member of the United States Boxing Olympic Team.

Commerce also remains committed to improving the environment and reducing emissions from trains, trucks and stationary sources of air pollution and is in the process of building a Liquid Natural Gas/Compressed Natural Gas fueling station for eco-friendly vehicles.

The City of Commerce will mark its 50th Birthday in 2010 with a series of community events throughout the year, including its annual Cake Cutting, July 4th Celebration, Miss Commerce Pageant, and Summer Safety Fair.

I am honored to recognize this historic milestone in this city's rich history.

Madam Speaker, I ask my colleagues to join me in celebrating Commerce's first 50 years as this vibrant community continues to live by its motto the "Model City" and work toward a prosperous future.

---

TESTIMONIAL ON SUSAN G. KOMEN RACE FOR THE CURE FOUNDATION AND BREAST CANCER AWARENESS MONTH

**HON. HENRY E. BROWN, JR.**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. BROWN of South Carolina. Madam Speaker, I stand today as a proud cosponsor of a resolution honoring Nancy Goodman Brinker, founder of the Susan G. Komen for the Cure Foundation.

This October marks the 25th anniversary of National Breast Cancer Awareness Month and the 27th anniversary of Komen for the Cure.

In the Palmetto State, breast cancer occurs in over five thousand women a year and kills over one thousand, but according to the American Cancer Society, these numbers have been falling since the 1990s.

However, there is always more to be done and we can all get involved in promoting breast cancer awareness.

This Sunday is the 16th Annual Komen Lowcountry Race for the Cure in Charleston, and I congratulate our local affiliate staff, Lindsay Wiltshire, Michelle Temple, Lucy Spears, Taffy Tamblin and Patricia Simon for their hard work organizing this event.

Their efforts bring us all closer to the ultimate goal of a world without breast cancer and we are very proud of them and all of their efforts in the First District.

---

A TRIBUTE TO GREEN COUNTY HIGH SCHOOL LADY DRAGONS GOLF TEAM

**HON. BRETT GUTHRIE**

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. GUTHRIE. Madam Speaker, I rise today to honor the Green County High School Lady Dragons Golf Team on their outstanding performance this season.

On October 10, 2009, the team won Green County High School's first KHSAA Girls State Golf Championship, bringing statewide attention to their school.

Under the leadership of Coach Rick Davis, the Lady Dragons remained steadfast throughout the tournament weekend and shot an impressive two-day total of 113-over par to win the tournament by six shots.

To reach the state championship tournament, the Lady Dragons won the 4th Region Title on September 29, 2009, in a two-hole playoff, defeating Glasgow High School, the defending state champion.

The Lady Dragons' performance is a testament to their hard work and dedication. I want to congratulate team members Sydney Agee, Cassidy Scantland, Leah Rose Judd, Olivia Parrott, Sydney Smith, and Kate Larimore and Coach Rick Davis and wish them nothing but the best in their future endeavors.

---

HONORING THOMAS AND THELMA ZEKOS

**HON. JAMES P. MCGOVERN**

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. MCGOVERN. Madam Speaker, I rise today in honor of my good friends the late Thomas and Thelma Zekos of Shrewsbury, Massachusetts. Mr. and Mrs. Zekos inspired those that knew them, dedicating their service to the advancement of the local community. In acknowledgement of their devotion and commitment to the Shrewsbury Democratic Town Committee, the annual Eleanor Roosevelt Humanitarian Awards are being dedicated in their memory.

Tom and Thelma were proud to make Shrewsbury their home knowing it was an excellent place to raise a family. They wanted the best for their children and instilled in them strong values and believed a quality education was absolutely essential. Their formula for a bright and successful future was to work hard and play by the rules.

Mr. and Mrs. Zekos were inspiring and impassioned Democrats. They believed their family would be best served by supporting candidates who espoused Democratic principles. Throughout their 50 years of marriage, they worked tirelessly for an array of Democratic candidates. They always went the extra mile. I will be forever grateful to them for their support and friendship over the years.

Tom and Thelma Zekos's dedication and commitment to a strong work ethic and moral values made an impact on our community. In tribute to their outstanding service to the community of Shrewsbury and to the Democratic Party, I am proud to honor the memory of Tom and Thelma with the dedication of the Eleanor Roosevelt Humanitarian Awards to them. I know all my colleagues will join me in paying tribute to them both today.

HONORING THE OFFICE OF PARKS AND RECREATION, CITY OF OAKLAND

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. LEE of California. Madam Speaker, I rise today to honor the 100th Year Anniversary of the City of Oakland's Office of Parks and Recreation (OPR). On July 25th, at an Old Fashion Community Celebration at deFremery Park, local families, sports enthusiasts and nature lovers celebrated what has been accomplished in one century: 100 parks, 2,500 acres of open space, 26 recreation and community centers, and the innumerable rewarding activities Oakland residents enjoy because of them.

In 1909 both the Playground and Park Commissions were formed. During the Playground Commission's first meeting, they allocated \$600 for a vacation program at two school grounds and established a Playground Division under the Department of Public Works. One year later, the first municipal playgrounds opened at the deFremery, Bushrod and Bayview sites. The City also issued a million-dollar bond to purchase lands around Lake Merritt.

Today, we recognize the true worth of those initial investments. In addition to offering recreation services in athletics, science, art, aquatics, boating, gardening, music, and culture, Oakland's parks help foster a sense of community ownership. One OPR motto, "Play with a Purpose," illustrates an important point. It reminds us that healthy, outdoor play is an essential part of our wellbeing and personal growth.

Over the last 100 years, Oakland Parks have transformed, mirroring the rich culture and history of the surrounding community: In 1932, Oakland's first Municipal Rose Garden opened its doors; the deFremery recreation center housed servicemen in December of 1941, nine days after the Pearl Harbor attacks; a camp for children with disabilities and a Senior Citizen program were created in 1948, and ten years later, the award-winning Arroyo Viejo Children's Theater opened, but succumbed to fire in 1970.

There have been Japanese Gardens, golf courses, children's folk dance festivals and choruses. Children's Fairyland, visited by Walt Disney while he developed his Disneyland concept, was the first theme park in the nation designed for small children. But, during inevitable change, one constant has remained: Oakland Parks' steadfast accessibility to people of all ages, abilities and interests.

The variety and scope of Oakland Parks' community participation is vast. For example, OPR recreation centers host Radical Roving Recreation programs that provide social, health and life skills development for underserved young people. The Golden State Warriors basketball team Makin' Hoops Program helps to renovate basketball courts and provides athletic services. On a national scale, the U.S. Olympic Trials for canoe and kayak flatwater sprint were held at Lake Merritt in 2004.

This year, Lakeside Gardens also celebrates its 50th anniversary and OPC intends to return the gardens to their original splendor. Oakland has much to look forward to as the Office of Parks and Recreation continues its commitment to beautify the city and engage park visitors in a shared civic pride.

I am confident that exciting partnerships and programs such as these will continue to thrive under the guidance of OPR's excellent leadership. In the next 100 years, the City of Oakland, partnering with the Office of Parks and Recreation, will continue to encourage community values, physical activity and personal development through the beauty of its open spaces.

#### PERSONAL EXPLANATION

### HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. SHUSTER. Madam Speaker, on rollcall Nos. 775, 776, 777, 778, and 779, I was not present due to a family commitment in Pennsylvania. Had I been present, I would have voted "yea" on 775, "yea" on 776, "yea" on 777, "yea" on 778, and "yea" on 779.

#### A TRIBUTE TO JUDGE GARLAND HOWARD

### HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. GUTHRIE. Madam Speaker, I rise today to honor Former Daviess Circuit Judge Garland Howard, a true Kentuckian. Mr. Howard is well-known in the Owensboro community as a valued leader, visionary and hard-worker.

Mr. Howard, who had been Daviess County Master Commissioner since 1985, was appointed to the circuit judgeship by Governor Paul Patton in 1995.

His passion and love for the Ohio River was expressed through his development projects, which inspired and led the way for growth and expansion in Owensboro.

Even though Mr. Howard gave so much of himself to his community, the love he gave to his wife Mary Ann and to his children was unparalleled. Mr. Howard passed away on October 7, 2009. Our thoughts and prayers are with the entire Howard family.

Garland Howard will forever be remembered by the amazing legacy he leaves behind through the lives he touched, the projects he created and the children who he taught by example to be community leaders in their own right.

#### IN RECOGNITION OF VIETNAM WAR VETERANS EVENT

### HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. SKELTON. Madam Speaker, on September 12, 2009, the Honorable EMANUEL

CLEAVER, Congressman from Missouri's Fifth Congressional District, sponsored a remarkable event at the Truman Library. This event was in honor of those who fought in the Vietnam War in the late 1960s and early 1970s. Well over 1,000 veterans attended. The Honorable DENNIS MOORE, Congressman from Kansas's Third Congressional District, spoke, and yours truly had an opportunity to deliver a message of gratitude to the Vietnam veterans present. The keynote speaker was Major General (Ret.) Robert H. Scales, former commandant of the U.S. Army War College. His address was very well received by the veterans in the audience. The address is as follows:

[Sept. 12, 2009]

#### TRUMAN LIBRARY SPEECH

(By MG (Ret.) Robert H. Scales)

Mr. Skelton, Mr. Cleaver, distinguished guests and, most importantly, fellow veterans. What a great thrill it is to see my comrades in arms assembled here so many years after we shared our experiences in war.

Let me give you the bottom line up front: I'm proud I served in Vietnam. Like you I didn't kill innocents, I killed the enemy; I didn't fight for big oil or for some lame conspiracy I fought for a country I believed in and for the buddies who kept me alive. Like you I was troubled that, unlike my father, I didn't come back to a grateful nation. It took a generation and another war, Desert Storm, for the nation to come back to me.

Also like you I remember the war being 99 percent boredom and one percent pure abject terror. But not all my memories of Vietnam are terrible. There were times when I enjoyed my service in combat. Such sentiment must seem strange to a society today that has, thanks to our superb volunteer military, been completely insulated from war. If they thought about Vietnam at all our fellow citizens would imagine that fifty years would have been sufficient to erase this unpleasant war from our consciousness. Looking over this assembly it's obvious that the memory lingers, and those of us who fought in that war remember.

The question is why? If this war was so terrible why are we here? It's my privilege today to try to answer that question not only for you, brother veterans, but maybe for a wider audience for whom, fifty years on, Vietnam is as strangely distant as World War One was to our generation.

Vietnam is seared in our memory for the same reason that wars have lingered in the minds of soldiers for as long as wars have been fought.

From Marathon to Mosul young men and now women have marched off to war to learn that the cold fear of violent death and the prospects of killing another human being heighten the senses and sear these experiences deeply and irrevocably into our souls and linger in the back recesses of our minds.

After Vietnam we may have gone on to thrilling lives or dull; we might have found love or loneliness, success or failure. But our experiences have stayed with us in brilliant Technicolor and with a clarity undiminished by time. For what ever primal reason war heightens the senses. When in combat we see sharper, hear more clearly and develop a sixth sense about everything around us.

Remember the sights? I recall sitting in the jungle one bright moonlit night marveling on the beauty of Vietnam. How lush and green it was; how attractive and gentle the people, how stoic and unmoved they were amid the chaos that surrounded them.

Do you remember the sounds? Where else could you stand outside a bunker and listen to the cacophonous mix of Jimi Hendrix, Merle Haggard and Jefferson Airplane? Or how about the sounds of incoming? Remember it wasn't a boom like in the movies but a horrifying noise like a passing train followed by a crack and the whistle of flying fragments. Remember the smells? The sharpness of cordite, the choking stench of rotting jungle and the tragic sweet smell of enemy dead. . . .

I remember the touch, the wet, sticky sensation when I touched one of my wounded soldiers one last time before the medevac rushed him forever from our presence but not from my memory, and the guilt I felt realizing that his pain was caused by my inattention and my lack of experience.

Even taste is a sense that brings back memories. Remember the end of the day after the log bird flew away leaving mail, C rations and warm beer? Only the first sergeant had sufficient gravitas to be allowed to turn the C ration cases over so that all of us could reach in and pull out a box on the unlabeled side hoping that it wasn't going to be ham and lima beans again.

Look, forty years on I can forgive the guy who put powder in our ammunition so foul that it caused our M-16s to jam. I'm OK with helicopters that arrived late. I'm over artillery landing too close and the occasional canceled air strike. But I will never forgive the Pentagon bureaucrat who in an incredibly lame moment thought that a soldier would open a can of that green, greasy, gelatinous goo called ham and lima beans and actually eat it.

But to paraphrase that iconic war hero of our generation, Forrest Gump, "Life is like a case of C Rations, you never know what you're going to get." Because for every box of ham and lima beans there was that rapturous moment when you would turn over the box and discover the bacchanalian joy of peaches and pound cake. It's all a metaphor for the surreal nature of that war and its small pleasures . . . those who have never known war cannot believe that anyone can find joy in hot beer and cold pound cake. But we can . . .

Another reason why Vietnam remains in our consciousness is that the experience has made us better. Don't get me wrong. I'm not arguing for war as a self improvement course. And I realize that war's trauma has damaged many of our fellow veterans physically, psychologically and morally. But recent research on Post Traumatic Stress Disorder by behavioral scientists has unearthed a phenomenon familiar to most veterans: that the trauma of war strengthens rather than weakens us (They call it Post Traumatic Growth). We know that a near death experience makes us better leaders by increasing our self reliance, resilience, self image, confidence and ability to deal with adversity. Combat veterans tend to approach the future wiser, more spiritual and content with an amplified appreciation for life. We know this is true. It's nice to see that the human scientists now agree.

I'm proud that our service left a legacy that has made today's military better. Sadly Americans too often prefer to fight wars with technology. Our experience in Vietnam taught the nation the lesson that war is inherently a human not a technological endeavor. Our experience is a distant whisper in the ear of today's technology wizards that firepower is not sufficient to win, that the enemy has a vote, that the object of war should not be to kill the enemy but to win

the trust and allegiance of the people and that the ultimate weapon in this kind of war is a superbly trained, motivated, and equipped soldier who is tightly bonded to his buddies and who trusts his leaders.

I've visited our young men and women in Iraq and Afghanistan several times. On each visit I've seen first hand the strong connection between our war and theirs. These are worthy warriors who operate in a manner remarkably reminiscent of the way we fought so many years ago.

The similarities are surreal. Close your eyes for a moment and it all comes rushing back . . . In Afghanistan I watched soldiers from my old unit, the 101st Airborne Division, as they conducted daily patrols from firebases constructed and manned in a manner virtually the same as those we occupied and fought from so many years ago. Every day these sky soldiers trudge outside the wire and climb across impossible terrain with the purpose as one sergeant put it "to kill the bad guys, protect the good guys and bring home as many of my soldiers as I can." Your legacy is alive and well. You should be proud.

The timeless connection between our generation and theirs can be seen in the unity and fighting spirit of our soldiers in Iraq and Afghanistan. Again and again, I get asked the same old question from folks who watch soldiers in action on television: why is their morale so high? Don't they know the American people are getting fed up with these wars? Don't they know Afghanistan is going badly? Often they come to me incredulous about what they perceive as a misspent sense of patriotism and loyalty.

I tell them time and again what every one of you sitting here today, those of you who have seen the face of war, understand: it's not really about loyalty. It's not about a belief in some abstract notion concerning war aims or national strategy. It's not even about winning or losing. On those lonely firebases as we dug through C ration boxes and drank hot beer we didn't argue the righteousness of our cause or ponder the latest pronouncements from McNamara or Nixon or Ho Chi Minh for that matter. Some of us might have trusted our leaders or maybe not. We might have been well informed and passionate about the protests at home or maybe not. We might have groused about the rich and privileged who found a way to avoid service but we probably didn't. We might have volunteered for the war to stop the spread of global communism or maybe we just had a failing semester and got swept up in the draft.

In war young soldiers think about their buddies. They talk about families, wives and girlfriends and relate to each other through very personal confessions. For the most part the military we served with in Vietnam did not come from the social elite. We didn't have Harvard degrees or the pedigree of political bluebloods. We were in large measure volunteers and draftees from middle and lower class America. Just as in Iraq today we came from every corner of our country to meet in a beautiful yet harsh and forbidding place, a place that we've seen and experienced but can never explain adequately to those who were never there.

Soldiers suffer, fight and occasionally die for each other. It's as simple as that. What brought us to fight in the jungle was no different than the motive force that compels young soldiers today to kick open a door in Ramadi with the expectation that what lies on the other side is either an innocent huddling with a child in her arms or a fanatic in

surgent yearning to buy his ticket to eternity by killing the infidel. No difference. Patriotism and a paycheck may get a soldier into the military but fear of letting his buddies down gets a soldier to do something that might just as well get him killed.

What makes a person successful in America today is a far cry from what would have made him a success in the minds of those assembled here today. Big bucks gained in law or real estate, or big deals closed on the stock market made some of our countrymen rich. But as they have grown older they now realize that they have no buddies. There is no one who they are willing to die for or who is willing to die for them. William Manchester served as a Marine in the Pacific during World War II and put the sentiment precisely right when he wrote: "Any man in combat who lacks comrades who will die for him, or for whom he is willing to die is not a man at all. He is truly damned."

The Anglo Saxon heritage of buddy loyalty is long and frightfully won. Almost six hundred years ago the English king, Henry V, waited on a cold and muddy battlefield to face a French army many times his size. Shakespeare captured the ethos of that moment in his play Henry V. To be sure Shakespeare wasn't there but he was there in spirit because he understood the emotions that gripped and the bonds that brought together both king and soldier. Henry didn't talk about national strategy. He didn't try to justify faulty intelligence or ill formed command decisions that put his soldiers at such a terrible disadvantage. Instead, he talked about what made English soldiers fight and what in all probably would allow them to prevail the next day against terrible odds. Remember this is a monarch talking to his men:

This story shall the good man teach his son;  
From this day ending to the ending of the world,

But we in it shall be remembered;

We few, we happy few, we band of brothers;

For he today that sheds his blood with me shall be my brother;

And gentlemen in England (or America) now a-bed

Shall think themselves accursed they were not here,

And hold their manhood's cheap whiles any speaks

That fought with us upon Saint Crispin's day.

You all here assembled inherit the spirit of St. Crispin's day. You know and understand the strength of comfort that those whom you protect, those in America now abed, will never know. You have lived a life of self awareness and personal satisfaction that those who watched you from afar in this country who "hold their manhood cheap" can only envy.

I don't care whether America honors or even remembers the good service we performed in Vietnam. It doesn't bother me that war is an image that America would rather ignore. It's enough for me to have the privilege to be among you. It's sufficient to talk to each of you about things we have seen and kinships we have shared in the tough and heartless crucible of war.

Some day we will all join those who are serving so gallantly now and have preceded us on battlefields from Gettysburg to Wanat. We will gather inside a firebase to open a case of C rations with every box peaches and pound cake. We will join with a band of brothers to recount the experience of serving something greater than ourselves. I believe in my very soul that the almightily reserves

a corner of heaven, probably around a perpetual lager where some day we can meet and embrace . . . all of the band of brothers throughout the ages to tell our stories while envious standers-by watch and wonder how horrific and incendiary the crucible of violence must have been to bring such a disparate assemblage so close to the hand of God.

Until we meet there thank you for your service, thank you for your sacrifice, God bless you all and God bless this great nation. . . .

## A TRIBUTE TO BERNHEIM FOREST

### HON. BRETT GUTHRIE

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. GUTHRIE. Madam Speaker, I rise today to honor the Bernheim Forest and their recent recognition from the Environmental Protection Agency.

The Bernheim Forest Arboretum Visitors Center in Clermont, Kentucky won two of EPA's Lifecycle Building Challenge awards for a professional building and for a building with the best greenhouse gas reduction.

EPA's Lifecycle Building Challenge recognizes innovative green building ideas that reduce environmental and energy impacts. Reusing building materials assists the building industry in reducing more than 88 million tons of building-related construction and demolition debris that are typically sent to landfills in the United States each year.

The Bernheim Forest Arboretum Visitors Center incorporates the surrounding forest into the building's design. The staff and board at the Bernheim Forest are committed to our natural environment and this visitor's center is a solid example of that commitment.

Construction of the center emphasized safe materials made of biological nutrients, which break down to safely return to forest soil, as well as technical nutrients, which can be remanufactured into new objects.

I congratulate the work of the individuals who made this building a reality and honor the staff and board at Bernheim Forest, whose passion for the environment make it possible for Kentuckians to connect with nature.

## TRIBUTE TO BRIAN BURKE

### HON. JOHN CAMPBELL

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. CAMPBELL. Madam Speaker, I rise to pay tribute to Mr. Brian Burke, Executive Vice President and General Manager of the Anaheim Ducks Professional Hockey Team from 2005 to 2008. Mr. Burke is one of Orange County's most dedicated, distinguished, and honorable citizens. Born in Providence, Rhode Island, and raised in Edina, Minnesota, Brian resides with his wife Jennifer and has six children: Katie, Patrick, Brendan, Molly, Mairin and Gracie.

In 2007, Mr. Burke guided the Anaheim Ducks to the first Stanley Cup Championship

in California history, and in 2008 he received two outstanding honors: On June 6th, he was chosen by USA Hockey as General Manager of the 2010 U.S. Olympic Hockey Team, and on August 7th he was named a recipient of the 2008 Lester Patrick Award for outstanding service to hockey in the United States. Burke is also the General Manager of the 2009 USA World Championships Team.

Madam Speaker, Brian Burke is an American citizen with a passion for supporting the United States military. Mr. Burke organized a first-of-its-kind two-day event to support the families of active duty military personnel at the Honda Center in 2008. The event, which included Ducks' players and their families, welcomed "Operation Homefront"—a non-profit organization that provides emergency assistance and morale to our troops, the families they leave behind, and injured soldiers upon their return home. Brian also supported the "Wounded Warriors Project," a non-profit organization that assists severely wounded soldiers to transition back into life when they suffer from serious and traumatic injuries. To recognize our Wounded Warriors and the United States Marines, Brian Burke and the Anaheim Ducks delivered the Stanley Cup for its first ever visit to Camp Pendleton in 2007.

Mr. Burke has also been very involved in Orange County charities. He has served as a Board Member on the Board of Directors for the Children's Hospital of Orange County (CHOC) as well as supported and donated to the Orangewood Children's Foundation, Share Ourselves and the Children's Bureau. Brian also promoted cancer awareness in the Orange County community by launching "Hockey Fights Cancer" nights at Ducks' games.

I know Mr. Burke's family is extremely proud of his accomplishments, as am I. He has worked tirelessly to improve his community and his efforts should be emulated by future community leaders.

Madam Speaker, I am proud to honor Mr. Brian Burke today as an outstanding American citizen and community leader.

HONORING MICHAEL LOUIS  
VONBEHREN

**HON. JAMES P. McGOVERN**

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. McGOVERN. Madam Speaker, I rise today in honor of the late Michael Louis VonBehren of Shrewsbury, Massachusetts. At Michael's young age he already symbolized what we all hope to be. He actively exhibited enthusiasm for academics, for community service and for the Democratic Party. In acknowledgement of his commitment and dedication to the Shrewsbury Democratic Town Committee, this year's annual Eleanor Roosevelt Humanitarian Youth Award is dedicated in his memory.

Michael VonBehren was an engaging young man who loved the democratic process. Michael was a student at Shrewsbury High School where he was involved in clubs such as Young Democrats, Political Action Group, and Model U.N. Although he was involved in

various clubs and organizations, he still found the time to serve his community. Michael was a caring and kind young man who loved to help those that were less fortunate. He read to homeless children at a local shelter and was a talented video producer at his high school.

Michael VonBehren was one of those rare teenagers that crossed normal boundaries and surrounded himself with those that shared his interests and beliefs whether they were his peers or a fellow volunteer on the campaign trail. There is no way of knowing what Michael would have done in the future. All that is sure is that he would have made a difference in our world. Michael was an exemplary student and citizen who showed others kindness and enthusiasm everyday of his life.

Michael's unfaltering commitment to fairness and justice and his dedication to public service greatly benefitted our community. In tribute to his outstanding service to the community of Shrewsbury, I am proud to honor the memory of Michael Louis VonBehren with the dedication of the Eleanor Roosevelt Humanitarian Youth Award to him. I know all my colleagues will join me in paying tribute to him today.

A TRIBUTE TO COLONEL CHARLES  
E. WILLIAMS, JR.

**HON. BRETT GUTHRIE**

OF KENTUCKY

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. GUTHRIE. Madam Speaker, I rise today to honor Colonel Charles E. Williams, Jr., who has virtuously served the United States and the Commonwealth of Kentucky.

Colonel Williams was commissioned as a second lieutenant in 1986 upon his graduation from the U.S. Military Academy at West Point. During his career he has served both at home and overseas and as Military Aide to both President Bill Clinton and President George W. Bush.

On October 1, 2007, Colonel Williams assumed command of the U.S. Army Special Missions Brigade at Fort Knox, Kentucky. As the Commander, he oversees the In-Service Recruiting of Special Operations, Warrant Officers and Chaplains, as well as the Logistics and Administrative Support for 1600 recruiting stations across the country.

Colonel Williams' decorations are numerous. Throughout his career he has been an inspiration and example to both soldiers and civilians alike. He has represented his country proudly as a man of honor and a true patriot.

After years of dedicated service, Colonel Williams has decided to retire. I honor him today because of his dignified and steadfast commitment to the citizens of this country and the Commonwealth of Kentucky.

IN HONOR AND REMEMBRANCE OF  
WILLIAM J. MCCARTHY

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. KUCINICH. Madam Speaker, I rise today in honor and remembrance of William J.

"Bill" McCarthy, a U.S. Navy Veteran who was devoted to his family and friends. His leadership and work on behalf of the American laborer continues to strengthen and protect workers' rights throughout the Cleveland community.

Mr. McCarthy was born and raised in Cleveland, Ohio, where he later raised his own family. In 1956, he met and married the late Margaret J. Pawlak. Together they had four children: Marge, Kelly, William and Kevin. Their children, ten grandchildren and great-granddaughter were the most important part of their lives.

Following his honorable discharge from the Navy, Mr. McCarthy began working as a meter reader with East Ohio Gas Company. He quickly ascended the union ranks to become one of the most powerful and effective labor leaders in Cleveland. He represented thousands of workers at East Ohio Gas, and led numerous strikes that won significant concessions in wages, benefits and safety improvements for workers. He was known for never giving up or backing down from what he believed was just and right. Mr. McCarthy's work on labor issues extended throughout Northeast Ohio, where he forged strong bonds with labor leaders, elected officials and workers. He served as Chairman of the AFL-CIO, President of the Ohio Joint Council of the Service Employees International Union, vice-president of Union Eye Care and as a board member with the Cleveland-Cuyahoga County Port Authority.

Madam Speaker and colleagues, please join me in honor and remembrance of William J. "Bill" McCarthy, who had an unwavering devotion to his family and country, and whose work on behalf of workers' rights will continue to reinforce the labor foundation of the Cleveland community. I extend my heartfelt condolences to Mr. McCarthy's daughters: Marge and Kelly; his sons, William J. Jr. and Kevin; his ten grandchildren; his great-granddaughter; and his sister, Noreen.

A TRIBUTE TO JACQUES  
GUILLAUME

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Jacques Guillaume, MD, for his record of extraordinary service to New York's Tenth Congressional District.

Dr. Jacques Guillaume was born in Haiti, studied both law and medicine at the State University of Haiti, then continued his studies here in the United States. Here he has combined his twin passions—law and medicine—to address the inequalities of justice and the inadequacies of health care in low-income communities. Dr. Guillaume has also held several managerial positions in the medical field, including Director of the Residency Training Program at the Catholic Medical Center, Director of OB/GYN at Mary Immaculate Hospital and St. Joseph. He currently serves as the Chair of the Gynecology Department at the Interfaith Medical Center.

Dr. Guillaume is a recognized leader in the OB/GYN community, publishing many articles in peer-reviewed journals. He frequently appears on television and radio programs to discuss health conditions. He clearly has a strong love of science and a real sense of justice.

Madam Speaker, I urge my colleagues to join me in recognizing Dr. Jacques Guillaume.

#### PERSONAL EXPLANATION

### HON. MAZIE K. HIRONO

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. HIRONO. Madam Speaker, on rollcall Nos. 775, 776, 777, 778, 779, had I been present, I would have voted "yea."

#### "FRIENDS OF THE FISHING INDUSTRY"

### HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. FRANK of Massachusetts. Madam Speaker, I have never learned more in my life than I have learned since 1992 when at the vote of the Massachusetts Legislature, the city of New Bedford and the town of Fairhaven were included in the congressional district I represent. These two communities together form the most successful fishing port in the U.S., and that industry enriches New Bedford and the surrounding areas not just economically but culturally and socially as well.

One of the leaders in that industry is Jim Kendall, a fisherman himself who has served in a number of important posts in helping preserve that industry and protect it against adversity.

He recently wrote an eloquent introduction to the announcement of the Friend of the Fishing Industry Award, which was presented to two men to whom the Greater New Bedford Area is greatly indebted: Raymond and Richard Canastra.

These two brothers have, as Jim Kendall's statement points out, been extremely creative in providing support for this industry. The work they have done for the open display auction confounded many skeptics who thought that it would never work, but their success in New Bedford has in fact been so widely hailed that it's led to the recent opening of a similar facility in Boston, helping revive a fishing port that had been declining to some extent.

Madam Speaker, I join Jim Kendall and others in the fishing industry and subsidies in Massachusetts in thanking Ray and Richie Canastra for their work and I ask that Jim Kendall's statement be printed here as an example of the kind of economic leadership individuals can provide to their community.

OFFSHORE MARINERS  
WIVES' ASSOCIATION,  
*September 27, 2009.*

INTRODUCTION OF 2009'S "FRIENDS OF THE FISHING INDUSTRY"

This year's award to the Friend of the Fishing Industry is a bit different as we are

proud to announce that the award is going to not just one, but two individuals. Not only have they contributed to the fishing industry here in New Bedford, but their efforts have extended throughout New England.

It's not often that you find two people who have come so far in a relatively short period of time, and who have returned so much to the industry that they obviously care so much about. Their innovation and foresight has not only proven to be a sound business venture for them, but a boon and stabilizing factor for the Greater New Bedford fishing fleet. It hasn't stop there either, their fortitude and determination now has extended to the ports of Gloucester and Boston.

They pioneered the concept of the open display auction here in New Bedford at a time and place when many of us doubted it could succeed. In 1985 through 1986 the industry had gone through a traumatic strike that changed the way business had been done for many years. The New Bedford seafood auction ceased to exist, and a buyers auction that replaced it, had also closed its doors. The industry was in turmoil, with little or no sense of balance that had existed for years before. The sale of a trip was as hard and as uncertain, as was the fishing trip itself.

They felt that an open display auction could work and benefit the fishermen, and the port of New Bedford, and they set about to prove it. It wasn't easy, it never is trying to convince people that there is a better way to do their business, business that they had been doing in basically the same way for years. They have proven that they were right, and the New Bedford fishing industry has benefited greatly because of it. The auction has provided stability to the sale of fresh fish and scallops, along with the recognition that New Bedford is still the port to go to for your best seafood.

Their efforts in beginning the auction and the continued developments, have helped the port of New Bedford regain the title of the richest fishing port in the country, and continues to help us maintain that distinction.

Recently they opened another display auction in the port of Boston, that is attracting fishing vessels to a port that was all but abandoned by the fishing industry. This is in direct contradiction to what has been occurring elsewhere, with the devastating changes for other ports that have lost not only their auctions, but their fishing industries and communities.

Their involvement has deepened over the years with them becoming deeply involved with the management process and fishery science. Working with, most notably, Drs. Brian Rothschild and Kevin Stokesbury from the School for Marine Science and Technology at the University of Massachusetts, Dartmouth. They have also helped to organize the fishermen not only here in New Bedford, but in Gloucester as well.

What may turn out to be one of their most important innovations is the Project to Save Seafood and Ocean Resources, along with its associated website, [Savingseafood.org](http://Savingseafood.org).

At a time when information is king, providing factual and unadulterated information to the American public is crucial. There is a desperate need to show the American consumer the value of New Bedford seafood, and the efforts that the New Bedford and New England fishermen have taken in order to provide them with healthy seafood. There is also a need to inform the consumer how we are striving to provide them their healthy seafood in a safe and sustainable manner. The American consumer and public

also needs to know what the fishermen and their industry has gone through in order to bring this to them. I encourage you to visit the website at [www.savingseafood.org](http://www.savingseafood.org).

Richie lives in North Dartmouth, with his wife Roberta, and their two lovely daughters, Sophia, and Noella. Raymond lives in Rochester with his wife Debbie and their two children Cassie and Kyler.

It gives me great pleasure to present "The Friend of the Fishing Industry Award" to two men whom I'm proud to have worked with over the years, my friends; Raymond and Richard Canastra.

#### A TRIBUTE TO JACK LEFKOWITZ

### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Jack Lefkowitz for his record of extraordinary service to New York's Tenth Congressional District.

Jack Lefkowitz is the President and Chief Executive Officer of New York MedScan, providing high quality diagnostic imaging services in a comfortable hospital outpatient environment. He greatly contributes to the quality of life for Brooklyn's neediest patients, working through the organization Yad Ephraim to prepare and deliver home-cooked meals tailored to the needs of each patient. Mr. Lefkowitz chairs Maskil El Dat, providing financial aid, meals, transportation, babysitting, and emotional support for impoverished Jewish families. I applaud Jack Lefkowitz's philanthropic activities, contributing both professionally and privately in our communities.

Madam Speaker, I urge my colleagues to join me in recognizing Jack Lefkowitz.

#### CELEBRATING THE LIFE OF HARLEM'S BELOVED THORNTON J. MEACHAM, JR., ESQ. A TRAILBLAZER FOR AFRICAN-AMERICANS, LAWYERS AND LEGAL PROFESSIONALS

### HON. CHARLES B. RANGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. RANGEL. Madam Speaker, I rise with great pride as I pay tribute to my dear friend and life-long buddy, Thornton J. Meacham, Jr., Esq., as we celebrate one of Harlem's greatest legal advocates at the great Cathedral of Riverside Church in Harlem today. As I speak with profound honor and respect for my friend Thornton, I ascend to celebrate a life well-lived and to also remember the many legal professional accomplishments of this remarkable man. Thornton Meacham etched his name in history as a passionate and dedicated legal advocate for all African-American lawyers and legal professionals throughout this city and Nation.

Thornton's death on October 4, 2009, brought immense sorrow and loss to me, his family, his friends, and to the countless lives he touched over the years in our beloved

community. I am blessed to say that I was able to have spent some time with Thornton during his final days. As we said our good-byes, he left in my heart a reminder of all the many exciting moments of his life and all of the good times we shared together. He was undisputedly one of Harlem's greatest lawyers, largely responsible for blacks being admitted to the New York Bar Association. This strong-willed and exciting man represented Harlem in all of its glory, and we are all consumed by his passing.

Thornton J. Meacham, Jr. was born on March 10, 1917 in Terrell, Arkansas as the first son to Dr. Thornton J. Meacham and Lila Celesta. His younger brother, Dr. Henry Wade Meacham, who also had an outstanding professional career passed away in 2004. After the family moved to Jackson, Tennessee, Thornton attended public school and graduated from Lane College. Upon his graduation from college, Thornton was accepted to attend law school at Harvard University, Columbia University and New York University, but chose to attend Fordham University, thus becoming the second African American to attend Fordham University and the first to graduate from its Law School in 1942.

Just a few years ago, we all celebrated Thornton's 66th Anniversary of his graduation from Fordham Law School. He loved Fordham Law and dedicated his entire life to helping young aspiring jurists succeed.

Admitted to the Bar in 1943, Thornton set the mark that raised the bar for all of us. He was the first Black attorney to join the legal staff of the Office of Price Stabilization on Broadway in New York; first to argue a case before the United States Court of Appeals for the Second Circuit; first African American to be featured on the cover of The New York Law Journal; first to try both criminal and civil cases in the Bronx and Queens County Courts; and the first to open a law practice in Harlem.

Thornton always spoke of his experiences in the 1950s when the New York City Bar Association refused him membership due to his race. During segregation, he tried and won cases in Florida, North Carolina, Virginia and New Jersey. He represented Hulan Jack, Congressman Adam C. Powell, Dorothy Dandridge, Louis Armstrong, Bessie Buchanan, Mile Davis, the NAACP and Carver National Bank—a legacy of history that makes us all proud to be Americans.

Thornton Meacham was Counsel to the law offices of Assemblyman William T. Andrews, Judge Harold Stevens and Attorney John Briggs. He later became a Law Partner to Judge Thomas Dickens. Thornton, along with some of Harlem's elite class of attorneys, co-founded the Harlem Lawyers Association, which later merged into the Metropolitan Black Bar Association.

Thornton Meacham was a very active member of the National Bar Association (NBA) and was acknowledged as a legal dignitary by the organization on several occasions. He was a recipient of the NBA Wiley A. Branton Issues Award and in 1994, he was inducted into the prestigious National Black Association Hall of Fame, which recognizes lawyers who have practiced for over 40 years and have made significant contributions to the cause of justice.

Thornton was a member of the Alpha Phi Alpha Fraternity and the Williams Institutional Christian Methodist Episcopal Church in Harlem.

Meacham's extraordinary accomplishments as a revered legal professional exemplified the pioneering leadership of many through his commitment and exemplary service to the legal community. He will long be remembered for his extraordinary commitment, humor, liveliness, energy, wisdom, discipline, principle and clear purpose which won the admiration of all who were privileged to come to know and work with him during his distinguished career.

Madam Speaker, I consider myself fortunate to have had the opportunity to observe and experience his example as a personal inspiration. Though Thornton is no longer with us, we will continue to keep his memory alive in our hearts and minds, and continue to honor his legacy with our advocacy for the issues he cared about the most.

#### HONORING MILDRED ROSS BEAN

#### HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. LEE of California. Madam Speaker, I rise today to honor the extraordinary life of Mrs. Mildred Bean of Walnut Creek, California. A proud wife, mother, grandmother, sister, and friend. "Millie" was exemplary in her unconditional familial devotion, diligent work ethic, dedicated national service, and her love of arts and travel. With her passing on May 27, 2009, we look to Millie's family to remind us of her life's journey and the joyful legacy she inspired.

Mildred Ross was born on January 30, 1934 in Sacramento, California. After graduating high school, Millie began local secretarial work for the government. As her family fondly tells it, Millie's long love story with Air Force officer Richard "Dick" Bean began when he spotted her in a red party dress. The two were soon married and embarked on a military career that would span the next two decades.

Over the following ten years, Millie and Dick raised their three young children on Long Island, New York's Suffolk County Air Force Base. After a brief assignment in North Carolina, the family moved to Clark Air Force Base located in the Philippines.

It was there that Millie and her family had the great joy of spending two years stationed together with her sister Laura Brown, Laura's husband Joe, and their four children. Millie also enjoyed her time abroad by cultivating a love of travel. She and Dick were able to visit Singapore, Bangkok, Saudi Arabia, India, Spain, and Thailand during their time in Southeast Asia.

The family eventually returned to California for their last assignment on Travis Air Force Base. After Dick retired as an Air Force Lieutenant Colonel in 1973, the couple built their dream home in Walnut Creek. When the Bean's two eldest children had left for college and their youngest was a high school sophomore, Millie returned to work and decided to pursue a college degree herself.

While working full time, Millie graduated Cum Laude from the University of San Francisco with a Bachelor of Arts degree. Millie then began a respected career with the Alameda Naval Air Station where she earned numerous awards, including the Meritorious Civilian Service Award, the highest honor given by the Navy to a civilian. At the time of her retirement in 1996, Millie had contributed 27 years of service to the Navy and was a GM-13 Performance Review Division Head.

In the midst of many accomplishments, Millie was quick to remind others that she was most proud of her children, Tony Bean, Kimberly Perry, and Laurie Adams. Millie's highest priority was to nurture and enjoy her extended family, which grew as her children married their spouses and gave Millie and Dick five beautiful grandchildren.

I have known Millie for many years. Her generosity, her friendship and her beautiful smile will forever be etched in my heart. She was a consistent supporter and encouraged me every step of the way. I cherished her friendship and will miss her tremendously.

After retirement, Millie and Dick enjoyed season tickets to the symphony and ballet, travel adventures in Europe and Asia, weekend getaways in Cannel, and a final vacation to Hawaii that Dick will forever treasure. Millie's joy for life was not only contagious, but an invaluable lesson to her loved ones in times of uncertainty and doubt.

Always social and active, Millie kept a monthly lunch date with friends and enjoyed taking her grandchildren to the Nutcracker Ballet. Undoubtedly, the countless small and subtle acts of love that Millie demonstrated in her lifetime will continue to be powerful gifts to the people she cherished most.

Today, California's 9th Congressional District salutes and honors a great human being, our beloved Millie Bean. We extend our deepest condolences to Millie's husband and family. Thank you for sharing her great spirit with us. May her soul rest in peace.

#### PERSONAL EXPLANATION

#### HON. JOHN CONYERS, JR.

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CONYERS. Madam Speaker, on October 14, 2009, I was unable to cast votes, due to personal reasons. I was not present for roll-call votes 775 through 779. Had I been present, I would have casted a "yea" vote for final passage of H. Res. 768, Expressing support for the designation of the month of October as "National Work and Family Month"; H.R. 1327, Iran Sanctions Enabling Act of 2009; H. Res. 816, Mourning the loss of life caused by the earthquakes and tsunamis that occurred on September 29, 2009 in American Samoa and Samoa; H.R. 3371, Airline Safety and Pilot Training Improvement Act of 2009 and H. Res. 786, Commemorating the canonization of Father Damien de Veuster, SS.CC. to sainthood.

A TRIBUTE TO EDOUARD  
GUILLAUME

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Edouard Guillaume, MD, for his record of extraordinary service to New York's Tenth Congressional District.

Dr. Edouard Guillaume was born in Gonaives, Haiti, studied medicine at the University Hospital of Haiti, and completed his formal training in Internal Medicine at Mount Sinai Hospital in Chicago, Illinois and Tulane University in New Orleans, Louisiana. He currently focuses on hematology and oncology. Dr. Guillaume today heads Interfaith's acclaimed Comprehensive Sickle Cell Program, where he is well known as a "pain specialist". He was honored by the Sickle Cell Thalassemia Patients Network (SCTPN) in 2005 for his dedicated and distinguished service to patients affected with the disease.

Madam Speaker, I urge my colleagues to join me in recognizing Dr. Edouard Guillaume.

THANKING PEYTON JEFF JACKSON  
FOR HIS SERVICE TO THE HOUSE

**HON. ROBERT A. BRADY**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. BRADY of Pennsylvania. Madam Speaker, on the occasion of his retirement on May 15, 2009, we rise to thank Mr. Peyton "Jeff" Jackson for his 31 years of distinguished service to the United States House of Representatives. Jeff has served this great institution as a valued employee of House Information Resources (HIR), within the Office of the Chief Administrative Officer (CAO).

Jeff began his tenure with the United States House of Representatives in 1978 as Lead Computer Operator in the HIR Communications Services group. Jeff assisted in diagnosing and resolving operational problems with the various online systems supported by the Computer Center. He also monitored and maintained all House data communication networks including the Amdahl 4705 and 4745 front-end processors. Jeff tracked and logged trouble calls from both the Washington and district offices and dispatched network installation technicians for problem calls. Jeff's expertise contributed to the installation and maintenance of the IBM 3270 inventory and storage facilities for the Communications Services group. Jeff continued to provide network operational support to the ever expanding network and unified communications infrastructure environment.

Jeff has played an integral role in the revamping of the Network Control Center (NCC) following the events that occurred on September 11, 2001. The NCC was later expanded to encompass the Emergency Communications Center (ECC) which serves as a transmission point for emergency action messages to the House community.

On behalf of the entire House community, we extend congratulations to Jeff for his many years of dedication and outstanding contributions to the United States House of Representatives.

**WALTER YENT, JR.**

**HON. C.A. DUTCH RUPPERSBERGER**

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. RUPPERSBERGER. Madam Speaker, I rise before you today to honor the life of Walter Yent, Jr. for his exceptional service to our country and devotion to his family and friends.

Born and raised in Baltimore, Maryland, Walter Yent, Jr. enlisted in the Army on March 6, 1944. A World War II Veteran, Mr. Yent was awarded the Purple Heart, the Combat Infantryman Badge, the European-African-Middle Eastern Campaign Medal, two Bronze Stars, and the Army of Occupation Medal with Germany clasp, in addition to many other medals for his outstanding service as a member of the Armed Services.

Upon his discharge from the Army in January 1950, Mr. Yent returned to his hometown of Baltimore where he enjoyed spending time with those he loved most, his family and friends.

Madam Speaker, I ask that you join with me today to honor the life of Walter Yent, Jr. His dedication to our country is an inspiration to all and deserves the utmost gratitude.

A TRIBUTE TO BARBARA MESSIER

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Barbara Messier for her record of extraordinary service to New York's Tenth Congressional District.

Barbara Messier, born in Canton, Ohio, graduated from the St. Luke Nursing School in Cleveland and began her nursing career in the Apple Creek State Hospital. While at Apple Creek, she first got experience in psychiatric nursing, working under a group of extraordinary leaders in the field. She continued her work in psychiatric nursing after moving to New York, working with Dr. Jochanan Weisenfreund at St. John's Episcopal Hospital and later at the Interfaith Medical Center.

Mrs. Messier was instrumental in revitalizing Interfaith's Department of Psychiatry from an unlicensed, 25-bed inpatient unit, to a full fledged, top-quality department. As the Assistant Vice President of the Department of Psychiatry, she is also responsible for Bedford-Stuyvesant Community Mental Health Center's programs, serving patients in a variety of innovative capacities. She also serves as the Clerk of Session at the Oceanside Presbyterian Church, and teaches adult Bible classes there.

Madam Speaker, I urge my colleagues to join me in recognizing Barbara Messier.

A BIRTHDAY TRIBUTE TO DR.  
MELVIN E. BANKS, FOUNDER OF  
URBAN MINISTRIES, INC.

**HON. BOBBY L. RUSH**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. RUSH. Madam Speaker, today it is my distinct honor and privilege to rise to acknowledge and congratulate one of my state's unsung jewels. Seventy-five years ago today, on October 15, 1934, Melvin E. Banks was born into this world in the, then, relatively small town of Birmingham, Alabama. From his humble beginnings in the segregated South, through hard work, perseverance and an abiding faith in God, today, Melvin Banks presides over the strong and thriving Urban Ministries, Inc., the largest independent African American-owned Christian publishing company in the United States.

UMI is located in Calumet City, Illinois, and this global, family-operated business is a vital part of our state's thriving, south suburban community. With all of the accolades and accomplishments that Dr. Melvin Banks has rightfully earned over the years, I stand here, tonight, Madame Speaker, simply proud to call him my friend.

Melvin Banks' life story is uniquely American. He often tells the story of discovering his faith in his Lord and Savior, Jesus Christ, at the age of 12. Even at that young age, his sense of faith and guidance was so strong that he accepted his personal call to minister the gospel to all who would listen. His evangelism began, literally, on some of the dusty back roads of Birmingham. One day, young Melvin encountered an elderly gentleman who recognized his spiritual gifts and referred him to a scripture that influenced his life's work. That scripture, Hosea 4:6, states, "My people are destroyed for lack of knowledge." Upon hearing those words, young Melvin knew that God's purpose for his life was to help spread the knowledge of the gospel of Christ through the unique, cultural lens of the African American experience. And from that moment on, Melvin Bank's dreams and life's work continued to grow and to prosper.

As Melvin Banks grew in the Lord, he also embraced the value of a good education. Banks graduated from Parker High School in Birmingham, in 1952, and he went on to study at the Moody Bible College, in Chicago, where he graduated in 1955. Continuing his education, Banks attended Wheaton College, earning a B.A. degree in theology in 1958, and his master's degree in biblical studies in 1960.

After graduation, Dr. Banks chose to remain in Chicago and he soon got a job with Scripture Press Publications, a job that included sales. Dr. Banks' work with Scripture Press gave him his first opportunity to begin to understand how to market to African American consumers. It was that passion to serve his community coupled with his godly vision, professionalism and drive that ultimately led him to launch Urban Ministries, Inc., in 1970.

After founding Urban Ministries, Dr. Banks and his small staff operated out of the basement of his home for 12 years. As Dr. Banks'

faith grew, so did his media ministry. In 1982, Urban Ministries occupied the second floor of a building located at 1439 West 103rd Street in Chicago. Guided by a vision that continues to serve him well to this day, Dr. Banks moved Urban Ministries in 1996, to its current 46,000-square-foot headquarters in Calumet City. Shortly before that milestone, it's worth noting that, in 1993, his alma mater, Wheaton College, conferred its esteemed graduate with an Honorary Doctorate in Literature, a recognition of his consummate stewardship over the written and published word.

And so, Madam Speaker, as I enter these words into the CONGRESSIONAL RECORD on this day, it's my pleasure to note these words from UMI's website:

UMI is the largest independent, African American-owned and operated Christian media company. UMI publishes Christian resources, including Christian education and Vacation Bible School curricula, books, movies and websites designed for African American churches and others seeking a diverse, Christ-centered perspective on faith and life issues.

Today, UMI is the largest, independent African American Christian publisher in the United States. UMI, literally, serves thousands of churches nationwide with curriculum resources, teaching materials, videos and other products aimed at instilling character in the youth and adults of our nation.

Madam Speaker, today, more than 10,000 churches utilize UMI materials, on a weekly basis, and a dozen different denominational groups call UMI their publishing partner—a distinction that gives this Illinois-based company its national and global impact.

Madam Speaker, for the more than 50 years that Dr. Melvin Banks has been a citizen of our great state, I'm proud to report that he has also been a devoted husband to his wife and business partner, Olive Banks, and the father to his children, Melvin Banks, Jr., Patrice Banks Lee and Reginald Banks, all of whom have worked with their father to help make this company the global leader it is today.

As I conclude this well-deserved tribute, let me also say that as my heart breaks for the thousands of children in this nation whose lives are cut short because of violence and unrealized dreams, my hope is that as these words enter the permanent annals of history, that some young boy or girl will look upon these words and be inspired by the tremendous life of Dr. Melvin E. Banks.

My hope is that they will see in his life the hope, the determination and the abiding faith that God gave him. While every child may not have all the spiritual gifts that Dr. Banks enjoys, my hope and prayer is that they will see in his life what a made up mind can do.

PROJECT MEND-A-HOUSE CELEBRATES 25 YEARS IN PRINCE WILLIAM COUNTY

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize Project Mend-A-

House and its twenty-five years of service to the citizens of Prince William County, the City of Manassas and the City of Manassas Park.

A joint effort between private citizens and the Prince William County government, Project Mend-A-House was created in 1984. At the time, Lily Blackwell was a volunteer delivering meals to seniors who were confined to their homes due to disabilities. Her call to action began with the observation that a number of seniors along her delivery route could no longer perform necessary home repairs. Basic home repair and some structural improvements were needed to ensure that these disabled seniors remained safe and independent. Ms. Blackwell partnered with Toni Clemons-Porter and Lin Wagener of the Prince William Area Agency on Aging to create the foundation of an organization that has now provided humanitarian assistance for a quarter of a century.

Project Mend-A-House completes home repairs and safety modifications to facilitate independent living for seniors, the disabled and low-income residents. Over the years, projects have ranged from fixing termite damage in an older home to making entire houses more accessible with wheelchair ramps, hand rails, shower seats and transfer benches. The work is truly a community effort. Local corporate partners provide monetary support, volunteers and building materials. Civic associations and faith based groups contribute hundreds of volunteer hours to Project Mend-A-House each year. Project Mend-A-House puts everyone to work regardless of skill level to improve the quality of life for our disabled, elderly and low income neighbors.

Madam Speaker, I ask that my colleagues join me in commending Project Mend-A-House and its volunteers. The strength of a community can be measured by how it responds to the plight of the less fortunate, and Project Mend-A-House is certainly contributing to a robust spirit of community in Prince William County.

WEST PAPUA'S MESSAGE OF SUPPORT TO THE PEOPLE OF AMERICAN SAMOA IN AFTERMATH OF DEVASTATING TSUNAMI

**HON. ENI F.H. FALEOMAVAEGA**

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. FALEOMAVAEGA. Madam Speaker, I submit the following message of support submitted by Tom Beanal, Chairman of the Papua Presidium Council, in response to the massive tsunami that struck American Samoa on Tuesday, September 29, 2009.

PRESIDIUM DEWAN PAPUA, JAYAPURA,  
OCTOBER 7, 2009.

HON. ENI F.H. FALEOMAVAEGA,  
*Rayburn House Office Building,*  
*Washington, DC.*

DEAR CONGRESSMAN FALEOMAVAEGA, on behalf of the people of West Papua, we are writing to express to you our greatest sympathy for the losses and sufferings of the people of American Samoa and other Pacific Islands caused by the recent tsunami.

Please accept our sincerest condolences to you. Please also extend them to your people.

We are with you all in our hearts, tears, and prayers.

With God's grace, may you, our dear Congressman, and the people of American Samoa, find the strength to endure in this tragic tragedy.

TOM BEANAL,  
*Wakil Ketua.*  
HERMAN AWOM,  
*Moderator.*  
THAHA MOHAMMAD  
ALHAMID,  
*Sekretaris Jenderal.*

IN HONOR OF DR. J.H. FLAKES

**HON. SANFORD D. BISHOP, JR.**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. BISHOP of Georgia. Madam Speaker, I rise today to pay tribute to Dr. J.H. Flakes of Columbus, GA, who on Sunday, October 18, will celebrate his 48th year as the Senior Pastor of the Fourth Street Missionary Baptist Church in Columbus. I have known Reverend Flakes for many years and feel honored to call him a friend, a constituent, and an inspiration.

Reverend Flakes was born in Phenix City, AL, and received his Bachelor of Arts degree from American Baptist College in Nashville, TN. He continued his biblical studies at Morehouse School of Religion in Atlanta, GA, the National Baptist Congress of Christian Education in Houston, TX, and the General Missionary Baptist Convention of Georgia in Rome, GA. In addition, he has received an honorary doctorate from A.B. Lee Theological Seminary in Jacksonville, FL, and an honorary doctorate degree from his alma mater, the American Baptist College.

As the Word says in Proverbs 3:5, "Trust in the Lord with all your heart and lean not on your own understanding." Reverend Flakes has truly lived by this principle. Since his arrival at Fourth Street Missionary Baptist Church, he has sought to implement the church's mission to "obey the will of God through preaching, teaching, witnessing, stewardship and fellowship."

Reverend Flakes has received numerous awards and recognitions to honor his steadfast commitment to his parishioners and his community, including the Outstanding Personality of the South, Ten Outstanding Ministers in the State of Georgia, the Alpha Phi Alpha Martin Luther King Award, Operation PUSH Martin Luther King Award, as well as the Knighthood Award from the Congress of Christian Education.

With ordained leadership and divine grace, Reverend Flakes has built a church that delivers God's message and works daily to implement God's vision. Reverend Flakes personifies the love of God through his teaching and his way of life. I thank him for his years of service to his parishioners, the Columbus community, Georgia's Second Congressional District, and the Nation. Moreover, I wish him many more fruitful years to come.

RECOGNIZING VIRGINIA STOP  
MODERN SLAVERY

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize Virginia Stop Modern Slavery (VASMS) and its efforts to educate parents, teachers and child-care providers on the danger sex trafficking poses to our communities.

VASMS was established in August of 2009 by Jessica Johnson of Annandale, VA. Its volunteers work to preserve safe, family friendly communities. They work to eliminate human trafficking in America by educating and supporting victims' service providers, legislators and local law enforcement officials. Members of VASMS build community partnerships and coordinate outreach events because they understand that bringing this issue to the forefront of public discussion starts with a dedicated grassroots effort.

On October 10, 2009, VASMS hosted The Safe Child Fair in Gainesville, VA, through a partnership with the Bridge to Freedom Foundation, Courtney's House and RIJ Green. The fair offered children's activities and games while parents learned how to protect their children from child exploitation. Events like The Safe Child Fair bring communities together to rally around a common call to action. Eradicating sex trafficking in America requires the involvement and due diligence of all communities, and I urge all to join in this battle to protect our children.

Madam Speaker, I ask my colleagues to join me in commending the efforts of Virginia Stop Modern Slavery. The prevalence of human trafficking in the United States is deplorable, and I wish VASMS continued success in its campaign to raise awareness for this issue.

H.R. 3632, THE "FEDERAL JUDICIARY ADMINISTRATIVE IMPROVEMENT ACT OF 2009"

**HON. LAMAR SMITH**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SMITH of Texas. Madam Speaker, I yield myself such time as I may consume.

The purpose of H.R. 3632 is to implement non-controversial administrative provisions that the Judicial Conference and the House Judiciary Committee believe are necessary to improve the operations of the Federal judiciary and provide justice for the American people.

The Judicial Conference is the policy-making body of the Federal judiciary and through its committee system evaluates court operations. The Conference endorses all of the provisions in the bill.

H.R. 3632 affects a wide range of judicial branch programs and operations, including those pertaining to financial administration, process improvements, and personnel administration.

The bill incorporates nine separate items, including:

A section that clarifies that senior judges must satisfy minimum work thresholds to participate in court government matters, including the selection of magistrates.

A section that eliminates the references to divisions and counties in the statutory description of the Judicial District of North Dakota, which enables the court to better distribute the workload between two active district judges and reduce travel for litigants in the northern central area of the district.

A section that authorizes the "statement of reasons" that judges must issue upon sentencing to be filed separately with the court. Current law requires the statement to be bundled with other information in the case file distributed to the Sentencing Commission, where it can be difficult to maintain a seal related to confidential information.

A section that specifies that federal pretrial services officers can provide the same services to juveniles as they do for adult offenders. An example would be drug treatment.

And a section that applies an inflationary index to the threshold amount requiring approval by the chief judge of reimbursements for the cost of hiring expert witnesses and conducting investigations for indigent defendants. The dollar thresholds are statutorily fixed and erode over time. This means chief judges must devote greater time approving what are otherwise not genuine "high-dollar" requests.

Mr. Speaker, H.R. 3632 is necessary to improve the functioning of the U.S. courts, which will ultimately benefit the American people. This is a non-controversial bill and I urge my colleagues to support it.

EARMARK DECLARATION

**HON. JOHN J. DUNCAN, JR.**

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. DUNCAN. Madam Speaker, consistent with House Republican Earmark Standards, I am submitting the following earmark disclosure information for project requests that I made and which were included within H.R. 2892, "Making appropriations for the Department of Homeland Security for the fiscal year ending September 30, 2010, and for other purposes."

Requesting Member: Congressman JOHN DUNCAN

Account: TSA, Aviation Security

Project Amount: \$1,250,000.00

Legal Name of Requesting Entity: National Safe Skies Alliance, 110 McGhee Tyson Boulevard, Suite 201, Alcoa, Tennessee 37701

Description of Request: This funding will be used to create a research and training center that will provide critical improvised explosives recognition training to TSA Transportation Security Officers, law enforcement personnel, fire fighters, emergency services personnel, first responders and others.

HONORING RICHARD LONG

**HON. GARY C. PETERS**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. PETERS. Madam Speaker, today I rise to honor Richard Long, a lifelong champion of the American labor movement, my mentor, counsel and dear friend on the occasion his retirement from the United Auto Workers where he served as National Community Action Program (CAP) Director for the past nine years.

This year, Dick retires from a 46-year-long career which began in 1963 at the former Pontiac Motor Division in Pontiac, Michigan, where he first became a proud member of UAW Local 653. Over the ensuing years as Dick advanced on the shop floor, he also advanced and deepened his involvement in the UAW, which would chart his personal and professional trajectory for the next 40-plus years.

Some years later in 1987, Dick was elected Vice President of his UAW local and the following year he was elected its president. His leadership, commitment and talent was fully recognized in 1998, when then-UAW President Stephen Yokich named Dick his Administrative Assistant and, again, in 2000 when Dick was appointed National CAP Director. I remember well my pride and optimism when I learned that Dick had been appointed National CAP Director. For many years, Dick had mentored and counseled me so ably and devotedly; I was certain that in his new role, he would educate and organize others with as much verve and dedication as I had experienced.

As CAP Director, Dick was well-suited to the role and charge of "developing and advancing policies that improve social and economic conditions and enrich the quality of life for all people." By any account, Dick made a powerful impression on the State and National political landscape. His effectiveness was rooted in his ability to be equally comfortable working on the national stage or alongside grassroots volunteers in a makeshift office space.

Dick's contributions to the community and commitment to civil rights and social justice have been his personal and professional legacy. Whether in his role as a local president, supporting Oakland University with his wife Jackie, National CAP Director, or working on behalf of the many community organizations he champions, Dick has worked to create a better future for America's families and workers. For that legacy and commitment, he is much admired by me and many others.

Madam Speaker, I ask my colleagues to join my salute today to an important and formative figure in my life: Richard Long, a man to whom I am deeply indebted for his friendship and good counsel and a man whose 46 years of untiring work on behalf of America's working families and the ideals of social justice should be heartily commended and passionately emulated by each of us.

RECOGNIZING THE ACCOMPLISHMENTS OF PIRAN TALKINGTON OF WOODBRIDGE, VA

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to recognize twelve-year-old Piran Talkington of Woodbridge, VA. On June 24, 2007, Piran successfully executed the Heimlich maneuver to save the life of his four-year-old sister Caitlyn. Just 10 years old at the time, Piran showed remarkable composure by calmly employing this life saving technique.

As a Cub Scout in Pack 289 of Woodbridge, Piran learned basic life-saving skills as part of his training to become a Boy Scout. Piran's attentiveness during these lessons proved invaluable when he was able to unblock his younger sister's airway during a family dinner. After Caitlyn regained her breathing and recovered her color, she tearfully hugged Piran.

Piran has continued his participation in Scouts and is now a Star Scout in Troop 1367. The Boy Scouts of America, upon recommendation of the National Court of Honor, has awarded Piran the Medal of Merit. This is the Boy Scouts' fourth highest national award. The award recognizes Piran for demonstrating the finest Scouting skills and ideals.

For nearly 100 years, the Boy Scouts have developed upstanding youth with the character and maturity to handle tough situations. Piran is an exceptional example of a young Scout. He also is an Honor Roll student and winner of the Fifth Grade Science Fair for Physical Sciences. Piran's life-saving measures were not an isolated instance of distinction. He works hard to reach the highest levels of achievement in everything he attempts.

Madam Speaker, I ask that my colleagues join me in applauding Piran's accomplishments. The decisiveness and skill with which he acted to save his sister can be attributed to his scouting background. This training will serve him well throughout his life, and I am confident that his future will be full of success and outstanding accomplishments.

KENNETH M. STAMPP, UC  
BERKELEY PROFESSOR EMERITUS

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. LEE of California. Madam Speaker, I rise today to honor the extraordinary life of Dr. Kenneth M. Stampp, professor emeritus at the University of California at Berkeley. He was a prolific historian, accomplished scholar and a devoted friend, husband, partner, father and grandfather. Professor Emeritus Stampp passed away on Friday, July 10, at the age of 96.

Dr. Stampp, who was born on July 12, 1912, in Milwaukee, Wisconsin, struggled to earn money for his education during the Great Depression. He ultimately earned a B.A., M.A. and Ph.D in History at the University of Wis-

consin in Madison. In 1946, after short teaching stints at two other universities, Dr. Stampp joined the staff at Berkeley as an assistant professor.

During his nearly 40-year career at Berkeley, Dr. Stampp established himself as a sometime controversial, though conclusively influential 19th Century historian. He is best-known for his decades of work changing historical perceptions about American slavery, the Civil War and Southern Reconstruction.

His trailblazing research and publications helped further humanize enslaved African Americans by giving their stories equal historical weight. Dr. Stampp heroically countered other historians' arguments at a time when the accepted historical record characterized slavery as a necessary institution.

In his books, Dr. Stampp rejected 1950s theories suggesting that sectional compromise might have saved the Union from civil war. Rather, he traced the cause of the war directly to a moral debate over slavery.

According to colleagues, his 1956 book, "The Peculiar Institution: Slavery in the Ante-Bellum South," remains the preeminent historical reinterpretation for that period.

Dr. Stampp had the distinction of travelling throughout the United States and Europe as a visiting professor, visiting fellow, and as both a Commonwealth and Fulbright lecturer. His humble upbringing contributed to a dedicated sense of social justice, which he demonstrated in his professional life and political views. Dr. Stampp participated in a 1965 Civil Rights march from Selma to Montgomery, Alabama.

Throughout his career, Professor Emeritus Stampp earned many accolades, which included serving as President of the Organization of American Historians, being twice-named a Guggenheim Fellow and winning the Lincoln Prize from the Civil War Institute at Gettysburg College.

Perhaps most admirable is the way in which Dr. Stampp resurrected long-forgotten voices from generations of our African-American brothers and sisters living through one of the grimmest scourges in our nation's history. Over time, Dr. Stampp's work has invaluable altered the framework of academic assumption, historical discrimination and public perception.

Today, California's 9th Congressional District salutes and honors a great human being, Professor Emeritus Kenneth M. Stampp. Our community is indebted to his life's contribution in countless ways. We extend our deepest condolences to Dr. Stampp's family and to all who were dear to him. May his soul rest in peace.

HONORING MR. FRANK G.  
MILLS, SR.

**HON. BILL SHUSTER**

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SHUSTER. Madam Speaker, I rise today to honor the accomplishments of Mr. Frank G. Mills, Sr. Mr. Mills was elected and installed as the State Commander of the Pennsylvania Department of Veterans of Foreign Wars at the 90th State Convention.

The Veterans of Foreign Wars is a congressionally chartered war veterans organization that has been serving the community as well as other veterans for over 100 years. The VFW is a model organization that exemplifies the principles that our Nation was founded upon.

Mr. Mills, a Life Member of Post #1754 in Huntington, Pennsylvania, has successfully served in all post chairs at the VFW. He served as the Post Commander four times and attained All State Post District Commander in 2006-2007. Frank also served on the national level on the Americanism and Community Activities Committee, Finance and Organization Committee, and Veterans Service Resolution Committee.

Frank Mills proudly served our country in the United States Navy as an Engineman 2nd Class on the USS *Tang* SS 563 submarine during the Vietnam war. His service medals include: National Defense Service Medal, Good Conduct Medal, Vietnam Service Medal with three bronze stars, and the Republic of Vietnam Campaign Ribbon.

Mr. Mills has led a life of service through the VFW and military service that instills a unique sense of pride in the hearts of every American citizen. For his commitment to the citizens of Pennsylvania, I am extremely grateful to Frank G. Mills Sr.

HONORING 2010 CENSUS COMMUNITY PARTNERS: ALPHA KAPPA ALPHA, NORTHERN VIRGINIA URBAN LEAGUE AND NORTHERN VIRGINIA COALITION

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CONNOLLY of Virginia. Madam Speaker, I rise today to commend Alpha Kappa Alpha Sorority, Inc., the Northern Virginia Urban League and the Northern Virginia Coalition for partnering with the U.S. Census Bureau to educate our community on the importance of a complete and accurate count in the 2010 Census.

These organizations kicked off their education initiative with a forum on October 1, 2009 at Alexandria City Hall. Their efforts will be directed toward participation from Northern Virginia's African American community. They will discuss the logistics and strategy behind a successful Census and call on community leaders to take up this historic cause.

A Census is conducted once every 10 years and is mandated by the U.S. Constitution. It counts everyone living in the U.S. to determine the distribution of Congressional seats and the fair allocation of more than \$400 billion in federal funding to state, local and tribal governments. Widespread participation is essential to accurate representation in Congress and the correct apportionment of federal funds. An accurate Census helps to ensure fair representation for all, which is an ideal that lies at the heart of American democracy.

Madam Speaker, I ask that my colleagues join me in commending Alpha Kappa Alpha Sorority, Inc., the Northern Virginia Urban

League and the Northern Virginia Coalition as responsible community partners for the 2010 Census. I appreciate their call to action as such partnerships will be vital to the success of the Census.

#### HONORING BILL AND BETTY KICK

#### HON. MAURICE D. HINCHEY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. HINCHEY. Madam Speaker, I rise today to honor my good friends Bill and Betty Kick of Saugerties, New York. Their kind demeanor and dedication to service work stand as a testament to the importance of giving back to the community.

Bill and Betty first met in kindergarten in Teaneck, New Jersey, where they grew up around the corner from one another. It came as no surprise when these childhood sweethearts married just days before Bill left to serve his country during World War II. During his 4 years in the Army, Bill was stationed in France, Germany, and Africa, rising to the difficult and challenging circumstances that this momentous conflict presented. Meanwhile, Betty remained in the U.S., doing her part by working for U.S. Rubber and the Syrian Embassy. Once Bill returned from the war, the couple settled in New York and soon welcomed their wonderful children, Linda and Peter. As new parents, they continued their commitment to community service by volunteering as Scout leaders.

When the time came to retire, and much to our benefit, Bill and Betty chose Saugerties, New York, as their home base. But Bill and Betty were far from homebound. Avid sailors, they have spent much of their retirement sailing around the world, going from Maine to the Florida Keys, and even as far as the South China Sea. In fact, Betty became one of the first female Celestial Navigators in the Hudson Valley. In spite of their passion for sailing, they still make time to volunteer within their community. Local organizations like Benedictine Hospital, Ulster Literacy Association, and the Winston Farm Alliance have all benefited from their time and dedication.

Throughout their lives, Bill and Betty have selflessly donated their time to help better their community. The 22nd District is fortunate to call them our own and it is with great enthusiasm that we look forward to many more years of their reminding us all of the importance of volunteerism.

#### THAILAND'S MESSAGE OF SUPPORT TO THE PEOPLE OF AMERICAN SAMOA IN AFTERMATH OF DEVASTATING TSUNAMI

#### HON. ENI F.H. FALEOMAVAEGA

OF AMERICAN SAMOA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. FALEOMAVAEGA. Madam Speaker, I submit the following message of support submitted by Ambassador Don Pramudwinai on

behalf of Minister of Foreign Affairs Kasit Piromya of the Kingdom of Thailand in response to the massive tsunami that struck American Samoa on Tuesday, September 29, 2009.

ROYAL THAI EMBASSY,  
Washington, DC, October 7, 2009.

Hon. ENI F. H. FALEOMAVAEGA,  
House of Representatives,  
Washington, DC.

THE HONORABLE ENI F. H. FALEOMAVAEGA, I have the honor to transmit herewith a condolence message on the earthquakes and tsunami incident in American Samoa from His Excellency Mr. Kasit Piromya, Minister of Foreign Affairs of Thailand to the Honorable as follows:

THE HONORABLE FALEOMAVAEGA, It is with profound sorrow that I learned of the intense magnitude of the undersea earthquakes and tsunami that hit the United States territory of American Samoa on 29 September 2009, causing a terrible loss of lives, widespread property damage and left so many people homeless.

I would like to extend my sincere condolences and heartfelt sympathy to you and, through you, to those families who lost their loved ones as well as those who were distressed by this dreadful disaster. Our thoughts and prayers are with them during this time of sorrow. In 2004, Thailand suffered through the devastating effects of a tsunami, and therefore, we share your grief and understand very well the hardship besetting the people of American Samoa. I am certain that with strong spirit of solidarity of the people of American Samoa, the affected areas will be quickly rehabilitated and restored.

Accept, the Honorable, the renewed assurances of my highest consideration.

KASIT PIROMYA,  
Minister of Foreign Affairs  
of the Kingdom of Thailand.

Please accept, the Honorable, the assurances of my highest consideration.

DON PRAMUDWINAI,  
Ambassador.

#### GOOD SHEPHERD HOUSING FOUNDATION OF PRINCE WILLIAM COUNTY, VIRGINIA, CELEBRATES 20 YEARS

#### HON. GERALD E. CONNOLLY

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. CONNOLLY of Virginia. Madam Speaker, I rise to recognize the 20th anniversary of the Good Shepherd Housing Foundation. For the past two decades, the Foundation has provided low-cost housing to the homeless and those on the brink of homelessness in Prince William County.

The Foundation was created in 1989 out of the compassion and collective action of the Good Shepherd faith community. The founders identified a need within Prince William County for housing for the mentally ill. They worked with the Prince William County Community Services Board to establish the bedrock of a stable and lasting program. In its beginning, the Foundation provided housing for five single adults.

It has since grown substantially in both numbers of clientele and breadth of mission.

Now in its twentieth year, the Foundation provides housing and supportive services for 25 single adults and 18 families in 11 homes owned by the Foundation. Assistance has been extended to those with chronic low income, mental and physical disabilities, AIDS/HIV, pregnant teens and the elderly. The organization is sustained by the efforts and donations of individuals, businesses and churches, and it receives assistance from local, State and Federal funding.

The Shepherd Homes Program offers group living and single adult housing options to mentally ill individuals. Shepherd Homes I, II and III are properties owned by the Foundation that function as group homes. Ten apartments leased by the Foundation offer the mentally ill, some who are veterans, relief from chronic homelessness. Beyond housing assistance, the Foundation offers services that put residents on a path to financial and psychological stability.

Since its inception, the Foundation expanded its mission to include low income families. The Affordable Family Housing Program is a holistic program aimed at providing housing and teaching families the importance of education and financial management. Families are given transitional, two-year or long-term, low-cost housing. Tutoring is available for the children and parents receive financial counseling. The Foundation works to end chronic homelessness by providing immediate relief and preventing future generations from falling into this dangerous condition.

Madam Speaker, I ask that my colleagues join me in expressing appreciation for the work the Good Shepherd Housing Foundation does in the Prince William community. The Foundation exists today as a robust and effective community organization dedicated to helping the disabled and less fortunate. I offer my unconditional support for its mission and commend its ability to help our fellow man.

#### CELEBRATION OF THE FESTIVAL OF DIWALI

#### HON. MICHAEL M. HONDA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. HONDA. Madam Speaker, I rise today in recognition of the Festival of Diwali.

Over one billion individuals celebrate the cultural and religious holiday of Diwali each year. Diwali is one of the most joyous festivals celebrated on the South Asian subcontinent. The festival is celebrated in the Hindu, Sikh, and Jain traditions, and has cultural significance for South Asians. Within the United States there are over 2 million celebrating Diwali making it a significant holiday in our country.

Diwali literally means "The Festival of Lights," translated from Hindi. Celebrations of Diwali usually involve the lighting of lamps to symbolize hope and joy. I joined Asian Americans and Pacific Islanders in the White House yesterday, as President Obama lit a lamp in the White House in the observance of the festival, after signing an executive order restoring the White House Initiative on Asian Americans and Pacific Islanders.

In the Hindu faith Diwali is often linked to Rama's triumphant return following his victory over Ravana as told in the epic The Ramayana. Following Rama's victory his people lighted lamps along the capital city to celebrate as their King returned. The clay lamps which the people lit, were called Deepavalis which Diwali is a shortened version of. In many Hindu calendars Diwali corresponds with the start of a new year. Diwali is one of the most significant holidays within Hinduism.

In Jainism, Diwali marks the date upon which Lord Mahavira achieved the state of absolute bliss or Nirvana. It is said that King Chetaka, upon Lord Mahavira achieving Nirvana, light a multitude of lamps to create a material light to replace the light of intelligence that had been lost.

In the Sikh tradition, the foundation of the Golden Temple is said to have been laid on Diwali. In this tradition, the 6th Sikh guru Hargobind was released from prison on the festival of Diwali.

There is great diversity among the faiths that celebrate this joyful holiday. Across all these traditions, Diwali holds significance across the South-Asian community as a time of hope, happiness and the renewal of life. I am very proud to have been a co-sponsor of House Resolution 798, conveying the best wishes of the House of Representatives to those celebrating Diwali. The resolution recognizes the importance of Diwali and extends the House of Representatives' deepest respects to all those celebrating Diwali. I would like to join with all those celebrating this joyous time and wish Shubh Diwali to all.

#### PERSONAL EXPLANATION

### HON. DEBBIE WASSERMAN SCHULTZ

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. WASSERMAN SCHULTZ. Madam Speaker, I was absent on Wednesday, October 14, 2009, due to a previously scheduled event. Had I been present I would have voted "yes" during the recorded votes for the following five bills:

1. H. Res. 768—Expressing support for the designation of the month of October as "National Work and Family Month";
2. H.R. 1327—Iran Sanctions Enabling Act of 2009;
3. H. Res. 816—Mourning the loss of life caused by the earthquakes and tsunamis that occurred on September 29, 2009, in American Samoa and Samoa;
4. H. Res. 786—Commemorating the canonization of Father Damien de Veuster, SS.CC., to sainthood; and
5. H.R. 3371—Airline Safety and Pilot Training Improvement Act of 2009.

#### IN RECOGNITION OF ESTRELLA CLEMENT IN HONOR OF HISPANIC HERITAGE MONTH

### HON. KATHY CASTOR

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. CASTOR of Florida. Madam Speaker, in recognition of Hispanic Heritage Month, I rise today to honor Estrella Clement, who dedicates her life to help identify and treat women who have breast and cervical cancer.

Ms. Clement was born in Cuba, moved to New Jersey as a child and has been living in Tampa for 25 years. Ms. Clement always knew she wanted to be a nurse and help improve the health of her community. She obtained a master's degree in nursing from the University of South Florida and has been a nurse for more than 32 years. Ms. Clement works with Meditech Medical Center clinics where free mammogram tests, breast examination, and Pap smears are offered to women who might not be able to afford these services otherwise.

Tirelessly dedicated, Ms. Clement worries that women are unaware of the free screening and treatment options in her neighborhood. Transportation is a major obstacle for many low-income women. Ms. Clement's goal is to have a mobile unit so she can go directly to the community. Unfortunately, too few people know about the free service. Ms. Clement is making it her duty to reach as many women as possible.

Ms. Clement also has been a co-chair of Prime Time Sister Circles, a group that helps African-American women improve their health, and she has served on the Moffitt Cancer Center's Hispanic Advisory Council.

Madam Speaker, Estrella Clement is acutely aware of the toll, both financial and emotional, that breast and cervical cancer can have on women. She devotes her life to improving the health of the Tampa community. I applaud her dedication to the prevention and treatment of breast and cervical cancer.

#### 100TH ANNIVERSARY OF "MEETING OF THE PRESIDENTS"

### HON. SILVESTRE REYES

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. REYES. Madam Speaker, I rise today to mark a unique date in our history, the 100th Anniversary of the "Meeting of the Presidents". On October 16, 1909, U.S. President William Howard Taft and Mexican President Porfirio Diaz met in both El Paso, Texas and Ciudad Juarez, Mexico in an historic meeting that established the personal relationship between our two countries. The event marked the first in-person meeting between the Presidents of the United States and Mexico. In fact, prior to 1909, no sitting U.S. President had left our country to visit a foreign nation.

The sister cities of El Paso and Ciudad Juarez went to great lengths to ensure that this meeting was unlike any other, by adorning

memorial columns and welcome arches with the colors of the two nations—red, white, and blue, and red, white, and green. Principal thoroughfares were decorated, thousands of incandescent and arc lamps were lit, and it is said that the cities competed with each other to demonstrate their best hospitality to the visiting Presidents.

The Stone and Webster Public Service Journal of 1909 has a great account of the day's historic events. President Taft arrived in El Paso, on the morning of October 16, 1909 and was met by El Paso Mayor Joseph U. Sweeney. After breakfast, President Taft was taken to the Chamber of Commerce through streets lined with thousands of school children who proudly waved colorful flags and sang patriotic songs. Mexican President Porfirio Diaz traveled across the International Bridge and was met by Secretary of War J.M. Dickinson, Texas Governor Thomas Mitchell Campbell, and Mayor Sweeney who escorted President Diaz to his meeting with President Taft at the Chamber of Commerce.

After the meeting, President Taft journeyed across the border to visit Ciudad Juarez, Mexico. Arriving at the border of the Chamizal zone, which was then disputed territory between the U.S. and Mexico, President Taft drove through the International Bridge and was saluted by the Mexican artillery with twenty-one guns. Upon arriving in Mexico, he entered the state carriage of President Diaz and was driven to the Custom House, which served as the temporary capital of the Mexican Republic. After a brief meeting, President Taft returned to El Paso, where he participated in a parade and addressed the cheering crowds. He ended the day by attending a reception in Ciudad Juarez where the two Presidents toasted each other and their respective countries.

This marked the first international trip of any sitting U.S. President and remains a rich part of the storied history of the great city of El Paso, which I represent. To this day, El Paso and Ciudad Juarez have maintained close ties. Culturally, socially, and economically intertwined, these sister cities are home to the largest international border community with a population of over 2 million people. Since that time, El Paso and Ciudad Juarez have hosted four joint meetings between the presidents of Mexico and the United States, more than any other border city.

On January 12, 2009, President-elect Obama continued this spirit of cooperation by meeting with President Felipe Calderon in his first face-to-face talks with a foreign head of state. This meeting fulfilled a tradition in effect since 1980 of U.S. Presidents talking with their Mexican counterparts before being sworn in, to underscore the special relationship between the two nations.

My good friend, Mexican Ambassador to the U.S. Arturo Sarukhan, reflecting on this special occasion said, "there is no more important bilateral relationship in the world today than the one between Mexico and the United States. . . . October 16th marks a date that should inspire us all to continue working to ensure that both Mexicans and Americans continue strengthening a partnership that must lead both countries toward greater development, security, prosperity and well-being for our two peoples."

Let us mark this occasion by committing ourselves to push forward to strengthen the relationship between Mexico and the United States. I applaud the work of President Obama and President Calderon to foster a closer relationship with our southern neighbor. There is no better way to commemorate the 100th anniversary of the "Meeting of the Presidents" than by continuing the legacy of strong diplomatic ties with our friends from Mexico.

**INTRODUCING A RESOLUTION CON-  
DEMNING THE ILLEGAL EXTRAC-  
TION OF MADAGASCAR'S NAT-  
URAL RESOURCES**

**HON. EARL BLUMENAUER**

OF OREGON

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. BLUMENAUER. Madam Speaker, today I am introducing a resolution to condemn the illegal extraction of Madagascar's unique and invaluable natural resources. I am joined in this effort by DONALD PAYNE, Chair of the Subcommittee on Africa and Global Health, and ENI FALOMAVAEGA, Chair of the Subcommittee on Asia, the Pacific, and the Global Environment.

Madagascar hosts some of this planet's greatest diversity. Larger than California, this island nation hosts over 150,000 species found nowhere else. The people of Madagascar depend on these incredible and unique resources for survival. Yet, political turmoil is putting the honest livelihoods of many, as well as one of our planet's greatest treasures, in extreme peril.

Reports from Madagascar are dire and detail rampant illegal logging, mining, and resource degradation. This resolution condemns this ongoing tragedy and calls for the restoration of rule of law. It is my hope that calling attention to this issue will spur change.

REVEREND DR. FRANK JACKSON

**HON. BARBARA LEE**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. LEE of California. Madam Speaker, I rise today to honor the wonderful life of Reverend Dr. Frank Jackson. His vibrant spirit, limitless compassion and selfless commitment to service will be missed by all who knew him. Through his ministry at Faith Presbyterian Church of Oakland, Reverend Jackson brought our community to a greater understanding of the Gospel of Jesus Christ and the life of the Church. He was an exemplary husband, father, pastor, community leader, teacher and friend. With his passing on September 11, 2009, we look to Reverend Jackson's legacy and the joy his work inspired.

After earning a bachelor's degree at San Francisco's Simpson College in 1972, Reverend Jackson pursued a Master of Divinity at Fuller Theological Seminary in Pasadena, California. Reverend Jackson also became the

first African-American clergy member to graduate from the Master of Nonprofit Administration program at University of San Francisco when he earned his third degree there in 1991. Education and personal growth were immensely important values to Reverend Jackson. He truly used a lifetime of learning to inspire and teach others.

In his early pastoral career, Reverend Jackson acted as Interim Pastor to rebuild and develop transitioning churches in the Los Angeles area. He focused his passion for providing youth leadership and family services as Associate Pastor for Menlo Park Presbyterian Church from 1979 to 1983. Later that year, he joined Faith Presbyterian Church in Oakland, thus beginning 26 years of service to our community as Pastor and spiritual guide.

Along with wife Jimmie Jackson, with whom he celebrated 41 years of marriage this month, and daughter Rachel Jackson, Reverend Jackson maintained a dynamic presence in Bay Area community organizing. He was instrumental in organizing numerous collaborations and events including Support for the Families of Homicide Victims, a Community Health Fair Event, Embrace Oakland Day and Faith Network of the East Bay.

Reverend Jackson was passionate about encouraging collaboration between diverse groups. He utilized the clarity of his vision and the strength of his faith to unite people to work for shared goals. In 1992, Reverend Jackson was a founding pastor of the African American & Korean American Fellowship of Churches, a coalition that sought to build better racial relationships between communities of color. He also established the Themus Spencer Learning Center at Faith Presbyterian Church in partnership with Emerson Elementary School to guide at-risk students to academic success.

Deeply moved by the challenges of Katrina Relief in 2006, Reverend Jackson also helped organize a team of Oakland Pastors to raise relief funds during a citywide gathering at the Oakland Coliseum. Whether working with an interfaith coalition to rebuild burned black churches in Boligee, Alabama, or simply lending an ear to a friend in need—Reverend Jackson always made time to help others.

Additionally, he was a great lover of sports, earning his Black Belt in Korean Judo and serving as Chaplain for the Golden State Warriors Basketball Team and other pro- and college teams. In his later years, Reverend Jackson stayed active as trustee, co-chair or committee member for myriad organizations, even earning a Doctor of Ministry from McCormick Theological Seminary just last year.

Pastor Jackson was a personal friend and source of inspiration to me. Often times he would leave a prayer on my voicemail and his words of encouragement always came, "right on time." I will always remember the joy and excitement Reverend Jackson felt at the National Prayer Breakfast this year in Washington D.C., when along with Mrs. Jackson and Pastor and Mrs. Pinkard, he witnessed our President Barack Obama and First Lady participate in their first national prayer breakfast. This week, as I looked at the photos once again after learning of Reverend Jackson's untimely death, I was reminded of his kind and gentle spirit. His life was one lived in service to God.

Today, California's 9th Congressional District salutes and honors Reverend Frank Jackson. The contributions Reverend Jackson made to his community throughout his life are countless and precious. My thoughts and prayers are with his family and loved ones. Reverend Jackson will be deeply missed. May his soul rest in peace.

**THANKING COLONEL GENE BLADE  
FOR HIS YEARS OF SERVICE**

**HON. AARON SCHOCK**

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. SCHOCK. Madam Speaker, I rise today to honor COL Gene Blade, a great American who is retiring today after 55 years of service to his country and community.

Colonel Blade started his 40-year military career in 1954, when he joined the Illinois National Guard in Monmouth, Illinois. His first job in the Army was as a radio operator and Jeep driver for the Battery Commander. As his military career advanced, Colonel Blade served in numerous other positions, including Fire Support Officer and eventually Battery Commander. In fact, Colonel Blade held every key staff position in the infantry and artillery battalions, including Infantry Battalion Commander of the 1st Regiment, 123rd Infantry Battalion.

Colonel Blade continued to perform his duties even when no one expected him to do so. In one specific instance, Gene was hospitalized with pneumonia, but a group of top military personnel were scheduled to visit his post to view a demonstration of a nuclear spotter round. The weapons used for this exercise required very specific calculations, and Gene's expertise was needed for the test. Even with pneumonia, Colonel Blade decided to take part in the test and was transported via ambulance to the testing area so he could commence the demonstration. The event occurred without any problems, in fact, it was performed quicker than any previous test. After the demonstration, Gene was transported via ambulance back to the hospital. Gene's commitment to the Army was so evident, that the Army Chief of Staff personally thanked him for going above and beyond the call of duty.

After serving 40 years in the Army, Colonel Blade retired as a United States Property and Fiscal Officer for the Illinois National Guard and joined Hanson Professional Services Inc. as a special consultant, working with Department of Defense clients. Even in the private sector, Gene continued to serve his country. Using his skills and knowledge, he provided consulting services for 15 years and worked on several notable projects for the Illinois, Indiana, Florida, and Missouri National Guards.

Additionally, Colonel Blade has served on the U.S. Department of Defense's Base Closure and Realignment Commission (BRAC) for military bases in Illinois, and he continues to serve on the Governor's post-BRAC commission for future economic development efforts. He is also an active member and an employer outreach representative for the Employer Support of the Guard and Reserve program.

Throughout his life and career, Gene's dedication and achievements have made a positive impact on the U.S. military, the State of Illinois, and our great Nation. Today, at 75 years of age, Colonel Blade will celebrate his retirement from Hanson. I'm told he looks forward to spending time golfing, traveling, wood-working, and also writing a book of his memoirs. I thank him for his service, and wish him the very best.

RECOGNIZING PRINCE WILLIAM  
CLEAN COMMUNITY COUNCIL  
AND ITS 2009 VOLUNTEER OF  
THE YEAR CONNIE MOSER

**HON. GERALD E. CONNOLLY**

OF VIRGINIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. CONNOLLY of Virginia. Madam Speaker, I rise to recognize the Prince William Clean Community Council and its 2009 Volunteer of the Year, Connie Moser. With the help of dedicated volunteers like Ms. Moser, the Council works to eliminate litter and graffiti in Prince William neighborhoods and commercial centers.

The Council was conceived in 1982 during a spring cleanup effort led by a group of concerned Prince William County residents. These volunteers, who later became the founding members of the Council, immediately recognized the importance of litter prevention education as a way to long-term environmental protection and preservation. In 1986, the Prince William County Litter Control Council was born. The organization later changed its name to the Clean Community Council, and it became an affiliate of Keep America Beautiful, a nationwide non-profit that uses education and hands-on stewardship to advocate litter control, waste reduction, and community beautification.

The Council's litter prevention and graffiti abatement efforts have not gone unnoticed. The Council's accolades include a 1994 Governors Award for Volunteering Excellence. The Council was a 2000 Virginia Stewardship Award Winner in the Communication/Education Category, and it received the Prince William County 2001 Partners for the Potomac Environmental Patron Award, 2000 and 2002 Keep America Beautiful National Awards and a 2008 Keep America Beautiful President's Circle Recognition Award.

The Council's volunteers always have been essential to its success and the 1st Volunteer of the Year Award is a way to recognize their invaluable support. The recipient, Connie Moser, is a resident of Dale City, VA, and sits on the Council's board of directors. She teaches the Council's principles and goals to a number of other organizations that benefit from her involvement. She is acting Secretary for the Dale City Civic Association, a volunteer for the Prince William County Habitat for Humanity, maintains two "Adopt-A-Spots" for the Prince William Clean Community Council, serves on the Prince William County Neighborhood Leader's Group and is the founder of the Lindendale Community Group. Remarkably, she found time this year to coordinate a

clean-up effort for the Dale City Fourth of July parade route, a large scale community beautification effort that inspired others to take up the Council's mission. Ms. Moser is truly devoted to her community's quality of life and does not shy away from a long, hard day of work to make Prince William County a pleasant place to live.

Madam Speaker, we create safer, cleaner neighborhoods when residents take ownership over their communities. The Clean Community Council asks Prince William residents to take pride in their county and work to eliminate not just litter and graffiti but the carelessness that allows these community plagues to proliferate. I ask my colleagues to join me in recognizing the successes of the Prince William Clean Community Council and congratulating Connie Moser on being named the recipient of its 1st Volunteer of the Year Award.

IN REMEMBRANCE OF RICHARD C.  
SHADYAC SR.

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. KUCINICH. Madam Speaker, I rise today in remembrance of Richard C. Shadyac Sr. who served on the Board of Directors and Governors of St. Jude Children's Research Hospital and the American Lebanese Syrian Associated Charities (ALSAC) for more than forty years. Mr. Shadyac had a true passion and devotion to the children and families that fight catastrophic pediatric diseases at St. Jude Children's Research Hospital.

Mr. Shadyac began his illustrious and influential career as a member of ALSAC and of St. Jude Hospital Boards of Directors and Governors in 1963. He also served as ALSAC's general counsel. In 1992, after the passing of Danny Thomas, the founder of St. Jude Children's Research Hospital, Mr. Shadyac became the CEO of ALSAC. Upon taking on his new leadership role, Mr. Shadyac worked tirelessly to continue the legacy and dream of his friend, Danny Thomas who said, "No child should die in the dawn of life." Mr. Shadyac served as the CEO until his retirement in 2005.

During the 13 years he led ALSAC, public funding for St. Jude Children's Research Hospital quadrupled. By 2005, ALSAC had become the third largest health-care charity in the U.S. and is currently the second largest. During Mr. Shadyac's tenure, St. Jude Children's Research Hospital was also able to undergo a \$1 billion expansion that strengthened the hospital's capacity to focus on patient and family care and to conduct research for children with catastrophic diseases. His compassion and dedication to provide free care for the children and families who seek treatment was immeasurable and the driving force of his work.

Madam Speaker and colleagues, please join me in remembrance of Richard Shadyac Sr. who spent years of his life working on behalf of the countless sick and struggling children who come to St. Jude Children's Research Hospital to fight, treat and care for what are

often life threatening illnesses. It is clear that without his dedication and hard work, the triumphs in research, treatment and patient and family care that the hospital provides would not be possible. Mr. Shadyac will be missed by those whose lives were in some way touched by him.

20TH ANNIVERSARY OF THE VI-  
SION OF A THOUSAND "POINTS  
OF LIGHT"

**HON. JOHN LEWIS**

OF GEORGIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. LEWIS of Georgia. Madam Speaker, I rise today to commemorate the 20th anniversary of the vision of a thousand "Points of Light" and to celebrate the growing tide of commitment to service and volunteering that is a hallmark of this great nation. Tomorrow, President George H. W. Bush and President Barack Obama are together to mark this important milestone in the history of the service movement.

Twenty years ago, President Bush spoke of a thousand points of light, individuals and organizations "spread like stars throughout the nation, doing good." From this idea rose the Points of Light Foundation which has both recognized and organized exemplary acts of giving for the past two decades.

In 2007, it merged with Hands On Network, which started in my district, in the city of Atlanta, and the combined organization is now the Points of Light Institute, the largest volunteer network in the country. Their mission is to mobilize, not just a thousand, but millions to answer the call to solve our most pressing problems—volunteers working together to help those with HIV in San Francisco, building wheelchair ramps in Greenville, and creating award-winning tutoring programs in Atlanta.

In today's hard times, people are hurting. Americans are having to choose between paying their mortgages and putting food on the table. In these tough times it is more important than ever that we, as American citizens, give back to those in need. National Service becomes ever more important when people are hurting. I am proud of my fellow citizens who have heeded the calls to service, and have dedicated their time to helping others. In 2008, 61.8 million Americans volunteered, dedicating more than 8 billion hours of service worth an estimated \$162 billion.

The Points of Light Institute and its 250 Hands On Action Centers reach 80 percent of our nation's communities have been at the forefront of this remarkable growth. I am so pleased to be able to recognize this organization's first 20 years of harnessing the energy and enthusiasm of our people to be a part of a better world and their ongoing contributions as a part of President Obama's United We Serve initiative.

# INTRODUCING THE EVERY CHILD DESERVES A FAMILY ACT

## HON. FORTNEY PETE STARK

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. STARK. Madam Speaker, I rise today to introduce legislation that will open up thousands of good homes to foster children. On any given day, there are approximately 500,000 children in the child welfare system. Over 125,000 of these abused and neglected children are waiting to be adopted. There is an acute shortage, however, of adoptive and foster parents. The result is that many children, particularly minority and special needs children, languish in foster care without permanent homes. The severe developmental, emotional, and educational costs to children raised in foster care are well documented. The 25,000 youth who never find a permanent family and "age out" of the system each year are more likely than nearly any other group to become homeless, incarcerated, or suffer with mental illness or substance abuse.

Despite the shortage of adoptive and foster parents and the terrible consequences of long stays in the child welfare system, some states have enacted discriminatory bans prohibiting children from being placed with qualified parents due to the parent's marital status or sexual orientation. Currently, over 65,000 adopted children and 14,000 foster children are living with a gay or lesbian parent. Studies suggest that upward of 2 million gay and lesbian individuals are interested in adopting or fostering a child. Yet, statewide discriminatory bans and the practices of individual adoption agencies have resulted in fewer children being placed in safe and permanent homes.

Congress invests over \$8 billion in the child welfare system each year and we should not accept policies that use Federal funds to enact barriers to adoption and close the door to thousands of potential homes. Multiple studies have found that adopted and foster children raised by gay and lesbian parents fare just as well as their peers being raised by heterosexual parents.

When considering a potential placement for a child, the only criteria should be what is in the child's best interest and whether the prospective parents can provide a safe and nurturing home. Bigotry should play no part in this decision. That is why I am introducing the "Every Child Deserves a Family Act." This legislation would simply prohibit any entity that receives Federal child welfare funds from denying or delaying adoption or foster care placements based solely on the prospective parent's marital status or sexual orientation. States and child welfare agencies that fail to end discriminatory practices would face financial penalties. This is the same approach that put an end to race discrimination in adoption and foster care placements.

Abused and neglected children in our child welfare system are some of the most vulnerable members of our society. We cannot allow divisive politics to further harm these children by shrinking the number of prospective adoptive and foster parents. I urge all of my colleagues to join me in saying yes to children

and no to bigotry by cosponsoring the "Every Child Deserves a Family Act" and working with me to make it law.

# RECOGNIZING NATIONAL LATINO AIDS AWARENESS DAY OF 2009

## HON. EDDIE BERNICE JOHNSON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. EDDIE BERNICE JOHNSON of Texas. Madam Speaker, I rise today to recognize National Latino AIDS Awareness Day of 2009 which takes place today on Thursday, October 15, 2009. I want to commend the various individuals and groups that have worked hard to make this day a reality including the Hispanic Federation, the Latino Commission on AIDS, the National Alliance of State and Territorial AIDS Directors, and various other local, regional, and national partners.

National Latino AIDS Awareness Day is an incredibly important day that helps bring attention to the problems the Latino community faces in regards to the HIV/AIDS crisis. While the HIV/AIDS problem is an issue that affects every racial and ethnic group in the United States, it unfortunately has a disproportionate impact on the Latino community. In 2006, there were roughly 80,000 Latinos living with AIDS, representing 18 percent of all those living with the disease, and although Latinos comprise 15.3 percent of the U.S. population, they account for 24.3 percent of new HIV infections. Additionally, stigma within the community, lack of access to health care, and misinformation about the virus make it difficult to combat. Truly, this must be changed, and embracing the goals and ideas of National Latino AIDS Awareness Day is a step towards making that happen.

I am reminded, too, that the Latino community is not alone in this struggle. Other ethnic groups and particularly the African-American community are disproportionately affected by HIV/AIDS. We must all stand together, learn from each other, and work toward ending this virus that hurts so many people in our country and across the world.

Madam Speaker, I urge my fellow colleagues to join me today in recognizing National Latino AIDS Awareness Day for the betterment of our country and the health of the numerous ethnic groups that add so much to our national character.

# EAST BAY REGIONAL PARK DISTRICT AND THE REGIONAL PARKS FOUNDATION

## HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. LEE of California. Madam Speaker, I rise today to honor the joint anniversary celebration of East Bay Regional Park District's 75th Anniversary and the supporting Regional Parks Foundation's 40th Anniversary. This evening, Park District supporters and friends

gather at Temescal Regional Park, overlooking open space created through the founding of the nation's first and largest Regional Park District.

In 1934, during the catastrophic depths of the Great Depression, members of a grass-roots land preservation movement placed a measure on the ballot that would preserve excess watershed land in the Oakland and Berkeley hills. The project introduced a concept unheard of at the time: creating a natural balance between recreational land use and wilderness preservation. Bay Area residents responded with unprecedented foresight and civic commitment when the measure passed by an astonishing 71 percent.

Today, the East Bay Regional Park District, EBRPD, operating in Alameda and Contra Costa counties, manages more than 98,000 acres of land comprising 65 parks and over 1,000 miles of biking, hiking and horse riding trails. The parks host approximately 14 million visitors per year.

The District, supported by the Regional Parks Foundation's fundraising efforts, provides recreational opportunities at freshwater swimming areas, fishing docks and piers, day camps, children's play areas and numerous camping and picnic sites.

Myriad visitor services include education centers, a disabled-access swimming pool and group meeting facilities. The District's Park Express Bus Program offers subsidized bus service to any District park for groups of senior, disabled or low-income residents and school classes with funded lunch programs.

Our regional parks' success is the result of eight decades of hard work by innumerable citizen activists, elected district directors, general managers, district employees, environmental organizations, public officials, volunteers, and taxpayers who have collaborated to ensure local access to a majestic regional park system. Many park sites also contain protected species of plants and animals, as well as Native American historical sites containing rock art, and burial or village locations. Above all, EBRPD's top priority remains aligned with our park founders' original mission: to preserve the natural beauty of the land and protect wildlife habitats.

The future of East Bay Regional Park District is marked by growth and stability thanks to last year's passage of Measure WW, the largest local park bond measure to pass on record.

Seventy-five years ago, Bay Area park advocates demonstrated a pioneering and progressive local spirit, which endures to this day. The rich history of our regional parks has undoubtedly helped lay the framework for the Bay Area's famed conservation movement. It is this continued passion for open spaces and preservation that inspires communities, on a national and global level, to protect and preserve both the environment—and our future.

# PERSONAL EXPLANATION

## HON. DEBBIE WASSERMAN SCHULTZ

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. WASSERMAN SCHULTZ. Madam Speaker, on October 14, 2009, I missed the

following Rollcall Votes due to a longstanding commitment away from Washington:

1. Rollcall vote No. 775, H. Res. 768, Expressing support for the designation of the Month of October as "National Work and Family Month".

2. Rollcall vote No. 776, H.R. 1327, the Iran Sanctions Enabling Act.

3. Rollcall Vote 777, H. Res. 816, Mourning the loss of life caused by the earthquakes and tsunamis that occurred on September 29, 2009.

4. Rollcall Vote 778, H.R. 3371, Airline Safety and Pilot Training Improvement Act of 2009.

5. Rollcall Vote 779, H. Res. 786, Commemorating the canonization of Father Damien de Veuster, SS.CC. to sainthood.

If present, I would have voted "yea" on all matters.

#### 50TH ANNIVERSARY OF ART VAN FURNITURE

#### HON. GARY C. PETERS

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. PETERS. Madam Speaker, I rise today to commemorate the 50th Anniversary of Art Van Furniture, an iconic fixture in the retail world of Michigan that was founded by Art Van Elslander, a much admired and prominent figure in the metro-Detroit community.

The story of Art Van Elslander and the rise of Art Van Furniture to its dominant position in the retail furniture world is the American Dream fully realized. As a son of Belgian immigrants and growing up on Detroit's east side, Archie "Art" Van Elslander's entrepreneurial spirit shone brightly even as a youngster when he hawked newspapers up and down Detroit's Gratiot Avenue. After high school, military service and working at a local furniture store, Mr. Van Elslander entered the world of entrepreneurs. Heeding his father's advice to "control your own destiny," Mr. Van Elslander mortgaged his home and borrowed against insurance policies to finance his first store.

Through times both flourishing and faltering in the subsequent years, the fortunes of Art Van Furniture ebbed and flowed with the economic cycles of the Michigan economy. Ultimately, it grew to more than 30 locations across Michigan and employing more than 2500. Over the years, Art Van Furniture has adapted to the changing environment, and quite literally so. Art Van has been named a "GreenTailor" by the Michigan Retailers Association after adopting a variety of Earth-friendly practices ranging from the installation of Energy Management Systems to recycling tons of waste. It has been continually named as one of West Michigan's Best and Brightest places to work.

Over the past 50 years, Art Van has grown to be Michigan's largest furniture retailer. And during those years, Art Van Elslander became renowned and admired as a pillar of the philanthropic community and a stalwart business leader committed to Michigan and its citizens. Madam Speaker, I ask my colleagues to join

my salute today to Art Van Elslander on 50 years of vision, perseverance and "giving back" to our community; and to Art Van Furniture and each of its thousands of employees over the years, on 50 years of business growth and success.

#### PASTOR CHARLES T. SEMBLY AND FIRST LADY PAMELA J. SEMBLY

#### HON. C.A. DUTCH RUPPERSBERGER

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. RUPPERSBERGER. Madam Speaker, I rise before you today to honor Reverend Charles T. Sembly and First Lady Pamela J. Sembly for their 25 years of faithful, dedicated service to Union Bethel A.M.E. Church.

Following in the footsteps of his father, the late Rev. Edgar L. James, Pastor Sembly earned his license to preach on March 17, 1971, and was ordained an African Methodist Episcopal Itinerant Deacon in 1978 and an Itinerant Elder in 1979. In 1982, Pastor Sembly was appointed Pastor of Mt. Zion African Methodist Episcopal Church in Knoxville, Maryland. During the mid-year Conference on October 24, 1984, Pastor Sembly was appointed to Union Bethel African Methodist Episcopal Church.

Pastor Sembly and Mrs. Sembly have provided noteworthy spiritual leadership in fulfilling their vision of growth and development at Union Bethel A.M.E. Church. During Pastor Sembly's tenure, the church established over 40 ministries and outreach programs to enhance the Randallstown community. Under his leadership, the church created a nonprofit Community Development Corporation to increase its social outreach and opportunities for service to the greater Northwest Baltimore County community. As local President of the Lillian M. Dorsey Senior Missionary, Mrs. Sembly established several on-going outreach programs, which include the Good Samaritan Ministry, the Senior Outreach Ministry and provided additional support to three area shelters.

Pastor Sembly is currently a Trustee and Member of the Finance Committee of the Second Episcopal District Washington Conference, and an Instructor of the Second Episcopal District Washington Conference Board of Examiners. Pastor Sembly conceptualized and developed the Six-Week Lenten Services with seven A.M.E. Churches and is a former Recording Secretary for the Second Episcopal District Washington Conference.

Mrs. Sembly is very active in the Women's Missionary Society of the African Methodist Episcopal Church. She currently serves as the President of the Lillian M. Dorsey Senior Missionary Society of Union Bethel A.M.E. Church. She has served for more than 8 years as the Recording Secretary and the Treasurer of the Matilda Monroe Area. She was also the Editor of the "Bridge," the Second Episcopal District WMS Newsletter, and was elected a Delegate to the 15th and 16th Quadrennial Conventions.

Married for 35 years, Pastor Sembly and First Lady Mrs. Pamela J. Sembly have three loving children and six grandchildren.

Madam Speaker, I ask that you join with me today to honor Reverend Charles T. Sembly and First Lady Pamela J. Sembly for their outstanding service to the Union Bethel A.M.E. Church and their continued commitment to enhancing lives in their community.

#### HONORING DEBORAH PEEPLES

#### HON. JAMES P. MCGOVERN

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. MCGOVERN. Madam Speaker, I rise today in honor of Deborah Peeples of Shrewsbury, Massachusetts. Through Mrs. Peeples' public service and dedication to the community she inspires us all. In acknowledgement of her service and commitment to the advancement of the Democratic Party, Deborah has been selected to receive the Eleanor Roosevelt Humanitarian Award from the Shrewsbury Democratic Town Committee.

Deborah has done a tremendous amount of work for the Town of Shrewsbury. She has served as an elected Town Meeting Member and member of the Shrewsbury School Committee. During this time she played an active role in four school building projects. Currently, Mrs. Peeples serves as the Treasurer for the Board of Friends of the Shrewsbury Public Library. She founded and ran the Summer R.E.C.E.S.S. reading program which continues to this day. Deborah Peeples is dedicated to improving the community of Shrewsbury.

Deborah Peeples has been an active member and is the current Co-Vice Chair of the Town Democratic Committee. She has been involved in Democratic campaigns for a very long time, from leafleting for George McGovern in 1972 and more recently, campaigning for Hillary Clinton, Shannon O'Brien, Bill Clinton and Deval Patrick. I will be forever grateful to her for her friendship and hard work helping in my Congressional campaigns. Deborah is a graduate of Washington University in St. Louis. Currently she serves as Executive Director of ELNA (Education and Leadership for a Non-violent Age) Collaborative, working with middle and high school students promoting leadership, civic participation and social activism.

Deborah's devotion to the betterment of our community and her commitment to public service enrich us all. In tribute to her outstanding service to the Town of Shrewsbury, I congratulate my friend, Deborah Peeples on receiving this award. I know all my colleagues will join me in paying tribute to her.

#### HONORING MRS. DEBRA JOHNSON

#### HON. STEPHANIE HERSETH SANDLIN

OF SOUTH DAKOTA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Ms. HERSETH SANDLIN. Madam Speaker, I want to take this opportunity to recognize Mrs. Debra Johnson, Principal of Chamberlain Middle School and High School in Chamberlain, South Dakota. Mrs. Johnson was named South Dakota Middle School Principal of the

Year by the MetLife/National Association of Secondary School Principals (NASSP) National Principal of the Year Program. This award recognizes the achievements of secondary school principals like Mrs. Johnson who have succeeded in providing high-quality learning opportunities for students as well as demonstrating exemplary contributions to the profession.

Mrs. Johnson has devoted 29 years to education, including more than 17 years as an administrator. One of her proudest achievements was combining separate buildings for grades 5–8 and grades 9–12 into a joint middle school and high school in Chamberlain, where staff can work together to address issues, implement effective teaching strategies, and design plans so that all students can achieve at their highest level. Mrs. Johnson recognizes the value of a well-rounded education beyond just the classroom and has been a strong supporter and advocate of quality afterschool activities. Her leadership, organization, and planning skills have served students, teachers, and fellow administrators well throughout her career.

I send best wishes and congratulations to Mrs. Johnson on this noteworthy recognition and thank her for her years of service as an educator in South Dakota.

**RECOGNIZING HOLLAND CITY  
COUNCILMAN CRAIG RICH FOR  
HIS YEARS OF SERVICE ON THE  
HOLLAND CITY COUNCIL**

**HON. PETER HOEKSTRA**

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. HOEKSTRA. Madam Speaker, I rise here today to congratulate Councilman Craig Rich on many years serving on the Holland City Council.

Craig Rich grew up in Holland where his family has lived since 1910. He is a 1972 graduate of Holland High School and holds a business degree from Davenport College. He and his father operated radio station WZND in Zeeland from 1971 through 1986. Since then he has been with the Grand Rapids Business Journal, a weekly business-to-business newspaper in Grand Rapids, as advertising sales consultant and sales manager.

Craig was first appointed to the Holland City Council in 1982 at 28 years old and has since been elected in 1983 and re-elected in 1985, 1989, 1993, 1997, 2001 and 2005. Craig also served as Holland's Mayor ProTem from 1987 to 2007. His ward represents the true center of the city—bordered by 14th and 15th streets and Lake Macatawa on the north, 24th street on the south, River, Michigan and Central avenues on the east and Graafschap Road on the west.

Craig is the Council's liaison to the Zoning Board of Appeals and the Board of Public Works. He is most proud of having decreased or maintained the general fund tax rate 17 times since being elected to office while, at the same time, maintaining or increasing the level of essential city services.

In addition to his service on the City Council, Craig is active at Christ Memorial Re-

formed Church. He is a founding member of Michigan Shipwreck Research Associates and a "master" level SCUBA diver.

He combines his love of local history and genealogy with scuba diving to research and document local area shipwrecks. He is the author of "For Those in Peril: Shipwrecks of Ottawa County" due to be published in 2009.

Craig and his wife Vickie have been married since 1975 and have two daughters; Allison, an English teacher in Florida, and Catherine, a student at Northern Michigan University.

**PERSONAL EXPLANATION**

**HON. DAN BOREN**

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. BOREN. Madam Speaker, on rollcall No. 776 for the Iran Sanctions Enabling Act of 2009, if I had been present, I would have voted "aye."

**PERSONAL EXPLANATION**

**HON. RUSH D. HOLT**

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. HOLT. Madam Speaker, on Wednesday October 14, 2009 I was unavoidably detained and missed one vote.

Had I been present I would have voted "yea" on H. Res. 768, a resolution expressing support for the designation of the month of October as "National Work and Family Month (Rollcall 775).

**CONGRATULATIONS TO THE  
CITADEL**

**HON. JOE WILSON**

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. WILSON of South Carolina. Madam Speaker, The U.S. News and World Report, in their publication titled "America's Best Colleges 2010", recently named The Citadel as the No. 1 best value among master's degree-granting colleges in the South. This is a tremendous recognition for the cadets, students, faculty, and administration of this esteemed South Carolina institution. In addition to being the best value, The Citadel was also named the No. 2 best public institution that offers a master's degree in the South and the No. 5 among all master's degree-granting colleges and universities in the South that offers a master's degree.

Born and raised in Charleston, I have been a longtime admirer and supporter of The Citadel. For 167 years, it has educated and built strong leaders in our military and civilian communities. It remains an important part of South Carolina's heritage of service. I know firsthand of its benefits with three brothers-in-law and two nephews who are graduates of The Cita-

del. I never cease to be amazed at the achievements of Citadel graduates, such as Brigadier General Larry Nicholson who I met in Helmand Province of Afghanistan where he is leading our courageous Marines.

I am grateful to have known so many graduates such as Congressman J. GRESHAM BARNETT and Congressman STEVE BUYER of this important institution and will continue to be a proud supporter. Under the leadership of its President, LTG John W. Rosa, The Citadel is a valued national institution.

**PAKISTAN-U.S. RELATIONS**

**HON. DENNIS J. KUCINICH**

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

*Thursday, October 15, 2009*

Mr. KUCINICH. Madam Speaker, I have been a strong supporter of the friendship between the people of the Islamic Republic of Pakistan and the United States, and I have supported efforts to strengthen the bonds between the countries as well as efforts that address our mutual security interests.

The current economic situation is the primary challenge to achieving these mutual goals.

Unfortunately, the economy of Pakistan is under considerable stress right now. The value of the rupee is at a historical low relative to the dollar, and international reserves have declined by \$7 billion—more than half—in one year's time.

Additionally, the current inflation rate is 25 percent and consumer prices are the highest they have been in over 30 years.

The U.S. wishes to disrupt and dismantle the existence of terrorist safe havens in Pakistan to bring stability and peace to the region.

As such, it is important to examine the root cause of terrorism, desperation. This desperation is best addressed by ensuring that U.S. foreign policy promotes worldwide economic stability.

We must lay the foundation of human security and capacity building which includes ensuring educational opportunities, economic and social justice, and physical and mental health care for everyone.

As such, I have not supported the current plans by the Administration to provide military training and defense articles to Pakistan.

The foundation of a peaceful society is rooted not in military might, but by ensuring that people's basic needs are met. This is the key component to achieve human security. In Pakistan, where approximately two-thirds of the people of Pakistan are living on less than \$2 a day, there is much that must be done to ensure that this key component to human security is achieved.

Additionally, I have vociferously opposed U.S. drone attacks on Pakistan. These attacks cause devastation to the innocent civilian population. I understand the opposition to the drone attacks by the government of Pakistan. I will continue to work with my colleagues in Congress to address this issue and pursue a dialog with Special Envoy Holbrook.

Some have proposed establishing free trade agreements with Pakistan. The current U.S.

model for free trade is flawed. For example, labor and environmental protections are inadequate. With the current lack of stability in Pakistan it is difficult to imagine that these protections could be assured.

IN HONOR OF JOHN MARHEFKA,  
PENNSYLVANIA D.A.R.E. OFFICER OF THE YEAR

### HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. MURTHA. Madam Speaker, I rise today in honor of Patrolman John Marhefka of Lower Burrell, Pennsylvania. He was recently named Pennsylvania's top Drug Awareness and Resistance Education (D.A.R.E.) Officer of the Year.

For twelve years, Marhefka has been dedicated to preventing illegal drug usage through D.A.R.E., a program where police officers go into schools to teach young people about the dangers of illegal drugs. The D.A.R.E. program encourages students to make good life decisions by warning them about the risks of substance abuse and violence. The relationships that develop between the officers and their students open new lines of communication and help to strengthen community ties.

While there are more than 1,000 D.A.R.E. officers throughout Pennsylvania, Marhefka is one that goes above and beyond what is expected of him. Over his time as a D.A.R.E. officer, he has taught over 700 Burrell students from kindergarten to 12th grade. Marhefka makes a genuine effort to form a relationship with each of his students. He is known for his participation in recess and school family fun nights. Most importantly, Marhefka gives students the opportunity to get to know him, increasing their comfort with local authorities and their trust in the police.

Madam Speaker, Marhefka's dedication to the D.A.R.E. program has given students the knowledge and confidence they need to avoid the temptation of peer pressure. I commend him for his dedication to the prevention of illegal drug use and for his outstanding commitment to promoting safety in his community.

SOCIAL SECURITY COST OF LIVING  
ADJUSTMENT

### HON. JAMES R. LANGEVIN

OF RHODE ISLAND

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Mr. LANGEVIN. Madam Speaker, I rise today in support of the President's call to provide assistance to our nation's elderly, veteran and disabled citizens who will see no Cost of Living Adjustment (COLA) in their 2010 Social Security payments for the first time in over 40 years.

Since the Great Depression, Social Security has proven a vital safety-net program that has kept over half of our seniors from falling into poverty. It has been adjusted annually according to inflation to maintain the purchasing

power of beneficiaries since 1975. In my home district, over 95,000 people collect Social Security benefits. This program provides 40 percent of all income received by elderly people in the United States, and supplies significant financial support for individuals with disabilities.

Despite encouraging signs of economic stabilization, millions of vulnerable citizens continue to struggle in the wake of a recession that brought record housing foreclosures, job losses and bankruptcies. Particularly hard hit are older Americans who have seen the value of their assets and savings wiped out, forcing them to postpone retirement or reenter the workforce, if employment can be found.

We must ensure that the purchasing power of older and disabled Americans remains strong. To that end, I look forward to working with my colleagues and the President to enact policies that will help rebuild retirement savings, restore lost asset value and achieve long-lasting financial security and independence.

HONORING OSCAR GUSTAVE  
MAYER, JR.

### HON. TAMMY BALDWIN

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Ms. BALDWIN. Madam Speaker, Rep. JACK KINGSTON and I rise today to honor the life and legacy of Oscar G. Mayer, Jr., of Madison, Wisconsin. Mr. Mayer's death last July was mourned by his widow, Geraldine, his family, the Madison community and the celebrated company he, his father and grandfather built over the past 125 years. Rosalie Harrison Mayer, his first wife of 56 years, passed away in 1998.

Starting with Oscar Mayer & Co. in Chicago in 1936 as a production trainee, Mr. Mayer devoted his entire business career to the company his grandfather started in 1883. After the deaths of his grandfather and father, Mr. Mayer served as President and later Chairman of Oscar Mayer & Co., leading the company through one of the most productive periods in its history.

Although raised in Illinois, Mr. Mayer moved to Madison, Wisconsin in 1946, while serving as Assistant to the Vice President of Operations. Then in 1957, as company president, Mr. Mayer moved Oscar Mayer & Co.'s headquarters to the Wisconsin state capital. Once rooted in Wisconsin, Oscar Mayer's generosity and kindness were felt in every corner of the greater Madison community.

An impassioned philanthropist, Oscar Mayer never shied away from an opportunity to help his community. Mr. Mayer was instrumental in turning the old Capitol Theater on State Street into Madison's first civic center. Mr. Mayer was a strong supporter of the Madison Arts Center and Elvehjem Art Museum and helped found the Alexis de Tocqueville Society, which has gone on to raise hundreds of thousands of dollars for the United Way of Dane County. "Do the right thing," was Mr. Mayer's philosophy in business and he carried that into his personal life, donating time, money and serv-

ices to various organizations and groups throughout Wisconsin, especially those who shared his love for the outdoors and sought to protect it. Additionally, in 2007, he was the inspiration for the establishment of the Oscar and Rosalie Mayer fund for Pediatric Care at Memorial Health University Medical Center in Savannah, Georgia.

Oscar Mayer's work and charity were widely recognized by his community. He received Honorary Doctor of Laws degrees from the University of Wisconsin—Madison in 1977, Beloit College in 1978, and later from Edgewood College in Madison in 1991. In 1990, Mr. Mayer became one of the first inductees into the Wisconsin Business Hall of Fame.

Oscar Mayer's devotion to his family, company, its employees, the state of Wisconsin and specifically the city of Madison has left a lasting impression. I join Rep. KINGSTON and the greater Madison community in honoring his life's work and loving spirit.

MARY MORRIS LAWRENCE

### HON. BARBARA LEE

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, October 15, 2009

Ms. LEE of California. Madam Speaker, I rise today to honor the extraordinary life of Mary Morris Lawrence. As a premier photographer, trailblazer and free spirit, she helped shatter the glass ceiling for female professionals by becoming one of the first female photojournalists ever hired by New York's Associated Press in November of 1936. Mary was also a vibrant inspiration to her family and friends as wife, mother and mentor. She passed away in her Oakland, California home on August 12, 2009, at the age of 95.

Over the span of her globe-trotting career, Mary was columnist and Hollywood photographer for New York's progressive tabloid PM, photojournalist for Look Magazine, and creator of a variety of award-winning projects. Her photo of composer Louis Hart even became a U.S. postage stamp.

Mary Morris Lawrence was born in Chicago, Illinois on March 27, 1914. She graduated from Sarah Lawrence College in 1936, and often attributed her distinct ambitions, creative prowess and "rebellious ideas" to the time she spent there. In the early years, colleagues described Mary as a hard worker with a knack for using her wit to gain access to great shots and poignant moments with her small Rolleiflex camera.

Mary spent six years in Hollywood during her first marriage with still photographer Ralph Steiner, with whom she had a daughter, Antonia Steiner. Her self-described aggressive nature and creative spirit helped her commingle with movie stars. Sunday magazine pieces for PM featured Mary's trademark, sleek, black-and-white portraits of silver screen luminaries. Her work included shots of Sophia Loren, Gene Kelly, Marilyn Monroe, Humphrey Bogart and many others.

Afterward, Mary returned to New York as a magazine freelancer, producing work for Life, Mademoiselle and other publications. She also started an advertising business out of a Midtown brownstone.

In 1963, she married Harold Lawrence, producer for Mercury Records, and subsequently General Manager of the London Symphony Orchestra and Manager of the New York Philharmonic. The family settled in Oakland when Harold Lawrence was named president and General Manager of the Oakland East Bay Symphony in 1977.

Mary volunteered locally for the League of Women Voters, ERA, Oakland Potluck and Neighborhood Newsletter Task Force. She

continued her work, photographing music legends like Michael Tilson Thomas and Calvin Simmons. She also became a creative partner in her husband's film documentaries, later devoting her photographic skills to occasional projects for friends.

Mary Morris Lawrence's tenacious zest for life will inspire generations to come. In her life she overcame many obstacles, including surviving a brain tumor in her fifties.

She recently celebrated her 95th birthday with friends at a belly-dancing restaurant, and

undoubtedly, her convivial spirit will continue to be a powerful gift to the people she cherished most. She will be remembered for her unparalleled passion, wit and bravery.

Today, California's 9th Congressional District salutes and honors an incredible and beloved human being, Mary Morris Lawrence. We extend our deepest condolences to Mary's husband, daughter, goddaughter, family and friends. May her soul rest in peace.

## HOUSE OF REPRESENTATIVES—Friday, October 16, 2009

The House met at 11 a.m. and was called to order by the Speaker pro tempore (Ms. EDWARDS of Maryland).

### DESIGNATION OF THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore laid before the House the following communication from the Speaker:

WASHINGTON, DC,  
October 16, 2009.

I hereby appoint the Honorable DONNA F. EDWARDS to act as Speaker pro tempore on this day.

NANCY PELOSI,  
*Speaker of the House of Representatives.*

### PRAYER

The Chaplain, the Reverend Daniel P. Coughlin, offered the following prayer:

Lord our God, is it some hidden fear of Your power or just our own unfaithful character that causes us to distance ourselves from You? Rather than see You as walking every step of the way with us, we choose at times to keep You in the heavens. Rather than seek You in our everyday undertakings, we put off meeting You to the next life. Why, O Lord?

Scripture reveals Your desire to be our companion and guide, whether in Israel or on the road to Damascus. It is Your friendship we need.

As close friends, we need to listen to each other. Every step of life's journey invites us to draw closer together. Unlike our friends in this world, Lord, You will never abandon us when we are troubled or in need.

We are truly blessed, Lord, if we can rest in Your friendship and place all our trust in You as individuals and as a nation.

Amen.

### THE JOURNAL

The SPEAKER pro tempore. The Chair has examined the Journal of the last day's proceedings and announces to the House her approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

### PLEDGE OF ALLEGIANCE

The SPEAKER pro tempore. The Chair will lead the House in the Pledge of Allegiance.

The SPEAKER pro tempore led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Repub-

lic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### ADJOURNMENT

The SPEAKER pro tempore. Without objection, the House stands adjourned until 12:30 p.m. on Tuesday next for morning-hour debate.

There was no objection.

Accordingly (at 11 o'clock and 3 minutes a.m.), under its previous order, the House adjourned until Tuesday, October 20, 2009, at 12:30 p.m., for morning-hour debate.

### EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of Rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

4139. A letter from the Acting Assistant Secretary, Department of Labor, transmitting annual report on Operations of the Office of Workers' Compensation Programs for Fiscal year 2006; to the Committee on Education and Labor.

4140. A letter from the Assistant Secretary, Energy Efficiency and Renewable Energy, Department of Energy, transmitting the Department's report entitled, "Implementation Report: Energy Conservation Standards Activities", pursuant to Section 141 of the Energy Policy Act of 2005; to the Committee on Energy and Commerce.

4141. A letter from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting the Commission's final rule — Amendment of Section 73.622(i), Final DTV Table of Allotments, Television Broadcast Stations. (Flagstaff, Arizona) [MB Docket No.: 08-110] received September 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4142. A letter from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting the Commission's final rule — Amendment of Section 73.622(i), Final DTV Table of Allotments, Television Broadcast Stations. (Boston, Massachusetts) [MB Docket No.: 09-142] received September 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4143. A letter from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting the Commission's final rule — Amendment of Section 73.622(i), Final DTV Table of Allotments, Television Broadcast Stations. (Chicago, Illinois) [MB Docket No.: 09-146] received September 24, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4144. A letter from the Chief of Staff, Media Bureau, Federal Communications Commission, transmitting the Commission's final rule — Amendment of Section 73.622(i), Final DTV Table of Allotments, Television Broadcast Stations. (Fort Worth, Texas) [MB Docket No.: 09-132] received September 24,

2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4145. A letter from the Chief, Policy Division, International Bureau, Federal Communications Commission, transmitting the Commission's final rule — Procedures to Govern the Use of Satellite Earth Stations on Board Vessels in the 5925-6425 MHz/3700-4200 MHz Bands and 14.0-14.5 GHz/11.7-12.2 GHz Bands [IB Docket No.: 02-10] received September 11, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Energy and Commerce.

4146. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting the Department's report pursuant to U.S. Policy in Iraq Act, Section 1227(c) of the National Defense Authorization Act for Fiscal Year 2006 (Pub. L. 109-163), as amended by Section 1223 of the National Defense Authorization Act for Fiscal Year 2008 (Pub. L. 110-181); to the Committee on Foreign Affairs.

4147. A letter from the Assistant Secretary, Legislative Affairs, Department of State, transmitting presidential certification and a memorandum of justification to permit U.S. contributions to the International Fund for Ireland with FY 2008 and 2009 Funds; to the Committee on Foreign Affairs.

4148. A letter from the Senior Advisor and Executive Secretary, Export-Import Bank, transmitting a report pursuant to the Federal Vacancies Reform Act of 1998; to the Committee on Oversight and Government Reform.

4149. A letter from the Chairman, International Trade Commission, transmitting the seventh edition of the United States International Trade Commission's Strategic Plan, which covers the period from fiscal year 2009 through fiscal year 2014; to the Committee on Oversight and Government Reform.

4150. A letter from the Director, Administrative Office of the United States Courts, transmitting the 2008 report on statistics mandated by the Bankruptcy Abuse Prevention and Consumer Protection Act of 2005; to the Committee on the Judiciary.

4151. A letter from the Director, Administrative Office of the United States Courts, transmitting the Office's report entitled, "Report of the Proceedings of the Judicial Conference of the United States" for the March 2009 session; to the Committee on the Judiciary.

4152. A letter from the Chairman, Commission on Civil Rights, transmitting a report entitled "Department of Justice Voting Rights Enforcement for the 2008 Presidential Election"; to the Committee on the Judiciary.

4153. A letter from the Attorney Advisor, Department of Homeland Security, transmitting the Department's final rule — Safety Zone: USCG Barque Eagle transits of Rockland Harbor, ME, Portland Harbor, ME and Portsmouth Harbor, NH [Docket No.: USCG-2009-0685] (RIN: 1625-AA00) received September 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4154. A letter from the Attorney, Department of Homeland Security, transmitting

□ This symbol represents the time of day during the House proceedings, e.g., □ 1407 is 2:07 p.m.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

the Department's final rule — Safety Zone; Festivus, Lower Colorado River, Bullhead City, AZ [Docket No.: USCG-2009-0454] (RIN: 1625-AA00) received September 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4155. A letter from the Attorney, Department of Homeland Security, transmitting the Department's final rule — Safety Zone; Hornblower Cruises Fleet Week Fireworks Display, San Francisco Bay, CA [Docket No.: USCG-2009-0631] (RIN: 1625-AA00) received September 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4156. A letter from the Attorney Advisor, Department of Homeland Security, transmitting the Department's final rule — Anchorage Regulations; Port of New York and Vicinity [Docket No.: USCG-2008-0047] (RIN: 1625-AA01) received September 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4157. A letter from the Attorney Advisor, Office of Regulations and Administrative Law, Department of Homeland Security, transmitting the Department's final rule — Definition of Marine Debris for Purposes of the Marine Debris Research, Prevention, and Reduction Act [USCG-2007-0164] (RIN: 0648-AV68; 1625-AB24) received September 25, 2009, pursuant to 5 U.S.C. 801(a)(1)(A); to the Committee on Transportation and Infrastructure.

4158. A letter from the Chief Privacy Officer, Department of Homeland Security, transmitting a report entitled, "Privacy Office Annual Report to Congress"; to the Committee on Homeland Security.

4159. A letter from the Chairman, Railroad Retirement Board, transmitting the Board's budget request for the Office of the Inspector General of the Railroad Retirement Board for fiscal year 2011, in accordance with Section 7(f) of the Railroad Retirement Act, pursuant to 45 U.S.C. 231f(f); to the Committee on Oversight and Government Reform.

#### REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. OBERSTAR: Committee on Transportation and Infrastructure. H.R. 3619. A bill to authorize appropriations for the Coast Guard for fiscal year 2010, and for other purposes; with an amendment (Rept. 111-303 Pt. 1). Referred to the Committee of the Whole House on the State of the Union.

#### DISCHARGE OF COMMITTEE

Pursuant to clause 2 of rule XII the Committee on Homeland Security discharged from further consideration. H.R. 3619 referred to the Committee of the Whole House on the State of the Union.

#### REPORTED BILL SEQUENTIALLY REFERRED

Under clause 2 of rule XII, bills and reports were delivered to the Clerk for printing, and bills referred as follows:

Mr. OBERSTAR: Committee on Transportation and Infrastructure. H.R. 3619. A bill to authorize appropriations for the Coast Guard for fiscal year 2010, and for other purposes; with an amendment; referred to the Committee on Homeland Security for a period ending not later than October 16, 2009.

#### TIME LIMITATION OF REFERRED BILL

Pursuant to clause 2 of rule XII the following action was taken by the Speaker:

H.R. 2989. Referral to the Committee on Ways and Means extended for a period ending not later than November 13, 2009.

#### ADDITIONAL SPONSORS

Under clause 7 of rule XII, sponsors were added to public bills and resolutions as follows:

H.R. 3258: Mr. BERMAN.

H.R. 3801: Mr. ANDREWS.

H. Res. 828: Mr. WITTMAN, Mr. CONAWAY, Mr. PLATTS, Mr. WOLF, Mr. ROE of Tennessee, Mr. MICA, Mr. ABERCROMBIE, Mr. BUYER, Mr. HARPER, Mr. YOUNG of Alaska, Mr. OLSON, Mr. MILLER of Florida, Mr. BOOZMAN, Mr. BROWN of South Carolina, Mr. WU, Mr. LAMBORN, Mr. ISSA, Mr. SESSIONS, Mr. HONDA, and Mr. KINGSTON.

## EXTENSIONS OF REMARKS

### A TRIBUTE TO UNITED STATES MARINE LIEUTENANT GENERAL SAMUEL T. HELLAND

#### HON. DARRELL E. ISSA

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. ISSA. Madam Speaker, I rise today to honor and pay tribute to an individual whose dedication and contributions to the United States Marine Corps are exceptional.

Our country has been fortunate to have dynamic and dedicated leaders who willingly and unselfishly give their time and talent to keep this country free and safe. United States Marine Lieutenant General Samuel T. Helland is one of these individuals.

Lt. General Helland earned a Bachelor of Science Degree from the University of Minnesota, Duluth and holds a Master of Science Degree from Troy State University. He is a graduate of the Marine Corps Command and Staff College and the National Defense University, Industrial College of the Armed Forces.

Lt. General Helland started his military career by enlisting in the Army in 1968. He served three years with the U.S. Army Special Forces, leaving after a combat tour of duty in Vietnam with the 5th Special Forces Group (ABN), Military Advisory Command (Special Observations Group). Lt. General Helland graduated from Marine Officer Candidate School in 1973, and was designated a Naval Aviator in 1974. He is qualified as a CH-53 pilot.

Lt. General Helland has served in many different capacities over the years; Lt. General Helland served with the Amphibious Units, Aviation Combat Elements, and Joint Task Forces. He has participated in exercises and contingency operations ranging from the Arctic Circle, throughout the Mediterranean and Caribbean Seas, the Persian Gulf, and the Horn of Africa.

His assignments include Staff Officer for the Logistics Officer for the Marine Aircraft Group 26, Operations Officer for Marine Heavy Helicopter Squadron 461, MAG 40, Joint Staff Officer in the J-7, Command of the 22nd Marine Expeditionary Unit (MEU), Deputy Commander JTF-Shining Hope, US Joint Forces Command, Norfolk VA, US Marine Corps Forces South, Commanding General Fleet Marine Forces South, Assistant Deputy Commandant for Aviation. In May 2004, Lt. General Helland assumed command of Combined Joint Task Force, Horn of Africa. From August 2005 to July 2007, Lt. General Helland commanded the 3rd Marine Aircraft Wing, MCAS Miramar San Diego, California. In July 2007, he assumed duty as Deputy Commanding General I MEF Camp Pendleton, CA before assuming his present assignment as Commanding General I MEF; Commander, Marine Corps Forces Central Command.

His decorations include the Bronze Star, Legion of Merit, Purple Heart, Meritorious Service Medal with gold star, Defense Superior Service Medal, Navy and Marine Corps Commendation Medal with gold star, Navy and Marine Corps Achievement Medal, Combat Action Ribbon with one star, and various service and unit awards.

Lt. General Helland's tireless passion for service has contributed to the betterment of this country. On the occasion of his retirement and on behalf of the people of the United States whom he has served with courage and honor, we commemorate the service of Lieutenant General Samuel T. Helland.

H. RES. 627

#### HON. RICK LARSEN

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. LARSEN of Washington. Mr. Speaker, I rise today to express my thanks for the service of the men and women of the 81st Brigade Combat Team and all of the Washington National Guard.

In August of 2008, over 2,400 Washington State Guardsmen and women in the 81st BCT mobilized for deployment. After several weeks of training at Fort McCoy, the unit deployed for ten months of service in Iraq.

The 81st BCT's primary missions in Iraq were providing security to convoys, protecting U.S. forces, and engaging in provincial reconstruction. They performed these missions admirably, and the unit returned home in August of 2009.

Unfortunately, one soldier in the 81st BCT, Specialist Samuel Stone, was killed in Iraq earlier this year. I am deeply sorry for the loss that his friends and family must feel. We will not forget his sacrifice for our country.

It is an honor to represent so many of the men and women who make up the 81st BCT, the Washington National Guard, and the Air National Guard as well as the families who support them.

Over 11,000 members of the Washington National Guard have been mobilized since September 11, 2001, for service in Iraq and in response to domestic emergencies such as Hurricane Katrina. Their service helps keep our nation strong and free.

I congratulate the 81st BCT on the occasion of their return from Iraq. I thank them and all our men and women in uniform for the sacrifices they make on behalf of our country.

### A TRIBUTE TO JAMES "ROCKY" ROBINSON, JR.

#### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of James "Rocky" Robinson, Jr., founder of the Bedford-Stuyvesant Volunteer Ambulance Corps (BSVAC) and an inspiration to the community of Brooklyn.

James ("Rocky") Robinson, Jr. was born on July 15, 1940, in Marietta, North Carolina, to Betty and James Robinson. When he was still an infant, his family moved to Brooklyn, New York, where Rocky was raised. After attending Eastern District High School in the Williamsburg section of Brooklyn, Rocky served five years in the United States Army. His army duty included serving as a member of the Honor Guard, posted at the Arlington National Cemetery, where he stood guard during the visits of Jackie Kennedy and her children to John F. Kennedy's grave.

After leaving the military, Rocky joined New York City's Emergency Medical Service (EMS) where he served the city for more than 30 years, before retiring in 2000. His career with EMS was marked by many accomplishments. In 1977 he was promoted to Lieutenant, and in 1994 he became a Captain. Through his work with EMS, Rocky witnessed the crisis in emergency medical services in New York's minority communities. To respond to these crises, in 1988 Rocky co-founded the Bedford-Stuyvesant Volunteer Ambulance Corps ("BSVAC"), America's first minority volunteer ambulance corps.

The remarkable story of Rocky and BSVAC has been told in print, on the radio and on television. BSVAC first began operations with no ambulance and no volunteers, at a point when the response time in Bedford-Stuyvesant for city ambulances averaged about 30 minutes. In the beginning, Rocky and his partner, Spec. Joe Perez, responded on foot to the calls they heard on their police radio. Eventually, BSVAC established a record-breaking ambulance service that has responded to over 400 emergency calls a month with an average response time of less than four minutes.

Through BSVAC, Rocky has worked tirelessly to help the Bedford-Stuyvesant community. Rocky designed a comprehensive emergency medical training program including trauma troopers, First Responders, and youth corps. To date, thousands of local residents have been trained to save lives in emergencies. In addition, hundreds of young people have completed the youth corps program (basic EMT training); almost 100% of the graduates have become EMTs or have otherwise pursued careers in medicine as a nurse, physician's assistant, or doctor. Although he has concentrated his efforts on Bed-Stuy,

● This "bullet" symbol identifies statements or insertions which are not spoken by a Member of the Senate on the floor.

Matter set in this typeface indicates words inserted or appended, rather than spoken, by a Member of the House on the floor.

Rocky has reached out to other minority communities, from Harlem to Los Angeles, providing emergency medical training and assistance in setting up programs. Closer to home, in 1993, Rocky responded to the first World Trade Center incident with BSVAC; he also responded on 9/11 when BSVAC volunteers saved a firefighter's life.

Rocky's ability to inspire led him to being chosen to address the Republican National Convention in Houston, Texas in 1994. For his remarkable accomplishments and ongoing efforts, Rocky has received numerous awards, including: Robin Hood Foundation Hero of the Year Award, New York City Award, American Institute for Public Service Jefferson Award, Points of Light Award (Awarded by George Bush), and Maxwell House Hero Search Award. Among the many honors he has received, Rocky was selected to carry the Olympic torch down Fifth Avenue in New York City, en route to Atlanta, in 1996. Rocky's status as a hero was even recognized by the children of Wilkes Country Elementary School in North Carolina, who named him as their black hero in 1998. (Choosing him by a landslide over the other candidates, including Michael Jordan). Of all the honors and awards that Rocky has earned, he describes his greatest reward as the satisfaction he enjoys from seeing young people succeed in medical careers after training with BSVAC.

Madam Speaker, I urge my colleagues to join me in recognizing James "Rocky" Robinson, an "on-call," unselfish community servant.

#### HONORING THE POINTS OF LIGHT INSTITUTE

#### HON. CAROLYN MCCARTHY

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mrs. MCCARTHY of New York. Madam Speaker, I rise today to recognize an important milestone in the history of an organization that has made a difference in the lives of many Americans and many communities across the nation—the Points of Light Institute.

Twenty years ago, a newly-inaugurated President George H.W. Bush challenged us to "bring in the generations, harnessing the unused talent of the elderly and the unfocused energy of the young . . . to spread like stars throughout the Nation, doing good." It was this challenge that became the foundation of the Points of Light initiative. President Obama dramatically expanded this movement with his leadership of the bipartisan Edward M. Kennedy Serve America Act, legislation that I sponsored, which was signed into law earlier this year.

The Points of Light Foundation recently merged with Hands On Network to form the Points of Light Institute. This organization has been transforming American lives and communities around the nation, offering tangible and meaningful ways for people to serve.

In 2008, the Points of Light Institute and its 250 Hands On volunteer action centers engaged over 1.2 million volunteers in service and managed over 520,000 volunteer projects.

The value of this service is over \$600 million, a remarkable contribution to the health and welfare of American communities from Seattle to Miami.

One of Points of Light's affiliates is the Long Island Volunteer Center headquartered in my Congressional District. Daily, this great local organization connects individuals and groups to help nonprofit organizations expand programs and services that improve the environment, mentor at-risk youth, assist the elderly, help hungry and homeless people, and enhance appreciation of cultural arts.

Congratulations to Points of Light on this 20 year anniversary and for the many acts of service that have improved the lives of those in need in our midst. We all look forward to many more years of inspiring work.

Madam Speaker, it is with pride and admiration I offer my thanks and recognition to Points of Light Institute.

#### A TRIBUTE TO ERMA A. WINSLOW

#### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Erma A. Winslow, a dedicated educator and community servant.

Erma Winslow is a retired administrator and guidance counselor for the New York City Board of Education. Ms. Winslow was a counselor and assistant to the principal at Joan of Arc Junior High School, a guidance counselor at Junior High School 258, and a guidance counselor at Richmond Hill High School. While working for the Board of Education, Ms. Winslow was committed to providing quality counseling to elementary, middle, and high school students. Ms. Winslow's areas of expertise are in education, special education, guidance and counseling, curriculum development, recreation, library and media services.

Ms. Winslow holds a Master's Degree in Health Education from Columbia University, a Master's Degree in Guidance and Counseling from Fordham University, and a Bachelor's Degree in Health and Recreation from Talladega College in Alabama. She was founder and chair of Bedford Stuyvesant Community Block Association. She is also the recipient of a community service award and a guidance counselor award for her tireless service to the New York City Board of Education.

Erma has successfully counseled junior high and high school students, assisting them in meeting their academic, personal and social needs, so they could be active in the communities in which they live.

Madam Speaker, I urge my colleagues to join me in recognizing Erma A. Winslow.

#### A TRIBUTE TO TERESA COAXUM

#### HON. EDOLPHUS TOWNS

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Teresa Coaxum, a tireless leader in the community.

Born and raised in Walterboro, South Carolina, Ms. Coaxum began her career at Johnson C. Smith University in Charlotte, North Carolina at the age of 16. Shortly after her first semester she moved to New York and completed her Bachelor's degree and later her Master's degree at John Jay College of Criminal Justice. Ms. Coaxum would later graduate from Harvard's Kennedy School of Government's Senior Managers in Government Executive Program. Always one to know the true importance of education, Ms. Coaxum is also a graduate of Coro Leadership New York XV.

In Ms. Coaxum's former job, she served as Project Manager of Community Relations under Brooklyn District Attorney, Charles Hynes. There she addressed the needs of residents in Crown Heights, Prospect Heights, Bedford-Stuyvesant, Stuyvesant Heights, East Flatbush, and Bushwick by successfully coordinating community agencies, organizations, churches and elected officials in major initiatives such as ComALERT (Community and Law Enforcement Resources Together), a district attorney program that assists people on probation and parolees in getting jobs, training and education in Crown Heights and Bedford Stuyvesant.

Ms. Coaxum has worked tirelessly to empower New York residents through her commitment to community and human services. In her current position, she works countless hours directing community outreach and planning in NYC, assisting in the management of Senator SCHUMER's eight regional offices, as well as advising the Senator and his Washington, D.C. staff on key policy issues.

Ms. Coaxum is a lifetime member of the NAACP. She serves on several committees such as John Jay College of Criminal Justice Alumni Association as the 2nd Vice President, Interfaith Medical Center Auxiliary, Church Women United, Community Board 8, Partnership for Youth and Community Empowerment, Brooklyn Blizzard Youth Organization, The Women's Caucus for Ed Towns, and Brooklyn Young Democrats.

In recognition of her loyalty and service, Ms. Coaxum was selected as one of The Network Journal's "Top 40 under 40 Dynamic Leaders" in June 2009, and as one of City Hall News' "Rising Stars 40 under 40". She received the John Jay College Alumni of the Year Award, various community service awards from Concord Family Services and the 77th, 79th, 81st, 83rd Precinct Community Councils. Among her many honors and recognitions, she has also received The Harriet Tubman Humanitarian Award and Proclamations from Senator Carl Andrews and Brooklyn Borough President Marty Markowitz, as well as Special Recognition from Congressman EDOLPHUS "Ed" TOWNS, and Citations from Assemblyman Vito Lopez, New York City Councilmembers Erik

Dilan and Diana Reyna, and former Councilman James E. Davis for dedication and hard work in the community.

Madam Speaker, I urge my colleagues to join me in recognizing this relentless and dynamic community leader.

A TRIBUTE TO REVEREND ANDRÉ  
RAMÓN SOLEIL

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Reverend André Ramón Soleil, a seasoned lawyer, artist and entrepreneur with an extraordinary life story.

Reverend Soleil was raised in New Hope Baptist Church, Niagara Falls, New York, a church founded by his great-grandparents during the great migration of African-Americans northward to New York from North Carolina in the early 1900s. He was a member of the choir, an usher and a Sunday school teacher. At age 12, André confessed Jesus as Lord, was baptized and filled with the Holy Spirit. At 13, Pastor Belk recognized God's call on André's life and began training him for ministry as an "acolyte".

Mr. Soleil is a talented artist and his drawings, paintings and craftworks have been displayed at cultural events and museums since his pre-teens. Mayor Michael O'Laughlin honored the 15-year-old Soleil by appointing him to the Niagara Falls Council of the Arts for his role in many school and community productions in semi-professional and professional regional productions of *The Wiz*, *Pippin*, and *Jesus Christ Superstar*, to name a few.

In 1985, André Soleil came to New York at 17 and attended Parsons School of Design, majoring in illustration and painting. In 1989, André Soleil's son, Donald, was born. While looking for work after the closing of "Little Wing", Reverend Soleil took a part time job at the New York Public Interest Group, Inc. Soon after Reverend Soleil was promoted to Department Director, he began his career in activism, law and politics. Reverend Soleil was appointed by then Manhattan Borough President Ruth Messinger to Manhattan's Community Board 12. Mayor Giuliani next appointed Mr. Soleil to the position of Executive Liaison in the Mayor's Office of Legislative Affairs to the Public Health, Human Rights, General Welfare and Cultural Affairs Committees of the New York City Council. Subsequently, Governor George Pataki appointed Mr. Soleil to the Executive Chamber staff as Assistant Secretary for Legislative and Intergovernmental Affairs. A year later, in 1996, Reverend Soleil completed his Bachelor of Science degree in Psychology from LaSalle University, cum laude.

Mr. Soleil attended City University of New York School of Law at Queens College from 1999 to 2002, where he then became President of the Class of 2002 and Editor-in-Chief of the *New York City Law Journal* in 2000. In 2000, America's Black Law Student Association elected André National Executive Director of the National Black Law Student's Association's 73 Chapters and 8,000 members; and in

2001, these students elected him to the Board of Governors of the National Bar Association. In 2002, Reverend Soleil graduated, achieving his Juris Doctorate and his Master of Arts degree in Business Administration and Media Management, with honors from Metropolitan College of New York.

In 2003, Reverend Soleil returned to the work of Jesus Christ and His church. In 2004, Bishop Dr. Wesley J. Wiley and the Elders of the Resurrection Temple of Our Lord ordained Mr. Soleil as a Reverend. Rev. Soleil then entered Columbia Evangelical Seminary to obtain his Doctorate of Ministry. In 2003, Reverend Soleil was admitted to the Bar of the State of New York and founded his law firm, Soleil & Company, P.C., which was opened out of his apartment's living room. In six years, Soleil & Company, P.C. now employs four attorneys, six staff members, and is known for innovative litigation, criminal defense and mortgage/foreclosure defense work. Soleil & Company, P.C. has taken Mayor Bloomberg to task as lead counsel in the matter of *Cohen v. Bloomberg*, a citizens' lawsuit to block the Mayor's destruction of the term limits law, and has developed a reputation for innovative legal practice in criminal, real-estate, civil rights and family law practice.

Rev. Soleil founded Christian Way, Ltd. in 2007, a non-profit advocacy and research group dedicated to the development, protection and promotion of Christianity as a way of life. He also hosts a daily early-morning radio bible study program, "Breakfast with the Bible," that is carried by Massachusetts and Texas based radio and Internet broadcasts.

Madam Speaker, I urge my colleagues to join me in recognizing Reverend André Ramón Soleil.

A TRIBUTE TO LANCE GOODWIN

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Lance Goodwin, a devoted community servant who has done so much for our community by establishing Trucked Out, Inc., a parent organization for a number of clubs. Lance's vision expanded to form Trucked Out Divas SUV Club and Trucked Out SUV Social Club. These clubs partner with politicians, police precincts, churches, and community organizations for the betterment of their neighborhoods.

Mr. Goodwin attended New York City public schools and graduated from George Westinghouse High School. Upon graduating, Mr. Goodwin opted to work so that he could have an income which would make him more independent. After several jobs, he landed an ideal job with the phone company Bell Atlantic, now Verizon. It was during this time that he started the Trucked Out SUV Club with the help of friends. He envisioned him and his friends making a difference in the lives of those they encountered on a daily basis. The members of Trucked Out SUV Club consider themselves to be blessed to be able to afford their vehicles in which they ride and established a model of

responsible living for their peers. Lance also saw the need for strong male influences in the lives of children at his son's High School PTA meetings.

Trucked Out's members are all firm believers in the saying "each one teach one". Trucked Out has sponsored a variety of community events over the years and will continue to do so every year, most notably, their Back to School Giveaway, a Halloween Party for the women in need of shelter. Trucked Out gives out over one thousand toys each holiday season and hosts several teen parties at its clubhouse so our teens have a place to go and enjoy themselves without fear of violence. Trucked Out is also a sponsor of the New York Warriors kid's football team.

Whether it is to protest an act of violence, a crime against a member of the community, a vigil to remember the life of someone or to go to a funeral to give support to a grieving family, Trucked Out will continue to help out in any way it can in our communities.

Madam Speaker, I urge my colleagues to join me in recognizing Lance Goodwin.

A TRIBUTE TO COUNCILMAN BILL  
DE BLASIO

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Councilman Bill de Blasio, a tenacious leader in the community and an inspiration to all of New York.

Bill de Blasio understands the importance of education. He earned his Bachelor of Arts degree in Urban Studies from New York University; he then attended Columbia University and earned a Master of Arts degree in International and Public Affairs.

Councilman de Blasio began his impressive political career in New York City government in the 1989 David Dinkins mayoral race. Following the campaign, Mr. de Blasio served as an aide in Dinkins' Administration, where he worked on projects such as the Safe Streets, Safe City initiative to reduce crime throughout New York City. While working at City Hall under Mayor Dinkins and later with the City Council, he learned first hand how city government works. He used this knowledge in the passage of key legislation establishing New York City's domestic partnership program. Later, Mr. de Blasio would eventually manage Hillary Rodham Clinton's successful run for Senate.

From working for the parents of Community School District 15, where he helped spearhead some of the most comprehensive reforms in the city, such as capping first grade class size at 20 students and establishing universal Pre-Kindergarten; to serving as the highest-ranking official in the New York/New Jersey region for the U.S. Department of Housing and Urban Development, Mr. de Blasio fights the tough fights and wins. As a member of the New York City Council, he continues to serve the people of New York, and specifically the residents of Brooklyn's 39th Council District. Mr. de Blasio's most recent

accomplishment is becoming the New York City Democratic Party's Public Advocate-Elect.

Throughout Mr. de Blasio's career, the common thread that runs through is his desire to better the quality of life for all New Yorkers by improving public education, creating affordable housing and fighting discrimination based on race, religion, physical disability or sexual orientation. He has been instrumental in directing increased federal funding for affordable housing, senior citizen housing and economic development in the region.

Madam Speaker, I urge my colleagues to join me in recognizing New York City Councilman Bill de Blasio, who is expected to be our City's Public Advocate. He is a dynamic community leader and true public servant.

---

A TRIBUTE TO EDNA M. JOHNSON

**HON. EDOLPHUS TOWNS**

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

*Friday, October 16, 2009*

Mr. TOWNS. Madam Speaker, I rise today in recognition of Edna M. Johnson, a model citizen and extraordinary leader in the community.

Edna Johnson was born and raised in a small steel mill town in Clairton, Pennsylvania,

the youngest of nine children. Ms. Johnson began singing at the age of seven and, because of her love of music, Ms. Johnson began singing in several different locales, including church and eventually as member of the group "Naomi Shelton and the Gospel Queens".

After graduating from Clairton High School, she relocated to New York City. She found solace with her church family when she joined Broadway United Church of Christ, where she served as Deacon, Trustee and Steward. Never forgetting the importance of education that her parents instilled in her, Ms. Johnson's church family assisted her with attending Pace University. She would later receive her Bachelor of Arts degree in Political Science.

Ms. Johnson has always understood the importance of service, working as a parent organizer in the public schools and as a tenant organizer. She was the first to successfully implement the Neighborhood Revitalization Program with New York City Department of Housing Preservation and Development. While living in Manhattan, she became chairperson of the Tenant Association in Clinton Towers for five years. She also chaired the 79th Precinct Community Council for six years, where she helped facilitate a more cohesive relationship between the people and the local police.

Always eager to serve, she is currently a member of Community Board 3 and has received several citations for perfect attendance. In her first year on the Board, she was Chairperson of the Police, Fire and Safety Committee. Ms. Johnson now serves on the Health Hospital and Social Science Committee. She also serves as first Vice President for Northeast Brooklyn Housing Company Inc. and Second Vice President for the African American Planning Commission Inc.

Ms. Johnson currently serves as Special Assistant to the Honorable EDOLPHUS "Ed" TOWNS, navigating federal agencies on behalf of hundreds of constituents and serving as a liaison to the broader community.

In recognition of her services, she has received citations from Congressman EDOLPHUS TOWNS, City Councilmember Annette Robinson, The New York City Police Department, The 79th Precinct Council, The Brooklyn Job Corps, A.I.D.P. at P.S.26, Hebron Baptist Church, Greater Cross Road Baptist Church, Bridge Street Development Corporation, The Bedford Stuyvesant Community Block Association and The National Night Out Committee.

Madam Speaker, I urge my colleagues to join me in recognizing Ms. Edna M. Johnson, a tireless community organizer, and dedicated servant of the public.

## SENATE—Monday, October 19, 2009

The Senate met at 2 p.m. and was called to order by the Honorable MARK R. WARNER, a Senator from the Commonwealth of Virginia.

### PRAYER

The Chaplain, Dr. Barry C. Black, offered the following prayer:

Let us pray.

O God, You are our refuge. When we are exhausted by life's efforts or bewildered by life's problems or wounded by life's sorrows, we come to You for shelter.

Strengthen our lawmakers for their challenging work. When their tasks are beyond their power and duty calls for more than they have to give, renew them with Your might. Help them to believe in Your power and to be certain that You are able to do for them above all that they can ask or think. Strong Deliverer, be for each of them a strength and shield in these momentous times.

We pray in Your sovereign Name. Amen.

### PLEDGE OF ALLEGIANCE

The Honorable MARK R. WARNER led the Pledge of Allegiance, as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

### APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore (Mr. BYRD).

The legislative clerk read the following letter:

U.S. SENATE,  
PRESIDENT PRO TEMPORE,  
Washington, DC, October 19, 2009.

To the Senate:

Under the provisions of rule I, paragraph 3, of the Standing Rules of the Senate, I hereby appoint the Honorable MARK R. WARNER, a Senator from the Commonwealth of Virginia, to perform the duties of the Chair.

ROBERT C. BYRD,  
President pro tempore.

Mr. WARNER thereupon assumed the chair as Acting President pro tempore.

### RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. The majority leader is recognized.

### HEALTH CARE REFORM

Mr. REID. Mr. President, fixing a system so badly damaged by decades of

mismanagement and manipulation is not an easy task. It is no secret that health care is no exception.

We are not doing it simply to keep us busy; that is, legislate on health care. We have a bevy of other backbreaking problems that have piled up over the past 8 years—everything from energy, to education, to Wall Street abuses—only to be passed on to this Congress and the Obama administration.

Nor are we doing it because the health insurance industry wants us to do it; just the opposite. In fact, they are doing all they can to protect their reckless policies and raging profits.

We are doing this legislating on health care because the American people demand that we do it. Families of all backgrounds and from every State are counting on us to act. Last November, it was one of the primary reasons they called on Democrats to correct our country's course.

The American people are closely watching this debate. They are listening to the policies being proposed, and they can see the strategies employed toward those ends. They are watching, and here is what the American people are saying in response: Nearly two-thirds of them know Republicans are not working in good faith with Democrats to reform America's broken health insurance system.

They are right. While we have made every effort to create a good bill that can earn the support of as many Senators as possible, Republicans have made every effort to stop any bill, regardless of what is in that bill.

How do we know this? We know this because Republicans have offered no ideas for reform. We know this because while they talk in the abstract about proposals, they have yet to offer any of their own. But, most of all, we know this because Republicans say it themselves.

In August, the junior Senator from Arizona predicted that almost all Republicans would oppose health insurance reform, regardless of any concessions Democrats made.

Then the senior Senator from Oklahoma said—and I quote—

I don't have to read it, or know what's in it. I'm going to oppose it anyways.

Then I opened this morning's Roll Call newspaper—this newspaper that covers Congress—and read a disturbing headline, one that confirms what nearly two-thirds of the American people already know and should convince the rest. It reads: "GOP Launches Strategy to Trip Up Health Bill."

If Republicans truly want to legislate, shouldn't this headline read "GOP

Launches Strategy to Improve Health Bill"? Wouldn't we all benefit from the GOP launching a strategy to strengthen the health bill? Wouldn't it be better for the millions who fear losing their health insurance, and for the millions who do not have any to begin with, if we would open the morning newspaper and read even this: "GOP Launches Strategy to Contribute to Health Bill"? But, no, none of that.

The truth is that they have no interest in improving or contributing to health reform and strengthening it or contributing to its improvement in any way. Instead, Republicans have one strategy—and one strategy alone—support the broken status quo.

Republicans want to "trip up" our plan to protect what works about the system, fix what does not, and help the middle class get ahead. That is because they do not mind the fact that insurance companies can deny you coverage when you need it the most or because you have a preexisting condition, defined as anything from high cholesterol to hay fever to heart disease to diabetes.

Republicans want to "trip up" our plan to stabilize health insurance for those who have it and help secure it for those who do not. That is because they think it is OK for insurance companies to raise your rates just for getting old or because your dad had prostate cancer or because you are a woman.

Republicans want to "trip up" our plan to keep the insurance industry honest and to protect Medicare. That is because they support a status quo that forces families fortunate enough to have health insurance to pay an extra \$1,000 or more every year to cover all other families who have none.

Republicans want to "trip up" our plan to lower costs for families and make sure every American can afford good quality care that can never be taken away. That is because they simply do not have any ideas for helping the American people—even people in their own States—who are suffering so desperately.

Republicans will do everything in their power to stop reform this time because for many on the other side, there will never be a good time to reform health insurance.

That is not what our constituents sent us here to do, and that is not how to legislate.

I spent this past weekend in Nevada and heard firsthand from people who are suffering. Today we learned our State's unemployment rate rose again. One example: It is not a bunch of people out of work or people who do not

have good jobs who are complaining about health insurance. I did an event in a hotel in Reno, NV—the largest and I think probably the most successful resort in northern Nevada. Of course, when I asked for questions, a number of the questions dealt with health care.

As I walked out, the owner of the property walked alongside of me and said: Senator, I want you to know that other than my cost for personnel—my wages for my employees—health care is the one issue that is so hurting my business, health insurance for my employees. I am going to keep it, but it is so difficult for me to do so.

Here is a man who has probably 1,500, 2,000 people who work for him. Think what it is like for someone who has 25 or 50 or 75 or 100 people. If someone who has the buying power of a couple thousand is having difficulty, think what it is like for people who do not have that buying power.

So this past weekend in Nevada, I really did hear from people who are suffering. Today, we learned that our State's unemployment rate rose again—another tenth of a percent. That tells me we do not have time to waste with people looking to “trip up” recovery. Instead, we need legislators willing to work with us toward solving problems.

Here is an opportunity. Republicans can show they are willing to do more than simply stand in the way. We are working this week to protect seniors' relationships with their doctors. One of the biggest fears of seniors is that their doctors will drop them, which is why we are proposing a bill to make sure doctors will continue to see their Medicare patients.

This is a very serious issue. It is not one that is made up. There are ads running around the country today. There is one that says: “If You Don't Pass S. 1776, Seniors Will Lose.”

Seniors count on their doctors to get the care they need to stay healthy. The Medicare Physician Fairness Act (S. 1776)—

That is the legislation I am talking about—

preserves the doctor-patient relationship and protects seniors' access to their doctors. AARP is fighting to ensure that doctors will continue accepting patients on Medicare.

Ninety percent of AARP members agree with this. This is a real problem. Because of some of the things done with Medicare legislation in the past, a number of doctors have decided they cannot afford to take Medicare patients. This will drive another 40 percent of the doctors away from Medicare. It will destroy Medicare. So it is important we work together to get something done to take care of this. That is because the status quo simply will not work.

We are working, as I said, this week to protect seniors' relationships with their doctors. One of their biggest fears is that their doctors will simply drop

them, which is why we are proposing this bill to make sure doctors will continue to see Medicare patients.

Republicans have come to the Senate floor numerous times in recent weeks to demand that Congress protect seniors. This so-called doctors fix that AARP is running the ads about is an opportunity for Democrats and Republicans to work together to improve Americans' health. This time it is seniors' health.

The AARP has 40 million members. Nine out of 10 of them support this legislation—90 percent of them. I hope Republicans will listen to the very people whom they claim to defend and support—seniors.

While, generally speaking, the Republican strategy is disappointing, to say the least, it is not entirely surprising. After all, one Republican Senator—I do not know if he is speaking for the entire Republican Senate—is on record hoping health insurance reform will be President Obama's “Waterloo.” Nor is it inconsistent with the obstructionist tactics that have denied and delayed so many other important efforts to address so many of our critical challenges.

Democrats have been consistent in our efforts to reach across the aisle. In April of this year, just as the health care debate was beginning, I wrote my counterpart, Leader MCCONNELL, to express my great hope that Republicans would work with us in this important and historic endeavor. We have an opportunity this week to fulfill that request I made. Here is what I wrote on that occasion:

In order for this bipartisan process to take root, Republicans must demonstrate a sincere interest in legislating. Rather than just saying no, you must be willing to offer concrete and constructive proposals.

I concluded the letter by writing:

I hope your conference will recognize that this issue is too important to be manipulated for political purposes.

So it is now about a half a year later. It is clear Republicans have not heeded our gesture. It is equally clear to the American people, two-thirds of whom readily recognize that Republicans have no interest in returning the favor—not in the least.

As former Senate Majority Leader Bob Dole said a few days ago—and I quote—

Sometimes people fight you just to fight you.

That might be true, but it will not be tolerated. Congress will not be side-tracked by those who devise strategies only to “trip up” progress, rather than to contribute in good faith. This country has no place for those who hope for failure.

Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MCCONNELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### HEALTH CARE WEEK XIV, DAY 1

Mr. MCCONNELL. Mr. President, I don't know of a single person who wants to see reimbursements cut to doctors who treat Medicare patients, but if Congress is going to step in and prevent it, we shouldn't do it by racking up more debt on the government's credit card.

On Friday, the Treasury Department announced that the government ran a deficit of \$1.4 trillion in the fiscal year that ended just a few weeks ago—a deficit about three times the size of the previous alltime high. This should have been a wake-up call but, instead, within days of the sobering proof of Congress's chronic inability to live within its means, Democrats in Congress want to borrow another \$¼ trillion to keep doctors from getting a pay cut. Republicans want to fix this problem as well, but there are ways to pay for it. When this matter comes before the Senate, Republicans will offer ways to pay for it without asking taxpayers to take on another \$¼ trillion in debt.

It is perfectly obvious why Democrats want to resolve this issue outside the larger debate over health care. They are doing it so they can say their health care plan doesn't add to the deficit. It is a gimmick and a transparent one at that.

Americans are tired of gimmicks and tired of Congress putting everything on the national charge card. We are not teenagers. Our parents aren't going to pay our bill at the end of the school year. The American people—our children and grandchildren—are the ones getting stuck with the bill. It is time we act as if we are aware of that.

Higher debt is just one aspect of the Democrats' health care plan that concerns Americans. At the outset of this debate, everyone agreed on one thing: Any reform would have to address the primary problem with health care; that is, cost. Yet every day we hear about some accounting gimmick that is being used to conceal the true cost of this bill, and now we are hearing it will drive up premiums as well.

The Director of the independent, non-partisan Congressional Budget Office, Doug Elmendorf, indicated in recent congressional testimony that parts of the Finance Committee proposal would lead to higher premiums; in other words, that health care costs would go up, not down. As a result of the Democrats' latest health care proposal, that is exactly what will happen. This is a proposal that is only going to get more expensive as the process moves forward in closed-door discussions between a

handful of Democratic lawmakers and the White House. This is what the American people have feared all along, that lawmakers would lose sight of the purpose of reform and end up making problems worse, not better.

The Finance Committee bill includes a new tax on health insurance that most experts, including the CBO, agree would be passed straight to consumers, leading to higher premiums. One estimate suggests this new tax on insurance plans will be passed on to families, costing them nearly \$500 per year in higher premiums starting next year, long before any of the purported benefits of reform would take effect. The Oliver Wyman Group, an international management consulting firm, has also looked at how the Finance Committee bill would impact premiums in a number of States. This is important because every State has different insurance laws. In States such as Kentucky, Arizona, and Virginia, which have flexible insurance laws and generally lower premiums, the impact would be dramatic.

Currently, the average family premium in those States is about \$9,500 a year. Under the Baucus plan, that premium is expected to rise to nearly \$17,000. That is \$7,500 more that the government is telling families they have to spend on health insurance. That is \$7,500 these families can't use for the college fund or to plan for retirement. While the Baucus plan may subsidize some insurance plans, the subsidies likely will not be enough to offset these massive new costs imposed on many of these families.

The bottom line is this: The Finance Committee bill has now been out for a few weeks. The experts are starting to estimate what it would mean for insurance premiums. What we have seen so far isn't good. This is precisely why Americans want us to debate these bills out in the open. This is why they want us to take our time until the true cost is known. This is why they should have ample time to look at proposed changes before Congress acts.

We knew this proposal would raise taxes. We knew it would slash Medicare. Now we know it will raise health insurance premiums. Americans support reform, but higher premiums, higher taxes, and cutting Medicare, that is not reform.

#### GAG RULE

Mr. President, the administration made a noteworthy admission over the weekend. In a late afternoon memo on Friday, the Department of Health and Human Services said health plans could now communicate with seniors about pending legislation that affects them. By lifting its prior ban on communicating the impact of Democratic plans for health care, the administration was admitting—admitting—the ban amounted to a gag rule, a gag rule that has no place in a society that

prizes free speech and open debate. The administration's reversal is certainly welcome and, frankly, not unanticipated. However, many questions remain about the initial order itself and about the administration's willingness to constrain the free flow of information to seniors about their health care. The administration has admitted its error, though its proposed solution, frankly, needs further review.

The fact is, what health plans were telling seniors is precisely what the Congressional Budget Office also said; namely, that Democratic health care plans could cause seniors with Medicare Advantage to lose benefits—the absolute truth.

Americans believe strongly in the importance of the first amendment. I am glad to see the administration has recognized the error of its ways and rescinded this gag rule in the midst of such an important national debate.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### RESERVATION OF LEADER TIME

The ACTING PRESIDENT pro tempore. Under the previous order, leadership time is reserved.

#### MORNING BUSINESS

The ACTING PRESIDENT pro tempore. The Senate will be in a period of morning business until 4:30 p.m., with Senators permitted to speak for up to 10 minutes each.

The Senator from Arizona is recognized.

#### START TREATY

Mr. KYL. Mr. President, I wish to speak to an issue that is very timely because the United States and Russia are beginning today their seventh round of negotiations on the so-called START treaty. This is a treaty that could limit the number of nuclear warheads and delivery vehicles by both countries and provide an extension of various compliance and verification procedures that are currently followed by both countries.

It is interesting to me that the Russians do not appear to be in much of a hurry to complete the negotiations before the treaty expires, and it expires on December 5 of this year. According to Assistant Secretary of State Richard Verma, in a letter to me and several fellow Senators, I quote:

Russian views with respect to the meaning of these two terms—

And he is specifically talking about the definitions of "strategic delivery vehicle" and "associated warheads," both of which are obviously key to the treaty, in any event—

Russian views with respect to the meaning of these two terms have not yet been fully explained by the Russian Federation.

We are in the seventh round of negotiations, as I said. When these two fundamental terms have not yet had an explanation by the Russian side as to what they mean and, in effect, what they are tabling in the way of proposals, it is pretty clear we are not far enough down the road to see much light at the end of the tunnel.

With regard to the verification rules, which are the heart of the START treaty, he wrote:

The Russian Federation has not, as yet, elaborated sufficiently on its views concerning verification for the United States to judge the nature of its approach.

Again, it is interesting that this letter, which is dated October 5, suggests the Russians had not yet provided to us their position on key provisions of this treaty. Yet we are supposed to have the negotiations completed before the treaty expires on December 5.

It is increasingly clear to me, as a result of all this, there will not be a treaty by December 5; certainly not one that is ratified by the Senate, which is a process the Senate will require several months, obviously, to complete. As I said, I think it is doubtful we will even see one signed by the United States and Russia by December 5.

It is clear to me the Russians have sensed an opportunity that they can use time to their advantage. They saw an overly ambitious American agenda, which went far beyond extending the compliance and verification measures of the existing treaty to actual proposals to significantly cut the numbers of warheads and delivery vehicles. They saw this obviously ambitious agenda pushing up against a very short timeframe—in this case December 5. I think they have cleverly manipulated the situation, among other things, by throwing additional subjects into the mix, such as missile defenses and advanced conventional modernization and our nonnuclear conventional strike capabilities. By throwing these things into the mix, they have created a situation where it is going to be impossible to conclude negotiations by December 5, at least if the United States wants to stand firm on its position that neither the conventional strike capability nor missile defenses should be a subject of these negotiations.

I think the Russians think they can scoop up a bunch of concessions from the United States because of this short timeframe and the fact that the United States will obviously want to conclude

the negotiations, if they can, by December 5. I think an example of concessions would be the recent decision of the United States to leave ourselves more exposed to a long-range missile threat from Iran as a result of taking out the so-called missile shield we had previously committed to the countries of Poland and the Czech Republic. I think the Russians may have correctly assessed that the Obama administration would be willing to make trades such as the one on European missile defense in order to get nuclear force levels lower because this would show progress on President Obama's agenda for a nuclear weapons-free world. At the same time, the Russians are attempting to constrain the United States.

It is interesting they are actually developing programs, systems that would be prohibited by the START treaty. One is the RS-24 multiple warhead ballistic missile, which the Russians tested as recently as May 29, 2007. That would be illegal for the Russians to deploy under START. So why are they testing it? They seem very happy to negotiate for fewer missiles because they would be able to add multiple warheads on the missiles they have.

That is known as MIRVing or the multiple reentry vehicles. You just add more warheads on the same missile and you can accomplish the same thing, as if you had more missiles with an individual warhead on each one. It is clearly not progress, especially since the purpose of START, among other things, is to promote greater stability, which comes from reducing the number of multiple-warhead weapons.

If the administration had simply limited the agenda to preserving and continuing the START treaty verification measures, we probably could have met the December 5 deadline and we could have preserved the treaty and avoided issues such as missile defense that have now been raised by the Russians.

Although the Senate will have to participate in this ratification process—and very soon, quite possibly—we really have no idea yet how the administration will deal with the expiration of START on December 5. What options does it have in mind to deal with that expiration date? How will it seek to extend the treaty? What are the legal consequences for information sharing and inspections both here and in Russia? What are the separation-of-power issues of the various approaches having to do with a treaty ratified by the Senate which expires, with the administration making treaty-like commitments to continue abiding by the treaty during the course of time prior to the Senate's ratification of the treaty? All of these are questions to which we have not gotten answers. Yet time is wasting.

Several of my colleagues and I have asked for the answers to these ques-

tions in our August 14 letter to Assistant Secretary Gottemoeller. The October 5 response from Mr. Verma ignored the questions about the expiration date, and we need the answers.

Beyond December 5, getting a new treaty ratified is not going to be an easy proposition. Many Members of the Senate have been clear that because the administration is seeking nuclear force reductions, it must concomitantly take responsibility for the nuclear forces that will remain. We will have fewer of them. We need to know that they will work and that they are safe.

Of course, both of these issues are related to the nuclear posture review, which isn't really due until January. But since the administration rushed to its analysis to justify warhead and delivery vehicle reductions, it must now act quickly to assemble a comprehensive modernization plan that includes warheads, the nuclear weapons complex, and delivery systems. That plan has to be presented to the Senate no later than when they send the treaty up to the Senate, and the fiscal year 2011 budget will need to be sent at roughly the same time because it is the first year of the effectuation of the plan they would be presenting. Presumably, the plan will encompass maybe, let's say, a decade of nuclear weapons complex modernization, but next year's budget will really be the first time we will be able to verify the administration's seriousness about this modernization effort.

So as to ensure there is no doubt on what "comprehensive modernization plan" means, let me refer to the definition provided by the Perry-Schlesinger Congressional Commission on the Strategic Posture of the United States. The essential elements of such a program identified by the Perry-Schlesinger Commission are, first, full and timely Lifetime Extension Programs for the B61 and W76 warheads consistent with our military needs; second, funding for a modern warhead that includes new approaches to life extension involving replacement or, possibly, component reuse; third, full funding for stockpile surveillance work through the nuclear weapons complex as well as the science and engineering campaign at our National Laboratories; fourth, full funding for the timely replacement of the Los Alamos plutonium research and development and analytical chemistry facility, the uranium facilities at the Oak Ridge Y-12 plant, and a modern pit facility. These are the essential components the President needs to present. It is the minimum that should be included.

I might add that this is already required as part of the fiscal 2010 Defense Authorization Act I presume this body will soon pass and send to the President's desk. If anything short of this is submitted, the resulting delay in con-

sideration of the treaty will be through no fault of the Senate; instead, blame will be with the administration and its failure to heed numerous admonitions from Senators. We needed this plan submitted at the same time as the treaty.

It goes without saying that the administration must also understand that any limitations on U.S. missile defense or nonnuclear global strike capability will also be a deal breaker in the Senate.

Finally, I will refer again to the issue of Russia's multiple-warhead RS-24. In this case, it appears the Russians have cheated—if not in the letter of the START agreement, at least in its spirit—by converting one of their existing missiles, the TOPOL-M, to this new multiple-warhead variant.

However, if you look at the 2005 Section 403 Report, which is also known as the Adherence to and Compliance With Arms Control, Nonproliferation, and Disarmament Agreements and Commitments report, prepared by the State Department's VCI Bureau, there are a litany of other outstanding issues regarding Russia's failure to comply with START.

In fact, to quote from the 2005 report:

A significant number of longstanding compliance issues that have been raised in the START Treaty's Joint Compliance and Inspection Commission remain unresolved.

Mr. President, I ask unanimous consent to have printed in the RECORD at the conclusion of my remarks the portion of the 2005 report dealing with Russia's noncompliance with its obligations under the 1991 agreement.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 1.)

Mr. KYL. Mr. President, it is clear that the administration needs to tell the Senate whether this 2005 finding is still valid. In fact, I think the administration owes the Senate answers to the following questions:

When will the State Department submit the next section 403 compliance report?

Will the Senate see it before being asked to provide advice and consent on the START follow-on agreement? If not, why not?

Does the State Department expect the compliance issues with the 1991 agreement to be resolved prior to the expiration of that agreement?

Does the State Department expect the follow-on agreement to include a mechanism for swift resolution of compliance issues? Have our START negotiators proposed such a mechanism? If so, can the negotiators brief the Senate, either in open Senate or a closed venue, on how it would work?

I encourage the administration to provide answers to these questions soon. The longer it takes to receive answers, the more it appears there is

something to hide. Senators will want to know why we should ratify a new treaty when the administration is not enforcing provisions of the existing treaty.

Mr. President, keeping START from expiring without replacement should not have been such a difficult matter. I regret that choices made by the administration have made it so. I encourage the administration to respond to the inquiries I have raised today, respond to the letters, the correspondence we have sent, and be able to provide to the Senate the answer to the key question: Why would we be asked to ratify a new treaty when we have not enforced compliance with the treaty it would seek to replace? All of these questions, as well as the requirement that a new modernization program be submitted, at the latest, at the same time the treaty is submitted, are important requirements for the Senate to provide its advice and consent with respect to a new START treaty.

I yield the floor.

#### EXHIBIT 1

#### ADHERENCE TO AND COMPLIANCE WITH ARMS CONTROL, NONPROLIFERATION, AND DISARMAMENT AGREEMENTS AND COMMITMENTS

#### III. OVERVIEW

##### EXPANSION OF START COMPLIANCE SECTION

Section 403 of the Arms Control and Disarmament Act—the legislative basis for the submission to Congress of this series of Non-compliance Reports—requires that the Report provide greater specificity about compliance concerns. To wit, the law requires the Report to include “a specific identification, to the maximum extent practicable in an unclassified form, of each and every question that exists with respect to compliance by other countries with arms control, non-proliferation, and disarmament agreements with the United States.” To comply with this requirement, this edition of the Report has included more information than ever before on, among other things, Russia’s implementation of the Strategic Arms Reduction Treaty (START).

To facilitate this effort, in 2003 the United States conducted consultations with the Russian Government regarding a number of longstanding, unresolved U.S. concerns about Russian compliance with the START Treaty—some of which actually date back to the first year of START implementation. These included Russia preventing U.S. inspectors from measuring the launch canisters of certain Intercontinental Ballistic Missiles (ICBMs) or verifying that certain ICBMs do not contain more warheads than attributed under the Treaty. The U.S. concerns also included Russia failing to provide all required telemetry materials for some START-accountable flight tests, failing properly to declare certain ICBM road-mobile launchers accountable under the Treaty, and locating some deployed SS-25 ICBM launchers outside their declared restricted areas. With respect to this last issue, however, it should be noted that Russia has taken steps that have resolved U.S. compliance concerns.

#### V. COMPLIANCE BY SUCCESSORS TO TREATIES AND AGREEMENTS CONCLUDED BILATERALLY WITH THE SOVIET UNION

##### THE STRATEGIC ARMS REDUCTION TREATY (START)

Belarus, Kazakhstan, Russia, and Ukraine are in compliance with the START strategic offensive arms (SOA) central limits. Both the United States and Russia met the START seven-year reduction final ceilings of 1,600 delivery vehicles and 6,000 attributed warheads by the December 4, 2001, deadline. By December 2001, these four Former Soviet Union (FSU) successor states had reduced their aggregate forces to 1,136 deployed launchers, 5,518 deployed warheads, and 4,894 deployed ballistic missile warheads, as defined by Article II of the Treaty, and all strategic weapons had been removed or eliminated from the territories of Ukraine, Belarus, and Kazakhstan. Additionally, START required the four FSU successor states to eliminate at least 154 heavy ICBM (SS-18) silo launchers by December 2001. In the original MOU, dated September 1, 1990, the Soviet Union declared 308 SS-18 heavy ICBM silo launchers. As of November 30, 2001, a total of 158 SS-18 silo launchers had been eliminated—104 in Kazakhstan and 54 in Russia—leaving a total of 150 deployed heavy ICBMs.

Notwithstanding the overall success of START implementation, a significant number of longstanding compliance issues that have been raised in the START Treaty’s Joint Compliance and Inspection Commission (JCIC) remain unresolved. The Parties continue to work through diplomatic channels and in the JCIC to ensure smooth implementation of the Treaty and effective resolution of compliance issues and questions.

The United States raised six new compliance issues during the period of this report. The United States considers four of these to have been closed. However, several previous—often long-standing—compliance issues remain unresolved. A number of these issues, some of which originated as early as the first year of Treaty implementation, highlight the different interpretations of the Parties about how to implement the complex inspection and verification provisions of the START Treaty.

##### ICBM ISSUES

Inability to Confirm during Reentry Vehicle Inspections (RVOSIs) that the Number of Attributed ICBM Warheads Has Not Been Exceeded. During RVOSIs of deployed Russian ICBMs, U.S. inspectors have been hampered, in some cases, from ascertaining whether the missile had a front section, or that the front section contained no more reentry vehicles (RVs) than the number of warheads attributed to a missile of the declared type under the Treaty.

The purpose of an RVOSI, as set forth in paragraph 6 of Article XI of the Treaty, is to confirm that a ballistic missile contains no more RVs than the number of warheads attributed to a missile of that type. The RVOSI procedures are referenced in paragraph 16 of Section IX of the Inspection Protocol and contained in Annex 3 to the Inspection Protocol. Paragraph 11 of Annex 3 allows the inspected Party to cover RVs. Inspectors have a right to view these covers and to measure hard covers prior to their placement on the RVs. The covers are then installed on the RVs before the inspectors view the front section. Under the Treaty, such covers must not hamper inspectors in ascertaining that the front section contains no more RVs than the number of warheads

attributed to a missile of that type. Russian RV covers, in some instances, are too large; consequently, they fail to meet this requirement.

During certain RVOSIs, Russia did not demonstrate to the satisfaction of the U.S. inspection team that additional covered objects located on the front section, and declared by Russia not to be RVs, were not RVs. Although START does not differentiate between nuclear and non-nuclear RVs, Russia’s willingness to use radiation detection equipment (RDE) during such RVOSIs to establish that the extra objects were not nuclear has been useful for resolving some, but not all, U.S. concerns.

Finding Russian RV covers, and their method of emplacement, have in some cases hampered U.S. inspectors from ascertaining that the front section of the missiles contains no more RVs than the number of warheads attributed to a missile of that type under the Treaty. Russian cooperation in the use of RDE and other measures has been helpful in addressing some, but not all, of the difficulties encountered by U.S. inspectors.

Russian Road-Mobile Launchers—“Break-in.” Russia has failed to declare certain road-mobile launchers of ICBMs when they first leave their production facility, as required by the Treaty. Russia has moved some of these launchers to an undeclared “break-in” area located over 60 miles from the production facility without declaring that they have left the production facility and are accountable under the Treaty.

Pursuant to paragraph 6(b) of Article III of the Treaty, a mobile launcher of ICBMs becomes subject to the Treaty limitations when it first leaves a production facility. Not later than five days following the first exit of such a newly produced non-deployed road-mobile launcher, and its entry into Treaty accountability, Section I of the Notification Protocol requires the Party producing the new Treaty-accountable item to provide a notification of this change in data. Except for transits, Parties are proscribed from locating non-deployed mobile launchers outside the boundaries of the START-declared facilities identified in subparagraph 9(b) of Article IV of the Treaty.

Finding. Russia continues to violate START provisions relevant to these obligations.

Deployed SS-25 Road-Mobile Launchers Based Outside Their Designated Restricted Areas. Russia based some deployed SS-25 road-mobile launchers outside their declared restricted areas (RAs) at two road-mobile ICBM bases while these RAs were under construction. The United States and Russia concluded a temporary, interim policy arrangement regarding the conduct of inspections and cooperative measures at the facilities where the launchers were housed during the period of construction. This arrangement permitted U.S. inspectors to conduct data update inspections and RVOSIs that they had not previously been able to perform, and allowed Russia to cooperate fully with providing cooperative measures access for the launchers that were previously unavailable. All of these road-mobile ICBMs and their launchers have since been transferred from their bases, and their declared RAs have been eliminated as START facilities.

Finding. Notwithstanding the interim policy arrangement, Russia’s practice of locating deployed SS-25 road-mobile launchers outside their declared RAs for long periods of time constituted basing in a manner that violated the provisions of paragraphs 1 and 9

of Article VI of the Treaty. This practice has ceased and the United States considers this issue closed.

Denial of the Right to Measure Certain Deployed ICBM Launch Canisters on Mobile Launchers. U.S. inspectors have been prevented from exercising the Treaty right to measure certain ICBM launch canisters on mobile launchers, both deployed and non-deployed, that are encountered during data update inspections to confirm data regarding the type of item of inspection. Russia, for instance, has prevented U.S. inspectors from measuring launch canisters for SS-24 ICBMs contained in rail-mobile launchers that are located within the boundaries of an inspection site. Similar concerns have arisen with regard to launch canisters for SS-25 and SS-27 mobile ICBMs located on road-mobile launchers. With regard to launch canisters for these latter types, Russia and the United States have agreed upon a policy arrangement to address this issue, though it has not yet been implemented for the SS-27 ICBM.

Subparagraph 20(a) of Section VI of the Inspection Protocol identifies ICBM launch canisters as one of the items of inspection for data update inspections. In accordance with the procedures in Annex 1 to the Inspection Protocol, inspectors have the right to confirm the number and, if applicable, the types of items of inspection that are specified for the facility to be inspected and declared for the inspection site, and the right to confirm the absence of any other item of inspection at the inspection site. Pursuant to paragraph 6 of Annex 1, inspectors may view and measure the dimensions of a launch canister declared to contain an item of inspection to confirm it is of the declared type.

Finding. Russia prevented U.S. inspectors from exercising their Treaty right to measure launch canisters for SS-24 ICBMs contained in rail-mobile launchers that are located within the boundaries of an inspection site, in contravention of paragraphs 1 and 6 of Annex 1 to the Inspection Protocol. With regard to launch canisters for SS-25 and SS-27 ICBMs located on road-mobile launchers, the Parties have agreed upon a policy arrangement to address this issue, but it has not yet been implemented for the SS-27 ICBM.

#### TELEMETRY ISSUES

As part of the START verification regime, the Parties are obligated to notify each other of missile flight tests and to exchange telemetry tapes, tape summaries, interpretive data, and acceleration profiles for each flight test of a START-accountable ICBM or SLBM. The United States has raised several concerns regarding Russia's failure to provide all Treaty-required telemetry materials for some START-accountable flight tests in violation of paragraphs 4 and 5 of Article X of the Treaty, and paragraph 1 of Section I and paragraphs 1 and 2 of Section II of the Telemetry Protocol.

Finding. Russia has in some instances failed to comply with Treaty requirements regarding the provision of telemetry information on missile flight testing pursuant to Article X of the START Treaty and Sections I and II of the Telemetry Protocol.

Mr. KYL. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KYL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. KYL. Mr. President, I believe my colleague, Senator THUNE from South Dakota, will be here in a few minutes. Until he arrives, I thought this might be of interest. I promised my constituents I would tell my colleagues what they told me to tell them. I think it would be of interest to share some of these remarks.

I went to a meeting on Saturday morning that I thought was going to be a rather staid affair with folks who were primarily senior citizens, but not all of them were. It turned out to be a little bit reminiscent of some of those townhall meetings we saw on television during August because the subject most people wanted to talk about was health care. They weren't happy with what they were hearing the Senate was about to do. Among other things, they wanted to get it clear with me right off that I would pass on their concerns about this to my colleagues. I promised that I would. So let me summarize what some of them had to say and what I think the clear consensus of the group was.

First of all, they have a hard time understanding how Senators would pass a bill before we read it or even know how much it costs. I assured them that the procedure we would follow in the Senate was that we would have at least 72 hours after the bill had been finally written and after the Congressional Budget Office had scored the bill—that is to say, told us how much it would cost in all of its component parts and the ways it would be paid for. The reason I can feel fairly certain that will happen is because a number of colleagues on both sides of the aisle have either written to the majority leader or made it clear to him that they will not support a motion to proceed to a bill until we have had an opportunity to, in effect, read it and see how much it costs. That process could take some time, I told my friends. The Congressional Budget Office Director told the members of the Finance Committee, on which I sit, that it can take 2 to 3 weeks after the bill is written to come up with all of these calculations.

You will hear many people say we need to move this process on, even before we have the numbers. But I think that given the fact that most of us are committed to ensuring we have the numbers and can digest them and share them with our constituents before we debate and amend the bill, I assume the process will unfold in the Senate in such a way that we do know what it costs, and that means after the final CBO report is provided to us.

The next thing they wanted me to convey was that they were very wor-

ried about—in fact, maybe that would be a euphemism. They were more than concerned about the degree of government involvement in health care once this process is over. They fail to understand why we had to have what amounts to a government takeover of insurance in this country and dictating everything from what kind of insurance policy you have to have, to how doctors and hospitals are paid, in order to solve the two key problems that exist: No. 1, there are some Americans who need help buying insurance; second, that the costs of health care premiums continue to go up every year, and it is especially hard for small businesses to provide coverage for employees.

They asked me: Why do we have to change the entire system, with the government essentially taking it over?

I happen to believe we don't. I provided the two basic alternatives to them. One is a step-by-step approach that targets specific problems we have and matches up specific solutions to the problems, on the one hand, which is the approach I favor; on the other hand, essentially changing the insurance we all have today, creating a new insurance exchange, and all insurance would have to go through there. Even if you like your policy, it will change, and you are not going to be able to keep it.

Estimates are that, as a result of all of this, in an effort to cover 18 or 20 million more people with insurance, it is going to cost us close to a trillion dollars. It will raise taxes, it will raise insurance premiums, and it will require deep cuts in Medicare. They didn't like that. I guess that brings up the third thing.

With regard to Medicare, they were pretty perceptive in asking me the following basic question. One person said: One of two things is going to happen. Either it will be business as usual where we say we will make cuts in Medicare, but the Senate and the House never have the courage to do that, in which case this bill is going to cost a lot of money that is not offset by concomitant savings, or the savings are going to be made, and when they are made, it is going to deeply cut our benefits under Medicare.

That person was right. One of those two things is true, and neither one is a good result.

I remember a few years ago when we tried to reduce the growth in Medicare by about \$10 billion. Republicans and President Bush were excoriated; we were going to ruin Medicare, and our colleagues on the Democratic side took great glee in the public reaction to that proposal to decrease the growth in Medicare by \$10 billion.

Now we are talking about cutting Medicare by—I said \$500 billion. The Finance Committee money is actually \$450 billion. So let's be accurate. If that

is the way this bill comes out, \$450 billion, \$120 billion of that is reduction of benefits under Medicare Advantage. So when people say: You would not have your benefits cut, that first \$120 billion is a direct cut in benefits, and in my State a lot of seniors have Medicare Advantage policies.

The other way in which Medicare is cut—there are basically two things. One is reducing the amount of money we pay doctors and hospitals, and that cannot help but reduce the care we get. The final mechanism is a Medicare Commission is being established to provide—I think it is every year; maybe every 2 years, but let's say every year—an amount of money that will have to be cut and will automatically be cut from Medicare unless the Congress finds a different way to do it, but Congress would still have to cut the same amount. So we either do it the way we want to do it or we do it the way the commission recommends it. In any event, their recommendation automatically goes into effect if Congress does not act.

I have a couple thoughts about that point. We have never been able to effect these cuts in the past because seniors know that it cuts deeply into their care, and they have told us and we have reacted by saying: OK, we will not do it. We could react that way again, in which case all of the savings, or at least a great deal of the savings, that were supposed to result and offset the costs of the bill would not be there. So now the bill is no longer deficit neutral. Now it is not balanced. Now it does add to the deficit and to the debt. If we do allow those cuts to go into effect, seniors are clobbered by deep reductions in the care they receive all the way from nursing homes to physicians to hospitals to hospice, medical devices—you name it. As I said, neither of these results is a good result.

There were several people who wanted me to convey their thoughts in that regard. I happen to agree with them, so I could do that.

I met, after visiting with this group, with a group of spinal surgeons from all over the country and, in fact, from outside this country. I saw the agenda of their meeting. I was the last speaker. For a layman, such as you and I, Mr. President, it was daunting to read through that agenda—all of the latest techniques in using new laser and stints and all kinds of things that I did not understand, but it was the very latest technology and techniques for treating spinal diseases and conditions.

What they told me was—I was the last person to make a presentation—all of these great things we are doing for our patients we are not going to be able to do under this legislation, first of all, because it will be presumed to cost too much; second, because it will take the FDA and the other government agencies way too long to author-

ize its use for treating Medicare patients, for example; and, third, because the comparative effectiveness research which has in the past been used by these doctors to help them appreciate the best way, clinically, to treat someone is now going to be used to decide what Medicare can afford to pay. A lot of the more leading-edge techniques and technologies are not going to be approved for that purpose.

Their point was that people in China and Europe are going to be treated with the latest techniques more than Americans will because the American system of health care is going to deny people such as these experts the ability to do what they do.

One way this is being accomplished is by taking money away from specialists and giving it to general practitioners. There is a rationale for paying general practitioners—family doctors—more money. They are not making enough, and they are the first place most of us enter the medical world. If we have something that does not feel right, we go to our doctor. It is usually a family doctor. Frequently, he can help us, but frequently he says: I think there is something about what you have here that tells me I have to send you to a specialist. We go to the specialist then and he orders some specialized tests and he examines them and he may end up having to provide some kind of very specialized treatment and care that is probably going to cost more money.

While the family doctor needs to be paid more, we don't solve that problem by taking money away from the specialists. If we have to add money to the system to ensure that we have enough doctors who can provide quality care, then there is no free lunch and we have to pay for what we get. We should not make it a zero-sum game and take it from Dr. B in order to pay Dr. A. That was another strong message of these specialists.

I also happened to meet on Friday afternoon with a group of physicians in Phoenix from all different practices—from specialists to generalists, hospital physicians to others. To a person, they had this question for me. The way they asked it was, Why isn't anybody talking about medical malpractice reform?

I said: I am talking about medical malpractice reform.

They said: You are not getting through.

I said: The problem is there are a bunch of folks on the other side of the aisle who don't want medical malpractice reform, and you know why. And, yes, they understood the answer why.

I remind friends who might not have remembered, Howard Dean, a former Governor of Vermont and a former Democratic candidate for President and a former Democratic Party chairman was very candid in a townhall meeting in Northern Virginia on Au-

gust 17 with Representative MORAN where he told the group assembled there that the reason medical malpractice reform was not in the legislation is because they did not want to take on the trial lawyers.

That is true, but it does not make it right. Maybe somebody should take on the trial lawyers because there are a lot of estimates of how much money could be saved through meaningful medical malpractice reform. This jackpot justice system of ours that pays trial lawyers and requires physicians to pay as much as \$200,000 a year in liability insurance premiums—all of which, of course, have to be passed on to the cost of our care, and perhaps even worse than that, practice what is called defensive medicine—raises the cost of our health care. Defensive medicine is having all kinds of tests performed and maybe putting someone in the hospital an extra day or two all in order to protect from a liability claim that their doctor did not do everything he could to take care of this poor patient and, as a result, the patient got sicker and something bad happened.

There are a lot of estimates. First, one estimate is from a study that says 10 cents on every dollar spent on health care is paid in insurance premiums by physicians. Obviously, some of that will still have to be paid with medical malpractice reform, but it could be reduced as has been the experience in the State of Arizona and the State of Texas, which is the reason Senator CORNYN from Texas and I have introduced legislation that will provide modest reforms to the tort system by putting some modest caps on non-economic damages awards and providing that expert witnesses who testify have to be really expert witnesses in the area of the alleged malpractice.

These two things have saved enormous amounts of money. In Arizona, we don't even have caps on damages, but the Requirement that expert witnesses really be expert has ended up saving millions of dollars and reducing the malpractice premiums for physicians in the State of Arizona.

This is a reform we could accomplish on a bipartisan basis that not only would not cost anything, it would actually reap financial benefits. The Congressional Budget Office says just the savings to the U.S. Government—because we provide care under Medicaid, Medicare, and to our veterans—would save \$54 billion. There are a lot of estimates that are higher than that. There is one estimate that is over \$100 billion a year.

The Director of CBO acknowledged to people of the Finance Committee when we asked that \$54 billion savings would actually be approximately doubled if we take into account the private sector as well. In other words, not only the Federal Government would save that much money, which pays about half of

all health care dollars in the United States, the private sector, which pays the other half, could save a like amount of money.

These constituents wanted to know why doesn't anybody ever talk about it. I had to tell them we are talking about it. It is just that nobody is listening.

That kind of brings up the last point I want to pass on. After meeting with these three different groups in Phoenix and talking with people elsewhere I went over the weekend, it is pretty clear to me people are becoming very frustrated with their government, and this is not good. They don't think their government is listening to them. We are elected to be their representatives, to bring their ideas to Washington. Since they can't all study up on the issues as thoroughly as we are supposed to do, they trust us to not just to do what they want, not what they say, but to use our best judgment. But they do want us to listen to what they are saying and translate that into action.

What I hear them saying and what public opinion polls verify is they are very worried about the breadth and the depth of this proposed health care reform. They say it costs too much money; it is going to get us in debt; it will raise taxes which are going to be passed through to them; it is going to raise insurance premiums; and it is going to involve a massive government intrusion into what is primarily a private matter between them and their physician, with their insurance company added into the mix. They see this along the same lines as the government takeover of banks and insurance companies and car companies and everything else, and they don't like it.

One of the reasons they don't like it is because they see their own health care being delayed or denied as a result. They appreciate the fact that if the government gets so involved that it can begin to tell insurance companies what they can pay for and tell doctors what they can do for patients, that the next thing that will happen is their care will be delayed and denied and ultimately rationed.

I read a chapter in a book by our former colleague, former majority leader of the Senate, Dr. Bill Frist, a renowned heart surgeon. I talked with former Senator Frist about it last week. He actually served for about a year in England under their health system. He makes the point in his book that there are some good things about their health system. He said the bad thing is that if someone has a serious condition, unless they are at the top of the list, they run the risk of never having their serious condition dealt with.

He gave an example of a list of 100 patients who needed heart surgery. He said they would do two a day and gradually work down the list. He said what he found was that after a few

weeks, peoples' names were being taken off the list. They didn't need the surgery anymore because they had died. He said that would never happen in America. He said if we have 100 people who need heart surgery in America, we would figure out a way to get that heart surgery for them right away, and we wouldn't do two a day until we ran out of time and they ran out of life. He said that is really the difference in a system in which we are controlled by the amount of money the government chooses to put into the system every day versus the kind of system we have that takes care of people and worries about the cost later. That is why it is possible for us to say that even people without insurance get cared for. No one in this country should die because they don't have insurance because we will take care of them.

Obviously, having insurance makes the delivery of care easier, more timely, and much more cost-effective, which is why at the end of the day we want to see that everybody is insured.

The bottom line is that we do not need to throw out the baby with the bathwater, get rid of the system we have that currently takes care of most people very well in order to insure that last group of folks who don't have insurance. We can provide a voucher or subsidy to them and get them coverage.

The other thing we have to do is help to bring down the costs. Republicans have offered numerous solutions on how to do that without having the government take over the system. I mentioned one: Medical malpractice reform. It does not cost a dime, it will save billions of dollars, and it is good policy besides. So why don't we do it? Because there is a vested special interest that does not want it done. It will take money out of their pockets. That is wrong.

My question to all of my colleagues is, When are we going to stand up to the special interests? Everybody likes to whack at the insurance companies. How about taking a good hard look at the trial lawyers? And, by the way, while we are talking about insurance companies, Republicans offered several ideas on how to add more competition for the insurance companies so in those situations where they have it good, if we provide for certain reforms that we have offered, such as association health plans, small business plans, more flexible HSAs, interstate sales of insurance, all these things would provide more competition for the insurance companies and force them to lower their rates. This would make health care more affordable because it would help small businesses in providing health care for their employees.

All these things came up during these meetings. As I said, I promised my constituents I would be sure to pass their ideas on to my colleagues, and I

make these comments in that spirit, hoping that we will listen to our constituents not just in Arizona but in South Dakota and everywhere else around the country. And as a result of listening to a bunch of pretty common-sense folks, perhaps we will make wiser decisions here than we otherwise would have.

I see my colleague from South Dakota is here. He had some very erudite comments to make on one of the television shows on Sunday, and I am happy to yield the floor for Senator THUNE.

The ACTING PRESIDENT pro tempore. The Senator from South Dakota.

Mr. THUNE. Mr. President, I thank my colleague for yielding the floor, and I appreciate listening to his observations about the current state of the health care debate.

Mr. President, I ask unanimous consent that I be allowed to speak for up to 20 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. THUNE. Mr. President, as my friend from Arizona noted, there are many things about the current debate that I think raise questions with the American people. He was discussing what he had heard back in his State of Arizona regarding the current debate that is before the Congress and the concerns people have, the anxiety, the frustration, and, frankly, the fear that I think a lot of Americans have about what happens and what the ultimate result may be. For instance, will this health care reform effort lead to higher costs for them? Will it lead to questions about whether they will be able to retain that fundamental, essential relationship between the patient and the doctor?

Those are, I think, very valid questions. Frankly, we don't have answers to them because, one, we don't have a bill. We haven't seen a bill. That bill is being written, we are told, in the majority leader's office. There will be a handful of people in that room. There will not be input from our side, let alone from many Democrats in the Senate. It is going to be basically cranked out and at some point we will have a bill that will be put on the floor before the entire Senate. Having said that, it is interesting to me that this week we are going to have a vote in the Senate on an issue which, frankly, is very much a part of the debate over health care reform and yet that vote is being separated out. I think there is a reason for that, which I will come back to in a moment.

I think it is important and telling that the first vote on health care reform here in the Senate is going to be to add a quarter of a trillion dollars to the Federal debt. That is right, \$250 billion—or \$247 billion, to be precise—is going to be added to the Federal debt

because what the majority leader has decided to do is to bring legislation to the floor this week that would address the physician reimbursement issue. We all believe that needs to be addressed. There is no one on our side of the aisle who doesn't believe we need to address the challenge that we will face in January of this coming year. Physicians across this country, if we don't take steps, are going to be subjected to a 21½ percent pay cut. That is not something anybody I know of in this Chamber is willing to abide.

But we have a fundamental difference about whether that ought to be addressed in a way that is paid for, that actually doesn't borrow \$250 billion from future generations. The reason I say it should have been in the health care reform bill, but wasn't, is because it is a part of that debate. In fact, the House of Representatives included the physician reimbursement issue in their version of health care reform and put it out of balance, but at least they were honest. They dealt with it in the context of health care reform, because it is fundamental to addressing the health care issues we have in this country. The reason I think it was left out of the Finance Committee bill, the Baucus bill, is because they knew if they put that in the bill, it would put their bill out of balance, and we had the big proclamation that had come out about how this is deficit neutral, that it is going to add \$81 billion in surplus, that it is actually going to save money in the long run.

Obviously, if you back out \$250 billion, you can make your books balance in the near term. But what you are doing is adding a quarter of a trillion dollars to the debt, which this year was \$1.4 trillion—three times what we have ever seen here in the last 40 years or so. The last time we have seen debt of this magnitude in terms of a percentage of our gross domestic product was right after World War II. But the debt this year is three times what we have seen in recent history—at least in this last decade.

I think the first point I would make is that the first vote out of the gate on health care reform should not be to add a quarter of a trillion dollars to the Federal debt and to pile this burden on future generations of Americans. In fact, there is a bumper sticker going around right now, which I think is perhaps pretty descriptive of what is happening in Washington, and it says something to the effect: "Don't tell those people out in Washington, DC what comes after a trillion dollars." I think the American people are sitting out there wondering, when we talk about billions and billions and billions, and now we are talking trillions and trillions and trillions, what comes after that? And yet we continue to spend and borrow as if there is no tomorrow. I think the American people

are picking up on that, and obviously they want to see a government that lives within its means just as they have to every single day in their personal lives, in their businesses, and most people who have to live within balanced budgets.

It is a lesson I think Washington could learn. It is essential that we don't continue to pile this burden of debt on future generations of Americans. The deficit last year was \$1.4 trillion. It is estimated if we stay on the current trajectory that we will double the Federal debt in 5 years, triple it in 10 years, and at the end of the 10-year period, the average part that each household in this country will own of that entire Federal debt obligation is \$188,000. So if you are a family in America today or say you are a young couple who has just gotten married, and looking at your life ahead of you and planning for your future, you are going to get a wedding gift from the Federal Government—a big old IOU for \$188,000. That will be everyone's share of the Federal debt.

What we do here with the first vote out of the gate on health care reform is add a quarter of a trillion dollars to that Federal debt. A quarter of a trillion dollars used to be a lot of money in this town. When you start talking about \$1.4 trillion deficits, maybe it doesn't seem like that anymore. I think that is why the American people are asking, and probably fairly so, what comes after a trillion dollars. When you add a quarter of a trillion dollars to the debt, the total interest payment on that amount over the 10-year period, if you can believe this, is \$136 billion. So we are adding \$136 billion in additional interest payments that we are going to have to make over the course of the next 10 years by borrowing an additional quarter of a trillion dollars to address the physician reimbursement issue.

I say all that because I think it bears on the bigger question of health care reform and the fact that right now we have competing bills: One in the House, called the tricommittee bill, if you will, which does spend, over a 10-year period, about \$2.4 trillion; the Senate HELP Committee bill, which over a 10-year period spends \$2.2 trillion; and the Senate Finance Committee bill, which over a 10-year time period spends \$1.8 trillion—until now. When we add in this \$250 billion for physician reimbursements, that now pushes the number on that particular bill up to about \$2 trillion as well.

So what we have is a whole new expansion, a whole bunch of new spending on health care by the taxpayers in this country. Obviously, it has to be paid for somehow. Most of it is paid for by cuts to Medicare reimbursements that providers in this country would receive, paid for in the form of higher taxes that would be borne by small

businesses, by individuals, and would ultimately lead to the final outcome of this big debate, which is higher premiums. The whole purpose of this was to reduce the cost of health care for people in this country by reducing and driving down what they paid for health insurance. But as has been pointed out, I think over and over now in response to questions posed by members of the Senate Finance Committee in answers from the CBO Director, these tax increases—roughly dollar for dollar—will be passed on in the form of higher taxes. In fact, some of the taxes in the House bill hit squarely at small businesses and hit squarely at individuals. The CBO and the Joint Tax Committee, which looked at the Finance Committee bill, concluded that 90 percent—87 percent, I should say, as far as the Joint Tax Committee and 89 percent was the CBO estimate—of the tax burden would fall on taxpayers—on wage earners—making less than \$250,000 a year. In fact, the Joint Tax Committee went so far as to say a little over 50 percent of that tax burden would fall on wage earners making less than \$100,000 a year.

So the tax burden is going to be borne by people who were promised they wouldn't pay higher taxes in the health care reform proposals, and it was stated by the President and others that we wouldn't tax people who make less than \$250,000 a year. That is clearly not the case. There is a 5.4 percent surcharge on high-income earners in the House bill which would be borne largely by small businesses, many of whom file, because of the way they are organized, on their individual tax returns. So you are going to have higher taxes on small businesses, higher taxes on middle-class Americans, and this explosion and expansion of Federal Government here in Washington to the tune of \$2 trillion.

You would hope then that you would see that would have some positive impact on health insurance premiums. The reality is, as I said earlier, it does not. I think as the debate broadens and we become engaged on health care reform, the American people are going to come to that conclusion, which is why I think they are very concerned about what is happening here in Washington.

The other point I will make is that one of the objectives of health care reform—in fact, to me, health care reform ought to be about driving health care costs down, not increasing them, which is what all these bills do—was that it was designed to cover people who aren't currently covered, to provide access to more Americans. What we are seeing now with all these various bills is there are lots of people who get left out. Under what they call the House bill—the tricommittee bill—17 million Americans still would not have health insurance. Under the Senate HELP Committee bill, that number is

much higher. It is 34 million who would still not be covered. But there is an assumption there, although it wasn't included in the bill, that Medicaid would be expanded. That would cover more people. So that number may be overstated. But the Senate Finance Committee assumes 25 million people will be without health insurance.

So you will have higher taxes, a tremendous amount of higher spending—up to about \$2 trillion under any of these bills—and an expansion of government here in Washington, DC, cuts to Medicare reimbursements—to seniors—across this country, and all for what? Higher premiums for most Americans, for people who currently have insurance, to hopefully cover some Americans. When you are spending \$2 trillion, there ought to be some advantage to that, but clearly a lot of Americans are still going to be without health insurance when this is all said and done.

I am concerned. I think a lot of our colleagues here in the Senate—and not just on our side of the aisle, but I think a number on the other side too—have expressed concerns about starting the debate a quarter of a trillion dollars in the hole by putting a bill on the floor that is going to spend a quarter of a trillion dollars—\$250 billion—over the next 10 years that is not paid for. That puts any bill that is considered later completely out of balance, and it is a gimmick that is designed to allow the President and the Democratic majority to say our health care reform bill is deficit neutral. Well, sure, if you take the \$250 billion and back it out, it is easy to say it is deficit neutral, when in fact now it is going to be \$200 billion. They have about an \$80 billion overage on the bill in the Finance Committee, but it is still going to be \$200 billion out of balance when you do this, again, to be financed with more debt and more borrowing, which is exactly what I think we want to avoid, and particularly when you are running deficits as far the eye can see.

This last year, about 43 cents out of every dollar that was spent here at the Federal level—in Washington, DC—was borrowed. There isn't anyplace in America where you can function like that and still be in business. If you are a person doing that in your personal household finances, you would be forced into bankruptcy. If you were a small business, you would be forced into bankruptcy. Frankly, were it not for the fact that other countries around the world are financing America's debt, we would be in bankruptcy. Because you can't borrow 43 cents of everything you spend, as we are doing here in Washington, DC. In fact, to put it in perspective—and a lot of Americans understand this—if you are a family with an annual income of \$62,000, it would be the equivalent of spending \$108,000. That is what we are doing here

in Washington, DC. Of all the money we spend in a given year, 43 percent of that is borrowed. We cannot continue to sustain that.

I hope that before this bill comes to the floor, we can reach an agreement about amendments that might be offered. I would say our side, the Republican side, has amendments it would like to offer to this bill that would help pay for it, help reduce the amount or perhaps entirely reduce the amount that would be borrowed in order to finance the physician reimbursement fix, on which we all agree. As I said, there is not anybody on this side who does not agree that needs to be done. In fact, Senator CORNYN offered an amendment to the bill that would provide a 2-year fix, a 2-year solution to the problem for physician reimbursement. It was voted down. It was defeated, that amendment, in the Senate Finance Committee.

We are looking. We are proactive. We have to address this issue. This issue was created by the Balanced Budget Act back in 1987. I was a Member of the House of Representatives at the time. I voted for that balanced budget agreement, but it included what was called a sustainable growth rate formula by which physicians are reimbursed. As I said earlier, in January of this year, based upon that formula, physicians would receive a 21.5-percent reduction in their fees, in their reimbursements.

Everybody here—I should not say everybody. I can't speak for everybody. But I think most Senators on both sides of the aisle acknowledge that issue has to be addressed. We need to fix that, but we have to do it in a way that is fiscally responsible. We want an opportunity to offer amendments that would allow us to do that.

As of last week, that request was being rejected. There was going to be a cloture vote today, which I understand now has been vitiated, which means perhaps the leaders are working together on an agreement that would allow Senators on both sides to offer amendments to this legislation that would help pay for it.

I think it is telling that there are Democrats who are uncomfortable with the idea of adding  $\frac{3}{4}$  trillion to the Federal debt with the very first vote we will cast on health care in the Senate Chamber.

I hope we can reach an agreement. I hope the leaders will be able to do that and this will be an open process, that we debate, and there will not be any mad rush to try to cut off debate. Rather, Senators on our side would have an opportunity to fix the issue that is going to put a lot of physicians in a very uncomfortable position if we do not address it but do it in a way that also is fair to the American taxpayer and make sure we, as a nation, are honoring the responsibility we have, not just to fix this issue for

today but to provide a better and brighter and more secure future for future generations of Americans. It is a future which, I would add, is very much in jeopardy and in peril if we continue to spend and borrow and tax at the rate that is contemplated in the health care reform bill but, more important, with the very first vote on that health care proposal, which is to add \$250 billion to the Federal debt.

I yield the floor.

I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. CASEY. I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. CASEY. Mr. President, I rise to talk about health care in three ways, three different subjects but all vitally important to making sure we get the job done in the next couple weeks. As many Americans know, in the Senate right now, we have the HELP Committee bill that passed in July and the recent passage of the Finance Committee bill coming together in a merger process which is days away from completion or certainly in the near future. As that process unfolds, there are parts of our bill, meaning the HELP Committee bill, that I hope remain intact or at least, in large measure, are left as part of the final Senate bill.

One part is on the issue of children's health insurance. We had an important debate about this program, which was authorized in 2009, so that within the next several years, within the next 4 years, maybe by the end of 4 years, we will have as many as 14 million children across America covered by that program, a tremendous advancement from where we were even 10 years ago. It has shown results in a lot of places. It is a well-tested program.

One of the more recent debates, within the Finance Committee, was whether children in CHIP, whether that program itself would be stand-alone—as I believe and as I am glad the Finance Committee agreed with me and with others—or whether it would be folded into the exchange. They didn't do that in the Finance Committee. I am glad they did not.

In this instance, we have a program which started in States such as Pennsylvania back in the early 1990s and then became a national program in the mid-1990s, about 1997. What we have seen in Pennsylvania are tremendous results. I ask unanimous consent to have printed in the RECORD a one-page survey by the Pennsylvania Insurance Department from 2008 about uninsured

numbers, ages zero to 18 and then 19 to 64.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

Estimated Number of Pennsylvania Children and Adults Who Lack Health Insurance by County <sup>1</sup>								
County	Age 0 to 18				Age 19 to 64			
	Uninsured	Insured	Total	% Uninsured	Uninsured	Insured	Total	% Uninsured
Adams	2,331	21,766	24,097	10%	9,558	53,515	63,073	15%

1. Figures derived from the 2008 Health Insurance Survey conducted by Market Decisions LLC for the Pennsylvania Insurance Department (PID). All numbers and percentages are estimates and have margins of error that must be considered in any assessments or comparisons. (See the section on survey methodology in the survey, available on the PID Web site). This chart does not reflect what portion of the uninsured may be eligible or may qualify for CHIP, adultBasic, Medicaid, or any other government program. 2. Due to the small number of uninsured children found in the sample in Elk county, the number was estimated based on the results in adjacent counties.

Mr. CASEY. What this chart shows is when we compare individuals who happen to be zero to 18 in age versus 19 to 64, we find that in Pennsylvania, across the 67 counties, we have an uninsured rate of 5 percent among children. So ages zero to 18, it is 5 percent uninsured. It is still too high—we want to bring that down to zero—but much lower than it had been. But among the age category 19 to 64, meaning everyone above the age of 18 prior to the time they have an opportunity to receive Medicare, 12 percent are uninsured in Pennsylvania. I doubt that is much different across the country.

One of the lessons from that is that when we take concerted action to focus, whether it is public resources or private resources but of a strategy for health care, we can bring the numbers down dramatically. So children's health insurance in Pennsylvania is in much better shape than it was 10 or 15 and certainly 20 or 25 years ago. But we haven't, as a country, begun to focus on that age category 19 to 64. If it is 12 percent in Pennsylvania, it is probably similar across the country because there has been no strategy for people in that age category comprising our workforce.

We have to bear that in mind. When we have one category with an uninsured rate of 5 percent versus another that is more than double that at 12 percent, we have to continue to focus strategies in the debate on that age category. In this process of coming to a bill, I believe there are several policies and several strategies that will get us to the point where the rate for ages 19 to 64 will come down as well. As many Americans know, the Affordable Health Choices Act, the bill from the HELP Committee, has as its goal and is premised upon the idea of covering as many as 97 percent of the American people. We finally have a strategy for every age group in addition to what we have tried to do for children and what we have done to help older citizens, over more than 40 years now, over the age of 65 or 65 and up.

One of the parts of the HELP Committee bill which does not get a lot of attention is a part of the bill which is set forth in sections 3201 to 3210. It starts on about page 228 of the HELP Committee bill. I know these bills are big, well more than 800 pages, but this section on the Community Living Assistance Services and Supports Act, the so-called CLASS Act, is a breakthrough—I think to be understated—because what it does is provide individual Americans who have functional limitations to be able to continue working but also to provide some of the help that goes into providing them the wherewithal to continue working.

Here is what the fundamental purpose is. I am reading from the summary: The fundamental purpose of the bill “is to establish a national vol-

untary”—voluntary—“insurance program for purchasing community living assistance services and supports in order to provide individuals with functional limitations with tools that will allow them to maintain their personal and financial independence”—probably the most important word in that paragraph—“and live in the community through a new financing strategy for community living assistance services and supports,” and “establish[ing] an infrastructure that will help address the Nation's community living assistance services and supports needs, and alleviate burdens on family caregivers.”

What we have now, unfortunately, in many places is two or three major problems. The individuals themselves are not able to work sometimes; they have an inability to work because of limitations, and they are not able to pay for the kind of care they need. That is the main problem.

The second problem is, in many families, caregivers try to make up for that. If the family member with limitations cannot pay for services, family members provide the kind of services they would hope to get from some other person or entity.

What we are doing here is relieving a burden on individuals so they can be fully functional and independent because of the support and help they get, such as someone coming into their home in the morning to help them get off to work and to be able to meet them at the end of the day and help them with so-called activities of family living, things we all take for granted in our daily lives: everything from feeding and bathing and other fundamental things that all of us have to do every day. With a little bit of help from someone, many Americans can lead a life of employment, a life of dignity, and a life of contribution to our economy.

It also gives some real help to family members. So we will talk more about the details of how this works. I should mention the person who was the driving force on this legislation—and he and his staff worked on this for years—was the late Senator Kennedy. He spent many years developing this program, developing the CLASS Act, and making sure it was part of our bill. That is why we wanted to make sure it was part of the Affordable Health Choices Act, and it should be part of the final health care legislation we enact here in the Senate. If we are going to do the right thing, it will be in the bill. I think most people here want to do the right thing as it relates to people with functional limitations who can contribute more to their workplace and contribute more to our economy.

Senator Kennedy's work was focused not just on providing a program to give people that opportunity, his focus was also: How can we do it in a way that is

fiscally responsible? Well, this program provides not just a lot of help for people with limitations and their families, but it also does not cost the Federal Government in the process because people will be paying in overtime and then have the opportunity to use those resources when they need them.

Let me finally move to another area in the remaining time I have. In addition to the importance of preserving the Children's Health Insurance Program the way it is right now—which I think was a great advancement in the Finance Committee—in addition to enacting legislation which will have the CLASS Act as part of it, the third thing I am going to mention today is an issue that has received a lot of attention, but sometimes we do not highlight some of the elements that are very important to the American people. I speak of the so-called public option, which in our Senate health care bill, the HELP Committee bill, is entitled the “Community Health Insurance Option.”

One of the most important parts of the bill—in fact, I think the first word in the section is the word “voluntary.” When I was going across Pennsylvania talking to people about our health care bill—and our bill passed in July, so when I was on the road in August, we had a chance to talk about a bill, not just a concept but a bill we had already passed out of committee—some people who were opposed to the public option would ask a question or make a statement, and often they would say to me: Well, I don't want to be forced into some government program and lose my ability to choose or lose some of the rights I have now.

I would point to the Community Health Insurance Option section of the bill and say: The first word is “voluntary.” There is no requirement here. I think that mythology kind of got ahead of the truth. It is voluntary; that is, voluntary as it relates to an individual but also voluntary as it relates to a provider.

Second, as to the benefit package, as we wrote it in our bill, in the HELP Committee, it would meet the so-called gateway. In our bill we call it a “gateway.” In the other bills, they call it an “exchange.” But it meets the gateway standard by offering coverage that has an essential benefit package, including ambulatory patient services, emergency services, hospitalization, maternity and newborn care, mental health and substance abuse services, prescription drugs, rehabilitative services and devices, preventive and wellness services, and pediatric services. States can offer additional benefits beyond that essential benefit package with any cost of such additional benefits being assumed by the State. So that is what the public option in our bill, the Community Health Insurance Option, would offer as a benefit package.

The premium rates will be set by the Secretary of Health and Human Services at an amount sufficient to cover expected local costs—local costs. So you are going to have a lot of impact and relevance as to what is happening in the local community. And also—this is very important—the Community Health Insurance Option has to meet solvency standards. It cannot just operate and not worry about standards that involve solvency. If there are States that have higher levels or higher requirements as to solvency, the public option would have to meet that.

The reimbursement rates will be negotiated by the Secretary and shall not be higher than the average of all local—local—gateway reimbursement rates.

I mentioned the importance of solvency as a requirement.

Startup funds will be provided by the Treasury to cover costs of initial operations and cover payments for the first 90 days of the plan's operation. But then that public entity, which is State based, would have to pay the money back over time. I think that is critically important to point out.

Finally, State-based advisory councils will provide recommendations to the Secretary on operations and policies regarding the Community Health Insurance Option, to take advantage of local innovative efforts and meet local concerns. So this is not some entity that is going to operate in Washington. It is an entity that will have not just public input and local input and local relevance but actually will take advantage of local innovative efforts that we see all across the country. I know in Pennsylvania there are hospitals or hospital systems or communities that do things a different way and are very successful, and we have to be giving them the opportunity to have that kind of flexibility.

I believe it is the right thing to do to have as part of the final bill a public option. I believe our bill we passed out of committee is the right way to do it. Others might have another version of it. But I believe the Community Health Insurance Option is a voluntary, focused way to make sure we are injecting real competition and thereby lowering costs but also enhancing choice.

One thing we do not want to do at the end of this road is limit choices people have. A lot of people will stay with their private insurance policy or their private plan. They will want to stay there. But others may say: I am in such a predicament or I am in such a cost situation that I need to choose a public option.

Finally, Mr. President—I will wrap up with this—I believe this debate has been critically important to the American people, even the debates that get a little heated. It is very important we get this right. It is very important we have spent the time we have spent over

these many weeks and months. But we are reaching the point now where we are down to weeks, thank goodness, not months.

I believe we can get this right, we can put in place strategies to give people peace of mind, so when they go to work in the morning, they do not have to worry, as they do, about health care—the cost of it, the burden of it, being denied coverage because of a pre-existing condition or having a child denied coverage because of that or a loved one. I believe we can also begin to wrestle the costs to the ground and not have them spiraling upward, as they have been doing for 10 or 15 or more years. I also believe we can enhance choice and quality.

Even with all the debates we are having, all the disagreements we sometimes have here in Washington, there is a lot of consensus about the need to pass a bill, about the need to enhance prevention efforts and quality efforts. I believe we can get there. But we will continue to highlight some major aspects of the bill, and we are going to continue to fight hard for these fundamental priorities of health insurance reform.

Mr. President, with that, I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Tennessee.

Mr. ALEXANDER. Mr. President, how much time is remaining on the Republican side?

The ACTING PRESIDENT pro tempore. There is no divided time at this point. Morning business goes until 4:30 p.m.

Mr. ALEXANDER. Mr. President, I ask unanimous consent to speak in morning business.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. ALEXANDER. Mr. President, after a lot of serious debate and discussion, we apparently are about to come to the point where we have our first vote on health care reform.

What is it the Democrats—those on the other side—propose we do? Add one-quarter of a trillion dollars to the national debt. I thought this debate was supposed to be about reducing costs—reducing costs to the government and reducing costs to individuals across this country who cannot afford to pay for health care insurance. And then, as we find ways to reduce the costs of what we are doing, we can begin to expand health care coverage to the Americans who do not have insurance. But it is as big a problem—or bigger—today that those who do have health care insurance—and that is about 250 million of us out of 300 million—that many Americans cannot afford their health care.

So our focus is, I thought, on cost. How do we reduce costs to the government and costs to the American people? What we see is that the very first vote on health care reform will be on a proposal to increase the debt by \$247 billion over 10 years in order to pay for Medicare doctors reimbursements. This is not the insurance companies talking. This is not the Republicans talking. This is not one news commentator talking. This is the proposal by the Democratic side, that the first vote will be to increase the debt by a quarter of a trillion dollars.

I wish to talk for a few minutes about this bill as we see it. Here we are supposed to be having legislation to reduce the costs to the government, and we apparently are going to, as the first step in the wrong direction, add a quarter of a trillion dollars to the government. The second thing we are trying to do is to reduce your costs—the costs that each of us pays for our health care insurance. The outlines of the bill we see coming through the Congress would actually increase premiums.

I would ask the American people and ask my colleagues: If our goal is to reduce costs—and we are adding to the debt and increasing premiums instead of reducing premiums and reducing the debt—why are we doing this?

Let me start first with adding a quarter of a trillion dollars to the debt. Here is what the proposal would be. You will remember a few days ago there was a great deal of congratulations when the Finance Committee finished a lot of hard work, and they said: This is a deficit-neutral bill. It doesn't add anything to the debt. That is what the Congressional Budget Office said based on a series of assumptions. That is something to be proud of because the President himself has said he won't sign a piece of legislation that adds one dime to the debt, and then he added to that, "and I mean it," like a parent who wanted to make sure he was being heard by unruly Members of Congress.

I am glad he said that. I heard him say it earlier in the year when he had a summit on the condition of the Federal budget. Democrats and Republicans—we all went down to the White House. People came in and said: If we don't do something about the increasing debt in our country, our children and grandchildren aren't going to have a country. That was not overstating it. Everyone at the President's summit agreed that the principal cause of runaway debt in America is health care. It is Medicare and Medicaid.

Just these past few days—here is the weekend newspaper in Tennessee. This is the Nashville Tennessean on Saturday: "Deficit leaps to \$1.4 trillion." I think most Americans—I know at least most Tennesseans—are deeply concerned about this. But lest you think a Republican Senator is exaggerating the

problem, let me just read a few paragraphs from the Associated Press story:

Deficit leaps to \$1.4 trillion. Economists warn of crisis if U.S. fails to act.

This is an Associated Press story.

What is \$1.42 trillion? It's the federal budget deficit for 2009, more than three times the most red ink ever amassed in a single year.

It's more than the total national debt for the first 200 years of the Republic, more than the entire economy of India, almost as much as Canada's, and more than \$4,700 for every man, woman and child in the United States.

Yet the first proposal, the first vote on health care is going to be to add to that debt.

The Associated Press article continues:

As a percentage of U.S. economic output, it is the biggest deficit since World War II. And, some economists warn, unless the government makes hard decisions to cut spending or raise taxes, it could be the seeds of another economic crisis.

Yet the first vote on the health care reform bill will be to add a quarter of a trillion dollars over the next 10 years to the national debt.

Quote:

"The rudderless U.S. fiscal policy is the biggest long-term risk to the U.S. economy," said Kenneth Rogoff, a Harvard professor and former chief economist for the International Monetary Fund.

Quote:

"As we accumulate more and more debt, we leave ourselves very vulnerable."

Yet the first vote that is proposed on the health care reform bill is to add a quarter of a trillion dollars to the national debt. This seems unbelievable.

I ask unanimous consent to have printed in the RECORD following my remarks the article by the Associated Press from the National Tennessean of last Saturday.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

(See exhibit 1.)

Mr. ALEXANDER. Mr. President, the issue at hand is something with which we are all very familiar. It is called the doctors reimbursement problem. When the 40 million seniors on Medicare go to see a doctor, the doctor is paid at a rate set by the government. That rate is only about 80 percent of what the doctor would be paid if the doctor was seeing a person with private health care insurance.

There is a complicated formula in the law that says those doctor payments will go down over the next several years—by as much as 25 percent over the next 2 years. The Congressional Budget Office has estimated that over the next 10 years, just to pay physicians the same they are being paid today, which I don't think very many physicians would be happy with, will cost \$247 billion more than is accounted for in the Baucus bill that came out of the Finance Committee.

So they just assumed it wouldn't be paid to physicians and the doctors would be, in effect, paying for the health care bill.

Well, suddenly some people on the other side of the aisle said: Oh, we can't do that, so we will just separate it from the health care debate. Actually, I think they have done us all a favor because they have made it the first vote on the health care reform bill. So we will have a chance to vote up or down on whether we want to add a quarter of a trillion dollars to the national debt. My experience in life is that most people remember their first impression, and if their first impression of voting on the health care reform bill is that the Congress starts off by just brazenly adding a quarter of a trillion dollars to the national debt at a time when the deficit has just leaped to \$1.4 trillion in 1 year, then I think the American people will have a pretty good idea of what we are about here.

I think the President doesn't—I can't imagine him wanting this, based upon his saying, "I will not sign health care reform that adds even one dime to our deficit." And this is part of health care reform, make no mistake about that. This is part of the bill. It is part of the problem. We are looking at health care over the next 10 years. That is the way our budget cycles work. Everyone is scoring it or estimating its costs based upon what it costs over the next 10 years. To pay doctors 10 years from now what they are being paid today—which I doubt many doctors would be very happy with—will cost \$247 billion.

So instead of saying, let's find ways to cut other programs or raise taxes, we say, let's add a quarter of a trillion dollars to the debt. Adding a quarter of a trillion dollars to the national debt as the first step in the health care reform debate is the first step in the wrong direction. Of course we need to fix the problem of doctors reimbursement. It needs to be a part of what we do this year in health care reform. But just as with other parts of health care reform, we don't add to the debt to do that. At least that is what the President has said. At least that is what Republicans have said. And at least that is what the American people are saying at a time when the debt goes up and up and up.

The next problem is that not only is the cost to the government going up and our first vote on health care reform about to be to add to the debt, the outlines of the bill we are seeing increases premiums.

Over the weekend, the President said: Well, it is those mean old insurance companies trying to mislead you.

You don't have to be an insurance company to understand that the premiums are likely to go up. In the first place, the Finance Committee reduced the penalty you pay if you don't buy insurance to a level that will cause a

lot of people not to buy insurance—at least that is the estimate of many—and if younger people especially don't buy insurance, the pool of people who do buy insurance gets smaller and the people in that pool find their premiums going up.

No. 2, the bill says—the outlines of the bill; of course we don't really have a bill. We will have a bill within the next several weeks, I imagine, or maybe several days. The bill says it is going to make it more expensive for my sons—one who is 30 and one is 40—to buy insurance and closer to what it costs for me. Right now across the country, I might pay eight times as much for my insurance as younger people do, but under this law it is going to say: We don't like that big gap between younger people and older people, so it might have to be two to one or three to one. Basically, it raises the cost of insurance for young people as a way of reducing it for older people. That means the premiums of younger people will go up, and it also means they may elect to get out of the system, make the pool smaller, and as a result of that, all premiums would go up.

No. 3, there is a provision in the law that says you must buy in many cases a government-approved health care insurance. Many people choose a high-deductible insurance where you only buy insurance for the big problems you know you can't afford and you pay less for your monthly premiums that way. A government-approved insurance policy might make it not as easy for you to do that. One estimate in Tennessee is that the cost for one of these high deductible plans would go from \$50 a month to \$400 a month—a big increase for those who buy high-deductible insurance policies. That is the third way your premium might go up.

Then the fourth way and final way, in addition to this concept we see coming from the Finance Committee that your premiums might go up, is there are \$955 billion in new taxes. They say that is if we are taking a 10-year period after the program is fully implemented. They say: Well, those are taxes on other people. But they are taxes on your insurance company, taxes on the person you buy a medical device from, taxes on other people in the health care industry. What do you suppose companies do in any area that get additional taxes? For the most part, they pass those taxes on to you.

So there have been a number of independent observers who have said that because the individual mandate has been weakened, because young people are going to have to pay more for their insurance as compared to older people, because the government-approved policy is not going to allow so many high-deductible policies that many Americans like, and because nearly \$1 trillion in taxes is eventually going to be over 10 years passed on to people who buy

insurance, for all of those reasons, premiums are likely to go up.

So we are about to begin the debate on this floor on health care reform. It is one we need. What Republicans believe—and I see my friend from Delaware who I gather wishes to speak, and I will wind up so he can. But here is what we should do. We need health care reform, but health care reform is first and foremost about reducing costs, first to the government and next to individuals. To re-earn the trust of the American people on this score, we should start step by step with specific proposals that reduce costs; for example, allowing small businesses to pool their resources and offer insurance to their employees. Our own committees have estimated that this could add millions of people to the insured rolls. Second, reduce junk lawsuits that drive up costs. We disagree about how much it drives up the cost of insurance, but we don't disagree that it does. Third, allow people to buy insurance across State lines. That would create more competition. Fourth, create more health insurance exchanges so people can shop and find more different kinds of policies. Fifth, most all of us agree we need to encourage more health information technology and make health care simpler in that way. Perhaps we could even agree to change the tax incentives so that they don't all go to one group of people and are not going to lower and middle-income people.

There are four or five or six or seven ideas we could go step by step with to reduce costs. If we did that, we would be moving in the right direction. It is the wrong direction to start the health care debate with a vote that adds a quarter of a trillion dollars to the national debt at a time when we just added \$1.4 trillion to the national debt in the past year. Of course we need to fix the doctors reimbursement, but it needs to be paid for by—it can't be added to the debt.

Whatever steps we take ought not just reduce the cost to the government; they need to reduce the costs to Americans, all of us who have health care insurance. Let's find ways to go step by step to reduce costs to the government and to reduce costs to premium holders and not start off by adding a quarter of a trillion dollars to the national debt.

[From the Tennesseean]

#### DEFICIT LEAPS TO \$1.4 TRILLION

(By Martin Crutsinger)

WASHINGTON.—What is \$1.42 trillion? It's the federal budget deficit for 2009, more than three times the most red ink ever amassed in a single year.

It's more than the total national debt for the first 200 years of the republic, more than the entire economy of India, almost as much as Canada's, and more than \$4,700 for every man, woman and child in the United States.

As a percentage of U.S. economic output, it's the biggest deficit since World War II.

And, some economists warn, unless the government makes hard decisions to cut

spending or raise taxes, it could be the seeds of another economic crisis.

Treasury figures released Friday showed that the government spent \$46.6 billion more in September than it took in, a month that normally records a surplus. That boosted the shortfall for the full fiscal year ending Sept. 30 to \$1.42 trillion. The previous year's deficit was \$459 billion.

"The rudderless U.S. fiscal policy is the biggest long-term risk to the U.S. economy," says Kenneth Rogoff, a Harvard professor and former chief economist for the International Monetary Fund. "As we accumulate more and more debt, we leave ourselves very vulnerable."

Forecasts of more red ink mean the federal government is heading toward spending 15 percent of its money by 2019 just to pay interest on the debt, up from 5 percent this fiscal year.

President Barack Obama has pledged to reduce the deficit once the Great Recession ends and the unemployment rate starts falling, but economists worry that the government lacks the will to make the hard political choices to get control of the imbalances.

Friday's report showed that the government paid \$190 billion in interest over the last 12 months on Treasury securities sold to finance the federal debt. Experts say this tab could quadruple in a decade as the size of the government's total debt rises to \$17.1 trillion by 2019.

Without significant budget cuts, that would crowd out government spending in such areas as transportation, law enforcement and education. Already, interest on the debt is the third-largest category of government spending, after the government's popular entitlement programs, including Social Security and Medicare, and the military.

As the biggest borrower in the world, the government has been the prime beneficiary of today's record low interest rates. The new budget report showed that interest payments fell by \$62 billion this year even as the debt was soaring. Yields on three-month Treasury bills, sold every week by the Treasury to raise fresh cash to pay for maturing government debt, are now at 0.065 percent while six-month bills have fallen to 0.150 percent, the lowest ever in a half-century of selling these bills on a weekly basis.

The risk is that any significant increase in the rates at Treasury auctions could send the government's interest expenses soaring. That could happen several ways—higher inflation could push the Federal Reserve to increase the short-term interest rates it controls, or the dollar could slump in value, or a combination of both.

#### SPENDING LIKELY TO INCREASE

The Congressional Budget Office projects that the nation's debt held by investors both at home and abroad will increase by \$9.1 trillion over the next decade, pushing the total to \$17.1 trillion under Obama's spending plans.

The biggest factor behind this increase is the anticipated surge in government spending when the baby boomers retire and start receiving Social Security and Medicare benefits. Also contributing will be Obama's plans to extend the Bush tax cuts for everyone except the wealthy.

The \$1.42 trillion deficit for 2009—which was less than the \$1.75 trillion that Obama had projected in February—includes the cost of the government's financial sector bailout and the economic stimulus program passed in February. Individual and corporate income taxes dwindled as a result of the recession. Coupled with the impact of the Bush

tax cuts earlier in the decade, tax revenues fell 16.6 percent, the biggest decline since 1932.

Immense as it was, many economists say the 2009 deficit was necessary to fight the financial crisis. But analysts worry about the long-term trajectory.

The administration estimates that government debt will reach 76.5 percent of gross domestic product—the value of all goods and services produced in the United States—in 2019. It stood at 41 percent of GDP last year. The record was 113 percent of GDP in 1945.

Much of that debt is in foreign hands. China holds the most—more than \$800 billion. In all, investors—domestic and foreign—hold close to \$8 trillion in what is called publicly held debt. There is an additional \$4.4 trillion in government debt that is not held by investors but owed by the government to itself in the Social Security and other trust funds.

#### INFLATION IS A THREAT

The CBO's 10-year deficit projections already have raised alarms among big investors such as the Chinese. If those investors started dumping their holdings, or even buying fewer U.S. Treasuries, the dollar's value could drop. The government would have to start paying higher interest rates to try to attract investors and bolster the dollar.

A lower dollar would cause prices of imported goods to rise. Inflation would surge. And higher interest rates would force consumers and companies to pay more to borrow to buy a house or a car or expand their business.

Most economists say we have time before any crisis hits. In part, that's because the recession has erased worries about inflation for now. In its effort to stimulate the economy, the Fed cut a key interest rate to a record low last December and is expected to keep it there possibly through all of next year. Demand for loans by businesses and consumers is so weak that low rates are not seen as a recipe for inflation.

Robert Reischauer, a former head of CBO, said that in an optimum scenario, Congress will tackle the deficits next year. A package of tax increases and spending cuts could be phased in starting in 2013 and gradually grow over the next decade.

Mr. ALEXANDER. I thank the President, and I yield the floor.

The ACTING PRESIDENT pro tempore. The Senator from Delaware is recognized.

#### EXTENSION OF MORNING BUSINESS

Mr. KAUFMAN. Mr. President, I ask unanimous consent that morning business be extended until 5:30.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

#### IN PRAISE OF KENNETH E. CARFINE

Mr. KAUFMAN. Mr. President, I rise once again to recognize the service of one of America's great Federal employees. I feel fortunate to have a chance to stand here each week and share so many inspiring stories. Since the spring, I have recognized the contribution of public servants from a number

of Departments, including Defense, Labor, Agriculture, and Justice, as well as Agencies such as NASA and CIA. Today, I will be speaking about an outstanding employee from the Department of the Treasury.

This is a time of great challenge to our economy, our markets, even the power of our currency. But the men and women of the Treasury and its various agencies and offices are working tirelessly on recovery and securing our prosperity. The impact they make through their daily work can be felt from coast to coast. Public servants at the Treasury Department serve on the front lines of job creation, public investment, and the management of tax income. They carry on the tradition of Alexander Hamilton, our first Treasury Secretary, who believed the health and prosperity of our Nation depended on the strong management and oversight of public funds. He laid the foundations of America's financial system, which the employees in the Treasury Department reinforce each day.

Kenneth Carfine has been serving the American people and the Treasury Department for 35 years.

A graduate of the University of Baltimore, Kenneth joined the Treasury Department's Financial Management Service in 1973, the same year I came to the Senate to work for then-Senator BIDEN. During his time there, Kenneth worked in banking, cash management, payments, check claims, and government-wide accounting.

In recent years, he has worked under the Fiscal Assistant Secretary, serving as an adviser to senior department officials. His intellect and diligence have been critical as the Treasury addresses economic recovery.

Earlier this year, Kenneth helped direct the Treasury's implementation of its responsibilities under the American Recovery and Reinvestment Act. He led the development of two new departmental programs aimed at spurring economic growth. One of them helps renovate affordable housing for struggling families, and the other funds renewable energy initiatives.

Kenneth has also earned respect as a leader in cash-and-debt management infrastructure. Americans who use a national debit card to receive their Social Security benefits have him to thank for leading the implementation of this program.

His hand has helped shape how the Treasury deals with debt financing, trust fund administration, cash management, and a range of services.

Kenneth Carfine and all of the hardworking employees of the Treasury Department are leading the way toward economic recovery and sound fiscal management of the taxpayer's money. I hope my colleagues will join me in thanking them all for their service to our Nation.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. MERKLEY). The clerk will call the roll. The legislative clerk proceeded to call the roll.

Mr. WHITEHOUSE. Madam President, I ask unanimous consent the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mrs. SHAHEEN). Without objection, it is so ordered.

Mr. WHITEHOUSE. Madam President, I ask unanimous consent to speak as in morning business for up to 20 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### HEALTH CARE REFORM

Mr. WHITEHOUSE. Madam President, I have spoken many times on this floor about the urgency of the need to reform our broken health care system, to expand access to insurance, to improve below average results, and to bring down costs. In a speech to the joint session of Congress, the President eloquently described the challenge of this moment:

I am not the first President to take up this cause, but I am determined to be the last. It has now been nearly a century since Theodore Roosevelt first called for health care reform. And ever since, nearly every President and Congress, whether Democrat or Republican, has attempted to meet this challenge—in some way. . . . Our collective failure to meet this challenge—year after year, decade after decade—has led us to the breaking point.

We are at the breaking point for Nancy from Barrington, RI, a single mother and accomplished music teacher who lost her full-time job and currently teaches part time at a local university. Nancy has paid the full cost of health insurance out of pocket so her two children would not go without coverage. But now they have graduated from college, they are no longer eligible to be on her insurance policy, and they work at jobs that don't provide health care benefits. So Nancy is now thinking about selling her home, their childhood home, to prevent her family from going without health insurance. Nancy writes:

Between the three of us, we are desperate for a workable solution to our health insurance needs. For the first time in my life I feel utterly disenfranchised by my own society.

We are at the breaking point, not just for Nancy but for so many Rhode Islanders who have shared with me their stories—stories of loss, stories of sorrow, stories of frustration, stories of personal and family disasters, in a treacherous health care system that offers all the care you need until you need it.

We are also at the breaking point nationally. Our country's economic future may well depend on the reforms and investments we now craft to control costs and wring savings from the system.

One measure of the potential savings is the recent report of President Obama's Council on Economic Advisers, comparing the share of America's gross domestic product spent on health care to the share spent by our industrialized international competitors, and evaluating the wide variation in health care expenses region to region within the United States.

The report estimates annual excess health care expenditures of about 5 percent of GDP. That translates to over \$700 billion a year in excess cost. They are not alone. The New England Health Care Institute reports that as much as \$850 billion in excess costs every year "can be eliminated without reducing the quality of care." That is \$850 billion.

Former Treasury Secretary O'Neill, the Treasury Secretary in the Bush administration, has written recently that the excess cost in our health care system is \$1 trillion a year. The Lewin Group, a consulting firm that is well regarded on health care issues, has estimated that excess cost exceeds \$1 trillion per year. So is it \$700 billion a year? Is it \$850 billion a year? Is it \$1 trillion a year? Whatever it is, it is a savings target worth an enormous executive and legislative effort, particularly when the evidence is that achieving these savings will actually improve health care for the American people.

Where will these savings come from? Well, the savings await us in quality of care. For instance, the Keystone Project in Michigan reduced infections, respiratory complications, and other medical errors in some of Michigan's intensive care units between March 2004 and June 2005, a little over a year. The project saved 1,578 lives, 8,120 days that patients otherwise would have spent in the hospital but did not have to because they did not get the infections or the complications and, as a result, over 165 million health care dollars, just in Michigan, just in intensive care units, just in 1 year, and not all of the intensive care units.

In my home State, the Rhode Island Quality Institute has taken this model statewide with every hospital participating. We are already seeing hospital-acquired infections and costs declining. There is a similar opportunity in disease prevention. The Trust for America's Health found that investing \$10 per person per year in programs that increase physical activity, improve nutrition, and prevent tobacco use could save the country more than \$16 billion annually within 5 years.

Out of that \$16 billion in savings, Medicare would save more than \$5 billion, Medicaid would save more than \$1.9 billion, and private payers would save more than \$9 billion. So that is quality of care and prevention.

A third area for significant efficiencies and savings is the insurance industry's contentious, inefficient billing and approval process. The battle

over approvals for treatment and claims for payment creates a colossal burden on our health care system, causing perhaps 10 to 15 percent of the insurance industry's expenditures because the hospitals and the doctors and the providers have to fight back. That 10 to 15 percent of the insurance companies' expenditures casts a cost shadow over the provider community which is probably bigger than the insurance industry spends, because they are less efficient at fighting back than the insurance company is at tormenting them.

It all adds no health care value. None. It is pure administrative costs and cost shifting. Rhode Island providers have told me over and over that half of their personnel are absorbed in this battle and not providing health care. They are at the doctor's office, they work there, but they are not providing health care. They are busy fighting with the insurance company.

Even the insurance industry estimates that \$30 billion per year could be saved through simplifications of the process. That relates to a fourth area, the overall inefficiency and waste that plagues the private insurance market.

While administrative costs for Medicare run about 3 to 5 percent, overhead for private insurers is an astounding 20 to 27 percent. A Commonwealth Fund report indicates that private insurer administrative costs have more than doubled in the past 6 years. From 2000 to 2006, they increased 109 percent.

The McKinsey Global Institute estimates that Americans spend roughly \$128 billion annually—\$128 billion annually—on excess administrative overhead in the private health insurance market.

A fifth savings area is investments in our infrastructure of health information technology; secure electronic health records, for instance, electronic coordination between your doctor and your specialist and your pharmacy and your hospital and your laboratory. These investments promise big savings as well, \$162 billion per year, according to one RAND study, and possibly twice that.

Finally, reform of how we pay for health care will yield enormous dividends. At the moment we mostly pay on a piecework basis. The more you do, the more you are paid. No surprise that we do a lot and pay a lot. Since the best care, the best quality care is so often less intrusive but better designed and better coordinated, this payment reform presents another win-win opportunity: better health care and lower cost, hand in hand.

There is a problem, though. For many of these reforms, CBO cannot fully score the savings they would yield, and thus their importance has been minimized in our debate. CBO can only estimate health care costs and savings that have historic precedent.

For example, on the cost side we have the experience of Medicaid, and the Children's Health Insurance Program. So CBO can estimate how much it will cost to expand the coverage to needy families, as we importantly do in this bill.

On the savings side, however, CBO's capability is limited because there is not a lot of information to forecast from. CBO's Director has been refreshingly candid about this. In a recent letter to Senator CONRAD, he wrote the following:

... changes in government policy have the potential to yield large reductions in both federal health expenditures and federal health care spending without harming health. Moreover, many experts agree on some general directions in which the government's health policies should move, typically involving changes in the information and incentives that doctors and patients have when making decisions about health care ... Yet, many of the specific changes that might ultimately prove most important cannot be foreseen today and could be developed only over time through experimentation and learning.

So to summarize: Large reductions in costs are possible. The general direction in which to move to achieve them is agreed. But experimentation and learning are necessary to get there.

Even with those analytical limitations, CBO has recognized some cost savings created by several innovative reforms in the Finance Committee's bill. For example, CBO forecasts that an independent nonpartisan commission of experts with authority to determine provider payment rates under Medicare will save the Treasury \$22 billion over a 10-year period.

It also credits Medicare payment reforms that seek to prevent hospital readmissions with \$2.1 billion in savings; incentives that encourage physicians to group together in cost savings organizations with \$4.9 billion in savings, and payment reforms aimed at preventing health care-acquired infections with \$1.5 billion in savings.

But as you have seen, in comparison to the numbers I talked about earlier, those are trivial projections, chump change against the excess cost of our health care system. Americans owe the Congressional Budget Office a particular debt of gratitude for how incredibly hard they have worked these past weeks and months. CBO performs a valuable service.

But its professional discipline requires it to score legislation basing its calculations on what it can chronicle has happened in the past. And we have not yet been where we need to go in health care reform. Moreover, getting there will require leadership, creativity, and perseverance in executive administration, with constant adjustments and improvements along the way to achieve our goal.

Those factors of executive administration are beyond the capability of

CBO to predict. The distinguished Presiding Officer was the Governor of the State of New Hampshire. She knows well, having served as Governor, what a difference executive administration can make in areas where there is intelligent and sustained focus. Well, CBO cannot predict whether intelligent and sustained focus will occur, so they cannot predict the answer to that question.

Let me mention one further reform now that we are on the subject of executive administration, a final reform that can bring leadership and creativity toward achieving all of these goals in quality, in prevention, in payment reform, and in information technology. That is the reform that can bring leadership and creativity to pulling all of those reforms together, a public health insurance option, a government-run publicly handled plan that can provide affordable coverage in a market where premiums have increased 128 percent in 8 years.

A public option can bring vigorous competition to a market so monopolistic it would make Andrew Carnegie blush, will force private plans to minimize bloated administrative costs which have increased, as I said, 109 percent over those 6 years. The public option can pass along savings to consumers in the form of reduced premiums, and can end the wasteful practice of fighting with doctors and patients over reimbursement.

The public option is our best chance for executive implementation of the delivery system innovations and reforms I have described. Skillful executive administration will be required just as for every other element of reform. But public plans across the country, driven not by private motives but by the public good, set new standards of quality and efficiency in a market that has lost its way.

The point of this reform must be to turn around a health care system that is now spiraling out of control. We spend 18 percent of our GDP on health care. The next highest spending nation in the world is Switzerland at 11 percent. Even if our success is limited to shaving a few percentage points off our national expenditure on health care, that success will be worth hundreds of billions of dollars a year. Yes, there will need to be an initial investment in health care reform, but the potential savings are multiples larger.

CBO's inability to score these savings does not mean they aren't real and achievable. Given the looming threat to America's fiscal security that is now presented by our health care costs, these savings are not only real and achievable, they are essential. They are necessary. We are bound to achieving them, and we must not fail. For that reason, I call on the Obama administration to begin defining a health care savings target from delivery system reform—from health information

infrastructure, from quality improvements, from illness prevention, from more transparency and less bureaucracy, from reform of what we pay for in health care and, ideally, all implemented rapidly and fairly by public plans around the country. They need to set a target.

If the administration does not set a savings target, there is no way the vast apparatus of the Federal Government will wheel adequately toward achieving this goal. If we fail to achieve those savings, all our dreams—our dreams of universal coverage, our dreams of affordability, our dreams of a public option—will crumble like castles built on sand.

Let's take the most conservative number from President Obama's own White House, \$700 billion a year in annual excess cost. Let's assume the best we can do is to eliminate less than one-third of that excess cost—not all of it, not even half of it, less than one-third. Let's assume it takes a few years to meet that goal; let's say 4 years. That would still permit reform savings of \$200 billion a year by 2014. By then, our annual health care expenditures will have climbed well over \$3 trillion. So that \$200 billion annual savings would be only one-fifteenth, about 7 percent, of the cost, then, of our bloated health care system, a system now costing twice as much as other developed nations' health care systems that cover everyone. That goal, 7 percent off a system that costs twice as much as in other nations, does not seem unreasonable.

I will ask the administration: What is your annual savings target out of that \$700 billion to \$1 trillion a year in excess cost? What is it, and when will you achieve it? Soon you will have a bill out of this Congress that gives you the tools to achieve these savings. When you have that bill, I will ask for a number and a date.

I will urge the administration: Be bold. President Kennedy did not know how to get to the Moon when he promised that we would, but he knew we had the talent and the technology to do it, if we had the President's commitment behind it. Sure enough, it happened.

I would also remind the administration of this: We have to achieve these savings anyway. This is not an extra political hurdle the administration would have to clear. This is the bar we must clear if our Nation is to return to fiscal health and if our dreams of universal coverage and affordability and good public health and a humane, efficient health care system are all to be realized. Again, if we don't clear that bar, all those dreams crumble in our hands like dust.

Let's step forward now and make a commitment to some hard, firm measure of savings out of our bloated and inefficient delivery system.

I thank the Chair.

I yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. BEGICH). The clerk will call the roll.

The bill clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Mr. President, I ask unanimous consent to speak for up to 15 minutes in morning business.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. BROWN. Mr. President, pretty much daily over the last couple of months when the Senate has been in session, I have come to the floor to share letters I have received from people in Findlay, OH—where I was today—Toledo, Sandusky, Mansfield, Lebanon, all over the State. These are letters from people who want to tell me why we need health care reform. These are letters mostly from people I have not met, people who know we need to change some things in this country.

What is interesting is that one of the common themes that run through these letters—in letter after letter after letter—is that people thought they had pretty good health insurance. They were satisfied with their health insurance. If you asked them a year or two ago: Do you have good health insurance, they would have probably said yes. But then they found they had a child who was diagnosed with a pre-existing condition, so they were denied insurance, or they got sick and they went above the annual or lifetime cap on costs they did not even know was in their insurance policy, so the insurance company then rescinded them—is the term they use—there was a rescission to eliminate or take away their policy, or they were discriminated against for other reasons, or in many cases they lost their job and lost their insurance.

In case after case, these are people who are mostly middle class, people playing by the rules, paying their taxes, raising their kids, keeping their communities prosperous, and they typically have lost much of what they had.

I want to share some of these letters with my colleagues, particularly colleagues who are not so certain, colleagues who still defend the health insurance system and think we do not need significant change, so that they would maybe understand some of these problems a little better.

The first letter is from Wilkins from Youngstown, which is in northeast Ohio. He writes:

I'm an unemployed former steel worker from Youngstown. I've been struggling to afford my premiums for COBRA while on unemployment and looking for a job.

COBRA is a bit of a cruel hoax. It is a good program for people who can af-

ford it. But COBRA is for when you lose your job that you can keep your insurance if you pay what you are already paying, plus you pay the employer's side of the insurance. That is almost impossible to do for most people who lose their job for a very long period of time. They are only eligible for COBRA for up to 18 months anyway. He writes:

Due to a pre-existing condition of high blood pressure, I had no choice but to continue my coverage under COBRA.

If he had a break in his health care, if he canceled his health insurance and tried to get other less expensive insurance, he would have been denied coverage because of his preexisting condition. He writes:

I'm 59 years old and have been working temporary jobs just to get by, but none offers health insurance. I barely make enough to afford my blood pressure medication.

I've depleted my savings while watching my unemployment insurance run out.

That is something else that this Chamber must consider. I just saw Senator SHAHEEN from New Hampshire a moment ago. She has helped lead the fight on extending unemployment benefits for people whose insurance has run out, something, unfortunately, day after day we have tried to do here, and a Republican Senator has stood up and objected and we have not been able to push that through yet. Unemployment insurance makes so much sense with so many people—from Dayton to Springfield to Chillicothe to Zanesville—who cannot find a job and have seen their unemployment insurance run out.

Wilkins writes:

I'm sick of high insurance premiums. I worked for 38 years and now I have no health care coverage.

They threw me away like an old shoe. It's me today and it could be anyone tomorrow.

I may not have three years to live until I receive Medicare if I can't afford my medicine.

I need health reform now. It just can't wait.

One of the other themes that runs through these letters is that people who are in their late fifties or early sixties and do not have insurance are just praying—praying—they can get enough help and stay well enough, stay healthy enough so they can make it until they are 65 and they can get Medicare.

What does that say? Wilkins from Youngstown worked for 38 years. He lost his job because of what has happened in the steel industry. He cannot afford COBRA. He cannot afford his blood pressure medicine. He is working part-time jobs just to try to get by. He is praying he can get to 65 so he can get health insurance under Medicare—a program that looks a lot like the public option would look if we pass that legislation in the next couple of months.

Robin from Cuyahoga County, in the Cleveland area, writes:

My son just graduated from college and his coverage under his Dad's employer is coming to an end.

While he has found an entry level job, he is not currently a full-time employee and does not have health insurance.

He is incredibly healthy, but when he was in high school he was diagnosed with a heart condition, which could require surgery as he ages, but not for decades [his doctor believes].

As my son was searching for insurance, he was honest about this condition. Each company he called denied him.

So now, a 22-year-old with no history of any illness—

A young man, 4 or 5 years older than the pages who sit in front of us—

but who at some point in the future might need medical support, can't get health insurance.

Instead of creating a system that provides him incentives and proactive monitoring of his condition—

To keep him as healthy as we can—

we have a system that drives him away, doesn't encourage preventive measures, and ends up costing everyone more. I encourage you to take every action possible to put an end to health insurance companies denying coverage for preexisting conditions. We need a system that puts an emphasis on preventive care.

Robin is right about her son. Under our health care bill, as the Presiding Officer from Alaska understands, anyone who chooses to can stay on his mother's or father's health insurance until reaching the age of 26. So her son would have 4 more years on their health care plan under our bill that we are going to debate on this floor in the next few weeks. Robin's son would be able to keep his insurance until he was able, down the line, to get a better job with insurance. Obviously, under our bill, he is going to have access to insurance anyway. But one of the things to help young people as they go into the workforce—maybe they are living at home, just moved out of the house, finishing college or coming home from the military, but so many young people lose insurance because they are working at often low-paying jobs that don't provide insurance for their employees.

Beatrice from Summit County, the Akron area, writes:

As a recent retiree due to economic downsizing, I am left to purchase an expensive insurance plan. But I am not sure how much longer I will be able to pay for the premiums. I only recently got a temporary contractor job that can end at any time.

After 37 years of employment with the same company, it is sad to think that after all those years, I am unable to afford to pay my insurance premiums and unable to collect my Social Security since I retired early.

As my anxiety and stress increase, additional health problems have surfaced. I am not old enough to qualify for Medicare and unable to afford private insurance or COBRA.

I'm asking for your help in supporting health reform that benefits all Americans.

Beatrice is another example. She has worked for a company—as did Wilkins from Youngstown, who worked for

some 30-plus years, 38 years. Beatrice from the Akron area has worked at the same place for 37 years. Both lost their jobs. Both can't afford COBRA. Both can't get insurance. Both are seeing their health compromised.

If you have worked someplace for 30 years and you are in your 50s and you are hoping you can stay alive and stay more or less healthy until you are 65, think of the stress that comes with that; the stress of trying to find insurance; the stress of fighting with insurance companies if you do have a pre-existing condition or they put a cap on their coverage and what that does to people's health care. No place in the world, no developed, wealthy nation such as ours puts their citizens through these constant battles with insurance companies, these unending fights when insurance companies do all they can to take coverage away from people who thought they had coverage.

I spoke to the Fendley Rotary today in a community in northwest Ohio which experienced terrible flooding a couple of years ago and I am working with them to help with the Army Corps of Engineers to get a flood mitigation project put together so these floods don't continue to happen on the Blanchard River. We were talking about the insurance industry.

I don't dislike the insurance industry. I think they do what they have to do because they compete with one another and each does these same business practices. But understand, first, they don't want to cover you if you are not healthy. They would rather not write an insurance policy if you are not healthy, so they hire all kinds of people to make sure they don't take you if you have a preexisting condition or if they think you are going to be an expensive risk. That is on the one hand. Then on the other hand, if you have already been insured by this company, if you already have insurance, they have a whole battery of employees who are there to try to deny coverage. I read the other day that close to 30 percent of claims are initially denied by insurance companies—30 percent. So the insurance industry spends all this money to keep people out who are sick, whom they don't want to insure, to find out if there is any preexisting condition or other reasons not to insure them; and then they hire a whole battery of people to try to deny payment, to deny claims if you have an expensive claim against the insurance company.

Again, no other country in the world does that. A lot of countries rely on private insurance, but they are private not-for-profit insurance companies. They are not companies that try to exclude you from getting coverage, and then if you have coverage and you get really sick, try to cut you off so you don't get your costs paid for, you don't get your claims paid for. It is simply a business model that works for the in-

surance industry, but it sure doesn't work for the American public. It doesn't work for people who thought they had decent insurance.

The last letter I will read comes from James. James writes:

I've paid all of my life for health insurance and now I can't afford it because I'm unemployed. Because I had no insurance, I've had to go to the emergency room, which cost me over \$1,300. I've worked and had health care all my life and now I'm told it could cost me \$100 up front to even be seen by a doctor. We need a health care system that works for all of us.

One story, one letter after another. I know when the Presiding Officer is in Fairbanks or Anchorage or anywhere around Alaska, he is hearing the same thing from people, through letters and individual conversations from so many people who thought they had good insurance, only to find out they don't when they get sick; people who are just hanging on until they can get a good government plan, Medicare, when they turn 65; people who have worked hard all of their lives and played by the rules and feel like a discarded old shoe, as the gentleman from Youngstown wrote.

I think about what our health care plan will do and how we are going to change the system and make it work for these four people in Ohio and for hundreds of millions of people around the country, where anyone who is satisfied with their health insurance under our plan will be able to keep it, and at the same time we are going to build consumer protections around those plans. We are going to ban certain practices, including no more preexisting condition exclusions, no more discrimination based on disability and gender and geography and age and race or anything else. No more saying to women, You can't get coverage because you were a victim of domestic violence and that is a preexisting condition. Believe it or not, insurance companies do that sometimes. No more saying to a woman who had a C-section, Sorry, you can't get insurance, that is a preexisting condition because the next baby will have to be a C-Section again and that is too expensive for us.

The second thing the bill will do with consumer protections built around it is it will assist small business, giving incentives to small businesses to cover employees.

Third, this legislation will provide insurance for people who don't have coverage or who are dissatisfied with their coverage.

Fourth, this legislation will provide a public option so that anyone who chooses can go into the public plan, not necessarily go to CIGNA or Aetna or United or Medical Mutual in my State, or one of the private insurance companies. That means when people have the public option, it will keep the insurance industry honest because they won't get away with gaming the system because they have a competitor

such as the public option that will compete directly with them. It will mean the public option will help to drive prices down because it will make private insurance more affordable, more efficient. Private insurance companies will no longer be able, because of the competition, to pay \$24 million CEO salaries such as Aetna does and so many other private insurance companies do. It will mean that people have more choice in southwest Ohio.

In the Cincinnati-Dayton area, there are two insurance companies that provide 85 percent of the insurance and that is simply not competitive. That is why these monopolistic practices that insurance companies engage in so often run counter to the public interests. That is why the public option is so important: to get people choice, to discipline the insurance companies, to bring in competition, to keep prices down, and it will matter as we move forward.

I thank the Presiding Officer for the time on the Senate floor. This legislation will be debated over the next couple of weeks. We know that 70 percent or two-thirds of the American public want a public option. We know a poll by the Robert Wood Johnson Foundation says more than 70 percent of doctors want a public option. We know an overwhelming number of Democrats of both the Senate and House, 90 percent, support a public option. As I said, almost two-thirds of the public, through consistent polling for the last month, and month after month after month, shows that two-thirds of the public support the public option. It makes sense. It makes a good health care bill that much better. It makes the system work that much better for people who have insurance now and people who don't have insurance, but especially all of us who worry so much about the health care costs in this country and how they have spiraled out of control.

I thank the President and yield the floor and suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. BROWN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### UNANIMOUS CONSENT AGREEMENT—S. 1776

Mr. BROWN. Mr. President, I ask unanimous consent that the cloture vote on the motion to proceed to S. 1776 occur at a time to be determined with the concurrence of the two leaders.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### UNANIMOUS CONSENT AGREEMENT—H.R. 2892

Mr. BROWN. Mr. President, I ask unanimous consent that on Tuesday, October 20, following a period of morning business, the Senate proceed to the consideration of the conference report to accompany H.R. 2892, the Homeland Security Appropriations Act, with debate on the conference report limited to 3 hours and 15 minutes, with the time divided as follows: 1 hour under the control of the majority leader or his designee, and 2 hours and 15 minutes under the control of the Republican leader or his designee; that if any points of order are raised, any votes on the motions to waive occur upon the use or yielding back of all time identified above; further, that upon disposition of the points of order, and if the motions to waive are successful, the Senate then vote immediately on adoption of the conference report, with 2 minutes of debate, equally divided and controlled, prior to any sequence of votes with respect to the conference report.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### IRAN REFINED PETROLEUM SANCTIONS ACT

Mr. KYL. Mr. President, in the coming weeks, the Senate will consider S. 908, the Iran Refined Petroleum Sanctions Act. Passing this bill should not be difficult 76 Members of this body are registered as cosponsors—but it is vital that we do.

I support strong sanctions to build pressure on Iran to end its illegal nuclear weapons program, which, in light of the recent disclosure of the Qom uranium enrichment facility, may be far more advanced than we realize.

However, China and Russia continue to thwart meaningful action in the United Nations Security Council. As Bob Robb, a columnist for the Arizona Republic notes, both nations have commercial ties to the Iranian regime and are unlikely to abandon their interests and assist the United States in building pressure on the Iran.

Mr. Robb also emphasizes that U.S. efforts to halt Iran's nuclear program have taken on a new urgency after the President cancelled the deployments of the ground-based interceptors to Poland and the Czech Republic.

Had the President managed to get support from Russia for more sanctions on Iran in exchange for sacrificing missile defense, things might look different. However, as shown by Secretary Clinton's recent visit to Moscow, Russia's position has not changed, and the U.S. has nothing to show for breaking its strategic commitments with two important allies.

Time is not on the administration's side. Every day the Iranians stockpile more uranium and get closer to having

long-range missiles capable of delivering the world's most dangerous weapons against our allies, our deployed forces, and our homeland. The time to act is now.

Mr. President, I ask unanimous consent that the op-ed by Mr. Robb be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

#### IRAN A TEST OF OBAMA'S NEW DIPLOMACY (By Robert Robb)

Iran is providing a premature and very high-risk test of President Barack Obama's new approach to American diplomacy.

Simplified, the thesis of the new Obama approach is that if the United States plays nicer with others, others will play nicer with us and be more willing to help do tough things.

I've never held out much hope for the Obama approach. I believe that nations generally act in their self-interest without regard to sentiments about other countries.

On the other hand, the Bush administration's blustery approach only made the rest of the world more hostile and resentful, which wasn't in our self-interest. So, it was worth giving the Obama approach a whirl.

The Obama approach, however, was intended to generate good will over time. The United States would cooperate more on international issues such as climate change and in international organizations such as the U.N. We would engage in direct diplomacy with troublesome regimes such as in Iran, North Korea, Syria, Venezuela and Cuba, all of which Obama said would receive presidential meetings in his first year in office.

After showing good will and willingness to engage in direct diplomacy, the rest of the world would be more willing to support the United States if tougher efforts to rein in dangerous rogue behavior nevertheless proved necessary, went the theory.

Iran has spoiled and short-circuited the rollout of the new Obama diplomacy. The disputed Iranian election made it difficult to engage in direct diplomacy with the current government without appearing to give the back of the hand to those risking their lives to protest its illegitimacy. Iranian President Mahmoud Ahmadinejad stepped up his attacks on Israel's right to exist. And Iran remains unflinching and deceitful about its rapidly-developing nuclear program.

So, the Obama administration is going to have to test its new diplomatic approach before laying all the prerequisites by trying to organize strong sanctions against Iran. It increased the stakes for such diplomacy greatly by abandoning the missile defense complex in Poland at least in part, it seems clear, to induce greater cooperation on Iran by Russia.

Sanctions would have to be crippling to have any hope of forcing Iran to abandon its nuclear ambitions. Only the equivalent of a non-military embargo on gasoline imports is thought to have sufficient effect to possibly get the job done.

To be effective, a ban on Iranian gasoline imports would require extraordinary international cooperation. Western powers might adopt them, and indeed Western suppliers have already been cutting ties to Iran. But gasoline is transportable and tradable, so masking its origins is difficult but doable.

The national interest calculations would suggest that Russia and China are unlikely

to go along with potentially effective sanctions against Iran, officially or unofficially. Iran is a client of Russia's on nuclear technology and military apparatus. China is a client for Iranian oil, which provides 15 percent of China's crude supplies.

They also have the interest Robert Kagan has cited that all autocratic regimes have in thwarting efforts to pressure and delegitimize other autocratic regimes.

The need to very quickly cobble together an effective sanctions regimen against Iran is an unfair test of Obama's new approach. But it's the test that has to be taken.

If the effort to impose effective sanctions fails, as it is likely to do, the Russian gambit will prove very costly.

If sanctions fail and Israel doesn't act, the world may have to live with an Iran capable of producing a nuclear weapon. In that world, the Poland missile defense complex would have been very valuable.

The Obama administration said that it was abandoning the Poland complex designed to shoot down long-range missiles because the intelligence suggested Iran has slowed down the development of its long-range capability. It's hard to credit that. Iran has successfully tested a two-stage rocket and put a satellite in space.

Theater missile defense, which the Obama administration says it will emphasize more, is important. But in a world with a nuclear-capable Iran, so is the European missile defense against long-range threats the Obama administration just abandoned.

#### ADDITIONAL STATEMENTS—

##### TRIBUTE TO LOUISIANA WWII VETERANS

• Ms. LANDRIEU. Mr. President, I am proud to honor a group of 92 World War II veterans from all over Louisiana who travelled to Washington, DC, on October 10 to visit the various memorials and monuments that recognize the sacrifices of our Nation's invaluable servicemembers.

Louisiana HonorAir, a group based in Lafayette, LA, sponsored this trip to the Nation's Capital. The organization is honoring surviving World War II Louisiana veterans by giving them an opportunity to see the memorials dedicated to their service. The veterans visited the World War II, Korea, Vietnam, and Iwo Jima Memorials. They also traveled to Arlington National Cemetery.

This was the second of three flights Louisiana HonorAir made to Washington, DC, this fall. It is the 19th flight to depart from Louisiana, which has sent more HonorAir flights than any other State to the Nation's Capital.

World War II was one of America's greatest triumphs but was also a conflict rife with individual sacrifice and tragedy. More than 60 million people worldwide were killed, including 40 million civilians, and more than 400,000 American servicemembers were slain during the long war. The ultimate victory over enemies in the Pacific and in Europe is a testament to the valor of

American soldiers, sailors, airmen, and marines. The years 1941 to 1945 also witnessed an unprecedented mobilization of domestic industry, which supplied our military on two distant fronts.

In Louisiana, there remain today about 30,000 living WWII veterans, and each one has a heroic tale of achieving the noble victory of freedom over tyranny. This group had 36 veterans who served in the U.S. Army, 14 in the Army Air Corps, 34 in the Navy, 4 in the Marine Corps, one in the Merchant Marines, one in the Coast Guard, and 2 were a part of Women Accepted for Volunteer Emergency Services, WAVES.

Our heroes, many of them from South Louisiana, trekked the world for their country. They fought in Germany, Holland, France, Italy, Africa, Guam, Bougainville, Guadalcanal, Iwo Jima, Okinawa, the Philippines, New Guinea, Japan, and Saipan. Their journeys included the invasions of North Africa, Sicily, and Normandy.

One of our Army Air Corps was held as a prisoner of war after his aircraft was shot down over Germany. Three other Army veterans fought bravely in the Battle of the Bulge, all three receiving a Purple Heart and one receiving three Bronze stars for his service.

One Navy veteran earned 10 medals for his service in the Pacific. An Army Air Corps veteran served in 20 combat missions in Europe between 1942 and 1955. Another Navy veteran was present for the surrender at Tokyo Bay in 1945.

One Navy veteran was serving in Pearl Harbor during the infamous Japanese attack in 1941. Eight veterans received Purple Hearts and five of them were held as prisoners of war.

I am also proud to acknowledge that of the 92 veterans who visited Washington this past weekend, 2 were women who served our country with honor and distinction during World War II.

I ask the Senate to join me in honoring these 92 veterans, all Louisiana heroes, who visited Washington, and Louisiana HonorAir for making these trips a reality. •

TRANSMITTING NOTIFICATION OF THE CONTINUATION OF THE NATIONAL EMERGENCY WITH RESPECT TO THE EMERGENCY DECLARED PERTAINING TO SIGNIFICANT NARCOTICS TRAFFICKERS CENTERED IN COLOMBIA TO CONTINUE IN EFFECT BEYOND OCTOBER 21, 2009, AS RECEIVED DURING ADJOURNMENT OF THE SENATE ON OCTOBER 16, 2009—PM 33

The PRESIDING OFFICER laid before the Senate the following message from the President of the United States which was referred to the Committee on Banking, Housing, and Urban Affairs:

*To the Congress of the United States:*

Section 202(d) of the National Emergencies Act, 50 U.S.C. 1622(d), provides for the automatic termination of a national emergency unless, prior to the anniversary date of its declaration, the President publishes in the *Federal Register* and transmits to the Congress a notice stating that the emergency is to continue in effect beyond the anniversary date. In accordance with this provision, I have sent to the *Federal Register* for publication the enclosed notice stating that the emergency declared with respect to significant narcotics traffickers centered in Colombia is to continue in effect beyond October 21, 2009.

The circumstances that led to the declaration on October 21, 1995, of a national emergency have not been resolved. The actions of significant narcotics traffickers centered in Colombia continue to pose an unusual and extraordinary threat to the national security, foreign policy, and economy of the United States and to cause an extreme level of violence, corruption, and harm in the United States and abroad. For these reasons, I have determined that it is necessary to maintain economic pressure on significant narcotics traffickers centered in Colombia by blocking their property and interests in property that are in the United States or within the possession or control of United States persons and by depriving them of access to the U.S. market and financial system.

BARACK OBAMA.

THE WHITE HOUSE, October 16, 2009.

REPORT RELATIVE TO THE HAITIAN HEMISPHERIC OPPORTUNITY THROUGH PARTNERSHIP ENCOURAGEMENT ACT OF 2008 (HOPE II) (P.L. 110-246) THAT AMENDED THE CARIBBEAN BASIN ECONOMIC RECOVERY ACT (CBERA) MAKING CERTAIN ADDITIONAL PRODUCTS FROM HAITI ELIGIBLE FOR PREFERENTIAL TARIFF TREATMENT AFTER OCTOBER 18, 2009, AS RECEIVED DURING THE ADJOURNMENT OF THE SENATE ON OCTOBER 16, 2009—PM 34

The PRESIDING OFFICER laid before the Senate the following message from the President of The United States which was referred to the Committee on Finance:

*To the Congress of the United States:*

The Haitian Hemispheric Opportunity through Partnership Encouragement Act of 2008 (HOPE II) (the "Act") (Public Law 110-246), amended the Caribbean Basin Economic Recovery Act (CBERA) to make certain additional products from Haiti eligible for preferential tariff treatment. Under HOPE II, these imports from Haiti will continue to be eligible for preferential treatment after October 18, 2009, if I determine and certify that Haiti has met

certain eligibility criteria set out in the Act.

Since enactment of HOPE II, Haiti has issued a decree establishing an independent labor ombudsman's office, and the President of Haiti has selected a labor ombudsman following consultation with unions and industry representatives. In addition, Haiti, in cooperation with the International Labor Organization, has established a Technical Assistance Improvement and Compliance Needs Assessment and Remediation (TAICNAR) Program. Haiti has also implemented an electronic visa system that acts as a registry of Haitian producers of articles eligible for duty-free treatment and has made participation in the TAICNAR Program a condition of using this visa system.

In light of these actions and in accordance with section 213A of CBERA, as amended, I have determined and hereby certify that Haiti: (i) has implemented the requirements set forth in sections 213A(e)(2) and (e)(3); and (ii) is requiring producers of articles for which duty-free treatment may be requested under section 213A(b) to participate in the TAICNAR Program and has developed a system to ensure participation in such program by such producers, including by developing and maintaining a registry of producers.

BARACK OBAMA.  
THE WHITE HOUSE, October 16, 2009.

#### MESSAGE FROM THE HOUSE

At 2:03 p.m., a message from the House of Representatives, delivered by Mrs. Cole, one of its reading clerks, announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 2442. An act to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes.

#### MEASURES REFERRED

The following bill was read the first and the second times by unanimous consent, and referred as indicated:

H.R. 2442. An act to amend the Reclamation Wastewater and Groundwater Study and Facilities Act to expand the Bay Area Regional Water Recycling Program, and for other purposes; to the Committee on Energy and Natural Resources.

#### EXECUTIVE AND OTHER COMMUNICATIONS

The following communications were laid before the Senate, together with accompanying papers, reports, and documents, and were referred as indicated:

EC-3416. A communication from the Secretary, Securities and Exchange Commission, transmitting, pursuant to law, the report of a rule entitled "Internal Control Over Financial Reporting in Exchange Act Peri-

odic Reports of Non-Accelerated Filers" (RIN3235-AK48) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Banking, Housing, and Urban Affairs.

EC-3417. A communication from the Attorney Advisor, U.S. Coast Guard, Department of Homeland Security, transmitting, pursuant to law, the report of a rule entitled "Quarterly Listings; Safety Zones; Security Zones; Special Local Regulations; Regulated Navigation Areas; Drawbridge Operation Regulations" (Docket No. USG-2009-0909) received in the Office of the President of the Senate on October 14, 2009; to the Committee on Commerce, Science, and Transportation.

EC-3418. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Air Quality Designations for the 2006 24-Hour Fine Particle (PM<sub>2.5</sub>) National Ambient Air Quality Standards" (FRL No. 8969-2) received in the Office of the President of the Senate on October 15, 2009; to the Committee on Environment and Public Works.

EC-3419. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Approval and Promulgation of Air Quality Implementation Plans; South Carolina; Clear Air Interstate Rule" (FRL No. 8969-9) received in the Office of the President of the Senate on October 15, 2009; to the Committee on Environment and Public Works.

EC-3420. A communication from the Director of the Regulatory Management Division, Office of Policy, Economics, and Innovation, Environmental Protection Agency, transmitting, pursuant to law, the report of a rule entitled "Revisions to the California State Implementation Plan, San Joaquin Valley Unified Air Pollution Control District" (FRL No. 8959-7) received in the Office of the President of the Senate on October 15, 2009; to the Committee on Environment and Public Works.

EC-3421. A communication from the Secretary of the Department of Health and Human Services, transmitting the report of proposed legislation relative to Multilateral Child Support Convention Implementation; to the Committee on Finance.

EC-3422. A communication from the Assistant Secretary, Bureau of Legislative Affairs, Department of State, transmitting, pursuant to the Arms Export Control Act, the certification of a proposed amendment to a technical assistance agreement for the export of defense articles, including, technical data, and defense services to Finland relative to the integration of surfaced launched AMRAAM electronics kits in the amount of \$50,000,000 or more; to the Committee on Foreign Relations.

#### REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. BAUCUS, from the Committee on Finance, without amendment:

S. 1796. An original bill to provide affordable, quality health care for all Americans and reduce the growth in health care spending, and for other purposes (Rept. No. 111-89).

#### INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first

and second times by unanimous consent, and referred as indicated:

By Mr. BAUCUS:

S. 1796. An original bill to provide affordable, quality health care for all Americans and reduce the growth in health care spending, and for other purposes; from the Committee on Finance; placed on the calendar.

By Mr. LUGAR:

S. 1797. A bill to extend the temporary reduction of the duty on certain textured rolled glass sheets; to the Committee on Finance.

By Mr. SANDERS:

S. 1798. A bill to provide for the automatic enrollment of demobilizing members of the National Guard and Reserve in health care and dental care programs of the Department of Veterans Affairs, and for other purposes; to the Committee on Veterans' Affairs.

By Mr. DODD (for himself, Mr. SCHUMER, Mr. REED, Mr. BROWN, Mr. LEVIN, Mr. MERKLEY, Mr. MENENDEZ, and Mr. REID):

S. 1799. A bill to amend the Truth in Lending Act, to establish fair and transparent practices related to the marketing and provision of overdraft coverage programs at depository institutions, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

#### SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. DODD (for himself, Mr. GRASSLEY, Mr. BROWN, Mr. ENZI, Mr. CASEY, Mr. ALEXANDER, Mr. LEVIN, Ms. MURKOWSKI, Mr. ROCKEFELLER, Mr. INHOFE, Mr. LIEBERMAN, Mr. BROWNBACK, Mr. JOHNSON, Mr. CORNYN, Ms. STABENOW, and Mr. PRYOR):

S. Res. 314. A resolution designating the week beginning October 18, 2009, as "National Character Counts Week"; considered and agreed to.

#### ADDITIONAL COSPONSORS

S. 148

At the request of Mr. KOHL, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 148, a bill to restore the rule that agreements between manufacturers and retailers, distributors, or wholesalers to set the minimum price below which the manufacturer's product or service cannot be sold violates the Sherman Act.

S. 254

At the request of Mrs. LINCOLN, the name of the Senator from South Dakota (Mr. JOHNSON) was added as a cosponsor of S. 254, a bill to amend title XVIII of the Social Security Act to provide for the coverage of home infusion therapy under the Medicare Program.

S. 456

At the request of Mr. DODD, the names of the Senator from New Jersey (Mr. MENENDEZ) and the Senator from North Carolina (Mrs. HAGAN) were added as cosponsors of S. 456, a bill to

direct the Secretary of Health and Human Services, in consultation with the Secretary of Education, to develop guidelines to be used on a voluntary basis to develop plans to manage the risk of food allergy and anaphylaxis in schools and early childhood education programs, to establish school-based food allergy management grants, and for other purposes.

S. 607

At the request of Mr. UDALL of Colorado, the name of the Senator from Michigan (Ms. STABENOW) was added as a cosponsor of S. 607, a bill to amend the National Forest Ski Area Permit Act of 1986 to clarify the authority of the Secretary of Agriculture regarding additional recreational uses of National Forest System land that are subject to ski area permits, and for other purposes.

S. 795

At the request of Mrs. LINCOLN, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 795, a bill to amend the Social Security Act to enhance the social security of the Nation by ensuring adequate public-private infrastructure and to resolve to prevent, detect, treat, intervene in, and prosecute elder abuse, neglect, and exploitation, and for other purposes.

S. 823

At the request of Ms. SNOWE, the name of the Senator from Pennsylvania (Mr. CASEY) was added as a cosponsor of S. 823, a bill to amend the Internal Revenue Code of 1986 to allow a 5-year carryback of operating losses, and for other purposes.

S. 825

At the request of Mrs. LINCOLN, the name of the Senator from New York (Mr. SCHUMER) was added as a cosponsor of S. 825, a bill to amend the Internal Revenue Code of 1986 to restore, increase, and make permanent the exclusion from gross income for amounts received under qualified group legal services plans.

S. 883

At the request of Mr. KERRY, the names of the Senator from Virginia (Mr. WEBB), the Senator from Florida (Mr. LEMIEUX), the Senator from New Jersey (Mr. LAUTENBERG) and the Senator from Virginia (Mr. WARNER) were added as cosponsors of S. 883, a bill to require the Secretary of the Treasury to mint coins in recognition and celebration of the establishment of the Medal of Honor in 1861, America's highest award for valor in action against an enemy force which can be bestowed upon an individual serving in the Armed Services of the United States, to honor the American military men and women who have been recipients of the Medal of Honor, and to promote awareness of what the Medal of Honor represents and how ordinary Americans, through courage, sacrifice, self-

less service and patriotism, can challenge fate and change the course of history.

S. 941

At the request of Mr. CRAPO, the name of the Senator from Nevada (Mr. ENSIGN) was added as a cosponsor of S. 941, a bill to reform the Bureau of Alcohol, Tobacco, Firearms, and Explosives, modernize firearm laws and regulations, protect the community from criminals, and for other purposes.

S. 1151

At the request of Mr. ROCKEFELLER, the name of the Senator from Arkansas (Mrs. LINCOLN) was added as a cosponsor of S. 1151, a bill to amend part A of title IV of the Social Security Act to require the Secretary of Health and Human Services to conduct research on indicators of child well-being.

S. 1215

At the request of Mr. CASEY, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1215, a bill to amend the Safe Drinking Water Act to repeal a certain exemption for hydraulic fracturing, and for other purposes.

S. 1321

At the request of Mr. UDALL of Colorado, the name of the Senator from Michigan (Mr. LEVIN) was added as a cosponsor of S. 1321, a bill to amend the Internal Revenue Code of 1986 to provide a credit for property labeled under the Environmental Protection Agency Water Sense program.

S. 1340

At the request of Mr. LEAHY, the name of the Senator from California (Mrs. FEINSTEIN) was added as a cosponsor of S. 1340, a bill to establish a minimum funding level for programs under the Victims of Crime Act of 1984 for fiscal years 2010 to 2014 that ensures a reasonable growth in victim programs without jeopardizing the long-term sustainability of the Crime Victims Fund.

S. 1583

At the request of Mr. ROCKEFELLER, the name of the Senator from North Carolina (Mr. BURR) was added as a cosponsor of S. 1583, a bill to amend the Internal Revenue Code of 1986 to extend the new markets tax credit through 2014, and for other purposes.

S. 1589

At the request of Ms. CANTWELL, the name of the Senator from Illinois (Mr. DURBIN) was added as a cosponsor of S. 1589, a bill to amend the Internal Revenue Code of 1986 to modify the incentives for the production of biodiesel.

S. 1660

At the request of Ms. KLOBUCHAR, the names of the Senator from Louisiana (Mr. VITTER) and the Senator from California (Mrs. FEINSTEIN) were added as cosponsors of S. 1660, a bill to amend the Toxic Substances Control Act to reduce the emissions of formaldehyde

from composite wood products, and for other purposes.

S. 1666

At the request of Ms. COLLINS, the name of the Senator from Louisiana (Mr. VITTER) was added as a cosponsor of S. 1666, a bill to require the Administrator of the Environmental Protection Agency to satisfy certain conditions before issuing to producers of mid-level ethanol blends a waiver from certain requirements under the Clean Air Act, and for other purposes.

S. 1672

At the request of Mr. REED, the names of the Senator from North Carolina (Mr. BURR) and the Senator from Rhode Island (Mr. WHITEHOUSE) were added as cosponsors of S. 1672, a bill to reauthorize the National Oilheat Research Alliance Act of 2000.

S. 1678

At the request of Mr. CARDIN, the names of the Senator from Maryland (Ms. MIKULSKI) and the Senator from New Mexico (Mr. UDALL) were added as cosponsors of S. 1678, a bill to amend the Internal Revenue Code of 1986 to extend the first-time homebuyer tax credit, and for other purposes.

S. 1685

At the request of Mr. SANDERS, the name of the Senator from Rhode Island (Mr. REED) was added as a cosponsor of S. 1685, a bill to provide an emergency benefit of \$250 to seniors, veterans, and persons with disabilities in 2010 to compensate for the lack of a cost-of-living adjustment for such year, and for other purposes.

S. 1700

At the request of Mr. LUGAR, the name of the Senator from New Jersey (Mr. MENENDEZ) was added as a cosponsor of S. 1700, a bill to require certain issuers to disclose payments to foreign governments for the commercial development of oil, natural gas, and minerals, to express the sense of Congress that the President should disclose any payment relating to the commercial development of oil, natural gas, and minerals on Federal land, and for other purposes.

S. 1711

At the request of Mr. REID, the name of the Senator from Wisconsin (Mr. KOHL) was added as a cosponsor of S. 1711, a bill to amend the Internal Revenue Code of 1986 to provide tax incentives for making homes more water-efficient, for building new water-efficient homes, for public water conservation, and for other purposes.

S. 1731

At the request of Mr. REED, the name of the Senator from Vermont (Mr. SANDERS) was added as a cosponsor of S. 1731, a bill to require certain mortgagees to make loan modifications, to establish a grant program for State and local government mediation programs, to create databases on foreclosures, and for other purposes.

S. 1761

At the request of Ms. LANDRIEU, the name of the Senator from Mississippi (Mr. WICKER) was added as a cosponsor of S. 1761, a bill to provide an extension of the low-income housing credit placed-in-service date requirement for certain disaster areas.

S. 1763

At the request of Mr. FRANKEN, the names of the Senator from Alaska (Mr. BEGICH) and the Senator from New Mexico (Mr. UDALL) were added as cosponsors of S. 1763, a bill to amend the Internal Revenue Code of 1986 to deny the deduction for advertising and promotional expenses for prescription pharmaceuticals.

S. 1765

At the request of Mr. CARDIN, the name of the Senator from Vermont (Mr. LEAHY) was added as a cosponsor of S. 1765, a bill to amend the Hate Crime Statistics Act to include crimes against the homeless.

S. 1777

At the request of Mr. UDALL of Colorado, the name of the Senator from Idaho (Mr. RISCH) was added as a cosponsor of S. 1777, a bill to facilitate the remediation of abandoned hardrock mines, and for other purposes.

S. 1790

At the request of Mr. DORGAN, the name of the Senator from Colorado (Mr. BENNET) was added as a cosponsor of S. 1790, a bill to amend the Indian Health Care Improvement Act to revise and extend that Act, and for other purposes.

S. RES. 312

At the request of Mr. DURBIN, the names of the Senator from Vermont (Mr. SANDERS) and the Senator from Ohio (Mr. VOINOVICH) were added as cosponsors of S. Res. 312, a resolution expressing the sense of the Senate on empowering and strengthening the United States Agency for International Development (USAID).

AMENDMENT NO. 2668

At the request of Mr. UDALL of New Mexico, his name was added as a cosponsor of amendment No. 2668 intended to be proposed to H.R. 3548, a bill to amend the Supplemental Appropriations Act, 2008 to provide for the temporary availability of certain additional emergency unemployment compensation, and for other purposes.

AMENDMENT NO. 2679

At the request of Ms. KLOBUCHAR, the name of the Senator from Florida (Mr. LEMIEUX) was added as a cosponsor of amendment No. 2679 intended to be proposed to H.R. 2847, a bill making appropriations for the Departments of Commerce and Justice, and Science, and Related Agencies for the fiscal year ending September 30, 2010, and for other purposes.

# STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. DODD (for himself, Mr. SCHUMER, Mr. REED, Mr. BROWN, Mr. LEVIN, Mr. MERKLEY, Mr. MENENDEZ, and Mr. REID):

S. 1799. A bill to amend the Truth in Lending Act, to establish fair and transparent practices related to the marketing and provision of overdraft coverage programs at depository institutions, and for other purposes; to the Committee on Banking, Housing, and Urban Affairs.

Mr. DODD. Mr. President, I rise to introduce the Fairness and Accountability in Receiving Overdraft Coverage Act, The FAIR Overdraft Coverage Act. The FAIR Overdraft Coverage Act will rein in abusive fees, give customers greater choice, and bring greater transparency to overdraft coverage programs.

For too long, some in the financial services industry have gotten rich by taking advantage of consumers.

Earlier this year, in a 90-5 vote, this body passed legislation to crack down on credit card companies who were charging excessive fees and indiscriminately raising customers' rates. Those practices were wrong, and I was proud to lead the charge to put a stop to them.

Today, I hope to rally my colleagues' support to curtail another abusive practice: overdraft fees.

Let me be clear, people have a responsibility to spend within their means.

However, too often, banks take advantage of their customers under the guise of providing the "service" of overdraft protection, a service that the customer may not want and may not even know has been applied to his or her account.

The Financial Times recently reported that banks stand to collect a record \$38.5 billion in overdraft fees this year.

According to the Center for Responsible Lending, nearly \$1 billion of that will come from young adults.

Another \$4.5 billion will come from senior citizens like Mario Livieri of Branford, Connecticut. Mario is a 75-year-old retired homebuilder who accidentally overdrew his account by approximately \$2, and was charged \$35 by his bank. The bank took several days to notify him that the account was overdrawn, and in the meantime, he made three additional minor purchases for which he was charged three additional \$35 fees—a total of \$140.

When Mario protested, the bank waived one of the four \$35 charges. They told him there was nothing more he could do to fight the fees, because this practice was perfectly legal. Mario Livieri is no longer a customer at that bank, and this prevalent practice should no longer be perfectly legal.

Slow-walking notifications to consumers when their accounts are overdrawn is just one way in which banks try to run up the score on overdraft fees. Sometimes, they even re-arrange the order in which they process your purchases, charging you for a later, larger purchase first and then they charge you repeated overdraft fees for earlier, smaller purchases.

Worst of all, so-called "overdraft protection" is often added to customers' accounts without their permission, or even their knowledge. Customers who don't know that this feature is attached to their accounts think their purchases will just be denied if they don't have sufficient money in their accounts. Instead, their depository institutions will let these purchases go through and charge a \$35 flat fee for each purchase that overdrafts the account—no matter how small the purchase. And there generally is no limit on the number of fees that a customer can be charged in a single day.

That is just wrong. Families in my State of Connecticut and across the country are already struggling to make ends meet—and these unfair and excessive charges are making it even harder. Over the past few weeks, I've worked with consumer groups and listened to folks like Mario who have been the victims of these abusive practices. Those discussions resulted in the bill I present to you today.

Here is how the bill works.

First and foremost, no consumer should be enrolled in a program like this without their knowledge. My bill will establish an opt-in rule for overdraft protection for ATM and debit transactions so that customers will have to consent before they can be charged an overdraft coverage fee. You will recall that the credit card bill we passed earlier this year had a similar approach to over-the-limit fees.

If you do choose to opt into an overdraft coverage program, the bill will limit the number of overdraft fees banks can charge you—one per month, and no more than six per year. And that fee will be required to be proportional to the cost of processing the overdraft—no more \$40 charges for \$2 cups of coffee.

My legislation will also put a stop to the practice of manipulating the order in which transactions are posted, and require banks to warn customers if they are about to overdraw their account, giving them a chance to cancel the transaction.

Finally, it will require banks to notify customers promptly when they've overdrawn an account—through a means the customer chooses, from e-mail to text message to letter—so that they can quickly restore their balance and avoid unnecessary fees.

Abusive overdraft policies are unfair, and the banks know it. After it came out in the press that I was working on

this legislation, a few of the big banks took steps towards responsible reform.

We will see whether these few are truly committed to reform. America's consumers deserve better—and this legislation will make sure they won't continue to be victims of greedy banks looking to line their pockets at the expense of hard-working families.

I urge my colleagues to join me and Senators HARRY REID, CHARLES SCHUMER, JACK REED, SHERROD BROWN, CARL LEVIN, JEFF MERKLEY, and ROBERT MENENDEZ in support of this legislation.

Mr. President, I ask unanimous Consent that the text of the bill be printed in the RECORD.

There being no objection, the text of the bill was ordered to be printed in the RECORD, as follows:

S. 1799

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE.

This Act may be cited as the "Fairness and Accountability in Receiving Overdraft Coverage Act of 2009" or the "FAIR Overdraft Coverage Act".

#### SEC. 2. FINDINGS AND PURPOSE.

Section 102 of the Truth in Lending Act (15 U.S.C. 1601) is amended by adding at the end the following:

"(c) FAIRNESS AND ACCOUNTABILITY IN OVERDRAFT COVERAGE.—

"(1) FINDINGS.—The Congress also finds that—

"(A) overdraft coverage is a form of short-term credit that depository institutions provide for consumer transaction accounts. Historically, depository institutions covered overdrafts for a fee on an ad hoc basis;

"(B) with the growth in specially designed software programs and in consumer use of debit cards, overdraft coverage for a fee has become more prevalent;

"(C) most depository institutions do not notify consumers when adding this feature to their transaction accounts, and some do not permit consumers to eliminate this feature from such accounts;

"(D) most depository institutions collect a high flat fee, including for small dollar transactions, each time the institution covers an overdraft, in some cases impose multiple overdraft coverage fees within a single day, and many charge additional fees for each day during which the account remains overdrawn; and

"(E) such abusive and misleading practices in connection with overdraft coverage fees have deprived consumers of meaningful choices about their accounts and placed significant financial burdens on low- and moderate-income consumers.

"(2) PURPOSE.—It is the purpose of this title to protect consumers by limiting abusive and misleading overdraft coverage fees and practices, and by providing meaningful disclosures and consumer choice in connection with overdraft coverage fees."

#### SEC. 3. DEFINITIONS.

(a) ADDITIONAL DEFINITIONS.—Section 103 of the Truth in Lending Act (15 U.S.C. 1602) is amended by adding at the end the following:

"(cc) DEFINITIONS RELATING TO OVERDRAFT COVERAGE.—

"(1) CHECK.—The term 'check' has the same meaning as in section 3(6) of the Check Clearing for the 21st Century Act (12 U.S.C. 5001 et seq.), other than a travelers check.

"(2) DEPOSITORY INSTITUTION.—The term 'depository institution' has the same meaning as in clauses (i) through (vi) of section 19(b)(1)(A) of the Federal Reserve Act (12 U.S.C. 461(b)(1)(A)).

"(3) NONSUFFICIENT FUND FEE.—The term 'nonsufficient fund fee' means a fee or charge assessed in connection with an overdraft for which a depository institution declines payment.

"(4) OVERDRAFT.—The term 'overdraft' means the amount of a withdrawal by check or other debit from a transaction account in which there are insufficient or unavailable funds in the account to cover such check or debit.

"(5) OVERDRAFT COVERAGE.—The term 'overdraft coverage' means the payment of a check presented or other debit posted against a transaction account by the depository institution in which such account is held, even though there are insufficient or unavailable funds in the account to cover such checks or other debits.

"(6) OVERDRAFT COVERAGE FEE.—The term 'overdraft coverage fee' means any fee or charge assessed in connection with overdraft coverage, or in connection with any negative account balance that results from overdraft coverage, excluding fees or charges relating to overdraft lines of credit or transfers from an account linked to another transaction account or line of credit. Such fee shall be considered a 'finance charge' for purposes of section 106(a), but shall not be included in the calculation of the rate of interest for purposes of section 107(5)(A)(vi) of the Federal Credit Union Act (12 U.S.C. 1757(5)(A)(vi)).

"(7) OVERDRAFT COVERAGE PROGRAM.—The term 'overdraft coverage program' means a service under which a depository institution assesses an overdraft coverage fee for overdraft coverage.

"(8) TRANSACTION ACCOUNT.—The term 'transaction account' has the same meaning as in section 19(b)(1)(C) of the Federal Reserve Act (12 U.S.C. 461(b)(1)(C))."

(b) CONFORMING AMENDMENT.—Section 107(5)(A)(vi) of the Federal Credit Union Act (12 U.S.C. 1757(5)(A)(vi)) is amended by inserting " , other than an overdraft coverage fee, as defined in section 103(cc) of the Truth in Lending Act (12 U.S.C. 1602(cc))" after "inclusive of all finance charges".

#### SEC. 4. FAIR MARKETING AND PROVISION OF OVERDRAFT COVERAGE PROGRAMS.

Chapter 2 of the Truth in Lending Act (15 U.S.C. 1631 et seq.) is amended by adding at the end the following new section:

##### "SEC. 140B. OVERDRAFT COVERAGE PROGRAM DISCLOSURES AND CONSUMER PROTECTION.

"(a) PROHIBITIONS.—No depository institution may engage in acts or practices in connection with the marketing of or the provision of overdraft coverage that are unfair, deceptive, or designed to evade the provisions of this section.

"(b) MARKETING DISCLOSURES.—Each depository institution that provides or offers to provide overdraft coverage with respect to transaction accounts held at that depository institution shall clearly and conspicuously disclose in all marketing materials for such overdraft coverage any overdraft coverage fees.

"(c) CONSUMER CONSENT OPT-IN.—A depository institution may charge overdraft coverage fees with respect to withdrawals from automated teller machines or debit card transfers only if the consumer has consented in writing, in electronic form, or in such other form as is permitted under regulations of the Board.

"(d) CONSUMER DISCLOSURES.—Each depository institution shall clearly disclose to each consumer covered by an overdraft protection program of that depository institution—

"(1) that—

"(A) the consumer may be charged for not more than one overdraft coverage fee in any single calendar month and not more than 6 overdraft coverage fees in any single calendar year, per transaction account; and

"(B) the depository institution retains the discretion to pay (without assessing an overdraft coverage fee) or reject overdrafts incurred by the consumer beyond the numbers described in subparagraph (A);

"(2) information about any alternative overdraft products that are available, including a clear explanation of how the terms and fees for such alternative services and products differ; and

"(3) such other information as the Board may require, by rule.

"(e) PERIODIC STATEMENTS.—Each depository institution that offers an overdraft coverage program shall, in each periodic statement for any transaction account that has an overdraft coverage program feature, clearly disclose to the consumer the dollar amount of all overdraft coverage fees charged to the consumer for the relevant period and year to date.

"(f) EXCLUSION FROM ACCOUNT BALANCE INFORMATION.—No depository institution may include the amount available under the overdraft coverage program of a consumer as part of the transaction account balance of that consumer.

"(g) PROMPT NOTIFICATION.—Each depository institution shall promptly notify consumers, through a reasonable means selected by the consumer, when overdraft coverage has been accessed with respect to the account of the consumer, not later than on the day on which such access occurs, including—

"(1) the date of the transaction;

"(2) the type of transaction;

"(3) the overdraft amount;

"(4) the overdraft coverage fee;

"(5) the amount necessary to return the account to a positive balance; and

"(6) whether the participation of a consumer in an overdraft coverage program will be terminated if the account is not returned to a positive balance within a given time period.

"(h) TERMINATED OR SUSPENDED COVERAGE.—Each depository institution shall provide prompt notice to the consumer, using a reasonable means selected by the consumer, if the institution terminates or suspends access to an overdraft coverage program with respect to an account of the consumer, including a clear rationale for the action.

"(i) NOTICE AND OPPORTUNITY TO CANCEL.—Each depository institution shall—

"(1) warn any consumer covered by an overdraft coverage program who engages in a transaction through an automated teller machine or a branch teller if completing the transaction would trigger overdraft coverage fees, including the amount of the fees; and

"(2) provide to the consumer the opportunity to cancel the transaction before it is completed.

"(j) OVERDRAFT COVERAGE FEE LIMITS.—

"(1) FREQUENCY.—A depository institution may charge not more than one overdraft coverage fee in any single calendar month, and not more than 6 overdraft coverage fees in any single calendar year, per transaction account.

"(2) REASONABLE AND PROPORTIONAL OVERDRAFT COVERAGE FEES.—

“(A) IN GENERAL.—The amount of any overdraft coverage fee that a depository institution may assess for paying a transaction (including a check or other debit) shall be reasonable and proportional to the cost of processing the transaction.

“(B) SAFE HARBOR RULE AUTHORIZED.—The Board, in consultation with the Comptroller of the Currency, the Board of Directors of the Federal Deposit Insurance Corporation, the Director of the Office of Thrift Supervision, and the National Credit Union Administration Board, may issue rules to provide an amount for any overdraft coverage fee that is presumed to be reasonable and proportional to the actual cost of processing the transaction.

“(3) POSTING ORDER.—In order to minimize overdraft coverage fees charged to consumers, each depository institution shall post transactions with respect to transaction accounts in such a manner that the consumer does not incur avoidable overdraft coverage fees.

“(k) DEBIT HOLDS.—No depository institution may charge an overdraft coverage fee on any category of transaction, if the overdraft results solely from a debit hold amount placed on a transaction account that exceeds the actual dollar amount of the transaction.

“(l) NONDISCRIMINATION FOR NOT OPTING IN.—In implementing the requirements of this section, each depository institution shall provide to consumers who have not consented to participate in an overdraft coverage program, transaction accounts having the same terms, conditions, or other features as those that are provided to consumers who have consented to participate in such overdraft coverage program, except for features of such overdraft coverage.

“(m) NON-SUFFICIENT FUND FEE LIMITS.—No depository institution may charge any non-sufficient fund fee with respect to—

“(1) any transaction at an automated teller machine; or

“(2) any debit card transaction.

“(n) REPORTS TO CONSUMER REPORTING AGENCIES.—No depository institution may report negative information regarding the use of overdraft coverage by a consumer to any consumer reporting agency (as that term is defined in section 603 of the Fair Credit Reporting Act (15 U.S.C. 1681a)) when the overdraft amounts and overdraft coverage fees are paid under the terms of an overdraft coverage program.

“(o) RULE OF CONSTRUCTION.—No provision of this section may be construed as prohibiting a depository institution from retaining the discretion to pay, without assessing an overdraft coverage fee or charge, an overdraft incurred by a consumer.”.

#### SEC. 5. REGULATORY AUTHORITY OF THE BOARD.

(a) IN GENERAL.—Not later than 9 months after the date of enactment of this Act (except as provided in subsection (b)), the Board of Governors of the Federal Reserve System (in this Act referred to as the “Board”), in consultation with the Comptroller of the Currency, the Board of Directors of the Federal Deposit Insurance Corporation, the Director of the Office of Thrift Supervision, and the National Credit Union Administration Board, shall issue such final rules and publish such model forms as necessary to carry out section 140B of the Truth in Lending Act, as added by this Act.

(b) BOARD AUTHORITY REGARDING ADDITIONAL WARNINGS.—The Board may, by rule, after taking into account the findings of the Comptroller General of the United States under section 6, require warnings at loca-

tions such as point-of-sale transfer terminals or other locations, that are similar to those required under section 140B(i) of the Truth in Lending Act, as added by this Act, where feasible, and if the cost of providing such warnings does not outweigh the benefit to consumers.

#### SEC. 6. STUDY AND REPORT BY THE GAO.

(a) STUDY.—

(1) IN GENERAL.—The Comptroller General of the United States shall conduct a study regarding whether it is feasible for a depository institution—

(A) to provide a warning to a consumer at a point-of-sale transfer terminal that completing a transfer may trigger overdraft coverage fees; and

(B) to provide the consumer with the opportunity to cancel the point-of-sale transfer before the transaction is completed.

(2) CONSIDERATIONS.—In conducting the study under this subsection, the Comptroller General shall evaluate—

(A) the benefits to consumers of a point-of-sale transfer overdraft warning and opportunity to cancel;

(B) the availability of technology to provide such a warning and opportunity; and

(C) the cost of providing such warning and opportunity.

(b) REPORT TO CONGRESS.—Not later than 1 year after the date of enactment of this Act, the Comptroller General shall submit a report to Congress on the results of the study conducted under subsection (a).

(c) DEFINITIONS.—As used in this section, the terms “overdraft coverage program”, “overdraft coverage fee”, and “depository institution” have the same meanings as in section 103(cc) of the Truth in Lending Act, as added by this Act.

#### SEC. 7. EFFECTIVE DATE.

(a) IN GENERAL.—This Act and the amendments made by this Act shall become effective 1 year after the date of enactment of this Act, whether or not the rules of the Board under this Act or such amendments are issued in final form.

(b) MORATORIUM ON FEE INCREASES.—

(1) IN GENERAL.—During the 1-year period beginning on the date of enactment of this Act, no depository institution may increase the overdraft coverage fees or charges assessed on transaction accounts for paying a transaction (including a check or other debit) in connection with an overdraft or for non-sufficient funds.

(2) DEFINITIONS.—As used in this section, the terms “depository institution”, “overdraft”, “overdraft coverage fee”, “transaction account” and “non-sufficient fund fee” have the same meanings as in section 103(cc) of the Truth in Lending Act, as added by this Act.

### SUBMITTED RESOLUTIONS

#### SENATE RESOLUTION 314—DESIGNATING THE WEEK BEGINNING OCTOBER 18, 2009, AS “NATIONAL CHARACTER COUNTS WEEK”

Mr. DODD (for himself, Mr. GRASSLEY, Mr. BROWN, Mr. ENZI, Mr. CASEY, Mr. ALEXANDER, Mr. LEVIN, Ms. MURKOWSKI, Mr. ROCKEFELLER, Mr. INHOFE, Mr. LIEBERMAN, Mr. BROWNBACK, Mr. JOHNSON, Mr. CORNYN, Ms. STABENOW, and Mr. PRYOR) submitted the following resolution; which was considered and agreed to:

S. RES. 314

Whereas the well-being of the United States requires that the young people of this Nation become an involved, caring citizenry of good character;

Whereas the character education of children has become more urgent, as violence by and against youth increasingly threatens the physical and psychological well-being of the people of the United States;

Whereas more than ever, children need strong and constructive guidance from their families and their communities, including schools, youth organizations, religious institutions, and civic groups;

Whereas the character of a nation is only as strong as the character of its individual citizens;

Whereas the public good is advanced when young people are taught the importance of good character and the positive effects that good character can have in personal relationships, in school, and in the workplace;

Whereas scholars and educators agree that people do not automatically develop good character and that, therefore, conscientious efforts must be made by institutions and individuals that influence youth to help young people develop the essential traits and characteristics that comprise good character;

Whereas although character development is, first and foremost, an obligation of families, the efforts of faith communities, schools, and youth, civic, and human service organizations also play an important role in fostering and promoting good character;

Whereas Congress encourages students, teachers, parents, youth, and community leaders to recognize the importance of character education in preparing young people to play a role in determining the future of the United States;

Whereas effective character education is based on core ethical values, which form the foundation of democratic society;

Whereas examples of character are trustworthiness, respect, responsibility, fairness, caring, citizenship, and honesty;

Whereas elements of character transcend cultural, religious, and socioeconomic differences;

Whereas the character and conduct of our youth reflect the character and conduct of society, and, therefore, every adult has the responsibility to teach and model ethical values and every social institution has the responsibility to promote the development of good character;

Whereas Congress encourages individuals and organizations, especially those that have an interest in the education and training of the young people of the United States, to adopt the elements of character as intrinsic to the well-being of individuals, communities, and society;

Whereas many schools in the United States recognize the need, and have taken steps, to integrate the values of their communities into their teaching activities; and

Whereas the establishment of “National Character Counts Week”, during which individuals, families, schools, youth organizations, religious institutions, civic groups, and other organizations focus on character education, is of great benefit to the United States: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates the week beginning October 18, 2009, as “National Character Counts Week”; and

(2) calls upon the people of the United States and interested groups—

(A) to embrace the elements of character identified by local schools and communities,

such as trustworthiness, respect, responsibility, fairness, caring, and citizenship; and

(B) to observe the week with appropriate ceremonies, programs, and activities.

#### AMENDMENTS SUBMITTED AND PROPOSED

SA 2692. Mr. HARKIN (for himself and Mr. ENZI) proposed an amendment to the bill S. 1793, to amend title XXVI of the Public Health Service Act to revise and extend the program for providing life-saving care for those with HIV/AIDS.

SA 2693. Mrs. LINCOLN submitted an amendment intended to be proposed by her to the bill S. 1776, to amend title XVIII of the Social Security Act to provide for the update under the Medicare physician fee schedule for years beginning with 2010 and to sunset the application of the sustainable growth rate formula, and for other purposes; which was ordered to lie on the table.

#### TEXT OF AMENDMENTS

SA 2692. Mr. HARKIN (for himself and Mr. ENZI) proposed an amendment to the bill S. 1793, to amend title XXVI of the Public Health Service Act to revise and extend the program for providing life-saving care for those with HIV/AIDS; as follows:

On page 5, line 14, strike "In" and insert "in".

On page 7, line 12, add "and" at the end.

On page 7, line 24, strike "(vi)" and insert "(C)" and realign the margin accordingly.

On page 8, line 1, strike "(g)" and insert "(d)".

On page 26, line 5, insert "section" after "in".

On page 26, line 6, strike "(c)(A)" and insert "(c)(4)(A)".

On page 26, line 13, strike "(c)" and insert "(c)".

On page 31, line 24, strike "(a)" and insert "(1)" and realign the margin accordingly.

On page 31, line 26, strike "(b)" and insert "(2)" and realign the margin accordingly.

On page 42, line 13, strike "subpart" and insert "part".

On page 46, line 24, strike "subpart" and insert "part".

On page 47, line 10, strike "subpart" and insert "part".

On page 48, strike lines 1 through 8, and insert the following:

"(a) LIABILITY OF MEDICAL FACILITIES, DESIGNATED OFFICERS, PUBLIC HEALTH OFFICERS, AND GOVERNING ENTITIES.—This part may not be construed to authorize any cause of action for damages or any civil penalty against any medical facility, any designated officer, any other public health officer, or any governing entity of such facility or officer for failure to comply with the duties established in this part."

On page 48, line 9, strike "subpart" and insert "part".

On page 48, line 13, strike "subpart" and insert "part".

On page 48, line 20, strike "subpart" and insert "part".

On page 49, line 18, strike "subpart" and insert "part".

On page 49, line 23, strike "subpart" and insert "part".

On page 50, line 1, strike "subpart" and insert "part".

On page 50, line 2, strike "subpart" and insert "part".

On page 50, line 5, strike "subpart" and insert "part".

SA 2693. Mrs. LINCOLN submitted an amendment intended to be proposed by her to the bill S. 1776, to amend title XVIII of the Social Security Act to provide for the update under the Medicare physician fee schedule for years beginning with 2010 and to sunset the application of the sustainable growth rate formula, and for other purposes; which was ordered to lie on the table; as follows:

At the end, add the following:

#### SEC. \_\_\_\_ REDUCTION IN TARP FUNDS TO OFFSET THE COSTS OF THE PAYMENT UPDATE FOR MEDICARE PHYSICIANS' SERVICES.

Paragraph (3) of section 115(a) of the Emergency Economic Stabilization Act of 2008 (12 U.S.C. 5225) is amended by striking "\$1,244,000,000" and inserting "\$251,244,000,000".

#### RYAN WHITE HIV/AIDS TREATMENT EXTENSION ACT OF 2009

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of Calendar No. 182, S. 1793.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (S. 1793) to amend title XXVI of the Public Health Service Act to revise and extend the program for providing life-saving care for those with HIV/AIDS.

There being no objection, the Senate proceeded to consider the bill.

Mr. HARKIN. Mr. President, today marks an important milestone in our ongoing national effort to combat HIV and AIDS. Twenty-eight years ago, the Centers for Disease Control and Prevention issued its first warning about the disease we now know as AIDS. Today, we are approving the fourth extension of the Ryan White CARE Act, comprehensive legislation first enacted in 1990 for the prevention and treatment of HIV and AIDS.

In those early days, the Nation failed on all levels to fully recognize the dangers posed by this disease. Its victims suffered in silence and stigma. Shamefully, those who had the power to help did nothing.

Then, belatedly, in the mid 1990s, a young boy's courage opened the Nation's eyes to the tragedy of AIDS. A disease that had seemed distant was suddenly a potential threat to any of us. We realized that it is a deadly virus that does not discriminate based on color, religion, political affiliation, or income status. I have no doubt that Ryan White would be proud of the bipartisan effort that, after months of negotiation and compromise, has produced the bill before us today.

In 1987, bipartisan legislation was first introduced calling for a comprehensive national strategy focusing on education, prevention, and research

to halt the spread of AIDS. We summoned government, the public health community, and the media all to do their part raise public awareness and combat the AIDS epidemic across America.

Yet, today, more than two decades later, the battle continues. We mourn the more than 500,000 Americans who have been lost to the AIDS virus. However, we take heart from the fact that AIDS is no longer a death sentence. Through testing and treatment, people are living long, full, productive lives with HIV. We are identifying victims earlier in the progression of the disease, and keeping them healthier longer.

However, we still have a long way to go. Many who live with HIV and AIDS do not have insurance to pay for costly treatments. As a result, heavy demands are placed on community-based organizations, as well as on State and local governments. For most of these citizens, the Ryan White CARE Act continues to provide the only means to obtain the care and treatment they need.

The Ryan White CARE Act began as an emergency response to the HIV/AIDS crisis in urban America, but today it has been broadened into a national strategy to provide care and support for people living with HIV and AIDS anywhere in America.

This bill builds on a consensus among States, cities, community-based organizations, hospitals and health providers, and persons living with HIV and AIDS their families and advocates: It maintains access to life-saving medications, quality health care, and support services for persons living with HIV and AIDS who have come to depend on publicly funded systems, it extends this system of quality care to persons with HIV and AIDS who have faced long waiting lists for medications and severe limits on their access to specialty health care; it bolsters governmental and community-based institutions charged with providing this care, all of whom face growing case loads and the greater challenges of an evolving population of persons with HIV/AIDS; it balances the needs of high-prevalence cities and States with those facing rapidly growing epidemics; it assures those who have been relying on their local system of care that it will continue to be there for them; and it reassures persons seeking tests for HIV that comprehensive care and support will be available.

At its best, the United States has the finest HIV/AIDS care system, truly the gold standard for the rest of the world to emulate. Our goal in this legislation is to make the U.S. HIV/AIDS care system also the fairest in the world, with equal access for all, high quality standards, and guaranteed continuity of care—regardless of geographical location.

This bill is a great example of the good and important things we can accomplish in this body when we work together with bipartisanship, goodwill, and a spirit of compromise. This is also complex legislation, and all our committee staff members, Democratic and Republican alike, deserve great credit for their expertise, and for their diligence in bringing us to this day. I want to recognize Connie Garner and Jenelle Krishnamoorthy from my staff, Hayden Rhudy from Senator ENZI's staff, Tamar Magarik Haro from Senator DODD's staff, and Evan Feinberg from Senator COBURN's staff for their dedication and hard work on this legislation.

To say the least, this legislation is extremely important to Americans living with HIV and AIDS. For them, it is a lifeline. It offers hope for an active, productive, dignified life. This legislation shows America at its very best: compassionate, generous, extending a hand up to those in great need. Mr. President, I thank my colleagues for coming together to support this important, bipartisan bill.

Mr. ENZI. Mr. President, I rise today to express my great appreciation to Senators HARKIN, DODD, and COBURN for working in a bipartisan manner to reauthorize the Ryan White HIV/AIDS program. I am also thankful to all of the members on the HELP Committee for their efforts to ensure that we passed this bill in a timely manner so that individuals receiving care under the Ryan White program would not see an interruption in their services.

This bill continues policies that seek to accomplish the goal of ensuring that Ryan White funding follows the patient. The bill, which will pass by unanimous consent, updates funding formulas and requires more accurate and reliable data reporting from the States, which will ensure that funds are allocated to the areas with the greatest need. It encourages aggressive testing strategies and establishes a national HIV/AIDS testing goal of 5 million tests per year. The bill also provides more flexibility to allow grantees to spend funds effectively.

Over the years we have seen a dramatic change in the geographic location of the HIV/AIDS epidemic from northern, metropolitan areas, to southern—and in many instances—rural areas. Today, more persons living with AIDS reside in the South than in any other area of the country. Of the 26,347 new HIV cases, 51.2 percent were diagnosed in the 17 Southern States and of the top 20 metropolitan areas with the highest AIDS case rates, 14 were in the South. Thanks to the bipartisan efforts of the HELP Committee this reauthorization will ensure that funding is distributed in an equitable manner, reaching individuals with the greatest need.

The Ryan White program provides care for millions of Americans in need of medical care. Unfortunately we have

also seen abuses, where these funds are misspent and patients do not receive the care they need. As the ranking member of the HELP Committee, I will continue to work to prevent these abuses and guarantee that funding is distributed to legitimate organizations that provide real services. It is a travesty that so many millions of dollars have been wasted due to poor oversight and corruption.

As Congress continues to authorize and provide funding for services under the Ryan White program, we must also commit to conduct proper oversight, so that these dollars actually reach the patients who need assistance, rather than being pocketed by criminals.

I close by again expressing my great appreciation to my colleagues for their hours of hard work and dedication to extend the Ryan White HIV/AIDS program. I also thank the HIV/AIDS community for their tireless efforts to provide care to individuals with HIV/AIDS. Many Americans with HIV/AIDS will continue to receive access to vital care because of the compassion and dedication of HIV/AIDS organizations receiving Ryan White dollars. Finally, I also thank my staff members Greg Dean, Chuck Clapton and Hayden Rhudy, as well as the staff members of Senator HARKIN's office, Connie Gardner and Jenelle Krishnamoorthy, for their hard work on this important bill.

Mr. BROWN. Mr. President, this is the Ryan White HIV Act, which is particularly important legislation. I join millions of people in the country in supporting it.

I ask unanimous consent that a Harkin amendment, which is at the desk, be agreed to; that the bill, as amended, be read the third time and passed; that the motions to reconsider be laid upon the table, with no intervening action or debate, and that any statements related to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2692) was agreed to, as follows:

#### AMENDMENT NO. 2692

On page 5, line 14, strike "In" and insert "in".

On page 7, line 12, add "and" at the end.  
On page 7, line 24, strike "(vi)" and insert "(C)" and realign the margin accordingly.

On page 8, line 1, strike "(g)" and insert "(d)".

On page 26, line 5, insert "section" after "in".

On page 26, line 6, strike "(c)(A)" and insert "(c)(4)(A)".

On page 26, line 13, strike "(c)" and insert "(c)".

On page 31, line 24, strike "(a)" and insert "(1)" and realign the margin accordingly.

On page 31, line 26, strike "(b)" and insert "(2)" and realign the margin accordingly.

On page 42, line 13, strike "subpart" and insert "part".

On page 46, line 24, strike "subpart" and insert "part".

On page 47, line 10, strike "subpart" and insert "part".

On page 48, strike lines 1 through 8, and insert the following:

"(a) LIABILITY OF MEDICAL FACILITIES, DESIGNATED OFFICERS, PUBLIC HEALTH OFFICERS, AND GOVERNING ENTITIES.—This part may not be construed to authorize any cause of action for damages or any civil penalty against any medical facility, any designated officer, any other public health officer, or any governing entity of such facility or officer for failure to comply with the duties established in this part."

On page 48, line 9, strike "subpart" and insert "part".

On page 48, line 13, strike "subpart" and insert "part".

On page 48, line 20, strike "subpart" and insert "part".

On page 49, line 18, strike "subpart" and insert "part".

On page 49, line 23, strike "subpart" and insert "part".

On page 50, line 1, strike "SUBPART" and insert "PART".

On page 50, line 2, strike "subpart" and insert "part".

On page 50, line 5, strike "subpart" and insert "part".

The bill (S. 1793) was ordered to be engrossed for a third reading, was read the third time, and passed, as follows:

S. 1793

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,*

#### SECTION 1. SHORT TITLE; REFERENCES.

(a) SHORT TITLE.—This Act may be cited as the "Ryan White HIV/AIDS Treatment Extension Act of 2009".

(b) REFERENCES.—Except as otherwise specified, whenever in this Act an amendment is expressed in terms of an amendment to a section or other provision, the reference shall be considered to be made to a section or other provision of the Public Health Service Act (42 U.S.C. 201 et seq.).

#### SEC. 2. REAUTHORIZATION OF HIV HEALTH CARE SERVICES PROGRAM.

(a) ELIMINATION OF SUNSET PROVISION.—

(1) IN GENERAL.—The Ryan White HIV/AIDS Treatment Modernization Act of 2006 (Public Law 109-415; 120 Stat. 2767) is amended by striking section 703.

(2) EFFECTIVE DATE.—Paragraph (1) shall take effect as if enacted on September 30, 2009.

(3) CONTINGENCY PROVISIONS.—Notwithstanding section 703 of the Ryan White HIV/AIDS Treatment Modernization Act of 2006 (Public Law 109-415; 120 Stat. 2767) and section 139 of the Continuing Appropriations Resolution, 2010—

(A) the provisions of title XXVI of the Public Health Service Act (42 U.S.C. 300ff et seq.), as in effect on September 30, 2009, are hereby revived; and

(B) the amendments made by this Act to title XXVI of the Public Health Service Act (42 U.S.C. 300ff et seq.) shall apply to such title as so revived and shall take effect as if enacted on September 30, 2009.

(b) PART A GRANTS.—Section 2610(a) (42 U.S.C. 300ff-20(a)) is amended by striking "and \$649,500,000 for fiscal year 2009" and inserting "\$649,500,000 for fiscal year 2009, \$681,975,000 for fiscal year 2010, \$716,074,000 for fiscal year 2011, \$751,877,000 for fiscal year 2012, and \$789,471,000 for fiscal year 2013".

(c) PART B GRANTS.—Section 2623(a) (42 U.S.C. 300ff-32(a)) is amended by striking "and \$1,285,200,000 for fiscal year 2009" and inserting "\$1,285,200,000 for fiscal year 2009, \$1,349,460,000 for fiscal year 2010, \$1,416,933,000

for fiscal year 2011, \$1,487,780,000 for fiscal year 2012, and \$1,562,169,000 for fiscal year 2013”.

(d) PART C GRANTS.—Section 2655 (42 U.S.C. 300ff-55) is amended by striking “and \$235,100,000 for fiscal year 2009” and inserting “\$235,100,000 for fiscal year 2009, \$246,855,000 for fiscal year 2010, \$259,198,000 for fiscal year 2011, \$272,158,000 for fiscal year 2012, and \$285,766,000 for fiscal year 2013”.

(e) PART D GRANTS.—Section 2671(i) (42 U.S.C. 300ff-71(i)) is amended by inserting before the period at the end “, \$75,390,000 for fiscal year 2010, \$79,160,000 for fiscal year 2011, \$83,117,000 for fiscal year 2012, and \$87,273,000 for fiscal year 2013”.

(f) DEMONSTRATION AND TRAINING GRANTS UNDER PART F.—

(1) HIV/AIDS COMMUNITIES, SCHOOLS, AND CENTERS.—Section 2692(c) (42 U.S.C. 300ff-11(c)) is amended—

(A) in paragraph (1)—

(i) by striking “is authorized” and inserting “are authorized”; and

(ii) by inserting before the period at the end “, \$36,535,000 for fiscal year 2010, \$38,257,000 for fiscal year 2011, \$40,170,000 for fiscal year 2012, and \$42,178,000 for fiscal year 2013”; and

(B) in paragraph (2)—

(i) by striking “is authorized” and inserting “are authorized”; and

(ii) by inserting before the period at the end “, \$13,650,000 for fiscal year 2010, \$14,333,000 for fiscal year 2011, \$15,049,000 for fiscal year 2012, and \$15,802,000 for fiscal year 2013”.

(2) MINORITY AIDS INITIATIVE.—Section 2693 (42 U.S.C. 300ff-121) is amended—

(A) in subsection (a), by striking “and \$139,100,000 for fiscal year 2009” and inserting “\$139,100,000 for fiscal year 2009, \$146,055,000 for fiscal year 2010, \$153,358,000 for fiscal year 2011, \$161,026,000 for fiscal year 2012, and \$169,077,000 for fiscal year 2013. The Secretary shall develop a formula for the awarding of grants under subsections (b)(1)(A) and (b)(1)(B) that ensures that funding is provided based on the distribution of populations disproportionately impacted by HIV/AIDS.”;

(B) in subsection (b)(2)—

(i) in subparagraph (A)—

(I) in the matter preceding clause (i), by striking “competitive.”; and

(II) by adding at the end the following:

“(iv) For fiscal year 2010, \$46,738,000.

“(v) For fiscal year 2011, \$49,075,000.

“(vi) For fiscal year 2012, \$51,528,000.

“(vii) For fiscal year 2013, \$54,105,000.”;

(ii) in subparagraph (B)—

(I) in the matter preceding clause (i), by striking “competitive.”; and

(II) by adding at the end the following:

“(iv) For fiscal year 2010, \$8,763,000.

“(v) For fiscal year 2011, \$9,202,000.

“(vi) For fiscal year 2012, \$9,662,000.

“(vii) For fiscal year 2013, \$10,145,000.”;

(iii) in subparagraph (C), by adding at the end the following:

“(iv) For fiscal year 2010, \$61,343,000.

“(v) For fiscal year 2011, \$64,410,000.

“(vi) For fiscal year 2012, \$67,631,000.

“(vii) For fiscal year 2013, \$71,012,000.”;

(iv) in subparagraph (D), by striking “\$18,500,000” and all that follows through the period and inserting the following: “the following, as applicable:

“(i) For fiscal year 2010, \$20,448,000.

“(ii) For fiscal year 2011, \$21,470,000.

“(iii) For fiscal year 2012, \$22,543,000.

“(iv) For fiscal year 2013, \$23,671,000.”; and

(v) in subparagraph (E), by striking “\$8,500,000” and all that follows through the

period and inserting the following: “the following, as applicable:

“(i) For fiscal year 2010, \$8,763,000.

“(ii) For fiscal year 2011, \$9,201,000.

“(iii) For fiscal year 2012, \$9,662,000.

“(iv) For fiscal year 2013, \$10,144,000.”; and

(C) by adding at the end the following:

“(d) SYNCHRONIZATION OF MINORITY AIDS INITIATIVE.—For fiscal year 2010 and each subsequent fiscal year, the Secretary shall incorporate and synchronize the schedule of application submissions and funding availability under this section with the schedule of application submissions and funding availability under the corresponding provisions of this title XXVI as follows:

“(1) The schedule for carrying out subsection (b)(1)(A) shall be the same as the schedule applicable to emergency assistance under part A.

“(2) The schedule for carrying out subsection (b)(1)(B) shall be the same as the schedule applicable to care grants under part B.

“(3) The schedule for carrying out subsection (b)(1)(C) shall be the same as the schedule applicable to grants for early intervention services under part C.

“(4) The schedule for carrying out subsection (b)(1)(D) shall be the same as the schedule applicable to grants for services through projects for HIV-related care under part D.

“(5) The schedule for carrying out subsection (b)(1)(E) shall be the same as the schedule applicable to grants and contracts for activities through education and training centers under section 2692.”.

(3) HHS REPORT.—Not later than 6 months after the publication of the Government Accountability Office Report on the Minority Aids Initiative described in section 2686, the Secretary of Health and Human Services shall submit to the appropriate committees of Congress a Departmental plan for using funding under section 2693 of the Public Health Service Act (42 U.S.C. 300ff-93) in all relevant agencies to build capacity, taking into consideration the best practices included in such Report.

(g) GAO REPORT.—Section 2686 (42 U.S.C. 300ff-86) is amended to read as follows:

#### “SEC. 2686. GAO REPORT.

“The Comptroller General of the Government Accountability Office shall, not less than 1 year after the date of enactment of the Ryan White HIV/AIDS Treatment Extension Act of 2009, submit to the appropriate committees of Congress a report describing Minority AIDS Initiative activities across the Department of Health and Human Services, including programs under this title and programs at the Centers for Disease Control and Prevention, the Substance Abuse and Mental Health Services Administration, and other departmental agencies. Such report shall include a history of program activities within each relevant agency and a description of activities conducted, people served and types of grantees funded, and shall collect and describe best practices in community outreach and capacity-building of community based organizations serving the communities that are disproportionately affected by HIV/AIDS.”.

#### SEC. 3. EXTENDED EXEMPTION PERIOD FOR NAMES-BASED REPORTING.

(a) PART A GRANTS.—Section 2603(a)(3) (42 U.S.C. 300ff-13(a)(3)) is amended—

(1) in subparagraph (C)—

(A) in clause (ii)—

(i) in the matter preceding subclause (I), by striking “2009” and inserting “2012”; and

(ii) in subclause (II), by striking “or 2009” and inserting “or a subsequent fiscal year through fiscal year 2012”;

(B) in clause (iv), by striking “2010” and inserting “2012”;

(C) in clause (v), by inserting “or a subsequent fiscal year” after “2009”;

(D) in clause (vi)(II), by inserting after “5 percent” the following: “for fiscal years before fiscal year 2012 (and 6 percent for fiscal year 2012)”;

(E) in clause (ix)(II)—

(i) by striking “2010” and inserting “2013”; and

(ii) by striking “2009” and inserting “2012”; and

(F) by adding at the end the following:

“(xi) FUTURE FISCAL YEARS.—For fiscal years beginning with fiscal year 2013, determinations under this paragraph shall be based only on living names-based cases of HIV/AIDS with respect to the area involved.”; and

(2) in subparagraph (D)—

(A) in clause (i)—

(i) in the matter preceding subclause (I), by striking “2009” and inserting “2012”; and

(ii) in subclause (II), by striking “and 2009” and inserting “through 2012”; and

(B) in clause (ii), by striking “2009” and inserting “2012”.

(b) PART B GRANTS.—Section 2618(a)(2) (42 U.S.C. 300ff-28(a)(2)) is amended—

(1) in subparagraph (D)—

(A) in clause (ii)—

(i) in the matter preceding subclause (I), by striking “2009” and inserting “2012”; and

(ii) in subclause (II), by striking “or 2009” and inserting “or a subsequent fiscal year through fiscal year 2012”;

(B) in clause (iv), by striking “2010” and inserting “2012”;

(C) in clause (v), by inserting “or a subsequent fiscal year” after “2009”;

(D) in clause (vi)(II), by inserting after “5 percent” the following: “for fiscal years before fiscal year 2012 (and 6 percent for fiscal year 2012)”;

(E) in clause (viii)(II)—

(i) by striking “2010” and inserting “2013”; and

(ii) by striking “2009” and inserting “2012”; and

(F) by adding at the end the following:

“(x) FUTURE FISCAL YEARS.—For fiscal years beginning with fiscal year 2013, determinations under this paragraph shall be based only on living names-based cases of HIV/AIDS with respect to the State involved.”; and

(2) in subparagraph (E), by striking “2009” each place it appears and inserting “2012”.

#### SEC. 4. EXTENSION OF TRANSITIONAL GRANT AREA STATUS.

(a) ELIGIBILITY.—Section 2609 (42 U.S.C. 300ff-19) is amended—

(1) in subsection (c)(1)—

(A) in the heading, by striking “2007” and inserting “2011”; and

(B) by striking “2007” each place it appears and inserting “2011”; and

(C) by striking “2006” and inserting “2010”;

(2) in subsection (c)(2)—

(A) in subparagraph (A)(ii), by striking “to have a” and inserting “subject to subparagraphs (B) and (C), to have a”;

(B) by redesignating subparagraph (B) as subparagraph (C);

(C) by inserting after subparagraph (A) the following:

“(B) PERMITTING MARGIN OF ERROR APPLICABLE TO CERTAIN METROPOLITAN AREAS.—In applying subparagraph (A)(ii) for a fiscal year after fiscal year 2008, in the case of a metropolitan area that has a cumulative total of

at least 1,400 (and fewer than 1,500) living cases of AIDS as of December 31 of the most recent calendar year for which such data is available, such area shall be treated as having met the criteria of such subparagraph if not more than 5 percent of the total from grants awarded to such area under this part is unobligated as of the end of the most recent fiscal year for which such data is available.”; and

(D) in subparagraph (C), as so redesignated, by striking “Subparagraph (A) does not apply” and inserting “Subparagraphs (A) and (B) do not apply”; and

(3) in subsection (d)(1)(B), strike “2009” and insert “2013”.

(b) TRANSFER OF AMOUNTS DUE TO CHANGE IN STATUS AS TRANSITIONAL AREA.—Subparagraph (B) of section 2610(c)(2) (42 U.S.C. 300ff-20(c)(2)) is amended—

(1) by striking “(B)” and inserting “(B)(i) subject to clause (ii).”; and

(2) by striking the period at the end and inserting “; and”; and

(3) by adding at the end the following:

“(ii) for each of fiscal years 2010 through 2013, notwithstanding subsection (a)—

“(I) there shall be transferred to the State containing the metropolitan area, for purposes described in section 2612(a), an amount (which shall not be taken into account in applying section 2618(a)(2)(H)) equal to—

“(aa) for the first fiscal year of the metropolitan area not being a transitional area, 75 percent of the amount described in subparagraph (A)(i) for such area;

“(bb) for the second fiscal year of the metropolitan area not being a transitional area, 50 percent of such amount; and

“(cc) for the third fiscal year of the metropolitan area not being a transitional area, 25 percent of such amount; and

“(II) there shall be transferred and made available for grants pursuant to section 2618(a)(1) for the fiscal year, in addition to amounts available for such grants under section 2623, an amount equal to the total amount of the reduction for such fiscal year under subparagraph (A), less the amount transferred for such fiscal year under subsection (I).”.

#### SEC. 5. HOLD HARMLESS.

(a) PART A GRANTS.—Section 2603(a)(4) (42 U.S.C. 300ff-13(a)(4)) is amended—

(1) in the matter preceding clause (i) in subparagraph (A)—

(A) by striking “2006” and inserting “2009”; and

(B) by striking “2007 through 2009” and inserting “2010 through 2013”; and

(2) by striking clauses (i) and (ii) in subparagraph (A) and inserting the following:

“(i) For fiscal year 2010, an amount equal to 95 percent of the sum of the amount of the grant made pursuant to paragraph (3) and this paragraph for fiscal year 2009.

“(ii) For each of the fiscal years 2011 and 2012, an amount equal to 100 percent of the amount of the grant made pursuant to paragraph (3) and this paragraph for fiscal year 2010.

“(iii) For fiscal year 2013, an amount equal to 92.5 percent of the amount of the grant made pursuant to paragraph (3) and this paragraph for fiscal year 2012.”; and

(3) in subparagraph (C), by striking “2009” and inserting “2013”.

(b) PART B GRANTS.—Section 2618(a)(2)(H) (42 U.S.C. 300ff-28(a)(2)(H)) is amended—

(1) in clause (i)(I)—

(A) by striking “2007” and inserting “2010”; and

(B) by striking “2006” and inserting “2009”; and

(2) by striking clause (ii) and redesignating clause (iii) as clause (ii);

(3) in clause (ii), as so redesignated—

(A) in the heading, by striking “2008 AND 2009” and inserting “2011 AND 2012”; and

(B) by striking “2008 and 2009” and inserting “2011 and 2012”; and

(C) by striking “2007” and inserting “2010”; and

(4) by inserting after clause (ii), as so redesignated, the following new clause:

“(iii) FISCAL YEAR 2013.—For fiscal year 2013, the Secretary shall ensure that the total for a State of the grant pursuant to paragraph (1) and the grant pursuant to subparagraph (F) is not less than 92.5 percent of such total for the State for fiscal year 2012.”; and

(5) in clause (v), by striking “2009” and inserting “2013”.

(c) TECHNICAL CORRECTIONS.—Title XXVI (42 U.S.C. 300ff-11 et seq.) is amended—

(1) in subparagraphs (A)(i) and (H) of section 2618(a)(2), by striking the term “subparagraph (G)” each place it appears and inserting “subparagraph (F)”; and

(2) in sections 2620(a)(2), 2622(c)(1), and 2622(c)(4)(A), by striking “2618(a)(2)(G)(i)” and inserting “2618(a)(2)(F)(i)”; and

(3) in sections 2622(a) and 2623(b)(2)(A), by striking “2618(a)(2)(G)” and inserting “2618(a)(2)(F)”; and

(4) in section 2622(b), by striking “2618(a)(2)(G)(ii)” and inserting “2618(a)(2)(F)(ii)”.

#### SEC. 6. AMENDMENTS TO THE GENERAL GRANT PROVISIONS.

(a) ADMINISTRATION AND PLANNING COUNCIL.—Section 2602(b)(4) (42 U.S.C. 300ff-12(b)(4)) is amended—

(1) in subparagraph (A), by inserting “, as well as the size and demographics of the estimated population of individuals with HIV/AIDS who are unaware of their HIV status” after “HIV/AIDS”; and

(2) in subparagraph (B)—

(A) in clause (i), by striking “and” at the end after the semicolon;

(B) in clause (ii), by inserting “and” after the semicolon; and

(C) by adding at the end the following:

“(iii) individuals with HIV/AIDS who do not know their HIV status;”; and

(3) in subparagraph (D)—

(A) in clause (ii), by striking “and” at the end after the semicolon;

(B) in clause (iii), by inserting “and” after the semicolon; and

(C) by adding at the end the following:

“(iv) includes a strategy, coordinated as appropriate with other community strategies and efforts, including discrete goals, a timetable, and appropriate funding, for identifying individuals with HIV/AIDS who do not know their HIV status, making such individuals aware of such status, and enabling such individuals to use the health and support services described in section 2604, with particular attention to reducing barriers to routine testing and disparities in access and services among affected subpopulations and historically underserved communities.”.

(b) TYPE AND DISTRIBUTION OF GRANTS.—Section 2603(b) (42 U.S.C. 300ff-13(b)) is amended—

(1) in paragraph (1)—

(A) in subparagraph (G), by striking “and” at the end after the semicolon;

(B) in subparagraph (H), by striking the period at the end and inserting “; and”; and

(C) by adding at the end the following:

“(I) demonstrates success in identifying individuals with HIV/AIDS as described in clauses (i) through (iii) of paragraph (2)(A).”; and

(2) in paragraph (2)(A), by striking the period and inserting “, and demonstrated suc-

cess in identifying individuals with HIV/AIDS who do not know their HIV status and making them aware of such status counting one-third. In making such determination, the Secretary shall consider—

“(i) the number of individuals who have been tested for HIV/AIDS;

“(ii) of those individuals described in clause (i), the number of individuals who tested for HIV/AIDS who are made aware of their status, including the number who test positive; and

“(iii) of those individuals described in clause (ii), the number who have been referred to appropriate treatment and care.”.

(c) APPLICATION.—Section 2605(b)(1) (42 U.S.C. 300ff-15(b)(1)) is amended by inserting “, including the identification of individuals with HIV/AIDS as described in clauses (i) through (iii) of section 2603(b)(2)(A)” before the semicolon at the end.

#### SEC. 7. INCREASE IN ADJUSTMENT FOR NAMES-BASED REPORTING.

(a) PART A GRANTS.—

(1) FORMULA GRANTS.—Section 2603(a)(3)(C)(vi) (42 U.S.C. 300ff-13(a)(3)(C)(vi)) is amended by adding at the end the following:

“(III) INCREASED ADJUSTMENT FOR CERTAIN AREAS PREVIOUSLY USING CODE-BASED REPORTING.—For purposes of this subparagraph for each of fiscal years 2010 through 2012, the Secretary shall deem the applicable number of living cases of HIV/AIDS in an area that were reported to and confirmed by the Centers for Disease Control and Prevention to be 3 percent higher than the actual number if—

“(aa) for fiscal year 2007, such area was a transitional area;

“(bb) fiscal year 2007 was the first year in which the count of living non-AIDS cases of HIV in such area, for purposes of this section, was based on a names-based reporting system; and

“(cc) the amount of funding that such area received under this part for fiscal year 2007 was less than 70 percent of the amount of funding (exclusive of funds that were identified as being for purposes of the Minority AIDS Initiative) that such area received under such part for fiscal year 2006.”.

(2) SUPPLEMENTAL GRANTS.—Section 2603(b)(2) (42 U.S.C. 300ff-13(b)(2)) is amended by adding at the end the following:

“(D) INCREASED ADJUSTMENT FOR CERTAIN AREAS PREVIOUSLY USING CODE-BASED REPORTING.—For purposes of this subsection for each of fiscal years 2010 through 2012, the Secretary shall deem the applicable number of living cases of HIV/AIDS in an area that were reported to and confirmed by the Centers for Disease Control and Prevention to be 3 percent higher than the actual number if the conditions described in items (aa) through (cc) of subsection (a)(3)(C)(vi)(III) are all satisfied.”.

(b) PART B GRANTS.—Section 2618(a)(2)(D)(vi) (42 U.S.C. 300ff-28(a)(2)(D)(vi)) is amended by adding at the end the following:

“(III) INCREASED ADJUSTMENT FOR CERTAIN STATES PREVIOUSLY USING CODE-BASED REPORTING.—For purposes of this subparagraph for each of fiscal years 2010 through 2012, the Secretary shall deem the applicable number of living cases of HIV/AIDS in a State that were reported to and confirmed by the Centers for Disease Control and Prevention to be 3 percent higher than the actual number if—

“(aa) there is an area in such State that satisfies all of the conditions described in items (aa) through (cc) of section 2603(a)(3)(C)(vi)(III); or

“(bb)(AA) fiscal year 2007 was the first year in which the count of living non-AIDS cases

of HIV in such area, for purposes of this part, was based on a names-based reporting system; and

“(BB) the amount of funding that such State received under this part for fiscal year 2007 was less than 70 percent of the amount of funding that such State received under such part for fiscal year 2006.”.

#### SEC. 8. TREATMENT OF UNOBLIGATED FUNDS.

(a) ELIGIBILITY FOR SUPPLEMENTAL GRANTS.—Title XXVI (42 U.S.C. 300ff-11 et seq.) is amended—

(1) in section 2603(b)(1)(H) (42 U.S.C. 300ff-13(b)(1)(H)), by striking “2 percent” and inserting “5 percent”; and

(2) in section 2620(a)(2) (42 U.S.C. 300ff-29a(a)(2)), by striking “2 percent” and inserting “5 percent”.

(b) CORRESPONDING REDUCTION IN FUTURE GRANT.—

(1) IN GENERAL.—Title XXVI (42 U.S.C. 300ff-11 et seq.) is amended—

(A) in section 2603(c)(3)(D)(i)(42 U.S.C. 300ff-13(c)(3)(D)(i)), in the matter following subclause (II), by striking “2 percent” and inserting “5 percent”; and

(B) in section 2622(c)(4)(A) (42 U.S.C. 300ff-31a(c)(4)(A)), in the matter following clause (ii), by striking “2 percent” and inserting “5 percent”.

(2) AUTHORITY REGARDING ADMINISTRATION OF PROVISION.—Title XXVI (42 U.S.C. 300ff-11 et seq.) is amended—

(A) in section 2603(c) (42 U.S.C. 300ff-13(c)), by adding at the end the following:

“(4) AUTHORITY REGARDING ADMINISTRATION OF PROVISIONS.—In administering paragraphs (2) and (3) with respect to the unobligated balance of an eligible area, the Secretary may elect to reduce the amount of future grants to the area under subsection (a) or (b), as applicable, by the amount of any such unobligated balance in lieu of cancelling such amount as provided for in paragraph (2) or (3)(A). In such case, the Secretary may permit the area to use such unobligated balance for purposes of any such future grant. An amount equal to such reduction shall be available for use as additional amounts for grants pursuant to subsection (b), subject to subsection (a)(4) and section 2610(d)(2). Nothing in this paragraph shall be construed to affect the authority of the Secretary under paragraphs (2) and (3), including the authority to grant waivers under paragraph (3)(A). The reduction in future grants authorized under this paragraph shall be notwithstanding the penalty required under paragraph (3)(D) with respect to unobligated funds.”;

(B) in section 2622 (42 U.S.C. 300ff-31a), by adding at the end the following:

“(e) AUTHORITY REGARDING ADMINISTRATION OF PROVISIONS.—In administering subsections (b) and (c) with respect to the unobligated balance of a State, the Secretary may elect to reduce the amount of future grants to the State under section 2618, 2620, or 2621, as applicable, by the amount of any such unobligated balance in lieu of cancelling such amount as provided for in subsection (b) or (c)(1). In such case, the Secretary may permit the State to use such unobligated balance for purposes of any such future grant. An amount equal to such reduction shall be available for use as additional amounts for grants pursuant to section 2620, subject to section 2618(a)(2)(H). Nothing in this paragraph shall be construed to affect the authority of the Secretary under subsections (b) and (c), including the authority to grant waivers under subsection (c)(1). The reduction in future grants authorized under this subsection shall be notwith-

standing the penalty required under subsection (c)(4) with respect to unobligated funds.”;

(C) in section 2603(b)(1)(H) (42 U.S.C. 300ff-13(b)(1)(H)), by striking “canceled” and inserting “canceled, offset under subsection (c)(4),”; and

(D) in section 2620(a)(2) (42 U.S.C. 300ff-29a(a)(2)), by striking “canceled” and inserting “canceled, offset under section 2622(e),”.

(c) CONSIDERATION OF WAIVER AMOUNTS IN DETERMINING UNOBLIGATED BALANCES.—

(1) PART A GRANTS.—Section 2603(c)(3)(D)(i)(I) (42 U.S.C. 300ff-14(c)(3)(D)(i)(I)) is amended by inserting after “unobligated balance” the following: “(less any amount of such balance that is the subject of a waiver of cancellation under subparagraph (A))”.

(2) PART B GRANTS.—Section 2622(c)(4)(A)(i) (42 U.S.C. 300ff-31a(c)(4)(A)(i)) is amended by inserting after “unobligated balance” the following: “(less any amount of such balance that is the subject of a waiver of cancellation under paragraph (1))”.

#### SEC. 9. APPLICATIONS BY STATES.

Section 2617(b) (42 U.S.C. Section 300ff-27(b)) is amended—

(1) in paragraph (6), by striking “and” at the end;

(2) in paragraph (7), by striking the period at the end and inserting “; and”;

(3) by adding at the end the following:

“(8) a comprehensive plan—

“(A) containing an identification of individuals with HIV/AIDS as described in clauses (i) through (iii) of section 2603(b)(2)(A) and the strategy required under section 2602(b)(4)(D)(iv);

“(B) describing the estimated number of individuals within the State with HIV/AIDS who do not know their status;

“(C) describing activities undertaken by the State to find the individuals described in subparagraph (A) and to make such individuals aware of their status;

“(D) describing the manner in which the State will provide undiagnosed individuals who are made aware of their status with access to medical treatment for their HIV/AIDS; and

“(E) describing efforts to remove legal barriers, including State laws and regulations, to routine testing.”.

#### SEC. 10. ADAP REBATE FUNDS.

(a) USE OF UNOBLIGATED FUNDS.—Section 2622(d) (42 U.S.C. 300ff-31a(d)) is amended by adding at the end the following: “If an expenditure of ADAP rebate funds would trigger a penalty under this section or a higher penalty than would otherwise have applied, the State may request that for purposes of this section, the Secretary deem the State’s unobligated balance to be reduced by the amount of rebate funds in the proposed expenditure. Notwithstanding 2618(a)(2)(F), any unobligated amount under section 2618(a)(2)(F)(ii)(V) that is returned to the Secretary for reallocation shall be used by the Secretary for—

“(1) the ADAP supplemental program if the Secretary determines appropriate; or

“(2) for additional amounts for grants pursuant to section 2620.”.

(b) TECHNICAL CORRECTION.—Subclause (V) of section 2618(a)(2)(F)(ii) (42 U.S.C. 300ff-28(a)(2)(F)(ii)) is amended by striking “, subject to subclause (VI)”.

#### SEC. 11. APPLICATION TO PRIMARY CARE SERVICES.

(a) IN GENERAL.—Section 2671 (42 U.S.C. 300ff-71), as amended, is amended—

(1) by redesignating subsection (i) as subsection (j);

(2) in subsection (g), by striking “subsection (i)” and inserting “subsection (j)”; and

(3) by inserting after subsection (h) the following:

“(i) APPLICATION TO PRIMARY CARE SERVICES.—Nothing in this part shall be construed as requiring funds under this part to be used for primary care services when payments are available for such services from other sources (including under titles XVIII, XIX, and XXI of the Social Security Act).”.

(b) PROVISION OF CARE THROUGH MEMORANDUM OF UNDERSTANDING.—Section 2671(a) (42 U.S.C. 300ff-71(a)) is amended by striking “(directly or through contracts)” and inserting “(directly or through contracts or memoranda of understanding)”.

#### SEC. 12. NATIONAL HIV/AIDS TESTING GOAL.

Part E of title XXVI (42 U.S.C. 300ff-81 et seq.) is amended—

(1) by redesignating section 2688 as section 2689; and

(2) by inserting after section 2687 the following:

#### “SEC. 2688. NATIONAL HIV/AIDS TESTING GOAL.

“(a) IN GENERAL.—Not later than January 1, 2010, the Secretary shall establish a national HIV/AIDS testing goal of 5,000,000 tests for HIV/AIDS annually through federally-supported HIV/AIDS prevention, treatment, and care programs, including programs under this title and other programs administered by the Centers for Disease Control and Prevention.

“(b) ANNUAL REPORT.—Not later than January 1, 2011, and annually thereafter, the Secretary, acting through the Director of the Centers for Disease Control and Prevention, shall submit to Congress a report describing, with regard to the preceding 12-month reporting period—

“(1) whether the testing goal described in subsection (a) has been met;

“(2) the total number of individuals tested through federally-supported and other HIV/AIDS prevention, treatment, and care programs in each State;

“(3) the number of individuals who—

“(A) prior to such 12-month period, were unaware of their HIV status; and

“(B) through federally-supported and other HIV/AIDS prevention, treatment, and care programs, were diagnosed and referred into treatment and care during such period;

“(4) any barriers, including State laws and regulations, that the Secretary determines to be a barrier to meeting the testing goal described in subsection (a);

“(5) the amount of funding the Secretary determines necessary to meet the annual testing goal in the following 12 months and the amount of Federal funding expended to meet the testing goal in the prior 12-month period; and

“(6) the most cost-effective strategies for identifying and diagnosing individuals who were unaware of their HIV status, including voluntary testing with pre-test counseling, routine screening including opt-out testing, partner counseling and referral services, and mass media campaigns.

“(c) REVIEW OF PROGRAM EFFECTIVENESS.—Not later than 1 year after the date of enactment of this section, the Secretary, in consultation with the Director of the Centers for Disease Control and Prevention, shall submit a report to Congress based on a comprehensive review of each of the programs and activities conducted by the Centers for Disease Control and Prevention as part of the Domestic HIV/AIDS Prevention Activities, including the following:

“(1) The amount of funding provided for each program or activity.

“(2) The primary purpose of each program or activity.

“(3) The annual goals for each program or activity.

“(4) The relative effectiveness of each program or activity with relation to the other programs and activities conducted by the Centers for Disease Control and Prevention, based on the—

“(A) number of previously undiagnosed individuals with HIV/AIDS made aware of their status and referred into the appropriate treatment;

“(B) amount of funding provided for each program or activity compared to the number of undiagnosed individuals with HIV/AIDS made aware of their status;

“(C) program's contribution to the National HIV/AIDS testing goal; and

“(D) progress made toward the goals described in paragraph (3).

“(5) Recommendations if any to Congress on ways to allocate funding for domestic HIV/AIDS prevention activities and programs in order to achieve the National HIV/AIDS testing goal.

“(d) COORDINATION WITH OTHER FEDERAL ACTIVITIES.—In pursuing the National HIV/AIDS testing goal, the Secretary, where appropriate, shall consider and coordinate with other national strategies conducted by the Federal Government to address HIV/AIDS.”.

#### **SEC. 13. NOTIFICATION OF POSSIBLE EXPOSURE TO INFECTIOUS DISEASES.**

Title XXVI (42 U.S.C. 300ff-11 et seq.) is amended by adding at the end the following:

##### **“PART G—NOTIFICATION OF POSSIBLE EXPOSURE TO INFECTIOUS DISEASES**

#### **“SEC. 2695. INFECTIOUS DISEASES AND CIRCUMSTANCES RELEVANT TO NOTIFICATION REQUIREMENTS.**

“(a) IN GENERAL.—Not later than 180 days after the date of the enactment of this part, the Secretary shall complete the development of—

“(1) a list of potentially life-threatening infectious diseases, including emerging infectious diseases, to which emergency response employees may be exposed in responding to emergencies;

“(2) guidelines describing the circumstances in which such employees may be exposed to such diseases, taking into account the conditions under which emergency response is provided; and

“(3) guidelines describing the manner in which medical facilities should make determinations for purposes of section 2695B(d).

“(b) SPECIFICATION OF AIRBORNE INFECTIOUS DISEASES.—The list developed by the Secretary under subsection (a)(1) shall include a specification of those infectious diseases on the list that are routinely transmitted through airborne or aerosolized means.

“(c) DISSEMINATION.—The Secretary shall—

“(1) transmit to State public health officers copies of the list and guidelines developed by the Secretary under subsection (a) with the request that the officers disseminate such copies as appropriate throughout the States; and

“(2) make such copies available to the public.

#### **“SEC. 2695A. ROUTINE NOTIFICATIONS WITH RESPECT TO AIRBORNE INFECTIOUS DISEASES IN VICTIMS ASSISTED.**

“(a) ROUTINE NOTIFICATION OF DESIGNATED OFFICER.—

“(1) DETERMINATION BY TREATING FACILITY.—If a victim of an emergency is transported by emergency response employees to a medical facility and the medical facility makes a determination that the victim has an airborne infectious disease, the medical

facility shall notify the designated officer of the emergency response employees who transported the victim to the medical facility of the determination.

“(2) DETERMINATION BY FACILITY ASCERTAINING CAUSE OF DEATH.—If a victim of an emergency is transported by emergency response employees to a medical facility and the victim dies at or before reaching the medical facility, the medical facility ascertaining the cause of death shall notify the designated officer of the emergency response employees who transported the victim to the initial medical facility of any determination by the medical facility that the victim had an airborne infectious disease.

“(b) REQUIREMENT OF PROMPT NOTIFICATION.—With respect to a determination described in paragraph (1) or (2) of subsection (a), the notification required in each of such paragraphs shall be made as soon as is practicable, but not later than 48 hours after the determination is made.

#### **“SEC. 2695B. REQUEST FOR NOTIFICATION WITH RESPECT TO VICTIMS ASSISTED.**

“(a) INITIATION OF PROCESS BY EMPLOYEE.—If an emergency response employee believes that the employee may have been exposed to an infectious disease by a victim of an emergency who was transported to a medical facility as a result of the emergency, and if the employee attended, treated, assisted, or transported the victim pursuant to the emergency, then the designated officer of the employee shall, upon the request of the employee, carry out the duties described in subsection (b) regarding a determination of whether the employee may have been exposed to an infectious disease by the victim.

“(b) INITIAL DETERMINATION BY DESIGNATED OFFICER.—The duties referred to in subsection (a) are that—

“(1) the designated officer involved collect the facts relating to the circumstances under which, for purposes of subsection (a), the employee involved may have been exposed to an infectious disease; and

“(2) the designated officer evaluate such facts and make a determination of whether, if the victim involved had any infectious disease included on the list issued under paragraph (1) of section 2695(a), the employee would have been exposed to the disease under such facts, as indicated by the guidelines issued under paragraph (2) of such section.

“(c) SUBMISSION OF REQUEST TO MEDICAL FACILITY.—

“(1) IN GENERAL.—If a designated officer makes a determination under subsection (b)(2) that an emergency response employee may have been exposed to an infectious disease, the designated officer shall submit to the medical facility to which the victim involved was transported a request for a response under subsection (d) regarding the victim of the emergency involved.

“(2) FORM OF REQUEST.—A request under paragraph (1) shall be in writing and be signed by the designated officer involved, and shall contain a statement of the facts collected pursuant to subsection (b)(1).

“(d) EVALUATION AND RESPONSE REGARDING REQUEST TO MEDICAL FACILITY.—

“(1) IN GENERAL.—If a medical facility receives a request under subsection (c), the medical facility shall evaluate the facts submitted in the request and make a determination of whether, on the basis of the medical information possessed by the facility regarding the victim involved, the emergency response employee was exposed to an infectious disease included on the list issued under paragraph (1) of section 2695(a), as indicated by the guidelines issued under paragraph (2) of such section.

“(2) NOTIFICATION OF EXPOSURE.—If a medical facility makes a determination under paragraph (1) that the emergency response employee involved has been exposed to an infectious disease, the medical facility shall, in writing, notify the designated officer who submitted the request under subsection (c) of the determination.

“(3) FINDING OF NO EXPOSURE.—If a medical facility makes a determination under paragraph (1) that the emergency response employee involved has not been exposed to an infectious disease, the medical facility shall, in writing, inform the designated officer who submitted the request under subsection (c) of the determination.

“(4) INSUFFICIENT INFORMATION.—

“(A) If a medical facility finds in evaluating facts for purposes of paragraph (1) that the facts are insufficient to make the determination described in such paragraph, the medical facility shall, in writing, inform the designated officer who submitted the request under subsection (c) of the insufficiency of the facts.

“(B)(i) If a medical facility finds in making a determination under paragraph (1) that the facility possesses no information on whether the victim involved has an infectious disease included on the list under section 2695(a), the medical facility shall, in writing, inform the designated officer who submitted the request under subsection (c) of the insufficiency of such medical information.

“(ii) If after making a response under clause (i) a medical facility determines that the victim involved has an infectious disease, the medical facility shall make the determination described in paragraph (1) and provide the applicable response specified in this subsection.

“(e) TIME FOR MAKING RESPONSE.—After receiving a request under subsection (c) (including any such request resubmitted under subsection (g)(2)), a medical facility shall make the applicable response specified in subsection (d) as soon as is practicable, but not later than 48 hours after receiving the request.

“(f) DEATH OF VICTIM OF EMERGENCY.—

“(1) FACILITY ASCERTAINING CAUSE OF DEATH.—If a victim described in subsection (a) dies at or before reaching the medical facility involved, and the medical facility receives a request under subsection (c), the medical facility shall provide a copy of the request to the medical facility ascertaining the cause of death of the victim, if such facility is a different medical facility than the facility that received the original request.

“(2) RESPONSIBILITY OF FACILITY.—Upon the receipt of a copy of a request for purposes of paragraph (1), the duties otherwise established in this part regarding medical facilities shall apply to the medical facility ascertaining the cause of death of the victim in the same manner and to the same extent as such duties apply to the medical facility originally receiving the request.

“(g) ASSISTANCE OF PUBLIC HEALTH OFFICER.—

“(1) EVALUATION OF RESPONSE OF MEDICAL FACILITY REGARDING INSUFFICIENT FACTS.—

“(A) In the case of a request under subsection (c) to which a medical facility has made the response specified in subsection (d)(4)(A) regarding the insufficiency of facts, the public health officer for the community in which the medical facility is located shall evaluate the request and the response, if the designated officer involved submits such documents to the officer with the request that the officer make such an evaluation.

“(B) As soon as is practicable after a public health officer receives a request under subparagraph (A), but not later than 48 hours after receipt of the request, the public health officer shall complete the evaluation required in such paragraph and inform the designated officer of the results of the evaluation.”

“(2) FINDINGS OF EVALUATION.—

“(A) If an evaluation under paragraph (1)(A) indicates that the facts provided to the medical facility pursuant to subsection (c) were sufficient for purposes of determinations under subsection (d)(1)—

“(i) the public health officer shall, on behalf of the designated officer involved, resubmit the request to the medical facility; and

“(ii) the medical facility shall provide to the designated officer the applicable response specified in subsection (d).”

“(B) If an evaluation under paragraph (1)(A) indicates that the facts provided in the request to the medical facility were insufficient for purposes of determinations specified in subsection (c)—

“(i) the public health officer shall provide advice to the designated officer regarding the collection and description of appropriate facts; and

“(ii) if sufficient facts are obtained by the designated officer—

“(I) the public health officer shall, on behalf of the designated officer involved, resubmit the request to the medical facility; and

“(II) the medical facility shall provide to the designated officer the appropriate response under subsection (c).”

**“SEC. 2695C. PROCEDURES FOR NOTIFICATION OF EXPOSURE.**

“(a) CONTENTS OF NOTIFICATION TO OFFICER.—In making a notification required under section 2695A or section 2695B(d)(2), a medical facility shall provide—

“(1) the name of the infectious disease involved; and

“(2) the date on which the victim of the emergency involved was transported by emergency response employees to the medical facility involved.

“(b) MANNER OF NOTIFICATION.—If a notification under section 2695A or section 2695B(d)(2) is mailed or otherwise indirectly made—

“(1) the medical facility sending the notification shall, upon sending the notification, inform the designated officer to whom the notification is sent of the fact that the notification has been sent; and

“(2) such designated officer shall, not later than 10 days after being informed by the medical facility that the notification has been sent, inform such medical facility whether the designated officer has received the notification.”

**“SEC. 2695D. NOTIFICATION OF EMPLOYEE.**

“(a) IN GENERAL.—After receiving a notification for purposes of section 2695A or 2695B(d)(2), a designated officer of emergency response employees shall, to the extent practicable, immediately notify each of such employees who—

“(1) responded to the emergency involved; and

“(2) as indicated by guidelines developed by the Secretary, may have been exposed to an infectious disease.”

“(b) CERTAIN CONTENTS OF NOTIFICATION TO EMPLOYEE.—A notification under this subsection to an emergency response employee shall inform the employee of—

“(1) the fact that the employee may have been exposed to an infectious disease and the name of the disease involved;

“(2) any action by the employee that, as indicated by guidelines developed by the Secretary, is medically appropriate; and

“(3) if medically appropriate under such criteria, the date of such emergency.”

“(c) RESPONSES OTHER THAN NOTIFICATION OF EXPOSURE.—After receiving a response under paragraph (3) or (4) of subsection (d) of section 2695B, or a response under subsection (g)(1) of such section, the designated officer for the employee shall, to the extent practicable, immediately inform the employee of the response.”

**“SEC. 2695E. SELECTION OF DESIGNATED OFFICERS.**

“(a) IN GENERAL.—For the purposes of receiving notifications and responses and making requests under this part on behalf of emergency response employees, the public health officer of each State shall designate 1 official or officer of each employer of emergency response employees in the State.”

“(b) PREFERENCE IN MAKING DESIGNATIONS.—In making the designations required in subsection (a), a public health officer shall give preference to individuals who are trained in the provision of health care or in the control of infectious diseases.”

**“SEC. 2695F. LIMITATION WITH RESPECT TO DUTIES OF MEDICAL FACILITIES.**

“‘The duties established in this part for a medical facility—

“(1) shall apply only to medical information possessed by the facility during the period in which the facility is treating the victim for conditions arising from the emergency, or during the 60-day period beginning on the date on which the victim is transported by emergency response employees to the facility, whichever period expires first; and

“(2) shall not apply to any extent after the expiration of the 30-day period beginning on the expiration of the applicable period referred to in paragraph (1), except that such duties shall apply with respect to any request under section 2695B(c) received by a medical facility before the expiration of such 30-day period.”

**“SEC. 2695G. MISCELLANEOUS PROVISIONS.**

“(a) LIABILITY OF MEDICAL FACILITIES, DESIGNATED OFFICERS, PUBLIC HEALTH OFFICERS, AND GOVERNING ENTITIES.—This part may not be construed to authorize any cause of action for damages or any civil penalty against any medical facility, any designated officer, any other public health officer, or any governing entity of such facility or officer for failure to comply with the duties established in this part.”

“(b) TESTING.—This part may not, with respect to victims of emergencies, be construed to authorize or require a medical facility to test any such victim for any infectious disease.”

“(c) CONFIDENTIALITY.—This part may not be construed to authorize or require any medical facility, any designated officer of emergency response employees, or any such employee, to disclose identifying information with respect to a victim of an emergency or with respect to an emergency response employee.”

“(d) FAILURE TO PROVIDE EMERGENCY SERVICES.—This part may not be construed to authorize any emergency response employee to fail to respond, or to deny services, to any victim of an emergency.”

“(e) NOTIFICATION AND REPORTING DEADLINES.—In any case in which the Secretary determines that, wholly or partially as a result of a public health emergency that has been determined pursuant to section 319(a), individuals or public or private entities are

unable to comply with the requirements of this part, the Secretary may, notwithstanding any other provision of law, temporarily suspend, in whole or in part, the requirements of this part as the circumstances reasonably require. Before or promptly after such a suspension, the Secretary shall notify the Congress of such action and publish in the Federal Register a notice of the suspension.”

“(f) CONTINUED APPLICATION OF STATE AND LOCAL LAW.—Nothing in this part shall be construed to limit the application of State or local laws that require the provision of data to public health authorities.”

**“SEC. 2695H. INJUNCTIONS REGARDING VIOLATION OF PROHIBITION.**

“(a) IN GENERAL.—The Secretary may, in any court of competent jurisdiction, commence a civil action for the purpose of obtaining temporary or permanent injunctive relief with respect to any violation of this part.”

“(b) FACILITATION OF INFORMATION ON VIOLATIONS.—The Secretary shall establish an administrative process for encouraging emergency response employees to provide information to the Secretary regarding violations of this part. As appropriate, the Secretary shall investigate alleged such violations and seek appropriate injunctive relief.”

**“SEC. 2695I. APPLICABILITY OF PART.**

“‘This part shall not apply in a State if the chief executive officer of the State certifies to the Secretary that the law of the State is substantially consistent with this part.’”

**GIRL SCOUTS USA CENTENNIAL COMMEMORATIVE COIN ACT**

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of H.R. 621, which was received from the House.

The PRESIDING OFFICER. The clerk will report the bill by title.

The legislative clerk read as follows:

A bill (H.R. 621) to require the Secretary of the Treasury to mint coins in commemoration of the centennial of the establishment of the Girl Scouts of the United States of America.

There being no objection, the Senate proceeded to consider the bill.

Mr. BROWN. Mr. President, I ask unanimous consent that the bill be read three times and passed, the motion to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The bill (H.R. 621) was ordered to a third reading, was read the third time, and passed.

**NATIONAL CHARACTER COUNTS WEEK**

Mr. BROWN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 314, submitted earlier today.

The PRESIDING OFFICER. The clerk will report the resolution by title.

The legislative clerk read as follows:

A resolution (S. Res. 314) designating the week beginning October 18, 2009, as "National Character Counts Week."

There being no objection, the Senate proceeded to consider the resolution.

Mr. DODD. Mr. President, today Senator GRASSLEY and I have submitted a resolution designating the third week of October as National Character Counts Week. In the past, my good friend Senator Domenici and I worked together on the issue of character education, and I am pleased to be joined by my colleague Senator GRASSLEY in continuing to designate a special week to this cause. I hope that with this resolution we may highlight the importance of character building activities in schools not only this week but all year long.

Since 1994, when the Partnerships in Character Education Pilot Project was first established, I have worked to commemorate National Character Counts Week. Character Counts was founded on a simple notion: our core ethical values aren't just important to us as individuals—they form the very foundation of democratic society. We know that in order to face our challenges as communities and as a Nation, we need our children to be both well-educated and trained—and that begins with instilling character in our children.

Trustworthiness, respect, responsibility, fairness, caring, and citizenship—these are the six pillars of character. Character education provides students a context within which to learn those values and integrate them into our daily lives. Indeed, if we view education simply as the imparting of knowledge to our children, then we not only miss an opportunity, but as also jeopardize our future. Children want direction—to be taught right from wrong. Young people yearn for consistent adult involvement, and when they get it, we know they are less inclined to use illegal drugs, to vandalize or commit suicide. The American public wants character education in our schools, too. Studies show that approximately 90 percent of Americans support schools teaching character education.

Character education programs work. Currently, there are character education programs across all 50 States in rural, urban and suburban areas at every grade level. Schools across the country that have adopted strong character education programs report better student performance, fewer discipline problems, and increased student involvement within the community.

This renewed focus on character sends a wonderful message to Americans and will help reinvigorate our efforts to get communities and schools involved. With this resolution, it is my hope that even more communities will make character education a part of every child's life. I hope that my col-

leagues will support this important effort.

Mr. BROWN. Mr. President, I ask unanimous consent that the resolution be agreed to, the preamble be agreed to, the motions to reconsider be laid upon the table, with no intervening action or debate, and that any statements relating to the resolution be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The resolution (S. Res. 314) was agreed to.

The preamble was agreed to.

The resolution, with its preamble, reads as follows:

#### S. RES. 314

Whereas the well-being of the United States requires that the young people of this Nation become an involved, caring citizenry of good character;

Whereas the character education of children has become more urgent, as violence by and against youth increasingly threatens the physical and psychological well-being of the people of the United States;

Whereas more than ever, children need strong and constructive guidance from their families and their communities, including schools, youth organizations, religious institutions, and civic groups;

Whereas the character of a nation is only as strong as the character of its individual citizens;

Whereas the public good is advanced when young people are taught the importance of good character and the positive effects that good character can have in personal relationships, in school, and in the workplace;

Whereas scholars and educators agree that people do not automatically develop good character and that, therefore, conscientious efforts must be made by institutions and individuals that influence youth to help young people develop the essential traits and characteristics that comprise good character;

Whereas although character development is, first and foremost, an obligation of families, the efforts of faith communities, schools, and youth, civic, and human service organizations also play an important role in fostering and promoting good character;

Whereas Congress encourages students, teachers, parents, youth, and community leaders to recognize the importance of character education in preparing young people to play a role in determining the future of the United States;

Whereas effective character education is based on core ethical values, which form the foundation of democratic society;

Whereas examples of character are trustworthiness, respect, responsibility, fairness, caring, citizenship, and honesty;

Whereas elements of character transcend cultural, religious, and socioeconomic differences;

Whereas the character and conduct of our youth reflect the character and conduct of society, and, therefore, every adult has the responsibility to teach and model ethical values and every social institution has the responsibility to promote the development of good character;

Whereas Congress encourages individuals and organizations, especially those that have an interest in the education and training of the young people of the United States, to adopt the elements of character as intrinsic to the well-being of individuals, communities, and society;

Whereas many schools in the United States recognize the need, and have taken steps, to integrate the values of their communities into their teaching activities; and

Whereas the establishment of "National Character Counts Week", during which individuals, families, schools, youth organizations, religious institutions, civic groups, and other organizations focus on character education, is of great benefit to the United States: Now, therefore, be it

*Resolved*, That the Senate—

(1) designates the week beginning October 18, 2009, as "National Character Counts Week"; and

(2) calls upon the people of the United States and interested groups—

(A) to embrace the elements of character identified by local schools and communities, such as trustworthiness, respect, responsibility, fairness, caring, and citizenship; and

(B) to observe the week with appropriate ceremonies, programs, and activities.

#### ORDERS FOR TUESDAY, OCTOBER 20, 2009

Mr. BROWN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it adjourn until 10 a.m. tomorrow, October 20; that following the prayer and pledge, the Journal of proceedings be approved to date, the morning hour be deemed expired, the time for the two leaders be reserved for their use later in the day, and the Senate then proceed to a period for the transaction of morning business for 90 minutes, with Senators permitted to speak therein for up to 10 minutes each, with the time equally divided and controlled between the two leaders or their designees, with the majority controlling the first half and the Republicans controlling the final half; that following morning business, the Senate proceed to the conference report to accompany H.R. 2892, an act to make appropriations for the Department of Homeland Security, as provided for under the previous order. Finally, I ask unanimous consent that the Senate recess from 12:30 p.m. to 2:15 p.m. to allow for the weekly caucus meetings.

The PRESIDING OFFICER. Without objection, it is so ordered.

#### PROGRAM

Mr. BROWN. Under the previous order, there will be up to 3 hours 15 minutes for debate with respect to the Homeland Security conference report. If all time is used, the vote would occur around 4:15 p.m.; however, we may be able to vote as early as 3:30 p.m.

#### ADJOURNMENT UNTIL 10 A.M. TOMORROW

Mr. BROWN. Mr. President, if there is no further business to come before the Senate, I ask unanimous consent that it adjourn under the previous order.

There being no objection, the Senate, at 6:31 p.m., adjourned until Tuesday, October 20, 2009, at 10 a.m.

## EXTENSIONS OF REMARKS

## SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Meetings scheduled for Tuesday, October 20, 2009 may be found in the Daily Digest of today's RECORD.

## MEETINGS SCHEDULED

OCTOBER 21

9:30 a.m.

Homeland Security and Governmental Affairs

To hold hearings to examine H1N1 flu, focusing on monitoring the nation's response.

SD-342

Veterans' Affairs

To hold hearings to examine S. 977, to amend title 38, United States Code, to provide improved benefits for veterans who are former prisoners of war, S. 1109, to provide veterans with individualized notice about available benefits, to streamline application processes or the benefits, S. 1118, to amend title 38, United States Code, to provide for an increase in the amount of monthly dependency and indemnity compensation payable to surviving spouses by the Secretary of Veterans Affairs, S. 1155, to amend title 38, United States Code, to establish the position of Director of Physician Assistant Services within the office of the Under Secretary of Veterans Affairs for health, S. 1204, to amend the Department of Veterans Affairs Health Care Programs Enhancement Act of 2001 to require the provision of chiropractic care and services to veterans at all Department of Veterans Affairs medical centers, S. 1237, to amend title 38, United States Code, to expand the grant program for homeless veterans with special needs to include male homeless veterans with minor dependents and to establish a grant program for reintegration of homeless women veterans and homeless veterans with children, S. 1302, to provide for the introduction of pay-for-performance compensation mecha-

nisms into contracts of the Department of Veterans Affairs with community-based outpatient clinics for the provisions of health care services, S. 1394, to direct the Secretary of Veterans Affairs to acknowledge the receipt of medical, disability, and pension claims and other communications submitted by claimants, S. 1427, to amend title 38, United States Code, to establish a Hospital Quality Report Card Initiative to report on health care quality in Department of Veterans Affairs Medical Centers, S. 1429, to establish a commission on veterans and members of the Armed Forces with post traumatic stress disorder, traumatic brain injury, or other mental health disorders, to enhance the capacity of mental health care providers to assist such veterans and members, to ensure such veterans are not discriminated against, S. 1444, to amend title 38, United States Code, to clarify the meaning of "combat with the enemy" for purposes of service-connection of disabilities, S. 1467, to amend title 38, United States Code, to provide coverage under Traumatic Service-members' Group Life Insurance for adverse reactions to vaccinations administered by the Department of Defense, S. 1483, to designate the Department of Veterans Affairs outpatient clinic in Alexandria, Minnesota, as the "Max J. Beilke Department of Veterans Affairs Outpatient Clinic", S. 1518, to amend title 38, United States Code, to furnish hospital care, medical services, and nursing home care to veterans who were stationed at Camp Lejeune, North Carolina, while the water was contaminated at Camp Lejeune, S. 1531, to amend title 38, United States Code, to establish within the Department of Veterans Affairs the position of Assistant Secretary for Acquisition, Logistics, and Construction, S. 1547, to amend title 38, United States Code, and the United States Housing Act of 1937 to enhance and expand the assistance provided by the Department of Veterans Affairs and the Department of Housing and Urban Development to homeless veterans and veterans at risk of homelessness, S. 1556, to require the Secretary of Veterans Affairs to permit facilities of the Department of Veterans Affairs to be designated as voter registration agencies, S. 1607, to amend title 38, United States Code, to provide for certain rights and benefits for persons who are absent from positions of employment to receive medical treatment for service-connected disabilities, and S. 1668, to amend title 38, United States Code, to provide for the inclusion of certain active duty service in the reserve components as qualifying service for purposes of Post-9/11 Educational Assistance Program, and any pending calendar business.

SR-418

9:45 a.m.

Energy and Natural Resources

To hold hearings to examine the costs and benefits for energy consumers and energy prices associated with the allocation of greenhouse gas emission allowances.

SD-366

10 a.m.

Health, Education, Labor, and Pensions

Business meeting to consider the nominations of Craig Becker, of Illinois, Mark Gaston Pearce, of New York, and Brian Hayes, of Massachusetts, all to be a Member of the National Labor Relations Board, Rolena Klahn Adorno, of Connecticut, and Marvin Krislov, of Ohio, both to be a Member of the National Council on the Humanities, Gloria Valencia-Weber, of New Mexico, Julie A. Reiskin, of Colorado, Martha L. Minow, of Illinois, John Gerson Levi, of Illinois, and Robert James Grey, Jr., of Virginia, all to be a Member of the Board of Directors of the Legal Services Corporation, and David Morris Michaels, of Maryland, to be Assistant Secretary of Labor for the Occupational Safety and Health Administration.
